## **- Chapter 53: Finally Someone Has Come To Die Fire**

### **Chapter 53: Finally Someone Has Come To Die**

53 - Finally Someone Has Come To Die

Moonlight sprinkled on the earth like snow.

The smell of blood in the air became even more intense.

A few short minutes after God Bai has spoken, the examinees were ready for combat.

There are no support class users here, only combat class users.

The examinees have formed a battle formation.

Knights are at the forefront, followed by Mages and Archers.

Knights have their own creed.

In order to get to my party members, you have to step over my dead body.

"Ke-ke-ke, not bad."

"It's a shame, but you are all going to die here."

"One hour is enough to kill you all."

"Too bad I can't bring your corpses back. The flesh of young humans is most delicious."

"Ha-ha-ha-ha!"

Accompanied by blood-colored moonlight, a cold, eerie voice rose, making everyone shudder.

A gleam of aversion streaked across Lin Moyu's eyes.

This kind of shady and sneaky guy is most despicable.

Xia Xue's face turned pale with fear. She got a little closer to Lin Moyu.

It seems that Lin Moyu can bring her some sense of security.

Not only Xia Xue, but many others were scared, and their countenances became unsightly.

"There!"

Someone shouted.

A huge figure appeared under the moonlight.

Detection flew over in the first moments, raising a breeze.

[Ferryn Beastman Warrior (abyssal infected)]

[Level: 19]

Someone suddenly exclaimed, "I just remembered. In the Battle-Space, there is a level restriction, with the highest level being level 19."

Following his shout, others recalled this information, as well.

"Right, how did I forget that? In the Battle-Space, the highest level is level 19. That's the limit."

"I was startled just now. Sure enough, it's only level 19."

"What's there to fear? There are so many of us..."

Before he could finish speaking, he suddenly closed his mouth, unable to finish his sentence.

Huge figures appeared one after another. There are at least 100.

They are all level 19 monsters, as well as abyssal infected.

Each monster is three meters tall and emits a dreadful aura.

They headed toward the examinees. As they walked, the earth vibrated.

Under the moonlight, the monsters look extremely ferocious.

There are densely-packed spikes on their tails.

After they were infected by Abyss's power, the appearance of the Ferryn Beastman Warriors has changed greatly.

They have become even more dreadful.

Exuding overwhelming pressure.

The examinees are only 18 years old, and have yet to experience a real battlefield.

They have never seen so many scary monsters.

Their knees went weak.

They lost most of the courage they had moments ago.

The color of Xia Xue's face turned ashen, and she unconsciously grabbed Lin Moyu's clothes. "What do we do?"

Lin Moyu's gaze is solemn, "Judging by the size, they aren't ordinary monsters."

"They are at least enhanced elite monsters."

"It's troublesome, but manageable."

He rarely speaks this much. It's as if he's trying to reassure Xia Xue.

But his words didn't put Xia Xue at ease, but rather made her even more afraid.

"If they are enhanced elite monsters, then aren't they the same as the monsters in the nightmare rank dungeon."

Suddenly, a faint arc appeared at the corners of Lin Moyu's mouth.

"They were infected by Abyss's power and mutated. Will they give EXP..."

Lin Moyu thought of a possibility.

If it's really the way he thinks it is, will these monsters be able to help him raise his level?

The huge monsters didn't run, but pressed on slowly.

It's as if they were playing with the examinees, not at all in a hurry to kill them.

The Abyssal Demon's cold voice rose once more.

"Are you afraid?"

"Are you terrified?"

"These monsters have been strengthened by my power. They are now equivalent to enhanced elite monsters."

"Their number isn't large, just 100."

"According to God Bai, if you unite, you will be able to prevail."

"Let's see if it's really the case."

"Hey, you have over 100 people. There just so happens to be one monster for each of you."

"Individual fight or group fight, which will it be?"

"Would you like to have a competition?"

"Let's have 100 matches. The winner lives, while the loser dies."

"Ha-ha-ha-ha!"

The demonic voice gave another blow to the morale of the examinees.

The monsters are approaching. The examinees, however, are retreating.

The group was immediately divided in two.

Wang Zihao also retreated, face ashen, legs trembling.

The Holy Swordsman Feng Xiu gripped his sword. Although his countenance doesn't look good, but he didn't take a step back.

The same is true for Zuo Mei. She gripped her dagger, ready to put her life at stake.

There are many examinees who -- like Feng Xiu and Zuo Mei -- assumed a fighting stance.

Lin Moyu glanced at them, and then moved forward.

Click!

Clack!

The Skeletal Warriors charged at the front, while Lin Moyu followed behind.

Xia Xue looked anxious, "What are you doing? Come back here."

"What are you planning to do?"

"It's always like this. You never say anything."

Xia Xue stamped her feet and followed after him.

At this moment, Lin Moyu suddenly said with a low voice, "Go back."

Xia Xue paused for a moment, "I don't want to."

"Suit yourself."

Lin Moyu didn't say anything anymore. If she wants to follow him, then so be it. Nothing will change anyway.

Lin Moyu's sudden action caught the attention of many people.

"What is this guy trying to pull off?"

"He's actually charging forward."

"There are so many skeletons. Are they his summons?"

"Is this guy a Summoner?"

"Does anyone know him?"

Detection fell on Lin Moyu one after another.

[Lin Moyu, level 16, Necromancer]

"Necromancer, what class is that? I've never heard of it before."

"Who knows. I've never heard of this class, either."

"Is it perhaps a new class?"

"What now? Do we go together with him?"

...

Only a dozen-plus people rushed after Lin Moyu.

Feng Xiu and Zuo Mei were among them.

They resolved themselves to die.

Even if you have to die in battle, you must die like a soldier.

Shenxia people fear not combat nor death!

The Abyssal Demon sneered, "Oh, finally someone has come to die!"

"You're quite brave! That's worthy of praise!"

"Your courage is admirable. I feel a bit reluctant to kill you. Why don't you defect to the Abyss and become my servant?"

## **Chapter 54: There Can't Be Such A Class**

54 - There Can't Be Such A Class

Lin Moyu ignored the words of the Abyssal Demon.

