

A Ghost 711

Chapter 711 The Prayers Of The People

The power of a Dragon's Aura was much more developed once they became Divine Dragons, it became their true source of Divine Power and also the embodiment of their very souls. Although Valkoinen seemed small, his Soul possessed great Divine Power and the power of almost a God! Once he unleashed it, his wounds started regenerating much faster than before, and the fatigue he felt was suddenly recovered.

"GRUOOOOHHHHHHH...!"

Alongside that, a gigantic three-headed ice dragon which was the Divine Dragon Aura he possessed emerged, roaring furiously, and opening its three gigantic jaws, pointing the attacks at the children.

"You've forced my hand, now don't blame me if this entire mountain is completely destroyed as a result of your foolishness!" He roared, as his power surged and began to encompass hundreds of meters around him. "{Ultimate Blizzard}!"

FLUOOOOOOSH!

His Dragon Aura spread and generated a massive blizzard, covering all of his surroundings and beginning to shake even the nearby mountains. The mountain was engulfed on an endless spinning tornado of ice and winds!

TRUUUUUMMMMMMM...!

The people within the Dwarven Country panicked. Everyone had already evacuated into the underground area of the city, but if the entire damn mountain were to collapse, how would anybody survive anyways? Even the King and his children were unable to do a single thing against such an overwhelming force, other than pray.

"Oh Lord Odin, please save our lives, bless us!"

"I don't want to die... I don't want to die!"

"Oh Gods, please save us!"

"Gods, please!"

Most of the populations started praying, which only made Ruby angrier, she quickly started to reprimand the entire population while using a microphone-like artifact.

"Why are you praying to the Gods?! Don't you realize it?! They're the ones that have us like this! They're the reason why we are trembling in fear! They are the ones that sent these monsters to kill us! Do you dare pray to the God that had persecuted our kin and slaughtered us for generations?!" Ruby roared.

"Ruby! What are you doing?!" Her father, the King, reprimanded her. "Leave at once! What proof do you have of such things?!"

"I've only heard it from Mary, the one that has been helping us this entire time! She and her friends are fighting all of these monstrous threats and protecting our country when the Gods would never even do such a thing! If you want to pray for something, pray to Mary and her friends to be fine and safe! Pray for their wellbeing, pray that they WIN!" Ruby roared furiously. "It all depends on them at the end... Don't be foolish! If you keep praying to the Gods, they'll only mock us even more, they'll laugh at us! The Gods... are a bunch of monsters that see us mortals as mere puppets!"

"What is Lady Ruby saying?!"

"Is this true? Has she gone insane?!"

"I did heard that the church of the light used to persecute our ancestors..."

"We demons have always been killed on sight by them..."

"I heard that those monsters that named themselves Frost Generals were obeying direct orders from the Frost Queen and the church of light though!"

"Why?! Are the Gods... do the gods want us dead?!"

"I thought they were the protectors of this world, why are they trying to kill us, what wrong have we done to them!?"

"Buuuuaah! Mama I am scared!"

"Mary... if it's really Mary I'll pray for her and her friends... Fuck Odin and his Gods, they're all wicked anyways!"

"Pray to Lady Mary!"

"Pray to that big dragon that protected us, the one that fought the ice dragon!"

"What was her name?"

"Brunhild!"

"Pray to her, to everyone fighting!"

"Even if it doesn't amount to anything... Even if it may not do a single thing... We simply can't direct our prayers to the useless Gods up above doing nothing to help us..."

"Lady Mary, Lady Brunhild, please, be safe! Please, be safe!"

"Please, you have to win!"

"You can't lose, not now!"

"Please... I don't want to lose my family..."

"You're our only hope..."

The prayers of thousands of people at once began to slowly spread across the shelter underground. Ruby's siblings and even her father were shocked by her sudden ability to convince people like this. They had always taken her as a little annoyance, an "idealist" with too many things in her mind to do anything to change people or the country.

Yet now, the dwarven king and his children were finally seeing what Ruby was truly capable of, to inspire people with her words, to lead them to a different path, and to protect them with her strength and the bonds she had made with strong people through her charisma and brilliant personality.

"That's right everyone... Pray! Let us pray to her... Channel your Mana while praying, channel the very last bits of strength you have, anything is worth it! Let's give our all to them, let's give all our strength so they won't lose! Maybe one of us is nothing, but what about a hundred? One thousand? Ten thousand people worth of mana? Let's channel it, let's pray! I trust you all, just as much as I trust them!"

"Our guardians, please take it!"

"Take all our energy, please..."

"Please... I don't want to lose my family..."

"My daughter almost died, if it wasn't for you, Lady Maria's Familiars, she wouldn't be any longer in this world!"

"Please... I implore of you!"

FLAAAAAASH!

channeled into everyone else that was part of Maria's party, especially within Brunhild, who all Dwarves learned was the Divine Thousands of small bits of Mana started to fly into the skies, easily passing through the mountains and slowly being distributed and channeled into everyone else that was part of Maria's party, especially within Brunhild, who all Dwarves learned was the Divine Dragon Guardian of their country.

Meanwhile, within the Draconic Records, Muspel admired her descendant devouring and assimilating the powerful Infernal Divine Draconic Flames, and slowly refining her own soul into that of divinity... however, she was beginning to get slower and more tired.

"Hahhh... I can't... give up... No... Not now... Ungh!" Brunhild muttered, falling to her knees, the flames slowly consumed her more and more...

However!

FLUOOOSH!

An enormous amount of Mana started emerging from within her very soul. It wasn't her mana, but the mana of over five hundred thousand people, all gathered for her.

"T-This power...?!"

And then she heard their pleas, their words!

