Chapter 541: Temporary Harmony

Yue Qing from Mount Hua was a little flustered. She was standing closest to the White Cloud, but she did not know what to do.

Since Hong Tianlu had lost, she naturally did not need to surrender and ride on the White Cloud. Theoretically speaking, Mu Yunji had helped her out. Whether it was out of gratitude or out of fear of the other party's power,. This cloud should be given to the other party...

But... ... The other party seemed to have no interest in this White Cloud at all. After defeating Hong Tianlu, he left in a carefree manner. And no one on Luo Fu's side seemed to have any interest in that White Cloud.

And Emei's morale was low due to Hong Tianlu's defeat. How could they have the face to demand resources? As for the other two factions, they were still immersed in the battle just now and did not seem to have regained their senses.

Yue Qing hesitated for a moment before she carefully cupped her fists and said, "If... No one is interested, then Mount Yunhua will accept it, ha..."

She didn't know whether it was because her voice was too soft or because no one in the entire arena replied to her. She felt lost and dispirited... ..

Hence, Yue Qing gritted her teeth and dragged Bai Yun carefully towards her own faction.

"S-senior sister?" Lu Chenshuang looked at Mu Yunji who had returned and greeted her carefully.

This was the first time she had spoken so carefully since she first met Mu Yunji. Even when she knew that Mu Yunji had entered the Earth immortal realm, she still refused to admit defeat. She thought that she was only a few years younger than Mu Yunji, what Mu Yunji could do now, she could do when she reached that age.

But now, she really could not figure it out...

From the champion of martial arts performance three years ago, to the Earth immortal stage later, to Hong Tianlu who could actually defeat Emei in one move now...

The speed at which her senior sister leveled up made her, who thought highly of herself, lose her confidence even more. Even when she spoke, she subconsciously did not sound as confident as before...

However, Yun Ji did not notice this detail. At this moment, she was a little tired. After forcing a smile at her junior sister, she found a tree trunk and closed her eyes to rest.

Just now, she seemed to have won cleanly, but in fact, it was not easy. She had not been a dark descendant for long. Even though she trained hard every day, she was still only a level-2 lifeform. Dark descendants were different from the Green Titan and elves, they would have a significant increase in

basic attributes when they were at level-2 or level-3. Before Dark descendants could train their natal item, their combat strength was actually not that great.

In fact, her current basic attributes were actually not much different from Hong Tianlu's. The reason why she was able to win so easily was because of the breathing technique in the base!

At this time, little cabbage's elemental breathing technique had yet to be born. The breathing technique in the base was a primitive breathing technique that was adapted from the ancestral breathing technique of the sword Saint Clan. It was a breathing technique that combined meditation, body tempering, and explosive power.

There were not many players who participated in this breathing trial. As an internal cultivation player, Yun Ji was naturally included in Seer's list of experimenters.

Unlike the elemental breathing technique that little cabbage had modified, the primitive breathing technique had a higher requirement on one's physique. Although it could increase explosive power for a short period of time, both mental and physical consumption were extremely exaggerated, this was also why the sword Saint Clan needed more than 30 years of training to master this breathing technique.

Yunji MU had just started cultivating this thing not long ago, and her basic attributes were not high. If she used it rashly, it would actually consume a lot of energy...

However, in the eyes of outsiders, it gave people a cold and arrogant impression.

On Kunlun's side, Su Nuoyun glanced at Yunji Mu and thought to himself, "This woman's momentum was shocking when she unleashed her power, but she didn't leave any traces after she retracted her power. She lifted heavy weights as if they were light. Is she really a guy who has only cultivated for 50 years?"?

Thinking of this, he looked at Jiang Shisi and asked, "Shisi, how do you feel?"

"Amazing!" Jiang Shisi replied indifferently.

Su Nuoyun looked at Jiang Shisi in astonishment. This was the first time he had heard Shisi praise a person like that.

"Are you confident in receiving that sword?"

"I don't know..." Jiang Shisi shook his head and for the first time, a hint of hesitation rose in his heart. ...

"This sword technique can't be taught by Yunshan..." Su Nuoyun continued.

"Um..." Jiang Shisi nodded. He had seen the Celestial Immortal Patriarch of Yunshan make a move before. To be honest, although it was indeed impressive, he didn't believe that he could teach a disciple like Yunji Mu... ...

"I heard that Yunji Mu went to Luofu's secret realm..."

"That should be right..." Jiang Shisi said with a smile, "Now that you mention it, I am also interested in their secret territory of Luofu!"

The following day, the scene suddenly became unusually harmonious. The number of white clouds was also more than expected. Almost every once in a while, two or three would appear, and most need the White Cloud Emei, Quanzhen forces and Huashan and Kongtong forces because Yesterday's matter both sides also appear quite harmonious.

It was all one flower after another, and there were basically no disputes. In just one morning, more than a dozen disciples had been sent off by both sides.

Seeing this, Wudang Ma Dalian became anxious. He actually wanted one too, but the surrounding masters didn't seem to be interested at all. Even though Yunji Mu's strength had exceeded his expectations., he also didn't think that his group would be able to compete with Kunlun in the battle for the rainbow clouds.

He himself did not have any thoughts about the rainbow cloud. He only wanted to quickly ride a white cloud with his junior brother to gather grass.

By the afternoon of that day, the Emei Alliance and the Huashan Alliance had basically sent most of their disciples away. Other than Hong Tianlu who was somewhat depressed, the others were all quite satisfied, especially Yue Qing, she did not think that she would be able to send all of her juniors away so perfectly. The heavy responsibility that her master had given her was finally completed.

Next, she could finally fight for herself. She did not ask for much, and she did not have any thoughts about the legendary golden cloud. As long as she could ride on a colorful cloud and find another cultivation method or a secret treasure for her sect., this trip to the secret realm would be considered complete!

She was not worried about this. During the Spirit Tide, the number of clouds was completely different from usual. From the number of white clouds in the past, she knew that the number of colorful clouds in the future would definitely not be small.

Proud people like Kunlun's Jiang Shisi and Celestial Master Zhang Lingyu would definitely win a wave of golden clouds. She felt that there was a high chance that she could get a colorful cloud.

She prayed that she would get a colorful cloud to send her to the Daoist Palace. The Daoist palace was most likely to have good existing elixirs and cultivation manuals, while the colorful clouds in the Martial Immortal Palace were mostly weapons and armor, the worst case scenario was that she was sent to the Spirit Beast Academy. Because there were usually no ready-made immortal beasts or anything, those places could only obtain some beast cards and things like that. To be honest, it was really meaningless.

However, with her strength, she would definitely have to wait until all the big shots had finished picking out her stuff. Needless to say, there was no need to mention the Luo brothers and situ siblings from Kunlun. The Celestial Master, Mao Mountain, emei, Quan Zhen sect, including Luo Fu and the others., perhaps she would have to wait until all the big shots who were interested in Cai Yun had left before she would have a chance.

She was already prepared to fight for a long time.

However, this idea did not exist for long, because the situation that she had never thought would happen next appeared. If she had known about this earlier, she might have been more willing to be forced into the layer of white clouds by Hong Tianlu...

No one had expected that such a thing would happen later! !

Chapter 542: "It can't be that there's no more daylight, right?"?

The abnormal situation happened on the fourth day of climbing the tree. From that day onwards, dark clouds began to appear one after another. At first, not many people paid attention to it. After all, although dark clouds were strange, they would appear a little every time the secret realm was opened. As long as they did not seek death, nothing would happen to them...

However, the higher they went, the more dark clouds appeared. At first, there were a few white clouds that drifted over leisurely, but at the end, they were almost all dark clouds. This made everyone feel strange, and at the same time, a sense of foreboding rose in their hearts... ..

Goudan and the others also vaguely felt that something was not right, so they asked Ma Danian curiously, "Uncle Danian, what about the colorful clouds you mentioned? Why don't I see any? And they all said that the kind of dark clouds that you said could not be sat on..."

Ma Danian frowned. He didn't know if it was because the other party called him Uncle Danian, or because of the strange situation now., after a moment of silence, he shook his head and said, "Theoretically speaking, on the fourth day, the colorful clouds should have appeared no matter what. Why do the dark clouds keep appearing? And this number is indeed not right..."

In the past, the black clouds were not such a common existence. Although it was a strange existence, it was very rare. The probability of it appearing was much lower than the colorful clouds, and it was only second to the golden clouds' appearance rate., at least, he had never seen such a large area of black clouds before.

Just as he was thinking about it, the sky suddenly turned dark. Everyone was stunned. They looked at the sky and were stunned for a moment.

Did Time Pass so quickly today?

The entire secret realm used to have long days and short nights. It was usually sixteen hours of day and eight hours of night. Everyone was used to climbing trees during the day and resting at night, at this moment, when the sky darkened, everyone suddenly felt that they had not climbed enough.

Although they did not look at their watches, based on their biological clock intuition, it seemed that they had not climbed for 16 hours today.

Although they felt that something was not right, everyone still stopped. They lit a fire and sat cross-legged in silence!

