

I Stayed At Home For A Century, When I Emerged I Was Invincible

Chapter 751.1: Xuan Gate Scripture Pavilion (Part 1)

Even a Dao Creation realm expert would not be able to easily discover the Origin Great Dao, as it had now adopted some of the characteristics of the void region.

Everything was going according to plan, and given time, would mature to provide Chu Xuan with bountiful rewards.

Chu Xuan was very satisfied.

Thirty years after Xue Ping's departure, while Chu Xuan was planting a certain spiritual herb, the system's reward suddenly appeared.

"Your disciple, Xue Ping, saved your disciple, Yi Lingling, using your jade talisman and suppressed the remnant soul of a Dao Creation realm cultivator. The name of the Xuan Gate sect has begun to grow. You have been rewarded with the Xuan Gate manual."

Chu Xuan was a little surprised. He had indeed wanted to rescue Yi Lingling, but had not expected the outcome to result in the system's reward being triggered.

Chu Xuan checked the reward.

"The Xuan Gate manual includes the Xuan Gate sect's cultivation techniques, secret techniques, and so on. It is the foundation for the creation of an orthodox sect..."

The reward came just in time.

Since he had already established the Xuan Gate sect, it needed its own repository of cultivation techniques and secret techniques.

Chu Xuan had originally planned to take some time to sort through his cultivation techniques and secret techniques and compile them, but the system had now made things simple for him.

The Xuan Gate manual contained all of the cultivation techniques and secret techniques that Chu Xuan had mastered, as well as many cultivation techniques and secret techniques of the Heavenly Sun World.

It could be called the bible of cultivation.

Even Chu Xuan was inspired by it.

For example, in the last chapter, there were records of the Dao Supreme Ruler realm techniques!

When Chu Xuan returned from the medicinal garden to the small courtyard, he created a pavilion with a wave of his hand, after which he hung up a sign at its entrance.

Xuan Gate Scripture Pavilion!

Following that, he made individual copies of the various cultivation techniques, secret techniques, and cultivation knowledge and stored them on the various floors of the pavilion.

On the top floor, there was only a small booklet detailing the cultivation technique and knowledge regarding the Dao Supreme realm.

Chu Xuan placed three small booklets regarding the Dao Creation realm on the floor below, and so on and so forth.

After Chu Xuan was done, he held a booklet in his hand, drank tea, ate pastries, and leisurely read through it.

This booklet was the transformed form of the Xuan Gate manual. Incidentally, the Xuan Gate manual was both a cultivation manual and a Dao Supreme artifact.

Chu Xuan was not in a hurry to read the entries on the Dao Supreme realm, but instead satisfied himself with the entries on the Dao Creation realm.

There was no point in trying to jump the gun and attempting to comprehend things beyond his level.

The Xuan Gate manual recorded many of the mysteries of the Dao Creation realm, including how to create a Dao and how different the Daos were.

Furthermore, it also talked about how the Dao could be restored after it collapsed.

It was as if it contained all of the answers to all of the questions regarding cultivation.

The more Chu Xuan read, the deeper his comprehension became, and he gained a better understanding of the Dao Creation realm.

He even gained some insight on how to improve the 3,000 Chaos Bodies of Creation.

As Chu Xuan read the chapter on creation, the masses of chaotic energy of creation gradually changed, as did the Dao path connecting them together.

Even the embryonic supreme laws grew more complete and profound.

Chu Xuan's strength gradually increased as he read.

At some point, Su Xian'er walked out with a plate of pastries.

Seeing the newly-added Xuan Gate Scripture Pavilion, she asked curiously, "Sir, what's inside?"

"All of the answers to cultivation can be found there."

Chu Xuan raised his head and smiled.

"Even for the Transcendent Dao experts?"

Su Xian'er's eyes brightened.

After coming to the Heavenly Sun World, Su Xian'er also learnt that transcending the chaos was known as the Transcendent Dao realm in the Heavenly Sun World, which was also the realm she aspired to reach next.

She was always with Chu Xuan and did not have much time to cultivate. Even so, her cultivation was still progressing.

This was because Chu Xuan was deliberately emitting a special Dao aura that stimulated her cultivation.

"Of course."

Chu Xuan picked up a piece of cake and put it into his mouth.

"Then I'll go take a look."

Su Xian'er excitedly ran into the Xuan Gate Scripture Pavilion.

Instead of having Chu Xuan explain it to her, she preferred to read and learn things herself. This was also one of her joys in life.

After following Chu Xuan for a long time, Su Xian'er had also started to live her life at a more casual pace. Of course, if she had questions, she would still seek him out for answers.

After a short while, she emerged from the pavilion with a small booklet, which contained information on how to reach the Transcendent Dao realm, as well as cultivation techniques and secret techniques associated with the Transcendent Dao realm.

Furthermore, this booklet seemed to have been tailored to fit someone who had possessed the Grand Moon Mystic Body.

Su Xian'er sat beside Chu Xuan, and soon became engrossed in reading the booklet.

A thousand years later, Yi Lingling returned.

"Greetings, Master!"

Yi Lingling had already reached the million-mile mark, which was known as the Saint Dao Emperor realm in the Heavenly Sun World. This corresponded to the World Creator realm in the chaos.

She was indeed unparalleled, having reached this realm at such a young age, and had also accumulated quite a bit of fame in the Heavenly Sun World.

This was in part due to her frequent conflicts with the Heavenly Pavilion, which was considered a powerful faction in the current Heavenly Sun World.

The fact that an entire faction had failed to kill a single cultivator spoke volumes about her strength and capabilities.

However, in Yi Lingling's heart, the one who was truly unparalleled and unfathomable was her master. It was as if he could gaze through time and see the future.

She would never forget the time when she was in danger, her junior brother, Xue Ping, had suddenly appeared with a jade talisman to rescue her.

He had told her then that Chu Xuan had predicted that this would happen to her, and instructed him to bring this jade talisman along and find her.

Yi Lingling had come back not only to see her master, but also because she had some doubts about her cultivation after breaking through to the Saint Dao Emperor realm.

Instead of trying to figure things out blindly, it was naturally better to come back and ask her master for advice.

Moreover, she had not returned for a long time, and missed the time she had spent in the small courtyard.

"You can find the answer to your questions in the Xuan Gate Scripture Pavilion."

Chu Xuan chuckled.

Yi Lingling raised her head and spotted the pavilion that had not been here when she had last visited.

"Master, can I find the answer to everything in the Xuan Gate Scripture Pavilion?"

"Don't even think about it. How is that possible? Your cultivation level is still low, so you can naturally find the answer to your problems. However, at my level, all of the answers have to be figured out by oneself," Lie Tian said.

He had awoken the moment Yi Lingling returned.

"Your answers can be found inside there as well," Chu Xuan said.

"Sect Master, you can lie to Little Yi, but you can't fool me."

After losing their bet, Lie Tian now had to call Chu Xuan sect master.

"Let's not talk about the end of the path of cultivation. Does your pavilion even contain answers to the Dao Creation realm?"

Even the sects and families founded by Dao Supreme experts only had insights and experiences related to the Dao Creation realm, but no actual concrete guide or manual.

Everything was based on passed-down knowledge and anecdotal evidence.

Even though Dao Supreme realms could preach the Dao, it was only about their own Daos and experiences, and whether or not one would benefit from their teachings largely depended on how similar their Das were to that Dao Supreme realm expert.

"How about this?" Chu Xuan said with a smile, "If the pavilion contains what you are looking for, I'll play with your head like a ball for a few days."

Lie Tian's eyes narrowed as he stared at Chu Xuan for a long time.

"What if it doesn't?"

"If it doesn't, I'll let you leave the valley for a year."

Lie Tian glanced at Yi Lingling and sneered inwardly. There was no way that the Xuan Gate Scripture Pavilion had any manuals or records on the Dao Creation realm.

Such a thing simply did not exist in the Heavenly Sun World. Chu Xuan was probably just looking for an excuse to let him travel with Yi Lingling for a while.

Chapter 752.2: Xuan Gate Scripture Pavilion (Part 2)

Lie Tian thought that he had read Chu Xuan's mind, so he immediately agreed.

He likely wanted him to follow Yi Lingling for a while and give her some guidance, but he was too embarrassed to say it.

'Forget it, I won't expose him.'

Lie Tian chuckled, and Chu Xuan was also smiling.

"Then I'll go in and take a look."

Lie Tian laughed and floated towards the pavilion, and Yi Lingling followed closely behind him.

The pavilion had a simple layout.

The lowest floor contained secret manuals below the level of the Daoyuan realm.

The second level was for the Saint Dao to the Saint Dao Emperor realms.

The third level was for Transcendent Dao realm cultivators, the fourth for Dao Creation realm cultivators, and the fifth for Dao Supreme realm cultivators.

Yi Lingling stopped on the second floor, as it contained what she needed.

Soon, he found the secret manual pertaining to the Saint Dao Emperor realm, which also contained specific details about her special constitution.

Lie Tian chuckled as he tried to go straight to the top floor, as he assumed that the Dao Creation realm manuals were there.

In the end, he found that he could not go up.

There seemed to be an invisible barrier blocking him.

Eh?

Lie Tian was startled. With his cultivation level, could it be that he was unable to ascend to the highest level?

The highest level could not contain Dao Supreme realm manuals, right?

No way!

Chu Xuan was not even a Dao Supreme realm expert.

Lie Tian immediately tossed that idea out of his head.

Even a Dao Supreme realm expert would not be able to create such a manual, as there was no treasure in the world that could contain the mysteries of the Dao Supreme realm.

Heck, it was even unheard of for the Dao Creation realm.

This was why many talented geniuses were stuck at the Transcendent Dao realm. Creating a Dao was incredibly difficult, and he knew this as a former Dao Creation realm cultivator.

In order to create his own Dao, he had spent countless years.

He often listened to the Dao lectures of Dao Supreme realm cultivators, but that only helped once he had already gained insight into how to create his own Dao.

Since he could not go to the highest floor, Lie Tian did not force his way in.

Instead, he returned to the fourth floor. There he noticed that there were only three small booklets.

He laughed inwardly. These three booklets were definitely for Transcendent Dao realm cultivators.

He raised his hand and grabbed one of them and casually flipped it open.

His jaw proceeded to drop to the floor.

The booklet was actually formed by the laws of the Great Dao?

Furthermore, what was recorded in the booklet was truly about the Dao Creation realm!

As a former Dao Creation realm expert, there was no mistaking this.

The booklet detailed how to comprehend the Great Dao and how to create one's own Dao. It even recorded various shortcuts and tips, though some of these shortcuts would harm one's cultivation foundation and were not to be attempted unless they had no other options.

Furthermore, the Daos created via these shortcuts were weak.

Lie Tian was completely and utterly stunned.

He looked at the booklet in his hand for a long time without moving.

He seemed to have returned to the past. In order to reach the Dao Creation realm, he had gone through many hardships and visited many Dao Creation realm experts.

He had paid a huge price to listen to the Dao lectures of Dao Supreme realm experts.

All of this was done just so that he could reach the Dao Creation manual.

If at that time he possessed this booklet instead, he would have been able to reach the Dao Creation realm in a fraction of the time.

It was simply unbelievable.

He read through the booklet again and again, but could find nothing wrong with its contents.

How could this booklet even exist?

Just what was going on here?

Furthermore, how did Chu Xuan have access to all of this knowledge as someone who came from the chaos?

This guy was full of mysteries and surprises.

Lie Tian took a deep breath to calm his shocked heart.

Then, he grabbed the second booklet and flipped through it, and then the third...

They were all related to the Dao Creation realm!

Chapter 753.3: Xuan Gate Scripture Pavilion (Part 3)

Lie Tian stretched out his hand and grabbed the third booklet. He flipped it open and took a look.

Suddenly, his head trembled.

"The combination of heaven and earth, and yin and yang, is a perfect Dao? In the Heavenly Sun World, the Great Dao is filled with Yang while Yin is weak, so the Great Dao is incomplete?"

At this very moment, Lie Tian recalled the words that person had said to him after he created his Dao.

She told him to go to the chaos once he had the opportunity to do so.

Back then, Lie Tian had thought that she wanted him to barge into the forbidden zone, but now it seemed that she was nudging him toward a certain secret.

Was the Dao he had created actually incomplete? Was it flawed?

Lie Tian was in a daze.

He realized that he only had a smattering of knowledge about the Dao Creation realm.

In fact, most of the Dao Creation realm experts in the Heavenly Sun World were probably the same.

As he continued to read, Lie Tian suddenly trembled.

This booklet actually recorded it!

It recorded how to recover from a collapsed Dao!

This made him extremely excited.

There was hope for his recovery!

He could reach the Dao Creation realm again, and this time he would create a perfect Dao!

He would definitely be stronger.

He continued to read, but then discovered that he could read no further.

There was something hindering his sight.

Lie Tian was dumbfounded and rushed out of the pavilion with the booklet in hand, startling Yi Lingling on the way down.

"Eh, Senior Lie Tian? What's going on?"

"What's next? Why can't I see the text after this page?" Lie Tian frantically asked Chu Xuan as he gestured toward the booklet.

Chu Xuan simply replied nonchalantly, "All you have is your head. Since you don't have the rest of your body, you can't read the rest of the booklet?"

Huh?

What kind of logic was this?

"Sect Master, I'm also from the Xuan Gate sect, and was once a Dao Creation realm expert. I should be qualified to see the rest, right?"

Lie Tian was so anxious that he was pacing around the courtyard.

"You've lost this time, right?"

"Yes, yes, I admit defeat."

Lie Tian nodded.

"That's good."

Chu Xuan stood up and grabbed the booklet.

Then, as Lie Tian looked at him with a puzzled gaze ...

Chu Xuan kicked him in the head, and with a whoosh, Lie Tian flew away.

Lie Tian felt dizzy as his head spun in the air.

He was stunned.

What was going on?

Then, he suddenly remembered that he had lost the best and was going to be kicked around like a ball.

He had been tricked!

However, there was nothing he could do about it.

Lie Tian hurriedly floated back.

"Sect Master, you've already kicked me, so can you let me see the rest of the booklet's content?"

Lie Tian asked with a flattering smile.

"One kick is not enough."

"Then... Sect Master, kick me as hard as you can. The more you kick me, the happier I will be!"

Chu Xuan looked at Lie Tian with a strange expression.

The old man was actually so shameless.

It was just a Dao Creation realm manual. Was there a need to go this far?

Then, if he knew that the top floor contained a Dao Supreme manual, would he not shamelessly acknowledge Chu Xuan as his grandfather?

"Old man, what happened to your pride?"

"Pride? What good is that?"

This guy was hopeless.

However, it worked. Chu Xuan threw the booklet to him and said, "Go and look at it then."

Lie Tian was overjoyed and brought the manual back to the pavilion to read.

Occasionally, he would raise his head and glance at the entrance to the highest floor.

His eyes were filled with shock. He had an inkling of what was hidden on that floor.

The Dao Supreme realm manual.

If he could recover his strength, perhaps he too would one day be able to read it and reach the Dao Supreme realm.

Thinking this, he immersed himself in reading the manual.

He did not come out even after Yi Lingling departed the valley and went out for another adventure.

Even Chu Xuan was engrossed in reading the Xuan Gate manual everyday.

A hundred years later, Xue Ping returned, and also entered the pavilion to read manuals for a few years.

...

The Heavenly Sun World was vast and boundless.

However, thanks to the great battle, the Heavenly Sun World suffered tremendous damage and was divided into many smaller sections.

In a section near the center of the Heavenly Sun World, there were countless experts, with many of them being Saint Dao Emperor realm or higher.

The forces of this section knew many secrets of the Heavenly Sun World, and had a better understanding of the world.

There were even ancient forces that had been passed down from the ancient times, though many had declined after the great battle.

There were even rumors that some of their founding members had survived, but were in a state of deep sleep.

Scarlet Cloud Mountain was one of these forces.

At its peak, it had two Dao Creation realm experts. However, it had declined after the great battle, and now kept a low profile, and not many people knew about it.

At this moment, in the secret area of Scarlet Cloud Mountain.

Someone was looking respectfully at a figure sitting cross-legged in a small space.

This was the Scarlet Cloud Mountain's ancestor who had survived from ancient times.

He had remained in seclusion and never left the sect, seeking to break through to the next realm.

"Grandmaster, I heard that the Heavenly Pavilion has already collected five fragments of the Wutian Monument. They are currently chasing after a disciple of the Xuan Gate sect who has one of the fragments."

"Grandmaster, who created the Xuan Gate sect?"

"At present, that sect only has two disciples, but both are monstrously talented, to the point they overshadow the geniuses of the major factions."

"The Xuan Gate sect?"

The old man in the small space was confused.

"Back then, there was no sect with this name. Perhaps it is a new faction."

"Tell me more about the Xuan Gate sect."

...

After hearing more about the Xuan Gate sect, the old man fell silent.

The sect's disciples were extremely powerful, and their cultivation techniques were also extraordinary.

Especially Yi Lingling, who seemed to possess the same specific constitution as a certain Dao Supreme realm expert he knew from the past.

If she grew to her full potential, she would be terrifyingly strong.

For a sect to know of her special constitution, it had to be related to a major force of the Heavenly Sun World, or perhaps even a Dao Supreme realm expert.

"Don't mess with the Xuan Gate sect."

"As for Yi Lingling, if it's within your power, try to assist her."

"No matter what, you can't offend them, understand?"

"Yes, Ancestor!"

The man's expression turned serious.

For the Xuan Gate sect to be treated so seriously by the grandmaster, they had to be extraordinary.

After the man left, the old man sighed.

A long time had passed.

Did all the Heavenly Sun World's experts from back then die?

The master of the chaos was so magnificent that he could suppress the entire Heavenly Sun World.

If it had not been for that person's intervention, the Heavenly Sun World would have already been shattered.

Where did they go?

Had they really all really died?

Now that he thought about it, the great battle back then was extremely unusual.

It was as if someone was manipulating the situation from behind the scenes.

What role did the Wutian Pavilion play in this matter?

"Lie Tian, why did you participate?"

The old man sighed.

Lie Tian was famous, and this old man and Lie Tian were good friends who had once traveled and explored the world together when they were younger. Their relationship did not even change after a gap in cultivation level between them opened up.

Back then, Lie Tian had also participated in that battle. He could have avoided it.

Chapter 754: Undercurrents

The top forces of the central section of the Heavenly Sun World were all gathered here. Many forces had legacies from ancient times or were secretly supported by ancient experts.

At this moment, on a certain mountain peak where traces of the great battle were still present, more than ten Transcendent Dao realm experts were gathered.

A few of these were the ones who had chased after Chu Xuan.

"Is that man really dead?"

"I don't know."

While they were chasing Chu Xuan down, it appeared that he had self-destructed.

They felt that something was wrong, but could not find any traces of Chu Xuan no matter where they looked.

"Have you asked your seniors?"

The people here were tasked with guarding the entrance to the forbidden zone, and each of them hailed from forces that possessed at least a Dao Creation realm expert.

One of them, whose face and figure were blurry, said, "A hundred years ago, a Dao Creation realm expert tried to enter the chaos to investigate. In the end, his Dao was damaged, and his cultivation level almost dropped a realm."

Hearing this, everyone sucked in a breath of cold air.

They were guarding the entrance of the forbidden zone, so they were naturally very curious about the legendary chaos.

Moreover, they also knew that there might be great opportunities hidden in the forbidden zone, including perhaps the opportunity for them to reach the Dao Creation realm.

Dao Creation realm experts were highly-regarded in the Heavenly Sun World, so it was the dream of every single cultivator to become one.

However, they were unable to pass through the void region, as they would be contaminated by a mysterious force that would cause their cultivation to gradually dissipate.

This old man had once taken the risk to enter, but he was contaminated by the mysterious force, which was why he looked so old.

They were very interested in Chu Xuan because he was also a Transcendent Dao realm cultivator, yet could pass through the void region safely.

Furthermore, he had emerged from the forbidden zone, so it was clear that he knew some of its secrets.

Was he someone from the forbidden zone, or had he left the Heavenly Sun World and returned after obtaining a great opportunity in the forbidden zone?

No matter what the situation was, it was a great opportunity for them to learn the secrets of the forbidden zone.

However, now it seemed that even Dao Creation realm experts could not pass through the void region.

"There's an order from a Dao Supreme realm expert," the blurry figure continued, "Don't even think about entering the forbidden zone. Even Dao Creation realm experts can't leave the Heavenly Sun World."

"Also, the Dao Supreme realm experts can't divine who that person is. They've already sent out a warning to stop searching."

The rest of the people present were all silent.

It seemed that this matter was not something they could participate in.

Furthermore, who would dare to disobey the words of a Dao Supreme realm existence?

After a short discussion, they all went their separate ways.

The blurry figure disappeared and entered a section that was in ruins thanks to the great battle back then.

There was an extremely powerful remnant power here that occasionally wreaked havoc on the surroundings.

After the blurry figure entered this section, he headed toward a certain mountain, on which there was a stone house.

An invisible force enveloped the stone house, keeping any foreign powers out.

The blurry figure arrived in front of the stone house.

"Sir, are you certain that he came from the chaos?" he bowed and asked.

After a long while, an ethereal voice came from the stone house. It was impossible to tell if its owner was male or female.

"The Heavenly Sun World is in a unique state at the moment. One can enter it, but cannot leave. With the obstruction of the transcendent laws in place, even Dao Creation realm experts cannot leave."

"Since he came in from the outside, he naturally came from the chaos."

"If that's the case, the other party must be hiding in the Heavenly Sun World, right? Since he can't return to the chaos now," the blurry figure continued to ask.

"The same restrictions may not apply to those from the chaos."

After a long silence, the ethereal voice spoke again, "No matter what, since he came from the chaos, this matter is not something you can interfere with. Just sit back and watch. The time is not right."

The blurry figure was silent for a long time before he finally asked, "What are you guys planning?"

The stone house remained silent.

The blurry figure waited for a moment, sighed in his heart, and turned to leave.

This time, the other party would not answer either.

In the end, a voice came from the stone house.

"We don't know either. It's just that there seems to be someone manipulating this whole situation, so we have to be careful."

For the first time, there was a hint of helplessness in his voice.

The blurry figure froze, and only recovered after a long time.

Then, he took a deep breath and left quickly.

His heart was unable to calm down for a long time.

Even Dao Supreme realm experts were affected and manipulated by others?

How terrifying was the mastermind behind all of this then?

At the same time, he felt a sense of powerlessness.

If even Dao Supreme realm cultivators could not escape, how could he escape this fate as a mere Dao Creation realm expert?

Chapter 755: Dao Supreme Realm

Chu Xuan wanted to transmit a message to the chaos again to make some arrangements, but once again failed.

Now, his strength was no longer what it was in the past, and he could be considered one of the stronger Dao Creation realm experts.

Yet despite this, he was unable to transmit a message into the Heavenly Dao.

Was he restricted by the transcendent laws?

Chu Xuan suddenly realized that this matter was not as simple as it seemed.

The chaos had shattered in that great battle, but what about the Heavenly Sun World?

Was it only divided into small sections?

Chu Xuan suddenly realized that his understanding of the Heavenly Sun World was still lacking.

He thought of a possibility. Perhaps the Heavenly Sun World was in a sealed state, and they were unable to leave.

Otherwise, there would definitely be experts from the Heavenly Sun World who would have entered the chaos.

Thinking this, Chu Xuan grabbed Lie Tian, who was still engrossed in reading the Dao Creation realm manual.

Having been suddenly grabbed out of nowhere, his eyes were still a little dazed.

"Sect Master, what's wrong?"

He was nervous.

Could it be that Chu Xuan did not intend to allow him to continue reading the manual?

"While you were in the chaos for so long, did you ever see anyone from the Heavenly Sun World?" Chu Xuan asked.

Lie Tian was startled, not understanding why he asked such a question.

"You're the first person I've met. Before you, I've never seen any other living beings," he said.

"I haven't seen any of the experts from the Heavenly Sun World either."

"Of course, I can't rule out the possibility that there could have been experts who came by who were able to hide from me," he added after a pause.

Chu Xuan nodded, and allowed Lie Tian to head back into the pavilion.

If one was able to hide from Lie Tian and not be the slightest bit interested in him, that person had to be a Dao Supreme realm expert, and not a newly-advanced one either.

Otherwise, how could he not be curious about Lie Tian and not want to ask him questions about what had happened in the chaos.

Therefore, this indirectly confirmed his conjecture that ever since that great battle, no expert had entered the chaos from the Heavenly Sun World. It seemed that it was not that they did not want to, but they could not.

Could one only enter the Heavenly Sun World, but not leave it?

Chu Xuan used the derivation function.

"Can Dao Creation realm experts of the Heavenly Sun World, leave this world and enter the chaos?"

The system did not display an image projection this time, but merely sent him a notification that read, "Dao Creation realm cultivators can't leave the Heavenly Sun World."

His conjecture was confirmed.

Chu Xuan now felt even more that he had to keep a low profile.

There were huge undercurrents at play here, and unless he was strong enough, he would be swept away by the,.

Chu Xuan made up his mind. Even if he broke through to the Dao Supreme realm, he would continue to keep a low profile. Although Dao Supreme realm experts could be considered to be among the foremost experts in this world, they were not omnipotent.

Furthermore, there was still the Dao Supreme Ruler realm.

According to what Lie Tian had told him, Dao Supreme realm experts could easily be crushed by a Dao Supreme Ruler.

It was too terrifying!

Chu Xuan stayed in the valley and continued to live his life.

He did not need to cultivate, yet his strength was getting stronger with every day. This kind of life was really too comfortable.

As for boredom?

That word did not exist in his dictionary.

He was getting stronger every day, and that itself was happiness.

Ten thousand years had passed in a flash.

"You did not leave the valley and 'stayed at home' for 10,000 years. You taught two monstrous disciples and created the Xuan Gate sect. You have been rewarded with a Dao Supreme realm breakthrough, a supreme treasure, and a chance to upgrade a Great Dao."

The 10,000-year milestone reward was quite generous, and allowed Chu Xuan to break through to the Dao Supreme realm, which would allow him to hold his own in the Heavenly Sun World to an extent.

Furthermore, there were two other rewards.

Chu Xuan first received his cultivation reward, and quickly broke through.

The Dao Supreme realm!

Now, he finally understood why it was called the Dao Supreme realm.

It was known as the end of the path of cultivation because it seemed like one could continue cultivating forever, yet also seemed like one had reached the end.

It was a very mysterious state.

It felt that this realm was already the peak, and there were no realms above it.

Of course, it did not mean that one's strength would not continue to grow after reaching the Dao Supreme realm.

Chu Xuan examined his own strength and marveled at the power of the Dao Supreme realm.

Dao Supreme realm experts were already supreme in the truest sense.

Even if there was a gap in strength between two Dao Supreme realm experts, it was almost impossible for the stronger one to kill the weaker ones, unless of course one became a Dao Supreme Ruler.

Knowing this, it was even more shocking that the master of the chaos had managed to slaughter Dao Supreme realm experts like chickens.

Chu Xuan sighed and sat back in his chair. His heart was finally at ease.

He then checked the supreme treasure reward, and discovered that it did not have a specific shape or ability.

To be more precise, it could take on any shape and possess any ability. Whether it was used for defense or attack, his thoughts would be able to mould it.

A small seal appeared in Chu Xuan's palm, and he realized that the Chaos Bell, Heaven Splitting Axe, Myriad Heavenly Mirror, and the Chaos Dao Mirror that the system had given him as rewards before had all disappeared.

All of them gathered together to form this supreme treasure.

Focusing his thoughts, the seal turned into an ancient bell, and then a mirror.

Finally, it turned back into a seal and he put it away within the Dao path in his body.

"In the future, this shall be called the Supreme Mystic Seal."

Chu Xuan gave it a name, and also made it the Xuan Gate's ancestral treasure.

The person who held the Supreme Mystic Seal would be the leader of the Xuan Gate sect!

Chu Xuan looked at the last reward.

A chance to upgrade a Great Dao.

Chu Xuan took out the Heavenly Dao Talisman, but in the end, dispelled the idea. Upgrading the Heavenly Dao could indeed increase its strength and help it to become the only supreme law and unify the chaos, but the situation in the chaos was beyond his control, so anything could happen.

Therefore, he decided to upgrade the Origin Great Dao!

Even if the Heavenly Dao did not become the only supreme law, as long as the Origin Great Dao grew smoothly, it would encompass the chaos eventually. Therefore, he would still be in control of the chaos.

"Upgrade the Origin Great Dao."

After Chu Xuan chose to upgrade the Origin Great Dao, he immediately sensed some changes.

The Origin Great Dao instantly grew rapidly and continuously produced new laws. Then, it completely vanished into the void.

No, to be precise, it turned into part of the void region.

He now had control over that part of the void region. Furthermore, he could sense that the Origin Great Dao was constantly growing and expanding.

Chu Xuan was overjoyed.

Even a Dao Supreme realm expert would not be able to discover the upgraded Origin Great Dao.

Moreover, the Origin Great Dao had the same level of power as a Dao Supreme realm expert. If Chu Xuan used it, he would be able to wield the power of two Dao Supreme realm cultivators. To his opponents, it would be like fighting two Dao Supreme realm experts.

Chapter 756.1: The Situation In The Chaos (Part 1)

After observing the Origin Great Dao for a while, Chu Xuan looked back at the Heavenly Dao talisman.

Now that he had reached the Dao Supreme realm, it was time to try contacting them again.

So many years passed, and he really wanted to know how things were progressing within the chaos.

The second chaos calamity had probably passed, and another chaos had fused, right?

Chu Xuan had a new plan in mind.

Even though Ding Yue and the other disciples could transcend the chaos, they could not leave for the time being, as it was easy to be targeted after coming out of the chaos.

Chu Xuan believed that those experts would be secretly paying attention to the chaos since they could not find any traces of his presence in the Heavenly Sun World.

Moreover, the chaos was constantly merging and expanding, and would eventually become whole again.

The Heavenly Dao needed someone's assistance to develop, or it would not be able to grow to its full potential and unify the supreme laws of the chaoses.

Chu Xuan held the Heavenly Dao talisman in his hand, and then tried to transmit a wisp of his consciousness through it.

He could vaguely sense a transcendent rule restriction trying to stop his transmission from leaving the scope of the transcendent law.

Even if one was a Dao Supreme realm expert, it would be difficult to break through the restriction.

Moreover, it might alert some of the existences that were secretly plotting things.

Chu Xuan silently activated the Supreme Mystic Seal, which emitted a special profound aura. The restriction of the transcendent laws suddenly quieted down after coming into contact with this aur, and disappeared without a sound.

It was as he expected; supreme treasures were not restricted by the transcendent laws!

Chu Xuan's wisp of consciousness was then transmitted into the Heavenly Dao.

In an instant, Chu Xuan saw that the chaos had changed greatly.

The Heavenly Dao had become one of the three remaining supreme laws of the chaos.

The original chaos had already collided and fused with a second chaos.

In other words, after Chu Xuan left, it had already experienced two chaos calamities. The Heavenly Dao had unified the supreme laws of the original chaos, but now it was up against the supreme laws of the other two chaoses.

The Heavenly Dao's side consisted of Ding Yue and Chu Xuan's other disciples, as well as the chaos supreme realm experts like Giant Chaos God and the others.

They were up against the chaos supreme realm experts of the other two chaoses. The Heavenly Dao was slightly stronger than the other two supreme laws of the chaos.

The moment Chu Xuan's wisp of consciousness entered, the transcendent laws slowly exhausted him, so after a while, he could not continue to observe the Heavenly Dao.

However, he had already achieved his goal.

In the chaos, after countless years, Ding Yue and the others had become the top existences among the chaos supreme experts.

Since Chu Xuan had given them a cultivation method that would allow them to transcend the chaos, they naturally grew stronger than the other chaos supreme realm experts.

As for Hei Yue and Chu E, their strength had surpassed the other disciples.

As a divine being of the Heavenly Dao, Qin was naturally extremely powerful.

Chu and Ji had already reached the chaos supreme realm.

Even Xia and Hong as well, though they were comparatively weaker.

In the first chaos calamity, when two chaos supreme experts from the two sides fought, the Heavenly Dao's side was actually at a disadvantage at the beginning.

After stabilizing the situation, the Heavenly Dao started to devour and occupy the other side's supreme laws. Once it completed this process, the original chaos gained the upper hand.

However, before the outcome of the battle was decided, the second chaos tribulation arrived.

The new chaos' experts were great in number and powerful, and forced the first two sides to join forces to resist the onslaught.

In the end, they slowly formed a three-way deadlock.

Amidst this, the Heavenly Dao developed very quickly.

As time passed, Hei Yue and Chu E's strength increased rapidly, and the Heavenly Dao became the strongest side, forcing the other two to form an alliance.

Within the Heavenly Dao, Huang Long was roaming about. His days were very comfortable.

Suddenly, he looked somewhere.

His eyes were filled with shock.

"Fellow Daoist Chu?"

A blurry phantom appeared in the Heavenly Dao.

It was Chu Xuan's wisp of consciousness.

"Long time no see, Huang Long."

"Fellow Daoist Chu, what's wrong with you?" the Dragon God asked in surprise as he circled around the blurry phantom.

His aura was very strange and unfathomable, and Huang Long could not tell that it was just a wisp of consciousness.

Could it be that Fellow Daoist Chu had fallen and was going to be reborn in the Heavenly Dao?

"This is just a wisp of consciousness I transmitted here to send some information to my disciples," Chu Xuan replied.

Huang Long was shocked. Fellow Daoist Chu's wisp of consciousness was so unfathomable. What level had his strength reached?

"Fellow Daoist Chu, what's the outside world like? Is it fun?" Huang Long asked excitedly.

"Huang Long, don't leave the chaos. The chaos is about to enter the great chaos era, which will be more interesting than the outside world."

Chu Xuan knew that Huang Long was playful.

If he was curious and left the chaos, it would be a little troublesome if he was targeted.

"The great chaos era?"

Chu Xuan briefly explained the situation regarding the multiple chaoses.

After hearing this, Huang Long was filled with anticipation and did not have any intention of leaving the chaos.

At least, he had to wait until the chaos fully merged before he could go outside.

Chu Xuan's wisp of consciousness chatted with Huang Long as he sent a message to Ding Yue and the others through the Heavenly Dao.

After Ding Yue and the others received the news, they quickly rushed back.

They were all extremely excited.

Chu Xuan saw that Hei Yue and Chu E would soon be capable of transcending the chaos.

Transcending the chaos was actually transcending the Dao realm. One did not necessarily have to leave the chaos to transcend it.

Chapter 757.2: The Situation In The Chaos (Part 2)

Of course, the chaos was too small and could not contain Transcendent Dao realm experts. If one did not leave the chaos, they wouldn't be able to break through further.

However, as the chaos continued to merge and expand, it would become possible.

When the chaos was at its peak, even Dao Supreme realm experts existed.

Chu Xuan suspected that there were Transcendent Dao realm experts in the other two bigger chaoses.

"Greetings, Master!"

Qin and Fengying also appeared.

The two of them were divine beings of the Heavenly Dao, so they naturally needed to know about these matters.

Only then would they be able to execute his plan accurately.

Chu Xuan glanced at his disciples and said, "The chaos is about to welcome a great era. It's a great opportunity."

"Hei Yue, you're not far from transcending the chaos. My wisp of consciousness returned to inform you that the next realm is the Transcendent Dao realm. Wait for the opportunity to break through and do not leave the chaos."

"Beyond the chaos are the void region and the Heavenly Sun World. Once you leave the chaos, there will be changes."