"Everyone..."

TRUUUUUUMMMMMM...!

"Huh?! T-This is... impossible! She already...?!"

Muspel was shocked by what she saw!

"Huh?! Y-You're awake, gyuh?!" Root panicked.

Brunhild's eyes opened.

Chapter 712 A Mighty Fusion!

Valkoinen went all out, summoning his powerful Divine Dragon Aura without holding back. His very presence summoned an endless Blizzard that consumed everything. The entire mountain was trembling, and gigantic cracks started to spread all around the gigantic mountain at the same time...

"All shall be consumed! I am tired of you damn kids! If all of you want to die so badly, so be it!!!" Roared Valkoinen, while laughing.

Takeshi, Laura, and Nyx were struggling to fly through the gigantic Blizzard, even more when gigantic Ice Dragon Golems appeared everywhere, trying to inhibit their movements and kill them!

"Move aside!!!" Laura roared, her small fists suddenly channeled her chaotic powers and her explosive flames, unleashing an explosive blast of fire and blowing the Ice Dragon Golems into pieces one by one!

BOOOM! BOOOM! BOOOM! BOOOOM!

"Dammit! We're surrounded and this damn blizzard, it is slowly beginning to destroy the whole damn mountain!" Takeshi panicked, shaping the waters he could summon and combining them with his fishing rod to create a gigantic coiling water dragon, which shattered into pieces any golem that got near by wrapping around them and crushing them!

CRAASH! CRAASH! CRAAASH!

"Nyx has a plan...!" Nyx said, suddenly beginning to summon many more Dragon Phantoms while forcing herself to her limits. "{Dragon Phantom Fusion}!"

FLAAAASH!

By sharing her stats with Takeshi and Laura, and so their Skills, she was able to combine their powers with her own and create something similar to Laura's Infernal Explosion Demon, a gigantic Dragon made of Phantom, Darkness, and Flames!

FLUOOOOOSH!

It encompassed the three children inside, and began moving against the blizzard while crushing any golem that got near them.

"ROOOOOAAARRRR!" Nyx roared, her roar channeling into the Giant Dragon Phantom, as an enormous breath attack made of black flames surged from its gigantic jaws! "{Abyssal Dragon Breath}!"

TRUUUUUUMMMMMMMM...!

The beam began to destabilize the Ultimate Blizzard and quickly reached Valkoinen, clashing against him with all of its power!

BOOOOOOOMMMMMMMM...!

"Nnnghh.... You're still alive, young Calamity?!" Valkoinen roared in surprise and disbelief. "Well, no matter, you shall soon join your aunt I just killed! Even if I didn't finish her, she must already be dead by now! Bwahahahaha!"

Although Valkoinen's body was taking damage from Nyx's Abyssal Dragon Breath, he quickly regenerated using his Divine Dragon Aura's powers and then decided to block it and counter with his own powers.

"{Triple Winter Dragon Breath}!"

All three heads of his Dragon Aura opened their jaws, pointing at Nyx and then... unleashing three consecutive Dragon Breath attacks, resembling all-destroying beams of annihilation!

F L A A A A A A S S S H H H H H H H...!

"Nyx! Move aside!" Cried Laura, panicking.

"Can we even take that?!" Takeshi cried.

"As long as I have you two... Nyx can do anything!" Nyx pouted angrily, channeling the powers of her father that she inherited, those of her two mothers, Crystal and Maria, and those of everyone else that granted her their powers, Partner and Elfina.

F L U O O O O O S S S H H H H!

Suddenly, hundreds of tiny black creatures appeared around her! These were Darkness Spirits! Nyx had channeled the powers of Elfina that she inherited from her and summoned them all!

"Please help Nyx, okay?" Nyx asked.

"FOOO!"

"KYU!"

"RAAAH!"

The Darkness Spirits all agreed. Nyx was special, emanating an aura similar to Maria, a Queen of Undead and also of Darkness... with their aid, their powers fused with her own Aura, combining and then channeling them all as Nyx charged forward, directly into the three beams!

"Laura, Takeshi! Hold hands with Nyx!"

The little girl quickly gave her tiny hands to her siblings, their powers flowed more and more into her own body and soul fusing and then...!

T R U U U M M M M M....!

All three beams clashed against Nyx's Dragon Aura, as she channeled their power together and unleashed them all, all at once!

"R A A A A R R R!"

F L U O S H!

The gigantic dragon changed once more, no longer phantom-like as it started to materialize. Nyx, Takeshi, and Laura felt as if they merged with the entity, all three turning into a gigantic black dragon!

"W-What is this power?!" Takeshi was shocked.

"I-I see... She has fully merged her abilities with [Twin Connection] and created an ability even stronger... This is no longer just a connection, we've fused!" Laura was shocked.

"I used something mama taught Nyx! It is named... {Spirit Fushon}!" Nyx said. "Now... Together with Nyx!" The little girl channeled her powers with her friends, as the giant black dragon swung its enormous claws. "{Abyssal Explosive Flames Dragon Claws}!"

SLAAAASH! SLAAAASH!

Two gigantic slashes made of explosive black flames surged from the Giant Black Dragon's claws, exploding and devastating Valkoinen's triple dragon breath, completely overpowering it!

BOOOOOOOOOOMMMMMM...!

Not only that, both slashes combined together into an x-shaped black flame attack, impacting Valkoinen's body and leaving an x-shaped wound all over his face! His giant body ended falling into the floor, as the Blizzard was quickly dispelled.

BAAAM!

"GRAAAAAGGH...! M-MY BODYYYYY...!" Valkoinen roared in fury and agony as he was being burned with flames he could not easily turn off! "YOUUUUU... GRAAAHHHHHHH!!!"

