## **Necromancer: I Am A Disaster**

### **Chapter 31: Evidence Erased; There May Be Danger Here**

31 - Evidence Erased, There May Be Danger Here

Boom! Boom!

Boom!

The corpses were thrown into the air.

Explosions sound one after another.

Lin Moyu detonated the corpses.

The evidence was erased.

When everything was finished, Lin Moyu finally entered the dungeon.

The people who protested before finally approached.

The fearsome energy released by Corpse Explosion felt like blades scraping all over their bodies.

"Oh my god, they are all dead."

"Not a single one survived."

"Not only was everyone killed, but even the corpses were disposed of."

"All the corpses were erased. What a cruel character."

"He has offended Dynasty Guild."

"Dynasty Guild won't take this lying down."

"What do we do?"

Wang Yi suddenly stood out and said, "Everyone, with the way Dynasty Guild does things, they won't let this go."

"If we are caught, whether we talk or not, the outcome will still be death."

"I have a proposal, why don't we all leave?"

"Let's leave Xihai City, leave Jiangning Province, and stay far away from Dynasty Guild's sphere of influence."

"Anyway, there are more places where we can do level grinding. And besides, Dynasty Guild is not omnipotent. They might not be able to find us."

Everyone immediately accepted his proposal.

Just as he stated, Dynasty Guild doesn't have a good reputation.

If they are caught, whether they talk or not, the outcome will be the same.

Wang Yi cupped his hands, "I'll take my leave first. Everyone, I bid you goodbye."

"Goodbye!"

Following his incitement, the people left one after another. The dungeon's entrance became completely deserted in an instant.

When the flames went out, only a slowly rotating black vortex remained at the entrance of Xihai Mine, issuing faint whistling sounds.

Moonlight reined over this area once again.

Half an hour later, several people were teleported out of the dungeon.

Wang Zihao's face was filled with disappointment.

He failed to obtain the Goblin King's core in the dungeon.

He will have to wait 12 hours before he can enter the dungeon again.

However, he still has a chance. There are a few days left until the great examination. He can enter the dungeon another four times at least.

"Huh, why is there no one here?"

"Where did Zhao Ji and the rest go?"

"There were so many people here. Where did they all go?"

"Something seems off."

"Zhao Ji and them disappeared. Everyone else also disappeared. What the hell happened?"

The people who accompanied Wang Zihao into the dungeon showed a shade of alarm.

They are only level 17, and far less experienced than Zhao Ji and company.

At this time, they can only rely on Wang Zihao as the backbone. After all, he is the junior guild leader of Dynasty Guild.

Wang Zihao was at a loss, his face filled with figurative question marks.

After contemplating for a while, he finally spoke, "Fire a signal flare. If Zhao Ji is nearby, he will respond when he sees it."

A signal flare rose into the air and exploded, forming a huge ball of light.

The ball of light can be seen within a radius of 10 kilometers.

By the time the signal flare extinguished, there was no response, indicating that Zhao Ji and them are not here.

Wang Zihao realized that something must have happened to Zhao Ji and the others during the time he was in the dungeon.

Otherwise, there is no way they would leave.

Was Zhao Ji killed?

With their strength, Zhao Ji's team is an overwhelming presence in this area.

He stopped this train of thought.

Even if Zhao Ji was killed, there should be traces left.

But there is nothing in front of him.

"Not only Zhao Ji isn't here, but the others are also gone."

"Something must have happened. There might be danger here."

"Let's leave first, then see if we can contact Zhao Ji when we get back."

The atmosphere here is too strange. Wang Zihao decided to leave first.

Lin Moyu was in the dungeon by himself, with 64 Skeletal Warriors rampaging about.

The tactic employed this time was exactly the same as before, and EXP rapidly accumulated.

This time the efficiency was higher than last time. After just an hour, Lin Moyu has already reached the end of the dungeon.

64 Skeletal Warriors surrounded the Goblin King and bombarded it with a frenzy of attacks.

Metallic sounds reverberated.

Lin Moyu banked on previous experience.

Whenever the Goblin King was about to use a skill, he would interrupt it with Soul Blaze.

Soul Blaze is almost instantaneous, and is a bit faster than the Goblin King's skills.

Within just 30 seconds, the magnificent nightmare rank dungeon boss collapsed on the ground and died.

[Killed Goblin King, EXP +40,000]

[Obtained bronze rank weapon, Goblin King's Magic Book]

[Obtained elementary monster core]

Sure enough, the Goblin King's core didn't drop this time. Only an elementary monster core dropped.

The Goblin King's core only drops once every 100 days, highlighting its worth.

After he enters Xiajing Academy, Lin Moyu will look for an Alchemist to forge the Goblin King's core into the King Goblin's Ring.

This type of boss accessory is very useful for any class and level.

Lin Moyu checked the attributes of the King Goblin's Magic Book.

[Goblin King's Magic Book: bronze rank, spirit +10, physique +10, increases the power of Mage-type skills by 3%, usable after level 12]

Judging by the attributes, although the item may not be very suitable, but it will do for now.

Lin Moyu gripped the book, looking like he is a bit interested in it.

The power of Mage-type skills will be increased by 3%; this is useful for Soul Blaze and Corpse Explosion, but not for Summon Skeletal Warrior.

Summon Skeletal Warrior doesn't seem to be classified as a Mage-type skill.

Light appeared on his body, indicating that he leveled up.

Lin Moyu reached level 13 after killing the Goblin King.

"The EXP requirement has been raised again."

"I won't be able to reach level 14 the next time I go into the dungeon."

"In order to reach level 15, I will have to enter the dungeon three more times."

"Judging by how much time is left, I can only enter the dungeon five more times and at most reach level 16."

"It's a bit worse than I expected, but level 16 should be enough to enter Xiajing Academy."

Lin Moyu exited the dungeon.

It is quite outside the dungeon, exceptionally quiet.

"They're all gone?"

Lin Moyu contemplated for a moment and quickly understood the reason behind this.

For those people, leaving might be the best choice.

He looked around, and then quickly plunged into the darkness and disappeared.

## **Chapter 32: Did Maggots Eat Your Brain**

32 - Did Maggots Eat Your Brain?

The sun rose, and the earth welcomed the next day.

Eventually, a party arrived at the entrance of the dungeon.

"Huh, how come there is no one here?"

"It was very lively before."

"Strange, where did everyone go?"

The members of this party expressed their confusion, but they didn't delve into it.

They chose ordinary rank difficulty and entered the dungeon.

More and more people arrived, and the dungeon's entrance became lively again.

After the cooldown period was over, Lin Moyu entered the dungeon again.

"What a strange person."

"How frigid. He didn't say a single word."

"The summon by his side is really cool. Although a bit scary, but it's really eye-catching."

"What's the use of being cool. To that guy, we are no different from air."

"I saw him go in alone. It looks like he wants to do solo grinding."

...

"It's Lin Moyu!" From a distance, Xia Xue saw Lin Moyu enter the dungeon by himself.

The Skeletal Warrior next to Lin Moyu is really conspicuous.

In the entire world, only Lin Moyu has such a summon.

Necromancer is a unique class, so there can't be two people with this class at the same time.

Xia Xue has a complicated look in her eyes, "He's going to do solo grinding..."

She bit her lower lip.

She just reached level 10 today, and then headed straight for the dungeon.

Although she is only level 10, but with her superior class, Elemental Mage, it is still easy for her to find a party.

Xihai Mine Dungeon is only a level 14 dungeon, so its difficulty isn't really high.

