

A Bunch 621

Chapter 621 lie to Li Goudan!

“You said this is your Luofu Mystic Realm?” Wang Ye looked at Li Goudan in a daze. “Don’t lie to me when I’m young. How does this place look like a mystic realm?”

“What do you think a mystic realm looks like?” Li Goudan stared at Wang Ye and asked.

“Uh... this...” Wang Ye immediately stuttered. How the Hell Would he know what a mystic realm looked like? It was a place that only the core disciples of various sects had the chance to enter, okay?

“But... but this... I’ve never heard of the mystical realm being used to build warships!”

“That’s why we have to cooperate with the government!” Li Goudan continued to bluff, “Our Luofu’s mystical realm is very big. Have you heard of the 3,000 worlds? “This is equivalent to the fragment world of the 3,000 small worlds. There are the local Aborigines and many resources that are not found on the D sphere. Our Luofu has been mining here for thousands of years, so naturally, we can create modern industries...” . “...”

“Is... is that so?” Wang Ye was stunned.

“Of course it’s so...” Li Goudan said seriously, “Otherwise, do you think... that those time travel novels are made up?”

Wang Ye: “...”

“How... are you going to cooperate with the government?” Wang ye asked the question that he was most concerned about.

“Well... “...” . It would depend on the sect leader’s opinion... “...” Li Goudan smiled and said, “Our Luo Fu spent thousands of years to open this New World Passage, and it was not long ago that we mastered the technology to freely travel through this place. But you also know that this place is equivalent to a new continent, and once it is announced, it will definitely cause turmoil in the world. Therefore, our sect leader is also thinking carefully about how to minimize the turmoil and make this place known to the world

“What’s there to announce?” Wang ye said excitedly, “Of course it can’t be announced. We can directly cooperate with the government. Wouldn’t it be good for us to send people from central China to develop this place and make it completely our own new land?”

“AH... .. about that” Li Goudan touched his chin and said seriously, “As a local of central China, and I’m an excellent member, I naturally hope that this is the case. However, there are still other opinions here. Some elders think that this place belongs to the entire human race, so they don’t support cooperation with only one government in central China!”

“Are you kidding me?” Wang Ye was so angry that he jumped up. “Are these people crazy? Don’t you know that non-members of our race have different hearts? Why should we share the place that we discovered with others? Did the British discover the American continent and share it with us?”

“Who told you that all the people here are Chinese?” Li Goudan tilted his head and looked at the other party... ..

Wang Ye’s expression froze when he heard that. He looked at Li Goudan in a daze. “This... There are foreigners here?”

“Of course!” Li Goudan said seriously, “Our Luofu has inherited the teachings of the ancient Jie sect. We emphasize on the idea of having no discrimination. Many years ago, we have been recruiting foreigners. Now, half of the Elder Council’s forces are foreigners!”

Wang Ye: “Half... are... are all foreigners?”

Seeing Wang Ye’s dull look, Li Goudan continued to make up a story. “Why else do you think we have modern industry? “If we maintain the stubborn thinking of those ancient sects in Kunlun and don’t absorb modern technology, how can we open this secret passage?”

“When Western learning was rising, the higher-ups of Luofu noticed the importance of technology, so they often tried to invite those talented western scientists, including the famous physicist Mr. Planck, ah... “The idol of the Genius Girl Zhuge Dali, as well as the founder of quantum mechanics, Mr. Erwin Schrodinger, ah, a series of talented scientists were all invited to the secret realm by us in their later years to continue to shine on the road of scientific research, so you can see that this place has more advanced modern technology than D Sphere!”

“I see...” Wang Ye suddenly came to a realization... ..

Although it sounded a little magical, when combined, it seemed to be able to explain the scene in front of him... ..

“But... .. Just now, you said that you want to go back and recruit a technician who is proficient in the industrial repair of battleships. What’s going on?” Wang ye frowned and said, “According to you, the technology here has already developed to a certain extent. Do you still need to recruit professionals like us? “And I don’t think the lifestyle of those people here is very modern...” . “...”

“That’s the main point!” Li Goudan drank a mouthful of water, he said slowly and earnestly, “Although our Luofu has been stationed here for thousands of years, due to the small number of people, it has only been developing in secret. The previous sect master felt that we could not disturb the balance of the world. Therefore, although our Luofu has mastered high-level technology, we did not rule this continent. This also led to the civilization of this continent itself, which is actually very primitive!”

“But after the new sect master took office, he decided to change everything. He thought that the old sect master’s idea was too outdated!”

“That’s right! !” Wang Ye immediately slammed the table and said, “Too outdated!”

Wang ye instantly understood what Goudan said. This was equivalent to the time when the British discovered the North American continent and felt that the Native Americans were kind and simple. They decided not to disturb them and secretly lived in the North American continent, they didn’t report this to his superiors, and they didn’t rule this place themselves. Wasn’t this crazy?

“So what does the new sect leader Mean Now?” Wang ye asked carefully.

“The new sect leader feels that this discovery shouldn’t be hidden from the humans. The scientists agreed to come here to continue their scientific research in order to better benefit their fellow countrymen. That’s why they started trying to contact the central China authorities...”. “...”

“I see!” Wang ye nodded repeatedly. He then grabbed Li Goudan’s hand and said, “Jiayi, this is an important matter. I have to go back and report it to the higher-ups!”

“No...” Li Goudan shook his head and said.

“Jiayi! !” Wang ye immediately said anxiously, “Listen to me on this matter. We have to let elder Li and the others know!”

“You have to listen to me on this matter. You Can’t let elder Li and the others know!” Li Goudan continued to shake his head and said.

Ye Wang immediately looked at him anxiously...

Goudan li said, “As I said just now, there are more people in Luofu than just the Huazhong people. It’s impossible for you to let the Huazhong people monopolize this place. Before the matter is completely discussed, you are absolutely not allowed to leak it out. Otherwise, in order not to stir up trouble, the elders might take an extreme response!”

“What extreme response?” Ye Wang immediately frowned and said, “Don’t tell me you want to openly oppose the authorities?”

“The number of cultivators in Luofu is far beyond your imagination...”. Li Goudan sighed and said, “A hundred years ago, this place mastered the technology of developing the cultivation aptitude of ordinary people through genetic surgery. Do you see those Green Giants in the base “Every single one of them can push the elders of Kunlun to the ground and rub against each other. We have tens of thousands of such people here. Do you know what that means?”

Wang Ye froze when he heard that. Tens of thousands of elders of Kunlun? Was that for real?

If it was true, with such a large number of extraordinary humans, if they used extreme methods...

“Wait... you just said that you guys mastered the genetic surgery to develop the cultivation aptitude of ordinary people a hundred years ago?” Wang Ye looked at the wings behind Goudan and thought to himself, so Jiayi was so powerful because of the genetic surgery!

No wonder...

He was wondering how a young girl in her early twenties could become so powerful through cultivation...

“Yeah!” Li Goudan smiled and shook the wings on his back. “Do you want to go and have a look?”

Wang Ye:”...”

“What a F * cking talented person!” Inside the base, Seer was staring at Li Goudan on the screen with his mouth agape... ..

How could this be possible? This guy used to write web novels, right?

However, this excuse was not bad. When the time came, it would be easier for people to accept it than using this excuse to announce that aliens were ruling D ball...

HMM... ... Later, he would look for Goudan to discuss and perfect the version... ...

Chapter 622: "That thing is not attractive to a tough guy like me!"

"This is..." Wang Ye went outside the operating theater and looked at the newbies in the queue. "That genetic surgery?"

"That's right!" Li Goudan took the information sheet and handed it to Wang Ye. "Take your time to look at the race information..."

Wang Ye slowly understood after looking at it for a while. It turned out that these green giants outside were all transformed by humans. Then, he frowned and said, "This... is it really voluntary to become like this?"

"Of course it's voluntary!" Li Goudan said seriously, "We don't force people here. Don't look at these Green Giants because they are ugly, but their hardware is very advanced. Those who choose this race are people who have been sitting for a long time and have weak kidneys. In their hearts, handsome looks are nothing. A strong physique and two golden gun-resistant kidneys are the way to go!"

Wang Ye:"..."

Is Jiayi hinting at something?

"And it's not like it's completely changed. You still have your old body!" Li Goudan pointed at the d sphere bodies in some nutrition pods and said, "You can still have your old body. If you want to change it, you can change it at any time..." "..."

Then, he did a demonstration and changed into his old human body in front of Li Goudan!

Wang Ye was stunned by what he saw, but he immediately heaved a sigh of relief in his heart. The degree of acceptance of this model had greatly increased...

Because it didn't feel like he was directly transforming his original body. Instead, it felt like he had an additional body, just like... ... Ultraman, with an additional transformation vessel... ...

It sounded... like it was pretty good...

"Sign the contract first!" Li Goudan took out the contract and said with a smile.

"You still want to sign the contract?" Wang Ye looked at the contract that Li Goudan handed over.

The contract stated: Party B: Wang Ye, brought into galaxy by party a: Li Jiayi, on XX year XX Month XX Day. All the value created by Wang Ye in galaxy will be 100% given to Li Jiayi as a reward, the corresponding reward for Wang Ye will be provided by party a: Li Jiayi. As for how much the reward will be, it will be up to Li Jiayi to decide!

Wang Ye: "..."

"This is... a slave contract, right?"

"How can you say that?" Li Goudan said with a serious face, "My upfront investment cost is very high. Do you think that bringing a stranger into our place doesn't require anything? Isn't it reasonable for you to give me something in return?"

Wang ye said, "But this... 100% ... also..."

"Isn't it natural for a man to hand over all his income to a woman for safekeeping in Central China?" Li Goudan said with affection.

"This..." Wang Ye was stunned. These words... Was he hinting again? No! It should be explicitly stated, right?

HMM...

"You're Not Willing?" Li Goudan pressed him step by step!

"Cough... how can that be?" Wang Ye hesitated for less than a second. Then, just like when he barged through the bridal threshold when they were getting married, he signed this humiliating treaty without hesitation... ..

After signing the contract, it came to the genetic surgery that he was most curious about.

After carefully reading the information, he roughly understood the advantages of the current three main races. The developers focused on brain development. After the surgery, their learning ability would greatly increase, and the evolution of the brain would promote the growth of their spiritual power, they wanted to become the main choice for researchers or mages!

It was a bit like how their military academy chose to major in military technology or commanding. The developer was obviously in the logistics category... ..

Wang Ye had no interest in this type of talent. As a special forces soldier, he naturally preferred some hot-blooded talents. Then, he looked at the other two races. Li Jiayi's elf race seemed to be more perfect, but shapeshifting was not a small risk.

Because you could not consciously choose the type of shapeshifting you wanted. He read the information and learned about some of the existing elf species, other than the wind demon like Goudan and other types of combat classes, elves could also turn into flower spirits, Sirens, and other logistics classes. There was also a small chance of turning into something inexplicable, such as the huge butt he saw on the way here!

