

A God 1021

[Chapter 1021: Tia](#)

Brother Hong, the continent of Tia is ahead. "Yue Rushuang, dressed in delicate purple battle armor, and "Hong", a man in black, flew over and looked at the huge land suspended in the chaotic void in the distance. From the outside, it looked like some kind of strange creature.

With Hong's amazing eyesight, it can be easily seen that this land is tens of millions of light-years in size, but in the chaotic void, there are more landmasses than this.

This time, led by Yue Rushuang, Hong set off for the Tia Continent. The two of them flew for tens of thousands of years before arriving here.

And this is still knowing the route, and it is the reason of the eternal true God.

The heroic Yue Rushuang stood in the void and said with emotion: "The six continents near our Lanshuang Continent are the strongest in this Tia Continent. The races living here are dominated by the Tia people. They are metal beings. Their personalities and living habits are not the same as our flesh-and-blood beings. I have been here several times before, and I have met their tribal chiefs. Although the Tia people do not exclude outsiders, they are also very indifferent. As long as they follow their rules, generally nothing will happen."

"Brother Hong, let's go."

Hong nodded and flew to the Chaos Land with Yue Rushuang.

On the edge of the chaotic land, there are also pieces of rocks floating around the continent. According to Yue Rushuang, this is a protective formation arranged by the local forces in the Tia continent. It can monitor the entry of outsiders, and can also start defense when the enemy invades. .

However, it takes a huge amount of energy to open this array once, so it is usually kept in a latent state and only has the ability to monitor.

According to Yue Rushuang, the two of them will be perceived as soon as they appear near the continent of Tia.

Yue Rushuang and Hong flew towards the Tia Continent.

And Hong Yinyin noticed that the strongest aura was deep in the continent of Tia, and it seemed to be vaguely integrated with the entire continent.

Hong's eyes flickered slightly, and he got the message from Yue Rushuang that the strongest person in the Tia continent is the patriarch of the Tia family, a powerful metal life powerhouse, and the strongest existence in the surrounding area.

There is also a saying that this continent of Tia was the remains of an ancient life before endless years, and later evolved into a chaotic land. After countless years, the first intelligent life was conceived in the depths of the land, which was the Tia family. ancestor.

That is, the current patriarch of the Tia clan.

Of course, this has no basis, it is just a legend.

Hong overlooked the vast land under his feet, tens of millions of light-years of land, and looked like some kind of creature. If it was true, then at least it must have been a life of chaos master level before his death.

For an eternal true **** like Hong who did not follow the route of the divine body and had not been cultivated by any divine body, the divine body was not much bigger than the ordinary true god, let alone compared to this kind of behemoth whose body shape was only slightly smaller than that of the small universe of the true god.

It's just that such a powerful existence, even after hundreds of millions of years of death, will be difficult to dissipate, and under the impact of the will of terror, it is basically difficult for any life to be born.

In Tia Continent, apart from the strong breath, Hong did not feel too amazing natural will.

Although a little curious about the secrets of Tia Continent, Hong didn't care too much. The most important thing for him now is to find a way to go back to the Continent of Origin.

"The chaotic flying boat will pass through the continent of Tia every once in a while to trade with the strongest local forces." Yue Rushuang said to Hong. "If we want to see them, we have to go to the main city of the Tia family."

Unlike Lanshuang Continent, where there are many heroes, the Tia Continent is respected by the Tia clan, and other ethnic forces are vassals of the Tia clan, and they look up to it.

The Tia family, to be precise, the tribe, whose main city is built on the highest mountain in the Tia continent, is a majestic black metal city.

They look like humanoids, but they have various heads, and their skin is metallic black. Some of them are wearing armor robes, but most of them are not.

In addition to the Tia clan, there are all kinds of life in this city, there are many, but the Tia clan is the dominant one.

For countless years, various life civilizations have also appeared on the Tia continent, but in the end, the ones that can survive must at least have their own uniqueness. The most important point is to surrender to the Tia people and recognize their dominant position.

Those who do not surrender and want to challenge the dominance of the Tia people have become the dust of history.

"Lord Yue Rushuang." When the two of Hong came over, a group of people flew out from the main city. The tall, wolf-headed black Tia clan bowed slightly to Yue Rushuang. Obviously, he recognized the leader of this powerful neighbor.

Although the Tia people are metallic beings with indifferent temperament, they are not blocked. There are only a few lands in this chaotic void, and some major forces have heard and communicated with each other.

When greeting Yue Rushuang, he was also looking at the stern black-clothed man next to him, and he could feel that this man was unfathomable.

I was secretly shocked, "Where is this strong man, it seems to be the eternal true god, but I have never seen it."

"General Shamat." Yue Rushuang also nodded slightly and smiled. "I came this time to ask, when did the Chaos Flying Boat pass by you?"

General Shamat shook his head and said, "Lord Yue Rushuang will be disappointed. Chaos Flying Boat has just left us. If Master Yue Rushuang wants to trade with Chaos Flying Boat, I'm afraid you will have to wait for the next time."

"What? Already gone?" Yue Rushuang's face changed slightly.

Hong frowned beside him.

"How long have they been gone and where did they go?" Hong said.

Shamat's attention has been secretly on this strange powerhouse. Hearing him speak at this moment, he smiled and said, "This is..."

Yue Rushuang glanced at Hong and said, "He's my eldest brother."

Hong's expression was calm.

"It turned out to be the elder brother of Lord Yue Rushuang, but why have we never met?" Shamat showed a curious expression.

Yue Rushuang said coldly: "My eldest brother has been retreating, it's normal for you not to know. Okay, let's talk about the whereabouts of the Chaos Flying Boat, do you want me and your great patriarch to inquire in person?"

Shamat's expression froze, and as Yue Rushuang, he was really qualified to see their patriarch.

Shamat said embarrassingly: "The chaotic flying boat came to us for several epochs, and after trading with the adults in the clan ~www.mtnovel.com~ flew away, I don't know where it went, I am in the clan. Just a little guy."

Shamat didn't lie, he was just a true **** of the void, and the big people in the clan were responsible for receiving the Chaos Flying Boat, and even the patriarch occasionally came forward to receive it in person. How could he, a small person, know so much.

When Hong heard this, he secretly said that he was unlucky. According to the time, when the Chaos Flying Boat passed the territory of the Tia tribe, he and Yue Rushuang had just set off.

It was so close to being missed.

Hong didn't give up entirely, though.

He looked at the Tia clan in front of him, "I want the most detailed map information in your area, I don't know who can call the shots?"

[Chapter 1022: Chaos Black Whale Lord](#)

do you want a map? "The person in charge of receiving the two of Hong was an Eternal True God-level elder of the Tia tribe, with two female heads, and a golden vertical stripe in the center of the head and between the eyebrows.

"Yes, I don't know what you want to give me." Hong Shen said.

It doesn't really matter whether you can trade with Chaos Flying Boat. If you can get the map information around here and locate your location, that's enough.

The elder glanced at Hong and Yue Rushuang and suddenly laughed.

"Both of them are honored guests of my Tia clan, the map... I can give it to the two of you at my own discretion, and you don't need to pay anything."

Hong was a little surprised, but of course he wouldn't refuse such a good thing.

"Thank you very much then."

"You have come to the right place. In terms of the details of the nearby map, my Tia clan is ranked second, and no one dares to be the first." The Tia clan female elder of the eternal true **** said confidently.

"What I need is the most detailed map information. I wonder if Elder Arida has heard of the Origin Continent?" Hong Dao.

Elder Arida showed a puzzled look: "Original continent, where is it?"

flood: "... "

He seemed too happy too early.

Seeing Hong's expression, Elder Arida seemed to have guessed something, and asked with a smile, "Mr. Hong seems to be looking for this continent of origin?"

She was very polite to Hong, because Hong's breath was of the eternal true **** level, and it gave her a very powerful, even unmatched feeling.

She felt this way only from the patriarch before.

That's why she was so polite to the two of them.

Although the Tia people are proud, they are not stupid. In fact, they can keep in touch with the chaotic flying boat from outside, and they know a lot about the situation outside.

Hong Xin knew that sometimes he had to show some strength to make it easier to do things, so he didn't hide his strength.

But he did not expect that the obviously high-level elder of the Tia clan didn't even know the origin continent.

This is outrageous.

"Am I guessing wrong, this chaotic flying boat is not from the origin continent?" Hong frowned.

Of course, it is also possible that although the Chaos Flying Boat has a transaction with the Origin Continent, because it is too far away from the Origin Continent, it does not tell the residents here too much information from the outside world.

Although Hong had various thoughts in his heart, he still had a calm expression on the surface. Facing Elder Arida's question, he just smiled slightly.

Even Yue Rushuang didn't know his true origin, but he wouldn't tell others at will.