This is more so the case for ordinary rank difficulty.

However, going solo in the dungeon wouldn't be easy for her.

Yet Lin Moyu unexpectedly is able to go solo, surpassing her once again.

Xia Xue's eyes flashed with defiance, "I won't lose to you. Just you wait."

She quickly found a party and entered the dungeon.

Lin Moyu swept through the nightmare rank dungeon.

Following yesterday's level up, the number of Skeletal Warriors has reached 68.

After 12 hours of meditation, Lin Moyu's spirit was fully restored.

Once he entered the dungeon, Lin Moyu summoned another four Skeletal Warriors.

Now there are a total of 72 Skeletal Warriors, forming a massive army.

The efficiency has become higher than before.

The Skeletal Warriors mowed everything down in their wake.

In addition, Lin Moyu is already very familiar with the dungeon, so the progress was faster.

In just 45 minutes, Lin Moyu saw an old friend.

"Wake up."

The Goblin King woke up due to the blades of the Skeletal Warriors.

When it stood up, it had already lost more than half of its health.

Fire burst out from its mouth, but then Fire Blaze descended and interrupted its skill.

Within 30 seconds, the Goblin King collapsed on the ground.

[Killed Goblin King, EXP +40,000]

[Obtained bronze rank weapon, Goblin King's Bow]

[Obtained elementary monster core]

[Goblin King's Bow: bronze rank, strength +10, agility +10, increases the power of bow-type skills by 3%, usable after level 12]

There were drops not unlike before. Lin Moyu just took a glance at them, and then stored them in the storage space.

The Goblin King's eyes are filled with unwillingness and frustration, as if it had recognized Lin Moyu.

"Don't be upset. After a few more days, I won't be coming again."

"You're going to be killed anyway. It doesn't really matter who kills you, right?"

"Besides, if it's me, you will be killed faster and suffer less."

"In fact, I don't want to kill you either. But there's no other way. I need to raise my level."

Lin Moyu spoke softly to the Goblin King, regardless of whether the Goblin King could understand or not.

Just like he predicted, Lin Moyu predicted really couldn't level up this time.

20% remain until level 14.

He will be able to level up next time.

Lin Moyu exited the dungeon and quickly left the vicinity.

In the afternoon, a group from Dynasty Guild arrived at the entrance of the dungeon.

The junior guild master Wang Zihao didn't come, nor did the people who partied up with him yesterday come.

The group from Dynasty Guild didn't come to raid the dungeon, but to investigate what happened yesterday.

There were no news from Zhao Ji, nor the dozen-plus people that were with him.

The other people who were present at that time also disappeared, as if vanishing into thin air.

The people of Dynasty Guild practiced restraint this time, not doing anything excessive.

Even when questioning others, they were quite polite.

In the end, the answers they got were all 'I don't know'.

Since everyone present only arrived today, they know nothing about what happened yesterday.

The people of Dynasty Guild investigated for a long time, yet weren't able to learn much.

In the end, they could only retreat.

News that Dynasty Guild sealed off the dungeon yesterday spread somehow, causing strong protests from many people.

Class User Association issued a warning to Dynasty Guild today.

If they do it again, the consequences will be very serious.

The dungeon is a resource of all mankind, not something that their guild can arbitrarily seal off.

Let alone one or two days, even one hour is out of the question.

At the headquarters of Dynasty Guild, guild master Wang Wei chewed out Wang Zihao.

"Did maggots eat your brain?"

"How did you come up with the idea of sealing off the dungeon?"

"Did you think Dynasty Guild can do whatever it wishes? That Shenxia Empire and Class User Association are just for show?"

"If you want to die, go die by yourself. Don't drag Dynasty Guild down with you."

"In the next couple of days, don't go anywhere. Stay in the guild. Anyway, your level is already high enough. Just wait quietly for the great examination."

Wang Wei scolded Wang Zihao.

Wang Zihao lowered his head and remained quiet. After restraining himself for a while, he finally asked, "What about Zhao Ji and the others?"

"People were already dispatched to investigate things. You don't need to concern yourself with this. To be able to make so many people disappear; this isn't something that you can handle."

Wang Wei waved his hand and had his son leave.

Anyway, Wang Zihao is already level 16. This is fully sufficient to enter Xiajing Academy.

Even if he is put under house arrest and can't raise his level in the following couple of days, it won't have a big impact.

## Chapter 33: Drawing Monsters; Slaughtering Monsters En Masse; Instantly Killing The Boss

33 - Drawing Monsters, Slaughtering Monsters En Masse, Instantly Killing The Boss

At night, Lin Moyu entered the dungeon for the fourth time.

This time, the number of Skeletal Warriors under his control has increased to 76.

After the first three raids, he already knows the dungeon like the back of his hand.

When he entered the dungeon, a brand-new idea popped up in his mind.

"I can give it a try."

"If it proves feasible, it can also be used in other dungeons in the future."

According to his will, the Skeletal Warriors rushed into the mine like a tide.

A large number of monsters in the mine were drawn by the Skeletal Warriors. However, the Skeletal Warriors didn't fight them, but kept running toward the depths of the dungeon.

Thereupon, a strange scene took place in the dungeon.

A large number of Skeletal Warriors are running in front, followed by a huge number of Goblin-type monsters.

Lin Moyu followed behind the Goblin-type monsters.

Lin Moyu is also running, following behind the group with a smile on his face.

After the Skeletal Warriors reached bronze rank, the maximum distance they can be from him has increased to 1,000 meters.

He only needs to stay within a range of 1,000 meters.

With close to 100 monsters on their tail, the Skeletal Warriors ran all the way to the place where the Mine Wolf King is located.

The arrival of the Skeletal Warriors awakened the Mine Wolf King.

The Mine Wolf King began attacking the Skeletal Warriors, but the Skeletal Warriors ignored it.

They waited until the monsters chasing them caught up.

Following Lin Moyu's command, the range of activity of the Skeletal Warriors became smaller and smaller.

The range of monsters also got smaller and smaller, drawing them together.

At this moment, Lin Moyu appeared at the entrance of the huge tunnel.

The Skeletal Warriors suddenly launched an attack, killing a Goblin Mine Guard in an instant.

Subsequently, the corpse was thrown into the air.

Corpse Explosion!

Lin Moyu, who has been waiting for this all along, launched his skill, and the corpse detonated.

There was a loud rumble.

The huge tunnel shook, and countless stones fell from the rock walls.

Droves of Goblin-type monsters died.

Notifications flooded Lin Moyu's mind.

The notifications overwhelmed his mind, giving him not time to read them.

A large number of new corpses were produced. Lin Moyu launched Corpse Explosion repeatedly, using it ten times in a row.

Ten blasts sounded, and a layer of the dungeon's ground was scraped off.

This time, the Mine Wolf King didn't run away, but died directly in the explosions.

At this moment, the iron gates in the tunnel opened, and a large number of Mine Wolves ran out.

Lin Moyu realized that there is no need for the Mine Wolf King to run back and roar. The gates will open automatically.

"Draw them into the mining pit."

At Lin Moyu's command, the Skeletal Warriors ran toward the mining pit.

What is there inside the mining pit?

In addition to some Goblin-type monsters, there is also the Goblin King.

The Skeletal Warriors, with more than 100 Mine Wolves in tow, ran forward, with Lin Moyu following behind.

At this moment, there was light on his body, indicating that he leveled up.

The mass detonation enabled him to reach level 14.

