

A Demoness 791

Chapter 791 - 791: Build A House

Under the dark and gloomy sky, Jiang Hao felt a bit dejected. It seemed like there was no hope here.

Having an unstable mind here would certainly lead to some problems.

These four people were definitely together.

He didn't understand why they would fight each other in this way.

The person rushing for help had no injuries at all. Although the people behind were making threats, they didn't use their full strength.

Even the person who was escaping didn't use any strength.

These four individuals had cultivation realms in the Soul Ascension Realm, but all of them were suppressed to the early and middle stages of the Golden Core

Realm.

This was obviously a mockery.

There was no need to be polite with them.

The three looked at Jiang Hao. Many thoughts surged in their minds, but eventually, they decided to answer his questions.

The leader was a middle-aged man wearing a blue robe. After thinking for a moment, he said, "We accidentally entered here some time ago."

"How long ago was that?" Jiang Hao asked. "About a month ago," the middle-aged man said.

'A month ago?'

Jiang Hao realized that the Corpse Sea had appeared in other places before. This time, it had appeared in the Thousand Feet Mountain.

"Where did you enter from?" Jiang Hao asked.

These people were obviously running to the outside. It made him suspect that they weren't relying on the sea itself.

"At the seaside," the middle-aged man said.

"And then? What have you been doing for the past month?" Jiang Hao asked.

Something was obviously wrong here. Didn't they leave as soon as possible?

The three looked at each other. Finally, the middle-aged man said, "We felt that this place was unusual and wanted to explore a bit, but we didn't discover anything. "

"You aren't leaving?" Jiang Hao looked at them.

Jiang Hao knew they were lying about the last part. They must have obtained something.

For him, it didn't matter what they discovered. He had no intention of taking it for himself.

“We can’t leave.” The middle-aged man sighed. “The entrance we used has disappeared.”

“Aren’t you worried?” Jiang Hao asked.

This place was strange, yet these people didn’t seem concerned about it.

When the three heard the question, they didn’t take it seriously.

The younger one among them said, “We’ve been here for a few months already. Maybe we’ll be able to leave in another two or three months. At worst, it might be four or five months.”

Jiang Hao recalled something.

In the Corpse Realm, one could respond to the Heaven, Earth, and Human Yuan Formations to leave.

But...

Jiang Hao looked up at the sky. He wasn’t sure if this place was the same as the outside.

If it were him, he definitely wouldn’t wait.

There might be unknown dangers in this place that he couldn’t fight.

He had checked just now, and the entrance on the cliff was still there. Apart from the entrance, he had hidden sub-rings outside, so he wouldn’t be trapped here.

If there was any danger, he could just leave.

As for whether the Heaven, Earth, and Human Yuan Formation would work

here...

He thought they would work just as well.

After all, there had never been news of people coming to the Corpse Sea and not being able to return. Some people knew about the Corpse Sea, which meant that people had visited this place before.

This place should be special because it seemed like the founder of the sect had stayed here and left a mark.

“Have you been to any other places inside this one?” Jiang Hao asked.

“There are mountains, rivers, and streams here, but each place shows signs of desolation. There are also many strange forces that we don’t dare to touch due to our low cultivation,” the middle-aged man said.

Jiang Hao nodded and asked if they had a map of this place.

He realized there weren’t maps circulating outside about this place, which made him curious.

It didn’t seem so difficult to enter, and it was fairly easy to leave. So, why were there no maps here?

At that moment, Jiang Hao communicated with his sub-ring again and was relieved that it still worked. So, he didn’t have to worry too much about it.

The three didn’t have a map but claimed that they could draw one.

After a while, Jiang Hao received a roughly drawn map. It mostly depicted forests, mountains, rivers, lakes, and swamps.

There were also some caves.

The caves were dangerous during the day and safer at night.

They didn't know what the danger was. After all, those who went inside had disappeared.

Jiang Hao asked them if they had seen any other people here.

The three shook their heads.

Jiang Hao didn't pay much attention to it and decided to look around the coastline.

Perhaps, he might find something.

As for mountains, rivers, and streams, there was no need for him to go and explore.

From what he knew, the founder was on the coastline.

With his storage treasure in hand, Jiang Hao rode his sword toward the coastline.

The three individuals also breathed a sigh of relief when they saw him leave.

When Jiang Hao glanced back, he wondered if everything had been an illusion. Against the gloomy background, the three individuals appeared even more integrated into it. They looked as though they were a part of a black-and-white painting.

The strangeness made him wary.

He wasn't sure if that was happening to him too.

The three people didn't seem to be aware of it.

Perhaps they believed they had no issues. They just waited for the Corpse Realm to near its end so they could leave.

That was the most terrifying part. They walked the path of the dead, yet thought they were part of life.

"They..."

"They're dead." Before Jiang Hao could finish his words, Hong Yuye answered.

Her words sent a shiver down Jiang Hao's spine.

He couldn't understand it.

He took out the storage treasure he had just picked up and opened it. It was completely empty.

"What's going on?" He found it hard to believe.

It couldn't possibly be all empty.

"Someone must have taken it," Hong Yuye said.

Jiang Hao felt odd.

If they were dead, how were they walking around like the living?

The Corpse Realm seemed even stranger than he had anticipated.

This also meant that there were other people here.

Jiang Hao rode his sword along the coastline.

He observed the changes in his body because he feared that he might also assimilate into this dead and desolate place without noticing anything.

Once his aura changed, he would leave this place. Otherwise, the consequences would be unpredictable.

After some time, they appeared on the beach, where some houses had sprung up. These houses had simple, thatched roofs.

He noticed that people were living in those huts. There were probably seven or eight individuals in total.

They probably didn't belong to one group.

Four thatched huts represented four factions.

Jiang Hao's arrival caught their attention.

There were three women and four men. Each of them was in the Return to Void realm.

They didn't emit an aura that the previous four individuals had. Moreover, they were carrying magical treasures for protection.

They were members of the Divine Corpse Sect.

Jiang Hao saw a man and a woman in the distance. He could tell they were proficient in the Corpse Dissolving Technique.

Two other women exuded the great aura of the Grand Universe.

From the remaining three people, he had never seen the two of them. The last one was dressed as a scholar.

They seemed related to the Astronomical Academy.

Why were they living here?

“Are you also here to find someone?” asked the man who was dressed like a scholar.

“Yes,” said Jiang Hao.

He wasn’t sure if they were all looking for the same person.

“Your cultivation doesn’t seem very high, but surely, you have something special to be able to come here. I advise you, friend, to build a house here. It’s going to ram soon,” said the scholar-looking man..

Chapter 792 - 792: Offending The Demoness?

‘Build a house?’

Jiang Hao was puzzled.

However, seeing all the people building their houses, he decided to follow suit and build one too beside the scholarly-looking man.

Hong Yuye remained silent. A tea table had appeared out of nowhere.

Jiang Hao brewed a pot of tea for her. It was the last batch of tea.

After that, he started building a house. He initially planned to build a rain pavilion. However, seeing others build something sturdy, he decided to build a better one.

Fortunately, none of these people seemed to want to make a move against him.

“Friend, which sect do you belong to?” asked the scholarly-looking man. “I am from the Astronomical Academy.”

“I’m Smiling San Sheng,” said Jiang Hao.

Saying so, he continued building the house.

“Friend, who are you looking for here?” asked the scholar.

At that moment, Jiang Hao glanced at the two women. Their faces changed when he told the man that his name was “Smiling San Sheng.” It seemed they were people from the Great Thousand God Sect.

“An old man,” Jiang Hao said.

In truth, he had no idea if the founder of the Divine Corpse Sect was old or young. He didn’t even know if they were a man or a woman.

The scholar didn’t say much and gazed at the sky. “It’s going to rain soon.

Friend, you better hurry.”

Jiang Hao thanked him and increased his speed.

After a while, he finished constructing a wooden house. It was slightly better than other people's houses. He had some experience in building houses, after all.

Soon, thunder rumbled in the sky.

"It's about to rain," said the scholar as he entered his house and closed the door. Everyone else did the same.

Jiang Hao glanced at Hong Yuye. Since she didn't react at all, he did the same as the others.

Moments later, it thundered in full blast outside.

Jiang Hao looked up at the ceiling. Though he couldn't see outside, he felt that the thunderstorm was quite fierce.

Soon, drops of water fell on the thatched roof.

The sound grew louder.

Heavy rain poured down.

Jiang Hao felt a peculiar aura. It was as if the outside was entirely covered by it.

