

## A Bunch 351

### Chapter 351: Conversation (Part Two)

As an old man who had lived for hundreds of years, he did not lose his mind because of Seer's sarcasm. He still had many questions in his heart, so he was quite patient at the moment.

Seer nodded and continued, "The most inefficient way for a race to conquer another race is to exterminate everyone else, because the resistance aroused is the most absolute. Your Steel War Empire's ancestors were the first family in the western islands to accept the dwarves, so they were able to build magnificent passes on the continent, which allowed humans to stand firmly on the continent full of beasts with their weak bodies... "... why can't you learn something that your ancestors have been demonstrating to you for more than a thousand years?"

"You mean... to merge with the Beast Race?" Rox was stunned. "Is that possible?"

"Is it possible that you've seen it all today?" Seer smiled.

"So I want to know how you did it?" Rox said humbly.

"I've already said it... "... Give Hope... "... " Seer said unhurriedly, "To return to the previous topic, it's actually very simple why the small tribes of the beast race are like this. Because in the grasslands, only by relying on the strong tribes can they survive and even have the hope of becoming prosperous and powerful. That's why they would risk their lives for the big tribes. That's because the stronger the big tribes they rely on, the safer their tribes will be. And when the big tribes don't have the ability to protect their tribes, they will naturally rely on other powerful existences... "..."

Seer paused for a moment, she looked at him and continued, "As long as they can protect their tribe, they don't care whether you are from the fire tribe or the gale tribe. As long as you are strong enough, you can protect the old, the weak, the women, and the children in the tribe. You can make your life better and have more hope. They don't care who it is, even if it is a human!"

"This... how is this possible?" Rox wanted to refute immediately. "Why would the orcs rely on humans to fight against their own people?"

"Why do you think they are your own people?" Seer laughed. "What makes the gnolls and Tauren look like they were born in the same womb? "Every tribe is different. Why do you have to divide them together?"

"Because..." Rox was stunned. He stammered for a moment and did not know how to continue.

"Because they look like beasts?" Seer smiled. "So you think they are all the same, right?"

Rox: "..."

Seer: "Don't feel embarrassed. This kind of exclusion is not the case for your family. All intelligent life forms in the world are actually xenophobic when they encounter other tribes... Seer: "...". This was a

manifestation of the pride of a race. However, it was precisely because of this concept that you lost the opportunity to integrate with them... “...”

Rox was silent for a long while, then, he raised his head and asked, “I heard from your subordinates that you intend to let those captured humans or beasts live in the newly built city. You even promised that if they could become part of the city and have their own residence, they could become warriors, doctors, and even administrators. Is this what you mean by giving Hope?”

Seer: “Yes!”

ROX: “Are you lying to them?”

Seer: “Why do you think so?”

“Because I think it’s impossible...”. ROX frowned and said, “Forget about those stupid beasts. Even if they are humans, most of the people you captured were peasants or ordinary soldiers without any knowledge. How could they become a doctor, a judge, or even.. “... “... a Mage?”

Seer said, “Just don’t know how to teach them. What’s so strange about that?”

“You’re willing to teach them this knowledge?” Rox was stunned. In his opinion, the greatest advantage of nobles ruling over commoners was that they had a monopoly on knowledge, especially the mage class. It was a threshold that the commoners could never reach.., this guy was actually willing to share his knowledge with everyone?

“This thing, it won’t rise in value even if we keep it...” seer laughed. “Just like how your empire lowered the threshold for knights. Isn’t it because you know that the more people there are, the more elites will be selected?”

“That’s because the war in the north made us need so many knights!” Rox frowned.

“It’s the same here...” seer spread his hands and smiled. “The new city I built needs so many doctors, judges, police, merchants, and mages...”

Rox looked at him in surprise and was stunned for a long time before he said, “You... you... Don’t you have anyone?”

“You can’t say that...”. Seer shrugged and said, “You’ve seen my people. They are all talents above the general level of your country. I can’t waste their talents to make them do those things, can I?”

“Si...” Rox sucked in a breath of cold air when he heard that. It seemed that this guy was actually an empty shell force... “...”. Only generals and no soldiers?

What kind of strange situation was this?

“Ahem...” looking at the other party’s strange gaze, seer coughed lightly and said, “The situation is indeed a little complicated. There are some things that are not convenient for me to reveal to you now. You only need to know that I have resources that can accommodate the entire population of your world.”

The resources that can accommodate the entire world. Rox was stunned and could not help but think to himself, what a big tone... ..

“Then why did you come to me for a face-to-face meeting this time?” Rox immediately became vigilant.

“I need your prestige...” seer said very straightforwardly, “I hope that you can use your prestige to help me take down the six Southern cities and organize soldiers for my use...”

“You want me to betray the Empire?” Rox sneered.

“There is no empire anymore, Marshal...” seer said faintly, “Do you still think that there is a need for the emperor in the imperial capital who is controlled by shadow stream to be loyal?”

“But why should I be loyal to you?”

“Because I can give the remaining citizens of the Empire a better life...”. Seer said gently, “I believe you’ve seen that the emperor you used to be loyal to is working with an evil force to turn the human world into Hell, and my goal is to build a heaven on the human world.” “...”. “...”

“Heaven? You really dare to say that...” Rox sneered.

“The citizens here believe that this place will become a heaven, and everyone thinks so... including the old orc priest you met at the door just now...”

Rox: “...”

Seer: “I can give you two more days to think about it, but please make a decision as soon as possible. You should know that every day you delay, the possibility of your land becoming hell increases...”

Rox paused for a moment and thought of the monster that General Yeager and the others had become after their death. If all the living people in the north had become like that in the end, then the world might really be no different from hell...

Chapter 352: Grandpa Lu’s strategy

The drastic change in the situation in the new territories did not affect the development of the base. With the efforts of all the engineers, the foundation of the Water Conservancy project and many city modules was almost ready. Due to the massive expansion of the population, a simple market for the base had begun to form slowly.

At this time, Grandpa Lu, who was still working hard to transform, was writing a new strategy for the game based on the development of the base.

“Hello, everyone. Long time no see. Your Dear Grandpa Lu has come to write about the daily development of the base again. Don’t blame me for writing slowly. There’s a reason why I haven’t started writing for a long time. Because the size of the base is getting larger and larger, it’s becoming more and more troublesome for me to collect data. In order to ensure the reputation of the Lu Corporation’s Guide, I can only sacrifice the efficiency of updating...” . . After all, our program mainly

depends on quality to attract viewers, and not like the next to some of the wisdom of the day by some mixed jokes to win traffic... ..”

“Alright, let’s get back to the main topic. The base’s first city’s basic foundation is almost ready. Grandpa Lu will come today to predict the future situation for everyone. Let’s first take a look at the basic situation of the city. First of all, the size of the city. According to the intelligence, the new city’s area is 16,000 square kilometers. The planned population reserve is 1.5 million people, and the current base, including the people captured from the outside, is only around 500,000 people... ∴ “...”

“How is it? This grandpa is a professional, right? These statistics were not officially released, but this Grandpa went to the developers in charge of the city to investigate. Just this little bit of information took me a few days of effort, so why don’t you guys click like, coins, and collect them all in one wave?”

“Ahem, let’s get back to the main topic. From the population plan, the commercial housing speculation that many players are worried about is unlikely to happen. In our country, the proliferation of commercial housing is not only due to intentional speculation, but also due to overpopulation and excessive supply and demand. Take Shu as an example, a city with a resident population of more than 14,000 square kilometers has a total population of more than 17 million. Therefore, I advise those players who want to buy property to consider carefully and not be poisoned by their own national conditions. Property speculation can not be made anywhere...”. “...”

“Moreover, there are only a few tens of thousands of players. Most of them are captured from the new territories. How much money do you think the players are willing to spend to buy them a house?”

“As for the business district and the entertainment district, don’t expect too much profit for now. After all, the number of players is still too small. Most of the people in the base are still hard-working bricklayers and don’t have much spending power. Of course, in the long run, these modules are very valuable. However, the short-term profit may not be as significant as many players. If you spend a large number of loans, the players may have to be more careful. You may not be able to endure the high interest until the profit is good...”. “...”

“Grandpa Lu is here to advise those big landlords to think twice before taking action. Don’t think about becoming fat in one go. It’s best to divide up the land and let the risk flow, reducing the pressure on the loan. Otherwise... when the time comes, you might cry!”

“The matter of the land construction will stop here for now. After all, the foundation has just been laid, and many things are just my guesses. Next, let’s take a look at the basic market research of the base now...”