It has only been five minutes since he entered the dungeon.

This speed is outrageous.

The Skeletal Warriors ran down along the mining pit's path, drawing the monsters in the pit.

By the time they reached the bottom of the pit, there were 200-plus monsters following the Skeletal Warriors.

Goblin-type monsters and Mine Wolves huddled together.

When the Goblin King woke up, its eyes filled with confusion.

What's going on here?

"I've come again."

Lin Moyu reached the bottom of the pit at this time.

The Skeletal Warriors stopped running and began to attack.

Berserk Shot!

They unleashed their skill, and their blades shone red.

Accompanied by a whimper, a Mine Wolf died in an instant.

The corpse was flung into the air, and then detonated!

Corpse Explosion!

Boom!

Boom!

Blares roared continuously, nearly causing the mining pit to collapse.

His EXP increased rapidly.

Notifications overwhelmed his mind.

A large amount of materials and items entered his storage space.

The Goblin King just awakened, and didn't even have time to stand up.

Battered by the force produced by launching Corpse Explosion a dozen-plus times in succession, the Goblin King collapsed on the ground with a loud thud.

This time its death was more tragic, but also more straightforward.

Even if it suffered pain, it was only for a few seconds.

Seeing the look of unwillingness plastered on the Goblin King's face, Lin Moyu sighed lightly.

"After another three times, I won't be coming again."

His words imply that it has to die three more times.

"Anyway, you're already used to it. People come to kill you every day."

[Killed Goblin King, EXP +40,000]

[Obtained bronze rank weapon, Goblin King's Stave]

[Obtained elementary monster core]

[Goblin King's Stave: bronze rank, spirit +10, physique +10, increases the power of Mage-type skills by 3%, usable after level 12]

He looked at his EXP -- level 14 (60%).

Next time he'll be able to reach level 15.

After reaching level 15, the EXP requirement will be further raised.

It will be increased by at least 2 to 3 times.

"I can enter the dungeon at most three more times. If there is nothing unexpected, I should be able to reach level 16."

"However, I will only be able to judge things accurately once I reach level 15 and learn the EXP requirement for the next level."

At this point, the area outside the dungeon has resumed its usual liveliness.

Although, there are a bit fewer people, and they are all new faces.

Lin Moyu didn't see a single familiar face.

From the conversations that he overheard, he learned that people of Dynasty Guild have come here.

Evidently, Dynasty Guild hasn't received any useful information.

This time, Lin Moyu didn't leave the vicinity, but instead found a secluded place and began to meditate.

The number of Skeletal Warriors under his command has increased by four once more, reaching 80.

The four attributes of the Skeletal Warriors reached 4,600 points respectively, which is even higher than the attributes of the nightmare rank dungeon boss Goblin King.

Their only shortcoming is that their skill is not powerful enough.

Unlike the Goblin King, who has Flame Spout, a skill with super high destructive power.

The meditating Lin Moyu suddenly received a message from the Skeletal Warrior.

Someone is approaching.

## **Chapter 34: How Can You Ignore The Cooldown Period**

34 - How Can You Ignore The Cooldown Period?

"What is your level?"

Upon hearing a familiar voice, Lin Moyu opened his eyes and saw Xia Xue.

Xia Xue's delicate face is covered in dust, elemental aura billowing around her.

She evidently just went through battle, just came out of the dungeon.

She stared at Lin Moyu, her face filled with defiance.

Lin Moyu said flatly, "Level 14."

"What!" Xia Xue exclaimed, "How are you so fast?"

She partied up with others and cleared the ordinary rank Xihai Mine Dungeon two times in a row, raising her level from level 10 to level 11.

The two consecutive raids have exhausted her.

Even though Lin Moyu can go solo in the dungeon, it shouldn't be possible for him to raise his level so quickly.

Xia Xue could never have imagined that Lin Moyu was raiding the nightmare rank dungeon.

Lin Moyu didn't continue to answer Xia Xue.

Believe what you want.

According to her understanding of Lin Moyu, Xia Xue is aware that he wouldn't spout nonsense.

Since he said he is level 14, then he must be level 14.

The defiance in Xia Xue's eyes grew more and more intense.

The higher your level, the harder it is to continue to raise it.

On the first day of the novice dungeon, she reached level 5, while Lin Moyu reached level 7.

That was a difference of two levels

In theory, the distance between them should have narrowed.

So how come the distance between them has actually widened?

Xia Xue snorted, "I won't admit defeat."

With that, she turned and walked away.

Lin Moyu looked at her, dumbfounded.

In the past few years, he has always been suppressing Xia Xue.

Before the class awakening ceremony, he was always first in all subjects, while Xia Xue was second.

After the class awakening ceremony, he blazed through the novice dungeon and raised his level like crazy, leaving Xia Xueluo behind again.

Lin Moyu is aware that Xia Xue has been bitter all along and has been competing with him all this time.

Whether it is before or after the class awakening ceremony, things have remained the same.

He has never given her a chance.

All of a sudden, he saw Xia Xue enter the dungeon with several other people.

"Strange, didn't she just come out?"

"How did she enter again so quickly?"

"What about the dungeon's cooldown period?"

Lin Moyu saw something incredible.

He has tried both ordinary rank difficulty and nightmare rank difficulty, and they both have the cooldown period.

After clearing nightmare rank difficulty, he is also unable to enter ordinary rank difficulty before the 12 hours are up.

How was Xia Xue able to get in again so quickly?

Lin Moyu is certain that Xia Xue just came out of the dungeon a short time ago.

The aura of combat on her hasn't dissipated yet.

And there is also the aura of the Goblin King.

It is unmistakable.

While he meditated, Lin Moyu had the Skeletal Warrior watch over him.

Two hours later, Xia Xue emerged from the dungeon.

She cleared the dungeon.

After coming out of the dungeon, Xia Xue couldn't help but turn her head and take a look at Lin Moyu.

Lin Moyu saw exhaustion in her eyes.

This should be overdraft caused by continuous combat.

Just a few minutes later, Xia Xue found another party and entered the dungeon again.

Lin Moyu found that she used an item before entering the dungeon.

There was a faint glow on her body.

Lin Moyu guessed that this item enabled Xia Xue to ignore the dungeon's cooldown period.

"If I get the chance, I can ask her." Lin Moyu mused, then entered the state of meditation once more.

His spirit force was gradually being restored.

As his level rose, his spirit force attribute was highlighted.

Now his basic spirit force has reached 700 points, far higher than his other attributes.

High spirit force is a characteristic of Mage-type classes.

But in turn, the other attributes are very low.

The distribution is quite unbalanced.

Every class has its characteristics. Lin Moyu has no choice but to accept this reality.

A few hours later, the sounds of slightly heavy footsteps entered his ears.

The exhausted Xia Xue walked up to Lin Moyu and sat down.

Even without the cooldown period restriction, she can't continue to raid the dungeon.

Her body can't take it anymore.

"I'm tired as hell."

Xia Xue slumped on the ground, not paying attention to her image.

She is not afraid of the Skeletal Warrior next to Lin Moyu.

Lin Moyu is her classmate, after all. There is nothing to fear or worry about.

After taking a break and catching her breath, Xia Xue regained some energy, "I am already level 12. I will soon catch up to you."

If raids the ordinary rank dungeon with a party, it will take her at least three or four raids to reach level 13.

It will be difficult for her to catch up with him.

Lin Moyu looked at the exhausted Xia Xue, "Aren't you tired?"

