Chapter 1871: Chen Shanshan's team formation (First Part)

"UH... "

Chen Shanshan, who was enjoying herself, shivered. Who's talking to me? Is it that guy with the Crimson Wings?

That guy looks like a certain big shot. Why is he talking to me specifically? And why is the voice transmission channel she used in the base?

One of her own?

"Don't look around! "Vera said coldly through voice transmission. "Continue what you're doing and answer me. What happened just now? Didn't you apply for an auxiliary soldier? Why did you suddenly have the authority of a Sergeant?"

"Uh... that... that officer promoted me at the last minute... he said that my performance was excellent and that I was promoted to a sergeant at the last minute..." Chen Shanshan said carefully.

"Yeah..." Vera secretly nodded, just as she had thought, the third elder took a liking to this little guy and asked Helsinki to secretly take him under his command. Then, he would use the planar battlefield to secretly train him and slowly rope him in.

Moreover, the other party was very cautious and only promoted him to a sergeant slightly. It was obvious that he didn't want to attract the attention of others.

As for whether or not his side would be discovered, Vera was not worried because the recruitment process was very simple. It was so simple that it was not easy to reveal any flaws. There would not be any special contact between the players from Earth to this side, at most, soap would go over to the welcoming place and give a few words of advice.

Soap's clone was known as the Minister of the Interior to the outside world. In reality, it was not. It was just an internal affairs assistant that had been assigned to him. A month ago, he had been assigned to the third warehouse to be in charge of guiding the new players, it was not considered to be rashly contacting the players.

Moreover, he believed that no one would suspect that an elf variant would collude with the abyss demon... ..

It should be fine for now...

"Senior..." just as Vera was thinking about something in secret, Chen Shanshan could not help but take the initiative to talk to him.

"That... I... What should I do now?"

“Just do as the other party says! “Vera led his men to patrol the area while secretly replying, “That person will probably transfer you directly to the battlefield under his jurisdiction. I will send you the information when you get there tonight. You should first choose your own auxiliary troops and try to pick a more reliable one... ”

“I. . . I don’t know how to... “Chen Shanshan said a little apprehensively.

Villafa heard a slight pause, secretly glanced at the other side of the perturbed look, the heart inexplicable jump.

I remember a long time ago, when I was first brought to the blood demon army by Saab, when I was a sergeant selecting auxiliary soldiers, I was also this perturbed. After all, before that, I had always been discriminated against in the fallen angel family, one day suddenly let oneself do a group of people’s commander, in the heart of some confused excited, but also some fear that they do not do well, caused Saab to dislike.

“You don’t have to be too good at it. Just try to pick the ones that are pleasing to your eyes...” ” “I remember that there are two people in your group, right?” “If you’re afraid, you can recruit the other companion to be your support soldier so that the two of them can take care of each other. ”

“Yes, yes! “Chen Shanshan nodded repeatedly when she heard that. That was what she thought, but she was too embarrassed to ask if it was possible... ...

“The other support soldiers should try their best to select those that suit your needs. You are a priest, and you are good at providing support and support to melee classes. Try to select as few magic soldiers as possible, and focus more on strength-type warriors. Of course, the necessary scouts and agility soldiers are also needed. ”

“Then there is the race aspect. Try not to select the fallen devil, Black Devil, and Dreadlund, who have violent personalities and strange methods. This is not a game. Although the dark-type abilities are useful, there are many times when there is a backlash. These kinds of soldiers are also easy to abandon you at critical moments and even directly plot against you in the dark. After all, on the battlefield, it is very normal for a soldier to die! ”

“Uhm... “Chen Shanshan’s face twitched when she heard that. Was It really that sinister?

“But... how can I tell someone’s personality? “Chen Shanshan felt very relaxed. She was not a professional HR person and had never studied psychology. It was impossible for her to reject someone who looked a little fierce and accept someone who looked a little kinder, right?

“I can roughly see some things from their abilities... “. ” ...”. Vera pondered for a moment and said, “The demons who came to join the army are mostly mixed breeds. Their genes are messy, so their abilities are mostly related to their acquired personalities. Most of the time, their personalities will activate certain parts of their genes. Therefore, for those with simpler personalities, their innate skills will be simpler and more straightforward. As for those with complex and treacherous skills, their personalities are also more likely to be treacherous and complex. ”

(‘I see! “Chen Shanshan suddenly realized, for this statement she did not doubt, after all, as an elf can understand this kind of thing, the shape of the elves are mostly based on personality shape.

“Be careful out there...” said Vilafa softly, and led a group of officers on their next patrol.

“Thank you senior!” Chen Shanshan voice very solemn thanks, although this senior tone of ice-cold, but she can still feel the kindness of the other side.

“Re-recruitment starts, please petty officer: Sam to select the personnel to be tested!”

After villafa left, not long after, the third warehouse then resumed the test procedure, the test room also prompted Chen Shanshan began to choose the tester.

Chen Shanshan hit a sense of inspiration to look over, only to see the screen instantly show several hundred head.

She quickly clicked on Yang Rui’s profile picture to confirm her choice. After confirming that Yang Rui had been selected for the test, she heaved a sigh of relief and started to look at the profiles of the others.

To be honest, this was her first time interviewing someone. She felt a little excited and was especially serious in her selection.

According to the conditions in the test room, each batch of soldiers had the right to choose. When testing the basic abilities of the soldiers, they could be recruited as their own auxiliary soldiers at any time. If they were not selected, they would be sent to the reserve army, they would wait for the other ncos to go through the second batch of screening.

Chen Shanshan roughly looked at the basic information on it. It was indeed as that senior had said. The auxiliary soldiers who joined the army were mostly mixed breeds. They had all sorts of strange shapes. On the whole, they did not seem to have harmonious feeling a single-colored genetic life.

According to the rules, she was a level one ncos. She could only choose ten auxiliary soldiers. After that, she could choose ten more auxiliary soldiers for every level up until the level five ncos. If her performance was superior., if he had enough battle merits, he could apply for the second lieutenant’s military post.

Ten spots were not a lot. It was similar to the number of task squads he had in the New World. He could use the allocation for reference.

After thinking for a while, Chen Shanshan decided to recruit seven strength-type weapon warriors, two agility-type scouts, and one auxiliary staff who understood herbalism. It would be better if he had some knowledge of alchemy.

The rest of the warlocks did not need to be in a hurry to be rationed.

This was based on her experience in the New World. First of all, no matter what race the warrior was, the weapon warriors were the most stable. This was because their strength had been honed through pure combat techniques, unlike many gifted warriors, their performance was unstable.

For example, the Berserker players in the base, although their explosive power was very strong, they often could not stop fighting and did not listen to commands. They might even hurt their teammates. Some elemental strength warriors were the same. In certain areas., their combat strength would be

very powerful, but sometimes they would not be able to display it. They were not as stable as weapon warriors.

Moreover, that senior had also reminded him to try his best to choose disciples with simple talents. Pure weapon warriors usually did not have complicated talents.

After that, the best scout type would be a stealth type, a ranger type. The stealth type would be used to detect the enemy's situation at certain times, while the ranger type could be used for early warning and environmental detection. These were all essential to an adventurer team, although this was a military battlefield, Chen Shanshan, who had never been to a battlefield before, could only recruit them based on the experience of her adventurer team.

As for why she didn't choose warlocks, it was because many players in the new world had discovered that in most cases, magical-type players had extremely low utility rates. To say that they were useful seemed to be very useful in theory, however, it was actually very difficult to use them well.

After all, it was not some sort of RPG game. A mage could just stand at the back and throw fireballs. In reality, the cooperation between warlocks and teams was quite difficult to manipulate. It was Chen Shanshan's first time on the battlefield, so she felt that it was better to accompany a simple lineup, moreover, the senior had also said that demons with complicated skills also had complicated thoughts. She was a rookie, so the lineup should not be too flashy.

With this thought in mind, Chen Shanshan carefully picked up....

Chapter 1872: Chen Shanshan's team formation (Part Two)

"Your idea is right..."

The person who said this to Chen Shanshan was Yang Rui, who had been selected as the first auxiliary soldier. He was a little speechless after hearing Chen Shanshan's experience.

Just now, the two of them had come to register together. In the end, just because the other party was a girl, he had let her walk in front of him and followed the good morals of a gentleman. What had he missed out on?