“Now that the population has increased, the supply and demand of food is the most pressing matter for the base, and it is also the largest share of the current market. Fresh ingredients are far more popular than nutrient fluids. With the first batch of products from the major farms being unearthed, the basic farmers’ markets have almost started to become lively. According to my investigation, the biggest sales now are the federation’s F grade crystal rice and a type of tuber agricultural product called White Dragon.”

“These two products were mentioned in Grandpa’s agricultural products lecture hall. If you are interested, you can go to the forum area to look for them. Grandpa mentioned the advantages of these two products before. They are easy to grow and yield, but their disadvantages are also very obvious. Their taste and energy level are far inferior to some e-class products.”

“Grandpa Lu said that these products have great advantages in the early stage. The reason is very simple. Because the cost of growing them is low, it will lead to a lower price. It will also become one of the main foods that players buy for their slaves. However, because there are too many people growing them, the market competition is fierce, and the price is very low. Now, White Dragon and Crystal Rice are both 0.01 points per kilogram. One point can sell them for about 100 kilograms. Although the market demand is very high right now and almost all of them can be sold out, if you consider the output per mu and the cost, the profit of this price is actually not high. It is far inferior to the E-class products of the same period.”

“Among the E-grade products, the ones that are selling well are taro raw fragrance, water cloud bean, colorful cloud potato, and so on. These products are very popular in the market due to their delicious taste, high nutritional value, simple cooking method, and full stomach. Of course, there are also some e-grade fruits that are more popular. Because there are fewer people planting them, but the market demand is also very high, causing the price to rise, especially the taro raw fragrance. According to Yesterday’s statistics, it has already risen to a high price of one point six kilograms. Back then, after listening to Grandpa’s words, planting it has already earned a lot of money, so who is still not convinced?”

“Of course, this is probably the only wave of good news. After that, when there are more people planting, the price will naturally fall accordingly, so Grandpa does not encourage people to follow the trend. If you want to get rich, you have to try to grow new products that are more in line with the market.”

“As for the pastures, there is not much to talk about. Star Rhinos is already a mainstream product. Due to the lack of meat supply in the base, Star Rhinos, which produces a high amount of meat, is currently the most suitable product for the situation of the base. After all, most of the Green Titan men in the base are meat lovers. They exercise every day and their appetite is also very large. There is a high demand for meat. As for products such as poultry, fish, and shrimp, there is a certain market. However, most of the people who buy these kinds of food are elf players. There is less demand, and breeding takes more energy. The market still needs to be slowly developed.”

“Finally, let’s talk about the development of the basic market. The Farmers’ market is now very competitive, and the market is becoming more and more complicated in the future. It’s not easy to predict what products will be produced next season. However, I can recommend some other ideas to everyone. Now that the base’s grain production is slowly increasing, other needs will definitely follow. Actually, everyone doesn’t have to focus on eating all the time. In fact, you can consider investing a certain amount of energy into the textile industry...”. “...”

“Nowadays, most of the players’ clothes are made by the only official textile factory in the base. The supply is obviously insufficient. This does not include the number of people under the players. I’ve seen it myself. Basically, all the slaves are only wearing the same set of clothes as before they came. They don’t even have a change of clothes. In the long run, there will definitely be a demand for them.”

“I suggest that players consider growing some cotton and hemp products. Pastures can also consider raising livestock that produce fur, or let people raise some silk worms. When the time comes, there will definitely be a lot of demand!”

“Alright, that’s about it for today. After that, Grandpa Lu will focus on the development of the city and the latest mission situation in the New Territories. I will strive to produce fresh guides for everyone as soon as possible. Everyone, kneel down and beg for a one-click, three-link, crab!”

As usual, after Grandpa Lu’s post was posted, there were more than 10,000 replies, and the number was still increasing rapidly.

[ I regret not listening to Grandpa back then. All the land was planted with white dragons. The SH \* T has almost dropped below 0.01 points per kilogram. The profit here is not even enough to pay off the loans. What’s there to earn! ? ]

[ that’s right. who was the first to cut the price and rob the market? Don’t let me find out. If I find out, I’ll beat them up one at a Time! ]

[ grandpa, what kind of species do you think is better for growing cotton? Please reply via private message! ]

[ upstairs, why don’t you consider raising spiders? I heard that the Lord can get those big spiders. The silk they produce is very beautiful. However, those spiders eat meat. It’s more dangerous and difficult to raise... ]

[ wow... The game has already begun to develop its market? We haven’t gotten in yet. It’s been almost a month since we’ve gotten in. What’s going on with this game? If you continue like this, you’ll lose us... ]

Chapter 353: What Should I raise?

Wang Goudan was in a particularly good mood these two days. She had made a lot of money from the sale of sweet taro. The money she had earned from this issue alone was enough for her to pay for more than 20 loans...

In order to achieve her goal of becoming a little rich woman, she planned to continue her efforts. Grandpa Lu had said that after this issue, the next issue of planting sweet taro would definitely be multiplied. If there were more people planting it, the market price would definitely drop.

Now that she had repaid these few loans, and some of them had been sent away by her father, Goudan still had some money left. She planned to look for Grandpa Lu to discuss and invest in other projects.

Grandpa Lu’s successful prediction previously had increased her trust in him to an unprecedented level...

As usual, she came to the elven base. At this time, the elven base was not as lively as usual. After all, the newcomer channel had been suspended for almost two months, and most of the ready-made elves in the base had already been successfully formed, otherwise, Dwayne would not have had the time to play the role of the leader of the occult sect in the real world.

Currently, the elven base did not have any shapeshifting. Other than Grandpa Lu, there was only that bar of soap. Unlike Grandpa Lu, Brother Soap had recently fallen in love with playing with dogs and would often provoke the group of idiots in the base. From time to time, they would see that group of dead dogs running around chasing soap outside the base. Sometimes, it would cause the entire base to be in chaos. Many players would hide far away, including Wang Goudan...

In other words, Grandpa Lu was the only one left in the huge transformation base...

When he saw Grandpa Lu again, Goudan was still shocked by what he saw. He saw a huge green spiral-shaped object that almost filled up the empty space outside the transformation base. Looking at the huge jelly body that squirmed from time to time, Goudan couldn't even tell which side was the face and which side was the asshole...

"Grandpa?" Goudan said carefully.

"Eh? Goudan?" Grandpa Lu's body shook, the swaying jelly body obviously undulated for a moment, but it seemed to be unable to move, grandpa lu said weakly, "Um... can you walk in front? I Can't move. Oh, right, right, over there, over there..."

Goudan walked around the base and searched for a long time before he finally found a pair of eyes that were almost narrowed into a line...

As for the ear and nose, Goudan couldn't find them at all...

Could it be... that they were squeezed out by this fat?

Goudan guessed in surprise.

"Goudan still has a conscience and knows to come and see me... Those dogs are hot, I've finally seen through them..." Grandpa Lu's voice sounded like he was about to cry, f \* CK, he was online for ten hours every day. Lying in this base, he couldn't even turn over. He still had to insist on the meditation technique that instructor Virien had mentioned. It was too f \* cking unbearable...

"UH... ... No one came to visit you?" Doggie asked curiously. "I remember that the military mission in the north ended early. Didn't those players return ? Where's brother Doggie ? And why didn't brother G come to look for you ?? Didn't you two get along well?"

"Don't mention it..." Grandpa Lu Sighed. "That guy, Ah Gou, didn't come back at all. He went directly to the Atlan family to look for his mistress. He didn't take me seriously at all. Tell me, is a female NPC more important than me?"

Eggface:"..."

"Then... Where's brother G?"

"That guy is even more ridiculous. He hasn't been online for a few days, and he doesn't pick up his calls. I don't know what he's doing. Could something have happened?" There was actually a hint of worry in his grandfather's tone.

Eggface was slightly stunned when he heard that. He suddenly remembered that the little fairy had been gossiping a few days ago, and it seemed like Pu Yunchuan had brought the female NPC back to reality.

He was probably living a shameless life right now, so it was better not to say anything to hurt his grandfather...

Therefore, he asked, "Grandpa Lu, I've read your strategy and feel that it makes sense. I want to expand the textile business. Do you think it's better for me to grow cotton or hemp?"

"Oh?" Grandpa Lu became excited at the mention of business, and the corners of his eyes that were narrowed into a line instantly widened.

"Doggie is still enterprising. If you want to go into the textile business, I don't suggest you go into the planting business."

"Why?" Dog Egg tilted his head and said.

"There are too many people..." grandpa lu smiled and said, "After my post came out, there were a bunch of cotton plants. The rarer the item, the more valuable it is. We have to pick something with less people to do..."

"Do what?" Dog Egg said blankly.