Xia Xue snorted, "Of course I'm tired. Even moving my hands feels like a chore."

"Then why?"

Xia Xue has a disgruntled look on her face, "Why? After suppressing me for so many years, you still have the gall to ask me why? I will surely surpass you."

"Just because of that?"

Lin Moyu didn't expect Xia Xue's grudge to run so deep. If he had known this before, he would have let her take first place in school.

Xia Xue looked at the sky, "Of course not. I'm going to apply to Xiajing Academy. You're also going, right? So you should understand."

To apply to Xiajing Academy, you must be at least be level 14, preferably level 15, while level 16 would be the safest bet.

There is a little over two days left. Lin Moyu thinks that she will at most reach level 14.

Unless...

Lin Moyu whispered, "You should raid the nightmare rank dungeon, so you can level up faster."

"Are you kidding me? It's not easy to enter an elite party. Elite parties are looking for level 16 or 17 class users. I'm only level 12. No one will want me."

Xia Xue looked at Lin Moyu askance, as if saying: Do you understand now?

The elite parties looking for people at the dungeon's entrance, in addition to level and class requirements, they also have equipment requirements.

Unless you are a Healer support, the requirements won't be lowered.

Requirements for damage dealer-type classes like Xia Xue's are the highest.

Seeing Lin Moyu remain silent, Xia Xue continued, "So that is why I've been grinding in the ordinary rank dungeon. It should be no problem for me to reach level 14. And with some effort, I might even be able to reach level 15."

After listening to her words, Lin Moyu finally asked, "How can you ignore the cooldown period?"

## **Chapter 35: I'll Take You Dungeon Grinding; You Don't Need To Do Anything**

35 - I'll Take You Dungeon Grinding, You Don't Need To Do Anything

Xia Xue showed a look of surprise, "You don't know?"

Then she giggled abruptly, "You actually don't know. So there are things you don't know."

Lin Moyu didn't speak. He just quietly watched Xia Xue.

Is it that funny?

He is not an encyclopedia, so there are many things he doesn't know.

As if she has found something fun, a mischievous smile appeared on Xia Xue's face, "Say something nice, and I'll tell you."

Lin Moyu turned his head and closed his eyes.

To have him say something nice, that is impossible.

Seeing Lin Moyu's reaction, Xia Xue lost interest.

"What a fool, can't even take a joke."

"Mages are supposed to be flexible, so why are you so rigid?"

"I really suspect you're a fake Mage."

"Alright, I'll tell you. It's because I used a Cooldown Charm."

Lin Moyu searched his memories for information on the Cooldown Charm, yet found that he has no knowledge regarding it.

He doesn't even know what a charm is.

He hasn't learned this at school.

Xia Xue said, "The Cooldown Charm can cancel a dungeon's cooldown period, allowing you to enter the dungeon repeatedly."

As she explained, Xia Xue took out a palm-sized thing and handed it to Lin Moyu, "This is it."

The charm looks like a gem, shimmering with enchanting light on the surface, engraved with abstruse runes.

Faint light appeared on his fingertip.

Thanks to Detection, Lin Moyu gleaned into the charm's information.

[Elementary Cooldown Charm]

[No. of uses: 7/10]

[Introduction: can cancel the cooldown period of dungeons; only valid for dungeons below level 20.]

Such a thing actually exists?

Lin Moyu felt that he is really ignorant and inexperienced.

Xia Xue said, "I use this charm to enter the dungeon continuously. Do you understand now?"

With this thing, he can enter the dungeon repeatedly, raising his level quickly.

Lin Moyu asked in a low voice, "Is this thing expensive?"

Xia Xue replied, "I don't know either. My father gave it to me and told me to use it."

"But it should be quite expensive. My father's expression at that time was a bit distressed."

Xia Xue is from a wealthy family and has access to many resources.

Xihai City's Xia Family is well-known throughout the entire Jiangning Province.

Since even her father considers it expensive, then it's obviously really valuable.

After reaching this conclusion, Lin Moyu gave up the idea of obtaining such a charm.

Xia Xue said, "In these two days, I have to use all the remaining seven dungeon reset chances."

"Coupled with my cooldown period, I will have to go into the dungeon at least nine more times, all to ensure that I can reach level 15."

"God, I'll be beyond exhausted."

Xia Xue has a worried and bitter look on her face. She seems to have somewhat regained the appearance someone of her age should have.

She no longer has the appearance of a high and mighty young lady.

After some thought, Lin Moyu said, "I can take you dungeon grinding. I can guarantee you will reach level 15, and you won't have to do anything."

Xia Xue's eyes lit up. How could she forget. The guy next to her is a freak who can go solo in dungeons.

If she follows Lin Moyu into the dungeon, she won't have to lift a finger.

And besides, in a party of two, she will receive more EXP than in a party of three.

She not only won't get tired, but will also gain more EXP. This is great.

The only issue is that she won't be able to catch up to this guy.

But even if she doesn't go with him, will she be able to catch up to him?

Xia Xue isn't sure.

After considering it for a moment, Xia Xue made up her mind.

If she can't catch up for the time being, then so be it. She first has to make sure that she enters Xiajing Academy.

Anyway, she just started on the class path. The future holds many possibilities. Sooner or later, she'll catch up to him.

"Okay, let's do it. You'll take me dungeon grinding, and I'll share my charm with you."

Lin Moyu knew that Xia Xue would definitely agree to it. After all, unless she were an idiot, she wouldn't pass such a chance up.

In this way, he will be able to enter the dungeon a few more times

Although there will be less EXP per raid. But since the number of raids will increase, the overall harvest will be greater.

This is a win-win situation.

Xia Xue said, "Then let's not waste time, let's enter the dungeon now."

Lin Moyu didn't budge, "There are two more hours left until my cooldown period is over."

With two hours left, using a dungeon reset chance now wouldn't be worthwhile.

Xia Xue easily understood this, "Alright, then let's wait two hours. I'll take a nap first. Wake me when the time is up."

She lay down as she spoke, and then fell asleep in no time.

Sleeping this defenseless in the wilderness is very dangerous.

However, Xia Xue slept peacefully because Lin Moyu is by her side.

Despite how her rivalry with him, she knows Lin Moyu's character quite well. This is how she is able to be so relaxed.

Xia Xue curled up her body. She slept soundly, a smile on her lips.

After ordering the skeleton to guard them both, Lin Moyu continued to meditate to restore his spirit force.

Two hours later, Lin Moyu's cooldown period was over.

"Get up."

Lin Moyu woke Xia Xue.

Xia Xue rubbed the sleep out of her eyes, "That was quick."

Xia Xue got up and stretched her body lazily, revealing her belly button.

She displayed her beautiful figure at this moment.

Xia Xue is tall and slender, standing at a height of 1.7 meters, and has a shapely figure.

Compared to Lin Moyu, who is 1.8 meters tall, she seems only slightly shorter.

With the two standing side by side, they look like they were made for each other.

However, the Skeletal Warrior standing next to them spoiled the picture a bit.

After sleeping for two hours, Xia Xue's spirit was restored by a lot, and most of her fatigue was dispelled.

The two formed a party, with Lin Moyu as the party leader, and then went to the dungeon's entrance together.

Xia Xue used the Elementary Cooldown Charm to dispel her cooldown period.

Faint light appeared on her body, and Xia Xue nodded to Lin Moyu, "Alright, let's go in."

Lin Moyu started the dungeon, and then selected nightmare rank difficulty.

Xia Xue's countenance changed greatly, "Did you make a mistake?"