When he was 50 meters away from the monsters, he suddenly stopped.

"Did you change your mind?"

"The gate of the Abyss is always open to you."

The voice of the Abyssal Demon rang again.

At this time, Lin Moyu's eyes revealed a faint cheerful shade.

The maximum range of Corpse Explosion is 100 meters.

A distance of 50 meters is both safe and adequate.

Xia Xue stopped next to Lin Moyu. Aware that he must have a plane, she didn't ask questions.

"Why aren't you going further?"

"Why did you stop?"

Feng Xiu, Zuo Mei, and the others rushed over, a puzzled look on their faces.

"This is good enough!"

Lin Moyu responded in a low voice, then pointed ahead with a finger.

All of his Skeletal Warriors appeared at the same time.

There is a total of 100 Skeletal Warriors, looking like an army.

"There's so many."

"He surprisingly has so many summons."

"This class seems to be really outstanding!"

After they came out into the open, the Skeletal Warriors rushed toward the Ferryn Beastman Warriors like bolts of lightning.

"So fast!" Zuo Mei's eyes narrowed sharply.

Her class is Rogue, which is known for its agility attribute. If she goes all out, she can break out with explosive speed.

But at this moment, she realized that she is far from being a match for the Skeletal Warriors in terms of speed.

"Oh, that's quite a few summons."

"So you're an undead-type Summoner."

"If I take these bones back, I can give them to my watchdogs to eat."

The Skeletal Warriors arrived in front of the Ferryn Beastmen in the blink of an eye.

"Use your skill!"

Lin Moyu willed, and the blades in the hands of the Skeletal Warrior emitted dazzling red light.

Dozen-plus Skeletal Warriors used their skill and attacked a Ferryn Beastman respectively.

Red lights fell, seriously injuring the Ferryn Beastmen.

The attack power of the Skeletal Warriors is exceedingly strong.

The Ferryn Beastman Warrior, who were infected by Abyss's power, have become extremely powerful.

Despite being subjected to such a strong attack, they still hadn't died.

At this time, their huge swords fell on the Skeletal Warriors.

Lin Moyu can perceive that the Skeletal Warriors took damage.

But the damage isn't severe.

From the exchange, he roughly guessed the opponents' attributes.

"Strength should be around 3,000."

"The physique should have exceeded 3,500."

"The higher the physique, the better."

After the Skeletal Warriors used their skill, their blades didn't stop, but continued to land on the Ferryn Beastmen.

The dozen-plus Skeletal Warriors ignored the opponents' attacks and besieged a single Ferryn Beastman.

A few seconds later, the Ferryn Beastman collapsed to the ground with a shriek.

[Killed level 19 Ferryn Beastman Warrior, EXP +8,000]

Sure enough, they give EXP.

Lin Moyu found that his guess was correct.

Although the amount of EXP he obtained is a little lacking, but it is better than nothing.

Light appeared on his palm.

Boom!

The sudden explosion greatly startled everyone.

Then they saw an incredible scene.

The seemingly powerful Ferryn Beastman Warriors fell like wheat to a scythe.

Boom!

Boom!

Explosions rose one after explosion, each clearing more than 10 Ferryn Beastmen.

After more than 10 earth-shaking explosions, the Ferryn Beastmen have been completely wiped out.

Lin Moyu took a look at his EXP and found that there is still some to go before he can level up.

"He killed them all?"

"No way. It's that easy?"

"What skill is that? It's really powerful."

The amount of damage Corpse Explosion causes is based on the corpse's health.

The higher the health of a corpse, the more power Corpse Explosion can unleash.

Therefore, so long as the first corpse is created, enemies of the same kind have no choice but welcome death.

Everyone was struck dumb.

Then, they trembled with excitement.

"We're saved, we're saved."

"This brother is really strong. Necromancer, this class is really amazing."

"I'm sure this brother can become a godly powerhouse in the future."

Wang Zihao cried out, "How is he this strong?"

"His class is really formidable. Why wasn't I the one who awakened this class? That's unfair."

His words went unnoticed. Everyone is still in a state of shock, unable to come back to their senses for the time being.

This scene is too surreal to be believed.

What happened exceeded everyone's understanding.

Not only the examinees, but even the Abyssal Demon couldn't believe it.

The voice of the Abyssal Demon rang out again, "Impossible, this is impossible!"

"Now you've done it. I'm going to kill you, I'm going to eat your flesh."

Amidst screams, the crimson moonlight erupted into brilliant radiance.

Another batch of monsters appeared around.

This time, the monsters scattered and rushed toward the class users.

Their target is the class users.

The class users immediately panicked and began to flee.

Fortunately, the Battle-Space is large enough, providing them sufficient maneuvering space.

"Let's see what you do now!"

"You're all going to die! You're going to die!"

The voice of the Abyssal Demon has become much weaker than before.

The amount of Abyss's power that was able to enter Battle-Space is limited. As such, the more it is used, the less there will be.

Lin Moyu looked up at the Blood Moon.

There is a dark shadow on the Blood Moon.

"So that's where you were."

Lin Moyu calculated the distance, about 200 meters.

At the same time, he issued orders in his heart.

Several skeletons suddenly lifted the corpse of a Ferryn Beastman and threw it toward the Blood Moon.

Next, a Skeletal Warrior hugged Lin Moyu, and then another Skeletal Warrior threw the both of them into the air.

The corpse of the Ferryn Beastman flew toward the Blood Moon like an arrow, followed closely by Lin Moyu.

"You... What are you trying to do?"

"You're crazy!"

The Abyssal Demon suddenly panicked, and his voice began to quiver.

Lin Moyu didn't speak. He just stared coldly, a murderous intent in his eyes.

When the corpse of the Ferryn Beastman got near to the dark shadow on the Blood Moon, Li Moyu detonated it.

A loud blare rose.

The Abyssal Demon let out a scream.

The dark shadow was hit by the explosion, but it didn't perish.

"I'm going to kill you!"

The voice became extremely weak, screaming like crazy.

"He's not dead yet!"