"Raise bugs..." grandpa lu said excitedly, "I've checked. High-grade animal silk products have magic conductivity and can be enchanted. It's a high-end textile. We can try it."

"Raising insects..." eggface frowned slightly. As a girl, she had a natural resistance to insects...

Therefore, she asked weakly, "Raising what?"

"There don't seem to be many species open in the base now. There are only these three..." Grandpa Lu said as he stretched out his fat hand and tapped on the screen.

Goudan looked over. There were three types of insects on the screen. The first type was the ice silkworm, a level 1 creature. The ice silk produced was very friendly to the ice element, and it produced a large amount of stable quality silk. It was a very good type of silk worm, the breeding was not high. It only needed the support of an acre of land and some cold mulberry leaves.

However, the disadvantages were also very obvious. The silk produced by this kind of ice silkworm only supported the ice element's magic conduction. The market demand was probably not very large, but the advantage was that the silk thread was very beautiful. Even if the magic conduction was not taken into account... It was also very good in terms of aesthetics... ..

The second type was the blue cloud butterfly. When the larva became a pupa, it would produce a blue-green silk pupa. It had excellent wind element magic conduction ability. The clothes made of this silk thread were very friendly to the base elf assassins and wind demons. The market prospects were very good., the drawback was that breeding was expensive. The larvae of this blue cloud butterfly only ate a type of sugar beet called Nomi Tooth. This kind of sugar beet was relatively difficult to grow. It was a D-grade product, and the yield was extremely low. If they were to breed this kind of thing in large numbers., the demand for fields would be much higher. Moreover, this kind of creature's body was fragile, and it had a higher demand for survival temperature and humidity. It needed careful care, and it was more troublesome to raise.

The third type was the black gold spider, which was currently the highest grade species of filarthritis in the base. It was a grade 3 creature, and it had a strong adaptability to the environment. It did not require much care, and the silk produced from it had a very high practical value, it had extremely high magic conductivity to the earth, metal, and wind attributes, and its output was not bad. The only drawback was that its cost was high, very high, because it ate energy crystals and meat!

It required high grade meat, and the meat of at least a level 1 creature to ensure that the black gold spider's nutrition was balanced, as well as the quality of the silk thread. Moreover, this kind of creature was very aggressive, so when it was retracting the silk thread... It could not be called for low-grade farmers. It was very easy to turn it into food... ..

After looking at the information, Eggface was stunned. "Then... What do you think we should raise?"

"Of course we should raise the last one..." a sudden voice sounded from behind.

Eggface and Grandpa Lu were both shocked. They turned around and saw seer standing there with a smile on his face...

Chapter 354: Enticement...

"Lord?" Eggface was taken aback by the unexpected arrival of this NPC, especially after learning that this NPC was no ordinary NPC.

Grandpa Lu's expression brightened as he thought, 'could it be that the long-awaited random quest is coming?'

Seer did not care about their expressions, he continued, "The spider raising market is the best. There are fewer developers in our base, and even fewer mages choose the plastic element. It would be a waste for you to raise ice silkworms. The green butterfly raising market is mainly targeted at elves, and its market share isn't big either. Spiders are different...". "..."

Seer paused for a moment before continuing, "It can almost look at the entire base. The Earth attribute can increase a certain amount of power burst. This is very useful not only for warriors, but also for assassins. Moreover, the silk threads of spiders are more flexible. They can be used to make gloves, leg guards, and other small parts. Not only the silk threads, but the venom and body of these spiders are also good raw materials for alchemy potions. They have a lot of breeding value."

Goudan was stunned for a moment, and instantly understood. The Overlord was planning to persuade her to raise spiders...

But... it was so disgusting...

Goudan's face immediately pouted. To be honest, she hated insects the most in Dong Wu, and among insects, she hated spiders the most, even more than cockroaches, she remembered when she was a child helping her grandmother clean up the old house, she saw a female spider fall on her face and saw the furry fellow up close. Her stomach was like a blister, and she had six eyes, she had been so scared that she had almost fainted.

After that incident, she had been traumatized for half a month. Even now, she still felt goosebumps all over her body when she thought about it...

"Little Doggie... You Can't lose weight with your face when doing business..." Xi Yeyu said earnestly, "Profit is the way to go..."

Actually, when he saw Grandpa Lu's post, he had been paying attention to whether there was anyone in the base who wanted to breed it. In fact, the black gold spider's malpractice was not as simple as it was described. It was actually a very vicious product. It was similar to the mutated monsters in the map of the Black Goat... Its stability was extremely poor... ..

This thing was not an official product of the federation. Instead, it was a hybrid product developed by a senior of the same level as him. At that time, it seemed that he had even patented it. Back then, he had asked the other party for some seedlings.

At this time, someone had the intention of breeding it, so he wanted to let Goudan test the waters.

Of course... He didn't do it on purpose to trick Goudan, but he had a plan. Seer's opponent was a biological lord. If he had the chance to take him down, he might be able to obtain a part of his opponent's technology tree.

Moreover, many of the alien creatures in the Black Goat Formation were very interested in breeding them. Such a high-level black goat formation was both a challenge and an opportunity for seer.

Just like how seer was currently researching star's luster in the base, he actually had plans to breed them later on. Aside from their combat power, these special mutated creatures also had a high research value. They were very good alchemy materials.

However, Seer had yet to develop a suitable breeding method. After all, those creatures were too dangerous.

However, he had to strike a good start first. In order for players to have the awareness to breed such dangerous creatures, he had to first let the players see the huge benefits of breeding such dangerous creatures... ..

Of course, if the breeding failed, it would be the players' own business. There had to be risks in everything, right?

Seeing rain girl's bitter face, seer was about to continue, "Don't think that this is something that no one wants. This lord has very few black gold spider sprouts. If you contract it, it will basically be your exclusive product. Monopolizing the business, you don't need this Lord to teach you how big the profit margin is, right?"

F \* ck!

Grandpa Lu's eyes turned green. He was just about to press down on Goudan's head and quickly agree, but this little girl still looked conflicted.

"Lord..." Goudan suddenly said, "The job suitable for breeding in the base is the flower spirit, right? Why Don't you look for them?"

Xi Ye's lips curled. She thought to herself that this little girl usually looked silly, but at critical moments, she was just like her father, so smart to the point of death... .

I don't like it...

Of course he wanted to raise the flower spirits, but the base of those flower spirits, one by one without desire, every day online sun, grazing, playing with dogs off the line, one by one listen to let them raise spiders. It just means I'm not interested... .

It almost killed him...

But he can not force people to do anything, after all, most people still regard this as a game.

That was why he had found Wang Goudan. The reason why she had been given a monopoly was to raise the prices of textiles in the future. It would make those casual players who wanted to save some money to buy a beautiful piece of clothing to be satisfied move about. It would also let them know the benefits of breeding these things... ..

Most of the flower spirit players were women, even if they were men. However, the essence of the flower spirit would allow them to have a natural passion for beautiful clothes. In order to increase their motivation, Seer planned to take the lead in creating a high-end brand.

It would let them know that they could wear high-quality clothes as long as they were willing to breed them... ..

It had to be said that seer had broken her heart for this group of ancestors.

Of course, in the face of Goudan's questions, seer naturally could not reveal her awkward side. Thus, she could only display her lord-like dignity, she coughed lightly and said, "Cough... This lord has given you a chance first. If you're not willing, this lord can find someone else..."

"No, no, no..." when Eggface saw that this matter was about to slip away, he immediately became anxious. Although he did not know if there was a trap, she could still understand the value of this... ..

Hence, he whispered, "Then... does the contract need money?"

"Eh, the contract doesn't need money..." Xi ye smiled and said, "After all, the cost of breeding is expensive. This lord can also provide some subsidies! !"

"Really?" Eggface's face lit up, but then he looked at Xi ye suspiciously, "Lord, you suddenly became so generous. You're not planning to scam me, right?"

"How can that be... when have I not been generous?"

Why is this girl so sensitive? ... My intention to scam you was clearly so hidden...

Just as he was thinking, Xi Ye's body suddenly froze. Eggface saw this and quickly pointed at her, "Ah Ha, as expected, you're feeling guilty!"

Xi Ye rolled her eyes and sent a private message. "The system just said that Li Gou Dan is requesting for her mother to enter the game directly."

“Ah?” Wang Gou Dan’s eyes instantly lit up as he said with a gossipy expression, “What’s going on with Jiayi? Lord, can you tell me...”

Actually, she really wanted to follow Li Gou Dan back to watch the show. However, she was the only one in the base who was willing to stand guard for Li Gou Dan. She was also unable to be in two places at once...