In such a short time, the other party had been promoted, and she had even recruited him as her lackey. Just thinking about it was really F * cked up...

"Ahem... do you think so too?" Chen Shanshan could clearly see the speechlessness in the other party's heart, so she quickly changed the topic to the team selection.

"En... "Yang Rui took a deep breath, recovered from his emotions, and analyzed, "We are newbies on the battlefield, so we don't know much about team battles. Under such circumstances, the simpler the lineup, the better."

When the New World was doing missions, it was said to be a team, but in fact, most of them were fighting on their own. Occasionally, when there were missions to kill higher level magical beasts, a bunch of simple and crude weapons and warriors were better than the so-called reasonable formation.

Especially when the team was paired with some warlocks who had learned some special spells. Initially, they thought that the effect would be very good, but in reality, it was useless. Of course, the real situation was that they did not know how to use it yet.

In a place like a battlefield, it sounded like a place with a slim chance of survival. Rather than pulling a lineup that they did not know how to play with, it was better to be simple and crude.

Soon, under Yang Rui's suggestion, Chen Shanshan picked out her own team from this batch of demons who had reported to the army.

Among them, there were seven warriors. Other than Yang Rui, the weapon warrior, there were a total of six... ..

Bohr: Level 5. The race is the demon Ox clan. It belongs to the strongman demon species at the periphery of the eighth layer of the abyss. It is often recruited by high-level demons to be cannon fodder. Its strength index is much higher than other attributes, and its muscles are too tough.., it is not flexible enough. It is good at weapons: long-handled giant axe and shield knife!

Black Tooth: the tooth-hunting demon clan. It is one of the low-level demon species at the periphery of the ninth layer. It is a relatively light-weight warrior. It is good at boning two knives.

Boson: Black Tree Demon, a low-level elemental demon born in the sixth layer of the elemental demon realm. It is a mixed-species demon of the Wood family. Because its body has the genetic characteristics of a magic plant, its recovery ability is very strong. Ordinary wounds can even be healed in an instant, moreover, its consumption is extremely low. It is said that it can rely on the nutrients in its body to not eat or drink for more than three months!

Its weapon is a giant mace, and it is a warrior that is great in strength. However, its agility is very low, and its individual combat ability is at a disadvantage.

Turon: a hybrid demon. He has the genes of Shadow Dreadfiend and hinterland serpent demon in his body. His body is very flexible. He is good at both flexible skills and agility-type dual blades.

Birendore: a low-level earth demon. He is a low-level species of elemental magic rock demons. His body is formed from a variety of soft earth elements. His hardness is comparable to high-level alloy armor, but his joints are not very agile, its agility is even inferior to the tree demon boson, and its weapon of choice is also a relatively simple shield thatch. However, as a defensive warrior, its attributes are more qualified in all aspects.

Naira: a mixed demon. Its body has the genes of the wood spirit demon species, but most of its genes are white demons. Its body size is half human and half deer. In close combat, it can not be compared to a human-shaped demon species, however, her powerful four legs make her waist extremely strong. She is a horse warrior expert. Using the impact of running, she can use her lance very well. Moreover, the force of the vibration is very considerable. She is good at the vibration of the lance, moreover, because she has the bloodline of the wood spirit demon, she can use the demon seeds she prepared to make a

high-quality lance. She basically doesn't need to worry about running out of ammunition. It is a good combination of hands!

Then, there were two auxiliary troops. One of them was called Woking. He was a shadow troll, one of the low-level demons on the sixth layer's periphery. His bones were slender and his muscles looked weak. He was one of the few agile warrior species, he was good at weapons, short-handled flying axes, and machetes. He was good at tracking. Although he looked a little ugly, he was still chosen by Chen Shanshan in the end.

The reason was that the next person who knew about potions was also a troll. He was a biological brother of Woking. His name was Zalazane, and he was an excellent witch doctor.

Actually, Chen Shanshan wanted a medical staff who was proficient in surgery. Unfortunately, surgery was not very popular in the Abyss race. Most of the external injuries relied on self-healing or the mystical herbs of witch doctors.

She had no choice but to follow the local customs!

In the end, she also chose a ranger. It was a black Maozou species. It was said that it was a demon species that had fallen from the black elves. Its scarlet eyes were covered in black fog. The information showed that it was proficient in stealth and was proficient in tracking and vigilance, it was a versatile player.

Although it seemed to be a more sinister type, Chen Shanshan still accepted it.

After all, anyone who was good at stealth would probably have a dark personality. It was unavoidable. It was better to choose an existence that at least seemed to have considerable strength.

However, the data of these demons' performance in the testing room made Yang Rui and Chen Shanshan secretly surprised.

They did not know if it was because they were low-level demons, but their basic performance data were too poor. They were all level 5, but they were worlds apart from the players in the base. They were even worse than the most trashy third-level players.

However, the weapon skills they displayed were not weak. It was obvious that they had been honed through battle.

After choosing her teammates, Chen Shanshan gathered everyone!

The demons who had just been selected could not help but heave a sigh of relief.

The acceptance rate for the first army was very low. The reason was that this place was too stable. The demand for soldiers was far less than other armies. However, the treatment of the soldiers here was stable. It was highly valued by many demons who had been wandering in the wilderness for a long time.

It was naturally happy to be accepted. At the very least, she would not have to live the precarious life she had previously...

Looking at this group of soldiers that she had just recruited, Chen Shanshan was still very excited deep down. After all, she was only a student in the past. The best outcome was to bring a group of students

with her, but now, she was actually able to bring a group of soldiers to war by chance. She felt quite nervous and excited!

With her hands behind her back, she tried her best to act as if she was being lectured by the officers on television, her handsome face was as serious as she could be. "After the selection, you are tentatively selected as my auxiliary soldiers. Go back and get ready. Tomorrow, we will head to the eulogizing battlefield!"

The Battlefield?

All the demons were stunned for a moment, and their expressions immediately became excited. Many demons came to the first Legion to seek a stable job, but the battlefield was obviously not a stable place.

However, this did not affect their excitement. Demons were aggressive to begin with, and they wanted a stable job because they were used to a precarious life of poverty. It did not mean that they did not want to fight, nor did it mean that they did not have ambition!

The battlefield was the place where military merits accumulated the fastest. The military merits of the Bolton faction were transparent, and they were still in the state of expansion. As long as they had enough military merits, they could be promoted to military merits, many mixed demons had become awe-inspiring generals here. If there was a chance, they naturally hoped that they could become like that too!

"We'll set off tomorrow? What battlefield is the eulogizing battlefield?" In the team, the Zuma elf asked with a hoarse voice.

"UH... cough... I'll tell you the details of the battlefield on the road tomorrow.

Now disperse and go back to make preparations. We'll meet at the notified location on Time Tomorrow!"

"Yes, Sir! "A group of demons of all shapes and sizes immediately rubbed their fists and answered excitedly..

Chapter 1873: Battlefield Information...

At night, Chen Shanshan and Yang Rui both moved into their temporary dormitories. As the first Legion of a major faction, the NCO's dormitories were very good even if they were temporary.

The administrative star's grade 4 planet was divided into high-energy zones.

There were single dormitories with sufficient energy crystal supplies. Chen Shanshan, who had come into contact with such a high-energy place for the first time, felt as if she was drinking honey at first, it took her a long time to react!

It was especially so for those high-quality energy crystals. Chen Shanshan spent a week absorbing a fist-sized crystal from a small corner. She felt as if all her meridians were filled with high-quality energy!

This feeling was like being used to eating sweet potatoes and suddenly enjoying a feast. The feeling of luxury filled every cell. It was wonderful to the extreme!

The higher-ups did not lie to us. There was really good treatment here, not being dragged out to be an old black slave...

Looking at the room full of pure energy crystals, she wished she could take them all away. In the Mars base, whether it was the New World or Mars, she had never seen energy crystals of such quality, the Crystals sold in the base were mostly those that were filled with impurities. When she bought one, it was a big piece. After refining, it was only the size of a fingernail. The purity was on a completely different level from the ones in front of her!

However, even if it was a crystal like that, she would feel sorry for buying one for a long time. In the end, she only realized that the crystals that she had spent four to five days of her salary to buy in the past were similar to pig food...

It would be great if she could take all of these things away... ..

However, the military law had mentioned that the energy crystals in the dormitory could only be used for the soldiers' temporary replenishment and could not be taken out of the military dormitory!