Light emerged from Lin Moyu's palm once more.

Soul Blaze!

This skill ignores defense and deals damage directly to the soul.

A flame appeared on the dark shadow, and the dark shadow let out another scream.

"What is this skill? How come it can burn the soul?"

"What the hell is your class? There can't be such a class! There can't!"

Lin Moyu didn't say a word. When he started falling, he promptly added another Soul Blaze.

The dark shadow continued to scream, having become extremely weak.

## **Chapter 55: Skill Levels Up; I Shall Remember You**

55 - Skill Levels Up; I Shall Remember You

Xiajing City, outside the main body of the Tower of Trials.

Meng Anwen is the person in charge of the Tower of Trials. At this time, he is working hard to repair the laws of the Battle-Space.

Several people looked at the Tower of Trials, a worried shade on their faces.

The more time passes, the more dangerous it is for the examinees located in the Battle-Space.

Suddenly, Meng Anwen let out a sound of surprise.

Bai Yiyuan asked in a deep voice, "What's the matter?"

Meng Anwen said, "The interference of the Abyss's power has weakened greatly."

Bai Yiyuan's expression suddenly became unsightly, "Does that mean that the examinees inside are dead?"

Meng Anwen carefully sensed the Tower of Trials, "No, I can sense a lot of auras of life inside, and these auras belong to humans."

"The consciousness of the Abyssal Demon has become weak. He has been injured."

A sliver of consciousness of the Abyssal Demon entered the Battle-Space, then used Abyss's power to disrupt the laws of the Battle-Space.

It effectively sealed off the Battle-Space.

Under these circumstances, is there anyone who can harm him?

The examinees, who are only level 15 or level 16?

Bai Yiyuan doesn't believe this to be possible.

In his view, if the examinees make good use of the Battle-Space, whose scope is very large, they may be able to last for an hour, until he and the others rescue them.

As for them killing the other party, that is impossible.

Even though the other party is just a sliver of consciousness, it is still impossible.

In the Battle-Space, the number of Ferryn Beastmen abandoned their targets and instead began to charge toward Lin Moyu.

The dark shadow on the Blood Moon bellowed.

"I'm going to kill you!"

"I'm going to eat your flesh and drink your blood!"

At this time, he regards Lin Moyu as a thorn in his side.

He forgot all about today's mission and lost his reasoning, and just wants to kill Lin Moyu.

A large number of Ferryn Beastmen, infected by Abyss's power, charged toward Lin Moyu.

The Skeletal Warriors quickly formed a front to block them.

The four attributes of the Skeletal Warriors have reached 5,000 points, putting them far above of others of the same level.

Even though the Ferryn Beastmen have been infected by Abyss's power and have become enhanced elite monsters, but they still can't compare to the Skeletal Warriors in terms of attributes.

Moreover, Lin Moyu commanded a dozen-plus Skeletal Warriors to focus on a single target.

In just a few seconds, a Ferryn Beastman Warrior was killed.

Boom!

An explosion echoed.

Corpse Explosion can be considered a godly skill. Lin Moyu has been using it time and time again.

Suddenly, Lin Moyu noticed a change in the skill.

[Corpse Explosion (level 2), detonate a corpse and deal 15% of the corpse's health as damage to enemies within a radius of two meters.]

After acquiring the skill Corpse Explosion, it has remained unchanged until now.

But at this moment, it surprisingly leveled up.

The range has increased from one to two meters and the damage has increased from 10% to 15% of health.

The change seems small.

But when coupled with the talent Comprehensive Amplification...

It deals 300% of a corpse's health as damage within a radius of 40 meters.

Although its level has risen by just one level, but the skill has been overturned.

"It seems that the level of the skill will rise as proficiency increases."

"Apart from the talents and skills obtained during class awakening, do all the other skills need to be upgraded in this manner?"

"This is very similar to livelihood class skills and support class skills."

Booming sounds rose successively. After its range expanded, Corpse Explosion has become more useful.

In the blink of an eye, there were no more Ferryn Beastmen standing beside Lin Moyu.

The dark shadow on the Blood Moon made no sound.

A smile sprouted on Lin Moyu's mouth.

Light shone.

Faint white light enveloped his entire body.

He leveled up.

Lin Moyu's level up has attracted the attention of many people.

They only now realized that killing these monsters infected by Abyss's power provided EXP.

"He actually used these monsters to level grind."

"That is to say, he has the ability to go solo in nightmare rank dungeons."

"This guy is incredible."

"Lin Moyu, which province is he from?"

"Fortunately we have him, or else we would be screwed."

Many people spoke in hushed voices. A lot of people looked at Lin Moyu with admiration in their eyes.

Lin Moyu looked up and saw that the Blood Moon and the dark shadow are still there.

"It seems that he can't leave."

His thoughts revolved, and five corpses of Ferryn Beastmen were thrown into the air.

Immediately after, a Skeletal Warrior hugged Lin Moyu and jumped up.

The dark figure on the Blood Moon seems to have realized that a great calamity is about to befall it.

Surprisingly, it didn't shout, but instead issued eerie laughter.

"Your name is Lin Moyu?"

"I shall remember you."

"When you come to the Abyss, I will give you an adequate reception."

Lin Moyu didn't speak, but smiled faintly.

The corpses reached the Blood Moon.

Corpse Explosion!

Amidst violent explosions, the dark shadow emitted a final scream before being blown apart.

The Blood Moon shattered like a mirror and dissipated in the air.

The Battle-Space returned to normal.

Outside the Tower of Trials.

Meng Anwen once again revealed a look of surprise, "The sliver of consciousness of the Abyssal Demon was wiped out."

"The Battle-Space has returned to normal."

"The kids are unharmed. There are no casualties."

Bai Yiyuan showed a look of disbelief on his face. Things developed in a direction he hadn't expected

At his realm, there aren't many things that can surprise him anymore.

"Can we check what happened?"

Bai Yiyuan wants to know what exactly happened in the Battle-Space.

Meng Anwen replied, "We can."

Bai Yiyuan said in an even deeper voice, "Mhm. There's no rush. Let's send the kids back first, just in case."