“Well...” Xi ye looked at the gossipy Li Goudan and sighed slightly. She slowly told him about Li Goudan’s private messages over the past few days. ...

Chapter 355: This is not a bad idea!

“Who told you to chase them out?” Outside the Li family manor, Yichen looked at the security guards with a gloomy expression.

At this moment, the group of guards looked at the furious Li family head with a strange expression. To be honest, as the leader of a group, Yichen still had the prestige of a superior... However, if he wanted to scare these special forces soldiers, who had fought to the death with bandits and pirates on the front lines, with this small amount of businessman’s aura... .. It was still a little lacking.

Most importantly, not long ago, there was a master who had also scared them, but their auras could be said to be as different as the clouds and mud. If the Miss’s aura was like a fierce tiger, then this master in front of them was no different from a garden cat...

“It was Miss’s order,” uncle Qi replied.

“Miss’s order?” Li Yichen sneered. “Who’s in charge of this family? Who’s the one paying your salaries? How dare you interfere with the master’s family’s affairs? Old Qi, are you out of your mind?”

The guards were stunned for a moment and turned to look at Old Qi. Back then, when miss forced them to declare their stance, old Qi was the one who ultimately sided with miss. Now that their employer was angry, although his aura could not scare them, but the threat of losing their jobs still made them quite worried.

It must be known that these retired special forces soldiers, although they were first-class experts in the army, it was difficult for them to display their abilities in the ordinary society, after retiring from the army, being a bodyguard for such a group of rich people was basically the most ideal job.

The price offered by the Li Group was not considered low in all the groups. Their newest newcomer, Xiao Wang, had an annual salary of 500,000.

Once he was fired, this kind of opportunity was very difficult to find again. Moreover, these group wealthy businessmen were all connected to each other. If these people were fired, it was likely that they would be cut off in this aspect in the future...

Therefore, the risk of helping miss was actually very great...

In fact, even old Qi himself did not know why he would lean towards Li Jiayi's side. Although he sympathized with his wife's situation, this bit of sympathy was simply not worth mentioning compared to his own rice bowl, that was why they didn't hesitate to let her in.

It could only be said that Li Jiayi's imposing manner at that time was too strong. It was so strong that they almost instinctively surrendered... ..

After the incident, all of them suddenly had some regrets... ..

Just like what they said, the one who gave out the money was me. What was the point of fawning over another person?

"Master...". Old Qi smiled. "You invited US here to ensure the safety of the manor and madam. Although you're the employer, the target of the mission is madam. As soldiers, we don't have to go through so many twists and turns. Since it was decided that way, we naturally carry out the mission. Madam and miss instructed us to do so, and if there are any changes in the mission, please give us clear instructions. For example, if you want us to listen to the lady behind you from now on, please specify the mission "..."

"You..."yichen choked with anger. He did not expect the usually honest-looking old qi to be so eloquent.

"That's right, master... If you want the mother and son to move in, just say so. Why do you have to hide behind and let them come here to cause trouble?"

Just as Yichen was about to flare up, a cold voice suddenly rang out. His body trembled as he raised his head to look. Unknowingly, Li Jiayi had appeared at the door without a sound.

He was slightly startled when he saw Jiayi. The last time he saw her, her appearance was obviously different from now. Why did her elegant appearance return to its original state?

"Jiayi..."he looked at his daughter who had returned to her original appearance, he calmed down a little and tried his best to keep a straight face. "What can't you say? You threatened the Sinking River and asked the guards to chase her away. Now, if you have the ability, why are you acting like this?"

After thinking for a long time outside, he felt that it was impossible for him to give in to the current situation. Hence, he wanted to use his father's image to suppress the situation.

Li Jiayi looked at her father expressionlessly and said, "If you're not unreasonable, then when are you going to be? Didn't you bully your mother because you have some ability?"

"When did I bully her?"Li Yichen was suddenly angry. "After so many years, have I ever missed you mother and daughter? In the end, the two of you became so unreasonable after gaining power. No matter what, he is your blood relative and your blood brother. Do you have the heart to force your grandfather to kick him out of the Li Family?"

"Why not?"Dog-egg li asked plainly.

"Good, good, good!"He laughed angrily. "If you're so capable, why don't you kick me out as well?"

"That makes sense..."Goudan's cold face suddenly revealed a look of realization, he clapped his hands and said, "Fine. Just go back and tell the old man that if he's willing to chase you out of the Li Group and transfer all of his shares to my mother, I can do whatever he wants!"

“What did you say?” He froze on the spot. He did not expect his daughter to give such an answer?

He could not help but feel that he had reached the end of his rope... ..

It should be... a joke, right?

“Sis... How can you talk to your father like that?” Li Minghao, who had not interjected, asked weakly.

In reality, he was so excited!

When he found out that Li Jiayi, whom he had never paid attention to, was actually a member of the sect, he understood that he had to be weak in this rebellion. The only person who could protect them was his father, Li Yichen.

The reason why they came crying to Li Jiayi before she returned was to infuriate the mother-daughter pair. Reality proved that the other party was dumber than he had imagined. She had such a good card, yet she was so emotional, she could not keep her cool at all. She even dared to ask the old man to fire Li Yichen!

She was talking about this stupid woman in front of him. Even if you had the ability and crossed the line, would the Li family still tolerate you?

At this thought, he was about to add fuel to the fire, but in an instant, he couldn't continue his words.

It meant that he couldn't continue physically, because the tool he used to speak had been controlled by someone...

At some point, Li Jiayi, who was about ten meters away, suddenly appeared in front of him without any warning. He didn't even realize that his tongue had been squeezed out by the other party...

“Do you think I was joking with you earlier?” Li Jiayi held his chin with one hand, and with the other hand, she easily pulled the other party's tongue out with two fingers... ..

Li Minghao stood rooted to the ground in fear of that terrifying aura. He did not dare to move at all. His rationality told him that the other party did not dare to really pull out his tongue, but every cell in his body did not dare to believe his rationality.

“Son...” the woman beside him was so frightened that she took a few steps back and cried, “Yichen, look at her!”

Li Yichen stood rooted to the ground. This was the first time he had seen his daughter so clearly. That ice-cold Aura made him not even sure if the other party did not dare to make a move...

He recalled master Li's words...

She had killed four extraordinaires in Basen. How could you think of her as a soft-hearted person?

Chapter 356: real-life members of the Li family and Goudan Li

“Did she really say that?” Master Li stared at his son a few hours later.

“She really said that!” Li Yichen said angrily. “Master, I finally understand. Your granddaughter never thought of helping the Li family in the first place. Now, she only wants to humiliate the Li family... .. She doesn’t think of herself as a member of the Li family at all!”

Li Siyan, who was at the side, sneered at his words. “You were clearly the one who messed up the matter. Now, you know how to shirk the responsibility and directly make Jiayi look so terrible. If she really wanted to humiliate the Li family, would she have waited until now?”

“What do you know!” He glared at him. “If she thinks of herself as a member of the Li family, why didn’t she communicate with her family after joining the sect for so long? Besides, didn’t you see her just now? She almost tore Ming Haosheng apart in front of me!”

“Did she tear him apart?” Li Siyan asked lazily.

“Er...”

“Does that mean that she didn’t?” Li Siyan interrupted him impatiently. “If she didn’t, wasn’t she just trying to scare you? You’re even capable of sending your mistress to cause a ruckus. I don’t think it’s overboard for someone to scare you. Is there a need to put up such a big front?”

“You...” he pointed at her, his body trembling, he then sneered, “Don’t think that I don’t know what you’re thinking. Have you been less cold towards her and her mother in the past? Now that you’re in such a hurry, do you think that others will appreciate your kindness?”

Li Siyan: “...”

Li Yichen looked at her in silence and felt slightly relieved. He quickly glanced at the old man from the corner of his eyes. He was actually saying this for the old man to hear. Back then, the person who disliked Li Jiayi and her mother the most was the old man, by saying this now, he hoped that the old man could see the reality and stand on his side.

On the other side..., third Brother, who was sitting at the side, also frowned. “I think Big Brother is right. Jiayi, this lass, is obviously not on the same side as our Li family. Using this excuse to give Big Brother’s shares in the Li Group to an outsider like Zhang Minjun is simply a joke!”

Third Brother is a sensible person... .. Li Yichen’s expression relaxed a little when he heard this... ..

Li Siyan pursed her lips but did not say anything in the end. After all, the other party’s request was indeed a little too much...

With just a few words, she wanted my Li family’s shares. I, the daughter of the Li family, still do not have any shares in my hands... ..

