

Lin Moyu didn't move the monsters in the dungeon.

There are many conditions that trigger a dungeon to be upgraded.

Cleaning up the monsters as quickly as possible is just one of the trigger possibilities.

[Fire Temple] and [Water God Garden] use this method to trigger the dungeon upgrade.

[Whirlwind Plain] The dungeon is different, it cleans up all the monsters on the whirlwind plain, not a single one is left, even the monsters in the most hidden corners have to be found and cleaned up.

This triggers the dungeon upgrade.

The copy of the light element is the most weird, it does not have the concept of upgrading.

As long as you can withstand the light element, you can succeed.

And the current dungeons of electric elements are full of elves and monsters made up of lightning.

Lin Moyu was also at a loss for a while.

"I can only try it, although the royal family has also tried to clean up a large number of monsters in a short period of time.

"But the speed is definitely not as fast as mine!"

Only 6 people can enter this copy of Nightmare Difficulty.

No matter how fast the monster clearing speed is, it cannot be faster than the tens of thousands of members of the undead army.

With a thought, the undead army appeared in the copy and launched an attack at the same time.

20 undead legions, each with 600 skeletons.

Among them, the skeleton berserker, the archmage, and the sharpshooter each account for 200.

12,000 skeletons in total.

As soon as the undead army appeared, they began to charge forward.

The dungeon terrain is a valley, not very deep.

The valley mouth is only about five kilometers away.

The skeletons quickly wiped out the electric elemental monsters.

Lin Moyu counted the time, and it didn't take long for the entrance of the valley to be empty. When everything was cleaned up, only 10 minutes passed.

Elemental monsters don't have corpses, so they cannot be exploded with corpses.

This speed is already the limit.

According to Lin Moyu's estimation, if it is changed to a team of 6 people, it will take less than three or four hours to clear the monsters here.

I am at least dozens of times faster than them.

If this fails to trigger the upgrade of the dungeon, it means that this [Lightning Valley] dungeon does not trigger the upgrade at the speed of clearing monsters.

"It's not the speed of clearing monsters, nor is it clearing all monsters..."

It is also somewhat different from [Whirlwind Plain].

He has now cleared up the monsters outside the valley, and the royal family has done this kind of thing.

It doesn't work.

Lin Moyu looked at the valley entrance.

There were thunderclaps in the valley.

This time it's not a dungeon monster, but a real lightning and thunder.

"According to the information given by Dongfang Yao, shortly after entering the valley, there will be a fork in the road.

"No matter which way you go, you can eventually get out of the valley."

"After entering the fork, there will be lightning falling."

"The lightning attack is so powerful that the entire team can only move forward and cannot retreat."

This is information from Dongfangjia.

The Dongfang family tried every road, but there were no fish.

Over the years, the Oriental family has tried all the methods that can be tried.

There is really no support.

Lin Moyu soon encountered a fork in the road.

Six forked roads lie ahead.

Thunder and lightning flashed in the air, followed by densely packed lightning.

He has no way out.

The landing point of the lightning is still slowly moving forward, and there is not much time left for him to choose.

In a few minutes, he will be struck by lightning.

Lin Moyu's eyes suddenly lit up.

"Could it be that..."

"Six forks, six professionals."

"Each professional needs to complete a road alone..."

"But the support and healers in the team have no combat effectiveness, how to fight..."

"In other words, they don't need to fight monsters, they just need to finish the road. Supporters and healers can use control skills, although it is dangerous, it doesn't mean it's impossible.

Lin Moyu felt that his idea should be right.

"try it!"

Six skeleton archmage teams rushed into the fork.

He's only one man right, but he has an army of undead.

It is entirely possible to walk the six paths together.

The Lightning Elemental Monster possesses double immunity to lightning elemental and physical attacks.

Here, the Skeleton Berserker is completely useless.

Marksman is still a little bit useful.

Only Archmage shines here.

The monsters in the six forked roads were cleaned up simultaneously, and they continued to advance towards the exit of the valley.

Although Lin Moyu guessed, it is not necessary to clean up the monsters on the road.

But it's still clear, anyway, it doesn't take much time.

Behind him is the roar of lightning and thunder, always following behind him.

The team of ordinary professionals dare not retreat at all, they can only keep moving forward, otherwise they will be swallowed by lightning.

The road in the valley was a bit long, and Lin Moyu pushed to the end at a steady speed.

The moment he walked out of the valley, the valley collapsed.

The entire valley has become a sea of thunder, rumbling non-stop.

Not only the valley is ringing, but the entire dungeon is also shaking.

"It's done!"

There was a little joy in Lin Moyu's eyes.

The dungeon finally started to upgrade.

In the outer hall, a group of royal old men are still discussing how to hone their juniors.

Suddenly bursts of thunder came out from the dungeon, illuminating the hall.

There was even a thunderbolt hitting people, making crackling noises.

Dongfang Yao exclaimed happily, "I've been promoted, I've really been promoted."

The upgrade of the copy of the electric element means that the crystal of the electric element can be obtained.

People in the royal family know a lot of information, they know the existence of elemental crystals.

It is precisely because of this that they will try their best to upgrade this dungeon.

The upgrade of the dungeon spread far away, almost spreading to half of the palace, alarming many people.

A few seconds later, Dongfang Yi appeared in front of the hall.

Seeing so many members of the royal family here, he was a little dazed.

"What happened?"

Among the people present, many were Dongfang Yi's elders.

Although the status and strength are not as good as him, they can also talk on an equal footing.

"Father, the matter is like this..." Dongfang Yao said the matter immediately.

He even talked about Dongfang Shun before.

Dongfang Yi didn't show anything about it, he didn't care about Dongfang Shun being beaten at all.

This kind of idiot deserves to be beaten, as long as he doesn't die.

Dongfang Yi said, "So, General Lin Shen is in the dungeon now, you didn't go in, right?"

Dongfang Yao said, "I haven't been in before."

Dongfang Yi hummed, "It's fine if you haven't been in, and you must do what you promised."

"Anyway, the future is long, and the dungeon will not escape, and you can do whatever you want in the future."

"Let Lin Shenjiang have a good time first."

Dongfang Yao also meant the same thing.

At this time, several uncles of Dongfang Yi pulled him over and began to discuss the matter of letting his descendants go to the army for training.

Although the royal family has a set of methods and routines for cultivating offspring, but that is just leveling.

It's the same as having been to the army or going to the battle field.

Among the people present, more than half have been to the army.

Even Dongfang Yi has been in the army, participated in many battles, and killed demons.

Dongfang Yi is very supportive of their ideas.

The matter was settled like this, Dongfang Yao couldn't help but mourn for three seconds for his royal brothers and sisters.

The days of these guys are over.

After arriving in the army, it is hard to say whether he can come back alive.

"If you want to blame, blame Dongfang Shun, it's all because of him."

The dungeon has been upgraded and has become quiet again.

The sea of thunder formed after the valley collapse became wilder, and its power became many times stronger.

Lin Moyu looked at the sea of thunder, and he saw a bead in the sea of thunder.

The beads are sinking and floating in the sea of thunder, if you don't look carefully, you will definitely miss it.

But even if you see it, if you switch to another profession, you won't be able to get it in all likelihood.

Under this level of lightning strike, even if the knight turned on the ultimate defense, he could not survive for five seconds.

Lin Moyu put a layer of bone armor on himself, and Shi Shiran walked in.
