

A Bunch 341

Chapter 341: Are You Serious?

“Is this the limit of its power?” In the underground palace far away, the white-haired boy looked at everything and frowned slightly.

Although it was said that a monster like the star radiance was extremely difficult to deal with, a mature civilization actually had many ways to deal with it. However, looking at the helpless expression on the other party’s face, it was obvious that they did not have any...

Just what level of power was he testing with?

Suddenly, the boy stood up abruptly, and the undead around him retreated. They did not understand why zun-shang suddenly became excited.

The boy did not reply. He turned around and walked out of the palace. One step, two steps. He did not walk quickly, but he soon faded out of everyone’s sight.

Everyone was stunned. Was His Excellency going to personally take action?

On the other side, facing the gravity field-enhanced bow and arrows, which were supposed to be like cannonballs that had riddled rox and the others with holes, all the archers suddenly fell silent as if they were asleep.

Rox raised his head with difficulty and was surprised to find that the first-class archers on the wall were really like statues, frozen in place.

Gavin, who had a ferocious look on his face, was also frozen in place. His entire body was stiff as if he had been frozen.

What was going on? Could it be ICASIO’s side?

Rox immediately thought of that mysterious woman, but he could not help but be puzzled. If the other party had such an ability, why would he need to plan before?

In the next second, a tall figure in armor appeared, and he immediately understood the reason.

In such a chaotic battlefield, it was difficult for a single person to cause a huge reaction. However, this person was different. From the moment he appeared, everyone who was about to pick up their weapons was stunned on the spot, they looked at the person who had come.

It was a very strange feeling, like a pack of jackals fighting. And now, they suddenly passed by an ancient Tyrannosaurus. No matter how bloody and fierce the battle was, the Jackals would all stop at the same time...

Who on Earth was this person?

Rox watched the tall man approach on his horse. The horse looked like a dragon horse, but it was more than twice as tall as a dragon horse. Its body was covered in scales, and its breath seemed to carry the fiery breath of the legendary Demon Dragon. There was a faint red flame...

Gavin stared blankly at the figure on top of the city wall. When he saw this person who didn't do anything as soon as he appeared, no one dared to act rashly. An inexplicable feeling rose in his heart... ..

What was a King?

This was a question his father had asked him when he was young.

At that time, he had said that he was the person who sat on the throne.

However, his father's face was filled with disappointment.

"The so-called king is a kind of charm that everyone believes in. He doesn't need a surname, doesn't need a crown, and doesn't need the so-called throne to prove that he is a king. The so-called king, a true king, as long as he stands there, you will recognize him. That is a King!"

Jiawen had always felt that his father's words were too idealistic. How could there be such a person in this world? Even his father didn't do such a thing?

However, this person who suddenly appeared at this moment gave him the feeling that his father had said.

He didn't know his background, and there wasn't a powerful army behind him, but... .. He gave people the feeling that he was like a king...

"The Color of Stars?"

The person who came was naturally seer. When he saw that he had finally arrived, he let out a sigh of relief. The moment he entered, he immediately noticed the predicament on rainy's side.

The strange light body that was still crazily sucking on brother dog did not hesitate at all when it sensed seer's arrival. It directly jumped out of Brother Dog's body and wanted to run into the distance.

However, Seer gently grabbed it from a distance of 10,000 meters. In that instant, the light body appeared in Seer's hand.

The light body that brother dog could not grab was firmly grabbed by seer. No matter what, it seemed that seer could not break free.

"Is it luck?" Seer looked at the colorful stars and frowned slightly.

No matter how high the level of the map of the Black Goat was, with the quality of life in this plane, the probability of a random star appearing was even lower than that of a normal person hitting the mark six lottery.

"My Lord..." rain girl saw that seer had rushed over and finally let out a sigh of relief. To be honest, rain girl didn't know how to deal with that illogical monster.

As the saying went, a wise woman could not cook without rice. There were some things that could not be solved with just a little bit of intelligence.

“Lord, quickly save brother dog...” at this moment, the players hurriedly said when they saw Xi Ye.

The main reason was that Brother Dog’s current appearance was a little too miserable. His face had almost completely aged, and there were even cracks on it. His muscles had even shrunk into an old man’s state. Moreover, it looked like he was in extreme pain.

“It’s alright... It’s just that the energy has been absorbed, so it’s not a big problem. Just bring him back to the base’s nutrition cabin and lie there for two days.”

“Lord...” rainless melon’s expression was a little ugly as she said, “There are a few elf players who might...”

“There aren’t...” seer shook her head and said, “The other party didn’t kill them...”

Rainless melon was stunned when she heard that. She didn’t understand why. With the monster’s ability, it shouldn’t be a big problem to kill all of them.

However, Seer knew. It was obvious that the other party had realized the value of his players... They wanted to capture a living specimen.

No matter what, they could not leave this guy alive...

Seer thought to himself.

“Lord...” rainless melon still wanted to ask, but seer suddenly waved his hand. “Get behind me...”

Rainless melon froze for a moment before she suddenly felt a terrifying chill sweep over her back. Turning around, she saw that the entire space behind her had turned black and white, as if the color had been stripped away.

Meanwhile, in the black-and-white screen, a white-haired boy slowly walked over.

The boy looked to be only seven or eight years old, and he had a tender expression on his face. However, he was the same as seer. With just a glance, rainless melon and the others could tell that this was a creature on a completely different level from them.

“Senior...” seer slowly walked forward, protecting drizzle melon and the other players behind him as he bowed slightly.

“A Level 5 lord...” the boy’s expression became a little strange. He had thought that the lord he had tested might not be that powerful, but he had never imagined that it would be so weak. ...

Seer smiled bitterly as well. In history, there had only been one god Lord that had walked out of the world of death. The most famous God Lord was Sylvanas, one of the ten great lords...

He did not expect to meet a second one today...

This person must have been an extraordinary figure when he was alive...

And he must have grasped some secret... Seer had a vague feeling that the appearance of the star's luster was not a coincidence. ...

The other party was also sizing him up curiously. He did not understand why this level-5 lord was still so calm after meeting him...

"I don't know what secret senior knows to be able to walk out of the death realm, but since you were able to come out the first time, you should be able to find another exit to come out the second time. As long as you can leave this planet and swear not to appear in this plane again, I will let you leave. How about that?"

The Boy:"..."

The hell, was he serious?

Chapter 342: The Decisive Undead Lord

"Ugh..."hidden behind seer, rainless melon glanced at him guiltily.

As a level 3 developer, her mental strength far surpassed that of other players of the same level. Compared to the other players beside her, who had no idea what was going on, and looked as if they were lords, rainless melon understood what kind of person her lord was facing.

If her lord was a majestic Tyrannosaurus rex, then the other side was a true dragon. Perhaps, it was more than that. From the moment her lord appeared, rainy melon had already sensed that all the surrounding elemental molecules were circling around him, he was like an invisible vortex, a vortex that could sink the entire world.

Compared to this, her lord's sense of existence was really small... ...

However, the only thing that made rainy girl feel slightly at ease was his lord's calmness. That calmness did not seem to be an act.

This was the same for the boy opposite him. Whether it was his breathing or his spirit, he did not feel a trace of fear. He was extremely calm, which made him extremely confused. He had just returned from the world of death. His strength had barely reached level 14 without the support of faith. However, this was still not an existence that a level five ant should treat with such a gaze... ...

Pretending? Wasn't his acting a little too good?

Although the other party was wearing a helmet and his facial expression could not be seen, the things that were revealed, whether it was his eyes or his extremely calm mental strength, were more convincing than a calm facial expression.

Could it be that he still had some tricks up his sleeve?

A trace of doubt flashed through the boy's eyes, and he thought of some strange things that could not be explained by this force... ...

Because a level five lord, logically speaking, it was impossible for him to cross light years to such a distant place to colonize... ..

Thinking of this, he still felt that it was a test. Looking at this mysterious junior wearing a helmet., he smiled and said, "Since you've addressed me as senior, I won't make things difficult for you. It's not easy for me to make a trip here. If you're willing to give up this planet, I'll owe you a favor in the future. How about that?"

Seer frowned slightly.

A great lord that was at least level 14 and could possibly surpass his current level was already giving him face.

Moreover, not everyone could owe a great lord of the biological system a favor... ..

Most of the god Lords' technological development was biased. It was necessary for them to know the connections and resources of different lords. Under normal circumstances, Seer would have given up this planet without hesitation. In any case, he already had a basic population. The large tribes only lacked a planet's land resources. Compared to the friendship of a great lord, this was nothing... ..

