

A Bunch 531

Chapter 531: The Return of Seer

On the second day, Isabelle's words about the surgery were spread throughout the entire military camp. Although it was not during the Internet era, the speed at which humans were born to spread gossip was astonishing. Some scientists even suggested that... The reason why Homo sapiens could become the ruler of a place was because of their ability to spread gossip...

Everyone felt that Isabelle's words were very credible. In the case where the first batch of experimenters had almost a 90% chance of success, the Lord still insisted on the 50% chance of success. Most people felt that her words were fair and credible. If there was a large number of people advocating that there was no risk in this surgery, then everyone would be suspicious...

But because everyone trusted this statement, the entire military camp was in a dilemma just like Jack last night.

Everyone wanted to become stronger. Even a salted fish would have this thought in their heart. It was just that most people were unwilling to work hard for this. However, there was a 100% chance of becoming stronger in front of them. Who would refuse?

However, the key was how to choose. This was the most difficult problem in everyone's hearts.

Lady Isabelle's words were already very obvious. The first type of surgery had a very high possibility of becoming a general. The second type of surgery would be very difficult.

The people in the military camp had also asked around these days. As people who had also undergone surgery, they had been training at Lord Yun Chuan's place. Black Bear and the others were much more adaptable, and although the people who had undergone the second type of surgery had similar physical qualities at the start, they were not as strong. But in terms of growth, they were clearly inferior...

This caused many people who had undergone the second type of surgery to begin to regret their initial choice.

This kind of complaining made even more people hesitate.

Obviously, as long as they chose the second surgery, their future development would definitely fall behind those who dared to risk their lives. However, the problem was that there was a 50% chance. It sounded like they were really putting in too much effort... ..

With this kind of hesitation, the enthusiasm for signing up actually lessened quite a bit. This caused ran Xiaojuan to complain to Isabelle quite a few times... ..

Pu Yunchuan heaved a sigh of relief because fewer people had signed up for the surgery. In his opinion, there were already enough people training in the base. After all, it was his first time as a training instructor, so he was a little busy taking care of too many people at once. He needed more time to adapt...

At this moment, after Pu Yunchuan had distributed his training, he was focused on studying the types of training programs in the future.

There were several types of soldiers in the base. Among them, there were strength mutants. These soldiers were mainly mutated from brown bears, bison, rhinoceroses, and other heavyweight creatures. Due to the characteristics of these soldiers, whether they were walking the path of an artificial druid or the path of a half-orc, they had a great advantage in terms of strength. The training mainly focused on strength training and explosive force training, supplemented by control techniques...

The second major type was the agility variant. This type was mostly cat-type creatures, with strong body control and a certain amount of explosive force. For training, they mainly focused on training their control. Training to strengthen their strength as secondary...

These two types were common, and it was relatively easy to train. The key was that there were still some inexplicable types in the base, which gave Pu Yunchuan a headache.

For example, some soft body variants, such as snakes or octopuses, were not weak in many cases. However, their methods were somewhat different, and they were not as explosive as the normal strength type, most of the strength was reflected in the twisting force. It required a lot of control over the body, and there was also a need for muscle training. Moreover, the training method was also very different from the normal type.

There were also insects. Their physiological structure was very different from that of ordinary soldiers. How to train and strengthen their characteristics made Pu Yunchuan have no choice but to find a specific training method. These were all good, those few plant mutations really gave Pu Yunchuan a headache. Especially one of the druids, who could transform into a willow tree that was dozens of feet tall. How the F * ck was he supposed to train with this kind of thing?

At the thought of this, Pu Yunchuan suddenly felt a little envious of the chief instructor training him in the base. The average person was a green titan. If he did not like him, he could just give him a beating. Unlike him, he did not even have the confidence to train...

Just as he was in a dilemma, Pu Yunchuan suddenly heard a system notification: Lord Seer has invited you and Isabelle to discuss the cooperation at the station. Please reply as soon as possible...

Pu Yunchuan was stunned and asked, "Has the Lord returned?"

"Yes, please reply as soon as possible..." ai replied mechanically.

Pu Yunchuan did not dare to delay and quickly notified Isabelle... ..

On the other side, facing Seer's return, Ai was still a little curious about the Lord's experiences these past few days. Since half a month ago, seer seemed to have shut off contact with him and had been in a state of disconnection, and the Lord who had suddenly appeared seemed to be even more anxious than before.

"How's the progress of the Garrison?" Seer asked anxiously as soon as she returned.

AI: "The progress is not bad. Isabelle's management ability is very strong. The city has only been organized by her, and the People's hearts have also become relatively stable. After working together with little cabbage, they also have sufficient logistical support. Other than a few forces that were once the city lord hiding in the dark, they are generally relatively stable. They can already take on the role of the Garrison!"

"Very good. What about the exploration?" Xi Ye asked, nodding.

"According to Pu Yunchuan's information, the mutation rate in the Blackrock Forest is extremely low. Although a level 4 mutated creature has appeared before, it has already been killed. Meanwhile, the mutation rate in the area from the Blackrock Forest to the south is increasing in a very regular manner. It is very suitable for low-level players to be the initial exploration and exploration points. As for the grassland, just as we thought, the Blackrock Plains aren't affected. Clearly, the map of the Black Goat's power has already locked down its area of influence..." "..."

"Not bad..." Seer nodded in satisfaction. It seemed like the undead Lord did not intend to turn the entire planet into an infected place, which gave him a lot of room to perform.

AI said, "However, an ORC faction that can use mutated creatures has appeared on the plains."

"Oh?" Seer was curious when he heard that. His expression immediately changed as he asked, "Tell me, what's the situation?"

AI then told him about Pu Yunchuan's encounter with the Dragon Roar clan in the base.

"Controlling parasites?" Xi Ye frowned. According to the information on the surface, the Dragon Roar clan has this secret technique of using insects to control wild beasts. It's not impossible for them to find a way to control the mutated beasts in places where the mutated energy is lighter.

However, isn't this going too smoothly?

Although he wasn't majoring in biology at the Heavenly God Academy, he knew some common sense. Faced with the speed of mutation of the map of the Black Goat, the conditions for ordinary natives to control this power were extremely harsh, it was definitely not like what Pu Yunchuan had reported, as long as they possessed some secret technique that could control insects.

The simplest example would be a mutated dragon horse in the empire that could turn around and swallow a knight alive. Why would a mutated insect still listen to you?

"Could it be..." a hint of worry flashed across Seer's eyes.

AI: "The Liege is suspecting that there's a mastermind behind all this?"

"We can't rule out that possibility..." Seer's brows were tightly furrowed. Logically speaking, that undead liege shouldn't be able to return from the death realm so quickly. However, that didn't mean that he wouldn't be able to control his subordinates and test them out "...". If that was the case, Pu Yunchuan and the others would have to be careful.

Just as she was thinking, Ai suddenly notified her that Pu Yunchuan and Isabelle were already in position. Seer thought for a moment and said to AI, "Let that Alice come back as well..."

Chapter 532: urgent situation...

“Hey, Kid, long time no see!” In the main hall of the base, Alice, who was wearing leather armor, looked at Isabelle and greeted her with a smile... ..

Pu Yunchuan looked at her and said shyly, “Hello, ancestor...”

It was said that Isabelle’s elder was at the level of an ancestor’s grandmother. According to the rules of Sphere D, it was normal for her to kowtow. Alice was stunned when she heard this address, but she immediately smiled and said, “Good, good, good kid...”

Isabelle’s face twitched. She rarely told Pu Yunchuan about this old ancestor of hers. The main reason was that her past experience with this old ancestor was not a good thing. She was afraid that the other party would get to the bottom of it. She did not want to lie to Pu Yunchuan, but she also did not want the other party to know what she had done...

However, she did not expect that this silence would result in Pu Yunchuan fawning over this old ancestor. This made her not know whether to laugh or cry... ..

Bai Cai was dumbfounded when she saw this. She thought to herself, “So this military advisor of mine has such a high seniority?”?

“TSK TSK...” Alice looked at Isabelle. “Good girl, why haven’t you chosen a gene yet? Are you worried about something?”

Such caring words made Isabelle’s heart tighten. She naturally knew that this elder of hers wasn’t as kind as he appeared on the surface. After interacting with her for so many years, she knew very well that he was a vicious person, such concern for her most likely had no good intentions.

Hence, she said indifferently, “I haven’t thought about it yet...”

“Are you afraid of delaying the situation? TSK TSK, you really have put in a lot of effort, my child. However, your efforts are actually delaying your own progress...” Alice said with a smile that was not a smile.

“You don’t need to worry about that...” Isabelle replied coldly.

However, her heart was gloomy. She did not choose the gene because she was afraid that it would affect the stability of Gondolin. At the moment, Gondolin was still affected by her, the general of the Empire. However, this way, she would have to put in a lot of effort, she did not choose the gene for a long time. She was already far behind her ancestor.

She could feel that Alice’s aura was extraordinary. It was obvious that she had already walked far ahead...

This distance is not the key, the key is that the other side may be able to read something from their own efforts...

As expected, Alice looked at Pu Yunchuan and then at Isabelle, and said with a strange smile, "It's really rare..."