Arida didn't care when she saw that Hong didn't answer, and took Hong and Yue Rushuang to the place where the map was stored.

In the depths of the Tia continent, there is a huge cave, and a tall black shadow is sitting in the cave.

He looks like a statue, with metallic black skin exposed under the thick cyan armor covering his body, thick and long horns standing up from his back, and a huge, long scaly tail extending out.

His existence is like a neutron star, which makes the already extremely high gravity of the cave reach an astonishing level. It is the true **** of the void. It will be difficult to get close to here, and the true **** is directly crushed by the huge gravity. The body collapses.

"Hong? Yue Rushuang?" He glanced above his head, thought for a moment, and then closed his eyes indifferently.

The arrival of the two eternal true gods only caused him a little attention, and he didn't care much in his heart.

Because in this continent of Tia, he is invincible.

...

The vast chaotic void, the endless chaotic airflow drifts, and the density of the chaotic airflow in some places is too dense, and even forms "Chaos Swamp", "Chaos River", "Chaos Sea", and such places, for Eternal True God, are all Dangerous.

Many void creatures like to live in such places.

A sea of chaos.

"Boom..." The big waves rolled, and the waves of the endless chaotic sea hundreds of billions of light-years wide were even more astonishing, like thunder, rushing and surging.

If any wave is photographed, the Void True God will be swept away.

Most of those void creatures only dare to live on the edge of the Chaos Sea.

A Void creature, playing with his companion in the shallow sea, suddenly turned his head alertly and looked behind him, followed by a piercing scream.

"Roar~"

[illegible]

In the chaotic sea, I don't know when, a huge ocean whirlpool appeared.

A towering black shadow emerged from the ocean whirlpool.

The terrifying aura filled the air, frightening the Void creatures who had lived here for endless years but had never seen this scene.

The sense of surrender and fear from the instinct of life tells them that the giant beast in front of them is an existence that they absolutely cannot match.

"What is this? Why haven't I seen it here for so many years?" The void creature that looked like a peacock fell into a huge shock when he saw it.

Because it is difficult to penetrate the Chaos Sea, these Void creatures who have lived here for generations do not know that such a monster is lurking in the sea.

The majestic and tall black figure that emerged from the ocean vortex, set off monstrous waves, and looked like a whale on the earth, but in addition to its incredible size, its body length was also several times longer than the normal proportion of ordinary whales. , more like a snake.

Moreover, it has a dark body, and its head is the largest part of the body. It becomes thinner and thinner toward the end, and finally connects to a huge tail fin. The pectoral fins on both sides of the body are also very broad, like those of flying fish. When it just emerged from the sea, it opened it like a pair of wings, and the length it opened is half the length of its body. However, the most special thing about this guy is the black-gold horn on its forehead. , that is a sharp horn that is one-third of its body length. Tear the sky, which seems to symbolize its kingship.

Its eyes are like those of a reptile's vertical boy, and when the huge red eyes turn, it sees the void creatures on the seashore, and gives out a laugh that shakes all directions.

"Haha, after sleeping here for so many years, I didn't expect that as soon as I woke up, there would be so many little guys here."

"Boys, please be my food."

The peculiar black giant whale opened its mouth and sucked.

"Boom~~~"

The airflow of the entire Chaos Sea seemed to be sucked into the mouth of the black giant whale.

"Roar."

"Do not."

"Do not."

All the void creatures were so frightened that their hearts were split, and they flew out desperately.

In all directions ~www.mtnovel.com~ is on the sea, one after another silhouettes are flying out, trying to escape. But it was like a small wooden boat caught in a huge ocean vortex, no matter how hard it

struggled, it would be swallowed up. "Boom..." Including those Eternal True God-level Void Creatures, including the numerous Void True God-level, True God-level Void Creatures, all of which were swallowed by the black giant whale.

The entire Chaos Sea suddenly became empty, with only the majestic black shadow floating on the central sea.

The giant black whale smacked its mouth, "It's not enough."

It looked into the distance, "After sleeping for so many years, it's time to go out for a walk, eat something, and see how my old friend is doing now."

[Chapter 1023: fright](#)

Three thousand latitudes of the universe sea, the universe of human territory.

"This is the map."

A man in black, Hong's will is projected, his fingers are stretched, and space force is motivated, condensing into a complex picture.

At a level like him, the will is extremely powerful, and it is only the projection of the will that can control time and space and obliterate some weak people.

This is the map information he got on the continent of Tia.

Wang Yi raised his eyes and looked, the incomparably complicated map turned into simple messages in his eyes, one by one correspondence.

"How?" Hong looked at him expectantly.

Wang Yi fixed his eyes on a sign on the edge of the map and showed a smile.

"I know where you are."

"Oh?" Hong's eyes lit up.

Wang Yi said: "Look at this." He pointed to a sign near the edge of the map. There are millions of signs on the entire map, but that sign is very large and obvious. Obviously, it is also an important landmark in the map recorded by the Tia people.

"That's Bashi Island." Wang Yi said, "It's an island, but it's actually about the same size as a chaotic land. The key point is that it is an important stronghold of Mingxian Islands, and there is a chaotic master."

In such a place, the information in Wujianlou is also recorded.

In fact, it can be said that, like other information, it can be missed, but the information about Chaos Lord, no matter where you pass by or what you do, is recorded in the intelligence data of Wujianlou.

"Baishi Island, is very far away in the chaotic void on the western periphery of the origin continent. It is all on the edge of the power of Mingxian Islands." Wang Yi said with emotion. "You've run far enough."

"This location is indeed remote." Hong showed a wry smile.

He also did not expect that the golden monkey in the Palace of Living Beings would appear in such a far place after teleporting him out.

Or the place the golden monkey felt was not dangerous to him, or he was too lazy to care so much and just threw him out.

But for Hong, it was enough to break a leg.

"I'll find you now." Wang Yi said, as long as you know the location, it will be easier to handle. With his world-shattering teleportation technique, he will soon be able to reach there.

"I really envy your ability." Hong said with emotion.

He also knows a lot of information about the origin continent, and knows what it means to master ultra-long-distance transmission.

Origin Continent, Heavenly Sacrifice Country, Changhong Sect.

On the mountain, in the pavilion, everyone was making tea, and Wang Yi stood up.

"I'm going to bring Hong back."

Yuanzu and the others' eyes lit up, and Luo Feng said happily, "Brother Hong found it?"

"He is in a chaotic land in the chaotic void, which is too far away from the origin continent. With him alone, I am afraid that he will have to meet us in the next era of reincarnation." Wang Yi teased. "So I have to go and bring him back."

Everyone looked at each other, "This is far enough. How did he run so far?"

Like reincarnation to the origin continent, although the location is random, it generally does not deviate from the origin continent, not to mention running into the chaotic void like Hong.

Watching Wang Yi break through the space and leave, the Chaos City Lord sighed with emotion, "It seems that Hong also has a big chance of his own, which is really enviable."

The human race is now able to surpass the Void True God, only Wang Yi, Yuanzu, Luo Feng, and Hong.

Wang Yi is the only one who can become the master of chaos.

Hong's growth rate was originally much slower than that of the original ancestors, but as soon as he arrived on the origin continent, it didn't take long to break through to the eternal true god!

The First Evolution

The original ancestor will not talk about it, no one can cultivate to that point, and at the true **** stage, you can comprehend 6,000 rounds of the Rhinoceros Game. Even if the aptitude and talent are placed on the origin continent, they are geniuses.

Luo Feng, since his rise, there have been many adventures and opportunities along the way, and there is a reincarnated **** king who is sitting behind the mountain.

As for Wang Yi...that's a mystery.

What he has done is unimaginable, breaking common sense again and again, creating miracles, and making people doubt life.

Even the Chaos City Lord felt that such a person should not exist in the universe sea.

"No matter what he does, the more powerful we humans are, the better." Giant Axe said, although they are envious, they are not jealous, they still have this kind of heart.

The reason why the human race was strong at the beginning, and even became the peak race of the universe, was because the strong supported the weak, and the weak grew up and fed back the race, becoming more and more prosperous.

The human race may have some internal struggles, but the opinion on the powerful race is unanimous.

They are also looking forward to a brighter future for the human race in the continent of origin.

They also believed that they could see that scene.

...

Tia Continent.

After Hong and Yue Rushuang got the map information from the Tia tribe, Hong stayed in the main city of the Tia tribe, waiting for Wang Yi's arrival.

In a restaurant, Hong and Yue Rushuang sat together to eat, tasting the specialties of the Tia continent.

The moon is like frost, but he stops talking.

"Just tell me if you have anything to do." Hong was in a good mood at the moment, glanced at Yue Rushuang and said.

Yue Rushuang seemed to make up her mind and said with courage, "Big Brother Dongbo, I want to leave with you."

Hong got the map information of the Tia clan, and Yue Rushuang saw the same.