"Senior, what is that?" he asked the person sipping tea beside him.

"The aura of the Corpse Realm," Hong Yuye said.

"What happens if the rain touches us?" Jiang Hao asked.

“We’ll end up like the four individuals you met before.” Hong Yuye sipped her tea.

Suddenly, he heard the sound of waves again. This time, it felt as though the waves had surged closer.

“It’s getting closer. Find a place to take shelter from this heavy rain!” said a loud voice from outside.

Jiang Hao’s eyes narrowed. He recognized the voice. They were the three people from before.

“There’s a house here. Let’s ask the people inside for shelter,” said a woman’s voice.

Thump! Thump!

Someone was knocking on Jiang Hao’s door.

“Friend, please open the door and let us in. We’ll reward you generously,” said the middle-aged man from before.

Jiang Hao didn’t respond.

Soon, the knocking began again.

After hesitating for a moment, he said, “Why are you knocking, Friend?” “Please. We need shelter from the rain,” came the reply from outside.

“Where’s the seawater now?” Jiang Hao asked.

He could now hear someone knocking on the next door, but no one responded.

“It’s almost at the house,” said the voice from outside.

Jiang Hao sensed it. The seawater was rising.

Soon, he heard other sounds from the sea, making him feel uneasy.

“What’s on the sea surface?” Jiang Hao asked.

“There’s a large ship.”

“What’s on the ship?”

“I don’t know. I can’t see it clearly. The rain is too heavy. If you open the door, you can see for yourself.”
“Is there anything else besides the ship?” Jiang Hao felt strange.

“Please... there’s a woman beside me.” n ovel.com

“A woman?”

“Yes. A woman with two feet, two hands, and two eyes...”

Jiang Hao chuckled. “Oh really? That’s quite a coincidence. I have someone similar here.”

Hong Yuye, who had been holding her teacup, paused for a moment and then turned to look at him.

Jiang Hao felt a chill surrounding him.

Fortunately, it quickly vanished. It was because he had responded as Smiling San Sheng. Naturally, he had to respond to the people even if it meant offending her.

Luckily, nothing happened.

He was curious about the ship outside.

“The ship is coming! It’s going to collide with the house. Run!” cried someone. The people fled.

Jiang Hao also felt a surge of impact.

He gripped the Heavenly Blade. In case of danger, he would use it to pave the way and then connect to the sub-ring outside to leave this place.

However, just as the ship reached the wooden house, everything came to a halt. It was as though the ship had stopped right in front of them.

An inexplicable oppressive aura accompanied it.

“Are you here to find me?” said a voice from a distance.

Jiang Hao was surprised.

If he wasn’t mistaken, this should be the founder of the Divine Corpse Sect.

Such a person was entirely beyond his ability to confront.

He looked at Hong Yuye.

She seemed indifferent. That made Jiang Hao feel a bit at ease.

“The rain has stopped. You can come out now,” said the voice of an old man.

Jiang Hao didn't rush to go out but waited for the others.

As expected, the scholarly-looking man was the first to open his door.

Following him was the voice of the ones from the Divine Corpse Sect, the Great Thousand God Sect, and finally, the two unknown individuals.

Jiang Hao made sure they were all right before opening the door.

He saw a large ship outside. Its hull was gray and looked ancient.

The person at the helm seemed like an old man who had weathered storms at sea for years.

The rain had stopped, and the people from before had disappeared somewhere.

Meanwhile, the tide had risen almost to the front door.

At the bow of the ship sat a white-haired old man. He looked down at the people below and nodded toward each of them. “Divine Corpse Sect, Great Thousand God Sect, The End of All Things, and the Astronomical Academy.”

Finally, he looked at Jiang Hao and frowned. “Middle stage of the Golden Core Realm?”

Jiang Hao respectfully bowed.

He felt that the man's words were strange. It had a certain implication between the lines.

However, he didn't pay too much attention to it. Whether the other party could see through his false cultivation realm or not was of no concern to him.

"Come up. Guests are always welcome." The old man smiled.

Seeing everyone else fly up, Jiang Hao also rode his sword up.

Hong Yuye landed on the deck with him.

"Are you really the founder?" The two from the Divine Corpse Sect looked at the old man before them in disbelief.

The old man didn't answer them. He chuckled. "Call me Old Man Corpse Sea. I can't leave this place anymore."

"Senior, we came here to seek some guidance," said the woman from the Great Thousand God Sect.

"You sought me out not to gain something but to get some answers. I won't answer just anyone's question," said the Old Man Clarity ? Remove the Corpse Sea as she sat at the ship's bow and smiled softly. "What capabilities do you have?"

He looked at the two people who had fallen silent.

He pointed toward the sea. "How about this? I found a corpse there some time ago. You can try attacking it. Based on the kind of damage you can inflict, I'll decide how many questions I'll answer for you.."

Chapter 793 - 793: This Golden Core Realm Cultivator Might Get Just One Question, At Most

'A corpse?'

Jiang Hao stood quietly on the deck and waited.

With the lowest cultivation realm, he naturally had to wait until the end.

However, it was surprising to find out that the two unknown individuals from before were actually from The End of All Things.

It seemed they had considerable influence.

Even the Great Thousand God Sect was not lacking in resources.

On the surface, they took on other people's tasks. It seemed they had plenty of their own tasks as well.

Or perhaps, this was someone else's task, and they were just here to complete it.

The ship began to enter the water and headed in an unknown direction.

Jiang Hao watched the ship as it arrived in the boundless sea.

The coastline of the Corpse Sea was no longer visible.

The sky had regained a bit of blue in it. It didn't look as lifeless as before.

The sea remained unchanged.

A gentle breeze carried the smell of the ocean.

"Are you ready?" Old Man Corpse Realm smiled.

It seemed he hadn't seen so many people here for a long time. He looked happy.

Everyone on the deck stood at their respective positions.

On the far left were the two from the Divine Corpse Sect. They were a pair of a man and a woman. Both were quite young.

Next to them were the people from the Great Thousand God Sect. The two looked rather ordinary. They wouldn't stand out in a crowd.

Further on were two men. One was middle-aged and the other was young.

Then, there was the scholarly-looking man from the Astronomical Academy.

Jiang Hao stood at the far right.

Hong Yuye was beside him. She didn't seem much fond of this place.

"We're ready," said the scholarly-looking man, Shujin.

"The Astronomical Academy is quite straightforward." Old Man Corpse Sea chuckled.

He then waved his hand, and a vortex appeared in the sea.

A man clad in battle armor leaped out from the water.

He landed steadily on the deck and looked at everyone with hostility.

Jiang Hao was speechless.

The body seemed alive, but...

“He’s not alive.” Old Man Corpse Sea laughed. “He simply retained his combat capabilities. If you don’t attack him first, he won’t make a move against you. After you attack, it’s up to you to see how much you can injure him. If he retaliates and kills you, you’ll become another body in the Corpse Sea. There’s still time to withdraw.”

“There is no need for that,” said Shujin. “The opponent does look strong, but we’re ready.”

The opponent’s physical prowess was indeed quite formidable.

It wasn’t difficult to win, but the challenge was to injure and damage the opponent as much as possible.

“Then, let’s begin,” Old Man Corpse Sea said.

Shujin stepped forward but didn’t attack immediately. He set up various formations and artifacts around the opponent.

Finally, he launched his attack.

Boom!

A powerful force erupted and sent his opponent flying into the sea.

Soon, the figure emerged from the water again. One of his arms was missing, and there were numerous injuries on his body.

His combat prowess had diminished significantly.

It didn't take long to subdue him, but doing more damage wasn't easy. The opponent seemed to grow stronger the more they fought.

"Injured by thirty percent... I'll answer three questions for you," Old Man Corpse Sea said.

Then, the seawater enveloped Shujin.

After some time, he was released.

Shujin frowned. He seemed to be thinking of something.

He bowed to Old Man Corpse Sea and stepped back.

Jiang Hao felt a bit regretful that this had turned out to be a question-and-answer session. Otherwise, he would have gained some answers without anything in exchange and showed off at the gathering.

"Respected Founder, we would like to ask about where Heavenly Stele

Mountain goes when it disappears," said the man from the Divine Corpse Sect.

"Why? Do you want to go and see?" Old Man Corpse Sea didn't mind breaking the rules.

"We're looking for a senior brother who didn't come down from Heavenly Stele Mountain. He vanished," said the woman from the same sect.

"What was his cultivation realm?" Old Man Corpse Sea asked.

"Middle stage of the Primordial Spirit Realm," said the woman.