This made Chen Shanshan wish that she could spend the entire night absorbing energy... ..

However, she knew that she could not. Firstly, her body could not bear it and she could not digest it. Secondly, she still had to save her energy to read the intelligence regarding the battlefield sent to her by Vera. As a sergeant of a

small team tomorrow., at the very least, she could not go to a new place with a dumbfounded look on her face.

Unfortunately, Yang Rui was an auxiliary soldier, so he couldn't stay in the same dormitory as the sergeant. She couldn't discuss it with him, so she could only read it first...

After calming down the energy that was about to overflow from her body, Chen Shanshan turned on her personal electronic device and searched for the battlefield information that Vera sent her. She began to read it carefully...

The information was very detailed. From the background of the battlefield to the big strategic targets, to the combat missions of different officers, there were detailed explanations. In the end, she even wrote a survival guide for herself!

First was the background of the battlefield. It was said that the northern star system had discovered a new dimensional space six million years ago. It was a space that had been sealed by an evil god from the outer realms and a local god for unknown reasons, the initial estimate was that it was a blueprint for a level-3 planet.

There were a total of twenty great lords participating in this dimensional battlefield, and Bolton was one of them. However, this dimensional battlefield had only just been developed, and the various great lords were still in the exploration stage, they did not dare to rashly invade and cause the slumbering evil gods

or native gods to awaken. They only sent small groups of troops to explore the area tentatively. Currently, the exploration stage was still in the early stages, the various major powers were in conflict with each other, but they had yet to start an all-out War!

The place our army mainly controlled was a place in the northern continent of this dimensional space called the Holy Empire of Olu. This continent also had two other land countries that formed horns with each other, and those two countries were also controlled by the other two deity Overlord forces successively!

The reason why the battlefield was tense now was that the space that had been silent for millions of years suddenly had some turbulence. The evil God forces that were buried in the unknown seal seemed to be recovering. Strange Darkness-type forces appeared in many places, there were also many evil cult organizations that needed a large number of soldiers to investigate and suppress. That was why they increased the recruitment of new recruits!

The general background was described above, and the following was the situation of Chen Shanshan's superiors and the tasks she would directly dispatch.

According to the arrangements, her immediate superior was a lieutenant named mccarr, who was in charge of a 260-man NCO under his command. The area he was in charge of was a small town called Rockin, and there were more than 30 radioactive villages, her mission after arriving was most likely to be to investigate the sampling and dispersing of the evil God's power in one of the villages. She might even bring along some work to disperse the residents, which needed to win the hearts of the people.

As for the degree of danger, it was unknown. According to the preliminary investigation, the evil God's power was still slowly awakening, and the power radiation was only affecting some low-level life forms in the area. The threat it posed seemed to be limited for the time being, however, it did not rule out the possibility of hidden risks!

According to the advice given by Vera, when exploring an area, if you were not confident, try to use auxiliary soldiers to test the area. Do not be too risky and confident, or else you will regret it.

Survival Guide:

The Evil Gods suppressed by the dimension are very powerful, and their power level is unknown. The power they bring upon awakening may cause more and more terrifying creatures to awaken on that continent. Once they discover that they can not deal with the situation, they must immediately retreat!

be wary of all the indigenous people. Evil Gods were good at bewitching, and it was very likely that they had bewitched many believers before they activated their power. Any indigenous people could be hidden believers of evil gods, so be careful of their plots., try not to eat their food and water, and try not to sleep peacefully in their residences. You must leave reliable people to keep watch at night.

The level of the indigenous people tested was relatively low. Most of the life forms born from the third-grade planets that were suppressed were only at level one or two. On average, they were relatively low-grade and harmless, but that did not mean that everyone was like that, it was very likely that there were some hidden existences. If they encountered indigenous people with hidden identities that they were not sure of, they must remember not to probe easily and report to their superiors as much as possible!

There had once been a protracted war between the local indigenous gods and evil gods on this continent. As for the specific situation of the war, there was limited information about what had happened back then. Therefore, if one could find an aborigine who understood the ancient language, they should try their best to protect them, in order to explore the ruins and find out the background of these indigenous gods and evil gods.

Finally, no matter what time it was, you must believe the warning of the genes in your bodies. If you were to encounter a great terror of life and death, your excellent genes would definitely warn you in advance. Do not hesitate at this moment, you Must Trust your own bloodline. If it is that kind of crushing terror, you can choose to learn about yourself in advance so that you won't be unable to be reborn!

This was the only general that could roughly remind you. The officer who promoted you was a lieutenant general of the fallen angels. He was one of the three leaders in charge of this battlefield. He controlled more than half of the military power in this country. In his system.., "I can't give you too much support. You can only rely on yourself, little girl.

Chen Shanshan looked at the last harsh warning. She quietly turned off the electronic screen, closed her eyes, and made a standard priestess' prayer.. She sincerely muttered, "Thank you, Senior!"

Chapter 1874: reporting for duty!

"Reporting, soldier 0721: reporting for duty! !"

In the small town of Rockin, First Lieutenant mccarr welcomed a new cadet sergeant. At this moment, looking at the travel-worn female sergeant, mccarr frowned as he looked at the other party's information.

To be honest, as a newly promoted first lieutenant, he was very lacking in such cadets, especially when the other party's information stated that the class was a priest!

Priests had always been the most popular and scarce class in the universe. That was why they were so rare on the battlefield. With their blessing abilities, they could increase the strength of dozens or even hundreds of people at a high level, moreover, most priests were also good at healing, calming the mind, expelling evil spirits, and purifying the environment. Every ability was very precious on this battlefield that could contend with evil gods, which led to the scarcity of equipment nowadays.

At the very least, there was not a single priest in his current team!

To be able to suddenly assign such a fellow over, he was naturally willing to nurture him. However, the problem was that this fellow's background was not simple at first glance. The color of the feathers on his back and the shape of his face that was on a level more handsome than himself.., one could basically conclude that the other party belonged to a high-class aristocratic family's bloodline.

Most of these children were here to be gilded. If they were nurtured, they would very likely become his superior in a short period of time. This was something that he, an officer who was not from an

aristocratic family, did not like, after all, his current military rank started from a support soldier. He earned it step by step. An officer like him, who was promoted from the bottom, did not like people like Chen Shanshan who used the back door.

Taking a deep breath, Mccarr said calmly, "Report to the domain soldiers that you are good at!"

"Yes, Sir!" Chen Shanshan quickly saluted and reported, "Reporting to sir, I am an elemental priest. I specialize in water and wind elements. I am better at healing, purifying, and enhancing the water element. I am also good at enhancing the wind element and enchanting skills... ". . .

A priest who was proficient in purification...

Mccarr's heart became even more complicated. This was indeed the type of priest that his team wanted the most at the moment. Many villages had discovered the infection of the evil God's power. Not only the local residents, but many demon soldiers had also been infected, once the officer was infected, he would have to rush to the city center to ask the priest there for purification treatment. This would greatly affect the efficiency of the current mission. If he could have a priest who was proficient in purification, everything would be much better.

In addition, the other party's attitude was not bad. He was not as arrogant as the descendants of the traditional aristocratic families. This made the mixed demon officer's expression soften a lot.

"Mm, very good!" Mccarr nodded. "How about this, you take your auxiliary soldiers and rest for a while. I will ask the quartermaster to give you basic supplies. Then, we will set off early in the morning. Be sure to rush to Kadar village before nightfall to support the level five NCO Senjin there!"

"Yes, Sir!" Chen Shanshan first saluted and agreed. Then, she asked in a low voice, "About the situation over there..."

Yes... She was young, but she had a cautious character. Not bad. .

Mccarr secretly praised her and said without changing his expression, "You take the soldiers and rest first. The intelligence quartermaster will give you the supplies when the village is distributed. You can leave now..."

After the other party left, a Dromah elf covered in black fog walked out from a dark corner. His scarlet eyes looked in the direction where Chen Shanshan had left. "You really take good care of this newcomer..."

Mccarr had sent Chen Shanshan to support an experienced veteran who had been promoted from the bottom level with Mccarr. After a while, he would be able to report to the military academy and become a captain when he came back, he belonged to the very experienced type of NCOs.

This kind of mission was also a support mission. It was no different from mixing military merits.

