

I Stayed At Home For A Century, When I Emerged I Was Invincible

- Chapter 332: The Human King Suppresses The Blood Fiends

Chapter 332: The Human King Suppresses The Blood Fiends

After Chu Xuan gave Fengkong some advice, he redirected his attention back to the reincarnation cycle.

Ever since Chu Xuan found out that there was a hidden expert in the Western Zone manipulating the blood fiend race, he kept a low profile and no longer interfered with the situation in the Western Zone.

Ding Yue and Xiao Liang were fighting with the blood fiend race in the Western Zone.

Occasionally, they would also borrow the power of the Heavenly Dao laws.

Chu Xuan did not stop them. The current Heavenly Dao laws were similar to the laws of Heaven and Earth. Even if Ding Yue and Xiao Liang borrowed the power of the Heavenly Dao, they would only be mistaken for borrowing the power of the laws of Heaven and Earth.

The children of fate naturally inherited part of the fate of the nine zones, and could thus borrow the power of the laws of Heaven and Earth.

Presumably, no one would be able to tell the difference.

Moreover, Chu Xuan believed that the hidden expert could not interfere directly with the Great Daoyuan calamity, which was why he had chosen to act secretly.

A month passed.

Su Xian'er could not sit still any longer and ran off to find Hei Yue.

Chu Xuan did not object to this. One more person fighting for fate in the calamity meant one more reward for him.

"Your disciple, Ding Yue, has fought for fate during the Great Daoyuan calamity and reached the Divine realm. Your Fate Dao principle has advanced, and you have received a lump of chaotic energy."

Ding Yue had broken through to the Divine realm.

The calamity was full of opportunities, but also dangers. For every cultivator that rose up, countless others fell.

In the Northern Region of the Southern Zone, Wang Luo and Xiang Xing made their moves. They continuously set up large formations to refine the blood fiend race.

The other regions in the Southern Zone were also under attack from the blood fiend race.

The Great Daoyuan calamity was in full swing.

In the Eastern Region of the Southern Zone, Xiang Bang killed the blood fiends one by one.

Not only did he kill them, but he also purified the blood-colored spiritual energy.

His strength was beyond imagination.

Xiang Bang kept killing and purifying the blood fiends. Although they were numerous, he had at least stopped them from spreading.

"Can't you just go to the Northern Region and look after our son?" Feng Ruping asked worriedly.

"There are opportunities for him in the Northern Region. You don't have to worry about him."

Xiang Bang could sense that the more blood fiends he killed, the closer he was to truly breaking through the shackles of the Divine realm and reaching a new realm.

Boom!

Suddenly, an ancient battlefield descended upon the Eastern Region.

This ancient battlefield seemed to have been dyed blood-red.

Roar!

Two huge blood fiends charged over.

Xiang Bang's expression turned extremely solemn. The strength of these two blood fiends was no weaker than his.

They were half-step Dao realm blood fiends!

"Be careful."

After warning Feng Ruping, Xiang Bang went up to meet them.

The countless cultivators of the Eastern Region also charged forward with him.

A great battle broke out, and the blood-colored spiritual energy became more and more intense.

Feng Ruping looked at Xiang Bang with a worried expression.

Although he was powerful, the two blood fiends were also extremely powerful.

If he could not kill them completely, once the two blood fiends revived and fused, an even stronger blood fiend would emerge!

This time, blood fiends arrived with great momentum and, as they fell in great numbers, they revived and came back stronger.

"Retreat! Set up a defensive perimeter!"

Xiang Bang ordered.

It was also very difficult for him to resist those two blood fiends. He could not kill and purify them at the same time. As such, if they died, they would fuse with each other, and might even give birth to a Dao realm blood fiend.

If that was the case, who could stop that blood fiend?

The Eastern Region's forces began to retreat and continued to build a large defensive formation. As they continued to kill, more and more cultivators died, and they could not purify the blood-colored spiritual energy in time.

The blood fiends became stronger and stronger!

"Xiang Bang, retreat quickly!"

Feng Ruping called out anxiously.

Xiang Bang was helpless. If he did not stop the two blood fiends, no one in the entire Eastern Region, or even the Southern Zone, could stop them.

He could not retreat!

Even though he was already injured, he could not retreat!

At this moment, the sky turned red, and a huge flaming phoenix appeared.

The phoenix seemed to have a tangible form. The flames were condensed and did not dissipate. He could not even sense the temperature within.

However, wherever the phoenix flew by, the blood fiends would evaporate. In an instant, the field was cleared.

The phoenix then flew toward the two blood fiends.

Xiang Bang hurriedly retreated.

His expression changed drastically. The power of this phoenix was beyond his imagination. It was far stronger than he was.

When the phoenix appeared, everyone's first thought was that it belonged to the human king's Feng family.

Since when did the Feng family have such an expert?

The two blood fiends were completely defenseless in front of the phoenix. They quickly melted away and disappeared.

The gap between them and the Dao realm was immense.

However, even a Dao realm expert could not purify so many blood fiends.

Moreover, this was the Great Daoyuan calamity, and changes could happen at the drop of a hat.

As more blood fiends were killed, new ones would appear.

The phoenix dissipated, and a figure appeared in its place.

"Ancestor?"

Feng Ruping was shocked.

Xiang Bang was shocked. The human king Fengkong?

He had recovered?

Was this the might of a human king?

He had thought that he was only a step away, but now he realized that step was a very large one.

Feng Kong turned to look at Feng Ruping and nodded with a smile.

"I, Feng Kong, hereby issue the human king's order today. All human cultivators must put aside old grudges and work together to resist the Great Daoyuan calamity!" He shouted loudly.

"The nine zones will eventually become the nine zones of the human race!"

The cultivators present were momentarily stunned, but after they recovered, they started shouting excitedly.

"As Your Majesty commands!"

Everyone was extremely excited. It was the human king, Fengkong!

A legendary existence!

Fengkong's figure once again transformed into a huge phoenix, charging directly toward the blood-red ancient battlefield.

Boom!

The ancient battlefield trembled and a battle broke out. Not long after, Fengkong returned and sealed the ancient battlefield with his Dao aura, preventing the blood fiends from reviving.

After leaving the Eastern Region, Fengkong went to the Western Region, the Southern Region, and then the Central Region.

Wherever he went, he massacred the blood fiends.

Fengkong's sudden appearance shook the entire Southern Zone.

The Heavenly Dao laws also seeped into the various regions of the Southern Zone.

Chu Xuan was very satisfied with Fengkong. The expansion of the Heavenly Dao laws had been accelerated.

Feng Kong was preparing to head to the Western Zone.

But Chu Xuan stopped him.

The time had not come yet.

He did not want to alert the hidden expert right now.

Moreover, with Fengkong's appearance, the blood fiend race in the Southern Zone had been suppressed. However, they were a calamity-bearing race, which meant that something else would definitely help them to turn the tides of battle.

Thus, if Fengkong left the Southern Zone, there would be no one around to deal with those new threats.

Chapter 333: The Rise Of The Ghost Race

Just as Chu Xuan had expected, not long after Fengkong killed the blood fiends, the shadow of a terrifying ancient battlefield appeared in the Central Region of the Southern Zone.

Fengkong had no choice but to head over.

Cultivators everywhere were fighting the blood fiend race. However, they were endless.

"Your disciple, Xiao Liang, has obtained great fortune and reached the Divine realm. Your Fate Dao principle has advanced, and you have received a lump of chaotic energy."

Xiao Liang broke through to the Divine realm not long after Ding Yue.

Two-thirds of the Southern Region of the Western Zone had already been incorporated into the Heavenly Dao laws, and some headway had been made into the Easter Region as well.

Everything was going smoothly.

Chu Xuan was waiting for the harvest.

A month later.

Your disciples, Wang Luo and Xiang Xing, have completely refined the blood-colored spiritual energy in the Northern Region of the Southern Zone. At the same time, they refined treasures from the blood-colored spiritual energy and fought for fate amidst the Great Daoyuan calamity. Their fates have transformed and their cultivation has reached the Divine realm. You have been rewarded with two advancements of your Fate Dao principle and two lumps of chaotic energy.

Chu Xuan was stunned. Wang Luo and Xiang Xing were going all out.

They had broken through to the Divine realm as well?

Also, what was the meaning behind the transformation of their fates?

Chu Xuan looked toward the Northern Region of the Southern Zone. The power of fate there had already changed. It seemed to herald the arrival of the Great Dao.

Wang Luo and Xiang Xing had completely refined the blood-colored spiritual energy in the Northern Region and refined it into a blood fiend supreme treasure.

They had become the first people to truly defeat the blood fiends.

Therefore, their fates were transformed, and it appeared that they had been rewarded by the Great Dao because of this, resulting in their breakthrough to the Divine realm.

Chu Xuan then turned his attention to Hei Yue, wondering when she would reap the harvest of her planning.

The Heavenly Dao laws took this opportunity to expand rapidly in the Northern Region of the Southern Zone.

"Your Heavenly Dao laws have taken control of the Northern Region of the Southern Zone. You have been rewarded with a cultivation level advancement.

Sixteenth level of the Dao realm!

As expected, a cheat-like system was far better than any cultivation-boosting treasure.

Chu Xuan continued to stay in the courtyard.

In the nine zones, it was chaos. There was war and death everywhere. Even Fengkong was being held back in the Central Region of the Southern Zone for the time being.

The Eastern Zone was also in trouble, as more and more blood fiends appeared. The effect of Qin Ying's initial strategy was gradually losing its edge.

Fortunately, under Qin Ying's leadership, they had made all kinds of preparations in advance. Thus, the Eastern Zone was able to stabilize the situation.

The Chaos Zone and Monster Zone were both in turmoil as well.

A year passed.

Over the years, the Great Dao Communication Group gained many more Dao realm participants from the varying races of the nine zones.

Now, the number of participants in the Great Dao Communication Group was close to 100.

Chu Xuan currently did not have any thoughts of expanding the group. He no longer needed to use the Origin Dao Crystal to increase the speed of his cultivation.

He was focused on expanding the Heavenly Dao laws and reaching the Daoyuan realm as soon as possible.

Another year passed.

The nine zones became increasingly chaotic, and despite Chu Xuan's increased mastery of the Fate Dao principle, he failed to peek into the secrets of the nine zones' fate.

As the ancient battlefields continued to descend, the nine zones began to expand. Perhaps once all of the ancient battlefields had descended, the nine zones would return to their original size.

That moment would likely herald the peak and turning point of the Great Daoyuan calamity as well.

"The ghost race you created has become famous throughout the nine zones. The Fengdu Ghost King broke through the shackles of the Divine realm and reached the Dao realm. The Ghost Dao principle has advanced and the Ghost World has expanded. His fate has transformed dramatically. Your Reincarnation Dao principle has advanced."

The system's reward suddenly arrived.

Chu Xuan was stunned. The Fengdu Ghost King reached the Dao realm?

Clearly, he had obtained a great opportunity during the Great Daoyuan calamity.

The ghost race had risen!

Chu Xuan examined the ghost race's situation.

You'er had already broken through to the Heaven realm.

There were already more than ten Divine realm ghosts.

The ghost race had finally become a force to be reckoned with in the nine zones. Furthermore, everyone now knew about their existence, as well as the fact that they themselves could become ghosts upon death, so long as their divine souls escaped.

Since the Ghost World was still unable to automatically absorb the souls of the dead, the ghosts still needed to personally deliver these souls to the River of Styx to be transformed.

For this reason, the ghost race had set up branches in every zone and region to receive these souls, which fueled the expansion of the ghost race.

Naturally, there were also some problems. For example, conflicts due to the previous identity of different races before they turned into ghosts.

Chu Xuan did not interfere. The Ghost World possessed the Ghost Dao principle, which every ghost would cultivate. With time, these problems would be resolved naturally.

Besides, a powerful race would naturally have all sorts of problems, and these ghosts would all possess some lingering attachments to their previous lives.