"Okay."

Inside the Battle-Space, the Blood Moon dissipated, and the earth returned to normal.

Xia Xue asked in a low voice, "Dummy Lin, are you okay."

At this moment, her heart is still beating fast, her face slightly pale.

This incident was too scary. If it weren't for Lin Moyu, she probably would have died already.

Lin Moyu nodded, "I'm fine."

This was enough to reassure Xia Xue.

At this moment, the examinees in the Battle-Space are still in a state of shock.

Moments ago, the Ferryn Beastmen chased after them, while they ran helter-skelter. They basically weren't able to fight back.

Fortunately, Lin Moyu was around.

God Bai's voice rang out again.

"Everyone, the Abyss's power is gone. The Battle-Space has returned to normal."

"In a moment, you will be sent back to your original examination site. The results will be announced shortly after."

## **Chapter 56: No Suspense; Provincial Top Scorer**

56 - No Suspense; Provincial Top Scorer

Lin Moyu appeared at the entrance of the Tower of Trials.

Xia Xue, Zuo Mei, Wang Zihao, and Feng Xiu appeared alongside him.

The entrance to the Tower of Trials is already closed.

"The combat-type great examination has concluded. Examinees, please take a rest and wait for the final results to come out."

The examiner's voice rang out.

No one left. Every year, shortly after the great examination is concluded, the final results will be announced.

The examinees waited eagerly.

For the combat-type class users, their results consist of two parts, namely points and evaluation.

Some top academies not only have requirements for class, level, and points, but also have requirements for evaluation.

The higher the ranking of the academy, the higher its requirements.

The requirements for combat-type class users at Xiajing Academy are basically level 15 and 10,000 points.

And evaluation must be excellent.

Some of the remaining top 20 academies are relatively lax when it comes to level and points, but evaluation needs to be excellent.

If you want to enter a top academy, evaluation is very important.

If your goal is only an ordinary academy, then evaluation is not so important.

Merely points reaching the threshold is enough.

Examinees who haven't entered the Battle-Space will be evaluated by provincial examiners.

Examinees who have entered the Battle-Space will be evaluated by senior figures of Shenxia Empire.

For Shenxia Empire, examinees who can enter the Battle-Space are geniuses and require further attention.

Xiajing City.

Meng Anwen, Bai Yiyuan, and several other top powerhouses of Shenxia Emperor checked what happened in the Battle-Space.

They were able to see the performance of Lin Moyu and the other examinees who entered the Battle-Space.

This year is a bit special.

Due to the invasion of Abyss's power, the Battle-Space underwent a huge upheaval.

As such, they paid even closer attention.

At this time, Lin Moyu entered their sight.

"It turns out that he was the one who turned the tides. Remarkable."

"Necromancer, I have heard of this class. It is a brand-new class that emerged from Jiangning Province's Xihai City's No. 1 High School."

"That's right. I was going to pay special attention to him during the great examination, but I never expected him to be this powerful."

"Not only is his class powerful, but he must have awakened a talent, and his talent is also very powerful."

"This kid's class has completely surpassed that of his peers. And besides, his character is also pretty good."

"Calm and decisive, and has a powerful class, this kid has the conditions to become a top powerhouse."

Words of praise flew out of their mouths one after another, all aiming at Lin Moyu.

Lin Moyu's performance was too eye-catching.

While they worried about casualties, it was Lin Moyu who turned the tides.

He completely overturned the plan of the Abyss.

Compared to Lin Moyu, the others were lackluster.

In fact, there wasn't anything of note.

As for the dozen-plus people who took a stand together with Lin Moyu, it can be said that they displayed commendable courage.

"This year's evaluation is a bit difficult."

"What's so difficult about it? Those who escaped are all cowards. When they go to the battlefield in the future, such people are bound to become deserters. They can't be counted on."

"You can't say that. After all, they're just teenagers."

"Lin Moyu is definitely excellent. As for the others, let's discuss it together."

These top powerhouses determined the future of many examinees.

If it had been before, these examinees would have been regarded as paragons.

While the provincial top scorers would all be regarded as top paragons.

But due to Lin Moyu's presence, the performance of these people has become lackluster.

If you compare your lot to others, you will only torture yourself.

Lin Moyu is like a dazzling star, completely overshadowing the existence of the others.

After a while, the final results were announced at last.

A huge light curtain flickered in the air.

No. 1, Lin Moyu, points: 34,605, evaluation: excellent.

Lin Moyu's name is prominently at the very top.

Murmur!

There was an uproar.

Lu Yun jumped up, his old face contorted with extreme excitement and agitation.

"No. 1! The top scorer!"

Lu Yun's fingers trembled.

His student received the title of Jiangning Province's provincial top scorer.

For Lu Yun, it is a great honor.

"Congratulations, Old Lu."

"Old Lu, you really hit the jackpot this time. This is enough for you to boast for an entire decade."

"More like two decades."

"First there was Su Qianxing, then last year there was Lin Mohan, and this year a provincial top scorer actually appeared."

"Xihai No.1 High School will be famous."

Xia Xue smiled and congratulated Lin Moyu, "Dummy Lin, you really got the position of provincial top scorer."

At this moment, Xia Xue uncharacteristically didn't have a defiant look in her eyes, nor did she try to compete with Lin Moyu.

Lin Moyu smiled slightly, "Thank you."

At the beginning of the fifth round of the examination, Lin Moyu already knew that he would be the provincial top scorer.

The outcome was indeed as expected.

But when the results were announced, he still felt a little excited.

Xia Xue looked at Lin Moyu in amazement, "You actually know how to smile."

"You look good when you smile. Why don't you usually smile?"

She looks like she has discovered a new continent.

The second place has also come out.

No. 2, Xia Xue, points: 7,600, evaluation: excellent.

With Lin Moyu ahead, Xia Xue's performance didn't cause much of a sensation.

Xia Xue's evaluation was also excellent.

Lu Yun once again felt excited.

The other principals cast him envious glances.

Not only is the top scorer Lu Yun's, but even the second place is also his.