Valkoinen quickly jumped back into action as his Divine Dragon Aura fused into his body like an armor, and then he immediately started attacking with punches, kicks, and whip attacks using his giant tail while conjuring a storm of hundreds of ice spears, each one of fifty meters long at minimum!

CLASH! CLASH! CLASH! CLASH! BOOOM! BOOOM! BOOOM!

Nyx struggled; the fusion was quickly being overwhelmed. However, their converged powers continued fighting back, as countless explosions made of black flames emerged from each of their attacks, and then a Dragon Breath!

"R A A A A R R R R!"

BOOOOOOOMMMMMM!!!!

Chapter 713 Brunhild's Divine Judgement!

"GRAAAHH!"

Valkoinen stepped back for a few seconds in shock as his chest was burnt and his Divine Dragon Aura Armor was suddenly slightly shattered, the giant dragon breath coming from Nyx managed to deal this much damage!

"T-This is impossible! To be overwhelmed by mere children!" Valkoinen roared. "You are truly a Calamity, but a juvenile one yet!"

His fists reached Nyx's Giant Black Dragon form's face, crushing her with countless punches and cracking several bones. Many of her fangs flew off into the air as her blazing black flames were covering Valkoinen with wounds which slowly regenerated.

"You're struggling very well, but at the end... YOU'LL DIE A BITTER DEATH LIKE THAT BRUNHILD!!!"
Roared Valkoinen while laughing maliciously.

"NOOOOOOO!!!" Nyx cried, unleashing all her powers as darkness began engulfing everywhere...
Phantoms started surging around her surroundings and a million souls heard her scream!

"W-Wha?!" Valkoinen was shocked as several souls wrapped around his body, attempting to stop him from killing Nyx and the other children!

"Nnnnggh...! Let go of me! What sort of wicked power is this?!" Valkoinen panicked. "No... NO MATTER! RUBBISH, ALL OF YOU ARE RUBBISH!"

CRAAAAAASH!

Valkoinen unleashed a deadly shockwave of freezing prowess, freezing, and shattering hundreds of souls aiding Nyx as his claws suddenly were covered on his ice, shaping as sharp spears, which he covered on his divine aura!

"This is IT! {Soul Piercing Frozen Spears}! I'll SHATTER your souls!!!"

CLAAAAAASSSHHHHH!!!

His two giant spears were blocked by Nyx's tail and an aura of black flames, but the spears quickly started to destroy the aura and the tail, beginning to pierce through the soul of his victims...

"Unnnnggh... AAAGGH! W-WHAT IS IT NOW?!"

23:19

Valkoinen directed his gaze towards the perpetrator, only to find an enormously tall, "I'll send you where your aunt is now! To Helheim!" Laughed Valkoinen. "DIE!"

BOOOOOOOOMMMMM!!!!

However, a gigantic blazing fireball reached Valkoinen's head, blowing him off balance and making him hit the ground like a clown!

CLAAASH!

"Unnnnggh... AAAGGH! W-WHAT IS IT NOW?!"

Valkoinen directed his gaze towards the perpetrator, only to find an enormously tall, much younger-looking, yet mystical and divine Fire Dragoness, Brunhild herself! She was much different now. Her old white and gray scales were replaced by shiny red and golden scales. Her old and worn-down black horns became golden, resembling a beautiful crown.

Her tail became long, with the end being that of a golden spear tip, blazing with immensely strong divine flames, and her entire body was engulfed on a tremendous, all-powerful aura. Her Divine Dragon Aura slowly emerged from her body, resembling the very figure of Muspel herself!

Not only she became a Divine Dragon... but she became the Incarnation of the ancient, now dead all-mother of Fire Dragons!

"T-This is... This is impossible! Y-YOU'RE ALIVE?!" Valkoinen was shocked.

"Were you calling me dead when I am all living and kicking here?" Brunhild spoke, while her Divine Dragon Aura was summoned, the voice of Muspel herself fused with her own, both the Primordial Fire Dragon mother and Brunhild were in perfect synchronization!

"Heh, I never expected you could not only advance to a Divine Dragon with that power you acquired, but became a perfect vessel for my own soul as well!" Muspel congratulated her within her minds. "Now, girl, its time for some sweet revenge."

"Yes, all-mother." Brunhild answered her within her mind, opening her eyes once more. "Valkoinen! Why don't you fight someone at your size instead of bullying children? Have you fallen so much you're now a pathetic villain?"

"I am NO Villain! I was forgotten, I was humiliated! I was SEALED!" Valkoinen roared. "I am the one wronged HEREEEEEEE!"

FLAAAASH!

Valkoinen entered into a fit of rage, rushing towards Brunhild and attacking her head on!

A terrible choice.

Brunhild's blazing fist reached his face, as it combined with her Divine Dragon Aura and channeled Muspel's very own fists into her own!

The result?

A gigantic blazing fist impacted Valkoinen's entire body, burning him alive while crushing him into the floor pathetically!

BAAAAAMMMMMMM...!

"UUUUUAAAGGGGHHHH....!" Valkoinen screamed in agony. "T-This is... How... is it possible?! I thought you were a pathetic mortal! You... ascended into a Divine Dragon?! But even then... Ngh?! This power... Y-You've... become... Muspel's Incarnation?!"

"Bingo." Brunhild answered with a malicious grin. "{Primordial Blazing Muspel's Fists}!"

CLASH! CLASH! CLASH! CLASH! CLASH! CLAASH! CLAAASH! CLAAAAASH!