Goudan and the rest also sat around and started taking their exams. The temperature of this secret realm at night was frighteningly low. The difference in temperature between day and night was comparable to that of Mars. Goudan and the rest did not bring their genetic bodies, so they were still somewhat unable to endure it. They all leaned closer to the charcoal stove, they had to rely on the fire to keep warm.

Gou Dan and the rest used the silver charcoal that Ma Danian had brought. It was durable and had high heat energy and low carbon toxicity. As for why everyone used such primitive things instead of electric stoves.., it was because the mysterious magnetic field here made the electrical appliances almost impossible to use. After all, it was a barrier that could shield the satellites!

Chen Yu Tong rubbed his hands and looked at the dark night in puzzlement. "That's strange. Why is it getting dark so fast today?"

Everyone immediately looked at Ma Danian. Ma Danian saw that everyone was looking at him, he smiled bitterly and shook his head. "Don't look at me. I don't know about this situation either. Furthermore, the elders don't have any records of this. I reckon that this has never happened before..."

The truth was that as long as this kind of situation happened from a public perspective, as long as it had happened before, all the major sects would have recorded it long ago. It would not be to the extent that a large group of people would have blank expressions on their faces.

"Let's hope it's just a coincidence..."Ma murmured, looking out into the night, as if to comfort the people around him, but to them it sounded like he was comforting himself. . .

The next day at dawn, they set off early. After all, yesterday was an early rest, so they had to hurry. If the temperature difference at night was not too big, they were afraid of consuming too much, so they had to go all night long.

However, something strange happened again. Just like yesterday, from the moment they set off, there were more and more dark clouds. At most, there were more than 20 of them. Seeing this, many old people felt a chill in their hearts. Even those who were slower would feel that something was wrong...

"Nuoyun, what's going on?"Jiang Shisi frowned. He had learned the Dao of nature and was very sensitive to the Qi of heaven and earth. He could clearly feel that there was an inexplicable malice toward them!

Su Nuo Yun shook her head. "I don't know either..."

"You don't know either?"Jiang Shisi was amused. This person loved to read the classics. If there were any secrets in Kunlun, he wouldn't run away. He didn't expect that this guy would also have a chance to crash.

"I'm not omniscient and omnipotent..."Su Nuo Yun rolled her eyes at him, but then she said with a serious expression, "Shisi, you have to be careful. I have a bad feeling. This secret realm seems to be coming with bad intentions this time!"

"Ah... I feel it!"Jiang fourteen looked around and put away his cheeky smile, which was rarely seen.

“Look, it’s getting dark again!” Boundless rock pointed at the sky and said.

Everyone’s expressions froze. If they could still explain it as an illusion yesterday, they were absolutely sure that the time for the sky to get dark had been brought forward today!

From daybreak to their departure, many people had calculated that the sky would turn dark in eight hours at most. Compared to before, it would be half of the daytime!

What was going on?

Not only was the daytime time reduced, but everyone also discovered another strange thing. The number of black clouds had climbed over today, but there was not a single White Cloud. They were all deadly black clouds! !

Many people secretly looked at Kunlun. After all, this sect had been in the secret realm for thousands of years. They must know some secrets that other sects did not know!

However, at this moment, the people of Kunlun also had solemn expressions. Obviously, they did not know why this was the case.

Just like that, the crowd spent another night in this strange situation. Moreover, this time, they felt that the temperature of the night seemed to be even lower, many people had to stimulate their qi and blood to provide themselves with the temperature while they were roasting the fire.

However, this method was obviously very tiring. After a night, most of them seemed to be a little tired. They did not look like they had rested for more than ten hours.

However, the situation became worse and worse after that. Every day, the night grew longer and the day faded. On the sixth day, many people found that the night had become exceptionally long. It was so long that they could not wait for the day...

After staying for an unknown amount of time, someone finally asked, “Don’t tell me... There’s no more day?”

Everyone’s faces darkened when they heard that. Many people had already thought of this matter at the first moment, but no one was willing to accept it at the first moment they thought of it. At this moment, when someone brought it up, everyone felt a sense of balance as though they were being shot at...

Time slowly passed, and the various teams instantly fell into a stalemate. Everyone was unable to see the time, so naturally, they weren’t sure how much time had passed. However, the more they thought about it, the more flustered they became.

This was because there was a time limit to the opening of the secret realm. Based on the difference in time between day and night, it was likely that after the secret realm was closed, many people wouldn’t be able to find a place to send them... ..

However, there were dark clouds everywhere. If they could not go up, they would not be able to leave even if they wanted to!

“How about... We climb through the night?” Brother Dog suddenly suggested... ..

Chapter 543: an attack from the night!

“Walk through the night?” Ma Danian immediately frowned. “Are you crazy? It’s not like you can’t feel how cold it is.” As he said that, he exhaled. Everyone could clearly see that the hot air that he had just exhaled was slowly turning into ice crystals...

“Isn’t it the same if we stay here?” Brother Dog shrugged and said, “The temperature is getting lower and lower now. The function of this brazier is almost gone. Don’t tell me that we have to wait until dawn?”

Ma Danian was stunned when he heard that, and then he fell silent. Crawling in the dark night consumed a lot of physical strength. Under normal circumstances, no one would do that because if you consumed too much in the dark night, you would definitely take up the time during the day to replenish your physical strength, at this time, the other people were rushing in high spirits. Their efficiency was higher than yours, and their consumption would also be lower than yours. After a long time, you would be left behind in the team. At that time, you would really have to eat the leftovers of others.

However, in the current situation, if there was no day, perhaps... .. They would really have to rush at night.

“Let’s Wait a little longer...” Ma Danian hesitated for a moment and said, “It’s better to rush during the day... at night...” he looked around, although there was no record of other things appearing around the tree of God in the dark, for some reason, he felt that there was a faint malice in the surroundings...

“That dog egg should sleep first. Wake me up when the sun rises! !” Li Goudan yawned and took out a quilt to wrap himself up. He wrapped himself around the fire like a dumpling and fell asleep within a few seconds.

Everyone was stunned. They were a little speechless towards this guy who could fall asleep at any time, even though they had seen it many times over the past few days... ..

“Then... We Sleep Too?” Lu Chen Shuang asked in a low voice.

“Can you sleep?” Mu Yun Ji looked at him.

Lu Chen Shuang shook her head. The group of them had just woken up from a nap. She still did not have the ability to sleep with her head down now...

“How about... We Fight the landlord?” Chen Yu Tong suggested.

“You actually brought a card?” Brother Dog looked at him in shock.

“Ha... it’s a must-have when traveling!” Chen Yu Tong smiled slightly and instantly took out a few familiar items from his backpack.

Cards, Mahjong, flying chess! !

Even Mu Yun Ji’s face couldn’t help but Twitch as she looked at the items taken out by the other party. This guy was really showing off when he came to the secret agent realm to carry a table of Mahjong!

“How about it? What shall we play?”

Everyone looked at her silently. Just when they didn't know what to say, someone suddenly screamed from below!

The noise immediately alarmed everyone. They all looked over and saw an extremely horrifying scene.

They saw that the disciple of the Kongtong sect at the bottom seemed to have been possessed by something. His whole body was covered in green light spots. His originally delicate and pretty face had become extremely ferocious, and his body was visibly bloated!

Upon closer inspection, one would find that he was like a balloon that was constantly expanding. Under everyone's watchful eyes, he reached out to grab his companion beside him, his eyes filled with hope.

“Save me!”

The female disciple beside him was so frightened that she pushed him away. The moment the Kongtong disciple fell to the ground, his entire body exploded like a balloon. After the explosion, not a single drop of blood leaked out, not just blood.., there were no internal organs, minced meat, or even bones left, only countless green light spots!

“What are those green light spots?” Ma Danian asked in horror, “Why is junior brother Liu's flesh gone?”

“No... those aren't light spots...” Chen Yutong narrowed her eyes. As a shadow spike with excellent night vision, she could see clearly in an instant that those dense green light spots were glowing bugs!

Her eyesight was so good that she could still see clearly that the disciple surnamed Liu wasn't missing his flesh and blood, but had been eaten. She could also see that many bugs were still holding the torn flesh and eating it!

The explosion of the other party on the ground just now was a visual effect. In fact, it wasn't the explosion of the flesh and blood, but just a coincidence that the bugs had been dismembered at that time! !

“Ah! !” Soon, the second and third victims appeared. The disciples of Kongtong at the bottom screamed in pain one after another. The symptoms were exactly the same as the disciple surnamed Liu from before. It was so late at night that they felt their scalps go numb!

“Didn't you say that there was nothing else when we climbed the tree?” Brother Dog asked sternly.

“There wasn't! !” Ma Danian said innocently.

“Whatever, Let's Go! !” Chen Yutong could clearly feel the terror of those insects. They were definitely not creatures that they could deal with!

“Let's go, still sleeping! !” Looking at the dog egg who was still sleeping soundly, brother dog quickly grabbed a nine-cylinder container and threw it at Dog Egg's face!

“What the hell are you doing! !” Goudan was instantly annoyed, however, as soon as he got up, he heard many miserable screams from below. He looked down and was stunned for a second before he ran away without hesitation. He even threw away his quilt, leaving Brother Dog and the others stunned.

