

## A Bunch 771

### Chapter 771 Treaty (middle)

The meeting hall was so quiet that one could hear each other's breathing... ..

Invite the players to the meeting? is the leader joking?

At this time, everyone knew that these new players would be the representatives of the new rich, the biggest backbone force that would attack these traditional forces. They were certainly prepared to deal with them, however, was it not too good to let them participate in such a large-scale political decision-making at this time?

Looking at everyone's eyes that were about to pop out of their sockets, the leader smiled slightly. He could finally let these old fellows understand his complicated feelings.

"Sir... Sir Leader..." elder Lin could not help but stutter, "Is... isn't this not too appropriate?"

"Inappropriate?" The leader glanced at him and said, "Elder Lin thinks that these players are inappropriate? Do you think that they are not qualified to participate in this meeting?"

Elder Lin choked and quickly said, "I... I don't mean that... I still maintain my previous view. Ordinary people are not suitable to be involved in this kind of matter..."

"Ordinary people?" The leader glanced at him, he laughed and said, "It seems that elder Lin is still not very clear about the situation. Those lord-tier players each have their own base areas and tens of thousands of people on the new planet. Some players can even rely on their own forces to build super warships. Elder Lin actually thinks that they are ordinary people?"

Everyone looked at each other, not knowing what to say for a moment. A strange feeling welled up in their hearts. In the blink of an eye, those commoners who were just like screws had already reached such a stage?

Seeing everyone's expressions, the leader could not help but sigh, he said faintly, "Before the players arrive here, I hope that everyone can gather their emotions and face them properly. Don't judge them by the standards of an ordinary person. Be it luck or anything else, they are no longer ordinary people. This is an indisputable fact. Please understand this fact!"

Everyone was silent when they heard this. Although they were a little unwilling to accept it, who was the one who didn't know how to adapt to the situation?

While the atmosphere was gloomy, elder Li received a phone call. "Are they here? Okay, I got it..."

After hanging up the phone, elder Li looked at the leader. The leader nodded and said, "Invite them in..."

Then, he looked at the conference hall's entrance with a complicated expression... ..

It was elder Feng's suggestion to invite the players to participate in this secret agreement. According to him, this was the safest way, because once the candidate was elected as the city lord, it would almost be considered as completely leaving the D Ball's side.., even if they were to boycott him, it would be

difficult for it to affect him too much. However, the players who were already powerful and influential in the galaxy were different. As the new nobles of the Otherworld, they all had a lot of influence among the players, they had a real deterrent effect on the city lord.

As the gate opened, a group of players of various sizes swarmed in. According to Elder Fang's suggestion, all the players had brought their genetic bodies to the meeting. Each of them was either a tall and mighty Green Titan or an incomparably handsome elf, this caused everyone in the meeting hall to look surprised.

Although they knew from the intelligence reports that these players had changed their bloodlines, hearing about it and actually seeing it were two different things. They couldn't help but feel a little excited and curious, and the way they looked at the players became a little more cautious.

Elder Feng, who was at the back, smiled when he saw this. This was also why he was willing to suggest that the players bring their genetic bodies. Most people were close to touching animals, and there were many things that they did not see with their own eyes. Just like watching the news... Hundreds of thousands of people died in the war, but it was still not as shocking as seeing a person being hit by a car in front of you...

"Welcome, welcome..." the leader personally went over to welcome everyone with a smile. Then, he said to elder Feng, "Elder Feng, can you introduce us?"

"Ahem...". Elder Feng coughed lightly and began to introduce them one by one. "This is Lu Xiaoke. She was originally from Suzhou and Hangzhou. She entered the galaxy three years ago and founded the little cabbage tribe two years ago. She has two bases and over 400,000 people in the new territories. Her forces control a number of cutting-edge technologies, including excellent materials purification technology, high-level agricultural technology, and biotechnology. She is currently the largest export force of materials and food in the New Territories."

400,000 people? The largest grain export force. This capital immediately made the eyes of many politicians light up, and they quickly revealed friendly smiles. Words of praise such as "I've heard so much about you, a young hero, worthy of being the son and daughter of Huazhong" were immediately spouted out...

"Aiya, it's nothing, it's just good luck..." Xiao Bai Cai said modestly, but the smile on his face was like a flower, causing the players behind him to cover their faces... ..

Could This guy hold on a little longer?

"This is Pu Yunchuan, a citizen of City C. he also entered the Starry Sea World three years ago. Two years ago, he founded the Gondolin faction. He is one of the few players who now has a ready-made city base in the new territories. He has nearly 400,000 people under his command. The faction specializes in biological genetic technology. Now, he can already strengthen the natives of the new territories through biological technology...". "... .."

Genetic technology?

Everyone's eyes lit up once again. The intelligence had stated that genetic technology represented body strengthening technology and was the key to extending one's lifespan. If old people like them became

players, their lifespans would only be extended by a little over a hundred years. However, if they had good genetic technology, they would definitely be able to reach a higher level...

As this concerned longevity, everyone became even more enthusiastic and greeted them enthusiastically!

“Wang xiaoluo, a native of Bandel city. He entered the galaxy world two years ago and founded the Ice Crown Force a year ago. He established a base in an east coast port called the Steel Arms Empire in the New Territories. He owns a beautiful seaside city with a population of 100,000. The force specializes in marine machinery technology. Now, he can build large-scale military warships on his own. He is the only player among all the players who can develop marine resources!”

Aiyo, young and promising, with strategic vision. Not Bad, not bad!

The group of elders immediately praised him again.

Compared to Pu Yunchuan and Bai Cai, who were warm and smiling to everyone, Wang Xiaoluo was obviously much colder. He only nodded slightly and greeted them. However, when he introduced elder lei, Wang Xiaoluo’s attitude was obviously much better, with enthusiasm, he said, “Hello, elder Lei!”

Elder Lei was a little surprised when he saw this. After all, this child obviously didn’t like this group of old men. Why was she so special to him alone?

Seeing this, Wang Xiaoluo quickly smiled and said, “After Lei Xue entered the galaxy, she was assigned to my place...”

“Oh, oh...” elder Lei’s eyes lit up and he quickly said, “That girl didn’t give you any trouble, did she?”

“No...”. Wang xiaoluo smiled and said, “Lei Xue is a very excellent developer. In the future, she will be responsible for the technology in the field of ship machinery. We are very grateful to have such an excellent researcher join us. Oh, I heard from Lei Xue that her elder sister, Lei Xinyu, is a very excellent medical expert ? It just so happens that we need to build a complete medical system over there. Could you please ask the old man if she’s willing to consider joining us?”

Hearing this, elder Lei was instantly delighted. He had received more information about Snow Thunder than these fellows in the meeting room. He knew what kind of existence these lord-tier players were now. With the special privileges that Luofu had given the players., it would not be an exaggeration to say that these lord ranked players were vassals of a region. The matter of the city lord was too vague. The chances of his lei family being the one to deal with the city Lord were very low. On the contrary, only by having a good relationship with these New World Lords would they have a chance to gain a firm foothold in the new era.

This realization had already been on elder Lei’s mind ever since he had received Snow Thunder’s information the day before yesterday. He had originally planned to use his granddaughter, Snow Thunder, to get closer to the Lords of his faction, however, he didn’t expect that the other party would actually take the initiative to ask for her. This made elder Lei smile so much that he couldn’t close his mouth.

However, he said humbly, “Don’t listen to the Snow Girl’s nonsense. What expert? “That girl is just a little talented and can’t reach the level of an expert. If you feel that it’s necessary, this old man will go back and explain it to the Xin girl. However, if the Xin Girl isn’t up to your job, you can’t blame us...” . “...”

“Haha, Elder Lei must be joking. Lei Xue’s aptitude is very good. She’s one of the best among the developers. Since she admires her elder sister so much, it’s obvious that she’s not bad either. I’ll have to trouble you, elder lei. If you have any news, please contact me immediately. This is my mobile number...” . “...”

This exchange between the old and young startled many of the elders who wanted to get along well with these lord-tier players. When they saw elder Lei’s smiling face, their hearts sank. They thought to themselves, a technical soldier-born girl is actually so popular. It seems like the world has really changed...

On the other side, when the leader saw that everyone had mostly introduced themselves, he coughed lightly and said, “Alright, elder Li, since we’ve already met, let’s assign our seats. It’s getting late...”

Elder li: “Alright...”

#### Chapter 772 Treaty (Part Two)

The conference room once again became serious. Many old men looked at the copied alliance agreement in front of them with Bright Eyes. According to the agreement, no matter who the candidate was, the officials would do their best to assist the candidate to ascend the throne, this included the players’efforts to win over the city, the news, and the use of resources in the upper echelons of luofu. The 31 lords present would also use their influence to call on the players to help vote.

However, the condition was: after taking over, the city Lord must prioritize the welfare of the players in central China, and he must not abuse his relatives and faction to create a political monopoly. 80% of the city management positions must be chosen by the citizens through a fair assessment... ..

If they went against any of the above, this agreement and the recording of the meeting venue would be made public, and the 31 lords and central China officials would boycott each other!

When the elders saw this agreement, their expressions instantly changed, and they couldn’t help but sigh in their hearts at the high reputation of the leader’s methods. Under such a temporary situation, he was still able to come up with such a plan to suppress them so quickly...

With the agreement in front of them, everyone didn’t hesitate for long. They quickly resigned themselves to their fate and signed the agreement. After all, there was nothing they could do. Although it was a very troublesome matter to have such a big piece of evidence, the advantages outweighed the disadvantages, compared to having a higher chance of becoming the city lord of that city, the price was clearly within the acceptable range.

Moreover, the leader clearly knew that it was impossible for them to not be biased in the future. The contract stated that they were not allowed to abuse their relatives and factions, but it did not say that they were not allowed to use it. It even gave them 80% of the amount, in other words, it also gave them 20% of the privilege.