But unfortunately, Seer could not let anyone discover that temporarily irreparable crack, because inside the crack was his own foundation. Even if the ten great lords came, they could not give him face... ..

Just like when he faced the fourth Lord, Sylvanas, did he not just reach the end?

Sighing in his heart, Seer could only slowly shake his head.

Rejected?

The Boy's face was gloomy, but he was also uncertain. A junior who might have just graduated not long ago was so ungrateful. Where did his confidence come from?

Even if he was at his weakest, it was not something a level five junior like him could take advantage of, right?

The boy looked at the other party. The black and white color of heaven and earth rapidly spread in all directions with him as the center. In just an instant, everyone behind Seer became characters in black and white paintings. They were frozen on the spot, without any signs of life.

Xi Ye raised his head to look at the boy and sighed deeply. He slowly put his hands on his helmet.

In that instant, the boy felt a fear from his soul spread through his entire body. It was an unprecedented killing intent. Even when he was surrounded by dozens of great suzerains., he had never felt such a killing intent that shocked the depths of his soul!

One had to know that although his body was in a weak state, his soul had become many times stronger during the billions of years in the dead soul world, what kind of power could cause his soul, which was comparable to the quality of an archaic departed soul, to have such a Feeling?

Bang!

In less than 0.1 seconds, he made his choice. His entire body instantly turned into blood and exploded!

...

As the boy's body exploded, the world instantly regained its color. All the people who seemed to have lost their vitality earlier looked at each other as if they had come back to life. They stared at each other in shock.

Xi Ye, who was taking off his helmet, was also in a daze like everyone else. He did not expect this fellow to be so decisive... ..

Self-destruct just like that?

Facing a junior like him, he didn't hesitate at all?

Seer was in a daze and suddenly realized that he... Perhaps he had thought too simply. ...

He approached the corpse that had exploded into flesh and blood and frowned. It was indeed an alchemy product... ..

Otherwise, this planet with the highest life form was only a level four planet. How could there be a container that could hold his powerful soul?

Moreover, he could see that the quality of this alchemy body was extremely high. Even when it was young, it could display the strength of a level 14 energy. If it wasn't a first-rate biological force, they wouldn't be able to produce such a quality.

As for the other party... .. Without the assistance of any scientific researchers or alchemists, they could only rely on the raw materials of this new world to make it. It could be seen how solid their foundations were... ..

However, no matter how solid his foundation was, it would probably take a lot of effort to make an alchemy lifeform of this quality in such an environment?

Seer immediately understood why the so-called steel warrior empire could survive for a thousand years under the hands of such a person. The reason was most likely that he had not had a physical body for the first thousand years...

Even so, he had self-destructed without hesitation, destroying the alchemy lifeform that had taken him a thousand years to create and running away... ..

While he admired Seer's decisiveness, his heart was filled with regret. If he let such a person go, there would be endless trouble in the future...

Sighing, Seer turned to look at the players behind him. At this moment, they were still immersed in the terrifying scene just now.

They felt as if they were ants being pinched by a giant. Their lives and deaths were completely out of their control... ..

"Clean up the corpses and bring them away..." Xi ye ordered the players.

"Ah?" The players came back to their senses. After hearing Xi Ye's words, they were stunned. They stuttered, "But... but they're all broken into pieces..."

"I told you to clean them up. Why are you talking so much nonsense?" Xi Ye could not help but roll his eyes. At this level, even if an alchemy lifeform was broken into pieces, it had a very high research value. Of course, it could not be wasted...

"Oh, OH..." a few players were stunned for a moment. Finally, under Xi Ye's stern voice, they quickly cleaned up the pieces of meat. ...

"Do you want the intestines, Lord?"

"Yes, I want all of them. If you lose a piece of skin, I'll deduct your wages!"

The players: "..."

"Lord..." rainless melon came back to her senses and walked behind Xi Ye. "Is He... dead?"

"No..." Xi ye shook her head. The other players who were picking up intestines froze. "He's... Not Dead?"

"Picking up yours..." Xi ye rolled his eyes at them. Then, he looked into the distance and said, "He ran away..."

"Then from now on..." rain girl, Wu Gua, said in a daze.

"In the future?" Xi Ye sighed. "If we miss this time, in the future... I'm afraid it will be difficult..."

Chapter 343: "Then we might have a chance."

In the 999th year of the Steel Arms Empire, just before the last night of the Empire's thousand-year history, the empire suffered a great calamity. A demonic barrier descended from the sky. Marshal Rox led the mutated soldiers to leave, but the calamity did not stop there... ..

At this moment, in the secret archives of the Empire, the great scholar responsible for recording the history of the empire was trembling as he used his old tree bark-like hands to record the final historical records of the Steel Arms Empire in the Empire's archives...

The Sky of the imperial city had not been clear since the natural disaster came. The mutated disaster became more and more intense. First, the animals in the mountains turned into monsters and charged at the city gate. The soldiers struggled to resist the attack, then, the aquatic creatures in the Nice River were also affected by the natural disaster and walked on the Earth. Under this terrifying power, the small fish and shrimp could actually grow into bloodthirsty monsters the size of horses. The entire imperial city was surrounded by impenetrable water... ..

Endless Monsters swarmed into the imperial city. Under the situation of the Imperial City's arcane equipment being completely ineffective, everyone was filled with despair. What was even more desperate than the monsters outside was that after the soldiers killed the monsters, their bodies began to mutate... Just like the soldiers before them, their bodies began to mutate... ..

As more and more monsters were killed, everyone who survived would find that they became stronger and stronger. This seemed to give the imperial city even more hope of being protected. But after a

month, ... The people inside would find that they were becoming more and more like the monsters outside...

The monsters outside would devour each other and become stronger and stronger. A thought arose in everyone's mind. Would we one day be like the monsters outside?

When the old man wrote this, his hand suddenly stopped. He did not know if the pen was out of ink or if he did not know how to continue writing...

He raised his head and looked outside the door. There were two soldiers standing in shifts outside the archives room. Under the armor of these soldiers were terrifying bodies covered in scales. They seemed to have noticed the old man's gaze. The eyes of the two soldiers also glanced in this direction.

Those orange-yellow eyes made the old scholar so scared that he almost shook off the pen in his hand. Those cold eyes were like the dense boa that he had once encountered in the Great Western Swamp. They made one's hair stand on end, under those cold eyes that did not have a trace of warmth, did they really retain the humanity of the past?

The old scholar suddenly had a feeling that perhaps, without waiting for the monsters outside to attack, there might not be any human beings in the imperial capital... .

— — — —

Seagull left the capital only to discover that the portal had been restored. Without hesitation, he activated the portal and brought Raina and her gang, as well as Rox and the mutating soldiers, back to Mars.

Although teleporting in the map of the Black Goat was somewhat risky, it was much safer than walking back to Mars with so many people.

After arriving at the base, Rox and his soldiers were quarantined in a new underground base. As it was not clear whether the energy was beneficial to the infection, they could not live together with the previous imperial soldiers.

Meanwhile, Seer sent the players who were carrying out quests in the imperial capital to the bio-isolation room for a checkup as soon as they returned. Although the players did not have any signs of physical changes., however, Seer was most concerned about whether their genes were affected.

After putting everything that was important into the program, Seer stayed alone in the Lord's room to think about his future plans.

Although he had saved rainy and Wugua's group this time, letting the lord that had escaped from the undead world was the biggest threat now.

The main body was not dead. He could not turn off the level 14 map of the Black Goat at all. It would not take long for the other party to create countless biological weapons that were above the level of this planet. They would form a power that he could not shake... ..

When that time came, how would he deal with it?

He only had one bullet. He couldn't just fire it at a small soldier, right?

Reality proved that, in a situation where the overall situation wasn't as favorable as the enemy's, even if he tried some unorthodox methods, it would be useless... ..

"Lord, are you worried about the future?" As the only player that hadn't been affected by the mutated energy, rainy melon wasn't quarantined. She came to the Lord's room and saw seer sitting there in a daze, she did not even greet seer when she arrived.

Seer nodded, following which, he sighed and said, "Although we forced the other party to activate the Lich's phylactery, it was only to stall for time. Even if the other party is temporarily unable to return from the death realm, we, who are unable to close the map of the Black Goat, can only watch as the creatures in that area become stronger and stronger."

"How strong can they become?" Rainy girl asked curiously.