Even the Buddhist clan had its fair share of problems. As time passed, new factions within the clan had formed. However, just like how all ghosts were still ghosts no matter what their identity was in their previous lives, all Buddhist factions were still Buddhists in essence.

While the other zones were in chaos, the Northern Zone was at peace. There were no blood fiends, and any ancient battlefields that descended were just treasure troves for the Northern Zone's cultivators.

Cultivation here became easier and easier, and comprehending the Heavenly Dao laws also became easier.

Chu Xuan was looking forward to the Northern Zone producing a Dao realm cultivator. The significance of the Heavenly Dao laws producing a Dao realm cultivator was immeasurable.

As time passed, however, some of the Northern Zone's cultivators could no longer sit still. These cultivators headed to the outer zones to enter the calamity, whether it was to help the human race or to fight for fate.

Everyone was trying to lure them out to reinforce the other zones.

Chapter 334: The Great Daoyuan Calamity In The Central Zone

Central Zone, Qian Region.

Qian Ming had been cultivating diligently this entire time. At the same time, he paid close attention to the changes happening in the Central Zone, preparing for the calamity.

In recent days, the situation in the Qian Region had become tense.

There was an inexplicable feeling of oppression in the air, as if something big was about to happen.

All of the cultivators who had reached the Heaven realm could sense this.

They were troubled, realizing that the Great Daoyuan calamity was about to descend upon the Central Zone.

As the core zone of the human race, the Central Zone had the most and strongest experts, as well as numerous ancient factions.

However, they had not sent any experts to reinforce the Western Zone or the other human zones.

The fundamental reason was that they were preparing to deal with the Great Daoyuan calamity in the Central Zone.

The Ji family and some other ancient forces formed an alliance, which included all the powerful cultivators and geniuses of the Central Zone.

At the same time, all of the major forces and cultivators were instructed to obey the alliance's orders.

After killing a few disobedient geniuses and forces, the alliance's orders became absolute.

While the cultivators and forces were still free to do their own thing, whenever the alliance issued an order, it had to be obeyed unquestioningly.

This was done to allow the entire Central Zone to work together to deal with the Great Daoyuan calamity, and to secure the safety and future of the human race.

Ji Dexin, the young master of the Ji family, was powerful and domineering. Furthermore, no genius from any other ancient force could compete with him.

Thus, he naturally became the leader of the alliance's geniuses!

Even the experts from the older generation had to respect him. After all, he had broken through to the Divine realm and surpassed many of them.

He also had the support of the Ji family and a few other ancient forces, which meant that he was the alliance's leader in all but name.

Although Qian Ming kept a low profile, he was also listed among the Heaven's Blessed in the Qian Region, so naturally, he was also included in this group.

However, he kept his head down and chose not to bring attention to himself in the alliance.

He was waiting for an opportunity.

The Great Daoyuan calamity would soon descend upon the Central Zone.

As such, the alliance organized a conference to discuss how to deal with the Great Daoyuan calamity.

It was a discussion in name, but in reality, it was simply organized to communicate Ji Dexin's plan.

Qian Ming did not participate. However, since barely anyone knew him, his non-participation did not attract any attention.

Some people did not even know that he was part of the alliance.

Boom!

The heavens shook as the sky turned red.

This was not taking place in just a single region, but the entirety of the Central Zone!

Even the laws of Heaven and Earth seemed to be contaminated by the blood-red aura.

The descent of the calamity upon the Central Zone was more terrifying than expected.

In an instant, it enveloped the entire Central Zone.

The experts of the alliances gathered with grave expressions on their faces. The alliance's orders were set up, and everyone got to work setting up countless formations.

The human army was also put on high alert.

The legions of cultivators formed by the alliance were spread across the ten regions of the Central Zone. There were experts from the ancient forces stationed in each region, acting as army commanders.

Qian Ming stood on a mountaintop. Behind him were the sect's cultivators, who were now all under his command.

He raised his head and looked at the sky with a grave expression.

The blood fiends in the other zones had all descended from the ancient battlefields.

Could it be that the first wave of blood fiends in the Central Zone was about to descend from the sky?

At this moment, the laws of Heaven and Earth of the Central Zone seemed incredibly fragile, putting the fate of the human race at risk.

As the son of fate of the Qian Region, Qian Ming naturally felt these changes.

If the Central Zone could not withstand this calamity, as the core zone of the human race, the fate of the entire human race would be greatly affected.

"Spread out and set up the formation!"

Qian Ming ordered.

The cultivators of the sect spread out and got to work, setting up large formations. The army of cultivators behind him also formed up into battle formations.

In ancient times, the human race relied on some of these battle formations to defeat stronger enemies and ascend to the position of overlord race.

Now that the Great Daoyuan calamity had descended, these battle formations would once again play an important role in the war.

In the small courtyard.

Chu Xuan turned his attention to the Central Zone.

What he saw was a blood-red sky.

His expression turned serious. Something was wrong with the Central Zone.

The Great Daoyuan calamity here was too terrifying.

He could sense how fragile the Central Zone's laws of Heaven and Earth were. It seemed as if a huge hole would be ripped apart at any moment.

The opportunity for the Heavenly Dao laws to infiltrate the Central Zone had undoubtedly arrived.

"Qian Ming is in the Qian Region. When the time is right, Qian Ming's Heavenly Dao seal can guide the Heavenly Dao laws to infiltrate the laws of Heaven and Earth there."

This was an unprecedented opportunity, and Chu Xuan did not want to miss it, so he ordered the Fengdu Ghost King and You'er to select a group of ghost experts to hide in the Central Zone.

Every ghost expert had a Heavenly Dao seal.

Unlike the Heavenly Dao seals his disciples had, these were one-time use seals.

Once activated, the Heavenly Dao laws would enter the bodies of the ghost experts.

When necessary, it could even refine ghost experts to strengthen the power of the Heavenly Dao laws as they infiltrated the laws of Heaven and Earth.

"Dao realm."

Chu Xuan was almost certain that the calamity descending upon the Central Zone would involve Dao realm blood fiends.

He just did not know how many.

If the human race could not withstand it, then their fate would be at risk, and the entire human race would be in danger of declining during this Great Daoyuan calamity.

"There should be Dao realm old guys hiding within those ancient forces, right?"

Chu Xuan was not sure.

However, the human race would definitely be prepared for the Great Daoyuan calamity. Those ancient forces were not to be trifled with.

Throughout human history, there were many Dao realm cultivators. However, many of them were unable to progress past the Dao realm, and were probably concealing themselves within these ancient forces.

In theory, as long as their Dao principles were not destroyed, the lifespan of a Dao realm expert was limitless.

Chu Xuan patiently waited and observed.

He wanted to see what would happen to the nine zones once the Great Daoyuan calamity descended upon the Central Zone.

Would that hidden expert in the Western Zone make any new moves?

Furthermore, Chu Xuan was curious as to whether the sole remaining zone, the Desolate Ancient Zone, would be affected by the Great Daoyuan calamity.

After all, the Desolate Ancient Zone was a bit special.

Still, his intuition told him that things would not be peaceful there either.

At this moment, Hong Yuanchu was looking for him in the group chat. He looked rather anxious.

Chapter 335: Blood From The Heavens

Chu Xuan was surprised. Did Hong Yuanchu, who was one of the human race's ancestors, sense something unusual?

"Daoist Brother Chu, what's going on with the Great Daoyuan calamity of the nine zones? Why is it developing so quickly? Everything is progressing much faster than the previous Great Daoyuan calamities!"

Hong Yuanchu was clearly anxious.

"Also, what's going on with the human race? Why does it feel like the fate of the human race is at risk?"

He was one of the ancestors who had led the human race to become the overlord race. As such, the changes in the human race's fate did not escape his notice.

Based on his experience, such a situation should not have occurred during the early stages of the Great Daoyuan calamity.

During the Great Daoyuan calamity, Hong Yuanchu had used some means to observe the calamity and support the human race.

As such, he could sense that there was something clearly wrong with this Great Daoyuan calamity, which made him feel uneasy.

Could it be that the great calamity Chu Xuan spoke of was starting to affect the human race as well?

Chu Xuan was stunned. Was the Great Daoyuan calamity progressing too quickly?

He did not know. After all, he had not personally experienced the previous Great Daoyuan calamity.

However, he did not doubt Hong Yuanchu's words.

Was this related to the impending Great Dao calamity?

Chu Xuan was unsure, but in order to prevent the Daoyuan and Dao realm cultivators in the Desolate Ancient Zone from interfering with his plan, he had to come up with something to deceive them.

"Don't panic. This is all an illusion."

"The great calamity is coming. The Great Daoyuan calamity is only a precursor to this, so it's not unusual for it to develop faster."

"The human race is blessed by the heavens and has a strong fate. There won't be any problems. It's just that you can't sense it clearly."

He consoled Hong Yuanchu and the other human race cultivators.

"Some changes are happening in the nine zones," he continued, "Dao realm cultivators should not enter the nine zones for the time being, no matter what seems to be happening there. Otherwise, there will be a huge calamity."

"If we aren't careful, the calamity might affect the primordial land, which we have to avoid."

Hong Yuanchu was shocked.

Would it affect the Daoyuan realm cultivators?

They were not ready to face the great calamity yet.

Since this matter concerned their lives, these Dao realm cultivators did not dare to be careless. They naturally restrained the Dao realm cultivators in the Desolate Ancient Zone.

After deceiving the Daoyuan and Dao realm cultivators, Chu Xuan continued to focus on the Central Zone.

At this moment, the sky above the Central Zone was turning redder and redder, and an oppressive aura filled the hearts of almost all of the cultivators of the Central Zone.

Central Zone, Central Region, where the alliance's headquarters was located.

Ji Dexin stood on a mountaintop and looked up at the sky, frowning slightly.

The entire sky was dyed red. The signs of this Great Daoyuan calamity were beyond his expectations.

"The Great Daoyuan calamity shouldn't be like this."

Ji Dexin's eyes glowed with a mysterious light. He looked at the sky, as if he was trying to decipher something.

However, all he saw was a mess.

"I'm afraid that this calamity is not ordinary."

An old man walked over from behind.

"What do you think, elder?"

Ji Dexin looked at the old man respectfully.

This old man was an expert from the older generation of the Ji family and had surpassed the Divine realm. However, for some special reason, he was residing with the Ji family.

He only came out of seclusion after the Great Daoyuan calamity arrived.

"I can't see through it either."

The Ji family elder shook his head and said, "I'm afraid there will be Dao realm blood fiends."

Ji Dexin nodded and asked, "Elder, you should be able to handle it, right?"

"I hope so."

The Ji family elder sighed.

Ji Dexin remained silent.

"You are the future of the Ji family. No matter what, you can't take too many risks."

"I know what needs to be done."

"I'll go look for those old guys and talk about countermeasures for this."

The Ji family elder left.

Ji Dexin's body glowed with a divine light. His aura began to soar, and he looked more and more extraordinary.

Furthermore, he was wearing a piece of divine and extraordinary armor, which was concealed from sight.

Boom!

The blood-red sky suddenly erupted.

It was like boiling blood, bubbling and swirling.

Then, blood fiends with bulging muscles and brutal auras descended from the sky.

"Assemble the battle formation! Kill!"

In the cultivator army, relying on the battle formations, the auras of the cultivator army condensed and were channeled through the battle formations, releasing a terrifying attack.

They wanted to kill blood fiends before they landed.

Boom!

A terrifying blood-colored figure appeared in the sky, exuding an aura that had clearly surpassed the Divine realm.

It launched an attack, and even though the cultivator army had launched their strongest attack, they were still unable to defend themselves. In an instant, they were turned into a bloody mist that permeated the air.

The Great Daoyuan calamity had finally descended upon the Central Zone!

It was also at this moment that the figures of the ghost race experts appeared in various regions of the Central Zone. The Heavenly Dao seals on their bodies disappeared in the blink of an eye and disappeared into the shaking sky.

A Dao realm blood fiend had descended, and wiped out two battle formations in an instant.

Boom!