Clearly, this condition was already a huge concession for the current powerful leader...

After the contract was signed, the leader did not stay any longer. He told the elders to go back and wait for news. This was because he knew that before the invitation was announced, there was no point in discussing it with these elders. There was not much he could do now. After setting up the rules, he waited for the result...

However, after the meeting ended, these elders were tempted. They all wanted to invite these Lord ranked players to visit them.

Through the information released during the meeting, they quickly understood the importance of these lord ranked players. That New World was a new continent. All players had similar initial conditions, it was equivalent to reopening a competition platform filled with opportunities. This was naturally a good thing for those who were always at the bottom. However, it was more difficult to say for their clans. After all, in this new platform.., their clan's resources, connections, and real power in Ball D did not seem to be of much use there. There was only one city lord slot.., comparatively speaking, the benefits of being able to build a good relationship with these lord tier players who already had a certain advantage were obviously greater.

They had heard that in the New Territories, the Lord Tier players all had ten cooperation slots. They could share shares. Compared to starting from Level 1 and slowly building their own empire.., joining these Lord players who already had a certain scale obviously had a better starting point!

Most of the elders even had a preliminary plan for the situation in the New World of Luofu. First of all, their own children would definitely be sent into the game as soon as possible, and they would also be encouraged to start their own businesses, after all, the privilege of being a lord was too great. Once the scale was formed, it would be no different from a local emperor. How could they, the descendants of their families, miss such a good thing?

Of course, the game would soon be released to the public. There would probably be hundreds of millions of players swarming in, and the competition would definitely become more and more intense. The competition would start from scratch, and without the help of their families.., even saying that their descendants would be able to stand out was a little risky. Although their descendants were outstanding enough, there was never a shortage of outstanding people in the world. Who could say for sure about things like opportunities? Therefore, it was more risky to walk the path of a Lord who started his own business.

On the other hand, these lord players before them were people who had already established themselves on a foreign planet. Each of them had technology that surpassed the world. Even if the game channel was completely open by then.., these people were also in the lead. If they formed a cooperative relationship with them, their footsteps would obviously be much faster than the ordinary players behind them.

Hence, they planned to split their children into two groups. One group would walk the Lord's path, start their own businesses, and colonize their own territory, establishing a foundation for their clan's headquarters, the other group would try their best to join these already leading player forces. Once they obtained their cooperative quotas, they would follow the other party's express train and take off first. This way, if their own son who walked the lord's path could not make it out.., it would not cause the clan

to decline. Moreover, those disciples who joined the lord-like player forces could also obtain some resources for their clan's lord-like disciples at an appropriate time, right?

It was simply the best of both worlds!

After having this thought, many clan elders became more and more enthusiastic towards this group of lord-like players, and one after another, they invited them to the residence for a gathering.

Unfortunately, although their plans were good, many players did not sell their accounts and declined one after another.

The old men had planned it well. Not all players who could become lords were stupid. Naturally, they knew what they were planning. Of course, they did not want to talk too much. What a joke. There were only ten slots for the cooperation, they definitely had to choose the players who would be more helpful to the right forces. What they lacked were flower spirits and research developers. These second-generation players were good at manipulating power. It was a pity that they did not lack such people, bai Cai and Pu Yunchuan's list of factions had fully told them that there were administrative talents in the D sphere and the new world. Why would they waste their spots on this?

Therefore, among the numerous invitations, only elder lei, elder Li, and a few others had invited the players back to their residences. Elder lei, in particular, not only invited Wang Xiaoluo, but he had also reserved a spot in advance, causing him to be beaming with joy along the way, walk up to have a kind of feeling of riding the wind, see a group of old men secretly gnash their teeth!

— — — —

On the other hand, the leader of the heart is much better, because the hands of a large number of technological talent, so many players took the initiative to come up.

At first, the chief was very curious about this phenomenon. After Feng explained it for a while, he gradually understood, stunned, he said, "I understand. You're saying that although the technology given by the upper echelons of Luofu is ready-made, to the players, it requires a large number of researchers to digest this result and apply it to their influence. That's why there's a huge shortage of researchers, right?"

"Yes...". Elder feng smiled and said, "There are mainly three genes in Luofu for players to choose from. Among them, the developer Gene is focused on developing the efficiency of the brain. Players with this gene have a computing power several times that of ordinary people and are the best candidates for researchers. However, because there are very few people to choose from, there's a huge shortage of talents in this field!"

"So that's how it is!"The leader immediately reacted and muttered, "No wonder they were so eager for the technical soldiers in the last cooperation slot, but they were so indifferent to the special forces. So that's how the market is..."

This was a good thing. Most of the families were more obsessed with administrative power, and there were few who cultivated their children to walk the path of scientific research. Who would have thought that scientific researchers were in demand now? If those old fellows knew about this situation, their faces would definitely be very interesting, right?

Thinking of this, the leader couldn't help but feel a little happy. He thought to himself, this is good too. At least I don't have to worry about the leader players being infiltrated by the big families and messing up the atmosphere. HMM... .. I'll go back and take a good look. If it's a technical soldier, I have quite a number of children with a relatively clean background under me. When the time comes, I can arrange a wave of them. ...

Suddenly, he came to a realization. If you didn't mention it, his political desire to break the family's monopoly over the years seemed to be... .. seemed to be realized through the emergence of this new platform. ...

#### Chapter 773 Lei family matters

In the courtyard of the Lei family, all the children were eagerly waiting for the return of their old master. Although the information that the old master had obtained from Lei Xue had not been fully shared with them, he had managed to gather some information, they could guess why the old master had gone to the Assembly Hall this time, and all of them immediately became very excited, especially the old men who were civil servants in the Lei family.

The younger generation didn't know much, so the uncles didn't dare to tell them about such a big event. They were afraid that these young people wouldn't be able to hide it. However, they also roughly knew that the old man had gone this time because of Luo Fu, all of them were very excited. What if there were more spots?

Lei Xue, on the other hand, was very calm. The news had come back, and elder Fang had come back personally. Her mission this time had been completed. According to the situation, Luo Fu's side planned to open the new world, this way, she would no longer have to spy like a spy in the future.

Perhaps... .. After this time, this skill would be completely integrated into that place. She would become a pure adventurer with Li Jiayi, a pure captain and chief engineer... ..

I wonder how dog egg is doing now. Has He arrived at the Western Archipelago? Which country has he arrived in? What kind of people are there? What's the difference between the style of eating and the style of architecture? Have you encountered any particularly interesting customs and Folkways?

Thinking of this, Lei Xue was in a daze. However, she didn't notice that the knife in her hand that was peeling an apple had cut her hand. Seeing this, Lei Xue's mother hurriedly dodged the knife, she glared at Lei Xue. "You Lass, why are you in a daze even after peeling an Apple? Have you gone out for a while?"

"Hehe..." Lei Xue smiled embarrassedly. Her mother hurriedly walked into the hall to get a sticker for her daughter.

Lei jiaming saw this scene and couldn't help but let out a cold smile. "Yo, cousin, aren't you from the immortal cultivation sect? Why did you let such a small knife cut off your hand?"

Hearing this, Lei Xue Glanced indifferently at her genius cousin. Her eyes were filled with vigor because of her high spiritual power. Lei jiaming almost didn't dare to look directly at her, but in the end, he still braced himself and glared back at her.

Seeing her cousin glare back at her, Lei Xue's pupils shrank subconsciously. The spiritual power in her body was released reflexively. Lei Jiaming immediately grunted and fell to the ground with his chair as if he had been punched, Jia Ming's mother, who was beside him, quickly helped her son up. She immediately noticed Lei Jiaming's nose bleeding violently and screamed in fear, "What happened to you, Jia Ming?"

Lei Jia Ming covered his nose and was stunned for a moment. Then, he suddenly looked at Lei Xue and pointed at her, "You... What did you do?"

Lei Jia Ming's mother immediately reacted when she heard her son's words. She immediately jumped up like a cat that had its hair blown up and pointed at Lei Xue, "You wretched girl, what did you do to My Jia Ming? Ah?"

The surrounding people immediately looked at Lei Xue inexplicably. Lei Xue immediately felt a little embarrassed. This time, it was really her fault, so she whispered, "I'm sorry, I just mastered my ability not long ago. I didn't... control it..."

Recently, she had discovered that her spiritual power could be released, but it was somewhat difficult to control. She did not expect that her conditioned reflex would have such an effect.

Lei Jiaming was stunned, and his heart suddenly trembled. It was really the other party's doing!

He originally thought that it might have been an accident. After all, the other party did not make a move and only glared at him. He had only gone to Luofu for a few days? Had he already reached such a stage?

No... .. He could not go on like this. He had to go to Luofu... ..

"It's really you?" Lei Jiaming's mother immediately looked at the other party with a livid expression, as if she wanted to tear the other party apart.

Lei Xue immediately lowered her head and did not dare to look at her mother's expression. If she glared at another elder, she was afraid that she would be in big trouble today...

"What's wrong? What's Wrong?"

At this moment, Lei Xue's mother, who had just returned from the hall with a band-aid, saw that everyone was looking at her daughter. Her fourth sister still looked like she was going to eat her up. She immediately ran over and asked.

"Second sister-in-law, look at what your daughter has done." Lei Jiaming's mother said aggressively, "After learning some skills, she actually knows how to bully her own brother. What's wrong? Back then, Jiaming's quota was given to the Xue Girl. Is this how she repaid her brother?"

Given to the Xue Girl?

Lei Xue's mother's face twitched. This fourth sister-in-law of hers really had the nerve to say it. Back then, the quota was won by elder Tian for the Xue Girl with a thick face. In the end, she was able to successfully go to Luofu because of her own daughter's hard work, what does it have to do with Your Jia Ming? You talk as if Little Xue had snatched your son's spot. Didn't you look at your son's embarrassing results back then? Even if there was no Xue Girl's spot, it had nothing to do with your son!

