[Chapter 1081: Legend of Tianhuang Mountain](#)

"Tianhuangshan?" In the magnificent and elegant palace, Wang Yi was chatting with four fellow disciples about the universe sea, and while chatting, he made a new discovery.

There are some mysterious places in the universe sea, like "Qingfeng Realm" is one of the most dangerous places in the universe sea.

Although Wang Yi has been in the Qingfeng Realm for many years, he still thinks that he has never really understood the existence of the Qingfeng Realm.

Even if the original ancestor seized the original universe, Keqingfeng Realm is a universe outside the original universe

"Yuanzu? He hides in the depths of the void abyss and never shows up. He originated from the mainland, or only our teacher knows where he is." God King Tangyu said solemnly, "Junior Brother, our teacher once had a relationship with that There has been an agreement that our sect shall not enter the abyss of void without authorization."

Wang Yi blinked.

Void Abyss? He came out from there not long ago, but he was not a disciple of Master Wujian at that time, so it shouldn't matter.

In Wang Yi's mansion, he became the disciple of Lord Wujian and the master of the Foreign Affairs Office. The mansion still hasn't changed much. The mansion occupies a very large area, and the main entrance is extremely wide. It's just that there are two more people wearing blue armor at the gate of the mansion, like rock carvings. Standing there to guard, with indifferent eyes, the momentum of the two standing there is worth a thousand troops.

"Please inform me, the three of us would like to pay our respects to the Jiujiang Mansion Master."

'Master Xuanman', 'Master Qingye', 'Master Yingtuo'

A quiet secret room.

"Practice the second clone." Wang Yi's eyes were calm.

All kinds of treasure materials are ready, and they are carried out step by step according to the cultivation method obtained from Wujianlou.

Seven Star Sea Origin Liquid, Starlight Mist Stone, Sumeru Tree, Chaos Black Whale, Thousand Eyes Heart... all precious and strange things were mixed together in the end, and gradually turned into a chaotic mass under Wang Yi's control. Egg, with countless lines intertwined on it

The highest level of the Ministry of Foreign Affairs is a palace master and four deputy palace masters.

The power status of the Palace Master is of course above that of the Deputy Palace Master, there is no doubt about this.

The four deputy palace masters represent the four regions of the continent of origin, so there are the eastern tutelary mansion, the western tutelary mansion, the southern tutelary mansion, and the northern tutelary mansion.

A tutelary mansion is in charge of the affairs of dozens of large and small national forces, and its power is not insignificant.

After handing over the treasure to the Lord of Chaos, the Purple Wood God King did not leave, but watched her clone return to the Infernal Universe with the flowers of the world.

"Your Majesty, my avatar has returned to the Infernal Universe with the flowers of the world," the woman said.

"Well." King Zimu said in a cold voice, "Don't be careless, the Wujian universe is completely controlled by the Wujian landlord. Once you make a move, you will deal with the Jiujiang master. Once the world's flowers are contaminated by the Jiujiang master, your avatar will be destroyed."

Master Yan Luo still had a smile on his face, a beautiful smile, but full of sarcasm deep inside.

The grass vine wrapped around her hair and the unobtrusive little flower on it faded away without a sound.

"Huh?" Wang Yi instantly sensed that something was wrong with the person in front of him, and a chill rose in his heart.

Without warning, a bland little flower appeared on his soul and wrapped it around.

At the same time, Wang Yi's first

Come back to life, Wang Yi has lingering fears.

Just now he almost thought it was really over.

The sign-in panel is actually useless at this time.

The sign-in panel, which has always been a rigid sign-in machine, seems to have heard Wang Yi's heartfelt voice, and made a proactive response for the first time.

[No, the host will not really die. If he dies in this world, the host will enter the next world, but all previous related memories will be erased.]

Wang Yi once again appeared in front of outsiders.

In the Tianmu Kingdom, the Zimu God King also immediately received the news that the Lord of Jiujiang was still alive.

"What? The Lord of Jiujiang is still alive?" King Zimu couldn't believe it.

The eyes became very scary. "you sure?"

"Yes, Your Majesty, there is no news of the death of the Lord of Jiujiang in Wujianlou, and the Lord of Jiujiang still appears in front of outsiders normally." The subordinate who reported the news bit his head.

"Damn! Kill me if you have the ability!"

Scarred all over, the owl with blue nose and swollen eyes no longer had the blazing flames it had before, and was firmly pinned to the ground by Wang Yi's hands like iron hoops, unable to move.

Thinking of the previous battle, Owl was filled with grief and indignation.

The previous battle was simply a farce. Originally, it thought that the newly entered Infernal Building disciple could take advantage of himself, but who knew it would be completely different after the fight.