At this moment, the three of them turned their gazes to the old man and the atmosphere instantly became quiet.

The old man closed his eyes and remained silent for nearly 15 minutes. Finally, he slowly took out his phone, flipped through the phone book, and dialed the number.

The older brother, Yichen, was standing, so he immediately noticed that the old man was actually calling Zhang Minjun directly.

This startled Yichen. He thought to himself, what is the old man trying to do? Was he trying to warn the other party?

“Minjun? Sorry to disturb your rest so late. Is Jiayi asleep? Can you let her answer the phone?”

“Hello, Old Man. What’s the matter so late?” Li Jiayi yawned on the other end of the line.

“Lass, the old man wants to ask you something. Did you keep your promise to your father?”

Li Yichen’s expression immediately changed. “Old Man!”

Li Guoxing gloomily glared at his son, but he did not reply. Instead, he quietly waited for a reply from the other end of the phone...

“What is the old man talking about?”

The old man did not show any signs of anger when he heard the other party’s obvious question. Instead, he calmly said, “What you said before is that your father’s shares will be given to you and your daughter so that you are willing to help the Li family. Does that count?”

“Yes!” Li Jiayi immediately replied.

“How much can you help?” Li Guosang asked.

Li Goudan asked, “How much do you want me to help?”

Li Guosang asked, “Can you help me send the younger generation of the Li family into your sect?”

The three children’s bodies stiffened at these words. Li Yichen’s face turned pale, while the other two became agitated... ..

Send the younger generation of the Li family to cultivate in a sect?

If that was the case...

Third brother and Li Siyan looked at each other. Not only did they think that sacrificing Big Brother’s shares... .. It was not unacceptable...

It was not that they did not know the importance of a cultivation sect and an extraordinary. The reason why they were not so enthusiastic was that this extraordinary did not belong to their family. However, when they heard that their own child also had this opportunity, their feelings were naturally different...

Moreover, the other party wanted Big Brother’s shares, not both of them... ..

“Old Master...” the eldest brother was anxious. It seemed that the old man really intended to use his shares to trade?

“Big Brother...” the third brother hurriedly said when he saw that Li Yichen was about to speak. “What do you want to say? Can you wait until the old man finishes this call? How do you look like you’re being so reckless?”

“That’s right!” Li Siyan immediately chimed in.

Hearing this, the older brother and sister-in-law were instantly angered. Did they have to be so honest?

“Can we?” The old man was so excited that he stood up!

“Can... We?” The three children also stood up with a look of shock on their faces. However, the younger brother and younger brother had a look of surprise on their faces, while the older brother, Li Yichen, had a look of shock on his face... ..

“I have to ask about the specific quota...” Goudan Li, who was on the other end of the phone, tried to bluff him.

“Okay, okay, okay!” Old Master Li hurriedly said, “I’ll wait for Your News...”

“Old Master!” When Yichen saw the agitated look on Guoshang’s face after he hung up the phone, he could not hold it in any longer, he hurriedly said, “Do you really trust that girl that much? Is that girl capable of recommending the quota? Even the personal disciples of some sects don’t have the right to do so, right? Aren’t you afraid that she’s bluffing us?”

Li Guo Shang frowned and looked at the other party. Although this fellow’s words were completely out of selfishness, it was not without reason...

Just as he was thinking about it, the phone suddenly rang. Li Guo Shang looked at the caller ID and saw that it was Zhang Min Jun, so he hurriedly picked up the call.

“Old Man, how about this? I’m going back to my sect anyway. If you’re free, you can come with me...”

Li Guoshang was stunned when he heard that. He mumbled, “You... You Want Me to go with you to your sect?”

“En... I’ll also bring those juniors that you mentioned along. I’ll bring them over so that the sect master can help you see which kid has better aptitude... of course... those juniors don’t include that bastard...”

Li Guoshang: “! ! !”

“Grandpa? How is it?” Seeing the old man hang up the phone in a daze, the three children asked in unison.

The old man was stunned for a long time before he relayed Li Goudan’s words. With a click, he saw Li Yichen sitting on the ground without a trace of blood...

---

“Oh...” Wang Goudan immediately sent a private message after hearing the lord’s explanation. “Are you saying that Li Goudan wants you to help him put on a show?”

Xi Ye curled her lips and replied, “I think so...”

“Great... I want to go too!” Wang Goudan said excitedly.

“Go Where?” Grandpa Lu asked curiously when he saw Wang Goudan’s sudden question. “Where do you want to go? Can I go?”

Xi Ye looked at the huge Grandpa Lu and tilted her head. "It seems... it's not impossible..."

#### Chapter 357: the Magnanimous Old Master Li

The Sky had just brightened when old master Li woke up early because of his excitement. In fact, he had slept late last night because of his excitement. However, in the morning, the tiredness in his body could not conceal the excitement in his heart.

However, when he walked out of the room and into the living room, he realized that he was not the only one who was excited.

The second and third children had been waiting in the living room with their children since a long time ago, their faces full of anticipation...

Of course, there were more people than just his two children. Previously on the phone, that girl Jiayi had also said that she was bringing the younger generation to show the sect master their aptitude.

Everyone who had read Qidian literature knew that in cultivation, people paid attention to aptitude. In order to increase the probability of the Li family's children being valued by Jiayi's teachers and elders, he had basically informed all the children of the collateral line.

This included the children of his elder brother and two younger brothers...

Of course, if he wasn't afraid of being too exaggerated, he even wanted to call his relatives even further away.

In his heart, as long as there was an extraordinary person in the Li family's bloodline, it would represent the interests of the Li family!

But regarding this point, Li Guoshang's son and daughter were very dissatisfied with their father's decision.

Previously, Jiayi had said on the phone that she wanted to go back and ask for a quota, which meant that there was a high possibility that the quota was limited.

With the Quota Limited, the more people who participated, the lower the possibility of their children being selected. If it were anyone else, they would not be willing.

However, their grandfather's situation was the entire Li family, which made them very helpless...

"Second brother..." just as Li Guo Shang walked into the living room., sitting on the sofa, an old man with a square face and looks somewhat similar to Li Guo Shang said to Li Guo Shang with a serious expression, "The things you said to us on the phone weren't just for fun, right?"

"Am I that boring?" Li Guo Shang rolled his eyes at the other party before slowly walking to the sofa and sitting down. The surrounding juniors were very well-behaved as they stood in a circle outside. Even though there were still many empty seats on the sofa., however, there were still only the four old men sitting on it.

The old man who had spoken earlier looked at Li Guo Shang. His expression slowly turned from a stern one to a gentle one, there was a complicated look in his eyes as he nodded and said, "If this matter is true, you have done it perfectly. To be honest, if it were me, I might not be able to split my own child's chances like you did for the Li family..."

After pausing for a moment, he said with a solemn expression, "It seems that father was not wrong to pass the family business to you back then..."

When the old man said this, the remaining few people, including Li Guo Shang, were stunned for a moment. Back then, the old master had mainly given the Li Group's family business to his second son, Li Guo Shang, and did not choose to let his eldest son inherit the Li Group, this had always made the boss very dissatisfied.

Even though the Li group had almost doubled in size in Li Guo Shang's hands, he still expressed his dissatisfaction. However, this was only human nature. After all, everyone in the world would think that if he went up, he would also do well. Moreover, he would definitely do better.

However, he did not expect that this Li Guo Yan, who had been in conflict with Li Guo Shang for his entire life, would finally relent when he was ninety years old.

Li Guo Shang's mood immediately became a little agitated. To be honest, to be able to make his big brother, who had hated him for his entire life, say such words, it was really not a waste of his final decision...

The other two old men at the side also nodded when they heard this. Although they were not convinced of their father's favoritism when they were splitting up the family, they were still convinced of Li Guo Shang's absolute position this time.

This decision indeed had the bearing of the head of the family...

The older generation was convinced of each other, so the younger generation was naturally different.

The group of young people all had a fake smile on their faces as they sized up their peers around them. Before they came, the elders had already told them that there was a quota limit, so they knew that they were all competitors, even if they used to be on relatively good terms with each other. At this moment, there was an inexplicable estrangement between them as they talked...

Transcendence...

The Li family's disciples did not practice martial arts very much, but their yearning for transcendence was real. Not to mention other things, just the fact that those cultivators could live for so long already made them unusually motivated.

After all, who among the rich and powerful did not want to live a little and have more time to enjoy themselves?

"Big Brother only brought two children?" Li Guo Shang looked around and was surprised to find that the Li family only brought a man and a woman, two juniors.