Isabel frowned. Just as she was about to say something, the voice of the intelligent inviting them into the Lord's room rang out in their minds. The group of people immediately stopped their small talk and walked towards the Lord's room.

It was not the first time everyone had come to the lord's chambers, including the two newcomers, Isabelle and Alice. Due to the importance attached to them, more players came to the Lord's chambers than ordinary players, but now it feels different to be here again.

The space here seems to increase with the number of people coming in, which Alice and others think is quite amazing, thinking: this is the space technology in the library. "It's really amazing..."

"I'm very satisfied with your performance these days!" The first thing seer said was praise for everyone, and it was sincere.

To be able to familiarize themselves with the advantages of their respective civilizations so quickly, and to have such a scale in just a few months, it was indeed very outstanding...

He had read the information. The forces of both sides were now quite large in the new territories, and Pu Yunchuan's forces already had their own base and tens of thousands of people, using their geographical advantage, they quickly obtained exchange resources and began to popularize biochemical experiments. As long as they developed step-by-step, they would soon be able to produce a large number of basic people with considerable strength. If the resident market operated normally., the forces would set off at a rapid pace.

Under Alice's plan, the cabbages were moving steadily and steadily. They were not as bold as Isabelle. Although their progress was slightly slower, their advantage was that their structure was strictly prohibited. They were the forces that were the least likely to collapse, moreover, their progress was relatively slow. Compared to the average player's forces, they were already running at full speed.

Under Alice's leadership, the Expeditionary Army had basically established a foothold in the northern plains. They were on par with the major gold tribes and had successfully taken over a portion of the base area of the golden soil. In addition, they had the advantage of the elemental elves, Alice would have logistical resources that were far superior to the other gold tribes. This included food, weapons, and even cultivation mechanisms. This greatly attracted many nomadic tribes that had fled. This also caused Alice's expeditionary force to rapidly expand... ..

Seer was already almost certain that these two forces would be the intermediate force that he would face against the undead Lord in the future!

Right now, they were already qualified to come into contact with his overall situation and discuss it. Thus, they voiced out their thoughts that the dragon-roar clan might be the undead Lord's side testing him.

Pu Yunchuan and the others did not understand what was going on, while Isabelle and Alice had solemn expressions on their faces.

Both of them had served under the undead Lord before, especially Alice. She knew very well what kind of terrifying existence that fellow was, and the power he displayed in the real world was just the tip of the iceberg.

“Didn’t you say that he won’t be coming back for the time being?” Alice asked with a frown.

Seer had mentioned this to her when they were talking alone. Although she had expressed her doubts, she had not expected him to come back so soon.

“I don’t think he’ll be coming back for a while...” Seer shook her head. “You’ve stayed in that place before, so you should know how difficult it is to get out. Although it’s powerful, it won’t be easy to find a new connection point. You can rest assured about that!”

Seer was very confident about this. Even a top-tier great lord would have to shed a layer of skin if they wanted to get out of the world of death, unless it was Sylvanas...

Alice was slightly relieved. She really did not want to face that guy before she had absolute confidence...

“But it’s also a matter of time...” seer said faintly, “He has the spatial coordinates here. As long as he has enough materials in the world of death, he can get out after spending some time.”

“Then, may I ask if you are confident to face him when he comes out?” Alice frowned.

“Not at all!” She spread her hands.

Everyone:” ...”

“Then, how did you send him back before?” Isabelle asked curiously.

“Well, it’s a special situation...” Seer shrugged and said, “I can do this situation a second time, but the other party might not give me such a chance. Besides, the power of a god Lord is never the power of a single person. What that guy is really powerful is what he has mastered.” ... For example... Seer pointed at the map of the new world and said, “Once it returns, all the mutated creatures covered by the map of the Black Goat will be used by it!”

Alice:” ...”

“Before that, you have to speed up your progress and cultivate the power to resist these things...”

“You really know how to give people difficult problems...” Alice could not help but complain.

“I can’t help it. The boss is good at giving trouble to his employees, right?” The lotion said with a smile.

Little cabbage and the others did not understand what was going on. They were all in a daze. Seeing that their conversation had come to an end, she quickly asked, “Where are Goudan and the others? Have they come back? I haven’t eaten uncle Wang’s barbecue for a long time...”

“AH... about that...” Xi ye suddenly felt a headache coming on.

There was a big trouble brewing in the New Territories, but there was no peace in the D sphere either. He did not expect that there would be such a thing in the secret territory of Kunlun... ..

Chapter 533: The Guess of the secret realm of Kunlun

Three months ago, at the martial arts practice hall of Kunlun...

The top 32 disciples had all gathered at the Kunlun Training Hall. Although the results of this competition had been extremely disappointing, the distribution of the disciples from the various sects was pretty much the same as expected. Of course... .. Due to too many surprises and being targeted by Kunlun, only three people from the entire sect had been selected, and they were the No. 3 or No. 4 seeded contestants, as the number one seeded contestant, Wang Qing, and the genius number two seeded contestant, Nie Liuyun, who were the favorites to win the championship, were excluded from the top 32. This was indeed a big surprise.

This also caused elder Wang, who was leading the team of Wudang, to have a very unpleasant expression these days. It must be known that this time, Kunlun's martial arts could be performed during the Ling dynasty. Being in the secret realm of the Ling Dynasty would have many times more opportunities during the unusual period. Moreover, it was heard that the scale of the Ling dynasty this time was unprecedented. As early as two years ago, surging spiritual power surged out from the secret realm, shaking the Kunlun Mountains. It even caused a rather large-scale national earthquake at that time... ..

All the major sects speculated that there might be a huge treasure appearing in the secret realm this time! !

This was also the reason why all the major trump cards of this martial arts demonstration were sent out in full force. Many of the disciples who were in seclusion were forcefully called out...

It was very obvious that Wudang seemed to have no fate with this major event... ..

However, other than Wudang, the results of the other major sects were still within the acceptable range. As the host, Kunlun had used all kinds of tricks this time and shamelessly used the drawing of lots to remove many obstacles, although they had suffered the dissatisfaction of many sects, they had also obtained the expected results. The top three seeded contestants of Kunlun were all qualified without any injuries. Apart from the three top-notch disciples of the local disciples, there were also seven disciples from the other peaks.

Among the top 32, one-third of the spots were taken by Kunlun's own sect. Although it was a little ugly, the effect was indeed outstanding.

Among the remaining sects, four people from the Celestial Master sect, the first and second seeded contestants were all safe and sound. They could be considered as the second largest sect with the most perfectly preserved strength outside of Kunlun. Three people from Maoshan were selected, and the first seeded contestant, Mao Xiaoyun, was selected safe and sound, however, the second seeded disciple lost to Yunshan's rookie, Yunji Mu!

Speaking of which, Yunshan was actually able to make it through to the second seeded disciple in such an intense environment this year. This result surprised many people. Although Yunshan had won the first place in the last battle, everyone knew how low the value of the first seeded disciple was, at that

time, in order to hide their strength, the ace disciples of the major sects did not come out of seclusion. Many of the major sects did not even send the second seeded disciple. They only sent some new disciples to train their troops. This also caused Yunshan to win the first place. But this time, everyone still did not have high hopes for this sect... ..

As a newly promoted sect, although Yun Shan was full of vigor, he could not be compared to those old sects with deep foundations.

Many people predicted that Yun Shan would not be able to enter the round this year. In fact, it should have been the case. While Kunlun occupied a large number of spots, in order to appease the grievances of the other sects, they naturally had to give out some soup, as the saying goes, the big fish eats the small fish, and the small fish eats the shrimps. The cake was only so big, so Kunlun naturally did not count Yun Shan in. Therefore, they had long ranked the various disciples of Yun Shan as experience babies.

Even the first seed, Lu Xingfeng, was used by Kunlun to test the mysterious Luofu sect. They did not expect Yun Shan to hide it so deeply. The strongest seeded contestant was actually the second seed, Yun Ji Mu. As a young cultivator who was only in his fifties, he first defeated Emei Yan Wushuang in one move and then forcefully defeated the number two seed of Maoshan. This result made a lot of people who bet on the periphery lose a lot of money...

After that, the rookie, Lu Chenshuang, defeated the number three seed of Wudang, Helian Cheng. Two people in a row lost their cool. Now, it had become a rare highlight of this insider meeting, and it was being discussed by many people in the pugilistic world.

Because there were too many shady deals this year, although all the big trump cards had been brought out, it was even more boring than the previous years. There were only a few duels that could be brought out for discussion. Other than the few duels that Yun Shan had lost, it was the performance of the Dark Horse, Luo Fu, and a few other disciples.

No one had expected that the only three disciples of this new sect were all powerful, especially Chen Yutong, who had defeated Wang Qing. That match had been judged by many as the real final of this martial arts demonstration. Of course, because of that, the reputation of the dragon group had been smoothly advertised through this martial arts demonstration.

At least in the pugilistic world, there were not many people who would look down on the Dragon Group now. The lineup that could defeat the Ace Disciples of the ten great sects would presumably not be a motley crew...

Many itinerant cultivators were even considering whether to join the Dragon Group. This way, they could obtain the resources of the country and also have the opportunity to come into contact with a mysterious sect like Luo Fu. Thinking about it, it did not seem to be a loss...