This guy...

“Let’s Go Too!” The people of Kunlun who were at the highest point also sucked in a breath of cold air. Su Nuoyun frowned and said.

Yan Wuliang nodded and didn’t waste any time. He directly slipped up. He didn’t want to use his hard body technique cultivation to test the teeth of those insects...

“Fourteen?” Seeing that Jiang Shisi was still in a daze, Su nuoyun frowned and said, “What are you waiting for?”

“Oh...” fourteen nodded, but a trace of doubt flashed in his eyes. These insects crawled at a fast speed. If they kept chasing after them, how long could they last in such a cold climate?

Fourteen’s idea soon became a reality!

Seeing that everyone was running away, the insects swarmed after them one after another. They had no choice but to speed up. Many disciples who were slow couldn’t resist the insects at all. In an instant, they were just like the disciples from before! They were gnawed until there wasn’t even a bit of dregs left!

At this moment, Yue Qing led her junior sister to the front with a body movement technique. She couldn’t do anything to the remaining disciples of Mount Hua!

Soon, the disciples of Kongtong, Mount Hua, and the others on the lowest level screamed in pain. Apparently, they had been caught up because they were too weak. Because they were closer this time, they could even hear the creepy chewing sound!

They all felt goosebumps all over their bodies, and they all mustered up all their strength to climb up!

However, the higher they went, the stronger the gravity was, and the thinner the air was. The temperature also dropped several times. In order to maintain the vitality of their legs and feet, they had to activate their Qi and blood to rush forward. However, this consumed more and more energy. At the end..., some of the human immortal realm disciples gradually could not take it anymore!

Lu Chenshuang’s face was pale as she muttered, “Senior sister, I can’t take it anymore. Kill me with one sword. I don’t want to be eaten alive by those bugs!”

Mu Yunji did not say anything. She directly grabbed Lu Chenshuang and carried her on her back!

She now had a backup brain in the main base. If she died here, there was still a chance for her to be reborn. At worst, she could just cultivate again. However, if Lu Chenshuang died, she would really be gone!

“Brother!” Ma Dalian looked at Brother Dog.

Brother Dog looked at him and said hesitantly, “I don’t carry men... you should just kill yourself...”

Ma Dalian:” ...”

“Everyone! We Can’t run anymore. If this continues, we will sooner or later be exhausted and eaten up. Why don’t we take this chance to try it out now!” Ma Dalian shouted at everyone above!

Chapter 544: The Only Way Out!

Due to Ma Danian's words, everyone's footsteps stopped for a moment. Even Brother Dog and the rest were the same. Although the other party was obviously anxious because they were about to fall behind.., they had to admit that the logic behind his words was not wrong.

The gravity was getting heavier as they climbed up, and the temperature was getting lower and lower. Even a few geniuses at the Upper Earth Immortal realm would eventually be unable to hold on and would be exhausted. When that time came, if the bugs were still chasing after them.., how would they have the strength to resist?

It seemed that the choice between escaping until they were exhausted and dying or fighting to the death when they had the strength was not too controversial...

Soon, one of the heaven's favorites answered the call.

Everyone saw that the sky was suddenly filled with yellow paper. Under such gravity, the yellow paper was as light as goose feathers. It slowly floated and did not fall. After forming a regular formation in the air, it was faintly emitting lightning!

"This is..."Goudan was stunned when he saw this scene. He felt that the scene was really cool.

"Mao Mountain's lightning technique!"Ma Danian immediately became excited. "I forgot that this kind of Yang Lightning technique is the most effective against this kind of strange miasma!"

As soon as he finished his words, the usually cold and arrogant chief ace of Mao Mountain, Mao Junzhu, jumped down. Many talismans followed her and fell down. Then, the talismans and talismans formed a lightning web and pulled apart continuously! Finally, a huge heavenly net was formed from the sky!

The momentum was so intimidating that even the eyes of Zhang Lingyu and Jiang Shisi, the two top aces, lit up when they saw this scene. They thought to themselves, "This Mao Junzhu's cultivation has improved greatly over the years. Moreover, this talisman is probably at the level of the heavenly talisman of Maoshan, right?"?

Yue Qing of Mount Hua looked at this scene with an uncertain expression. She was shocked by the opponent's strength and also seemed to have some complaints...

Ma Ling'er, the third seed of Maoshan, said in a low voice when she saw this, "Don't blame senior sister Mao for not making a move earlier. This lightning talisman is a life-saving talisman given to senior sister by the ancestor. It can not be used unless absolutely necessary. As it is the work of a high-grade Heaven Immortal, its power is tremendous, and senior sister does not have the confidence to control it. Previously, your disciples of Mount Hua were too close to the insect swarm. If senior sister used this talisman at that time, none of your junior brothers and sisters would have been able to escape..." "..."

Yue Qing was stunned for a moment before she quickly bowed and said, "I misunderstood senior sister..."

Ma Ling 'er nodded her head in satisfaction when she saw the other party's attitude. She then said, "You don't have to worry. Now that senior sister has used the heavenly talisman of the ancestor, she will definitely take revenge for your junior brothers and sisters..."

Goudan and the others, who were not far away from the disciples of Mao Mountain, also heard this. Goudan immediately frowned and looked down. The Lightning Talisman seemed to be very powerful, but she had a faint feeling that it might not be able to deal with these monsters...

Chen Yutong thought the same. The developers in the base also had level three masters who were researching the plastic energy department. Any one of them would be able to cause a lot more trouble than this woman, but to be honest... Even if those masters were here, she felt that they were not enough... ..

As expected, in the next second, the Lightning Net hit the insects and produced a loud crackling sound. Then, everyone heard the sharp howls coming from the glowing insects!

"Good!" Qiu Chuxing was the first to cheer!

All the Quan Zhen sect disciples rolled their eyes. It was almost common knowledge that their eldest senior brother was in love with his lover, Mao Junzhu. It was because he was too explicit. However, the other party was clearly in love with Zhang Lingyu...

After Qiu Chuxing's Cheers, the others also reacted and applauded. Especially the disciples of Mao Mountain, their faces were all red and had a glorious expression!

However, in the next second, their expressions froze. In the next second, the vast lightning was instantly drowned by the swarm of insects. The seemingly gorgeous lightning net did not seem to be able to stop the swarm of insects in the slightest...

This time, other than Goudan's group, the others had not expected it at all, including Mao Junzhu who had cast the spell. She had absolute confidence in the Grandmaster's Heavenly Talisman. Otherwise, she would not have jumped down in such a dangerous manner, under the current gravity, no matter how good her movement skills were, it would be difficult for her to turn around.

She could not turn around in time and was instantly drowned by the violent swarm of insects!

Following that, an incomparably shrill scream and a bone-chilling chewing sound rang out. Everyone immediately felt their scalps go numb, and they continued to climb upwards in fear!

Qiu chuxing saw this and wanted to save her immediately, but he was grabbed tightly by Hong Tianlu at the side. There was probably not a single strand of hair left at Mao Junzhu's position. If he wanted to save her, he would have to follow her in, he and Qiu Chuxing had been good friends for many years, so they would not let him go. They used their brute force to stop him!

"Let go of me! !" Qiu Chuxing said angrily.

"Look carefully, she is already dead! !" Hong Tianlu pointed at a spot in the Swarm. There was a skull that was being snatched by many insects. In just two seconds, it was torn into powder...

Qiu Chuxing's body stiffened, and he immediately looked dispirited. Hong Tianlu, who was beside him, immediately picked him up and picked up the two emei disciples beside him, shouting, "Go!"

This shout instantly woke up the Mao mountain disciples who still couldn't believe it. After many disciples reacted, they didn't have time to grieve, and they also continued to climb up in fear.

At this moment, they no longer had any trace of luck in their hearts!

Even Mao Junzhu, who carried the heavenly talisman, ended up like this. If ordinary disciples like them were caught up, their fate was obvious! !

Thus, everyone used all their strength to climb up, as if they couldn't outrun the insects and had to at least outrun the people around them...

But just as Ma Danian had said, running all the way was just a struggle for survival. According to the characteristics of the height of the divine tree, very soon, some of the disciples began to gradually lose their strength. They were in a state of Qi, and then they were exhausted again and again! Seeing that the situation was bad, many disciples drew their swords and slashed at their own necks!

Seeing this, many ace disciples wanted to stop them, but they couldn't say anything in the end. Now that they couldn't save them, could they persuade them to kill themselves and let the Bugs eat them alive! At least they would die a quick death, and they might end up like this later!

"Senior sister..." Lu Chenshuang looked at Mu Yunji, who was carrying her on her back, and smiled bitterly. "Let me down. You can climb a bit more on your own. Maybe you can survive."

"Maybe the result will be the same if you climb a bit more!" Mu Yunji replied coldly.

Lu Chenshuang looked at her senior sister in a daze. As the saying went, "Adversity reveals true friendship." She only found out now that her senior sister was such a cold-hearted person on the outside but warm-hearted on the inside...