According to the information, evolution was a natural evolution based on a person's subconscious and personality. But what kind of subconscious and personality would turn into that thing?

In any case, Wang Ye didn't want to take the risk. If he also turned into that thing, he might as well swallow dung and commit suicide.

As for the Green Titan...

Wang Ye looked at the race's talent. It was a strength-type, full of explosive power, and had very stable attributes in all aspects. It was the most stable race in this so-called base.

Other than its somewhat valiant appearance, it did not seem to have any obvious flaws. On closer inspection, it was quite suitable for him...

Just as he was about to make a choice, Goudan, who had sharp eyes, saw what the other party was thinking and hurriedly said, "Eh? You're going to choose the Green Titan?"

"There... is there a problem?" Wang Ye looked at the other party in a daze.

This was because he noticed that the way Li Goudan looked at him had suddenly become very strange.

"Don't tell me... you also have a kidney... cough cough that?"

Wang Ye:"..."

It was only then that he remembered what Li Goudan had said at the beginning. Those who chose the Green Titan seemed to be those who had weak kidneys and were yearning for a strong body. Among them, the Bald program ape had the highest percentage...

"Cough..." Wang Ye quickly coughed lightly. "I just clicked on it to take a look. HMM... it's really vulgar. This kind of thing isn't attractive to us, who are tough men to begin with!"

"That's what I said..." Li Goudan suddenly had a relaxed expression. "Your body looks so good, but I heard that soldiers who stand for a long time also seem to suffer from kidney damage..."

"That's a rumor!" Wang ye immediately said seriously, "The military has a good lifestyle. They wake up early and go to bed early. They exercise every day. Even if they stand for a long time, it's impossible for them to suffer from an indescribable disease like those otakus!"

"Oh..." Li Goudan nodded, feeling... . The other side seems to be very guilty to say. . .

In the Underground Palace, Kersu was also a little shocked by Marina's magic message and the amazing firepower of the other party's ship, but it only took a moment for him to regain his calm. After all, he was the only undead who had come into contact with Master's science and Technology Library, he would not be as unaccepting of such a power that exceeded the power of this plane. He would not be like the others.

"You don't have to worry too much. The things that master possesses are definitely much more terrifying than the things that you saw today!"

"Is that so?" Malina smiled coldly. "Kersu, the things that you said were all told to you by master. Haven't you ever doubted whether they really exist or not?"

"Do you doubt Master?" KELSU's eyes flickered.

"I don't think so..." Marina didn't care. "But we do need some confidence now, don't we?" You've been talking about how powerful master's things are. You've been studying them for so long. You should at least show me something to convince me, right?"

Kersu fell into silence when he heard that. Marina, who was opposite him, did not urge him. She just quietly looked at him through the magic crystal.

After a long time, Kersu finally said, "There's a ship that master once sat on at the port of the east coast. If you're willing to take the risk, you can try to summon it..."

Marina frowned when she heard that. "You don't sound like you're describing a ship, but a monster..."

"Well..." Kersu said faintly, "If you want to understand it that way, you can..."

Chapter 623: Everyone has their own selfish motives

"Really?" In Yanjing, the leader looked at elder Li's report and was very excited. "You've decided so quickly?"

Elder Li looked at the excited leader and nodded with a smile. He had been excited for a long time when he first received the news.

"According to the news from Li Jiayi, No. 1 of the Dragon Group, Luo Fu's higher-ups have discussed the cooperation project that elder Li proposed last time. Luo Fu's side has decided to try out a batch first. Li Jiayi will personally select a batch of military officers to enter Luo Fu mystical land for the test..." "..."

"Good, good, good!" The leader rubbed his hands with a gratified smile on his face. The thing that he wanted the most had finally come!

This matter had started two days ago. Sect Master Qin had personally visited elder Li and told him about the situation of the Luo Fu mystical realm.

According to her, the Luo Fu mystical realm was a fragment space, which was equivalent to another world. For thousands of years, the elders of the ancient sects still did not agree to have anything to do with the authorities, they were afraid that the large amount of interference from the authorities would upset the balance on the other side. The new sect leader represented the thoughts of the new generation of Luofu disciples, thinking that only by cooperating with the authorities could they dig deeper into the other side.

Although she still did not tell them what the secret realm was, her willingness to try to cooperate with the authorities this time had already surprised the leader!

The mystical realm was a secret that Kunlun had been prosperous for thousands of years. Now that this sect was actually willing to share it with the officials, this attitude and intention made him respect the new sect leader, Luo Fu, even more.

In the past, those sects had always been eager to monopolize the things they obtained for generations. Whether it was cultivation resources or secret cultivation techniques, they were extremely secretive to the outside world!

This also caused the country with the largest number of extraordinary individuals in central China to always cower in its own territory. In the eyes of many officials, the cultivators of these sects had no sense of national righteousness, they were just a bunch of extremely selfish villains!

He himself actually had a lot of opinions about those cultivators. However, he also knew that blindly suppressing and ostracizing them would not solve the problem. Hence, he chose to believe that elder Li hoped to use sincerity to make them serve the country.

However, his gains over the years were minimal. He had always thought that there would not be much results after he took over, but he did not expect that the new Luofu sect would surprise him again and again!

According to the current progress, the era of all the people in central China cultivating and extraordinary people serving the country was not so far away!

“Elder Li, that girl Jiayi said how to cooperate? Do you have any rules?”The leader quickly asked after he calmed down.

He knew that this cooperation was very important. Only by making a good start could his ideas have more and more opportunities!

Old Li quickly said, “According to Li Jiayi, this time we will recruit a group of senior talents from the army. We will provide the information, and the candidates will be decided by them. After that, these selected people will enter the secret realm to help develop the secret realm. Luo Fu’s side will also reward our people for their contribution. If the cooperation goes well, we can start to consider increasing the scale!”

“Good, good, good! !”The leader clapped his hands and laughed. Then, he quickly asked, “Do you have any conditions?”

“They said that they don’t have any other conditions, but the performance of our members will be judged by their people. Sect Master Qin said that there are opposition parties in their elder group, so both sides will send people to judge notarically this time, and the result of the evaluation will be an important criterion to judge whether the project will continue to cooperate or Not!”

The leader immediately understood what he meant!

The Luofu sect was divided into two factions. The leader supported and officially cooperated, while the elder of the old faction opposed cooperation. In other words, this cooperation was not a real cooperation but a test! If the people they sent did not meet the standards, it might lead to the failure of this cooperation!

At the thought of this, the leader took a deep breath and said to elder li solemnly, “Old Li, it seems that the selection of the candidates this time is the key!”

Elder li nodded when he heard that. This model of the other party was equivalent to letting them bet their treasure on the soldiers they sent to test. If those people did not perform well, the cooperation this time would be equivalent to a failure!

“You must arrange for the most excellent and reliable people...”. The leader said seriously, “You must choose cadres with strong qualities and a capable style to go over. The most important thing is that the background must be clean. You Can’t let people with too many political backgrounds in!”At this point, he said straightforwardly, “Don’t tell others about this. Just select a group of excellent people for special missions, as long as those old guys don’t know about it...”

“This...”elder Li immediately smiled bitterly.

“Why? Is there a problem?”The leader was stunned. Looking at elder Li’s expression, he immediately felt that something was wrong.

Elder li: “It’s too late... everyone knows about it, those old guys!”

“What?”The leader immediately stood up in shock. “Who leaked it?”

“No one leaked it either...”. Elder Li said with a wry smile, “When Li Jiayi came to talk about this matter, it happened to be old Tian’s birthday celebration. There were a lot of people there. At first, I thought that Little Jiayi was here to celebrate the birthday. After all, she had a good relationship with old Tian. I didn’t expect that she was here to talk about this matter. At that time, so many people knew about it
“...”. “...”

The Leader:” ...”

Elder Li took out his phone with a bitter smile. “I haven’t stopped calling since yesterday. I was so scared this morning that I didn’t even dare to turn on my phone. It’s all those old guys who are calling me. They all want to add their younger generation into the list! !”

“Nonsense! !”The leader immediately slammed the table. “What are they trying to do? Are they openly abusing their power for personal gain? give them a reply. Don’t even think about it. This time, no aristocratic family members are allowed to participate!”

“This...”. Elder li smiled bitterly, “I don’t think that’s a good idea.” ? Most of the aristocratic family members who were willing to join the army were well-groomed. Regardless of whether it was their ability or personality, they were the best choice. If they were excluded and only people with no background were allowed to join, it wouldn’t be fair to the aristocratic family members

The leader looked at elder Li, “Do you also want to put your children on the list?”

Elder Li didn’t refute but lowered his head silently. This gesture almost made the leader throw the cup in his hand directly at the other party’s face...

But he knew that he couldn’t do anything about it. Who wouldn’t want to be close to the water tower in such a situation? This was human nature. Even if it wasn’t for himself, who wouldn’t want their child to have an extraordinary future?

Once he entered the arcane realm, he was very likely to become a cultivator. After that child of the Liu family entered Luofu, he was only a few years old, but he was already able to defeat the ace disciple of Yunshan in the Kunlun martial arts competition. This kind of place was like a rising dragon.., which parent didn’t want to send their children in?

Elder Li saw the leader’s uncertain expression, he mustered up his courage and said, “I know you don’t want this new extraordinary power to be in the hands of the family again, but you can’t kill the hope of our children’s advancement just because of this, right? “Moreover, the selection this time is decided by the other party. We only provide information, and the competition environment is also fair. As long as those commoners with no background are outstanding enough, they will be selected as well...”. “...”

“Heh!”The leader sneered. “Looks like you’re really on their side this time?”

Elder Li: "..."

"That's fine...". The leader sighed. "Since things have come to this point, I won't be too arbitrary. However, there must be a limit to the list. You Go and send a message to those old fellows. Each family can only select two people. I will personally make the list of military officers for commoners. The ratio of aristocratic family members to ordinary family members must be maintained at one to nine. Also, you go and contact Li Jiayi and have her come to my place. Before the selection begins, no one is allowed "... including what kind of contact you have with her. This is my bottom line!"

Old Li's face stiffened. From the looks of it, the leader was determined to put an end to the clan's secret operations.

However, to be able to get such an outcome from the leader, who had always been unyielding, was already considered very good. Thinking of this, he could only think to himself, "I hope that little brat of mine can live up to his expectations!"

Chapter 624: the candidates of each family (I)

Just as elder Li had said, after the news came out, the elders of the various aristocratic families started to make a move. One after another, they all wanted to send their children to the list.

When elder Li went back, he found that all the old men in their 70s and 80s had moved chairs to block the door of his house. He didn't know whether to laugh or cry!

"Elder Li, you can do it!" One of the men at the door was very tall, however, the old man, whose body had shrunk due to his old age, looked at the other man in a bad mood. "You don't give us face when we retire, do you? You Don't even pick up the phone. You're so arrogant!"

The man who spoke was Lei Jianzhong. He had an extremely high position in the military and was elder Li's boss in the past. He was already 82 years old and had retired a long time ago. He usually kept a low profile, but he didn't expect that this matter would force this Buddha out...