Before her words have fallen, the two had already disappeared from the dungeon's entrance.

## **Chapter 36: This Is What Is Called Efficient**

36 - This Is What Is Called Efficient

The heavy and oppressive atmosphere left Xia Xue breathless.

Seeing the dreadful monster walk back and forth behind the large iron gate, her slender legs went soft.

Thanks to Detection, the attributes of the enhanced elite monster were clearly displayed.

Whether it's in terms of attributes or appearance, it is completely different from the monsters in the ordinary rank dungeon.

Xia Xue looked at Lin Moyu in horror, "This is nightmare rank difficulty. Did you make a mistake?"

Lin Moyu responded indifferently, "I didn't."

He didn't make a mistake...

Does this guy really think the two of them can clear the nightmare rank dungeons?

Merely seeing the monster's dreadful attributes made Xia Xue's teeth chatter.

"Are you crazy? We're going to die." Xia Xue exclaimed.

Lin Moyu didn't respond, nor did he care about Xia Xue's current frame of mind.

"In a while, we will be running."

What?

Running?

Xia Xue was momentarily unable to react.

The scary enhanced elite monster has set its sights on her.

Xia Xue felt the fear of death.

If it weren't for her fear of Lin Moyu making fun of her, she would try to escape the dungeon at this moment.

At this time, a large number of Skeletal Warriors appeared in the room.

At the same time that Lin Moyu released the Skeletal Warriors, he also summoned new Skeletal Warriors.

In the blink of an eye, a total of 80 Skeletal Warriors occupied half of the room.

Then, under Xia Xue's terrified gaze, Lin Moyu opened the gate to the dungeon.

The Skeletal Warriors charged toward the tunnel, as if an army going out on an expedition.

Lin Moyu is already quite familiar with this.

The enhanced elite monster behind the iron gate chased after the Skeletal Warriors, disappearing in an instant.

"Follow me."

Lin Moyu started running.

Xia Xue was stunned. What's going on?

Can you really raid a dungeon like this?

"Hurry up! You're not scared, are you?!"

Lin Moyu's voice came from the tunnel.

Xia Xue stomped her foot, "I'm not scared. I won't lose to you."

She quickly caught up with Lin Moyu, feeling a surge of defiance in her heart.

An enormous behemoth advanced forward in the dungeon.

The Skeletal Warriors ran at the forefront, followed by a large number of enhanced elite monsters.

At the back were Lin Moyu and Xia Xue.

Xia Xue asked while running, "What on earth are you doing?"

Lin Moyu responded lightly, "Dungeon grinding."

Lin Moyu answered in a matter-of-factly tone, leaving Xia Xue speechless.

After running for a while, they saw the Mine Wolf King leader.

The nightmare rank Mine Wolf King is larger than the ordinary rank Mine Wolf King.

Xia Xue doesn't need to use Detection to know that this guy is super strong.

At this time, the Skeletal Warriors ran up to it.

The Mine Wolf King attacked the Skeletal Warriors. The Skeletal Warriors, on the other hand, just kept running and didn't fight back.

"Why don't they fight back?"

Xia Xue was surprised by the durability of the Skeletal Warriors, feeling strange inside.

Lin Moyu commanded the Skeletal Warriors, "Get ready."

When the monsters behind them caught up, several Skeletal Warriors suddenly activated their skill at the same time.

In an instant, they killed an enhanced elite monster.

Then, the corpse of the enhanced elite monster was thrown into the air.

At the same time, Lin Moyu raised his hand.

Corpse Explosion!

Kaboom!

There was a loud bang, startling Xia Xue.

EXP soared like crazy, and notifications poured in.

In the blink of an eye, Xia Xue's EXP increased by 30%.

Xia Xue was dumbfounded. Dungeon grinding can be done this way?

What's going on?

Boom!

Boom!

A series of blares rose.

The Mine Wolf King, which looked dreadful in her eyes, collapsed on the ground with a wail.

"It's dead."

"It was killed so easily?"

She recalled a time she encountered the ordinary rank Mine Wolf King. She was in a party of three, with each party member being assigned a role.

After making proper arrangements, only then did they take it on.

And it took them more than 20 arduous minutes to deal with it.

Yet it took Lin Moyu only a moment.

Xia Xue felt her body turn numb.

She suddenly recalled that this is not ordinary rank difficulty, but nightmare rank difficulty.

The same leader in nightmare rank difficulty is several times tougher than in ordinary rank difficulty.

However, it took Lin Moyu only a moment to kill it.

A tingling sensation rose from the soles of Xia Xue's feet to the top of her head, and she trembled as if electrocuted.

Is this really a dungeon raid?

Isn't it more like a stroll in your backyard?

Lin Moyu waved his hand, not paying attention to her state, "Let's go."

The Skeletal Warriors ran toward the mine pit.

Xia Xue snapped out of it and promptly followed Lin Moyu.

"You, have you been going solo in the nightmare rank dungeon all along?"

She asked this question with difficulty.

If she hadn't seen it with her own eyes, Xia Xue would never have believed it.

In fact, if someone stated that a level 10 kid was able to go solo in the nightmare rank dungeon, no one would believe it.

After all, this is something that has never happened before.

Lin Moyu replied, a calm look on his face, "Yes."

Xia Xue continued to ask, "Starting from level 10?"

"That's right."

She received an affirmative answer from Lin Moyu.

Xia Xue finally understood how he was able to raise his level so fast.

By the time she left the novice dungeon, Lin Moyu had probably already entered the mine dungeon by himself.

And it is nightmare rank difficulty to boot.

If he weren't limited by the dungeon's cooldown period, Lin Moyu would likely have been able to reach level 20.

This efficiency is just too high.

It has only been about 10 minutes since they entered the dungeon, yet they have already reached the final boss.

When she formed a party with others and raided the ordinary rank dungeon, it took her at least over an hour to reach this place.

The giant Goblin King exudes an intense pressure.

The Skeletal Warriors rushed over as if hornets, with a bunch of monsters in tow.

Following a dozen-plus ear-splitting sounds, things quieted down.

Light appeared on Lin Moyu's body, indicating that he leveled up.

## **Chapter 37: What A Weird Guy; But That's A Little Cute**

### 37 - What A Weird Guy, But That's A Little Cute

Even the final boss was killed in an instant. This is the second time she experienced such a scene.

Xia Xue turned completely numb.

She suspects that the Goblin King is Lin Moyu's son, willingly offering its neck to provide him free EXP.

When she saw the level up light appear on Lin Moyu's body, she exclaimed, "Have you leveled up again? Level 15?"

Lin Moyu nodded. He has indeed reached level 15.

Xia Xue creased her eyebrows. She is 30% of EXP away from reaching level 13.

The gap between her and Lin Moyu has widened again.

She really can't accept it.

[Killed Goblin King, EXP +25,000]

[Obtained bronze rank weapon, Goblin King's Sword]

[Obtained elementary monster core]

After seeing the notifications, Xia Xue sighed, "Too bad the stave hasn't dropped."

"Do you want the stave?" Lin Moyu asked.

Xia Xue made an uh-huh sound, "The Goblin King's Stave is a great weapon for Mages before level 20."

"Although I can buy it at the trade office, but I don't want to ask my father for money."

Suddenly, a shadow flew toward her. Xia Xue instinctively extended her hand and caught it.

[Goblin King's Stave]

This is the stave she wants.

"Here you are." Lin Moyu said lightly.

It's just a stave.

