

A God 111

[Chapter 111: Void Zerg "Kadiz"](#)

"Next, the second auction item is..."

Not every item in the final auction is ridiculously expensive. The final 100 pieces, only two or three will be extremely expensive! Twenty items are more expensive, and most of the others are considered "extremely rare." As for expensive, they are not too outrageous.

Wang Yi glanced at the second auction item and found that he was not interested in it, so he turned his head to Thor's side.

"Thunder God, the domain master bloodline potion was given to you just now."

"This!" Thor did not expect such a huge gift to fall from the sky and hit his head. He also witnessed the whole auction process just now, knowing the preciousness of this domain master-level bloodline potion, and he said he was polite to use this bloodline potion. Even if Thor is not so hard in his cultivation, he can naturally reach the domain master level that countless people dream of!

That is the domain master level! It can open up the existence of a country of elementary civilization. Heilongshan is an absolute master. The emperor of the earth is far more powerful than the universe!

valued at 550 mixed yuan units! Comparable to the wealth of 55 pinnacle masters!

Wang Yi actually gave it to himself?

"Wang Yi, this blood potion is too precious, I can't ask for it." Lei Shen got up short of breath, but gritted his teeth and refused to accept Wang Yi's kindness.

Such a big temptation, I'm afraid most people can't help it, but Thor refused without hesitation.

This thing is too precious, and Wang Yi paid the whole process. He was ashamed of accepting such a big gift for no reason.

"Don't rush to refuse first." Wang Yi smiled.

"You have also heard that this blood medicine is suitable for people who follow the Law of Thunder and Lightning. For me, it is not that effective, but it is more suitable for you." Wang Yi smiled, "Since we all came from the earth, it is of course necessary. Help and support each other can make the people of the earth go further, don't they, just accept it. The big deal...If you have a chance in the future, you just need to send me a gift of the same value."

At this time, Hong who was next to him also said: "Thor, you just accept it. Wang Yi is right. If you feel ashamed, you can double the reward in the future. More importantly, now."

Hong looked at Wang Yi's eyes with a hint of amazement and emotion.

He really did not expect that Wang Yi would pay so much for them.

He couldn't help but think, do you want to worship Wang Yi or something?

In the end, Thor still accepted this precious domain master-level blood potion, and his gratitude to Wang Yi became stronger.

also secretly made up his mind to repay Wang Yi if he has a chance in the future.

It can be said that Wang Yi's blood medicine has a great influence on his future development.

Wang Yi is very calm. He also knows the history of the original plot. Hong's final achievement is the true god, and Thor is the lord of the universe. In comparison, a domain lord is not worth mentioning.

What's more, he didn't plan to get anything in return for the two of them. There is only one reason. They are all people on earth, and they are all people around them. Of course, if they are good, they must take care of the people around them first.

As for why not to Shen Yan and Gao Yurong? They don't have to go to the battlefield, and they don't have to fight for the earth. Wang Yi is not so unreasonable to this point. When he becomes stronger in the future, the people around him can naturally also live forever.

No one is missing.

Wang Yi shook the hands of Gao Yurong and Shen Yan. Unlike the other world masters sitting alone on the huge throne, Wang Yi's three were sitting together. Anyway, the space is large enough, as long as you are not afraid of others watching.

.....

"The next auction item is very rare and rare. I am afraid that in the 1008 universe, such items are rarely seen..." The turtle shell old man smiled, "This item is the eye pupil of the Void Zerg'Kaditz' !"

Millions of world masters under the stage almost all showed confusion and confusion. Only a handful of immortality were thoughtful, or their eyes lit up.

"There are requirements for the information of the Void Zerg. I cannot explain it in too much detail. All I can say is that the Void Zerg is a very, very rare special life in the entire universe, and it is a species related to the law of origin of space. This species is extremely rare even in the entire universe, endlessly long years, it is countless immortal, I am afraid I rarely see them!"

"What we are going to auction right now is the eye pupil of a domain master-level void zerg!"

"The auction starts now, the bid price is 0!" The old man of the tortoise shell announced with confidence.

In fact, the final transaction price of this kind of auction item cannot be too low, there is a bottom line, otherwise, the auction house will arrange for someone to auction it back.

As the voice of the old man with the tortoise shell fell, Wang Yi's eyes brightened because of his words.

"The original law of space?"

"The universe is extremely rare, very rare?"

"Special life?"

Wang Yi started to breathe shortly.

There is a feeling of stepping through iron shoes and finding nowhere to find it.

He clenched his fists.

"must."

"It must be a special life of the law of space origin!"

"Void Zerg Kadez? Domain master level?" Wang Yi was excited, "I have more than a year to reach the domain master level, and then, I will have the opportunity to nurture this special life."

Yan Xing Giant Beast and Wang Yi are one body. The Yan Xing Giant Beast's strength has reached the domain master level, and the pronucleus can naturally breed a domain master level life!

However, it cannot be lower than the level that breeds life. For example, the Yanxing Giant Beast is the first-tier domain master, and the Void Zerg is the second-tier domain master, so it can't be bred!

"Also, I don't know how many times this Void Zerg Kadiz gene level is? If it is higher than 300 times, I can't breed it." Wang Yi's thoughts turned.

gritted his teeth one last time. "Never mind, the opportunity is rare, let's talk about it when you buy it! I don't believe it~www.mtlnovel.com~ It can't be conceived now, and when I get the second and third calamity of the Secret of Nine Tribulations, I can conceive it too!"

More than a year later, the first metal fragment that records the secret of the Nine Tribulations has long been found, and it is now in Wang Yi's castle, waiting to be handed over to Luo Feng.

However, the earlier the clone is naturally conceived, the more help it will be to Wang Yi.

On the contrary, he hoped that the life level of this Void Zerg was not so high, and it would be better if it was just enough for prokaryotic gestation.

At this time, when Wang Yi was thinking, the price on the field had reached the '5000' mixed yuan unit.

A cold light flashed in Wang Yi's eyes.

"6000 mixed yuan units!"

A man with long white hair on the field wore a dark robe and frowned.

"Your Majesty, there is no more money in the treasury."

"Humph." The man snorted coldly.