“Dead.” Old Man Corpse Sea gestured toward the Corpse Sea. “You can try looking there. Maybe he’s somewhere in the Corpse Sea. All the bodies left behind end up in the Corpse Sea.”

“Wouldn’t they have entered another space along with Heavenly Stele Mountain?” asked the man.

“Another space?” Old Man Corpse Sea chuckled. “With just the Primordial Spirit Realm? If a Primordial Spirit Realm cultivator could do that, why would you be here asking me this? You could have stayed in Heavenly Stele Mountain to find out.”

The two fell silent.

“Then, where does Heavenly Stele Mountain go when it disappears?”

“Founder, please...”

Before the two could finish their words, a light struck them.

They exploded on the spot.

“Alright, next,” Old Man Corpse Sea said calmly.

Everyone felt a chill run down their spine.

At first, they thought Old Man Corpse Sea was easy to talk to, but strong individuals seemed unpredictable.

Jiang Hao glanced at Hong Yuye. She, too, was formidable and powerful.

It would be just as effortless for her to kill him.

He needed to be more cautious in the future.

Trying to reason with strong individuals or expecting goodwill from them was like dancing on the edge of a knife. It was a death wish.

The two women from the Great Thousand God Sect stepped forward. "We want to give it a try."

The same corpse faced them. It had returned to its original state.

The two women had thought of imitating Shujin's strategy, but as soon as they approached, the corpse attacked them.

"The first one always has an advantage. The latter won't have the same benefit." Old Man Corpse Sea chuckled.

It seemed he was playing with them to amuse himself.

The two from the Great Thousand God Sect used all their strength, but they only managed to inflict twenty percent damage.

After asking two questions, they stepped back.

Jiang Hao still didn't know what they had asked. Next were the two individuals from The End of All Things

Even before they began, the corpse attacked.

"The more times it's attacked, the smarter it becomes," said Old Man Corpse

Sea.

At that moment, Jiang Hao felt that his chances were slim.

The opponent was deliberately manipulating the situation.

The two individuals from The End of All Things inflicted only ten percent damage. They were only allowed one question.

However, that question alone took a long time.

Jiang Hao felt that they were discussing something else.

The individuals from The End of All Things were also strategic. Perhaps, they were discussing whether to offer something to the old man in exchange. "Friend, be careful. It might be quite dangerous for you," said Shujin kindly.

"Thank you, Friend," Jiang Hao said gratefully.

"Is there anything you wish to ask, Friend?"

"I do have a few questions. Shujin, have you asked all your questions?"

"Yes. I have a minor question. I want to ask if the Corpse Realm is related to our external world."

"If there are any extra questions, I can help you ask."

Shujin had intended to accept a question from Jiang Hao if he had one. It seemed Jiang Hao was offering him the same thing.

Jiang Hao was only at the Golden Core Realm. He might only get one question, at most.

It was impossible for him to have the chance to ask more questions.

At that moment, the two individuals from The End of All Things were done. It was now Jiang Hao's turn..

Chapter 794 - 794: Senior, May I Ask a Few Questions

At Moon Lake, a huge beast ran as if it was fleeing for its life. But no matter how hard it struggled, it couldn't shake off the person on its back.

"Wow, we made it! Friends of the Beast didn't deceive us! This monster is incredibly fast," Xiao Li said in excitement.

"Yes, you're right, Xiao Li..." Bai Shuang shuddered. "We've arrived at Moon Lake. Can we get down now?"

Being on the back of such a monster was a torment for them. They were eager to get off, but they couldn't.

If they left Jiang Xiao Li, they would die while facing other powerful people.

If they got off, the monster would probably attack them.

If it couldn't kill Jiang Xiao Li, would it spare them?

The safest approach was to please Jiang Xiao Li and persuade her to get off quickly with them.

"Oh, then let's get down," Xiao Li said before jumping down with the others.

The monster immediately drew the attention of many people who gathered around.

Some looked puzzled at the four people, who were at different stages of the Foundation Establishment Realm.

What was going on exactly?

How did these four people at the Foundation Establishment Realm end up riding a lightning beast to this place?

Moreover, the beast appeared to be fleeing in panic as if it had seen something terrifying.

Were these four people that frightening, especially when there was a child among them?

When Xiao Li jumped down, others followed suit. Luckily, all of them were unharmed.

Bai Shuang and the others understood that Jiang Xiao Li's coordination was poor. She was strong, but she always ended up in a mess.

Jumping down shouldn't have been a problem. But she still fell to the ground. Even so, she was unharmed.

There wasn't much to it except for others looking down on Xiao Li's clumsiness.

The three people were at a loss. They realized Jiang Xiao Li might have done it intentionally to appear less of a threat. Then, she would launch a powerful attack.

What more could be expected from such a powerful individual as Jiang Xiao Li?

At that point, the people came closer. They wanted to find out what was happening.

There wasn't anything to find out. The four probably had lost their freedom.

"Hello, friends, may I talk with you?" asked a person at the peak of the Golden Core Realm.

Xiao Li looked at the person curiously. "Do you know my senior brother?" "Yes." The man nodded and smiled.

"Really? Where is he? I've been looking for him for so long," Xiao Li said in surprise.

"Come this way, and I'll tell you everything," said the man.

He looked to be about twenty-five or twenty-six, with a corrupt aura about him.

Bai Shuang and the others noticed it but didn't say anything because Xiao Li believed him. There was nothing more to say. They couldn't convince her even if they tried, and they didn't dare to try.

Xiao Li, on the other hand, believed the man. After all, he had agreed that he was Beast's friend. Lord Beast would never lie.

The people around observed them but didn't speak. They didn't know these people, so there was no need for them to speak up for them.

This was a person at the peak of the Golden Core Realm, at that. His strength was formidable, and so was his companion's. Engaging with him wouldn't be good. Hence, there was no need for it.

In the forest, the man looked at Xiao Li and smiled. "Just now, how did you ride the lightning beast?"

"Huh?" Xiao Li was confused. "I just caught it and rode it."

Xu Jie felt insulted. 'Catch it and ride it? Do I look like a fool? How can a mere Foundation Establishment Realm cultivator say such things?'

Perhaps he had met a fool.

Soon, he wondered why he was dealing with a child when there were three sensible people beside her.

“You’re still young and don’t understand,” Xu Jie said casually and was about to look for Bai Shuang and the others.

“I’ve told you everything. Shouldn’t you tell me now where my senior brother is?” Xiao Li stopped him.

“I should tell you everything?” Xu Jie chuckled.

“Yes.”

“You said, ‘Just catch it and ride it,’ right?”

“Yes.”

“Alright, then do it for me so I can see. If you manage to do it, I’ll believe you.”

Xiao Li felt awkward. There wasn’t a lightning beast around here.

Then, she turned and saw a giant python.

A golden python had appeared quietly. It stared at them as though it had found a meal for today.

The moment he saw the golden python, Xu Jie froze in place and immediately wanted to flee.

“I didn’t expect to find a golden python in this forest. Damn it! I shouldn’t have come in here in the first place.”

The strength of the golden python was extraordinary. Even someone in the Primordial Spirit Realm might not be able to handle it.

In the vicinity of Moon Lake, no one dared to venture into the area where golden pythons were spotted.

As long as someone didn’t enter the area, there wouldn’t be any danger.

So, although the golden python was exceptional, the level of danger was relatively low.

Xiao Li was excited. With a step forward, a blue light struck through the air, and a punch was thrown.

Boom!

The golden python was sent flying.

Then, Xiao Li grabbed the golden python and brought it to Xu Jie. Immediately, she stood on the python’s head and prompted it to rise.

The python rose in fear and accepted its fate as a mount.

“You see, this is how you use it as a mount. I didn’t deceive you,” Xiao Li said seriously. “The beast said that deceiving people is not good. It never deceives people, and I don’t deceive people either.”

Xu Jie was shocked.

How did a Foundation Establishment Realm cultivator manage to do something like that?

“I told you how to find a mount. I don’t deceive people, and you can’t, either. Now, it’s your turn to tell me where my senior brother is.” Xiao Li waved her fists. “Deceiving people is not good. You’ll get beaten if you do that.”

Xu Jie was speechless.

He regretted provoking Xiao Li.

He screamed as he was sent flying with a punch.

His face left a deep furrow in the ground.

His bones were fractured, and he was injured severely. Blood flowed from his mouth.

Although he was still alive, the others were astonished.

They had no idea what had happened.

Xiao Li and her companions walked out of the forest as everyone watched.