However, under the current situation, Lei Jia indeed looked like she had been bullied. It wasn't appropriate for her to side with her daughter in public. Thus, she frowned at lei xue and said, "Little Xue, what happened?"

"Uh... I was careless for a moment..."Lei Xue replied honestly.

"Ah, what was careless? You did it on purpose! !"

Hearing this, Lei Xue frowned. This fourth mother wasn't going to let it go, right? Like a mad dog, her expression immediately turned cold. "Then what does fourth mother want? To eat me?"

"You! !"Lei Jia Ming and his mother immediately choked.

"Little Xue... Why are you talking to the Elders?"Lei Xue's mother shouted indifferently.

Fourth Mother's expression became even uglier when she saw the situation. She said angrily, "Good, good, good. It's incredible. Now that Little Xue has gained power, she doesn't even put us elders in her eyes!"

"Alright..."at the side, lei family's eldest brother interrupted the fourth daughter-in-law's words and said indifferently, "How Old Are You? Why are you fussing with the child?"Then, he looked at Lei Xue. "Little girl, be careful next time. Don't Hurt Your Brothers and sisters again..."

Hearing this, Lei Xue hurriedly replied respectfully, "Okay, uncle. I will be careful next time..."

"This..."Lei Jiaming's mother was instantly angry. Just as she was about to say something else, the fourth brother of the Lei family stopped her and shook his head at her.

Seeing this scene, Lei Xue's mother was happy in her heart. She had long disliked the fourth brother's family. Relying on her son's slight talent, he had been flaunting his power all these years. Now, she still thought that it was back then?

"Grandpa is back!"

Suddenly, a chubby little boy stumbled into the courtyard and shouted. It was Lei Xue's younger brother. Hearing this, everyone's eyes lit up and they hurriedly walked towards the hall. Only Lei Xue was the first to hug her younger brother, she knocked his head. "Slow down, be careful not to fall!"As she spoke, she used a handkerchief to wipe the sweat on his head.

"Sis..."the little boy hurriedly said, "Don't wipe anymore, hurry up and go. Grandfather brought back a beautiful sister this time, just like the sister who snatched you away from Your Examination Hall and could fly!"

"Oh?"When Lei Xue heard that, she raised her eyebrows. The elders who were preparing to head to the hall heard that and their hearts skipped a beat. Could it be that Luo Fu's people were invited by the old man?

Instantly, all of them became excited and moved even faster. Even the fourth mother didn't have time to wipe off the blood from her son's nose before she brought her son and husband to the hall.

-----

“Father, you’re finally back?”The eldest son of the Lei family, who was walking at the front, quickly walked over to support the old man.

“What support? This old man can’t walk on his own?”Elder lei rolled his eyes at his eldest son and said.

The boss laughed helplessly. Before he could reply, the fourth behind him said, “Father, who is this guest?”

Actually, everyone’s attention was attracted by Lei Xiaonuo as soon as they entered the hall. However, Lei Xiaonuo was a sea monster. The small horns on his head were more eye-catching, causing everyone to be a little surprised.

“Oh, this is Lei Xue’s superior at Luofu’s side. This time, apart from bringing Little Xue back, he is also planning to bring another person with him...”elder Lei laughed as he shared this good news.

When the many Lei family disciples heard this, their hearts jumped and they all pushed their own disciples forward. Fourth Brother even directly grabbed his son who had yet to wipe off his nosebleed and placed him in a conspicuous position!

Elder lei looked around and immediately frowned. He said to his eldest son beside him, “Eldest brother, where are Xiao Xue and Xin Yu?”

Everyone:” ...”

Chapter 774 “Why do you think so?”?

The old man’s words caused the atmosphere in the hall to become a little strange. Everyone stared blankly at Old Lei. Why did the old man suddenly emphasize Lei Xue and Lei Xinyu?

It was easy to understand the former. After all, the guest this time was Lei Xue’s superior. It was only right for her to come out and greet the guests, but why did he emphasize Lei Xinyu?

Could it be...

The group’s hearts skipped a beat. As Lei Xinyu’s father, the Lei family’s boss had a hint of excitement in his eyes, while the others’eyes were filled with fear...

“Hey, why is the Lord Here?”Just as the group was hesitating, Lei Xue’s gentle voice sounded in the living room.

Upon hearing Lei Xue’s voice, Wang Xiaonuo immediately revealed a smile. “Don’t call me that. It sounds weird in real life. Just Call Me Xiaonuo...”

Wang Xiaonuo looked at Lei Xue, who was safe and sound, and immediately heaved a sigh of relief. Although he had heard from the leader that the Goudan was fine, he could not help but feel a little worried. This was related to their first pot of gold.

Moreover, not to mention the ship that had cost them a huge amount of manpower and resources, she could not afford to lose just the people on the ship. Not to mention Li Goudan, almost all the martial

arts players ranked like this guy were now taken, if they wanted to find another one, they could only choose from the players who were not even in the top 100.

Then there was Lei Xue. Recently, it was getting harder and harder to find outstanding developers...

Didn't there break out a huge developer recruitment a while ago. It was to use the market to recruit as many high-quality science students and graduate students as possible into the game to become developers, thus filling up the gap in the market...

However, after half a year, many players would discover that this method was actually not reliable. The reason was that the adaptation rate of this bloodline was too low, even for key science and engineering graduates, many of them could not become excellent researchers. It was not that they could not enter the industry at all. It was just that the efficiency was much slower than that of a developer who was born as an Orthodox researcher!

Just from the point of accepting new knowledge, players who had the same bloodline of a developer, like Lei Xue, could digest the basic knowledge of a level 2 civilization in less than half a month, and now, the worst developer player in the base had not completely digested the basic knowledge even after half a year. This had greatly delayed the progress of the scientific research that many factions had originally expected!

The key was that they could not change players yet! This was because in the beginning, they had used the Lord's cooperation quota to exchange for them. The more ruthless players had even used the quota to recruit seven or eight developers in the university. In the end, they had not even used a single one of them. Instantly, their intestines turned green with regret... ..

Hence, the game's developers were now in a stalemate. Most of the high-level developers could not afford to hire them. They were unwilling to part with them. Wang Xiaonuo originally thought that they could use the information gap to recruit new developers with good quality and low prices, but she found that these new developers actually had a risk that they could not use... ..

Wang Xiaonuo was extremely glad that Li Goudan had snatched a thunder snow for her. A few months ago, when she saw those lords who were everywhere recruiting students use 1% or even 1% of their shares to trick a developer, she was very envious, she thought that she had been too rash back then and should have waited a little longer. However, she did not expect that things would be like this a few months later. She had to admit that the world was truly unpredictable. Usually, when she saw those remorseful lord players., she was somewhat gloating over their misfortune.

I told you guys to start acting? Posting posts every day showing off 1% of your shares to recruit a developer. Now, you can't Laugh Anymore, right?

Thinking of this, Wang Xiaonuo's smile became more and more amiable...

Lei Xue looked at the old mother-like smile on the other party's face and suddenly felt a little strange. She thought to herself, 'what's wrong with Lord Chief??' 'why is his smile exactly the same as when my mother tricked me into attending cram school when I was young?'

"Ahem... Then, I'll call you boss just like them. Boss, uh... are you here to bring me back this time?"

Wang Xiaonuo: "Uh... Haha, there's no Rush. It's rare for you to come back, so stay a few more days... one or two days... HMM... half an hour is nothing..."

Lei Xue: "..."

Seeing Lei Xue's speechless expression, Wang Xiaonuo felt a little embarrassed. However, the competition in the base was very strong now, and all the forces were engaged in technological competition, under such circumstances, she felt uneasy when she saw that the developers that she had hired at a high price were still idling around. She finally understood the feelings of those black-hearted capitalists. The kind of feeling where they spent money and wished that the time they spent on the other party was spent on work... ..

"Ahem... by the way, didn't you say earlier that you wanted to recommend someone to me?" Wang Xiaonuo coughed awkwardly and changed the topic.

As soon as these words were said, the hearts of all the members of the Wang family jumped to their throats...

"Oh..." Lei Xue nodded and looked around. Then, she looked at the boss of the Lei family with puzzlement, "Uncle, where's eldest cousin?"

F \* ck! !

The faces of all the members of the Lei family instantly darkened. The boss of the Lei family was stunned for a moment and said with some excitement, "Oh, OH, she should still be in the hospital. I'll call her right away to ask..." as he said that, he quickly took out his phone. ...

Wang Xiaonuo's eyes revealed a hint of anticipation when she saw this. There were only two spots left in her faction, and each of them had to be used on the blade, this time, using one spot as a signboard for a medical expert had gone through many meetings and discussions.

Nowadays, with the players' levels getting higher and higher, the exploration of the Black Goat map became more and more frequent. The probability of players being injured also became higher and higher. Moreover, because it was an exploration, it was basically an external injury, however, as the rate of serious injuries increased, it was increasingly difficult to meet the market demand with medicine alone.

The demand rate for surgeons began to increase. However, due to the complexity of surgery, it was difficult for the general population to be competent, resulting in a desperate shortage of talents in this field in the market.

Moreover, after analysis, their forces had a great advantage in developing the surgery market. This was because the dog egg had successfully arrived in the western islands. It was only a matter of time before they obtained a large number of high-level mages, with these mages, they could not only supplement the basic talents in scientific research, but they could also train a large number of surgeons.

The Naga civilization of the Sea Emperor's forces was actually also a part-time student in the field of biology. However, due to the large amount of energy they had put into ship machinery and marine breeding, they had lost a lot of their market, for example, the gene market, the biomedical market, and so on. The current surgical market could not be lost again.