Unfortunately, she found out a little too late. If she had known earlier, perhaps she wouldn't have targeted her so much, right?

Just as she was about to take the opportunity to kill herself, Mu Yun Ji stopped in front of her and said faintly, "You're right. This can't go on like this!"

"Uh..." Lu Chen Shuang was stunned. "What do you mean?"

As soon as she said that, Lu Chen Shuang suddenly felt her body become lighter. Her heart was immediately alarmed as she thought to herself, 'so ruthless. She just threw it away like that. Does she really care about the true love that is revealed in times of adversity? Hey, Hey!'

However, in the next second, she felt her buttocks go soft. She closed her eyes abruptly, but she didn't feel the pain of being torn apart by the bugs. After closing her eyes for a few seconds, she finally couldn't help but open them. However, she found that there were no bugs around her, moreover, her senior sister was also sitting beside her...

This is? ?

After clearly seeing everything around her, Lu Chen Shuang was stunned. You actually... ..

"This is the only way to survive..." cloud herder said lightly.

Chapter 545: our standards aren't low!

Mu Yunji's actions shocked not only Lu Chenshuang, but everyone else as well. She had actually brought Lu Chenshuang up to the dark clouds! !

Everyone looked at each other. Although they were shocked by the other party's actions, they realized that this seemed to be a way to survive in the face of death... ..

Even though there hadn't been any cases of people returning from the dark clouds, and no one knew what kind of danger the other side of the dark clouds would face, no matter how dangerous it was, how much worse could it be?

Thinking of this, many of the disciples who were about to commit suicide looked at each other, and then looked over, a glimmer of hope flashing in their eyes...

But... was it too late?

The crowd looked at the two people riding on the dark clouds with some doubt. At this time, the bugs were crawling very fast. According to the normal speed of the clouds, it would be very easy for the bugs to catch up with them...

Mu Yunji stood on the clouds, holding her sword with one hand and protecting Lu Chenshuang behind her. Apparently, she was also worried about this problem.

But in the next second, this problem did not exist...

I saw the dark cloud in the cloud herder two people stand firm, suddenly a jump, a wisp of smoke to disappear in front of everyone! !

That speed, than the f-series sports car on the highway is even more exaggerated, is really a sizzling disappeared, see a group of people dumbstruck!

"This..."

Everyone froze. It looked as if... . is a road to choose ... But somehow... . .

"I... . We also jump?"The dog brother Leng Leng Leng Leng Way.

"ER... . . Ok... . But don't you feel... ."The dog egg frowned way: "That cloud gives the feeling as if is afraid of us to go back on our word?"

Brother Dog and the others were stunned, and then looked at the sky left that a cross-layer of turbulence, as if it was like this... . .

— — — —

"Senior sister... This cloud slips away very quickly!"On the dark cloud, Lu Chen Shuang Leng Leng Leng Way.

“Not easy to force us up, slip away can not fast?” Cloud Herder Ji retract the sword light way.

If at first she was a little uncertain, but when she got to the cloud and saw the speed, she was sure that all this was forcing them to ride the cloud!

“Senior sister, what do you mean?” Lu Chenshuang asked curiously, “Do you mean that the cloud is also afraid of the insects?”

Mu Yunji glanced at her innocent junior sister and sighed, “I mean, the dark cloud and the insects are in cahoots!”

“Er... No Way?” Lu Chenshuang was stunned. Before she had time to doubt, she heard an old voice, “Little girl, you are smart, but why did you jump on the cloud?”

“Who... who is talking?” Lu Chenshuang looked around in horror.

“What a silly girl...” the old voice chuckled. A human face actually grew out of the dark clouds. This scared Lu Chenshuang so much that she immediately collapsed! !

“What the hell are you doing? ?” Lu Chenshuang pulled out her sword and shivered... ..

“Little girl, take it easy...” the face of the dark cloud showed an expression of rolling eyes. “It’s not good to fall from here. No matter how high your cultivation base is, you’ll die!”

“You’re scaring me?” Lu Chenshuang said firmly, “I’m a sword immortal. No matter how high I am, I might not die from the fall...”

Her words were not magnanimous. For cultivators at her level, even if they fell from 10,000 meters in the air, as long as they had a proper movement technique and could use the recoil of the airflow when they landed, they would basically be unharmed...

“Sword Immortal?” The dark cloud chuckled coldly. “Since when can someone with your level of cultivation be called an immortal?”

“You! !” Lu Chenshuang was instantly livid with anger...

Yun Mu Ji finally spoke up. “This shouldn’t be Kunlun, right?”

“You’re an interesting doll...” Elder dark cloud looked at Yun Mu Ji with a smile. “I’ve never seen your body before. Even that kid surnamed Lu who was known as a pure Yang body back then wasn’t as strange as you. Girl, What’s your background?”

“You’ve even met Daofather Lu?” Lu Chenshuang looked at him with disdain. “There’s a limit to bragging!”

Their Yunshan lineage was known as the lineage of Daofather Lu. Although it was a title, they still had to protect the face of their daofather. Not everyone could take it out and criticize them...

“What’s Lu Dongbin?” Wu Yun sneered. “He’s just a kid. I’ve seen many people who are more powerful than him. He’s nothing!”

“You...” Lu Chenshuang was so angry that her whole body was trembling. Just as she was about to explode, she was pressed down by Mu Yunji again. She looked at the dark cloud and asked, “What’s down there?”

While speaking, Mu Yunji pointed her sword at the darkness under the cloud, which even light couldn’t enter. She felt that there seemed to be an extremely terrifying thing in the abyss...

“You can actually sense it, Kid?” Dark Cloud looked at her humanly and narrowed his eyes. “Interesting... interesting!”

“Should I answer someone’s question first, Old Senior?”

This ‘Old Senior’ had obviously benefited dark cloud a lot, therefore, he said slowly, “There are things below that you can’t imagine. Did you see those bugs just now? “Those are just the things below that are not worth mentioning, just like the mosquitoes in the mortal world... “HMM, no, they are even worse than mosquitoes “Ah!”

Mu Yunji frowned. Those bugs were obviously third-level creatures, but the other party said that they were worse than mosquitoes. What could there be down there?

She had studied some common knowledge of the federation during her daily cultivation. She knew that a third-level creature like the D Sphere was already an incredible existence... ..

“It’s best not to look at it...” Wu Yun smiled at Mu Yunji and said, “That’s the abyss. Anything that comes out of it can destroy the world!”

“Destroy the world... isn’t that an exaggeration?” Lu Chen Shuang looked at the other party with disdain.

“It’s a normal term!” Wu Yun’s expression suddenly became serious. “It’s the world you’re in now. As long as any monster runs out of it, all of you mortals will die instantly!”

“Bluffing again? Do you know how powerful mortals are now?” Lu Chenshuang retorted with a cold smile.

“Powerful? What do you mean?” Dark cloud said faintly, “Are you talking about those iron birds that can fly in the Sky? or the one that can blow up an island... Oh, right, a nuclear bomb, right?”

“You actually know about nuclear bombs?” Lu Chenshuang’s expression immediately became strange.

“Tsk... I have clearly seen what happened at your place, Alright?” Wu Yun coldly laughed, “Just the Dao that you guys created, you guys couldn’t even deal with those bugs just now, much less those things...”

After Wu Yun finished speaking, he faintly looked at the so-called abyss and said, “The things inside are definitely existences that you don’t even dare to think about...”

“Ugh...” Lu Chen Shuang’s head shrank. She was obviously frightened...

However, Mu Yunji looked down and frowned. She indeed felt an extremely terrifying gaze from below... ..

Then, she withdrew her gaze and looked forward and asked, “I’m very curious. Where does Wu Yun usually bring people?”

“Oh, it seems that you don’t know the origin of dark clouds...”. The old voice immediately laughed and said, “Don’t worry, the size of our dark clouds is not lower than its color clouds. Even the golden clouds that the Golden Immortals ride on are not as rare as ours. After all, there is only one person who can have such a size in this sky full of Gods and Buddhas.”

“Size?” Cloud Herder was stunned. She felt that their guess about this cloud was not right...

Chapter 546: There’s still one alive?

“Specifications?”

Inside Kunlun, Su Nuoyun and the others were also stunned as they looked at Jiang Shisi. As they climbed up, they asked, “Shisi, tell me clearly, what do you mean?”

Ever since Mu Yunji jumped onto the dark clouds, many disciples who saw that they were about to be caught had also jumped onto the dark clouds. However, as the remaining Kunlun disciples were all elites, their bodies were still full of blood and Qi, most of them were still able to hold on and were not in a hurry to jump onto the dark clouds.

However, as time passed, some of the younger disciples could not hold on any longer. Situ Xue was one of them...

Seeing that his sister seemed to have reached her limit, Situ Ming gritted his teeth and prepared to jump onto the dark clouds with Situ Xue and the others to avoid the fate of being eaten by the insects.

However, he was stopped by Jiang Shisi when he was about to take action.

Faced with his youngest uncle’s stop, Situ Ming naturally voiced his doubts. It was also at this time that Jiang Shisi revealed the secrets of these cloud beds.