For a moment, no one dared to speak.

At that moment, a red light appeared in the sky and swiftly entered Xiao Li’s mind at an imperceptible speed.

“Found them.” She pointed excitedly forward. “Let’s go that way.” Bai Shuang and the others didn’t dare to refuse. They could only follow her.

They realized that the little demon Jiang Xiao Li was a force to be reckoned with wherever she went.

Jiang Hao stood in front of the corpse.

It was his turn.

“You’re alone?” Old Man Corpse Sea asked.

“Yeah. I’ll try alone.” Jiang Hao nodded.

“Then, let’s begin. Take care.” Old Man Corpse Sea smiled.

As soon as he finished speaking, the corpse suddenly erupted, and a powerful force released a tide.

But it was just for a moment. The corpse rushed toward Jiang Hao.

The terrifying force made everyone feel worried.

The corpse was intending to kill the Golden Core Realm cultivator.

It seemed that the last person got the worst of it.

Jiang Hao looked at the corpse. He knew the opponent was not easy to deal with, but he didn’t expect it to be so difficult.

At that moment, when the corpse approached, he unsheathed his Half-Moon Blade.

Jiang Hao took a step forward.

Clang!

There was a sound of metal on metal as Jiang Hao and the corpse clashed.

They remained locked in combat.

When everyone thought Jiang Hao had died, he slowly sheathed his sword.

Clang!

At the moment the sword returned to its sheath, cracks spread across the corpse. With a bang, it shattered into pieces and fell to the ground.

Finally, Jiang Hao looked up at Old Man Corpse Sea and said, "Senior, may I ask a few questions now?"

The scene shocked everyone.

The others found it unbelievable.

Even Old Man Corpse Sea was surprised.

It had happened too fast. That strike was definitely not at the Return to Void Realm.

This person's cultivation realm was higher than Return to Void Realm. Moreover, he could freely linger in the Corpse Realm.

"I'll allow ten questions," Old Man Corpse Sea said..

Chapter 795 - 795: Heavenly Blade Inquiry (1)

The people around were shocked at Jiang Hao's strength.

Although they knew Jiang Hao was strong, they hadn't expected him to be this extraordinary.

A single slash cut through the corpse and the corpse was shattered.

Even if they were given time to prepare, they wouldn't be able to do it.

This person didn't need any preparation at all.

The gap of strength between them was evident.

Among them, Shujin was the most shocked.

Jiang Hao had told him that if he had any extra questions, he would help ask them.

At first, he thought Jiang Hao was offering to be polite.

It seemed he was actually being serious.

Ten questions...

It was simply unbelievable.

The members of The End of All Things looked at Jiang Hao. They didn't know what to think.

The people of the Great Thousand God Sect looked wary.

They were not on good terms with Smiling San Sheng.

The strength the person had shown was a warning that he could kill them easily.

Jiang Hao stood still and looked at Old Man Corpse Sea.

He couldn't see through his thoughts, so he could only wait and follow the rules set by him.

He was somewhat curious about the strength of the person before him.

But it seemed this old man had a high influence. If discovered, it would be very dangerous.

He could only wait for an opportunity.

Since he had advanced to another realm, appraising Hong Yuye might reveal more information. However, he might be discovered, so he didn't dare to do it.

Maybe when Hong Yuye was asleep, he could try it.

At that moment, seawater covered Jiang Hao and Hong Yuye.

They seemed to have entered a palace formed by the seawater.

Old Man Corpse Sea sat at the highest point of that palace and looked down.

"You are more capable than I thought. I thought you were just slightly stronger than the others."

"I got lucky, Senior," Jiang Hao said respectfully.

"What question do you want to ask?" Old Man Corpse Sea spoke calmly.

“Can I ask any question?”

“Yes, and that counts as the first question.”

Jiang Hao was quite surprised. It didn't matter. He still had nine questions left.

“I want to know what the members of The End of All Things asked,” said Jiang

Hao.

The question surprised Old Man Corpse Sea.

He looked at the person below and said with a smile. “You want to know their message?”

Jiang Hao nodded.

Since he had seen them, he had to ask.

He didn't mind, but Hong Yuye would.

It was better to ask sooner rather than later to show her that he was serious about finding the person behind the stone tablet.

“The members of The End of All Things said they would find a body for me so I can go out of the Corpse Sea to the outside world.” Old Man Corpse Sea chuckled. “Their request was simple. They wanted me to help them attract the water of the Corpse Sea.”

“What will happen then?” Jiang Hao asked.

“The water of the Corpse Sea is extremely complex, but the members of The End of All Things want to use the death aura of the Corpse Sea to awaken a corpse. This corpse has self-awareness but is still dead. Once it awakens, it desires to be resurrected, which would require it to devour endless living beings, ” Old Man Corpse Sea said.

“Senior, did you agree or refuse them?” Jiang Hao asked. “Is that the fourth question?” Old Man Corpse Sea asked.

“Yes.” Jiang Hao nodded.

“I agreed,” Old Man Corpse Sea said.

Jiang Hao wasn’t surprised by this.

Everyone had choices to make and their own reason for making them.

Although this clearly involved the life and death of others on earth, why would these powerful individuals care about them?

Not everyone would be affected by the deaths and struggles of others around them.

With the earth shattered and its creatures suffering, what could be done?

After ages, the earth would rejuvenate, and life would thrive again.

Who cared if there were creatures that died and new creatures were born?

Jiang Hao sighed inwardly. He was also just one of the countless beings without value.

He wanted to break free from this cycle.

Jiang Hao at least wanted to be able to protect himself.

Very few could sympathize with the suffering of others.

Even fewer were those who could genuinely take action for the sake of others.

That was why the Human Emperor was born in the first place.

He was different from everyone else, was revered by all races, and loved by humans.

So, he fought for everyone against formidable enemies.

There was only one Human Emperor.

There were many powerful beings who disregarded all living things. Jiang Hao didn't know what his future would be like. Perhaps he would also become one of them.

"Six questions remaining."

"Where is that corpse?"

"West, Sky Sea Forest. Five questions remaining."

Jiang Hao didn't ask any more questions but intended to find out more about the Corpse Sea.

"What happens if the border of the Corpse Realm is closed, and I cross over?"

“You will stay in the Black Sea. After the Corpse Realm closes, the Black Sea becomes the Corpse Realm and covers everything like a tide.”

“What happens if I enter the Black Sea?”

“I don’t know. I’ve never been inside, but I’ve observed it. There’s a possibility of entering another world. Of course, there’s a higher chance of being devoured by the Black Sea. Three more questions.”

Jiang Hao fell silent for a moment.

He was thinking about whether he should ask more about the Black Sea. But he realized that even if he asked, the old man might not know anything.

So, there was no need to ask.

After that, he thought about Heavenly Stele Mountain.

“What will happen if one leaves an image at Heavenly Stele Mountain?”

“There are many theories about it, but the most likely one is that the person might have a chance to struggle for survival in the Black Sea or have the

qualifications to enter the Black Sea. Two more questions.” The qualification to enter the Black Sea...

That was good news, but it was still only a possibility.

“Let’s say someone saw people at a certain place in the Corpse Realm and heard the conversation of the Heavenly Spirit Tribe... Are they real or just an illusion?”

Chapter 796 - 796: Heavenly Blade Inquiry (2)

“They’re real, and this is the last question.”

Old Man Corpse Sea looked at Jiang Hao and smiled. “You must think carefully. Just ten simple questions may not provide you with enough understanding of the Corpse Realm. Of course, asking questions I don’t know is the same as asking in vain.”

Jiang Hao wasn’t worried. Instead, he asked the questions raised by Shujin because the other party had helped warn him of the rain. The reminder was worth a question.

“What relationship does the Corpse Realm have with the outside world?”

“That question is not easy to answer...” Old Man Corpse Sea thought for a moment and said, “According to my speculation, there should be some connection, but to date, no related information has been found. Even the language of the Heavenly Spirit Tribe is somewhat different. Perhaps there’s a relation, but it exists in different eras. It’s hard to say which is more ancient. If you want an answer, you could try collecting ancient pages. Maybe you’ll find some answers there.”

Jiang Hao felt that it was a pity. “Can I ask one more question?” “I may not answer,” Old Man Corpse Sea said.

“Who is the core of The End of All Things?” Jiang Hao asked.

The person seemed to have entered a certain sea area and disappeared. The others were still waiting for his return.

Old Man Corpse Sea shook his head and remained silent.

The seawater dissipated.

Jiang Hao and Hong Yuye returned to the deck once again.