It was the first time she learned of the information from the outside world, that the vast world had a great impact on her.

Yue Rushuang thought to go out and have a look.

Compared with the wonderful outside world, her hometown, Lanshuang Continent, seemed too small.

Hong stopped and looked at her. It didn't seem like a joke to see her serious expression. He pondered for a while, thinking of Yue Rushuang's previous help, and felt that it should be nothing to ask Wang Yi to bring such a person back to the origin continent.

However, he still asked one more question, confirming that Yue Rushuang had made up his mind, and was determined to follow him back to the continent of origin before slowly nodding his head.

"Okay, I can take you to the Origin Continent, but the Origin Continent is more dangerous than you think. There, the Eternal True God is just ordinary, there are many Chaos Lords, and there are even

greater beings on it... You arrive at the Origin Continent, I can't take care of you everywhere, you have to be careful yourself." Hong reminded her that he didn't want to do bad things with good intentions.

Although the chaotic void is dangerous, because the space is vast and vast, even if the chaotic land is generally threatened by some void creatures, such as the chaotic master, I don't know how long it will take to encounter it once.

For example, there is a large area around Tia Continent, and there is no Chaos Lord, and the Eternal True God is the strongest.

And this kind of desolate wilderness ~www.mtnovel.com~ those big forces are too lazy to come.

When Hong and Yue Rushuang were talking, a huge black shadow appeared in the chaotic void outside the continent of Tia.

It looked at the huge land and felt the familiar but cold and dead aura, and there was an incredible color in its eyes.

Its old friend is actually dead! ?

Anger surged into his heart, and blood covered the eyes of this chaotic beast.

"Roar!

A huge shrill roar broke the calm of Chaos Void, venting its anger.

[Chapter 1024: escape](#)

A huge chaotic beast was roaring and roaring.

A shrill roar resounded through the void.

With the black giant whale as the center, waves are set off in an incomparably vast void.

"Pong, Peng, Peng..."

Some rocks floating in the chaotic void, the mountain peaks were affected, and they were all shattered.

And when the wave reaches the continent of Tia, the guardian formation of the continent of Tia is automatically activated.

"boom!

It's like a turbulent wave hitting a reef. The terrifying energy generated by the impact alone will distort the surrounding space, covering the land that guards tens of millions of light-years. The extraterritorial chaotic flying boat is exchanged for precious treasure materials to fill it up, which can be called indestructible.

But under the mighty roar of this chaotic beast, the huge formation mask was shaky.

The Tia people who were responsible for guarding the center of the formation were even more shocked to discover that cracks began to appear in the secret pattern tower guarding the formation, and the cracks spread rapidly.

"Peng, Peng, Peng..." In just a few breaths, the secret pattern towers that cost a lot of resources to build collapsed and shattered one after another. Without the support of the secret pattern tower, the external mask gradually disappeared.

Because the collision produced a powerful shock wave, it directly passed the chaotic land.

The entire chaotic land swayed and undulated, but the remains of unknown chaotic creatures were also extremely solid. Except for some rocks formed by chaotic dust on the surface, they were scraped away, but the interior was not damaged at all.

But the inhabitants above suffered.

All the buildings instantly vanished in the process of spreading the shock. Under the violent impact of the shock wave, even some of the unfortunate Eternal True Gods directly exploded and died after being affected.

And below the Void True God, none of them are spared.

Hong Benzheng and Yue Rushuang were in the restaurant when they suddenly heard a huge roar from a distance.

This roar completely broke through common sense, and spread in the void in an unknown way, far exceeding the speed of light billions of times.

The roar came first, and then the spatial wave caused by the power contained in the roar.

The roar of the sky made Hong's heart tremble. He had a feeling... Even if he was proud of his physical strength, he was afraid that he would die in an instant! This roar gave him an unprecedented sense of threat!

"Boom~~" The terrifying vibration spread over and made Hong's body tremble, and even turned his head to look. far away. A black giant beast figure shrouded a large area of the void. With Hong's current eyesight, it can be seen that the body of this giant creature is comparable to the chaotic land it is in!

It is huge, and it carries a monstrous, terrifying and evil aura of destruction.

"Not good!" Seeing the power of the beast, Hong felt a strong sense of crisis in his heart.

You don't have to think about it, you have encountered the Chaos Master!

And this Chaos Master is trying to destroy the continent.

That formation mask is about to shatter.

"Trouble!" Hong's eyes were cold as he shouted to Yue Rushuang, who was stunned beside him. "I'll take you away, don't resist!"

Yue Rushuang also knew that it was a matter of life and death. Although he didn't know how Hong escaped in front of this terrifying chaotic master-level beast, he could only choose to trust him.

Hong put Yue Rushuang, who did not resist, into the palace treasure, and then appeared outside, without hesitation, casting the magic of burning magic.

"boom!"

"Cut off!"

"Donghua!"

"Donghua" is one of the three most powerful skills in the Duandong River lineage. After Wang Yi signed in, he taught it to the top powerhouses of the human race, and Hong naturally also mastered it.

Knowing that the situation was urgent, Hong burned his divine power without hesitation, and then cast "Donghua".

At this time, the protective formation mask of Tia Continent just couldn't withstand the pressure of the black giant whale, and it shattered into countless light spots.

"Whoosh!"

Hong Hua turned into a streamer and disappeared in a flash.

Then, the violent shock wave drowned the continent of Tia, destroying everything, and countless lives were killed without knowing what happened.

The continent of Tia instantly turned into a **** on earth.

No, it should be said a dead zone.

Because there are very few lives that can survive, only a few Eternal True Gods have escaped.

"what!"

A tall black figure rushed out from the ground, showing a black and golden body, behind which were the Tia figures with horns. He was the chief of the Tia clan, Tia.

However, at this moment, he saw that his hometown was destroyed, the entire clan was almost extinct, his descendants were all killed and injured, and the whole person was in shock and grief.

"Huh?" The black giant whale in the distance was exhaling a sigh of satisfaction after sweeping away the life of the chaotic land. Suddenly sensing something, he turned his head and looked in the direction of Hong's disappearance.

"What a mysterious technique, what an amazing speed." The black giant whale's blood-colored vertical eye showed a touch of surprise.

In its induction, there is a life breath that is rapidly leaving at an extremely alarming speed.

That speed is much faster than the normal speed of Chaos Master!

As a chaotic black whale that has survived for a long time, it exists at the chaotic master level. It is also well-informed and has a great understanding of the power of practitioners.

"One Eternal True God..." Blood light flashed in the chaotic black whale lord Shutong. "Being able to master this secret technique, I am afraid that it is not a core member of any force."

Little Book Pavilion

The chaotic black whale lord hesitated for a while, but in the end he didn't pursue it.

"You are lucky."

This chaotic black whale turned its gaze to the messy land, and saw that the "corpse" of its former friend was used by these humble and weak beings, and it was very dissatisfied.

"Go to hell, ants!" The chaotic black whale leader opened his mouth wide, and the amazing suction burst out. The Eternal True God who couldn't escape on the Tia continent, including the patriarch of the Tia clan, was directly sucked in, without the slightest ability to resist.

There is only a vast land that has died out and looks like some kind of creature.

Looking at the corpse, after a while, the Chaos Black Whale Lord shook his head. "My friend, why did you die? If there is a chance in the future, I will definitely avenge you."

The chaotic black whale leader advocated opening his mouth and swallowed the chaotic land.

Its body is like a bottomless pit, and the huge chaotic land is swallowed without any impact.

...

Hundreds of millions of light-years away, Hong's figure appeared in the fragments of chaotic rocks that were tens of thousands of light-years in size.

His face was pale and his breath was much weaker. The previous madly burning divine power to escape ~www.mtlnovel.com~ also caused him a heavy loss of divine power.

However, he finally escaped.

Looking back, Hong secretly said, "Tia Continent, it's completely over."

"Why am I so unlucky, when I came out, I encountered a chaos master-level void creature." Hong exhaled.

Yue Rushuang was still in his palace, and Hong let her out.

"Big Brother Dongbo, have we escaped?" After Yue Rushuang came out, she first looked around nervously, and then asked.

"We narrowly escaped, but the Tia continent is completely over." Hong sighed.

Yue Rushuang was also silent.

Hong's heart is heavy, this chaotic void is more dangerous than he imagined.

[Chapter 1025: meeting](#)

cosmic sea.

Ever since Hong came out of that mysterious place, the projection of will has remained in Wang Yi's universe.

Because the incarnation of divine power cannot create a small universe, it can only rely on will projection to act.

"A chaotic master-level beast appeared in your place?" Wang Yi asked in surprise. He had just set off on his front foot, but he did not expect that Hong would encounter such a big trouble on his back foot.