Elder Li immediately smiled bitterly and thought to himself, as expected, how could there be no selfishness in the human world? Elder Lei was famous for being impartial, but at this critical moment, he could not help but use a backdoor method...

"What? You Don't even want to reply to this old man?" Elder lei sneered.

"Old boss, don't make things difficult for me..." elder Li smiled bitterly and said, "Can I handle all of your calls alone?"

"Heh, you're a busy man. Your hands have gone soft after receiving the calls, and you don't want to answer them!"

Elder Li rolled his eyes when he heard that. Because it was elder Tian who said that, he couldn't help but laugh in anger, "You Old Bachelor, why are you here to join in the fun?"

Elder Tian chuckled when he heard that. He was indeed here to watch the joke. His son had passed away in his early years, and he didn't have any other children. He only had a granddaughter, so naturally, he didn't have the same thoughts as the elders around him... ..

"It's useless to talk about this..."elder lei waved his hand and said, "We're already here, so you should at least give us an explanation, right?"

Elder Li was rather speechless when faced with such an old hooligan's attitude. However, it was his fault for having such a high status. If it was someone else, he might not have been so polite, but this person just had to come.

"Leader said that each of your aristocratic families can only recommend two spots, and the number of commoner children accounts for 90% . It's a fair competition, so no one can play tricks. If you want to send your own children to luofu, then let's see what your children can do!"

"This..."everyone immediately looked at each other. Elder long and the others immediately left without saying anything. They had to seize the time to choose the outstanding children in their families!

Elder Li looked at those old fellows who had originally opposed the cooperation with the extraordinaires and were so enthusiastic this time. He could not help but sneer and raise his voice, "It must be military status!"

Hearing this, elder long and the rest froze. Their faces sank slightly, and they continued to walk forward.

After elder long and the rest left, elder lei smiled and asked in a low voice, "Is there really no backdoor?"

"Old leader... Please don't make things difficult for me... It's not like you don't know the character of the leader. How can there be a backdoor for such a major event... I've already worked very hard to get to this stage!"

"Mm..."elder lei nodded. He was familiar with the current leader and hated aristocratic families monopolizing resources the most. This time, he didn't take the opportunity to exclude all the descendants of the aristocratic families as a sign of respect... ..

"Fair competition then. The children of my old Lei family are not in vain! !"Elder Lei laughed loudly and left with his head held high and chest puffed out. His posture didn't look like an old man in his eighties at all...

And with the old lei left, those old men around have dispersed, apparently also anxious to go back to arrange their families in the army to hurry back!

Old Li was not long-winded. He was ready to go home and call back the children of the fourth family after he had given the order. There were not many young people who were willing to serve in the army. The two children of the fourth family could be considered quite promising, let the two children go this time!

Liu Jia:

"Pops... aren't you being a little... biased?"

In the hall of the Liu family, the second son of the Liu family interrogates the old man sitting in the head of the hall with a gloomy face. . .

Old Liu glared at him in annoyance. He no longer had much thought about the second family. After all, he could do such a selfish thing last time. Even if he really allowed his family to gain power, it was likely that he would not consider the Liu family's friendship.

Hence, he said stiffly, "What does this have to do with me being biased? According to the rules, it must be military status. This is only suitable for elder and his two children..."

After elder Liu received the news and returned home, he realized that out of the three generations of children, only elder and his two children were still in the military. He could not help but sigh. It was still the elder's upbringing that was steady. Otherwise, the traditions of the Liu family's military family would have been broken.

Speaking of which, that child Shiyu was really something. He didn't even inform his family about such a big matter in advance. It almost made them miss such an opportunity.

"What's so important about this?" Elder Liu immediately said anxiously, "Tomorrow, I'll let Wen Hao enter the army to register. Won't he have a military status? What's so difficult about this?"

Hearing this, elder Liu directly rolled his eyes at the other party. He couldn't be bothered with the other party, he looked up at his boss, who was standing straight, and said, "Jianjun, Guodong and Guoxian are in the army all year round. They rarely come back during the holidays. You know their situation better. Are you sure?"

Hearing the old man's question, the old man knew that he still intended to give the quota to his two children. He was so excited that his whole body trembled!

It was impossible for him not to feel indignant that his children could not come over at the foot of Mount Kunlun the last time. This time, he naturally wanted his children to give it a try!

But after his excitement, he still regained his composure, he lowered his voice and said, "Grandfather, although the two children graduated from military schools, their natures are different. Guodong went to the command department, and I asked instructor Hong to personally train him. He trained with the various military commanders for a full five years. I believe that Guodong's physical fitness and on-the-spot judgment are not inferior to the others. If he were to participate, he should have a great chance of getting another quota for our Liu family... But Guoxian... "...

He paused for a moment and looked back at his second son's anxious expression, in the end, he steeled his heart and said, "Guoxian liked engineering since he was young and didn't like to practice martial arts, so he entered the military academy to study ship and ocean engineering and walked the path of a technical officer. This kid's talent in this area is not bad, and I didn't open any backdoors for him. He managed to get the qualification of a level five engineer by himself, which is also very impressive, but... "... "This talent might not be of much help in the selection this time!"

Behind Liu Jianjun, Liu Guoxian's expression instantly darkened. Although his father had affirmed his efforts, it was clear that he intended to let him give up the spot this time...

Elder Liu nodded repeatedly when he heard that and thought to himself, 'boss is still sensible...'. ...

“That’s right!”The second son of the Liu family immediately added, “Big Brother is speaking the truth. What do you think Guoxian, that child, is going to do with a technical soldier’s spot? It’s better to let Wenhao go. The chances are much greater...”

Elder Liu immediately frowned. From the current situation of the remaining Liu family members, Liu Wenhao was indeed the best candidate, although his character was not that good... But...

“Old Master, What Are You hesitating for?”The second son of the Liu family immediately said anxiously, “This is also for our Liu Family!”

Elder Liu rolled his eyes at the other party when he heard that. To think that this fellow could still say such words...

Just as he was hesitating, a familiar voice suddenly came from outside the hall, “Brother Guoxian, you don’t have to give up the quota...”

Just as elder Liu was about to make a helpless decision, he heard this voice and was immediately shocked. He looked up and was immediately pleasantly surprised, “You stinky brat, why are you only here now?”

The person who came was precisely brother Dog, Liu Shiyu!

“Grandfather!”Brother Dog went forward and called out intimately.

“You Little Brat, what are you doing in the sect? That girl from the Li family can even make decisions on such a big matter. Look at you...”elder Liu said in a bad mood.

Brother Dog immediately smiled bitterly when he heard that. Wasn’t this nonsense? This nonsense was made up by Li Goudan. If she didn’t make the decision, who would?

“Shiyu, what are you here to stir up trouble for?”Second Brother Liu immediately asked with a bad feeling in his heart.

Brother Dog directly ignored his second uncle. He walked up to elder Liu and said, “I’ve received news that the main target of this recruitment is actually technical soldiers. Those who are in command will be at a disadvantage!”

Once these words were said, the originally dejected Liu Guoxian was suddenly jolted... ..

Second Brother Liu’s face was gloomy as he said, “Shiyu, this is a big matter. Don’t use your identity to spout nonsense. This sect is recruiting people. Why is he recruiting those technical soldiers?”

“I’m not as capable as you, second uncle...”brother dog replied with a sneer.

“You...”

“Okay!”Grandpa Liu immediately interrupted second brother’s speech and looked at Brother Dog.

“Shiyu, are you sure about this?”

“It’s true!”Brother Dog secretly recited the excuse given to him by the Lord. “The main opposition force in cooperating with the authorities this time is the moving mountain gate, which is where I am, and Gou

Dan...". "Ahem, Jiayi's Xuanji gate is supportive. In order to ensure the fairness of this test, the main reason for recruiting this time is to enter the third party, the Xing Hai Gate!"

"This Xing Hai Gate is different from ordinary cultivators like us. It's the orthodoxy of the ancient Mo family's disciples. They specialize in the field of artifact refinement and creation. When they recruit people in the modern era, they mainly favor the talented disciples who are good at engineering. Therefore, the technical arms are easier to be selected!"

"Oh... I See! !"Elder Liu immediately nodded. "I didn't expect such a situation. Good grandson, you gave good information this time! !"

"This... this..."elder Liu instantly became anxious. He wanted to say that brother dog was definitely bluffing, but it was hard to say. After all, he was an inner sect disciple. There was no need to say anything to refute who elder Liu believed, okay?

Behind his father, Liu Wenhao's expression became even gloomier as he looked at brother dog with an even gloomier expression.

On the other hand, Liu Guoxian looked as if he had been hit by the grand prize. He was so excited that he almost lost his balance. His father, who was at the side, quickly helped him up, he stared at him and said, "What are you happy about? Look at how useless you are. You only have a chance. If you go, you will have to compete with others!"

He paused for a moment and said, "But since you have this chance, you are not allowed to embarrass the old Liu family. Do You Hear Me?"

"Yes, Father!"Liu Guoxian immediately stood up straight. "I will definitely not let you guys down!"

"Hurry up and thank Shiyu. If he didn't bring this news, how would you have the chance..."

"Shiyu..."Guoxian looked at brother dog with a grateful expression and bowed solemnly. "Thank you!"

"We're a family, let's not talk about this..."brother dog waved his hand nonchalantly. "Brother, you can do it, I have faith in you..."

In his heart, he thought to himself, 'damn, that guy, Gou Dan, is really good at making up stories. The key is...' He really believes it. ...

Chapter 625: candidates from each family (middle)

"Have you heard? About the Luofu Collaboration?"

In the Lei family's courtyard, a group of juniors were discussing noisily.

Most of these juniors were only at the age of Middle and high school. Obviously, they did not meet the criteria for this recruitment. Since they did not have the ability to compete with each other, they could only treat this matter as gossip to pass the time.

"Who do you think will go to our family?"A chubby girl doll asked.

"Do you even need to say that?"The crowd of children., a youth with skin that was yo-yo laughed and said, "Of course it's my brother. He's only 32 this year, but he already has the rank of senior colonel. He

has commanded the suppression of bandits at sea for God knows how many military merits. The outside world's evaluation says that he has the same demeanor as Grandpa back then. How many people of the same age can compare to my brother?"

"Tsk..." looking at the youth's smug look, the group of children secretly pursed their lips, one of the children said, "This cultivator selection is based on aptitude, not on battle merits. If you ask me, I think second cousin has a better chance. After joining the Flood Dragon Special Forces for so many years, he has always been the number one soldier king there. He can fight like a thief. I heard that many internal martial arts grandmasters can't beat him."

"Talent is based on who can fight?" A fair-skinned baby sneered. "It's based on cultivation talent, right?" "If it were up to me, my brother would have a better chance. Many internal martial arts grandmasters say that he is a genius. Last time, an elder from Emei passed by and said that as long as brother is willing to leave our lei family, he can directly enter Emei. If it wasn't for Grandpa who was reluctant to leave, now that my brother is already a cultivator, who else would have good talent?"