Xia Xue was dazed for a while before saying, "Thank you."

Then a shade of doubt overtook her face, "Why don't you use it yourself?"

Lin Moyu took out the Goblin King's Magic Book and said, "I'm using this."

Although magic books and staves are both Mage-type weapons, but most Mages prefer staves.

After all, in addition to being formidable, staves can also be used as clubs to attack or defend.

Magic books don't have such a function.

Relatively speaking, staves are more practical.

This is a conclusion that everyone supports. Xia Xue was puzzled, "But staves are more practical than magic books."

Lin Moyu shook his head, "I don't like staves."

...

Xia Xua couldn't refute this reasoning.

So it's do to this reason.

So it seems.

And besides, she hasn't seen Lin Moyu take out the magic book.

"Perhaps the magic book provides such a slight bonus that he doesn't even care about it."

Oblivious of Xia Xue's misgivings, Lin Moyu checked the changes to his attributes.

[Name: Lin Moyu]

[Class: Necromancer (unique)]

[Level: 15 (8.00%)]

[Strength: 200]

[Agility: 200]

[Spirit: 800 (+20)]

[Physique: 200 (+20)]

[Equipment: Goblin King's Magical Book, Robe of Knowledge]

[Summon space: 84/150, Skeletal Warrior (84)]

[Talents: Comprehensive Amplification (level 2, unique)]

[Passive skills: Damage Transfer]

[Active skills: Soul Blaze (level 15), Summon Skeletal Warrior (level 15), Corpse Explosion (level 1)]

[Comprehensive Amplification (level 2): strengthens the effects of all skills by 20 times.]

[Damage Transfer: all damage taken by the host will be borne by the summons.]

[Soul Blaze (level 15): deals damage to target's soul; its power depends on your spirit force and the skill's level.]

[Summon Skeletal Warrior (level 15): summons a Bronze Skeletal Warrior.]

[Corpse Explosion (level 1), detonate a corpse and deal 10% of the corpse's health as damage to enemies within a radius of one meter.]

After finally reaching level 15, he now has a much greater chance of entering Xiajing Academy.

If he can reach level 16, that would be even better. But if he can't, it shouldn't be a big issue.

After reaching level 15, the EXP requirement has increased once more.

Lin Moyu expected to be able to raise his EXP to around 12%, but the final outcome was only 8%.

With Xia Xue getting a share of the EXP, it is indeed much slower.

Lin Moyu calculated in his mind.

With Xia Xue's Elementary Cooldown Charm, the two can raid the dungeon three times in a row.

At his speed, the three raids will take half an hour.

After that, taking the cooldown period into account, he will be able to raid the dungeon two more times.

In summary, he can raid the dungeon another five times.

Of course, he will bring Xia Xue for the last two raids, as well.

Since they started together, it would be unconscionable of Lin Moyu to not take her along all the way.

"A party of two, five trips, this should be enough to reach level 16."

Looking at the Goblin King lying on the ground, Lin Moyu said faintly, "I'm sorry, but I may have to kill you five more times."

Xia Xue was surprised to see Lin Moyu talking to the Goblin King.

"Why are you talking to the boss? It won't understand you."

Lin Moyu responded in a low voice, "I just feel like it. As for whether he understands me or not, it doesn't matter."

Xia Xue was baffled, "Then why do you apologize to it?"

Lin Moyu didn't give an answer to Xia Xue's question.

For some reason, Xia Xue thought of the scene where Lin Moyu apologized to the boss moments ago. She suddenly felt that Lin Moyu has a cute side to him.

To apologize to a boss so earnestly, that's something that no one would do.

After all, dungeons are there to be raided.

And bosses are there to be hunted.

When it comes to a high-level dungeon boss, although it is killed countless times, but there are also countless class users dying at its hands.

All in all, there's nothing to apologize for.

"What a weird guy. But that's a little cute."

Xia Xue suddenly burst out into laughter.

Lin Moyu gave her a strange look, "Let's go out, and then continue."

"Okay, let's continue."

## **Chapter 38: If Possible, Become The Provincial Top Scorer**

38 - If possible, become the provincial top scorer.

After exiting the dungeon, Xia Xue immediately used the Elementary Cooldown Charm.

Just a few seconds later, the two entered the nightmare rank dungeon once more.

The second time she went in, Xia Xue seemed like a different person.

This time, she ran excitedly alongside Lin Moyu.

Her excited expression made Lin Moyu feel a little strange.

Why is she so excited?

Isn't it just herding monsters together, then blowing them up?

It's just a low level dungeon. It's nothing special.

Xia Xue caught the strange look in his eyes.

Xia Xue's temper flared up, "What are you looking at? Haven't you seen a beautiful woman before?"

In fact, he has. He has been seeing her for a few years now.

It has to be said, but she is indeed quite beautiful.

If Xia Xue and Ning Yiyi were to be compared, it would be difficult to come to a verdict. After all, they each have their strengths and weaknesses.

One is petite and cute.

The other is tall and proud.

They each have their unique characteristics.

However, Lin Moyu doesn't care much about it one way or the other.

Ning Yiyi is his friend, while Xia Xue is his classmate.

10 minutes later, the majestic nightmare rank boss, the Goblin King, collapsed again in front of Lin Moyu.

It has a look of unwillingness in its eyes, bitter about the way it died...

Lin Moyu uttered softly, "Four more times to go."

The two raided the dungeon another four times. From start to finish, it took them less than an hour.

Xia Xue depleted the charm's uses.

The charm turned dull and dark.

It became no different from an ordinary stone.

But if you take a closer look, you will be able to see some runes inscribed inside.

Xia Xue put the Cooldown Charm away, "The charm needs to be recharged."

The Cooldown Charm is not a disposable item.

After its power is depleted, charging is required.

However, according to Xia Xue, the charging process is very complex.

A high-level Alchemist is required to complete the process.

As for how high their level has to be, she doesn't know it either.

After four consecutive raids, Xia Xue reached level 14 (20%).

If she clears the dungeon another two times, she will definitely be able to reach level 15.

At this time, Lin Moyu is still at level 15, with 85% of EXP.

After level 15, when a party of two clears the dungeon once, EXP can only be raised by 26%.

The efficiency has decreased by several times.

There is still one and a half days left before the great examination, which is enough for them to raid the dungeon two more times.

Xia Xue has an excited expression on her face, "If I reach level 15 before the great examination, I'm sure I'll be able to enter Xiajing Academy."

"Dummy Lin, are you about to level up?"

Lin Moyu nodded, "I am."

Xia Xue temporarily forgot about her rivalry with Lin Moyu, "When you reach level 16, and I reach level 15, we will have two students of Xihai City admitted into Xiajing Academy this year. I guess this will be like a dream come true to Principal Lu."

To have their students admitted into Xiajing Academy, this is great honor to every school and principal.

It is common sense that it is difficult to enter Xiajing Academy.

Only prodigies can enter Xiajing Academy.

Only by entering Xiajing Academy, only then can you be called a prodigy.

Xiajing Academy only admits 1,000 people per year; 1,000 people from the entire Shenxia Empire.

And many of the slots are occupied by large cities and great families.

It is difficult for people from small cities to compete with the talents from great families.

Last year, when Lin Mohan was admitted into Xiajing Academy, Lu Yun celebrated for several days.

Su Qianxing entered Xiajing Academy and became a famous genius a few years ago, yet his name still lingers on Lu Yun's tongue to this day.

In summary, it is great honor to be able to enter Xiajing Academy.