Chu Xuan then continued in a deep voice, "Some people are setting up a grand scheme. It's not something you can interfere with. If you are caught within it, the results will be catastrophic."

"I understand, Master," Hei Yue nodded.

Chu Xuan then began to give them instructions regarding the Heavenly Dao.

This was a matter of great importance and was closely related to everyone's strength. Naturally, they did not dare to be careless.

"Master, do you mean that we are in a small chaos? And that the chaoses are constantly fusing with each other, which will trigger the great chaos era?"

Ding Yue's face was filled with shock.

So this was the truth behind the chaos calamity?

The current chaos was almost boundless, and it was expanding at every moment. Even they could not reach its boundaries.

Yet in the end, this was just a small chaos?

There were two more chaoses that were far bigger than this chaos?

"That's right."

Chu Xuan nodded.

"These chaoses used to be a single great chaos. It was shattered in a great battle and is now recovering. This is your opportunity."

"What you need to do is to make the Heavenly Dao the only supreme law in the unified great chaos."

"You don't have to fight all of them head-on. You can entice some of their experts to join the Heavenly Dao as well."

Hei Yue nodded.

She was one of the executors of the Heavenly Dao Talisman plan.

If the Heavenly Dao became the only supreme law of the great chaos, it would be a huge opportunity for everyone present.

If they became aware of this possibility, some experts would definitely be tempted.

Chu Xuan continued to assign them some tasks.

The core mission was completed.

"All of you are from the Xuan Gate sect. I will leave a Xuan Gate sect manual in the Heavenly Dao. You can study it as much as you want to prepare for the day you enter the Heavenly Sun World and combine Yin and Yang."

Chu Xuan then called over Qin, Ren Changhe, and the rest of the Xuan Gate sect and gave them some missions.

The core mission was only known to the personal disciples and core figures.

When all of the members of the Xuan Gate sect had gathered, Chu Xuan preached the Dao to them.

Qin Ying, Ren Changhe and Kingslayer were on the verge of reaching the chaos supreme realm, and it would not be difficult for them to break through after this.

Then, Chu Xuan met the Giant Chaos God and the others, including the immortal, celestial and demon ancestors.

Even though they were not part of the Xuan Gate sect, they were still on the same side, so Chu Xuan gave them some pointers and told them about the secrets of the chaos.

This was a major event that required cooperation, and their help would make his disciples' mission easier to accomplish.

In the end, Chu Xuan met with his nine disciples and Chu Pingfan alone, and told them about the Heavenly Sun World, the time flow difference, cultivation realms, and many other different things.

He warned them that eventually, there would be experts and forces that would definitely covet the Heavenly Dao and even want to control it.

This was because the Heavenly Dao was rather special and had the potential to become a transcendent law.

Now that the chaos had shattered and the supreme laws had been separated, they had yet to form a complete state.

The Heavenly Dao thus had the opportunity to become the new transcendent law of the chaos.

"What you need to do is to break through to the Dao Creation realm during the great chaos era and stop other living beings from destroying or hindering the growth of the Heavenly Dao."

"The Xuan Gate sect manual includes details regarding the Dao Creation realm. When you guys break through to the Transcendent Dao realm, you can try to comprehend the Dao Creation realm."

"Don't worry, Master. We know what to do."

Hei Yue nodded.

"Hei Yue, you know better than them how to plan and control the overall situation. I believe you can do it."

Chu Xuan was more at ease with Hei Yue in charge.

In terms of planning, she was a specialist

After giving his instructions, Chu Xuan's wisp of consciousness began to disappear.

"I'll be waiting for you all to emerge as the leaders of the great chaos era."

When the wisp of consciousness disappeared, a thick book appeared.

The Xuan Gate sect's manual!

After that, it disappeared into the Heavenly Dao.

Only those with the Heavenly Dao seal could read its contents.

Chu Xuan also gave some authority to some other members of the Xuan Gate sect, but their access was limited to information related to the Transcendent Dao realm.

Only Ding Yue and the other personal disciples could see the entire contents of the manual, though this would also depend on their own strength.

As for the regular members of the Xuan Gate sect, they could only see content related to the chaos supreme realm.

Even so, it was still incredible.

This was because within it, there was an explanation on how to cultivate and how to break through to the Transcendent Dao realm.

Other than that, Chu Xuan also gave Hei Yue and the others additional authority to allow people outside of the sect to read some of the contents below the Dao Creation realm.

This would be used to rope in people.

Chapter 758: Future Derivation

In the Heavenly Sun World, the Xuan Gate sect began to gain some fame.

However, so far, only two disciples of the Xuan Gate sect were known, which caused the sect to be shrouded in a mysterious veil.

There were only two disciples traveling the world, yet both were astonishingly talented and extremely powerful.

Yi Lingling was a Saint Dao Emperor, and she also held the title of the youngest Saint Dao Emperor in the Heavenly Sun World.

Xue Ping used to be a disciple of a large family, but his status was not high and he had been thrown aside.

He was already a Saint Dao King now, and immensely powerful.

He once fought three Saint Dao Kings of the Heavenly Pavilion alone and killed them!

Just two disciples of the Xuan Gate sect were sufficient to suppress the Heavenly Pavilion.

In fact, no one from the Heavenly Pavilion wanted to attack Yi Lingling anymore. Instead, they wanted to bury the hatchet.

Anyone could tell that the Xuan Gate sect was extraordinary.

If the disciples were already this powerful, how powerful would their sect master be?

This was also the reason why the Heavenly Pavilion refrained from sending their old monsters to pursue Yi Lingling and Xue Ping.

Yi Lingling's strength was growing rapidly, so the Heavenly Pavilion was faced with two choices. One was to take action and eliminate the threat.

However, they were unsure if they could withstand the revenge of the Xuan Gate sect.

The second option was naturally to bury the hatchet.

The enmity between the Heavenly Pavilion and Yi Lingling was actually triggered by the latter's dissatisfaction with the ranking list.

Recently, there had been rumors that the Heavenly Pavilion had admitted defeat and was preparing to compensate her and resolve the enmity between them.

As for whether Yi Lingling would accept it or not, no one knew.

Furthermore, Xue Ping seemed to have a grudge with another powerful faction.

Many powerful cultivators were waiting to see if any more experts of the Xuan Gate sect would appear to support these two disciples and display their strength.

Chu Xuan was not bothered by their situation.

Those with great fate would not die so easily.

Instead, he decided to focus on helping Lie Tian to recover his strength. After all, Lie Tian would be able to help him accomplish many things on his behalf.

After Lie Tian read the booklet containing the Dao Creation realm information, he was quite confident in his chances of restoring and recreating his Dao.

However, his injuries were too severe.

If he were to rely on himself, it would take countless years for him to recover.

Before that, Chu Xuan needed to understand the pinnacle of power in the Heavenly Sun World.

"How many Dao Supreme realm experts are there in the Heavenly Sun World?"

In his mind, an image projection appeared when he used the system's derivation function.

There were a total of six figures in the image projection.

"How many broke through to the Dao Supreme realm after the great battle."

"None."

The current six Dao Supreme realm experts were all old monsters.

The completion of Yin and Yang was a necessary condition for breaking through to the Dao Supreme realm.

At present, all living beings in the Heavenly Sun World were unable to leave the Heavenly Sun World, so naturally, there was no Dao Creation realm expert who could break through to the Dao Supreme realm.

"How about Dao Supreme Rulers in the Heavenly Sun World?"

Chu Xuan was a little nervous.

If there was a Dao Supreme Ruler in the Heavenly Sun World, he would have to be a lot more wary.

"There are none for the time being."

Chu Xuan heaved a sigh of relief.

Since there was no Dao Supreme Ruler in the Heavenly Sun World, he would be able to act more freely. If there were, the system would likely have prompted him to consume origin energy to derive the result.

However, the system's response also meant that a Dao Supreme Ruler might appear in the future.

"Tell me when the Dao Supreme Ruler will appear in the Heavenly Sun World."

"This derivation will consume 1% of your origin energy. Do you wish to continue?"

Chu Xuan's heart sank. As expected, a Dao Supreme Ruler would appear in the Heavenly Sun World in the future.

He could not afford to be careless.

Chu Xuan did not choose to continue.

He muttered to himself for a moment and changed his request.

"After a thousand years, will there be a Dao Supreme Ruler in the Heavenly Sun World?"

"No."

Chu Xuan heaved a sigh of relief. There was still time then.

"How about ten thousand years?"

"Not for certain."

This time, the result was slightly different. It was 'not for certain', which meant that a Dao Supreme Ruler might appear in 10,000 years.

There were too many variables when deriving the future. If the period of time was too long, the uncertainty value was too high.

Therefore, the system could not give an accurate answer.

Chu Xuan did not continue deriving, even though he knew that the shattering of the chaos and the sealing of the Heavenly Sun World might be hiding a great scheme.

Chapter 759.1: Recovery (Part 1)

He did not try to derive it, as it was beyond his control, and the amount of origin energy he would need to consume would definitely be exorbitant.

It was enough that no Dao Supreme Ruler would appear in the next thousand years.

He had to get stronger, and believed that he could become a Dao Supreme Ruler in a hundred thousand years. However, since his timeline and the system's derivation prediction timeline differed so greatly, it was basically certain that he was not the Dao Supreme Ruler that would appear after 1,000 years.

Would the master of the chaos return?

Or the ruler of the Heavenly Sun World?

Of course, it could not be ruled out that one of the current Dao Supreme Realm experts would break through to become a Dao Supreme Ruler.

Thinking this, Chu Xuan tried to derive something else.

"The scene of a Heavenly Sun World Dao Supreme realm expert breaking through to the Dao Supreme Ruler realm.

"None found."

When he saw the answer, he was certain that the future Dao Supreme Ruler was not one of the six Dao Supreme realm cultivators in the Heavenly Sun World.

Chu Xuan sat on a chair and made himself a pot of tea. Then, he picked up a piece of cake and stuffed it into his mouth as he looked at the wooden house Su Xian'er was staying in.

She was currently in seclusion to break through to the Transcendent Dao realm.

Before she went into seclusion, she had made a lot of pastries and snacks in advance.

Without his maidservant around to serve him, Chu Xuan was forced to make tea himself.

He raised his hand and grabbed Lie Tian.

Lie Tian said helplessly, "What now?"

At this moment, his head was in Chu Xuan's hand, and he felt extremely uncomfortable.

"You've been reading the Dao Creation realm booklet for a long time and must have gained a lot of insights. Are you confident in restoring your Dao?" Chu Xuan asked.

Lie Tian shook his head.

"Although I'm confident that I can recreate my Dao, and that it'll be stronger than before, and even that I'll have a chance of breaking through to the Dao Supreme realm after re-forging my Dao, it's too difficult."

"I don't even know how long it will take for me to recover. My injuries are not light after all."

Chu Xuan was not surprised.

Lie Tian had stayed at the edge of the chaos for a long time, surviving simply by absorbing the spiritual energy of the chaos.

Although he had been gravely injured, in reality, he had also benefited from this by absorbing the Yin-based spiritual energy of the chaos, completing the balance of Yin and Yang in his cultivation.

It could be said that the one who had protected Lie Tian back then had protected his life, and even helped him to complete the Yin and Yang of his cultivation.

Was it that Dao Supreme realm expert that he admired?

Could it be that she was also interested in Lie Tian?

"Do you have any questions regarding the Dao Creation realm? I can answer them for you," Chu Xuan asked.

Lie Tian muttered to himself for a moment before he said, "The Dao Creation realm is based on the completion of Yin and Yang. I realized that in my previous Dao, if Yin and Yang were not complete, how could I complete them?"

Ever since he had seen the Dao Creation realm booklet in the Xuan Gate Scripture Pavilion, Lie Tian no longer regarded Chu Xuan as an ordinary Dao Creation realm expert.

Chu Xuan gave him an unfathomable feeling.

It was as if all questions about cultivation could be answered by Chu Xuan.

Although Lie Tian had some speculations about Yin and Yang, he was not too sure.

However, he believed that it involved the chaos.

If his guess was correct, then the path to the Dao Supreme realm had already been monopolized by some existences.

Without a strong background or a powerful force to back one up, no matter how talented someone was, they would never be able to reach the Dao Supreme realm..

"The sun in the sky is Yang, and the chaos is Yin."

"Actually, you already knew this. Why ask?" Chu Xuan smiled.

"Of course, Yin also exists in the Heavenly Sun World, and Yang also exists in the chaos. However, no matter whether you are in the chaos or the Heavenly Sun World, it's impossible to reach the Dao Supreme realm without having enough of both."

"You've survived at the edge of chaos for such a long time and survived by devouring the chaos' spiritual energy. In fact, you've already made up for the missing Yin and have already completed your Yin and Yang balance."

Lie Tian smiled bitterly, and he had a complicated expression on his face.

Chu Xuan looked at him and asked curiously, ""Since you had the support of a Dao Supreme realm expert, why didn't you enter the chaos?"

Lie Tian sighed.

"I didn't understand at the time. Although she was a Dao Supreme realm expert, she wasn't the master of a big sect. There were some restrictions that meant that she could not point things out directly. I had to comprehend it on my own."

"She must have reached some sort of agreement with the other Dao Supreme realm cultivators. It's a pity that I was too stupid to comprehend her true intent."

Chu Xuan did not ask any further. It appeared that for the most part, the Dao Supreme realm cultivators had monopolized the path to the Dao Supreme realm.

Chu Xuan patted Lie Tian's head and said, ""Since you've joined the Xuan Gate sect, the path to the top is open."

"Thank you, Sect Master!"

Lie Tian's eyes lit up.

"I will help you to recover from your injuries and regain your strength. It's time for the Xuan Gate sect to send out some experts to show off its strength."

"The mystery of the Xuan Gate sect must also be supported by strength," Chu Xuan said.

Lie Tian was extremely excited. However, he was also shocked, as he realized that since Chu Xuan could help him recover from his injuries, it meant that he must have already reached the Dao Supreme realm.

"Don't worry, Sect Master. I will not sully the reputation of the Xuan Gate sect," Lie Tian said solemnly.

"Then let's begin. I'll heal your injuries and reforge your body."

"Sect master, just help me recover from my injuries. There's no need to hurry in reforging my body," Lie Tian suddenly said.

Chu Xuan was surprised.

Could it be that Lie Tian had fallen in love with the feeling of being a head floating around?

"My Dao is different from the past. I won't reforge my physical body until I enter the Dao Supreme realm," Lie Tian explained.

If he was unable to see that person again, even if he reached the Dao Supreme realm, there was no need to reforge his physical body. He could maintain his current state and just treat it as a form of remembrance.

"There are no simps in the Xuan Gate sect!"

Chu Xuan's mouth twitched.

"Sect Master, it's not what you think."

"Actually, we used to roam the world together. She was my big sister, and I was just her little brother," Lie Tian said with a serious expression.

'Like I'll believe you!'

However, Chu Xuan was too lazy to say anything.

That person might really treat Lie Tian as a younger brother, but it might not be the same for Lie Tian.

"Alright, I can't be bothered with your matters."

With a wave of his hand, a transcendent power appeared and enveloped Lie Tian, causing his injuries to gradually recover.

The remaining Dao Supreme power that was hindering his recovery was cleared out by Chu Xuan.

With Chu Xuan's help, he was soon healed.

However, he was still a floating head.

"Thank you, Sect Master!"

Lie Tian was extremely grateful.

He condensed two arms on the left and right of his head and cupped his hands in an expression of thanks.

The corners of Chu Xuan's mouth twitched. The arms were where his ears were, and looked extremely out of place.

"You've already recovered from your injuries, and it won't be difficult for you to create another Dao."

Chu Xuan waved his hand and a furnace appeared. Then, he grabbed Lie Tian and stuffed him into the furnace.

In an instant, the furnace lit up with various colors, as a mysterious aura surrounded it.

Lie Tian was extremely shocked.

This furnace was a supreme treasure?

"This is the Dao Creation Furnace. It can help you quickly create your Dao and stabilize your Dao Creation realm. You will be able to recover your strength with this within a hundred years."

As Chu Xuan spoke, he threw the Dao Creation Furnace into the Scripture Pavilion and no longer paid attention to Lie Tian.

The Dao Creation Furnace was not a Dao Supreme treasure, but a Dao Supreme Ruler treasure.

It was a treasure that the system had rewarded him at the 5,000-year milestone.

He flipped open to the Dao Supreme chapter of the Xuan Gate manual and started to read each chapter.

The chapter recorded hundreds of entries regarding the Dao Supreme realm. Chu Xuan even suspected that it contained a record of all the cultivation insights of the Dao Supreme realm cultivators that had ever appeared in history.

Chu Xuan copied a portion of the contents of the Dao Creation realm chapter and placed it in the Scripture Pavilion.

Chu Xuan also added two more chapters to the Supreme booklet's contents in the pavilion.

A hundred years passed by in the blink of an eye.

By this time, Su Xian'er had come out of seclusion, having reached the Transcendent Dao realm.

Chu Xuan had already finished reading the contents of the seventh chapter, and his strength had increased by quite a bit. His comprehension of the Dao Supreme realm had also reached a new level.

Chapter 760.2: Recovery (Part 2)

In a hundred years, he had only read seven Dao Supreme realm chapters. From this, one could tell the profoundness of the chapters' contents.

Anyone below the Dao Supreme realm would not have been able to glean even the slightest bit of insight from studying it for a hundred years.

In the Xuan Gate Scripture Pavilion, Lie Tian's aura was majestic.

His head was emitting a scarlet-red Dao aura.

Within the Dao Creation Furnace, boundless power surged.

When the scarlet-red aura dissipated, Lie Tian opened his eyes.

He had finally recovered to the Dao Creation realm.

Moreover, he was stronger than he had been back then.

Lie Tian was very excited.

"Lie Tian has returned!"

He could not help but let out a long howl.

In the end, the Dao Creation Furnace trembled and its power pressed him down even more.

F*ck!

He was even being bullied by a treasure!

However, to achieve this, it had to be said that the Dao Creation Furnace was terrifyingly powerful. With its assistance, the Xuan Gate sect would not lack Dao Creation realm experts in the future.

Combined with the Xuan Gate Scripture Pavilion, it could be said that the sect's foundation was beyond imagination.

Lie Tian was certain that as long as the Xuan Gate sect was given enough time to develop, it would definitely become one of the most powerful forces.

This boded well for the sect's members and disciples, which included himself. If all of them reached the Dao Supreme realm, the Xuan Gate sect would become the number one superpower in history.

Of course, the prerequisite for this was that Chu Xuan had to reach the Dao Supreme Ruler realm.

Otherwise, no matter how many Dao Supreme realm experts there were, they would not be able to resist a Dao Supreme Ruler.

Boom!

The Dao Creation Furnace flew out of the Scripture Pavilion, and Chu Xuan pulled Lie Tian out and put away the Dao Creation Furnace.

Then, he threw out more than a dozen Dao Creation-level treasures.

"You look like a pauper, so choose from among them yourself," Chu Xuan said casually.

When Lie Tian came back to his senses and saw all of the treasures, he was shocked.

Where did all of these treasures come from?

Every treasure here was more powerful than the one he possessed.

He looked at one of the crimson spears.

"Then I won't be polite."

On both sides of his head, he condensed two arms that picked up a long spear.

Su Xian'er's eyes widened as she looked at Lie Tian. A floating head with two arms growing out from the left and right... It was really too strange and funny.

Chu Xuan put away the remaining treasures.

What he lacked the least were treasures like these.

Lie Tian held the crimson spear in its hand. It seemed that he was very satisfied with how suitable it was for him.

"Since you've already recovered, you should go out and perform some tasks," Chu Xuan said.

"Remember not to be too ostentatious and remain mysterious. Don't expose your identity either."

"Although you've recovered, there's more than one Dao Creation realm expert in the Heavenly Sun World. There are also a few Dai Supreme realm old monsters. Once you expose your identity, you should know what will happen."

"I understand," Lie Tian said with a solemn expression.

Chu Xuan waved his hand, and a force descended on Lie Tian's head.

"This power can prevent you from being monitored and tracked, and from being traced to me."

"Don't worry. I am a veteran and native of the Heavenly Sun World."

Lie Tian felt that Chu Xuan was looking down on him too much.

Unless it was a Dao Supreme realm cultivator, even if the other party was stronger than him, they would not be able to track him, much less monitor him.

He did not believe that Dao Supreme realm experts would show up willy-nilly either.

"Come back after you're done. Don't show off too much."

"The Xuan Gate sect needs to maintain a low profile and a sense of mystery," Chu Xuan said.

"I understand!"

Lie Tian gave him a reassuring look.

In the past, the Heavenly Sun World also had a supreme power, but it remained so mysterious that only a few of its disciples traveled the world.

"Sect Master, don't worry. I will seize the opportunity to establish the might of the Xuan Gate sect while maintaining its sense of mystery."

Lie Tian's mission this time was actually very simple.

If Yi Lingling and Xue Ping were being bullied, he would show up and kill their enemies, showcasing the strength of the Xuan Gate sect.

It just so happened that Yi Lingling had a grudge against the Heavenly Pavilion. Recently, the Heavenly Pavilion had asked Yi Lingling to apologize to them.

Naturally, Yi Lingling was not stupid enough to show herself. Up until now, both parties had not come to an agreement.

Their grudges were not clearly written off.

What Lie Tian needed to do was to seize this opportunity.

If the Heavenly Pavilion wanted to cause trouble, he would make them an example to establish the sect's might.

Dao Creation realm experts were all famous in the Heavenly Sun World, and were all regarded as legendary existences.

If such a powerful expert like Lie Tian was only a guardian of the sect, then people could only imagine how mysterious and powerful its sect master would be.

Chapter 761: Powerful And Mysterious

In the future, the disciples of the Xuan Gate sect would be able to travel the world freely, and those who offended them would have to think twice before sending true experts against the disciples.

Yi Lingling was not weak, and had reached the upper levels of the Holy Dao realm. In the current Heavenly Sun World, she would have already entered the ranks of the top experts.

In the Heavenly Pavilion, the only people who were stronger than her were their older experts.

Chu Xuan had learned a little about the Heavenly Pavilion from Yi Lingling and Xue Ping during their conversations.

In the current Heavenly Sun World, they were considered a top force.

The current pavilion head was a Holy Dao realm expert, and was not the only one either.

Whether or not they had any Transcendent Dao realm experts remained to be seen.

In any case, Lie Tian was a Dao Creation realm expert. No matter how strong the Heavenly Pavilion was, he would be able to deal with it.

Lie Tian left the valley.

This was the first time he had returned to the Heavenly Sun World since the great battle, and it looked vastly different now.

The remnant power from the great battle back then formed barriers that separated the Heavenly Sun World into sections.

Somewhere near the center of the Heavenly Sun World, Yi Lingling was strolling around.

She ignored the Heavenly Pavilion's admission of defeat and even their request for peace.

She gave no response.

Of course, how could such a powerful force admit defeat so easily?

They wanted to use this opportunity to probe the strength of the Xuan Gate sect.

If the Xuan Gate sect was not strong enough, then they would act to eliminate Yi Lingling, and perhaps even hunt down other members of the sect.

Yi Lingling was no longer a newbie.

At this moment, she was heading to a dangerous place.

It was rumored that it was a battlefield from ancient times.

She could vaguely sense a Wutian Monument fragment inside.

Had the Heavenly Pavilion also discovered it?

If so, then this trip would not be an easy one.

The Xuan Gate only had two disciples, her and Xue Ping.

Master was someone who enjoyed an ordinary life, so he would not leave the valley.

As for Senior Lie Tian...

She was not sure how strong he was.

Was he a peak Holy Dao realm expert?

What kind of heavy injuries did he suffer that only his head was left?

Moreover, he was living so carefreely with just a head.

Lie Tian had taught her many powerful divine abilities and secret techniques, and she had used many of these to defeat her enemies.

Furthermore, what was going on with the Scarlet Cloud Mountain?

They had actually helped her secretly once.

As Yi Lingling made her way to her destination, she was thinking about how to deal with the possible dangers that might appear.

She was one of the most powerful emperors in the Holy Dao realm, but she was facing a Holy Dao realm expert, and perhaps more than one.

Therefore, she had to make some preparations and avoid taking risks.

Suddenly, Yi Lingling felt a sense of danger.

Her intuition told her that she was being watched!

Yi Lingling did not notice any enemies, but she trusted her instincts. Without hesitation, she prepared to activate her escape technique.

"Little girl, you're quite vigilant. Not bad, not bad!"

A voice rang out above her head.

Yi Lingling froze, and then looked up.

She saw a head floating ten feet above her head.

Senior Lie Tian?!

Yi Lingling was shocked that Lie Tian had left the valley.

"What are you doing here?"

Lie Tian grinned.

"The sect master felt that the Xuan Gate sect needed to remain mysterious and powerful. We need to show our strength. That's why I'm here."

Yi Lingling's eyes lit up when she heard that.

However, she still could not help but ask, "Senior Lie Tian, how strong are you?"

"You can call me elder or guardian. There's no need to call me senior," Lie Tian said with a chuckle.

"Then I'll just call you elder."

Yi Lingling was still looking at Lie Tian curiously.

"My strength is beyond your imagination. As for my injuries, they have already healed," Lie Tian said as he stroked his beard. Two arms had formed at the sides of his head.

Yi Lingling looked incredulously at this scene. It was hard to imagine how he would look like when he had fully recovered his physical body.

"Your cultivation level is still low, so you can't fathom my current state."

"Have you reached the Holy Dao realm? It's said that there are a number of them within the Heavenly Pavilion's ranks."

"What kind of trash is that? I can kill a bunch of them with one breath."

"Transcendent Dao realm?"

"Also trash that I can kill in one breath."

Yi Lingling was shocked. Senior Lie Tian was that powerful?

In that case, how powerful was her master?

"Little Yi, I am now your guardian. I won't show myself for the time being, but you can do whatever you want to do. It's time for the Xuan Gate sect to show some of its strength to the outside world."

After saying that, Lie Tian disappeared.

Back in the small courtyard, Chu Xuan was waiting for the name of the Xuan Gate sect to spread throughout the Heavenly Sun World.

He hoped that it would trigger the system's reward.

Ten years after Lie Tian left, Chu Xuan finished reading the eighth chapter of the Dao Supreme realm section and started on the ninth.

After reading so many chapters, Chu Xuan finally glimpsed the path of the Dao Supreme realm. He no longer had the illusion that he had reached the end.

In the valley, only Su Xian'er and him were left.

Chu Xuan sighed. The sect still lacked experts who could travel outside.

Although Su Xian'er's was not weak, as his maidservant, she was supposed to be by his side.

Pets like the heavenly spirit cat were rare and unique. If they were exposed, they would attract the attention of some existences. He did not have enough people to do his bidding.

"The Xuan Gate you created has become famous in the Heavenly Sun World as a powerful and mysterious force. It is seen as a hidden supreme force in the Heavenly Sun World. You have been rewarded with 10,000 years' worth of cultivation.

The system's reward suddenly appeared, and Chu Xuan felt his strength increase again.

The three thousand masses of chaotic energy of creation were more than a thousand times larger than when he had first arrived in the Heavenly Sun World.

Chu Xuan vaguely understood that if he wanted to continue improving and break free of the shackles of the Dao Supreme realm, he had to rely on the chaotic energy of creation.

Even breaking through to the Dao Supreme ruler realm had something to do with the chaotic energy of creation.

Creation of the chaos, creation of the Great Dao, creation of everything, and even the creation of living beings.

The Xuan Gate sect had become famous, so Lie Tian's mission was basically completed. Soon, it would be time for him to return.

Su Xian'er carried a small stovepot out, and an alluring fragrance wafted out from it.

Inside the stovepot were rare and precious natural treasures. They also happened to be of the tasty sort.

The stovepot was also a precious treasure.

Only Chu Xuan could be so extravagant.

Chu Xuan was about to start eating when he suddenly looked up at the sky.

"What's wrong, Sir?"

Su Xian'er followed Chu Xuan's gaze, but she did not see anything.

"It fell into the valley?" Chu Xuan asked in surprise.

"What a coincidence!"

There was a flash of light in the sky, and the space trembled slightly.

While Su Xian'er was in confusion, suddenly, in the sky above the valley, the space split open and a ray of light fell into the valley and landed outside the small courtyard.

"What's that?"

Su Xian'er asked in surprise.

It actually fell into the valley.

She knew Chu Xuan's arrangements in the valley. Only those with great luck and fortune could enter.

Those who could enter the valley were all special.

Chu Xuan waved his hand, and the space where the light passed by instantly calmed down, eliminating all traces.

Even the Supreme realm experts couldn't track him into the valley.

Chapter 762.1: Goddess Chunlan (Part 1)

Outside the small courtyard, a huge flower fell to the ground.

Its petals were green with a tinge of purple-red, and they were in the state of budding with a flowing radiance.

It was as if a Dao was growing inside it.

However, it seemed to have suffered some injuries, and the Dao could not be completely formed. It seemed somewhat incomplete.

Su Xian'er went over to it, and when she saw it, she revealed an expression of surprise.

The flower did not seem to be a plant, nor was it a treasure.

It had a special aura that she could not explain.

The heavenly spirit cat went up to take a look before turning around and leaving.

Then, it strolled around and entered the Xuan Gate Scripture Pavilion.

The sky-shaking golden roc followed it into the pavilion with mighty steps.

After a while, the four divine beasts appeared in the small courtyard.

"Go in."

Chu Xuan nodded.

The four divine beasts immediately entered the pavilion.

It seemed that they were all about ready to create their own Dao, and thus went to read the Dao Creation booklets.

The appearance of the flower and the aura it emitted had somehow inspired them.

Chu Xuan looked at the flower silently, waiting.

"Sir, what flower is that?" Su Xian'er returned to the small courtyard and asked curiously.

"That's not a flower, but a Dao."

"A Dao?"

"A Dao Creation realm Dao."

Su Xian'er was shocked. That flower was actually the Dao of a Dao Creation realm expert?

However, why did it look like this?

"Is it like this because that expert is severely injured? Is that person dead yet?"

Su Xian'er's face was filled with curiosity.

"He didn't die."

Chu Xuan pondered for a moment before explaining further, "Lie Tian's injury is caused by the loss of his Dao. All that's left is his head. However, he still has the power of a Transcendent Dao realm cultivator."

"This one only has an incomplete Dao left. Furthermore, the Dao is now a heavenly treasure. If someone who has transcended the Dao realm refines it, they will break through to the Dao Creation realm."

"Of course, doing so will result in the weakest and trashiest Dao Creation realm expert. Those with incomplete Daos can't go any further."

"However, for those who have no hope of creating their own Dao, this is a great opportunity."

Su Xian'er suddenly understood.

Chu Xuan continued, "This is also a pretty good treasure for those at the Dao Creation realm. After absorbing and refining it, they can strengthen their own Dao. They can even gain new Dao insights."

Although Lie Tian was crippled, at the very least he was not at risk of being refined like this person was.

It was kind of pitiful.

"Sir, how should we deal with this?"

Su Xian'er looked at the flower with a pitying gaze.

Unfortunately, it was a person's Dao.

If not, it would have made an interesting dish.

If she cooked it now, it would be no different from cooking a person, which was abhorrent.

"Since this person managed to enter the valley, they are not fated to die," Chu Xuan said while rubbing his chin.

The consciousness of the flower was still in an unconscious state.

Its fate was gradually growing.

From Chu Xuan's perspective, the other party's fate was originally just a trace that was about to be completely cut off. However, after it entered the valley, it suddenly increased dramatically.

Chu Xuan narrowed his eyes and secretly used the system's derivation function.

"Is there a mastermind behind this?"

"No."

After making sure that this person had fallen into the valley purely by chance and that there was no scheme behind its appearance, Chu Xuan finally relaxed.

"Derive this person's background."

An image projection appeared in his mind.

There was a mountain peak above the white clouds.

There were pavilions on the mountain, and on the mountain peak was a large hall.

A gentle and elegant figure stood in front of the main hall, looking at the land under the white clouds.

"Heir to the Cloud Mountain Palace (destroyed), Goddess Chunlan."

Chu Xuan was surprised. It was actually a cultivator from ancient times.

The Cloud Mountain Palace was an ancient force that had been destroyed in the great battle.

Somehow, the heir of the Cloud Mountain Palace managed to survive.

Chu Xuan looked up at his arrangements in the valley, hesitating on whether or not to make some changes.

Was the barrier he set up not supposed to only allow those below a certain age in?

However, he needed more manpower anyway.

This Goddess Chunlan had become a heavenly treasure. It was truly tragic.

She was probably hiding somewhere and was discovered, and as such had no choice but to flee here.

Furthermore, it was obvious that she had consumed a lot of energy, to the point that she fell unconscious.

Thus, Chu Xuan allowed Goddess Chunlan to remain outside the courtyard.

He would decide whether or not to save her when she woke up.

Three days later, Lie Tian returned, feeling extremely good about himself.

He had beaten the Heavenly Pavilion into submission.

The name of the Xuan Gate sect had spread throughout the entire Heavenly Sun World, and it was synonymous with power and mystery..

"Who is that?"

As soon as he came back, he discovered the flower outside the small courtyard.

"Someone barged in?"

With his current Dao Creation realm cultivation, he could naturally tell that the flower was the remnant of a Dao Creation realm expert's Dao.

The first thing he thought of was that a Dao creation realm had broken into the valley and had been suppressed by Chu Xuan.

"She's an old antique on her last legs. However, her fate was deep, and she wasn't fated to die. Thus, she fell here."

When Lie Tian heard this, he looked at the flower in surprise.

"What is this?"

He sensed a familiar aura.

It seemed to be someone he knew?

"Old man, do you know of the Cloud Mountain Palace? I've divined her past. She is called Goddess Chunlan, and is the heir to the Cloud Mountain Palace," Chu Xuan said lazily.

Lie Tian's heart was shaken.

Divined?

Chapter 763.2: Goddess Chunlan (Part 2)

That was an extremely long time ago. Moreover, the more powerful one's past was, the more impossible it was for someone to pry into it.

Even a Dao Supreme realm expert should not have been able to do this.

Chu Xuan could actually divine the past of a Dao Creation realm expert?

It was simply unimaginable.

Could it be that he was not a Dao Supreme realm cultivator, but a Dao Supreme Ruler?

"Cloud Mountain Palace? Goddess Chunlan? So it's her."

Lie Tian was surprised. No wonder he felt that it seemed familiar.

"You know her?"

Chu Xuan raised an eyebrow.

Lie Tian nodded.

"We've crossed paths before, and can be considered acquaintances, though not friends."

"The palace master of the Cloud Mountain Palace was a Dao Supreme realm expert," he said with a frown. "How did she end up like this? Back then, she was stronger than me."

"The Cloud Mountain Palace has already been destroyed."

Chu Xuan sighed.

He was even more determined to keep a low profile after hearing that the palace master was a Dao Supreme realm expert.

Someone that strong had died anyway.

"A Dao Supreme realm expert ... gone just like that," Lie Tian sighed.

He had also gathered some information on this trip.

The once supreme forces had all disappeared.

They were either hiding in the dark or had disappeared into the passage of history like the Cloud Mountain Palace.

The great battle that year was much more tragic than he had expected.

Outside the small courtyard, the flower gradually bloomed and condensed into an illusory divine soul.

Goddess Chunlan looked around warily and suddenly saw Lie Tian's head floating in the air.

The eyes of her divine soul were wide open, and her face was filled with disbelief.

She even subconsciously rubbed her eyes. Then, she floated over to Lie Tian.

"Lie Tian? I can't believe you died here!"