Hong, who was dressed in black, sat opposite Wang Yi with a sigh of relief. "Yeah, the Chaos Lord came too suddenly, and he started to attack the continent I was in. Fortunately, I had the secret technique you taught and escaped in time. The Chaos Lord didn't chase me, but I am afraid that the continent of Tia There is no escape, it is destroyed in one go." Hong still sighed for the untimely death of hundreds of millions of souls.

However, this is Chaos Void!

Like those inhabitants of the Chaos Land, it is normal to be slaughtered.

"This is the appearance of the master of chaos." Hong waved his hand, and a picture appeared in the air in front of them. In the picture, it was a terrifying giant beast full of blood-colored eyes, full of blood-colored eyes, like a whale and a snake.

Hong simulates it vividly.

"Huh?" Wang Yi's eyes suddenly lit up when he saw this giant beast.

However, he looked again and found that something was not right.

"It seems to be, and it doesn't seem to be, the color is not right..." He frowned slightly.

The Void creature he was looking for was very similar in appearance to this one!

He never found a trace of it.

Therefore, when I saw similar figures, I was a little excited, but after observing, there are many different places.

Hong looked at Wang Yi, "Why, do you recognize it?"

Wang Yi nodded and shook his head again. "There is indeed a chaotic master void creature in my memory that is very similar to this one, but I don't know if it is the same head. I have to confirm it with my own eyes."

In the chaotic void, Baishi Island, a figure in a red robe came quietly, and he looked down at this strange-looking island.

Baishi Island is located in a very remote place outside the continent of origin. It takes a long time to reach the Chaos Lord, and it takes a long time to reach it. It is almost the most remote place that practitioners can reach.

This is a stronghold built by the Mingxian Islands. Hashishima Island is not too big, but many practitioners gather here for various reasons.

Wang Yi appeared here through the teleportation technique, and glanced at Bashi Island. The island looked very ordinary, but it was actually a mechanical fortress. Wang Yi passed through the hole of the black fog sphere with the essence of the void, and he clearly detected it. A life with white hair and two horns on the top of its head was lying on the central palace of Bashi Island. It was a strong man, but Wang Yi could feel that it was just a clone of the master of chaos.

After all, Baishi Island is located in the depths of the chaotic void, and it is not too important to such a big force as the Mingxian Islands, just send a chaotic master clone to guard it.

In places like this, there is no chaotic channel for teleportation, because it is too far away from the headquarters of Mingxian Islands, and it is not so easy to build a teleportation array, and it is of little value.

Whoosh!

A flying boat is floating in the chaotic airflow outside Bashi Island. The flying boat is about one million kilometers long, and it does not appear to be very large in the void. However, the reason why it was named 'Chaos Flying Boat' is that it looks small on the surface, but in fact there is a huge cave inside, and the inside is simply a cave world.

Chaos Flying Boat, as the name suggests, is a spaceship used to travel through chaos. No matter its speed, defense, or its ability to travel through the void, it has reached the pinnacle of mechanical flow. In terms of defense alone, it can even slightly resist the attack of the Chaos Lord.

However, it is not easy to build a chaotic flying boat. Generally, only the chaotic master or some major forces have it. Ordinary Eternal True God cannot afford it at all.

In the sci-fi flying boat, two mechanical beings in silver armor are talking.

"Noah, this time we are in charge of the G6 route. For such a long time, it will take more than one reincarnation epoch, don't relax."

"I know, Gresham, this route is still very safe, the probability of encountering Chaos Master is very low, and the possibility of directly attacking us is even lower, and we can also ask the kingdom of truth for help, rest assured, it's fine. "

"The large void detector has been turned on to keep detecting, and if there is life approaching, it can be found."

The two mechanical powerhouses were talking. Although they were responsible for monitoring the safety of the spacecraft, they were actually very relaxed.

This chaotic flying boat did not find it, and there was a person standing there upright nearby and looked over.

The spacecraft's high-end detection instruments did not find this existence hidden in the depths of the void at all, and it gradually flew away unknowingly.

"The spaceship of the kingdom of truth?" Wang Yi watched the flying boat go away, "The kingdom of truth seems to have been exploring in the chaotic void, and I don't know what they are looking for."

There are many kingdoms in the origin continent, and the kingdom of truth is one of the more ancient and special ones.

They are not very interested in hegemony, but are very interested in exploring the truth and exploring the chaotic void.

Their footprints are all over the continent, like the Eternal True God of the Machine Race that Wang Yi met in Xingyuan City before, who is an explorer of the Kingdom of Truth. They even formed a "Church of Truth" to spread their thoughts to the entire continent. concept, there are also many strong people attracted.

In general, this is a force that seems to have little ambition and is full of exploratory desires.

There are too many civilizational forces in the origin continent, like the kingdom of truth, it is just one of them.

According to the map information, Wang Yi teleported again from Bashi Island and came to the vicinity of the Tia continent.

"The Tia continent is gone?" He quickly swept through the void and found the chaotic land without coordinates. Wang Yi's brows could not help but wrinkle slightly. He didn't think a huge chaotic land would suddenly disappear without a sound. It is not something that ordinary people can do to destroy and take away such a huge land. The only possibility is the hand dominated by chaos.

Even Wang Yi can trace the whereabouts of the departed through the traces left in space.

"However, let's find Hong first."

Wang Yi probed into the chaotic void nearby. According to the information given by Hong, he quickly found Hong's location~www.mtlnovel.com~ Hong was in a rock group, with a beautiful woman.

"Huh?" Wang Yi is a little weird, this Hong has just left the mysterious place, and there is a woman beside him?

He remembered that Hong had a wife in Cosmic Sea, and the two were still very affectionate.

Wow.

Hong Min, who was hiding in the huge rock with Yue Rushuang, felt a slight fluctuation in the space. Since his soul and body were transformed, there was a faint sense of intuition. He turned his head to look, and saw a The man in the red robe came out of the space crack with a smile on his face.

There was a hint of joy in Hong's eyes.

This is the first time that the two real bodies have met on the continent of origin.

[Chapter 1026: People are floating in the rivers and lakes, how can they not be knifed](#)

"Dong Bo."

"Haha, here you are."

The two said hello.

Yue Rushuang was at the side, watching the black-clothed Hong and the red-robed man walking together, but felt his soul tremble.

very scary!

Although Wang Yi deliberately restrained his breath, he didn't make any disguise. The breath of the high-level chaos master still made Yue Rushuang, the eternal true god, feel indescribable pressure.

Lanshuang Continent has never seen such a terrifying powerhouse.

What made her even more incredible was the casual attitude of Hong and that mysterious powerhouse acquaintance.

The relationship between the two is clearly equal.

"Dong Bo, this is?" In front of outsiders, Wang Yi called out Hong's pseudonym, and looked at Yue Rushuang with a smile.

Hong Ke didn't tell him about this.

Yue Rushuang held her breath slightly.

Hong smiled and said: "This is a friend I met in Lanshuang Continent, Yue Rushuang. She heard about the origin of the Continent. This time she bid farewell to her husband and children and went back with me."

"Oh." Wang Yi lost interest when he heard that the other party had a family, and was a little disappointed that he couldn't eat Hong's melon.

"Okay, no problem." Wang Yi nodded.

"However, before that, I have to go after that Chaos-level Void creature." Wang Yi said to Hong and Yue Rushuang. "You stay in my palace first, and I'll take you back when the matter is settled."

Yue Rushuang couldn't help looking at Hong, who smiled and said, "Okay."

He did not ask Wang Yi why he was chasing the chaotic master, he had full confidence in Wang Yi.

When Yue Rushuang saw that Hong agreed, she naturally would not refuse, and she still had some expectations in her heart. Following this mysterious powerhouse, she should be able to see more things, and maybe there is a chance.

After Wang Yi let Hong and Yue Rushuang enter his palace, he turned and walked away, teleporting away.

In the next instant, he teleported to the place where Tia Continent disappeared, and with a glance, he felt the unique spatial fluctuation.

Just like the traces left by snakes crawling on the river beach, such traces are difficult to find in the eyes of ordinary chaos masters, but in front of Wang Yi, a master who has peeked into the essence of the void and mastered the teleportation technique of breaking the world, it is clear at a glance.

Of course, this spatial fluctuation will gradually dissipate over time, so it must be early.

Following this clue, Wang Yi stood in the vast void, peering into the surrounding areas through the black fog sphere.

Soon, he saw that, in a distant place, in a void, a black behemoth with black-gold sharp horns on its head spread out the wing-like pectoral fins on both sides of its body, and swayed its long tail. Swimming in chaos.

This looks exactly the same as what Hong showed him.

"Chaos whale." Wang Yi narrowed his eyes.

The Chaos Whale is an extremely rare void creature in the Chaos Void.

Although it is rare, this group is quite powerful. One is a **** king, and the other four are also Chaos Masters! It is not weak!