"Brother Jiaming? Hehe, he doesn't seem to have a military background, right?"

"Is it difficult for our family? Can't we just report him directly?"

As the group of children spoke, they saw one of the refined-looking boys cowering in a corner. Compared to the surrounding Lei family children, this child's body was clearly much weaker. His lips were red and his teeth were white. He was like a doll, he opened his mouth to say something, but in the end, he did not say anything. He silently left the courtyard.

After leaving the courtyard, he jogged all the way to one of the remote small rooms in the Lei family's courtyard. In the room, beside the electric stove, there was a tall and slender girl, a girl with wheat bran-colored skin was sitting there quietly drawing some blueprints. The boy quietly walked over and glanced at the paper on the table.

There were some drawings on the table that he could not understand, but he could vaguely see that they were related to the design of the ship.

The girl was very focused, as if she did not notice that an outsider was coming over.

The boy quietly looked at the other party. The other party was his biological sister, Lei Xue, who was almost twenty years older than him. She was currently serving on the Black Dragon aircraft carrier in the military, serving as a level four engineer on the ship.

She was mainly responsible for commanding the maintenance of the cabin, as well as all kinds of equipment problems and suggestions for improvement.

The boy quietly sat by the side and looked at his focused sister without moving. He liked to see his sister's focused look. He felt that it was very cool...

After an unknown amount of time, the girl seemed to notice her brother coming over. She smiled and said, "Zhan Hao? Why Don't you go play with the other brothers?"

"There's nothing to play with..." the boy pouted and lowered his head... ..

“What’s the matter now?” Facing her little brother, the girl’s apparently capable aura was slightly eased, and a gentle smile appeared on her face.

“Sister, this time... . . Luo Fu’s election, are you really not going to participate?” Her little brother asked with anticipation.

Hearing this, Lei Xue looked at her silly little brother with amusement. “How am I going to participate? There are only two spots in the family, how can it be my business?”

“Why is there no sister involved? Everyone says that sister used to have the best academic results in our circle. Eldest cousin and the others all entered the university through connections...”

Hearing this, Lei Xue smiled and pinched her little brother’s pink cheeks...

When she was young, she actually thought the same way. Speaking of learning ability, her results were among the best in the entire capital circle. She was definitely a straight-A student. The so-called straight-A student was the kind that literally meant... If you could give 500 marks, I could give you 500 marks...

But unfortunately, she was born into the wrong family...

She remembered that there was a girl who was about the same age as her in school. She had long been sent abroad to study. Relying on her outstanding learning ability, she had applied for several patents while in school. Moreover, because she had invented a patent and won an international physics prize, now that she had returned from overseas, she had been hired by the Geely Group to be the technical director. She was only 28 years old, about the same age as her...

As for herself. After entering the military academy, due to the system, no matter how strong she was, she would have to endure it slowly... ..

She did not really want to enter the military academy, but this old man Lei was stubborn. He believed that if she did not join the army, she would not be considered a child of the Lei family.

Therefore, no matter how good her grades were, or whether she was forced into the Military Academy, the funny thing was that her cousins’ academic results were nonsense. Through connections, they had also entered the military academy, after more than ten years of hard work, she managed to stand on the same starting line with her cousins who had put all their energy into skipping classes, fighting, and picking up girls when they were in school. Moreover, it seemed that they were not even as good as her cousins.

The army was a paradise for boys. This was the same even after the federation had been established for hundreds of years. Within the Military Academy, her advantage was almost completely gone, even though the professors there also recognized her learning ability, however, after she graduated from doctorate, she could only start from the grassroots.

The army’s engineers were classified. The high-level engineers studied high-end technology, while the low-level engineers were basically only responsible for repairing the content, even though her path had become much smoother due to her family’s connections. She would not be deliberately suppressed in a certain place, causing her to be useless, but it was not much better either. With her qualifications, she would still need to work for at least three more years as a level four engineer...

As her cousins were in the command department, it was easier for them to make contributions. The one who was the most incompetent back then was now a senior colonel...

Born in this family, who could she find to reason with? But she could not blame her own family, could she? After all, if she were to complain, who could she find to reason with those children who were born in poor families, whose families could not even afford the tuition fees, or were simply disabled?

Seeing his sister like this, the little boy finally became sensible and didn't continue to dwell on this topic. Instead, he looked at the design drawing on the table and smiled. "Sister, why did you choose to major in ship design?"

"When I was young, I always liked to fiddle with these mechanical things..." at the mention of this girl, he immediately smiled. "I used to dismantle the television set at home and was often chased and beaten by my father with a Feather Duster!"

The boy laughed when he heard that. He loved fiddling with these things too, but now he was only at the level of taking apart the remote control board. When his family saw that he had this tendency, they often said that he was just as naughty as his sister when she was young...

"At that time, I could only choose a military academy. My specialty was limited. My mother wanted me to study military medicine or marine surveying and mapping. This was more suitable for girls, but I didn't like it..." Lei Xue smiled as she recalled the past, at that time, she was already unwilling to be forced to choose a military academy. If she was not allowed to choose a major, she might really fall out with her family. Thus, her family took a step back and allowed her to choose a major that dealt with logistics craftsmen all day long.

"Then, sister, is this major good?" The Little Boy asked expectantly.

"About that..." the girl smiled bitterly, but she still said honestly, "I thought it was good at the beginning. Actually, I also quite yearned for a seafaring life. At that time, I thought that it would be good if I could do my favorite work on ships and machinery while enjoying the life on the sea..."

"Then what happened after that?" The little boy quickly asked.

"After that..." Lei Xue smiled wryly even more. As expected, she knew too little at that time. This was not the ancient era of large-scale seafaring. How could she have the kind of seafaring life that she imagined. In the army..., she spent most of her time on the shore. Since she started working, she did not have many opportunities to go out to sea. She only waited for others to bring the ship back before she brought people up to check and maintain it. She did not feel that this ship had anything to do with her at all...

Now, she could only slowly endure it. When she reached level three engineer, she would be able to participate in the design or research of cutting-edge instruments, however, if she wanted to fully participate, she would have to wait for another ten years until she reached level one. Moreover, she would only be participating. The senior experts would have to make the decision on the big decisions.

When she could make the decision, she would be around 60 or 70 years old like those experts, right?

She didn't know if she would still have the passion she had now. By the way..? She was a little confused. Was it really appropriate for such a creative career as a scientist to be suppressed so tightly by the system?

Sigh... She sighed and looked at her younger brother who was staring at her blankly. After some thought, she decided not to tell him this so as not to discourage the passion of children.

Just as she was about to use some topic to divert his attention, a familiar female voice suddenly came from outside. "Xiaoxue, Xiaoxue, why are you still here?"

Lei Xue did not need to raise her head to know that her mother had come. Immediately, she kept the blueprints on the table. Up until now, her mother had often complained that she did not listen to her back then and went to study some ship design major, looking at these blueprints, she was afraid that she would have to nag for a long time.

She saw a woman who looked forty to fifty percent like Lei Xue walking in with quick steps, after seeing Lei Xue, she hurriedly said, "Your eldest cousin and the others are all back. When everyone is here, your grandfather wants you all to gather and ask questions. Hurry, Hurry, don't pack up. No one wants your things..."

When Lei Xue heard this, her expression immediately turned bitter...

Questioning was one of Old Master Lei's hobbies. Every time the three generations of his family's children arrived, he would gather his children and ask them one by one. From big to small, the big ones would ask about their work situation, and the small ones would ask about their academic results, it was just like the annual review.

In the past, when she was studying, she liked this segment the most because she was filled with a sense of superiority when faced with a group of underachievers around her. Now...

Hehe...

Chapter 626 candidates for each family (part two)

The Lei family's meeting was a little different from the Liu family's. It was not in the hall, but in the courtyard, a large round table was set up to surround the city.

The men of each family sat there obediently with their children, while the women prepared dinner in the kitchen.

Every time it was this time, the naughty monkeys of the Lei family were especially well-behaved. They kept their heads down and did not speak, afraid of attracting the attention of the old man.

However, they couldn't avoid it. The Old Man's annual project had never fallen behind. Originally, this project had been started during the new year, but because of the Luofu election event this time.., every family had hurriedly arranged for their children to come back, which resulted in people arriving even more often than during the previous New Year.

The old man looked at the big table with satisfaction. Looking at the big table full of energetic children, it was like he had finally matured after working for so many years. It gave him a special sense of achievement. Four generations living under the same roof, and their children and grandchildren thriving. He sighed with emotion that he had made a lot of contributions to his family and the country in his life. It was not a waste of his time...

“Lei Hao, let’s talk about you first. Your body has become much stronger. How was your two years in the Army?”The old man asked.

“Yes, Grandpa!”As the oldest, Lei Hao was already prepared, he quickly said respectfully, “I have been carrying out missions in the XX region of the West Sea for the past two years. I was responsible for the safety of the shipping routes and the capture of the pirates there. The specific things I participated in were XXXXX. Under the wise leadership of the higher-ups and the concerted efforts of the soldiers, we completed many difficult missions together. The two years of training have taught my grandson a lot. Grandpa is right. The army is the most training place for people...”. “...”

Old Master Lei nodded his head in satisfaction. This naughty child had been mischievous since he was young, and now he had finally grown into a decent soldier.

“Well done... your superior is called Long Yunjie, right? I’ve more or less heard about him. He’s a practical person. Learn more from others...”

“Yes, Grandpa!”

“But you’re not young anymore. Although you’ve been training in the Army, you can’t completely ignore your personal matters. Ah, it’s time to consider the important matters at the wedding banquet...”

“Yes, Grandpa...”Lei Hao said obediently.

After asking, old master lei looked at the child of third brother’s family. That was the second eldest among the three generations of children. He had also been in the Army since he was young, but because his academic results were too flimsy.., even he couldn’t bring himself to send that score to the military academy, so he let him go on the path of a special forces soldier and then recommended the military academy.

He didn’t expect this child to be so flustered in his studies. However, when he went to the special forces, he was like a fish in water. He made such a great name for himself in the flood dragon team at the border area, which could be considered as giving him face.

When second brother saw the old man looking over, he quickly straightened his body and reported his situation.

Just like that, according to the grade, the old man asked one by one. Soon, an hour or two passed...

Many children were already dozing off, including Lei Xue and her brother. However, no one dared to appear listless at this time. No matter how bored they were, they had to persevere.

After an unknown period of time, the old man finally asked all the third-generation boys who had joined the army. Then, he looked at the fifth son sitting on the right: Lei Jiaming.

This child was the only boy in the Lei family who had not joined the army when he reached his age. The main reason was his outstanding talent in internal martial arts. When he was in his teens, there was even a master from Emei who wanted to take him in as an inner disciple.

If it was not for the harsh conditions for severing ties with the secular world, he would have let this child go to the sect to cultivate. Now, who in the big families did not want to have a cultivation disciple in their family?