Of course, regarding the change in the attitude of the extraordinaires behind the Dragon Group due to the publicity for this martial arts demonstration, which caused elder Li and the others to open up the situation, it was something later on. At this time, everyone was more concerned about this trip to the secret realm...

The night before the secret realm, Wei Lin, who was in charge of leading the team, was discussing cooperation matters with the Wudang Elder and the Yunshan sect master. The martial arts demonstration this time was too shameless due to Kunlun's operation, which resulted in its team being too large this year, many sects had secretly formed an alliance. In the past, Wudang's strength was strong, and each time, the number of members was only below Kunlun, so it rarely cooperated with outsiders. This time, after experiencing repeated failures, they had no choice but to find a partner.

Unfortunately, it was really difficult to find an alliance for the quality of their shortlisted disciples. In the end, Wudang had no choice but to choose the main culprit of the failures: The Luofu sect.

As for Yunshan, because of Yunji, the relationship between the two sects was quite good. Sect Master Yun was naturally happy to cooperate with this thigh of his.

"Both of you, this is my disciple's first time participating in the secret realm. He is purely a newbie. There are many things that I don't understand. I hope that your disciples can take care of him..." weilin smiled as he served them a cup of tea.

"Sect Master Qin, you're too polite!" The two of them waved their hands and smiled. However, they nodded slightly in their hearts. It was rumored that Qin Xuanji's strength was extraordinary. He was able to barge into the Kunlun Hall alone and escape unscathed. It was estimated that his strength should not be below the twelve golden immortals of Kunlun, with such strength and such a humble attitude, the two of them not only had a good impression of him.

"The three shortlisted disciples of your sect are all dragons and phoenixes among men. It's time to ask them to take care of those useless little fellows of ours..." the Wudang Elder said with a bitter smile.

At this moment, his mood was quite complicated. His Wudang sect had been repeatedly disappointed, and the two sects that had stolen his disciple's seat were the ones in front of him. Now, they wanted to be warm with them. It was really a pity...

"Elder, you must be joking. Although our three little kids have some talent, they don't have much experience after all. Especially this time when they first entered the secret realm of Kunlun, it's really worrying..."

At this point, sect Master Yun suddenly asked curiously, "I heard that your sect also has a secret realm, so it doesn't seem like you're not a newcomer, right?"

"This is also something that I'm quite worried about..." Vivian was delighted, this was the topic she was waiting for, however, she still looked hesitant as she said, "Although they are both secret realms, after all, they belong to two different places. During this period, the difference may be like the difference between heaven and earth. You are both old people who have participated in the secret realm of Kunlun. Can you tell us about the situation inside the secret realm?"

The other two were slightly stunned when they heard this, but they immediately nodded in understanding. The other party's concern was reasonable. Although they were both secret realms, perhaps the things inside were completely different.

Thinking of this, sect master Yun said first, "Our Cloud Mountain sect has only recently been qualified to enter the secret realm. Only two useless children have gone in to take a look. Moreover, because they

were targeted, they were unable to see anything. I think that elder Wang should know more about this than us. After all, I heard that senior brother Wang has also entered the secret realm before!”

Wei Lin’s eyes lit up, and then he looked at the Wudang Elder.

Elder Wang was silent for a while, and then he sighed, with a trace of reminiscence on his face. “There are a lot of theories about that place. Our major sects have also secretly studied it, but we still have some guesses.”

“How is it?” Wei Lin asked.

“We suspect that the secret border of Kunlun was once the ruins of the Ancient Immortal Palace!”

Chapter 534: The Strange Situation in the D sphere

“The ruins of the Immortal Palace?” Li Goudan and his friends’ eyes almost popped out of their sockets when they heard the news. “Really?”

“Damn, it’s getting more and more mysterious...” Goudan said while munching on melon seeds, “Even the immortal palace is here. Are there things like the Jade Emperor and the Grand Supreme Lao Jun Inside?”

“I already said it’s a ruin...” brother Goudan yawned and said, “Maybe we can see Lao Jun’s corpse. I’m most concerned about whether my brother monkey is inside...”

“You guys are getting more and more ridiculous...” Chen Yutong looked at the few of them with disdain.

It was obvious that the few of them were very interested in this topic. They discussed it until midnight, but virion did not feel much about it.

As an alien, she was not that enthusiastic about the local myths in central China. Moreover, as a descendant of a traditional family in the federation, she was very clear about these local myths.

The so-called mythological ruins were often just some traces left behind by the decline of a high magic civilization... ..

When the high magic civilization developed to the end, it would cause the planet’s instinctive backlash for various reasons, leading to the arrival of the age of doom, and those people who were often unable to break away from the planet’s dependence would slowly wither due to the backlash from the planet’s own Gaia consciousness.

After the age of vipralopa came, along with the decline of the high magic civilization, materialism would slowly rise. Usually, the evolution of the individual body would be lowered, and the rapid development of the collective civilization would slowly form a collective industrial civilization, most people would slowly rely on technological products and ignore their own evolution. When such a civilization progressed to a certain extent, it would threaten the safety of the planet, and Gaia’s consciousness would restart the stored energy. That was the Doomsday Mana Tide in many science fiction novels... ..

Such a mana tide would lead to the large number of biological mutations that appeared in some science fiction novels. At that time, the fragile human body was weak, and despite having a certain level of technology, they were unable to resist such large-scale biological mutation.

For example, if the cockroaches and rats in the city mutated and filled the streets, how would the fragile human face the crisis? Could they survive by relying on modern weapons?

If they were careless and some mutated parasites could kill them, what was the use of having an atomic bomb that could destroy the city? Even if you blew up the entire world, the destruction would still be the human's own.

After destroying the civilization system built by intelligent life forms, this high-magic nature would give birth to a new generation of intelligent life forms, slowly building up this high-magic cultivation civilization, and so on and so forth... ! Forever being played by Gaia's consciousness!

People from high-dimensional civilizations like Vivian could naturally see this clearly. If the Aborigines could not leave the planet before the planet was attacked, then they would forever be aborigines. This was the consensus of all the people in the federation.

The current situation of Planet D was somewhat special. From the traces of history, this planet should have entered the age of chaos a long time ago. However, there were still some extraordinary humans even after humans were able to land on the Moon, this was very inconsistent with the development laws of the Aborigines' planets in the past.

Although the extraordinary humans in Planet D were not of high levels, once Gaia's consciousness dared to launch the demon wave, these extraordinary humans would instantly rise up. It was very likely that they would survive the demon wave, and at that time, it was very likely that a group of remnant civilizations with strong bodies would be born, but they would still possess a certain level of technological civilization. This was very dangerous.

Normally, once such a situation was formed, it would be a matter of time before intelligent life broke away from the control of Gaia's consciousness and entered the universe... ..

Hence, whether it was the seer great lord or seer themselves, they were rather puzzled as to why sphere D had formed its current structure, and why there were still extraordinary humans despite the arrival of the age of Chaos., just what was the situation with Gaia's consciousness on this planet?

Combined with the Special Circumstances, Seer deduced a possibility. That was to say, it was highly likely that ball D had not been able to clean up its tail during the high magic period, and some existences that could not even wipe out Gaia's consciousness had appeared.

And these existences were still influencing this world even to this day.

This conclusion gave seer a slight headache, because once this conclusion was established, it meant that Ball D was highly likely to have some very powerful hidden creatures... ..

And judging from the current might of Kunlun, these creatures were most likely in the so-called secret realm of Kunlun! !

Thinking of this, Vivian reminded them, "You must be careful this trip. The purpose of this trip is to probe, don't take risks lightly. Whatever happens, you must ensure your own safety..."

"Will it be very dangerous?" Asked Eggface hurriedly.

"That's hard to say..." Vivian shook her head, if the Lord's statement was true, there might be danger. However, this was not a dead world. Even if there were powerful creatures in there, there might not be a law that could target their rebirth, even if there was some danger.., at most, it would be the rebirth of players.

Of course, there were times when it was hard to say. What if there was a restriction that could restrict rebirth?

However, Vivian would definitely not say this. Based on her attitude towards the three of them, once they knew that she was really in danger of dying, they would not go even if they were beaten to death...

So, she chuckled and said, "Even if there is danger, the main base will instantly activate your backup brain and teleport your spirit bodies. You can rest assured on this point."

Upon hearing this, the three of them let out a sigh of relief. As long as they did not know how to do it.

"However, all of you still have to pay attention..." "The rebirth of the base is a method to transfer spirit bodies. It is equivalent to the life box of an undead creature. Although it can achieve the effect of rebirth, it can not retain your original bodies. In other words, after you are reborn, you have to start from a grade-1 life form to train. You have to build bricks, build bricks, and farm the land "...". "..."

"Uh..." their faces twitched. The training resources in the base were tight, and all the teachers' classes were full. Many rookies had to wait a week for a muscle training class as they were ready to enjoy life. They didn't want to start all over again...

So they nodded and promised to be careful.

The next day, all the selected disciples came to the most mysterious ancestral dragon peak in Kunlun under the leadership of the elder of Kunlun. Because of Kunlun's concealment, this location hadn't appeared in the satellite images of various countries until now, it was a rare unknowable area in the world.