This is really enviable.

No.3, Feng Xiu, points: 6,700, evaluation: excellent.

No. 4, Zuo Mei, points: 6,325, evaluation: excellent.

No. 5, Wang Zihao, points: 6,300, evaluation: failed.

Wang Zihao's complexion changed dramatically. His evaluation was unexpectedly failed.

With this evaluation, Xiajing Academy is out of his reach.

Not to mention Xiajing Academy, none of the top 20 academies of Shenxia Empire would want him.

"Why?!"

"Why is my evaluation failed."

"This is unfair. You are being unfair."

Wang Zihao finally couldn't help but roar angrily.

Suddenly, a light fell on Wang Zihao, and he disappeared in an instant.

"Wang Zihao violated the rules of the examination and thus has been expelled"

## **Chapter 57: Imperial Top Scorer; God Bai At The Door**

57 - Imperial Top Scorer; God Bai At The Door

With a failed evaluation, the possibility of Wang Zihao going to a top 20 academy has been severed.

And now he has been expelled. Not to mention a top 20 academy, even the top 100 academies won't want him anymore.

Even with his family's connections, even with the weight of Dynasty Guild, it is impossible to rival these academies.

Wang Zihao's future can well be imagined.

The best case scenario is him going to an ordinary academy.

The results were announced one by one.

Besides Lin Moyu and Xia Xue, the overall performance of Xihai No.1 High School was fairly good.

Gao Yang is ranked 61st, which isn't half bad.

The others were slightly worse. However, they can also be admitted into academies.

After the results were announced, the examiner's voice rang out again.

"For combat-type classes, this year's provincial top scorer of Jiangning Province is Lin Moyu."

The examiner solemnly announced that Lin Moyu is this time's provincial top scorer, causing another sensation.

Then came thunderous applause.

Everyone congratulated Lin Moyu.

It is not easy to become the provincial top scorer.

Moreover, Lin Moyu took first place with crushing momentum.

If the points of the other four people who entered the Battle-Space together with him are added up, they still can't compare to him.

The lead is too obvious.

Amidst the applause, the examiner's voice rang out again.

"The empire has issued a declaration. This year's imperial top scorer is Lin Moyu."

Murmur!

Lu Yun jumped up again, and a mass of fire burst out on his head.

He was so excited that his head caught fire.

"Imperial... imperial top scorer."

"Moyu is the imperial top scorer..."

"Is this true? I didn't hear wrong, did I?"

For a moment, Lu Yun couldn't even speak coherently. He couldn't believe his ears.

"Old Lu, are you okay?"

"Don't get too excited. Pace yourself."

"It's true. Lin Moyu is really the imperial top scorer."

"You didn't hear wrong. Now you can boast for the rest of your life."

"The name of your school can be changed to Top Scorer High School. Imperial top scorer, you picked up such a treasure."

They were both envious and jealous.

The fire on Lu Yun's head remained burning for a long time. Just like his mood, it surged wildly.

Outside the Tower of Trials, applause sounded like thunder.

"Imperial top scorer, Jiangning Province has produced an imperial top scorer."

"Oh my god, how many years has it been since Jiangning Province has produced an imperial top scorer."

"Lin Moyu is really amazing. He was actually able to become the imperial top scorer."

Lin Moyu still remained calm and collected.

When he became the provincial top scorer, he realized that he might also become the imperial top scorer.

And he was right.

Xia Xue uttered in surprise, "You have become the imperial top scorer. Why aren't you happy?"

"I am happy." Lin Moyu said lightly.

Xia Xue curled her lips, "Then why aren't you smiling?"

Lin Moyu remained calm, "I am smiling, inside."

"A fool is a fool." Xia Xue snorted, "Nevertheless, congratulations, Top Scorer Lin."

Zuo Mei and Feng Xiu walked over together.

"Congratulations, Lin Moyu."

Zuo Mei's stature is a little short, and her voice is slightly cold.

Her temperament is in line with her class.

Feng Xiu extended his hand, "Thank you. If it weren't for you, we would have been in big trouble."

Zuo Mei also expressed her thanks.

Lin Moyu shook hands with him, "You're welcome."

Feng Xiu asked, "You're going to Xiajing Academy, aren't you?"

Lin Moyu nodded.

"Alright, I'll see you at Xiajing Academy. I'll treat you to a meal later."

"Mhm." Lin Moyu responded lightly.

Lin Moyu is really cold, even colder than Zuo Mei, and the atmosphere suddenly became awkward.

Xia Xue promptly said with a smile, "This guy doesn't like to talk. I've been his classmate for three years, yet we haven't even exchanged 10 sentences."

Lin Moyu shook his head, "It's been 16 sentences."

Pfft...

Feng Xiu and Zuo Mei couldn't help but laugh.

Apart from his dislike for talking, Lin Moyu seems quite the interesting character.

The great examination concluded, and the examinees were teleported back to their respective schools.

Lu Yun didn't return with the rest.

The great examination for the support-type classes is still ongoing, and so he still needs to stay here.

Lin Moyu returned home and took a rest.

Academy registration can be done tomorrow.

His goal is Xiajing Academy. As the imperial top scorer, he is guaranteed to be admitted.

If even he can't be admitted, then others don't stand a chance.

He quietly summoned four Skeletal Warriors, and then placed them into the summon space.

The number of Skeletal Warriors in the summon space has reached 104.

Previously in the Battle-Space, while fighting the Ferryn Beastman Warriors, the Skeletal Warriors suffered varying degrees of damage.

In the summon space, they quickly recovered.

Knock knock knock.

The knocking pulled Lin Moyu out of his meditative state.

The fire on Lu Yun's head has finally extinguished.

But the excitement on his face hasn't subsided yet.

This old man, who is in his 60s, has never been this excited before.

"Principle Lu, what can I do for you?"

At this moment, it is already late into the night.

In the dead of night, Lu Yun suddenly came over. Something must have happened.

Lu Yun didn't come alone, but is accompanied by someone Lin Moyu doesn't recognize.

When Lin Moyu saw this person, his hairs stood on end.