That was why he hadn't sent this child to join the army until now. He still had the thought of sending him to the sect.

He didn't expect this opportunity to come so quickly.

"Grandpa..." Lei Jiaming greeted respectfully. Compared to the tough temperament of his cousins, Lei Jiaming's temperament was much gentler. He even had the aura of a scholar.

"Jiaming, how have you been practicing your boxing recently?" Grandpa Lei said with a smile. His tone was also quite gentle. This made several young people of the same generation secretly curl their lips, including Lei Xue, who was born in the science and technology industry.

Since Young, Grandpa Lei had always favored this grandson who had the aptitude for cultivation. Naturally, they were somewhat dissatisfied. After all, everyone had been forced into the army, except for this guy., still enjoying the leisurely life in the city, many people felt very unbalanced.

"Master he said that I'm only a step away from inner strength..." Lei Jiaming said with a faint smile. His expression was as if he was narrating a very ordinary matter, without the slightest bit of complacency.

However, the more he did this, the more displeased some of his peers were.

"Good, good, good!" Old Man Lei nodded repeatedly. A nineteen-year-old expert of inner strength, even that kid from the Liu family called Wen Hao, was far inferior. This child of his really had the talent for cultivation...

However, there was a problem now. There were only two spots, but the Lei family had quite a number of outstanding disciples. The eldest child was the oldest, and his style was steady. He was also the one with the best performance today. The child from the third family was a top-tier soldier king, the advantage of participating in this kind of test should not be small. There was also Jia Ming, this child. With his talent for cultivation, the probability of him being selected was definitely not small.

How should he make this decision?

The palm and the back of the hand were all flesh...

The old man was caught in a very obvious dilemma, but he actually forgot to ask Lei Xue and the other granddaughters about their recent situation.

The few granddaughters all lowered their heads and drank their tea quietly. Lei Xue herself did not mind lowering her head too much. If it was in the first few years, she might still feel a little disappointed in her heart, but now she was completely used to it.

After entering the military academy, her advantage as a straight-A student began to slowly diminish. It had been a long, long time since she saw her grandfather laugh out loud because of her results...

But what could she do? How could her slowly accumulating experience compare to her cousins?

It was good that she did not ask. Otherwise, it would be awkward if she asked later...

Just as she was in a daze out of boredom, a hearty laughter suddenly came from outside the door. "Hey, Old Lei, is there a parent-teacher meeting again?"

Old Lei was stunned. He looked up and saw a bald old man in cotton clothes. Who else could it be but old Tian?

He immediately scolded with a smile, "You Old Baldy, why did you think of coming to my place?"

"Isn't my granddaughter back in the United States? I'm alone. Seeing that you have so many children and grandchildren, you won't mind coming over to have a good time, right?" Old Tian chuckled.

"Hey, You Old Baldy..." elder lei smiled helplessly. The only one who dared to disturb him on his family's Day was this old man in front of him.

This kid's two sons had been sacrificed while carrying out a mission. His wife had fallen out with him at that time and brought their daughter abroad. Later on, he did not marry again. He had been alone for so long. Occasionally, his granddaughter, who was studying in the United States, would come back to visit him. He saw that he was lonely and often asked him to come over for free meals. He did not expect that this old man would treat him as an outsider just because he was freeloading.

However, he could understand. Usually, the children would treat him as their own elder.

As expected, when the juniors saw that he had come, they quickly stood up and called out, "Grandpa Tian!"

"Your Grandpa Tian Is Here to play with the autumn wind, why don't you give him a seat?" Elder lei urged.

"It's fine, it's fine..." elder Tian walked over as if he was familiar with them. "I'll sit here with our Little Xue..."

Seeing this, Little Xue's father hurriedly gave up his seat. Elder Tian casually sat over and looked at Lei Xue with a smile.

Lei Xue quickly smiled and said, "Grandpa Tian..."

This smile was very sincere. In the younger generation, old Tian doted on him the most. According to his father, old Tian had been brought to the United States by his wife because of his daughter. He usually did not see her once a year, later, when he came to Old Lei's house, he saw that he liked to tie two ponytails just like his daughter when she was young. In addition to his personality, he also liked to play with some strange things. Thus, he doted on her as if she was his daughter, from time to time, he would bring him things. That time, when he was forced to choose a military academy and cried at home, he even ran over to quarrel with old lei.

Old Tian sized up Lei Xue, immediately, his heart ached and he said, "Aiyo, my little darling, you've tanned so much again. What do you think a girl like you is doing in the army...". Then, he glared at Old Lei. "It's all because of that unreasonable grandfather of yours!"

Lei Xue immediately lowered her head and didn't dare to speak. Old Man Lei's face was full of black lines as he looked at old man Tian, "Are you done? How many times have I said it? Born in my lei family, being a soldier is your life!"

"Is that so?" Old Man Tian sneered, "That Jia Ming is also old, why didn't he enter the Military Academy?"

“Uh...” old man Lei’s tone suddenly choked, and he stuttered, “Isn’t that... isn’t that a special situation?”

“Oh, I thought you had principles. So you also know how to make a special case, huh?”

In the face of old man Tian’s ridicule, old man Lei did not retort for a moment. After all, he had broken the rules, so he naturally could not be so righteous now.

Thus, he simply played the hooligan, “You came to find trouble, right?”

Old Man Tian rolled his eyes and thought to himself, this old hooligan, he could not argue with reason, so he began to play the Hooligan.

Lei Xue quickly shook elder Tian’s hand when she saw this and shook her head slightly. It was obvious that she didn’t want grandfather Tian to quarrel with her grandfather again.

Seeing how sensible Little Xue was, elder Tian narrowed his eyes slightly and thought to himself, “Good child, I have to fight for you this time no matter what...”.

Thinking of this, he looked up at elder lei and said, “When I came, I went to elder Li’s place and saw that many families had submitted their quotas, but I didn’t see yours. What’s the situation?”

Elder Lei was stunned. He didn’t expect the other party to suddenly change the topic. When the surrounding people heard this topic, they immediately became nervous.

In fact, they were also thinking about this question. They had been extremely nervous for a long time, but the old man hadn’t said anything, so they couldn’t open their mouths to ask. Now that elder Tian took the initiative to speak, they naturally became more alert.

Even Lei Hao, who had a calm look on his face just now, pricked up his ears and revealed a nervous look in his eyes.

“Isn’t the registration done the day after tomorrow at the latest? What’s the Rush?” Elder Lei said insincerely, but after holding it in for a while, he could not hold it in anymore. He asked curiously, “Which children did those old fellows recommend?”

“I just roughly flipped through them...” . “...” elder Tian said slowly, “I only remember a few. The old Li family seemed to have chosen the two children from the fourth family. The old Feng family directly let their youngest son do it. Oh, and elder Liu, the two children who reported were the eldest son of the Liu family...” . “...”

Elder lei nodded when he heard that, he muttered, “Only the two children from the fourth family of the old Li family are reliable. The youngest son of the old Feng family is also not bad. He is still young and not as old as some third-generation children, but he is young and promising. He is very progressive. The old Liu family...” . Hehe, the family’s upbringing is not strict. Only the two children of his eldest son have joined the army. “...” when he said this, he was suddenly stunned, he hurriedly said, “That’s not right!”

He looked at elder Tian and said, “I remember that one of Liu family’s eldest son’s two children is a technical soldier, right? Why didn’t you let Liu Wenhao Go?”

When he said this, everyone was stunned. Lei Xue, who was sitting next to elder Tian, was visibly trembling!

Chapter 627 Determination!

Lei Xue looked at Old Master Tian with some astonishment. The intelligent her almost instantly sensed that old master Tian was fighting for a chance for her...

But how could it be?

She had heard about that matter before, and her heart and her grandfather's thoughts were the same. This kind of election was either for the eldest and second cousins who had suffered and had good skills, or for Jia Ming, who had the aptitude for cultivation, how could it not be his turn?

What was he doing as an aircraft carrier maintenance worker? Repairing an aircraft carrier for a cultivation sect?

"Why is it like this?" Elder Lei was suddenly puzzled. "Among so many families, the Liu family should be the least stupid. After all, they have a child who is cultivating in Luofu..."

At the thought of this, his eyes suddenly lit up!

Could it be...

Elder Tian saw that elder Lei had reacted and did not say anything. He leisurely drank his tea.

Elder Lei was naturally not a fool to be able to achieve this position. He did not need to say it too clearly.

Elder lei immediately fell into deep thought.

Seeing that his grandfather was hesitating, the expressions of the surrounding people immediately tensed up. They thought to themselves, what's the situation?

Lei Xue was also stunned. However, after a few seconds, the intelligent her immediately reacted.

There were disciples of the Liu family cultivating in Luofu. Not to say that they had the inside information advantage in this election, but at least they had the intelligence advantage. At this time, they specially chose a technical soldier to participate. It was definitely not without reason... ..

That was very likely... .. This election, it was likely to be a technical soldier!

At the thought of this possibility, Lei Xue's heart jumped!

Originally, she didn't have any hope in this matter. After all, everyone knew that this matter shouldn't have much to do with them.

However, she didn't expect things to turn out this way...

Lei Xue's breathing immediately became hurried, and her face began to flush red. Although she didn't really like practicing martial arts, this kind of opportunity... .. It would be a lie to say that she wasn't excited.

After all, not liking to practice martial arts didn't mean that she didn't like cultivating immortality. After all, wasn't the group of otaku men and Otaku women who yearned to transmigrate the most?

After about 15 minutes, some of the other disciples also gradually came to their senses. Looking at the excited Lei Xue, their expressions instantly became unsightly, especially those three fellows who had the greatest chance.., at this moment, their hearts were in their throats!

They never thought that there would be such a turn of events at this time. The election was actually to recruit technical soldiers?

“Grandpa Tian...” Jia Ming was the first to speak, “Is this information true?”

Hearing this, elder Tian narrowed his eyes at Jia Ming, who was not even 20 years old, and sneered, “Why? Are you suspecting that the old man is here to deliberately make fun of you?”

“Of course not...” Jia Ming quickly said, “It’s just that this is a serious matter, so we have to be careful...” as he said that, he looked at his grandfather.

Elder Lei was stunned. He looked at elder Tian with some embarrassment, but after thinking for a moment, he still took out his phone!

This action almost made elder Tian flick his sleeves and leave!

But for Lei Xue’s sake, he did not act too rashly in the end. He looked at elder Lei angrily.

Old Master Lei called Elder Li, who was in charge of the registration of the noblemen, and asked about the situation. When he heard that the Liu family had actually allowed the two children to register, he immediately took a deep breath, after hanging up the phone, he muttered, “Could it be true? But... But why does this Luo Fu want technical soldiers?”

Elder Tian chuckled and said, “How is it? This old man’s character isn’t as bad as you think, right?”

Elder lei came back to his senses and quickly comforted him, “Look at what you old man said. I . . . I just wanted to confirm it. What if you really came to make fun of me?”