The Legends of the immortals who came out from the clouds in the current myths were not completely fabricated. In the Immortal Palace, the cloud beds were indeed equivalent to the rides of various immortal officials. Moreover, according to the level of the immortal officials, the clouds they rode on were also different, just like in the mortal world, the rich drove Bentleys and Maybach, the ordinary rich drove Mercedes-benz bmws, the ordinary families drove Geely, the Great Wall, and the single author drove eight-handed ao Tuo. It was the same in the immortal palace.

The ordinary Immortals, Hercules, and Daoists who had just entered the immortal class could only ride on the white clouds, while the immortal officials who were in charge in the Immortal Palace but had not reached the great Luo realm were called Cai Yun. This kind of large group included: four-merit Cao, five-fang Jiedi, six-ding-six-jia, twelve-yuan-chen, twenty-eight constellations, thirty-six heavenly generals, and so on...

The status of these immortal officials varied greatly, which also caused the disciples of the sects who rode on the colorful clouds to reap great differences. After all, immortal officials had mighty figures like Emperor three-guan and four-fang divine lords. There were also sesame officials like six-ding-six-jia and twenty-eight constellations... ..

“Is the place we went to really the immortal ruins?” Situ Xue asked in surprise.

“I don’t really believe it...” Jiang Shisi shrugged. “Since ancient times, most of the gods in the religions have the supreme power to change the world. For example, in our Taoism, not to mention the three pure ones, just Emperor Ziwei of the North Pole in the six imperial censorates, who controls the sky, the Earth, the Sun, the Moon, the stars, and the four seasons, commanding the Sun, the Moon, and the stars, do you think it’s realistic?”

The crowd is silent, the religious god said, in fact, the most easy to deceive the people outside, the true core of the church, how many people believe that the doctrine of bullshit god Said? Like the Cardinals in the west, do they really believe in God?

“what size is the cloud?” Asked Situ Ming with a frown. There must be a reason why the other side stopped him. ...

“The dark clouds... ..” Jiang Shisi narrowed his eyes. “...” Jiang Shisi narrowed his eyes. “According to the secret manual of Kunlun, the six Imperial Li: the Celestial Emperor of Taiji in the West: ruled over the stars, presided over the military revolution in the human world, and ruled over ten thousand Thunders. “The eight marshals and the five extreme war gods under them were all golden immortals of the great Luo. However, because the twelve great Luo of the heaven and earth had already set their position, the Dao ancestor didn’t give them the thirteenth position, which made these mighty figures, who had great strength but couldn’t advance their status, very dissatisfied. They disdained to ride on the colorful clouds, but they couldn’t sit on the golden clouds. Therefore, the immortal palace gave them an extra thunder cloud as a ride, which is the dark clouds we see now...”. “...”

Everyone was stunned. There was actually such a saying?

“Then does that mean that the place these dark clouds went to was either a marshal or a war god? Isn’t that great?” Boundless Rock said in surprise.

“That’s the theory...” . “...”. Jiang shisi frowned and said, “But rumor has it that after the fall of the war god, the evil energy was so strong that only the war god who wasn’t afraid of the evil energy could suppress it. According to the secret manual, after the great calamity, there was only one war god left in the Heavenly Palace!”

Everybody:“! !”

“Wait, what is the Great Calamity?” On the Dark Cloud, chats to here Lu Chen Shuang also curiously asks a way.

“Disaster is disaster... Don’t you have such things in your biographies, novels, and classic plays? The world is in turmoil, and people are suffering. Every time a great hero appears, he sacrifices himself to save the people...”

“Is this kind of thing true?” Lu Chenshuang was stunned.

“What do you think?” Wu Yun laughed. “If it’s fake, can you live until now?”

Lu Chenshuang:“ ...”

“Calamity...” mu yunji muttered, “What does the age of chaos have to do with this calamity?”

“You actually know about the age of Chaos?” Wu Yun looked at Mu Yunji with interest.

“It’s written in novels...” Mu Yunji said nonsensically.

“Is that so? Then your novels are quite insightful...” Wu Yun praised, then, he said, “There was indeed the age of vipralopa. Since the pre-qin period, the heavenly axiom has deliberately suppressed us. But because of this hole, the situation has changed. The scarcity of spiritual energy in the world today is not because of the age of vipralopa, but because all the power has been used to seal this hole...” . “...”

So that’s how it is! !

Yunji Mu’s eyes immediately narrowed. Before she came, Merlin had told her about the theory of the age of chaos, and also discussed the uniqueness of their D sphere. She came here to investigate why d sphere would still have extraordinary power in the age of Chaos...

After listening to the other party’s words, she immediately had an answer. It turned out that the age of chaos had been suspended a long time ago. It turned out that D sphere had always been in the high demon stage, but its power had been concentrated...

“You said that the great hero saved the common people. Are you talking about the so-called immortals in this immortal palace?” Yun Mu asked again.

“Then who else is there? Could it be the Avenger Alliance?” Wu Yun asked back.

The two girls’ faces immediately twitched. This guy actually knew about the Avenger alliance... ..

“Sacrificing oneself means... are they all dead?” Yun Mu narrowed her eyes and asked.

“Nonsense...” Wu Yun rolled his eyes and said, “If they weren’t dead, would you juniors be able to come in here every now and then and escape unscathed?”

“They are all seniors of Haotian Taoism. You Don’t have to be so calculative, do you?” Mu Yunji said carefully.

“Hehe, it’s true, senior. Haotian Taoism was made up by you. Most of these guys didn’t have Haotian Taoism when they were in charge of their duties. Among the 28 constellations, 19 of them were great demons who had eaten more than 10,000 people. Who told you that they are from Haotian Taoism?”

Mu Yunji:”...”

While the two girls were silent, Lu Chenshuang suddenly thought of something and quickly said, “That’s not right. You just said that after the great calamity, there’s only one martial god left in the Houtian Palace?”

Wu Yun: “Yes...”

Mu Yunji was also stunned. She looked over and said in a daze, “It can’t be... He’s still alive, right?”

“What do you think?” Wu Yun sneered, “Why do you think that all the disciples who rode on Wu Yun couldn’t return after so many years?”

Cloud Herder Ji:“! !”

Chapter 547: How could there be such a thing?

“Are you serious, fourteen...”boundless rock looked at Jiang Shisi, his face full of disbelief. “You said... There are still people alive on the other side of the dark clouds?”

“Aren’t those who are alive Immortals?”Situ Xue added.

“Immortals my ass...”boundless rock rolled his eyes. “Where do immortals come from in this world? Aren’t we also called Immortals to the outside world? But who doesn’t know the exact situation?”

“Haha... Boundless is real!”Jiang Shisi suddenly laughed.

“You can still laugh?”Su Nuoyan rolled her eyes at him and then looked down.

The green insects were crawling faster and faster. The increase in gravity and the drop in temperature didn’t affect their speed at all. On the contrary, his group was getting worse and worse, not to mention a junior like Situ Xue. Even he himself felt that he would be annoyed if he crawled for another day at his current speed...

“What should we do now?”Su Nuo Yan asked.

“If we can hold on for a while...” Jiang Shisi looked at the dark clouds and said faintly, “It looks like there will be a lot of dark clouds. When there’s no other way, you can jump at any time. But unless it’s absolutely necessary, I don’t suggest you provoke that guy.”

“Is there any record of that guy in the Secret Manual?”Su Nuoyan frowned.

“Yes...” Jiang shisi said seriously, “Under the Western Heavenly Emperor, be it the Wuji Wargod or the eight great heavenly commanders, they are all battle gods. I heard that only one person survived the disaster. That person not only wants to suppress the murderous aura of his companions, but also wants to continue suppressing this demon den. He is a ruthless character.” “...”. “...”

“Which one is it?”Boundless rock asked.

“The first god General after the Wuji Wargod...”Jiang Shisi looked at the other side of the dark clouds and said, “God King Lei Zhenzi!”

“...”

“Lei Zhenzi? is that a very powerful guy?”Lu Chenshuang’s eyes widened, after hearing the name of the other party, she curled her lips. In many movies and TV series, wasn’t that guy with wings and a nail hammer a soy-sauce character?

Whether it was the journey to the west, the ascension to godhood, or some other immortal cultivation novels, that guy felt like he was a living tool. His status was not much different from those land old men,

mountain gods, or he bo... In any case, one was to help guide the way, and the other was to help with the rain... ..

“Little girl, don’t talk nonsense if you don’t understand. Do you believe the things in the TV series?”

Lu Chenshuang wanted to refute, but she was stunned. She didn’t say anything about the TV series, this guy... ..

“Can you hear what I’m Thinking?”Lu Chenshuang said in horror.

“No... I guessed it...”Wu Yun replied.

Lu Chenshuang:” ...”

“Is this godly king very powerful?”Mu Yunji asked, “Who is more powerful than the great ancestor of Kunlun?”

She asked this question because she wanted to estimate whether her backer could suppress this crisis. In her mind, the only people who had seen the most powerful people were Lord Xi Ye and the great Luo Patriarch of Kunlun!