The two found a deserted place and sat down on the ground.

Since the power of the Cooldown Charm has been depleted, they can only wait for the dungeon's cooldown period to pass.

Xia Xue asked, "Dummy Lin, why don't you try becoming the top scorer?"

Lin Moyu turned his head, "The provincial top scorer?"

"Mhm." Xia Xue said, "If you become the provincial top scorer, you can earn many points. Points are very useful in Xiajing Academy."

"The most crucial thing is that you will gain the opportunity to join Chuangshen Institute."

Lin Moyu recalled Ning Yiyi saying that points are more useful than gold coins in Xiajing Academy.

And Ning Yiyi also mentioned Chuangshen Institute.

"Do you know anything about Chuangshen Institute?"

Lin Moyu hopes to get some information about Chuangshen Institute from Xia Xue.

Ning Yiyi just mentioned the name and didn't go into detail.

As for the details, he will naturally learn them once he arrives at Xiajing Academy.

Xia Xue replied, legs crossed, "I don't know much, either. I just heard my father mention it."

"Chuangshen Institute should be the most outstanding institute in Shenxia Empire."

"Xiajing Academy gathers prodigies and elites of Shenxia Empire, while Chuangshen Institute gathers top prodigies."

"According to my father, it's difficult to enter Chuangshen Institute. He said I probably will have no chance."

"However, I think you have a chance. Give it a try."

"I heard that senior Su Qianxing is the only person of Xihai City to ever enter Chuangshen Institute."

Xia Xue looked at Lin Moyu with a dazzling shade in her eyes. She really feels that Lin Moyu has a chance.

By using an unprecedented method, Lin Moyu took her to raid the nightmare rank dungeon.

This was a complete eye-opener to her.

She is no longer able to associate the knowledge she has learned with Lin Moyu's class.

"If there is a chance, I will give it a try."

Lin Moyu stated in a low voice. He must go to Xiajing Academy. After all, it is where his sister, Lin Mohan, is.

If there is a chance, he will also go to Chuangshen Institute and give it a try.

Xia Xue's eyes suddenly lit up, and she pointed to the dungeon's entrance, saying, "Isn't that Gao Yang?"

Gao Yang is at the dungeon's entrance, evidently searching for a party.

Xia Xue launched Detection and chuckled, "You can't tell, but this dummy has reached level 11. It's a shame, but as a Knight, it won't be easy for him to find a party."

Knights are required to raid the dungeon, and they need to be of a certain level.

A level 11 Knight can't deal with the monsters in the dungeon.

Even if it's the ordinary rank dungeon, it requires a Knight to be at least level 13.

As expected, Gao Yang couldn't find a party, a look of disappointment on his face.

Lin Moyu opened his mouth to say, "Let's bring him along."

Xia Xue giggled, "Fine with me."

## Chapter 39: Gao Yang's Shamelessness

39 - Gao Yang's Shamelessness

Xia Xue called Gao Yang over.

Gao Yang's eyes turned quickly, revealing a meaningful smile.

"You two..."

Xia Xue said coldly, "Shut up, or I'll tear your mouth apart."

Xia Xue is renowned for her arrogance.

Only when she's alone with Lin Moyu, only then will it be a little restrained.

After all, Lin Moyu is even more frigid. If she gets any more arrogant, the two won't be able to talk with each other anymore.

At this moment, faced with Gao Yang, her bad temper was fully uncovered.

Gao Yang was startled, then stroked his head, "It was a joke, a joke. Don't take it to heart."

Xia Xue said, "You don't need to look for a party anymore. When our cooldown period is over, we'll take you to raid the dungeon with us."

"This way, you'll be able to reach level 12 before the great examination."

Gao Yang let out an excited howl, "Really? You two are my benefactors."

"You don't know this, but unless I have reached level 12, I won't be certain to enter the academy I want to go to."

"You're such good people."

Gao Yang made a greatly exaggerated expression.

Xia Xue furrowed her eyebrows, "If you keep this up, we won't take you with us."

Gao Yang gave in and became serious at once, "Young Lady Xia, rest assured. I will behave. If you point east, I won't go south. If you point north, I won't go east."

"Enough with the nonsense. Shut your trap." Xia Xue snorted, and a Fireball appeared in her hand.

If Gao Yang says anything stupid again, she won't hesitate to throw the Fireball at his face.

Gao Yang curbed in his tongue tactfully, "I shall obey. But I do wonder how long it will take for your cooldown period to pass."

Xia Xue calculated the time, "There are still 10 hours left."

10 hours might be a bit long. However, Gao Yang understands clearly that he may not be able to find a party within that time.

"Okay, you two have a rest. I'll go hunt some monsters."

"Moyu, you can do it! I believe in you! Sooner or later, you'll be able to win Xia Xue over."

He ran away after saying that.

Xia Xue stomped her foot in anger and threw the Fireball.

With a loud bang, the Fireball exploded behind Gao Yang's buttocks, splattering a few sparks on him.

Ah~

Scalded by the sparks, Gao Yang screamed and clasped his buttocks. He disappeared from view in the blink of an eye.

Xia Xue stomped her feet angrily, "This guy has a foul mouth on him. He deserves a beating."

Lin Moyu agreed with the sentiment. But at the same time, he has no choice but to admit that Gao Yang is a good guy.

When everyone else distanced themselves from him, only Gao Yang came forward to talk to him.

Even though he rarely responds, but Gao Yang was never put off.

Lin Moyu believes that his feeling is right.

Gao Yang is a real goofball.

10 hours later, Gao Yang joined the party.

Lin Moyu assumed the position of party leader, and then entered the nightmare rank dungeon.

When he entered the dungeon, Gao Yang was paralyzed with fear and plopped on the ground.

"Hey there... Young Lady Xia, Boss Lin, why have you brought me to the nightmare rank dungeon?"

Xia Xue snorted, "Enough with the nonsense. Just follow along. Anyway, you won't be fighting."

Ah?

Gao Yang showed confusion, panic, fear, and various other shades in his eyes.

Xia Xue wonders if she had the same reaction the first time she came in with Lin Moyu.

At that time, she seems to have been terribly scared as well.

Scared of losing his life, Gao Yang followed Xia Xue closely, sticking to her like glue.

This is nightmare rank difficulty. In here, he can be killed by a monster with a slap.

10 minutes later, Gao Yang looked at the dead boss, mouth agape.

"It... it..."

"It's dead?"

Xia Xue looked at him, "Do you mind shutting your mouth? There's drool coming out."

Gao Yang wiped his mouth, then suddenly hugged Lin Moyu's thigh, "Boss, Boss Lin, bring me along when you're going to do dungeon grinding in the future. I'll be your lucky charm."

Xia Xue said helplessly, "How can you be so spineless? You're a Knight, so act like one."

Gao Yang exclaimed, "What's the point of that? With Boss Lin around, there's nothing knightly to do."

At a loss for what to do, Xia Xue simply turned a blind eye to it.

Lin Moyu shone with faint white light.

He reached the next level.

Level 16 is more than enough to enter Xiajing Academy.

After another raid, Xia Xue will be able to reach level 15. At that time, she will have a good chance of being admitted to Xiajing Academy.

As for Gao Yang, his goal is Jiangning Academy, which is located in their province.

It is a pretty good academy, but with much lower entrance requirement than Xiajing Academy.

A level 12 Knight is qualified to enter Jiangning Academy.

The sun is setting, casting long shadows on the land.

Xihai City, on the southern city wall.