He had a deep impression of these two children. The man was called Li Zhu and was one of the most outstanding children of the third generation of the family. He had a high talent in internal martial arts

and was currently trained under the Grandmaster of internal martial arts, Feng Guo Sheng, at such a young age, he seemed to have already reached the realm of internal force. Elder Feng had even taken him to Quan Zhen sect to study under him. Unfortunately, he was rejected.

Elder Feng had even said that if he participated in the sect's ritual fairly, there was a high possibility that he would be accepted into the sect. Unfortunately, even the newest Yunshan sect only recruited children and rarely recruited people.

Now that there was such an opportunity, the Li family's eldest master naturally would not miss it. This person was also the person that the surrounding juniors feared the most because the advantage was too obvious. After all, most of the juniors present did not practice martial arts. Even if they did, they would not have such good aptitude as Li Chong...

The second girl was called Li Xiaoxin. Li Guosang had a deep impression of this child. Of course, this was not like Li Chong who had a deep impression because of her aptitude. On the contrary, she might be the one who was the least likely to be selected.

This child was the daughter of the youngest son of Li Guo Yan's family. She was the youngest granddaughter of the eldest brother. As the youngest in the family, she was originally very favored. Unfortunately, she had contracted leukemia at a young age. Moreover, it was a more complicated M-5 type.

Those who had some medical knowledge knew that at this stage, among the acute leukemia types, only the M-3 type had a high chance of being cured. The other types had to be transplanted as soon as possible after induction chemotherapy.

Unfortunately, the little girl's type physique was relatively rare. Even though Big Brother had used a lot of connections, he still could not find a bone marrow type that matched his granddaughter. And now, the little girl who was almost eight years old... Seemed to have reached her limit...

Li Guoshang looked at the chubby girl who was now as skinny as a stick when she was born. There was a trace of pity in his eyes. He looked at his big brother and said, "Big Brother... What are you..."

"I heard that some sects are good at refining pills, and there are precedents of curing cancer in Kunlun. Today, I have a rare chance to go to an immortal sect, so I'll have to trouble second brother to help my granddaughter ask if there's a chance to be cured...". "No matter what the result is, I owe you a favor!"

Li Guoshang sighed slightly when he heard that, but there was a hint of hesitation on his face. They had gone there to beg the immortal sect to take in a disciple. Under such circumstances, he did not want to cause any trouble, in case he offended the immortal, it would not be worth it to affect the sect's impression of the Li clan.

Although he also pitied this child...

Just as Li Guo Shang was hesitating on how to politely decline the other party, the butler in charge of his villa suddenly trotted in and whispered to Li Guo Shang, "Master, Miss Jiayi has arrived..."

Everyone's hearts jolted when they heard this, and they thought to themselves, the main character has finally arrived... ..

## Chapter 358: a soft-hearted mother

“Eh? Everyone’s here early...”

Under everyone’s expectant gazes, Jiayi helped her mother slowly walk in.

Without the blessing of the Elf bloodline, Goudan looked more like her mother. She had the graceful and delicate appearance of a Jiangnan woman, but there was a smart and crafty look in her eyes, just like a white fox in the snow. From a distance, he looked elegant and beautiful, but from a close distance, he could see the cleverness in this creature’s bones...

In the corner, Yichen looked at his wife with a complicated gaze... “...”. To be honest, among the daughters-in-law of the Li family, his wife was ranked first in both appearance and temperament. Otherwise, he would not have taken the initiative to pursue a girl from an ordinary family back then.

But now, he hadn’t looked at Zhang Minjun so carefully for many years. If he took a closer look, he would even have a self-doubt. Although the one he was looking for outside was also very beautiful., but she was too tacky, so he didn’t know how much more tacky she was. Why would he miss her outside all the time?

Didn’t the home flower smell good?

“Minjun is here?” Li Guoshang hurriedly stood up to greet her.

Li Goudan looked at the other party. She had been in the Li family for many years, and the old man had always given her the impression that he was a domineering family head. He had never been disrespectful to her mother. Now that he was greeting her with a smile and a friendly tone, there was actually not a hint of discord in his tone. She had to admit that he was indeed worthy of being in the business world. He could bend and stretch...

He was not the only one. The other members of the Li family also hurriedly greeted him. They called him sister-in-law, sister-in-law, and aunt in such a friendly manner. Especially the eldest great-grandfather, who had always been cold and aloof, had actually joined the crowd at this time, he brought his two grandchildren over.

In an instant, Zhang Minjun became the center of attention. This made her, who had been bullied in the Li family for many years, feel at a loss.

When Li Goudan saw this, he gently supported his mother’s back with his right hand. Only then did Zhang Minjun slightly settle down.

“Eldest aunt...” at this moment, under the lead of the eldest great-grandfather, his two grandsons also followed the crowd to approach the marriage. Li Chong had always been proud and arrogant, but at this moment, he was no exception. With an obedient face, he came up to call aunt. He did not have the cold and arrogant look from before at all, there was also the eldest great-grandfather’s little granddaughter, Li Xiaoxin. At this moment, she also squeezed out a puppy-like smile and came up to call aunt and aunt.

Li Goudan looked at this little girl. She was more familiar with this little girl among the many relatives of the same generation in the Li family. After all, she had contracted a terminal illness at such a young age and was very eye-catching. However, the other party was actually not that good at fawning over the elders. On the contrary.., because of the torment of her illness, this little girl was usually very withdrawn. Even if someone took the initiative to come into contact with her, she would avoid them.

Clearly, this fawning look was not something she was good at, but she still tried her best to do so...

One had to say... .. mm... .. At such a young age, her will to survive was very strong. ...

“Hey... Little Xin is here too?”Zhang Minjun hurriedly squatted down and held Li Xiaoxin’s hands. At this moment, she was completely aware of the Li family’s enthusiasm, but in the face of this clumsy little girl, she was unable to harden her heart.

Seeing Zhang Minjun’s attitude, great-grandfather Li Guoyan’s eyes immediately flashed with a trace of joy.

Li Goudan looked at everyone’s eyes and laughed coldly in his heart. Then, he looked at his grandfather Li Guoshang and said, “Old man, if everyone is here, shall we set off?”

“Okay, okay...”Li Guoshang nodded repeatedly. “Jiayi, where is the location of your sect? Should we take a bus or...”

“No need...”Goudan replied indifferently and snapped his fingers. The space behind him suddenly blurred, and then a huge screen of light could be seen with the naked eye, just like the surface of the water.

The reflection on the surface of the water was a scene of clouds and mist on an immortal mountain, which stunned everyone.

Li Goudan ignored everyone and directly helped his mother into the water. When they saw the two of them disappear into the water, everyone took a deep breath and looked at each other in dismay... ..

The Li family was a big family, so they knew a lot about cultivation sects. They knew that those immortal sects were only slightly higher-level cultivation sects. Something like a teleportation gate should only appear in fantasy novels, right?

The group of people looked at each other. For a moment, they couldn’t make up their minds, so no one dared to follow them.

After a few breaths, the first person to react was the youngest, Li Xiaoxin...

Although she had a fawning look on her face just now, she actually did not have much hope in her heart. This was because every time her grandfather said where and where she could cure her illness, he did not fulfill it in the end... ..

But now, this magical scene made her hope greatly increase. Her great desire to survive suppressed the fear in her heart. She stumbled and directly pounced into the door...

“Girl!”Li Guo Yan was startled when he saw this and he hurriedly followed... ..

The Li family members behind hesitated for a moment before they finally braced themselves and stepped into the door... ..

After the many Li family members entered the door, they only felt a wave of dizziness as if the world had been turned upside down. Each and every one of them squatted on the ground for a long time before they recovered and their expressions immediately became unsightly.

After Li Guo Yan recovered, the first thing he did was to anxiously look for his granddaughter. With such a dizzying scene, he was very worried that his granddaughter's thin body could not withstand it.

After the later Li family disciples recovered, they looked around at the first moment, and immediately exclaimed in surprise.

Such a wondrous scene on the immortal mountain was countless times more spectacular than they had imagined... ..

Everyone was shocked. Li Guo Shang looked at all of this and thought to himself, "This is probably a sect that is even more impressive than Kunlun..."

"Not bad, not bad... I didn't expect that the first one who dared to run in would actually be a little girl like you. You're so thin, and you're quite bold..."

Everyone was stunned and quickly looked over. They just happened to see Li Goudan lightly patting the little girl's back in front of them, and the little girl was also vomiting non-stop under this spinning world...

"Little Xin..." Li Guoyan hurriedly ran up and looked at his granddaughter who had even vomited out bitter bile. His heart ached as he said, "Are You Alright?"

Little Xin revealed a forced smile. "I'm fine, Grandpa..."