Two powerful auras charged into the sky and blocked the Dao realm blood fiend. A huge battle broke out in the sky.

Ji Dexin was floating in mid-air, surrounded by divine light. He issued a series of orders.

"All Heaven realm cultivators, set up the divine battle formation to block and attack the blood fiend!"

"All Supreme realm cultivators, set up the flying dragon battle formation and get rid of the blood fiends on the ground!"

"All Emperor realm cultivators, set up the Starlight battle formation and protect the women and children. Anyone below the Emperor realm is to enter the shelter!"

"The human race rose up in the Great Daoyuan calamity, and we will do the same during this Great Daoyuan calamity!"

Ji Dexin's voice was loud and clear as he sent out orders to all of the regions through communication talismans.

Boom!

Another Dao realm blood fiend descended.

Two more Dao realm cultivators charged into the sky and fought with it.

Ji Dexin pulled out a huge sword. The golden sword exuded a divine aura.

He led the Divine realm experts of the Ji family to kill the Divine realm blood fiends.

With a wave of the sword, divine light flashed and a blood fiend collapsed. Even the blood-colored spiritual energy was weakened wherever that divine light passed through.

The Ji family's Divine realm experts were not as powerful as him, but the power they used was similar to Ji Dexin's. Their attacks also weakened the blood-colored spiritual energy to prevent the blood fiends from becoming stronger after revival.

Two Dao realm blood fiends had descended upon the Central Region, whereas in the Qian Region, which was the second-most powerful region, a single Dao realm blood fiend had descended.

A Dao realm elder from an ancient force in the Qian Region charged forward and began to fight it in the sky.

Qian Ming stared at the sky and watched as the other blood fiends got closer and closer. His Heavenly Dao seal had already flown up into the sky and successfully penetrated the laws of Heaven and Earth of the Qian Region.

Chapter 336: Qian Ming Rises Up

Qian Ming stared at the blood fiends that were falling from the sky, specifically at the Heaven realm blood fiends. They were his target.

The time had come.

He wanted to rise up during this Great Daoyuan calamity.

Since his senior brothers had already taken action, it was time for him to follow in their footsteps.

The geniuses of the Qian Region all rushed up and fought in the sky.

They fought with serious expressions, which turned solemn after they saw the blood fiends revive and become stronger after death.

It was at this point that everyone truly realized how terrifying the blood fiends were.

Some geniuses fell in battle.

Others rose up while fighting and broke through to become stronger.

Qian Ming stood at the peak of the mountain. His figure transformed and the entire mountain seemed to have become part of his body.

Every blade of grass and tree seemed to be his weapon.

His fellow sect cultivators all turned pale and ran away.

Not far away, an expert from an ancient force looked at Qian Ming with shock.

There was such a terrifying Heaven's Blessed here?

This genius' strength had clearly surpassed the other Heaven realm geniuses, yet he seemed to have only just reached the Heaven realm.

Qian Ming moved.

His true body disappeared, but the mountain itself moved, soaring into the sky.

Boom!

The wind surrounding the mountain turned into sharp blades, and countless trees turned into all kinds of weapons. Flames surged, and an aura of destruction erupted.

Everything a few dozen miles of the mountain turned into elements or weapons that fused into his attack.

"Heaven and Earth Myriad Transformation technique!"

For the first time, Qian Ming displayed his power!

Boom!

The first blood fiend shattered, and the blood-colored spiritual energy that it turned into was cleansed, becoming thinner and thinner.

Boom!

Another blood fiend shattered!

The mountain hurled itself into the descending blood fiends, obliterating them and cleansing the resulting blood-colored spiritual energy.

Qian Ming's feats overshadowed countless geniuses from the Qian Region, including the successors of the ancient forces.

Killing Heaven realm blood fiends seemed effortless to him.

As the son of fate of the Qian Region, Qian Ming's rise was inevitable.

"Your disciple, Qian Ming, shook the entire Qian Region and rose to power. He fought for fate amidst the Great Daoyuan calamity and his cultivation soared. Your Fate Dao principle has advanced."

Qian Ming has risen up.

Chu Xuan was not surprised by this. After all, Qian Ming was the son of fate of the Qian Region.

Moreover, he was cultivating the Heaven and Earth Myriad Transformation technique, which Chu Xuan had handpicked for him.

Among the disciples, Qian Ming was the most junior, and also the weakest. Now, thanks to the calamity, he was catching up with the others.

Right now, only Qin Ying, Hei Yue, Demon Buddha, and Hu Tianya had not achieved feats of greatness, but Chu Xuan believed that it would not be long before he reaped a harvest from them.

They were, after all, his disciples.

The battles in the Central Zone continued, bathing both the sky and the earth in blood.

The humans were at an advantage, but the blood fiends were constantly getting stronger after revival.

It was time for a new strategy.

Formation experts and cultivators who practiced special cultivation techniques joined the army, constantly purifying the blood-colored spiritual energy to prevent the blood-colored spiritual energy from gathering together.

The human race's fate was still unstable.

The outcome of the battle had yet to be determined.

The Heavenly Dao laws were also quietly expanding.

Boom!

Another Heaven realm blood fiend was killed by Qian Ming.

Chu Xuan was worried about the situation in the Central Zone and frowned. He took out the Myriad Heavenly Mirror and connected it to the Qian Region where Qian Ming was.

When the image projection appeared, what greeted his eyes was a sea of blood in the sky.

The blood fiends looked like raindrops as they fell from the sky one after another.

The human army continued to fight.

Chu Xuan turned his attention to Qian Ming. His disciple had already reached the fifth level of the Heaven realm.

The stronger he became, the stronger his fate became. As he rose up, the Qian Region's fate rose with him.

Not far away, tens of thousands of cultivators were gathered together, combining their power to form a unique formation. Their combined attack swept away countless blood fiends, and even purified some of the blood-colored spiritual energy.

The battle formation of the Heaven realm cultivators was even more terrifying. A 100-man Heaven realm battle formation could match a Divine realm blood fiend!

This was the power of the battle formations that had contributed to the rise of the human race back then. Even though they lacked top-notch cultivators in that era, they relied on these battle formations to fight the experts of the demon and monster race.

The battle was extremely intense. Chu Xuan could sense that two regions of the Central Zone were on the verge of collapse.

Deactivating the Myriad Heavenly Mirror, Chu Xuan took out the Heaven-spying Mirror and infused his Dao aura into it.

The battle between the Dao realm experts was still ongoing.

In the image projection, two human Dao realm experts were fighting against a Dao realm blood fiend.

When Chu Xuan examined their cultivation, he realized that it was just as he expected. The Dao realm experts who had chosen to remain in the nine zones all had issues with their cultivation.

The entire Central Zone was in turmoil.

The battle continued for a few days, but the blood-red sky did not relent. The blood fiends kept descending upon the human army, which was already starting to show signs of exhaustion.

Shua!

The two regions in danger suddenly received reinforcements.

Some Divine realm experts returned from the Desolate Ancient Region and joined the battle.

In any case, there was no lack of Divine realm cultivators who were nearing the end of their lifespans.

Chu Xuan observed the situation silently. He did not plan on interfering for the time being, as he wanted to avoid being targeted by the Great Daoyuan calamity, as well as that hidden expert.

He believed that the human race's Foundation was not limited to this, and that their true trump cards would only be revealed when it became a crisis of existence.

Qian Ming had already stopped fighting and was now recuperating, and the mountain he had used was currently in ruins after the battle. As he continued to fight for fate, his cultivation would soar, and soon enough, he would break through to the Divine realm, possibly even before the first wave concluded.

Chapter 337: The Reincarnation Of A Half-Saint Of The Celestial Race

Chu Xuan sighed. The Great Daoyuan was indeed a golden opportunity for courageous cultivators to rise up. It was not unusual for cultivators to experience more than one breakthrough during or after a battle.

Of course, to be able to make full use of this golden opportunity, these cultivators had to fight for fate, and be powerful enough to begin with.

As long as the human race could withstand these attacks, they would experience an increase in strength.

If they could not, then the human race would decline.

Qian Ming once again joined in the battle.

The blood-colored sky started to tremble and swirl, as if it was going to collapse.

In the Central Region of the Central Zone, a crack suddenly appeared in the sky.

A terrifying blood fiend descended.

Dao realm!

"Not good!"

Countless experts from the ancient forces were shocked.

Another Dao realm blood fiend!

Who could stop it?

The Dao realm experts of the human race were all already fighting. There were none left to engage this newcomer.

A dozen peak Divine Realm experts gritted their teeth and charged into the sky, trying to stop the Dao realm blood fiend.

Even though they knew that they were no match for it, they did not have a choice.

Among the people who attacked was the current head of the Ji family, Ji Tianbei.

"Dexin, retreat quickly!"

As long as Ji Dexin survived, the Ji family's legacy would be preserved. His talent far surpassed the other geniuses of the nine zones, so he could not be allowed to fall here.

However, Ji Dexin did not retreat.

His body glowed with divine light. A suit of armor covered him, making him look even more extraordinary.

Ji Dexin raised his sword and faced the Dao realm blood fiend.

What?!

Ji Tianbei and the other elders of the Ji family were all shocked.

"Dexin, you can't, retreat quickly!"

However, Ji Dexin turned a deaf ear to their cries. A divine light enveloped him as his figure shot into the sky.

Through the Heaven-spying Mirror, Chu Xuan saw Ji Dexin rise into the sky to meet the Dao realm blood fiend.

That divine armor was extraordinary.

Challenging a Dao realm blood fiend?

If he succeeded, Ji Dexin would be the biggest beneficiary of this wave of the calamity in the Central Zone.

The divine light and the blood-red fiend collided, causing an explosion, after which the blood-colored spiritual energy dispersed.

Within a radius of a hundred miles, the sky was clear.

The Dao realm blood fiend had fallen!

Ji Dexin's aura rose sharply, and the divine light around him grew stronger.

A mysterious aura suddenly appeared and enveloped him.

The blessing of the Great Dao!

Everyone was stunned.

Ji Dexin had succeeded in challenging the Dao realm blood fiend!

What kind of monster was he?

The elders of the Ji family were ecstatic.

Many of the ancient forces were silent and fearful.

Chu Xuan's expression turned serious.

Divine realm cultivators should have had no way of killing or resisting a Dao realm cultivator. There was something wrong with Ji Dexin's armor and sword.

When that Dao realm blood fiend charged at Ji Dexin, it was annihilated by a divine light hidden in the armor.

Ji Dexin's aura was growing stronger and stronger. He was now just a step away from the Dao realm.

Chu Xuan felt that Ji Dexin should have been able to reach the Dao realm, but had instead suppressed the breakthrough.

Was he planning to continue to fight for fate as a Divine realm cultivator? This genius was definitely hiding a big secret.

Heavenly Secrets Origin Probing technique!

Ji Dexin, possesses the fate of the Great Dao, and is the reincarnation of a half-saint of the celestial race. He is the young master of the Ji family.

Chu Xuan was stunned.

A half-saint of the celestial race?

Moreover, Ji Dexin was actually a person who possessed the fate of the Great Dao. Was it because he had just been blessed by the Great Dao, or was it because his original self was someone who had transcended the nine zones

What was the cultivation level of a half-saint?

Chu Xuan pondered for a moment. The Jade Crystal Palace was the cultivation abode of a saint of the celestial race, which was equivalent to Daoyuan realm cultivation.

As such, was a half-saint a 36th-level Dao realm expert?

Or was a half-saint a peak 36th-level Dao realm expert who was just one step away from the Daoyuan realm?

It was no surprise then, that Ji Dexin was so extraordinary.

However, why had Ji Dexin reincarnated into the human race?

Was the celestial race planning something?

Chu Xuan could not help but think of that hidden expert in the Western Zone.

Could he also be a member of the celestial race?

However, judging by the sides they chose, that hidden expert was probably not from the celestial race.

Perhaps that person was from the demon or monster race that had left the nine zones?

Were these races trying to return to the nine zones?