Brunhild started boxing Valkoinen's entire body with countless blazing fists coming from all around him. His entire body was already thrashed by Nyx and everyone else, but now he was getting completely demolished. His bones were cracking, his muscles were being torn apart, and his scales melted and his skin burned!

"GRYYYYYAAAAAAAAHHHHHHHHH....!"

Valkoinen somehow managed to stay alive, channeling all his ultimate divinity power into his body and unleashing a massive shockwave of ice and snow, a gigantic Ultimate Blizzard!

FLUOOOOOOOOSSSHHHHH!!!!

"FREEZE! FREEZE TO DEATH! BUAHAHAHAHA!"

Valkoinen celebrated as he saw Brunhild beginning to freeze into an ice statue in just a single second after he unleashed his Ultimate Blizzard in front of her face!

However...

Crack... crack...

"H-Huh?"

CRAAASH!

From within the ice, Brunhild's arm emerged, grasping Valkoinen's neck and strangulating him tightly with it!

"GRAAAGGGH...! GUAAAGGGH...! N-NO...! H-HOW...?! UUNGGGH...! I AM... AN ANCIENT GOD!"
Valkoinen cried in anger and wrath, his powers attacking Brunhild constantly!

Five Ultimate Blizzards, Ten Ultimate Blizzards, twenty, thirty, fifty! As many conjurations as he could, yet they never froze her, she easily melted all ice, and slowly started to burn his body while she grasped his neck.

"Die, you wicked bastard!" Brunhild roared with fury, as the flames consumed Valkoinen's entire body. His Divine Dragon Aura simply melted into particles of light against Brunhild's own superior Divine Dragon Aura, and his entire body was so burned he turned completely black and crispy while screaming.

"GRYYYYAAAAAAAAAAGGGH! I DON'T WANT TO DIEEEEEEEE....!"

Although he asked for mercy, Brunhild and Muspel had no mercy for someone that had betrayed the Dragons in exchange for wanting power!

"The primary task of Divine Ancient Dragons is to protect mortals, not to kill them or terrorize them, Valkoinen! You've been condemned to death by the Infernal Flames of Muspel herself! PERISH!"

"NNNGGRRYYAAAAAAAAAAGGGGHHHHH...!"

BOOOOOOOOOMMMMMMM...!

Valkoinen was blown to bits!

The battle was finally over!

Chapter 714 The End Of The Battle

714 The End Of The Battle

(Maria's POV)

When the battle was finally over, half of the Dwarven Country's city was completely destroyed, and also frozen. We managed to defeat the three Frost Generals, but we ended taking too long, and their army got rather deep into the city. Nonetheless, a victory is a victory, and every civilian survived.

There were still casualties, as some of the soldiers died in the battle, but they were still kept at a minimum, thankfully. I could feel their souls around me as I separated myself into several Egos through Hel's new Privilege, I couldn't really bring them back as Undead, as I would be insulting their families, so I let them go in peace using my abilities.

I felt slightly bad, even after our victory, that several innocents died... I wasn't prepared for this at all. I had just fought Thor's Divine Spirit Vessel in the Dungeon and now out of nowhere these three appeared, it was overwhelming, to say the least.

Nonetheless, it wasn't as if the battle was over. I need to go back home asap! I already sent several of my Divided Egos there, so I hope I can get there as fast as I can. Everybody is fighting and doing their everything to protect my people, I trust their strength.

However, as I multi-tasked by moving as fast as I could back home, I was also within the dwarven city, assessing everything. I regrouped with everybody using my Divine Lightning Body, which I had used to merge with Partner and Lucifer to defeat the ridiculously tough Frost, a powerful S Rank Slime.

And... Ugh, I am so tired!

At the very least, I've got tons of EXP... Yeah, at the very least there's something to smile for aside from the joy of winning against powerful foes.

Looks like I could now change Classes and Subclasses! Well, now that's new and interesting! This System is finally not slacking around anymore.

Though, it's better if he doesn't hear me saying that outloud...

"I see, this is new! Good job working on this new function, System." I congratulated the System a bit.

However, before I could begin that, there were more surprises...

I got too many new Skills! I can understand the last three title skills but what the heck is up with Magic Archery Technique, Dragon Spirit and then Blood Arts?! Did I just... learned the Skills of Emeraldine, Partner, and Lucifer because I temporarily fused with them?

Maybe the System also gathered the proficiency I gathered by using their powers while we were fused, and I ended acquiring some of their basic Skills, now this is interesting... Heheh.

Chapter 715 Many New Skills

Aside from these Skills, there was also the Blood Arts Skills I've seen Partner use a lot, but this one is much different though.

Available Blood Arts:

Level 1: [Blood Claws] [Blood Bat Swarm]

Ah, this is pretty crazy! But now Partner can draw my Health and Mana freely? Well that's a bit convenient, I don't really mind. She's usually sometimes very tired, so if she can just draw this from me directly, she can keep up fighting for much longer.

And also, there's the new Titles...

They all seem interesting, though this last one is a bit kinky... Does it mean I can have segs with Partner and get even stronger by sharing our strength? It does sound like an absolute win. I am all for calling her my Master in some hot roleplay.

A-Anyways, the last Titles are much simpler.

I think you should take a look at pantheonovel.com

Amazing, all of these Skills are rather awesome. But how exactly did I support Brunhild? I don't really remember... Well, whatever, I still take the Title. Nobody knows if that ice dragon's going to be the only one out there. Although I would prefer to talk things out, if they're dead-set on killing us, we'll have to just kill them first.

"Mamaaaa!" Nyx flew towards me, reaching me and hugging me tightly.

"Nyx!" I said, hugging her and kissing her.

"Mama!"

"You're finally back!"