Goddess Chunlan sighed.

"I told you before not to be too arrogant and violent, or you would be killed. You just didn't believe me!"

Toward the end, Goddess Chunlan actually felt a little sad.

The people she was once familiar with had all disappeared.

Even the irascible, arrogant, and insufferably arrogant Lie Tian had died without a complete corpse!

It was too tragic!

Chu Xuan's expression turned strange. So Lie Tian was such a person!

It seemed that his edges had been smoothed out by time.

"I'm not dead yet," Lie Tian's face darkened as he angrily said.

Goddess Chunlan was shocked.

"Lie Tian, you..."

Suddenly, she saw Chu Xuan sitting on the chair, as well as Su Xian'er, who was standing behind Chu Xuan and massaging his shoulders.

Then, she saw that she was in a small courtyard.

Her slightly chaotic consciousness was completely awoken at this moment.

Goddess Chunlan immediately became alert. At this moment, she remembered that she was a heavenly treasure.

In an instant, she pulled away from Lie Tian.

"Where is this place?"

Lie Tian rolled his eyes and said, "This is the Xuan Gate sect. Your fate is extraordinary and led you here."

When he saw Chun Lan's vigilant gaze, he said unhappily, "Chunlan, don't think too highly of yourself. Do you really think you're a treasure?"

As Lie Tian spoke, a scarlet-red Dao appeared and surrounded him.

"I've already recovered to the Dao Creation realm, and my strength has improved. I don't care about treasures of your level."

Then, he sighed.

"We're old acquaintances. The people from back then have all disappeared, so it's a blessing for us to meet again."

Goddess Chunlan was shocked.

Lie Tian only had his head left, yet he was a Dao Creation realm expert?

How did he recover?

What was this mysterious Xuan Gate sect?

She looked at Chu Xuan.

"He is the sect master of the Xuan Gate sect, and the one who saved me and helped me recover my powers," Lie Tian said.

"I'm an elder of the Xuan Gate sect now."

Chu Xuan looked at Goddess Chunlan and said, "It's your fortune to have been able to come here. I'll give you two options. One is to join the Xuan Gate sect. The other is to fall into a state of deep sleep."

Goddess Chunlan was silent.

Lie Tian said, "Chunlan, you little girl. Since we're acquaintances, this is your opportunity. Join the Xuan Gate sect."

Goddess Chunlan looked at Chu Xuan and hesitated for a moment. Finally, she gritted her teeth and asked, "Who exactly are you? That great battle back then..."

Chu Xuan waved his hand.

"I'm not an old fogey. That battle or whatever had nothing to do with me."

Lie Tian circled around Goddess Chunlan and said, "I'm afraid that you'll never be able to recover from your current state by yourself."

"Trust me on this. Now that all my acquaintances have disappeared, it's rare to meet someone I know from the past. I'm not trying to harm you."

"The truth of the great battle back then is not something you and I can pry into."

Goddess Chunlan suddenly felt a little dejected.

'My master is dead. Cloud Mountain Palace has been completely destroyed.'

'Forget it, I'll join the Xuan Gate sect then. At least I'll have a place to stay!'

Her master was a Dao Supreme realm expert, yet he was annihilated.

Just by witnessing that scene, she had suffered an unprecedented injury.

Even now, her Dao heart was still full of cracks, and she would probably never be able to cross this hurdle in her entire life.

"You're not my personal disciple. Outsiders need to accept the sect's seal to join the sect," Chu Xuan said.

Lie Tian was under his control.

If he did not treat them equally, would Lie Tian not feel that it was unfair?

In any case, he had to control her to prevent any accidents.

Goddess Chunlan frowned.

As proud as she was, how could she tolerate being controlled by others?

"This is your chance. Do you really think you're still the heir to Cloud Mountain Palace? Wasn't your master and your entire sect turned to ashes anyway?"

Lie Tian had already accepted it.

The endless years of torture at the edge of the chaos had tempered his mind.

Only by following Chu Xuan would people like them have a future.

Goddess Chunlan's expression was dejected. After so many years, there was not much of her pride left.

"Then let's do this."

Goddess Chunlan sighed.

Living in such a state was also a form of torture.

She was actually very curious about Chu Xuan.

Someone who could make Lie Tian submit to him had to be a Dao Supreme realm cultivator.

Chu Xuan raised his hand, and a ray of light entered her body.

In that instant, Goddess Chunlan experienced a strange feeling.

She felt sad.

The Cloud Mountain Palace had become history, and she was no longer the proud goddess of the Cloud Mountain Palace.

Instead, she was just a servant under someone's control.

"Since you've joined the Xuan Gate sect, you'll be a sect elder, just like Lie Tian,"

Chu Xuan waved his hand, and the Dao Creation Furnace appeared.

Since Chunlan had joined the sect, she naturally had to recover her strength.

Her injuries were even more serious than Lie Tian's.

Although her Dao had not completely collapsed, its source was almost gone.

Only the remnants of her Dao carried her consciousness and memories.

Even a Dao Supreme realm expert would find it difficult to deal with this situation, and would only be able to preserve her life.

She was basically crippled.

However, to Chu Xuan, this injury was troublesome, but recovery was not out of the question.

He had many treasures.

The Dao Creation Furnace could help her recover her shattered Dao.

With the help of some treasures, it would not be a problem for her to recover.

Seeing Chu Xuan bring out a furnace, Goddess Chunlan's heart sank. He had just taken control of her, and now he already wanted to refine her?

'That's right, my injuries are too severe. Even if Master was alive, he might not be able to help me recover.'

Chu Xuan threw a few more treasures into the Dao Creation Furnace. Lie Tian's eyes turned red, and he wanted to rush into the Dao Creation Furnace.

It was too extravagant!

This little girl, Chunlan, had really obtained a great opportunity.

"You're too seriously injured. Ordinary Dao Supreme realm experts can't help you recover completely."

Chu Xuan threw in another crystal object and continued, "But since you've joined the Xuan Gate sect, it's also your opportunity. I'll use some things to help you recover."

Goddess Chunlan was stunned.

"Can I really recover?"

She knew very well how terrible her injuries were.

"It's not a big problem."

Chu Xuan nodded.

"Guard the Dao Creation Furnace for a while and wait for her to recover," he said to Lie Tian.

"Alright," the latter replied.

Chapter 764.3: Goddess Chunlan (Part 3)

Chu Xuan pointed at the Dao Creation Furnace and said to Goddess Chunlan, "Get in. You should be able to recover in about a hundred years."

Goddess Chunlan looked at the Dao Creation Furnace and suspected that this was not to heal her, but to refine her.

However, she had no choice now.

Her body flickered as she entered the Dao Creation Furnace.

Moments later, she was stunned, and now totally believed that Chu Xuan was helping her to recover.

Chu Xuan waved his hand and threw the Dao Creation Furnace into the Xuan Gate Scripture Pavilion.

He would let Lie Tian guard it.

"Sect Master, I've already reached the Dao Creation realm. What do you think?"

Lie Tian said in a flattering manner.

It was clear that he wanted to go to the highest level and take a look at the Dao Supreme realm's booklet.

"You're still far from that level. Read more of the Dao Creation realm booklets to improve your cultivation and accumulate more experience."

Chu Xuan glanced at him.

"Old man, don't aim too high. You have to take things step by step. You've only just reached the Dao Creation realm."

Lie Tian pondered this matter for a while and agreed.

"Then I'll try to reach the late stage of the Dao Creation realm as soon as possible."

Lie Tian entered the pavilion.

When he arrived at the second highest level, he realized that there were more than twenty Dao Creation realm booklets now, which shocked him.

...

A hundred years passed by quickly, and Goddess Chunlan emerged from the Dao Creation Furnace.

Until now, she still felt like she was in a dream.

She had actually recovered!

After recovering, Goddess Chunlan became even more gentle and elegant, and her beauty was unparalleled and had a mature charm.

"Thank you for your kindness, Sect Master," Chunlan knelt in front of Chu Xuan and said gratefully.

Chu Xuan was still looking at the Dao Supreme chapter. He nodded and said, "In the Scripture Pavilion, there are Dao Creation booklets. You can take a look at them when you're free."

"Thank you, Sect Master!"

Chunlan stood up and entered the Scripture Pavilion again.

Lie Tian raised his head and glanced at her before he continued to immerse himself in the booklet in front of him.

Chunlan picked up a small booklet.

She flipped through it and was shocked.

Cloud Mountain Palace was a supreme force, but its scripture pavilion did not have any secret manuals on the Dao Creation realm.

It was too difficult to record the secrets of Dao Creation, and the price was too high.

Therefore, any disciple who was close to the Dao Creation realm would either listen to the Dao Creation realm elders or the palace master of the Cloud Mountain Palace.

The Cloud Mountain Palace had none, yet the Xuan Gate Scripture Pavilion had so many.

This sect's foundation was beyond imagination.

Lie Tian looked at her again.

"Didn't I tell you? It's a great opportunity for you to enter the Xuan Gate sect. See, I wasn't lying now, was I?"

"Many thanks," Goddess Chunlan said sincerely.

"You won't be able to find this anywhere else. Let's try to improve ourselves".

Then he sighed and said, "There's still one more floor above this."

Chunlan pursed her red lips and said in shock, "Could it be that there are records of..."

"That's right!"

Lie Tian nodded.

Chunlan was shocked beyond words.

Details on the Dao Supreme realm were actually recorded in a secret manual?

Everything seemed so mysterious and unfathomable here.

However, it was true that this was a great opportunity.

Chunlan calmed herself down and began to flip through the Dao Creation booklet in her hands.

10,000 years passed by quickly.

Yi Lingling came back twice.

Xue Ping came back three times.

Yi lingling was heading to the central section of the Heavenly Sun World.

Xue Ping had also broken through to the Saint Dao Emperor realm long ago, but he had offended many major forces.

He was being chased by all kinds of people.

Back then, in order to regain his dignity, he had killed some people and was hunted down. Thankfully, Lie Tian had made a move and killed the experts of the Heavenly Pavilion.

This caused some powers to think twice about sending their strongest experts to hunt him down.

Now, only factions that were confident that they could conceal the deed were willing to hunt them down.

In the past ten thousand years, Lie Tian had gone out once again.

As a guardian he killed a peak Holy Dao realm expert.

Now, the disciples of the Xuan Gate sect were synonymous with peerless geniuses.

After Chunlan joined the sect, Chu Xuan now had two Dao Creation realm experts to do his bidding outside.

The heavenly spirit cat and the sky-shaking golden roc had broken through to the Dao Creation realm a thousand years ago.

A hundred years ago, the four divine beasts had also broken through to the Dao Creation realm.

Chu Xuan was holding the Heavenly Dao talisman in his hand.

After ten thousand years in the Heavenly Sun World, the chaos had undergone tremendous changes.

Hei Yue and the others had also transcended the Dao realm.

Chu Xuan looked at the Heavenly Dao talisman, sensing the vibrations and the changes in the supreme laws.

With the constant collision and fusion of chaoses, the supreme laws that the Heavenly Dao devoured increased in number.

However, the Heavenly Dao seemed to have encountered some trouble recently.

The chaos that had just collided and merged with the original chaos actually had the supreme laws of the past great chaos era remaining.

Even if it was only a small portion, it hindered the growth and devouring speed of the Heavenly Dao!

That being said, it was a hiccup at best.

If the Heavenly Dao could not swallow these supreme laws, it would not be able to unify the chaos and become the only supreme law.

Hei Yue and the others also did not have enough strength to help the Heavenly Dao complete its devouring this time.

The chaos calamity this time was beyond imagination.

There was an extremely powerful expert in that chaos, and both sides had Transcendent Dao realm experts.

Ding Yue and Xiao Liang were defeated by him one after another.

At present, only Hei Yue could hold her own against him.

Chu Xuan sent a wisp of consciousness into the talisman.

The Supreme Mystic Seal trembled and allowed his wisp of consciousness to avoid the restrictions of the transcendent laws.

As the aura of creation entered the Heavenly Dao, purple clouds filled the air. Purple clouds rose in the Divine World, and the Heavenly Dao laws were suffused with purple clouds.

Chapter 765: Premonition Of A Great Battle

The Heavenly Dao laws headed toward a supreme law and devoured it.

In the chaos, a great battle erupted once again.

This time, Hei Yue and Chu E had joined forces to resist that expert.

After Chu Xuan provided a helping hand to the Heavenly Dao, he immediately withdrew.

He could not act overtly, lest he attract some unwanted attention.

With the addition of this aura of creation, the Heavenly Dao should be stable.

The Heavenly Dao Talisman vibrated for a hundred years before it gradually stopped.

After devouring that supreme law, the Heavenly Dao improved greatly.

The battle in the chaos had finally come to an end.

The Heavenly Dao's side had obtained the final victory.

However, the Heavenly Dao still had a long way to go.

After the small chaoses were completely integrated, the next step would be to integrate with the other two big chaoses.

There would definitely be more than one setback then.

Whether or not it could unify the great chaos and become its only supreme law remained to be seen. It was a path fraught with uncertainties.

However, Chu Xuan's plan was multi-pronged. He still had the Origin Great Dao, which was silently expanding within the void region.

After 10,000 years, the Heavenly Sun World had also changed a little.

YiLingling had returned and told him that a special situation had occurred in a mysterious place in the central section of the Heavenly Sun World.

It was rumored to be the ruins of an ancient battlefield, and it seemed to be expanding.

According to what Lie Tian and Chunlan said, it was very likely that the master of the chaos and the ruler of the Heavenly Sun World had fought there.

Chu Xuan had a vague feeling that someone or some force was controlling things from behind the scenes.

"Within a thousand years, will the ruler of the Heavenly Sun World appear?"

"No."

Seeing the results, Chu Xuan heaved a sigh of relief.

For the past ten thousand years, he would use the system's derivation function once a millennium on this question.

Looking up at the sky, Chu Xuan used the system's fate function to examine the fate of the entire Heavenly Sun World.

The first time he used it, he noticed that the general direction of fate in the Heavenly Sun World had changed.

This was the second time.

Even if he was using the system to spy on the world's fate, Chu Xuan still needed to consume some origin energy.

Every time his origin energy was consumed, he would need to spend some time recovering.

As a result, Chu Xuan only used this function once a millenium.

Moreover, he could not observe too deeply. Otherwise, the origin energy cost would increase drastically.

Chu Xuan felt as if the Heavenly Sun World was covered in a grey mist, which was tinged with scarlet, which represented the turbid state of its fate.

Chu Xuan retracted his gaze.

His expression was solemn. The general direction of the Heavenly Sun World's fate had become more intense and dark since the last time he observed it.

In the darkness, there was a sign of a great battle.

Even though it was only a brief glance, Chu Xuan could sense that all kinds of disasters would appear one after another.

It was as if a hand was pushing all of these things forward.

The chaos would also enter its recovery stage, and the Great Chaos era would reappear. This was no coincidence.

In the Heavenly Sun World, Yang was abundant, but Yin was insufficient, and it was the opposite within the chaos. If the Heavenly Sun World and the chaos become one...

Chu Xuan took a deep breath.

He suddenly understood.

The great battle back then was for the sake of unifying the Heavenly Sun and the chaos.

The goal was to surpass the Dao Supreme Ruler realm and forge a new path beyond it!

Chu Xuan pondered. Were the masterminds behind this the master of the chaos and the ruler of the Heavenly Sun World?

Or were they perhaps led around by the scheme as someone else's pawns?

Another great battle was about to commence within the Heavenly Sun World.

Furthermore, chaos would also begin to recover and enter the Great Chaos era.

From the appearance of that expert in the other chaos that could defeat Ding Yue and Xiao Liang, it could be seen that there were also geniuses rising in the other chaoses.

"What is the current situation at the place where the Heavenly Sun World and the chaos converged?"

In Chu Xuan's mind, the situation at the border between the Heavenly Sun World and the chaos appeared. He discovered that the chaos' spiritual energy had already begun to seep into the Heavenly Sun World.

There were also wisps of the Heavenly Sun World's spiritual energy that seeped into the chaos.

Chu Xuan's heart shook.

As expected, the Heavenly Sun World and the chaos had begun to merge.

The big picture was getting clearer!

The Heavenly Dao had to be further improved.

As Chu Xuan thought of this, a blurry lotus-shaped flower appeared in his hand.

He sent the flower into the Heavenly Dao Talisman, then placed the Heavenly Dao Talisman into the Dao Creation Furnace.

After pondering for a while, he threw another pearl that was flashing with red flames into the Heavenly Dao Talisman. At the same time, the Supreme Mystic Seal emitted a transcendent and mysterious power that enveloped the Heavenly Dao Talisman.

This allowed the Heavenly Dao Talisman to not be restricted by the transcendent laws of the Heavenly Sun World.

This all happened very quickly, but it consumed a lot of his energy. Even with his Dao Supreme realm cultivation, he could not hold on for too long.

Chu Xuan's expression was grave. In order to improve the Heavenly Dao and strengthen his arrangements in the chaos, he had put in a lot of effort.

Both the flower and the pearl were extraordinary treasures

The Heavenly Dao Talisman was undergoing a transformation.

In the chaos, a bright light suddenly flashed.

In an instant, it seemed to illuminate the entire chaos.

Hei Yue and the others were alarmed.

They all went over to the Heavenly Dao.

All of the chaos supreme realm experts in the chaos also looked toward the Heavenly Dao.

At present, the Heavenly Dao was the most powerful force in the chaos.

That extremely monstrous guy from back then was eventually defeated by Hei Yue and suppressed by the heavenly Dao.

The changes in the Heavenly Dao continued for a while. When they stopped the Divine World had expanded by a hundred times.

The rest of the supreme laws of the chaos were actually moving closer to the Heavenly Dao, and instantly fused with the Heavenly Dao.

The ones who felt this the most were naturally Qin and Fengying, who immediately broke through to the Transcendent Dao realm.

A small book appeared in the minds of Ding Yue and the others. It was the celestial sect's treasure book.

At the same time, Chu Xuan's voice resounded in the minds of his disciples.

"A great battle is coming. There are many geniuses. Work hard. I have added the Dao Supreme booklet to the Xuang Gate manual."

"Yes, Master!"

Ding Yue and the other disciples felt a chill run down their spines. Their master had made his move again, which meant that this great battle was of extraordinary importance.

They had to seize the opportunity to improve their strength while the fusion of chaos was still ongoing.

In the last chaos calamity, an extremely terrifying guy had appeared and defeated Ding Yue and Xiao Liang.

In the future, with the rise of the chaos, such monstrous talents would definitely appear one after another.

Chu Xuan took a few deep breaths and took the Heavenly Dao Talisman out of the Dao Creation Furnace.

The Heavenly Sun World and the chaos were showing signs of merging. In the future, there would be a chance for his disciples to reach the Dao Supreme realm within the chaos.

With the energies of the two worlds intermingling at the boundary, changes would definitely take place. This was the opportunity for the geniuses of the Heavenly Sun World and the chaos to reach the Dao Supreme realm.

It would then push the Heavenly Sun World and the chaos to further merge, which would create the path to surpass the Dao Supreme realm.

Since that was the case, Chu Xuan naturally had to be one step ahead and set up a plan so that his disciples could break through before the other geniuses.

The pearl he had used had the characteristics of Yang, and would help the Heavenly Dao and those within it to overcome the Yang deficit in the chaos.

Therefore, unlike the other geniuses, Ding Yue and the others did not have to head to the boundary of the chaos and would have the advantage.

He could also avoid the schemes of certain people and escape the fate of becoming a chess piece.

Chapter 766: Motives

Chu Xuan reworked his plan for the chaos and upgraded the Heavenly Dao to supplement it with Yang. In this way, the Heavenly Dao's competitiveness in the chaos would be greatly enhanced.

Moreover, they might be able to rope in some monstrous geniuses to join the Heavenly Dao's side and further improve and strengthen it.

Of course, the final outcome would ultimately depend on his own strength. Without strength, all of his preparations would be in vain.

Chu Xuan did not think that even a Dao Supreme Ruler could control the overall situation, and he was still a long way away from that.

Furthermore, if his guess was right, even Dao Supreme Rulers would be dragged into this great battle.

Chu Xuan raised his hand and grabbed Lie Tian. and also asked Goddess Chunlan to come over.

"Other than the master of the chaos and the ruler of the Heavenly Sun World, are there any other Dao Supreme Rulers?" Chu Xuan asked.

Lie Tian was stunned. He did not know why Chu Xuan was asking this question. Was he about to break through and reach the Dao Supreme Ruler realm?

Thinking of this, he was shocked.

How long has it been?

Was he already going to become a Dao Supreme Ruler?

It was too terrifying!

"The Dao Supreme Ruler realm has always been a legend. Before that great battle, and even before the appearance of the master of the chaos, most people actually thought that the Dao Supreme Ruler realm and the Dao Supreme realm were one and the same."

"Once that battle broke out, everyone discovered how powerful the Dao Supreme Ruler realm was."

Chu Xuan nodded silently. However, since such legends existed, it meant that there were more Dao Supreme Rulers than the current two that everybody knew about.

Chu Xuan then looked at Goddess Chunlan.

In the end, Lie Tian was not from a supreme faction, so the secrets he knew were probably inferior to that of Goddess Chunlan.

"I heard from my master that the Dao Supreme realm is known as the end of cultivation. In fact, it's a road with no end in sight. No one can reach the end."

"Those who walk on this path will always have the illusion that they have reached the end, but in reality, the end can not be seen," Goddess Chunlan said as she recalled the past.

Chu Xuan nodded. He had this feeling when he first broke through to the Dao Supreme realm.

He could continue to cultivate and improve, but he always had the illusion that he had reached the end of his cultivation.

He might be able to clearly sense the growth of his strength, but what about other Dao Supreme realm experts, who might not feel any improvement in their cultivation for a hundred, a thousand, or even ten thousand years.

The illusion of the end of the path of cultivation was even more intense.

Those who did not have a strong Dao heart would really think that this was the end of their cultivation, and that it would be useless to continue cultivating.

Thus, those people would no longer cultivate arduously.

"My master guessed that a Dao Supreme Ruler might have reached the end of his path and then climbed up to a high peak, looking down at the path below from above," she continued.

Chu Xuan muttered to himself, "This description is quite appropriate."

Standing on the peak and looking down at the living beings below.

In the eyes of the people on the mountain peak, they were no different from ants.

Perhaps when one reached the end of the road, overcame the obstacles, and climbed the mountain, one would already be a Dao Supreme Ruler.

When he reached the peak of the mountain, that was the end of the Dao Supreme Ruler realm. At this moment, he really had no other way out.

If he wanted to continue to improve, the only way was to ascend to the heavens, which they had to figure out how to do themselves!

Chu Xuan was enlightened.

This was probably a guy who had climbed to the top of the mountain, and wanted to find a way to reach the sky, so he orchestrated the great battle back then.

The purpose was to merge the Heavenly Sun World and the chaos in order to open up a path from the mountain to the sky.

The fact that Goddess Chunlan's master was able to come up with such a way to describe the Dao Supreme and Dao Supreme Ruler realms meant that he was an extraordinary existence even among the Dao Supreme realm experts.

"Your master is quite extraordinary among the Dao Supreme realm cultivators," Chu Xuan said.

"Master is a very proud person. Even among Dao Supreme cultivators, there were only a few who managed to catch his eye," Goddess Chunlan said sadly.

Chu Xuan nodded in agreement.

"Master also said that the path of every Dao Supreme realm cultivator is different," Goddess Chunlan continued.

"For example, some paths end in a hundred miles, while others end in ten thousand miles. As such, not all Dao Supreme realm cultivators can reach the Dao Supreme Ruler realm, as they are limited by the length of their path."

Lie Tian, who was listening in on the conversation, was extremely shocked.

Chapter 767.1: Pawns (Part 1)

To think that the palace master's comprehension of the Dao Supreme realm, had reached the level where he already had his own theory regarding the Dao Supreme realm.

If he had not fallen, he might have been able to become a Dao Supreme Ruler.

What a pity!

Chu Xuan sighed. These were things that Chu Xuan naturally knew as well.

"Master said that all Dao Supreme Rulers will leave the Heavenly Sun World after climbing the peak."

Thinking back to her master, Goddess Chunlan felt a little sad.

"Of course, these are all just master's conjectures."

Chu Xuan was certain of one thing. The master of the chaos and the ruler of the Heavenly Sun World were not the only Dao Supreme Rulers. The other Dao Supreme Rulers had probably left the Heavenly Sun World to explore the void region to find their paths.

In fact, there should have been a number of them involved in the great battle back then.

"Sect master, are you a Dao Supreme Ruler?" Lie Tian asked curiously.

Chu Xuan smiled mysteriously and said, "Even a Dao Supreme Ruler, if they are not careful, can become a chess piece."

Lie Tian and Chun Lan were shocked.

At the same time, they were convinced that he had reached the Dao Supreme Ruler realm.

Lie Tian was even more shocked because he knew Chu Xuan's origins and age.

He had broken through to the Dao Supreme Ruler realm in such a short time?

It was simply unbelievable.

Lie Tian even suspected that Chu Xuan might have been the reincarnation of a Dao Supreme Ruler expert.

Otherwise, how could he be so monstrous?

It was beyond imagination.

However, even a Dao Supreme Ruler could be reduced to a chess piece?

Could it be that there was an expert who surpassed the Dao Supreme Ruler realm?

"Lie Tian, does the Xuan Gate sect have any goals?" Goddess Chunlan asked Lie Tian.

She did not know much about the Xuan Gate sect, but Chu Xuan gave her the feeling that he was unfathomable and unpredictable.

"I'm afraid that the great battle back then is not over yet. You should know that there was something unusual about it," Lie Tian said after a moment of silence.

"Perhaps the goal of the Xuan Gate sect is to avoid getting involved and becoming a chess piece, or perhaps the sect master wants to become a chess player?"

Chunlan nodded her head.

"Lie Tian, do you have a chance of reaching the Dao Supreme realm?"

When Lie Tian heard this, he immediately beamed with joy and said, "According to my calculations, I'm at the mid-stage Dao Creation realm cultivator now. Furthermore, I've completed Yin and Yang, so there's a good chance I can reach the Dao Supreme realm."

"I'm afraid I have no hope of doing so," Chunlan sighed.

She had yet to complete her Yin and Yang, and she was unable to leave the Heavenly Sun World and enter the chaos to do so.

"There's no hurry. The sect master might have a way," Lie Tian consoled her.

"I hope so..."

Goddess Chunlan did not insist on breaking through to the Dao Supreme realm.

She was already very satisfied to be able to survive.

In any case, Dao Supreme realm experts were killed easily back then too.

...

Another thousand years passed, and Chu Xuan heaved a sigh of relief in his heart. No Dao Supreme Ruler had appeared in the past thousand years.

When he observed the Heavenly Sun World's fate, he discovered that the premonition of the great battle had become clearer and seemed to be brewing.

In the middle of the Heavenly Sun Zone, in a stone house in a ruin, more than a dozen figures were gathered.

They were all Dao Creation realm existences.

An ethereal voice came from the stone house.

"The Heavenly Sun World must have its own rules. No major force or expert can kill a genius."

"From today onwards, the elders cannot bully the weak, and the geniuses must be allowed to compete among themselves.:

"We need to give them an environment to grow. Anyone who bullies the weak in a fight between the geniuses must be killed without mercy!"

The voice was filled with killing intent.

The dozen or so Dao Creation realm experts felt as if there was a huge mountain pressing down on them. They bent over, and their faces instantly turned pale.

The killing intent came and disappeared suddenly.

"From today on, all of you will be responsible for maintaining the rules. Spread the rules throughout the world. Anyone who violates the rules will be killed without mercy!"

"Any force that breaks the rules will be destroyed!"

"I'm also warning you not to act recklessly. If you break the rules, I'll take action personally. Do you understand? "

The Dao Creation realm experts had solemn expressions as they said, ""Understood!"

One of them said, "Exalted one, we're only Dao Creation realm cultivators. What should we do if stronger experts break the rules?"

"This rule was set by all of us, and the others will also learn about it soon," the voice said from the stone house.

After the voice finished speaking, more than a dozen tokens flew out of the stone house.

Each token was shining with a special power and Dao aura.

"This token represents our order. Anyone who disobeys will be killed without mercy!"

All of the Dao Creation realm experts were extremely excited.

The Dao Supreme order!

These unparalleled existences had actually come to a consensus.

They all realized that the general situation of the Heavenly Sun World was about to change.

"Exalted one, how old are those who are considered geniuses?"

A Dao Creation realm expert asked respectfully.

"Under 500,000 years old."

Then, there was no more sound from the stone house, and the group of Dao Creation realm experts bowed and left.

500,000 years was an unimaginably long period of time for ordinary living beings.

To cultivators, 500,000 years was not considered long.

After 500,000 years, most cultivators had yet to touch the Saint Dao Emperor realm.

A 500,000-year-old Saint Dao Emperor was already considered a genius, while a million-year-old Sacred Dao Emperor was considered a normal talent.

For example, Yi Lingling was considered a monstrous talent.

After the Dao Creation realm experts left, a sigh came from the stone house.

This was the sign of a great battle. Geniuses emerged one after another.

The competition between geniuses was more intense than ever.

However, in the end, they were just pawns.

So what if they were Dao Supreme realm experts?

They too had no choice but to go with the flow.

The more they understood, the more they feared.

The waters of the Heavenly Sun World were too deep.

It was so deep that even Dao Supreme realm cultivators like them were unable to grasp it.

One careless mistake, and they could easily lose their lives.

Before that incident, when had they ever had such a feeling?

They had always been high and mighty, looking down on all living beings and standing at the end of the path of cultivation.

Then, an unforeseen event occurred, and the great battle broke out. The master of the chaos killed his way into the Heavenly Sun World.

In that great battle, even Dao Supreme realm experts had fallen like ants.

All this while, only that legendary being had been able to stop the master of the chaos.

As a result, the battle became even more intense, and almost everyone above the Dao Creation realm was drawn into it.

How did the battle end?

Even Dao Supreme realm cultivators like them did not know.

The chaos shattered, and the Heavenly Sun World was sealed off.

The few of them seemed to be bound by invisible shackles, unable to leave.

They had to contribute to the unseen development of fate, just so that they would not be drowned by the changes and killed by them. This was the extent to which they could control their own fates.

They felt that they had been nothing more than tools as the years went by.

After the great battle, the few of them had managed to survive in the Heavenly Sun World.

However, was it really just because they were lucky and did not die?

Or was there something else at play here?

As time passed, they all had a feeling that their destinies and missions had already been arranged, and that feeling only grew stronger with time.

In the end, the few of them recalled their positions in the circle of Dao Supreme realm experts before the great battle, and discovered to their dismay that they were all considered to be the weaker ones.

He was a person who had truly cultivated to the end of their paths and found it difficult to advance further.

The more they understood, the more sorrowful they felt. It was as if their fates had already been arranged, and they had no power to resist at all.

The only consolation was that the fellows who had been stronger than them and looked down upon them in the past had died in the great battle, while they were still alive.

Chapter 768.2: Pawns (Part 2)

"Something should happen within a million years."

A voice was transmitted into the stone house.

"We only have a million years left. What will it be like then?"

The voice from the stone house replied.

"Who knows? But hopefully there will be a conclusion."

The voice was filled with helplessness.

"I hope so."

...

The era of geniuses fighting for supremacy had arrived in the Heavenly Sun World.

As the rules were established, the geniuses became arrogant and started to compete with each other.

Some geniuses only made a small splash before disappearing, while others overcame countless challenges to advance.

The barriers that separated the sections of the Heavenly Sun World started to weaken..

The Great Heavenly Sun era was about to arrive, and seemed to be in tandem with the rise of the Great Chaos era.

With the establishment of the rules, experts and geniuses fell one after another, and once powerful forces were destroyed!

The Dao Creation realm experts maintained the rules and order.

Within just a short 1000 years, the rules had been deeply ingrained into the people's hearts. After a Dao Creation realm expert broke the rules and was killed with a Dao Supreme token, no other expert or force dared to break the rules.

In this era, if a major power wanted to show its might, obtain more resources, and control more power.

They could only rely on their geniuses.

Once weak families became famous thanks to the rise of their geniuses.

There were also some major forces whose reputation was greatly affected by the defeat of their geniuses.

For the geniuses, they felt like there was a mountain-like pressure on their backs.

This was especially true for the geniuses from the big forces.

Once they were defeated, they would be spurned, and their status would plummet.

In order to rise, and in order to obtain more sect resources, the competition between the geniuses became even more intense.

It was like a rolling wheel, unstoppable. Many of the older generation experts realized that a new era was about to arrive in the Heavenly Sun World.

Many ancient experts chose to go into seclusion, trying to avoid this era so that they would not become cannon fodder and a stepping stone for the new era.

Time flew by, and ten thousand years passed.

The Heavenly Sun World had many geniuses, and many of the older experts had become stepping stones for them to rise.

There were also countless geniuses who lost in the competition and disappeared.

They were even abandoned by their families and sects, and their fates were miserable.

The small valley was still peaceful.

The outside world's Great Victory empire had already become history.

A genius rose up and broke through the barrier, leaving this desolate place.

It had been almost a hundred thousand years since Chu Xuan had stepped into the Heavenly Sun World, and that milestone was fast approaching.

Yi Lingling was already a Holy Dao realm expert.

There were very few 100,000-year-old Holy Dao paragons in the current Heavenly Sun World, though a few more monstrous geniuses had appeared in the Heavenly Sun World in the recent tens of thousands of years.

Xue Ping had also broken through to the Holy Dao realm.

The barriers were already on the verge of breaking down, and it seemed like the grand scheme was going according to plan.

The chaos was also entering the Great Chaos era.

In the void region, only three chaoses remained, and they would soon collide.

The chaos where the Heavenly Dao was located was the smallest of the three.

However, it was also the one that expanded the fastest.

When the last chaos calamity came to an end, the Heavenly Dao had yet to unify the supreme laws, as the chaos was still recovering from the aftermath.

However, the Heavenly Dao was powerful, so it was only a matter of time before it succeeded.

Next, it was the battle against the two bigger chaoses.

That would be the real test for the chaos, Hei Yue, and the others.

Hei Yue was not far from reaching the Dao Creation realm.

The small valley was calm as usual, and completely unaffected by what was going on outside.

Lie Tian was already a late-stage Dao Creation realm expert.

However, he was still far from reaching the Dao Supreme stage.

On the other hand, Chun Lan had perfected her Dao after Chu Xuan gave one of the system's rewards to her.

Right now, she was at the highest level of the Scripture Pavilion, reading the Dao Supreme realm booklet while seeking the opportunity and timing to break through and reach the Dao Supreme realm.

Chu Xuan himself had reached a critical point, and had reached the end of his Dao Supreme realm path.

He was just one step away from breaking through and becoming a Dao Supreme Ruler.

Within his body, a certain transformation was brewing.

The 3,000 masses of chaotic energy of creation were no longer the same as before. Their laws were more complete and they were more than 10,000 times stronger.

At this moment, a portion of the chaotic energy of creation sank and condensed into a clear stream of chaotic energy. A world in the chaos had been born.

The 3,000 masses of chaotic energy of creation had given birth to a world.

The chaotic energy of creation began to gather in the world, creating life and structure.

Chu Xuan could clearly feel that his strength was constantly increasing.

He was only half a step away from the Dao Supreme Ruler realm.

Purple lightning rumbled in the world, and it started to brew with vitality.

Chapter 769: Dao Supreme Ruler

Chu Xuan knew that when the vitality gave birth to the first life form in the world, he would become a Dao Supreme Ruler.