He immediately informed Shujin of the answer.

The latter was extremely grateful and even took out a jade pendant. He hoped that if Jiang Hao ever visited the western region, he could drop by the Astronomical Academy.

Jiang Hao accepted it, but he probably wouldn't go. It was too far away. He simply couldn't reach there.

When he went east before, it was because Xiao Li and the others had been there, and he had borrowed the golden rings.

There was no one to help him make a trip this time.

Actually, there was a way, but whether to use it needed some thought.

He had asked all the questions, and it seemed there was no need to linger here.

This was not a good place. Jiang Hao wanted to leave as soon as possible.

The others also didn't want to stay here any longer.

"It seems like you want to leave. Indeed, the Corpse Sea is not a place where you can stay as you wish," said Old Man Corpse Sea and looked at everyone. "Oh, one more piece of advice... don't enter the depths of the Corpse Sea."

At that moment, the coastline gradually appeared in sight.

The sky turned gloomy once again.

"In that case, I won't keep you," Old Man Corpse Sea said.

Jiang Hao bowed and finally left on his sword.

The Great Thousand God Sect and The End of All Things were the ones he needed to be wary of. It was important to understand their motives. However, that didn't mean intercepting each one of them. Not everyone's interests conflicted with his.

It was wise to avoid conflicts, especially in this dangerous place.

Finally, they left.

Before long, Jiang Hao arrived at the edge of a cliff and stepped inside.

Everything went smoothly.

However, when he left, he felt a strange sensation as if he had entered an isolated area.

Jiang Hao stood in a cave and breathed a sigh of relief.

However, the Corpse Sea still existed. It seemed he could enter any time.

But Jiang Hao didn't plan to go in again. This place made him feel an inexplicable sense of danger.

"Is there still tea?" Hong Yuye asked.

"I'll go and buy it for you immediately," Jiang Hao said promptly.

Even ordinary tea was finished, so he had to look around.

After leaving the mine, Jiang Hao looked for people in Thousand Feet Mountain.

There were many powerful individuals here so he might find some tea.

After a while, he found a woman in blue robes.

She frowned at him slightly.

The middle stage of the Golden Core Realm and late stage of the Foundation Establishment Realm...
How could these people block her path?

Jiang Hao noticed her impatience.

Then, a spiritual flame ignited in his eyes.

The oppressive aura of the Return to Void Realm enveloped the other person.

In an instant, the blue-robed woman's spiritual sense surged, subconsciously bowing her head.

These two people were not in the Golden Core Realm. They were even stronger.

"Do you mind if I buy some tea from you?" asked Jiang Hao.

"Uh, no, I don't mind." The person nodded.

In the end, Jiang Hao spent fifteen thousand spirit stones.

He bought a pack of Red Azure tea and another pack of Ancient Spirit tea.

With over three hundred and ninety thousand spirit stones remaining, it seemed they couldn't be spent entirely.

After that, Hong Yuye arrived at a riverside. Instead of walking forward, she asked Jiang Hao to build a pavilion there. She wanted to drink tea here.

Jiang Hao immediately began to cut some wood.

He had already finished building a pavilion in less than half a day.

Only then did Hong Yuye sit inside and let Jiang Hao brew some tea.

She sat there for three days.

Jiang Hao noticed that the tea was finished.

Only Azure Red tea remained now.

He looked for others to buy more tea.

Luckily, he found some people who were selling them.

He spent another twenty thousand and bought all the tea from others.

It should be enough for a month or two.

He had three hundred and sixty thousand spirit stones.

Suddenly, it had reduced by over thirty thousand. It was really terrifying.

Who would have thought drinking tea could be this expensive?

Under the pavilion, Jiang Hao was curious about what Hong Yuye was doing.

He asked but didn't get an answer.

Jiang Hao sat down to read a book.

Before, he couldn't understand the fifth form of the Heavenly Blade, but now, he could thoroughly study and attempt to use it.

Even the Mountain Sea Seal was easy to study.

When his cultivation was weak, he couldn't use its power, but it was different now.

However, he had to take it one step at a time.

He began by studying the fifth form of the Heavenly Blade.

Jiang Hao started reading in an attempt to understand the content before using the sword technique.

He activated the Clear and Pure Heart ability.

Half a day later, Jiang Hao finally understood the fifth form of the Heavenly Blade.

The form was called "Inquiry".

One's state of mind and spiritual consciousness could be used to cut the opponent's state of mind without drawing blood.

This form suited those with exceptional states of mind. For those with an ordinary state of mind, this form wouldn't work.

But "Inquiry" could consolidate one's state of mind, heart, and spiritual consciousness.

It used the blade to nurture the mind, and the mind to forge the blade.

"This is just the fifth form, and it's already so powerful. I wonder what the final two forms would be."

Just mastering this one seemed like it would take a long time.

He also brewed more tea. Jiang Hao drank a cup of tea while reading the book.

In the middle of it all, he went out for a while and bought some pastries.

He then continued reading while drinking tea until early November.

On that day, he felt a change and slowly closed his eyes.

He felt like he was about to understand this form, and the Heaven Lock Technique operated within his body.

It provided a clearer understanding of his consciousness.

The Divine Might also followed suit.

It seemed like everything was aiding his understanding of this form.

Without these foundations, it might have taken Jiang Hao a very long time to master the form, but it didn't seem so difficult now. In an instant, Jiang Hao felt the world quieting down.

Everything around him stopped.

He sat alone in the pavilion and looked at the mountains, rivers, and streams.

The strange feeling worried him. He couldn't sense the outside world.

It seemed like he was trapped in it.

At that moment, a blade appeared in his hand out of nowhere.

He stared at the blade for a long time and got lost in his thoughts.

He returned to his senses after a long time.

"Inquiry."

He looked at the mountain, rivers, and streams ahead. He understood the significance of this form.

"Heavenly Blade Inquiry. It slashes others and slashes oneself."

At that moment, he lifted the blade in his hand without hesitation.

In that instant, his state of mind and spiritual consciousness were like a blade.

The blade light swept through everything.

Boom

Jiang Hao opened his eyes under the rain pavilion.

He looked at the woman drinking tea opposite him and felt calm again. He had mastered the fifth form of the Heavenly Blade.

At that moment, he was stronger than before and understood the Heavenly Blade better.

He felt impulsive to test it out.

“Pour the tea,” Hong Yuye said.

Hearing this, Jiang Hao immediately began pouring the tea.

At Moon Lake, the Fallen Immortal Clan had arrived.

They had been chasing after Jiang Xiao Li all along.

At first, they thought they would find her in the Blood Tide Forest. After going there, they discovered the other party had come to Moon Lake.

After that, they found out that she had left for the Thousand Feet Mountain.

“How could a Foundation Establishment Realm cultivator be so fast?” the young man asked.

“Let’s not worry about it for now. We have to catch her first,” the middle-aged man said.

With them was a woman in a black robe. She was frowning.

After hesitating for a moment, she followed them.

With their speed, it wouldn't take long for them to catch up with Jiang Xiao Li..

Chapter 797 - 797: Sister-in-law, I'm here

The sun was warm and pleasant.

Jiang Hao sat in the pavilion drinking tea.

It had been a long time since he returned to the mine. He wondered if Dole and the others had gone back.

The spirit stones were still with him. He hadn't split it with them. It made him feel worried.

The boundary of the Corpse Realm would soon close.

He had entered in June, and now it was November. Five months had passed.

Six months later, the Corpse Realm would close.

Actually, he had another idea. He wanted to find Guan Zhongfei.

He could have him take one of the golden rings to the West.

If needed, he could go there.

But the West was too dangerous. Once that corpse was awakened, going there would be like walking into a lion's den.

There was no reason for him to go.

Although it was related to The End of All Things, there was no news about the stone tablet, so there was no need to worry about it unless there was confirmation that the ancient Sage's Page had appeared in the western region.

Jiang Hao decided to stay in the sect and manage the spirit herbs as usual.

Perhaps due to the improvement in his cultivation, he had an urge to go out.

Being at the early stage of the Immortal Ascension Platform was remarkable.

Jiang Hao thought several times about the Pavilion Master of the Heavenly Joy Pavilion, whose strength far surpassed his own.

Once he encountered him outside, it would be a matter of life and death.

Another half a month passed in this way.

Jiang Hao found Guan Zhongfei.

He had heard that a strong individual was staying here and came over to take a look. It turned out to be Jiang Hao, and there was a woman with him.

She seemed to be at the late stage of the Foundation Establishment Realm.