However, since they wanted to develop the surgical market, they naturally needed a developer to specialize in this field. The few people in the base were not good at this, so they decided through a meeting, they wanted to recruit a developer who was proficient in this field.

However, their shares were not much. It was impossible for them to fight for the high-level developers that already existed in the base. However, there was a certain risk in recruiting outside. What if they wasted the quota and could not be used?

Fortunately, she remembered Lei Xue's recommendation. With Lei Xue's talent, her recommendation sounded much more reliable than recruiting outside the base. They were both born from the same family. Presumably, they were all born from the same family. It shouldn't be too different... .. Right?

"Hello? This is Lei Mingjun. May I ask if Colonel Lei Xinyu is here? En... What? Elder Lin? En... I got it..."

The Lei family's boss hung up the phone with a solemn expression, "Elder Lin suddenly had a stroke. That Girl Xinyu has been chosen to be the chief surgeon!"

"Nonsense!" Elder lei could not help but stomp his feet when he heard that, "Elder Lin is already so old. That girl dares to accept such a surgery. Has She Gone Mad? Did she go and eat SH \* t with so many experts? Let a little girl do it?"

Especially at this time, when he saw that Xue was about to recommend his other granddaughter to Luofu Li and that she was following a lord-tier player with a bright future, not to mention elder Lin, he did not want his little girl to be delayed at this time. Even if the leader had a brain block, he did not want his little girl to be delayed at this time.

"Xiehe?" Wang xiaoluo curiously tugged at the corner of Lei Xue's shirt and whispered, "Is your sister male?"

PFFT! !

Lei Xue almost choked to death when she heard that. She stared blankly at the other party. "Why would you think that?"

Chapter 775 I beg senior to help me! !

Male Department? Why Male Department? Did My Uncle Say Anything about male department just now? Wasn't he talking about cerebral infarction surgery? Hello?

"Uh..." Wang Xiaoluo stuck out her tongue in embarrassment. "I'm sorry, I didn't listen carefully after hearing what happened at the Concorde Hospital..."

Lei Xue immediately covered her head and couldn't help but ask, "Why does the mention of Peking University make you think of the male department?"

"Um... isn't it?" Wang xiaoluo mumbled, "I've... Seen the male department of Peking University in several cities..."

Lei Xue:" ..."

The current fake hospitals really misled the public... :”...” . Lei Xue thought with a dark face. Who would have thought that the prestigious Tsinghua University Affiliated Medical University, the Holy Land of Chinese medicine, would be so famous because of those fake hospital advertisements, what was the difference between this and Peking University’s first thought when it came to Peking University?

Wang Xiaoluo finally understood after a hard explanation. oh..? ... So Concorde was so awesome... ? The point is.. ... Not Male...

“There should be a lot of good doctors in such a powerful hospital, right?”Wang Xiaoluo asked curiously after she came back to her senses. “Your sister should only be a few years older than you, right? “That elder Lin sounds like a big shot. Why would he let her perform this surgery?”

“He’s probably afraid of being blamed...” . Lei Xue also frowned and said, “Elder Lin is already 80 years old. At this age, he is already at the age where he knows his destiny. The possibility of saving him from a cerebral infarction is very low. Moreover, he has an important status, so it’s only right for him to be saved. If he isn’t saved, the chief surgeon will have to bear a lot of responsibility. At the very least, he will be disliked by the Lin family...” . “...”

“Oh... I understand!”Wang Xiaonuo immediately clapped his hands and said, “What you mean is that your sister is actually the scapegoat!”

Lei Xue:”...”

This boss of his had a strange way of thinking...

“This... is not what you said...”at this moment, Lei Mingjun, the boss of the Lei family, was about to explain when he heard that. He knew that this was not the time to be modest. Although he did not know why the other party would value Xinyu’s medical background, at this moment, he knew very well that he must not let the other party underestimate his daughter’s ability...

Then, he hurriedly explained, “It’s one reason why other doctors don’t dare to take over, but the main reason is that Xinyu’s skills are very good. Otherwise, even if she takes the blame, the Lin family would not let her...”

“Oh?”As expected, Wang Xiaoluo’s eyes lit up.

Lei Xue also chimed in from the side, “Uncle’s words are not boasting. Sister Xinyu has already been the ace of the Brain Department of Concorde for three years!”

“Ace?”Wang Xiaoluo’s eyes lit up. They didn’t have much stock left. They couldn’t recruit high-level developers, and the recruitment board was afraid that they would waste the spot if they chose the wrong person. However, she knew that the situation couldn’t be delayed! The market didn’t wait for people. Now that she heard that the other party was an ace of the brain department and was still so young, her talent was definitely not wrong. It seemed that she had picked up a treasure again!

“Since when did the ace neurologist of Xiehe become the eldest cousin sister?”Lei jiaming could not help but sneer. “I remember that it was not professor ye?”

As soon as these words were said, elder Lei and Lei Mingjun's faces immediately darkened. They knew that Xinyu was now occupying the spot, and the other disciples would feel unfair. However, no matter how unfair it was, you could not undermine your own family!

How could they not realize in the past that this child, Jiaming, was actually such a bad character!

However, under such circumstances, elder Lei could not directly reprimand him. Otherwise, people would think that they were guilty. Xinyu's strength might give people a feeling that she was untenable.

Just as they were thinking about how to save their grandson's stupidity.., lei Xue said, "Professor Ye Huasheng is already 70 years old. Five years ago, he was already not used to high-intensity surgeries. Three years ago, Professor Ye's surgeries were all performed by Sister Xinyu. Everyone inside the family knows who is in charge of the surgery in the Department of Neurology. Outsiders don't know about this, but cousin, you don't know?"

"I. . ."Lei Jiaming was stunned. He really did not know about this. After all, the Lei family did not pay much attention to Lei Xue or Lei Xinyu in the past. Why would he pay so much attention to them?

As soon as these words were said, Lei Mingjun and elder lei immediately nodded to themselves. The words of the Xue Girl were actually exaggerated. Although it was said that Professor Ye's surgery was performed by Xinyu Girl, and the people in the hospital all recognized Xinyu Girl's strength.., but to say that Xinyu was the ace of the Brain Department of the Union Medical College was obviously nonsense. But at this time, if you said that it was an internal recognition, the other party wouldn't be able to tell, right?

"I see!"As expected, Wang Xiaolu became more and more satisfied when she heard this, she couldn't help but rub her hands and said, "Lei Xue, look, we have nothing to do now. Why don't we go to the Union Medical College Hospital and wait for your sister? We can see the situation of your sister's surgery!"

Hearing this, elder Lei and Lei Mingjun's hearts trembled. They knew that this young girl did not seem to be so easy to fool. The other party was going to personally go and find out the situation, it was likely that whether Xinyu would be able to succeed this time would depend on how elder Lin's surgery was going tonight!

Hearing this, Lei Xue hesitated for a moment before finally nodding. She had already fought for her cousin. If this wave did not succeed, it could be considered as doing her best. Her uncle could not blame her.

"Alright, I'll bring you over now..."

As they spoke, the two of them prepared to head straight to the hospital. However, when the many younger generation members of the Lei family saw this scene, they immediately became anxious. It was not easy for someone from Luofu to come knocking on their door. How could they not be anxious if they were to let him go just like that?

However, they did not know what to say for a moment. They all looked at their elders with longing eyes. The elders also looked at Old Man Lei with longing eyes.

Old Man Lei's face twitched. Of course, he knew what his family was thinking, but it wasn't easy to explain now. He could only wave his hand to them to let them feel at ease.

Although many of the Lei family's disciples were anxious when they saw old man Lei's attitude, they didn't dare to say anything in the end. Only Lei Jiaming saw that Wang Xiaoluo was about to leave, after hesitating for a few seconds, he suddenly made up his mind and said, "Senior Luofu, may I ask if you still accept people there?"

Lei Jiaming's presumptuous attitude made old man lei frown, but the eyes of the Lei family members around him lit up. They did not expect that this kid jiaming would actually dare to disobey the old man's wishes, however, this seemed to give them a glimmer of hope!

Hearing this, Wang Xiaoluo stopped and looked at the other party with puzzlement. "You also study medicine?"

"I. . ."Lei jiaming immediately choked, and then said with an unsightly expression, "Senior, your Luofu Immortal sect is an immortal cultivation sect, right? Don't you recruit normal disciples?"

"Oh..."hearing this, Wang Xiaoluo nodded. "You want to join Luofu as a combat member?"

"Senior, please grant me my wish!"Lei jiaming immediately knelt down and begged as if he was a junior paying respects to his master!

"Uh... No..."Wang Xiaoluo shook his head. "Our faction's quota is limited. We can't waste it on fighters!"

Lei Jiaming:" ..."

What did he mean by he can't waste it on fighters? Were Luofu fighters really not welcomed?

"Senior, please grant me my wish!"Lei Jiaming was unmoved after being rejected. He gritted his teeth and bowed again. "Even if I have to be a part-time disciple, it's fine as long as I can enter Luofu!"

"Ah?"Wang Xiaoluo was stunned. "You only want to enter Luofu?"

"Yes, senior, please grant me my wish!"Lei Jiaming said firmly, but he did not notice the other party's strange gaze.

"Er... haha... Brother, the age difference between us isn't too big, so don't come with such a big gift. About this matter... it really isn't worth you giving such a big gift..."

"Senior agreed?"Lei jiaming immediately said happily!

"Er... this... how do I put it... If you want to enter, then enter... anyway, it's going to be open beta soon..."

"Open Beta Test?"Lei Jia Ming was stunned. Although he didn't understand what the open beta test meant, it was obvious that the other party had agreed. Therefore, he hurriedly kowtowed and said, "Thank you for the information!"