The twins also greeted me happily, we all hugged each other. I just wanted to hug them for a while... I had been worried this entire time.

"I heard you three fought against the dragon and protected the city... I am very proud!" I said, congratulating them all. "However! You shouldn't had overdone it!"

"Sowy..." Nyx sighed. "But auntie was in trouble..."

"Yeah, if we didn't step in, she would had gotten killed!" Takeshi said.

"Still, we shouldn't had risked our lives so much..." Laura sighed.

"It's fine... I guess there wasn't any other option. If only I could had gotten there sooner." I sighed. "Well, let's be thankful we are all alive now, especially your aunt." I looked at Brunhild, who had evolved the same as Lucifer, both had now become Divine Dragons.

"Big sister you got so big!" Lucifer was surprised.

"You too, Lucifer. It seems we've received the blessing of our ancestors." Brunhild smiled. "For now, I'll melt the ice around and protect the city. I am sure you've got places to go right now."

Chapter 716 Partner The Calamity

"Indeed, we should hurry back home." I sighed.

"Yeah." Lucifer nodded, his new dragon form was majestic, tall, powerful, and black scaled. His sister meanwhile resembled a divine being, her flames glowed with holiness.

"Before that. We should go check on the people. Also you two go back to your humanoid forms if you don't scare people so easily..." I sighed.

"R-Right." The two dragons nodded, as they quickly went back to humanoid forms.

P O O O F!

Like that, we moved through the city, where we meet Root. He had worked the hardest as well, as he had protected the city and even helped Brunhild escape the divine ice dragon's clutches.

"Gyuh! Master, the people's down there! I've rescued anybody I could! The frozen people was left over there. I've protected them too." He pointed out, quickly emerging on his small spiritual embodiment form.

He had yet to reach A Rank though, but he seemed very close, much like Nyx. The twins seemed to be almost hitting max level as well, but not yet.

The only ones that evolved out of this were Brunhild, Lucifer, and Partner, who all became S Rank. Elfina had yet to reach the necessary level though but was incredibly close.

Ah, by the way, these were their stats:

Partner got a bunch of new Skills and she became... something like a demon? I had expected her to just continue being a vampire, but it seems her evolution mutated and she became a Demon with the name of "Lilith". It does says she's a Calamity of Lust now, so maybe... I guess she's a Calamity. I never imagined her being the one of Lust though, but it seems it gave her one hell of a powerup.

And she became one hell of a beauty! She was already super-hot and sexy, but now she's even hotter and sexier. Such delicious curves, big bouncy breasts, such a charming and beautiful smile, and her red eyes that make me go crazy! Holy shit she's such a mommy, I would let her dominate me any time.

...

...Ah, is this the effects of her Title? I guess I am head over heels for her now... I do find her hot but thinking all of that in a row does seems weird! Geez, her charm is literally killing me. And I am all for it.

Not only her hair became purple-colored and grew down to her hips, but she grew a pair of beautiful red horns in her forehead, a third eye resembling a purple jewel in her forehead, sharp and long ears, and she even got bat-like wings behind her now, permanently.

She even had an adorable pointy demon-like tail and sharp black claws. Damn, never thought she could get even hotter.... But I can't spend time thinking about how hot she is now; I have to concentrate on more important things!

"Fufufu, master you're looking at me a lot! Is it my evolution a bit too much?" She wondered while giggling. Even her personality changed a bit, she became way too coquettish!

"A-Ah, you became a Calamity..." I said, pointing that out.

"Oh yeah! I didn't realized until I saw the title, weird, right? I used to be your skeleton but now I am considered a Calamity but not you?" She wondered.

"It is indeed rather strange." Lucifer pointed out. "But I guess it doesn't really matter. If you're a calamity, then you're just stronger. Though... What is this strange aura you're exuding? Is it part of your new powers?"

"Yeah, she looks... so hot." Elfina said. "Uwah! D-Did I said that out loud?!" She quickly closed her mouth with her hands.

"I guess it is just part of being a Calamity of Lust or whatever." Partner shrugged. "I'll make sure to use this power to make our enemies fall head over heels for me and then crush them when they least expect it! Buwahahaha!"

She had certainly not changed a single bit!

Chapter 717 Lucifer And Brunhild's Growth

And then there was Lucifer's Status, it had changed quite a bit from the last time I saw it:

[Name]: [Lucifer]

Dragon of Abyssal Flames: Lv1] [Nidhogg's Incarnation: Lv1] [One of a Kind: Lv1]

His evolution's name is Nidhogg, like that one legendary dragon from Norse mythology, and it says he's
the dragon's incarnation, so perhaps the actual Nidhogg lives somewhere else, or maybe its dead and
has been reborn through Lucifer? It is odd, but its not like he has stopped being himself, so he's not
being possessed or something. Maybe he simply inherited this dragon's powers.

His defenses continue being top tier, he's our greatest tank in the party, and also his physical damage is insane. He's slow compared to Partner and me though, probably because he's so big and heavy... He gained some new Spells to summon Dragon Familiars or a Domain of Hel? And then there's the three support skills that popped out of the blue, they seem to be able to heal both divine power, health, and mana.

My husband dearest has become much hotter as well, and he's super handsome! If he were on Earth he would surely become a celebrity and be paid to act in TV Series due to his looks alone! And his Power is also in another level. He's like the hot, dark, and mysterious boyfriend I always dreamed to have back on Earth, and that he's a dragon it's a plus!

...

A-Anyways, moving on to Brunhild...