If this cultivator pretending to be in the middle stage of the Golden Core Realm could kill him with one slash, wouldn't she be the same?

He was very respectful. "Greetings, Seniors."

He took out all the spirit stones from the last sale. It was a total of sixty thousand spirit stones. Although it wasn't as many as last time, he did his best.

Hong Yuye looked at Jiang Hao.

He remained calm. There didn't seem to be any issues with whatever Gong Zhongfei had said.

After receiving the spirit stones, Jiang Hao talked to Guan Zhongfei.

When they were in an isolated place, Jiang Hao said, "Adding the previous fifteen thousand, it's a total of two hundred and ten thousand. The Corpse Realm is about to close, so you don't need to come looking for me again. You can continue selling the remaining ores, but I'll deduct two thousand from yours. After that, the stones from the sales will all be yours. It's the same for

Dole. You can tell him the same."

Guan Zhongfei had no objection to it.

"Twenty-one thousand in total... one thousand is mine. The remaining two hundred thousand... I'll take eighty thousand, and you and Dole take twenty thousand each. That'll be a total of one hundred and twenty thousand. You and Dole each have forty thousand from the ores sold. These ores will belong to you," Jiang Hao said. "Any questions?" "No. None at all." Guan Zhongfei bowed to him.

They were making a profit.

There must still be quite a lot on Dole's side, and they could also sell a fair number of ores for spirit stones.

After handing over the eighty thousand spirit stones, Jiang Hao said, "If you don't find Dole after leaving the Corpse Realm, then give the spirit stones to him when you're outside."

"Well..." Guan Zhongfei was very happy to receive the spirit stones, but Dole's matter was not that simple.

After hesitating for a moment, he said, "If... after we go out, what if Dole isn't alive?"

"Then, you should still deliver the spirit stones," Jiang Hao said.

Guan Zhongfei felt bitter but didn't dare to refuse.

Jiang Hao stood in place. He was silent for some time.

Finally, he took out a golden ring. "Take this. Put it in your residence and activate it with a technique."

As he spoke, a Mountain Sea Seal struck Guan Zhongfei's forehead.

He was greatly shocked. He felt a tremendous weight pressing down on him. It was as though that weight could press down on an entire mountain.

This terrifying power made him shiver.

Jiang Hao comforted him. "No need to worry. Once you do it, the item will disappear along with the one on your forehead."

"Alright." Guan Zhongfei could only nod.

After teaching him how to activate the golden ring, Jiang Hao let him leave.

Now, he had two hundred and eighty thousand spirit stones.

That was still a lot.

The incarnation of the Immortal Peach Tree only required about fifty thousand spirit stones. That would leave him with two hundred and thirty thousand.

There were many things he could do.

As for the golden ring, he would bury one for now. Perhaps he would need to go there soon.

If not needed, after activating the ring, he could go and retrieve it or hide it in another place.

The only concern was whether this person would activate it.

He didn't have many sub-rings left.

There was one with Xiao Li and another with the spirit beast. There was one at home, one in the Corpse Realm, another with Guan Zhongfei and Hong Yuye. That made a total of six rings.

He only had the main ring and two sub-rings left.

It was barely enough.

As he returned, Jiang Hao frowned.

He sensed someone approaching Hong Yuye, and it was a familiar aura.

"Sister-in-law!" said someone loudly. Jiang Hao was speechless.

He felt his scalp tingle.

He wanted to leave as soon as possible.

One word from Xiao Li could mean their deaths.

If Hong Yuye was offended, it would be the end.

Fortunately, Hong Yuye did not erupt with a terrifying aura.

Jiang Hao could only wait and watch. He could pretend not to have heard Xiao Li.

This way, it would be much safer.

Xiao Li was outspoken, so maybe it wasn't a big deal.

Just because she called out didn't mean Hong Yuye would've heard it.

As for the other three individuals, they were just Foundation Establishment Realm cultivators.

After a moment, Jiang Hao walked over to her.

He headed upstream along the river.

He saw Xiao Li standing in front of Hong Yuye and talking happily.

She even ate a piece of pastry from the table.

The three people behind her stood in the pavilion and didn't dare speak.

But they were curious. Jiang Xiao Li's senior sister seemed to be only at the late stage of the Foundation Establishment Realm. Her senior brother might not be much stronger.

However, she didn't seem to understand Jiang Xiao Li's relationship with this Late Foundation Establishment Realm cultivator.

At first, Xiao Li called the woman "sister-in-law" and corrected herself and called her "Senior Sister."

At that moment, they heard footsteps.

When they turned to look, they only saw an ordinary-looking man.

He was at the Golden Core Realm.

For a moment, they still felt that Jiang Xiao Li was the most formidable among them. Perhaps they didn't know how formidable she truly was.

It wasn't that they looked down on Golden Core Realm cultivators. It was just that Jiang Xiao Li was too terrifying.

At that moment, Xiao Li also looked over. "Senior Brother Jiang!"

She ran over to him.

Jiang Hao looked at Xiao Li and took out some dried meat. He handed them to her.

"Thank you, Senior Brother Jiang!" Xiao Li said excitedly.

“Why did you come here?” Jiang Hao asked softly.

The Blood Tide Forest was not close to here, and it was not easy to get here.

“It was the spirit beast.” Xiao Li carefully placed the dried meat on the table. “The beast’s influence can also be used here. Its friends on the road helped us find the way.”

‘Spirit beast?’

Jiang Hao was surprised.

He also understood that the spirit beast was famous in the Corpse Realm.

It wasn’t that everyone knew the beast in this place, but anyone who didn’t know it was beaten up by Xiao Li.

Looking at the Dragon Pearl, Jiang Hao found that there was little power left inside.

It seemed that Xiao Li had not hesitated to use her powers all the way here..

Chapter 798 - 798: It Turns Out We Met a Powerful Senior

Xiao Li’s unexpected arrival didn’t have much impact on them.

What Jiang Hao was more concerned about wasn’t the trouble Xiao Li might bring, but whether it would anger Hong Yuye.

However, the plan was flawed. With the Dragon Pearl, Xiao Li was unrivaled in the Corpse Realm. She didn’t need practice at all.

It took some time for Jiang Hao to ask about what Xiao Li had done from the three Foundation Establishment Realm cultivators.

There was no food left, so they didn't linger in the Blood Tide forever. After that, they captured a lightning beast and hurried here. They didn't explain it clearly, but Jiang Hao understood everything.

For food, Xiao Li would go to great lengths.

These things didn't matter. But now he knew that Xiao Li would always find her way to him even if he set her free. That would bring trouble.

Xiao Li sat beside Hong Yuye and talked about everything she had seen along the way.

"Senior Sister, I saw something strange under the trees, and it looked at me sneakily," Xiao Li said. "It felt weird, so I glanced back at it, and then, it ran away. I don't know what it was."

While Xiao Li talked, Jiang Hao listened.

Was there something strange under the Blood Tide Forest?

It wasn't entirely impossible. Some places were simply inaccessible, whether during the night or the day.

There was always a need to retreat somewhere safe.

Even when a place appeared safe, it had lingering danger inside.

If one avoided it, they'd be fine.

Therefore, the eerie kind of danger always existed but was outside the rules. If anyone didn't follow the Blood Tide Forest's rules, they might encounter the danger head – on.

“Are you planning to stay here?” Jiang Hao asked Bai Shuang and the other two.

“Huh?” The three were a bit nervous.

This place wasn’t the Blood Tide Forest. Once they left Jiang Xiao Li, it would be very dangerous.

The danger didn’t just come from others. It was also from the environment.

“We need to help Senior Jiang Xiao Li find food,” Bai Shuang quickly said. Once they run out of their usefulness, they might be abandoned. That was most terrifying for them.

Jiang Hao knew their concerns. “You’re overthinking. I just wanted to ask... don’t you plan to seek opportunities?”

“Seek opportunities?” The three looked at each other. They thought that the opportunities here were for strong people and didn’t dare to think about it.

“Yes, opportunities.” Jiang Hao nodded.

These three people were all on the verge of reaching the Golden Core Realm. As long as they obtained opportunities, they could ascend to the Golden Core Realm. There might be no one who ventured into the Thousand Feet Mountain for opportunities since they were useless to them.

“Our cultivation is low, and we don’t dare to take risks here,” said Bai Shuang.

Jiang Hao said, “Go on. There shouldn’t be anyone here in the Thousand Feet Mountain to trouble you.”

That made them feel awkward.

How could a Golden Core Realm cultivator say such things?

