

## Chapter 5 - Questions

\*Isaiah POV\*

I look down and see Elizabeth falling asleep between us.

"We can't lose her" I whisper to Danny.

He looks down and holds her tighter. I know he agrees with me.

"We need to gure this s\*\*t out with Callum. She wants to accept us, she's practically admitted to that, but she doesn't want to accept Callum." Danny mind-links me.

"They've never gotten along, but I don't think she would have had as much of an issue with him if it wasn't for training yesterday. This isn't about her not liking him." I responded.

"No, you're right. This is about her being scared of him. I think with everything that's happened through the years, yesterday took the last bit of her ability to stand up to him away."

"I don't think that's it Danny. I mean, I agree with most of that, just not the last bit. I don't think it was the nal straw or anything. I think him getting that angry with her and talking like that instead of yelling scared her. It wouldn't have mattered if he did it yesterday or ten years ago, her reaction would have been the same. It wasn't about any sort of buildup to this, it was just that specic event that made her scared and almost unable to stand up to him. I mean, she called him Alpha. In a serious tone."

"I know. She's jokingly said it to us before, but never in submission. And what was that she said about Callum bowing his head while in wolf form? He never told us about that. That's a clear sign of submission from him, and could also have been an apology to her. Even if he was head over heels for her I would have never expected him to do that. Callum doesn't submit to anyone, or apologize." Danny questioned.

I frowned.

"I'm not sure. We need to ask him about it though. Away from her. He's probably going to get defensive and freak out when we bring it up, I don't want her to see or hear that." I look down at my beautiful Luna, sleeping peacefully. I brush a strand of hair from her face and she crinkles her nose. I've always loved it when she does that, it's the cutest thing in the universe. She snuggles in closer as she continues to sleep. I see Danny looking at her with adoration.

"I'm going out for a run. Don't do anything stupid while I'm gone." Callum mind-links us. I hear the door slam shut downstairs.

"Great, he's in a mood." I mind-link Danny. I feel movement beside me, and look down to see my little Luna slowly opening her eyes. She yawns, then says with a small smile "Was that Callum leaving?"

---

\*Elizabeth POV\*

I wake up to the sound of the door slamming shut downstairs. I slowly open my eyes and was met with Isaiahs. Yawning, I ask "Was that Callum leaving?"

Isaiah smiles down at me. "Yes my little Luna, he's going for a run."

"So we're all alone then?" I question, a mischievous smile on my face. I see his eyes ash darker before he regains his control.

"Why is he getting all of the smiles, that isn't very fair is it?" Danny playfully growls in my ear, pulling me closer and nuzzling into my neck. I feel wetness pooling in my underwear as I arch back into him, baring my neck so he could have more access. He nibbles on my neck before saying "Princess you know we can't yet."

With a huff I reply "He isn't even here. He can't stop you, and he won't even know. I'm not asking you to f\*\*k me, I just want a bit of pleasure."

I hear him breath deeply, his head still buried in my neck. I roll to him, cupping his face in my hands. We stay like that for a moment before I lean in and kiss him. A growl emits from him as he deepens the kiss, ghting for dominance. His hands nd my ass and squeeze, making me gasp and moan. He took the opportunity to slip his tongue in my mouth. I arch against him, my hands running up his chest under his shirt. He ips me on my back, then suddenly jumps up and moves away. He's breathing heavily trying to get his wolf under control. I realize Isaiah has moved off the bed as well, but he seems a little more in control than Danny. I sit up and glare at the both of them.

"Seriously?" I begin, "Do you not want me or something? Am I not good enough for you? Are you that scared of Callum? He doesn't control me or my body. He doesn't get to say when I'm ready. Again, I'm not asking for you to mate me and mark me. I just want to get some release. If you won't do it then I'll just have to pleasure myself, or nd someone who will." I snapped. I quickly realized my mistake when they both let out a deep growl and came towards me, but I wasn't going to back down now.

"No one will touch our mate." Danny growled.

"Too late for that." I said sassily.

"We can smell you're still a virgin." Isaiah rumbled.

"I may not have been f\*\*\*\*d but I've f\*\*\*\*d around. Felt the pleasure of a man licking my p\*\*\*y, sucked his c\*\*k until there was c\*m dripping out of my mouth. I've had hands all over this body. Just because I'm a virgin doesn't mean I'm innocent." I snarled.

Their eyes got dark, they were pissed. Probably wasn't the best idea to piss off the two allies I had here. I heard a deep, loud growl come from outside. Looking out the window, I saw Callum turn away from the house and shift immediately, running into the woods. f\*\*k. He must have heard everything I said. It looks like he had just gotten back from his run too. I look back at Isaiah and Danny, still looking murderous. As I take a step towards them, then both snarl and leave the room. I hear the front door slam and soon see them shifting too. I roll my eyes. The men really do get possessive over their mate, and I understand the mate bond increases that. But are they really going to run off into the woods like babies after hearing I've been touched before? It's not like they're virgins, I know that for a fact. They've all had so many girls it's comical. Whatever, at least I have the house to myself now. I remembered I had school tomorrow and texted Isaiah, knowing they would have put their phones on the porch before they left, "hey. I get that your pissed and all, but I need my things for school. I would appreciate it if you brought them to me or let me go get them."

I waited around for a while, and soon enough it was 7PM and they hadn't come back. I was a little worried, but knew they would be getting hungry so I went to the kitchen to make them dinner. I knew they all liked my lasagna, so I got to work on it. When I smelled my mates return, I pulled it out of the oven and plated it for the three of them. Then I took a slice for myself and walked out to the back patio to eat it, hoping they wouldn't all follow me out here. I wasn't ready to see Callum yet, but I didn't want to force him out of his own kitchen either. None of them came out to nd me. I had really f\*\*\*\*d up this time.