“Great Luo?”Wu Yun sneered when he heard this. “Now there is really no tiger in the mountain. What wild cats and wild dogs dare to be the Overlord? With the cultivation of that junior of Kunlun, he dares to be called Great Luo? If he didn’t use the Kunlun token to command the mountains, he wouldn’t even be as good as an Earth Immortal Realm Warrior!”

“Earth immortal realm? No Way!”Lu Chenshuang was stunned. There were at least five Earth immortal realm warriors in this generation of Kunlun. How could the other party say that the grand ancestor didn’t have an Earth Immortal Realm Warrior?

As if seeing Lu Chenshuang’s confusion, Wu Yun sneered, “The Earth Immortal Realm Warrior that I said is a real Earth immortal realm warrior, not something you guys call yourselves!”

Lu Chenshuang:” ...”

Wu Yun said, “According to the specifications of the immortal palace at its peak, your Kunlun ancestor was at most a third-grade Earth Immortal, and he was at most a mountain god, and not a first-grade mountain god like the five mountains. As for those Earth Immortals you mentioned, Hehe, in the past, they were at most second-grade qi-trainers, but in the DAO College, they were only at the level of a high-level master or master meditator. The so-called Heaven Immortals you mentioned were at most at the level of the abbot of the Dao Palace. If you want to be ranked in the immortal class, you have to at least be at the level of the Kunlun ancestor you mentioned... “...” . “...”

“Is... This for real?”Lu Chenshuang was stunned. was the cultivation world so LOW nowadays?

Mu Yunji also frowned. According to what the other party said, the level of the creatures in sphere D was probably higher than expected. According to instructor Weilin, the ancestor of Kunlun was a level five creature, in ancient times, it was only a mountain god or a land-level creature? And he was a low-level creature. How Strong was the high-level creature? And what level were those celestial immortals?

And in front of them, they were about to face this so-called godly king, who was at least at the Great Luo realm, right? How strong was this creature according to its level?

Could her lord handle it?

A series of worries made Yun Ji feel a little terrified, and she didn't have as much confidence as before...

...

Just as she was thinking about it, the dark clouds suddenly slowed down and a deep voice sounded, "We're almost there. Let's Get Ready..."

Yun Ji immediately woke up from her thoughts and looked around. As the other party slowed down, the surroundings started to slowly change. The dark clouds in the surroundings started to accumulate more and more. Not only that, the dark clouds also contained lightning, it gave people the feeling that they were about to explode at any moment.

One or two. Looking behind them, they could see a huge cloud of lightning, giving people a lot of pressure. Compared to that, the Thunder from Mao Junzhu's heavenly talisman was like a firecracker compared to a nuclear bomb... ..

Lu Chenshuang subconsciously hid behind Yun Ji. However, after she reacted, her face turned red. She didn't know when she started to subconsciously rely on her senior sister...

Mu Yunji narrowed her eyes and carefully observed her surroundings. She was a dark descendant, and as this race had a very strong perception to refine the star core, she was very sensitive to the fact that although the energy was huge, it carried a faint sense of unease...

It was a little like the anxiety in the hearts of the soldiers before the big battle!

Soon, she saw her destination!

It was a huge palace. All the special effects immortal palaces in movies and TV series were not as luxurious as the one before her. The huge palace made her feel as small as an ant. Above the main gate of the palace..., three extremely overbearing words were carved on it. The words were: Godly Palace!

It was magnificent and matched the meaning of the words!

"Good words!" Mu Yunji immediately exclaimed!

As soon as she finished her words, a huge eye opened in the sky. In an instant, it seemed as if the entire world was reflected in that eye!

Lu Chenshuang looked ahead in a daze with a dumbstruck expression. In the end, she could not help but pull Mu Yunji's sleeve and say with a trembling voice, "Senior sister, that... What is that thing?"

"I don't know..." cloud herder ji at this time is also stiff and dare not move, to come before the Lord had said to her, once there is danger to press his own transmission device.

But the teleportation device in his fingertips less than an inch of position, but just a little distance, cloud herder still dare not move... .

“Oh? Interesting...” a muffled thunder-like sound came from behind the huge eye, but she could see that the huge eye was not looking at her, but at something else through her. . .

But at this time, far away in Mars Xi ye suddenly stood up, face full of horror: “How can it be? How can there be such a thing?”

“Lord? What Happened?” asked the intelligent quickly.

Xi Ye did not answer, but put his hands behind his back and thought for less than two seconds. Then he suddenly looked up and said, “Send me to Kunlun!”

Chapter 548: still unable to escape in the end

“Brother, how are you?” On the tree of God, the people of Kunlun were still far ahead. Situ Xue, who was already exhausted, was carried on the back of immeasurable rock, who had the most blood and Qi. However, in less than half a day., situ Ming, who was also situ brother and sister, also had a pale face. His face gradually became pale.

Situ Ming smiled bitterly. At this moment, he couldn’t say anything tough. He had indeed reached his limit... ..

“Fourteen...” Su Nuoyan glanced at Jiang Shisi. Jiang Shisi looked at him and then looked down.

Although Situ Ming had just entered the Earth immortal realm, he was born in a golden immortal aristocratic family and had a solid foundation. Although his realm was low, his Qi and blood were not weak. If he couldn’t make it now, it meant that there were only a few people left in the major sects.

Sure enough, as he looked down, more than half of the mighty team had disappeared. Those who were still holding on were the trump cards of the major sects. Yue Qing of Mount Hua seemed to be struggling at the moment.

However, he noticed one thing. Although the three people of Luo Fu did not deliberately surpass the people of Kunlun, when he looked over, the three people’s breathing was calm and their faces were ruddy. They did not look tired at all. Fourteen was secretly shocked... ..

He had watched the three people’s competition before. Their skills were exquisite, but their cultivation was not too outstanding. Including Chen Yutong’s victory over Wang Qing, they had also relied on that amazing attack skill. In his opinion, Luo Fu and the others had relied on the mysterious realm to improve their cultivation., although the effect was outstanding, their cultivation levels should not be as stable as their regular disciples.

But now it seemed that this was not the case. Among all the surviving disciples, the second-tier Earth immortal disciples like Yue Qing, Situ Ming, and the Luo brothers were clearly not able to hold on anymore, those who had yet to show signs of fatigue were top-notch experts like Hong Tianlu and Qiu Chuxing. These people had become Earth immortals for many years, and their qi and blood were stable.

especially shuang emei and Quan Zhen, Hong Tianlu's hard body technique., his Qi and blood were much stronger than other people of the same realm, so they were most suitable for this kind of endurance climbing.

And Quan Zhen paid attention to dual cultivation of life and death, forming the inner core and walking. They also attached great importance to the system. Qiu Chuxing was also among the top-notch disciples of Earth Immortals in Qi and blood. It was understandable that these two people were not flushed or out of breath.

But Luo Fu and the others, judging from the actual information, were all juniors who got lucky, especially that Li Jiayi. According to the information, she was only in her early 20s, and she had the cultivation of Earth immortal at such a young age. Even if she had relied on the mystic realm., logically speaking, there should be a hidden danger of having a weak foundation.

However, there seemed to be no signs of this at the moment. Observing these people carefully seemed to be easier than Hong Tianlu and Yan Wuliang, who were practicing hard body skills.

Hong Tianlu's blood and Qi were more or less surging at this time. These people's breathing had not been chaotic since the beginning, and the crawling speed of these people was also there.

Since the beginning of the insect plague, they had been crawling at an average speed, neither too fast nor too slow. Even now, their speed was no different from before. No matter how the temperature and gravity changed, these people were still the same... They gave people the feeling that they were not even human, but more like machines...

"Fourteen?" Seeing that fourteen was actually in a daze, Su Nuo Yan frowned and called him again.

Fourteen came back to his senses and looked at Su nuo Yan before asking, "What's wrong?"

"Cough..." Su nuo Yan rolled her eyes at him and said helplessly, "Brother and sister situ have reached their limit..."

"Oh..." Fourteen nodded his head lightly. "There's no other way. Let the brother and sister ride the cloud first." ... After a pause, he continued, "Let the Luo brothers ride the cloud as well. They shouldn't be able to hold on for long. Rather than wasting their energy, it's better to save some for the dangers they might encounter there... "...". Furthermore, they were riding the clouds at the same time as the situ siblings. Even if they weren't the same flower, there was a high chance that they would land in the same place and have the opportunity to look out for each other... "..."

Upon hearing this, Su Nuoyan nodded and thought to himself, "This guy finally said what the leader should have said."

On the side, the Luo brothers' eyes flashed with a hint of unwillingness, but they didn't defend themselves. They knew their own family matters, and the two of them also knew that the 14th junior martial uncle hadn't misjudged their standards, indeed, they would only be able to hold out for another half a day at most.

Without saying much, they stepped onto the dark clouds with the situ siblings. The two clouds sped up like a sports car and instantly disappeared in front of everyone's eyes.