"Forget it, more than this price is not worth it for me to continue." On the other side, a beautiful and noble woman who is like an iceberg forever shook her head slightly.

Not far away, a small, slender old man in plain gray clothes glanced at the screen, shook his head, put down the auction token and closed his eyes, as if he wanted to make a blind eye.

"6050 mixed yuan unit!"

"6080 mixed yuan unit!"

Some people give up, while others continue.

Wang Yi always indifferently continued to increase prices.

The price on the screen continues to soar, from 6100.....6200.....6300.....

Time passed, and finally, the quotation was finally fixed at 18,690 mixed yuan units.

"18690 mixed yuan unit, countdown... 3, 2, 1! Congratulations to the guest numbered QW2130. You got this 'Void Eye'!"

[Chapter 112: 'Fire Source Liquid'](#)

An eye of the Void Zerg "Kadizi" is not like the avatar of the Demon Killer auctioned by Luo Feng in the original book. The skin has the secret pattern of the law of the origin of space, which can make people understand the law of the origin of space. This is its value. High reason.

The name "Eye of the Void" sounds very loud, but in fact it is just an eyeball of a special life. It does not contain the secret pattern of the original law of space like the skin of the demon killer. The biggest use is for collection and appreciation. , Or use it as a material to make other things.

So the 18,690 mixed yuan unit is already very tall, equivalent to two immortal net worth.

I bought the "Eye of the Void", which may be a part of a special life body, and Wang Yi was in a good mood.

The finale auction is also in progress. Rare and rare items are put out for auction, which also opened the eyes of Wang Yi and others and learned many secrets in the universe.

"Everyone, since this auction, 99 pieces have been auctioned for the finale auction." The old man with a tortoise shell smiled and his voice echoed throughout the auction room, "Only the last finale auction item is left! This auction is over. , Then this dry witch auction will officially end."

"now!"

"I solemnly announce that this last finale auction item-a drop of Fire Origin Liquid!"

A three-dimensional virtual projection appeared next to the old man in the tortoise shell. It was a transparent crystal sphere, engraved with densely packed mysterious runes, and inside the crystal, there was a luminous body that was as bright as a small sun.

No, that is not a sun, but a drop of golden liquid.

"Wow—"

The millions of masters in the entire auction hall were in an uproar.

"A drop?"

"Actually, it is calculated by the drop, or the most valuable thing in the finale, what is it?" Wang Yi was also very surprised and curious.

Wang Yi looked at the auction token in his hand, where the information of the last auction item was already displayed.

Fire Source Liquid: Comes from the "Red Moon Universe Kingdom" in the universe of human territory. The "Red Moon Universe Kingdom" is located in the abdomen of human beings. It is one of the oldest kingdoms. In the universe, there is a secret realm of the "Red Moon Holy Land". , Huo Yuan Liquid, this magical treasure of heaven and earth, was born in the Scarlet Moon Holy Land.

The fire source liquid is extremely precious. It has the effect of transforming the essence of a life soul, improving the compatibility with the origin of fire, and the ability to perceive the laws. However, the higher the user's life level, the weaker the transformation effect.

And there is a risk of failure during use.

At present, it has been found that the use of fire source liquid below the cosmic level has the best effect, but the probability of failure is high!

But once he succeeds, he can become a genius who understands the original law of fire! The strongest transformation effect in history can even be comparable to some top human races, becoming the darling of the law of origin of fire!

And the domain master level, the world master level, the transformation effect is relatively low, but the probability of success is high.

Immortal level, the transformation has almost no effect, and it is more suitable for assisting the law of perception.

Because the amount of fire source liquid is extremely rare, every drop of fire source liquid is extremely precious. In history, there are not many from the "Red Moon Universe Kingdom", and every drop is invaluable!

"This, this fire source liquid actually has the effect of transforming the soul, making the soul more in line with the origin law of the fire universe? And the effect of increasing the speed of perception?" Wang Yi was secretly shocked.

"Moreover, this 'Scarlet Moon Universe Kingdom', 'Scarlet Moon Holy Land' sounds like it has something to do with the name of the Scarlet Moon Nianli weapon I just bought?"

Looking at the virtual projection on the central stage in front of him, Wang Yi's eyes became hot.

This 'fire source liquid' can actually improve the law's compliance and increase the speed of understanding the law, how could Wang Yi let it go.

"Definitely! Be sure to take it down!" Wang Yi was fierce.

The old man with tortoise shell standing in the center of the auction hall loudly said: "A drop of fire source liquid, now the auction starts, and the reserve price is still 0!"

"10,000 mixed yuan units!"

The first person who made an offer appeared, and it was an astonishing 10,000 yuan unit at the beginning!

can pay this price, mostly some powerful immortality!

Dry Witch Auction, in addition to local powerhouses, some immortals from neighboring cosmic nations may also rush over to participate.

Countless world masters present were shocked by this number. After all, this was the only item auction whose first price reached 10,000 yuan in the entire auction process!

10,000 mixed yuan units are already good for immortality. The threshold for four-star customers is also 10,000 mixed yuan units. Wang Yi is now only a four-star customer.

Five-star customers need to reach the asset limit of 10 million mixed yuan units.

"15,000 mixed yuan units!"

"15500 mixed yuan units!"

"16700 mixed yuan units!"

...

As the price continued to rise, it soon broke the 20,000 yuan unit mark, surpassing the previous "Eye of the Void" price, and made the auction atmosphere more and more hot.

The effect of the Void Eye is limited, and the price is relatively low, while the effect of the 'Fire Source Liquid' is great, it is very helpful to the immortal gods level, so some immortals can't help but make an offer.

In a huge throne in the hall, Wang Yi sat there quietly, with a calm expression watching the rising price figures on the big screen.

is ready to bid at any time.

"55,600 mixed yuan unit!"

"56,000 mixed yuan units!"

...

"89200 mixed yuan unit!"

"90000 mixed yuan units!"

Seeing that the quotation of 'Huoyuan Liquid' was about to break through 100,000 mixed yuan units, the growth rate of slowed down.

At this time, Wang Yi finally breathed a sigh of relief, and entered the price of the auction token in front of Gao Yurong and the others.

"100000 mixed yuan units!"

Gao Yurong, Shen Yan and the others all showed shocked expressions.