"If no one controls them, they will evolve freely, and their progress will be much slower...". Xi Ye pondered for a moment and then said in a low voice, "But it's still not something that you can compare with your normal training. The conservative estimate is that the creatures in there will evolve to level six within two years." "...he paused for a moment and then pointed at the bottle, the star of color that he had put into the bottle said, "If it's this kind of high-quality otherworldling, then it's not just..."

Rainy girl, Wu Gua, frowned when she heard that. "Is this method considered cheating?"

"More or less...". "...Xi ye smiled bitterly and said, "The drawback of the Black Goat's illustration is very big. After using it, the energy of that planet will not be able to recover for an extremely long period of time. It's an act of killing the goose that lays the golden egg. Moreover, the evolved creature can only be a biological weapon with a huge genetic defect. It Won't be of any help to the construction, but in terms of efficiency, it is indeed that powerful "... "..."

This method of taking advantage of the situation had always been criticized by various forces outside of the biology department. However, one had to admit that this was indeed a way to quickly increase their armed forces.

Thinking of this, Seer felt a headache coming on. Competing with a biology department lord in terms of growth speed was already the most troublesome thing. Moreover, the other party might even be an old lord with many trump cards...

Seer even wondered if there was a way to bring ball D out of the Milky Way...

"Lord, what do you mean by saying that the other party's Lord can't come back for the time being?" Rainy girl asked suddenly.

"AH...". Seer covered her head and replied weakly, "The other party is an undead that walked out of the world of death and has an extremely strong soul. Even if such an existence finds a way out, it still needs a powerful carrier to travel around the world. This is also the reason why the Undead Guild mainly focuses on developing biological systems. Moreover, the highest level of life in this plane is not even level four. It is impossible to carry that powerful soul even if it has been compressed. Therefore, it is necessary to create a high-strength alchemy life form "... "..."

"Oh... so this is why the Liege wanted us to bring his body back?" Rain girl was enlightened.

Seer nodded. That thing not only had high research value, but most importantly, she could not leave it to him... ..

“Then how long does the liege think it will take for him to replicate such a body?” Rain girl asked.

“I don’t know...”. “...”. Seer shook his head. “According to the information from the steel valiant empire, shadow stream has been around for a thousand years. In other words, they have used their consciousness to influence this world, which is at least on par with the history of the empire. However, they have only just opened the map of the Black Goat. I think it might be a recently completed alchemy lifeform...”. “...”

“A thousand... a thousand years?” Rain girl asked helplessly... ..

“With the arcane civilization of this planet, without the help of high-end biological equipment and high-level alchemists, it is already beyond my common sense to be able to produce something of this level in a thousand years...” Seer said faintly.

“Then... does that mean that it will take a thousand years for it to come out again?”

“That won’t be necessary...” seer said faintly, “If there is a backup copy of the clone, it only needs to be adjusted for a period of time before it can be used again.”

“Then... how long will it take?” Rainy girl asked immediately.

“It depends on the situation. With the backward technology of this planet, it is impossible for the other party to have high-quality equipment. If we rely on free adjustment, it will take at least five years...”

“Five years...” rainy girl suddenly said, “Then we might have a chance!”

“HMM?”

Chapter 344: countermeasures

There’s a chance? Seer looked at rainy with a stunned expression, wondering if she was thinking too simply about the development of a civilization?

Even with the support of federal technology, five years... .. At most, they would only be able to set up the framework of the city, set up free trade, the internal market, and the general direction of scientific research...

To be able to do all this... .. It would probably take more than five years...

And to develop an army to eliminate the constantly evolving mutated monsters in the map of the Black Goat, five years was impossible. Even if others did not use the arsenal to produce chemical weapons and allowed the creatures inside to devour and evolve... It was impossible for us to destroy the creatures inside...

Not to mention five years, even giving him 50 years would be difficult.

“Lord, let me ask you a question first. If we blow up the place where the map of the Black Goat is located, can we stop the other party from developing biological weapons?” Rain girl asked.

Xi Ye could not help but curl the corners of his mouth when he heard this. He secretly sighed. He thought that the other party would have some ideas. If this method could work, he would have done it long ago. Xi Ye was not a kind person. Although this method was a little crazy.., xi Ye did not mind if it could stop the other party.

But unfortunately... .. This map of the black goat mutated with energy... ..

So she sighed, “It’s impossible to blow up the energy. Even if you kill all the creatures on the map, the mutated energy is still there. As long as the other party comes, they can use the purified energy to find a new batch of creatures. Unless you blow up all the creatures on the planet...”. “..”

Five years, massacring a planet. With Xi Ye’s firepower, he would not use such a despicable method to colonize d-ball... “..”.

“It can’t be...” rain girl, Wu Gua, narrowed her eyes and said, “Then we can only take the risk...”

“Take what risk?” Xi Ye was stunned for a moment and immediately asked.

“Snatch the energy you mentioned...”

“Snatch It?” Xi Ye’s face twitched and he could not help but ask, “How do we do that?”

Rainy Girl, Wu gua said, “According to what you said, the map of the Black Goat is a training ground. If others can train their troops, we can too. After all, the boss of the other party is not around and there are no high-level creatures to snipe. Why Can’t we snatch the Energy?”

“This...” Xi Ye was stunned, then, he shook his head and said, “You mean the soldiers in the New World?” Then, he shook his head and said, “I’m afraid that won’t work. The other party is an old lord. Even if he is five years behind us, after coming out of the New World, he can quickly build some high-level biological weapons factories. The biological weapons produced are much more powerful than a novice lord like me.”

Rainless melon asked, “What if the player obtains this energy?”

Seer: “..”

Rainless melon quickly said, “You said that we have great potential, right? The only disadvantage of the other party is that they don’t have high-quality lifeform soldiers, right?”

“No...” seer shook her head. “The energy you obtain will affect the genes. Once the genes are messed up, it will be extremely disadvantageous for the later development of the game. I’ve never done something like killing the goose that lays the golden eggs...”

“But isn’t this the last resort?” Rainmaiden Wugua quickly asked.

“It will turn into a monster...” Xi Ye’s eyes were dark as he pointed at the colorful stars that he had locked in the bottle. “Just like this thing...”

“UH...” Moonmaiden wugua paused for a moment before she continued, “But when I came over from the biology room just now, our players’ bodies didn’t seem to be affected.”

Seer frowned when she heard that. “That might be... it’s because your capacity is stronger... But if you ingest too much, there will definitely be problems.”

“Then don’t ingest too much...” “We’ve issued a mission for players to bring their soldiers in to fight monsters. We’ll come back every day to do regular inspections. As long as there are any signs of disorder, they’ll be forbidden to continue entering the map of the Black Goat. As long as there are enough players and soldiers, we’ll be able to separate the energy inside, right?” “? Then the mutated energy produced by the map of the Black Goat can’t be infinite, right?”

“Eh?” Seer immediately stood up and looked at Rainy without Melon in surprise. This method seemed to be... .. It was quite a feat...

The map of the Black Goat itself did not produce energy. Instead, it used the power of the map to envelop itself to carry out a mutation, thus using living creatures to fight to produce energy.

In other words, the energy inside the map was always limited. During these five years, as long as he could control enough people to share the energy, rain and dew would fall on it. It seemed like... .. It could indeed greatly weaken the effects of the level 14 map of the Black Goat...

Damn, this girl... She could do it!

Seer looked at Rainy without a melon and could not help but think that he had not pampered her for nothing. He had not let her down by making her the first player in the base to receive a salary.

“But as for the players...” Xi Ye pondered for a moment. To be honest, he still did not want the players to take the risk.

Rainy without melon said, “The players must go. The soldiers must be led by the players. Otherwise, if those soldiers get lost in there, the losses will not be worth it...”

Xi Ye nodded. If he let the people of the New World go alone, once they were addicted to the slaughter of obtaining power and could not extricate themselves, it would be difficult for them to follow the orders and walk out of there, then, wouldn’t the people he brought in become the Black Goat’s blood food?

Moreover, if the players did not take this opportunity to become stronger and were surpassed by the Knights of the New World citizens, it would also cause an imbalance in the power hierarchy.

Seeing that Xi Ye was still hesitating, Rainy witch Wu gua asked, “Lord, what are you still worried about?”

Xi Ye replied, “Even if we do as you say and do regular inspections, the risk is still very high. Because we don’t know where the limit of the tolerance is, it’s very easy for problems to occur.”

Rainless melon said, “We can find a batch of test subjects...”

“Test subjects?” Xi Ye frowned and looked at her. “Who? A new player?”