I think you should take a look at

[Name]: [Brunhild]

[Race]: [Divine Dragon Queen of Infernal Divine Holy Flames: Muspel]

[Job Class]: [Divine Ruler of Infernal Holy Flames]

[Level]: [7/100]

[Furious Berserk: Lv10] [Guardian of the Holy Flames: Lv10] [Protector of the Ash Mountains: Lv10]
[Divine Dragon of Holy Flames: Lv1] [Muspel's Incarnation: Lv1] [One of a Kind: Lv1] [Dragon Queen: Lv1]

She was very similar to her brother! I have to admit it... Though she specializes on holy flames while Lucifer on phantom and death flames. I guess they have become quite the opposite of one another. One of the things that made me curious when I checked her status was that... Her Race is named Muspel? Isn't that the ancient primordial dragon of fire?

Could it be? Is she somehow an incarnation of that dragon? The kids did said that it looked as if an ancient, primordial fire dragon had been summoned when Brunhild conjured her divine flames, so it is totally a possibility. This might also mean that the ancient primordial dragons probably want to help us and are on our side... maybe.

Once we reached the underground area of the city, we were greeted with hundreds of camps and many people. They were all fine, it seems. Ruby and her family, including her many siblings and her father, the Dwarf King greeted us. Helga and her family were all safe as well, and so all our dwarven friends, Darfu and the old dwarf twins were just as fine as well, so it was very relieving to see everyone okay.

"Mary! You're safe!" Ruby greeted me with a happy smile. "I am so relieved... It seems you've managed to fend off the threat?"

"Yep! Though we're in a hurry right now. However, first of all, I would like to introduce Brunhild to the rest of your family, she's going to stay here for now as your guardian, so I need her to see the King." I said.

"You're calling for me?" Suddenly, a domineering old dwarf wearing a golden crown decorated with brilliant jewels appeared behind Ruby. "I am the Dwarf King."

Chapter 718 Brunhild's True Relationship With The Dwarven Kingdom

Brunhild seemed surprised when she was finally given the opportunity to see the Dwarf King. Her bright golden eyes opened in surprise for a few seconds, and then she smiled a bit.

"I have heard a lot about you all from my children. As the king of this country, I am eternally grateful for all the help you've given to us. Not only you have healed a dungeon that threatened our country for many years, but even defended our country as if it were your home, and put your lives on the line to save ours..." The King said, stroking his white beard. "Thank you for everything. You will have my utmost support. If you ever need anything, please asks. I am well aware you have a guild with someone named Helga, is it not? If you so desire, I can give you the title of a noble, and even grant you a house, and more."

"E-EH?!" I felt slightly surprised about all the rewards he was offering me. "Ah, please don't worry. Maybe I'll ask for a few things, but nothing for now." I calmed the king down.

"Heh, such humility." He sighed. "We are truly fortunate to have meet such strong and humble mercenaries." The King laughed. "Now, was there something you needed to talk with me? If the foes are taken care of, we should slowly begin reconstructions. But the people's health comes first. We must secure food and the like, but that will not be your task, but that of my men, so do not worry."

"Oh no, it is another thing... Well, as you know, the forces we fought were those of the Frost Queen." I said. "Though, would it be better if we discuss this in a more close space?"

"The Frost Queen... Yes, let us discuss this in a more private area." The King nodded. His guards and his children followed him as we reached a large camp, there was a table and many seats inside, alongside snacks, so we were able to sit down, eat and drink something, and also discuss this quickly.

"The menace of the Frost Queen has finally begun her attack, you say? Those three powerful beings, and the army of frost monsters, were they all hers?" Asked the King, stroking his beard.

"Indeed, we confirmed it." Lucifer nodded. "They were incredibly strong beings that named themselves Frost Generals, they were all S Rank in strength."

"S Rank?!"

"Y-You're telling us you just defeated three S Ranks all by yourselves?!"

"Hard to believe!"

Some of the King's children couldn't believe Lucifer's words.

"Children, it would be for the best of our country if you remain in silence." The King said. "The man you're talking back to is not a mere human, nor a Majin. I can feel it, he is a powerful divine dragon. Do not anger him, he has done enough for us. Acting selfish will bring your doom, and I believe I won't have the authority nor strength to change such fate if it were to ever befall upon you all."

"D-Divine dragon?!"

The various viscounts suddenly looked at Lucifer with different expressions. My husband quickly let go of a bit of his power, a powerful, black aura that consumed all light for a bit. His eyes glowed bright red.

"Indeed, I am a Divine Dragon. I suppose there is no point in hiding our identities anymore." Said Lucifer. I think you should take a look at

"If we are like this, then I am a ghost and a titan." I giggled.

"I am a Vampire Demon~" Partner said.

"A-And I am... well, I am a half-elf." Said Emeraldine.

"Our daughter here is a dragon as well." Lucifer said. "And my sister here, you may be a bit more familiar with her, she's the dragon that's been protecting your country even before we arrived here."

"I see..." The King sighed, smiling. "It is interesting, very interesting. The races and creatures we often thought were menacing monsters... all united here, and all of them fighting for our own wellbeing. I am baffled to say the least. Perhaps our perspective was always wrong, perhaps even monsters and undead... even vampires, can be good and do good." The King began to realize.

"Hahaha! It's nothing, don't worry about it." I said with a smile. "More importantly, my real name is Maria Fuentes Belles, you probably recognize that name, isn't it?"

"T-The Witch of Darkness?!" Asked one of the viscounts.

"S-So you're her ghosts, Mary?" Asked Ruby, feeling shocked.

"Something like that." I said with a smile. "Not even I remember my memories of being her, but I am sure I was her... I was killed unjustly, and my own family was also slaughtered, all so the Church of Light could take away the dangerous Fragment of the Evil God. I've been in a journey to find a home, to explore this world, and to find my true purpose. And the closer I get to it, the more troubles arise. The Frost Queen and this entire invasion... It might have something to do with the Gods themselves."