Li Goudan and the other two looked around curiously along the way, because this mountain was a little strange. From its shape, it could even be compared to the five mountains, but there wasn't a single green plant on the entire mountain. Its entire body was like a man-made rock rockery. It was so bare that it gave people a creepy feeling...

Some of the new disciples were also quite curious at this moment, while the regular disciples looked normal.

"I say, Goudan, what's the situation here? There's not even a single blade of grass on such a big mountain?" Brother Goudan instinctively felt that something was not right around him...

“If you ask me, who am I going to ask?” Li Gou Dan looked around him and for some reason, a faint sense of unease rose in his heart.

“Look!” Chen Yu Tong suddenly pointed to the front and said.

Gou Dan and brother dog looked over when they heard that and instantly froze in the distance, especially brother dog. His lips trembled as he said, “Damn, so the legends are true...”.

Chapter 535: The Tree of Heaven

Everyone who came to the dragon ancestor mountain would be shocked when they saw this scene for the first time because it was too magical and spectacular. Compared to it, the pyramids and the gardens in the sky were not even worth mentioning... ..

On the top of the mountain, there was a huge stone mountain that did not have any plants. However, there was a huge tree standing there. No one knew how tall the tree was because it was so tall that one could not see the end of it! It was like a stairway to the nine heavens!

“Oh my God...” Li Goudan stared at the huge tree in a daze. “How did such a huge tree grow?”

Brother Dog Liu Shiyu was also in a daze. Many legends said that there was a huge tree in the mortal world that could lead to the heaven. However, he heard that it was cut down by someone. So it really existed?

On the other hand, Chen Yutong was slightly calmer. He rubbed his chin and said, “That’s strange. How could such a huge thing be able to hide from satellite exploration? Why hasn’t it been exposed to the outside world?”

Hearing this, the Kunlun disciples in front of them all smiled smugly. One of them said arrogantly, “How can the wood of the dragon ancestor of Kunlun be visited by the outside world? Just like you guys, when you came to the foot of the mountain, did you see the divine tree itself?”

Hearing this, Goudan and the others were stunned. Then, they came to their senses and thought, yes...

Such a huge tree, towering into the clouds, looked bigger than this mountain. Logically speaking, they should have been able to see it when they were at the foot of the mountain. After all, there was not a single plant on the entire Stone Mountain, but there was such an exaggerated giant tree at the peak of the mountain.., how could it be that they could only see it when they reached the peak of the mountain.

“What is the logic behind this?” Vivian asked curiously from the side.

At this moment, Vivian was wearing a light blue seedling suit. She looked like a refined water fairy. Her every frown and smile moved people’s hearts. When the disciples saw her question, their hearts jumped and their faces turned red. They no longer put on airs, they quickly said, “We don’t know about this either. There are many magical aspects of Kunlun. There are rumors that it was the heavenly court that put an end to the common thoughts of mortals who wanted to climb the sky back then. That’s why they used a great divine ability to hide their form...”

“Oh?” Goudan was suddenly interested. He looked at the tree and said, “Is that side really the heavenly court in the myths?”

As an excellent graduate who had nine years of commitment, he naturally knew that the so-called clouds in the sky did not have the heavenly court in the myths, and there was no Guanghan Palace or jade rabbit on the Moon. However, the situation in front of him was really too similar to the myths. It made people doubt the authenticity of his elementary school textbooks...

The Kunlun disciples were slightly stunned when they faced this question. To be honest, this secret realm had been in Kunlun for thousands of years, but until now, no one could tell what exactly the place that this big tree led to was... ..

“Silence!” While they were discussing, an old voice suddenly came from the front. Everyone looked over when they heard the voice and saw an extremely old Taoist standing under the big tree.

The Taoist looked old, but his voice was loud and clear. With such a wide terrain, hundreds of people could hear a buzzing sound in their ears.

“Who is this old man?” Li Goudan dug his ears with an unfriendly expression. He suddenly threatened people. If it weren’t for the fact that he was an old man, she would have already cupped her fists...

“Don’t talk nonsense...” a wudang disciple immediately said, “This is senior Huang Xinyang of Kunlun Mountain, a famous figure in Taoism. It is said that he has been the high-performing priest of Ancestral Dragon Mountain since the middle Tang Dynasty...”

Tang dynasty?

Holy Sh * T... “...”. Goudan and the others’ faces twitched as they thought, ‘doesn’t that mean that he has lived for more than two thousand years?’? ‘there are actually such immortal figures in China?’?

After reprimanding the noisy juniors, the old man continued to turn around and light the sandalwood incense. Goudan looked over and noticed that there were three stone statues and a huge cauldron under the huge tree.

In fact, these things were very obvious, but the huge tree was so spectacular that she did not notice it for a moment... ..

Then, everyone stood in a row under the arrangement. They took the incense handed over by the Kunlun disciples and began to worship. They first worshipped the Yuqing Yuanshi Celestial Venerable in the middle, then worshipped the upper Qing Lingbao Celestial Venerable and Taiqing Daode celestial venerable on the left and right. When they worshipped, the chimes of bells rang out from the thirteen peaks next to the ancestral Dragon Mountain. The sound was heart-wrenching.

Such a solemn ceremony stunned Goudan and the others, so they quietly asked, “Is this a ceremony to open the secret realm?”

Just as the Wudang disciple was about to speak, Lu Chenshuang interrupted him, she sneered, “What Bullsh * t ceremony? This is just the battle formation of Kunlun. Kunlun claims to be the Orthodox sect in the world and is the purest branch of the three pure ones. The other Taoist sects are just derivative of

the Taoist sects. Aren't we trying to imply that the three pure ones are the ancestors of the Taoist sects?"

Eh... "...Goudan and the others were stunned and then asked curiously, "What about the sects that don't believe in the Dao?"

"Do you see any sects that don't believe in the Dao Here?" Lu Chenshuang rolled her eyes, "Our Yunshan sect was originally a pure sword cultivation sect. In order to enter the top ten sects, didn't we thicken our skin and pull the skin of pure Yang Master Lu to pretend to be a Daoist sect?"

"Chenshuang! !" Sect leader Yun immediately frowned and scolded her in a low voice. Lu Chenshuang curled her lips but did not say anything else.

Sect leader Yun could not help but smile bitterly. This girl, she even used her own matters to gossip with outsiders...

Gou Dan and the others were stunned when they heard this. They could not help but think to themselves, 'this really is a society...'. .

At this thought, she looked curiously at the three leaders of the Daoist sects. In the middle, the heavenly venerate of primordial beginning held the origin pearl in his hand. There was a hint of indifference in his smile. On the left, the heavenly venerate of Numinous Treasure held the Jade Ruyi in his hands. His eyes seemed to shine with a bright light. On the right, the heavenly venerate of morality waved his taiji fan, and his gaze was gentle.

The three pure faces looked like one person, but they were all different. As for what the differences were, Goudan couldn't tell. After looking at them for a while, Goudan felt that the faces of the three statues were becoming more and more blurry. They were clearly in front of him, but he couldn't remember them in his sea of consciousness no matter what.

Just as he felt that it was magical, the old man in front had finished chanting the long chant, and announced that everyone could leave... ..

Thus, the group of disciples began to bid farewell to their elders.

The Wudang Elder looked at the remaining two kittens in his house, he could not help but sigh and exhorted, "It's rare for the two of you to have this opportunity to enter the realm. Remember to always follow the few who are with Luo Fu after entering. Everything is based on them. Don't be competitive..."

The two Wudang disciples immediately lowered their heads. In their hearts, they understood the meaning of their elders. The two of them were lucky, but they had to know what kind of abilities they had. If they clung tightly to their thighs, if they were willing to share some benefits with them, they would take some. They must not get on top...

As they said this, not to mention the two Wudang disciples, even elder Wang himself was extremely sick of them. Since when did the great Wudang come to such a stage...

On the side of Yunshan, sect master Yun probably had the same idea. He urged Yunji Mu to get along well with the disciples of Luo Fu, but he also had to pay attention to Yunyun and the like.

This time, Sect Master Yun's expectations for Yunji Mu were even higher than the last time. Last time, although she and Xingfeng had taken first place, they were somewhat ostracized because Yunshan was a new faction, before entering the secret realm, he had run so many times that he couldn't even get an alliance for his two disciples.

And now, not only did he have a large sect, Wudang (although it was incomplete...), but he also had this time's Super Dark Horse, Luofu. In addition, this time was the Ling dynasty, so as long as there were no unexpected gains, they should be much higher than the last time.

He didn't ask for much. As long as he could get a cultivation manual or a mountain-guarding secret treasure, he would be satisfied...

"Right..." just as they were about to leave, Goudan finally couldn't help but ask, "How do we get to the secret realm, US?"

"Climb up..." Yunji mu answered from the side.

"What... Thing?" Goudan and the others looked at the towering tree with a F * cking expression. ...

Chapter 536: Magical Secret Realm Rules (Part One)

To be honest, before they came, Goudan and the others had thought that this so-called secret realm should be something like a teleportation portal that would take them to their destination in a flash. After all, whether it was a western game or a xianxia game, this was the way to do dungeons, who would have thought that they would have to crawl here?