These were powerful races, so if they planned to return to the nine zones, it would spell danger for Chu Xuan.

He had to reach the Daoyuan realm as soon as possible!

The future was uncertain, and only strength would be able to guarantee that he would be able to maintain his peaceful existence.

Ji Dexin... interesting!

Chu Xuan narrowed his eyes. The Ji family was an ancient force with a long history. Ji Dexin probably reincarnated into the Ji family to take advantage of their status in the human race.

What exactly was he planning?

Chu Xuan felt that he needed to understand the Ji family better.

Hong Yuanchu was one of the ancestors who had led the human race to become an overlord race. However, there was no Hong family in the nine zones. Did Hong Yuanchu leave behind an inheritance?

If the Ji family had a Daoyuan realm expert, would he or she be able to detect the abnormality with Ji Dexin?

He could ask Hong Yuanchu about it.

Chu Xuan wanted to understand what kind of existence the Ji family's old ancestor was.

Hong Yuanchu was definitely not the first Daoyuan realm expert among the human race. In the human race's long history, even while they were suppressed by the other races, they should have had their fair share of experts.

Chapter 338: Great Dao Calamity Aura

Ji Dexin's slaying of the Dao realm blood fiend meant that the human race had emerged victorious in this wave of the calamity in the Central Zone.

The human race had survived.

Although the battle was still going on, the human race had gained the upper hand, and the morale of the human race soared.

However, the danger had not passed. There would be more waves as the calamity progressed, and things would not be finished until the Great Daoyuan calamity had concluded.

Qian Ming was still in the battle. Although he was not as dazzling as Ji Dexin, he was one of the most outstanding geniuses in the Central Zone.

As he continued to fight for fate amidst the calamity, he further solidified his position as the son of fate of the Qian Region.

If nothing expected happened, Qian Ming would reach the Dao realm by the end of this Great Daoyuan calamity.

Chu Xuan turned his attention away from the Central Zone.

Now, in the entire nine zones, other than the Northern Zone, only the Desolate Ancient Zone was untouched by the blood fiend race.

However, Chu Xuan was certain that it would not remain this way.

After a long journey, Ren Changhe finally reached the outer perimeter of the primordial land.

Although it was still a distance away from the primordial land, there was a barrier that prevented his entry, so this was the best he could do.

He began to prepare and set up things according to Chu Xuan's instructions.

Chu Xuan then instructed Ren Changhe to return to the Northern Zone after completing his task.

It was time for the Heavenly Dao laws to give birth to a Dao realm expert.

After the Great Daoyuan calamity descended upon the Central Zone, the nine zones became more and more chaotic. The blood fiend race continued to wage war on the living beings of the nine zones, wiping out many small races.

The members of the Great Dao Communication Group also became active and talked about the changes they felt.

For example, Ying Kong, who was the weakest among them, jumped out and said that he had been feeling uneasy recently and had a feeling that a great opportunity was waiting for him.

Ying Kong was very scared. After hearing Chu Xuan's previous words in the group, he did not even dare to exit his secluded cultivation, and did his best to suppress his urge and the calling to enter the calamity.

Ying Kong was not the only one who felt this way. Some of the other members of the group also expressed that they were being tempted by this mysterious temptation.

This was a sign that the Dao realm experts were about to enter calamity.

Hong Yuanchu and the other Daoyuan realm experts told them to stabilize their minds. At this critical moment, they remain calm.

Hong Yuanchu and the others who had experienced the last Great Daoyuan calamity were solemn. The calamity was developing too quickly, and something was obviously wrong.

How long has it been since the Great Daoyuan calamity started?

Not even a hundred years had passed, and yet the calamity was starting to tempt Dao realm experts into entering the calamity.

This was dangerous, so they did their best to forbid any Dao realm cultivators in the Desolate Ancient Zone from entering the calamity.

Suddenly, Yi Yuejun returned.

"Daoist Brother Chu, it was so scary. I almost met my end!"

Chu Xuan was shocked. What had happened?

Yi Yuejun was a creature of the Great Dao. As long as darkness existed, he would too. How could he have almost died?

What was that strange black power?

"Fellow Daoist Yi Yuejun, what's going on?"

Yi Yuejun's expression was solemn, and there was a trace of fear in his eyes.

"That strange black power is extremely terrifying. After I touched it, it began to corrode me. I resisted it while continuing to explore, but in the end, my entire body mutated."

Yi Yuejun continued fearfully, "That strange black power is very ominous. After my body was corroded, I actually grew red feathers!"

???

What the hell? You grew red feathers?

Although Chu Xuan was stunned, he realized that it was extremely unusual for a ten-winged Hell Devouring Roc to grow red feathers.

"What happened after that?"

Chu Xuan asked curiously.

Could it be that Yi Yuejun was now a red Roc?

If that was the case, he would have his suspicions that the latter was transforming into a blood fiend.

Creatures of the Great Dao would not turn into blood fiends, would they?

That would be truly terrifying!

"Of course I was happy at the beginning. After all, my feathers now had a new color."

Yi Yuejun sighed.

"I didn't pay much attention to it at first. After all, it was just an additional color, but as it progressed, half of my feathers became rainbow-colored."

"If that was the extent of it, it would have been fine, but the different-colored feathers started to repel each other. I feel like something is wrong with my entire body. It was

then that I realized that things were serious, and I did my best to expel the strange black power from my body."

Chu Xuan's expression also turned serious.

When Yi Yuejun tried to expel the corrosive strange black power, he encountered resistance. Despite his strength, he was actually unable to expel it from his body for a long time.

He was so scared that he did not dare to stay around the strange black power. However, no matter where he turned, he was trapped by the strange black power. It was like a fog that surrounded him.

Still, he was a powerful creature of the Great Dao, so he eventually made it out. After that, he focused on expelling the strange black power from his body, which took even longer.

This was the reason why Yi Yuejun had suddenly disappeared without a trace.

"Fellow Daoist Yi Yuejun, what do you think of the strange black power?"

Something that could corrode a creature of the Great Dao was terrifying.

Yi Yuejun pondered for a long time before saying, "I can sense the aura of calamity from that strange black power. It's ominous and inauspicious."

"I suspect it's the legendary Great Dao calamity aura!"

Yi Yuejun continued seriously, "When I was born, I was born with an inheritance and legacy in my mind. Parts of this described the Great Dao calamity aura, and how dangerous it was, even to Daoyuan realm experts."

The Great Dao calamity aura!

This was definitely related to the Great Dao calamity!

Chapter 339: A Sense Of Crisis

Chu Xuan once again felt a sense of danger. If this aura started to spread, all living beings below the Daoyuan realm would die, and Daoyuan realm experts would have to fight for their lives.

Furthermore, this was more terrifying because the Great Dao was everywhere, and the Great Dao calamity could strike anywhere!

"Daoist Brother Chu, the appearance of the Great Dao calamity aura should be related to the Great Dao calamity you mentioned, right?"

Yi Yuejun's expression turned serious.

When he first heard about the Great Dao calamity, he had not bothered with it, and neither did Huang Long and Gui Ran.

After all, they were creatures of the Great Dao and very special.

Apart from being unable to leave the Great Dao, they were basically immortal.

As long as the Great Dao was not destroyed, they would not die.

However, after coming into contact with the Great Dao calamity aura, he no longer thought that way.

Even if they did not die, they would mutate into strange creatures.

That was a fate worse than death.

Even if they could recover in the future, how long would it take?

Currently, there was only a small amount of that strange black power, but if it spread throughout the Great Dao, where could they hide? At that time, they would not be spared from the Great Dao calamity.

In fact, no Daoyuan realm expert would be spared.

After all, the Dao paths they had opened up were all connected to the Great Dao.

"That's right, this is a sign of the Great Dao calamity. Fellow Daoist Yi Yuejun, please be vigilant. I have to prepare some countermeasures," Chu Xuan said solemnly.

"Alright, I'll be careful."

Chu Xuan ended his conversation with Yi Yuejun and informed Huang Long and Gui Ran. These two creatures of the Great Dao should also help him to keep an eye on things.

Originally, Chu Xuan had expected the Great Dao calamity to be in the distant future. However, given the speed that the Great Daoyuan calamity was developing, it was likely that the Great Dao calamity would also arrive soon.

Chu Xuan took out the Chaos Dao Mirror and infused his Dao aura into it, trying to deduce when the Great Dao calamity would descend. However, he was met with strong resistance and failed.

He then tried to deduce the end of the Great Daoyuan calamity, but also failed.

This heightened his sense of danger.

After trying a few methods of deduction, he failed to obtain any results. It was obvious that his cultivation level was restricting him.

Chu Xuan turned his gaze to the Chaos Zone. Hei Yue was someone he had high hopes for, and he hoped she would surprise him.

The Buddhist Zone was still at a stalemate. For the time being, the Heavenly Dao laws were unable to completely take over the Buddhist Zone.

Qin Ying was not making much progress in the Eastern Zone either.

Chu Xuan could only patiently wait and hope that his disciples would bring him a great harvest so that he could increase his cultivation level as soon as possible..

The battle in the Central Zone was about to end.

Thanks to Qian Ming's feats, the Heavenly Dao laws had already devoured almost two-thirds of the laws of Heaven and Earth in the Qian Region.

Ji Dexin had taken complete control of the alliance. Almost all of the human forces in the Central Zone were under his command, and his reputation resounded throughout the Central Zone.

He had the makings of a human king.

If nothing unexpected happened, Ji Dexin would become the human king of the Central Zone during this calamity.

He might even become the human king of the entire nine zones!

Ji Dexin was the reincarnation of a half-saint of the celestial race. What would he do when he became the human king?

What was the future of the human race?

Would he make the human race a vassal of the celestial race?

The human experts would definitely not allow it, especially Hong Yuanchu.

After all those hardships, he had finally led the human race to become an overlord race, so having the human race regress like that would be unacceptable.

Or was Ji Dexin trying to accomplish what he did with the demon race and Netherworld race and turn the human race into the celestial race?

Chu Xuan pondered for a moment. He could not let Ji Dexin be. There had to be a human Heaven's Blessed who could compete with him.

The nine zones would be Chu Xuan's territory in the future.

He definitely could not allow it.

However, none of the disciples could compare to Ji Dexin.

Ding Yue could not.

Qin Ying could not either.

Not even Hei Yue.

Although Fengkong was a human king, that was in the past. His current influence only extended to the Southern Zone.

Furthermore, he was far inferior to Ji Dexin in terms of both fate and reputation.

One was an old man, while the other was a peerless genius of the human race.

Fengkong's era had passed.

Only the current Heaven's Blessed of the human race could defeat Ji Dexin.

For the time being, there was no one among his disciples who was on par with Ji Dexin. Chu Xuan could only hope and wait for one of his disciples to rise up and compete with Ji Dexin.

Chu Xuan privately messaged Hong Yuanchu to ask him about the Ji family's ancestor.

Was Ji Dexin's reincarnation in the Ji family approved by the ancestor of the Ji family?

If the Ji family's ancestor had tacitly agreed, this meant that the Ji family's ancestor had probably come into contact with the celestial race.

"Fellow Daoist Hong, do you know of the human race's Ji family?"

Chu Xuan had already established his image as a peerless expert and an old senior in the hearts of Hong Yuanchu and the others. There was no need to beat around the bush.

Hong Yuanchu and the others would not be suspicious if he asked directly.

"The Ji family?"

Hong Yuanchu was taken aback. Why did Chu Xuan suddenly ask about the Ji family?

Could it be that the calamity affected the human race and the Ji family?

"The Ji family has a long history. While I was still a weak cultivator, I had already heard of the legend of the Ji family's human king. He was the human king when the human race was weak, and the one who strengthened the human race."

Chu Xuan did not expect the Ji family's heritage to be so vast that even Hong Yuanchu, who had been around for two Daoyuans, considered the Ji family's human king a legend."

"Do you know where the Ji family's human king is? Did he reach the Daoyuan realm?"