The surrounding Lei family disciples were stunned. F \* ck, how could this be possible? If they had known that it would be possible, they would have been thick-skinned this morning!

When the surrounding elders saw this, they hurriedly winked at their children. The group of disciples hurriedly went forward. Just as the scene was about to start a large-scale apprenticeship ceremony, Lei Xue hurriedly stopped them and said, "Alright!"

Everyone was stunned by the shout. Before they could regain their senses, they saw Lei Xue hurriedly say to elder lei, "Old Man, I'll bring boss to the Concord first. You can explain over here..."

Hearing this, elder lei nodded. Looking at his own grandson who thought he was smart, he didn't know whether to laugh or cry... ..

Chapter 776 Crooked Lei Jiaming

"Jiaming..." after Lei Xue and Wang Xiaoluo left, old master lei looked at his grandson with a complicated expression... ..

Lei Jiaming looked at Old Master Lei's scrutinizing gaze and immediately knew that he had to pay for all his actions just now, he hurriedly knelt down and admitted his mistake. "Grandfather, I was rash, but I was eager to beg for immortality. I really... I really couldn't help myself..."

Elder lei looked at his grandson and sighed after a long while. "Get up. A man has gold under his knees. Don't kneel for no reason..."

Lei Jiaming looked at his grandfather in confusion. Could it be that his grandfather blamed him for giving such a big bow to an outsider so easily? He was really pedantic. With such an opportunity in front of him, what was the big deal about kneeling? Han Xin had even suffered the humiliation of being groveled. Moreover, it wasn't shameful for him to acknowledge an immortal master, right?

Elder lei saw the confusion on Lei Jia Ming's face and understood that this was a misunderstanding caused by a misinformation. Who knew that most of those Luofu immortal masters were just ordinary citizens of Huazhong one or two years ago?

"Jia Ming, let Grandpa Ask You. It's fine that you're eager to beg for immortality, but why did you ruin your eldest cousin's reputation in front of others just now? Do you know that if you didn't cause trouble just now, your eldest cousin's spot would have been secured already?"

"I. . ." Lei Jiaming's face turned pale, he looked at his cold-eyed uncle beside him and knew that he was indeed impulsive just now, however, he still said stubbornly, "Grandson...". "... grandson is also indignant. The number of the Dragon Group is now 69, and the male of my lei family hasn't even had a mouthful of soup. The important part of this immortal cultivation sect is naturally still the cultivators. Since cousin Xue has this opportunity to enter luofu, she should naturally fight for this quota for my lei family. But now, she has given up on the root of the matter and went to help cousin Xinyu to get a medical quota. Even if she succeeded, what use would it be?" ? My grandson feels that my cousin is obviously blaming my lei family for favoring boys over girls back then. That's why she's doing this on purpose ..."

"Enough!" Elder lei looked at his grandson with a disappointed face. It's already so late, yet she's still stirring up trouble. Does she really take me for a fool?

“Grandfather...” lei jiaming saw his grandfather reprimanding him, he immediately felt a little displeased and said seriously, “Even if there’s something wrong with my grandson, he just asked for a spot for our lei family to pray for immortality. No matter how wrong he is, it should be offset...”

When elder Lei heard this, his expression immediately became strange. Looking at his own grandson staring at him, he couldn’t help but laugh. This kid was so confident now because he felt that he had gotten an immortal quota., could he challenge him now?

Then, he let out a long sigh and couldn’t help but think to himself, since when did this grandson of mine, who had both excellent character and learning, become crooked?

Seeing elder Lei Sigh, Lei Jiaming smiled smugly in his heart. Today’s request had finally won him a position. Even if grandfather didn’t like his behavior, what could he say about him now?

From now on, wouldn’t the Lei family still have to rely on him?

While he was feeling pleased with himself, he suddenly heard elder Lei’s faint voice, “Your so-called quota, now anyone can go!”

“Huh?”

The Lei family’s disciples were all stunned when they heard that.

“Grandfather... What does that mean?” Lei Jiaming looked at Old Lei in shock and thought to himself, has old Lei lost his mind?

Looking at his grandson’s appearance, Old Lei sighed again. According to the information that he had organized, he explained everything from the beginning to the end. After that, the Lei family members were all dumbfounded when they heard that. The outer realm was an alien planet? The strength of the Luofu children was due to their genetic technology? How could there be privately owned technology that surpassed the world? Piles and piles of information were thrown down. If it wasn’t for elder Lei personally speaking, everyone would have thought that they were listening to a sci-fi story.

Elder Lei spent a lot of effort to explain the current information one by one. After that, he picked up a cup of hot tea and quietly waited for his descendants to digest it. As for whether the information was exposed or not, it was no longer important. Now that the leader had already made the information public., this matter would soon spread among the descendants of the family. There was no point in keeping it a secret anymore. It was better to let the descendants prepare early to welcome the new era.

In the hall, everyone was silent for a long time. They finally managed to digest what Old Master Lei had said. Lei Jiaming’s expression was even more interesting when he heard it. No wonder the old master’s expression was so strange just now., after half a day of kowtowing and the great gift of becoming a teacher, the thing that he had asked for had become so worthless?

My Grandpa, why didn’t you say so earlier?

“Old Man... is what you said true?” The eldest son of the Lei family asked in surprise, “Now... Everyone can go to Luofu?”

“Not everyone can go...” elder lei sighed, “But with the official status of cooperating with luofu, at least the members of the aristocratic families should be able to go.”

“Oh...”

The group of Lei family's disciples immediately became excited. Initially, when they saw that Wang Xiaoluo had left, they thought that it was hopeless. However, they did not expect the plot to take such a turn. Now that they thought about what the other party said just now that it was not worth paying such a big bow, it was actually not a perfunctory greeting! They immediately felt that it was funny. The way they looked at lei jiaming was filled with faint mockery!

Lei Jiaming was embarrassed and annoyed by everyone's stare. How could he know that the plot was so magical?

“Old Man...”Lei Jiaming's boss was not in the mood to look down on a grandson with the younger generation, instead, he hurriedly asked, “The lord system you mentioned just now means that all players have the chance to become a Lord? Wouldn't that be a local emperor?”

“From the looks of it...”

“Then... then should our lei family also organize disciples to cultivate in this aspect?”Lei mingjun hurriedly asked.

“Of course...”elder lei nodded and said, “Although we don't know how it will develop in the future, but now is such a great opportunity, our lei family naturally can't miss it!”

“Grandpa... Why didn't you say so earlier?”Lei Jiaming's face was ugly.

Elder lei rolled his eyes when he heard that. You're a guy who steals the conversation and salutes. Where did he get the opportunity to say so earlier?

“Then, that person just now was actually just an ordinary player, right?”Lei Jiaming's father, elder lei, said, “Since that's the case, why would the old man still treat him with such courtesy? If it wasn't for the old man's attitude, how could jiaming lose so much face?”

“Ha...”hearing this, elder Lei looked at his fourth brother with a funny expression. It was really a case of the saying, ‘The Apple doesn't fall far from the tree’. was he blaming him?

Just as he was about to speak., lei mingjun, who was beside him, said, “Fourth son, why are you talking like that?”? Old Man Lei naturally had a reason for treating that player with courtesy. Now that the Luofu mystical land was about to be made public, there would be more than ten million players pouring into it? Everyone was from the same starting point. How competitive was that? The players that old man Lei had the advantage in befriending now naturally wanted to pave the way for the Lei family's disciples to walk on the path of a Lord!”

Hearing this, fourth lei was instantly speechless. On the other hand, a gratified smile finally appeared on elder Lei's face. In the past, he had thought that his boss was dull. Now, it seemed that in the entire lei family, his eldest son was the most reliable. With this kind of information coming out., he also knew that he had to analyze the pros and cons first.

This logic was actually not difficult to understand. If the others had not thought of it first, their thoughts had gone astray. If they could maintain their calm, how would they have caused so much trouble?

“Boss is right...”. Old Man lei concluded, “The current situation is different from the beginning. The first batch of players to become lords, regardless of whether they are lucky or not, already possess a huge advantage. If they want to charge out among the many players in the future, they naturally have to befriend these lords who are already in the lead. Fortunately, the snow girl has lived up to her expectations and is valued by the other party. In the future, she can add a lot of help to our lei family  
“...”. “...”

So that’s how it is!

Many of the Lei family’s disciples immediately nodded their heads. They no longer had any jealousy towards Lei Xue. They were all thinking about how to build a good relationship with their cousin.

Only Lei Jiaming, who had just lost his face, did not think much of it. After all this time, Lei Xue was just a part-time worker. Hehe, he thought that she had picked up a huge plate...

A Lord Gamer, right? Just you wait, I, Lei Jiaming, will let you know that even if I let you run a few laps first, you will still not be able to achieve anything. Today’s humiliation, I will definitely take it back thousands of times over!

Chapter 777 Brother Dog’s information

After the meeting, just as elder Lei had said, Luo Fu’s information was instantly spread to all the descendants of the aristocratic families. Instantly, there was an uproar!

After all the descendants understood the information, they were all rubbing their fists and rubbing their palms. They couldn’t wait to go in and show off their skills. At this moment, all the families were having a meeting to discuss how to let their families gain a foothold in Luo Fu in the future.

Liu family:

“Shiyu, you’re really full of yourself. If it wasn’t for that girl from the Lei family getting the information, do you plan to hide this from us for the rest of your life?”

At this moment, in the guest hall of the Liu family’s courtyard, Brother Dog’s second uncle was reprimanding brother dog with a pained expression. The surrounding elders also looked at brother dog with unsightly expressions, especially those cousins.

In their hearts, they all thought to themselves, “This guy is really lucky. I knew it. How can such a hedonistic guy who has kidney deficiency until the age of 20 be some kind of immortal cultivation genius?”? It turned out that half a day was a place where everyone could be awesome even if they went!