Yue Qing looked over there and narrowed her eyes. It was about time for her to consider the opportunity to ride on the clouds. Jiang Shisi's voice was not soft just now, so she heard it clearly and felt that it made sense, instead of using all her strength to climb the tree, it was better to save some strength to deal with the crisis that might appear at the other end of the dark clouds. From the current situation, it seemed that it was very unlikely that she would be able to escape from the dark cloud area after holding on for half a day.

She suddenly felt that it was better to be forced to the White Cloud area by Hong Tianlu. Although the harvest might not be very high, at least it wouldn't be as life-threatening as it was now... ..

She could not help but sigh at the fickleness of the world...

After thinking for a while, she did not hesitate. After the Luo brothers, she also stepped onto a dark cloud and sped away.

Now, the only ones left were the first-line earth fairy disciples of Kunlun, the Celestial Master's Zhang Lingyu, Emei's Hong Tianlu, Quan Zhen's Qiu Chuxing, and Luo Fu's Gou Dan.

In the team at the front of Kunlun, su nuoyun whispered, "Are you afraid of Luo Fu and the others?"

Fourteen looked at them and smiled, "You can see it too?"

"It's indeed not simple..." Su Nuoyun looked at Goudan and the other two who were crawling at the same speed and narrowed her eyes, "It seems that Luo Fu's secret realm can not only increase his strength quickly, but it doesn't seem to have any side effects..."

"Really clever, and I thought the same go..." Jiang Shisi said with a smile.

"Get Out..."

In this way, the remaining line of children climbed a whole day.

But apparently, the heavens did not give them different results because of their insistence, dense clouds still did not stop, as if to tell them that no matter how long climb, the result is the same.

At this moment, even Su Nuoyan and the other top disciples were starting to feel that they could not take it anymore.

On the other hand, Hong Tianlu had gained quite a lot from practicing hard body techniques. At this moment, he was slowly surpassing Zhang Lingyu, and he could not help but feel a little excited. He could not help but secretly rejoice in his heart. As expected, the most important thing at the critical moment was to have a strong body. The rest were just floating clouds...

But then, he secretly looked at the other people with fear. First was Jiang Shisi. This guy had never been shown to be practicing hard body techniques, but from the looks of it, his physical strength didn't seem to be inferior to his or Yan Wuliang's.

Then, it was Luo Fu and the others...

What was going on? He had already used up more than half of his energy climbing up until now, but why did these guys still feel as if nothing had happened?

Hong Tianlu himself was a practitioner of hard body techniques, so he was quite sensitive to this area. Luo Fu and the others' breathing was so steady that it was frightening. wasn't it a little too exaggerated that there wasn't any disorder in their blood and Qi after using up so much energy?

This was something that even Zhang Lingyu, who was a practitioner of the five elements method, had noticed...

At this moment, Gou Dan and the other two naturally didn't know that their low-profile crawling had already caused everyone to be wary of them.

In fact, the reason why they were able to do what they did was very normal. The three of them had undergone intelligence enhancement. Intelligence enhancement was the most average attribute enhancement based on the federation's Advanced Biological Technology, this included strengthening their bones, muscle density, and so on. Compared to the cultivation world, which only strengthened their internal organs and meridians through qi refining, this was naturally much more solid.

Moreover, they were already used to training in the gravity room, so their mental resilience was naturally not something that ordinary native cultivators could compare to.

To be honest, based on the current situation, it would not affect them much even if they climbed for another three days...

However, it was obvious that this opportunity would not be given to them...

While they were plotting in secret, a muffled voice suddenly sounded. Everyone looked up in horror and saw a huge eye slowly opening in the sky... ..

"Not bad! !"

Everyone looked at the eye that filled the sky in horror and sucked in a breath of cold air. Only Jiang Shisi sighed helplessly... ..

Could they still not escape?

Chapter 549: Therefore, stay out of trouble

"What the hell is that?" Eggface stared at the large eye in the air, her mouth agape. However, she did not panic in her heart. She had participated in the void battle at the base before... At that time, she happened to see the eye of the Void Watcher, which also seemed to occupy the entire sky. Moreover, compared to the current one, the previous one seemed to be even more terrifying...

She still remembered the terrifying feeling at that time, as if every molecule in the air was filled with despair. And now, although this feeling was very powerful, it was not that terrifying and malicious.

"Fourteen, this is..." Su Nuoyan said in a low voice.

Fourteen nodded and replied in a low voice, "It should be right..."

“Not bad...”

That muffled thunder-like voice sounded again, “To be able to cultivate to such a realm at such a young age in such a low spiritual power environment, it seems that the juniors of this generation are indeed not bad!”

After a pause, he said, “There’s no need to continue climbing. If you use up all your strength to reach my side, you’ll need to spend time to recover. It’s a waste of time. Now, set off and come to my place...”

Everyone immediately frowned when they heard that.

After a few seconds of silence, Su Nuoyan was the first to walk out. He cupped his hands and said, “Junior Kunlun’s Su Nuoyun greets senior godly king.”

“Oh... Kun Lun’s disciple actually knows about my deeds...” that muffled voice said hoarsely, “What do you want to say?”

“Senior, is this breaking the rules?” Su Nuoyun said indifferently.

“Oh? You want to talk about the rules with me?” That muffled voice carried a hint of obvious derision. “This tomb-robbing rule was set by your Kun Lun. Have I ever admitted it?”

“But senior hasn’t stopped it for so many years. Why is it like this this time?” Su Nuoyun continued with a straight face.

The people around were stunned. Yes, why did he only take the initiative to come out this time?

Qiu Chuxing and Hong Tianlu looked at each other with a trace of respect in their eyes. This guy was able to talk calmly and confidently in front of such a terrifying existence. Just his bearing was enough to make people admire him, it was no wonder that even though there was a Jiang Shisi in Kunlun, he still made Su Nuoyan Walk for Kunlun.

“Why is it like this? You’ll know when you get to my godly Monarch Palace!”

Everyone’s faces darkened. To be honest, they always felt that going to the godly monarch palace would be a big pit... ..

Su Nuoyan was silent for two seconds when he heard that. Then, he suddenly said faintly, “If Junior is right, we just need to climb over this dark cloud layer above our heads. Then, we’ll be out of Senior’s control, right?”

Everyone was shocked when they heard that, and they looked at Su Nuoyan in shock... ..

“Is it true? This pretty boy really dares to say it...” brother dog rubbed his chin and said suspiciously.

“You have prejudice against pretty boys?” Gou Dan said disdainfully from the side.

“Pretty boys aren’t reliable...” brother dog said seriously, “Look at Old Master Jin’s novels, those Duan Yu and Murong Fu are all scum, and at the critical moment, men like Xiao Feng are still reliable!”

Gou Dan: “Hehe...”

At this moment, the disciples of the other sects were naturally not as jumpy as Gou Dan and the others. They could even drag old master Jin into it. They all held their breaths and looked over there, not daring to even breathe.

The big eyes above the clouds clearly flashed with a faint light. They looked coldly at Su Nuo Yan, causing the surrounding temperature to obviously drop by a few degrees.

“It seems that this junior’s guess is correct...” Su Nuoyan ignored the cold look in the other party’s eyes, he continued, “If Senior’s goal is to get us all to your so-called divine King’s Hall, you can just take action directly. Why would you need to create so many things?”

“Then, how did you guess that the dark clouds left my control after that?”

“It’s very simple...” Su Nuoyan smiled. “With Senior’s status, if you wanted us to go over and pay our respects, there was no need for us to appear earlier. However, since we appeared, there was naturally a reason. Since senior did not appear at the first moment, this junior guessed that senior had no choice but to appear”

As soon as these words were said, everyone immediately began to discuss. So it turned out that they were only one layer away from breaking out of the Dark Cloud? However, just as they were excited, the huge eyes that were looking at the sky suddenly revealed a bitter expression. They had originally wanted to escape from the suffering, but now they had forced their original bodies here. Wasn’t this a little too much of a cheat?

Just as everyone was worried, Su nuo Yan said again, “This junior still has some guesses.”

That voice did not reply him, but Su Nuo Yan did not mind. He continued, “If this junior’s guess is correct, senior should not be able to stop us from continuing forward right now, right?”

“Oh?” The voice said gloomily, “Are You Sure?”

“This junior is sure!” Su Nuoyan puffed out her chest and said, “If senior could do something to us directly, you would not have used such a method to scare us at this last moment. Senior’s Dharma Idol does look very spectacular, but it is also a little too spectacular. If it is not deliberately put on a show, then it is deliberately put on a show of deterrence. I believe that senior, as a godly monarch, would not deliberately put on a show of deterrence to us juniors. Since it is not showing off, then it is a show of deterrence. But why put on a show of deterrence?”

Su Nuo said faintly, “With senior’s realm, it’s unreasonable for you to do this to US juniors. If you want to rationalize this unreasonable behavior, there’s only one explanation: senior can’t attack us directly because some juniors don’t know about it. Am I right, senior?”

The Godly King:” ...”

“I see! !” Everyone was suddenly enlightened.

“See, pretty boy is still reliable, right?” Goudan poked brother dog and said.

“Cheh...” brother dog curled his lips and didn’t say anything.

“Then how about you stay?” A dull voice sounded.

