

A Bunch 1904

Chapter 1904: Guo Xiaoyun's decision

"What the hell is going on?" The first person who could not help but ask was the young lady in Black. She was the swordsman who had single-handedly blocked all the firepower of the spaceship!

"I can't explain it clearly... "Ye Feng shook his head. "What is that thing? It's a humanoid mech, but it's like an evil spirit that crawled out of the abyss of fear. Before I even got close, I lost the courage to fight!"

"Do you mean that you were scared off before you even fought?" The burly man next to him still had the same thick mocking tone.

"If you think you're very capable, you can try it out yourself!" Ye Feng said coldly.

"Heh!" The burly man suddenly laughed. "I don't think there's anything that can scare my eggs away. I don't even dare to fight and just run away!"

"You..."

"Alright, shut up, Hulk! "The Heavenly Fox glared at the burly man, and then looked at Ye Feng. "Is that feeling a spiritual attack? I remember that your mecha has an arcane defense device that's above level nine, right?"

"That's not an arcane spell..." "Ye Feng shook his head. "That's probably a power similar to a law. That kind of spiritual fear infection can directly affect an inorganic body. Firepower is completely useless against her. It will take the initiative to avoid her because of fear, and even its intelligence will lose its effectiveness because of fear!"

"There's such a thing? ?"

Everyone immediately turned their gazes toward a certain existence in the distance!

Their gazes were directed toward the fellow that everyone originally disliked the most. However, there was nothing they could do. The content of Ye Feng's words was too similar to a certain fellow's characteristics.

"It sounds really interesting..."

The gargoyle that had been silent the entire time giggled. That sound that sounded like teeth rubbing against each other caused everyone to feel a wave of discomfort. They could not help but think to themselves, "This fellow, no matter how much time we spend together, we can't get used to its disgust...". However, unlike everyone else, Ye Feng did not feel much at this moment!

In the past, she had also greatly disliked this fellow in front of her. No... .. It was not that she disliked him. To be more precise, she should be a little afraid...

However, this was very normal. This was because the characteristics of this fellow were something that made people afraid. After all, it was the product that had been the most successful in simulating a certain creature!

But for some reason, this time... .. The feeling that this fellow gave him... . However, it didn't seem as uncomfortable anymore...

How should I describe this feeling? It was like when I met the Asura and saw the little devil, I suddenly had a feeling... .. It wasn't a big deal anymore... Ye Feng's inexplicable expression quickly attracted the gargoyle's attention. It stared at the other party for a long time, and this was the first time Ye Feng and Ye Feng looked directly into each other's eyes. The two of them looked at each other strangely for more than ten seconds, it only stunned the people around them!

"You... What are the two of you doing?"The one who spoke was the cuckold who had just repaired his intelligence. The current scene made him look strange. After all.. ... Ever since he joined the team, this was the first time he saw someone who could look directly at the gargoyle... ..

"You... What's on your body?"The gargoyle stared at Ye Feng... .

"Me?"Ye Feng was stunned and subconsciously looked at himself. There was nothing abnormal about his entire body...

"HMM?"

The surrounding people suddenly sensed something and subconsciously distanced themselves from Ye Feng, carefully sizing him up.

If you didn't mention it, after sizing him up, you would suddenly realize that there was an inexplicable coldness on Ye Feng's body. At first, they thought that it was the aura of the Gargoyle. Now that they identified it, they suddenly realized... " It was actually emitted from Ye Feng's body!

And that coldness was actually able to faintly cover the gargoyle...

Ye Feng obviously noticed it as well. He immediately lowered his head and sniffed at himself...

This sniff instantly caused him to feel that familiar sense of fear. His pupils instantly dilated, and he subconsciously tore his clothes to the side!

Smell...

It was that fellow's smell! !

"Feng?"The Heavenly Fox frowned. "What's wrong with you?"

"Ye Feng sniffed his body again to confirm that there was no longer that smell. Only then did his expression gradually calm down...

"I'm fine..."

Everyone instantly had an indescribable expression on their faces. On the other hand, the gargoyle slowly walked to the side of the clothes that Ye Feng had torn. It picked up the torn clothes and took a

deep breath. An expression of extreme enjoyment appeared on its strange face. The expression on its face that looked like an evil ghost made everyone's hair stand on end...

"Brother Ghost..." green-haired Yang carefully glanced at the other party.

"You... aren't you... not too good for being so wretched?"

Ye Feng couldn't be bothered with that fellow. Instead, he looked at the

Gargoyle. "Old Ghost... You know what it is, right?"

"Hey Hey Hey... .." the Gargoyle took the rag medical treatment, issued a chirp strange laugh!

"I never thought I'd run into something like this. I'm so lucky..."

Mike at this time can be said to be extremely focused, but also normal, any driver one day when the speed suddenly increased tenfold, also must be extremely focused...

Especially in this terrain, where there were shattered star rocks everywhere. At such a high speed, if they were to accidentally hit a few star rocks, the spaceship would probably be smashed into Smithereens in an instant!

He was very obedient as he drove the spaceship away. At this speed, he was suddenly very confident that he could shake off those guys... ..

But what made him puzzled was that the guy went to intercept the pursuers but asked him to run quickly. Then how could she come back?

With the speed of the spaceship, after driving for so long, it should be at least 10,000 stars away, right?

It should be... it should be impossible to come back, right?

Mike was secretly delighted. If the other party did not come back, wouldn't he have gotten rid of the strange undead and this strange girl?

Just as he was making such a beautiful guess, a familiar and cold voice quickly sounded from behind. "Cease fire, start the cold pressure, slow down the speed, reduce the speed to 25 kilometers per hour, let the engine cool down..." Damn it! !

Mike's scalp went numb, but because he was driving at high speed and in the flow of stars and stones, how could he dare to look behind him?

If he touched one, the ship would be destroyed and people would die!

"Cold pressure started and directly opened the engine bonnet, we have to change the route back quickly, or else your engine will really be ruined!" Damn, you finally know how to change the route and ruin the engine?

Oh right, how did this guy come back?

After slowing down and starting the cold pressure, Mike finally relaxed and looked behind him.

Only then did he see clearly that there was a huge alchemy rune on the ground... ..

A space-time symbol...

Mike was instantly stunned...

This guy was not only a top-notch hacker, a mechanic with superb memory, but now it seemed that he was actually a space master!

This thing was very rare. It was basically something that only super aristocratic families would nurture. Otherwise, people with extraordinary space-related abilities would receive special treatment.

This guy... was he all-rounder?

After about 15 minutes, Mike, who was controlling the spaceship, could clearly feel that the familiar feeling of control had finally returned...

It was still more comfortable to drive manually...

"Where are we going now? Are we going to report this to the nearest federal station?" Mike asked directly.

This kind of desolate space was indeed too dangerous...

"To the battlefield..." Guo Xiaoyun narrowed her eyes and looked at Xingyun...

If the members of the ancient king team were all at the standard of that mecha operator, Goudan and the others would be in trouble this time!