The purple lightning roared in the sky, dark clouds gathered, and raindrops began to fall.

The earth was moist.

At a certain moment, on the ground, a small green sprout appeared. It grew in the rain, and this small seedling appeared in the world.

The first wisp of vitality appeared in the world.

Chu Xuan looked at the spiritual herb he had just planted.

With a wave of his hand, the spiritual herb grew rapidly and transformed continuously. In a short time, it seemed to have matured countless years.

In the end, it became a heavenly treasure that formed its own Dao.

"The Dao Supreme Ruler realm," Chu Xuan muttered.

Before the 100,000-year milestone, he broke through.

With this step, Chu Xuan finally experienced the gap between Dao Supreme and Dao Supreme Ruler realms.

It was akin to the difference between humans and ants.

Only now did Chu Xuan understand the despair the Dao Supreme realm cultivators of the Heavenly Sun World felt when the master of the chaos made his move.

After breaking through to the Dao Supreme Ruler realm, Chu Xuan had the basis to be confident.

Of course, it was not enough to make him invincible, as those ancient Dao Supreme Rulers had been cultivating for much longer.

Therefore, he still had a long way to go.

No matter what, Chu Xuan's confidence had increased greatly after breaking through to the Dao Supreme Ruler realm.

Now, there was no existence within the current Heavenly Sun World that could threaten him.

The six Dao Supreme realm experts could be killed with a wave of his hand.

"You stayed at home for a hundred thousand years. You broke through and reached the Dao Supreme Ruler realm and created a record, becoming the youngest Dao Supreme Ruler in history. You are rewarded with a hundred thousand years' worth of cultivation, the Tiangang ancient divine robe, and a deduction of your next realm."

The 1000,00-year milestone reward had arrived.

The most important thing was the deduction of the next realm, as it would allow him to chart his path to surpass the Dao Supreme Ruler realm.

This would give him a great advantage against the other Dao Supreme Rulers.

Chu Xuan first received the cultivation boost reward, and instantly grew stronger.

The small seedling in the world had grown into a small tree.

Then he received the Tiangang ancient divine robe, which was a treasure that surpassed the Supreme Mystic Seal.

It was a treasure that contained 36 ancient gods, and each ancient god had the power of a Dao Supreme Ruler.

Furthermore, the Dao of every ancient God was different.

Chu Xuan was overjoyed when he received this and shouted in ecstasy.

He alone had the power of thirty-six Dao Supreme Rulers.

Of course, although the Tiangang ancient divine robe was powerful, it required ancient divine power to activate, which was stored within the robe itself. However, this also limited the duration of its activation.

It also depended on Chu Xuan's own strength.

Chu Xuan took out the Tiangang ancient divine robe, which had thirty-six stars embroidered on it. Other than that, it looked pretty ordinary.

After putting it on, the stars shone with a light that was both mysterious and unfathomable, yet majestic and unparalleled.

The 36 ancient Gods were faintly discernible. At this moment, even a Dao Supreme Ruler would be shocked if they saw Chu Xuan.

Chu Xuan was very satisfied.

This was even more advanced than his divine might ancient form, and it could further highlight his mysteriousness and supremacy.

Chu Xuan looked at the spiritual herb he had just planted. When he broke through to the Dao Supreme Ruler realm, he had infused it with a bit of his own fate energy, transforming it into a supreme spiritual herb.

Furthermore, it was still in the process of transformation.

However, because the transformation process was too fast, it did not develop sentience.

In order to gain sentience, one had to break through the restrictions of the laws.

Chu Xuan raised his hand and a ball of chaotic energy of creation nourished the spiritual herb.

Creation was a mystery.

Even though he was a Dao Supreme Ruler, he could not completely grasp the mysteries of creation.

"Whether or not you can break through the restrictions and gain sentience will depend on your own luck."

Chu Xuan caressed it. There was a crystal flower blooming on its stalk.

Chu Xuan pondered for a moment.

"Ten years! If you don't gain sentience after ten years, I'll refine you into a dish. The taste should be quite good!"

This was a supreme spiritual herb that had been infused with his fate energy.

He was probably the only one who could be so extravagant to do something like that.

"If you gain sentience, I'll grow another one and refine that one. If you don't, it's the end for you," Chu Xuan touched the spiritual herb again and muttered with a smile.

After giving this spiritual medicine a chance to live, whether it could transform or not would depend on its fate.

If it gained sentience and transformed, he might be able to take in a new disciple.

With his hands behind his back, he leisurely returned to the small courtyard.

He had to deduce his next realm.

Sitting on a chair, drinking tea, eating pastries, and deducing his next realm leisurely; this was the right way to live life.

As soon as he returned to the small courtyard, he saw Chunlan coming up to him.

"Sect master, I'm a little..."

Recently, Chunlan had been reading the Dao Supreme realm booklet in search of an opportunity to break through.

She vaguely caught a hint of inspiration and gained some insights.

She only needed a push and she would be able to step into a new world.

However, no matter what she did, that final step eluded her.

Thus, she decided to seek Chu Xuan's assistance.

Perhaps Chu Xuan could give her some guidance and show her the right path to take.

She had just left the Scripture Pavilion when he saw Chu Xuan returning leisurely.

As soon as she opened her mouth, she suddenly realized that Chu Xuan seemed to be a little different.

This had never happened before.

When she looked at Chu Xuan, he felt like an ant looking up at the sky, revering a ruler!

Chapter 770: Next Realm

"Speak! what are your doubts?"

Chu Xuan asked as he sat down.

The reason why Chunlan was looking for him was definitely because she had some doubts about her cultivation.

When she looked at Chu Xuan again, that awe-inspiring feeling had already disappeared.

As usual, he looked ordinary, like a person who enjoyed life and was a little idle.

Was it really just an illusion?

Chunlan did not think too much about it and instead asked him the question she had been pondering.

As the heir to the Cloud Mountain Palace, Chunlan's talent was naturally not bad and could be categorized as a monstrous genius.

However, that did not guarantee that one would be able to reach the Dao Supreme realm.

Whether or not one could break through in the end would also depend on one's luck and comprehension.

"You haven't accumulated enough, and your cultivation foundation is still a little lacking. You can't reach the Dao Supreme realm if you rush things. Settle down and focus your mind."

"When the time comes, you'll naturally break through."

Chu Xuan paused and continued, "I'll preach the Dao to you once. After that, you have to focus so that you can break through within the next thousand to ten thousand years."

"Thank you, Sect Master," Chunlan said respectfully.

Next, Chu Xuan preached the Dao to her.

After that, Chunlan returned to the Scripture Pavilion.

Chu Xuan then looked at the system's final reward.

Deduction of the next realm!

He had already reached the Dao Supreme Ruler realm, although he had not reached the peak.

However, the next realm seemed to not exist.

It was as if the Dao Supreme Ruler realm was the true end of the path of cultivation.

The plan behind the great battle that broke out between the Heavenly Sun World and the chaos was most likely to open up a new path and surpass the Dao Supreme Ruler realm.

Of course, Chu Xuan was not sure if there really was not anyone who could break through and open up a new cultivation path.

Chu Xuan sat on the chair, leisurely, and muttered, "Deduce."

Images appeared in his mind, and all kinds of mysterious and unpredictable cultivation paths constantly flashing past.

Finally, it froze on an image.

The next realm had already been deduced.

"The Heavenly realm!"

The realm above the Dao Supreme Ruler realm was actually the Heavenly realm, which was further divided into minor and great heavenly realms.

The cultivation direction and the method of breaking through to the Heavenly realm were also deduced.

Chu Xuan looked at the 3,000 masses of chaotic energy of creation in his body, and the world that had been born there.

The Heavenly realm was where these worlds were created and used as power.

This was not the same as the World Creator realm in the chaos, as that was not a complete world.

It could only be considered a space that could accommodate living beings.

The worlds created by a Heavenly realm cultivator had complete laws of the Great Dao and would give birth to living beings by itself!

These worlds would also create their own vitality and fate energy.

The 3,000 masses of chaotic energy of creation in Chu Xuan's body had created a world and were in the process of creation. The rules of the Great Dao were gradually approaching perfection.

It had already given birth to life, and plants had grown.

This was the foundation of the Heavenly realm.

Once the world was perfect, the laws of the Great Dao would be perfect, fate energy would emerge, living beings would appear, and it would become a world in the truest sense of the word.

At that point, he would reach the Heavenly realm.

The Heavenly realm was further divided into the Minor Heavenly realm and the Great Heavenly realm.

These were not two different worlds, but two worlds that belonged to the same world. The only difference was the difference between the worlds that were created.

The difference between the two was like the Supreme realm and the Supreme ruler realm.

Although they were both part of the same realm, the gap was extremely huge.

The Minor Heavenly realm was the realm where one created more than one world, and only transitioned to the Great Heavenly realm when one created 3,000 worlds.

The 3,000-world mark represented a huge transformation.

It was like the difference between the Dao Supreme and the Dao Supreme Ruler realms.

3,000 was the perfect number.

Thanks to the deduction, Chu Xuan understood the direction of cultivation, how to break through to the next realm, and how to cultivate.

For now, he had to focus on reaching the peak of the Dao Supreme Ruler realm first. The Minor and Great Heavenly realms would come later.

Chapter 771.1: Qi Le (Part 1)

His 3,000 Chaos Bodies of Creation was unique. He could break through to the Great Heavenly realm, but other cultivators would have to start from the Minor Heavenly realm.

He would surpass the Dao Supreme Ruler realm by creating 3,000 worlds to the realm of supreme ruler and embark on the path to the Great Heavenly realm.

As he focused, Chu Xuan's cultivation direction began to advance. The world within the mass of chaotic energy of creation continued to be perfected, furthermore, the mass of chaotic energy of creation was also expanding.

The supreme laws within it continued to evolve, improve, and spread into the world, giving birth to new laws of their own.

New worlds were being born gradually, and in each world, the cycle of Yin and Yang was established. Furthermore, between the worlds, a larger Yin and Yang cycle was formed.

However, this would require a long process.

Moreover, every world needed its own vitality and fate energy to be considered a complete world.

Chu Xuan had the experience of creating the Heavenly Dao and expanding the Divine World.

He had also created the reincarnation cycle in the Divine World, so he was very experienced.

He began to lay the foundations for his future cultivation.

As long as he confirmed his cultivation direction, Chu Xuan did not need to enter secluded cultivation. He just needed to stay at home and live a simple life.

The system was Chu Xuan's biggest advantage, and compared to other cultivators who spent all day in secluded cultivation, Chu Xuan was very relaxed.

Living a normal life was all it took for him to continue to improve.

"Xian'er, make a few side dishes and take out a bottle of wine. Let's have a few cups together."

Chu Xuan called out toward the wooden house.

After understanding the path of cultivation, his mood was very good.

He only needed to complete the first stage, the creation of the worlds, and he would have the strength of a Minor Heavenly realm expert.

He would surpass the Dao Supreme ruler and become an invincible existence. Only then would he have the confidence to tangle with those masterminds.

In any case, it was time to celebrate.

After drinking two cups of wine, he laid on the chair and took a nap as Su Xian'er massaged his shoulders. Life was really comfortable.

Chu Xuan looked at the four divine beasts and said, "I'll preach the Dao to you so that you can break through to the Dao Supreme realm as soon as possible."

As he was in a good mood, Chu Xuan gave some pointers to the four divine beasts.

Su Xian'er was still a Transcendent Dao realm cultivator. However, as she was always by his side, she was affected by the Dao aura that he was constantly emitting, so her strength was constantly improving.

Even if she did not cultivate, the speed at which her strength increased was much faster than most geniuses.

In the blink of an eye, a year had passed.

Chu Xuan's strength had increased rapidly ever since he'd figured out the direction of his cultivation and started to lay the foundation for it.

Within just a year, his strength had increased by several times.

The number of worlds in the 3,000 masses of chaotic energy of creation had increased.

In the first world, even more plants and vegetation had been born.

However, up until now, no non-plant lifeforms had been born.

The birth of a living being seemed to be a huge hurdle that could not be crossed easily.

The world had yet to have its own creation, so for the time being, it could not be considered as a true world.

Chu Xuan glanced at the supreme spiritual herb.

A year had passed, and it grew stronger and more beautiful.

It looked delicious!

However, since he was giving it a chance to become sentient, he naturally could not go back on his word.

Su Xian'er really liked this spiritual root. She felt that if the spiritual root were to gain sentience, after it transformed, no matter if it was male or female, it would definitely be very beautiful.

Chu Xuan agreed with this.

It all depended on whether the spiritual herb had the fortune to do so.

...

Somewhere in the Heavenly Sun World.

A woman's body was burning with blood, and her face was pale.

She was carrying a three-year-old boy in her arms.

At this moment, the little boy was snuggled tightly in the woman's arms. He looked at the figures not far away, and his bright eyes were filled with fear, grievance, and anger.

The woman looked at the figures and coughed up blood while crying out, "Li Wufeng, are you really so heartless that you want to kill your own flesh and blood?"

"Li Wufeng, do you have to indulge her and even kill your own flesh and blood?"

The other side remained silent.

The woman's expression became more and more mournful.

"First Madam Li, you can kill me, but please let Le'er go."

A cold voice came from the other side, "Your son should go with you. The lady said that we have to get rid of both."

"Li Wufeng, you're so cruel," the woman cursed in despair, "I was blind back then. How could you allow that b*tch to kill your own son?"

A gloomy voice came from the other side, "You're just a commoner, and now that you have a child, you dare to call it the son of the master? You're tarnishing the reputation of the Li family!"

"Remember this in your next life, commoners shouldn't dream of a status beyond them!"

Blood kept flowing out of the woman's mouth as she lowered her head to look at the boy in her arms.

She kissed him on the face.

"Le'er, your father doesn't want you anymore. From now on, you're Qi Le, not Li Le. You have to live well," she said softly.

"Don't think about taking revenge for me. As long as you're happy, I will be satisfied."

The little boy looked at his mother with his black eyes.

"Mother..."

"Be good, Le'er!"

As the woman spoke, she placed a jade talisman on the little boy's body, and her entire body began to emit a bright light.

Her divine soul appeared and was instantly annihilated. It turned into a ray of light and activated the jade talisman.

The jade talisman shattered and turned into a light barrier that enveloped the little boy.

The woman self-destructed her cultivation foundation to activate the jade talisman. Her divine soul, which was about to dissipate, took one last look at the little boy.

Boom!

She used all of her remaining strength to attack the oncoming people.

The light in the sky flickered, and the divine soul completely dissipated.

After that, only a child's cry could be heard. Immediately after, the light barrier traveled through space and disappeared with the little boy.

"Mother!"

There was only a young and sad cry that echoed in the sky.

"B*tch, you actually have such a treasure!"

"Go find him and exterminate the little b*stard!"

A cold voice resounded in the air.

"Yes!"

One figure after another flew off in all directions.

Only a middle-aged woman was left in the air. Her face was full of gloominess.

"B*tch, you think the little b*stard can live after you sent him away?"

"A useless b*stard doesn't deserve to be part of my family. How dare you think that you can gain status because of your son?"

The middle-aged woman sneered and waved her hand. The surrounding space was cleared to make sure that there was no possibility of resurrection.

Her figure moved and disappeared from the spot.

A ray of light trembled and came out from the space above the valley.

The small light barrier had already dimmed and cracks had appeared.

The child's eyes were red and swollen, and tears kept flowing out. However, he pursed his lips tightly to stop himself from crying.

The light barrier fell from the sky.

In the courtyard, Chu Xuan opened his eyes in surprise.

With a single thought, all of the spatial fluctuations surrounding the light barrier instantly disappeared.

Even a Dao Supreme realm expert would not be able to track it.

Then, the light barrier fell into the courtyard, shattered, and disappeared.

Chapter 772.2: Qi Le (Part 2)

When the light barrier fell into the small courtyard, it alarmed everyone.

Su Xian'er walked out from the wooden house.

Lie Tian and Chunlan also walked out of the Scripture Pavilion.

When they saw the little boy, they were all stunned.

Qi Le pursed his lips and sat on the ground. He tried his best to control his tears, but could not.

His eyes were filled with fear as he looked at Chu Xuan and the others.

This was especially so when he saw Lie Tian's head floating in the air. It was truly frightening.

A three-to-four-year-old child was stubbornly pursing his lips, trying his best not to cry.

There was also a blood-red lip mark on his face.

It was blood!

It was obvious that the child had just encountered a great disaster.

Su Xian'er could not help but step forward, gently stroking his head as she picked him up.

"Don't be afraid."

She took out a handkerchief and wiped away the tears on his face, as well as the blood-red lip mark.

Qi Le finally could not restrain himself any longer, and began to cry on Su Xian'er's shoulder.

"Mother, wuwu..."

Su Xian'er comforted him while looking at Chu Xuan.

Qi Le cried for a while before she stopped. He widened her eyes and looked at Lie Tian with a slightly fearful expression.

"Don't be afraid, just treat him like a ball."

Lie Tian rolled his eyes.

"Tell me, what's your name?"

"My name is Li Le ... No, I'm Qi Le. Yes, Qi Le!"

Lie Tian looked around Qi Le and said, "Strange, this kid's aptitude is pretty average. How did he fall in here?"

He knew that Chu Xuan's arrangements in the valley were extraordinary. Only those with great fate and talent could enter.

Hearing Lie Tian's words, Qi Le's small face tensed up, and his small hand tightly grabbed Su Xian'er's sleeve.

The words "average aptitude" had a huge impact on him.

It was because of this that he was abandoned, and his mother died to protect him.

Although Qi Le was young, he was not completely ignorant.

Su Xian'er glared at Lie Tian and said in annoyance, "What nonsense are you spouting?"

"Little Le'er, don't listen to his nonsense. You're very talented. To be able to come here, you must be a proud genius!"

The corners of Lie Tian's mouth twitched.

"I'm not talking nonsense. He's really mediocre."

"Tell me, is his aptitude average?" he asked Chunlan.

Chunlan hesitated and did not answer.

It was too direct and hurt the child's pride.

Lie Tian was a heartless fellow. He was carefree and was not afraid of hurting the child's heart.

However, her lack of an answer was also an answer.

Qi Le's small hand clenched even tighter.

Tears welled up in his eyes again.

Su Xian'er comforted him while looking at Chu Xuan, "Sir, do you want to take little Le'er as your disciple?"

Since he had entered the valley, and was a child who had just encountered a great disaster, he would not be chased out no matter how talented or untalented he was.

Su Xian'er had already decided that if Chu Xuan did not accept him, she would take him as her disciple.

"Of course!" Chu Xuan nodded.

Su Xian'er quickly put Qi Le down and said softly, "Hurry up and acknowledge Sir as your master!"

It was as if she was afraid Chu Xuan would go back on his word.

Qi Le was young, but he was quick-witted and immediately kowtowed.

"Disciple Qi Le pays his respects to Master!"

"Very good. Get up."

Chu Xuan nodded.

Lie Tian was surprised. Qi Le's aptitude was average, but Chu Xuan had accepted him as a personal disciple?

Even if he pitied him, there was no need to take him in as a personal disciple, right?

A disciple with mediocre talent would affect the image of the Xuan Gate sect.

Could it be that Qi Le had some special constitution that he did not know of?

Lie Tian could not help but float around Qi Le again.

Chunlan was also puzzled.

"Sect master, his talent is mediocre. To put it bluntly, if you take him in as your personal disciple, it will affect the image of the Xuan Gate sect."

Lie Tian hovered near Qi Le again and continued, "How about this, I'll take him in as an outer disciple of the Xuan Gate sect?"

Qi Le's face was filled with anxiety as he leaned against Su Xian'er, his small hands grabbing onto the hem of her clothes, tensed up.

Su Xian'er was so angry that she wanted to curse him.

Chunlan also looked at him with dissatisfaction.

"In the Xuan Gate sect, there are only core disciples, no outer disciples."

"Those who can enter the Xuan Gate sect are all people with great fate and extraordinary talent. He is no exception."

"I can't tell. What kind of innate talent does he have? He doesn't have any special constitution either."

"Chunlan, what about you? Can you tell?"

"No," Chunlan shook her head.

It was normal for them to not be able to tell. After all, only those who had reached the Dao Supreme realm would be able to do so.

Qi Le's consciousness was a mass of Yin and Yang energy.

Once his spirit was formed, this mass of Yin and Yang energy would be in his spirit.

From the perspective of those below the Dao Supreme realm, Qi Le's aptitude was average, and his spirit was muddled, which was a sign of poor comprehension.

He would never be able to condense his divine soul and break through to the emperor realm.

However, Dao Supreme realm experts could trace the clues. The mass of Yin and Yang energy was a great fortune!

Chapter 773.3: Qi Le (Part 3)

This meant that he could break through all the way to the Dao Supreme realm without worrying about ever having to travel to the chaos.

In the current situation where the Heavenly Sun World was lacking Yin and the chaos was lacking Yang, his innate Yin and Yang was the greatest treasure.

Thanks to the Yin and Yang energy, he looked like he was in a daze, but in reality, he had extraordinary comprehension.

At such a young age, he had already shown it.

Qi Le's family had to be blind to have abandoned him. Then again, they probably did not have a Dao Supreme realm expert among their ranks.

Chu Xuan sighed.

From Chu Xuan's point of view, Qi Le's mass of Yin and Yang energy made it easier for him to break through than the other supreme geniuses.

It would be much easier for him to open worlds as well.

Yi Lingling and Xue Ping were both extremely talented, so it was inevitable that they would reach the Dao Supreme realm, but harder for them to reach the Dao Supreme Ruler realm.

Of course, with Chu Xuan's guidance and the foundation of the Xuan Gate sect, it was possible to do so.

However, they would encounter a huge bottleneck, which Qi Le would not face.

Chu Xuan stood up from his chair and walked over to Qi Le, reaching out to stroke his little head.

"From Dao Creation to the Dao Supreme realm, one needs to reach the perfection of Yin and Yang. All kinds of special constitutions and talents cannot escape the need to do this."

"Furthermore, not everyone can achieve it. If they can't, then they can't. Even if they cultivated in the chaos for hundreds of millions of years, it would still be useless."

Lie Tian and Chunlan nodded in agreement.

The perfection of Yin and Yang was not something that could be achieved by simply entering the chaos, and even after completing Yin and Yang, not all of them could break through to the Dao Supreme realm.

"Qi Le, on the other hand, possesses perfect Yin and Yang. No supreme talent can compare to him."

Lie Tian's eyes widened in disbelief, and Chunlan was equally shocked.

"I knew it! How could Little Le'er's aptitude be mediocre?" Su Xian'er laughed happily.

Although Qi Le did not know what perfect Yin and Yang meant, he understood that he wasn't trash, and that he was very talented.

As soon as he relaxed his mind, he could not hold on any longer.

Su Xian'er carried him up, "If you're tired, then sleep.."

After a while, Qi Le fell asleep.

"He possesses perfect Yin and Yang?"

Lie Tian's face was filled with disbelief.

No matter how he looked at it, Qi Le's talent was average. Of course, he did not doubt Chu Xuan's words.

"The Heavenly Sun World lacks Yin. Why would there be a person who was born with perfect Yin and Yang here?"

Chu Xuan laughed.

"Times produce heroes and demons. Now that the direction of fate is moving, such unnatural things will become the norm."

Qi Le was blessed by the transcendent laws and was born with perfect Yin and Yang.

The Heavenly Sun World and the chaos were merging to form a complete and flawless great world, and Qi Le was born for this reason.

Looking at Qi Le, who was in Su Xian'er's arms, Chu Xuan continued, "Qi Le is the most talented one among my disciples. He will reach the Dao Supreme Ruler realm, but that's not his limit."

Lie Tian and Chunlan were both shocked.

The Dao Supreme Ruler realm was not the end?

They had never heard of a realm beyond that.

Dao Supreme Rulers were already legendary existences in ancient times.

Qi Le could actually step into the realm above the Dao Supreme Ruler realm and open up a new path?

Lie Tian then looked at Chu Xuan.

The sect master of the Xuan Gate sect was so mysterious and unfathomable. What was his potential?

Could he also surpass the Dao Supreme Ruler realm?

Su Xian'er was also very surprised that Chu Xuan had such a high evaluation of Qi Le.

She knew that before this, among Chu Xuan's disciples, the one he valued the most was Hei Yue.

Even Chu E was not as valued as Hei Yue.

Qi Le had actually surpassed Hei Yue?

"Sir, is Little Le'er stronger than Sister Hei Yue?"

Lie Tian and Chunlan immediately perked up their ears.

Hei Yue?

Another disciple of Chu Xuan?

They both knew that other than Yi Lingling and Xue Ping, Chu Xuan had nine other disciples.

Lie Tian guessed that his nine disciples were most likely in the chaos.

Chu Xuan nodded.

"Hei Yue needs to complete her Yin and Yang. Even if she's extraordinary, she's still a little weaker than Qi Le in terms of talent."

Hei Yue's divine soul was formed from the broken transcendent laws of the Great Chaos era, or perhaps, it was a new embryonic form of a transcendent law that was born after the previous chaos and its transcendent laws were shattered.

It was stronger and more special than any other talent.

After all, it was a new transcendent law, and becoming a Dao Supreme Ruler would be no problem.

However, compared to Qi Le's innate perfect Yin and Yang, it was still lacking.

Of course, this was only the difference in talent.

Although aptitude was the most important factor in a cultivator's achievements, it was not the only factor.

Hei Yue had the experience of implementing the Heavenly Dao Talisman plan, and was someone with extraordinary vision and comprehension when it came to planning. Although her aptitude was not as good, her achievements might not be worse than Qi Le's.

For the time being, Chu Xuan was more optimistic about Hei Yue, as she was the strongest in terms of methods, mentality, and experience.

"This is just the difference in talent. In terms of achievements, Hei Yue will fall behind," Chu Xuan paused and continued, "Ding Yue guy probably won't fall behind by much either."

Ding Yue's Sword Dao was pure!

Its purity made it even more extraordinary.

After accepting Qi Le as his disciple, because he was still young, Qi Le was brought up by Su Xian'er and Chunlan.

Chu Xuan did not teach him any cultivation techniques.

They also learned about what happened to him from Qi Le.

As time passed, Qi Le gradually walked out of his sadness, but his hatred could not be eliminated.

He liked to stick to Su Xian'er and Chunlan, and was still afraid of Lie Tian.

It was a floating head... who would not be?

Chu Xuan did not think this was acceptable. His disciple should not be afraid of Lie Tian. If this fear persisted until he was older, it would be difficult to eliminate.

For this reason, Chu Xuan directly grabbed Lie Tian.

"Le'er, come here."

Qi Le ran over.

"Master."

Chu Xuan placed Lie Tian on the ground and said, "Le'er, Master will give you a ball to play with."

Qi Le's eyes widened as he looked at Lie Tian, who was on the ground with a helpless expression.

"A ball?"

"Yes, you can kick him like a ball."

"Can I really?"

Qi Le did not really dare to do so.

"Of course you can. This is a ball."

Chu Xuan gave him an encouraging look.

Qi Le raised his small foot and lightly kicked Lie Tian.

In the end, Lie Tian did not even move.

Qi Le was so scared that he hid behind Chu Xuan.

"Le'er, you have to learn from me and kick with force."

Chu Xuan then sent Lie Tian flying with a kick.

Qi Le's eyes widened, and he looked eager to try.

Lie Tian flew back with a cry.

"Look, the ball flew away, but it still came back on its own. Try again."

Qi Le carefully walked over to Lie Tian, raised his small foot, and kicked like Chu Xuan.

Lie Tian was instantly sent flying.

After a while, it flew back.

"It's fun, right?" Chu Xuan asked with a smile.

Qi Le's little face was red. He was a little nervous and a little excited.

"Yes, it's fun!" He nodded his head.

"If it's fun, then play more. I'll let Lie Tian accompany you when you want to play."

Chu Xuan rubbed his little head.

Qi Le was no longer afraid of Lie Tian, and he had a lot of fun every day.

Lie Tian was very tired.

Fortunately, after Qi Le kicked him a few times, he knew his limits and stopped kicking. Instead, she liked to ride on Lie Tian's head and fly around the valley.

Qi Le was five years old.

He had been in the valley for two years, and had been eating heavenly treasures every day, making him look like a jade sculpture and extraordinarily cute.

However, he had still not started cultivating. That being said, the strength of his physical body had already surpassed the emperor realm.

Chapter 774: Chu Yu

On this day, the five-year-old Qi Le carried the heavenly spirit cat and rode on the White Tiger as he rushed out of the courtyard.

He passed through the forest and arrived at the medicinal garden.

He stopped in front of a flower that was as clear as jade.

"Little Yu'er, I've come to see you again," Qi Le stroked the flower and said.

This was the spiritual herb that Chu Xuan had enlightened.

Ever since Qi Le discovered it, he had become somewhat infatuated with it, sometimes squatting in front of it and talking to it as if it were a playmate.

Chu Xuan did not mind.

Qi Le was young, and was the only child in the valley. Normally, he would either play with the heavenly spirit cat or ride the White Tiger around the valley.

Talking to the spiritual herb was also an outlet for any of his concerns or frustrations.

This time, the flower's petals actually trembled slightly, as if it was responding to Qi Le's words, which made him even happier.

Time passed by quickly, and Qi Le was ten years old.

Chu Xuan began to teach him how to cultivate.

Ever since he started cultivating, Qi Le stopped playing and focused on cultivating. To no one's surprise, he chose to cultivate next to the spiritual herb, and would also talk to it daily.

The spiritual herb had already gained sentience, and as a result avoided the fate of being turned into a dish. It had Qi Le to thank for this.

As Qi Le was cultivating, he suddenly felt some special fluctuations.

He opened his eyes and saw that the spiritual herb was emitting a faint brilliance, hazy yet beautiful.

Chu Xuan's figure appeared.

The spiritual herb was actually starting to take form.

"Master!"

Qi Le hurriedly bowed.

Chu Xuan nodded and continued to observe the spiritual herb.

"Master, what is going on?" Qi Le asked nervously.

"The spiritual herb is taking form. You'll have a real companion in the future."

Qi Le was overjoyed, and his face was filled with anticipation.

Su Xian'er, Chunlan, and Lie Tian had also arrived.

The spiritual herb emitted a dense brilliance that fully enveloped itself, and when the light faded...

A little girl who was fair and delicate, garbed in a white dress, appeared where the spiritual herb had once been.

Su Xian'er's eyes brightened.

"So cute..."

The little girl bowed to Chu Xuan and said, "Greetings, Father..."

"It's Master," Chu Xuan corrected her.

"Greetings, Master!"

"You'll be called Chu Yu then."

"Thank you for the name, Master!"

Chu Yu looked like she was five or six years old and was fair and delicate.

Her eyes were bright, and she had a spiritual aura around her.

Su Xian'er stepped forward and held Chu Yu's small hand. She was all smiles as she said, "You call me sister."

"Big sister."

Qi Le looked at Chu Yu with her eyes wide open. His face was flushed red, and he looked both excited and shocked.

"Brother Qi Le!"

Chu Yu looked at Qi Le and smiled sweetly.

"Hehe..."

Qi Le laughed foolishly.

"A golden boy and jade girl... A match made in heaven."

Chunlan sighed.

Chu Yu was only five or six years old, but thanks to her origins as a spiritual herb that was nurtured by Chu Xuan, her talent was extraordinary. Chu Xuan had taught her cultivation methods not long after she transformed.

Chu Yu and Qi Le were together all day long.

They cultivated and played together, enjoying the joys of childhood.

Time flew by, and a hundred years passed.

Qi Le still looked like he was 16 or 17 years old.

A hundred years as a cultivator was nothing.

Chu Yu was the same.

After growing up, Qi Le had become calm and steady, and he was still very diligent in his cultivation.

Chu Yu, who had the appearance of a beautiful young girl, stood tall and slender.

All day long, she would either hang around Su Xian'er and Chunlan, or accompany Qi Le in his cultivation.

Chu Xuan continued to live his ordinary life.

Lie Tian continued his secluded cultivation, while Chunlan was accumulating her strength and solidifying her cultivation foundation in preparation to break through to the Dao Supreme realm.

Qi Le and Chu Yu were preparing to open their own Dao paths.

As a transformed spiritual herb nurtured by Chu Xuan, she was born with her own Dao, which meant that opening a Dao path was simply a formality.

Both of them could be considered peerless geniuses.

Qi Le was extremely hardworking in her cultivation, and aside from the techniques Chu Xuan taught him, he often visited the Scripture Pavilion to read the booklets within.

He would ask Lie Tian and Chunlan for some special secret techniques, as well as learn from them about the Heavenly Sun World.

Everyone obliged, knowing that Qi Le was making preparations in his own way to take revenge for his mother.

He wanted to prove to the person who had abandoned him that he was not a good-for-nothing!

He wanted to make those people regret their actions and suffer the consequences!

Even the simple-minded, innocent, and lively Chu Yu was aware of the pent-up anger in Qi Le's heart.

Before she had gained sentience, she had been listening to Qi Le's confessions about this matter.

Soon enough, he reached the Saint Dao realm, and could no longer be considered weak.

Furthermore, as a peerless genius, it seemed that Qi Le was destined to participate in the competition between geniuses that was taking place in the Heavenly Sun World at this moment.

After breaking through, he wanted to set out and take revenge.

Chu Xuan naturally knew what he was thinking.

However, the Li family was not a small family in the Heavenly Sun World, and had a Transcendent Dao realm expert. There were also rumors of even stronger experts among their ranks.

Although the Heavenly Sun World had set rules to prevent geniuses from being targeted and hunted down by others, could it really be completely avoided?

This was especially worrisome in Qi Le's case, who was obviously a threat to the Li family.

If a genius without a backer was secretly killed, no one would know, right?

After all, there were only a certain number of law enforcers, and most of them were focused on protecting the geniuses who had already risen to fame.

Chapter 775: Return

Therefore, every genius did their best to become famous, as that was the best guarantee they had of receiving the protection of the law enforcers.

Currently, there were only two disciples of the Xuan Gate sect outside, which were Yi Lingling and Xue Ping. Both of them were extremely famous within the Heavenly Sun World, and were Holy Dao realm experts.

As such, few people were capable of threatening their safety.

However, Qi Le was not the same. Although the Xuan Gate sect's fame would provide some token deterrence, he was not strong enough to protect himself from the Li family, who would likely take action the moment they discovered his existence.

All they had to do was to accomplish it cleanly and secretly. They could even do so in an above-board manner by dispatching their disciples or descendants to do it under the guise of the competition.

Still, it was a good chance for Qi Le to temper himself. The Xuan Gate sect would back him up in their own way.

A year later, Yi Lingling and Xue Ping had returned.

"Greetings, Tenth Senior Sister and Eleventh Senior Brother!"

Qi Le and Chu Yu greeted their seniors.

"Oh, a little junior brother and little junior sister."

Then, after examining them, Yi Lingling and Xue Ping were shocked.

How old were they even?

They had reached the Saint Dao realm?

As expected, those who could enter the Xuan Gate sect were all monsters.

Yi Lingling and Xue Ping then began to share their experiences over the years in the outside world.

Naturally, conflicts were inevitable.

They would often explore some historical sites and ancient battlefields. There, they would encounter other geniuses, and fight over the treasures and opportunities that lay within.

"I can't be too proud. I didn't think that there would be someone as strong as I was in my generation," Xue Ping sighed.

Before he came back, he had fought a great battle with another genius of the Heavenly Sun World who was also famous.

Even though he had the upper hand, he was unable to defeat his opponent.

Yi Lingling nodded.

She had also met her match.