“Ha... I’m free!” Elder Tian rolled his eyes at the other party and said.

“Grandpa!” Jia Ming quickly said, “Even if the Liu family sent a technical soldier, it still can’t prove that the selection criteria is like this.”

Hearing this, elder lei frowned slightly. Although Jia Ming’s words were selfish, it was not unreasonable.

Then, he looked at elder Tian and said in a negotiating tone, “Elder Tian, what do you think?”

“What do I think?” Elder Tian smiled and said, “Give snowy a spot. She is a doctorate in engineering and a level four engineer at a young age. In terms of technical officers’ achievements, no one in the industry is more outstanding than her. If the criteria is really to recruit the technical department, her chances of getting a spot are very high...” . “...”

Snowy clenched her fists tightly and her heart skipped a beat...

“What if it’s not?” Jia Ming asked with a livid face.

Elder Tian's patience dropped to the freezing point when he heard this kid using such a disrespectful tone to talk to him again and again. "Old Lei, discipline this grandson of yours. This old man's temper is not that good!"

Elder lei frowned and looked at Jia Ming. "Don't speak!"

Jia Ming was stunned. When he saw his grandfather's ashen face, he immediately knew that he had been too anxious just now. He hurriedly apologized, "I'm sorry, grandfather Tian. Jia Ming was just anxious for a moment..."

Elder Tian couldn't be bothered to reply to him. He hadn't liked this kid since he was young. He disliked the Liu family's Wenhao Kid. In his opinion, these two brats were the same kind of people...

He looked at elder lei and said, "You can choose one from each side like the Liu family. First, you can choose the person you think is the easiest to pass through through the traditional method to ensure your bottom line. The second spot can be given to little snow to invest in a wave of ventures. If you hit the right spot, the chances will be very high. After all, many aristocratic families have not thought of this!"

Elder lei nodded slightly when he heard this, but there was still some hesitation on his face.

Elder Tian added fuel to the fire when he saw this, "If you choose both based on the usual circumstances, at most, it will give your family a little more opportunity. You have to know that the children of the other old fellows are not useless, but this is equivalent to completely losing another possibility...". "..."

Elder lei nodded slowly when he heard this. What elder Tian said made sense... "...".

The children at the side immediately became anxious, but due to Jia Ming being reprimanded just now, they did not dare to say anything in a moment of anxiety. They could only look at Lei Xue gloomily.

Lei Xue lowered her head under the heavy pressure of being stared at by so many cousins.

However, this feeling was quite familiar. When she was still a top student in the past, her grandfather would always use her own report card to scold her cousins. At that time, her cousins would also look at her like this, giving her a lot of pressure.

It's been a long time... . It's been a long time since I've been stared at like this... ..

Lei Xue Thought in a daze and suddenly felt that this feeling was not bad...

After elder Tian finished persuading her, he did not waste any more words and slowly stood up. "In this situation, it's not good for this old man to stay and eat. You should think about it yourself."

Elder Lei was stunned when he heard that and hurriedly said, "What's with your temper, old man? Quickly sit down and eat before you leave!"

"Forget it, I can't even eat an old man who annoys others!" Elder Tian chuckled and stood up to leave. Lei Xue who was at the side quickly supported him.

Elder lei sighed when he saw this and said to lei xue, "Girl, Send Grandpa Tian Off!"

“En...” Lei Xue obediently replied and stood up to help elder Tian slowly walk out.

The other juniors looked at elder Tian with unfriendly gazes. They had the thought of wanting this old fool to leave as soon as possible.

Elder Tian was walking halfway when he suddenly turned around and said, “Oh, I heard some news just now. Old Lei, you can make a call to confirm it!”

“You Old Man, why are you keeping me in suspense at this time? Spit it out!” Elder lei rolled his eyes at him and said.

“Shiyu, that child, seems to have returned to the Liu family courtyard yesterday!” After saying that, he did not wait for elder Lei’s reply and directly turned around and left the courtyard with Xiaoxue.

Elder Lei stood rooted to the spot and took a deep breath. ‘that child from the Liu family is back?’

The surrounding Lei family’s disciples’ faces froze when they heard that. Lei jiaming hurriedly said, “Grandfather... even if Liu Shiyu is back, it doesn’t mean...” before he could finish his sentence, he was interrupted by elder lei. “Wait for Xiaoxue to come back first!”

When he said that, many of the Lei family’s disciples looked at each other when they heard that. Their faces turned extremely ugly!

All these years, when did important things have to wait for Lei Xue to arrive before they could talk about it?

Obviously, elder Lei had been convinced by Elder Tian...

“Grandpa Tian, why didn’t you tell me beforehand!” Sending elder Tian to the door, Lei Xue complained in a low voice, “I wasn’t prepared at all!”

“Didn’t I want to give you a surprise?” Elder Tian laughed.

“It’s just a shock, okay?” Lei Xue rolled her eyes and said, “Didn’t you see the way those cousins looked at me just now? If looks could kill, I would have been riddled with holes earlier!”

“Haha!” When Grandpa Tian heard that, he scratched lei xue’s little nose, “You little girl...”

“Grandpa, is this really good?”

Hearing that, Grandpa Tian’s face immediately darkened, “What’s wrong? I think you’ve been following that Stubborn Old Grandpa of yours for too long without any vitality! What are you thinking about if you don’t fight for this kind of thing?”

“I. . .” Lei Xue immediately became conflicted.

“Let me tell you, this is a once-in-a-lifetime opportunity. If you miss it, it’s really gone!” Elder Tian looked at her and said, “Do you really want to spend your life repairing boats in the Army?”

“I. . .” Lei Xue lowered her head. “But... but I don’t like to practice martial arts either...”

“Silly girl!” Elder Tian knocked her and said, “If Luofu is really recruiting technical soldiers this time, how could they ask us to practice martial arts!”

“Then... What does a cultivation sect want us to do?” Lei Xue was stunned.

“How would I know?”

Lei Xue: “...”

“But girl...” Grandpa Tian lowered his voice and said seriously, “This old man always feels that this sect called Luo Fu is not as simple as a cultivation sect.”

“Then what are they?”

“I don’t know. Actually, leader also has doubts, but the reason why he didn’t overreact is that leader judged that the opportunity brought by this Luo Fu is definitely greater than the threat!” Grandpa Tian looked at Lei Xue seriously. “Leader is a very discerning person. I believe that he is more accurate than me. I also think that the opportunity brought by this Luo Fu is greater than the threat!”

The Thunder Snow hears speech Leng Leng, don’t know what to say for a time.

“Girl!” Elder Tian patted her shoulder: “Some things missed may be missed a lifetime, you did not insist on university, choose the wrong once, this time do not try to insist once, you will regret it for a Lifetime!”

Lei Xue: “...”

———

After about a quarter of an hour, no one at the Lei family table said a word, and the atmosphere suddenly became a lot more strange, until the gate of the courtyard rang again, and everyone looked over, it was Lei Xue who came back after seeing Tian off.

After waiting for the Thunder Snow to walk back respectfully to the old man way: “I came back, grandfather!”

The old man looked at each other, some complex in his heart, so many years, he is not not feeling the love of his granddaughter, the heart is their own.

Perhaps... he was really... a little too selfish?

Shaking his head, elder Lei came back to his senses and took a deep breath. He knew that now wasn’t the time to dwell on this matter. He had to first decide on the important matter in front of him first!

“Little Xue, what do you think about what elder Tian said?”

The moment these words were said, all the Lei family disciples looked at Lei Xue. Lei Xue could clearly feel that most of them were looking at her as if they wanted to eat her up, especially that genius younger cousin.

However, there were also some who looked at her differently. For example, her own father, who appeared to be very complicated. There were some who supported her and were in a difficult position.

On the other hand, her younger brother was different. He had a face full of worship, this had never changed since she was young!

Lei Xue looked at her younger brother and took a deep breath. Then, she looked at Old Master Lei and met his gaze.

She had not done this for many years...

The last time was when she wanted to rebel against the Military Academy, right?

She looked at Old Master Lei's aged face. After so many years, her grandfather's face had not changed at all... ..

Lei Xue Smiled, but her eyes began to become resolute...

She said with incomparable confidence and determination, "If it's a technical soldier election, I will definitely be able to fight for a spot for the Lei family! ! !"

Chapter 628 Technology?

In order to carry out the cooperation project as soon as possible, after three days of registration, the leader started the test activity at a military base outside the suburbs.

A group of young and outstanding officers came to the designated location early with excitement and nervousness!

Especially the descendants of the aristocratic families. For them, once they became disciples of cultivation, not only would they be able to prolong their lives and step into the mysterious supernatural world, they would also become the absolute core of the family, their generation and the next generation would become the most important core of the family, enjoying the best resources. This was because their lineage held a secret cultivation technique that could be passed down for thousands of generations, just like those of the aristocratic families of cultivation. This was what the many disciples of the aristocratic families yearned for the most...

Lei Xue was like everyone else. She had been waiting here for a long time. Looking at the Sea of candidates, she could not help but be stunned. "There are so many people?"

"Fourth cousin, don't you know?" Lei Jia Ming said leisurely, "This time, apart from us, there are also commoners. Moreover, under the leader's request, the number of commoners must be ten times more than us!"

Lei Xue was stunned. She had always thought that this mission had nothing to do with her, so she had never paid much attention to it, the day before yesterday, she had been reviewing her professional knowledge as much as possible to improve her competitiveness. How would she have the time to ask about this?

Looking at Lei Xue's appearance, Lei Jiaming smiled and said, "Wasn't senior sister full of courage when she promised the old man? What's there to be afraid of with more people?"

Hearing Lei Jiaming's slightly chilly tone, Lei Xue immediately frowned and said coldly, "Mind your own business!"

She was the same as elder Tian. Since young, she did not like this genius cousin of hers very much. Perhaps she was a little jealous of her grandfather's favoritism towards him, but most of all, she was very disgusted with this young man's character that was not what he appeared to be.

Previously, when her grandfather sent them over, he still had an honest and friendly look on his face. After her grandfather left, he began to ridicule her. He was a despicable person to the extreme!

Lei jiaming coldly glanced at Lei Xue and sneered. However, he did not say anything else. There were many things that had to be decided based on the results. When the results of the election were out, he would have plenty of opportunities to ridicule this boastful cousin of his!

He also did not know how a ship repairman could have so much confidence?

However, his grandfather had really believed that old fart from the Tian family. He really did not know what he was thinking. Why would the immortal cultivation sect need a ship repairman?

Of course, the reason why he couldn't stand Lei Xue, other than the inexplicable confident remarks that day, was because of the impact it had on himself. Originally, he would have one of the two spots in the family, moreover, he wouldn't have too much conflict with the other families. However, just because Lei Xue took one, the remaining spot was earned by his family and the other two families for a long time.

Originally, because of his grandfather's favoritism, he was not liked by his cousins. Now that he had forcefully fought for the spot, he was even more disliked!

And all of this was caused by his fourth cousin who was inexplicably confident!