“Since senior can’t do anything, this junior will naturally take the golden cloud path...” Su Nuoyun bowed slightly and said, “Please pardon this junior for being rude. I have to decline senior’s good intention of inviting me as a guest!”

As soon as he finished speaking, Su Nuoyun took a deep breath and leaped up, jumping four to five feet high. It was as though he wanted to charge out of the last layer of dark clouds in one go...

Everyone looked at Su Nuoyun’s dashing figure and could not help but reveal a look of realization. Even the usually arrogant Zhang Lingyu was not only thinking to himself, ‘The Ghost Fox of Kunlun really lives up to its reputation! !’

Boom! !

Just as everyone was sighing, a loud boom suddenly sounded. In just a split second, that dashing figure turned into a piece of black charcoal under a huge bolt of lightning and fell straight down. Everyone lowered their heads and looked down. They saw that the charcoal fell into the swarm of insects and was instantly eaten up...

Faintly, everyone could smell the fragrance of meat...

“You Think You’re so smart! !” The dull voice in the sky sounded again, then, the last layer of dark clouds that Su nuo Yan mentioned earlier actually slowly dispersed. However, everyone saw that after the layer of dark clouds dispersed, there were still layers of dark clouds. It was not like the other party’s guess that after this layer, there would be a sunny day!

“I hate this kind of smart-aleck gigolo the most. He acts as if he has seen through everything and can’t do anything to you.” Hehe... “... I came here today to show off, how about it?” “? You Didn’t expect that, did you?” “? Idiot, Bah!” “! ! !”

Everyone:”...”

Chapter 550: the Test...

“Where is she?”

After learning from Su Nuoyan’s example, all the remaining people obediently stepped onto the dark clouds, not daring to fall off. Some people comforted themselves that they could take care of the juniors there.

Especially Yue Qing. Her own sister had no choice but to ride on the thunderclouds. She had originally wanted to go with them, but in order to fight for something for her sect., in the end, she chose to let her disciples ride with her. Now that she had no hope of fighting for her sect, it was easy for her to live and die with her sister.

However, when everyone arrived at the Divine King’s Hall, they found that there was no one there!

Logically speaking, with so many disciples here, it should not be so quiet. What was even stranger was the densely packed black shadows on the ground...

These black shadows looked very similar to human figures...

“Gou Dan, what are you looking for?” Brother Gou couldn’t help but frown as he looked around like a dog.

“Oh... I’m looking at these black lumps on the ground. Which one is Yun Ji Mu...”

Everyone:” ...”

Brother Gou was also speechless. He couldn’t help but cover his head and say, “Can’t you think of a good place at this time? Maybe the ground is just some decorations?”

“Which idiot uses such decorations?” Goudan rolled his eyes and suddenly pointed forward. “Look, isn’t that Ma Danian?”

Hearing that, everyone looked over and saw that there was indeed a relatively fat body lying on the ground where Goudan pointed. From the flat outline, it seemed that... “... !”! It really was Ma Danian!

This time, everyone’s last fantasy was shattered. They thought, “Looks like those fellow disciples should have peed...”.

Therefore, all of them had solemn expressions on their faces, including those from Kunlun. Although they were mentally prepared, they still couldn’t bear to see this result with their own eyes... ..

The people from Kunlun this time were all elites. Whether it was the Luo brothers or the situ siblings, they were all the future pillars of Kunlun. They were all talents that couldn’t afford to lose... ..

The Celestial Master’s Zhang Lingyu looked around with a livid face, looking for the shadow of his own disciple. There were many celestial masters who had advanced this time. The second and third seeds were all shortlisted, especially the third seed, Zhang Huaiyu. His talent was so high. He was almost the same as him. Before he came, his master had repeatedly reminded him to take care of him...

Yue Qing’s face turned pale when she saw this scene. It was not that she was not ready to accept the bad news. From the moment she did not ride the cloud with her little sister, she had expected that she might never see her again.

However, she thought that since she had followed them here, at least they could face it together. She didn’t expect that she wouldn’t even have this opportunity... ..

Everyone had heavy expressions, but only Luo Fu and the others looked much more relaxed, especially that Li Goudan. He looked around as if he was looking at an exhibition in a museum., the people who noticed their expressions were quite dissatisfied.

At this moment, Hong Tianlu, who was completely alone, couldn’t help but say in a deep voice, “You guys are in a good mood, chatting and laughing merrily...”

“It’s fine, it’s fine...” Goudan chuckled as he scratched his head.

Hong Tianlu's face twitched, and he continued to say in a deep voice, "I heard that Mu Yunji has a good relationship with Luo Fu. I saw that you guys had a good relationship on the way, but it doesn't seem to be like this now..."

"No, we're very anxious, okay? Look at me, I'm just looking for her with an anxious face," retorted Gou Dan.

Hong Tianlu looked at her, and that expression had nothing to do with being anxious... ..

"What do you want to say?" Brother Gou continued, looking at the other party coldly.

"I want to say that everyone in Luofu seems to be too calm. Even if they're not sad that their companions might encounter misfortune, at least they shouldn't look like they're shopping. I want to ask, do you... .. know what will happen here?"

"Funny!" Brother Dog rolled his eyes. "This is the secret realm of Kunlun. How would outsiders like us know about it?"

"That's hard to say, because your existence is very suspicious..."

"You are suspicious, your whole family is suspicious!" Dog Egg glared at the other party fiercely.

"What I said is the truth!" Hong Tianlu said faintly, "Your so-called Luo Fu appeared too suddenly, as if it appeared out of thin air. Such a powerful sect without a trace for thousands of years is unjustifiable, and this happened during your first participation in the mystic realm. Who would believe that you have nothing to do with it?"

The surrounding people immediately looked at Gou Dan and the other two.

"I say..." brother gou frowned and said, "You believe such a wise guess?"

"There are people who believe all kinds of favorable guesses in a desperate situation..." Jiang Shisi walked over and said, "Moreover, your performance is indeed abnormal. Now, we are all on the same boat. If your sect has any information that we don't know, please share it with us!"

With that, Kunlun and the others surrounded them. Hong Tianlu, who was standing at the side, saw Kunlun standing on his side and heaved a sigh of relief. His eyes revealed a trace of pride.

Luo Fu and the other two had unfathomable strength. Now that he was alone as the commander, he still felt a little guilty.

"Hey, you guys... can you not be so smart-alecky..." goudan sighed and said, "That smart-alecky's corpse was still warm... if it hadn't been eaten..."

"You! !" Boundless rock's face suddenly rose, he took a step forward, and a metal-like roar came from the ground. He didn't know how the floor of the temple was made. Boundless Rock's strength would leave a mark even on titanium alloy, but there was no trace of it here.

Boundless rock didn't notice this because Eggface used his brother's death to talk about it. He, who had been unable to vent his anger, finally found an outlet and directly grabbed at eggface!

Seeing this, brother Goudan coldly harrumphed and stepped forward to stop the other party. The two of them immediately began to wrestle. The veins on boundless Yan's body bulged out, and his bones and joints emitted crackling sounds like firecrackers. His aura was extremely fierce, however, such an aura was unable to shake Liu Shiyu even a single step. That thin and weak youth was like a solid city wall, not moving at all. Seeing this, everyone who understood boundless Yan's strength was secretly shocked!

This was especially so for fourteen. He knew that Boundless Yan's eight-nine arcane art had been cultivated to the point of perfection. His Qi and blood were so vigorous that even some of the elders in the sect were inferior to him. His physical strength was definitely above Hong Tianlu's. However, he did not expect that even this kid could not take a single step back!

At this time, Brother Dog was also feeling rather strained. He did not dare to be distracted at all. He was using the Titan wrestling technique that the chief instructor had taught him. He had reasonably gathered every bit of strength in his body. However, even so, he still felt a little powerless. The opponent's explosive strength was a little scary. If it were not for him not knowing how to use his own strength, he would have been sent flying in an instant... ..

While the two of them were in a stalemate, that muffled thunder-like voice sounded once again. "I'm not giving you guys time to waste here. I'm warning you guys, you don't have much time to recover!"

Everyone was stunned when they heard that. They looked at each other in shock, not understanding what was going on...

"Boundless, Stop!" Fourteen hurriedly said.

Boundless rock looked at the other party when he heard that. The two understood what he meant. With a glance, they retreated. Fourteen quickly went forward to support boundless rock and whispered, "Are You Alright?"

"I'm fine..." boundless rock said in a muffled voice, "That kid has some skills!"

"Don't talk anymore. Sit Down and regulate your breath!"

Boundless rock sat down obediently, but he still asked in a low voice out of curiosity, "Fourteen, what are they trying to do? Why did they bring us here by force? Why did they give us time to rest?"

"They aren't trying to kill us. Otherwise, they would have done it at the tree of God..." Jiang Shisi said in a low voice, "It should be a test. The ones on the ground shouldn't have passed the test."

"What test? How did it turn out like this?" Boundless rock was stunned.

"If I'm not wrong..." Jiang Shisi looked at the black shadows on the ground and said faintly, "It should be the Lightning Tribulation!"