If that was her plan, he would have to re-evaluate her personality. From what he remembered, Rainless Melon had the potential to be a cold-blooded superior, but at least she had feelings for players...

"Of course not..." Moonless Melon smiled. "Didn't the Lord make an agreement with Kunlun?"

"Kunlun..." Xi Ye was stunned. He immediately realized that the other party was talking about the opening of the mystical realm after Kunlun's martial arts practice.

"This... using it as a mystical realm... will the other party believe it?" Xi Ye was confused.

"Why wouldn't they believe us?" Rainless Melon rolled her eyes and said, "Our mystical realm is big and spans more than ten cities. Every monster we kill will strengthen our body. It's even more powerful than the experience gained from killing monsters in the game. If we throw some alchemy weapons in some dark corners and guide them to get them, won't it be the same as raiding a dungeon? Isn't it better than his Kunlun's secret realm?"

Xi Ye: "..."

This seemed to make some sense...

Perhaps... .. He could really give it a try...

By the way, it had been a few days since he had paid attention to the dragon team. He had to ask her to confirm the candidates for the Kunlun martial arts demonstration... ..

Chapter 345: The Return of Li Goudan (part one)

All players, please note that due to the new patch for the natural disaster invasion, all military missions to the north have been suspended and changed to resident rescue missions.

Mission restrictions: players who have previously received military missions to the north can accept them. New players who have not received short-term population plunder missions or long-term missions of the second or third series are now at Level 2, there are two types of B grade weapon specialization players can accept.

Mission reward: players can rescue the residents of the natural disaster area who have not completely mutated and form their own army. The mission map is still valid. All the land that the players have conquered will belong to the players, the players can develop it as they wish. They only need to pay 25% of the annual tax.

Mission Reminder: this mission is open to all players at this stage of the game. However, as the mutated energy in the disaster zone is too strong, and players also have the risk of mutation, it is not recommended for early players to explore too deep, new players are not allowed to stay in the disaster zone for more than 24 hours. Every time they log out, they must return to the assembly point to log out. The time limit for old players to stay in the disaster zone depends on the situation.

When this news was released, many players were stunned, especially those who were struggling to level up and were planning to join the army in the north.

When they consulted the system, the answer they received was that the duration of the quest was too long. It was not suitable for the current pace of the development of the base, so they temporarily canceled the plan.

This reason was still reasonable. After all, the Knight Academy training process in the Army Quest in the North was really unnecessary, however, changing it to a natural disaster dungeon for this reason made all the players feel that it was somewhat far-fetched.

However, this was not important. As long as the attributes of the strategy were still there, the majority of the players were more concerned about the joy of becoming a Lord of the land...

Of course, most of the players definitely did not know what kind of risk the first batch of players who went up north for the military quest had gone through a few days ago. Naturally, they also did not know what kind of terrifying force they would have to face after the base.

Therefore, the daily routine was the same. The new players worked hard to carry bricks while the old players carefully managed their hard-earned achievements, as for those players who did not accept the short-term population plunder quest but chose to go to the grasslands or go out to sea, they had almost set off.

For example, Emperor Liver had already been wandering the grasslands with his gnolls for almost a month.

It was worth mentioning that there had been no news of the cabbage that had been taken away by the Orc Earth tribe for four months. The guy who had been talked about by many players seemed to have been forgotten by now, and in a certain tertiary grade a hospital in central China... He had already helped his family to post a missing person notice... ..

And the only person who had accepted a long-term mission but had yet to set off was Li Goudan... ..

At this moment, in Basen, the group of soldiers in the dormitory were holding a farewell dinner for her. Of course, it was also to welcome Wang Goudan and Leng Xing.

The dinner table had a very local basen flavor. There were tomatoes, potato salad, stewed beans, and stewed chicken made with tomato and chili sauce. Stewed beef and mutton, vegetable puree, and minced peas. Minced meat was added with starch to make small meat patties, lettuce, and so on.

This country did not eat pork, so the edible oil was mainly butter. Sunflower seed oil, olive oil, and other vegetable oils were also used. Moreover, the cooking method was relatively simple, meat dishes, vegetarian dishes, and so on, all of them were put into a frying pan or pressure cooker and stewed until they were thoroughly cooked. They were equipped with a kind of coarse flour cake called "Chabati".

From the perspective of ingredients and nutrition, this kind of meal was better than the stir-fried dishes commonly used in Huazhong, but the taste was... Although it was also slightly spicy, it appeared to have a monotonous taste. Li Goudan was almost tired of eating in the first week since she arrived. Usually, she would eat in the game during meals, but to outsiders, she claimed that she was fasting.

Huazhong's identity as an immortal cultivator was used very well.

However, Wang Goudan had clearly ruined the elegant image that she had painstakingly built up here. She ate like a pig, causing her eyelids to twitch.

Logically speaking, this guy had the only buffet in the base. He ate all high-quality ingredients, and the dog father who was in charge of cooking had excellent culinary skills. If it were her, she would have long lost her appetite, how could she eat all these things?

However, it was clear that this guy in front of her could not be described with common sense...

On the other hand, Leng Xing used a tissue to wipe the corner of her mouth from time to time and kept telling her to eat slowly. Seeing this, Li Goudan's eyelids twitched again. Before leaving, he was even fed dog food. It was really quite enough.

"Miss Green Sparrow, may I ask how long you will be away for this time?" The person who asked was the leader, Cregash. Everyone was actually very surprised by his arrival, they did not expect that the leader of a country would come to attend their small-scale farewell dinner.

"This... I'm not sure. If it's fast, it might be a few months. If it's slow... it's hard to say..."

Li Goudan replied truthfully. His family's relationship was a mess. It would probably take some time to go back.

When he said this, Wang Ye, who had been eating silently and not saying a word, clearly stiffened.

Creed Gash also seemed a little anxious. The other party had come in a few days to fully display the strength of Dragon Group 001. In the next two months, the extraordinaires who had infiltrated his country seemed to have disappeared without a trace. He really did not wish for such a person with such strength to be transferred back by Huazhong, even if Huazhong had used two people to exchange for her...

In his opinion, Qing que had already displayed her extraordinary strength. be it him or the surrounding ministers, their trust in her had already reached a very high level, even if she was a citizen of Basen., now, many people also knew about this member of Dragon Group 001.

As long as she was still around, she gave people a very reassuring feeling. However, whether the two newcomers had the same standard or not was something that needed to be discussed... .. especially that... ..

Thinking of this, the leader looked at Wang Goudan, who was gasping and almost swallowing the plate. He felt a little guilty in his heart... ..

Was this guy really reliable?

Looking at the leader's hesitant look, Li Goudan smiled slightly. To be honest, this was the first time in her life that she felt so valued. In the past, when she was in the Li family, no matter how good her studies were., that cheap father of hers had never asked her a single question, so she was already used to being ignored.

But it was really different here. She had to admit that the feeling of being valued was really good...

Moreover, the work here was also very in line with her heart. It was simply more comfortable than staying in university. If there were no missions every day, it was basically to let her sleep until she woke up naturally, EAT, sleep, and play games... ..

Occasionally, there would be important people who needed protection, and she would only be a sidekick in the past. She did not need to consider the schedule, which was the secretary's job. She did not need to consider safety checks. That was the job of a security expert. The team had almost no requirements for themselves. The only requirement was that they were closer to the person being protected...

The key was that the salary was high... .. Li Goudan actually had no objection to doing this kind of work for a longer period of time... .. It was a pity... ..

The thought of giving up such a good job temporarily to deal with the troublesome people of the Li family made her feel sick in her heart. However, she had to go back. Recently, something had happened at her mother's place... ..

It seemed that her father's mistress who was outside with an illegitimate child had come crying and begging. Her soft-hearted mother seemed to be in a dilemma.

When she heard this, Li Goudan, who had originally planned to take Wang Goudan and the rest for a stroll, immediately booked a plane ticket for the next day!

The Li family... did they really think that they had no temper at all?

Chapter 346: "Indeed, I'm here to support you..."

"Qingque is back in the country?" Elder Tian and elder Li were playing chess leisurely in Yanjing's Alley. It was rare for people in their positions to have such leisure time.

"It's noon today. The Li family sent someone to wait for him early in the morning. I heard that Li Yichen went to pick him up personally..." elder Li took a sip of tea with a smile.

"You don't seem to be panicking at all?" Elder Tian looked at him curiously.

"Why would I be panicking? Isn't the Li family the one who should be panicking?" Elder Li sneered and said, "According to Green Sparrow's performance, she has at least the ability to become an Earth immortal. The Li family only found out about this at the age of 20. It shows how much they have neglected this child in the past..." "..."