Looking at the many cousins who were complaining about him, brother dog smiled coldly, but he couldn’t be bothered with them. Instead, he looked at his grandfather. Old Man Liu didn’t blame Brother Dog, instead, he helped to explain, “Second brother, why are you blaming Shiyu? Luo Fu was trying his best to hide the situation back then. Can he reveal the information? As for the Lei Girl, Hehe, at that time, Luo Fu even took the initiative to let the Government garrison the army. It was obvious that he didn’t care about the information being made public. Can it be the same?”

“Then you should have told us earlier. We wouldn’t have waited until after the leader announced it. We wouldn’t have been able to get a head start on the plan now!” Second Brother Liu continued to complain.

Elder Liu rolled his eyes at the other party, but he did not refute. Instead, he looked at his grandson. He also wanted to know why his grandson had only returned now.

Brother Dog looked at his grandfather. Up until now, there was still no blame in the other party’s eyes. Instead, there was a look of anticipation. His heart could not help but feel warm, then, he said, “I’m sorry, grandfather. I really didn’t do it on purpose. It’s more troublesome for the Green Titan to advance to level four. At that time, with the help of the instructor, I was refining my bones. After refining my bones, I spent three months in the base to recuperate. I really didn’t know about the outside world. I only found out that the leader was ready to announce it after I had recuperated...”. “...”

“I see...” elder Liu nodded.

The surrounding uncles immediately rolled their eyes. So that was it, my ass. You believe this old man?

On the contrary, it was elder Liu, the third elder Liu, who had a good relationship with Brother Dog, who asked the key question with a serious expression, “Shiyu, I heard that your main base has a player ranking board. What’s Your Ranking Now?”

Brother dog smiled and said, “I was ranked 26th before, but now I’m level four. I went to the training room to test the data a while ago. In terms of physique, I’m currently ranked 11th in the simulation, but I haven’t fought in actual combat yet.”

“11th? Not Bad, not bad!” Grandpa Liu nodded in satisfaction, as far as he knew, there were as many as 50,000 Luofu players in total. Currently, all of the members of Team Dragon were capable of single-handedly challenging golden immortals of Kunlun. Yet, his grandson was actually ranked 11th among these people. It was not a disgrace to the Liu family.

Of course, elder Liu thought so, but the other disciples of the younger generation did not think so, especially Liu Wenhao. He could not help but sneer in his heart. How could such a piece of trash be ranked 11th? They were indeed a motley crew!

“Then, Shiyu, you’re ranked so high. Are you a lord-tier player?” Liu Jianchao asked immediately.

As soon as he said this, everyone turned to look at Liu Shiyu. According to the intelligence, lord-tier players were equivalent to local dukes. If Shiyu had already conquered a territory, he would probably be the center of attention of the Liu family in the future.

Elder Liu also looked at brother dog expectantly.

“Uh... that’s really not...” brother dog scratched his head in embarrassment. “I’ve joined Pu Yunchuan’s faction. I’m a cooperative player...” after a pause, he continued, “And since I’ve just joined, my shares aren’t high...”

Hehe...

The group of young disciples laughed coldly to themselves. Sure enough, he was just a pile of mud that couldn't be covered by a wall. He had entered the game so early and had such a high ranking, yet he didn't even get to be a lord-tier player?

"Shiyu... This choice of yours... you should have discussed it with us..." elder Liu immediately frowned.

After understanding the information, he had a rough idea of the current situation in the New World of Luofu. In his heart, a Lord player was equivalent to an eternal foundation, and cooperating with a player was equivalent to working for someone else, it was indeed a pity that his grandson had such a huge advantage in choosing to be a part-time worker!

"This... the situation is complicated..." brother dog laughed, "It's not easy to be a Lord Gamer..."

Hehe... The young disciples looked disapproving. However, elder Liu, Liu Jianchao, and Liu family's boss asked seriously, "What do you mean?"

Brother Dog ignored those young disciples who thought highly of themselves, he said to his grandfather, "That depends on luck. The current situation in the new territories is complicated. The human cities have collapsed. Those who can develop their forces are all on the grasslands. There are no satellites in that place, so the map has to be explored by the players themselves. If you choose to explore, if you're lucky, you can find a good base and tribe. If you're unlucky, you can wander on the grasslands for more than a year without finding anything!"

He was not exaggerating. Previously, the emperor of the liver was ranked first in terms of level and basic attributes. However, after wandering around the grasslands for half a year, he almost did not make it into the top 30. If he was not lucky enough to meet a cabbage.., he had already fallen to second-rate status.

After listening to Brother Dog's detailed explanation and knowing the hardships and risks of going to the grasslands to start a business, elder Liu nodded. He immediately understood what his grandson meant, however, he still said, "Even so, you should have tried it back then..."

Brother Dog smiled when he heard that. Back then, after the black goat mutated, he was worried about the safety of that noble girl, so he rushed back to that city. After that, in order to ensure her safety, he did not dare to venture into the grasslands, he was afraid that something would happen to her, so in the end, he chose the safe route of joining Pu Yunchuan.

Of course... He naturally could not say anything. Otherwise, if old master Liu found out that he had given up on the lord-tier path because of a girl, he would probably throw the Teacup in his hand at his face.

Hence, he changed his tone and said, "Grandfather, isn't this just to be safe? "Right now, grandson, I still have some advantages. If I can get a place to cooperate with a large force like Pu Yunchuan, if I don't succeed in venturing into the grasslands, I will lose my advantage and become a second-rate player in the future. Wouldn't this be a waste of an opportunity? "Although I'm not a lord-tier player, I have a good foundation. I can speak for myself in Pu Yunchuan's force. I can pave the way for my brothers and sisters."

When the children heard this, they immediately nodded and agreed, "Grandfather, what cousin Shiyu (cousin) said actually makes sense!"

Grandfather Liu rolled his eyes at these grandchildren and then looked at brother dog, "Shiyu, you're more familiar with that side than us. What do you think our Liu family should do?"

Brother Dog: "Well, first of all, enter the game as soon as possible. I'll try to help you guys get the latest entry queue. After entering the game, you have to improve yourself as soon as possible to meet the basic requirements to go to the new territories. At this stage, I can provide a certain amount of resources, such as initial points, so that our brothers don't have to spend a lot of time on mining and other trivial matters to earn points, but after entering the New Territories, how they choose will depend on their own strategic vision...". "..."

"Tell me about the situation!" Elder Liu urged.

Brother Dog: "Let's go to the New World. There are a lot of places to go. One is to head to the southern plains. That is the best place for newcomers to become a Lord. However, going there is a bit of luck. If we can't find a good base and tribe, it will be a waste of time. The second is to head to the northern plains. The situation there is different because a large number of beast race people have flooded in. There are colonized people everywhere. However, there are mutated areas there. In addition, many lords have brought people to occupy their territories. The competition is very high. If the newcomers go directly, there will be a lot of pressure. However, the chances are also quite high. The third one is to go to Gondolin, where I can start as a mercenary. There, I can take care of my brothers as much as possible. I can quickly accumulate original capital for them and increase their strength. However, this way, the progress of the Lord's route will be slower, but it will be relatively stable. Finally, there is the latest sea route. I have a friend who has already opened up a route there. If you are interested, you can try your luck. The chances may be very high...". "..."

After blabbering, elder Liu asked about the general situation of each route the other party mentioned in detail. For example, what were the common problems in the southern grasslands? What was the success rate. How long would it take to accumulate original capital in Gondolin and so on... ..

Brother Dog answered elder Liu's questions one by one.

After Old Man Liu finished asking, he looked at the other members of the Liu family. "Tell me, how do you plan to go? So that Shiyu can prepare for you in advance..."

Chapter 778 easy to talk about...

When elder Liu mentioned this, the group of disciples immediately became spirited. They all expressed their desire to walk the path of a Lord. Looking at the group of people who were on stimulants, brother dog did not dampen their enthusiasm, instead, he said faintly, "It's a good thing that all the cousins have ambition, but I'd like to say the ugly words first. Little brother... .. has limited abilities and is only a small shareholder in the other party's faction. He only has a small amount of resources. If one or two of you walk the path of a Lord, I can still be of some help in the early stages, but if all of you walk this path, Hehe ... .. But don't blame me for not putting in enough effort after the resources are distributed ... .."

The moment Brother Dog said this, the entire hall fell silent. When everyone heard about such a novel platform, they were naturally full of enthusiasm at the start. At this moment, Brother Dog's words were like a bucket of cold water being poured down.

Old Master Liu immediately reacted. That's right, he didn't think that he could indeed not let all the disciples walk the path of a Lord. Otherwise, it would be meaningless if the advantages provided by Shiyu were divided too thinly.

Then, he looked at the second generation of the Liu family and didn't make a decision first. Instead, he asked for their opinions, "You've heard Shiyu's words. What do you think?"

"This..."

The second generation uncles looked at each other. This topic was quite serious. It was almost equivalent to deciding who to focus on in the future!

"Grandpa..." the eldest son of the Liu family was the first to speak. "What do you think of... Shijun and Shiwen?"

The old man was stunned. He didn't expect that the eldest son, who had never fought much, would be the first to speak up for his son. However, it was normal after thinking about it. This matter concerned the rise and fall of a family. Who wouldn't want the benefits to fall on their own children? Although the boss was calm, he was still a mortal after all. How could he avoid it?

Hence, he nodded and said, "Shijun, that child, is not bad. He has drive, and his performance in the army is very good. His character and perseverance are all outstanding. Shiwen is also not bad. He is calm, magnanimous, and has courage..."

When everyone heard this, they became anxious, they quickly said, "Big Brother, why are you like this? You want to eat all two spots at once? Moreover, Shiwen, that child, is almost forty years old. Shouldn't this kind of opportunity be given to young people?"