Chu Xuan was not surprised by this, as a number of select geniuses had obtained the legacies prepared by the Dao Supreme Rulers in order to advance their grand scheme.

This time, Yi Lingling and Xue Ping came back not only to visit their master, but also to improve themselves.

"There are still geniuses on par with you in the current Heavenly Sun World?" Lie Tian asked in disbelief.

Lie Tian was fully aware of the Xuan Gate sect's foundation and the plethora of cultivation techniques and divine powers they cultivated.

Yi Lingling and Xue Ping's talents were rare even in his era.

How could geniuses that could match them exist?

Chu Xuan laughed.

"Now that the hands of fate are moving, geniuses are appearing in large numbers. These geniuses will push the hands of fate forward, so it's not strange that there are those as powerful as these two."

"Sect master, what do you mean by hands of fate?" Lie Tian asked curiously.

"The goal of those moving in the dark is to achieve the perfection of Yin and Yang and open up a new path," Chu Xuan said profoundly.

Lie Tian's heart shook.

Then he thought of the great battle back then. Was that too orchestrated in preparation for the current situation?

Were these monstrous geniuses cultivated by those hidden existences in order to move the hands of fate forward?

It would make total sense then that they could match Yi Lingling and Xue Ping

Xue Ping continued to talk about some of the famous geniuses in the Heavenly Sun World, as Qi Le and Chu Yu listened intently.

They were naturally filled with curiosity about the outside world, especially Qi Le, whose heart was restless for revenge.

"I've heard recently that the Li family has produced a monster. He's only a hundred years old, but he's already reached the 15th level of the Dao realm."

Xue ping sighed.

"The Li family is trying their best to cultivate this young man. He has not even opened his Dao path, yet they are already focusing their efforts on him."

"Of course," Yi Lingling replied, "How many Dao realm experts are there in the Heavenly Sun World?"

When she was over a hundred years old, Yi Lingling had only just reached the Dao realm.

Of course, she was different. After all, she was not born in an ancient family like the Li family.

Even though she became Chu Xuan's disciple, it was to build her cultivation foundation.

Chu Xuan and Lie Tian did not help her at all in terms of finding and exploring her own Dao. She had to comprehend it by herself.

Therefore, her understanding of her Dao path was stronger, and it would be easier for her to break through to the Dao Creation realm in the future.

This was also the way the Xuan Gate sect nurtured its disciples. It focused on building their cultivation foundations and helping them to understand their strengths and talents.

Xue Ping nodded. When he was over a hundred years old, he was still in a miserable state.

When Qi Le heard the two of them talking about the Li family, he subconsciously clenched his fists and his eyes flashed with resentment.

Chu Yu held his hand and consoled him silently.

"Little Junior Brother, what's wrong?"

Yi Lingling noticed Qi Le's unusual behavior and asked curiously.

"Little Le'er was also from the Li family, but he was abandoned. His mother also died at the hands of the Li family's first lady," Su Xian'er explained.

"The Li family is really blind. How can their genius compare to our Junior Brother's talent?"

"I heard that their genius is the youngest son of Lady Li?" Xue ping sneered.

He reached out and patted Qi Le's shoulder, saying, "'Don't worry, Junior Brother. From now on, I will target the Li family and kill all of their geniuses to avenge you!"

"Xue Ping is right. I'll teach your heartless father a lesson on your behalf when I leave," Yi Lingling said coldly.

"Many thanks, Senior Sister and Senior Brother. However, I will personally handle the matter of the Li family. I will also personally avenge my mother," Qi Le said gratefully.

"Then I'll protect you. I want to see what the Li family can do," Xue Ping said.

Chu Xuan said, "Le'er will handle his family's matters. If you have any doubts about your cultivation, you can speak now."

Xue Ping chuckled and took out a bunch of things.

These were all treasures that he had obtained from exploring various ancient sites over the years.

"Master, can I leave these treasures here to enrich our treasury?"

Chu Xuan looked at it with disdain. "Keep that trash. There aren't many people in the Xuan Gate sect, so we're not short of actual treasures."

Xue ping was stunned.

Trash?

"Master, these are all treasures above the Saint Dao realm."

He looked aggrieved.

In order to enrich the sect's treasure and increase the foundation of the sect, he had explored many historical sites.

Although his master had given him extraordinary treasures, there was no treasury in the sect. Other than the spiritual herbs that his master grew in the medicinal garden, there were no artifacts or other such treasures.

"These are trash. Leaving it here will degrade the quality of the environment here."

Chu Xuan raised his hand and patted Xue Ping's head.

Looking at the pile of items, he threw out a furnace and said, "You can refine all of these into supreme treasures."

Chapter 776: Artifact Refining

Xue Ping looked at the furnace and swallowed his saliva.

"Master, this is?"

This furnace looked extraordinary.

"As long as materials are put into the furnace, it will automatically refine divine weapons and treasures. It can even refine supreme treasures," Chu Xuan said casually.

This time, Xue Ping was not the only one shocked. Lie Tian and Chunlan joined the party.

However, when they recalled the Dao Creation Furnace, they understood that Chu Xuan's means were unfathomable.

Xue Ping's eyes lit up as he looked at the pile of treasures in front of him and asked, "Master, what grade of supreme treasure can I refine with these?"

"An ordinary Dao Creation divine weapon," Chu Xuan said.

"Then I'll refine them all."

Xue Ping was overjoyed.

A Dao Creation divine weapon was beyond his imagination.

Who would complain about having more treasures?

"Do I just throw it in like this?" Xue Ping asked with uncertainty.

"Yes, throw them all in, and then imprint the shape and type of divine weapon you have in mind into the furnace."

Chu Xuan nodded.

"The furnace can make many treasures at the same time," he said to Yi Lingling. If you want to make one, you can throw in some materials as well."

Yi Lingling took out some materials as well.

Although she had the Ethereal Divine Sword, she could use other types of treasures to strengthen herself as well. It was a good chance to put the materials she had collected to good use anyway.

"The refining process will take some time, so go do whatever you need to do," Chu Xuan said.

They then entered the Scripture Pavilion to read and cultivate.

As for Qi Le and Chu Yu, they began to make preparations to leave the valley.

The two of them did not lack treasures, as Su Xian'er and Chunlan had doted on them.

Knowing that they would have an arduous journey ahead of them, they did not hesitate and gave them whatever they thought was suitable for the two of them.

"Little Le'er, although your senior brother and sister are protecting you, you can't be careless. Take these things."

"You have to keep an eye on Little Yu'er too. Don't let her be deceived," Su Xian'er warned Qi Le.

"Sister Su, I'm not a child. I won't be deceived," Chu Yu pouted her little mouth and said in dissatisfaction.

...

Three years later, Qi Le and Chu Yu left the valley with Xue Ping and Yi Lingling.

Su Xian'er and Chunlan watched them leave reluctantly. After all, they were the ones who had raised Qi Le and Chu Yu.

The valley regained its peaceful atmosphere, and Chu Xuan was still living his ordinary life.

Lie Tian was cultivating in seclusion, while Chunlan was also preparing to break through to the Dao Supreme realm.

In the central section of the Heavenly Sun World, a piece of news started to spread, attracting the attention of countless geniuses and major forces.

Qi Le, a disciple of the Xuan Gate sect, had challenged all of the disciples of the Li family under the age of 1,000!

The entire central section was shaken.

The Xuan Gate sect had produced another disciple!

Countless people were curious. What was the cultivation level of the sect's newest disciple?

Since he was challenging the Li family's geniuses who were less than 1,000 years old, he could not be older than that.

Everyone thought that Qi Le's goal was to challenge the unparalleled genius from the Li family, Li Tianlong!

Li Tianlong was over 100 years old and had already reached the Dao realm.

Many experts had predicted that he would most likely open his Dao path in a thousand years, matching the achievement of Yi Lingling, another of the Xuan Gate sect's disciples.

Now, a disciple of the Xuan Gate sect had issued a challenge.

Although he had said that he was going to challenge all the disciples of the Li family under the age of 1,000, he was clearly targeting Li Tianlong.

The Xuan Gate sect was a mysterious and powerful force.

Before this, there were only two disciples who were known to the Heavenly Sun World, and both were considered peerless geniuses who had surpassed countless cultivators of the older generation.

Furthermore, in the past, a Xuan Gate sect elder had killed an expert from the Heavenly Pavilion.

It was rumored that this elder was a legendary Dao Creation realm expert.

If that was true, then the sect master could only be more powerful!

The current rules of the Heavenly Sun World were created by the legendary Dao Supreme existences to protect the development of geniuses.

Back then, the Xuan Gate sect's elder had also said that the strong bullying the weak was intolerable.

Therefore, many forces and experts guessed that the Xuan Gate sect was one of the founders of the current rules of the Heavenly Sun World.

The challenge quickly became a hot topic among cultivators, and everyone was looking forward to this battle. Would the Xuan Gate sect or the Li family emerge victorious?

There were also speculations that the disciple of the Xuan Gate sect was challenging the talents of the Li family because the sect was dissatisfied with the Li family.

Were they trying to suppress the Li family?

The Li family was an ancient family, and there were rumors that they had a deep relationship with a Dao Creation realm expert law enforcer.

There were also rumors that a powerful Dao Creation realm expert was the founder of the Li family, though it had not been confirmed.

However, everyone knew that the Li family had a deep foundation and was extremely powerful.

"Qi Le of the Xuan Gate sect should also be a Dao realm cultivator, right?"

"That's for sure. If he hasn't reached the Dao realm, why would he challenge Li Tianlong?"

"Is it possible that he's already reached the Saint Dao realm?"

"That's impossible," someone replied doubtfully, "Qi Le shouldn't be more than a thousand years old. How can he be a Saint Dao realm expert?"

The rest of the people agreed.

Yi Lingling, a disciple of the Xuan Gate sect as well, and was one of the top geniuses in the Heavenly Sun World. She had only broken through to the Saint Dao realm after more than a thousand years.

"How old do you guys think Qi Le is? If he's older than Li Tianlong, then even a victory would not mean much, right?"

Chapter 777: Qi Le's Challenge

"He should be older than Li Tianlong. Otherwise, he would not have set the age limit below a thousand years."

The entire central section was in a heated discussion.

Yi Lingling had wanted to challenge Li Wufeng, the head of the Li family, but found out that he was stronger than she was, so she gave up on the idea of challenging him.

Xue Ping looked at Qi Le.

After leaving the valley and adventuring the world with them, Qi Le had become more and more composed. Furthermore, his aura had a unique feeling to it.

This little junior brother was quite extraordinary.

"Little Junior Brother, you don't have to hold back when you encounter geniuses. Although your cultivation level is higher than Li Tianlong's, you're three years younger than him. Killing him won't break the rules."

Xue Ping encouraged him further, "Don't be afraid of the Li family's revenge either. They can't break the rules, and even if they do, the Xuan Gate sect will back you up."

"I know two law enforcers, so you don't have to worry about the law enforcers behind the Li family," Yi Lingling said

"You should take this opportunity to let the Li family's first lady taste the pain of losing her son, and make her pay the price for what she did to you and your mother back then."

The rules of the Heavenly Sun World had been established, and Yi Lingling had already learned from Chu Xuan that these Dao Creation realm experts were merely pawns.

They followed orders and maintained the rules.

No one would dare to break the rules. Behind these law enforcers, there were even more powerful experts.

They were the ones who truly set the rules.

The fact that her master knew this meant that the Xuan Gate sect was capable of standing on par with these experts, and that her master was capable of dealing with these experts.

This was how powerful her master was.

Since that was the case, what was there to worry about?

"I won't kill him."

Qi Le shook his head.

"I want to defeat him thoroughly and make his Dao heart collapse. I want to make Madam Li go crazy."

"I'll become the most powerful genius of the Li family," Qi Le continued after a short pause, "Then I'll ask the old man to drive her out and use the power of the Li family to hunt her down."

"I'll chase her until she has nowhere to go, and then finally destroy her completely."

Qi Le's eyes flickered with hatred as he coldly said, "In the end, I want her to be abandoned and thrown away by the Li family, just like how I was."

Not only did he want to kill her, but he also wanted to destroy her heart!

Xue Ping gave him a thumbs up.

"Little Junior Brother, your idea is not bad. I'll support you!"

As for whether the Li family would abandon Li Tianlong and Lady Li for Qi Le, it was very likely.

After all, Qi Le was a hundred-year-old Saint Dao realm genius.

He was also a disciple of the Xuan Gate sect.

Those two facts themselves were irresistibly tempting!

Furthermore, this would be proven further after Qi Le defeated Li Tianlong.

A monstrous descendant and a disciple of the Xuan Gate sect would definitely be able to lead the Li family to greater heights.

Once Qi Le broke through to the Dao Supreme realm in the future, the Li family would become a powerhouse family.

"I'm going to meet the two law enforcers. This time, I'll agree to join them as a law enforcer."

Yi Lingling's body flickered and she disappeared into the horizon.

By joining the law enforcers, one would have the authority to maintain order.

Currently, apart from the dozen or so Dao Creation realm experts, the rest of the law enforcers were mostly geniuses of the younger generation, and the weakest of which were Holy Dao realm cultivators.

Yi Lingling was one of the top geniuses in the Heavenly Sun World. She had been famous for a long time and had thus naturally received the favor of a Dao Creation realm law enforcer, who had invited her to join them.

They were also interested in the Xuan Gate sect, who they suspected was led by a Dao Supreme realm expert.

At the Li family, after the news that Qi Le was challenging the Li family's geniuses under 1,000 years old broke out, the master of the Li family, Li Wufeng, and the family's elders were in discussion.

They could not reject the challenge, as if they did, the Li family's reputation would be greatly tarnished.

In the competition between geniuses, it was a great taboo to retreat without even fighting.

Moreover, in recent years, the Li family had been building up momentum for the Li Tianlong. If he backed down now, it would be a huge blow to the Li family, and would also affect Li Tianlong's Dao heart.

He had to accept the challenge.

However, could Li Tianlong win?

If Li Tianlong won, the power of the Li family would reach unprecedented heights, as the Xuan Gate sect was synonymous with mystery and power.

The sect's two disciples, Yi Lingling and Xue Ping, had suppressed countless other geniuses.

Even though the Heavenly Sun World had other monstrous geniuses, it did not detract from their fame, as none of those geniuses were able to defeat Yi Lingling or Xue Ping.

Furthermore, in terms of age, those geniuses were older than them. Given time, Yi Lingling and Xue Ping would likely surpass them.

"Why is a disciple of the Xuan Gate sect challenging our family's geniuses?"

Li Wufeng looked at the group of elders and asked calmly.

An elder said, "Tianlong is over a hundred years old and has already reached the Dao realm. His achievements have surpassed Yi Lingling's, so it's likely that this disciple is trying to regain the Xuan Gate sect's status as the sect with the greatest geniuses."

The rest of the elders nodded in agreement.

"If Qi Le is older than Tianlong, then even if Tianlong loses, it won't affect its reputation as a genius," another elder said.

"What if Qi Le is younger? What then?" Li Wufeng asked.

The elders fell silent. Such a possibility might exist.

The Xuan Gate sect was mysterious and unpredictable, and very little was known about them.

"It's fine even if he loses. Even if he's not number one, coming in second to a genius like that is not shameful," the grand elder of the Li family said in a low voice.

"Although Tianlong might suffer a setback, it is not necessarily a bad thing. A genius who has not suffered defeat is fragile."

The grand elder continued, "Weren't the disciples of the Xuan Gate sect also pursued to the ends of the earth?"

"A true genius grows in battle and overcomes challenges and setbacks."

The rest of the elders agreed.

A young man appeared at the entrance of the meeting hall.

"Father, elders, I'm confident in winning this battle!"

Li Tianlong's eyes were filled with fighting spirit.

"So what if it's the Xuan Gate sect? I will show the world that the disciples of the Xuan Gate sect are not the strongest and that they are not unsurpassable!"

"Alright!"

Li Wufeng stood up and said, "Tianlong, I'm glad that you have such confidence. You will give it your all in this battle. Even if you kill him, it doesn't matter."

"Even the Xuan Gate sect cannot oppose the rules. The Li family isn't without its own experts!"

The rest of the elders nodded.

"Well said!"

"The Li family will rise to new heights after this battle!"

Li Tianlong's fighting spirit was high. He believed that he was not inferior to any other geniuses, and that if he was born earlier, even Yi Lingling and Xue Ping would be no match for him!

The battle between Li Tianlong and Qi Le naturally attracted a lot of attention.

The date and location of the duel had been decided.

Moreover, it was rumored that it was going to be supervised by the law enforcers.

In this battle, whether Qi Le or Li Tianlong would create a legend, it would all be known in three days.

In the backyard of the Li family's residence.

"You still haven't found that b*stard?" Madam Li asked coldly.

"Not yet, my lady," the middle-aged woman shook her head.

She paused for a moment before continuing, "That little b*stard is probably already dead. After all, he's a piece of trash. There's no way he survived a hundred years."

Madam Li nodded.

That little b*stard was too weak and useless. Otherwise, Li Wufeng would not have acquiesced to her actions.

Li Wufeng cherished his reputation a lot.

Having a trashy offspring was definitely not something he could tolerate.

Chapter 778.1: Duel (Part 1)

Neither of these two women linked Qi Le to the disciple of the Xuan Gate sect.

Even though Qi Le's mother had changed his name before she died, to them, he was just a piece of trash.

There was no way someone like him could ever become a disciple of the Xuan Gate sect.

"Let Li Qiu challenge him to test his strength," Madam Li ordered.

Li Qiu was one of the geniuses of the Li family.

However, he was from a branch family.

He was 800 years old and had reached the 15th level of the Dao realm.

"As for the family head..."

The maid hesitated.

The Li family attached great importance to this challenge.

In order to protect the Li family's reputation and image, they did not want to take advantage of Qi Le and send disciples to test his strength.

If they did so, it would give others the impression that the Li family was not confident in Li Tianlong's ability.

Madam Li said after a moment of silence, "Then find the disciples who are not from the Li family."

At this critical juncture, a genius of the Xuan Gate sect suddenly appeared and challenged the disciples of the Li family. This matter had aroused her suspicion.

The maidservant knew what Madam Li was worried about.

They were afraid that Qi Le would be too strong and Li Tianlong would be defeated.

Li Tianlong was her precious treasure.

"Yes, my lady."

The maidservant nodded and was about to leave to make the arrangements, when a voice rang out.

"There's no need for that."

Li Wufeng stepped in.

"No matter who wins or loses, Tianlong is still a genius."

Li Wufeng sat down on a chair and said, "Testing Qi Le will only ruin Tianlong's reputation and confidence. It's even worse than losing fair and square."

"Then we'll do as you say," Madam Li said with a nod.

It was indeed true. Even if Li Tianlong lost, he would have lost to a disciple of the Xuan Gate sect, which was not a shameful thing as long as the battle went well.

The Li family had already begun to make preparations for either outcome.

Once the news of the duel's date and venue were announced, it threw the inhabitants of the central section into an uproar, and countless forces and geniuses flocked to the venue.

More than Li Tianlong, everyone was curious to see how powerful the newest disciple of the Xuan Gate sect was.

Could every disciple trained by the Xuan Gate sect be a genius?

Although the Xuan Gate sect was mysterious and powerful, it had never done anything like bullying the weak.

The rise of Yi Lingling and Xue Ping had been a result of their efforts. They fought, fled and sometimes almost died, but they persevered. Many geniuses looked up to them and idolized them, choosing to walk in their footsteps, and eschew the protection of their sects.

They wanted to prove to the world that they too were on par with Yi Lingling and Xue Ping.

It was only in the past 10,000 years that a few geniuses had suddenly emerged that they had the ability to compete with Yi Lingling and Xue Ping, which gave countless geniuses great confidence.

Now, they were about to witness the emergence of the Xuan Gate sect's third disciple!

Some of them were proud and arrogant, thinking that they were born at the wrong time and thus could not compete with Yi Lingling and Xue Ping.

However, with Qi Le's appearance, they could all vie for supremacy against him instead and use him as a stepping stone to rise.

The location of the final battle was an ancient battlefield in the central section, which was one of the places where the great battle took place.

After countless years, the remnant power had already disappeared.

However, the ground was as smooth as a mirror, but also extremely hard. Even a Saint Dao King's attack could not leave a mark on the mirror-smooth ground.

This ancient battlefield was also a popular choice of dueling ground among the geniuses.

There was still one day before the battle, but many cultivators had already arrived.

Other than human martial artists, there were also fey!

The Heavenly Sun World was ruled by humans, but it was not as if there were no other races. The fey race was also one of the most powerful races.

Before the great battle, the various races of the Heavenly Sun World had fought for supremacy, and there were many powerful races then.

At some point, the races that did not belong to the fey race in the past joined the fey race. They were united as one to fight against the human race.

As time passed, it brought about the current situation, where there were two powerful races in the Heavenly Sun World. The human race, and the fey race.

The other smaller races were all ignored.

In the sky, a snow-white bird of prey flew over like a stream of light.

It landed on the ground and transformed into a white-robed young man.

He was a famous genius of the fey race.

Chapter 779.2: Duel (Part 2)

Liu Guangqing!

He was one of the few non-human geniuses who could compete with the top geniuses of the human race.

After Liu Guangqing arrived, a few more geniuses also appeared.

A black mist descended from the sky, and turned into a bald young man with brown runes on his face. He had a fierce look.

Another fey race genius who was equally famous, Hei Peng!

Liu Guangqing looked at Hei Peng without saying a word.

Although they were both fey, there were many branches and factions within the fey race, and some of them were even enemies with each other. These two had fought before, so their relationship was not good.

The arrival of these two geniuses instantly put tremendous pressure on the human geniuses present.

So far, none of the geniuses present here were capable of competing with these two, and none of them dared to get close.

Then, a scarlet beam of light flew from over the horizon, revealing the figure of a young man when he landed.

He was a top human genius. Things were looking better for the human side.

Hei Peng looked at the other party.

"How about a fight?"

Chi Huo smiled coldly.

"I'm here to watch a show. If you want to fight, let's do it another time!"

Hei Peng no longer spoke.

Shua!

The temperature of the surroundings suddenly dropped, as a cold-looking woman made her appearance.

Another top genius of the human race.

The time for the duel was about to arrive, and a huge structure appeared in the sky and landed on one side of the battlefield.

A young man walked out of the corridor, and more than a dozen figures appeared from within the structure's corridor.

The Li family was here!

Li Tianlong!

Even though his strength was nothing in comparison to most of the geniuses present, no one dared to underestimate him.

He had the potential to catch up to them given enough time.

His aura was extremely thick and his cultivation foundation was solid, which meant that he had not advanced his cultivation by solely relying on pills and treasures.

He was a bona fide genius!

Li Tianlong, the peerless genius of the Li family, had appeared. Then, what about Qi Le?

How strong would he be?

How old would he be?

A figure descended carrying a large saber on his shoulder, looking down arrogantly on the crowd.

Xue Ping!

Hei Peng coldly snorted.

Xue Ping immediately pointed his saber at him and said arrogantly, "Hei Peng, come and fight me!"

Hei Peng's face was ashen, but he did not say a word in response.

Xue Ping's gaze swept across his surroundings. All of the geniuses who met his gaze could not help but look away.

His gaze then fell on the cold woman.

Xue Ping raised his eyebrows, but he did not say anything.

"Where's Qi Le?" Li Wufeng asked.

"What's the hurry? It isn't time yet."

Xue Ping glanced at Li Wufeng, and then ignored him.

"I thought he was really a peerless genius," he muttered, "but in the end, he's just trash!"

Although his voice was low, everyone present heard him.

They all looked at Xue Ping with strange expressions.

What right did he have to be arrogant?

How strong was Xue Ping when he was a hundred years old?

How dare he look down on Li Tianlong?

Madam Li's face turned livid.

The time for the duel was about to arrive.

Suddenly, everyone looked up.

Not far away, two figures appeared.

They stepped on seven-colored clouds and held hands, looking like the golden boy and jade girl.

(T/N: A famous pairing that is often considered good omens. Most often seen during the Spring Festival.)

Everyone was stunned.

A match made in heaven?

Unfortunately, they could not probe Qi Le's strength, as he was using the Xuan Gate sect's aura concealment technique.

Qi Le and Chu Yu walked over hand in hand, stepping on colorful clouds as they descended.

As expected of the Xuan Gate sect.

Regardless of the outcome, even the manner in which they arrived had eclipsed the Li family.

What kind of treasures were those seven-colored clouds?

Even Xue Ping was envious of the fact that he did not have such an eye-catching treasure.

Li Tianlong's expression was ugly, and he looked at Qi Le with jealousy.

He was especially jealous when he saw Chu Yu's beautiful figure.

He swore in his heart that he would stomp on Qi Le.

On the building of the Li family.

Li Wufeng furrowed his brow, and no one knew what he was thinking.

Madam Li's expression changed, and she looked at the maidservant beside her, who was also in a state of shock.

Qi Le alighted the seven-colored clouds and slowly walked onto the battlefield.

His expression was calm.

Once he stepped off the clouds, everyone could see his face clearly.

Among the onlookers, those who had seen Li Wufeng could not help but look at Qi Le in shock.

Qi Le actually looked somewhat similar to Li Wufeng.

They seemed to be father and son!

The elders of the Li family were all shocked and looked at Li Wufeng.

"Wufeng," the grand elder asked, "Could this be your illegitimate son?"

More than a hundred years ago, Li Wufeng's illegitimate son had been brought back to the Li family. However, he was expelled because of his poor aptitude.

It was said that he was killed by Madam Li's subordinates.

As elders, they did not care about this matter.

If Li Wufeng was not bothered about the life and death of his own son, then who were they to interfere?

The child has no talent anyway.

Li Wufeng clenched his fists tightly. His expression was calm, but his heart could not calm down.

Qi Le?

That son with extremely poor aptitude?

How did he become a disciple of the Xuan Gate sect?

The disciples of the Xuan Gate sect were all immensely talented!

Could it be that he had made a wrong judgment back then?

Impossible!

There was no possibility of him being wrong!

He looked at Madam Li.

He naturally knew that Madam Li had sent people to kill Qi Le and his mother, and he had not stopped her, which was his way of tacitly agreeing.

After all, an extremely useless son was a disgrace to the reputation of the Li family and himself.

Madam Li's gaze was cold as she stared at Qi Le.

Li Wufeng did not answer, but the grand elder was not bothered by this. He stared at Qi Le and grinned, "No matter who wins or loses, the Li family is going to win. It's a good thing to have a disciple of the Xuan Gate sect among our ranks."

When Madam Li heard this, the killing intent in her heart grew even stronger. She had to kill Qi Le!

Otherwise, once he returned to the Li family, he would definitely take revenge on her.

The greater the talent Qi Le displayed, the greater the threat he posed to her and Li Tianlong.

Li Tianlong looked at Qi Le in shock.

He looked back at his father suspiciously, and then at Qi Le.

Suddenly, he heard Madam Li's voice.

"Kill him! We must kill him at all costs!"

Li Tianlong was stunned.

The way he looked at Qi Le suddenly became cold.

Qi Le's expression was calm. He raised his head and looked at the family that had abandoned him, and steeled his heart.

He smiled coldly, ""The Li family's supreme genius? Before me, you're just trash!"

The onlookers were all silent.

Qi Le seemed to be a little younger than Li Tianlong.

However, due to the Xuan Gate sect's aura concealment technique, no one could tell how strong he was before he revealed his strength.

- Chapter 780.3: Duel (Part 3)

Chapter 780.3: Duel (Part 3)

Li Tianlong's eyes were filled with killing intent. With a loud bang, his aura erupted, and a crimson dragon phantom coiled around his body.

"You're just a lowly b*stard! What right do you have to be arrogant in front of me?"

The onlookers looked at each other. Was this an internal Li family feud?

The crimson dragon phantom roared, exuding a bit of dragon's might.

It was said that in ancient times, there was an extremely powerful true dragon in the Heavenly Sun World that occupied a large amount of territory, and that it was a Dao Supreme realm existence.

There were also Dao realm geniuses who were brought here by their seniors to broaden their horizons. Initially, they had wanted to challenge Li Tianlong, but after the latter revealed his might, they were all shocked.

The difference was too big.

Qi Le looked on indifferently. The crimson dragon phantom seemed powerful, and its might was vast, but compared to the true dragon might, it was not even worth mentioning.

There was a real dragon in the Xuan Gate sect anyhow.

"That's all?"

"Make your move," Qi Le sneered, "If I make my move, you won't have a chance anymore!"

"Die, arrogant b*stard!" Li Tianlong roared.

The crimson dragon phantom roared as he struck with his spear. Unwilling to underestimate Qi Le, he went all out in his first attack.

Boom!

Qi Le did not move at all, yet the attack stopped three feet in front of him.

"Trash will always be trash," Qi Le sneered.

He raised his hand and grabbed Li Tianlong's head, dragging the latter over to him.

Pa! Pa! Pa!

Li Tianlong's cheeks were red and swollen from the slaps.

"These so-called geniuses are nothing more than trash. On what basis is your pride and confidence built?"

"The difference between you and me is something that cannot be bridged for all eternity!"

The crowd was silenced.

Li Tianlong, who looked extremely powerful and fierce, was being manhandled just like that.

How strong was Qi Le?

The members of the Li family were all in disbelief. How had the genius they had worked so hard to nurture end up like this?

Their hopes of an intense battle withered away.

Li Wufeng's hands suddenly clenched.

Madam Li suddenly stood up with a livid expression and said angrily, "Little b*stard, release my son!"

Her figure moved as she charged toward Qi Le.

She had almost lost her mind when she saw Li Tianlong being humiliated.

A sword beam descended from the sky and blocked Madam Li's path.

A beautiful figure appeared.

"Are you going to violate the rules of the Heavenly Sun World?"

Yi Lingling stared at her coldly.

Madam Li's expression changed, but there was no getting past Yi Lingling. She gritted her teeth and said, "Li Tianlong has been defeated. This battle is over!"

"What you say doesn't count. Li Tianlong hasn't admitted defeat yet," Yi Lingling said coldly.

Madam Li turned around and said, "Grand elder, please save my son!"

The grand elder was conflicted. Qi Le and Madam Li were obviously at odds with each other.

Helping Li Tianlong would definitely make Qi Le unhappy. However, Li Tianlong was also a peerless genius. It would be a pity if he died.

The grand elder did not want to do the wrong thing, so he looked at Li Wufeng and said, "Wufeng, they're both your sons, so you can do as you see fit!"

The grand elder's attitude caused Madam Li's heart to sink.

Qi Le looked at Madam Li and sneered, "Don't worry, I won't kill this piece of trash!"

Kachaa!

He twisted his hand and broke Li Tianlong's arm.

Li Tianlong's expression was ferocious and his eyes were filled with anger, but he could not resist.

His heart continued to sink.

"Are you even worthy of being called a genius?"

Kachaa!

He had broken another arm.

"You little b*stard, stop right now, or I'll make sure you die a brutal death!" Madam Li said with a ferocious expression.

Shua!

A sword beam suddenly flashed over.

Madam Li's expression changed drastically. She wanted to retreat, but she was no match for Yi Lingling's casual attack.

Li Wufeng raised his hand and crushed the sword beam.

Yi Lingling's expression was indifferent as she looked at Madam Li. She then glanced at Li Wufeng and said coldly, "Is the Li family threatening a disciple of the Xuan Gate sect? If the Li family dares to cross the line, it will be annihilated!"

Madam Li's expression turned extremely ugly.

"Husband, please save my son!"

Li Wufeng's body moved.

However a faintly discernible figure appeared in the sky.

"Don't break the rules, or else!"

A Dao Creation realm law enforcer!

Li Wufeng's expression changed slightly.

Qi Le's palm landed on Li Tianlong's chest, shattering his ribs and causing him to spit out blood.

"You're really a piece of trash. Where did you get your uselessness from? Your cheap mother?"

"Is this really all that you've got? If I were you, I would commit suicide out of shame!"

Li Tianlong spat out blood. His eyes were filled with anger and he seemed to have lost his mind, and he was mumbling gibberish out of anger.

The crowd were all watching in shock as this scene unfolded.

Chapter 781: Shocking In More Ways Than One

If Li Tianlong was a piece of trash, then what were they?

Even worse than trash?

"Enough, this battle ends here," Li Wufeng said coldly.

Qi Le was unfazed and simply proceeded to punch Li Tianlong's leg.

The angrier and more heartbroken Madam Li was, the happier he felt. He would shatter her son's Dao heart in front of her.

Seeing Qi Le ignore him, Li Wufeng was furious. He looked at the law enforcer and said, "I'm their father and not an outsider. I have the right to interfere and end the battle!"

"That's not written in the rules," Yi Lingling said coldly.

"Also, he's no longer part of your family. If you try to interfere, we will show the world what happens to those who break the rules and offend the Xuan Gate sect!"

Li Wufeng's expression changed!

"This is a battle between the geniuses of the Xuan Gate sect and the Li family. Even though you are their father, you cannot interfere," the law enforcer said.

Hearing this, Li Wufeng's expression turned uglier.

This law enforcer was clearly biased toward the Xuan Gate sect!

This meant that the Xuan Gate sect was a force that even the law enforcers had to be wary of!

At this moment, Qi Le laughed arrogantly. He raised Li Tianlong's broken body into the air. The latter's face was ashen, and his eyes were blank.

Boom!

Qi Le's aura finally erupted.

A Saint Dao realm expert!

A hundred-year-old Saint Dao realm expert!

What kind of monster was this?

Qi Le's words were indeed warranted. In comparison to him, they were all trash!

What was going on with the disciples of the Xuan Gate sect?

Everyone was shocked senseless.

"I'll return this piece of trash to you!"

Qi Le threw the Li Tianlong at Li Wufeng!

Boom!

Li Wufeng hurriedly recovered from his shock. He raised his hands and a gentle force enveloped Li Tianlong.

Then, he handed him over to Madam Li. However, his attention was not on Li Tianlong at all.

He looked at Qi Le in a daze, and an indescribable feeling rose within his heart.

How was Qi Le this strong?

Had the Xuan Gate sect reforged his talent, or had he misjudged his son's talent?

Madam Li held Li Tianlong in her arms and looked at Qi Le in a daze, her eyes filled with unconcealable fear.

The grand elder of the Li family was overjoyed.

He had to make Qi Le return to the Li family at all costs, even if he had to kill Li Wufeng!

A hundred-year-old Saint Dao realm expert was unheard of, and his future potential was boundless!

This was a Dao Supreme realm expert in the making!

The grand elder immediately sent a secret message to the others.

He glanced at Madam Li.

'This b*tch should be surrendered to Qi Le to fulfill his revenge!'

Then, he looked at Li Wufeng. It was time for a different person to lead the Li family...

Qi Le's gaze swept across the crowd.

Behind him, Chu Yu ran forward delightedly and stood beside Qi Le happily. Her aura erupted, and she said, "Chu Yu of the Xuan Gate sect challenges the Li family's geniuses under a thousand years old!"

Boom!

There was more than one 100-year-old Saint Dao realm expert?

How terrifying was the Xuan Gate sect?

Looking at the two of them holding hands, countless geniuses wanted to cry.

Why was there such a huge gap between them?

Xue Ping also felt a little envious.

He moved over to Yi Lingling. He smiled and said, "Senior Sister."

His hand snuck over to try and hold Yi Lingling's hand.

Pa!

Yi Lingling raised her hand and slapped his hand away.

The grand elder was so excited that he almost fainted. If he succeeded in getting Qi Le to return to the Li family, they would have two peerless geniuses!

The more he thought about it, the more excited he became. No matter what, he had to make it happen.