This visitor has a terrifying aura, making it difficult for him to breathe.

He feels as if he will suffocate in the next moment.

Lin Moyu didn't sit and await his fate. In an instant, Skeletal Warriors appeared in front of him, protecting him.

"Nice reaction."

Lin Moyu can't see the other party's appearance clearly, but recognizes the voice.

His stretched taut nerves immediately relaxed.

Lin Moyu bowed respectfully, "Greetings, God Bai."

Bai Yiyuan withdrew his aura, then emerged from the darkness, "How did you know it's me?"

Lin Moyu put away the Skeletal Warriors, "I recognized your voice."

"He-he."

Bai Yiyuan laughed out, satisfied with Lin Moyu's answer.

When he checked what happened in the Battle-Space, he had seen Lin Moyu's performance.

Now that he is face-to-face with Lin Moyu, Bai Yiyuan is even more satisfied with him.

Lin Moyu is calm and composed.

And his reaction was instinctive. Bai Yiyuan gave him full marks.

"Very good, very good."

"I've come to talk to you about Xiajing Academy."

## **Chapter 58: Top Scorer Rewards; Invitation To Participate In A Trial**

58 - Top Scorer Rewards; Invitation To Participate In A Trial

God Bai unexpectedly came to visit him in person.

Lin Moyu poured water for the two.

It was plain boiled water.

Lu Yun explained, "Sir, please don't mind it. Moyu's sister went to Xiajing Academy last year, and so he is living by himself."

Bai Yiyuan swept the room with his eyes. The furnishings in the room are very simple.

And there are many places that look shabby.

Judging from this, it can be surmised that he isn't affluent. It can even be said that he is poor.

It is very rare for a genius like Lin Moyu to come from such a background.

God Bai asked with a smile, "Lin Moyu's sister is also at Xiajing Academy?"

Lu Yun promptly responded, "His sister is Lin Mohan, and she was admitted into Xiajing Academy last year."

With his sublime status, Bai Yiyuan unsurprisingly doesn't know Lin Mohan.

But now he has engraved Lin Mohan's name in his mind. If there is an opportunity, he can meet her.

"Both siblings were admitted into Xiajing Academy. That's truly commendable."

Bai Yiyuan praised and looked at Lin Moyu.

Before coming here, he listened to Lu Yun's introduction of Lin Moyu. He already knows that Lin Moyu speaks very little.

That he is taciturn.

It really seems to be the case.

Perhaps it is this personality trait that allows him to display a calmness that exceeds that of his peers.

"Can you show me your summon?"

If it's a request from Bai Yiyuan, Lin Moyu naturally wouldn't refuse it.

A Skeletal Warrior silently appeared in the room.

Bai Yiyuan glanced at it and said strangely, "Its four attributes have reached 250 points. It seems mediocre. Then how did it display such impressive combat power in the Battle-Space?"

At Bai Yiyuan's realm, there is no longer a need to deliberately use Detection.

Many of the skills have already been integrated into his bones.

Upon hearing Bai Yiyuan's words, Lin Moyu suddenly understood something.

And that is, others can't see the boost provided by his talent.

What others can see is only the basic attributes of the Skeletal Warriors.

While the Skeletal Warriors ultimately display the attributes boosted by his talent.

Bai Yiyuan carried on, asking, "What talent have you awakened?"

Lu Yun has a surprised look on his face, "Moyu, have you really awakened a talent?"

Lin Moyu replied softly, "My talent is amplification, amplification of skills."

Bai Yiyuan showed a knowing expression, "I could surmise as much from your performance in the Battle-Space."

Bai Yiyuan didn't continue to probe, but instead changed the topic, "There are two reasons why I have come here."

"The first is to give you your rewards. You were supposed to receive them after coming to the academy. But since I was going to come to you, I brought them along."

"The second is to take you to the academy. There will be a trial the day after tomorrow, and I hope you will participate in it."

Bai Yiyuan went straight to the point and explained his intentions.

Lin Moyu asked, "What is the trial?"

Bai Yiyuan said, "It's a trial of Xiajing Academy, and only internal members of the academy can participate. As for the specifics, only after you agree to participate, only then can you be told."

Lin Moyu felt strange.

Firstly, from the other party's words, Lin Moyu concluded that it is not mandatory to participate in this trial.

The decision whether to participate or not rests with him.

Next, is the participants of the trial.

The participants are internal members of Xiajing Academy.

He knows very little about Xiajing Academy, and does not know what the term internal members really entails.

In addition, keeping the specifics confidential indicates it is no run-of-the-mill trial.

Lin Moyu ruminated God Bai's words.

Caution is a state that must be maintained at all times.

Regardless of anything, be cautious at all times and analyze the situation calmly.

Bai Yiyuan smiled with satisfaction, "You're pretty cautious, that's good."

"I can't disclose too much about the trial's contents. But what I can tell you is that it is a rare opportunity."

"Originally, you weren't eligible to participate in it. But I personally have given you this opportunity."

After listening to God Bai's words, Lin Moyu promptly made a decision, "I'll participate."

Since Bai Yiyuan has gone this far, if he still didn't agree to participate, it would be equivalent to not giving Bai Yiyuan face.

Lin Moyu is no fool, he wouldn't do such an offensive thing.

"Since that's the case, then let me give you the rewards first."

"As the imperial top scorer, you are entitled to a number of rewards."

Bai Yiyuan's hand shone, and several things appeared.

Lin Moyu's eyes shrank. He recognizes one of the things, which is a skill scroll.

"The first reward is 100,000 points."

"It is a reward you get for becoming the imperial top scorer, and it doesn't clash with the points you obtained during the great examination."

Lin Moyu obtained 34,605 points in the great examination, and then was rewarded with an additional 100,000 points for becoming the imperial top scorer.

In total, he gained more than 130,000 points.

This amount of points is already quite large. Many older students of Xiajing Academy might not have that many points.

Bai Yiyuan handed a card to Lin Moyu and said, "Your points are all in here."

"You should have heard that points are more useful than gold coins in Xiajing Academy."