"There's no other way..." Mccarr smiled bitterly. "I don't like these purebred fallen angels either, but I'm short of priests here. I have to train her quickly."

"Even if I train her, she won't be of use to you. She'll jump onto your head very soon!" The Dromah Elf said grimly.

Mykel smiled indifferently and said, "So what? It will still be used by me in a short time, right? There are more and more infections in the surroundings now. How can I play without a priest who can purify it?"

"The higher-ups sent people here because they predicted you," the Zuma Elf said coldly.

"That's their business!" Mykel waved his hand carelessly. "As long as I care about myself, this mission will go smoothly. With a priest, many brothers will die less, and I can be more efficient in the mission. I can also accumulate military merits quickly. There's nothing wrong with this kind of mutual benefit."

"Good-for-nothing..." Dromah elf a short evaluation, and then back to the shadow.

Mccarr smiled wryly at this comment from his old friend. Of all the brothers who had come together, this guy was the last one he dared to let go of independence. It was also because he thought too much.

Ambitious also have to see their own ability ah, dromah fairy comprehensive quality is good, but this is not good...

Led by the quartermaster, Chen Shanshan and her group soon arrived at the temporary camp. In order to prevent some of the cultists who might be hiding in the town, the army was still stationed outside in relatively simple conditions, it's nothing compared to the conditions on Bolton's home planet.

Fortunately, the supplies were sufficient. Chen Shanshan received dozens of pure energy crystals at the first opportunity, as well as a series of high-quality sealed foods, all kept fresh in high-quality refrigerated boxes, there were also some temporary energy potions, Spirit Potions, and external injuries medicine.

The supplies were complete. It had to be said that the 1st Legion had done a very mature job in terms of logistics supplies. Most of the soldiers did not have any worries during their expeditions.

Chen Shanshan directly gave each of them an energy crystal. Then, she took out a large amount of high-quality meat as her first comfort meal, so that everyone who had traveled all the way here could eat their fill.

A few auxiliary soldiers who were chewing on high-grade meat and military rations sat on the ground with their legs crossed. The way they looked at Chen Shanshan was much gentler.

Although this was also their first time joining the army, before they came, they had heard some of their comrades who had joined the army talk about their own situation. If they met a sergeant from the fallen angel department, then most of the auxiliary soldiers would probably not have a good time, there were cases of resources being deducted, battle achievements being deducted, and even supplies being deducted.

These noble children had always looked down on these low-level demons in the wild. They were unscrupulous in withholding them. Even if their subordinates caused trouble, the higher-ups would still favor the fallen angel faction. Therefore, once they were placed in the hands of the fallen angel commander., they could only admit their bad luck.

But now, it seemed that the attitude of this female officer was not bad. She did not put on airs and was very generous in distributing supplies. As soon as she came, she gave one of these high-purity energy crystals to each person., she did not plan to keep the high-grade meat for herself.

After all, it might be difficult to continue supplying such meat during the mission period. Many military officers would first keep it for themselves to ensure their own nutrition and only distribute some grain food to their subordinates.

Chen Shanshan did not feel that there was anything wrong with her behavior. In her worldview, these things were not shared equally. Why should she listen to you? After she took a bite of the meat, she said softly, "We have to set off early tomorrow morning. Everyone will have to work hard later. Let's first gather some information about the mission before we go to rest." "Yes, Sir!" Everyone replied hurriedly while chewing on the meat..

Chapter 1875: Strange Village (Part One)

In order to save time, everyone read the information while eating their food.

The village they were heading to was called Kadar village, which was about 100 kilometers away from here!

It had to be said that the distance between the villages and towns on this continent was quite exaggerated. On Planet D, the distance between the villages and towns was 20 kilometers, which was considered quite far.

Moreover, this continent seemed to have some kind of law that restricted machinery-related technology and objects. Many equipment could not operate here, and there were also restrictions on advanced alchemy equipment, including the strongest biological weapons of the Bolton faction, for the time being, they could only rely on primitive forces to explore.

This led to them having to go to Kadar village on foot. Moreover, in order to maintain their physical strength, they could not travel at full speed. It would be a little troublesome if they wanted to reach a hundred kilometers in one or two days... ..

Chen Shanshan had solved this problem. She had the wind element affinity, so she could perform the blessing of the wind. This would make everyone's footsteps lighter, and the energy consumption of walking would also be reduced, however, if they continued to maintain it, it would consume a lot of their spiritual energy. They would need to prepare more spiritual medicine.

Next was the basic situation of the village.

According to the intelligence, Kadar village was a large village with 2,000 local villagers. Moreover, as it was located at the border with the Yodel Empire, many merchants would pass by, making it very lively.

Such a geographical location would bear the brunt during times of war, and it was very likely to be the first place to be plundered. However, if it was during peacetime, the special geographical location of this village would allow the village to form a relatively prosperous scene.

After all, there were a lot of people passing by, which resulted in a lot of business here. This also made the trade here better. There were restaurants, hotels, grocery stores, and stores selling supplies in the

village. It was not smaller than a town, moreover, it was said that someone in the village had built a large cathedral to worship a local God.

This cathedral was the mission of the last sergeant stationed there. Because some soldiers who had recently stayed behind reported that a mysterious magnetic field had begun to appear in the cathedral, Sergeant Senjin was sent there with fifty auxiliary soldiers to investigate.

It was said that the senior sergeant had only left for the second day and might have just arrived. Therefore, other information regarding this mission had stopped here!

“Sergeant Senjin?” In the team, the Dromah Elf swallowed the meat in his mouth, after taking another sip of the soup, he said, “By the way, our superior’s first lieutenant is called mccarr, right? You should have seen him today, sir. Is he a Half-fallen Angel Hybrid?”

“Oh?” Chen Shanshan Shanshan and Yang Rui were stunned. They looked at the Silent Dromah elf and asked, “Do you know him?”

“Not really...” the elf looked at the soup in the bowl, with a complicated look in his eyes, he said, “I have a biological sister who joined the Army before me. It is said that she is doing well and is about to be sent to the military academy. It seems that she is working with a lieutenant named mccarr, and that guy named Senkin is a teammate that my sister used to know. When I was young, I came to visit me...”

“Oh? There is such a relationship?” Chen Shanshan suddenly smiled: “This is a good thing...”

“This is not a good thing...” the elf looked up at each other: “My sister and mother were killed by my sister...”

Chen Shanshan. ” ... ”

It’s That doesn’t seem like such a good thing...

(“I don’t mean anything by that...” the elf sighed and put down the bowl. “I don’t know if it’s a coincidence that we were assigned to her. Maybe it should be a coincidence. After all, her military rank shouldn’t be strong enough to assign me directly, so it should be an accident. But even so, I still have to remind you...” . that sister of mine is very dangerous. Sir, you have to be careful!”

“Uh...” Chen Shanshan and Yang Rui looked at each other. It was really rare to encounter such a thing as soon as they arrived. They wanted to ask the other party why her sister would do such a thing, but it was not appropriate to ask.

After thinking for a long time, they could only say in a deep voice, “Have you seen that Sergeant Senjin? What kind of person is he?”

“He’s a golem with rich combat experience...” the elf said in a low voice, “He’s brave in battle and doesn’t have many thoughts, so my sister used to hold him down.”

“Is that so?” Yang Rui’s eyes flashed with a hint of doubt.

Brave in battle and doesn’t have many thoughts, so he should be the type of warrior with a more carefree personality. But why would such a person be assigned to a detection mission?

He did not believe that the first lieutenant did not know the situation. As he had said earlier, this group of people had known each other before joining the army and were very familiar with each other. How could they not know what each other's personalities were suitable for?

Could it be that the guy called Senjin had a very meticulous mind among the auxiliary soldiers in his team?

If that was the case, it would make sense, but...

"In theory, these officers shouldn't be paying attention to us new auxiliary soldiers... <per_0> . "And I have changed my name, sister probably won't recognize me, probably there won't be any conspiracy, asking you to assist Senkin, it should be to help you... <per_0> . ."

These words let Yang Rui and Chen Shan Shan odd each other looked at one another, sent a new person to his familiar old man under the hand, that is, of course, the meaning of the lift.

I hope... Like this guy said, it was an accident... ..

The next morning, Chen Shanshan according to the map, led the masses set out, as the first battlefield mission, she was still very excited, the result of a little heavy eye, apparently did not sleep well.