They have always been unclear about the wealth of Wang Yi, because it is difficult for them to understand the value of certain items. Even if they are taken out without comparison, it is difficult for them to have an intuitive concept.

But after these ten days of auctions, Gao Yurong and others are not little whites who don't understand anything. They are very clear about the meaning of a 100,000 yuan unit!

So the two girls were decisively shocked.

"111000 mixed yuan units...112500 mixed yuan units, now it is 113100 mixed yuan units! Is there anything higher!?"

"Now the countdown begins, 10, 9, 8, 7...1,0! Congratulations to guest number QW2130, you have got the last finale item "Fire Source Liquid"!"

Everyone in the auction hall heard this result, and many people talked about it.

"It's this QW2130 customer again. He has spent hundreds of thousands of yuan in this auction, right?"

"I don't know who this is a great figure in the cosmic kingdom of Qianwu, so proud."

"What if we know it, we can't afford such a big person."

...

"At this auction, all auction items have been auctioned off. Thank you for your support. I, Barto, solemnly announce that this auction... is officially over!!"

With the passionate voice of the turtle shell old man, this dry witch auction officially ended!

[Chapter 113: Back to earth](#)

About half a month after the auction ended, the Black Dragon Mountain Star Field, an ordinary planet in the Milky Way, Bai Lanxing.

A black triangular spacecraft flew into the vast castle of Bailanxing. Wang Yi and others walked out as a group of guards respectfully greeted it.

"Welcome back, master." The captain of the guard, a ninth-level strongman of the Ma Shi Clan, said respectfully.

"Bai Lan Xing, finally came back." Thor said with emotion.

Wang Yi looked at the cloudy and snowy sky with a smile on his face.

The sky is cold and the ground is freezing, and the sky is full of wind and snow. Wang Yi, Thor and Hong, accompanied by a few universe-class bodyguards, went down to a vast ice field, where a spaceship of the Virtual Universe Company had been parked.

"Guest identity is confirmed and transactions can be made."

"Dear guest, thank you for your support to our virtual universe company, thank you."

After confirming Wang Yi's identity, the handover of the items went very smoothly. Wang Yi got all the items from the auction.

"It's finally over, let's go, let's go back to Earth."

Wang Yi and others came out of the earth on February 1, 2058.

The auction will be held on December 13, 2059. After another 10 days of auction and 15 days of waiting to receive the items, it is now January 8, 2060, China Time.

In a blink of an eye, almost two years have passed, and Wang Yi has already missed his family on earth in his hometown.

Wang Yi's d9-class spacecraft burst out of the Bailan Star's atmosphere and rushed into the vast starry sky of the universe, then proceeded through the universe, entered the dark universe, and began to fly at the speed of light.

is expected to reach the earth in three hours.

Inside the spacecraft, Wang Yi opened the silver-white boxes one by one.

"This is Lan Ke fruit. This is Hong yours, this is Thor yours."

"This is the fruit of life. One serving per person, that is from Luofeng's Moyunteng."

"Yan Shenbing, Luo Feng's."

Thor is a little bit sour next to him. "Wang Yi, your relationship with Luo Feng is really good. Hahaha."

Had it not been for Wang Yi already had a wife and children, he could not help but wonder if there was an ulterior relationship between the two.

Wang Yi opened a box again with a smile on his face. In the box was a dark red quaint sword, covered with countless complicated secret patterns. These are the nine magic weapons that Wang Yi bought. One of the "Yan Shenbing".

"Pop!" Another box was opened, instantly shining brightly, and there was a transparent crystal ball inside, as if there was a golden sun shining inside.

Fire source liquid! It was also the most expensive item that Wang Yi bought this time.

"Thor, your blood potion!" Wang Yi looked at another box.

"Ah." Thor immediately smiled.

"Snapped!"

The silver box was opened. This time there was a glass bottle quietly placed inside, and inside the bottle was a fist-sized pale eyeball covered with silvery white fine bloodshot eyes.

"Eye of the Void!" Wang Yi's eyes narrowed.

The eyeball of the Void Zerg 'Kadiz' is also related to the origin of Wang Yi's second clone!

During this period, Wang Yi also used various means, a large number of channels, and spent endless thoughts to finally find some clues.

Void Zerg 'Kaditz' is indeed a special life, and it is very terrifying, a special life of flesh and blood!

.....

The Pacific Ocean, the endless sea, deep.

A huge monster entangled on the bottom of the sea with closed eyes. A vine plant that spreads like a waterweed entwined it, rubbing its scales intimately, and it didn't care about it.

An icy killing intent was invisible, and the nearby underwater monsters had already escaped from this area.

Within a few tens of kilometers of the sea, only this monster occupies here.

"Luo Feng! Luo Feng!"

"Huh?" The monster opened his eyes. The dark golden eyes were full of introverted cold killing intent, which made the blood freeze.

"Wang Yi and the others are back!" Babata's happy voice resounded in the mind of the golden horn behemoth that had turned into a golden horn behemoth, or that its soul was Luo Feng.

"Are they back?"

Luofeng was also a little surprised.

Luo Feng and Hong, and Thor have a normal relationship, but they are very close to Wang Yi.

But they are all members of Meteorite now, and they can all be regarded as the same.

"In a few days, my earthling body can be gestated." Luo Feng thought silently.

During this time, thanks to Wang Yi's funding, Luo Feng's golden horn behemoth grew faster than in the original book.

After successfully seizing the golden horn behemoth that was still in the egg, it broke out of its shell and successfully grew to the first rank of the constant star. It was not as slow as in the original book, and only took about half a year.

At that time, Wang Yi and the others had only left the earth for a few months.

When the golden horn behemoth was in the constant star. It takes one and a half years for the first to third order. From Tier 4 to Tier 6, each breakthrough takes two years, for a total of about six years. From the seventh to the ninth level, each breakthrough takes 12 years and 36 years. It takes more than 50 years to break the ninth-level of the constant star to the first-level of the universe.

If the best metal combination is used, the evolution efficiency can be increased by 51 times.

That is to say, from the first level of the constant star to the first level of the universe, it can be completed in almost one year!

And about a year ago, Luo Feng, the golden horn beast, had already broken through to the universe level!