Just as he was thinking about it, suddenly, an ear-piercing sound of a broadcast came from afar!

"All registration personnel, please gather at the front. Next, we will announce the rules of this assessment!"

The disciples who were waiting anxiously all perked up when they heard this. They straightened their backs and orderly lined up to enter the field under the command of a few military officers.

However, this time, the ordinary disciples and the disciples of the aristocratic families were actually separated when they lined up, whether intentionally or unintentionally...

This made the group of disciples of the aristocratic families suddenly feel like they were isolated.

After entering the field, the first person behind a tall man suddenly said in puzzlement, "That's strange..."

The one who spoke was the descendant sent by the Hong family to participate in the competition. He was 29 years old this year and had a good performance in the military. He was the third generation descendant that the Hong family mainly nurtured.

"What's Wrong?" A young man wearing a military uniform asked from the side.

"These... Bumpkins, why do I feel so unfamiliar with them?"

The surrounding people were stunned when they heard this. Lei Xue, on the other hand, frowned. Clearly, she was somewhat dissatisfied with the title of bumpkin.

However, she also knew that in the military, those who relied on their ability to rise to the top and those who relied on their family background to rise to the top did not like each other to begin with, so it was not appropriate for her to say much.

“Unfamiliar?” When the people at the side heard the other party’s words, they immediately reacted. They raised their heads and looked over, only to discover that the group of officers who did not have any background did indeed look very unfamiliar.

The army was a pyramid, and the higher one went, the fewer people there were. Everyone who had achieved something at such a young age had more or less seen them before. However, this time, they discovered that there were many extremely unfamiliar faces.

At this time, Liu Guoxian of the Liu family was suddenly stunned. He said in a low voice, “Brother, those people... They seem to be from the technology department!”

“What?” Guodong looked at his younger brother in surprise. “Are you sure?”

“I’m sure!” Guodong nodded. “Do you see that short guy on the left?” “He and we are from the same family. His name is Liu Xinyu. He is 31 years old and a level four engineer. He works in the production line of the Red Eagle fighter jet. Our team has had academic exchanges with them. This guy is very good. I heard that academician Yang, who is in charge of the entire Red Eagle fighter jet project, thinks highly of him. He has already started to come into contact with the content of the design of fighter jets and missiles!”

Liu Guodong took a deep breath and said in a low voice, “Then it seems that Shiyu’s intelligence is correct. This time, he is mainly recruiting technical soldiers. Moreover, it seems that the leader has also received the intelligence in advance!”

As he spoke, he looked at his younger brother, “Guoxian, in this situation, we might have to rely on you later!”

On the other side, Lei Xue also slowly discovered many technical officers that she had come into contact with through observation. Her heart suddenly tightened, and her excited breathing became somewhat rapid.

“Silence! !”

A general with the rank of general in front shouted coldly, and the entire field instantly quieted down. Even though many people had too many doubts in their hearts, the discipline of the soldiers still forced them to suppress the doubts in their hearts.

The general nodded and looked at Li Goudan beside him. Goudan walked forward with a smile while holding the prepared manuscript.

At this moment, she was in the form of an elf. She was wearing the clothes that her mother had designed for her. She looked just like a painting of a fairy descending to the mortal world. Everyone’s breathing froze when they saw her.

Lei Jiaming, who was proud and arrogant, was also stunned by her appearance. He thought to himself, "I heard that the disciples of the Xuanji sect are all heaven immortals like her. It's a good place to go..."

Li Goudan walked to the front of the stage with a script in hand. He did not feel nervous when he saw the many soldiers who were full of vigor. After all, she had once encountered a great battle between Orcs in the New World. The momentum of both sides was much stronger than it was now.

"Cough... let me explain the rules of this election!"

Hearing this, everyone immediately snapped out of their daze from Li Goudan's beautiful appearance. They pricked up their ears, afraid that they would miss a word.

Looking at the nervous Li Goudan, he did not waste any time, he smiled and said, "For this recruitment, we are recruiting a total of ten soldiers for the Soldier Class Officer category. We will select soldiers who have strong physical fitness and perform well on a daily basis. The assessment will be divided into four parts: 1. Basic Physical Fitness Test. 2. Individual Combat Ability Test. 3. Willpower test. 4. Field test in strategic command knowledge. These four tests will take up a total of 80 points, and each test will give you a full score of 20 points. Apart from these four tests, we will also give you a total score of 20 points based on your daily performance in the Army, moral assessment, and military merits. These 20 points will be taken out from the most outstanding batch of soldiers after the first four Tests!"

The crowd instantly understood what he meant. In other words, if one's basic qualities were too poor, they would not be qualified to participate in the following performance and moral test...

However... wasn't the number of ten people a little too small?

The crowd's hearts sank slightly. Judging from the number of people on the field, there should be more than a thousand people participating in the election this time!

One out of a hundred. The competition was stronger than they had imagined... ..

However, some of the smarter ones could hear something different at once. The other party had just said warrior-type, could there be other types?

Before they had the time to wonder, they saw Goudan continue, "Other than the warrior category, we also have a technical category recruitment. The recruitment number is 100 people. The test is divided into three parts. The first part is the basic knowledge assessment. It is mainly the basic test for basic mathematics, physics, and chemistry. It takes up a total of 10 points. The second part is the professional test. The test is based on the profession of the technical soldier. Regardless of whether it is aircraft maintenance, design, mapping, communications, or medical soldiers, we will carry out the professional test. This part will take up a total of 30 points. The last part is the expansion of knowledge. We will come up with some creative questions about some technical discussions that you have not seen before. It will test your ability to accept things temporarily and your ability to innovate. This part will take up a total of 40 points. In the end, just like the Warrior category soldiers, the most outstanding batch will be pulled from the archives to check your usual performance and the character evaluation of your superiors!"

A lot of aristocratic family sons listen at this time a face is stupefied: "Technical... . Technical Class?"

Technical category... . . What the Hell Is This? Even taking math, physics, and chemistry exams? Are we soldiers who rely on those fancy things to judge who is better?

It was not only the scions of aristocratic families who were puzzled by this news. There were also many ordinary military officers who came to participate in the election. Since ancient times, it was a fact that civil and military personnel were inferior to each other. Although the current engineers were not the sour scholars of ancient times, there was still discrimination between them.

Everyone in the army believed in fists. Only those who could fight and drink were good men. Those who designed and built machines were all assistants!

Moreover, as it wasn't easy for the technical officers to change careers, they all wanted to stay in the army for a few more years. Faced with the reduction in benefits due to some policies, most of them had to swallow their pride. This also resulted in the technical officers not having a very high status in the army.

This also led to the fact that the announcement of this result made the military officers who originally thought highly of themselves very unable to understand!

Putting aside the basic logic of why immortal cultivation sects would recruit technical officers, just this difference in treatment alone was hard for them to accept.

This was because in the past in the army, all the policy benefits were biased towards them. Since when did those who engaged in logistics get to eat the lion's share? Was there still justice and Law?

Instantly, many of the commanding officers revealed looks of dissatisfaction. However, their basic military literacy did not cause them to immediately make a scene.

However, their expressions were very obvious, and they were clearly not convinced.

The general in charge of discipline on the stage could not help but ask in a low voice, "Lieutenant General Li, are you sure that the upper echelons of Luofu decided this way?"

This call of lieutenant general Li made Li Goudan straighten his back and face the group of unconvinced faces, she calmly said, "Of course, this Goudan...". Cough cough, the content that this lieutenant general had just announced was all decided by the higher-ups of Luofu. This decision was also based on Luofu's current needs. The current market there was like this. Those who engaged in technology were popular, and those who trained their muscles were not wanted. Right, it was you guys, yet you still dared to glare at me ? Step forward ! !

A burly man with a strong build walked out with military steps and saluted.

"What's Your Name?"

"Reporting to leader, my name is Zhou Kangjie!"

"Why are you glaring at me?"

"I feel that this is unfair, leader!" This burly man spoke out the thoughts of all the combat soldiers!

“You speak as if you guys were fair when you were in power!” Li Goudan rolled his eyes at the other party. “Have you heard that the Wheel of fortune changes? Scram back!”

“Yes, leader!”

“Leader, I have something to say!” Not far away, another military officer saluted.

Li Goudan: “Hold it in!”

The other party: “...”

“That’s the situation. If you’re still not satisfied with my explanation, you can leave now!” Li Goudan said with a crafty tone.

When everyone heard this, their faces obviously turned green, but they did not dare to refute... ..

Looking at the group of people who didn’t dare to speak up, Li Goudan thought to himself, “Is this the feeling of having great power in your hands?”. Ah... It felt great

Of course, the ones who were unhappy were the combat soldiers who had suffered losses. At this moment, all the officers who were born with technology felt proud and looked at Li Goudan with gratitude!

The leader who was standing on the high platform saw this scene and laughed in his heart. He had long wanted to suppress this trend of discriminating against technical soldiers. This was a good opportunity.

Furthermore, the special nature of Luo Fu’s recruitment made it convenient for him to suppress the thoughts of the aristocratic families.

After all, other than the Liu family and the Lei family, who had received some news from God knows where, the other families had no idea what was going on without any information! Furthermore, the big families usually did not encourage their children to follow the technical path of the military, unless it was a girl. This also allowed the commoner children to gain a huge advantage in this election!

“Alright!” The leader walked to the front of the stage and said with a smile, “The situation has been explained. Everyone will line up according to their own conditions to go to different passages for the test...” at this point, he paused for a moment, with a joking tone, he said, “Don’t take the wrong path, especially those young people who have already returned the high school mathematics, physics, and chemistry to their teachers. Don’t even think about impersonating a technical soldier...”

“Cough...” the group of technical officers almost burst out laughing, but they forced themselves to hold it in. As for the rest of the special forces soldiers, their faces were all red..

Although they all felt like they were being teased, there were still spots for them no matter what. Thinking of this, everyone forcefully suppressed their dissatisfaction. Since things had come to this point, no matter how few spots there were, they could only fight with all their might to snatch them!

On the other hand, the technical team did not look too relaxed. As the leader had gotten the news from Goudan in advance, the elites from the technical troops were transferred from the various districts. There were more than 500 of them, are engineering doctorate level and highly respected by the project academicians of outstanding talent.

It was not easy to get into the top 100. The soldiers took a deep breath. This was a rare chance to change their fate. They must not miss it!

Inside the soldiers are all ready, waiting for the news outside the people are anxious, especially those aristocratic children of the parents.

“Don’t look in...” outside the playground, “Your neck is only 20 centimeters in total, and you can’t see it even if it’s 10 times longer. Be careful not to get a cramp...”

Elder lei retracted his neck awkwardly when he heard that and rolled his eyes at elder Tian, “A fellow who isn’t hungry after eating his fill only knows how to make sarcastic remarks!”

“Heh!” Elder Tian laughed, “Elder Liu isn’t a big family yet. Look at how calm he is!”