"You child..." Li Guoyan saw that his granddaughter was in such pain and still knew how to take care of his feelings., he told himself not to worry and his eyes instantly turned red. Zhang Minjun beside him could not help but caress Li Xiaoxin's hair tenderly. "What a pitiful child..."

Seeing this, Li Guoyan could not hold it in any longer and hurriedly asked while it was still hot, "Minjun, you know about the child, can you..." as he spoke, his eyes were filled with pleading...

Seeing this strange scene, his hope for his granddaughter's condition increased greatly!

Hearing this, Zhang Minjun looked at the other party, then at the pitiful little girl. Finally, she turned her gaze to her precious daughter...

"Jiayi, can you think of a way to deal with Xiao Xin's illness?"

Li Goudan was instantly speechless... .. Mother's heart was still too soft...

This was a terminal illness... ? ... If you wanted to help with just one sentence from others, how could you reject the requests of others?

However, her goal was to raise mother's status in the Li family. Naturally, she would not refute her mother's face at this time. Looking at her mother's pleading gaze, Li Goudan could only smile bitterly and say, "Alright..."

Once these words were said, everyone in the Li family, including Li Guoyan, was stunned. They did not expect the lass to agree so readily!

Li Guoyan immediately said excitedly, "Alright, Alright, Alright. Jiayi, my lass will... I'll be counting on you..."

When the Li family members heard this, they all looked at each other. A strange light flashed in their eyes. They felt that this fellow was quite easy to talk to...

This was especially so for the other two elders of the Li family. After looking at each other, they began to make some plans in their hearts. When people got old, they would more or less have some hidden diseases. If the other party could even cure blood cancer, then other diseases would also... ..

Moreover, this immortal mountain was definitely a cultivation sect. There might even be a true immortal present. If the Yichen family's lass could help them ask for some life-prolonging pills, that would be the best... ..

Looking at the expectant gazes of the Li family members, Li Goudan sneered in his heart... ..

Chapter 359: A Bunch of drama queens

In order to let the Li family see this majestic immortal mountain, the teleportation point was at the mountainside. The spiraling white jade stairs made everyone sigh in admiration at the luxury.

As elder Li looked at all of this, he could not help but feel troubled. Although he had never seen these white jade before, they definitely looked of high quality. be it in appearance or texture, they were a few grades higher than marble.

If they were used to decorate houses and pave the floor tiles, they would definitely be envious to death of a group of people. and using this kind of high-grade material as a mountain ladder, elder Li didn't dare to imagine the degree of luxury of this sect. This was probably a large sect with a deeper foundation than Kunlun. Who knew how much astonishing wealth it had behind its back...

Originally, he had planned to use the Li family's wealth to establish some cooperation when he met Jiayi, this girl's teacher and elder, in order to reduce the family's reliance on Li Jiayi. But looking at the current situation, the Li family's meager financial resources... Most likely, the other party would not be interested...

Could it be that the Li family could only look at the girl's face from behind?

Moreover...

Li Guosang looked at Li Goudan's back in front of him and thought to himself, such a powerful sect, does this girl really have the status to recommend her own disciples?

At this moment, Li Goudan was walking at the front, hugging the exhausted Li Xiaoxin and chatting and laughing with his mother.

The group of children looked around curiously. Their hearts were filled with endless admiration. Not only did they sigh, "This is what a celestial sect looks like..." . ...

The group of elders looked at the envious looks of their children and made up their minds. No matter what price they had to pay, they had to let their son be chosen!

After walking for a few hours, when some of the elders could not hold on any longer, they finally saw the huge mountain gate that was supported by a spiral staircase!

The Li family was originally an architect. At this moment, when they saw the huge mountain gate supported by huge trees and white jade escalators, they were even more incredulous. They felt that this project could only exist in computer special effects. Those Egyptian pyramids and Babylon's sky garden were simply too weak compared to this...

"Roar!"

Just as they were sighing with emotion, they suddenly saw a huge... .. Uh... .. This Is.. .. SH \* t?

Everyone looked at the huge green object that appeared outside the mountain gate, and they were all stunned.

"Cough..."Li Goudan coughed lightly and said, "This is our sect's mountain-protecting divine beast, Lord Spirit Paragon!"

"Mm..."Grandpa Lu's nostrils were facing the sky, and he looked like he was looking down on mortals. Unfortunately, the flesh on his body was too fat, so no one could see where his nostrils were...

"Divine Beast?"Everyone's eyelids twitched. For a moment, they didn't know how to respond. It was Li Guo Shang who reacted the first time. He mumbled, "After all, it's a big sect. They even have a mountain-protecting divine beast..."

Li Goudan chuckled and thought to himself, it's better if they don't have one... ..

They really didn't know what the Lord was thinking. A few days ago, when he saw Jade dynasty introduce the Azure Cloud sect to a water qilin as a mountain-protecting divine beast, he felt that his sect should have a show...

But this fellow... can he really use it as pomp?

"I say, junior sister..."just as everyone was exclaiming about the strangeness of the creation of heaven and earth, and that even giant flying could become a spirit, a clear voice suddenly sounded.

When everyone heard the voice, they looked over, and when they saw the person who spoke, they were instantly stunned...

Was this... A Fairy?

Regardless of whether it was a man, woman, old or young, they were all stunned by the arrival of this person at this moment... ..

The white-haired woman who spoke was wearing a white cloud-colored ancient dress. Coupled with the smoke surrounding her, she looked exactly like the fairy in the novel... ..

The woman was naturally our Wang Goudan. She looked at the Li family members with a cold and arrogant expression, a look of disgust appeared on her face. "Did you tell Master that you wanted to recommend your son to come here? It seems that his aptitude is very poor..."

When the elders of the Li family heard this, their faces immediately turned pale. At the beginning, they actually still had some hope in their hearts. If their children had extraordinary aptitude, they wouldn't need to look at that little girl's expression. Now, the other party's words were like a bucket of cold water being poured on them... ..

The surrounding disciples looked at each other and not only thought to themselves, 'poor aptitude??' 'who is he talking about??' "It definitely won't be me, right?". "I'm standing in such a low profile position, the fairy must not have noticed me, HMM...". ... right ... Just like that...

"What do you mean by holding this half-dead guy in your arms? It Can't be that you recommended him to be a disciple, right?" Wang Goudan looked at Li Xiaoxin who was in Li Goudan's arms and said coldly.

Li Xiaoxin's body trembled when she heard that. Her face was pale as she buried herself into Li Goudan's chest and bit her lips tightly. Li Guoyan, who was behind her, also had a worried look on his face, but he did not dare to casually interrupt... ..

"I will escort this doll!" Li Goudan stared at the other party and said without showing any signs of weakness.

"Oh?" Wang Goudan looked at the other party and sneered, "Master gave you three quotas and this is how you use them?"

Li Goudan: "Since master gave me three quotas, how I use them doesn't seem to have anything to do with you, senior sister, right?"

The hearts of the Li family disciples behind him instantly trembled when they heard this...

It looked like Li Jiayi and the fairy in front of them didn't seem to get along, but the most important piece of news was that this girl actually had a guarantee quota?

This news immediately made the elders of the Li family happy, especially Li Guoshang. He was so excited that his entire body trembled. This meant that at least three Li family disciples would be able to enter the sect!

However, there were also some people who expressed their dissatisfaction. One of them was Li Guo Shang's daughter, Li Siyan. "This girl is really something. How can such a precious spot be given to an outsider?"

Li Guo Shang fiercely glared at his daughter when he heard this. Li Siyan immediately turned her head away resentfully.

Li Guo Shang sighed helplessly. He had no choice but to do something about his daughter. However, what the other party said was right. The reason why he allowed the younger generation of the Li family to participate was to increase the probability of the Li family being selected, however, if that girl had a place to be sent, he naturally hoped that the spot would belong to this faction...

He would have to think of a way to remind that girl that the spot could not be randomly moved...

Meanwhile, Li Guo Yan's face was filled with the feeling of having his face smashed by the six harmonies lottery. The great ups and downs caused him to be unable to breathe...

Li Xiao Xin, who was in Li Goudan's embrace, did not immediately understand the meaning of their conversation because she was too young. However, she could still hear that this cousin of his seemed to be protecting her. Her heart warmed and she hugged Li Goudan even tighter...

Just as the two women were about to confront each other, a gentle voice suddenly came from the main hall in front of them.

"What are you doing now?"

This voice was different from Wang Goudan's pretense of being cold. It was like a gentle ray of sunlight, causing everyone to feel a warmth in their hearts before they could even see the person.