Then again use extremely precious metals, using the best combination to let the "internal world" absorb and grow.

But the best combination of the universe level, the evolution efficiency is only increased to 56 times!

The normal cosmic evolution stage of the Golden Horn monster lasts for nearly a thousand years! It takes about 15 years for the first to third order. From Tier 4 to Tier 6, each breakthrough will take 20 years a total of 60 years. From the seventh to the ninth level, each breakthrough takes 120 years, a total of 360 years. Finally, it will take more than 500 years to break through from the ninth cosmic level to the domain master!

The current golden horn monster has reached the third level of the universe!

The huge body that is several kilometers long curls up on the bottom of the sea, like a continuous mountain range, exuding an astonishing aura.

Had it not been for Babata to obscure the signal, it would have been discovered by the forces on earth.

"Soon, I will be able to meet with you again..." Repressing his inner joy, the golden horn beast had a thought, the next moment, disappeared out of thin air, and entered the "one world" in the "world ring", and Mo Yun The vine stayed outside, and a ring was wrapped around a vine, drifting with the flow.

.....

Above the earth's atmosphere.

A black spaceship is floating here, with a few people nearby.

"Haha, Wang Yi, goodbye, let's say the difference here, we won't bother you to go home and reunite with your loved ones."

Thunder God, Hong smiled and waved his hands, separated here, and flew back to his own nest.

Wang Yi smiled and watched them leave, then looked down at Jiangnan Base City and took a deep breath.

"I am back."

.....

In Jiangnan Base City, on the edge of Yangzhou City, a towering beautiful castle with a height of 55 meters and covering an area of one kilometer long stands there, like the ancient castle of the legendary elves, and countless beautiful plants grow here. Like a fairyland on earth.

This castle has now become the legend of Jiangnan Base City.

And all the forces have guessed something vaguely these years, but no one dared to bother here.

On this day, no one knows that the real owner of the castle has returned from the universe again.

[Chapter 114: Days on earth](#)

In the early morning, the sky was just getting bright, and the first ray of sunlight on the far east horizon broke through the haze and cast it on a huge and beautiful castle on the edge of the city.

Wang Yi's eyelids moved, and he felt a soft, warm and fragrant thing close to his face. He opened his eyes and saw—his two-year-old girl's little butt-dan was sitting on her face while her two With only small feet, left and right bifurcated, the whole small body was lying on Wang Yi's chest in a big font, slumbering loudly.

Wang Yi smiled silently, gently put the youngest **** the pillow beside her, and wiped the saliva from the corner of her mouth by the way.

Looking around, there are three wives and six little children lying on the big bed, all sleeping soundly.

The plan that I wanted to make with my wives last night had to be turned into a parent-child play time because of the child's 'destroy'.

But Wang Yi was in a good mood.

Just as Wang Yi got off the bed, Lin Youyu and their eyes opened at the same time.

I took a bath this morning for a long, long time... Several children who discovered that their mother and father were absent early in the morning looked for strangely for a long time before the blushing mothers appeared with the smiling father.

I don't know why, the children think that the smile on Dad's face is very similar to the smile on the weasel stealing a chicken in the anime.

called the parents over, and after having dinner with his wife and children, and took a rest, Wang Yi accompanied the children to play games and tell stories in the yard.

Wang Yi suddenly discovered that he likes this kind of peaceful and warm family routine more than those thrilling adventures in the universe.

But, as a man, there are certain things that must be done.

Since he has the ability, he must bear the responsibility that belongs to him, and it is impossible to leave everything to outsiders.

What's more, Wang Yi also has his own pursuit.

home is his soul harbor and his soul destination, but it is not his end.

.....

A few days after Wang Yi returned to Earth.

"One World" in the world ring.

Mo Yun Teng, the Zerg brood has always grown here, and even Wang Yi's clone, the Giant Flame Star, occasionally appears here.

On this vast continent, which is 100 million kilometers long and wide enough to fit the entire earth, Wang Yi in a dark red shirt floats in mid-air, with a red disc under his feet, and one left by his side. A meniscus-shaped and mirror-like weapon of thought power hovered to the right.

Behind , he carried a huge dark red knife that was almost as high as him.

With both hands, he is holding two war knives that exude terrifying sharp aura!

Armed to the teeth!

"There are still six years before the peak genius battle. During this time, I can't waste it. I have to improve my strength as much as possible!" Wang Yi exuded a fierce aura, and the dark bangs on his forehead gently blew his bangs. The lower eyes exude a glowing glow.

has the flame star behemoth that likes to destroy everything in the starry sky behemoth, of course he will also be affected.

However, because he had signed in on Earth, his spiritual and will talents have been double-enhanced, coupled with Wang Yiping's constant control and attention to spiritual cultivation, it did not affect his sanity.

But there is always a desire for destruction in his bones that urges him to destroy.

Wang Yi knows the truth that blocking is not as good as sparse, so in addition to venting in the killing field of the virtual universe, occasionally he will come to one of the worlds to exercise and practice...while killing.

A large cloud of clouds flew out of the valley in the distance, densely dense, like countless birds.

When was near, I realized that they were all kinds of zerg warriors.

Each Zerg warrior is a ninth-level constant star, and the number is about 10,000.

With the ability of the Zerg mother emperor'Sasha', a Zerg warrior like this kind of constant star can be produced in groups every minute and every second.

And these are all sparring exercises for Wang Yi!

Wang Yi looked indifferently.

咻! In the next second, he already squeezed both knives and rushed out.

And the Zerg warriors were divided into ten echelons in a mighty and hierarchical manner. Each echelon was no more than a thousand Zerg warriors, and rushed towards Wang Yi.

Before the official contact, the roulette weapon that looked like a red half-moon beside Wang Yi had turned into a stream of light and flew out.

Rushing into the dense group of Zerg warriors, the sharp crescent edge can easily make these constant-star rank 9 Zerg warriors whose physical strength is comparable to that of b9 metal, turning around in a weird arc, avoiding those Zergs. The warrior's attack, like spirituality, slashed the bodies of those Zerg warriors frantically.

A large number of broken limbs fell from the sky like raindrops.

Then, there was Wang Yi with cold eyes and a calm complexion.

"kill!!!"