But they didn't dare to speak out or refuse.

"Don't worry. Senior Brother doesn't lie," Xiao Li said.

Hong Yuye turned to look at Jiang Hao and smirked.

Bai Shuang and the other two smiled bitterly. They had no choice but to leave.

They felt that they were being pushed away. They had come all the way and faced hardships to get Xiao Li here, yet they were being abandoned now.

The three took a few steps ahead and looked back at Xiao Li. They hoped she would tell them to stay.

But in the end, Jiang Xiao Li didn't say anything. After leaving the pavilion, they walked cautiously away.

The sky was clear, but disaster could strike at any moment.

They were lucky. They had walked for half a day without any problems.

Then, they realized that their luck was not just good, it was extraordinary.

Not long after, they saw a glowing tree.

There were nine fruits on the tree. There was no one around.

"It seems like it's about to ripen," Bai Shuang said.

“Will beasts be guarding them?” Zhong Fahu asked worriedly.

“Doesn’t seem like it,” said a woman as she looked around. The three dared not relax and approached cautiously.

Soon, they arrived at the tree. The fruits were ripe.

They wanted to pluck them quickly and leave. However, at that moment, two auras approached.

A man and a woman’s aura collided. The two fought.

“Fellow Daoist, I found it first!” said the woman in gray robes. “You must be joking! I was here first!” said the man with a stubble.

Bai Shuang and the other two trembled.

They even found it difficult to move.

At that moment, the two figures negotiated and went their separate ways.

However, when they came down, they found three Foundation Establishment Realm cultivators standing there.

Bai Shuang hurriedly said, “Please forgive us, Seniors. We just happened to pass by and had no other intentions.”

“It’s best that way,” said the man with a stubble.

In an instant, an intense pressure spread.

However, just as the pressure was about to touch the three, a purple aura circulated around them.

In an instant, the man with stubble saw a pair of eyes.

That gaze looked at him as if it could shake the heavens and earth.

Instantly, the fire of his spirit burned.

The man with stubble was terrified and instinctively took a few steps back.

Fortunately, the fire of his spirit vanished.

The woman in the gray robe beside him didn't feel anything, but she noticed something unusual.

"Where are you three from?" she asked, but quickly realized her question was wrong and corrected herself. "Do you know anyone here?"

"We followed a senior here. She's at a pavilion nearby," Bai Shuang said. "Ahh... so you are here on behalf of those two seniors," said the man with a stubble and laughed. "Since you are here, we can all share. There is enough for everyone." He turned to the gray-robed woman. "What do you think?"

The woman in gray robes quickly nodded. "Yes, that's right. So, should we split them three ways?"

The two looked at Bai Shuang and the others.

At that moment, they felt a bit strange, as if their status had changed.

Their opponent's wariness was visible on their faces.

What were they wary of? Jiang Xiao Li?

That was impossible. They were talking about two seniors, after all.

The two...

In an instant, they realized their mistake.

Jiang Xiao Li's senior brother wasn't joking. He really wanted them to have opportunities here.

What he said was true. No one would trouble them in the Thousand Feet Mountain.

They had encountered the most powerful seniors without even realizing it.

Opportunities were right in front of them, and they had nearly missed it.

After dividing the fruits, the two politely bid them farewell. Then, they left.

"Do you think we are being looked after by an unknown senior?" Bai Shuang asked.

The other two nodded.

They followed Jiang Xiao Li to survive. Unexpectedly, they had run into opportunities with a senior's protection..

Chapter 799 - 799: Disappeared In The Blink Of An Eye

At the Thousand Feet Mountain, the two from the Fallen Immortal Clan chased someone for a long time before finally locking onto their target.

Throughout the pursuit, something felt strange. Jiang Xiao Li's speed was unusually fast.

They couldn't figure out how she could be this fast.

It seemed like even demonic beasts couldn't escape her pursuit. The situation made them frown in confusion.

Since they had begun chasing her, odd things kept happening.

However, with things having come to this point, there was no turning back. The woman in a black robe was trailing behind. She was lost in thought. "Do you have more information?" the middle-aged man asked.

"I heard that Smiling San Sheng is here," the woman in a black robe said.

"Smiling San Sheng?" The middle-aged man frowned. "How did he get in? Can he get in at his cultivation realm?"

Smiling San Sheng had been quite lively lately, but the Fallen Immortal Clan didn't know much about him.

They only knew his cultivation was high. So how did he manage to enter?

The woman in the black robe didn't know either.

Perhaps Smiling San Sheng wasn't as strong as they thought. No one had ever witnessed Smiling San Sheng engaging with powerful individuals.

The three people hurried further inside.

If they were not mistaken, Jiang Xiao Li was nearby.

In the evening, the three arrived at a riverbank, where a pavilion could be seen along the river's course.

There were three people in the pavilion.

It was Jiang Xiao Li, a man, and a woman.

The man was in the middle stage of the Golden Core Realm.

The woman was in the late stage of the Foundation Establishment Realm.

The black-robed woman's eye twitched.

The two members of the Fallen Immortal Clan strode forward.

As long as Jiang Xiao Li was here, they had to take her away.

Jiang Hao was making tea while Xiao Li was eating.

Almost everything Jiang Hao had had ended up in her belly.

Her appetite was growing.

It seemed she was growing and eating more and more.

Fortunately, she had picked some fruits with rich spiritual energy nearby, which should be enough for a while.

He had long noticed the three people by the riverbank.

Some of them wanted to retreat. He didn't mind.

They couldn't escape anyway.

The black-robed woman reminded him of Feng Hua's avatar.

Regardless of whether it was her or not, it would be confirmed shortly.

Letting them escape now was pointless.

They wouldn't get far anyway.

In the past, they might have succeeded.

But now, it wasn't easy.

"Who are you?" Xiao Li asked as she approached them.

Hong Yuye sipped her tea. She was not very talkative. She spent her time listening to Xiao Li's stories.

She would speak one word to Xiao Li's whole sentence. Jiang Hao would then remind Xiao Li to talk less and eat more.

"Jiang Xiao Li?" asked the middle-aged man from the Fallen Immortal Clan.

"That's me." Xiao Li nodded.

"Our clan wants to invite you as a guest," said the young man of the Fallen Immortal Clan.

Xiao Li thought about it somberly. "Is it far? If it's too far, I need to ask my senior brother."

Jiang Hao poured tea for Hong Yuye. He couldn't help but find it amusing that Xiao Li was actually thinking about the offer seriously.

She truly believed that these people wanted to invite her as a guest.

Jiang Hao looked up at the newcomers.

One was in the Immortal Ascension Platform, while the other one was at the peak of the Return to Void Realm.

They were safe because they had two talismans on them. They were very powerful talismans.

Even if Jiang Hao managed to take them, he couldn't learn them.

The Fallen Immortal Clan was remarkable. They possessed such methods.

As for how they managed to find their way here, that wasn't surprising.

After all, these people could find out about him from afar. It was remarkable.

Unfortunately, these people were unlikely to speak about their clan's plans.

Initially, Jiang Hao didn't intend to ask much, but since they wanted to take Xiao Li away, he ultimately had to step in.

"What do you need Xiao Li for?"

“Friend, what do you wish to know?” The middle-aged man felt that the person before him was not ordinary.

Jiang Hao glanced at them.

He activated the Daily Appraisal.

He had wanted to save that ability to appraise the black-robed woman, but he wanted to find out what they were after for Xiao Li’s sake.

As for the woman in the black robe, he could ask about her at the gathering.

[Helian: Member of the Fallen Immortal Clan. In the Immortal Ascension Realm. He came to the Corpse Realm to complete a task for the clan and capture Jiang Xiao Li. The immortal seed is about to bloom, and watering it with her blood can make it bloom smoothly.]

“Is the immortal seed about to bloom? Does it require Xiao Li’s blood?” Jiang Hao asked.

This sudden question shocked Helian.

Without hesitation, the power of the Return to Void Realm gathered in his hand and struck toward the person in front of him.

Boom!

A palm strike erupted with immense force.

Helian had expected to at least repel the opponent, but he didn’t even manage to land his attack.

A shadow of a mountain and sea suddenly appeared among them.

A heavy aura emanated from the mountain and sea and pressed down on him.

Boom!

A single strike inflicted severe injuries on him.

This terrifying power was not something from the Return to Void Realm.

“Friend, there are no hard feelings between us,” Helian said.

“Although Xiao Li calls me Senior Brother, I also happen to be her elder brother,” said Jiang Hao as he stepped forward with his Half-Moon Blade. “If you act against her, I can’t just sit and do nothing.”