Yang Rui, on the other hand, appeared to be in high spirits. As a criminal detective, he had experienced far more scenes than Chen Shanshan, and his psychology was much more mature. At least, he would not delay his sleep because of excitement, after all, people like him often stayed up late and could not rest normally, so he knew how to cherish his rest time.

Moreover, he had to maintain his energy. Yesterday's information had made him sense that something was wrong, and he had an inexplicable sense of unease about this mission.

In the team, that Zuma Elf had always buried her face in her hood, so no one could see her emotions. However, Yang Rui could clearly feel that she was more alert than usual today.

Obviously, she also felt that something was not right.

This uneasy feeling was quickly fulfilled...

"What did you say? Sergeant Senjin has never been here before?"

The words of the guard at the village entrance shocked Chen Shanshan, who had just arrived!

The group of support soldiers behind them were also stunned. Only Yang Rui and that Zuma elf looked at each other, and they could see the wariness in each other's eyes!

Something was wrong!

With the support of Chen Shanshan 's wind element, although they had arrived at the village before nightfall, it should not be said that Senjin was slower than them. Even if Senjin had not received such an order to arrive before nightfall., it should not have taken them three days to arrive here, right?

Moreover, the journey was not complicated. An official road directly led them to the village entrance. They did not really need a map. Even if the other party walked slowly, the two teams should not have missed it!

"It's Alright... "Yang Rui smiled and said, "We are soldiers to begin with. We are used to it. We will not go in tonight. where is the soldier who reported the situation? call him out, we have something to ask him."
"

"Sir, are you talking about Sir Jerry?" The old woman smiled and said, "He is not in the village. It is said that he went to meet the superior who came to investigate. Didn't he meet you?"

("I see... "Yang Rui smiled and said, "Okay, we understand. We will be stationed at a place not far from here. Please do not come close to our tent during the night. Otherwise, the soldiers on night watch might hurt you..."

These words made the expression of the old woman and the villagers behind her change... .

"This... Alright... "the old woman immediately smiled and said, "Since the officers have made this decision, I have no other choice. If you have any instructions, just inform the guards at the entrance of the village. "

"En... "Yang Rui nodded slightly. His expression became a little cold, as if he did not want to continue speaking. The old woman, the village chief, also seemed to have sensed it and quickly bowed and took her leave.

Just like that, the group of people directly turned around and left the village entrance. They found a mountain corner and set up a tent.

("I say... Brother Rui, why are you stopping us from entering the village? "Chen Shanshan could not help but send a voice transmission.

"I'm not stopping you, Pm stopping you! "Yang Rui smiled and replied, "Don't you realize that almost no one in your team wants to enter the village?" "Did I?"Chen Shanshan stared at him. Why didn't she feel anything?

Looking at Yang Rui's speechless expression, Chen Shanshan immediately lowered her head in embarrassment and coughed lightly, "Why?"

"Because there's a problem..."

"Is it the problem that the Sergeant Senjin hasn't arrived at the village? "Chen Shanshan touched her chin, "This is indeed a little strange, but it could also be because he was delayed outside. Just because he didn't even enter the village, isn't that a little exaggerated?"

"It's not just that problem... "Yang Rui sighed. "Didn't you realize that there was a problem with the timing of the old lady's appearance?"

Seeing that Chen Shanshan was still in a daze, Yang Rui couldn't help but want to knock her head. However, the soldiers were not far away, so this action was not very good, therefore, he patiently said, "We just arrived, and in less than two minutes, the old lady appeared..."

"Didn't she say so? She's the village chief. Since we're here, she should naturally come over to welcome us... "as he said this, he suddenly froze. Clearly, he realized that something was wrong!

That old Granny had arrived too quickly. Although she did not enter the village, she could see from her outstanding vision that the village was not small. It was almost equivalent to a small town., the old woman looked like she was trembling and even needed someone to support her on the road. Even if someone reported it, she should not have arrived so quickly, right?

Unless it was someone who had been guarding the door from the beginning. However, even if such a weak old man knew that there were soldiers coming from above, he would not have been guarding the door all the time... ..

Combined with Sergeant Senjin and the others disappearing for no reason... ..

There was clearly something wrong with this village!

A few minutes later, in the tent that had been set up, a group of people gathered together and began to discuss what had happened today.

“You’ve all seen the situation. There’s obviously something wrong with that village...” Chen Shanshan pretended to be deep in thought.

The group that was gathered in a circle clearly looked at Chen Shanshan with a strange expression.

“Why are you all looking at me like that?” Chen Shanshan could not help but ask.

“I thought you didn’t see it, Captain...” in the team, demon ox warrior Bohr scratched his head and looked at Chen Shanshan innocently. Chen Shanshan looked at him and was silent for two seconds...

so... .. Even this big fool could see that something was wrong?

“How could the commander not see it?” Yang Rui said seriously, “He spoke gently to that old man just because of the basic etiquette of respecting the elders. ”

“Respecting the elderly? “The demons were even more confused, especially the Dromah elf. She glanced at him faintly. “Sir is indeed very young, but there’s no need to respect the elderly, right? who here isn’t older than that village chief?

“UH... “these words made Yang Rui and Chen Shanshan choke for a moment. After thinking carefully, these words were indeed correct. After all, in terms of age, most of the people here were over ninety years old.

“Ahem... Let’s talk about what we should do next...”

While Chen Shanshan and the others were discussing countermeasures in the tent, no one noticed that not far away from the tent, a group of figures in gray cloaks were looking into the tent.

“Captain... This should be a low-level soldier of a deity faction. Should we capture him and ask him?”

In the team, a delicate-looking woman asked. The woman had a pair of eerie green eyes. She was obviously an authentic undead.

“This... There’s no need for that for the time being...” the person who was called captain sat on a tree trunk. She dragged her chin and looked into the tent with a smile.

In the dark night, her eyes were also green, but they were full of vitality.. She was a wood elf!

Chapter 1877: Strange Events -Partpone one)

“There is definitely something wrong with the village. Moreover, the level five NCO Senjin that we are going to support is most likely missing because of them! “Yang Rui made this judgment.

“But our mission is to support Officer Senjin. We can’t possibly go back just because we haven’t found him, right? “Chen Shanshan frowned and said.

Even if they knew they should be more cautious, if they heard that they didn’t even enter the village and backed out because they were a little suspicious, they would probably be punished.

The other soldiers also nodded. If they went back without any results, it would be a huge loss of face if they made a mistake. Even if their suspicions were correct, if they didn’t bring back any information, their superiors would probably think that they were incompetent.

It was a rare opportunity to enter a new battlefield. It was rare for new soldiers to come here. After all, in the first legion, most of the tasks were to be the armed guards of the local planets. This kind of work.., after working for decades, they probably would not even have the chance to be promoted. Many of the demons who came with them to register were envious of their luck. They did not want to be transferred back so shamefully.

“This... “Yang Rui frowned when he heard that. Chen Shanshan’s words weren’t a problem, but... .

“How about this, send someone back to report the current situation to the boss. Ask for instructions on the next step. We’ll go into the village tomorrow during the day to take a look. What do you think?”

There weren’t many reports about the village’s abnormality in the intelligence report before, but Yang Rui remembered one. The report said that the village would experience abnormal magnetic fluctuations at night. During the day, the magnetic fluctuations would disappear without a trace. In other words, during the day... ... The village should be relatively safer.

“Alright! “Chen Shanshan nodded. “Then let’s decide who will report the news first... ”

As she spoke, she glanced at the others. First, she glanced at Zuma the elf who was standing in the shadows. After hesitating for a few seconds, she finally averted her gaze. Ah Ling was a cautious and smart person, a mission like going back alone to report the situation was originally very suitable for her. However, she had mentioned that it was very likely that her sister would be by the side of that officer. It would be very troublesome. This kind of request for reinforcements was most likely to be tampered with by the higher-ups in the rear, there was not much need for such trouble.

After thinking for a while, she looked at another agility-type warrior, blacktooth, and said, “Make a trip. Make sure to explain the situation clearly to the higher-ups. Don’t say too much. If the higher-ups agree to come to help, send a signal to me! ”

“Okay!” Blacktooth nodded. This kind of mission to turn around and ask for help was obviously safer than entering the village, so he readily agreed.