A hot red air current erupted from Wang Yi.

Wang Yi clenched his two knives, rushed into the team of Zerg warriors like lightning, slashing and killing.

The Zerg warriors also besieged Wang Yi in a fierce and undaunted manner.

In other words, they were here to die.

Wang Yi wore a Tier 5 Force suit, and the Zerg warriors had the control of the mother emperor, so there was no fear of real danger at all.

But, this is a real practice!

Wang Yi placed strict requirements on himself, trying not to let the other party touch his body.

There are more touches. Although he won't get hurt, Wang Yi's training goal has also failed.

This is a real, **** killing!

Countless Zerg warriors swarmed over and died under Wang Yi's hands.

But for the Zerg, the truly intelligent and emotional life is actually the mother of the Zerg, and the others are just combat tools manipulated by the mother of the Zerg.

Whether Wang Yi or the Zerg mother emperor, there will be no hesitation.

Wang Yi, covered with blood from his limbs, charged like a demon in the army of Zerg warriors. when! The bone spur of a Zerg warrior flew over and was blocked by a red light.

That is Wang Yi's defensive mind weapon, the red moon disk, which is like a circular shield, with a subtle flight trajectory that blocks attacks from all directions.

Then a red half-moon passed through the body of the Zerg warrior who attacked Wang Yi like lightning.

The two 'flaming dragon sabers' in Wang Yi's hand swung into two arcs of light.

The rise of killing!

锵!

Behind , a red light burst into the sky, a total of nine blades flowed into the secret pattern brilliance, and the streams of light were connected together to form a mysterious combination, condensed into a crescent-shaped knife that looked like a real thing.

Yan Yan is the first heavy weapon!

Ordinary Tier 1, Tier 2, and Tier 3 mind force weapons, just use them! However, the general high-level weapons are different. For example, if the "Fifth Tier Weapon" wants to exert its power, the "spiritual nurturing" is the first thing needed to plant its own spiritual imprint on this Yanshen weapon.

Yan Shenbing is one of the nine great weapons of the masters. To use it, it requires a very high sense of law and intensity of consciousness. As long as it can display the first formula, it can be called in the same level of the constant star. Invincible!

While Wang Yi's mental power is only the eighth rank of a constant star, his consciousness strength has the consciousness strength of a cosmic flame star behemoth! The amplitude of his own mind power has also reached a very high level! In addition, he already had some insights into the laws of the origin of fire, and he stepped into the threshold of the laws of the origin of fire, and the domain reached the sixth level.

This is the only way to quickly master the first style of the Yanshen Soldier after many trainings!

Of course, being able to display it does not mean that you can already master it skillfully and exert its greatest power.

Wang Yi, there is still a long way to go~www.mtlnovel.com~ As soon as the beautiful red crescent came out, a **** storm was set off among the Zerg warriors, and a red lightning flashed through the many Zergs like a phantom. , The speed is so fast, and the attack is weird, no Zerg warrior can escape.

Soon, all the Zerg warriors who had occupied the entire sky withered, not one left, and a large number of broken bodies were scattered on the ground below.

These corpses will be recycled by the Zerg brood, so Wang Yi doesn't need to worry about it.

Wang Yi closed his eyes and resumed his rapid breathing.

At the same time thinking about the gains and losses in the battle just now, comprehend.

"For melee warriors, I have the sword technique "Sunset", the long-range weapon of Yan Shen, the body technique has "Ten Thousand Threads", the soul defense has "Void Tower" in "Soul Seal", and the soul attack also has "Soul Seal of Ten Thousand Swords". ...Unfortunately, my comprehension of the laws of space origin is still too low, and the talent of the Yanxing Giant Beast in the laws of space seems to be inferior to the Golden Horn Giant..." Wang Yi is a pity.

"Yan Shenbing and other mind-powered weapons must continue to be mentally nurtured in order to be more compatible with themselves."

"I took the treasure 'Fire Origin Liquid', and successfully raised the talent for perceiving the law of the origin of fire to the level of those top human races. In addition, I was born to be the peak bloodline of

the darling of the law of fire, the "flaming star behemoth". The rate of progress in the law of the origin of fire will certainly not be low."

Wang Yi narrowed his eyes. "But! Regardless of the Yanshen Soldier or the "Ten Thousand Threads Flow" secret method, you need the law of the origin of space as a basis to be able to be used! Now my understanding of the law of the origin of space is actually very low, and I haven't even gotten started."

"However, as long as the Yanxing Giant Beast steps into the domain master level, maybe I can try and give birth to a second clone related to the law of space origin." Wang Yi's eyes were full of expectation.

[Chapter 115: Wang Yi's plan!](#)

The vast expanse of the Pacific Ocean, right now it's dawn.

A figure flew out of the sea and stayed in the air, revealing a young man wearing military trousers, a simple vest and short black hair. The whole person looked extremely sharp, and his eyes were extremely cold.

is Luo Feng!

He looked up at the sky, at the vast sea of stars, the air was fresh and oceanic, and he took a deep breath, showing a drunken expression.

After more than a year, Luo Feng's human body was finally conceived successfully!

Now Luo Feng's body is at the third rank of the planetary star, and his mental power is at the sixth rank of the planetary star. , And the golden horn behemoth is the third tier of the universe, how big the gap is.

Of course, this also means that Luo Feng will make faster progress!

"Finally, it's coming out." Luo Feng felt like he was reborn.

Luo Feng didn't know that in the history of a certain world, this time was when the golden horn beast broke out of the water and wreaked havoc on the world.

But now, it has become Luo Feng's golden horn behemoth!

The original historical trajectory has been changed. Although Luo Feng still seizes the Golden Horn behemoth, perhaps only God knows which way his destiny will go in the future.

"Let's go, it's time to go home." Luo Feng couldn't wait.

has been away from home for more than two years. During these two years, Luo Feng often missed his family and Xu Xin.

Luofeng stepped on Tissot, and flew fast towards Asia, China, and Jiangnan Base City.

As soon as Luo Feng came out, Wang Yi's surveillance all over the world had discovered it.

Wang Yi, who was holding a son for dinner, looked towards the Pacific Ocean, with a smile on his face.

