

ANCIENT GOD

Chapter 10 Fantasy Scene

"Quick! That little thief is there!"

In the distance, there was a shout.

"here we go again!"

Ye Feng's eyes darkened. ??

Even though he practiced the Divine Art of Creation, the golden energy in his body was extremely powerful.

But the pursuit and counter-attack for days made Ye Feng a little annoyed and exhausted.

"Uh-huh!"

Ye Feng quickly ran toward the deep mountains of the Ziyun Mountains.

He planned to hide in the deep areas of the Ziyun Mountains for a period of time, just in time to digest the spiritual medicine, spiritual stones and other cultivation resources plundered during this period.

When he breaks through again, Ye Feng will no longer be afraid of Chen Tianya, the leader of the Blizzard Mercenary Group.

When the time comes, go directly to Chen Tianya and kill him in public to see who dares to hunt him!

Ye Feng thought silently in his heart. He looked coldly at the large group of chasing people behind him, turned around and ran into the deep mountains of the Ziyun Mountains, disappearing without a trace.

Everyone stepped forward, and the leader was none other than Chen Tianya, a strong man in the Spiritual Martial Realm!

He came to the jungle at the entrance of the mountain, put his hands behind his back, and said with a sneer on his face: "This is the only entrance and exit into the deep mountain area. It is extremely dangerous inside. That boy will definitely come out. We will wait for him here!"

Everyone agreed and said: "Senior Chen is right. As long as we wait for that kid to come out and a strong man like Senior Chen is in charge, we will attack together. No matter how powerful he is, we will definitely kill that kid without even a scratch." Keep!"

In the endless jungle.

Ye Feng was alone, wearing white clothes and snow, carrying a rusty long sword on his back, and holding a wind and thunder bow in his hand, walking in the deep area of Ziyun Mountains.

He knew that his entrance into this deep area was the only entrance and the only exit.

Behind the scenes, the Blizzard mercenary group and others did not pursue him.

"It seems that he

We dare not enter this dangerous mountainous area. "

Ye Feng breathed a sigh of relief temporarily.

But he knew that this group of people must be waiting for him to fall into the trap at the only exit.

"Hmph, when I break through to the ninth level of the True Martial Realm, all of you will die and be devoured by my oven of creation!"

Ye Feng's eyes were filled with murderous intent.

Then he continued walking towards the depths of the deep mountain area of Ziyun Mountain Range.

Ye Feng is going to find a slightly safer cave to practice.

With the accompanying talent of the oven of creation, Ye Feng knew that his breakthrough speed would definitely surprise those people.

Along the way, Ye Feng saw many frightening dangers.

There are poisonous miasma places, terrifying swamps that one can fall into with just one kick...

There are also huge sleeping beasts, piranha flowers as tall as a person, and weird vines that can restrain living things...

Everything shows that this deep mountain area is full of dangers.

Only then did Ye Feng understand why those who were chasing him, even Chen Tianya, the leader of the Blizzard Mercenary Group, a strong man in the Spiritual Martial Realm, did not dare to enter this deep mountain area rashly.

However, these crises can be easily avoided for Ye Feng.

Because the mysterious power emitted by the golden elixir in his brain last time not only made Ye Feng's understanding of martial arts extremely evil.

Even his perception, insight, speed, endurance, etc., these comprehensive martial arts qualities have all been modified to be far beyond ordinary people!

Therefore, Ye Feng's super perception allows him to sense his surroundings in advance

Dangerous areas, so as to avoid them in time.

"boom!"

Suddenly at this moment, an extremely strong sound of battle waves suddenly came from a certain direction not far away.

"Huh? There are actually people fighting in this deep mountain area? Or maybe two ferocious beasts are fighting?"

Ye Feng's eyes moved and he ran quickly in that direction.

Soon, he came to the edge of a large canyon.

Unexpectedly, there is such a huge canyon deep in the Ziyun Mountains.

Ye Feng lay on the edge of the canyon, hiding behind the grass and trees, staring at the bottom of the canyon.

What shocked Ye Feng was that in the canyon, a huge python with a length of dozens of meters was chasing and biting more than a dozen human warriors.

This huge python is covered with strange purple scales, has three snake heads, the snake head is red, and the fangs are several meters long. It looks extremely scary.

"Venomous Python!"

Ye Feng's eyes were startled. This was definitely an evil beast that had surpassed the True Martial Realm and was comparable to the powerful humans in the Spiritual Martial Realm!

...

In the Grand Canyon.

A dozen tall guards wearing silver armor were protecting a beautiful girl wearing a plain white dress.

This stunningly beautiful girl has a graceful posture, clothes like snow, a delicate and clear face, a pair of big eyes that are ethereal and innocent,

shining like stars, three thousand blue hairs draped over her shoulders, and a silver crystal dotted between her eyebrows. She has a kind of celestial spirit, yet mysterious Noble temperament.

Nangong Muxue never expected that she would lead a group of royal guards to the depths of the Ziyun Mountains, hoping to find the colorful lotus to celebrate her father's birthday.

But in the end, the colorful lotus was not found, but it was accidentally provoked by the vicious and poisonous python in front of him!

This poisonous python was so fierce that more than a dozen silver-armored guards fell down next to Nangong Muxue with their steel swords broken and their shields shattered.

"ah!"

But the last tall silver-armored guard was pierced by the poisonous fangs of the venomous python in front of Nangong Muxue. He only had time to shout before dying: "Ninth Princess, run!"

Poof!

The tall silver-armored guard was swallowed alive by the poisonous python.

"Buzz!"

A venomous python that is dozens of meters long, with a majestic snake body covered with purple scales, is half standing on the ground. Its cold snake eyes are staring at the last human being below, Nangong Muxue!

Nangong Muxue's beautiful eyes were full of deathly gray. She knew that she was going to die in the deep mountain area of Ziyun Mountains today.

She closed her eyes, waiting for the tragic fate that was destined to be her.

"call out!"

But suddenly at this moment, a golden iron arrow, wrapped in wind, thunder and lightning, burst out from a distance, directly "puff", pierced one of the snake heads of the poisonous python.

"howl!!"

The poisonous python had a total of three huge snake heads. A sudden wind and thunder arrow exploded one head instantly.

This behemoth, the remaining two snake heads immediately let out an earth-shattering roar.

"Walk!"

Nangong Muxue was in a daze, but a boy in white suddenly appeared next to her. He held a big bow in his left hand and ran away pulling her with his right hand.

"Who are you?"

Nangong Muxue seemed to have just reacted and asked excitedly.

The young man in front of her, with white clothes and handsome face, fell from the sky to save her from danger.

Isn't this the scene that Nangong Muxue has fantasized about since she was a child?