Boss Liu refused to give in. "So what if he's 40 years old?" He was in the prime of his life. That gene had extended his lifespan by more than 300 years. The age of the next Shijun was just right. Moreover, the Lord was not based on talent. What he talked about was strategic ability and management ability. Shiwen was very suitable... "..."

"Hey, how can there be someone like you?" Fourth Brother said unhappily.

Second brother Liu also said, "Big Brother, your words are a little biased. Strategic ability and management ability are only used after conquering the country. When building a foundation, it is still based on the aggressive spirit of the young people. In terms of talent, my family's Wenhao is definitely the best among the grandchildren and is also the easiest to build. When he builds a foundation and lets Shiwen help manage it, he can also display Shiwen's ability, right?"

"That kid from your family?" Boss sneered, "If he really built a foundation, can you count on him to protect his brothers and sisters?"

"Hehe, Big Brother, what do you mean by that?" Second Brother was instantly furious.

"Nothing..." boss Liu said coldly, "It's just that when we were in Kunlun, Wen Hao did those scoundrelly things that made my heart chill!"

After saying this, the other uncles of the Liu family also nodded repeatedly. The second son of the Liu family immediately said angrily, "That child, who hasn't made mistakes? Big Brother, you just won't let go of this point, right?"

"Enough! !"Elder Liu's face immediately darkened as he shouted to cut off the noise of the crowd. He had also thought that this matter would definitely cause a dispute, but he didn't expect that it would directly cause a face-off.

Everyone immediately quieted down. Elder Liu's third brother, Liu Jianchao, looked at elder Liu and sighed, "Old Man, what do you think? Just say it..."

In his heart, Liu Jianchao was on his big brother's side. His own son was still young, so he definitely would not have the chance this time. In the future, he would definitely have to rely on his other cousins to take care of him, under such circumstances, Big Brother's Shiwen and Shijun would definitely be much more reliable than second brother's Wen Hao.

Of course... .. and Shiyu..., at this thought, he looked at Shiyu and thought to himself, 'old five has a good son. Even if Shiyu doesn't walk the path of a Lord, at least he can protect old five's lineage for a hundred years. Fortunately, I have a good relationship with old five's family...' Shiyu also respected me... Asking him to take care of my son shouldn't be too much of a problem, right?

Liu Jianchao looked at Brother Dog, and elder Liu looked over as well. When he saw brother dog casually munching on melon seeds like he was watching a show, elder Liu was instantly furious. He thought to himself, "Little Brat, I've created this topic..." But now, he was hiding to watch the show?

Hence, he said to Brother Dog with a dark face, "Shiyu, what do you think? Which one of your cousins do you like?"

Brother Dog, who was munching on melon seeds, suddenly twitched his eyes. This old man was really sinister. He did not want to be blamed by second uncle and the rest for actually leading the blame to this side!

Looking at the bright eyes of the uncles and elders, brother dog laughed dryly, "I... I think they're all pretty good..."

Everyone:" ..."

"Stop trying to smooth things over!"The old man glared at him and said, "Time waits for no man. Now is the time to set the rules. We can't miss the opportunity. Otherwise, if we miss this wave of the Liu family, I'm afraid it will be very difficult for us to turn things around in the future..."

Brother Dog was speechless. Why didn't you make a decision yourself? You want me to be the villain. You Wish... ..

Therefore, he coughed lightly and said, "Didn't I say it before? For matters like the Lord, 30% depends on strength and 70% depends on luck. If we set a rule now, wouldn't it be awkward if it doesn't work out? I think we should rely on strength alone?"

"Hey, you brat!"Elder Liu immediately said angrily, "Didn't you say that we should concentrate resources?"

“We still need to see some rules first...”brother dog smiled and said, “Even if it’s an investment, we still need to see the signs first. None of our brothers have tried it. Isn’t it meaningless to discuss who is suitable and who isn’t?”

Elder Liu frowned when he heard that. “Then what do you think we should do?”

“How about this...”brother dog patted the melon seed shell on his pants, he said seriously, “First, choose the brothers and sisters that you want to go with. It would be best if there are no more than ten of them. During the novice period, I will give each of them a sum of money. This sum of money can be used for their own use. They can use it to quickly strengthen their bodies and apply for training classes. They can go to the new territories as soon as they reach level 2. They can also use it to learn a life skill so that they can have a skill in the new territories to earn money. After they meet the conditions to go to the new territories, I will give each of them a sum of money to help them explore. As for the future path, whether it is the southern grassland, the northern grassland, or the gondolin forest to accumulate original capital, it will be up to them. We will limit it to two years. When the time comes, we will look at the good fortune that each of us has made. Those who are suitable to become a lord, I will give my full support. Those who are not suitable will be used as support. What does the old man think?”

He’s quite a thief, this brat!

Elder Liu rolled his eyes at Brother Dog, then looked at the crowd. “What about you guys? What do you think of Shiyu’s method?”

Elder Liu was the first to say, “Shiyu’s method is a little reasonable. Whether it’s a mule or a horse, we have to take it out for a walk before we know. Everyone will rely on their own abilities. After that, no one can blame anyone.”

When the others heard this, they all nodded hesitantly in the end.

Second Brother looked at brother dog and smiled warmly, “Shiyu, that Brat Wen Hao was unreasonable in the past and did something he shouldn’t have done. Second Uncle is here to apologize to you, but just like what the old man said, now that the great era has come, our Liu family must huddle together. In the future, if Wen Hao doesn’t have that good fortune, I will also accept it. But if there’s that opportunity, please don’t forget what you said today!”

Brother dog chuckled and replied, “Don’t worry, second uncle. I’m a man of my word. When the time comes, I’ll definitely support cousin Wen Hao if he manages to establish his territory as a Lord!”

Of course... the prerequisite was that he could succeed...

Wen Hao hurriedly stood up, he picked up his wine glass and said, “Shiyu, it was me who was unreasonable in the past and did some disgraceful things. I’ve let you down. I apologize to you here. I hope that in the future, we brothers will sincerely work together to establish a solid foundation for the Liu family in this great era!”

The corners of the Liu family members’ mouths twitched. It was as if the leader of the Liu family in the future was destined to be you... ... you really dare to breathe... ..

“That’s easy to say...”brother dog raised his wine glass and touched it with a fake smile. ...

Chapter 779: the situation is progressing

In the hospital, Lei Xue's cousin, Lei Xinyu, was meticulously checking the equipment. She had meticulously inquired about the dosage of the auxiliary drugs, plasma, stitches, various types of forceps, as well as the dosage of the anesthesiologist's drugs, she had repeatedly inquired about many details four or five times, which made many of the auxiliary staff even more nervous.

However, most of them also knew Lei Xinyu's style. She was actually so strict during every surgery that she didn't care about the target. The nervousness of the crowd was actually mostly from the old man who performed the surgery this time.

"Alright, prepare to be anesthetized!" After Xinyu confirmed it, she instructed the anesthetist.

Just as she was nodding her head, an old man suddenly walked in with a group of people in a hurry. Among them was the family members of the Lin family. This scene made Lei Xinyu frown deeply.

"Director He, did something happen?" Lei Xinyu took the initiative to ask.

"Xinyu..." director he walked up to her and hurriedly explained, "It's like this. Just now, an immortal master from the Luofu Immortal sect came over and said that he wanted to watch the whole process of your surgery!"

"Immortal Master Luofu?" Lei Xinyu frowned. "Does he have any way to save people?"

"Uh... I heard that he's only here to observe the process of your surgery..." director he explained with a smile.

"Nonsense!" Lei Xinyu frowned. "This isn't a show, what's there to see?"

Before she could finish her sentence, she saw a middle-aged man with a serious expression walking over. Lei Xinyu was stunned and asked curiously, "Father, why are you here?"

The person who came was the leader of the Lei family, Lei Mingjun!

"Xinyu... This is what happened..." Lei Mingjun quickly told his daughter what happened, lei Xinyu was stunned and concluded, "Are you saying that cousin Xue recommended me? The other party wants to test my surgical ability. If I pass, I can enter cousin Xue's current faction?"

"That's what I mean!" Lei mingjun quickly said, "Xinyu, this opportunity is very rare. I Can't tell you the specific situation now. I can only say that this opportunity is not to be missed. Even if it's for your brother's sake, you have to get the spot!"

Lei Xinyu was instantly silent for a moment. It would be a lie to say that she was not excited. Lei Xue had entered Luofu and instantly became the favorite of the family. Who in the three generations of the Lei family did not envy her?

She knew that during the technical soldier assessment, several medical soldiers were recruited into luofu. The reason why she could not enter was because the Lei family only had three spots for

reference, elder Tian was the one who fought for Lei Xue's spot. She did not even give him a chance back then. It was impossible to say that she did not feel regret.

She did not expect Lei Xue to recommend her so quickly...

"But this will interfere with our surgery..." Lei Xue said hesitantly.

"Girl, do you still care about this at a time like this?" Lei Mingjun looked anxious and was about to persuade her, suddenly, a gentle female voice sounded, "Don't worry about this... I can look through the glass. I have reflective technology here, so you won't be able to see my existence..."

Everyone looked over when they heard that. Then, their breathing stopped. What a beautiful girl!

Lei Xinyu also took a deep breath. She had heard from her grandfather that the woman who had kidnapped cousin Xue looked like a banished immortal. She had thought that it was just an exaggeration. But now, it seemed that it was really just an ordinary metaphor. After all, the actors who played the female immortal on television were far inferior to her...

It seemed that this matter was real. She actually had a chance to enter Luofu. This made lei xinyu extremely excited, but after a moment, she calmed down, she said in a low voice, "I can observe, but I can't let my support staff know. I'm afraid that they'll be distracted!"