"What's the matter?" Lin Youyu, who was sitting next to him, was also holding a child in his arms. Seeing his expression, he asked curiously.

"There is a good friend who will be back soon." Wang Yi smiled, and while his son looked disgusted, he stuffed a piece of vegetable into his mouth.

Luofeng returned very quickly, almost two hours later, he arrived in Jiangnan Base City.

And the return of Luo Feng, the supervisor of the Jiangnan General Assembly Hall of Xtreme Martial Arts Hall, which had disappeared for more than two years, also attracted the attention of all parties.

Before Luo Feng left, he went to the Xtreme Martial Arts Hall to practice in retreat, so everyone in his family thought he was going to practice, and Hong's endorsement, naturally no one would doubt it. The golden horn beast, for more than two years, has been secretly hiding on the earth to develop.

Even if Luo Feng has not returned for more than two years, the supervisory position of Jiangnan General Assembly Hall is still reserved for him. After discovering that Luo Feng has reappeared, many people are curious as to where Luo Feng has reached now and whether he has broken through beyond the **** of war. level.

Luo Feng, although the human body is only a star, but another golden horn monster has reached the cosmic level. To put it bluntly, it can destroy all mankind in an hour. Under this kind of strength, human beings have no ability to resist.

Luofeng's return also caused a sensation in Mingyue Community.

After being reunited with his family, Luo Feng did not delay and came to Wang Yi's castle in Yangzhou City the next day.

On the top balcony of the castle, Luo Feng, Wang Yi, Hong, and Thor gather together.

Seeing the extreme coldness in his eyes, the familiar and unfamiliar young man with short black hair, Wang Yi also felt a little emotional.

Now Luo Feng looks like, this is the protagonist of the world he is familiar with.

After a little greeting.

"Luo Feng." Wang Yi smiled and said, "This is something for you." He handed over a space ring.

This is all the resource items he brought back from the universe, which can improve Luo Feng, the golden horn monster's strength.

There is also the first metal fragment of the 'Nine Tribulations' Secret Code, and there is even information on how to learn the characters of the Yan God race, but it is estimated that Luo Feng will have to wait until the domain master level to practice.

If Luo Feng does not go to the Junk Star Territory in the future, he might have to give a hint, or he will continue to find the second fragment and give it to Luo Feng.

It's just that Wang Yi doesn't want to interfere too much in Luo Feng's destiny.

Of course, Wang Yi also explained that there will be an auction at the Qianwu Universe Congress in December 5 years later. There may be demon killer skins appearing at the auction... How Luo Feng gave birth to a second clone, he explained the pros and cons. Yes, it depends on his personal choice.

Wang Yi didn't think that the inner world of the golden horn beast could nurture the special life of the 'eye of the void'. At least not at the moment, and the "Void Zerg" is a domain master-level life, Luo Feng's golden horn behemoth can only have a chance to be bred if it has a domain master-level. He is not confirmed yet. If not, it is estimated that he will have to learn from Luo Feng, and 5 years later, he will use the skin of the Demon Killer clan to give birth to a second clone.

The second clone, the gestation time is of course the sooner the better.

"Thank you very much." Luo Feng did not shy away, and solemnly took it.

"You don't need to be so polite between you and me." Wang Yi said, not to say more.

Both sides understand what the other person is like. Needless to say, some things are clearly understood in their hearts.

"I didn't expect that our earth would have this day." Hong sighed while drinking tea and looking at the blue sky outside ~www.mtlnovel.com~.

"Yes, thanks to Wang Yi." Thor also exclaimed.

If I had been worried about the destiny of the earth before, and worried that the earth would be destroyed by the sudden arrival of alien forces, and the enslaved Hong, how could Thor imagine that the earth had undergone such a change, and not only got rid of the disaster that may face extinction at any time Even in the future, it will be able to integrate smoothly and peacefully with the universe.

And because of Wang Yi's help, they have broken through the bottleneck that has troubled them for many years, their strength has rapidly improved, and they have seen a vast world that they had never thought of before.

In their hearts, they are all secretly grateful to Wang Yi.

Luo Feng was also very grateful to Wang Yi in his heart, but he knew that Wang Yi would not accept his gratitude, and he could only bury his thoughts in his heart.

The four people sat around a table and talked happily about the future destiny of the earth and their own imaginations about the future.

Looking at the excited three people, Wang Yi smiled slightly.

"I have an opinion about our future path."

Luofeng, Hong, and Lei Shen looked over at the same time.

"what's up?"

"Yes, it's mysterious, just say anything."

Luo Feng and others were actually very curious about the secrets of Wang Yi, and even guessed whether they had inherited it, but Wang Yi didn't want to say clearly, they naturally wouldn't ask more questions.

This is also a kind of trust.

Wang Yi glanced around at the three of them and smiled slightly.

"I got a news that in March, about six years later, in the human domain, there will be a universe where countless star-level geniuses of all mankind will participate-the peak genius war!"

"This competition is very important to our future development. I hope you can all participate."

[Chapter 116: Ganwu Black Dragon Mountain Branch](#)

Tell Luo Feng and them about the pinnacle genius battle, so they can have a goal and prepare in advance.

And Luo Feng and the three of them are really interested in the peak genius battle six years later, and they all said they would definitely participate in that time.

Wang Yi's goal has been achieved. Next, it is time to consider his own affairs.

A virtual universe, a killing field as vast as a city.

Wang Yi sat in a corner alone, drinking a specialty beverage from a certain galaxy.

Feeling the wonderful taste of the overlap of ice and fire in the tip of his mouth, he clicked on the screen in front of him.

"It's been a long time since I went to the duel space, take advantage of the execution of the plan this time, and have a good time."

The corners of Wang Yi's mouth raised slightly.

In these six years, Wang Yi didn't intend to waste his time.

With the sign-in panel, it's not impossible for a person to practice hard, but it's too wasteful of the advantages of the sign-in panel. In order to maximize the role of the sign-in panel, he plans to make a name in the virtual universe and attract the attention of the world. .

Regardless of the five giants such as the Virtual Universe Company, the Giant Axe Fighting Field, or the 1008 Universe Nation, the Heilongshan Empire, a medium-sized civilization, and many forces rooted in it, such as San Axe Mountain, they all pay great attention to the absorption and training of talents.