Chen Shanshan directly gave him some energy water and food, and then drew a spiritual mark on his arm. As long as the other party let another spirit-type person activate it, she would be able to sense it.

Nowadays, all modern equipment could not be used, so they could only use this method to send messages.

After black tooth received the items, he did not hesitate and left the tent.

The others sat down with their legs crossed.

“Let’s discuss how to get in Tomorrow?” Chen Shanshan sat down and looked at Ah Ling.

“The information is unclear...” Ah Ling shook his head. “We can only try our best to stay alert and adapt to the situation.”

“Then let’s maintain our strength and sleep first!” Chen Shanshan stretched. She had wanted to sleep for a long time, and she was the one who had exhausted the most today!

“I’ll watch the night...” Yang Rui said in a low voice, “Both of you rest. Ah Ling, you’ll take over the shift in the second half of the night.”

Ah Ling glanced at the two of them and nodded slightly. However, the pair of scarlet eyes under the black hood were a little complicated.

These two fallen angels were really interesting. Not only were their attitudes completely different from the arrogant angels they had met in the past, but they also seemed to have a lot of trust in her, the Zuma elf.

You know, in the abyss, very few people will trust the Dromah Elves, after all,

Dromah Elves in the Abyss is not a good reputation, known for their cunning... .

It was weirder than I thought, and it happened the next day at first light! “Are you the priest who was sent to assist us?”

Outside the tent, Chen Shanshan, who had received the news, immediately ran over with a look of bafflement on her face. Ah Ling and Yang Rui, who were following behind her, felt that it was extremely strange.

Because the person who asked this question was the level-five sergeant that they had come to support!

He was wearing a dark gray heavy armor and was tall and burly. He looked bigger than the Green Titan in the base, and his muscles bulged like a small mountain!

Both his body size and appearance were exactly the same as in the picture.

“Eh? What’s wrong with the girl? Can’t You Say Hello?” The tall hybrid demon grinned hideously.

“Yes!” Chen Shanshan quivered, and then she quickly saluted, “First Class Sergeant Chen Shanshan, reporting for duty!”

“You ‘re very energetic, little guy hahahaha! “Sen Jin revealed his white fangs and laughed even more ferociously. His arm, which was bigger than half of

Chen Shanshan’s body, patted Chen Shanshan’s shoulder, he almost slapped Chen Shanshan to the ground.

The group of teammates behind them were full of smiles. They looked at Chen Shanshan and her group of little guys with very kind eyes, just like a wolf looking at a little lamb.

“Sir, may I ask where you’re from?” Chen Shanshan asked somewhat helplessly after she steadied herself.

She found that this officer was very similar to her former military training instructor. He also liked to use his big hand to slap them, but this hand was much bigger.

“Your question is... “sen Jin smiled and said, “Of course it’s from Rokkin Town.

Where else could it be from?”

“But sir, why are you behind us?”

“Well... “sen Jin waved his hand carelessly. “I encountered something on the way and was delayed for a while. You Don’t have to worry about it...”

Chen Shanshan immediately frowned and was about to open her mouth to ask again, but Yang Rui secretly tugged at her and she immediately shut her mouth.

In fact, she wanted to ask. There was only one main road on the road. Even if she was delayed by something, she should not miss them... .

“Let’s go, don’t waste time! “Sen Jin yawned, turned around and stretched. “Let’s enter the village first. I’ve been exhausted after walking for the whole night. I need to enter the village to have a good meal and get some rest...” Walk for the whole night?

Chen Shanshan was even more puzzled. After glancing at Yang Rui, the two of them turned their gaze to Ah Ling beside them.

Clearly, they wanted to ask if the other party was Sen Jin.

Ah Ling hesitated for a moment before finally nodding.

His appearance and voice were exactly the same, and his movements were slightly different from before. However, he had not seen the other party for decades, so it was normal for the other party’s habits to change.

Just like that, the group of people followed Officer Sen Jin and his men to the village entrance again.

When they reached the village entrance, the two guards were obviously stunned. They looked at Sen Jin in shock.

This expression made Yang Rui and Ah Ling’s eyes shine.

There was indeed a problem...

That Guard was lying. He said that no soldiers had come before, and his words were like Sen Jin had never been to their village. However, his expression was clearly not like this. The two of them clearly recognized Sen Jin, moreover, from his stunned and somewhat horrified expression, Sen Jin's appearance seemed to be very unexpected.

"Interesting... "Yang Rui touched his chin and muttered softly....

Chapter 1878: What on Earth... .. What was going on?

Just like the last time, in less than two minutes, the old woman's village, which seemed to be on the verge of collapsing, appeared at the main entrance once again. The old man was as thin as a ghost, and his turbid yellow eyes were under the clear sky and Bright Sun, it made people's hearts inexplicably tremble.

"Yo! "Sen Jin looked at the old man, revealing a huge and pure white teeth. He opened his bloody mouth like a wild beast, but he smiled with incomparable sunshine. "The old man's body is not bad. You are in position so quickly!

The old woman raised her head to look at Sen Jin, and her turbid yellow pupils suddenly shrank. Just like the two guards, they showed a shocked expression!

"You... you..."

"Oh?" Sen Jin continued to look at the other party with a smile that was both ferocious and Frank. He chuckled and said, "The old lady has seen me before?"

"Oh... "the old man's shocked expression calmed down when he heard that. After that, he forced a smile on his face and said, "The old lady is just surprised. Why would a tall and mighty general like you come to a small place like ours?"

"Hahahaha! "Senjin laughed so hard that Chen Shanshan, who was behind him, felt a burst of pain in her eardrums. She could not help but cover her ears.

"This old man really knows how to Talk! "Senjin's huge palm could not help but slap the old man. Seeing that he was about to press the old man to the ground, he finally felt that it was not appropriate. The huge palm paused for a moment and then retracted, he held his head in embarrassment and laughed foolishly.

However, even if the palm did not touch him, the wind created by the huge palm made the old man stagger. If it was not for the support of the people beside him, this old man might have fallen down! Chen Shanshan was speechless when she saw this...

This Shangguan seemed to be a fool...

"Let's go in first, this Lord is hungry! "Sen Jin grinned and said, "I'm a little hungry!"

As he said that, he licked his sharp teeth, emitting the hungry aura of a wild beast, which made people's hearts sink!

"Good, good, good! "The old village chief hurriedly nodded and said, "This way please, my Lord, I have prepared good hot food for you!"

"Oh, hahaha, good, good, good, good, then let's Go! "Sen Jin rubbed his huge palms, looking very excited.

Just like that, under the lead of the village chief, Sen Jin was the first to step into the village entrance!

The group of soldiers behind Sen Jin also followed behind him without hesitation. Their expressions were very natural. Only Chen Shanshan and her group looked at the simple fence wall, looking somewhat hesitant...

"Was he like this before?"

Yang Rui suddenly opened his mouth to ask.

He asked the Zuma Elf, Ah Ling, who had always liked to stand beside him.

"Yes..." Ah Ling nodded. "His tone and manner are exactly the same, and his style of speaking is the same. Even his habit of slapping everyone with his huge palm..."

"Is that Rui touched it and thought quickly. Although he felt that something was not right, he could not find a breakthrough for the time being.

Looking at the village guards who were pretending to be serious, Yang Rui finally said, "Let's Go..."

"Really?" Chen Shanshan was stunned.

"What can we do if we don't Leave? "Yang Rui rolled his eyes. "We can't just act recklessly if we feel that something is wrong, right?"

In movies, many people would dare to directly attack their family members if there was something wrong with a detail. Every time they guessed something dramatic, it would be the villain in disguise. However, that was still a movie. Who would dare to do that in real life?

Just like that, a group of people followed in with vigilance.

After the group of people entered, the two village guards began to discuss carefully.

"What's going on?" One of them said, "Didn't that big guy go to the church with his soldiers yesterday?"

"Yeah, he clearly went in, he clearly..." "

"Oh, Haha, your culinary skills here are really good!"

In the village, a group of people were led by the village to a place that was similar to a tavern. The venue of the tavern was very large, but there were not many people in it. It seemed a little desolate, and the group of soldiers instantly increased the popularity of the place.

Soon, the entire tavern was filled with the aroma of wine and meat.

The group of people shared a table and surrounded themselves. The dishes were very rich and heavy, and most of them were roasted and cooked. The fragrance of various kinds of animal meat that Chen Shanshan did not know permeated the air, the fragrance of meat with various unknown spices was extremely alluring.