"Sect master! !"The two Goudan quickly bowed respectfully.

In the main hall, Qin Xuanji, who was played by Wei Lin, slowly walked out.

This sect... were they all such fairies?

Looking at Wei Lin who walked out, everyone couldn't help but think to themselves.

"Are they your family members?"Wei Lin asked gently.

"Yes, sect master!"Li Goudan quickly replied.

"Mm..."Wei Lin looked at everyone and slowly nodded. Unlike Wang Goudan's disdainful gaze, when that gentle and jade-like gaze looked at everyone, it immediately made the Li family disciples feel overwhelmed by the favor.

"Come in..."virien nodded and said, "Since the sect master isn't here, I'll help you test the aptitude of these children..."

"Thank you, Sect Master!"Li Goudan immediately smiled and said with a coquettish look on his face. Wang Goudan, on the other hand, put on an indignant look on his face...

The Li family's elders saw this and not only nodded in their hearts, but they also said, "Looks like Jiayi, this child, is indeed liked by the elders in the sect..." . ...

Grandpa Lu, who was watching all this blankly, had a strange look on his face. He thought to himself, "What the F \* ck... a bunch of drama queens..."

Chapter 360: Forgotten Cabbages

“Aptitude... Lower Grade C!”

In the hall, when Li Chong, the most promising candidate of the Li family, learned the results, the faces of the elders of the Li family instantly turned pale.

Especially Li Chong, who was being tested, his face was full of disbelief... ..

I... I'm only lower grade C?

Before the test, the sect master called Qin Xuanji had talked about the test level. The test level was divided into a, B, C, and D grades, and each grade was divided into three grades: upper, middle, and lower.

Luo Fu had very high requirements for his disciples. If there were no special conditions, he would not accept anyone who was not a B grade. Previously, the disciples of the Li family had all been stuck in the upper, middle, and lower grades of D grade. Li Chong had initially looked down on his peers. However, he did not expect himself to be the pot calling the kettle black...

But How was this possible?

Li Chong had a look of disbelief on his face. His internal martial arts master, Feng Guosheng, had once told him personally that if he went to the sect to compete fairly, even if he could not become an elder's personal disciple., but it was still very likely that he would win the position of an inner disciple...

Therefore, he had been complaining in his heart that he did not have this opportunity, but he did not expect that this would be the result when the opportunity came... ..

This made him, who had always been proud and arrogant, think that he was not blessed with talent, how could he accept it?

“Immortal Master!” Li Chong looked at the crystal ball in front of him excitedly and said, “Is there a problem with the prop? Can we change it to another one and retest it?”

“Even if there's a problem with you, our prop won't have a Problem!” Wang Goudan said coldly from the side.

“Chong 'er, don't be rude!” Li Guoyan hurriedly shouted. Then, with an apologetic look, he bowed to Qin Xuanji, who was sitting at the head of the table and helping everyone to test it. “Junior has no manners, this old man is here to apologize...”

“No worries...” Qin Xuanji waved his hand slightly. He still had the same gentle attitude that was neither hurried nor slow, but it was this way that made more people feel that he had the bearing of everyone.

Qin Xuanji looked at Li Chong and said seriously, “This heaven's secret instrument is our sect's secret treasure. It has never made a mistake for thousands of years. Benefactor's fate is like this, you can't force it...”

Li Chong's face turned pale when he heard that. He stood there in a daze for a few seconds before he retreated with a dejected expression...

Behind Wang Goudan, Li Goudan secretly sent a secret message. "UH... Where did you get that glass ball?"

Wang Goudan: "I bought it online. It's not a glass ball, it's a crystal ball. It cost me more than 900 federation coins. Remember to transfer it to me via Alipay later..."

Li Goudan:"..."

Should he not have asked...

The elders of the Li family all had gloomy expressions after Li Zhen stepped down, especially old master Li Guo Shang. Although he had guessed that this might be the result, after all, there was only one young cultivator out of ten thousand, his Li family might not have such luck.

But when the truth really happened, he still found it hard to accept...

After the depression, everyone turned their eyes to Li Goudan...

Since their disciples did not have the qualifications, they could only focus their attention on the remaining two spots for Li Goudan! !

Thinking of this, many of the elders were thinking of how they could get the spots from that lass!

Li Guoshang also made up his mind and looked at his son...

When Li Yichen felt the old man's gaze, his face instantly paled... "... !"! He immediately understood that under the current situation, his shares would probably be used by the old man as a bargaining chip to curry favor with his daughter!

On the other side, Li Goudan, who had been secretly noted by many Li family members, couldn't be bothered to look at those Li family members. Instead, he quietly typed in a private message and asked Wang Goudan, "Where's the Lord? Isn't he coming?"

"Busy... can't come..."Wang Goudan replied.

"What's he busy with?"Li Goudan asked curiously.

"It seems to be about the martial arts practice in Kunlun..."

"I see..."

"Oh, right. The emperor of the liver sent a message saying that there seems to be news about little cabbage..."

"Who's little cabbage?"Li Goudan asked curiously.

"It's the player who was captured previously. Later on, he sent a rescue mission. Have you forgotten?"Asked Wang Goudan.

"UH... he was captured..."Li Goudan was stunned. After thinking for a moment, he suddenly remembered that there seemed to be such a thing... ...

However, when she thought about it, her expression became strange. Previously, when she heard that little cabbage had been taken away, she had lamented how realistic the game was. There was actually such a plot that was driven by players.

But... Now that she knew the truth, she didn't think so... ..

Little cabbage had really been taken away by the orcs...

Then would there be some..? ... Tauren plot... ? Li Goudan couldn't help but think in his heart, inexplicably feeling ... There was still a little excitement...

--

On the other side, little cabbage, who had been taken away for almost half a year, was currently in a daze in her chief's tent...

"I haven't gone offline for half a year already... What the hell is going on with this stupid game? is my corpse rotten now..." little cabbage complained with a wronged expression as she thought about her own fate... ..

She thought about how she had been studying hard since she was young, and how she had finally entered Shanghai's Medical University's eight-year undergraduate program. Other people had all sorts of free and unrestrained activities during their four years of university, but she had lived a worse life of study than when she was in high school.

It wasn't easy for her to graduate, and she had to be an intern in the hospital with a salary of 3,000 yuan. However, when she saw that there weren't two years left for her internship, she was about to make a name for herself and usher in the golden era of her career. She would soon be able to enjoy the luxurious life of being able to afford braised chicken every day...

However, she did not expect to encounter such a stupid incident...

She was abducted from a game and could not find her offline point. Then, she died in the game... ..

Would she appear on the news if she died in such a stupid way?

Little cabbage thought with an aggrieved expression.

"Chief, your lunch is ready!"

Just as Bai Cai was feeling aggrieved, a tall Tauren walked into the tent and respectfully asked for instructions.

"Damn dog, it's time to eat! !" Bai Cai turned around and kicked the star-swallowing dog, rhubarb, who was sleeping soundly at the side.

"Woof Woof Woof!" Rhubarb glared at the other party with great dissatisfaction. However, when it heard that it was time to eat, it immediately restrained its dissatisfaction and revealed a fawning smile.

On the other hand, little cabbage seemed to have completely gotten used to the other party's attitude of giving up everything for the sake of his dignity. He did not even bother to look at the dog as he walked out with his usual frown.

The food was very sumptuous. The table was filled with barbecued meat from unknown beasts, as well as various dairy products, milk skins, milk tea, and so on.

'sigh...'.

Little cabbage looked at the table full of delicacies with a complicated expression on his face... "...". If this kind of barbecue feast was placed in the real world, with the current terrifying price of meat, tens of thousands of people might not be able to settle it.

But here, she could eat it every day. Moreover, the taste of this meat was many times better than in the real world. Although it was not comparable to the base, it was definitely not comparable to the braised chicken.

But unfortunately, it was fake...

She did not know how many more days she could enjoy such a good day...

Xiao Baicai thought as she took a bite of an unknown animal's thigh.

In her heart, her body must have been sent to the hospital. In reality, she was living a vegetative life while receiving fluids. Her mother and the others would probably have to pay hundreds or thousands of medical fees every day...

If one day she could not take it anymore, her consciousness would definitely not be able to continue being stuck in the game...

Her current thought was to fight her way back to Molundo and see if she could go back to the log-off point to log-off...

But if her body was no longer in the game pod, she really didn't know whether she would be able to log-off or not... ..

The more she thought about it, the more conflicted she became. She even didn't dare to try. But if she didn't try, would she be able to stay in this grassland as a chief for the rest of her life?

What? How did she become the chief?

Well... It started when she was kidnapped to the grassland. ...