But how do you prove that you are a talent?

The best place is of course the duel space in the virtual universe.

Wang Yi is not interested in joining the branch of Heilongshan Virtual Universe Company, etc., but is very interested in Qianwu Universe Kingdom.

or say that I am interested in the Secret Realm of Dry Witch!

It is too time consuming to sign in to other middle civilization countries, and the benefits are not necessarily.

It is better to aim directly at the largest and most powerful holy land in the entire Dry Witch Cosmos Kingdom, the Secret Realm of Dry Witch!

But wanting to join the Secret Realm of Dry Witch, it is not so easy, at least you have to understand a trace of the original law at the constant star level before it is possible to join.

As the strongest power in the land that governs the Qianwu universe, Qianwu is also very strong. Except for the Qianwu Dojo, no party is allowed to open and accept disciples here.

This also proves that Qian Wu attaches great importance to talents.

"Um... the hapless fellow of Venerable Dry Witch, seems to owe a lot of treasures to the race, and it hasn't been paid yet. He can only squat in the Universe of Dry Witch for a long time to train talents for the race in order to compensate. ..."

Wang Yi had a good plan. He first made his name in the duel space in the virtual universe and attracted the attention of the Qianwu universe. With his current strength, there is no problem in joining the Qianwu Secret Realm, in the ancient treasure of the Qianwu Secret Realm. Sign in for a wave to quickly strengthen yourself, and the Secret Realm of Dry Witch, as the best sacred land second only to the secret realm of the five giants, can also quickly improve your strength...

When six years have passed, when the peak genius battle arrives, the Dry Witch Universe Kingdom will definitely send itself to participate. At that time, he can naturally enter the top 1,000 of the universe finals and become the core layer of the virtual universe company...

flawless!

Then, Wang Yi began to fight in the duel space...or a career of abuse.

And the duel space is where the real warriors fight each other!

The killing field.

Wang Yi sits alone.

A large number of opponent's strength introductions appeared on the screen.

If you want to fight... you need to apply and the opponent will challenge.

Wang Yi has already mixed in the virtual universe, his name is "Fire Knife".

is not very prominent, but it can simply illustrate Wang Yi's personal combat characteristics.

The swordsman who practiced the law of origin of fire!

violent! violent!

As for mental power, that's another matter.

Now Wang Yi has a constant-star eighth rank regardless of his mental power or martial artist's physical fitness. He hasn't fought in the duel space for a long time, so his record is not much, and his duel rating is also three-star.

In the entire evaluation system, the highest evaluation is nine stars, which is definitely an absolute super power in the same level.

Wang Yi, has received many nine-star evaluations in the past, regardless of the same rank or the higher rank, the winning rate is terrible, and he is also a masterpiece who was once all the rage and praised by people.

Of course, I have to do it all over again now, and every time I upgrade the level, the evaluation will do it again.

"The first goal...choose you." Wang Yi chose a rank 8 martial artist with a constant star rating among a large number of opponents. His weapon was a nine-star master with a winning rate of 98.5%.

But... the challenge application was directly rejected, and the system prompts that as a nine-star powerhouse, the opponent has the authority to set up, and at least eight stars can make an appointment with him.

Wang Yi blinked.

He forgot that he is only three stars now.

"Forget it, let's challenge one by one." Wang Yi couldn't help it.

He is also a master, of course he understands the minds of those masters, and he does not want to waste time on those mediocre opponents.

can get high-star reviews on the killing fields, almost all of them are here for the purpose of tempering themselves.

Wang Yi chose a five-star opponent and issued a challenge invitation.

"Your challenge, pass."

"Teleport to the decisive battle space." A prompt from the virtual universe system appeared on Wang Yi's screen.

Decisive battle space.

On the vast prairie, there is a black metal ring, about ten kilometers long and ten kilometers wide.

Wang Yi, wearing a dark red shirt and carrying double knives, appeared on the ring. Opposite was a tall and thin man with short green hair and red eyes. He was hugging a long sword and had a cloak behind him. It made people feel very It is aloof and unrestrained.

Both "Decisive Battle Space" and "Killing Space" are optional weapons. As for the battle clothes, you must choose this level of battle clothes.

Fire Knife, 7 wins, 7 wins and 0 losses, evaluation of Samsung.

Kuangyi~www.mtlnovel.com~ 6 defeats in 39 wars, five-star rating.

"I said, kid..." The other party said slowly.

"锵!"

Wang Yi was too lazy to talk nonsense with the other party, he directly pulled out the saber behind him, and his figure flew out like electricity.

"Good fellow!" The tall and thin green-haired man was also angry and drew out the long sword in his hand. "Let you know, the five-star master is amazing." The man was obviously proud of his strength. brush!

The long sword in his hand pierced through the air in an instant, and pierced Wang Yi's neck at a strange angle.

Wang Yi rushed forward, the sword on his left hand blocked the man's long sword, and the sword on his right hand had already cut through the opponent's neck.

The green-haired tall and thin man's eyes were full of shock, his neck had been cut off, and his head flying high.

was still, and the next moment, bleeding was sprayed from his neck.

'S body swayed, and he fell to the ground with a thump, and the long sword in his hand also flew far away.

"It's too weak." Wang Yi stood beside his headless corpse, shook his head, his face calm.

At Wang Yi's current level, not to mention the most powerful in the whole witch universe, but it can also be squeezed into the forefront. I am afraid that only those nine-star masters can barely resist it, like this five-star? It was simply tortured and killed!

In the duel space, only six stars can be regarded as a true master of the same level!

And the opponent just now, who didn't even have a domain, was killed by Wang Yi with a single blow.

"Next!"

Wang Yi constantly challenged various opponents, all of which were easily defeated, and his evaluation was also rapidly improving. Soon, he climbed to Jiuxing with a 100% winning rate!

At the same time, Wang Yi's amazing performance also attracted the attention of the head of the Killing Fields Branch of the Wushu Universe Kingdom in the Black Dragon Mountain Virtual Universe!

[Chapter 117: Rabic's Gaze](#)

The human domain is vast!

Earth, divided by territory, is located in the "Milky Way", one of the eight major galaxies of the "Silver Blue Empire" in the primary civilization of the universe!