"S-Such a thing..." The King sighed. "I understand. Even as much as we try to pretend our lives are normal, supernatural beings, gods, and other entities live with us, in the skies, the earth, and the seas. For everything you've done for us, we're willing to become your most loyal allies, Mary."

"Thank you so much, King." I bowed my head lightly. "Now, to a more important topic. This is Brunhild, as his brother introduced her, she is someone very special to you all."

"I... I am happy to be able to formally speak with all of you, Children of Fafnir." Said Brunhild with a smile. "It could be said... I am also your ancestor."

"Eh?" The dwarves were all surprised. "Y-You're Brunhild, the legendary dragon that made a pact with our Founder King!?"

"Indeed, and I was his wife too." Brunhild nodded. "It has been thousands of years since then. But I am always happy to see you all healthy and safe, my children."

This was... a shock, not even we knew about this part of the truth! Brunhild had kids with the first Dwarf King of this Country!

Chapter 719 The Ancestor Of The Dwarves' Royal Family

"C-Children?!" Lucifer asked in surprise. "B-But I thought you've been a virgin this entire time, my sister dearest!"

"Hey, who do you think I am?" Sighed Brunhild. "Now cut it off, this is a serious conversation with my descendants."

"A-Ah, right." Lucifer nodded, falling silent.

The dwarves had all sorts of mixed reactions, but they were all moved greatly.

"So it is true... that our bloodline has the blood of dragons." Ruby said.

"Indeed." Brunhild said. "Although none of you has yet to awaken this power, I can feel it within your bodies. The reason you all have such shiny and colorful hair, and your beautiful eyes, and the great affinity with magic, it is because you all descend from my first children with the King."

"First children?" Wondered the King. "What about the other concubines? The Queen?"

"Well, this might be a shock, but that was all a farse." Brunhild sighed. "We knew that such a thing as saying that he married a dragon would only be looked down upon. The Queen you all knew from back then was a friend of mine, that offered herself to take on such a role. But behind the scenes, the King and I loved each other very much."

"I-Incredible..." I was surprised. "That King was really going for a big woman, wasn't he?"

"Our Ancestor... Brunhild..." The King was shaken. "T-Then you're like the mother of all of us."

"Something like a very old grandmother." Giggled Brunhild. "I've been watching you all, as I grew older and weaker. I protected you from many threats you never saw nor heard about. You've been kept safe all this time because I've been there, watching you all grow and develop. When I saw you were hungry, I used my magic to make your crops yield more harvest. When I saw you were lacking in resources, I opened the mountains and forced the ores to emerge. When you were threatened by the monsters of the world outside, I defeated them all, even as I grew more tired, and older... I did all for you, my beloved children."

Every dwarf of the royal family was moved to tears. They all started crying. It was surprising how nobody doubted her. But I quickly realized why they didn't doubt her. There was something within Brunhild, an aura, a connection with all of them, which became stronger as she spoke with them. It felt as if something within their very hearts couldn't allow them to doubt her words.

"Great Ancestor Brunhild..." The King said, trying to resist his tears. "I am very honored to see you here with us, and I speak for all Dwarves when I say... Thank you so much, for everything. Our country would have never been able to reach this far without you to protect us and take care of us."

"Don't worry." Brunhild smiled with a motherly giggle. "It is only what a mother should do. Even if I was never able to see my children grow as my friend did it for me... I watched from afar. I saw them being born, and dying, and being born again. My bloodline increased your lifespans, but you have mostly remained dwarves, as I gave birth to your ancestors while in my humanoid form."

"Oh! I didn't know that." I said to Lucifer.

"Indeed, depending in the form we take, the children we conceive will be different. If we make a child in our humanoid forms, depending in the humanoid form type, they may be completely non-dragon aside from their bloodline." Said Lucifer. "As Crystal laid her eggs in her dragon form, all of our children were dragons, but there was indeed the possibility to make them human or Majin-like if she gave birth in a more humanoid form."

"Interesting..." I said with a smile.

"...I don't know what you're thinking but please don't say it out loud." Lucifer sighed.

"A-Anyways. I am glad you were all fine." Brunhild said. "Now that my identity has finally been revealed... I don't really know what to do! But I honestly feel so relieved."

"Oh ancestor, please don't worry. We will tell every person in our country and they all shall accept you." The King said. "I am even willing to forfeit my throne and give it to you, our greatest protector and the one that always looked for us." "I think you should take a look at

"E-Eh? T-The throne?!" Brunhild felt slightly surprised. "Oh please no, I wouldn't be able to do such a thing! Let's keep it simple."

It seemed they were getting along just fine.

"Alright! Now that such a thing was said and done, we're moving out. Brunhild, we'll leave the protection of this mountain to you." I said. "If any other frost general shows up, melt him to death!"

"Sure." Brunhild nodded. "Now go with caution. Are you bringing the children? I can take care of them if you want to."

"No way! We're going! We must fight for our place! That's our home!" Said Takeshi.

"Yeah, although it sounds dangerous, we have to go no matter what." Said Laura.

"Me going with mama and dada!" Nyx said while pouting.

"Gyuh, me too!" Root said.

"Okay, I guess we're all going together then." I laughed a bit. "Anyways, King, Ruby, we'll leave the rest to you. We're discovered that the frozen people are still somewhat alive. Leave them be, once we defeat the Frost Queen we'll find a cure to their curse."

"S-Such a thing is possible?" Wondered the King.

"I think I've found one already." Brunhild said. "I can do it."