“Of course he’s calm!” Elder lei glared and said, “We’ve already sent a few people in, and we’re still short of these two spots? What a Lucky Fellow!”

“Heh!” Not far away, elder Liu laughed and said, “What do you mean by Lucky? That’s our grandson’s ability, I’m so envious of You Old Bastard!”

“Heh, it’s just good luck!” Elder lei sneered, “That’s because Luo Fu’s people didn’t meet my grandson first, why don’t you have something to do with your surname, Liu?”

“Hehe...” elder Liu immediately laughed in anger, “Don’t let the wind blow your tongue. Later, when that grandson of yours doesn’t get in, I’ll see what you have to say!”

“Bah!” Elder lei spat at the other party. He couldn’t even be bothered to say anything, but his heart tightened. If he really didn’t get in as elder Liu said, then he would really lose face...

Just as he was thinking, the guard in charge of keeping watch rushed back in a hurry. “Leader, the results are out!”

Everyone immediately stood up when they heard that. Even elder Liu, who had been acting rather leisurely just now, couldn’t hold it in. Even though his family already had a few spots, who would complain about having too many?

“Where is it?” Elder Huang, who was walking at the front, hurriedly asked.

“It’s... on the virtual screen outside the main gate of the sports field, the results rankings have been made public!”

When the group of elders heard this, they didn’t say anything else. All of them hurriedly strode towards the spot that the guard had mentioned, scaring the surrounding juniors into rushing forward to help them up.

“Old Lei, slow down... You’re already more than eighty years old, and you’re still separated from your youth. Be careful of your waist!”

Elder Tian complained from behind.

Elder lei turned a deaf ear to him and rushed to the other side with a face full of anxiety. Just as he walked over, he saw a group of young people standing outside the field with desolate expressions. Elder Lei, who had sharp eyes, immediately found his grandson, he quickly strode over and asked without even taking a breath, "Jiaming, how is it?"

Lei jiaming glanced at his grandfather and was momentarily at a loss for words...

Seeing his grandson in such a state, elder Lei's heart skipped a beat. Could it be that old Liu was right?

"Old Lei, over there!" Elder Tian pointed at the location of the big virtual screen above. Elder lei raised his head and looked in the direction that elder Tian was pointing at. He immediately found his grandson's name.

Name: Lei Jiaming. Age: 19 years old. Height: 1.78 meters. Weight: 65KG. Test score: 1: Basic Test. Round trip, long run, touch height. Test score: C + . Strength, agility, endurance test: C-, overall score: 9 points!

2: individual ability test: under the hands of a real combat robot, the three times of endurance were 3.13 seconds, 4.2 seconds, 3.87 seconds. All within five seconds. Overall score: 5 points!

3: Willpower test with multiple d-scores, overall score 5 points!

4: Strategy Command test not passed, Test and defense 0 points, total score: 19, ranked 498th out of 500 soldiers, eliminated! !

Looking at the words 'eliminated', elder Lei took 2 steps back, shivering, "498?"

Chapter 630 Snatching People (Top) !

In the eyes of most of the elders of the aristocratic families, the method of publicizing the results was still very acceptable. After all, the leader was obviously deliberately suppressing the descendants of the aristocratic families. Under such circumstances, publicizing the results.., at the very least, it could let them know whether their children would be maliciously sifted out.

However, this method also had a drawback. It would make the older generation with very poor results feel very embarrassed, such as the current elder Lei!

"498?" Elder lei muttered in disbelief, "Jia Ming, is he being maliciously targeted in there?"

Lei Jia Ming opened his mouth when he heard that, but after thinking for a while, he did not dare to speak nonsense in front of so many people. He could only lower his head silently

Elder lei saw this and was anxious. He was about to ask elder Liu who was beside him and sighed, "Old leader, don't ask anymore. It's Not Your Jia Ming's fault. The exam questions are not suitable for him!"

Elder Lei was stunned when he heard that. He raised his head and looked at the items carefully before he reacted.

Whether it was physical fitness, endurance, or individual combat strength, these items were clearly designed for military personnel. Although Jia Ming's talent in internal martial arts was very high, he was

still young after all, how could he be better than those king-level soldiers who trained in hell every day in terms of physical fitness?

Especially that military command test, his grandson was an amateur!

Only then did he realize that he had chosen the wrong person! !

Elder Lei suddenly felt bored, and elder Tian couldn't help but laugh out loud.

The depressed elder lei immediately glared at him. "What are you laughing at?"

"Nothing..." elder Tian held back his laughter and said, "I just want to know which is better than your grandson, 499 or 500... hahahaha!"

After saying that, he suddenly burst into laughter, which made elder Lei so angry that his beard almost went askew!

"Elder Tian, don't make sarcastic remarks at this time!" A square-faced man in his fifties walked over to support elder Lei and said with a bitter smile.

Elder lei glanced at the other party. It was his eldest son, Lei Junfeng. Looking at his son's simple and honest face, elder lei immediately felt a trace of apology in his heart, if he had let elder Lei's son, Lei Hao, come, the situation might have been completely different!

At this moment, he could clearly feel the resentful gazes of Lei Hao and Lei Ming.

"Dad, don't be upset. No one would have thought that this test would have such a standard, right? If it was based on qualifications and martial arts quality, Jiaming would definitely be able to get a spot for our lei family..."

Lei jiaming saw that his uncle was speaking up for him, and his face was filled with gratitude, but in his heart, he was sneering, "Hypocrite, you're probably gloating in your heart right now, aren't you?"

Elder Tian, on the other hand, did not give him any face as he continued to add insult to injury, "Come on, the documents clearly said that we're selecting excellent soldiers. I really don't know if you're blind or what, but the other families might not be like you? Look at Old Liu. Did he let that outwardly strong but inwardly weak Liu Wenhao come and waste the quota?"

Elder Lei's face immediately darkened when these words came out. Even elder Liu could not help but laugh in anger. "You Dirty Mouth!"

However, elder Liu did not refute too much. During this period of time, he could also be considered to have seen through that child, second brother. Although old Tian's words were a little harsh, it was also considered the truth. That child, Wenhao, was indeed a thing of gold and jade on the outside but rotten on the inside!

And the person with the ugliest expression was lei jiaming. Elder Tian's scolding was so obvious that he could naturally hear it. However, the other party was an elder of the same generation as his grandfather, and his results today were especially embarrassing, even if he was angry in his heart, he could not say anything.

“Alright, you old fellow, stop glaring at me...”. Elder Tian looked at elder Lei’s cannibalistic expression and said indifferently, “Speaking of which, you still have to thank this old man. If it wasn’t for me recommending snowy, your lei family might not even be able to get a bite of the soup this time ! ! !”

Elder Lei was stunned when he heard that, and his mood slightly eased up.

The other party was right. Although choosing Jia Ming was a wrong move, at least snowy did not waste the spots. With 500 competitors and 100 spots, the probability of this was obviously much higher than the other batch.

If it wasn’t for elder Tian’s persuasion, the Lei family might not even be able to get a bite of the soup. After all, the 500 combatants were competing for 10 spots, and the contestants were all top-notch weapon kings. Even if he let Lei Hao and Lei Ming go.., it would probably be difficult.

Thinking of this, he immediately comforted himself.

Jia Ming couldn’t help but sneer when he saw this, “Look at what old Tian said. It’s as if fourth cousin will definitely get the spot!”

When he said this, everyone in the Lei family stared at him, including his grandfather, who usually doted on him.

Jia Ming was stunned. He immediately knew that he had said the wrong thing. At this time, Lei Xue was the last hope of the Lei family. Even if he usually didn’t get along with Lei Xue, he couldn’t destroy his family’s prestige at this time!

Jia Ming immediately shrunk his head and said aggrievedly, “I . . . I wanted to say don’t be too optimistic. After all, I heard that the technical soldiers participating this time are also carefully selected top talents...”

Elder Lei’s face was gloomy, elder Tian, who had yet to speak, sneered and said, “Do you think that this old man’s judgment of people is as blind as your grandfather’s? “This old man is going to fight with a yellow-haired boy like you today. If My Little Xue doesn’t get a spot, I will eat the door of the field today!”

Everyone:” ...”

Elder Liu: “Old Tian, why are you playing so Big?”

Elder li: “I say, Old Tian, you’re really going back to your old self. Why are you arguing with a child?”

Elder lei: “Who’s blind? You Old Thing, you’re really itching to get your hands dirty today, aren’t you?”

Lei Jiaming, who was at the side, didn’t dare to reply. If he said at this moment, “This is what you said, elder Tian...”.

He was afraid that the old man would turn around and slap him to death...

“I’m just saying that you’re blind, so what?”Elder Tian rolled his eyes at elder lei. “You don’t know what’s good for you. If you didn’t delay your granddaughter, she might have finished her Oxford degree!”

“Cheh, what’s so good about a foreign school?” Elder Lei said stubbornly.

“Alright, stop quarreling, you two!” Elder Liu sighed. “Isn’t it good to wait for the results? By the way, why is the results on the other side so slow?”

He just took a look, his eldest grandson ranked in the 100th, although not as embarrassing as old lei’s family, but it is obviously hopeless, so now very concerned about the other side of the results.

“Yes... . Why haven’t You Come Out Yet?” Tian Lao also some anxious way, in the heart thought: Little Snow Ah Little Snow, you must give it your all, Your Grandpa Tian’s awesome blow out, later if be forced to eat the door plank that is ugly!

And on the other side, Li Goudan directly did not pay attention to the warrior class on the other side of the results, skipping to rain woman no melon responsible for the technical assessment here.

Looking at the rain from afar to sort out the documents, Li Goudan excitedly ran over: “Big Brother, how is the situation?”

“Not bad...” rain girl no melon nodded: “Military School born foundation is very solid, the first and second exam got a lot of full marks, but the third...”

She shook her head and said, “Although the people in this unit have a solid foundation, they are too conservative. Their creativity and ability to accept new concepts are average. Most of them didn’t even get a passing mark.”

“Most?” Dog Egg’s eyes lit up when he heard that. “That means there are still some good ones?”

“Well... There are a few good seedlings...” rainy girl stammered.

“Let me see the results!” Li Goudan jumped over rainy girl and turned on the virtual screen behind her. Due to his fast movements, rainy girl didn’t have time to stop him. She could only watch her turn on the screen.

“Eh, there are still some good ones. The boss is really strict...”. Li Goudan smiled and rubbed his hands. “This is called Lei Xue’s score is quite high. Let Me See. Hey, marine ship design ? Holy Sh * t ! This is really a gift of a pillow. She’s the one!”

“Cough!” Rainmaiden Wugua’s face immediately turned stern. “You only want a ship repairman. What’s the point of picking such a good seedling? Can’t you just find someone with a good foundation?”

“Who said I only want a ship repairman?” Li Goudan hurriedly said, “I’m hiring people to temporarily repair the ship. In the future, she will also be in charge of ship design!”

“No!” Rain Woman Wu Gua directly and coldly refused, “She has to enter the Main Base Scientific Research Institute!”