"It is indeed the case. You will understand this when you arrive at Xiajing Academy."

"The second reward is also related to the position of imperial top scorer."

"It is an elementary skill scroll and an intermediate skill scroll."

"The third reward is an additional reward based on your performance in the Battle-Space."

"It is the qualification to enter Shenxia Tower once."

"As for the specific information regarding Shenxia Tower, you will naturally learn it when you arrive at Xiajing Academy, so I will save my breath."

"However, I can tell you that the chance to enter Shenxia Tower is very valuable, especially for the first time. But before you enter the tower, you need to make sufficient preparations."

Since Bai Yiyuan keeps mentioning Shenxia Tower, it naturally must be very important.

"I understand."

## **Chapter 59: Xiajing Academy Has A Different Atmosphere**

59 - Xiajing Academy Has A Different Atmosphere

Lin Moyu briefly packed his things.

Next, a charm flew out and transformed into a teleportation formation.

Lin Moyu and Bai Yiyuan stepped into the teleportation formation, and then disappeared within the brilliant light.

The last bit of light disappeared, and the house was once again shrouded in darkness.

Lu Yun sighed and left quietly, closing the door.

This late at night, the street outside is very quiet.

No one would have imagined that this seemingly dilapidated house has produced two talents who were admitted into Xiajing Academy two years in a row respectively.

And one of them has become the imperial top scorer.

Lu Yun's eyes filled with hope, looking in the direction of Xiajing City.

"You got this, kid."

Words full of kindness and hope rose in the air.

Lin Moyu felt that the teleportation takes a long time, unlike this morning with the Teleportation Stone, which felt instantaneous.

Shenxia Empire has a vast surface area. In fact, it is one of the great powers of the human race.

Xiajing Academy is located thousands of kilometers away from Xihai City.

Even when it comes to teleportation, it will take some time.

Broken streams of light flashed past the eyes.

You can see countless magical images.

It's all fragmented, dazzling, and bizarre.

Lin Moyu is feeling lightheaded, feeling that time and space are in disorder at this moment.

It feels very uncomfortable.

However, he didn't show any reaction. Merely, his countenance turned slightly pale.

After more than 10 seconds, his feet were planted on the ground once again.

At this time, all discomfort disappeared without a trace.

"That's pretty good endurance."

Lin Moyu rose in Bai Yiyuan's estimation a bit.

There is a qualitative difference between Xiajing City and Xihai City.

As the capital of Shenxia Empire, Xiajing City is still brightly lit even late at night.

Moonlight has become a supporting character.

"Xiajing Academy!"

A massive gate that is tens of meters tall and more than 100 meters wide entered the view.

Magnificent, exquisite, sturdy, powerful.

These are the first things Lin Moyu felt.

In an instant, he felt his own insignificance.

A mere gate possesses such a captivating aura. This made shocked him quite a bit.

Lin Moyu even felt a sense of danger -- deadly danger -- from it.

Bai Yiyuan said, "This gate is both a gate and a weapon."

"Even if it's a top powerhouse, if they try to break in, they will have to pay a price."

He patted Lin Moyu on the shoulder, "Let's go."

As they approached, Lin Moyu felt an aura fall on him.

It's a bit like Detection, but not exactly the same.

His identity was verified, and the gate opened silently.

At Xiajing Academy, the night is not as quiet as he imagined.

Walking on the academy grounds, Lin Moyu can sense energy fluctuations rise one after another.

The energy fluctuations come from various places in the academy.

"This is the students practicing their skills."

Bai Yiyuan explained casually.

He may appear dignified, but he has great patience with Lin Moyu.

Lin Moyu asked, "Skills need practice?"

Bai Yiyuan explained, "In addition to the innate class skills, there are some special skills."

"Most skills need to be upgraded through practice."

This answer conforms with Lin Moyu's guess.

Skills require continuous practice and use to become powerful.

Lin Moyu raised another question, "Is it enough to just use the skills more?"

Bai Yiyuan smiled, "It's hard to say. Every skill is different, and for some skills, practice is useless."

"You will learn this and much more once you truly join the academy."

"The teachers will impart you detailed information."

Skill knowledge is a complete and systematic discipline that can't be explained clearly in just a few words.

Lin Moyu understands this point.

After Bai Yiyuan has spoken things clearly, he didn't continue to query.

The energy fluctuations surged ceaselessly, wave after wave.

Occasionally, lights illuminated the night sky.

"They're working hard." Lin Moyu thought to herself.

With just this, Xiajing Academy left a deep impression on Lin Moyu.

The students here are very hardworking.

In the dead of night, they are still practicing their skills.

Thinking of his skill... It doesn't appear to be convenient to practice it.

Xiajing Academy is surprisingly large.

After walking for a while, the two finally reached their destination.

"This is the residential area."

"You will be staying here today. Someone will talk to you about the specifics."

"Keep this in mind, at Xiajing Academy, most things can be traded."

"However, it should be done on a voluntary basis. Coercion is not permitted."

A young man was already waiting and quickly ran over after seeing Bai Yiyuan.

"Greetings, God Bai."

The young man saluted Bai Yiyuan respectfully.

God Bai holds a high position in Shenxia Empire, and is respected by countless people.

Even though Lin Moyu hasn't conveyed this in words, but he also respects Bai Yiyuan.

Bai Yiyuan nodded, "I'll leave him to you. See you later."

"Have a good rest. Someone will come for you tomorrow."

Bai Yiyuan is very busy. He can't do everything himself.

For him to personally pick up Lin Moyu, this is a great honor.

Only a few people in the entire Shenxia Empire can enjoy such treatment.

Lin Moyu's expression is placid, and his tone is equally placid, "Okay."

Lin Moyu replied with a single word. Bai Yiyuan didn't say anything. The young man, however, was startled.

No one would dare to speak to Bai Yiyuan so indifferently.

The young man has never witnessed such a thing before.

Unexpectedly, Bai Yiyuan just nodded, and then turned around and left. He disappeared into the darkness in a blink of an eye.

Since Lin Moyu was brought by Bai Yiyuan, the young man didn't dare to slight him.