"Y-You can?!" We asked in shock.

"Let's go and I shall show you." Brunhild nodded.

Like that, we moved back to the city which was in ruins. In there, a large group of frozen people were gathered in a corner by Root.

Brunhild touched them, imbuing them with her Divine Blazing Flame Aura, and slowly beginning to melt the ice.

"Oh Divine Flames of Muspel, Purify The Bodies Of These Cursed Souls! [Purifying Holy Flames]!"

FLUOOOOSH!

And then, we witnessed a miracle.

Chapter 720 A Desperate Battle For Survival!

The holy golden flames quickly began melting the ice, as all the people frozen were instantly brought back to life. They were all gasping for air, wondering what was happening. We even gathered those that

were broken apart when frozen, and put them back together, when the flames touched them, they were back to normal very quickly as well.

"T-This is a miracle of our goddess ancestor! Brunhild!"

"Incredible..."

"Our Dragon Goddess, thank you!"

"She has such a power?"

"Amazing... this is incredible..."

"Our guardian, we are so glad you're alive!"

Many dwarves all began kneeling before her, Brunhild felt slightly embarrassed.

"W-What? Don't prostrate yourselves please! I am just doing you all a small favor." She sighed.

"Anyways, Maria, take this."

She quickly conjured her divine powers, concentrating them into a red-colored orb made of crystalized divine power.

"This is an Orb of Purifying Flames. Use it with the people back in your town, those that were frozen long ago, and they should be back as well." Said Brunhild. "At the end, the freezing curse is a curse that can only be overcome by an equally powerful fire."

"Thank you, Brunhild." I sighed, giving her a tight hug and a kiss in her cheek. "Alright, we're going now, everyone!"

"Alright!" Lucifer said. "Thanks a lot for that, big sis! Maybe we can finally bring back the descendants of the survivors of the Demon Kingdom!"

Lucifer was the happiest. One of the reasons he had been so sad finally had a solution within our grasp. We simply had to get there, stop the invasion of the enemy army, and revive everyone that had been frozen!

We quickly sat over Lucifer's back, as I used my shadows to wrap us up really tight and safe, and then he quickly took off into the skies, flying through the mountains and into our home. I hope everyone's alright, my Egos should already be getting almost there!

.

.

.

While Maria hurriedly made her way back home. A gigantic metal slime, Mercury, protected the entire city by spreading his body like a gigantic metallic dome, stopping the army of frozen monsters from advancing any further. His metallic body was very resistant to all elements, the ice these monsters wielded couldn't affect him.

CLAAAAASSSHHH!!!!

And in the middle of the battlefield, a tall humanoid ant, Lancelot, was fighting against hundreds of monsters at once, commanding his army of Undead Abyssal Ants, they tore apart the invaders mercilessly.

"It is good I managed to make my way here quickly." He sighed in relief, looking at the distance.

Hundreds of frost monsters of all shapes and sizes kept coming. And behind them, larger figures that had yet to act were watching, slowly getting closer. The Rank of these monsters were mostly up to B

Rank, someone as strong as Lancelot who had been created out of a powerful Abyssal Ant Knight was more than capable of stopping them.

But not to defeat them all... He was strong, but he was only one. Thankfully, there were other Undead in this fight. A gigantic two-headed beast with the body of a black panther and the head of a crow and a black lion, big wings and six arms with the tail of a snake, it was Kuro and Raven, who were fighting on the frontlines.

After being repaired many times and then finally leveling up and evolving, Kuro had gone through a great transformation, now becoming an incredibly strong chimeric undead beast of A Rank! With Lancelot, the two slain many B Rank monsters that got closer to the ruins that had become their home.

"ROOOOAAARRR!"

Kuro furiously swung his four front limbs, two of them belonged to him and the other two being sharp claws coming from Raven, who had been fused into him to enhance his powers even more.

SLAAASH! SLAAAASH! SLAAAAAASH!

Three gigantic and all destroying slashes of darkness erupted from his attacks, devastating the area and shattering the ground while cutting down hundreds of monsters. Even the B Rank monsters were incapable of resisting, being cut down to pieces. I think you should take a look at

"GRRRRRHHHH..." However, Kuro and Raven quickly noticed a dozen more monsters coming, running at them. These were all A Rank instead, even stronger and tankier. He would need to go a bit more intense against them.

FLAAASH!

Both of his heads opened, gathering darkness and death energy and his mana, as the two heads unleashed a double beam of [Abyssal Death Darkness], one of Kuro and Raven's strongest Skills.

BOOOOOOOOOMMMMMMM!!!!

The enormous explosion spread across the enemy lines, devastating the A Rank Monsters, all of the B Rank beasts, and anything below them was simply turned into ashes.

"GRAARGH!" However, Kuro groaned in frustration, more and more monsters kept coming.

And not only that. At the other side of the battlefield which he couldn't cover, there were more monsters coming, commanded by the Frost Generals that have decided to completely destroy Maria's home while she was in the dwarf country.

"Move, my beasts! Tear them all apart! Gahahaha! Once we manage to get through the walls, it'll be all over!" Laughed a barbarian-looking white wolf beast man.

With only a single blue eye, while the other was missing, covered in an eyepatch. It was as tall as four meters, muscular and strong looking, resembling more of a werewolf than a beast-man.

He commanded an army of ten thousand Wolf Monsters, many of them being B Rank and with dozens of leaders being A Rank. Alongside them, there were also many other werewolves looking just as barbarian-like as him.

CLAAAASH!

However, a giant skeleton wearing black armor and holding a gigantic black sword emerged, falling from the skies as it jumped off the walls.

"OOOOOOHHHHH..."