After a pause, he continued, "I've inquired about it. Li Yichen, the head of the Li Corporation, has found a mistress and even given birth to an illegitimate child in the open. He has already openly brought her to the Li Corporation to be the successor. It's probably a little late for him to show his hospitality after knowing the value of green sparrow..." "..."

"But blood is thicker than water after all..." Elder Tian said worriedly, "The Li family wanting to curry favor with us has nothing to do with us. We shouldn't delay Qing Que's work. Chief Ba Sen has already

called our chief several times to request for Qing que to continue staying there. It is obvious that he is extremely certain of Qing Que's strength. Chief has already spoken. We must make sure Qing que returns as soon as possible. We can't let our friend's heart be cold." "..."

Upon hearing this, elder Li smiled bitterly. Back then, due to the lack of manpower, only green sparrow, an extraordinary, was sent over. In order to let his friends think that he was not just doing a perfunctory job., at that time, he gave Green Sparrow the reputation of Dragon Group 001 and repeatedly hinted that he was our trump card.

After Green Sparrow displayed his strength a few times, the other side clearly recognized the strength of Green Sparrow's trump card. At this time, how would the other side be willing to change people?

One had to know that just a few days ago, Basen had rejected the olive branch extended by North America for the sake of Huazhong. Moreover, they had deepened cooperation in various aspects. Almost all of the modernization projects in the country had been contracted to Huazhong. In the end, in the blink of an eye, you wanted to take the ace back. The other side must be anxious...

The pressure from the other side was also great, but elder Li had no choice... "...". The other party wasn't a proper soldier. What could he say if he wanted to come back and deal with the family's private matters? Back then, he promised to give the other party the greatest amount of freedom. He couldn't just swallow his words right after they cooperated, right?

When he thought of this, elder Li felt even more powerless. He felt as if he had suffered the consequences of his own actions... ..

"Look at your bitter and wrinkled face. You're still not panicking?" Seeing this, elder Tian smiled and said, "Anyway, I'm retired and have nothing to do recently. Do you want me to go and take a look for you?"

"It's a private matter, why are you going to take a look?" Elder li frowned and said.

"You can't say that..." Elder Tian smiled and said, "This girl came back aggressively, probably not necessarily to compromise with the Li family. If she is here to pressure the Li family, we should support this small meritorious subject immediately."

"Support? You Old Thing... you're smiling so happily, did you find out something?" Elder Li looked at elder Tian suspiciously. He remembered that elder Tian's son seemed to be a commander over there...

"Ha-ha... .. This... .. Really inquired about some... .." The farmland old mischievous laugh way.

"What's the matter?" Asked Li hurriedly.

"It's better than you think... Heh Heh..."

On the other side of the airport, Yichen was not the only one who had come to pick him up. The old man, Shang Guo, had also come personally. Yichen was also a little puzzled by the old man's decision to personally pick him up. He felt that the lineup was a little too big...

"Dad... you're already so old, so why are you waiting here? Why Don't you go back first? I'll bring Jiayi here to look for you later..."

"It'll be weird if you can bring her here..." Li Shangguo rolled his eyes at his son.

"Look at what you're saying. I understand Jiayi. She's not that overbearing... isn't her return a proof? She's just like Min Jun; she's soft-hearted..." Yichen hurriedly said.

"Are you sure?" Elder Li looked at his son and said, "Yesterday, you brought your son to Minjun's place to cry. Jiayi took a plane back today. Why do I feel like she's back to support Minjun?"

"Dad... you're thinking too much..." Yichen smiled guiltily.

"Are you thinking too little?" Elder Li glared at him. "Soft-hearted? What do you think your girl is doing in Barson this time? She's fighting with someone! According to the intelligence, four extraordinaires have died under her hands. How can you think that she's a soft-hearted person? Are you still asleep?"

Yichen: "..."

"Moreover, at such a critical juncture, you actually dared to let that woman go to Min Jun's place to cause trouble. What do you think? eh?" The Old Man asked darkly.

"I... I didn't... I didn't think that she would directly cause trouble there either..." Li Yichen lowered his head guiltily.

"Don't give me that trick!" Li Shangguo shot him an annoyed look. "It's not like there are no bodyguards outside Minjun's villa. Without you gesturing for that woman to enter the villa's main entrance, how could I not know what you're thinking? How could I not know what you're thinking? Isn't it just that you want to take an inch and take a mile when you see Min Jun's heart soften this time, so that you can protect that woman outside?"

"Dad... that... that is also your biological grandson..." Li Yichen weakly rebutted... ..

"Biological grandson?" Elder Li sneered. "I stripped his shares of his right to inherit, but I didn't strip his life. Can't you see which is more important at this moment? I'm telling you, if you mess up Jiayi's matter, you can scam with your precious son!"

"Dad..." Yichen suddenly panicked. He had a feeling that the old man was serious... ..

Elder Li could not be bothered to look at him. He looked straight into the airport and suddenly frowned as he looked at his watch. "That's not right. Judging from the time, the girl's flight should have arrived, right?"

Suddenly, the sound of a phone ringing rang. The old man glanced at his son. Seeing this, Yichen took out his phone. When he saw Butler Wu's caller ID, his heart skipped a beat. He hurriedly picked up the call.

"What's Wrong?" At this moment, he was most afraid that Zhang Minjun would cause trouble again.

"What? She went back?" Yichen was taken aback.

Guoshang's heart sank when he heard this. He waited for his son to hang up the phone before asking, "What's wrong?"

"Lass... has already gone back..." Yichen stammered.

“Alright. You’re here to show us your might...”. Guoshang sneered at his son. “Since you’re so confident in saying that your lass is soft-hearted, I’ll see how you handle this matter today”

With that, he no longer paid attention to his son and directly led his men to the exit.

Yichen’s face instantly turned extremely ugly. With such a big group of people standing here, he did not believe that the lass did not see it. It was impossible to miss it. It seemed that what the old man said was true.

This lass came back this time to support Zhang Minjun... ..

Chapter 347: Outbreak (Part One)

“What do you think this is all about?” In the security room at the entrance of the manor, a few hired bodyguards sighed as they smoked.

They were all old people who had worked in the GU family for more than ten years. The Li family hired guards who were actually retired special forces soldiers, but this was central China after all. In fact, most of the guards of the wealthy families would not be attacked from the time they entered the service until they retired...

Even so, the Li family was actually quite idle. When they were bored, they began to care about these gossips...

One of the middle-aged men with a crew cut patted his hat and said, “You say this Mrs. Li, it was not easy for her to gain power by relying on her daughter. Even the old master of the Li family came to her door to curry favor with her. It has only been a few days, but her mistress actually came to her door. This noble family’s matter really looks strange...”. “...”

“Then... didn’t that mistress come to her house to plead for mercy?” One of the youngest newbies, who had just entered the office, asked in a daze.

“She didn’t come to her house to plead for mercy...”. The middle-aged man who had spoken just now rolled his eyes and said, “That’s called pleading for mercy?” “That was clearly coming to her house to force her to give in. Other people didn’t take his son’s life. To put it bluntly, didn’t she come to her house to fight for her son’s inheritance rights?” The mistress brought her illegitimate son to the house to beg the original wife to divide the family’s assets among her son. Do you call this pleading?”

“UH...” the newcomer was stunned. He felt that something was not right... ..

“Actually, it’s nothing...”. The middle-aged man with crew cut continued, “That woman has given birth to a son. It’s not like it’s been a day or two since she had the idea of becoming an official. The key is the attitude of the Li family. After the first act of courting, they let the woman in. Isn’t that crazy?”

“What’s so hard to understand?” The oldest veteran in the guard room put out the cigarette in his hand and said faintly, “Isn’t it just bullying madam for being soft-hearted? Madam originally wanted to get a

divorce because of the Miss's disappearance. This time, she was persuaded by a few good words. Now that she sees that madam is so easy to talk to, doesn't she want to take an inch and take a mile?"

"How can she tolerate this?" The one who spoke was the only female soldier among the guards, who had just arrived.

"Madam is a person, you'll know after you come into contact with her for a long time. She's too soft-hearted..." the veteran sighed and lit another cigarette, smoking silently, there were some words that were left unsaid. The so-called benevolence did not rule the army. This sentence was also used to describe the female head of the household. If it was a more powerful woman, even if she did not give birth to a son for the Li family, she would not be bullied so miserably, even some servants dared to look down on this female head of the household.