While spying on the chaotic whale through the hole in the black fog sphere, Wang Yi groaned in his heart. "The strongest chaotic whale in history is golden, and it is also the only god-king-level chaotic whale."

"And the Qingwang Divine King asked a group of Divine Kings for help in order to kill this Divine King-level Chaos Whale, but they were unsuccessful. In the end, they killed a purple Chaos Master-level Chaos Whale, and then they gathered enough materials."

"And after the golden chaotic whale king was severely injured, he fled into the depths of the chaotic void and could never be found again."

"Other chaotic whales are also hiding, their whereabouts are mysterious, and very few people find them."

"Now this one should also be a Chaos Whale, and it's black."

"Could it be that each chaotic whale has a different color?" Wang Yi thought to himself.

Wang Yi passed through the hole in the black fog sphere, and unknowingly observed the black giant whale from a distant time and space.

It doesn't matter if the color is different, as long as it is Chaos Whale.

"God helps me." Wang Yi smiled.

As soon as he took a step, Wang Yi disappeared.

Chapter 1026 People are floating in the rivers and lakes, how can they not be knifed

At the same time, its body is like a small universe. Wherever it passes, the chaotic airflow is separated like a stream, forming a chaotic tide.

"It's been a long time since I came out."

"Wow, since Lord Golden Emperor was besieged and injured by those hateful practitioners, he left this chaotic void, and the second child was killed, we had to hide and dare not show up."

The chaotic black whale lord flew in the chaotic void, recalling the past, with resentment in his eyes.

They are all those hateful cultivators. If it weren't for them, why would a great chaotic void creature like myself hide like a mouse, and even move cautiously and sneakily.

You can only survive long years by sleeping.

And every time I wake up, I have to change the place, that is, I am afraid of being discovered and followed.

Thinking of the practitioners who made it have to hide in the east and west all year round, the chaotic black whale lord was angry and powerless.

After all... the strongest chaotic golden whale king of its family is not the opponent of the cultivator. Those who were beaten were injured and fled. At that time, the high-level members of the primitive life group all stood on the sidelines, and there was no way to ask for help. what.

The huge blood boy of the Chaos Black Whale Lord showed a suffocating aura and glanced around.

"Find another place to eat, and I should find a place to sleep again."

The Black Whale Lord was unhappy for a while.

"Damn cultivators, I want to eat them all."

It didn't feel at all, it fell into the eyes of others.

call!

The Chaos Black Whale Lord flapped his pectoral fins like wings, his body swayed, and he was about to leave for the next place.

A figure suddenly appeared in front of it.

"Who?" Chaos Black Whale Lord was taken aback, who could silently break into its domain?

It was a man in a red robe~www.mtnovel.com~ whose face was ambiguous, but his eyes were as bright as stars.

"Chaos whale?" He looked at the black giant whale in front of him.

The Chaos Black Whale Lord's expression suddenly changed, and from the other party's words, it clearly felt a sense of ill will. "Come for me?"

"Roar!" The chaotic black whale lord opened his mouth wide, wanting to strike first.

But Wang Yi is faster than that.

hum!

!

The power of invisible rules permeates, and the whole world falls into ice and snow.

In the ice and snow, a blue-haired girl with a long bow appeared from behind Wang Yi.

The incomparably powerful force of ice and cold swept over, and the void was like a huge block of ice. The chaotic black whale lord was directly frozen by the ice, and there was a hint of disbelief and deep despair in the pair of huge blood-colored eyes.

"God King..."

"Master." The blue-haired girl asked in a gentle voice.

Wang Yi nodded. "Fix it."

This chaotic black whale is ferocious and cruel by nature, so there is no need to keep it.

"Yes."

The blue-haired girl unhesitatingly opened the beautiful ice-blue longbow in her hand and aimed it at the immobile chaotic black whale.

The Chaos Black Whale Lord wanted to struggle, but compared with the original Black Beast God King clone, it was too weak.

It slaughtered those weak land dwellers as food, but did not expect the day when it would be ruthlessly hunted as prey.

If you come out to mix, you will have to pay it back eventually.

With a beautiful blue streamer cut through the sky.

The incomparably huge body of the Chaos Black Whale Lord trembled, and was directly penetrated by a cold and sharp arrow.

[Chapter 1027: 8 Stone Island was attacked](#)

As huge as the universe, the peerless fierce beast that was overwhelming the world was frozen in the void and was shot through by an arrow.

Invisible fluctuations spread out, and instantly turned into powder and annihilated.

"Whoosh!"

In the powder, a black light suddenly flashed out and shot towards the distance.

But halfway through, a slender hand stretched out, holding it in the palm of his hand like pinching a bug.

"Master." The blue-haired girl returned to Wang Yi and said softly. "The enemy has been captured alive."

The blue-haired girl opened her hand, her tender white palm was a black light that trembled fiercely, and in the black light, a chaotic black whale lord roared and roared.

But it can't break free from the shackles of the God King, and all struggles are in vain.

"Well, it doesn't have a clone, right?" Wang Yi asked. Like practitioners, many people who cultivate to a certain level will have avatars, but the original life is not necessarily.

This is also a great advantage for practitioners.

"No." The blue-haired girl said with certainty.

"Good job." Wang Yi took the sealed black whale from the blue-haired girl, praised it, and touched the cute little red and black horn on her head.

"Hehe..." The blue-haired girl's eyes could not help narrowing into crescent-shaped eyes after being gently stroked by the master.

Wang Yi looked at it and sighed in his heart, who would dare to believe that the invincible strong man who destroyed the world with one arrow just now was the same person as the blue-haired girl who was as obedient and docile as the kitten in front of him.

"Go back." Wang Yi took the blue-haired girl back into the palace, and then teleported away from here. At the same time, with a thought, he formed an incarnation of divine power and entered the palace.

Hong and Yue Rushuang were staying in the Palace Treasures. Seeing Wang Yi's arrival, Hong asked, "Have you found it?"

Hong originally asked casually, but who knew Wang Yi opened his hand.

"Here it is."

Hong and Yue Rushuang looked at it and were stunned when they saw a black whale swimming in the black light that had shrunk countless times.

"This is..."

"It's the chaotic master who destroyed the continent of Tia before." Wang Yi said sternly.

However, his appearance of capturing a powerful Chaos Master in a light-hearted manner caused a storm in the hearts of Hong and the two of them.

Hong couldn't help swallowing his saliva and looked again. That's right, although Wang Yi's hand has shrunk countless times, it is indeed the beast that destroyed the sky and the earth in his memory, and the terrifying aura pressure is still vaguely felt. It's definitely the same existence.

And Yue Rushuang had already looked at Wang Yi with awe.

"I didn't expect you to be so powerful now." Hong said with emotion.

"You have changed a lot." Wang Yi looked at Hong.

Although it can't be seen from the outside, Wang Yi can still feel the changes in Hong.

That feeling is slightly different from what the original ancestor who took away the original universe gave him, but it is similar.

Hong has undergone an earth-shaking transformation, and may even surpass the original ancestor in some respects.

After all, Hong hasn't lost the Primordial Universe yet.

If Hong seizes a primitive universe in the future, I am afraid there will be even more amazing performance.

Hong smiled slightly, "I still have to rely on you." Although Hong's will has reached the top level of being a saint, but because he has not practiced the "Lie Yuan Technique", he can only wait for Wang Yi and the others to reach the will of the **** king, and then wipe out other primitives. The will of the universe, let them invade the empty shell, turn their own will into the will of the original universe, occupy the magpie's nest, and achieve leapfrog.

"Haha, if one day, I will definitely keep it for you." Wang Yi promised.

Only Yue Rushuang watched them talking bewildered, but couldn't understand what they were saying.

Although she didn't understand, Yue Rushuang faintly felt that the two were talking about something incredible.

"When you go back, where are you going? Go to Wujianlou, or stay outside?" Wang Yi asked.

At Hong's current level, entering Wujianlou is more than enough to be a disciple of Ziyi.

"I'll think about it again," Hong said.

...

On the periphery of Bashi Island, a majestic figure condensed and formed.

This majestic figure has a pair of golden horns, his skin is as pale as snow, and he is wearing a gorgeous black robe embroidered with golden secret patterns.

Chapter 1027: Baishi Island was attacked

The fog is burning, and the black fog vaguely transforms into all kinds of ominous creatures, roaring filial piety.

"Baishi Island, the outer stronghold of Mingxian Islands." The Demon God looked at Baishi Island in the distance calmly with a pair of golden eyes.

Huh, there are more black shadows around him, each shadow is towering and powerful, and the aura is extremely terrifying.

But they are weaker than the presence of the golden corners in front.

"Lord Sin Geng." The masters of chaos saluted respectfully.