The young man asked politely, "You are Lin Moyu, right?"

Lin Moyu nodded, "Yes."

His tone remains placid.

The young man felt a bit uncomfortable, thinking that Lin Moyu is too frigid.

But he didn't dare not say anything regarding this.

"Where do you want to stay?"

"We have multiple options."

Xiajing Academy has a vast residential area.

There are multiple options available.

Four-person room, double room, and single room.

Villa.

Villa with a training ground.

Different accommodations have different prices.

## **Chapter 60: Points Have To Be Spent At Crucial Times**

60 - Points Have To Be Spent At Crucial Times

Lin Moyu finally understood the principle that points are more useful than coins.

Four-person room is the cheapest, costing 500 points per month.

Double room costs 1,000 points per month.

Single room costs 2,000 points per month.

As for villas, they cost more than 10,000 points.

If you don't have points, you can also pay in gold coins.

You will have to add two more zeros to the costs.

Four-person room costs 50,000 gold coins per month, while single room costs 200,000 gold coins.

It is indeed not cheap.

Lin Moyu only has a few hundred gold coins on him at the moment.

Points can be exchanged into gold coins at a ratio 1:100.

But gold coins can't be exchanged into points.

Bai Yiyuan stated that in Xiajing Academy, most things can be traded.

However, trading gold coins for points is not permitted. If you are discovered doing this, severe punishment will be meted out.

In addition, there are many resources that can only be purchased with points.

In this way, points have become the most important hard currency in an academy.

Wherever gold coins can be used, points will never be used.

If points can be saved, they will be saved.

Thanks to the young man's detailed explanation, Lin Moyu learned a lot.

His name is Jiang Tao, and he was admitted into Xiajing Academy two years ago.

He is currently working as an administrator in the residential area, responsible for handling small matters, to earn points.

From his words, it can be inferred that it's not easy to earn points.

Probably due to Lin Moyu's relationship with Bai Yiyuan, Jiang Tao is particularly polite to him.

"Junior Lin, I know you just passed the great examination and should have a lot of points."

"But I still have to advise you. If you can save points, then do so. There are many places where you will have to use points in the future."

Lin Moyu roughly understands he should save points.

However, he has too few gold coins.

He doesn't want to stay with anyone.

"I want a single room."

Jiang Tao looked at Lin Moyu, "Are you sure?"

Lin Moyu nodded.

Jiang Tao sighed, "Sigh, that's quite extravagant. However, when you realize how difficult it is to earn points, you'll regret it."

He sighed. It looks like he has spoken from experience.

Jiang Tao took Lin Moyu to Building No. 8 of the residential area, then headed straight for the second floor.

"Building No. 8 is a single room dorm.

"Except for rooms 206, 208, 209, which are already occupied, the rest are empty. You can choose the one you like."

Lin Moyu looked and pointed to the nearest room, "This one will do."

"That's Room 201. Give me your ID card, so I can make the registration."

The ID card is nontransferable. Even if it is lost, others won't be able to use it.

Jiang Tao gripped a device and swiped the ID card, and then Lin Moyu made the fingerprint verification.

Following a beep, points were deducted from the ID card.

Jiang Tao's eyes suddenly widened, and he let out a strange cry.

"How come you have so many points?"

The device displayed the balance of Lin Moyu's points.

After 1,000 points were deducted, there were still 133,605 points left.

More than 130,000 points, this startled Jiang Tao.

Lin Moyu said, "It's the reward I received."

Jiang Tao looked at Lin Moyu as if he were some god of wealth, "No wonder you want to live in a single room dorm. It turns out you have this many points."

"Ever since I entered the academy, I have earned less than 10,000 points in total. It's not even a fraction of what you have."

"You're really rich."

"Alright. From now on, Room 201 of Building No. 8 will be your room."

"Without your permission, no one can come in."

"Have a good rest. If you need anything, come to me."

Lin Moyu nodded, then suddenly asked, "Senior, have you ever heard of Lin Mohan?"

Jiang Tao pondered for a moment, then shook his head, "I haven't."

"Your name is Lin Moyu. Lin Mohan is your relative, right?"

"There are too many people in Xiajing Academy, so it's not surprising I haven't heard about your relative. You can go to the office of academic affairs and ask there."

Jiang Tao prattled on. Before leaving, he said abruptly, "By the way, you should buy a communicator tomorrow. It will be quite inconvenient without it."

After the door was closed, his ears were finally at peace.

The single room isn't large. It has a simple layout, and is clean.

Lin Moyu sat on the bed and began to meditate, restoring his spirit force.

The next morning, someone knocked on his door.

Lin Moyu opened the door, and a shade of surprise appeared in his eyes.

Ning Yiyi, whom he hadn't seen for a while, is standing in front of his door, "What's the matter? You don't recognize me?"

Lin Moyu smiled slightly, "I do."

Ning Yiyi chuckled, "Let's go eat breakfast. Afterward, I'll take you on a tour of Xiajing Academy."

There is a cafeteria next to the residential area. Early in the morning, many people come here to eat breakfast.

Ning Yiyi quickly picked up a bunch of food.

It's a considerable amount.

Ning Yiyi's appetite is as healthy as ever.

When she was about to pay, Lin Moyu took out his ID card, "It's my treat."

Ning Yiyi chuckled and didn't object.

Along with a sound, five points were deducted.

Ning Yiyi was startled, "Why did you pay with points? You can pay with gold coins here. If you can use gold coins, you should never use points."

Lin Moyu said lightly, "I don't have gold coins:"

Ning Yiyi slapped her head, "If you don't have gold coins, then say it. I have plenty of gold coins. Don't waste your points. After all, they are difficult to earn."

Lin Moyu smiled, "It's okay."

Ning Yiyi uttered, "Thankfully, it's just five points."

"Anyway, keep this in mind, never use points where gold coins can be used."

"Points have to be spent at crucial times."

When there is time, Lin Moyu will go to the trade office and sell all the materials and weapons he recently obtained.

He should be able to get some gold coins.

Thinking till here, a gem appeared in Lin Moyu's palm.