As for Li Wufeng, Madam Li and Li Tianlong?

They were no longer important.

...

"Your disciple Qi Le has revealed his cultivation level and shocked countless geniuses. You have been rewarded with the divine power, 'shocking death':.

The system's reward suddenly appeared.

Chu Xuan revealed a satisfied smile. Nurturing Qi Le had paid off.

He checked his reward.

This offensive divine power had a unique characteristic. The moment before its target died, they would feel endless fear.

Chu Xuan received his reward.

With one strike, it would destroy the opponent's world, the laws within it, and their Dao.

It was extremely overbearing.

Now that Qi Le had revealed his strength and talent, he would attract the attention of certain people. Would geniuses on par with him suddenly appear in the Heavenly Sun World?

Chu Xuan was not too bothered by these minor things. His goal was to become strong enough to crush all existences, any plan or scheme would be useless.

Chunlan was preparing to break through to the Dao Supreme realm, and was already in secluded cultivation.

Chu Xuan continued to stay in the courtyard, living his days leisurely.

He was getting stronger by the day, and inching toward the next realm.

Time passed by quickly, and another ten thousand years passed.

Chunlan had finally broken through and reached the Dao Supreme realm.

Lie Tian was also working hard to become stronger, and was currently cultivating.

The strength of the four divine beasts had also reached the advanced-stage of the Dao Creation realm.

He had already reached the late-stage Dao creation realm.

During this time, Qi Le had already gotten his revenge, and recently, he had abandoned the Li family, shocking countless people.

For the past 10,000 years, Qi Le had enjoyed the best treatment from the Li family.

Even his father, Li Wufeng, had been punished to kneel in the ancestral temple and repent. His punishment had not been lifted yet.

At such a young age, Qi Le had already been appointed as the head of the Li family, though he did not accept it.

In essence, his status was second only to the Li family's ancestor. Over the 10,000 years, he had been constantly using up the Li family's resources and treasures, and his cultivation had also improved by leaps and bounds.

However, he was now abandoning the Li family?

He said that he was a disciple of the Xuan Gate sect, and had no reason to join the Li family, which left them feeling extremely aggrieved.

Madam Li was dead.

In order to win over Qi Le, they had even destroyed Madam Li's family.

It was true that back then, Qi Le did not say outright that he had returned to the Li family, nor had he acknowledged the Li family's ancestors, but his actions and the things he enjoyed all indicated that he had.

This was too infuriating!

He had basically emptied them out, then abandoned them!

The elders of the Li family vomited blood when they heard the news, and the ancestor of the Li family was left in a daze for a long time.

Qi Le was really black-hearted!

Was this something he had learnt from the Xuan Gate sect as well?

Chapter 782.1: Mysterious Force (Part 1)

Somewhere in the central section of the Heavenly Sun World, Qi Le and Chu Yu held hands as they traveled along.

A figure followed behind them, and Qi Le stopped in his tracks.

The figure behind him immediately ran forward in a flattering manner.

"Grandnephew, do you have anything you want?"

The grand elder had a flattering smile on his face.

Qi Le was completely speechless.

"I already left the Li family, so why are you following me? If you want to restore the Li family's reputation, you can go ahead and attack."

"What are you saying?" the grand elder said sternly, "You may not be a member of the Li family, but you are my grandnephew."

"It's perfectly normal for me to protect my grandnephew. The reputation of the Li family is unimportant in comparison."

The grand elder said righteously, "Grandnephew, the Heavenly Sun World is dangerous, and a genius like you will definitely be targeted. Although there are rules in place, some people have their own methods of circumventing them."

Qi Le's face darkened. The grand elder was like a stalker, constantly following him around.

It was not good to really fall out with him.

He had fallen out with the Li family, but did not want to fall out with the grand elder.

The grand elder had asked him to return to the Li family, but he had not agreed. However, the grand elder still helped him take revenge against Madam Li, and also punished Li Wufeng to kneel in the ancestral temple and repent.

He was always thinking for Qi Le's best interests. The grand elder was also the reason why he had enjoyed all of the Li family's benefits.

In such a situation, Qi Le did not want to return kindness with evil.

He rubbed his forehead and ignored the grand elder. If the latter wanted to follow him around, then so be it. When he returned to visit his master, he would find a way to get rid of him.

...

Chu Xuan was currently preaching the Dao to the four divine beasts to help them break through to the Dao Supreme realm, though to them, it was less of a breakthrough, and more of a recovery of their former strength.

Suddenly, Chu Xuan felt something.

At his level, he would be able to sense any schemes that involved him, so long as the person scheming was weaker than he was.

A Dao Supreme realm expert was scheming against him?

It did not seem like it, as the sensation would not have been so weak.

Was this person testing him through his personal disciples?

"Derive the karmic link that I've sensed."

Chu Xuan used the system's derivation function, and an image projection appeared in his mind.

Somewhere in a desolate place stood a black stone house. Inside, there was a skinny old man sitting cross-legged.

At this moment, the old man frowned.

"The Xuan Gate sect's Qi Le and Chu Yu... They might make for good chess pieces," the old man muttered.

After a while, a figure appeared outside the stone house. The old man gave that person a few instructions, and the figure disappeared.

Several years later, the old man seemed to have sensed something again and left the stone house.

The scene disappeared.

Chu Xuan narrowed his eyes.

That old man was a Dao Supreme realm expert; one of six that currently resided in the Heavenly Sun World.

A few years later, he would take action personally to try and make Qi Le and Chu Yu his pawns.

Chu Xuan was not bothered by him, but rather the mysterious force that seemed to influence these Dao Supreme realm experts.

Those were his true opponents.

"Derive the hands that move in the dark."

"The derivation will consume one-ten-thousandth of your origin energy. Do you want to continue? "

Chu Xuan immediately refused.

A ten-thousandth of the origin energy of a Dao Supreme Ruler was a very terrifying amount.

This meant that the mysterious force was stronger than he was currently.

It seemed that Qi Le's and Chu Yu's talent had finally attracted the attention of certain existences who wanted to make use of them.

Furthermore, if such monstrous geniuses were not controlled in time, it was easy for unknown variables to occur in their scheme.

Chu Xuan sneered inwardly. They wanted to make his disciples pawns?

How delusional!

Although they were stronger than him now, Chu Xuan believed that he would catch up soon. Moreover, it seemed like that mysterious force could not directly show themselves.

Perhaps they were not in the Heavenly Sun World or the chaos...

Chu Xuan called Chunlan over.

"Go and protect Little Le'er."

"Little Le'er is in danger?" Chunlan asked, startled.

"There are some guys who want to use him and Chu Yu as pawns," Chu Xuan yawned and said lazily.

He passed a jade talisman to Chunlan and said, "Take this jade talisman with you. If a Dao Supreme realm expert doesn't show up, then you don't need to show up either. The rest can be dealt with by the others."

"Yes, sect master."

Chunlan took the jade talisman and left the valley. She did not probe the matter further.

Such schemes involving Dao Supreme Rulers was not something she would try to interfere with.

Time flowed like water, and another hundred thousand years passed.

After Chunlan left, she returned once every ten thousand years.

She continued to protect Qi Le and Chu Yu.

That Dao Supreme realm expert had been scared away by Chunlan during this time, and the other party realized how mysterious and powerful the Xuan Gate sect was.

Those two disciples were protected by a Dao Supreme realm expert!

Chapter 783.2: Mysterious Force (Part 2)

Naturally, this Supreme realm expert did not continue to act.

After all, that mysterious force did not control him outright, but simply guided him toward certain actions.

The Li family's ancestor had also tried to capture Qi Le and bring him back to the Li family.

In the end, he was scared away by a wisp of Chunlan's aura and never appeared again.

Once he returned to the Li family's territory, he passed down instructions to ensure that no one would offend Qi Le.

Yi Lingling and Xue Ping were the frontrunners of their generation, while Qi Le and Chu Yu were the frontrunners of the younger generation. The Xuan Gate sect's fame continued to spread far and wide.

Lie Tian was also about to break through and reach the Dao Supreme realm, and the four divine beasts, the heavenly spirit cat, the spirit-devouring flower and the sky-shaking golden roc had done so thousands of years ago.

Chu Xuan drank his tea and used the system's derivation function.

"Derive the appearance and location of the mysterious force."

"It does not have a single form, and it is not in Heavenly Sun World or the chaos."

Since the derivation no longer required the consumption of origin energy, it meant that Chu Xuan was no longer weaker than his opponent.

However, it did not have a single form?

Chu Xuan was startled. This person's methods were impressive.

The other party's existence in this special form was probably to avoid certain constraints, right?

In any case, now that he was not weaker than the other party, things would be much safer.

Chu Xuan observed the 3,000 masses of chaotic energy of creation in his body, which had expanded more than a thousand times.

Moreover, other than the first world, there were many more worlds that had been created within them.

There were a total of three thousand worlds.

More than 100 had already given birth to life, and Chu Xuan's strength had already reached the peak of the Dao Supreme Ruler realm.

The moment the first lifeform was born, Chu Xuan would transcend the Dao Supreme Ruler realm. The first world was close to this. Chu Xuan had already sensed it as the laws of the Great Dao in the first world were being perfected.

"Derive if there are any existences that have surpassed the Dao Supreme Ruler realm."

Chu Xuan used the system's derivation function.

"There are none."

Chu Xuan heaved a sigh of relief. Soon, he would be invincible once more.

No matter what those guys schemed or did, it would not be able to affect him.

"Derive if there will be other existences that surpass the Dao Supreme Ruler realm within ten thousand years."

"None."

"Derive if there will be other existences that surpass the Dao Supreme Ruler realm within a hundred thousand years."

"Uncertain."

Within 100,000 years, there might not be an expert who surpassed the Dao Supreme Ruler realm, but it might not be impossible.

After all, the future was always full of variables.

Chu Xuan pondered for a moment before saying, "Derive if there will be other existences that surpass the Dao Supreme Ruler realm within a million years."

"1% of the total origin energy will be consumed. Do you wish to continue?"

Chu Xuan canceled the derivation.

When he saw the results, he warned himself not to be too careless.

Within a million years, there would be experts who surpassed the Dao Supreme Ruler realm.

Still, a million years was plenty of time for him to become stronger.

"What was the purpose of the great battle between Heavenly Sun World and the chaos?"

Chu Xuan was still very curious about the great battle that shattered the chaos and sealed the Heavenly Sun World. He had his guesses, but wanted to confirm them.

"Unifying Yin and Yang, opening up a new world, and opening up a new path."

It was just as he had guessed. Fortunately, he had already discovered the path to the next realm thanks to the system, and would not need to engineer something like the great battle.

He looked at the void region where the Origin Great Dao was. It had already enveloped the original chaos, and was constantly improving and transforming.

"What is the void region?"

"Derivation requires the consumption of all origin energy and vitality. Do you wish to continue?"

Chu Xuan was shocked.

He was a peak-level Dao Supreme Ruler, yet he would have to sacrifice his life to complete this derivation?

Chu Xuan canceled the derivation request. However, his curiosity regarding the void region had been piqued.

It was boundless and empty.

Beyond the chaos was the void region, but what was outside the Heavenly Sun World?

Looking up at the sky, the sun of the Heavenly Sun World was high in the sky, and the stars could be seen at night.

That was the evolution of the transcendent laws.

Even as a peak-level Dao Supreme Ruler, he could not see beyond the sky of the Heavenly Sun World.

Was there also a void region beyond the sky?

"Derive the scene outside the Heavenly Sun World."

Chu Xuan immediately used the derivation function.

In his mind, an image appeared.

It was empty.

As expected, the Heavenly Sun World and the chaos were both in the void region. The void region was the greatest unknown and held the most mystery, which was probably why many Dao Supreme Rulers were exploring the void region.

Chu Xuan did not continue. He already knew what he needed to know. As the situation continued to develop, he believed that the changes in the Heavenly Sun World and the chaos would continue to intensify.

That mysterious force was driving the development of the situation..

Chu Xuan believed that after the other party was unable to control Qi Le and Chu Yu, they would definitely nurture new talents to counterbalance the variable that was his two disciples.

Yi Lingling and Xue Ping also became stronger and stronger, and their fate energy became more and more abundant. Gradually, the gap between them and other geniuses widened.

However, they were both law enforcers, so the mysterious force believed that they could control them.

The only uncertainties at the moment were Qi Le and Chu Yu.

Chu Xuan sipped his tea and closed his eyes, feeling at ease.

Chapter 784.1: Unifying The Chaos (Part 1)

Chu Xuan lived an ordinary and leisurely life in the valley as the situation in the outside world continued to develop.

There were changes in the chaos as well, and there were now only three chaoses left.

The chaos where the Heavenly Dao was located had all sorts of forces mixed together, and the situation was turbulent.

Even though the Heavenly Dao was the most powerful faction, it had not been able to truly unify the chaos.

Somewhere in the chaos, Ding Yue was sitting cross-legged on the back of a chaotic being.

There was a sword on his leg. It looked illusory, but also seemed tangible.

Wisps of sword intent swirled around Ding Yue's body.

Ding Yue's heart had nothing but the sword!

The deeper his comprehension became, the more Ding Yue felt that his master's teachings were so profound.

He sighed. He was still far from mastering the Sword Dao.

Ding Yue had recently realized that he had been too obsessed with the concept of "no woman," and that it had constrained him.

Therefore, he was revisiting and reviewing his Sword Dao once more.

The Great Chaos era was about to arrive, and their chaos would soon have to compete against the two larger chaoses.

Before that happened, they had to unify this chaos.

Only in this way could they compete with the other two chaoses.

Otherwise, their forces would be scattered and it would be easy for allegiances to change, which would make the entire situation far more unpredictable.

Currently, the Heavenly Dao could not unify the chaos as their forces did not have enough strength to suppress the other forces.

Although Hei Yue was strong, and her methods were ruthless and brilliant, the chaos was now immense, and it would take a long time for them to completely unify the world.

Ding Yue had a premonition that the Great Chaos era would soon arrive. Therefore, they needed to speed things up and improve the overall strength of the Heavenly Dao.

"I'm the eldest disciple of the Xuan Gate sect, so I should be the one to suppress its enemies!"

"Junior Sister, Junior Brothers, just wait for me. I'll sweep away our enemies and unify the chaos for the Heavenly Dao!"

He was well aware of his own strengths.

He was not good at scheming, planning or coordinating. However, he was good at fighting!

Therefore, he would become the sword of the Heavenly Dao and the Xuan Gate sect!

Everything else would be left to Hei Yue, and now Chu.

Chu was a cunning old man. He was weaker than Hei Yue, but more skilled than her when it came to cunning and treachery.

90% of the insidious actions of the Heavenly Dao were Chu's work.

Other than Chu, there was another person who was good at scheming.

Hong!

This guy was also an old sly fellow.

Furthermore, he admired Chu very much and often sought him out to learn about scheming and how to hook up with female experts.

Before he had broken through to the chaos supreme realm, Hong had once seduced another female chaos supreme realm cultivator and tricked her into joining the Heavenly Dao's side.

His descendant, Hong Yuanchu, had also gradually gone astray.

He started to copy his own ancestor and recently went to the opposite force to hook up with a certain female expert.

Ding Yue despised these guys in his heart!

Weaklings were weaklings!

A female expert on the other side was actually begging him to marry her as a Dao companion. As long as he married her, she would immediately switch sides to the Heavenly Dao.

What a joke!

As if he was such a person!

How could he be tied down by a woman?

Time flew by, and Ding Yue was still sitting cross-legged on the back of the chaotic being.

The sword that was placed horizontally in front of him seemed to have disappeared. Instead, Ding Yue's entire body seemed to have turned into a sword that was waiting to be unsheathed.

A hundred million years had passed. Even though a few great wars had broken out in the chaos, he remained unmoved.

It was as if he had disappeared into the chaos.

Even the chaotic beings and countless experts seemed to have forgotten about his existence.

Ding Yue was in a wonderful state.

A hundred million years in the chaos seemed to pass in the blink of an eye.

A billion years passed, yet the chaos had yet to be completely unified.

The remaining forces and experts had already formed an alliance to fight against the Heavenly Dao.

At this moment, it was all about strength.

However, the Heavenly Dao did not have the power to suppress everything.

Ding Yue had disappeared for more than a billion years.

Hei Yue looked at the chaos in silence.

She did not know where Ding Yue was.

Chapter 785.2: Unifying The Chaos (Part 2)

"Is Senior Brother Ding Yue about to break through?"

Xiao Liang walked over and asked Hei Yue.

He and Ding Yue had been competing and learning from each other since they joined the Xuan Gate sect, and they had always been evenly matched.

He was still a long way from a breakthrough, yet Ding Yue was about to break through?

Was Ding Yue going to surpass him?

"His Sword Dao is pure," Hei Yue said.

There were many sword cultivators in the chaos, both in the opposing faction and the Heavenly Dao.

However, when it came to the purity and dedication toward the Sword Dao, none of them could compare to Ding Yue.

On a certain day, Hei Yue and the others were discussing the next step of the plan.

Suddenly, the light of the Heavenly Dao shone and erupted with a sharp aura.

In an instant, the Heavenly Dao suddenly improved, devouring and destroying the other supreme laws of the chaos.

It was becoming the only supreme law of the chaos.

It was also at this moment that a sword beam seemed to cut through the chaos.

His Sword Great Dao appeared in the chaos silently, and was different from the Great Dao of the chaos.

It seemed to contain everything, as if it was a true Great Dao, and not something established based on the Great Dao of the chaos or the Heavenly Dao.

Had he reached the Dao Creation realm?

"I am Ding Yue of the Xuan Gate sect, and I will create the Supreme Sword Dao today!"

A voice echoed throughout the chaos.

Suddenly, everyone recalled his existence, and the fact that he was the number one sword cultivator in the entire chaos!

...

Another hundred thousand years passed, and Chu Xuan reached the three-hundred-thousand-year milestone.

Lie Tian had already broken through to the Dao Supreme realm. After his breakthrough, he had been stabilizing his cultivation in seclusion, as he tried to catch up to Chunlan.

"Your disciple, Ding Yue, created a Supreme Sword Dao in the chaos and broke through to the Dao Creation realm. You have been rewarded with the Singular Sword of Heaven!"

The system's notification suddenly appeared.

Chu Xuan was stunned.

Ding Yue had broken through to the Dao Creation realm and created a Supreme Sword Dao?

It seemed that as long as he managed to solidify his cultivation foundation, and perfect Yin and Yang, he would definitely be able to break through to the Dao Supreme realm.

Chu Xuan sighed. His eldest disciple had finally been able to secure his position as the eldest senior brother of the Xuan Gate sect.

It was out of Chu Xuan's expectations that Ding Yue would be the first to break through, but it was not a bad thing.

His heart and devotion to the Sword Dao had resulted in his comprehension exceeding the other disciples.

Chu Xuan received his reward.

"Singular Sword of Heaven!"

Using this sword technique, he could even kill a Dao Supreme Ruler.

Chu Xuan took out the Heavenly Dao talisman.

It was no longer the same as before, and had no specific shape.

Chu Xuan extended his hand and sent a wisp of his consciousness into the Heavenly Dao.

Since Ding Yue had reached the Dao Creation realm, Hei Yue and the others would not be too far behind. It was time to pass down the complete cultivation path that would help his disciples lay the foundation for them to break through to the Dao Supreme realm.

After all the arrangements were made, Chu Xuan looked at the border between Heavenly Sun World and the chaos, and observed as the energies from both sides intermingled even more.

The fusion of Yin and Yang and the opening of a new world had already begun.

In the end, it would be the geniuses from the Heavenly Sun World who would step into the chaos, and the geniuses from the chaos who would enter the Heavenly Sun World, fighting each other as they completed the fusion of Yin and Yang to open up a new world and a new path.

Moreover, Chu Xuan discovered that the time flow in the chaos was getting closer to the time flow in the Heavenly Sun World.

Chu Xuan looked at it for a while and then stopped paying attention. No matter how the situation developed, it would not affect him.

He had disciples in both the chaos and the Heavenly Sun World.

Furthermore, in the void region, the Origin Great Dao was growing and expanding. Given time, it would likely envelope both the chaos and Heavenly Sun World.

Now, the Heavenly Sun World and the chaos was the stage for his disciples.

Lie Tian floated out.

"Sect master, can I go out and travel the world for a bit?"

After breaking through, he wanted to leave the valley and get some fresh air.

Chu Xuan nodded, and Lie Tian immediately left the valley.

He could finally take a look around the Heavenly Sun World.

When he was at his peak, he was only an early-stage Dao Creation realm expert.

Now, he was a Dao Supreme realm expert.

Lie Tian sighed inwardly.

'I wonder if there's anyone in this world who still remembers me...'

Back then, he was also a famous expert in the human race.

In the current Heavenly Sun World, the humans were the most powerful, followed by the fey.

The once powerful clans had either merged with the fey, or had been reduced to insignificant small clans.

The reason why the human race was so powerful now was related to the ruler of the Heavenly Sun World, the legendary existence of the human race.

In that great battle, the fey race's overall strength was greatly damaged. Many of the other powerful clans were also destroyed, and those that had not been destroyed declined.

Lie Tian sighed.

He wondered if he would have a chance to reach the Dao Supreme Ruler realm.

The fey race also had Dao Supreme Rulers back then. Otherwise, they would not have been so powerful.

The four divine beasts were legends from an extremely long time ago, and were undoubtedly Dao Supreme Rulers.

When he thought of the four divine beasts in the valley, he felt that their origins were mysterious. Were they perhaps the reincarnation of the four divine beasts of ancient times?

Lie Tian reminisced as he traveled around in a carefree manner.

Suddenly, he stopped, and his eyes revealed a look of shock as he sensed a weird feeling urging him to follow the times, or he would be doomed.

Something was wrong!

What was this inexplicable feeling?

Did other Dao Supreme realm experts encounter the same feeling?

That feeling was not strong.

However, it was real.

What was rather terrifying was that if he did not follow the times, his mind would be clouded with unhappy things that had been suppressed in his heart.

Moreover, the longer this persisted, the more serious it became.

As time passed, he would inevitably become agitated, hot-tempered, and unstable.

Only by following the times could one's state of mind be smooth and one's mind calm.

However, if he went along with it, would he not be slowly controlled by whoever was behind this feeling?

Imperceptibly, it would affect his actions.

Then, he realized that in the valley, there was no such feeling.

It was only after coming out of the valley that he was slowly affected by the mysterious force.

Chapter 786: Stories Of The Past

Lie Tian's heart was unable to calm down.

The deeper he thought about it, the more creeped out he felt.

Those at the Dao Supreme realm were able to sense the influence of the mysterious force, while those below that realm could not detect it at all.

Lie Tian recalled the series of events that had happened before the great battle.

The person from the chaos and the other from the Heavenly Sun World were in love, but they were broken up by someone, and in the end, that conflict became the precursor to the great battle .

Was that mysterious force also at play then?

Were the master of the chaos and the ruler of the Heavenly Sun World also affected?

Back then, almost all of the Dao Creation realm experts had participated in the great battle.

Logically speaking, Dao Creation realm cultivators should not have participated in a battle involving Dao Supreme realm cultivators, yet they did.

Lie Tian thought of himself.

He had participated in the great battle for the sake of the human race.

Back then, when the fey race's Dao Supreme realm had attacked her, he had joined the battle in anger and ignored any advice.

Even though she told him to stay away, Lie Tian did not manage to escape in the end. Instead, he became more and more violent as he fought, and killed his way into the void region.

He killed a few Dao Creation realm experts of the fey race and made a name for himself. Now that he thought about it, Lie Tian felt a chill run down his spine.

He had joined the battle for her, yet did not heed her advice...

Something was amiss here!

Lie Tian looked back on his life.

Everyone said that he was overbearing, unparalleled, brash, and loyal!

He rose from the bottom, made many friends and had many brothers.

Along the way, there were traitors and deaths of close ones.

In the end, he did not have many true brothers and friends.

He looked arrogant and overbearing, but he was actually a careful person. He knew how to observe the situation and escape in time, fleeing danger.

Otherwise, how could he have risen from the bottom?

If he was really brash, he would have been killed long ago.

It was not just once or twice that he had been backstabbed by his "brothers," yet he had survived each time.

When she was attacked, he attacked in anger and participated in the great battle.

In the past, Lie Tian did not feel that there was any problem.

He was such a person. For a friend who would die for him, he would give up his life to help.

His big sister had been attacked, so how could he not take revenge on the fey race?

However, he had always listened to his big sister.

She had tried to persuade him several times, but he had stuck out his neck and insisted on participating.

He did not realize that there was a problem, and he did not realize that his big sister wanted him to run away.

This was very wrong!

Now that he had broken through to the Dao Supreme realm, he could sense the influence of the mysterious force.

The more Lie Tian thought about it, the more he realized that he had been influenced by something or someone and had lost his usual edge!

In the end, his recklessness had been his downfall!

The Dao Creation realm experts back then must have suffered the same fate!

Were the Dao Supreme realm experts also helpless?

Lie Tian did not dare to stay any longer, and immediately returned to the valley.

The outside world was too terrifying.

Had Chunlan been affected by this mysterious force after being away for so many years?

What about Yi Lingling and the other three disciples?

They were still weak.

He had to tell the sect master!

It was as if Lie Tian had discovered the greatest secret of the world.

The moment he came back, he went over to Chu Xuan with an extremely serious expression.

"Sect Master, things are bad!"

"This Heavenly Sun World is very strange."

Chu Xuan glanced at him.

Lie Tian had only gone out for a while before running back here.

This was within his expectations.

"You felt it?" he yawned.

Lie Tian was stunned.

"Sect Master, you know?"

"I know, why?"

"Since Sect Master is aware of it, then Chunlan and Little Yi..." Lie Tian was stunned for a moment before he continued.

"That guy can't affect the Xuan Gate sect."

Chu Xuan looked at him like he was an idiot.

Lie Tian's mouth twitched. He suddenly came to a realization. Since Chu Xuan already knew, how could he let the disciples of the Xuan Gate sect be affected?

This shocked him.

What level had Chu Xuan reached?

"Sect Master, what's going on?"

Lie Tian thought back. Was it the influence of some existence, or was it the transcendent laws of the Heavenly Sun World?

He was inclined to the former.

That kind of unseen influence did not seem to be brought about by the transcendent laws.

"During the great battle back then, almost all of the Dao Creation realm experts participated. I suddenly realized that the great battle was affected by this mysterious force," Lie Tian said with a dark expression.

Chu Xuan raised an eyebrow. He did not expect the mysterious force to have been at it even before the great battle.

It seemed that this mysterious force had even schemed against the Dao Supreme Rulers.

Chu Xuan thought for a moment and understood why a war was started.

Only by breaking the set order and peace between the Heavenly Sun World and the chaos could the plan to unify the Heavenly Sun World and the chaos be put into motion.

The master of the chaos, the ruler of the Heavenly Sun World, and those Dao Supreme realm cultivators might not have all died.

If so, then they were neither in the chaos nor in the Heavenly Sun World, which was probably to avoid the influence of the mysterious force.

They would likely reappear when the Heavenly Sun World and the chaos fused, especially the Dao Supreme Rulers.

They would not miss the birth of the new world and the opening of the new path.

Moreover, they would likely try to stop the mysterious force.

After all, this force was too terrifying.

Chapter 787: The Path Forward

If that mysterious force succeeded, it would truly reign supreme in the new world, controlling all life.

Even Dao Supreme Rulers would not be able to escape.

This person was truly amazing.

Chu Xuan could not help but sigh.

Even though his current strength had probably already surpassed his opponent, he was unable to deal with the latter, as he could not even locate the mysterious force.

The transcendent laws of the Heavenly Sun World were probably already under its control, if not fully, then at least partially.

The six Dao Supreme realm cultivators left in the Heavenly Sun World were probably pawns that this person had deliberately left behind to maintain order and to carry out his plan.

Moreover, Chu Xuan had some understanding of these Dao Supreme realm experts. Back then, they were considered relatively useless.

He had broken through to the Supreme realm by relying on luck and external forces.

Those opportunities probably came from that mysterious force.

It was really a good method, what a far-reaching plan.

Chu Xuan found it more and more interesting.

If they discovered that the Xuan Gate sect that appeared out of nowhere was not affected by it, how would they view the Xuan Gate sect?

Would they mistakenly believe that the Xuan Gate sect was prepared by the other Dao Supreme Rulers to resist the mysterious force?

The master of the chaos and his people should have made their own arrangements and taken action, right?

Perhaps not in the Heavenly Sun World, but in the chaos?

Chu Xuan suddenly realized that he was the one hiding behind the scenes and interfering with the chess game. No one knew that he was a third party.

When both sides found out the truth, what kind of expressions would they have?

Chu Xuan found it more and more interesting.

He was the biggest mastermind at work here.

"That person can't affect the Xuan Gate sect. Of course, we have to keep a low profile and not interfere with the development of the big picture."

Chu Xuan threw a jade talisman over to Lie Tian, which the latter gratefully took and said, "I understand, Sect Master."

He placed the Jade talisman in his divine soul, and then prepared to leave the valley again.

"Take it easy. Don't make a big commotion. I won't leave this place to rescue others," Chu Xuan reminded him.

"Sect Master, don't worry. I know my way around, and will be able to handle almost anything," Lie Tian said confidently.

"Alright, take it easy then."

Chu Xuan waved his hand.

Lie Tian chuckled and immediately left the valley.

This time, after leaving the valley, the influence of the mysterious force no longer affected him,

Lie Tian sighed inwardly. Chu Xuan was becoming more and more unfathomable.

A simple jade talisman had freed him from the influence of the mysterious force.

Lie Tian even suspected that Chu Xuan had already transcended the Dao Supreme Ruler realm.

The valley regained its peace.

As usual, Chu Xuan was living a carefree life.

Su Xian'er had already touched upon the boundaries of the Dao Creation realm, and would likely break through within 10,000 years.

Chu Xuan could roughly guess why Lie Tian had gone out.

He was probably looking for his backer to see if she was still alive. Chu Xuan felt that this was likely to be the case.

She was able to protect Lie Tian and arrange for him to stay at the edge of the chaos, devour the chaotic spiritual energy, and complete his Yin and Yang. All of this pointed to the fact that she was extraordinary.

Ever since Ding Yue broke through to the Dao Creation realm, the Heavenly Dao Talisman had been constantly transforming and improving.

The Heavenly Dao was becoming the only supreme law of the chaos, but it would still take time.

Time flew by, and ten thousand years passed.

Su Xian'er had created her Dao.

In the primordial chaos, Hei Yue had also created her own Dao.

The Heavenly Dao had become the only power in the chaos after unifying the chaos.

The Great Chaos era was about to arrive.

Once the three remaining chaoses collided and fused, it would become even more vast and huge than before the chaos shattered.

The chaos that had crumbled had been constantly growing and expanding.

Chu Xuan did not pay much attention to how the situation in the chaos would develop. Now that the Heavenly Dao had become the only supreme law of the chaos, and unified the chaos, it was ready to face the forces of the other two larger chaoses.

There were probably many forces in those chaoses, but if the other two chaoses were not unified, then the Heavenly Dao still had a great advantage.

The situation in the Heavenly Sun World was getting more and more intense.

Yi Lingling and Xue Ping were on their way to the Transcendent Dao realm.

Qi Le's cultivation level improved by leaps and bounds.

Chu Yu fell behind slightly.

However, she was still far ahead of the other geniuses.

In the past thousand years, a few more monstrous geniuses had emerged in the Heavenly Sun World that were capable of competing against Qi Le and Chu Yu.

Chu Xuan was looking forward to seeing it all come together.

Ten thousand more years passed, and Wang Luo and his other disciples also created their own Daos, as the three chaoses began to collide with each other.

The Grand Chaos calamity and the Great Chaos era had arrived.

The 500,000-year milestone had arrived.

Although Chu Xuan had not broken through and reached the Heavenly realm, his strength had already surpassed the Dao Supreme Ruler realm.

He possessed the strength of an early-stage Minor Heavenly realm expert.

The first world in the 3,000 masses of chaotic energy of creation had finally given birth to a lifeform.

3,000 worlds, 3,000 lifeforms, and every lifeform was different.

For the time being, these lifeforms did not possess high intelligence, only instinct.

Within one of those worlds, a human being was born. Chu Xuan had high hopes for that human.

He would probably be the first lifeform with high intelligence.

"You stayed at home for 500,000 years and created a new record. You cultivated outstanding disciples and created the Xuan Gate sect. You have been rewarded with the Heavenly Techniques Record."

Chu Xuan checked the reward.

The Heavenly Techniques Record was the cultivation method of the Heavenly realm, and included methods to create worlds and the methods to take shortcuts.

It also included the use of the powers of the Heavenly realm, divine powers, and offensive techniques.

With this, he could make up for the lack of techniques beyond the Dao Supreme Ruler realm.

Chu Xuan received his reward.

It was a thick book.

When he flipped open the book, what he saw was not just pages of paper, but worlds.

This was a secret manual, but also an extremely powerful treasure.

Chu Xuan was currently cultivating toward reaching the Heavenly realm, so he was pioneering a new path.

He relied on the deduction of the next realm and the information he obtained to slowly explore and cultivate.

With this book, one could directly comprehend the secrets of the Heavenly realm.

As Chu Xuan read the book, he discovered that even the first page was filled with endless insights regarding breaking through to the Heavenly realm and creating worlds.

With a single thought, the worlds that had given birth to lifeforms once again began to show signs of creation.

Initially, only one lifeform was born. Slowly, a new lifeform was born.

If the first lifeform born was a male, then the one born now would be female, and vice versa. This was the balance of Yin and Yang.

A woman was suddenly born in the world where the human being had been born, and this scene repeated itself in the other worlds with different races.

The first pair of lifeforms began to reproduce and create their own race.

In the human world, the first human was already looking at the sky, comprehending the principles of the world, creating characters, and so on.

The other worlds that had yet to give birth to life were also in the process of forming. It was believed that in the near future, life would be born one after another.

In the years to come, Chu Xuan continued to read the book, and the number of lifeforms began to increase.

Whole races began to appear in each world. However, because the worlds were so big, and there were too few living creatures, these races did not encounter each other yet.

There were still too few lifeforms that possessed intelligence.

Only the first human in the human world had begun to explore the world and seek the ways of cultivation.

Their children had already appeared, and a small tribe began to take shape.

One year, the human left his territory and began his journey of exploring the world.

In another world, there was a fight. A giant beast race encountered a relatively small beast race, and there was conflict.

The giant beasts devoured the smaller beasts.

From then on, the law of the jungle came into being.

The rules of development for the species in the worlds began to appear.

Chapter 788: Stepping Stones

Chu Xuan spent a thousand years finishing the first page.

Then, he made a small adjustment to the direction of his cultivation.

Although he was not reading all the time, it took him a thousand years to finish a page. This showed just how profound the book was.

Chu Xuan added another floor to the Xuan Gate Scripture Pavilion. He copied the page he had finished reading into a golden page and placed it on the highest floor.

Another thousand years later, Chu Xuan finished reading the second page.

However, he did not make a copy of it.

A single page would be enough for now.

Within the Xuan Gate sect, there was no one who was close to the Heavenly realm. This single page and floor was just something that would motivate them to strive and improve.

On a certain day, Chunlan and Lie Tian returned.

The situation in the Heavenly Sun World was getting more and more intense. Even if they were not affected by the mysterious force, it was easy for them to be caught within it.

After all, even if they were not under control, others were.

Yi Lingling and Xue Ping were about to reach the Transcendent Dao realm.

In the current Heavenly Sun World, they were also top experts.