The black-robed demon **** with golden horns said coldly: "The country lord sent us this time, let us destroy this outer stronghold of Mingxian Islands. Let's make a quick decision, and leave no one behind."

"The island is just a clone of Chaos Lord, it's as easy as the palm of your hand." A Chaos Lord laughed.

"Destroying this stronghold will not make Mingxian Islands feel distressed, but it can also make all parties understand our attitude." The golden horned black-robed demon god's voice did not fluctuate at all, "And this is just the beginning, the country lord has long been It is determined that we just need to act according to the command of the lord of the country."

"Yes." The Chaos Masters responded.

boom!

In the calm void of Baishi Island, a huge golden palm suddenly slapped down.

"Who?" The clone of the Chaos Lord, who was usually sleeping on Bashi Island, woke up immediately, sensed it in surprise, and his face changed suddenly.

"The Ultimate Realm of Chaos?"

"Sin Geng Demon Lord? Are you people from Tianmu Kingdom?" The Chaos Lord made an angry voice.

"Hahaha... Now that you know, go die!"

One after another terrifying attack came, and the clone of the chaotic master on Baishi Island desperately found that, in addition to the evil master, there was also a group of powerful chaos lords besieging Baishi Island~www.mtlnovel.com~ Even if Baishi Island itself is tyrannical in defense, and he sits in the town, he can't stop the full attack of such a group of strong men.

The practitioners on Baishi Island also found the movement outside, and they were all frightened.

"Master of Chaos?"

"No, run away."

"Why are there so many Chaos Lords attacking in such a remote place as Baishi Island?"

"It's over."

"I recognized that it was the ruler of Shui Chong of Tianmu Kingdom, and they were attacking the stronghold of Mingxian Islands."

The golden black-robed demon **** with curved horns hovered high in the sky, overlooking the chaos on the island indifferently, and stretched out his golden, scaly palms.

"Baishi Island will become history."

Whoosh!

In the distance, the space is distorted, and a red robe figure emerges.

"Huh?" The golden horned black-robed demon **** who was about to shoot was startled, "Ultra-long-distance teleportation? Didn't it take at least ten breaths for the reinforcements from the Mingxian Islands to arrive?"

He took a closer look, only to realize that this was an unknown master of chaos, his face was like a lake, and his breath was also very unfamiliar.

It's just that the golden horned black-robed demon **** has no care in his heart, and those who can teleport over long distances generally have extremely strong life-saving ability, and many times they can't chase them.

"Who are you?" Demon Lord Sin Geng shouted coldly, "This is about our Tianmu Kingdom and Mingxian Islands. If you don't want to get involved, just leave quickly."

The Demon Lord Sin Geng didn't want to cause extra troubles, and wanted to use the name of Tianmu Kingdom to make the other party leave in fear.

but...

"Tianmu Kingdom? The Purple Wood God King?" Wang Yi, who had just teleported over, saw a group of chaotic rulers who were besieging Bashi Island fiercely, and blinked when he heard the words of the golden-horned black-robed demon god.

[Chapter 1028: father and daughter](#)

The Royal Palace of Viet Nam.

"Father." Dressed in blue with a white cloak trailing behind, the mysterious and elegant Princess Yelan stood in front of the figure in a gorgeous golden robe and called out softly.

The King of Dayue, who was thinking about something, turned back.

His eyes seemed to be able to see through everything, he looked at his daughter slightly, and said in a dull voice, "Is there any progress recently?"

Princess Yelan shook her head bitterly. "Daughter is stupid."

The eyes of the King of Dayue are still calm, and it seems that he has already expected this situation.

"Try again, if it doesn't work, prepare to break through."

Princess Yelan was shocked and raised her head, a little unwilling.

"Father, are you telling me to give up?"

The King of Dayue said in a calm tone: "You have spent too much time in the Chaos Realm, although it is said that the more you wear it, the tougher it becomes... But if you continue to wear it, I am afraid that your God King is not sure."

Princess Yelan fell silent.

"Father."

"Who do you think has successfully cultivated the 'Lie Yuan Technique'?" Princess Yelan asked the doubts that had been buried in her heart for a long time.

"The Art of Lie Yuan", a very unique technique that defies the sky, is enough to make some super beings such as the **** king go crazy, created by a "Yuan" who has no intention of fighting for hegemony and freedom. This secret technique has long caused countless beacon fires in the origin continent.

The Kingdom of Dayuet has also obtained the "Lie Yuan Technique", and let the genius of the country try it.

But just as the mountain-seekers guessed, the country lord of Dayue also saw that only under the true gods, the "Lie Yuan Shu" could be successfully cultivated.

If you want to get the true inheritance of "Lie Yuan Technique", you must first successfully enter the third level of 'Naying Secret Technique'.

But the cultivation of this 'secret technique' has little to do with will. Among the super geniuses of the major forces in the origin continent, in the master stage of the law, there are sky-defying monsters whose will reaches the 'eternal true god', but they still fail. . Because this absorbing secret technique only has partial requirements on the will, and more on the soul itself!

The Lord of Dayue looked at his daughter and sighed, "Back then, my country got the "Legend of Primordial Art", because your eldest brother has already surpassed the true god, so you are considered to be the most likely to practice the third stage of the 'Naying Secret Art' successful."

At that time, Princess Yelan was still the master of the law!

"The Art of Lie Yuan" is the ultimate technique left by Yuan. Many forces have tried every means to get their geniuses to try it. Even if all the forces are combined, there are dozens of peerless geniuses who have entered the third tier, but those dozens of peerless geniuses Genius, except for three who were saved, all of them perished.

Princess Yelan was one of them who entered the third rank, but failed in the end, but still managed to save her life!

What is Princess Yelan's talent, the father of the King of Dayue clearly knows.

It is rude to say that he prefers liking his daughter more than the eldest son of the God King.

Because he saw his own shadow in his daughter.

If you want to become a **** king, with the qualifications of Princess Yelan, you have already succeeded.

However, the King of Dayue had other arrangements and suppressed Princess Yelan.

However, Princess Yelan has not yet crossed the tenth floor of Yuanshen Palace for so many years, which has gradually disappointed the King of Dayue.

"Father, I'm leaving. I'll go back and prepare." Princess Yelan was silent for a while, then said.

The sound of the cloak fluttering in the air came, and the footsteps gradually faded away.

The King of Dayue watched his daughter leave quietly. He knew that his daughter had worked hard for so many years, and it was not easy for her to give up, but on the road of life, there were always some things that had to be let go.

He pondered, turned slowly and looked at the sky, his eyes were deep.

"Lie Yuanshu... Who has successfully cultivated it?" The ruler of Dayue has a very high self-esteem. It can be said that there are not many in the entire origin continent that he can take into his heart, but several reincarnation eras were stored in the palace. When the Elementary Technique scrolls disappeared out of

thin air, including other forces, they found that all the Elementary Technique scrolls were missing, and he knew that someone must have successfully cultivated the Origin Technique.

"Yuan..." A look of solemnity appeared in the eyes of the King of Dayue.

Compared with other forces in the origin continent, the King of Dayue, who once passed the tenth floor of the "Yuanshen Palace" and got a special opportunity, knows more.

The eyes of the King of Dayue seem to be able to see every corner of the origin continent through infinite time and space.

"There are more and more powerhouses in the Origin Continent. Since the evolution, the Origin World has been shattered, and the date is getting closer and closer. I must break through before that in order to save everything."

"Damn, if it wasn't for the fact that my clone in Jiexin Continent was destroyed and the opportunity was cut off, how could I have been stuck in this step for so long."

"My two paths are merged into the last step, either one can make me invincible on the second floor of the universe god, plus the opportunities obtained from the world heart continent and the Yuan, I can even match the real third floor in terms of combat power, but It's just a little bit short, and it has never reached the ultimate state."

"Unfortunately, this girl Yelan still can't do what I want."

"I don't know how long it will take until I have a peerless genius who has crossed the tenth floor of Yuanshen Palace in Dayue Kingdom. Can you help me."

There was unwillingness in the eyes of the King of Dayue. He took a deep breath and slowly closed his eyes.

...

Chaos Void, Baishi Island.

"Tianmu Kingdom?" A man in a fiery red robe, with a mysterious and restrained breath, looked at the black-robed demon **** with golden horns and a monstrous aura in front of him.

"Yes..." Sin Geng Demon Lord's voice was low and cold, "If you are passing by, leave quickly, don't go into this muddy water."

Because they couldn't figure out the details of the other party's coming, Sin Geng Demon Lord just wanted to send the other party away quickly. After all, they were on a mission this time, and they had to complete the mission of destroying the Mingxian Islands in the periphery of the Chaos Void.

The time is urgent, and he doesn't want to make troubles outside the festival, otherwise, according to his temper, he encounters an ignorant chaotic master, and he will teach him a lesson long ago.