Hong Yuanchu thought for a moment and said, "He must have reached the Daoyuan realm. It's just that he has disappeared for a long time and we have never seen him before. I have also asked the descendants of the Ji family, but they have no idea where he is either."

When Chu Xuan mentioned the Ji family's human king, Hong Yuanchu suddenly remembered that they were not the only Daoyuan realm experts among the human race.

Where had those who had reached the Daoyuan realm before them gone?

Chapter 340: Secrets Of The Daoyuan Realm

Hong Yuanchu suddenly realized that although he was one of the people who led the human race to rise to become an overlord race of the nine zones...

The experts who had led the human race while they were weak, and established them as a strong race in the nine zones, had all disappeared.

"Daoist Brother Chu, I just remembered something. When I was about to open my Dao path, a demon expert tried to kill me, but an unknown human expert blocked him."

"I only had a quick glance at that time. Later on, I heard that the human expert who attacked was the son of the Ji family's human king, a Daoyuan realm expert."

Chu Xuan's expression became strange.

Hong Yuanchu was a Daoyuan realm expert. Why was his memory so poor to the point that he only remembered this incident after being prompted?

He had probably been affected by some sort of strange power, resulting in these memories fading into the back of his mind.

After Hong Yuanchu finished speaking, he fell silent.

He was not stupid, so he naturally realized that something was wrong.

The strange power that affected his memories had probably been used on him before he opened his Dao path.

Was it done by someone or something?

If it was done by a person, that meant that he had long been targeted by a Daoyuan realm expert...

And that expert was very likely to be a human.

What was the other party's purpose in doing this?

Hong Yuanchu's expression darkened.

Which unparalleled expert was not prideful?

He had led the human race to rise to power and become the overlord race of the nine zones, yet he had fallen victim to some unknown expert without even realizing it.

"Daoist Brother Chu, do you think it was done by someone, or ...?"

How would Chu Xuan know?

After all, his cultivation had yet to reach the Daoyuan realm.

Whether it was done by someone or influenced by the laws of the Great Dao, no one knew.

Therefore, Chu Xuan did not answer directly, but instead asked, "Fellow Daoist, do Mo Tu and the others know of the demon race's pioneers before them?"

Hong Yuanchu was stunned.

That was a good question!

Did Mo Tu know?

If he did not, and part of his memories were lost too, then it was likely that it was not done by a human expert and perhaps instead the laws of the Great Dao.

Chu Xuan continued to ask, "Is there a Daoyuan realm expert from the Ji family in the primordial land? Are there any Dao realm cultivators from the Ji family?"

Hong Yuanchu replied, "We don't know how many Dao realm experts the Ji family has. If there is a Daoyuan realm expert who's hiding himself, we won't know unless he shows himself or leaves this place to head to the nine zones."

Chu Xuan obtained new information from Hong Yuanchu's words.

If there was a Daoyuan realm expert in the empty space above the primordial land, Hong Yuanchu and the others would have no way of knowing. Only when someone left that space would the others be able to sense their presence.

The waters of the nine zones indeed ran deep.

Where did the Daoyuan realm experts before Hong Yuanchu and the others go?

Why had Hong Yuanchu forgotten about this?

"Daoist Brother Chu, why are you asking about the Ji family?" Hong Yuanchu asked curiously.

"I found something interesting, so I was just casually asking."

Hong Yuanchu tactfully stopped asking since Chu Xuan did not elaborate.

After chatting about the Ji family, Chu Xuan ended his private chat with Hong Yuanchu.

According to the information he had obtained from Hong Yuanchu, the Ji family had a long history. The Ji family's human king was one of the key figures that led the human race to establish themselves as a strong race.

Although they were not as strong as the demon race and the monster race, they were able to hold their own.

Then, in Hong Yuanchu's era, they rose up to become an overlord race of the nine zones.

Without a doubt, the Ji family's human king was a peerless genius, who managed to reach the Daoyuan realm despite the suppression of the demons and monsters.

Furthermore, when Hong Yuanchu was about to open his Dao path, a Daoyuan realm expert that was suspected to be the son of the Ji family's human king saved him.

This meant that the Ji family had more than one Daoyuan realm expert.

However, both were missing. Clearly there was something unusual about this whole situation.

He needed to pay more attention to Ji Dexin.

The group chat started to become active.

When Hong Yuanchu asked Mo Tu and Mo Zhan about their predecessors, they were both shocked.

Were it not for Hong Yuanchu's question, they would never have thought about this matter.

It was as if there was a law that made them think that they were the first generation of Daoyuan realm experts among the demon race.

Hence, in the group chat, Mo Tu and the other Daoyuan realm experts began to discuss this matter and the possible causes.

If the human race, demon race, and monster race Daoyuan realm experts had all experienced this, then the possibility of it having been done by someone was very small.

The other smaller races also jumped out, wondering if there had been other Daoyuan realm experts before them.

Chu Xuan observed their discussion and suddenly realized that he knew too little about the Daoyuan realm.

The strength of one's cultivation level depended on the Dao path that one opened. The length and width of the path indicated the strength of one's cultivation level.

The length of the path had to have some sort of benchmark.

At present, the Daoyuan realm experts in the group were all in the early stages of opening their Dao paths.

Chu Xuan knew that, before he bragged about opening a Dao path that was millions of miles long, the goal of the entire group was to open a Dao path that was ten thousand miles long.

This was probably not some random number, but rather some sort of benchmark.

Did the Ji family's human king and the other previous Daoyuan realm experts leave after they had achieved this benchmark or because they had reached a certain limit?

Perhaps one would only be able to leave the Great Dao when one's Dao path had become long enough.

Were these people beyond the Great Dao?

Chu Xuan felt it was possible.

It seemed that there were a lot of secrets within the Daoyuan realm.

He had to be more careful when talking about the Daoyuan realm with others to avoid exposing himself.

Once again, he turned his gaze to the Heavenly Dao laws.

The Heavenly Dao laws could also be considered an alternative method of opening up a Dao path. That being said, the Heavenly Dao laws were currently not strong enough to be on the same level as opening up one's own Dao path.

Still, that would change with time, as the Heavenly Dao laws continued their expansion into the nine zones.

Chapter 341: Hei Yue's Plan

Chao Zone.

It was the most chaotic and active zone in the nine zones due to the number of races that inhabited this zone.

The ten regions in the Chaos Zone occupied a territory that was far larger than the Northern Zone.

With the arrival of the Great Daoyuan calamity and the appearance of the blood fiend race, the various races all chose to do different things.

Some races wanted to rise up in the Great Daoyuan calamity and lay low, waiting for an opportunity. They did not fight the blood fiend race in order to preserve their own strength.

There were also other races and forces that fought the blood fiend race in order to fight for fate.

Many small races were wiped out by the blood fiend race, and the overall population of the Chaos Zone was even reduced by two percent within a short period of time.

Heretic cultivators became more and more active. They took the opportunity to kill other living beings to cultivate their evil techniques.

The Great Evil Palace had been disbanded, and their leaders were nowhere to be found.

The Little Evil King's eyes were bloodshot. He was desperate to find a treasure that could restore his third leg.

Incidentally, he had just reached the Heaven realm, and his moniker of the Alluring Demon King was famous throughout the Chaos Zone.

Every time Little Evil King heard this moniker, he would be infuriated.

In the Chaos Zone, the Black Moon Tower was a unique faction. They provided intelligence and sold communication talismans, myriad zone talismans, and other resources.

They also traveled everywhere, occasionally burying some pillars in the mountains.

Some small races and forces had dug these pillars out to take a look, only to find that they were very ordinary and only used to detect spiritual objects underground. They were not worth much.

Since that was the case, it was not worth offending the Black Moon Tower over them.

Of course, there were also greedy forces and cultivators who wanted to take the pillars for themselves after digging it out, wanting to refine the pillar and forge it into a weapon.

However, after a few experts were killed to make an example, no one took this risk for this tiny bit of profit.

There were also some major forces in the Chaos Zone that kept a close eye on the Black Moon Tower, wary of their purpose and intention.

Then, Grandpa Zhang made an appearance and revealed his peak Divine realm cultivation, intimidating them.

Since the Great Daoyuan calamity had arrived, there was no point making an additional enemy for no reason.

Initially, the blood fiends were scattered all over the Chaos Zone. However, at some point in time, some experts and major forces suddenly realized that the blood fiends were gradually gathering together, specifically within three regions of the Chaos Zone.

The forces of these three regions felt an imminent sense of danger, and a number of the smaller forces and races started to flee those regions.

The major forces and stronger races kept trying to surround and annihilate the blood fiends. However, they could not kill all of them, and more powerful blood fiends kept appearing as time went by.

Soon, things spiraled beyond the control of the major forces of those regions, and they had to retreat.

The major forces that had withdrawn from the three regions naturally tried to fight to obtain their own territory in the regions they retreated to, causing even more chaos.

This was the unique thing about the Chaos Zone. Everyone was out to secure their own benefits, and would not work together for fear of being backstabbed or being taken advantage of.

More and more blood fiends gathered in the three regions, which caused everyone's attention to focus there. Why were they doing this?

Was there a supreme treasure there?

If the blood fiends confined themselves to the three regions, they would be happy. After all, there were still seven regions for them to fight over.

However, if the blood fiends went beyond the borders of those three regions, then they might have to come up with a plan.

On a mountain peak, Hei Yue looked at the blood fiends in the distance that were growing even more numerous as time passed.

After entering the three regions, these blood fiends no longer seemed to crave battle for some reason.

Hei Yue had already learned about the Great Daoyuan calamity in the Central Zone.

Ji Dexin's rise and the fact that he had killed a Dao realm blood fiend was even more surprising.

He was too strong!

Even Hei Yue felt somewhat helpless. How could she catch up to a monster like Ji Dexin?

Although she had no grudges with Ji Dexin, the latter would definitely eventually interfere with her plans, as well as what she wanted to do in the Central Zone.

The chances of conflict breaking out between them were very high.

However, after a brief moment of melancholy, Hei Yue refocused herself and continued working on her plans.

Since Su Xian'er had come over, she could provide her with assistance.

Grandpa Zhang's figure appeared and he said worriedly, "Yue'er, are you really confident? Are you sure that this is feasible?"

"I'm 90% confident."

Hei Yue's expression was calm, and no emotional fluctuations could be seen on her face.

"Grandpa, I was born with an incomplete divine soul. Even if it's incomplete, it still has some special qualities. I won't try to do things beyond my level of ability."

Grandpa Zhang sighed.

He wanted to advise Hei Yue not to be so persistent about the past enmity, but given her stubbornness, how could she let it go?

How could he himself let it go?

"It's useless even if you reach the Divine realm," Zhang Han said helplessly.

"I'm aware of that, Grandfather. Don't forget that I have Master's support. Even Dao realm experts are not indestructible."

Hei Yue's voice was soft.

The blood fiends in the three regions had congregated in endless numbers, and everyone was watching these regions nervously.

They suddenly recalled that the pillars that the Black Moon Tower had buried seemed to be mainly distributed within these three regions.

What did the Black Moon Tower want to do?

What method did they use to attract the blood fiends to gather in those three regions?

Su Xian'er excitedly rushed over to the mountain peak where Hei Yue was, saying:
"Little Yue, everything is ready."

"It's about time to start."

Hei Yue revealed a look of anticipation.

Thanks to Su Xian'er's arrival, the plan's implementation had been accelerated.

"Little Yue, you should smile more and show more emotion. Otherwise, people will think that you're heartless."

"I'm used to it."

Hei Yue shook her head and sighed inwardly.

Su Xian'er was indeed her master's maidservant. She had so many strange and unique treasures with her.

Looking at the dense mass of blood fiends, even Su Xian'er felt somewhat apprehensive.

"Little Yue, are you sure about this?"

"There shouldn't be any problems," Hei Yue said with certainty.

"Alright then. In any case, even if we fail, we can still escape."

Su Xian'er nodded her head.