He used the fifth form of the Heavenly Blade, Inquiry.

Seeing the opponent wield his blade, Helian shouted, and the Immortal Ascension Platform’s power burst forth. “In that case, Friend, don’t expect an easy time from me either.”

The Immortal Ascension Platform’s power emerged. The space distorted and an endless Black Sea manifested.

The Half-Moon Blade struck.

Helian felt his heart shatter, and his primordial spirit was on the verge of collapse.

Instead of dying right away, he chose to watch the person before him die alongside him.

Crack!

The Heavenly Cauldron shattered, and the distorted Black Sea enveloped Jiang Hao.

At that moment, he brought out the Earth Extreme Silent Pearl.

Subsequently, the space stabilized.

Everything returned to normal.

Helian watched in astonishment.

Finally, his primordial spirit collapsed, and he died.

Even in death, he couldn't understand what happened.

Jiang Hao sighed. He struck twice more and casually took the storage treasure.

Having done so, he headed toward the pavilion.

He noticed that the other members of the Fallen Immortal Clan were nowhere to be seen.

When he asked Xiao Li, she said, "They probably went home. They disappeared in the blink of an eye."
Jiang Hao was speechless.

'Disappeared in the blink of an eye?'

Instinctively, he looked at Hong Yuye, who was still drinking her tea..

Chapter 800 - 800: The Wrath of the Western Sects

The two members of the Fallen Immortal Clan had died just like that.

It didn't cause any commotion.

Jiang Hao had thought he would need to take action, but he was surprised to find that they had already been dealt with.

He didn't know why Hong Yuye had intervened.

But whenever she intervened, it was a sure death for the enemy.

He felt a bit concerned about whether it was thoroughly handled. "Senior Brother, should I go visit their place?" Xiao Li asked curiously.

"No need." Jiang Hao sipped his tea calmly.

"It's too far. They decided not to take you along and went back on their own."

"That's a shame. I wanted to take the beast to see them too," Xiao Li said excitedly. "I wonder if the beast's influence would work well there. They should be quite useful here in this remote place."

Jiang Hao looked at her but didn't say anything.

Perhaps as Xiao Li grew older, she would understand why the beast's influence was so significant here.

Xiao Li was still young and full of energy.

Jiang Hao watched her. Hong Yuye was looking at her as well.

"Did you act like this when you were young?" Hong Yuye suddenly asked.

Jiang Hao said, "Maybe."

When he was a child, he was always playing around and getting scolded.

From the age of four or five, he started cutting firewood and occasionally went out to play but never knew why he couldn't play with the others.

Perhaps at that time, he had lost his innocence.

Jiang Hao couldn't help but sigh. He was already thirty-six years old.

Perhaps he would never see the people he grew up with again.

"If you were so lively as a child, how come your enthusiasm had decreased so much?" Hong Yuye asked.

"It's always good to be cautious," Jiang Hao said.

He lived very carefully. When his cultivation realm increased, he inevitably became a bit conceited. So, he was reckless sometimes.

Although he tried hard to control it, his state of mind was not good.

That was the side effect of rapid advancement.

He felt like he wanted to spar with someone of a similar realm and try the fifth form of Heavenly Blade once again.

Helian looked like he had reached the Immortal Ascension Platform, but in reality, he only dared to use the power of the Return to Void Realm.

Once he used the Immortal Ascension Platform, he would enter an endless Black Sea.

He didn't understand what the Black Sea was.

Based on what Old Man Corpse Sea had said, he knew the dangers of entering the Corpse Realm.

There was a glimmer of hope of him surviving since he had left an imprint on Heavenly Stele Mountain.

"Don't you find it boring?" Hong Yuye looked at Xiao Li. "Are you happy with how you're living?"

"No." Jiang Hao shook his head and answered truthfully. "Xiao Li and the spirit beast are the happiest I've seen them. I can't compare to them." "Wouldn't it be better to be carefree and happy?" Hong Yuye asked. "It probably wouldn't. After all, I'm not young anymore," Jiang Hao said.

Hong Yuye was surprised. "How old are you?"

"I'm thirty-six," Jiang Hao said.

Under normal circumstances, by the age of thirty-six, people would have married and had children.

"That's quite old." Hong Yuye chuckled and didn't say anything more.

Jiang Hao fell silent.

In the following days, Jiang Hao wandered around the Thousand Feet Mountain with Xiao Li and Hong Yuye.

There were some strange places with extremely powerful auras along the way, which he didn't dare approach.

Whether it was the Blood Tide Forest or other places, they all had peculiarities.

He couldn't be careless. He didn't know what was hidden inside.

Perhaps the Old Man Corpse Sea would know something, but he couldn't ask anymore.

The trip to the Corpse Realm had revealed quite a bit of information.

At least he understood that there was a possibility for him to enter the Corpse Realm even when it was closed.

Secondly, he knew that the Old Man Corpse Sea could leave with the help of The End of All Things.

The corpse in the western region might also awaken soon.

Apart from that, the ancient Sage's Page might reveal the connection between the Corpse Realm and the outside world.

Xiao Li had also caught the attention of the Fallen Immortal Clan, and it seemed the immortal seed was about to bloom.

Over a month later, in early January, Jiang Hao noticed a reaction in the Heaven, Earth, and Human Yuan Formations.

They could leave now.

They had traveled to many places by then.

On the way, Jiang Hao remembered the Charm Goddess.

He had tried to find her but found no trace.

During that time, he didn't see Guan Zhongfei and hadn't encountered Dole either.

Dole's situation was very dangerous. Whether he could survive after leaving the realm was entirely up to fate.

He had already done everything he could.

"Senior, we should leave now," Jiang Hao said.

After more than half a year, he entered the Immortal Ascension Realm and obtained a lot of spirit stones. He was satisfied.

Hong Yuye looked up at the Heaven, Earth, and Human Yuan Formation.

Then, she leaped up and dashed toward the formation.

Jiang Hao didn't know what she was planning to do. He wanted to instruct Xiao Li, but she had already soared into the sky.

Jiang Hao quickly followed them. It might have been an illusion, but Xiao Li seemed to be freely swimming within the large formation.

Her understanding of the formation surpassed an ordinary disciple's.

Her talent was extraordinary.

She was not inferior in talent to Mi Lingyue.

At that moment, countless people chose to leave the Corpse Realm.

Guan Zhongfei was one of them.

He hadn't met Dole, so he had over ten thousand spirit stones.

There were still some ores left.

This time, he earned a lot of spirit stones.

He was very satisfied.

As he walked out of the teleportation gate, he noticed several people waiting nearby.

"Master," he said in greeting to the man in front.

A man with white hair nodded. "This time, the gains were not small, was it?" "Yes." Guan Zhongfei nodded.

The location for the Corpse Realm Flower of the Divine Rotation Sect was not far from the Corpse Realm.

There were a total of twelve peaks, and Guan Zhongfei emerged at the central peak.

Senior members of the sect were waiting there.

As a True Disciple, he immediately caught their attention.

“Junior Brother Guan, it seems has made significant progress in your cultivation realm,” said a man with a smile.

Guan Zhongfei nodded with a smile.

He had indeed encountered many opportunities.

He noticed some teaching elders present.

If he wasn't mistaken, there would be a storm brewing here shortly.

Two True Disciples of the Divine Rotation Sect died at the hands of Smiling San Sheng, and all of this was tied to Dole from the Mountain River Valley Sect.

The Mountain River Valley Sect wasn't far from their location, and perhaps it wouldn't be long before they demanded an answer.

The Divine Rotation Sect was a major sect in the western region, while the Mountain River Valley Sect was just a small sect in the west.

An ordinary inner sect disciple like Dole would find it hard to escape punishment.

After a short wait, Guan Zhongfei saw the people from his sect coming out one after another.

However, the two teaching elders didn't find the people they were waiting for.

Shortly after, they looked shocked and then angry.

“Dole? Dole from the Mountain River Valley Sect? Are you sure?”

Angry voices reverberated all around.

Many people were left puzzled.

Guan Zhongfei sighed. He knew that Dole's problems had begun.

It wasn't just the Divine Rotation Sect. Other sects in the western region might be asking the same questions.

Soon, Dole from the Mountain River Valley Sect became a name remembered by numerous powerful individuals.

Moreover, many immediately set out at night to demand justice.

They would interrogate him to uncover the mastermind behind the scenes.

Regardless of whether the culprit was revealed, his death was inevitable..