Li Goudan's good-looking oval face was almost as wrinkled as Wang Goudan's oval face. Normally, a tree that was 100 meters tall would be considered a towering tree. Goudan swore that this tree was definitely measured in kilometers... ... God knew how long this tree was. After climbing for a day and a night, they still couldn't see the end of it!

By the next night, the group was nowhere to be found. According to their pace, Goudan felt that they should have reached outer space by now. However, there was an endless troposphere along the way.., after a layer of cloud, there was another layer of cloud, as if there was no end to it.

This made Goudan, who was resting, extremely regretful for coming to join in the fun. She complained, "What kind of ghostly secret realm is this? How much longer do we have to climb?" As she said this, she looked at Yun Ji and said pitifully.

Yun Ji smiled and quickly fed her a mouthful of water. Then, she said with some doubt, "Senior brother Xingfeng and I didn't climb for so long the last time we came. I wonder what the reason is this time..."

As soon as she said this, Luo Fu and the others looked at Wudang and Goudan. Wudang and Goudan, who were drinking water to replenish their strength, shook their heads when they saw the others looking at them. "We don't know either..."

"What do you mean you don't know?" Goudan was stunned. "Didn't you come here before?"

“This place isn’t fixed...”the older Wudang disciple sighed and said, “It’s different every time. It’s hard to calculate the schedule...”

The person who spoke was called Ma Danian. He was the fifth seed of Wudang this time, and he was one of the older ones. It was said that he had cultivated for more than 120 years, but in the end, he was still in the human immortal realm, he was one of those cultivators who didn’t have much talent but worked hard.

“What do you mean?”Chen Yutong asked curiously.

Ma Danian sighed and said, “This tree doesn’t seem to have an end. Whether we can reach the secret realm depends on when we leave the cloud...”

“Leave the cloud?”The group of people were stunned. “What the hell is leave the cloud? Aren’t there clouds everywhere?”

“It’s a cloud bed...”. Ma Danian explained in a low voice, “In the past, when we climbed to a certain level, there would be a moving cloud bed to pick us up. Under normal circumstances, we would leave the cloud in a day or so at most. This time, for some unknown reason, after two days, we still haven’t left the cloud even after climbing so high... “... logically speaking, it shouldn’t be “...”

“Is it because of the so-called Ling Dynasty?”Yun Ji suddenly asked.

“It shouldn’t be...”Ma Danian shook his head. “The speed of the Ling Dynasty’s clouds will be faster. Most of the time, white clouds will appear in half a day, and when we climb to two days, there will often be high-quality colorful clouds...”

“This... clouds are divided into quality?”Goudan was stunned for a moment and asked curiously, “What’s the use of this?”

“It’s very useful...”. Ma Danian explained, “Different clouds send you to different places. High-quality clouds can send you to better places. For example, ordinary white clouds mostly send you to the periphery of the secret realm. Sometimes it’s a garden, sometimes it’s a stable, and sometimes it’s a place like an immortal mountain. You can only get some spirit herbs, appendices, and some yellow-scarved strongmen’s invitation cards there. High-quality clouds can send you directly to a certain immortal’s Daoist Palace, where you have a good chance of obtaining finished pills, cultivation manuals, or spirit tools.” “...”

“D * mn... It can be like this?”Goudan and the others were immediately interested. Brother dog asked curiously, “Then, which types of clouds do you know, senior brother?”

Ma dayun replied, “As far as I know, there are white clouds, colorful clouds, thunderclouds, and so on. The quality of white clouds is the lowest, but they are also the most common. Colorful clouds usually lead to the clouds of the major dao palaces. There are fewer such cloud beds. Once they appear, all the major sects will fight for them. Usually, when these clouds appear, they lead to the clouds of a certain Dao Palace...” “...”

“What about Thunderclouds?”Asked Goudan immediately.

“That thing is a little strange...” Ma da Yun shook his head and said, “Until now, no one knows where that thing leads to, because no one who gets on thunderclouds can come back...”

Everyone: “...”

Was this considered the legendary treading on Thunder?

Just as they were speaking, a cry of surprise came from the crowd. “It’s coming, it’s coming. Look, the clouds are coming!”

Goudan quickly looked up and saw a small white cloud that was about the size of a pillow floating slowly towards them. After it floated over, it stopped beside the tree and walked around leisurely like a big lump of cotton candy.

“So cute! !” Goudan’s eyes immediately lit up.

“Ji Nian, Ji Yue, you two go up First!”

Just as the crowd was still sighing over the arrival of the clouds, a cold voice was heard. Everyone looked over when they heard the voice. It was the current number two seed of Kunlun, Su Ruoyun...

He was still dressed like a scholar, but when he spoke, he gave off an unquestionable aura, causing the scene to instantly quieten down.

Seeing this stance, Goudan asked softly, “What does this mean?”

“Snatching the cloud...” Ma Danian sneered.

Goudan: “Snatching the cloud? Why do you want to snatch the cloud? If you want to sit on the White Cloud, why don’t you just sit there together?”

“A cloud can only fit two people...” Yun ji mu added.

“What?” Goudan was stunned. “Then why are they... Oh...”

This time, Goudan Li finally reacted. Previously, he had heard from Ren that it was important to form a gang in the secret realm. So that was what they meant.

A cloud could only fit two people. Then, whichever family’s disciples went up would naturally be the ones with the hardest fists to decide...

“This... is there no one to fight with Kunlun?” Brother Dog frowned.

“Kunlun has so many people, how can we fight with them? Besides, it’s just a white cloud, there’s no need to start fighting now. When more clouds appear later, they will be divided according to each other’s forces...” Ma da Yun explained.

“Oh...” Gou Dan and the others suddenly looked like this... ..

Mu Yunji’s face darkened as she recalled the time when she and her senior brother were isolated here. At that time, it was just the two of them... Other people were either like Karakorum who used their own power to snatch the clouds, or they were snatched away by the combined forces of several factions. Her senior brother and sister could only watch as others left happily...

“I have a question...”. Chen Yutong suddenly said, “It feels like there’s a BUG. Is there a fixed number of clouds “? Does one float over every once in a while “? If it is, why do we need to offend people by forcefully snatching it “? At most, we can just wait for a few more days “? And just like what you said earlier, since the quality of the white clouds is average, why don’t we just wait for Caiyun?”

“It’s not that simple.” Ma Dalian sighed and slowly began to talk about the rules here... ..

Chapter 537: Magical Secret Realm Rules (Part Two)

Taking advantage of the night to rest and following Ma Dayun’s explanation, Goudan and the others slowly understood the magical rules of the secret realm...

First of all, things like clouds were random. After climbing for a period of time, they would float over a few times to hide. Moreover, the higher you climbed, the higher the probability of high-quality clouds floating over. The most magical thing was that you could only come to the clouds if you kept climbing, if one wanted to wait for the rabbit, one could wait there until the secret realm closed and not a cloud would come over.

Many sects had tried this for countless years. Some places did not have clouds at the beginning, but they never did. If one wanted to obtain a cloud bed, one could only keep climbing.

Then there was Chen Yu Tong’s second question. Since there would be more and better quality clouds climbing up, why not keep climbing?

“Don’t you realize that the higher you climb, the more difficult it will be?” Ma da Nian sighed.

Chen Yu Tong was stunned. If you didn’t say it, she wouldn’t have been able to react if the other party didn’t mention it. She carefully observed her surroundings. The air seemed to be thinner, and for some reason, she felt more tired, as if... ! It was the increase in gravity!

“The higher you climb, the more difficult it will be. Normally, the human immortal disciples wouldn’t be able to hold on for more than three days, and the Earth immortal disciples would rarely be able to hold on for more than five days...”. Ma Dayun explained, “There is indeed a chance of encountering a higher quality cloud, but this thing is random in the end. What if there isn’t one “? You climb to a certain position and there aren’t any clouds, but you can’t continue to climb. Then, didn’t you come for nothing this time?”

“Uh...” their eyelids twitched. They didn’t expect it to be like this.

Ma dayun sighed slightly, “If not for this, this kind of vicious competition between sects wouldn’t have happened...”

There was once an ace player from Wudang who returned empty-handed. It was because he wanted to find a cloud of higher quality that he gave up all the other clouds. In the end, he couldn’t climb up until the seventh day. However, there were no clouds at that time. As the leader of that year, he returned with this result and was immediately scolded by the sect leader. ...

Of course, this kind of thing had always happened. There were always some people who thought that they could find something better, because there was a legendary golden cloud above the colorful clouds. It was said that this kind of cloud would send you directly to the Godly Palace! It was rumored that the secret treasures of the Twelve Golden Immortals of Kunlun were obtained in this way!

“Therefore, whenever a cloud appears, regardless of its quality, as long as it is not a thundercloud, all the major sects will fight for it. If you don’t Use Your Trump Card, you can give it to the ordinary disciples. In any case, you can try your best to let your own disciples gain something...”

“I see...”Chen Yu Tong nodded. He finally understood why a White Cloud Kunlun would be the first to become the villain. It was because they wanted to send their own ordinary disciples out first!

“Then how did you guys distribute it in the past?”Asked Goudan. “Did you let the people of Kunlun leave and eat the leftovers first?”?