The food cooked was a little like a hodgepodge. A large number of unknown vegetables and tubers were served with a sumptuous meat dish. The entire soup was thick and mellow. Even if it was not a very high-grade food, it was still very appetizing, the group of demons behind Chen Shanshan could not help but lick their lips.

Chen Shanshan also swallowed her saliva secretly. Then, she stared blankly at Shangguan who was already eating heartily.

His eating style was very in line with his rough appearance. The most important thing was that he really ate in such a carefree manner!

He did not seem to be worried about the food at all. Was this really an experienced veteran?

The soldiers behind him ate more elegantly, but they did not seem to be worried about the food at all.

There were two waves of people. One wave was hospitable, and the other wave was hospitable. If the strange situation at the beginning was excluded, it was as if the guests were enjoying themselves. Chen Shanshan felt that she was overthinking it? Actually, there was nothing wrong with it?

“By the way... about the church, village chief, can you tell us about it?” Yang Rui suddenly asked.

As soon as he said this, the scene immediately quieted down. Apart from the old woman who was looking at Yang Rui faintly, even Sen Jin who was stuffing meat into his mouth just now was staring at him!

This sudden scene made Chen Shanshan and Yang Rui’s goosebumps stand on end. If it wasn’t for the fact that their rationality was suppressed, they would probably have acted out of reflex!

“Hahahaha! “After a few seconds of strange silence, Sen Jin laughed again. “Not bad, young man. To think that you can actually talk about you. This is the first time among the fallen angels that I’ve seen such a polite little guy like you!

Yang Rui and Chen Shanshan were stunned for a moment before they suddenly realized what was going on.

According to the race notification, the fallen angels were a very proud race. No Wonder Ling and his teammates looked at them strangely in the beginning. Were they too modest?

“The Church? “The old woman’s hoarse voice sounded faintly as she looked out of the window.

Clang!

As if she had really entered the storyline switch, a dull bell chime sounded from afar along with the old woman’s voice.

Chen Shanshan and the others’ expressions instantly changed!

When they arrived, they saw the tallest and largest building in the village, as well as the huge bronze bell on the building!

Just as they were talking about the church, the church bell rang. Could it be that she had turned on some terrifying switch?

Chen Shanshan thought speechlessly in her heart.

“Huh?” Senjin, who was opposite them, suddenly put down the meat steak in his hand. He looked at the old man with a faint smile and said, “What’s the situation? Didn’t they say that the people in the church have dispersed? Why did the bell ring?”

The old woman’s originally gloomy expression froze!

She wasn’t stumped by the other party’s question, but this question... ” It was too familiar!

This line, the action of putting down the steak, this expression, and the position of the seat were exactly the same as yesterday!

If it wasn’t for Chen Shanshan and the other New Kids here, she would have thought that the time had reset!

Lord...

The old man stared blankly at Sen Jin, his turbid eyes filled with shock and doubt...

What the hell...

What was going on?

Chapter 1879: Problems? Who doesn’t have them?

The story of the church sounded a little suspicious...

According to the old village chief who had a lot of problems, the strange thing mainly happened a month ago.

The first one who went missing was Peter, a silk merchant who had been passing by here for many years. Peter was a very well-known merchant. He would always sponsor the children here to learn divine runes and arithmetic. He was also the one who sponsored the orphanage in the church, Peter was a great benefactor.

At the beginning of last month, this great benefactor came again with a large amount of goods and rested in the village. The lord of this area had even sent a grand knight to escort him.

Peter would bring quite a lot of gifts to the children every year when he passed by here. Clothes, toys, books, and even beautiful swords and armor would be brought to some children who wanted to become knights.

However, on that night, the church bell rang for no reason.

At that time, a lot of people were alarmed. After all, it was time to sleep late. If one didn't know better, they would have thought that bandits had come to the village. However, when they gathered, there was nothing outside the village. Everyone went to the church in shock and doubt. In the end, they found that inside the church... The priest stationed there, the children of the orphanage, and the great benefactor Peter had all disappeared...

The disappearance of nearly a hundred people had caused quite a stir. The next day, the village chief sent someone to report the matter to the higher-ups.

A few days later, the higher-ups first sent a few samurai warriors to guard the church. After these strange-looking samurai warriors were measured and found that there was something wrong with the church's magnetic field, they sent someone to continue reporting the matter to the higher-ups.

However, the next day, these soldiers also disappeared...

And then...

The village chief looked at Senjin, the sergeant who was eating with relish as he listened. He said faintly, "And then it's like this..."

"Oh... "Senjin heard him and wiped the gravy on his mouth. He frowned and said, "It sounds quite strange..."

The village chief and the chef beside him looked at him silently.

Yang Rui asked about other details, such as the history of the church.

The information only vaguely said that the church worshiped an indigenous God. Now that a magnetic field and strange events had appeared, it was very likely that some existence had awakened. They could not rule out the possibility that the indigenous God had awakened... „

After all, the level of this continent was not low. The reason why the level of the living beings was low was because they had once resisted the evil gods of the outer realms, causing most of the indigenous gods on this planet to draw too much energy, temporarily causing the world to enter a state of rest.

In the words of the novel, it was the so-called age of Chaos!

According to the village chief's mother-in-law, the church worshipped a god called Euler, which represented harvest and hope. The shape was very similar to the drawings of the indigenous gods of the universe. It was a huge divine tree., according to legends, Euler was the mother of all life in the world, the ancestor of all living things. It nourished the entire earth, absorbed the turbid air of chaos, and breathed out clear spirits. It allowed the world to travel and have clarity, so that there was a space for all living things to breathe, only then was there a space for all living things to Live!

This was very similar to the totems of the indigenous gods on many planets. Yang Rui had read about the knowledge of the local indigenous gods. On 80% of the indigenous planets, the gods that created life were the totems of the big trees, they also symbolized life, creation, and other divinity.

This type of God generally had the best reputation. Compared to the gods that represented thunder or other natural forces, they were usually depicted with the titles of hope, life, and kindness. They gave people the impression that they were the gentlest and most harmless gods.

In reality, this was not the case. In fact, many times in the universe, it was the living beings that adapted to the environment, and not the environment that voluntarily provided the living beings with space...

The so-called clear spirit referred to oxygen. However, most of the planets could still have life when they were initially in an oxygen-free state. Furthermore, there was no existence of oxidation. In fact, they even had a long lifespan and could theoretically achieve eternal life.

Federal science also stated that oxidation was the control of life in the entire universe. The indigenous gods were born with the will of the universe, and most of them were accomplices. They were almost not the kind existences in the myths, in fact, most of the indigenous gods were not kind. They were existences that treated everything like dogs, and the gods that created oxygen were the first to bear the Brunt!

In fact, the tree-shaped gods of life on planets were often the most dangerous. They were the Guardians of nature, not the Guardians of life. Many times, the slaughtering ability of these gods..., was often the most shocking!

After Yang Rui asked about the type of gods worshipped by the church, he wanted to leave the village even more.

“Senior...” Chen Shanshan smiled at Sen Jin and said, “What do we do next? Call for backup?”

“Call for backup?” Sen Jin frowned and looked at the other party. “Call for what backup? “You haven’t even started anything yet and you’re already calling for backup. Young man, it’s good to be cautious, but being too cautious means being afraid of trouble. This is not the attitude of a soldier!”

Senior... you’re right...”

“En...” Senjin nodded in satisfaction. “That’s right, I... Cough, I think highly of you. Our army is very short of priests. Work hard, I’ll take care of you!”

“Haha... Thank You, Senior!” Chen Shanshan immediately laughed happily.

This smile wasn’t against her heart. For some reason, she felt that this uncle in front of her was very friendly. Although he seemed to appear a little strange, it didn’t scare her at all.

Yang Rui secretly observed sen Jin and became more cautious. This burly man gave him the feeling that he was not reliable. There was a high probability that there was something wrong with him. However, for the time being, it seemed that he was not on the same side as these guys in the village chief... .

Shaking his head, he looked at the strange village chief again. “You said that the church always rings the bell at night. Why is it ringing during the day

"I don't know... "this time, the village chief looked a little confused. "Since the accident, it's been ringing the bell every night. Then, something strange happens. The bell rings during the day. This is the first time I've seen it.