Although he persuaded the other party to leave, the Demon Lord Sin Geng contained a fierce light in his eyes. If the other party did not listen to the persuasion, he was ready to kill people at any time.

"Speaking of which, I have no relationship with Mingxian Islands, nor do I have any friendship with them. Whether the people of Mingxian Islands are dead or alive has nothing to do with me..."

The Demon Lord Sin Geng felt relieved.

"However, I see your Tianmu Kingdom, but it is not pleasing to the eye." The tone of the mysterious man changed suddenly.

Sin Geng Demon Lord was stunned, and then a fierce light appeared in his eyes, and the endless evil spirits surged out like black waves, making the surrounding void dyed into absolute darkness.

"You, courting death!" The voice full of murderous intent came from Demon Lord Sin Geng.

He decided to go all out to kill the chaotic master who suddenly appeared in front of him, and then help his subordinates to quickly break through Baishi Island, in order to get out of here before the reinforcements from Mingxian Islands arrive.

"Boom!" Accompanied by a violent roar, the black flame on Demon Lord Sin Geng soared into the sky, and his breath soared to an extremely terrifying level.

"Burning divine power?" The mysterious man said with a hint of playfulness.

"You are guilty of the Geng Demon Lord, but the Chaos Ultimate Realm burns divine power. It seems that you want to keep me."

Sin Geng Demon Lord sneered: "It's too late for you to regret now~www.mtlnovel.com~ regret?"

"Hahaha..."

Crazy laughter came through the mind.

Looking at the aggressive Sin Geng Demon Lord, he shook his head regretfully.

"You will regret it, it's you."

A strong sense of crisis surged up from the heart of the Sin Geng Demon Lord.

Behind the mysterious man, I don't know when, a brilliant and dreamy blue brilliance quietly bloomed from the darkness accompanied by the extreme chill.

[Chapter 1029: completely annihilated](#)

The blue light spreads rapidly, like an ice-blue universe covering an area over 100 million light-years!

This is the universe rule field of the God King! Even the supreme rule has to be temporarily withdrawn.

From a distance, the beautiful blue-light universe is like a huge blooming lotus flower, which is extremely beautiful and contains the mysterious beauty of rules.

Baishi Island, the chaotic masters of Tianmu Kingdom, are all trapped in it.

Their chaotic rule field collided with the complete universe rule field of Wang Yi's puppet creature "Rain", and they were directly crushed and shattered.

And when they were shocked and stunned, "Wang Xiaomei" who had been following Wang Yi all the time shot.

One bow, one person, shot thirteen arrows in a blink of an eye.

Each arrow is aimed at a Chaos Master.

Whoa! The icy blue light descended and fell on those chaos that dominated the lives, instantly annihilating their lives and turning them into nothingness, leaving only a pile of leftover treasures.

In the ultimate chaotic realm, killing ordinary chaotic masters is a matter of one or two tricks.

The second floor of the king of gods! Killing these chaotic masters is even more effortless!

Even the cosmos rule field alone can kill the weaker chaotic masters!

Even the Demon Lord Sin Geng, who is also the ultimate chaotic realm, although he tried his best to block, but under the combat power of the "Second Layer of the King of God", it is no different from being a man's arm as a car.

With the blue fireworks blooming in the void, the thirteen Chaos Lords sent here by Tianmu Kingdom all fell.

Moreover, the fall is the deity's combat power! Even if there is a clone alive, I don't know how much time and how much it will take to cultivate back!

If you are unlucky and do not clone, it is completely fallen!

With a wave of his hand, Wang Yi, who was standing at a high place, took away all the treasures left by the chaotic masters. Of course, he had to check them carefully, erase the marks, and prevent any tracking and tracing methods from being left inside.

The reason why so many treasures can be left is because Wang Yi specially ordered Wang Xiaomei. After all, mosquito legs are also meat.

Afterwards, Wang Yi took his puppet creature and teleported away.

When Wang Yi and the others left, the Bashi Island below fell into a dead silence.

Many people witnessed the terrifying blue light freezing the whole world. Although Baishi Island was not affected, they could feel the mighty power.

The chaotic master clone sitting on Baishi Island was even more shocked.

"Sin Geng Demon Lord, was killed in seconds?"

The Chaos Lord felt a chill in his heart.

Even if he came over in his real body and faced the Demon Lord Sin Geng face to face, it would still be a matter of supporting a few tricks.

However, the Demon Lord Sin Geng was killed by a mysterious powerhouse in one move.

"Definitely the king of gods, and the strongest among the kings of gods." The chaotic master was shocked.

Although he Mingxian Islands is also a top force, there are more than one **** king, but I am afraid that only the island owner can do this.

However, this Chaos Lord also has something he can't figure out.

Why did the enemy of Tianmu Kingdom come to attack Bashi Island when they encountered a strong enemy and were destroyed. Was it an accident, or something else?

What is the origin of this mysterious powerhouse? Does it have anything to do with him Mingxian Islands?

...

Tianmu Country.

When the thirteen chaotic masters of Baishi Island were instantly killed and the entire army was annihilated.

Three of the life tablets they placed in Tianmu Kingdom were directly shattered, which shocked the guards and urgently reported to them.

And there is no need for them to report, the clones left by the slain Chaos Lord are all crazy.

Because they are going to deal with the stronghold of the Mingxian Islands, in order to be foolproof and complete the task quickly, all the high-end combat power is dispatched, and it must be the deity combat power dominated by chaos.

After all, most of the clones of Chaos Masters can only be said to be at the level of the fifth and sixth floors of Yuanshen Palace.

Even the combat power of the avatar of the **** king, many of them are on the seventh floor of the Yuanshen Palace.

Of course, this kind of combat power cannot be used to attack the heavily guarded stronghold of the Mingxian Islands.

In fact, they also made a lot of preparations, and even secretly used strategies to hold back the powerhouses of the Mingxian Islands.

For example, when the team of Demon Lord Sin Geng attacked Baishi Island, other teams attacked other important strongholds on Mingxian Islands, distracting the enemy's attention and strength.

In fact, the real goal of Tianmu Kingdom this time is Bashi Island, and the others are just to hide people's eyes and ears.

As long as the stronghold of Mingxian Archipelago is destroyed, the opponent's arrogance can be severely attacked, and the face can be returned with color.

Therefore, the attacking team is led by Sin Geng Demon Lord, who is second only to the God King, and it is guaranteed to quickly solve the Baishi Island with insufficient defense strength.

However, they never expected that when the reinforcements from Mingxian Islands didn't come, a terrifying powerful god-king suddenly appeared, killing the entire team with one move, and even the Demon Lord Sin Geng didn't escape.

There are even three chaotic masters who dispatched the main body, and because there was no clone, they fell directly!

Tianmu Kingdom, usher in a huge shock!

Tianmu Kingdom Palace, the atmosphere is grim at this moment,

The lord of the Tianmu Kingdom, His Majesty the Great God King, the Purple Wood God King, sits high on the throne, his face is as frosty, and his body exudes icy cold air.

And in the center under the steps are ten chaotic masters who are fighting.

After all, they are just clones, and they don't know how long it will take to cultivate back to the level of the original deity.

The Purple Wood God King glanced at the ten men under the steps, and the corners of his eyes twitched slightly.

Of the thirteen powerful men dispatched, there are only ten left.

Although his Tianmu Kingdom is stronger after rebuilding, and there are many chaotic masters, there are only hundreds of them, all of which are accumulated over a long period of time. Every loss of one is a great loss.

Three people died this time!

Among them, there is even the ultimate chaotic realm such as "Sin Geng Demon Lord", all of which have killed a deity's combat power! Although it can be practiced back. I don't know how long it will take, but it's temporarily abolished.

Even if the big forces like the Mingxian Islands have been fighting openly and secretly, and they have been fighting constantly, but because God Kings generally do not intervene, and ordinary killings, it will take a long time for the Chaos Master to fall, and generally fall, the clones are still there, and the clones are together. Killings are extremely rare.

The Purple Wood God King is very angry. It's not that he can't bear the loss, but he suffers such a big loss without even knowing the enemy. It's really useless. Since he returned from enslaving the beast, he has become a super overlord in the entire origin continent. The peak forces such as Wujianlou all looked at him, and he couldn't bear this tone.

"This mysterious God King who killed my Tianmu Kingdom's powerhouse is very similar to the powerhouse who killed the Black Beast God King who once appeared in Dayue Kingdom. It is almost certainly the same person." Zimu God King Suan Slow down.

The matter of the mysterious God King was witnessed by many powerful people near the capital of Dayue Kingdom, and it has already been rumored everywhere.

The powers of the origin continent also know that this strange god-king powerhouse who suddenly appeared, has traced his identity and whereabouts.

There are different opinions about the identity of this strange god-king.