Qi Le and Chu Yu's cultivation was also progressing smoothly.

They no longer needed guardians, as no one dared to break the rules and attack the disciples of the Xuan Gate sect, not even the Dao Supreme realm experts.

They were extremely wary of the Xuan Gate sect.

Furthermore, Yi Lingling and Xue Ping were also law enforcers.

Chunlan and Lie Tian had returned to cultivate in seclusion.

Even if they were Dao Supreme realm experts, they were still too weak.

Only those at the Dao Supreme Ruler realm had a chance of withstanding the coming storm.

In the past, Lie Tian did not even have much hope of reaching the Dao Supreme realm, let alone the Dao Supreme Ruler realm.

Chun LAN was the heir to Cloud Mountain Palace and had inherited the legacy of a Dao Supreme realm expert. She had extraordinary talent and had the chance to reach the Dao Supreme realm. However, the Dao Supreme Ruler realm had still been beyond her grasp.

Now, the two of them were filled with fighting spirit. The Dao Supreme Ruler realm was no longer out of reach.

Even though it was still a stretch, they had the tools and methods to reach this realm.

The Xuan Gate Scripture Pavilion had the secret manuals for the Dao Supreme Ruler realm.

"I thought that Qi Le was already an unrivaled genius. I didn't expect another genius on par with him to appear."

Lie Tian sighed.

The more he thought about it, the more he felt that the situation in the Heavenly Sun World was too complicated.

An old man like him should not get too involved in it, or he would drown. Until he had sufficient strength, it was best for him to stay in the valley.

Chu Xuan was not surprised.

Qi Le's appearance had dominated the limelight. The person behind the scenes would naturally push out a genius of the same level to even things out.

Now that the chaos and the Heavenly Sun World had begun to merge, people born in the place where the two converged would have completed Yin and Yang.

Those few geniuses were born there.

Although they had both completed their Yin and Yang, they were far inferior to Qi Le. After all, Qi Le had perfect Yin and Yang.

The key was the mass of Yin and Yang energy in his divine soul.

All of the top geniuses today had inheritances behind them.

Naturally, they were extraordinary.

"Sect Master, it seems like the Xuan Gate sect is no longer at the top of the food chain," Lie Tian said worriedly.

The first generation of geniuses were Yi Lingling and Xue Ping. They were the best, far ahead of the other geniuses. There were a few that rose to their level at first, but were soon left behind.

Qi Le and Chu Yu were the most outstanding among the second generation of geniuses. However, among the younger generation of geniuses, there were no disciples of the Xuan Gate sect.

Once time dragged on, the younger generation might catch up to the disciples of the Xuan Gate sect.

After all, when one cultivated to a certain level, they would stagnate and be unable to break through. When that happened, they would be surpassed by those who came later.

Many geniuses of the new generation had been using the experts of the older generation as stepping stones.

The cycle of history was often like this.

Among the experts that Yi Lingling had defeated, many of them were once geniuses, but in the end, they all became her stepping stones.

Would Yi Lingling face the same problem one day?

No one could guarantee that they would not become a stepping stone for the new generation of geniuses.

Chu Xuan chuckled.

"Talent isn't the only thing. Not all of the disciples of the Xuan Gate sect are invincible."

He was very open-minded.

How many disciples were there in the Xuan Gate sect?

How was it possible that every one of them was the strongest and there were no powerful enemies that could defeat them?

He only needed to ensure that the Xuan Gate sect itself was the strongest, which meant that he himself had to be the strongest.

Chapter 789.1: Shameless And Unscrupulous (Part 1)

"No other power can shake the Xuan Gate sect."

Lie Tian was stunned to hear this.

Chu Xuan poured himself a cup of tea and took a sip.

"Old Lie, there are countless geniuses, yet not all of them can enter our sect."

"The Xuan Gate sect is all about fate. Those who are fated will naturally enter our sect."

"Entering the Xuan Gate sect is the world's greatest opportunity. Even a piece of trash will be transformed into a peerless genius if they join our sect," Chu Xuan said meaningfully.

"Sect Master, I understand!"

Lie Tian nodded.

"Sect Master, I have some doubts about my cultivation," Chunlan said at this moment.

Lie Tian was also filled with anticipation.

He had his doubts as well. In fact, he did not even know how to continue cultivating. Once he reached the Dao Supreme realm, he felt as if he had reached the end of the path of cultivation.

"All of your questions will be answered there." Chu Xuan looked toward the Scripture Pavilion.

He did not intend to preach the Dao to them.

After all, the answers to all their cultivation questions could be found there.

Moreover, although Lie Tian and Chunlan were part of the sect, they were not his disciples.

Chunlan and Lie Tian followed his gaze. Following that, to their astonishment, they discovered that the Scripture Pavilion had an additional floor.

Could it be?

It felt completely unbelievable.

If it was really so, then the sect master...

The two of them suppressed the shock in their hearts.

"Sect Master, I'm going to go into secluded cultivation. Call me if there's a mission for me."

After Lie Tian finished speaking, he rushed into the Scripture Pavilion, with Chunlan following closely behind.

The two of them tried to go up to the top floor to take a look, but realized that they could not access it.

As such, they could only stay on the second highest floor.

They looked at the three booklets.

Lie Tian raised his hand and grabbed a booklet. The moment he opened it, shock was written all over his face.

This booklet contained cultivation methods and details regarding the Supreme Ruler realm.

Moreover, there had only been one booklet here previously, but now there were three.

At this time, Chu Xuan's voice was heard.

"You are too far away from this realm. There is no point in studying that booklet. Go back down to the next level."

Lie Tian and Chunlan put down the booklets they were holding.

"Yes, Sect Master."

They naturally believed Chu Xuan's words.

When he went down to the third highest floor, they found that the number of Dao Supreme realm booklets had increased. After picking up a booklet each, they were soon immersed in reading and cultivating.

In the chaos, Hei Yue was seated cross-legged, and her body was shrouded in a faint purple radiance.

A transcendent aura emanated from her body. She was in a special state, and could envision the shattered supreme laws of the chaos fusing together before being annihilated, and then finally giving birth to a new embryonic form of the supreme laws.

At a certain moment, the supreme laws emerged from a certain special space and transformed into the appearance of a divine soul.

This soul was blank, and there was nothing within it.

Hei Yue opened her eyes.

Her own soul was the embryonic form of the supreme laws.

The chaos had shattered, and the supreme laws had been severed. What did all of this mean?

What had happened back then?

At this moment, Hei Yue was a little confused.

Was there anything special about her birth?

She looked at the Heavenly Dao. Within it, there was a book, which was the Xuan Gate sect manual. When she held it, she said, "Master, I have some doubts."

After a long time, a voice came from the book.

"What doubts?"

Chu Xuan was curious.

There were times when Hei Yue was confused?

With the Xuan Gate sect manual in her hands, her doubts would naturally not be about her cultivation.

"Master, where did I come from and why do I exist?"

Hei Yue explained the scene that she had just seen.

"You are you. Why should you be confused? Even if your divine soul is formed by the supreme laws, you are still you. This is just your good fortune."

Chu Xuan did not expect Hei Yue to be confused about this.

"Where do living beings come from? And where did the Ancient Chaos Gods come from? It all depends on one's good fortune."

"Since you've seen the source of your fortune, you can comprehend it and use it to lay the foundation for your future cultivation," Chu Xuan continued.

"This is a rare opportunity. You have to be firm in your Dao heart."

Hei Yue listened quietly.

Chu Xuan explained to her, "The Dao Creation realm is only the beginning. Above the Dao Creation realm is the Dao Supreme realm. You can complete your Yin and Yang now and lay down your foundation in preparation to advance to the Supreme Dao realm."

Hei Yue took a deep breath and said, "Thank you for clearing my doubts, Master. I understand."

"Master, why did the chaos shatter? Is there something special about my origin?"

Chu Xuan smiled and said. "The shattering of the chaos is just a result of someone's scheme."

"As for your origin, it doesn't matter if it's special or not. Since you're my disciple, no one has the right to interfere with your fate."

"The integration of the chaos and the Heavenly Sun World is inevitable to balance Yin and Yang. You can also enter the game and play with those old guys."

Hei Yue understood.

It did not matter if she was born as a pawn or not.

From the day she acknowledged Chu Xuan as her master, her fate was no longer in anyone's hands.

"Master, I know what to do."

"That's good."

Chu Xuan's voice disappeared after that.

Hei Yue stood up and looked at the chaos and the Heavenly Dao.

The Great Chaos era?

The Heavenly Sun World was fusing with the chaos to balance Yin and Yang?

How can she be absent from such an exciting situation?

After solving Hei Yue's confusion, Chu Xuan observed the situation in the chaos.

Like the Heavenly Sun World, countless geniuses were emerging one after another.

The Heavenly Dao also produced peerless geniuses, and the competition between them all was intensifying.

In an ancient battlefield in the Heavenly Sun World, Yi Lingling stood on a collapsed mountain peak.

She looked at the dozen figures around her.

These were all geniuses from several powerful forces. Some of them had joined the law enforcers, while others were those who had lost to her.

Now, they had all come to try and kill her, believing that doing so would allow them to break through their shackles and reach a higher realm.

Yi Lingling's expression was calm, as an ethereal-looking sword floated behind her.

In another place in the Heavenly Sun World, outside a large city, Xue Ping's aura was like a rainbow as the large saber in his hands flickered.

He arrogantly looked on at the dozens of people around him.

"Just a bunch of trash!"

"Kill!"

A great battle erupted.

The news that the top geniuses had joined forces to attack Yi Lingling and Xue Ping shocked the world.

Even though it was embarrassing to bully with numbers, against Yi Lingling and Xue Ping, they had no choice.

It was as if everything was natural.

All of the geniuses suddenly realized that killing the frontrunners of their generation would give them great fortune and luck, which would help them break through and become stronger.

With the rules in place, the Xuan Gate sect could not interfere.

Otherwise, would that not be destroying the rules that they had upheld?

Of course, they could also send their disciples to join forces.

However, there were only a few disciples in the Xuan Gate sect.

Qi Le and Chu Yu were also faced with the same situation.

Chu Xuan sat on the chair leisurely, looking up at the sky.

He muttered to himself, "This guy is quite unscrupulous, and doesn't mind ganging up on my disciples."

That being said, Chu Xuan was not surprised by this.

Chapter 790.2: Shameless And Unscrupulous (Part 2)

It was within Chu Xuan's expectations that the disciples of the Xuan Gate sect would be targeted like this. After all, no one could stand to see others ahead of them.

Now, there were two paths forward, which were to rise up and become stronger, or die and become a stepping stone for others.

Still, this mysterious force was rather shameless, as it had influenced these geniuses and made them discard their pride to work together like this.

"Since you don't care about martial virtue, then don't blame me. After all, the rules are set by the strong," Chu Xuan muttered to himself.

He was stronger than the other party, so the rules naturally could not restrict him. However, he did not take action immediately.

Yi Lingling and Xue Ping were still able to hold on, so if they could rely on themselves to overcome the current situation, then they would benefit immensely.

Qi Le and Chu Yu were only occasionally targeted and surrounded, as they were simply considered collateral due to their lower cultivation level.

Yi Lingling and Xue Ping fought against their opponents every day.

When they were in imminent danger, they would immediately escape instead of foolishly continuing to fight.

However, even with the Xuan Gate sect's concealment technique, they could not hide for too long. They would eventually be found again and there would be another battle. Unfortunately, it was impossible to hide from the mysterious force unless they were as strong as Chu Xuan.

Within the chaos, a great war had already begun between the three chaoses, and countless experts died everyday.

There were indeed Dao Creation realm experts in the other two chaoses, and there were many experts who wanted to occupy the Heavenly Dao and seize its fortune.

Xiao Liang held his spear and rose into the air to meet the incoming enemy, while Ding Yue charged into enemy lines.

The Divine World was no longer the same, and was the most powerful world in the chaos.

The Heavenly Dao had unified its chaos, while the other two chaoses had multiple factions, which gave the Heavenly Dao the advantage.

Over time, some of the forces in the other two chaoses formed an alliance against the Heavenly Dao.

As all of this was happening, the chaos and the Heavenly Sun World continued to slowly fuse and merge. Furthermore, as the situation became more and more intense, the speed of cultivation and the growth of these geniuses accelerated.

Under normal circumstances, one would not be able to break through to the Dao Supreme realm without completing Yin and Yang realm. Thus, even the strongest geniuses in the chaos and the Heavenly Sun World would not be able to advance past the Dao Creation realm.

The chaos lacked Yang, and the Heavenly Sun World lacked Yin. However, Chu Xuan had intervened, so his disciples could complete Yin and Yang within the chaos, and thus would be able to advance to the Dao Supreme realm within the chaos.

Time flew by, and another fifty thousand years passed.

Yi Lingling and Xue Ping had been fighting the entire time, which meant that they had fought for 50,000 years!

Naturally, their strength had greatly improved, and they were on the verge of reaching the Transcendent Dao realm. However, the cost of all of that fighting was that they were extremely exhausted.

They had nowhere to hide, and no time to rest. The fact that they had managed to persevere for this long was a testament to their willpower and talent.

Eventually, they returned to the valley in a slightly sorry state.

Chapter 791: Minor Intervention

"Greetings, Master!"

Chu Xuan took a look at them and nodded in satisfaction.

Since that guy did not care about martial virtue, he could not watch his disciples be bullied.

It was only right for him to remove a few of the other party's pawns.

Chu Xuan waved his hand and four jade talismans appeared in front of the two.

"The other two jade talismans are for Qi Le and Chu Yu."

These jade talismans would help them avoid being tracked when used in conjunction with the Xuan Gate sect's concealment technique.

Chu Xuan waved his hand again and four small jade mirrors appeared.

"One for each person. This jade mirror can display the fate of the world and can also absorb the fate of the world."

Yi Lingling and Xue Ping were extremely excited.

For tens of thousands of years, they had been constantly besieged and hunted down by their enemies.

No matter how slow-witted they were, they could tell that something was wrong and that someone was targeting the disciples of the Xuan Gate sect.

Therefore, the two of them had come back to ask for help.

"When I go out this time, I'm going to teach them a lesson!"

Xue Ping revealed a fierce expression.

"Your main target is to kill a few big fishes. The jade mirror will give you hints," Chu Xuan said.

"Yes, Master!"

Yi Lingling and Xue Ping did not stay any longer and left the valley immediately.

Chu Xuan chuckled.

Hmph!

Since that person decided to be shameless, it was time for him to suffer some losses.

While Yi Lingling and Xue Ping were busy killing, Chu Xuan also paid attention to the chaos.

Ding Yue and the others were strong, and Hei Yue's planning worked wonders.

The cunning Chu also helped them circumvent any possible weaknesses and removed any potential threats.

Chu Xuan then looked at the Origin Great Dao, which was now expanding into the depths of the void region.

Sooner or later it would fully envelope the Heavenly Sun World and the chaos.

Chu Xuan looked at the 3,000 masses of chaotic energy of creation and the worlds that he had opened up. He had some ideas.

Perhaps the path beyond the Heavenly realm could be derived from the void region. If he combined the internal and external, could he open up a new path?

Chu Xuan thought that it was worth trying. The external, like the Origin Great Dao, had been established and was constantly growing.

As for the internal, like the worlds, they were slowly nearing completion as well.

Yi Lingling and Xue Ping went on a killing spree and killed a few big fishes.

The mysterious force seemed to have withdrawn after that, and no longer influenced the geniuses to hunt them down. This made Chu Xuan even more certain that this fellow could not act directly.

However, even if the mysterious state that person was in hindered their ability to take action, it also prevented Chu Xuan from finding and acting against that person.

From this, it could be seen that the reason why those Dao Supreme Rulers and Dao Supreme realm cultivators who had yet to die did not set foot in the heavenly Sun World was to avoid this mysterious force.

Time passed by quickly, and the 800,000-year milestone arrived.

Chu Xuan's strength had increased by quite a bit.

The first world in the masses of chaotic energy of creation had already given birth to a variety of lifeforms, and the number of intelligent lifeforms had also begun to increase.

The first human had already created a cultivation technique, and learnt how to cultivate. He had reached the heaven realm.

In another world, the first lifeform of this world, a dragon-shaped beast, also seemed to be comprehending the truth of this world, and had also reached the heaven realm. Most of the first intelligent lifeforms of each world were blessed by fate, and were still alive after countless years.

There were more types of lifeforms and more vegetation. The food chain and ecosystem of each world was starting to establish itself.

At this moment, Chu Xuan's strength was equivalent to a middle-stage Heavenly realm expert, despite not having broken through. Once he did break through, he would advance straight to the Great Heavenly realm.

Chu Xuan actually quite admired that mysterious force.

Their methods were impressive, and they had actually managed to figure out how to break through to the next realm.

Chu Xuan suspected that if the other party emerged from that mysterious state and revealed their true body, the other party would have the strength of a half-step Minor Heavenly realm expert.

As the fighting continued...

One genius after another rose...

One by one, the powerful cultivators of the older generation became the stepping stones for the rise of the geniuses...

One after another, powerful forces were destroyed in the hands of the geniuses or, under the leadership of the geniuses, rose to a new level.

In the chaos, the Heavenly Dao was continuing to infiltrate and devour the supreme laws of the other two chaoses.

The other two chaoses had experts who rose up and unified their respective chaoses.

Even so, they were not as strong as the Heavenly Dao's side.

After all, after joining the Heavenly Dao, the stronger the Heavenly Dao, the stronger one's own strength would be. The stronger one was, the stronger the Heavenly Dao would be. It was a very synergistic relationship.

In order to improve their own strength, and strengthen the Heavenly Dao, everyone from the Heavenly Dao's side tried their best to unify the other chaoses.

In any case, even if they died, the reincarnation cycle existed.

Therefore, the Heavenly Dao was united against the outside world.

As for the other two chaoses, even if the overlord had united them, the various experts still had to consider the needs and benefits of their own factions, and were thus easy to divide.

The Heavenly Dao had roped in a number of experts over the years, who immediately realized the benefits of joining the Heavenly Dao.

What was the purpose of cultivation?

Was it not for the sake of power and eternity?

This was easily achievable within the Heavenly Dao. Even the spies sent by the forces of the other two chaoses ended up joining the Heavenly Dao.

Ding Yue stood at the boundary between the chaoses and looked at his opponent coldly. This person was also a Sword Dao expert, and this was the seventh time they had crossed swords.

"Ding Yue, you people from the Heavenly Da are all shameless. You are not worthy of cultivating the Supreme Sword Dao!"

The person opposite him had an ashen expression.

Ding Yue looked at him indifferently.

In his heart, he was cursing.

'Chu, that shameless guy! He actually seduced the other party's little junior sister and ran away with her!'

This opponent of his was about to go crazy, which was reflected in his attacks.

During the last two exchanges, Ding Yue had actually felt pressured by the other party, who clearly had a crush on his junior sister, but had lost her to Chu.

How infuriating!

Chapter 792: Led Astray

On a mountain peak behind Ding Yue, Chu was waving his folding fan in a carefree manner.

Beside him stood an elegant, beautiful and refined woman.

He was holding a small skewer of meat in his hand and enjoying the delicacy.

"Your senior brother is too wild and full of hostility toward me. He's so unreasonable."

Chu sighed.

"The world can bear witness to my love for you. I've never let you suffer even the slightest grievance, yet your senior brother is still unwilling to let go. He even treats you like a little girl. Sigh..."

The woman glanced at Chu.

"You also said this to the others, right?"

"Yes," Chu said seriously, "I may be a little bit of a playboy, but every word I say comes from the bottom of my heart!"

"I'm like this to you, and I'm like this to them too. I have never let anyone down in my life!"

"Hmph! Always with these sweet words."

"In my heart, there is no difference between all of you. You are all my precious lovers, no one is more loved than the other!"

"Strength is everything. I'm stronger, so I'm their senior."

Chu glanced at her chest and nodded silently.

Looking ahead, Chu sighed once more, "Your senior brother might not be feeling right. You're his junior sister, but why do I feel like he's treating you like his daughter?"

"Senior Brother is too annoying. I can't be bothered with him."

"There's no end to his nagging. What will I do?"

"Don't worry. As long as I'm here, he won't be able to hurt you!"

Hong looked into the distance at Chu and the woman, full of admiration.

Ancestor Chu was indeed capable.

He touched his own swollen face and sighed.

That demoness was too rude and unreasonable. She had beaten him up, and he did not have a chance to resist at all.

It was time to give up.

Further away, Hong Yuanchu was looking at his own ancestor.

How embarrassing!

He had actually tried to get close to a female expert and failed!

If not for Huang Long's timely intervention, he would have been killed!

Somewhere in the chaos, Tai hugged his head and squatted on the ground, allowing a violent female expert to punch and kick him.

"Big Sister, I was wrong! I know I was wrong," he screamed.

"Get up!"

"Alright, Big Sister."

"Lead the way. I'll go take a look at your Heavenly Dao."

"Big Sister, come and sit over here. I'll take you there," he patted his shoulder and said.

He had already enlarged his body and squatted down in front of her.

The woman hesitated before saying, "Alright."

Then, she sat on Tai's shoulder.

Tai was extremely excited and joyful as he flew toward the Heavenly Dao.

It was a success!

'Brother Chu's teachings were right!'

Qin's figure appeared within the Heavenly Dao.

"How shameful!"

He sighed.

Everyone had been led astray by Chu.

Chu Xuan also sighed.

This Chu guy...

If he was not with a female expert, he was trying to get close to one.

Furthermore, his success rate was extremely high. It was almost as if he could read the minds of women!

Ding Yue and that person exchanged blows again.

This time, Ding Yue had the upper hand.

"Your Sword Dao is not pure, and your heart is wavering."

"How can the Supreme Sword Dao be tainted by other things?"

"You!"

The man's face was ashen.

He was actually at a disadvantage.

How did Ding Yue improve so quickly?

"Do you want to know why you're weaker than me?"

"Why?"

"Because I have no woman in my heart!"

"???"

The other party was momentarily stunned, and then he flew into a rage. "Ding Yue, you dare to mock me?!"

His eyes were bloodshot, and he looked like a mad demon.

"That is the flaw in your Sword Dao!"

Ding Yue's sword flashed as he continued to attack.

While he attacked, he said coldly, "You only have women in your heart, and your thoughts of them overpower your desire for the sword. Your Sword Dao is no longer pure!"

"How are you going to attain the Supreme Sword Dao?"

"You're not truly cultivating the Sword Dao. You're just using it as a cover."

"Look! Even your sword is stifled. You can't display the sharpness of your sword technique because you've placed your junior sister above your Sword Dao."

With sword strike after sword strike, Ding Yue forced his opponent to retreat.

The other party's face was getting paler and paler.

"No! How is that possible?!"

"What I cultivate is the Supreme Sword Dao! What conflict does it have with my admiration for my junior sister?"

"How can my Sword Dao not be pure?"

Ding Yue advanced step by step, and the other party retreated step by step.

Boom!

"Kill!"

A powerful figure shrouded in golden light appeared and charged forward.

"Ding Yue, enough of your nonsense!"

In response, a long spear flashed toward the golden figure.

Xiao Liang!

Chu Xuan put away the talisman and did not continue to observe the situation.

There were very few people who cultivated the Sword Dao who could stand shoulder to shoulder with Ding Yue.

Ding Yue's Sword Dao was truly pure.

Chu Xuan felt that if Ding Yue wanted to break through to the Heavenly realm, he would probably need to open up a new path based on the Sword Dao.

His Sword Dao was too pure, and creating worlds like Chu Xuan would only negatively impact his focus on his Sword Dao.

This was not the path that Ding Yue should take. He would have to discover and explore to find his own way forward.

That being said, Ding Yue was still a long way away from the Heavenly realm, so this could be considered at a later date.

Chapter 793: Changing Times

What was his final path?

He would have to wait until he broke through to the Dao Supreme Ruler realm before he could consider it.

His disciple had already grown up and created his own Dao.

Chu Xuan would only clarify their doubts and would not interfere with the path the disciples would take.

He looked at the Origin Great Dao, which had now enveloped one-third of the Heavenly Sun World.

Over the past 100,000 years, the speed at which the Origin Great Dao expanded within the void region had grown faster and faster.

It had already formed the embryonic form of the transcendent laws of the void region.

The speed at which the chaos and the Heavenly Sun World fused was also increasing, and along with it, the cultivation speed of the geniuses within them.

Moreover, there were also some ancient battlefields and mystic realms appearing recently that contained inheritances and legacies.

These attracted countless geniuses to fight for it.

Recently, another ancient ruin had appeared, which was rumored to be the tomb of the Azure Dragon, one of the four ancient divine beasts.

Chu Xuan was surprised.

Could it be that the four ancient divine beasts had been killed by that guy for the sake of the plan?

If that was the case, then this person had been at it much earlier than he expected.

Chu Xuan looked at the Azure Dragon.

Although the four divine beasts were a reward from the system, their origins were undoubtedly the same as the four ancient divine beasts.

It was likely that the four divine beasts he had were reincarnations created by the system based on their origin essence.

At their peak, the four divine beasts had been Dao Supreme Rulers. If the mysterious force had been able to kill them back then, his strength should have been quite considerable, and perhaps just below or equal to a Minor Heavenly realm expert.

What a terrifying fellow.

Of course, whether or not the remains of the Azure Dragon were in that ancient ruin remained to be seen.

With the appearance of this ancient ruin, the geniuses of the fey race came out in full force.

Chu Xuan looked at the boundary between the chaos and the Heavenly World, and discovered that the chaos seemed to be sinking under the Heavenly Sun World.

Yin and Yang?

If there were two realms, each representing Yin and Yang respectively, then it was likely that that person was trying to create a reincarnation cycle as well.

Chu Xuan could also guess the reason behind all of this. In addition to opening a new world and path of cultivation, this person also likely wanted to become the ruler of the new world he created.

Were the master of the chaos and the others planning to foil this plan?

There was too little information available for Chu Xuan to infer the plans of the parties involved.

In any case, he was the true third party here. No one was aware of his existence or of his goals.

In that sense, everything was within Chu Xuan's grasp.

He was the real mastermind.

Chu Xuan decided to expand the Heavenly Dao plan, and not limit it to the chaos. He wanted the Heavenly Dao to replace the transcendent laws of the Heavenly Sun World and grow to become the only transcendent law of the new world..

As for the Origin Great Dao, it would become the transcendent law of the void region.

As the situation progressed, Yi Lingling and Xue Ping took advantage of the changing times to advance rapidly, as did the other geniuses.

Everyone was vying for the inheritances and legacies that were constantly emerging in the ancient battlefields and secret realms.

The barriers that separated the sections of the Heavenly Sun World had disappeared now, and the Heavenly Sun World had returned to its peak state, and was even starting to expand beyond that.

However, it was restricted by the void region, and could only expand slowly.

Tens of thousands of years after Yi Lingling and Xue Ping reached the Transcendent Dao realm, the geniuses from their generation also broke through thanks to the inheritances and legacies they obtained.

One of the fey race's geniuses obtained the inheritance contained in the ancient ruin that contained the dragon horn of the Azure Dragon. With it in hand, that genius rose to new heights, and was able to defeat and kill many fey and human geniuses.

For a time, the entire Heavenly Sun World was abuzz thanks to this genius, and many people believed that he had the potential to lead the fey race to its peak.

Xue Ping felt that this person was too arrogant, and decided to bring him down a notch.

A huge battle broke out between the two, and even though the other party had the dragon horn, he was still defeated by Xue Ping.

However, Xue Ping was unable to kill him, as the dragon horn had once belonged to a Dao Supreme Ruler. It was extraordinary.

Later on, Yi Lingling and Xue Ping returned to ask Chu Xuan for pointers, which he gladly provided.

Then, the two of them studied the Dao Creation realm booklets in the Scripture Pavilion in order to chart their path to the Dao Creation realm.

Their secluded cultivation lasted more than ten thousand years, and during this time, Qi Le and Chu Yu finally began to catch up to the geniuses of the older generation.

Another hundred thousand years passed, and Qi Le and Chu Yu broke through and reached the Transcendent Dao realm.

In an ancient ruin, Qi Le and that fey race genius had a great battle.

The two sides were evenly matched.

After all, Qi Le had just broken through, and that person had the Azure Dragon's horn.

Not long after, an ancient ruin containing the legacy of the Black Tortoise was opened.

Another fey race genius arose as a result.

In the tens of thousands of years that followed, the tombs and ruins of ancient powerful beings appeared one after another, and many geniuses benefited and rose up in that time, taking full advantage of these opportunities.

Many small clans also became prominent as their geniuses prospered and rose to power.

Now, the human race was no longer the only dominant race, and they were pressured by the other races and clans.

Fortunately, this situation did not last too long, as a tomb of an ancient Dao Supreme Ruler of the human race opened, whose legacy was obtained by a human genius.

However, the newly-risen human genius fancied Chu Yu, and provoked Qi Le and even tried to attack him.

As a result, the two sides immediately started fighting.

The battle lasted for half a month.

In the end, Qi Le won and severely injured his opponent.

He had wanted to kill that person, but the other party managed to escape due to the legacy and treasures obtained from that ancient tomb.

A grudge was thus formed.

Many of the older generation experts of the human race used this incident to attack Qi Le and split the human race into factions, causing many geniuses to take sides.

After all, the Xuan Gate sect was too powerful and its disciples had killed many experts and geniuses. There were many who were jealous.

The one who was defeated even declared arrogantly that he would kill Qi Le if they fought again ten thousand years later.

Qi Le naturally felt pressured, as he realized that the treasures and legacy of these Dao Supreme Rulers were extraordinary.

As such, he and Chu Yu returned to the valley, which gladdened the hearts of Su Xian'er and Chunlan. After all, they had raised Qi Le and Chu Yu.

Qi Le told them about his experiences over the years, and was especially infuriated when he mentioned the genius that had lusted after Chu Yu's beauty and even attempted to use underhanded means.

When Su Xian'er heard this, she immediately became angry.

Chu Yu was formed from a spiritual herb. She was beautiful and refined, untainted by the mortal world.

Naturally, there would be many people who admired her. However, it had been obvious from the start and Qi Le and Chu Yu were a match made in heaven.

It was all thanks to Qi Le's that Chu Yu had been able to gain sentience, transform, and avoid the fate of being made into a dish by Chu Xuan.

"It's just a Dao Supreme Ruler's treasure. The Xuan Gate sect has plenty of these," Su Xian'er snorted, "Little Le 'er, the next time you see him, just kill him. Teach him the price of his arrogance!"

Chapter 794: Treasures Galore

Su Xian'er waved her hand and threw out a dozen treasures.

"Little Le'er, these are all treasures. You can choose the most suitable ones. The Xuan Gate sect doesn't lack treasures!"

Chunlan was dumbfounded.

Was Su Xian'er actually this rich?

She had casually thrown out a dozen Dao Supreme Ruler-level treasures!

She glanced at Chu Xuan, who was sitting on the chair leisurely, reading and eating pastries, and immediately understood. Su Xian'er had definitely benefited from staying by Chu Xuan's side this entire time.

Qi Le and Chu Yu were stunned as well.

The number of Dao Supreme Ruler inheritances and treasures that had appeared in the entire Heavenly Sun World could be counted on one hand.

Yi Lingling and Xue Ping, who had been cultivating in seclusion in the Scripture Pavilion, also came out.

Lie Tian also ran out.

Looking at all of these treasures, he was extremely envious.

In his heart, he felt extremely vexed. Why had he not thought of this before? If he had tried his best to curry favor with Su Xian'er, he might have been able to obtain one or two treasures from her.

"Sister Su, I also lack treasures," Yi Lingling said as she tugged Su Xian'er's arm.

She was the first to enter the sect from the Heavenly Sun World, and had a good relationship with Su Xian'er.

She had the Ethereal Divine Sword, which was very compatible with her. However, it grew in strength in tandem with her own cultivation level, so it had yet to reach the Dao Supreme Ruler-level yet.

"You can choose."

Su Xian'er nodded her head.

Xue Ping, who was watching from the side, was scratching his ears and cheeks.

He was more embarrassed, as he was a guy, and could not rely on a sisterly relationship to get the good stuff.

Of the four disciples present, he was the most distant from Su Xian'er. After all, Qi Le and Chu Yu had been raised by Su Xian'er.

He was tempted by the treasures, but was too embarrassed to ask.

Yi Lingling picked out a sword from the dozens of treasures.

"Just one?" Su Xian'er asked in surprise.

She had no intention of taking back these treasures.

Yi Lingling shook her head. "One is enough. It's not always better to have more treasures. It's better to have the most suitable ones."

Su Xian'er nodded her head.

Chu Yu's eyes widened as she walked around the pile of treasures. She reached out and touched one item after another, yet she could not find anything that she liked.

Qi Le chose a ring-shaped treasure.

"Little Le'er, how can one be enough? Even if you trap your opponent, you might not be able to kill him without a treasure that's powerful enough."

Su Xian'er stretched out her hand and took one of the crescent blades, stuffing it into Qi Le's hands.

Qi Le took it and put it away, saying, "One to trap and one to kill. That's enough."

"Alright then."

Su Xian'er relented.

Qi Le looked at one of the blood-red sabers. Xue Ping was staring at it, but he was too embarrassed to say anything.

Qi Le felt a little helpless.

'Senior Brother Xue Ping is just too thin-skinned.'

He casually took the blood-red saber and stuffed it into Xue Ping's hands.

"Senior Brother, this saber is very suitable for you."

Xue Ping was so excited that he was about to cry.

"Thank you, Junior Brother."

However, he still glanced at Su Xian'er. Without her permission, he would not accept it.

Su Xian'er simply rolled her eyes indifferently.

When he first entered the sect, she thought that he was smart and knew how to flatter others, but it seemed that all that adventuring had built his muscles, but not his brain

Lie Tian's skin was much thicker.

"You've all chosen yours, so the rest are mine!" He laughed.

Su Xian'er casually slapped him and sent him flying.

"If you want treasures, go ask Sir."

Lie Tian was depressed.

Naturally, Su Xian'er's strength was far inferior to his.

However, he did not dare to resist.

To put it bluntly, if Su Xian'er were to whisper into Chu Xuan's ears, he would be the one to suffer.

"Little Su, I'm from the older generation of the Xuan Gate sect. I founded the sect with your teacher. You're the lady of the celestial sect. When you give out treasures, you should consider me."

"As the lady of the Xuan Gate sect, you should help the sect master with some of his duties. It's not appropriate for me to look for the sect master for such a small matter," Lie Tian said in a flattering manner.

Su Xian'er's face immediately broke into a smile.

The lady of the Xuan Gate sect!

That title was very pleasing to the ear.

This old fellow was quite good at buttering others up.

"Pick one."

Lie Tian immediately chose a treasure joyfully.

Since Lie Tian had gotten one, Chunlan was naturally allowed to choose as well.

In the end, Chu Yu was the only one left who had not chosen anything.

"Aunt Xian'er, do you have any pretty treasures? None of them look good," she said, pouting.

She was the first to call Su Xian'er "aunt." After all, Chu Yu was created by Chu Xuan, and Su Xian'er had raised Chu Yu.

Therefore, it was not appropriate to call her sister.

Qi Le had originally called her aunt as well, but Su Xian'er felt that the title made her sound too old, so she had always asked him to call her big sister.

Chapter 795: A Hundred Thousand Years

Now that she thought about it, it was better for Qi Le to also call her "aunt."

This way, Su Xian'er could be considered to be of the same generation as her master, Chu Xuan, and it would also show her close relationship with her master.

"Yes, of course there is, dear."