“It’s not that simple. This thing has a very important beginning...”. Ma Danian shook his head and said, “Although Kunlun usually eats a large amount of food, we can’t go too far. Otherwise, when those trump cards of theirs go in, no one will show mercy to the remaining disciples outside.” “...”

“Uh... right...”Goudan suddenly reacted. “The more people go in, the fewer people stay outside. If we rob all of them at the beginning, the remaining strength on our side will become weaker and weaker, and it will be disadvantageous...”

Just thinking about this point made it clear that there were twelve people in Kunlun compared to now. Because they had robbed too many people in the early stages, seven or eight people went in at once. Then, the remaining four or five people would not be so easy to compete when they encountered high-quality clouds...

Therefore, it was a matter of careful calculation when to rob and when to give up...

Speaking of which, Goudan looked at Yun Mu ji curiously and said, “Then what cloud did you rob last time?”

“Get It?”Mu Yunji smiled bitterly. “You think too highly of us. How can we have the right to snatch it?”

At the mention of the previous encounter between Mu Yunji and her brother, Ma Danian felt a little embarrassed because he was one of the people who forced Mu Yunji and her brother.

Therefore, he said while holding his head, “Junior sister, Don’t blame me. At that time... at that time, it was indeed...”

“I understand...”mu yunji interrupted faintly, “Senior brother Ma, you don’t have to take it to heart. It’s always like this in the competition between sects. If I were in your position, I would also do the same thing...”

“UH... Haha, it’s good that junior sister understands...”Ma Danian rubbed his hands and smiled embarrassedly.

“What happened that year?”Goudan immediately became curious and asked.

Mu Yunji looked into his eyes and knew that he was the same as Wang Goudan. He was the type of person who would not stop asking questions when he encountered gossip. In the end, she sighed and told him about the encounter.

At that time, she and her senior brother, Lu Xingfeng, did not have an alliance. They were alone, and they were the weakest force among all the selected disciples. Because they were not weak at that time, they were targeted.

They crawled all the way here, but they did not get a share of the clouds and clouds. On the third day, two clouds and three clouds floated over. The remaining disciples were afraid that they would leave on the clouds, and the remaining disciples would not be able to suppress mu Yunji and Lu Xingfeng, therefore, they simply gave them a cloud to go up, directly cutting off their thoughts of going to a high-class area.

This was also the reason why they only got some herbs to go back when they were the champion of the martial arts show... ..

“Ah, so dark?” Dog Egg and the others immediately clicked their tongues. Brother Dog frowned slightly, thinking that if someone dared to do this to him later, he would definitely blow his head off!

“Let’s not talk about this for now...” Ma Danian awkwardly skipped the topic and pretended to be serious. “Let’s analyze the current situation...”

As he spoke, he pointed at the disciples of the other sects who were trimming the tree trunks. “I reckon that from tomorrow onwards, colorful clouds will appear one after another. When the time comes, there will be a rule about when to fight and when to give up...”

Seeing that no one objected, Ma Danian paused for a moment and continued, “Now that Kunlun is the dominant force, there are ten people in a family. Two of them left just now, and there are still eight people left. The two who left are the ones with the lowest cultivation base among the selected disciples of Kunlun this time. The remaining three are at the human celestial realm, and the remaining five are all at the Earth immortal realm. If the first colorful cloud appears tomorrow, they will definitely fight for it. At this time, they are the most powerful. I reckon that all the sects will give up...” “...”

“Then, there is the strong alliance between the Celestial Master and Mao Mountain. This time, senior brother Wang Qing was eliminated. The only one who could compete with Jiang Shisi of Kunlun was the Celestial Master, Zhang Lingyu. Moreover, the Celestial Master Sect’s results were objective and their strength was still intact. There were five disciples left, including Mao Mountain, a total of nine people. Among them, Zhang Lingyu and Mao Mountain’s ace, Mao Junzhu, were the strongest. Among the remaining seven people, two of them were at the Earth immortal realm, which was the second most powerful force. After the first colorful cloud was snatched away by Kunlun, the second cloud would be taken away by them. After that, it would be the alliance between Quan Zhen sect and Emei...” “...”

After the comments from the various factions, everyone nodded their heads repeatedly. However, they soon felt that something was not right. They felt that priest Ma seemed to be very pessimistic. He had actually turned his group into a weak group in the division of Power?

Did this fellow misunderstand something. Furthermore... ? What the hell was this sudden turn of events?

Chen Yu Tong was very dissatisfied with this statement. Didn't he win in a fair and square manner?

Chapter 538: Fists Speak (Part One)

Chen Yutong's thoughts were correct. Ma Danian did not think highly of his own alliance. Although his eldest senior brother, Wang Qing, lost to Chen Yutong, he still thought that his senior brother was too careless, although he also acknowledged the opponent's strength, he still did not think highly of her being able to defeat either Kunlun's Jiang Shisi or the Celestial Master's Zhang Lingyu.

In his heart, Kunlun's current lineup was definitely the strongest. Not to mention the Millennium Genius Jiang Shisi, just the second seed Su Ruoyun and the third seed Boundless Rock were extremely difficult to deal with top experts, when Jiang Shisi had not yet risen to power, these two people were the pillars of support among the younger disciples of Kunlun. They were also his eldest senior brother's main opponents in the past. Boundless Rock had fought against his eldest senior brother many times. His hard-body martial arts were passed down from Daoist Yellow Dragon among the Twelve Golden Immortals. He truly possessed the strength of a dragon and elephant. Every time his eldest senior brother met the other party, he would have a headache.

Although Su Ruoyun's current limelight was overshadowed by Jiang Shisi, his senior brother had also said that although that guy seemed to be low-key, his actual strength was probably no less than Jiang Shisi's.

Apart from these three, there were almost no weaklings left. The two Luo brothers were already at the Earth immortal realm. The two brothers' joint attack technique was extremely famous in the cultivation world. It was rumored that Hong Tianlu, who was once Emei's trump card, had suffered a loss at the hands of those two brothers, the remaining two were the situ siblings. Although they had yet to enter the Earth immortal realm, they were both from famous golden immortal sects. Their flowing water sword intent was extremely profound, far beyond what ordinary human immortals could compare to, upon closer inspection, they were all top-notch talents who could take charge of their own affairs.

At the thought of this, Ma Danian not only sighed to himself, 'as expected of the Dao ancestor's legacy. His foundation is so deep that even after so many years, Wudang is still lacking quite a bit.'

On the other hand, although there were seven people on his side, the actual level of strength was somewhat worrisome.

Let's not talk about him and junior brother Li. It was not that he was belittling himself, but he was already past the age where he thought highly of himself. He was very confident in his own strength. Compared to the Kunlun side, not to mention the remaining seven people, even the two Kunlun juniors that Cheng Yun had just left, he did not have full confidence in being able to take them down.

Of the three people, Luo Fu, Chen Yu Tong naturally had some ability to defeat his eldest senior brother, although he had always felt that his senior brother had been careless... ..

Then there were the other two. These two did not perform too well in the arena, making Ma Danian unable to judge their strength. Brother Gou had defeated the number one seed of Yunshan, Lu Xingfeng,

and Gou Dan had defeated his youngest uncle., however, although these two had some talent, regardless of whether it was his youngest uncle or that person surnamed Lu from Yunshan, they were not considered powerful figures in front of the trump cards of the other sects.

Moreover, these two had lost in a very controversial manner. Lu Xingfeng had lost to brother dog because of his weapon, while Gou Dan had won against his youngest uncle. Anyone with a discerning eye could see that it was his youngest uncle who had lost, therefore, Ma Dalian really did not think highly of the standards of these two people.

As for these two people from Yunshan, Yun Mu Ji's battle records were not ordinary. First, she had defeated Yan wushuang from Emei, and then she had defeated the second seeded disciple of Maoshan. She could be considered to be a strong person, but it was estimated that she had not yet reached the standard of the trump cards of the various sects. After all, she was too young, as for that Lu Chenshuang, although she had won against Helian Cheng, the third seeded disciple of Wudang, it was obvious that she had relied on the might of her weapon.

As for divine weapons, Kunlun was indeed not lacking in such things... ..

In conclusion, their force was definitely unable to contend with Kunlun, and was much weaker than the alliance between the master of Heaven and Maoshan. The only force that could barely bully Kunlun was the weak alliance between Kongtong, Luo Wu, and Huashan.

The younger generation of the three sects were not very strong recently. Among the Ace Disciples, only Yue Qing of Huashan had the strength of an Earth Immortal, and the remaining two... .. It would probably be difficult for them to defeat the situ siblings of Kunlun.

In fact, if Wudang had not been able to join the Luofu Alliance, he had originally planned to join this last batch of rookies...

At the thought of this, Ma Dalian began to calculate in his heart how he could squeeze this rookie group to obtain the greatest benefit for his group...

Just as he was thinking, three more white clouds suddenly appeared in front of them. Everyone's eyes instantly lit up.

This time, Kunlun did not snatch any more. Now that the two weakest disciples had been sent away, the remaining disciples, including the situ siblings, were all proud and arrogant people. They definitely would not ride on the white clouds...

After hearing that there were better colored clouds, Goudan and the others were not very interested in the white clouds. However, Lu Chenshuang showed a hint of hesitation on her face.