Wang Xiaoluo's eyes lit up when she heard that. This Lei Xinyu was really something. She could calm down so quickly. No matter how good the surgical technique was, this big heart was clearly a good material to become a doctor.

The reason why she proposed to personally observe the surgery was actually to put pressure on her. This proposal was made by her family's developer, candy bean, she wanted to see if the other party would still be able to maintain his previous standard when he knew that this surgery was related to her future fate. If it was still the same, it meant that the other party had at least an extraordinary big heart!

And apparently, the other party now look, seems to be in line with their expectations, this time may really pick up the treasure.

-----

The operation soon began in an orderly manner. Wang Xiaoluo and the others stood behind a special piece of glass outside the operating room. The glass was just as she had said. It was like a wall that blocked the view, but people on this side of the glass can clearly see what's going on in the operating room.

However, because he was far away, Wang Mingjun could not see his daughter's specific situation. He could only pray in his heart that his daughter had to be stable this time!

Before he came, the old man had also advised him that the possibility of elder Lin's surgery failing was very high. It was very likely to affect Xinyu's chance this time. He hoped that he could be prepared for the worst.

Regarding this, Lei Mingjun was also mentally prepared. Therefore, before he came, he had promised the old man that it was his daughter's good fortune to have it. If he did not have it, it would also be

Xinyu's life. He would be mentally prepared, but how could they calm down at this critical moment? They felt as if thousands of ants were gnawing at their hearts. Every second was extremely long.

Lei Xue looked at her uncle's anxious look and sighed in her heart. Even her uncle was so emotional. She didn't know how cousin Xinyu was doing.

At this moment, Wang Xiaoluo used her super strong vision to see Lei Xinyu's condition clearly in the operating theater. To be honest, she was very satisfied. During the operation, Lei Xinyu was extremely focused and seemed extremely focused, the hand that was holding the scalpel did not tremble at all. It was as calm as a machine!

It seemed that such a big heart was not faked. Moreover, she had uploaded an image through her retina back to her base. In the base, Sugar Pea had sent her a message saying that Lei Xinyu's surgical technique was very professional, she was indeed a top-notch surgeon.

After receiving this reply, she had actually decided in her heart that regardless of whether the operation was successful or not, she would poach this woman into her own forces.

HMM... .. I'll take her away tonight., tomorrow, she would begin to familiarize herself with the new knowledge. Goudan's side had already arrived at their destination. It was said that they had already begun to investigate the distribution of the various great mage clans. It was believed that they would bring in a large number of mages within a month or two at the most.

At that time, they would have to start building the medical system that belonged to their faction. They could not waste even a single second. It was said that the cabbages were also starting to prepare for this aspect. She could not be left behind!

-----

Because of the internal turmoil caused by the release of intelligence in the country, each and every one of the aristocratic families began to lay out their plans. The foreign countries were not idle either. On the American side, Rainders directly launched an attack on the road and killed members who did not belong to his faction, will news directly back to the Rex family, plan and Anshun Wang that imposter mitt and his behind the Huo family to negotiate, monopolize the news, and then a certain advantage!

On the other side of Western Europe, under the instructions of the Arthur family, the British special forces were sent out to all parts of Western Europe to secretly capture players. They planned to seize the precious player resources before Syd and the other countries could react, they planned to seize the precious player resources.

Therefore, the next day, the West German leader received a slightly threatening transaction from the Arthur family in his office... ..

## Chapter 780 the Test

West Germany was located in the middle of Western Europe. Since ancient times, it had played an important role in the history of Western Europe. Before the rise of the supernatural force, West Germany was already considered as the leader of the west, the economic leader of the entire Western alliance.

In the West Germany administrative office, the current leader was Morales. Angor looked at the transaction information sent by the Arthur family with a serious expression. The transaction was very special and shocking!

The information said that the Arthur family was willing to accept the West German ancient blood request and give them three drops of the purest royal blood of the Arthur family. However, the condition was that they had to secretly capture a group of people from West Germany, the West German authorities could not stop them!

Angor was both excited and confused at the same time!

The reason for his excitement was naturally the ancient blood. Since the beginning of the extraordinary era, West Germany had applied for the ancient blood from the Great Knight families countless times over the past 200 years. However, they never succeeded!

It all started with the rise of the extraordinary era. When the nobles represented by the Arthur family found the mysterious ancient blood by accident, they set up the Round Table Knight Conference and started the Western Extraordinary Era!

Since then, Syd's status began to plummet. Great Britain used the rare ancient blood to establish the twelve great knight families. Seven of the twelve families were in Great Britain, of the remaining five, three were in West France, one in Spain, and one in West Italy. Only West Germany did not have it. This was very awkward. The Big Brother of the Western Alliance, the Western Central Bank, was set up in Frankfurt, West Germany, west Germany was not only responsible for the financial and monetary policies of the euro area, but its industrial standard was also the best in all of Western Europe. However, because it did not have the backing of a transcendent family, its status declined again and again over the course of a hundred years!

The transcendents in the west were the descendants of bloodlines, a little like the descendants of vampires. In the early period when Great Britain obtained the ancient blood, they had used the ancient blood inheritance to develop the next family many times, thus expanding their influence, however, they had not distributed the ancient blood to West Germany!

This was also because they were afraid that West Germany would use their own country's super strong scientific research strength to break through this field, so they had been keeping the other side under the transcendence blockade for a hundred years!

This blockade caused West Germany's influence in the west to become lower and lower. In the past hundred years, they had even been ranked outside the top five by the media. This made the highly self-respecting Germans especially dissatisfied.

After Angola took office, she still did not give up on applying for ancient blood. During her tenure, she had already applied for ancient blood from the Arthur family for the 16th time. During this period, the conditions she offered were getting bigger and bigger, she was even willing to provide West Germany with a few core precision industrial technologies. However, she was still delayed by the other party with all sorts of excuses. However, she did not expect that the other party would actually be willing to offer the ancient blood that they dreamed of, and it was the pure blood of the Arthur Family!

The first ones who got the pure blood of the Arthur family were the best among the second-tier knight families in the west. The good ones were already on par with the Arthur family and became one of the twelve leaders of the west!

However, the conditions were a bit strange. They were trying to capture people from their own countries across the border. Angor wondered what kind of people could be as valuable as the ancient blood? Or the ancient blood of the Arthur Family?

Not to mention the value of the ancient blood, just asking someone from another country to capture a citizen from his own country would probably get him kicked out of office by the angry people.

Should he agree?

Angor bit his finger. The ancient blood was too important to West Germany. After so many years of suppression, it had become a problem for West Germany. It was worth it even if she was kicked out of office...

But... "..."! As a top politician, Angor's instinct told him that there was no such thing as a free lunch. Since he was willing to offer such an important bait, he must be asking for more!

The afternoon went by like this. His office phone rang again and again. Every time he received a call, it was from the higher-ups of West Germany, they all hoped that Angor would agree to Great Britain's request. They even jointly promised that Angor would not be thrown out of office.

Even so, Angor did not give up. She always felt that if he did, there would be terrible consequences!

"Sir, why are you still hesitating?" In the office., the vice-leader, François, urged him anxiously, "The Arthur family has already sent someone here for the third time. This time, they even warned us. If you continue to hesitate, our West Germany will lose our only chance to get the ancient blood. You'll be a sinner in the history of West Germany!"

This was a serious statement. As the vice-leader, he was already speaking in a threatening tone.

However, Angor remained unmoved. He kept his silence, which made the man anxious and helpless!

After another 15 minutes, Angor finally spoke. "Thor... What do you think the Arthur family is planning?"

"Sir, it's not important. What's important is the ancient blood!" Thor emphasized.

"No..." Angor shook his head. "It's important. The fact that they're willing to use the ancient blood as bait means that this operation is more valuable than the ancient blood!"

"What else is more valuable than the ancient blood?" Thor laughed.

"I don't know..." Angor shook his head, however, his tone was firm. "But that doesn't mean there isn't one. As long as it's logical, everything can't be for a reason. Sid underestimated the supernatural force 200 years ago, which caused him to fall behind by 200 years. At that time, due to his limited knowledge, I didn't want Sid to miss out on something again 200 years later!"

"So what are you going to do? Give up this chance?" Sol frowned.

“Of course not...” Angor narrowed his eyes. “Promise them to let Arthur’s special forces in, but we have to track them down and find out who they’re trying to take away!”

“And then?” The Man’s face turned serious.

“We’ll activate the level-one security seal and find any excuse we can. We can’t let these special forces go back alive. Then we’ll figure out what’s so special about the people they’re taking away as quickly as possible!”

“This...” Thor was surprised. “Isn’t this too much? What if they get angry? Won’t the ancient blood be ruined?”

“No need. Go ahead and ask them to give us the ancient blood before they let their soldiers in. They haven’t kept their promise for so many times.”

“But what happens after?” Thor asked anxiously. “What if we don’t get something better? What if we offend the Arthur Family?”

“Just push me out then!” Angor said coldly. “I’m sure the leader of a country is qualified to use it as an apology!”

Thor stared at him blankly. He did not expect Angor to be so bold!

“Go. Don’t waste time!” Angor took a deep breath and waved his hand.

A moment later, he did not move. He was still standing there, looking at him with a strange expression.

“What’s Wrong?” Angor frowned and looked at the man. He suddenly realized something was wrong with his partner of five years.

“Good!” The anxious Thor suddenly smiled in appreciation.

Angor was stunned. He stared at the man for a long time and asked coldly, “If you’re not Thor, then who are you?”

Thor smiled and his body began to transform. A few seconds later, the old man in the suit turned into a beautiful elf.

“Let me introduce myself... “... “I’m Qin Xuanji, the Master of Luofu Xuanji. Congratulations. You passed our test. Now, on behalf of the upper management of Luofu, I’m sending you an invitation to participate in the election of the city lord of the Starry Sea World!”!