Su Xian'er rubbed Chu Yu's head lovingly and smiled.

"My Yu'er is so beautiful, so of course the treasure she uses must be beautiful too."

As she spoke, he took out a set of clothes that were as ethereal as clouds.

Chu Yu received them delightedly and put them on immediately.

Next, Su Xian'er took out a jade hairpin and helped Chu Yu put it on.

Finally, she took out a lotus-shaped flower which was extraordinarily beautiful.

The flower bloomed and the beautiful petals danced around Chu Yu, making her look like a fairy from a painting.

Chu Yu was extremely excited. She waved her hand and the petals gathered together to form a flower that spun on her palm.

"Thank you, Aunt Su!"

Chu Yu was still the most favored one.

Chu Yu did not even need to refine the treasure to make it recognize her as its master. She could use it directly, although she was unable to unleash its full power.

However, when she used it, it did not cause much consumption or put an undue burden on her.

It was obvious that the treasure was specially prepared for Chu Yu.

Lie Tian went back to continue his secluded cultivation, as did Xue Ping and Yi Lingling.

Qi Le and Chu Yu had just returned and continued to accompany Chu Xuan and Su Xian'er to talk about their experiences.

"Master..."

Chu Yu put her arm around Chu Xuan's shoulder and acted coquettishly.

In her heart, Chu Xuan was her father.

"Over the past 1,000 years, I've felt something calling out to me. It's as if there's some kind of treasure calling out to me," Chu Yu said with a frown.

"Yu'er, why didn't you tell me?"

Qi Le was stunned.

"Hmph, Brother Le, if I told you, you'd definitely run over to see what's going on. I thought it might be dangerous, so I didn't tell you," Chu Yu scoffed.

Qi Le was embarrassed.

Over the past ten thousand years, he had become very interested in those ancient ruins and secret realms. As his strength increased, he became more and more arrogant in his actions.

If Chu Yu were to tell him about it, there was no doubt that he would have gone there.

Chu Xuan raised his brows. Could it be that there was another spiritual herb with great fortune calling out to Chu Yu?

Of course, he could not rule out the possibility that some people were plotting against her.

"Yu'er, the next time you sense it, you can go and take a look."

Chu Xuan rubbed her little head.

"Master, what should we do if there's danger?"

"With me around, how could there be any danger?" Chu Xuan said with a smile.

He placed a jade talisman in Chu Yu's hand.

"Whether it's an opportunity or a scheme, you can go and take a look."

Chu Xuan was too lazy to use the derivation function. Something that could threaten Chu Yu could not threaten him.

However, it was simply wishful thinking for them to plot against Chu Yu. No matter what, Chu Yu was born from his spiritual herb, so it was not an exaggeration to say that she was his stepdaughter.

How could he let others scheme against her?

"If I feel another call, I'll definitely go take a look."

Chu Yu stored the jade talisman into her divine soul happily.

She then ran off to find Su Xian'er.

Chu Xuan looked at Qi Le.

"I understand your doubts. The Yin and Yang energy in your divine soul is your great fortune, and is a chance for you to create a world. You should start to build a good foundation to create your Dao."

Qi Le listened respectfully.

He had come back this time because he had recognized his own shortcomings, which was his lack of understanding of the Yin and Yang energy in his divine soul.

He could not use it properly.

Although he was still far from creating his own Dao, he had a feeling that understanding the Yin and Yang energy was of utmost importance, and could prevent him from taking the wrong path.

Chu Xuan preached the Dao to him, and he gained enlightenment. He then entered the Scripture Pavilion to read the Dao Creation realm booklet and entered seclusion to comprehend it.

He wanted to use the Yin and Yang energy to lay the foundation for the Dao Creation realm.

In the Heavenly Sun World, the disappearance of the Xuan Gate sect's disciples gave the other geniuses a chance to show off their might.

Recently, there were three human geniuses that were starting to gather the power of the human race, and recruit geniuses under their banner.

Despite being the most powerful race, humans were not unified, but things were starting to come together, as everyone gathered within one of the three great factions under the three geniuses.

It was the same for the fey race, whose geniuses were starting to form alliances.

The Heavenly Sun World was divided into three camps, which were the humans, the fey, and the unaffiliated.

The human race was the strongest for the time being, but they did not have the power to suppress the other two camps. Eventually, it became a battle between three major factions.

The three great geniuses of the human race gathered others together in the name of the human race, but they were also secretly competing with each other to be the one to unite the human race and seize great fortune.

As the situation in the Heavenly Sun World continued to progress, things in the chaos were also developing.

The Heavenly Dao continued its spread to the other two chaoses, which had already formed an alliance.

Amidst the ensuing battles, Ding Yue emerged as the number one Sword Dao expert in the chaos.

Xiao Liang was not to be outdone either, and continued to hone his battle soul through fire and flames.

Demon Buddha traveled the chaos, spreading Buddhism and enlightening one person after another.

Hu Tianya displayed the might of a divine beast and was championing the cause of unifying the monster races in the chaos under the Heavenly Dao's banner.

The ghost race was also rising, and Chu Pingfan's Extreme Dao had risen to fame as he ran rampant throughout the chaos.

Chu Xuan took out the Heavenly Dao Talisman and sent a wisp of his consciousness into the Heavenly Dao.

There, he preached the Dao to Ding Yue and his other disciples and passed them treasures as well. This was all done to speed up the growth and development of the Heavenly Dao.

Ding Yue had created his Dao a long time ago, and he was now not too far away from the Dao Supreme realm.

Furthermore, he had already completed his Yin and Yang within the Heavenly Dao.

The Great Chaos era would soon truly arrive.

As for whether there were any schemes in the chaos, Chu Xuan did not care.

He believed that the master of the chaos must have left something behind, but since he was not present in the chaos, he could not investigate the matter.

With Chu Xuan's intervention, the Heavenly Dao developed even faster, and the Divine World cemented its position as the number one world in the chaos.

The Heavenly Dao also gave birth to more and more geniuses as it controlled a larger portion of the power and fate energy of the chaos.

The Heavenly Dao was on track to unify the chaos.

With the fusion of the chaos and the Heavenly Sun World, the time flow between the two realms continued to be streamlined.

Time passed, and another hundred thousand years passed.

Soon, the million-year milestone would arrive.

During this time, the disciples of the Xuan Gate sect had been absent from the Heavenly Sun World for over a hundred thousand years.

The human race still had three major factions, and the fey race also had its own factions. The unaffiliated cultivators' faction was still present as well.

Everything had been going back and forth for countless years, and everyone was striving to break through to the Dao Creation realm, as that would tip the balance between the various factions, and possibly lead to the unification of the Heavenly Sun World.

Chapter 796: Impatience

The genius who had once coveted Chu Yu was searching for traces of Qi Le and Chu Yu, as well as the location of the Xuan Gate sect.

However, he found nothing.

It was as if the Xuan Gate sect did not exist in this world, and it made the sect appear even more mysterious.

The small valley seemed to be detached from the Heavenly Sun World.

No matter how chaotic the outside world was, no matter how intense the conflicts were, it could not affect this small valley.

Lie Tian came out of the Scripture Pavilion.

He raised his head and looked at the sky.

"Reaching the Dao Supreme Ruler realm is really difficult," he sighed.

He had not even touched the edge of the Dao Supreme Ruler realm, and he felt as if his cultivation path had reached its end.

If it was not for the fact that his strength had increased over the past ten thousand years, he would have been convinced that this was the case.

Chu Xuan glanced at him and ignored him.

He wanted to break through to the Dao Supreme Ruler realm in a hundred thousand years?

Even if he obtained great fortune, such a feat was not possible. Even Qi Le, who was vastly more talented than Lie Tian, would not be able to achieve that.

Out of a hundred Supreme realm experts, perhaps not a single one would break through and reach the Dao Supreme Ruler realm. It was that difficult.

Fortunately for Lie Tian and the others, the Scripture Pavilion contained Dao Supreme Ruler realm booklets, which could guide them to the right path and assist their cultivation and comprehension.

However, it only increased their chances of breaking through.

Not everyone could break through, especially within such a short timeframe.

Chunlan had also ended her secluded cultivation. She too was in the same situation as Lie Tian, and was finding it difficult to chart her path to the Dao Supreme Ruler realm.

The level of difficulty was the reason why Dao Supreme Rulers were considered legends, and anyone who could reach this realm was considered a monster.

For example, the legendary ruler of the Heavenly Sun World and the master of the chaos. Their levels of talent had to be sky-high! Furthermore, talent was not the only factor. It was likely that they were lucky and fated enough to encounter various opportunities and legacies that allowed them to comprehend the path to the Dao Supreme Ruler realm.

Without these opportunities, they would likely have never reached the Dao Supreme Ruler realm, and the realm itself would have simply continued to only exist in legends.

Chu Xuan rolled his eyes. Without the Xuan Gate Scripture Pavilion's booklets, even the Dao Supreme realm would have been unattainable for Lie Tian and Chunlan.

Lie Tian looked outside the courtyard at the White Tiger lying in the ancient forest. Its aura had already become unfathomable.

Could it be that the White Tiger was already a Dao Supreme Ruler. It was the same for the lazy-looking heavenly spirit cat lying by Chu Xuan's feet. He could not sense its cultivation either.

"Sect Master, how strong are your pets?"

Lie Tian asked with a sorrowful expression. He was not sure if he wanted to hear the answer.

"The cat and the roc have already reached the Dao Supreme ruler realm."

Chu Xuan glanced at the spirit-devouring flower in the courtyard and said, "It's almost there as well."

Then, he looked at The White Tiger in the ancient forest.

"The four divine beasts are almost there too."

Lie Tian sighed.

"Sect Master, how long do you think I'll need to break through?"

"Don't aim too high. It's already a great fortune for you to have reached the Dao Supreme realm. The more anxious and impatient you are, the harder it is to reach the Dao Supreme Ruler realm."

"You two haven't even reached the peak of the Dao Supreme realm, yet you want to break through and reach the Dao Supreme Ruler realm. You're like newborn babies who don't know how to crawl, but want to fly into the sky."

Chu Xuan patted Lie Tian's head a few times and continued, "Reach the peak of the Dao Supreme realm, then you can think about what comes after. Otherwise, you will never reach the Dao Supreme Ruler realm in your lifetime."

Lie Tian was stunned.

"Thank you for your reminder, Sect Master. I've taken the wrong path," he said

"Thank you for your guidance, Sect Master. I understand," said Chunlan respectfully.

Chu Xuan nodded.

"It's good that you understand. There's no need to keep comparing yourselves to others. Cultivate at your own pace."

Lie Tian and Chunlan smiled bitterly.

They had to admit that compared to Chu Xuan's personal disciples, the two of them were rather mediocre.

"Little Yi, you're about to create your own Dao, right?"

Lie Tian looked at a certain place in the valley and sighed with emotion.

A Dao Creation realm expert who was not even a million years old!

"They are almost done," Chu Xuan said with a yawn.

Yi Lingling and the other three disciples were about to create their own Daos.

Chunlan looked at a certain wooden house, where Su Xian'er was in seclusion to break through. She was about to reach the Dao Supreme realm.

"I'm going out to take a walk and check out what's going on outside."

Lie Tian had just ended his secluded cultivation and was not in the mood to continue. It was the same for Chunlan.

Thus, the two of them left the valley.

As Dao Supreme realm experts, there was very little in the Heavenly Sun World that could threaten them.

Chapter 797.1: Sudden Change (Part 1)

Eventually, Su Xian'er broke through and reached the Dao Supreme realm.

Although she did not spend much time cultivating, she was constantly nourished by Chu Xuan's aura. Now, she had surpassed Ding Yue and the other disciples in terms of cultivation level.

Another ten thousand years passed, and Chunlan and Lie Tian returned.

"I can feel that a war is about to break out. I wonder if the human race can continue to reign supreme when that happens," Lie Tian said.

"It shouldn't be a big problem."

Chunlan looked toward where Yi Lingling and the other three were cultivating in seclusion, and then she and Lie Tian also resumed their secluded cultivation.

This time, the two of them only looked at the Dao Supreme realm booklets.

Chu Xuan looked up at the sky and sighed.

That mysterious force was really quite unfathomable. Chu Xuan's strength had continued growing, and he was now about as strong as an advanced-stage Minor Heavenly realm expert.

Despite this, he could find no traces of this person. It was as if he was ethereal and did not exist in this world.

Chu Xuan found it to be quite amazing.

It was no wonder this person could scheme against Dao Supreme Rulers.

Chu Xuan now suspected that the Dao Supreme Rulers were out in the void region.

Other than seeking a chance to break through and find a new path, the other important reason was probably to avoid this mysterious force.

Even with Chu Xuan's current strength, he could not catch even a trace of its existence, much less the other Dao Supreme Rulers.

The Great Chaos era had arrived, and the battles into the chaos were much more intense and frequent than in the Heavenly Sun World. However, Chu Xuan was almost certain that the Heavenly Dao would emerge victorious over the other two chaoses.

Rather than that, he was now looking forward to the arrival of the million-year milestone and its corresponding rewards.

Would it allow him to break through to the Great Heavenly realm?

A thousand years later, Yi Lingling began her breakthrough to the Dao Creation realm.

In the chaos, Ding Yue was already preparing to break through and reach the Dao Supreme realm.

Ding Yue's breakthrough would make him the first Dao Supreme realm expert in the chaos. Once it was complete, suppressing the forces of the other two chaoses would be a piece of cake.

The Heavenly Dao also began to change and strengthen once again.

At this moment, something in the chaos suddenly changed.

It was beyond Chu Xuan's expectations.

In the Divine World, in the Chu family's territory.

The Chu family had, over time, become a major clan, and ruled over much of the Southern Region. They were still left alone by the outside world, but now, the Chu family seemed to be under some restrictions.

After many years had passed, the Chu family was no longer the same as before. Their numbers seemed to have dwindled, which was unusual.

Most families with such long histories would have countless descendants spanning many generations.

However, the Chu family currently had less than a thousand descendants!

After Chu Tianming, nine generations of leaders had come and gone.

The youngest generation of the Chu family was the ninth generation of Chu Tianming's descendants.

Chu Tianming was very confused, but he could not find out the reason why the Chu family had so few members.

Chu Yun did not notice anything amiss.

Although the Chu family was small, their legacy was preserved, and they were becoming more and more prosperous. The talents of the younger generation were also very outstanding.

Chu Tianming had broken through to the chaos supreme realm not too long ago. However, In the current Great Chaos era, chaos supreme realm experts were insignificant.

The current pinnacle of the chaos was the Dao Creation realm.

However, Chu Tianming was still very satisfied with his progress.

Something unexpected and strange had happened today.

A ball of purple light appeared in front of Chu Tianming, which seemed to contain a transcendent aura.

Looking at the purple light in front of him, Chu Tianming fell into a dazed state.

Memories from long ago resurfaced in his mind at this moment.

When his third son, Chu Qiuluo, was born, there was a purple light.

Even though a long time had passed, Chu Tianming still often thought about his third son, though he believed that he would never see the latter again.

He could not even see his grandson, Chu Xuan anymore, and regretted banishing Chu Xuan to the small courtyard in a moment of anger.

The small courtyard was still intact.

By now, Chu Tianming naturally knew that Chu Xuan was no longer a piece of trash.

When the purple light appeared in front of him, a figure gradually condensed within it, revealing the appearance of a cold and arrogant woman with unparalleled beauty. She was as cold and expressionless as when they first met.

Chu Tianming looked at the figure in silence.

It was Chu Xuan's mother!

When Chu Qiuluo had brought this woman back, he had not been so angry. In fact, the fact that his son had broken the marriage contract with the Qin family was still somewhat bearable too.

What he could not stand was how arrogant and cold she was. She did not even bow to him, her father-in-law. It was as if she did not respect him.

Chu Tianming was furious.

However, since Chu Qiuluo liked her, he had to bear with it.

Chu Tianming truly loved his third son.

In the end, she gave birth to a useless son, Chu Xuan, which further incensed him. Every time he looked at Chu Xuan, he would be reminded of her, and how she had ruined his third son's future.

The woman in the purple light was expressionless. She asked coldly, "Where's my son Chu Xuan?"

Chu Tianming's face darkened.

Even though he was surprised by her sudden appearance, he remained expressionless.

"I don't know!"

The woman was silent.

Then, a ball of faint golden light appeared before Chu Tianming's eyes.

A figure appeared from the golden light, which immediately made Chu Tianming jump up in excitement.

"Luo'er, you ... You're back?"

"Father, where is Xuan'er?"

"I really don't know. I have no idea where he went," Chu Tianming sighed helplessly.

The two figures were silent.

"Luo'er, don't worry. He'll be fine. He's actually very strong," Chu Tianming explained.

"Father, who is the most talented person in the Chu family?"

Chu Qiuluo asked with a sigh.

"Yun'er and Fan'er."

In terms of talent, Chu Pingfan and Chu Yun were the two most talented people in the Chu family.

Now, Chu Yun was close to reaching the Dao Creation realm.

The purple light and the golden light fused together at this moment, transforming into a special law that contained a transcendent aura.

"Father, we can't afford to lose the chaos. Ask Chu Yun and Chu Pingfan to return," Chu Qiuluo's voice was heard.

"You can control one of the supreme laws."

"Luo'er, where are you?" Chu Tianming asked.

Then, he asked in confusion, "What kind of existence are you? Am I really your father?"

He was no longer a weakling, and knew quite a lot of secrets.

From Chu Qiuluo's birth to his disappearance, to his sudden appearance here.

All of this pointed to the fact that his son was extraordinary.

There had to be something going on here. Moreover, it seemed to involve the entire chaos.

Compared to those top experts, who was Chu Tianming?

He had an ordinary level of talent, and it was already quite the achievement that he had managed to reach this level.

How could he be Chu Qiuluo's father?

Chu Tianming felt bitter in his heart.

He finally understood why Chu Qiuluo's wife was so cold and arrogant toward him.

To these transcendent existences, what was the difference between him and an ant?

Chu Tianming's expression was desolate, and his heart was filled with an indescribable feeling.

"I'm beyond the primordial chaos."

"Of course you are my father," Chu Qiuluo sighed and said.

The woman in the purple light snorted coldly.

"If you weren't so arrogant, you wouldn't be like this!"

Chu Tianming's eyes went blank when he heard that.

"My name is Chu Luo, and her name is Xuan Qiu. In the past, there was an accident, and my father died. His origin essence fell into the chaos. You are his reincarnation."

Chu Qiuluo, or rather Chu Luo, looked helplessly at Chu Tianming.

Chapter 798.2: Sudden Change (Part 2)

Chu Tianming's heart trembled.

It seemed that he used to be an expert!

Chu Luo continued, "Father, I don't know if you can recover your memories, but we can't lose the chaos. You must try your best to control it."

"This was originally supposed to be Xuan'er's job, but..."

Chu Luo felt helpless.

Things were getting out of hand now.

"I understand!"

After Chu Tianming learned that Chu Luo was truly his son, his spirits were lifted, and his eyes glowed with a domineering aura.

"So I'm actually the ancestor of the chaos' Chu family?"

"Chu is actually my descendant?!"

Chu Tianming's expression grew excited as he spoke.

Chu Luo was exasperated. Despite being reborn, his father was still so unreliable!

The main point here was the chaos!

Chu was indeed a descendant of Chu Tianming and had the latter's bloodline, but was this important right now?

Xuan Qiu's face was still cold.

"Father, remember to summon Chu Yun and Chu Pingfan."

Since Chu Xuan had disappeared, he had to make do and let Chu Yun and Chu Pingfan take over the supreme laws.

Chu Luo and Xuan Qiu disappeared, leaving only a haze of purple-gold light behind.

"Chu Luo, Xuan Qiu, Chu Qiuluo, Chu Xuan..." Chu Tianming muttered to himself.

The purple-gold light entered his body, and Chu Tianming's aura began to surge. His entire being began to transform, and it felt like he had the power to control the entire chaos.

With a loud laugh, Chu Tianming's body emitted purple-gold light and he rushed out of the Divine World into the chaos.

As his aura swept out, and even the Heavenly Dao began to tremble.

"Chu, you little brat, I'm your ancestor. Come and greet me!"

Somewhere in the chaos, Chu was dumbfounded.

Chu Yun and Chu Pingfan appeared instantly, both looking at Chu Tianming in a daze.

"Haha, the chaos must be unified!"

Chu Tianming laughed maniacally. He stepped forward, wanting to control the supreme laws of chaos.

Two purple-gold rays of light entered Chu Yun and Chu Pingfan's bodies.

At this moment, the Heavenly Dao trembled, and its fate energy shone like a rainbow. It was actually in defensive mode.

The Heavenly Dao seals and Heavenly Dao fate energy within Chu Pingfan and Chu Yun's bodies began to change, and were about to be devoured by the purple-gold light. The purple-gold light was trying to use them as a bridge to connect to the Heavenly Dao.

This sudden change shook the entire chaos.

The battle between the geniuses instantly stopped and they returned to their own camps.

In the Heavenly Dao, the figures of Ding Yue, Hei Yue, and the others appeared.

Qin and Fengyin both appeared as well, their expressions grave as they looked at the insolent Chu Tianming.

It was as if the Heavenly Dao was facing a great enemy!

A supreme law was spreading, and it was about to surpass the heavenly Dao and the other supreme laws of the other two chaoses, trying to become the only supreme law of the chaos.

If it succeeded, the Heavenly Dao would be bound by it and become a subordinate supreme law.

The change came too suddenly.

Ding Yue was about to break through to the Dao Supreme realm, and the Heavenly Dao was actually very close to unifying the chaos.

No one expected there to be such a sudden change.

"What's going on?"

Ding Yue was confused.

What did this old man do and why?

It did not seem to be his master's doing.

Hei Yue also frowned. She did not know how to deal with it.

After all, Chu Tianming was still her master's grandfather.

"What is this Heavenly Dao? How can it unify the primordial chaos? Other than my supreme law, no one can unify the chaos!"

Chu Tianming was extremely excited.

He had finally become a super expert.

He had to control the chaos! There was no room for mistakes!

The purple-gold light glowed within the chaos, and the supreme law swept toward the Heavenly Dao.

Chu Yun's expression changed and she hurriedly stopped him. "Grandpa, the Heavenly Dao was created by Thirteenth Brother."

Chu Tianming's eyes widened.

"That brat Chu Xuan did this?"

"Yes."

Chu Yun nodded, leaving Chu Tianming speechless.

He was conflicted on what to do.

If Chu Xuan had not disappeared, the one who controlled the supreme law he was using should have been Chu Xuan.

Chu Tianming sighed.

Chu Yun and Chu Pingfan had also grasped a portion of the supreme law, but clearly, the two of them would not allow the Heavenly Dao to be devoured. They would most likely merge their portion of the supreme law with the Heavenly Dao and help it grow.

"Forget it. I'll merge with the Heavenly Dao then," Chu Tianming then said angrily, "What am I supposed to do if I merge with the Heavenly Dao?" I need to control the power of Heavenly Dao!"

Once the supreme law was integrated into the Heavenly Dao, and he was deprived of its power, he would become a chaos supreme realm cultivator again.

After experiencing such power, he could not accept being weak again. Furthermore, he was supposed to be Chu's ancestor!

Without sufficient strength, how could he play that role properly?

"Where's Chu Xuan? Ask him to give me the power of Heavenly Dao!"

Chapter 799.3: Sudden Change (Part 3)

Chu Tianming looked at Chu Yun, who had a helpless expression on her face. She had no way to contact Chu Xuan, so she looked toward Hei Yue, who was equally at a loss.

It was too difficult to contact Chu Xuan, and it was usually him who contacted them.

There was no change in the Xuan Gate sect's manual, which meant that she could not contact Chu Xuan through it.

...

Chu Xuan had been waiting for the million-year milestone to arrive when the sudden change occurred.

The Heavenly Dao was actually being threatened.

He immediately took out the Heavenly Dao Talisman and sent a wisp of his consciousness into the Heavenly Dao.

In the end, he saw the old man showing off his might.

How had this guy controlled that supreme law?

Then, after looking closely, he realized that it was a supreme law from the ancient Great Chaos era, and that there were special runes within Chu Tianming's divine soul that allowed him to connect to the supreme law.

He sighed in his heart.

This seemed to be his father's doing. How mysterious!

From his birth to his disappearance, everything about his father seemed unusual.

His mother was the same.

Could it be that his father was the master of the chaos?

Where did the system come from?

Did his father leave this for him?

On second thought, the possibility of this being the case was not high.

The system had already surpassed the Dao Supreme Ruler realm, and it even seemed like it could surpass the Heavenly realm.

"Derive the origin of the system."

Chu Xuan tried to use the system's derivation function.

"The system is unable to derive."

Seeing the result, Chu Xuan was not disappointed. It was within his expectations.

"Derive the karmic relationship between the system and Chu Qiuluo."

"None."

As he had expected, the system had nothing to do with Chu Qiuluo.

"Derive the karmic relationship between the system and my mother."

"None."

Seeing the result, Chu Xuan heaved a sigh of relief.

Since the system had nothing to do with his parents, it meant that it was something unique to him and that it was not something created that someone could use to control or influence him.

"Derive the karmic relationship between the system and me."

"Fate is wonderful beyond words."

Chu Xuan sighed at that cryptic answer, and did not continue to pursue the matter.

Fate was really wonderful.

"Where is Chu Qiuluo? Is he the master of the chaos?"

At this point, Chu Xuan decided to investigate his parents. instead.

"Chu Qiuluo is not the master of the chaos. He is not in the chaos or Heavenly Sun World."

Chu Xuan was startled.

Was he wrong?

"Derive my mother's background, identity, and whereabouts."

An image projection appeared in Chu Xuan's mind.

He could see a cold and arrogant woman who was dressed in purple, looking otherworldly and peerless.

"Your mother is Xuan Qiu, and the ancient master of the chaos. She's not in Heavenly Sun World or the chaos."

Ah, so his mother was the master of the chaos.

Then what was Chu Qiuluo's status?

Chu Xuan did not probe further.

This was not important, and he already had some of his own conjectures.

Since the two of them were not in Heavenly Sun World or the chaos, they were obviously in the void region. Deriving anything about the void region would require the consumption of origin energy.

Instead, he looked at the Heavenly Dao.

The supreme law of the ancient Great Chaos era had reappeared. If there were no accidents, it would naturally control the current chaos.

As expected, the master of the chaos had left behind a backup plan, and would not allow chaos to fall into someone else's hands.

That way, even if the new world was created, his mother would still control the chaos and would be able to fight against that mysterious force.

However, the ancient supreme law was obviously incomplete, as it had been damaged when the chaos was shattered.

In this new era, the chaos had not been unified yet, so it was the perfect opportunity to unify the chaos and control the supreme laws, using them to restore the ancient supreme law.

Now, Chu Tianming wanted to merge the supreme law into the Heavenly Dao, but Chu Xuan was in no hurry to appear.

He was waiting!

How could that mysterious force not have made preparations to counteract his mother's plan?

Since the ancient supreme law had appeared, that person's scheme should have also been triggered, right?

Sure enough, in the chaos, a beam of orange light bloomed, suppressing Chu Tianming's supreme law.

An expert appeared. However, his eyes were orange and emotionless.

Everyone was shocked, because the person who had arrived was the leader of one of the three great factions.

He was extremely powerful, and one of the few who could stand up to Ding Yue. This person was the biggest obstacle to the Heavenly Dao's unification of the chaos.

"Xuan Qiu, Chu Luo, we've been waiting for you!"

His voice was hoarse, and it was not his original voice.

Chu Tianming's expression turned grave.

The purple-gold light blossomed around his body, as he felt a strong sense of danger.

Chu Yun and Chu Pingfan were the same, and they immediately gathered around Chu Tianming to combine their power to resist the danger of that unknown existence.

"How can a shattered supreme law stop me?"

The man stared coldly at Chu Tianming and the other two.

"Hehe, Xuan Qiu and Chu Luo only left behind wisps of their consciousness. Now that they've disappeared, the chaos is mine."

The orange light intensified, and the power of another ancient supreme law erupted. It seemed that this person had gathered and controlled the other part of the supreme law when it was damaged in the great battle back then.

However, in terms of strength, this person was stronger than Chu Tianming.

Hei Yue frowned, and a faint purple light emanated from her body.

"Cheng? You're not Cheng?"

"Yes and no."

Cheng looked at Hei Yue and suddenly laughed.

"Very good, everything is complete. The newborn chaos should be mine."

Chu Xuan had been watching.

Would there be another third party?

Probably not, right?

Well, he was probably that third party.

Cheng was very strong, and had been preparing for this moment for a long time.

Of course, Xuan Qiu and Chu Luo were not totally unprepared for this.

Chu Xuan sensed that at the edge of the chaos, there was a hidden power that was in a state of accumulation, waiting for an opportunity to deal a fatal blow to Cheng and turn the tide.

Of course, whether or not Cheng had other backup plans remained to be seen.

None of this was important as he was about to take action.

Chu Xuan first set up a barrier around the chaos, making it impossible for the mysterious existence to spy on what was going on in the chaos.

Once that person's plan failed, they would attribute it to Chu Luo and Xuan Qiu. He did not plan to let others know of his existence.

At this moment, the Heavenly Dao suddenly churned, as worldly phenomena erupted.

Cheng's gaze was grave as he stared at the Heavenly Dao.

"Chu Luo, Xuan Qiu, is this your backup plan? Unfortunately, it's too weak!"

The current Heavenly Dao was indeed weak, but the worldly phenomena spread out of the Heavenly Dao anyway and enveloped Cheng.

"No! Who are you?"

Cheng suddenly exclaimed.

However, the exclamations could only be heard from inside. No one outside knew what was going on inside.

Hei Yue and the others, however, heaved a sigh of relief. They could tell that these phenomena were naturally the doing of their master.

By the time the Heavenly Dao calmed down, Cheng had already disappeared. The portion of the ancient supreme law that he controlled was currently being integrated into the Heavenly Dao.

An illusionary figure then appeared.

"Old man, hand over the supreme law."

Seeing Chu Xuan, Chu Tianming's feelings were complicated.

The purple-gold light flew out and entered the Heavenly Dao.

"What about the power of Heavenly Dao? Give me the power of the Heavenly Dao!"

Without the supreme law, he was weak.

"Here you go!"

A Heavenly Dao seal entered Chu Tianming's body.

Then, Chu Xuan looked at Hei Yue and the others.

"The power of Yin and Yang is about to intersect. Make your preparations swiftly."

"Yes, Master," Ding Yue and the others said respectfully.

Chu Xuan looked at Ding Yue and said, "After you break through to the Dao Supreme realm, you can come to the Heavenly Sun World."

"Master, don't worry. I'll be able to break through very soon."

Chu Xuan's illusory figure then disappeared, and the Heavenly Dao regained its calm.

The Heavenly Dao was now transforming after being imbued with the power of the ancient supreme law. Now, it would face no obstacles unifying the chaos. It was simply a matter of time.

Chapter 800.1: Hao (Part 1)

After dealing with the situation in the chaos, Chu Xuan started to think again.

He still could not trace the whereabouts of that mysterious force, which was quite terrifying in and of itself.

Chu Xuan was clearly stronger, but could do nothing about the person. He could only foil that person's schemes.

That person's methods were brilliant and truly amazing.

Chu Xuan had used the Heavenly Dao to exterminate Cheng, but was still unable to trace the karmic threads between Cheng and that person. He could not afford to underestimate him.

Chu Xuan sighed in his heart.

He had relied on the system to surpass the Dao Supreme Ruler realm, while this person was trying to do so using his own hard work and intelligence.

Moreover, Chu Xuan suspected that this person was the first Dao Supreme Ruler to ever exist.

"Derive the origin and past of this mysterious person."

An image projection appeared in his mind, displaying an indescribably majestic being whose entire body emitted the light of the sun.

"Hao, the first ruler of the Heavenly Sun World, the pioneer of the Transcendent Dao path, the pioneer of the Dao Creation path, the pioneer of the Dao Supreme path and

the pioneer of the Dao Supreme Ruler realm. Despite being born with a weak body, he managed to devour the spiritual energy of the chaos, snatch the chaotic energy creation of the Heavenly Sun World, and become the ruler of the Heavenly Sun World..."

Chu Xuan looked at the system's description and the image incredulously.

Hao was really amazing!

What a terrifying fellow!

Furthermore, he was the first living being born after the creation of the Heavenly Sun World and the chaos, and had thus seized the good fortune of Heavenly Sun World and the chaos.

He was the pioneer of many cultivation realms, and the cultivators who came later all followed in his footsteps. Without Chu Xuan's interference, Hao would probably become the pioneer of the Heavenly realm too.

Then, he spotted an important piece of information.

"He travels the void region to gain enlightenment, and possesses the void pearl, which allows him to transform into nothingness."

The void pearl!

This was why Hao could not be traced by karma or fate. It was as if he did not exist. This ability had to be related to the void pearl, which was undoubtedly an extraordinary treasure.

Chu Xuan had no choice but to be cautious. This treasure was most likely obtained in the void region, but how did Hao obtain it?

Could it be that there were other treasures in the void region waiting to be discovered?

Chu Xuan frowned.

The void region was filled with nothingness, but it existed in an indescribable way. Since it existed, it meant that it was not really nothingness.

Perhaps he was not strong enough to delve into the secrets of the void region, but he was certain that there were various mysteries within it. The void region probably had something to do with the creation of the Heavenly Sun World and the chaos.

"Derive the origin and function of the void pearl."

"Deriving this information will consume one-thousandth of your origin energy. Do you wish to continue?"

As expected, the void pearl was not simple. He declined, and instead said, "Derive what would happen if I were to be attacked by someone using the void pearl."

Chu Xuan changed his approach.

He wanted to see if the void pearl was a threat to him.

"It cannot be derived."

Eh? Did this mean...?

There could only be one reason, which was that the void pearl was not an offensive-type treasure!

Since it was not an offensive-type treasure, the level of threat would naturally be much lower.

Chu Xuan heaved a sigh of relief.

The million-year milestone would soon arrive. Once he broke through and reached the Heavenly realm, he would no longer have to fear Hao's threat.

Even the void pearl would not be able to threaten him.

When looked out at the void region, he saw that the Origin Great Dao was about to envelop the Heavenly Sun World and the chaos.

The Heavenly Dao was also transforming, and Ding Yue was currently breaking through to the Dao Supreme realm.

Everything was under control.

Yi Lingling was also in the process of creating her Dao, and the Heavenly Sun World still had three major factions.

The Yin and Yang forces intertwined, and the birth of the new world was at hand.

Hao had probably already found a new path, and might even be preparing for a breakthrough.

The next battle for power would be where Yin and Yang intersected.

After Yi Lingling's breakthrough, she would be dispatched there.

The disciples of the Xuan Gate sect had the advantage, and they would benefit the most from this.

After the birth of the new world, the Xuan Gate sect would rise and truly become unparalleled.

Chu Xuan yawned and lay on the chair, pretending to sleep.

He just had to continue staying in the valley. Soon, he would be truly invincible. In fact, excluding the possible threat of the void pearl, he was already invincible.

The only thing left was the void region, which remained unfathomable. He truly wondered what secrets it held.

Still, he could not be careless. He had to continue to stay at home.

...

In an unknown place in the void region, there was a small black spot.

The black dot in the void region was like a drop in the ocean.

It was a mountain peak that stood 10,000 feet tall, and on it were pavilions and verdant ancient trees.

On the peak, Xuan Qiu, who was wearing a purple dress, looked out at the void region outside the peak with a cold expression.

It had been a long time since that incident.