"I see... "Yang Rui looked at the church outside again and then looked at Sen Jin. Could this unusual situation be because of him?

"Alright, get ready to set off after you're full!" Sen Jin grinned and looked outside. "They have already taken the initiative to welcome us. We can't just stay outside and cower, can we?"

These words made the eyes of the village chief become even gloomier. He directly stood up and said, "This old woman wishes you a safe journey. I'll take my leave first. I'll instruct someone to lead the way for you..."

"Mm, go, go..." Sen Jin waved his hand carelessly, as if he did not care about the other party's obviously strange expression.

Sir... "Yang Rui finally could not hold it in anymore. After the village chief left, he said to Sen Jin, "There should be problems with this village and these villagers.

"Problems?" Sen Jin picked up the plate carelessly and licked the remaining gravy. "You say that as if we don't have any..."

Yang Run:

"Let's Go!" Before Yang Rui could react, Sen Jin put down the plate and stood up.. He looked at the clear sky outside and said, "Let's go and see what's going

Chapter 1880: The Strange Church (Part One)

The church was not far from the previous pub. As the most eye-catching building in the village, it was located in the central area. In addition, it offered sacrifices to the god of life. Logically speaking, it should be quite lively.

However, when the few of them rushed over, they could clearly feel the sparse crowd around them. The houses that were slightly closer to them were obviously empty. The only one that was close to them was a pub.

The door of the tavern was tightly shut, but it was obvious that there were people inside. Chen Shanshan could see with just a glance that there were some brown pupils like the old lady's in the gaps between the doors and windows of the tavern, they were carefully sizing them up in the dark.

This scene made Chen Shanshan very uncomfortable. She did not like the color of those pupils. They were withered and lifeless, as if they were zombies that had crawled out of the ground.

It would be understandable if the old lady had such pupils. After all, when one was old, wouldn't they have such zombie-like eyes. But the villagers in the crevices were obviously young and strong...

This village... There must be something wrong with it.

“Why are those people here again? Didn’t they... enter the church and never come out?”

“That’s right, those people... have already...”

“Maybe they look alike. I don’t know where these monsters came from. The King insisted on believing them and hired them as knights. I told him that there was something wrong with them. Look, even the gods are angry...”

Shh... Lower Your Voice, don’t be heard. These are all knights. If you offend them with words, they can chop off your head...

So be it. I Can’t live like this anymore. My daughter and wife are all gone...

The topic had just reached this point when they were fiercely interrupted by a group of people around them. “Shut up, don’t mention that...”

Because of this topic, those mosquito-like discussions gradually quieted down, causing Chen Shanshan and the others in the distance to furrow their brows even more tightly.

As advanced life forms, the residents who were not even a level one life form were whispering in the house dozens of meters away. Of course, they could hear it, and it was precisely because they could hear it that their hearts grew colder...

It was basically certain that these villagers had seen Senjin before, or else they would not have said that.

And there was definitely something wrong with this church, such as what that villager said about his daughter and wife...

“Shanshan, are you sure you want to go in?”

Seeing that they were getting closer to the church, Yang Ruizhong couldn’t help but send a voice transmission. Every player who went out had a special channel, but the energy was limited, so they wouldn’t use it easily...

“Let’s go in...” Chen Shanshan said in a low voice, “I don’t think it’s necessarily senior’s problem, maybe the villagers did it on purpose...”

Yang Rui was silent. It might not be that they didn’t do it on purpose. They had deliberately used some strange words to make them suspicious of each other, but was a group of villagers really that smart?

In the end, the few of them followed Senjin, who was walking casually in front of them, into the so-called church!

“This doesn’t look like a place that just had an accident a few dozen days ago...”

After walking in, the Elf named Zuma looked around in puzzlement and said.

Everyone looked around in puzzlement. The courtyard outside the church was not small, and it was originally paved with stone slabs. However, now that weeds were reborn, the entire courtyard was filled

with strange plants.., it was like a temple in the wilderness that had been desolate for decades, with unknown plants crawling all over it.

The strangest thing was the vine-shaped trees that were crawling all over the church.

She did not know if it was an illusion, but she felt that those trees looked more like a person with his arms wide open...

Even though it was daytime, Chen Shanshan felt a chill in her heart when she saw this scene.

“HMM...” Senjin, who was standing at the front, looked like he did not care. He yawned and stretched his body. The sound of his bones cracking could be heard all over his body. “The air is not bad, here!”

These words stunned Chen Shanshan and the others. Only then did they realize that the quality of the air around them was indeed higher than outside. Although it was not strong, it was clear that the elemental intensity here had increased!

Moreover, these strange plants were emitting a faint fragrance!

Thinking of this, the group was shocked. They quickly held their breath and carefully felt if there was a problem in the air.

When they were traveling, they had also mentioned that when they went to the wilderness of a high-level planet, especially a high-level planet that had not been conquered by a god Lord, they had to be careful. Intruders would not be liked by Gaia’s consciousness, and they would use all means to repel them, it was just like expelling pests.

And the most noticeable and easily careless thing was the air!

This was because when most reconnaissance teams went to a new planet, the first thing they measured was the air. However, after the safety test, most of them would not have a second test. This was very dangerous!

This was because most of the time, on the planet, the defense mechanism would only be activated because of the arrival of the team. The air was constantly changing.

The group of people, including Yang Rui, immediately broke out in cold sweat. They secretly thought that they had been careless. If there was any virus in the air, they would have been killed long ago!

“Thank you, Senior!” Chen Shanshan quickly thanked him.

Sen jintou, who was walking in front, did not know how to thank him either. He waved his hand and said, “No need to thank me. We are all the same. It’s only right to remind the rookies... I was like this when I first came here. I suffered a great loss...”

The group included Yang Rui, who had always been suspicious of Sen Jin. Because of this reminder, the way he looked at the other party became much more relaxed.

Only Ah Ling silently looked at the other party. A faint light flashed in his eyes...

Creak...

Following a sharp opening sound, the heavy church 's door was pushed open by Sen Jin's teammates. Instantly, a fresh and sweet air greeted them!

Chen Shanshan and the others, who had received the warning at the beginning, immediately held their breaths and hurriedly looked over.

For some unknown reason, a layer of mist rose in the church. The entire interior of the hall was covered with lush vines. Upon closer inspection, these vines seemed to be still squirming, like snakes, instantly causing Goosebumps to rise.

Senjin, who was in the front, tilted his head and directly took the flying axe hanging from his waist and threw it out. His beautiful vibration projection technique caused the flying axe to turn into a half-moon-shaped arc, circling the interior of the church in front of him, along the way, countless squirming vines were cut off!

After these vines were cut off, a purple liquid burst out. Then, they collapsed weakly on the ground, still squirming slowly, just like an earthworm that had been cut off, quiet and harmless...

A few seconds later, Senjin's heavy hand caught the flying axe. His exquisite flying axe technique did not allow the axe handle to touch any liquid. A slender demon beside him quickly reached his hand over the axe and activated a secret spell.

As a pale green light flashed, the auxiliary soldier shook his head gently. "I didn't find any toxins or anesthetics..."

Then, he performed a spell on the vines inside. The Flames began to burn, and in an instant, the vines withered like scorched earthworms, seemingly defenseless.

"It should be a low-level magic plant... its life level shouldn't be more than one level!" The auxiliary soldier concluded.

Senjin nodded. Then, under the cover of the auxiliary soldier, he slowly walked into the church.

Chen Shanshan and the others looked at each other and hesitated for a moment before following Chen Shanshan in. Yang Rui and Ah Ling walked at the back.

"Is there a problem?" Yang Rui asked through voice transmission.

"I don't know..." Ah Ling shook his head. "I definitely wasn't so careful in the past, but after joining the army for so many years, it's only natural for me to grow..."

"Is that so?" Yang Rui took a deep breath and felt the sweetness. After confirming that there was no anesthetic effect, he slowly walked in as well.

Beside him, Ling followed Yang Rui's footsteps closely.

However, the moment he entered, he was stunned...

That layer of faint mist did not seem to be thick, but when they really entered, they would find that it was extremely blocking their view. Chen Shanshan and the others, who had only walked out ten steps earlier, could only see an extremely blurry back view, they quickly looked at Ah Ling beside them.

They realized that they were so close, but they could not see the other party's face no matter how hard they tried....