These guards actually had a good impression of this madam of the Li family. First of all, she had never defaulted on her salary and usually did not have much to do. She would not make things difficult for them if they needed to take a leave of absence or something like that, the most important thing was the respect that ordinary wealthy families did not have.

When a special forces soldier retired, he was good at security. His salary was high and he did not have to work hard. However, he did not have any status and was easily treated as a dog. Some proud soldiers were not willing to do this. Although this madam of the Li family was a little soft-tempered., it had to be said that her upbringing was still very good. She didn't have the domineering air of a rich lady, and her daughter was also well-taught. Little Jiayi came in and out, and when she saw their uncles and uncles, she didn't hesitate to call them. This was something that other wealthy families couldn't compare to.

Being a guard for this mother and daughter was definitely better than being a guard for that overbearing, ungrateful mistress.

Unfortunately... .. It wasn't up to them to decide on this matter...

"Oh right, this eldest daughter of the Li family is actually a member of the sect? The Li family hasn't known about this for so many years. This matter is really strange. Don't you guys usually notice it?" The newcomer asked.

"Uh..." the few elders were stunned when they heard this. The oldest person touched his chin and said, "To be honest... I really didn't notice that Jia Yi is a cultivator..."

The surrounding people nodded and echoed, "This girl comes home on time every day to eat. Where does she cultivate?"

The newcomers were even more curious. They were also curious about the old seniors' attitude toward Miss Li, especially the way they addressed her as if she was their junior.

Just as they were thinking about it, a sweet voice suddenly sounded, "Uncle Qi, it's not good to gossip about others during office hours, right?"

Everyone was stunned. When they heard the voice, they looked over and saw that Li Goudan had arrived at some point in time... ..

At this moment, Li Jiayi was using her original body. She was no different from usual. Her eyes were smiling like a line, causing the few old guards who were startled to immediately feel relieved.

“How did you sneak in?” The old guard who was called Uncle Qi rolled his eyes and asked curiously.

Li Goudan grinned and said, “I also wanted to ask, why did you let people in just like that? Our Manor’s electronic door monitors everything.”

The few guards immediately felt guilty when they heard this. They naturally knew who the little girl was referring to.

In theory, the guests in the manor had to first report to the owner before letting them in. Although Mrs. Li was soft-hearted, she would never let anyone in if the other party was outside the door from the start.

Seeing the few guards lowering their heads in guilt, Li Goudan said with a smile, “Was it my father’s hint or my grandfather’s?”

“Jiayi... can you stop making things difficult for us?” Uncle Qi sighed.

“No...” Li Jiayi shook her head. “You won’t make it through today. Either help us or my father’s side. You can only choose one...”

The few guards were stunned. They felt that the other party’s expression turned cold as she shook her head. For some reason, the temperature in the entire guard room instantly dropped by a few degrees.

The change in the aura of this scene made them astonished. Until now, they finally believed the rumor that this girl was a cultivator. Just this aura and pressure might not even exist among the devil instructors who had trained them in the past.

— —

“Sister... Please give us a way out...” in the living room, a beautiful young woman was crying so hard that her makeup was ruined. A man about the same age as Li Jiayi was kneeling in the living room. Of course, he didn’t have the acting skills of his mother, so, he could only cover his face with his head.

“Madam... Please say something...” the female butler at the side also advised gently, “It’s not a big deal to let the young master kneel all the time...”

At this moment, Zhang Minjun, who had crossed her arms and had a cold expression on her face, felt a complicated feeling in her heart.

He was the young master, so what was she?

From the moment the guards let them in to the moment when the servants did not order the mother and son to eat and stay, to the moment when the butler directly helped to persuade them.

As the young mistress, she really did not have any face... ..

Zhang Minjun could not help but smile wryly. Yichen did not pick up the phone either. It was clear that he wanted her to compromise... ..

However, if she compromised, what difference would it make from before?

She suddenly felt very tired and could not help but think to herself, how much longer do I have to endure for the sake of my identity as the wife of a wealthy family on the surface?

When will this day end?

“When has it ever been up to a servant like you, my mother, to control whether she speaks or not?”

Chapter 348: outburst (Part Two)

Li Jiayi’s voice was actually very pleasant to hear. It was so soft that she looked like a child. This was also the reason why the guards liked her more. When they heard her call him Uncle, uncle,. They always had the feeling that their children called them when they were young... ..

However, although her voice had not changed, her aura was completely different. The housekeeper had served the Li family for many years and had seen some big shots, but she had never seen such an overbearing person. They were several meters away from each other. When she spoke, it was as if there was an invisible pressure pressing down on people’s hearts...

“Jiayi?” Zhang Minjun looked at her daughter returning. Her eyes were filled with surprise and also a little unfamiliar. How long had it been since she last saw this girl? Why had she changed so much?

When Li Goudan saw his mother calling him, he quickly walked over and comforted his mother, who was about to stand up, to sit down. However, when he reached out to grab his mother’s hand, Li Goudan’s body trembled slightly.

His mother’s hand was not warm at all, and it was frighteningly cold...

Goudan grabbed his mother’s other hand and carefully covered it, comforting her to slowly sit down. When he turned around to look at the others in the room, his expression was extremely cold.

Although he did not bring his elf body, as a wind demon, his attributes were relatively balanced. His spiritual power was almost at the level of a level-two life form. At this moment, how could the others defend themselves with just a glance? They were so scared that they stepped back.

Especially that cheap brother who was kneeling on the ground, he directly sat on the ground and shrank back to the corner of the sofa like a maggot.

“Miss... Miss...” the housekeeper summoned up the courage to call out, however, when Eggface looked over, the words in her mouth immediately choked in her throat, and she didn’t dare to continue speaking. She couldn’t help but think to herself, “Why didn’t I realize that this girl’s eyes were so sharp before?”?

“Jia... Jia Yi...” after a long while, the beautiful young woman carefully asked, “Just... Just you alone came back?” As she spoke, she looked at the door, hoping that the main character would come and help her block it at this time.

This girl's aura was too frightening. How could she withstand it?

When she heard that this girl was an immortal cultivator, she initially thought that it was nonsense, but now it seemed... .. It really was... ..

"There's no need to look..." after dog egg comforted his mother and sat down, he said faintly, "The one who's supporting you is on the way. He hasn't arrived yet."

When the young woman heard this, she bit her lip. Just as she was about to smile apologetically to stall for time, the other party spoke first, "When I came here just now, I heard you say that you want my mother to give you and your son a way out. May I ask what is considered giving you a way out?"

"I. . . We have to be reasonable... now that you're in power, you can't just kill them all..." the young woman braced herself and said.

"Kill them all?" Li Goudan smiled coldly. "If we really kill them all, you should be drinking water at the bottom of the Jialing River by now. Why are you still sitting here and making noise?"

These words not only scared the other party until her face turned pale, but even Zhang Minjun, who was standing at the side, was shocked. She looked at her daughter. She didn't expect that this kind of ruthless words that only existed in the underworld would come out from the mouth of her obedient daughter...

Moreover, when these words came out from her daughter's mouth, it did not seem to be funny at all. Instead, it gave off a threatening feeling, causing all the servants on the other side to swallow their saliva in unison.

"Tell me..." Li Goudan sneered, "You and your son have more than a dozen villas in City C and Shanghai. You have countless luxury cars and not to mention the money that was deducted from the group. Tell me, how many things do you need to be able to survive for the both of You?"

The young woman did not know what to say. She was actually a good talker, but her words were usually sharp. Under such circumstances, how could she dare to say those words out loud?

"Sister... How can you say that? We are all Li family members. You Can't take all the benefits..." the man in the corner finally mustered up his courage and said.

Hearing this, Li Goudan sneered as he looked at this fellow whom he had just met for the first time. "You really have the guts to call me 'Sis'... but it's jarring to my ears. If I hear you call me that again later, I'll pull out your tongue..."

Hearing this, the man's face turned pale. The other party's tone wasn't fierce, as if he was talking about a normal matter. However, it gave him a chill that made his hair stand on end, and the courage he had mustered instantly vanished into thin air...

"You... you should at least be reasonable... we're all family, how... How can you threaten people like that..." the young woman mustered up her courage and said while trembling.

"Family? You Think You're Worthy?" Li Goudan laughed coldly. "Get lost before I can hold myself back and kill your precious son..."

The woman's face turned pale when she heard that. She hugged her son and said fiercely, "I'm not leaving... you really have the heart to kill us here..."