Chapter 342.1: Hei Yue's Surprise (Part 1)

Chu Xuan had also noticed the changes in the Chaos Zone, but he did not pay much attention to it.

Instead, he focused on the Reincarnation Dao principle, laying groundwork for the future establishment of the reincarnation cycle in the Northern Zone, and then the other eight zones.

This would take time though. The Reincarnation Dao principle was not strong enough. In addition, he needed the Heavenly Dao laws to become stronger as well. Chu Xuan was somewhat helpless in this regard.

Strength was the foundation. Without sufficient strength, it was no doubt a delusional dream to complete the reincarnation cycle.

Chu Xuan was only planning for the future and planning ahead.

The Heavenly Dao laws had to be on par with the Great Dao, or even stronger.

Chu Xuan also pondered on the Great Dao.

He even suspected that this Great Dao only belonged to the nine zones. Was there a Great Dao outside the nine zones?

A Great Dao of the Chaos?

Was that where the previous Daoyuan realm experts had all gone to?

Where was the chaos?

Of course, all of this was just speculation. If he wanted to learn these secrets, he would first need to reach their level

Chu Xuan stayed in the courtyard, occasionally paying attention to the situation in the Western Zone to avoid being surprised by any scheme wrought by that hidden expert.

He was waiting for the 50-year-milestone reward.

With the appearance of the strange black power, the future was uncertain.

The Great Dao calamity might descend at any time, and he was not prepared.

Other than the expansion of the Heavenly Dao laws, there was no way to accelerate the growth of his cultivation level.

Still, Chu Xuan knew that it was useless to be anxious, as that would lead to mistakes.

"Your disciple, Hei Yue, has summoned a portion of the laws of Heaven and Earth and replaced them with the Heavenly Dao laws. She killed the blood fiends in the three regions and gathered the blood-colored spiritual energy into the spirit searching pillar to

fight for fate amidst the Great Daoyuan calamity. Her cultivation level has soared and her fate has been transformed.. Your Fate Dao principle has advanced."

"Your disciple Hei Yue has reached the Divine realm. You have been rewarded with a lump of chaotic energy."

"Your maidservant, Su Xian'er, assisted your disciple, Hei Yue, in setting up a plan to exterminate the blood fiends in the three regions and successfully fought for fate amidst the Great Daoyuan calamity. Her cultivation level has soared and her fate has been transformed.. Your Fate Dao principle has advanced."

"Your maidservant, Su Xian'er, has reached the Divine realm. You have been rewarded with a lump of chaotic energy."

A series of system rewards suddenly arrived.

Chu Xuan was pleasantly surprised. As expected of the disciple he valued. Hei Yue was in charge of the implementation of the Heavenly Dao Talisman plan, and she did not disappoint him.

After a long period of planning, she had finally reaped the rewards. Furthermore, Su Xian'er also benefited from this arrangement.

Chu Xuan turned his attention to the Chaos Zone. At this moment, the three regions were covered in a thick blood-colored spiritual energy, which was being absorbed by the spirit-searching pillar buried underground.

Hei Yue had discovered this special method from the Myriad Artifacts Scripture and the Myriad Formations Scripture, and had used it to absorb the blood-colored spiritual energy.

This was one of the more effective ways to deal with the blood fiend race.

The disadvantage was that it was not easy to make these special pillars. A special material had to be injected into these pillars, one that was relatively rare in the nine zones.

Still, she had managed to make enough of them to exterminate all of the blood fiends in those three regions.

After Hei Yue's fate had transformed, Chu Xuan could see that she was now someone who shouldered the fate of the Great Dao.

Su Xian'er benefited from this as well. Although she only provided support, she had still put in a lot of effort. As such, she too now shouldered the fate of the Great Dao.

As for what it meant to shoulder the fate of the Great Dao, even Chu Xuan did not know. Perhaps he would be able to figure this out once Su Xian'er returned to the small courtyard.

The experts in the Chaos Zone were shocked.

There had been so many blood fiends there, yet they had been exterminated in one fell swoop?

How did the Black Moon Tower do it?

Moreover, with so many blood fiends killed, would the dense blood-colored spiritual energy not give birth to extremely terrifying blood fiends?

Could it be that the Black Moon Tower was going to create a powerful blood fiend?

Once an unstoppable blood fiend appeared, disaster would undoubtedly descend upon the Chaos Zone.

Could the Black Moon Tower really deal with that?

Thinking this, many forces and races put their armies on high alert, waiting to see what the Black Moon Tower's plans were.

Chapter 343.2: Hei Yue's Surprise (Part 2)

After all, the blood fiend race was special. Killing blood fiends was easy enough, especially in the initial stages, but that was only the start of the problems.

Unbelievably, as time passed, many experts were surprised to find that the blood-colored spiritual energy in the three regions was slowly fading.

What did this mean?

Had the Black Moon Tower really mastered a method of completely eliminating blood fiends?

Many forces revealed greedy expressions, especially some of the races who had been eyeing the chance to rise up during this calamity to restore the glory of their race.

Sure, the Black Moon Tower was very powerful, but greed and temptation were powerful driving forces that could make one lose their sense of rationality.

As such, some races began to discuss the possibility of a secret alliance to seize this method from the Black Moon Tower.

The blood-colored spiritual energy in the three regions continued to weaken. As it did, the Heavenly Dao laws also rapidly devoured the laws of Heaven and Earth in those regions.

The day the blood-colored spiritual energy dissipated entirely would be the day the Heavenly Dao laws took over those three regions.

In addition to those three regions, the Heavenly Dao laws also infiltrated the other seven regions of the Chaos Zone, albeit at a much slower pace.

Hei Yue's plan was immaculate, and her execution was precise. Chu Xuan was very satisfied with this disciple of his.

When Hei Yue returned to the Central Zone, he believed that she would be able to come up with a plan to increase the rate of expansion of the Heavenly Dao laws there as well.

The only obstacle was probably Ji Dexin.

Chu Xuan hoped that Ji Dexin would not interfere with Hei Yue's plans in the future. If necessary, Chu Xuan felt that he could knock him down a peg or two. If things really came to a head, Chu Xuan might have to look for an opportunity to kill him.

The question he had to answer before that, though, was whether the hidden expert in the Western Zone was collaborating or communicating with Ji Dexin.

Chu Xuan was waiting for the three regions to be incorporated into the Heavenly Dao laws, which would increase his cultivation level again. As almost the entire population of blood fiends in the Chaos Zone had congregated there, the blood-colored spiritual energy was extremely dense, and would take quite some time to dissipate.

As for those races in the Chaos Zone scheming against the Black Moon Tower, they were irrelevant.

Hei Yue had definitely foreseen this, and had probably factored it into her own plan. Perhaps those races would become her stepping stone as she fought for more fate during the Great Daoyuan calamity.

The nine zones were at war, and countless small races either rose up, or went extinct.

The Monster Zone was rife with such affairs. Given the violent nature of these monsters, they killed each other as well as the blood fiends. A number of tribes had already been eradicated due to this.

Hu Tianya had gathered the Heavenly Tiger tribe's forces, as well as roped in other monster tribes with special abilities. They had been biding their time this entire time, choosing only to defend themselves.

He was waiting for an opportunity, one that would become a turning point in this war.

Only then would he be able to reap a bountiful harvest.

Hu Tianya's bloodline was continuously transforming, and the aura of the divine beast was becoming more and more apparent around him. His bloodline could suppress the entire Heavenly Tiger tribe.

This excited the elders of the Heavenly Tiger tribe to no end. The Heavenly Tiger tribe would rise amidst this calamity!

Chu Xuan hoped that Hu Tianya wouldn't let him down.

He did not expect this little tiger to be as capable as Hei Yue, but he had his own expectations for this disciple.

Hu Tianya's rise and the fate transformation would provide a huge boost to the Heavenly Dao laws' expansion.

Western Zone.

Ding Yue and Xiao Liang were still fighting with blood fiend race.

Unexpectedly, it seemed that the blood fiend race seemed to be holding back somewhat. It almost seemed as if they no longer wanted to conquer the entire Western Zone.

Something felt very wrong here.

These blood fiends seemed to be planning something, or perhaps they were waiting for an opportunity.

In the Southern Zone, Fengkong, together with Wang Luo and Xiang Xing, were trying to find a way to deal with the massive ancient battlefield in the Central Region.

If they did not deal with this ancient battlefield, Fengkong would not be able to leave.

The situation in the Southern Region was relatively stable.

Xiang Bang was hunting down blood fiends everywhere to control the situation in the Southern Region. He realized that the more he fought them, and the better he controlled the situation, the more his fate seemed to transform.

The Dao realm was no longer an impossible goal for him.

A month later.

The blood-colored spiritual energy in the three regions of the Chaos Zone finally dissipated completely.

"Your Heavenly Dao laws have taken over three regions in the Chaos Zone. You have been rewarded with three cultivation level advancements."

Chapter 344.3: Hei Yue's Surprise (Part 3)

The cultivation advancement reward had finally arrived.

Chu Xuan received his reward.

His Dao principles were continuously refined and perfected. At the same time, he had comprehended a new Dao principle.

Chu Xuan was immersed in his state of comprehension as his cultivation level soared.

19th level of the Dao realm!

He was another step closer to the 36th level of the Dao realm.

As this was happening, Divine realm experts from more than 20 races suddenly surrounded Hei Yue.

Grandpa Zhang stood beside her, his brows slightly furrowed.

Hei Yue was not surprised by this, and there was no change in her expression.

At this moment, she was immersed in the Heavenly Dao laws around her.

The power of a region's Heavenly Dao laws were at least equivalent to a Dao realm expert. Although Hei Yue did not have a clear understanding of how strong that was, she somehow could sense that innately.

Furthermore, this was merely the power of a single region's Heavenly Dao laws.

Su Xian'er was eager to start the fight. The fact that she was surrounded did not bother her at all. After breaking through to the Divine realm, she had been looking for someone to test her strength on.

As fate would have it, some people just happened to come knocking on her door.

A foreign race with fur on his face and a pair of small wings on his back walked out as the negotiator.

A seventh-level Divine realm expert!

He was not weak. Someone with this level of strength was usually the pillar of support for a small race in the Chaos Zone.

"We don't intend to become enemies with the Black Moon Tower. However, the Great Daoyuan calamity has descended, and the blood fiends are wreaking havoc everywhere. They are the common enemy of every living being in the nine zones."

"As such, we all have the responsibility to destroy the blood fiend race and restore the nine zones to its former state. Since the Black Moon Tower has a method to destroy the blood fiends, I hope that the master of the Black Moon Tower will not be stingy in sharing this method with the rest of us."

"Of course, we won't take it for free. We'll trade treasures for the method."

On the other side, some human Divine realm experts from some of the forces of the Chaos Zone appeared.

These humans were either fugitives who had offended a big force or were sinners driven away due their unpardonable crimes.

These human experts would usually not work together, and would even kill each other. Some of them were spies from the branches of the human forces in the Chaos Zone.

However, at this moment, they were all here.

"How dare you covet the secret method of our human race, you ant?"

A human expert sneered.

The experts from the small races all had ugly expressions.

"It remains to be seen as to whether the human race can survive this calamity. Don't be too arrogant, or you will find yourselves in trouble once you are no longer an overlord race. Hmph!"

"What a joke. With this secret method, how can the human race not survive the Great Daoyuan? You small races should be sensible and surrender obediently. Otherwise, you won't have a chance when the human race dominates the entire nine zones."

A human expert threatened.

Hei Yue looked on coldly. Whether it was the foreign races or the human race, both sides had ulterior motives.

There were not many good people in the Chaos Zone, simply because good people would not come here, and many who did would not survive here.

Even the people who had been persecuted and escaped here, who were not black-hearted and ruthless in the beginning, after experiencing life and strife in the Chaos Zone, would gradually change...

Because if they did not, they would not survive.

Chapter 345.1: Heavenly Punishment (Part 1)

"Tower Master Hei Yue, how can the human race's secret method fall into the hands of outsiders?"