She actually wanted to ride on the colored clouds, but she also knew what she was capable of. Now that there were so many white clouds, it was rare for one to come and ride with the youngest disciple of Wudang, it seemed the wisest choice to ensure that she would not return empty-handed this time.

Therefore, she looked at her senior sister. Although she was not convinced by Yunji, she now knew that she was Yunshan's trump card.

Seeing her junior sister looking at her as if she was asking for help, Yunji comforted her gently, "Don't worry..."

Lu Chenshuang pursed her lips and did not say anything in the face of this comforting tone. Ma Dalian, who was at the side, was a little anxious when he saw this. His faction should indeed be sending two out first, however, judging from the looks of the crowd, they did not seem to have any intention of doing so. Could it be that they were all thinking of sitting on the colorful clouds?

Just as he was thinking about it, the celestial master sect said, "We want two on our side!"

As soon as these words were said, the faces of the people from the surrounding sects darkened.

Especially the Emei sect who was just about to open his mouth: Hong Tianlu!

Actually, he wanted to buy these three flowers. Even if it was not possible, he wanted at least two because the current situation was not good for them...

The quality of the disciples of the celestial master and the Maoshan sect was very high. After removing these two white clouds, they would be like Kunlun and the rest would be elite disciples who were not qualified to be part of the cloud. In other words, they would be able to escape from the battle for the White Clouds.

Then, the remaining forces that would fight for the white clouds would be the alliance force on the side of Luo Fu and the alliance force on the side of Kongtong. On paper, Emei and Quan Zhen sect were both ranked among the top ten sects, he and Quan Zhen sect's ace, Qiu Chuxing, were also top-notch experts.

However, their core force was very weak. Quan Zhen sect and Emei sect had a feeling of not being able to take on each other these few years. There were very few outstanding disciples under them, and the only one that they could bring out was Yan Wushuang, however, she was eliminated by that Girl Yun Shan in the first round. Quan Zhen sect was the same as her. Other than Qiu Chuxing who was very tough, the rest of the disciples were all ordinary people!

If they went any higher, there would definitely be colorful clouds. Once there was a chance, he and Qiu Chuxing would not let it go. However, the crux of the matter was that as long as one person from their faction left... The entire situation would become the same for the Huashan Alliance...

Originally, Hong Tianlu wanted to take down these three clouds. Once he took them down and sent away a large number of disciples, the burden on him and Qiu chuxing would be greatly reduced. However, the heavenly master forcefully broke this thought.

While they were in a gloomy mood, Yue Qing, the trump card of Mount Hua, suddenly cupped her hands and said, "If everyone doesn't have any ideas, how about this cloud belongs to Mount Hua?"

Yue Qing cupped her hands in an extremely humble manner. She bowed to almost every faction. It was obvious that she really wanted to take down this cloud. The main reason was that she was also under a lot of pressure. She was the only one on her side who could fight., dragging down such a big family, she also wanted to quickly digest it so that she could quickly participate in the battle for Caiyun!

Hong Tianlu glanced at her, and a trace of calculation flashed in his eyes. Then, he whispered a few words to Qiu Chuxing.

“This...” Qiu Chuxing frowned. “Isn’t it too much?”

“That’s the only way. Otherwise, the two of us won’t be able to support ourselves in the short term!” Hong Tianlu said in a deep voice, “Brother Qiu, if you don’t want to be this evil person, then let me do it...”

Qiu Chuxing hesitated for a second and finally nodded. “I’ll have to trouble brother Hong... if there’s an opportunity, I’ll let you go first.”

“Sure, sure!” Hong Tianlu’s eyes lit up, and then he turned to Yue Qing with a smile and cupped his fists. “Since junior sister Yue has spoken, we still have to give her face...”

“Thank you, senior brother...” Yue Qing secretly heaved a sigh of relief, but before she could say a few more words of thanks, she heard the other party say, “Junior sister Yue, please ride on the Cloud Now!”

Once these words were said, everyone was stunned. After Yue Qing was stunned for a moment, her face instantly turned extremely gloomy. “What does senior brother Hong Mean?”

Chapter 539: Big Fists Speak (Part Two)

“What does senior brother Hong Mean? ?” Yue Qing asked with a livid expression.

“Naturally, it means what it says!” Hong Tianlu cupped his hands and said, “Junior sister Yue, please leave on the Cloud!”

Everyone was instantly attracted over. Other than the two alliances involved, everyone else looked like they were watching a show.

On Kunlun’s side, boundless Yan sneered, “This guy is really not afraid of offending people...”

“Here, we all talk with our fists. What are you afraid of offending people for?” Jiang Shisi stretched lazily as if he was completely interested.

On Luo Fu’s side, Goudan also looked like he was watching the show. He took out a handful of pistachios from his bag and said while munching on them, “Hey, Old Ma, explain to us quickly. What’s going on?”

Old Ma’s face twitched and he looked at him helplessly, he said in a low voice, “That Emei’s Hong Tianlu plans to send Yue Qing, the only one who can fight on Mount Hua, out by force. That way, even if he and Qiu Chuxing leave, the remaining soldiers in his family can continue to fight with Mount Hua’s group and not fall into a disadvantage.”

“That’s a good plan... but will he be willing?” Brother Dog frowned and said.

“So what if he’s not willing?” Ma Danian curled his lips and said, “Didn’t we say before that here, the one with the biggest fist has the final say!”

Sure enough, Hong Tianlu said coldly when he saw Yue Qing still not moving, “What? What is junior sister Yue waiting for?”

“Hong, don’t go too far! !” Yue Qing put one hand on her sword.

“What? Junior sister Yue wants to fight with me?” Hong Tianlu sneered, “Although junior sister Yue can try her luck, I’ve said it. If junior sister Yue leaves now, I promise that I won’t target your Huashan faction. Otherwise, as long as I, Hong, stay here for one minute, you won’t be able to get a single cloud from your Huashan Faction!”

“You...” Yue Qing was so angry that her whole body was trembling, however, there was nothing she could do. Hong Tianlu’s hard body skills were amazing, and he was one of the top disciples in the top ten sects. Although she was a Huashan Ace, she was still too young, an old and famous expert like her opponent naturally did not have the slightest confidence. She could not help but sigh inwardly. If senior brother Linghu was still around, how could huashan be bullied to such an extent?

“Junior sister, Don’t blame me...” . “...” . I had no other choice... “...” Hong Tianlu sighed slightly. “It’s all for the sake of our own sect. Junior sister, please forgive me. Many fellow Daoists have witnessed this. I, Hong Tianlu, am a man of my word. As long as you leave, I will never target your Huashan faction again.”
“...”

Yue Qing looked at the other party firmly upon hearing this. The two of them faced each other for about ten seconds. In the end, she couldn’t muster up the courage to pull out her sword. She had no choice but to take a deep breath before saying, “Please keep your word...”

“Junior sister, don’t Worry...” Hong Tianlu’s face lit up. Just as he was about to say something nice, a cold voice suddenly sounded, “It’s true that you can’t avoid these things every time...”

As soon as the voice sounded, Hong Tianlu’s face, which was originally smiling, froze...

The people who thought that the party was going to end were also stunned. They suddenly became energetic. Even Jiang Shisi, who was originally bored, sat up and looked at them with interest.

Usually, outsiders would rarely criticize someone who did such an ugly thing. After all, it involved the interests of the sect. who hadn’t done such a dirty thing before? To put it bluntly, everyone was birds of a feather...

Hong Tianlu’s status in the jianghu wasn’t low. Just because he could pull down his face to do such a thing didn’t mean that he wasn’t afraid of people talking about it. Let alone now, even if someone talked about it afterward, it would be a big problem. If he said it on the spot, he would definitely be looking for trouble!

Normally, in such a situation, there was no need for anyone to do so. Didn’t they see that the people of Kunlun were just watching coldly from the side?

Hence, everyone was very curious. Who would offend a fierce person like Hong Tianlu for the sake of an unimportant Huashan Alliance.

At this moment, everyone looked over when they heard the sound. When they saw the person who spoke clearly, they were all stunned. No one had expected to meet that fellow...

Hong Tianlu himself had not expected this either. After he reacted, he looked at the other party coldly and cupped his hands. “What? Luo Fu wants to meddle in the affairs of Emei and Quan Zhen Sect?”

The person who had spoken was none other than Mu Yunji! !

This was not something that only outsiders had not expected. Goudan and the others had not expected Mu Yunji to join in on the fun either. Even Lu Chenshuang, who was standing at the side, was stunned. She did not understand why her senior sister would want to offend someone from Emei, it was still Hong Tianlu!

“Why? Do you have to pull the big skin of emei and Quan Zhen?” Mu Yunji sneered.

“Oh?” Hong Tianlu sneered immediately. “So you are dissatisfied with someone?”

Mu Yunji looked at the other party coldly, but she didn’t refute. Her face was full of words: that’s what I meant! !

“Good, good, good! !” Hong Tianlu laughed angrily. “It seems that I haven’t made a move in the pugilistic world. Even some juniors dare to step on my face...” as he said that, he looked at Gou Dan and the others. “Luo Fu also meant that?”