The woman hugged her son and shivered. Her face did not have the slightest trace of blood. It was clear that she was still very afraid. However, she knew clearly in her heart that no matter how frightening this girl's Aura was... It was impossible for her to really do anything to her mother and son in front of so many people... ..

The Butler at the side secretly nodded when he saw this. He thought to himself, "This woman can still see the situation clearly. At the very least, she is not completely frightened by the eldest lady's Aura. As long as she can hold on until this moment, she can wait for the master to come and soften a little. There is still a chance for things to turn around...".

Just as he was thinking about this, a burst of noisy footsteps suddenly came from the door. The Butler looked over in shock and saw a group of bodyguards who were in charge of the manor's security...

He was stunned for a moment. who called these guards in?

Then, he gave a look and whispered to old Qi who was leading the group, "What are you guys doing here?"

However, old Qi ignored the butler and pushed him away. He walked straight up to Li Goudan and said, "Young miss..."

Li Goudan nodded slightly and pointed at the mother and son who were shivering on the sofa. "Throw them out..."

"Yes!" Old Qi quickly replied. Then, he gave a look to the few people behind him. A few burly guards immediately approached them.

"What are you doing? I want to see who dares to do this to you?" The woman said with a stern expression, but she was timid on the inside.

In the end, she was directly slapped by the guard. The loud slap made all the servants in the living room stunned on the spot. Even the woman who was hit was stunned on the spot with a look of disbelief on her face.

"You... you dare to hit me?"

"F * ck, you dare to hit my mother?" Faced with these guards, the illegitimate son immediately regained his valor as a playboy. He stood up and wanted to give the guard a kick, but was kicked three meters away by the other party, then, the other two guards rushed forward like wolves and tigers and locked him up.

The man felt like half of his life had been kicked away by this kick. Seeing that this group of guards who lived on borrowed time actually dared to be so ruthless, he instantly didn't dare to resist anymore...

"Little Hao?" The woman was shocked. When she saw that these guards actually dared to make a move, she immediately pointed at them angrily and laughed, "Good... good, just you wait..."

A few guards sneered and directly went forward to carry the mother and son on their left and right before walking out.

“Are you guys crazy?” When the butler saw this scene, he was stunned for a few seconds. After he recovered from his shock, he hurriedly went forward to stop them and said in a low voice.

“Throw this old man out together...” Li Goudan said coldly.

“Yes!” Old Qi’s face brightened when he heard that. This old woman was usually arrogant and acted as if she was the owner. Old Qi had long disliked this guy in the past. He did not stand on ceremony when he received the order. He stepped forward and slapped the other party on the spot. Then, he carried her out like a chick...

The servants were stunned by this scene and didn’t dare to move...

After the servant was far away, Li Goudan’s cold voice came, “All of you can leave...”

The servants felt relieved and bowed their heads to leave.

After everyone was gone, Li Goudan’s expression softened. He turned to his mother and said, “Mom, it’s okay...”

“Jiayi...” Zhang Minjun looked at her awe-inspiring daughter and didn’t know what to say. She had a complicated feeling in her heart. She didn’t expect that in the end, her daughter, whom she was supposed to protect, would become her last resort. ...

When she thought of this, a sour feeling welled up in her heart. Finally, she couldn’t help but hug her daughter and cry... ..

Li Goudan gently hugged his mother and comforted her in a soft voice. He couldn’t help but complain in his heart that he had become sensible too late. His mother was actually so wronged... ..

After about half a minute, Zhang Minjun finally recovered from her daze and asked, “What should we do in the future?”

“It seems that you like it...” Li Jiayi supported her mother, she revealed a smug look. “Your Goudan is very capable now. If you want to stay here, I will help you to be the mistress of the Li family. I will do whatever I say. If you want to leave, Goudan will take you with him. However, even if we leave, we have to leave in a glorious manner. We Can’t be bullied by others before we leave, right?”

“Look at how powerful you are...” Zhang Min saw her daughter’s expression, finally, she could not help but smile through her tears. She scratched the little dog’s nose and said, “Don’t blow your own trumpet. When the time comes, you and I will be chased out together. I Can’t afford to lose this face...”

Outside the house, Xu Xian, who was sent by the Lord Xi Ye to stabilize the situation and prevent the situation from getting out of hand, sat on the eaves. When she heard the mother and daughter’s words, the corner of Xu Xian’s mouth twitched slightly. She thought to herself, so it really is called dog egg...

Chapter 349: would such a beautiful scene really exist?

Li Goudan was preparing a family drama, and seer was not idle either. She had been monitoring the situation on Li Goudan's side to prevent her from causing too much trouble.

After all, she was not only a member of the dragon group that was deeply trusted by the authorities, she was also one of the best candidates that seer planned to send to participate in the Kunlun martial arts competition at the end of the year.

It was not easy to find a candidate for the Kunlun martial arts competition. The candidates could only be chosen from those who had not revealed their strength. Moreover, it would be best if the identity of the candidate was easier to find. Only then would it be convincing.

Li Goudan was a good candidate. She was a descendant of a family, and it was not easy for her to falsify her resume. For a girl in her twenties, it was likely that Kunlun would not think that she was also a fairy, right?

However, it was not easy to find players with such a background. Along with Liu Shiyu from the Liu family, seer only managed to find two people in total. However, there was nothing that could be done about it, it was rare for a member of a truly large family to be as free as brother Goudan and Goudan to be addicted to the game.

In fact, most of the players in the base were otakus...

Thinking of this, Seer felt a headache coming on. On the other hand, the dragon group was constantly requesting them to send more people over.

The situation in central China was quite tense. According to virien, the authorities wanted to give the outside world information that they had the ability to protect their international partners, so they wanted to send more people over.

Seer planned to use this opportunity to increase their credibility, so they planned to pick a group of people who could perform well even if they only used their own bodies to become famous in the Dragon Group. When the time came, sending these guys to participate in the Kunlun martial arts practice would be a little more convincing... ..

The rest was about the border of the Black Goat in the New World... ..

Although the undead Lord had been forced by seer to retreat back to the undead world and could not come out for the time being, the previous arrangements were clearly not chaotic.

More than a dozen cities had sealed off the imperial city to prevent the residents of the map of the Black Goat from escaping, all because they wanted to create high-level intelligent life forms.

Although the Karakorum martial exhibition had yet to begin, and he had no way of getting those immortal cultivators to test the situation, he still needed to make preparations around the boundary of the map of the Black Goat. If he could save a few people, that would be good, if he could save those people who had yet to fully transform into monsters, it would be good to split them up slightly.

However, there were some problems in carrying out this plan.

The first problem was that the southern cities outside of the map of the Black Goat were not under Seer's control.

The Steel War Empire had a massive population. Players were not enough to rescue enough people. Space cages were limited, moreover, Seer did not dare to transport the mutated population directly to the Martian base to prevent them from infiltrating the Black Goat's map.

Since that was the case, it would be a problem where to send them. The long distance to Molondor was obviously not a suitable place. In order to ensure the efficiency of the rescue, at least a few nearby cities had to act as transit stations.

Time was of the essence, and Seer had no intention of taking the time to conquer a few southern cities before considering the question of saving lives. These southern cities might be weak, but their arcane weapons were not weak against the outside world. If we want to take them down by force, Seer doesn't have the military strength...

But he thought of someone who, if he cooperated, might be able to take down those southern cities without bloodshed... ..

Rox's emotions had been very complicated recently. After being brought back to the base by Rainy Girl, Wugua, he was not infected with any energy, so Seer did not restrict his freedom of movement. He even had people bring him around the base.

The first thing that shocked him was the scene of the orcs and humans living in harmony in the base... ..

At this time, the Water Conservancy was being repaired in the base. In order to speed up the efficiency, in addition to using robots to help carry, the base also deployed some Orcs to help with the hard work.

Therefore, Rox would often see his engineers in the base commanding a Tauren or ogre to help carry the stones.

In some places where the pits needed to be polished, he would also see workers sitting on the Tauren to polish the high places.

At night, when they were resting, they would sit in groups of three or five, drinking beer and talking about their past and their thoughts about the future.

This scene made Rox think that he was dreaming... ..

After a thousand years of hatred, they had never thought that the orcs could live together peacefully. Their existences were like natural enemies, fighting to the death.

However, the current scene made him doubt his life. Looking at the human who was drinking with the Tauren and the human who was dancing with the gnolls in front of the bonfire, Rox seemed to come to a sudden realization...

"What's wrong? You look like you doubt your life..." the one who spoke was Rainy without a Melon. At this moment, she took out a piece of roasted Taro fragrance that she had secretly stolen from Wang Goudan Farm and gave it to Rox.