A human expert cupped his hands and said.

"The Great Daoyuan calamity is an opportunity for the entire human race."

"Tower Master is a proud Heaven's Blessed of the human race and has made an enormous contribution by creating this secret method to eliminate the blood fiends."

"However, Tower Master, the Black Moon Tower is insufficient to fully unleash the power of this secret method and make full use of it. Alone, you might be targeted by the other races. It would be best to pass it on to us so that we can work together to ensure the rise of the human race!"

When Su Xian'er heard this, she gritted her teeth in anger. These people were really shameless.

Hei Yue, however, had a calm expression on her face. She was not angry at all, nor did she pretend to be polite to these people.

"If you want the secret method, just be upfront about it? There's no need to put on a show to justify your greed."

"I'll give you a chance. If you retreat now, I won't hold it against you. If you still intend to seize the secret method, then you'll have to pay for it with your lives."

The expressions of the experts from both sides darkened when they heard this.

The Tower Master of the Black Moon Tower was being arrogant!

They were all Divine realm experts, and there were a number of seventh and eighth-level Divine realm experts in their ranks. Even a peak Divine realm expert would not be able to escape their grasp!

Where did her confidence come from?

A human expert stepped forth, the cold aura around his body swept out in every direction.

"Since that's the case, don't blame us for not considering our relationship as fellow humans."

Shua!

Suddenly, the shadow of a whip flew by and lashed out at him.

The human expert's expression turned cold as he punched the whip.

Pa! Pa!

The whip vibrated, and ice and fire appeared on it at the same time, instantly shattering the opponent's punch.

Immediately after, the ice and fire swirled around and instantly enveloped the human expert.

The one who attacked was obviously Su Xian'er.

These hypocrites had pissed her off too much.

Then, the rest of the Divine realm experts from both sides charged.

"Since you won't hand it over, don't blame us for being ruthless."

There were dozens of them.

Hei Yue's expression was calm, but her eyes flashed with a cold gleam.

"Since you all have a death wish, I'll grant your wish."

She raised her slender hand, and a power that seemed to control all life erupted.

At the same time, a mark appeared on her forehead.

The Heavenly Dao seal!

Su Xian'er stopped her attack and looked at Hei Yue in surprise.

This power was very familiar.

Her eyes flickered, and she soon came to a realization.

Boom!

Facing these Divine realm experts, Hei Yue was not the slightest bit concerned.

Grandpa Zhang, on the other hand, was very nervous.

Even though he knew Hei Yue possessed some extraordinary skills, going against this many Divine experts at once was still dangerous.

However, what he did not understand was how large the gap was between the Divine realm and the Dao realm. No matter how many Divine realm cultivators were on the other side, it did not matter.

A Divine realm expert who was charging over suddenly sensed that the world had suddenly changed, though he could not tell what the difference was.

As such, he chalked it up to being the results of having this many Divine realm experts acting in unison.

No one made the first move. Instead, they approached step by step, constantly putting pressure on Hei Yue.

After all, the first one to make a move would definitely not end up well.

Since that was the case, they would attack together and slowly force the Black Moon Tower to submit.

These Divine Realm cultivators were not stupid. Grandpa Zhang was a peak Divine realm expert. Whoever attacked first would bear the brunt of his fury and would most likely end up dead.

Seeing this, even Su Xian'er felt a little worried.

Hei Yue's expression remained calm the entire time. The Heavenly Dao seal on her forehead glowed faintly, and that power that could control all life fused with the Heavenly Dao laws.

At this moment, Hei Yue's entire being seemed to have sublimated, transforming her into a supreme existence that ruled over all life.

Of course, it was just an illusion.

Even if she cultivated the Heavenly Dao Scripture and was compatible with the power of the Heavenly Dao laws, she could not completely control the Heavenly Dao laws.

The Heavenly Dao seal was the channel by which she controlled the Heavenly Dao laws.

Glancing at the approaching Divine realm experts, Hei Yue remained silent. She had given them their chance.

Chapter 346.2: Heavenly Punishment (Part 2)

They had spurned her offer. Still, this was also within her expectations.

After all, how could dozens of Divine realm cultivators be frightened away by mere words?

One had to demonstrate strength before being feared.

In the other seven regions of the Chaos Zone, pillars of light emerged from the ground at this moment, emitting strange energy fluctuations.

In the small courtyard, Chu Xuan sat on his recliner, leisurely drinking a pot of tea.

He was used to Su Xian'er making tea for him, but she was not around at the moment, so he had to do it himself. Chu Xuan was not used to this.

As expected, it was easy to go from hardship to luxury, but not the other way around.

Chu Xuan sighed.

Su Xian'er had reached the Divine realm.

Her fate had also changed.

It was time for her to come back.

It had been a long time since he had eaten the delicacies Su Xian'er cooked.

Chu Yun also left the Chu family's territory and journeyed around the ancient battlefields of the Northern Zone.

As long as she was in the Northern Zone, Chu Yun would not be in danger. After all, this entire zone was under Chu Xuan's control.

Chu Xuan suddenly put down his teacup and looked at the Chaos Zone through the lens of the Heavenly Dao laws.

Dozens of Divine realm experts were pressuring Hei Yue.

He looked on silently.

Both him and Hei Yue knew this would happen when the Black Moon Tower destroyed the blood fiend race.

Chu Xuan saw Hei Yue activating the Heavenly Dao seal. The Heavenly Dao Scripture she cultivated had the power to control all life, and it was fusing with the Heavenly Dao laws for the first time.

Despite what was going on around her, she remained completely calm, and not even a trace of her aura leaked out.

However, the three regions were already under her control, and she could now wield the power of the Heavenly Dao laws.

Of course, Hei Yue's current strength was still lacking, so she could not completely control it or unleash its full power, even with the Heavenly Dao seal.

Chu Xuan looked on silently. He did not stop Hei Yue's actions, nor the fusion of her power with the Heavenly Dao laws.

He knew that she was making preparations to go to the Central Zone after this to continue the expansion of the Heavenly Dao laws, as well as for her own matters.

Unlike the Chaos Zone, there were no regions in the Central Zone that were currently under the control of the Heavenly Dao laws.

The one that was the closest to completion was the Qian Region, where Qian Ming was. Two-thirds of the laws of Heaven and Earth there had been devoured by the Heavenly Dao laws.

In order to implement her plan, Hei Yue would no doubt make that her first destination. Furthermore, once the Heavenly Dao laws had taken over the Qian Region, she would be able to, like now, use the power of the Heavenly Dao laws to protect herself.

In any case, as the Heavenly Dao laws were similar to the laws of Heaven and Earth, it was nearly impossible for her actions to lead to the discovery of the Heavenly Dao Talisman plan, especially given the turbulent state the nine zones was in due to the Great Daoyuan calamity.

To the eyes of those around her, she was just borrowing the power of the laws of Heaven and Earth.

Chu Xuan looked on silently. Hei Yue still had not made her move, simply watching her enemies approach calmly.

Beside him, Grandpa Zhang was very nervous. If Hei Yue's plan did not work out, he had to be prepared to fight to the death to help Hei Yue break out of this encirclement, which in itself was very unlikely.

Su Xian'er was also a little nervous, but she was not afraid.

Grandpa Zhang looked at Su Xian'er. Seeing her not afraid or worried, he heaved a sigh of relief.

Su Xian'er's identity was not ordinary. If she was not afraid or worried, then it meant that the problem was not big.

Chu Xuan frowned slightly. Hei Yue was not just targeting these Divine realm cultivators.

He could sense that there were changes taking place in the other seven regions of the Chaos Zone.

The Heavenly Dao laws there seemed to be waiting for an opportunity to devour a portion of the laws of Heaven and Earth there.

Chu Xuan laughed. As expected of the disciple he valued.

Chapter 347.3: Heavenly Punishment (Part 3)

Hei Yue had her ways.

If she succeeded, the progress of the Heavenly Dao laws' expansion into those seven regions would be greatly increased.

Looking at the Hei Yue, Chu Xuan could not help but think of Ji Dexin, the reincarnation of a half-saint of the celestial race.

In terms of identity, he was Hei Yue's elder brother from a different mother.

Perhaps he should focus on nurturing Hei Yue so that she could compete with Ji Dexin. Chu Xuan did not want Ji Dexin to monopolize the fate from the Great Daoyuan calamity.

Furthermore, Hei Yue's plans would likely cause her to come into conflict with Ji Dexin.

Qian Ming was powerful, but compared to Ji Dexin, he was still lacking. Furthermore, he lacked Hei Yue's planning ability and foresight.

Among his disciples, perhaps only Qin Ying could compare to Hei Yue in terms of planning and schemes.

Hei Yue looked at the approaching Divine realm experts, who were about a mile away.

"I'll warn you again. Don't let greed destroy you. Don't seek your own death!"

Hei Yue warned again.

The Divine realm experts remained silent. Who was she trying to scare?

There were dozens of them, so what was there to fear?

No matter what kind of trump card she had, it would be useless against their numbers.

"If that's the case, then die!"

Hei Yue raised her hand and waved it.

The sky turned purple, after which purple lightning bolts suddenly descended upon the Divine realm experts.

"Roar!"

The expressions of the Divine realm experts changed, as they channeled their auras and spiritual power to resist the lightning bolts.

What kind of lightning was this?

Lightning generated by the laws of Heaven and Earth?

They all felt a strong sense of danger.

The lightning bolts seemed like heavenly punishment!

Hei Yue coldly uttered, "This is the punishment for your greed!"

"Ah!"

Some Divine realm experts screamed as they were turned into ashes by the lightning bolts.

"Let me go, I was wrong!"

The remaining Divine realm experts started to beg for mercy.

They could not die. They were the pillars of their races!

Hei Yue looked on in silence as they fell, one after another.

The deaths of these Divine realm experts seem to fuel the Heavenly Dao laws, as it expanded rapidly into the other seven regions.

With the deaths of the pillars of these smaller races, the fate of various smaller races were severed, and the laws of Heaven and Earth in those regions were thrown into chaos.

This gave the Heavenly Dao laws the opportunity they needed to quickly devour and replace the laws of Heaven and Earth there.

In front of Hei Yue, anguished cries for mercy kept echoing in the surroundings.

This heavenly punishment was simply impossible to resist!

Chapter 348.4: Heavenly Punishment (Part 4)

Chu Xuan watched as the Divine realm experts fell one after another, turning into dust.

He felt that it was a pity.

If these Divine realm experts became ghosts, the ghost race's strength would increase significantly, as would the Ghost Dao principle and the Ghost World.

Chu Xuan decided to hold on to the divine souls of these Divine realm experts.

After Chu Xuan made up his mind, he used the Heavenly Dao Talisman to capture the remnant soul of a Divine realm expert, who was about to turn into ashes.

There was no need for a complete divine soul, a remnant soul was enough. After submerging it in the River of Styx, it would become a ghost, and its Divine realm foundation would allow it to quickly cultivate back up to its peak strength.

Chu Xuan connected the Ghost World to the three regions, transferring the remnant soul over.

As for the remnant soul's memories, Chu Xuan decided to make some adjustments to it, choosing only to allow the remnant soul to retain memories of its race and cultivation.

After entering the River of Styx, it would take some time for it to be reborn as a ghost.

The stronger one was, the longer it would take for them to be reborn.

Chu Xuan was overjoyed. A portion of the Divine realm experts had already died, but there were still half that he could turn into ghosts. Once their transformation was completed, the ghost race's strength would rise.

Chu Xuan did not hide his actions from Hei Yue.

She was momentarily stunned. Master had intervened?

Was she being too ruthless to these Divine realm experts?

That should not be the case.

Master was not a soft-hearted person.

Then, she felt that those remnant souls were being sucked away by a force.

Heiyue suddenly understood.

Master wanted to turn those remnant souls into ghosts.

The surviving Divine realm experts turned pale with fright. Had their actions incited the anger of the heavens?

Had the Black Moon Tower's achievement of exterminating the blood fiends earned the favor of the heavens?