Some say that it is a peerless powerhouse who has gone out of the customs, some say that it is a **** king who has been sealed by a big power, and some say that a **** king has broken through...

There are even doubts, whether it is a world beast or a primitive life, an ancient indigenous disguise ~www.mtlnovel.com~ But the Purple Wood God King never imagined that this mysterious powerhouse would provoke him.

The Purple Wood God King was angry, but more fearful.

After all, the enemy is in the dark, no one knows, the strength is still strong, and the threat is too great.

The Purple Wood God King didn't know why the other party wanted to deal with him, but he was sure that the other party was not good.

Tianmu Kingdom is so big, and over the years, it has secretly offended some strong people, and now it is not impossible for the other party to come and take revenge.

For example, the state of Wu, didn't it just re-emerge in the Cosmic Sea not long ago and made a comeback.

"Check, use all means to check! That Red Gourd Daoist, a huge bounty! Contact other forces, including Wujianlou." The icy voice of the Purple Wood God King resounded through the palace. "Check it out as soon as possible and find out the identity of this mysterious God King!"

He had a bad feeling in his heart.

[Chapter 1030: The whole continent has heard my story](#)

Wang Yi of Baishi Island took the god-king puppet to kill a group of chaos masters in one move, and there were countless witnesses.

Although there are very few clones among them, there are not many who pay attention to the incarnation of the power.

So the news of Baishi Island swept across the continent like the wind, and every faction knew it immediately.

Dayue Kingdom, Tianyu City, Yanyuehou House.

"The virtual space has been talked about." Tian Yuyanyue said to his wife with emotion. "You didn't see the excitement of the sturdy and noble Chaos Realm people on weekdays."

Chaos Lord is aloof and is also relatively ordinary beings.

Gossip like the king of gods is enough for them to explore it enthusiastically.

"Those masters of chaos all said that it was the **** king next to Daoist Red Gourd who shot to kill the powerhouse of Tianmu Kingdom."

From the analysis of the situation on the spot, this possibility is very high.

After all, before the **** king started, the first thing that appeared was a chaotic master who was unclear. Everyone guessed that it was Daoist Red Gourd.

"First kill the clone of the Black Beast God King near the capital of Dayue."

"And on the Baishi Island in the chaotic void, the chaotic masters who attacked the Mingxian Islands from the Tianmu Kingdom were beheaded, and none of them were left."

There was deep amazement in Tian Yu Yanyue's eyes.

"In the entire Origin Continent, the most popular and most concerned are the mysterious God King and the Red Gourd Daoist."

A second-tier **** king is enough to affect the power structure, and people can't help but care.

"I just don't know, what is the relationship between the mysterious **** king and Daoist Red Gourd, who has been with him all the time, could it be his elders?" Tian Yuyanyue thought to herself, she was somewhat envious of Daoist Red Gourd.

He is the Marquis of Yanyue in the Kingdom of Dayue, and his father is also the ultimate king of chaos, but compared with the second layer of the king of gods, the gap is one day and one earth.

Because of the God King, there is still a gap in strength and status. Compared with the ordinary God King, the second layer of the God King is not as exaggerated as the Chaos Ultimate Realm and the ordinary Chaos Master, but it can generally have enough advantages. Can kill.

On the second floor of the God King, there are only a handful of each force, and they are the absolute pillars of the force.

"The matter of Xinhu and Daoist Red Gourd's apprentice..." Although his wife was also shocked, she was more concerned about her daughter's affairs.

"Of course it depends on my daughter's mind." Tian Yuyanyue said with a smile.

His wife understood.

Although the Tianyu family is strong, if they can climb the high branch of a second-tier powerhouse of a **** king, they are very willing.

Just like her family, if a powerful **** king wants to marry a family girl, he is absolutely willing.

Although Daoist Red Gourd is not a Divine King, his apprentice is even farther away.

But the value in the eyes of the public is not the same.

Everyone knows that a **** king will not follow a chaotic realm for no reason, and take action for him repeatedly, and the relationship between the two must be deep.

In fact, the Tianyu family didn't think too much. Before, Shi Zhongtian and Tianyu Xinhui didn't have much resistance to being together, but now it is more beneficial to the Tianyu family, which has attracted more consideration.

...

Dai Viet Palace, in the garden.

"Princess, have you contacted Daoist Red Gourd?" Qian Hehou couldn't help asking.

The matter of Daoist Red Gourd and the mysterious God King beside him has been rumored in the mainland, and some of the powerhouses who are in retreat do not know about it.

This is the second floor of the God King! Enough to kill the weaker God King! The deterrent power to some weak and small countries is unparalleled!

Every faction is very concerned.

Or the invincible powerhouses such as the King of Great Vietnam and the Landlord of Wujian would not care much. Others, who doesn't want to know the secret of the strong man beside Daoist Red Gourd?

Even Wujianlou has recently added a lot of bounty quests, which are related to Daoist Red Gourd and the God King beside him.

Princess Yelan glanced at her confidant and shook her head.

"I haven't contacted him."

Qianhe Hou was stunned, and whispered: "Isn't the princess curious about the one next to him?"

Princess Yelan lowered her head to admire the splendid flowers in front of her, and said slyly: "What about curiosity? This mysterious powerhouse has been secretly following Daoist Red Gourd without showing his face, just to hide himself. Didn't it ruin the impression in the eyes of others?"

"Not to mention..." Princess Yelan smiled slightly. "The Daoist Red Gourd is my guest. I entertained him well at the beginning. With this relationship, I can talk about anything in the future, so I don't have to rush it for a while."

"What the princess said makes sense." Qianhe Hou nodded, and said gloatingly: "No wonder I have never heard the reputation of Daoist Red Gourd, but he is so rich that even the eldest prince can't compete with him. With such an amazing background."

"The eldest prince just can't let go." Qianhe Hou said with a smile. "At the beginning, he sent someone to take Daoist Red Gourd away in front of me, and he wanted to recruit him and open the conditions for the title, but in the end he was rejected."

"If he knew that Daoist Red Gourd had such a super-powerful person by his side, he would have tried to win over him by all means."

"Yeah." Princess Yelan was also in a better mood.

His elder brother has been fighting with her.

Whether it is in front of the father, or cultivation, or personal power.

The eldest prince has never been able to get much favor... Although there are more **** kings who support the eldest prince, the lord of Dayue clearly prefers his daughter, which has led to many powerful people in Dayue to please Princess Yelan.

Thinking of the eldest prince, Princess Yelan remembered the conversation with her father that day, and she was in a bad mood.

Whether it is "Lie Yuanshu" or the tenth floor of Yuanshen Palace, it is the expectation of the lord of Dayue Kingdom for them.

In order to behave in front of his father, whether it was Princess Yelan or the eldest prince, they worked very hard.

However, no matter whether it is the eldest prince who became a **** king, or Princess Yelan, who is a leader in the Chaos Ultimate Realm of Dayue Kingdom, they cannot satisfy this invincible overlord who has made many **** kings surrender and countless strong men feel chilled.

And Princess Yelan also knew very well that there must be a reason why his father was so eager to ask them.

But... she failed.

The King of Dayue clearly said that she continued to practice, hoping that if she didn't say anything, she would be affected by becoming a **** king in the future.

"After all, I'm not the true peak of the peerless genius in the Origin Continent." Princess Yelan silently looked at this dazzling sea of flowers. For the first time in my life, I doubted my own talent.

There are only two people in the history of the origin continent who can break through the tenth floor of Yuanshen Palace.

These two are the most dazzling geniuses in the history of the origin continent!

Just like the hall masters of Wujianlou are all **** kings, but if any Chaos Realm can break through the tenth floor, they can immediately confer the status of the hall master!

There is no doubt that the status and importance of a Chaos Realm that has passed through the tenth floor of the Yuanshen Palace surpasses that of ordinary God Kings!

Seriously~www.mtlnovel.com~ Although there are hundreds of **** kings in the origin continent, they can only reach the second level of **** kings, but only a few dozen are standing at the peak, including the king of Dayue.

It is conceivable that if such a peerless character appears, the entire origin continent will be shaken!

It's a pity that since the lord of Dayue broke through the tenth floor of Yuanshen Palace, he is almost invincible now, and none of the geniuses in the entire origin continent can break through.

Even with the talent of Princess Yelan, there is a chance to become a **** king, but there is no hope of breaking through the tenth floor of Yuanshen Palace.

Qian Hehou saw that his princess was in a bad mood and was thinking, so he quietly closed his mouth and did not speak.

"However..." Princess Yelan stroked a petal with her fingers, her eyes were calm, "Even if I can't pass through the tenth floor of Yuanshen Palace, and I can't get the rare opportunity like my father, I will definitely become the strongest among the gods. "

Her father is the person she admires the most, and it is also the goal she has been pursuing. She has practiced for countless years. As long as there is a chance, she Yelan will never give up.