Rox took a bite of the food. Immediately, an extremely sweet and soft texture made Rox's eyes light up. Then, he took another bite.

"Isn't it delicious?" Raingirl, WUGUA, smiled and said, "But there's not much left. I stole this from someone's farm. The city has just begun to develop. These agricultural products are very expensive. I usually can't bear to buy them."

"City..." Rox licked the sweet taro in her hand and looked at the pit that had already been dug. She asked curiously, "You plan to build a city here?"

"Yes... like this..." rainy girl said with a smile as she pulled out the city template, Rox saw the city on the virtual screen and was almost choked by the sweet taro in his mouth. After a long time, he swallowed his food and said, "This... This kind of city... can it be built?"

"Of course!" Rain woman no melon proud way.

"So... What are you going to do with them when the city is built?" Rox pointed to the engineers.

"It depends... The rain woman said with a smile, "Most of these people who are called to repair the water conservancy don't have the talent of a craftsman. When the time comes, they will probably be trained to do something else. There will be more people lacking in our city in the future. There will be a shortage of farmers, a shortage of vendors, a shortage of doctors, a shortage of police, and there will be many jobs to arrange for them"

"You... plan to let them live in the city?" Rox said in a daze, looking somewhat incredulous...

Such a beautiful city, even the floor was paved with something like Jade. They actually planned to let a group of civilians live in such a city?

"Nonsense, wasn't this city built for people to live in?" Rain Woman Wugua rolled her eyes and said.

"Then... What about these orcs?" Rox pointed at the Tauren in a daze and asked.

"Of course it's the same..." Rainmaiden wugua nibbled on the taro and smiled. "This city was built because of them..."

Rox immediately fell silent when he heard that. Then, he looked at the people who were full of life and suddenly understood why they were so excited when they worked, it was completely different from the numb craftsmen he had seen before.

He imagined that after the beautiful city in the picture was built, the scene of the craftsmen and Orcs living in it was so incredible... But it was also so beautiful... ..

"Really... will there be such a beautiful scene?" Rox muttered in disbelief.

"You'll see it soon..." Rainmaiden Wugua smiled. She was about to say something when she suddenly froze.

"What's Wrong?" Rox asked curiously.

"The Lord wants to see you."

Rox was stunned. After a moment of silence, he nodded. After wandering around the base for a day, he actually wanted to see the Lord. He had a lot of questions to ask the Lord... ..

Chapter 350: Conversation (I)

Under the lead of Rainy, Rox quickly arrived at the Lord's room in the main base. This high-end, all-metal base, coupled with the sophisticated equipment running in the base, made him feel particularly curious, what made him even more curious was the number of players here.

Before, he did not feel much, but after entering the base and seeing the players coming in and out, Rox finally felt the terror of this force.

The Green Giants and beautiful elves all had a frightening pressure. Even if they weren't as strong as the few he had encountered before, they wouldn't be much weaker...

Looking at the base's appearance, there were actually more than a thousand of these people. Just how terrifying was this power?

He suddenly believed Rainy's words. This was probably a world outside of the continent. If such a power had existed on the continent long ago, it wouldn't be unknown...

Under the guidance of Rox, he came to the outside of the Lord's room. Just as he was about to enter, he saw a person he had never thought of.

It was the old chief of the Southern Land Tribe, Marn...

Although Rox's main battlefield after he became famous was in the north, he still knew an old shaman chief like Marn who had lived for hundreds of years. After all, he was a famous figure.

He did not expect that not only the soldiers of the orcs were captured in that battle, even a leader like Old Marn was also captured?

Old Marn was also stunned when he saw Rox, but he immediately revealed a friendly smile.

This smile made Rox's body freeze, and he did not know how to respond for a moment.

"You were also captured? Respected Marshal?" Old Marn asked with a smile.

Rox: "..."

The way the orcs greeted him was really straightforward. Couldn't they be more subtle about such things?

While he was complaining, Rox suddenly thought of a problem. Since Old Marn was here, then were the soldiers and generals who participated in the Southern battle still alive?

Old Joseph and the people with the skull crusher?

When he thought of this, Rox's heart suddenly warmed up. The Empire had basically fallen, and his old comrades had suffered a massacre. Knowing that his former subordinates might still be alive was a good shot in the arm... ..

With a rather excited mood and many questions, Rox said a few words to old Marn before stepping into the so-called Lord's room.

After entering, Rox was slightly stunned. To be honest, this so-called Lord's room was more stingy than he had imagined. Although the setup was very exquisite, the space was really not flattering, not to mention the Empire's ministers.., it felt like some of the clerks'office locations were much more grand than this one.

And the most important thing was that he saw a bed in the corner...

Seer noticed the other party's gaze on the bed and did not feel awkward. She said in a calm voice, "The base doesn't have enough space at the moment, I'm sorry to have made a fool of myself..."

Rox paused for a moment. He had heard that some of the captured farmers now had their own rooms. How could the leader of a force live such a frugal life?

This scene made him feel a sense of respect. No matter what the purpose was, a king who could restrain himself from being extravagant was an extremely valuable quality in his eyes...

"Please sit..."seer made a gesture of invitation. Rox looked at the strange chair without much hesitation. However, after he sat on it, a strange feeling welled up in his heart. This chair... .. was really more comfortable than he had imagined... ..

He felt that every muscle in his back was supported, especially his waist. He felt unusually comfortable the moment he sat down.

He could not help but think to himself, 'If the empire had such a chair, those civil officials who did not train often would not have problems with their backs...'. .

"Marshal, how do you feel after staying here for a day?"Seer gently opened the topic.

"It's a wonderful place!"Rox narrowed his eyes and said, "Although it's still very desolate, it's full of vitality. It's hard for me to imagine that the orcs and humans can coexist so harmoniously. It's also hard for me to imagine that the enslaved orcs would reveal that kind of smile... "...". "Can you tell me what you've done?"

Actually, he had always wanted to ask this question. Forget about the farmers and engineers, but the former warriors and the orcs seemed to be the same. This made him very puzzled, especially the orcs.., how did the other party make an orc who regarded glory as his life willing to be a slave?

This was something that no one in the empire had done in the past thousand years!

"Nothing special..."seer crossed his fingers and replied in a low voice, "I just gave them hope when I enslaved them..."

"Hope?"

“Yes, hope...” . “...” . Seer smiled and said, “Apart from the heavy work and rest, the only thing that your enslavement brought to each other was despair. No matter how hard they worked, they were still a slave, a slave who could be whipped to death at any time, right?”

Rox said, “Isn’t that what defeat is like?”

Seer said, “But you have lost their value. Among the orcs that you enslaved, there are powerful warriors, witch doctors who are proficient in herbal medicine, and gnolls who are good at tracking, but you have collectively turned them into brick-moving coolies. They will either die or carry bricks for the rest of their lives. In such a day with no hope, the orcs who have some thoughts are naturally unwilling to submit, right?”

“Laughable...” rox sneered, “They are a foreign race, using their abilities? If you give them your sword, won’t they kill you in return?”

“That depends on whether you are strong enough...” . Seer smiled, “The people of your world have confronted the orcs for so many years, but you still haven’t discovered the nature of the orcs. Let me ask you, don’t the Orc tribes often fight against each other “Those weak tribes have always been controlled by the powerful tribes. No matter how many years they have served the large tribes, as long as a stronger tribe leads them, they will not hesitate to point their spears at their former masters. Why is that?”

“Because they are despicable, because they have no loyalty in their hearts. This is the nature of the beasts!” Rox said coldly.

“Really?” Seer smiled slowly. “But according to my investigation, these low-level orcs often don’t care about their own lives when they are the vanguard, and they fight bravely. Most of the ORC Army’s death squads are formed by the beasts that you say have no loyalty at all. What do you mean?”

“This...” Rox was speechless for a moment, he had fought with Orcs for many years, so he naturally knew the valor of those death squads. It was the most appropriate term to describe them. He had once seen a Gnoll’s intestines scattered all over the ground, and half of its face had been shaved off, however, it still charged forward valiantly and bit a soldier to death. Such a fierce and reckless battle style made it hard to say that they had no loyalty.

“Actually, your empire had a chance to unify this continent a long time ago. You’ve had this chance since your first emperor was able to stand firm, but it seems that you’ve been turning a blind eye to this opportunity...”

ROX’s expression changed. He looked at Rox solemnly and said humbly, “Please enlighten me...”