Heavenly punishment was something that they had only heard of in legends, and it had not been reported in the nine zones since the ancient era.

However, it had actually appeared today...

And it was so terrifying!

Did it have something to do with the Great Daoyuan calamity?

The onlookers were terrified as well and fled, afraid of being caught up in the devastation.

Hei Yue stood on the mountain peak, looking around at the empty surroundings.

There was no change in her expression, nor any display of emotions. Beside her, Grandpa Zhang had yet to recover from the shock.

His granddaughter's methods were beyond his imagination. Dozens of Divine realm experts had been slain within such a short period of time.

Su Xian'er looked at Hei Yue curiously, not so much because of her power, but rather marveling at how calm and collected she was amidst all this.

Chu Xuan's voice then entered Hei Yue's mind.

"Come back before you go to the Central Zone."

Chapter 349: A Hero In Life And A Hero In Death

"Yes, Master!"

After finishing up, Hei Yue began to retrieve the pillars that were buried within the three regions.

Each one had turned shockingly red after absorbing the blood-colored spiritual energy.

These pillars were still useful, so Hei Yue put them away.

The situation in the Chaos Zone was still unstable, so Hei Yue would have to remain here for some time to put the finishing touches on her plan.

The little evil king had made quite a name for himself in the Chaos Zone.

He wanted revenge!

Naturally, the target of his revenge was naturally the Evil Son.

However, the Evil Son had disappeared, and he received some information that the Evil Son was the reincarnation of the Great Evil Palace's founder's soul.

Therefore, his enemy was the patriarch of the Great Evil Palace.

However, the Great Evil Palace had been disbanded, and its leaders were nowhere to be found.

As such, he could only give up for the time being and focus on increasing his cultivation. Strength was essential in his pursuit of revenge, as well as to rise up during the Great Daoyuan calamity.

Furthermore, perhaps one of these ancient battlefields contained a heavenly treasure that could restore his third leg.

Du Yuan was also in the Chaos Zone, and his strength had also improved after fighting for fate during the calamity.

At this moment, Chu Xuan had no reason to pay them any mind.

His focus was on the Central Zone, and finding a method for Hei Yue to compete with Ji Dexin. Her current strength was insufficient to accomplish this task, though. After all, one had to know that Ji Dexin could reach the Dao realm at will.

The Central Zone was in a mess. The sky was still red.

The blood fiends continued to appear in various places, but they did not descend from the sky again. Still, they were endless, as waves upon waves of blood fiends invaded, causing countless deaths among the human race's army.

Occasionally, a Dao realm blood fiend would be born. The entire Central Zone was being overrun by the blood fiends.

Fortunately, the forces of the human race in the Central Zone were powerful. Otherwise, it would have fallen long ago.

Countless formation masters, restriction masters, artifact refiners, alchemists, and the like, were all gathered within the alliance, researching how to eliminate the blood fiends.

The efficiency of the current methods they had was too low, and the cost was not proportional to the effect.

Qian Ming had already risen to prominence. He had swept away countless blood fiends in the Qian Region. None of the Heaven realm blood fiends were his match.

Furthermore, every time, he would kill the blood fiends completely, preventing them from reviving.

The power of the Heaven and Earth Myriad Transformation technique was on full display at this moment, which made countless geniuses envious.

Chu Xuan looked at the Central Zone. Apart from the Qian Region, the progress of the Heavenly Dao laws in the other nine regions was progressing slowly.

The ghost race was also active in the Central Zone. Many human cultivators who died in battle were lucky enough to escape with their divine souls. Since they could not reform their physical bodies, many of them chose to become ghosts. The ghost race also participated in the fight for fate amidst the calamity in the Central Zone.

Ji Dexin was wary of the ghost race.

He felt that there was something unusual about the ghost race. How had this race suddenly appeared in the nine zones?

When he searched his memories, he drew similarities between the ghost race and the Netherworld race. However, the latter race had already perished during the Great Daoyuan calamity.

Was the ghost race a remnant of that Netherworld race? Or had they obtained the Netherworld race's inheritance and transformed into this strange new race?

It did not seem to make sense. There were indeed similarities between the two races, but there were also clear differences as well.

If it was only a partial inheritance, then he would be able to rest easy. After all, that would mean that their inheritance was incomplete, and that they were not very powerful.

In any case, it was not suitable to deal with the ghost race at the moment.

After all, the ghost race was also helping them to deal with the blood fiends, which undoubtedly reduced some of the pressure on the human race.

Most importantly, most of the ghosts were once humans. They had retained their memories, and were still attached to their former forces.

Furthermore, as the number of ghosts increased and their strength grew, gradually, such a rumor spread in the Central Zone.

"A hero in life and a hero in death!"

"Even if I'm a ghost, I'll still fight for the human race!"

As these slogans spread, the human experts became more and more motivated. Even if they died in battle, they would simply become ghosts and rejoin the battle.

For this reason, cultivators would deliberately leave behind a wisp of their divine soul before they went to battle. If they were to die, this wisp would transform into a ghost.

The ghost race rapidly expanded. This battle was an opportunity for the ghost race, and the Ghost World and Ghost Dao principle grew continually.

Fengdu Ghost King's strength also increased.

The news of the heavenly punishment's appearance in the Chaos Zone then spread to the Central Zone.

Ji Dexin's expression changed when he heard this.

"Heavenly punishment? How is that possible?"

He had a look of disbelief on his face. Heavenly punishment only existed when the immortal, celestial, and demon races existed in the nine zones.

"Impossible! How could there be heavenly punishment? No such law exists in the nine zone's current laws of Heaven and Earth!"

Ji Dexin frowned.

He carefully examined the information and description provided. From the information he gleaned, it was indeed heavenly punishment.

Dozens of Divine realm experts had been killed!

"What's going on? Did the laws of Heaven and Earth in the Chaos Zone change because of the Great Daoyuan calamity?"

"That should be impossible. It shouldn't be able to create a new rule out of nowhere. None of the current laws could be transformed into the heavenly punishment law!"

This Great Daoyuan calamity seemed to be very different from all of the previous ones.

The heavenly punishment law had existed to prevent any race from surpassing the three overlord races of that time, and was also used to temper geniuses.

Only by surviving the heavenly punishment could one break through to the Dao realm and achieve sublimation.

Ever since the three races had left the nine zones, the heavenly punishment had never reappeared.

Perhaps it was some kind of formation.

"Hei Yue."

In his mind, the image of that expressionless young girl appeared.

No matter what she encountered, she always had a calm expression, and no emotional fluctuations could be seen.

"Is she going to return to the Central Zone?"

It was inevitable. She would definitely return to take revenge on the Tianyue Tower. Unless the Ji family messed with her, they should not come into conflict.

Ji Dexin was thinking about what he should do after Hei Yue returned.

Should he stop her from targeting the Tianyue Tower?

This would make him Hei Yue's enemy.

Although he was not afraid of her, she was still an unknown variable.

Would she obey his instructions as the alliance's leader?

After some thought, Ji Dexin decided to wait for her to arrive and then decide how he would approach this issue based on the situation.

Chapter 350.1: Something's Not Quite Right In The Nine Zones (Part 1)

Chu Xuan waited for Hei Yue and Su Xian'er to return.

During this time, another Dao realm expert from the demon race turned bald. Another Buddhist had been born.

Mo Tu even ran over to thank Chu Xuan for his guidance. He even bragged in front of Hong Yuanchu and the others that a bald demon was even stronger than a regular demon, which was true.

Other than the fact that the bald demon would occasionally put his palms together and chant "Amitabha," he was the perfect warrior.

Chu Xuan felt that he had to reach the Daoyuan realm as soon as possible and become stronger than Mo Tu.

Otherwise, if Mo Tu found out that something was wrong, there would be trouble. He was not sure if his awe-inspiring persona was sufficient to deter him.

No matter what, as long as his strength increased, he would be able to deal with all kinds of unexpected situations.

...

Southern Zone.

Fengkong, Wang Luo, and Xiang Xing had joined forces and had already found a way to deal with that strange ancient battlefield. They were currently in the midst of making preparations.

After dealing with this ancient battlefield, Fengkong was going to leave for the Central Zone.

He was a Dao realm cultivator. If he continued to stay in the Southern Zone, he would probably trigger the descent of a Dao realm blood fiend.

Wang Luo was also preparing to go to the Central Zone, leaving Xiang Xing to handle the Southern Zone.

Time flew by, and a year passed.

Chu Xuan could sense that the Heavenly Dao laws in the Chaos Zone were rapidly expanding in the remaining seven regions. Hei Yue had completed her preparations and was ready to return to the Northern Zone.

"Your disciples, Wang Luo and Xiang Xing, have suppressed the nascent Blood World. Their fate has been transformed and their cultivation has soared. Your Fate Dao principle has advanced."

"Your follower, Fengkong, suppressed the nascent Blood World. His fate has transformed and his Dao principle has advanced. Your Fate Dao principle has advanced."

The system's reward suddenly arrived.

Nascent Blood World?

Chu Xuan was stunned. The unusual ancient battlefield that appeared in the Central Region of the Southern Zone was actually a nascent Blood World?

The Blood World could continuously give birth to blood fiends and even make the blood fiend race a true race of the nine zones.

Fengkong, Wang Luo, and Xiang Xing had joined forces to suppress it.

Now, their fate had been transformed and they were now shouldering the fate of the great Dao.

Chu Xuan pondered. What did it mean to be a person shouldering the fate of the Great Dao?

After Hei Yue and Su Xian'er returned, he would check it out.

Fengkong also gained a lot. After his Dao principle had advanced, he had broken through to the second-level of the Dao realm.

The Great Daoyuan calamity was indeed a great opportunity.

However, it was also a great crisis.

Chu Xuan looked to the Western Zone and frowned.

Ding Yue and Xiao Liang did not seem to be doing too well recently.

Had something changed in the Western Zone. Was it due to the blood fiend race itself, or had the hidden expert intervened again?

Although the situation was stable for the time being, the blood fiends were getting more and more ferocious, putting great pressure on the human cultivator army.

Half a month later.

"Your Heavenly Dao laws have devoured and replaced the laws of Heaven and Earth of the Central Region of the Southern Zone. Your cultivation level has advanced."

After the suppression of the nascent Blood World, the Heavenly Dao laws quickly devoured the laws of Heaven and Earth of the Central Region of the Southern Zone. Not long after, the Central Region became the newest addition to the regions under the Heavenly Dao laws' control.

Chu Xuan received his cultivation boost reward.

20th level of the Dao realm!

He was only 16 levels away from the final level of the Dao realm.

He still needed the Heavenly Dao laws to take over 16 regions.

There were seven regions in the Chaos Zone and ten regions in the Central Zone. If these two zones were incorporated into the Heavenly Dao laws, he would achieve his goal.

The next step would then be to open his Dao path.

Chu Xuan thought about it. The Dao realm cultivators from the primordial land had not entered the calamity, so there was still time.

Chu Pingfan had entered the Eastern Zone.

It was time for this Extreme Dao cultivator to shine.

Wang Luo and Fengkong set off for the Central Zone.

At the same time, Hei Yue and Su Xian'er had also returned to the Northern Zone.

Chu Xuan sat on the chair, very leisurely.

The calamity was non-existent in the Northern Zone. Those ancient battlefields, and the blood fiends within them, had all been purified by him in advance.

In the entire nine zones, only the Northern Zone was peaceful.

The cultivators here were all confused. Why had the Great Daoyuan calamity not arrived yet?

Was it due to how barren the Northern Zone was before this? Perhaps it would arrive later.

"Sir, I'm back."

Su Xian'er excitedly ran in.

Hei Yue followed closely behind her.

"Greetings, Master,"

"Hmm, well done."

Chu Xuan nodded.

At this moment, Chu Xuan saw something extraordinary.

There was a vast and mysterious light hidden inside Hei Yue's body. It was the aura of fate.

The fate of the Great Dao...

The light inside Su Xian'er's body was slightly weaker.