Several principals stood together on the city wall, looking at the wilderness outside.

"The children should be returning."

"Tomorrow is the day of the great examination. I told them that they must return today."

"I wonder how things will turn out during the great examination tomorrow."

"Most of them should be fine. It's just a matter of whether the academy they will be able to attend is good or bad."

"Old Lu, I heard that the two geniuses from your school are both aiming for Xiajing Academy."

Lu Yun looked into the distance, not blinking, "Yes, Moyu and Xia Xue both want to enter Xiajing Academy."

"The competition for entering Xiajing Academy is most intense. Based on criteria of previous years, level 15 provides great assurance, while level 16 is a sure bet."

"That's difficult."

"If it's level 15, there's still hope. As for level 16, only a handful of students can achieve that. In Xihai City, apart from Su Qianxing, only last year's Lin Mohan reached level 16."

"I wonder if there is any hope for these two kids."

Lu Yun nodded, "I believe in them."

Lin Moyu and Xia Xue: one is Lin Mohan's younger brother, while the other is the Xia Family's precious daughter.

Lu Yun feels that these two may be able to create a miracle.

Finally, someone appeared in sight.

A principal said, "It's a student of our No. 3 High School."

Thanks to Detection, the person's level was revealed.

[Xu Zhen, level 12, Sword Champion.]

The principal was very satisfied. Level 12 is enough to be admitted to a good academy.

Xu Zhen is a famous figure of No. 3 High School, known as one of its geniuses.

"Wan Ming of our No. 2 High School has returned."

[Wan Ming, level 13, Hawkeye Archer.]

As students returned one by one, the principals on the city wall used Detection.

This time every year, it is actually a competition between the principals.

A competition of honor.

## **Chapter 40: Teleporting Into The Provincial Capital; The Great Examination Begins**

40 - Teleporting Into The Provincial Capital; The Great Examination Begins

The principals competed with each other as the students returned.

So far, no one has gained a real advantage.

The students were mainly between level 10 and level 13.

Not a single level 14 has appeared yet.

"Xia Xue, Lin Moyu, Gao Yang, why haven't the three come back yet?"

As the sky grew dark, Lu Yun became a little anxious.

His expression became solemn.

The three should have come back by now.

"Did something happen?"

In the end, before the night fell completely, Lu Yun saw three figures.

"They're here. They're finally back."

Lu Yun's face immediately showed a smile.

So long as they are back safely, the results aren't important.

Detection flew out along with the wind.

[Gao Yang, level 12, Sword and Shield Knight]

[Xia Xue, level 15, Elemental Mage]

The principals revealed shocked expressions.

She really did it, Xia Xue really reached level 15.

She now has at least an 80% chance of getting into Xiajing Academy.

In fact, so long as her performance in the great examination is not bad, she will be able to enter the academy for sure.

The last one is Lin Moyu.

The principals are class users above level 40 and had their second class awakening, and they have surpassed Lin Moyu in terms of level by far.

Therefore, the Cloaking Badge is ineffective against them.

[Lin Moyu, level 16, Necromancer]

Hiss~

The principals drew in a sharp breath.

Lin Moyu reached level 16, one level higher than Xia Xue.

This speed is too fast.

"They must have been grinding in a dungeon."

"The sword and shield in Gao Yang's hands, as well as the stave in Xia Xue's hand, they are all weapons dropped by the Goblin King."

"However, since the drop rate of weapons is very low, it is not easy to collect the corresponding weapons and equipment."

"Maybe they were lucky."

When Lin Moyu and the others reached the city wall, Lu Yun said, "Enter the city and wait in the bus. When everyone is ready, you'll be sent back to school together."

Of the three, only Gao Yang responded to Lu Yun, saying loudly, "Yes, principal."

Lu Yun is in a good mood, smiling heartily.

In the competition between principals, he clearly won.

Furthermore, Lin Moyu and Xia Xue may both be able to enter Xiajing Academy. This is a great honor for Xihai City and No. 1 High School.

As the principal of No. 1 High School, his face lit up.

After all the students returned, Lu Yun also boarded the bus.

"Actually, for a teacher, the greatest gift is to see their students return safely."

"Have a good rest tonight. Tomorrow, come to school early in the morning. We will head for the examination site together."

The examination site of the great examination is not at the school, nor is it in Xihai City.

It is in the provincial capital, Jianghai City.

Xihai City is just a medium-sized city in Jiangning Province, and is not particularly eye-catching.

Jianghai City is the capital of Jiangning Province, and is a really large city.

The great examination is held in Jianghai City every year.

The examination will be conducted by examiners of Shenxia Empire.

At night, Lin Moyu proceeded to meditate.

He went about his business, not particularly concerned about the great examination.

He is confident he will be able to enter Xiajing Academy.

If he gets the chance, he also wants to fight over the position of provincial top scorer.

Previously, there was nothing he really wanted to pursue.

He just wanted to enter Xiajing Academy.

But after listening to Ning Yiyi and Xia Xue, he developed a slight interest in Chuangshen Institute.

The next morning, Lin Moyu woke up on time.

His spirit force was fully restored. Lin Moyu is in peak condition.

100 Skeletal Warriors quietly waited in the summon space, ready to be summoned at a moment's notice.

After being amplified, the four attributes of the Bronze Skeletal Warriors have reached 5,000 points respectively.

There is also the two great skills: Soul Blaze and Corpse Explosion.

All this left Lin Moyu calm and confident.

When he arrived at the school's sports field, Lin Moyu saw that there are many students gathered already.

Gao Yang vigorously waved his hand toward Lin Moyu, "Boss Lin."

Lin Moyu walked over and nodded toward Gao Yang.

Although Lin Moyu is ranked first, but due to his personality, he is not very popular among his schoolmates.

Moreover, due to his class -- Necromancer -- his schoolmates are somewhat afraid of him.

After a while, Xia Xue arrived, as well.

Xia Xue's popularity is much higher than Lin Moyu's, and so the schoolmates gathered around her.

Xia Xue, out of character, came to Lin Moyu's side, "Are you confident?"

Lin Moyu nodded slightly, which can be regarded as an answer.

Xia Xue broke into a smile, "Let's meet at Xiajing Academy."

"Okay."

Lin Moyu replied softly.

After everyone was present, Lu Yun walked over, "These are Teleportation Stones of the examination site. Everyone, take one."

"You can either crush the Teleportation Stone or use spirit force to stimulate it."

"The Teleportation Stone will take you to the examination site."

"Now let me remind you once again, your first priority during the examination is to ensure your safety."

"Your safety must come first."

"Alright, let's start the teleportation."

The students activated the Teleportation Stones. Accompanied by a stream of light, the students disappeared one after another.

After everyone else disappeared, Lu Yun also activated a Teleportation Stone and proceeded to the examination site located in Jianghai City.

The examination site is extremely spacious, and it looks like a giant square.

Examinees from a dozen-plus cities -- both large and small -- of Jiangning Province teleported over one by one.

A total of thousands of examinees will participate in the examination.

Teleportation light rose incessantly.

The examinees of Xihai City were all placed in the same area.

After an entire half hour, teleportation light disappeared at last.

Under the gazes of thousands of pairs of eyes, a tall tower descended from the sky.

"The Tower of Trials is opened!"

A majestic voice resounded throughout the square.

The gate on the first floor of the tower slowly opened with a rumble.

"Examinees, listen carefully to the rules."

"No sound is allowed. No questions are allowed. Failure to comply with this rule will result in immediate disqualification."