He was still focusing on that guy called Chen Yutong. He was still a little afraid of that guy who could beat Wang Qing...

Seeing this, Goudan immediately put his hands on his hips and was about to say, “This Goudan also has the same intention. Bite Me! !”!

However, before he could support Mu Yunji, he heard mu yunji say, “I didn’t say it clearly enough? It’s just my intention alone!”

Yue Qing on the other side of Mount Hua was stunned when she saw this. Then, she cupped her hands and said gratefully, “Thank you for your righteous words, junior sister. I’m grateful...”

“No need...” mu yunji interrupted her coldly, “I’m not helping you, and I don’t have a good impression of you, Mount Hua. Back then, you, a disciple of Mount Hua, forced me to be a brother and sister! !”

Yue Qing’s expression froze when she heard this. She stammered and didn’t know how to respond. She couldn’t help but think, what does this guy mean?

“If that’s the case, why did you do it?” Hong Tianlu said gloomily.

“I did it because I hate this thing...” mu Yunji said coldly, “I hate this ugly way of eating. I, Mu Yunji, will be the enemy of whoever does this disgusting thing today. It’s the same for you and the others! !”

When she said this, everyone was stunned. They thought to themselves, “Is this guy crazy? He has such a big mouth. Isn’t he afraid that his tongue will slip out?”

Hong Tianlu was also stunned by this wave of posturing. He didn’t know how to respond for a moment.

“Interesting... this girl...” Jiang Shisi looked at Yun Ji with interest. It was rare for him to show such an interesting expression.

“She’s just young and frivolous. She’s so proud of her achievements that she forgot herself...” Su Ruoyun said disapprovingly.

“That might not be the case...” Jiang Shisi narrowed his eyes and observed mu Yunji, at this moment, Mu Yunji’s aura was restrained and perfect. Even he could not tell the depth of her aura. He had a feeling that this fellow was not as carried away with his achievements as SU Ruoyan had said. Instead, he might really have something up his sleeve...

Hong Tianlu, who had reacted at the same time, laughed out of extreme anger. He suddenly cupped his fists and a mountain-like aura spread out in all directions, causing the surrounding disciples to retreat!

“What big words! Then let me test your strength! !”

Chapter 540: When did you reach such a high position?

“Let me weigh your weight!”

Hong Tianlu looked at this girl who didn’t know the immensity of Heaven and earth with a cold expression. In this generation of the cultivation world, although he couldn’t be compared to the top geniuses like Wang Qing and Jiang Shisi., but he was definitely a top figure among the ace disciples of many sects. If it wasn’t for the disappointing Junior Brothers of his own sect, how could a person with such prestige like him make things difficult for a woman?

But no matter what, when did a junior from Yunshan come to ridicule him like this? If it wasn’t because he was afraid of Luo Fu and the others, with his explosive temper, he would have long exploded!

With a little talent, if he beat Yan Wushuang, would he really treat himself as a figure?

Hong Tianlu decided to teach this junior a good lesson, and also took this opportunity to vent his anger on his junior sister Yan!

At this moment, although Hong Tianlu’s expression was cold, he had been holding back a large amount of anger in his heart. Once his aura erupted, it was like a landslide. The surrounding emei disciples stumbled back as if they were being pushed by an invisible hand, at the side, Quan Zhen’s Qiu Chuxing narrowed his eyes slightly and took two steps back carefully.

He thought to himself, Hong Tianlu rarely moved around in the martial arts world these years. He didn’t expect his cultivation to advance so much. This aura was much stronger than the martial arts performance ten years ago!

“Yo, it’s interesting...” on Kunlun’s side, yan Wuliang was immediately interested. As a hard-body technique expert, he could naturally sense Hong Tianlu’s current level. A hint of excitement rose in his eyes as he muttered, “When I get out of here, I’ll have to challenge him!”

SU ruoyun said calmly, “He’s improved a lot. Ten years ago, Hong Tianlu lost to Wang Qing. Secretly, Kunlun’s pavilion ranked him seventh in the three generations ranking. Now, it looks like the ranking will have to be changed!”

However, Jiang Shisi, who was sitting at the back, kept staring at Mu Yunji with interest. Hong Tianlu’s aura was not weak, and it was indeed much stronger than the last time. However, that was all. He might

be able to compete with Qiu Chuxing, Mao Junzhu, and the others, however, he was not in the same class as Jiang Shisi, so he was not very interested. On the contrary, that junior from Yunshan looked a little interesting. When faced with Hong Tianlu's aura, his aura was not chaotic at all. Not to mention other things.., just this stabilizing technique alone gave him the aura of a grandmaster!

Many people were intimidated by Hong Tianlu's astonishing imposing manner. For a moment, they were unable to see the extraordinary aspects of Mu Yunji like Jiang Shisi did. Instead, Hong Tianlu, who was facing him, slightly noticed it.

From the very beginning, this girl had been expressionless. It was as if no matter how big the commotion was, it would not cause her to have even the slightest ripple. Such an attitude that did not change even when Mount Tai collapsed in front of her.., he had once seen it in his martial uncle, Grand Master Ming Jing.

But Grand Master Ming Jing was an expert of the Emei Celestial Immortal realm. His status in Emei was above that of his master, Elder Hong. Even the sect leader had to respectfully address him as martial uncle..

Hong Tianlu shook his head and laughed to himself. Why would he think of this junior and his martial uncle together?

"Please!" Hong Tianlu waved his hand generously. With his hands behind his back, his body was wide open. It was obvious that he was an elder educating a junior.

Mu Yunji glanced at the other party and nodded without saying anything. "Alright..."

As soon as she said the word 'alright', her aura instantly changed. It was as if the originally calm surface of the sea had suddenly stirred up huge waves. Moreover, there were no signs of easing up during this period of time, this sudden shock caused many of the spectating experts to almost jump up in fright!

They couldn't help but reveal an expression as if they had seen a ghost as they looked at Yun Ji Mu. Even Su Nuo Yun, who had always looked at everything calmly, had his eyelids twitch. Clearly, this shocking explosion of monstrous aura had completely caught him off guard, he couldn't help but frown as he said, "Could it be that he has learned the path of an assassin?"

That was not right... This aura was just and upright, like a tsunami and thunder. It was completely different from those sneaky assassination paths.

The duel ended faster than expected. Yun Ji drew her sword and drew it. Together with her aura, which was like flowing clouds and flowing water, and her movement technique, which was like the most natural path in the world, she instantly passed by Hong Tianlu with an extremely smooth rhythm! Under everyone's watchful eyes, she left a deep wound on Hong Tianlu's chest!

Everyone was immersed in that sword attack, including Hong Tianlu, who was hit by the sword. He touched the fresh blood that kept oozing out of his chest, and his expression was actually blank.

This sword attack was very fast, but it wasn't to the extent that he couldn't see it clearly. However, because it was too smooth, he momentarily forgot how to parry it.

“Good sword technique! !”Su Nuoyun took a deep breath. With his arrogant personality, he probably wouldn’t be able to say such praise to Wang Qing. However, this sword really made him unable to say anything else.

That was because he didn’t know how to evaluate it. In his heart, he only knew that this sword was extremely wonderful, to the point of perfection!

In fact, he couldn’t help but think, if I were to face this sword, how would I Dodge It? How would I dismantle it?

However, after a long while, he came to a conclusion. Even if it was him, he wouldn’t be able to withstand this sword!

“Hong Tianlu’s hard body technique has been broken! !”Beside him, Boundless Yan also had a solemn expression on his face. He had completely lost the expression he had when he was watching the show.

Different people would have different understandings of the situation. What Su Ruoyun saw was the sharpness of her sword technique. However, Boundless Yan was concerned about the power of that sword. He wasn’t a person who was good at using a sword. As a hard body technique expert..., when fighting with a swordsman, they had never relied on the adaptability of their moves. This was not what they were good at.

As long as they could not break through the defense, no matter how exquisite the move was, it would be the same for them. He had never thought that Hong Tianlu’s hard body technique was the strongest among the younger generation of disciples. However, he at least acknowledged that Hong Tianlu was one of the strongest!

He also knew that Hong Tianlu’s weak point would never be in his chest. There was no one in the world who would practice hard body technique in their chest. However, Hong Tianlu’s chest was indeed injured!

This could only mean that either Hong Tianlu was an idiot and his weak spot was on his chest, or... ! His defense had been broken through openly!

“Do you still want to fight?”Mu Yunji said indifferently.

Hong Tianlu touched his chest in a daze. The long-lost pain made him suck in a breath of cold air. He knew very well that if the wound was one inch deeper, his life would be in danger, and the other party clearly could not only cause such a deep wound.

“Thank you for showing Mercy!”Hong Tianlu cupped his fists and said.

Mu Yunji looked at him coldly. “I just don’t like you. There’s no life-and-death feud...”

Hong Tianlu smiled bitterly. Naturally, there was nothing to say if he was not as skilled as the other party. He could only swallow his anger.

At this moment, many people who were watching the show did not react. The reversal of the outcome made them feel like they were dreaming, especially situ Xue from Kunlun. She looked at Mu Yunji in a daze.

Since when did the gap between her and the other party become bigger and bigger? Since when did she stand at such a high position?