And the Silver Blue Empire is one of the subordinate countries of the 'Black Dragon Mountain Empire', a medium civilization in the universe that controls more than 8,000 galaxies.

And the 'Black Dragon Mountain Empire' belongs to the Qianwu universe. There are more than one hundred and three thousand star regions under its jurisdiction, with a number of star coefficients exceeding one hundred million, and it governs nearly a thousand medium civilization subordinate countries in the universe.

Qianwu Universe Kingdom has always valued talents. In order to tap talents, special branches have been set up in various parts of the universe.

Among them, the Black Dragon Mountain Empire branch is in charge of a domain master 'Rabic'!

The rise of Wang Yi has aroused the attention of many forces and organizations, of which Rabic is naturally included.

An elegant quiet room, a gorgeous blue robe, and a big-headed man with green skin shook his head and looked at the screen of Wang Yi fighting his opponent. He saw Wang Yi's understatement and slapped the head of the already six-tiered nine-star opponent. Splitting, the eyes suddenly shined brightly.

"good!"

The higher the level, the higher the vision. As a domain master, Rabich has walked for many years on the road to comprehend the law. It can be seen naturally that Wang Yi's body and sword skills have A trace of mystery of the law.

This makes his combat effectiveness reach a terrifying level in the same tier!

"I didn't expect to find a nice seedling in my territory. It seems I was lucky." Labich touched his goat's beard happily.

As the relevant person in charge of the Qianwu universe, Rabic has received instructions from the above. During this time, we must find talents as much as possible!

"That time has come again..." Rabic was also a little excited.

However, there are many geniuses discovered, and they are also divided into various levels, such as the most common three-level elite, to the second-level elite, the first-level elite, and the strongest special-level elite!

And the super elites are already qualified to enter the sacred land of the Dry Witch universe, the 'Secret Realm of Dry Witch', they are all extremely terrifying and outstanding geniuses!

Just as the Heilongshan Divine Kingdom has an extraordinary status to the Heilongshan Empire, the Secret Realm of Dry Witch is also the best place to cultivate genius in the Universe Kingdom of Dry Witch! The best geniuses in Quanganwu universe will basically be sent there for training!

The Qianwu universe country has more than one hundred and three thousand star regions and nearly a thousand affiliated medium-sized universe civilization countries! Even if only one genius is selected from a star field, the number is terrible!

It is definitely not an exaggeration to say that the Secret Realm of Dry Witch is the place with the most geniuses in the entire universe!

Rabic thought for a while.

"Call me Yuehou from the special training camp, I have a task for him."

He still has to test Wang Yi's strength again.

"Little guy, I hope you can surprise me." Rabic's emerald-like eyes were filled with expectation.

.....

In the virtual universe duel space, Wang Yi has fought more than 800 duels these days, defeating his opponents cleanly every time, without fail! The winning rate is as high as 100%! Including leapfrog challenges!

Now, Wang Yi is already a super master in this area of duel space. There is no need for him to take the initiative to challenge. Many people take the initiative to invite him every day.

Because Wang Yi did not hide his strength too much, as long as these forces observe carefully, you can find that Wang Yi has understood the original law!

This is terrible.

Suddenly, many people on behalf of various forces and organizations invited Wang Yi to join them, including the Virtual Universe Company, an external deacon 'Ming Yu' of the 'Black Dragon Mountain Branch' of the Black Dragon Mountain Empire, but Wang Yi was not interested. When it's over, just put these mails on the shelf and ignore them.

His goal is the Secret Realm of Dry Witch!

And now, Wang Yi is fighting a spiritual teacher who is in a blue suit and is manipulating a silver shuttle mental weapon.

The opponent is the ninth rank of the constant star, and Wang Yi is the eighth rank of the constant star!

"How, how is it possible?" An expression of anger appeared in the opponent's eyes.

This time, Wang Yi chose the weapon of mind force. Under the consciousness intensity of his cosmic Tier 6 flame star behemoth, the weapon of mind force can control like a fish in water, containing a trace of law and perception. The movement track is seamless!

The ninth-level spiritual teacher of constant star level that suddenly appeared is also very powerful, and the domain has mastered the seventh level! And the secret method of controlling the weapons of mind is also unique! Ordinary opponents of the same level, I am afraid that ten of them were killed by him!

But in the battle with Wang Yi's Nianli Weapon, he suddenly fell into a disadvantage.

The strength gap between the two sides is obviously a bit big.

"Impossible! I am a genius who has been carefully selected from all over the world to join the elite training camp in the entire dry witch universe. How could I be defeated so quickly, the Black Dragon Mountain Star Territory... where did this guy emerge from?" The blue-clothed youth was filled with shock and puzzlement.

Peng! The crescent moon mind weapon controlled by Wang Yi smashed the silver shuttle like a comet, and then used a tortuous flight trajectory to avoid the obstacle of the blue youth's last defensive mind weapon, piercing the blue youth's head like lightning.

The battle is over!

Wang Yisheng!

Wang Yi hovered in the middle of the ring~www.mtlnovel.com~ indifferently watching the blue-clothed youth's body slowly turn into nothingness.

"This person is a bit wrong..."

"Suddenly came out, still so strong, able to fight with me for so long, he was the first one." Wang Yi faintly noticed something was wrong, and many speculations surfaced in his heart.

It is certainly not a general genius who can possess such a strong strength at the constant star level. It should be cultivated by a big power.

But which force Wang Yi could not determine.

After all, this universe is too big and there are too many power organizations. In addition to the Big Five, there are 1008 universe nations, and various super-large organizations... These organizations may all appear in the virtual universe to attract talents.

"Huh? There is new mail." As soon as Wang Yi came out of the duel space, he found new mail in his mailbox.

In this short period of time, Wang Yi has received a lot of emails from various forces, and there are some strong men who want to accept him as a disciple, making him dumbfounded.

For some people, it may be a good thing to be able to worship a strong person as a teacher, but for Wang Yi, these people just want to eat!

The most ideal teacher in his mind is no more than the level of Chaos City Lord. No matter how bad it is, he has to be an immortal powerhouse who can become a master in Chaos City, like King Zhenyan.

There are some cosmic grades in the corner of the Black Dragon Mountain Star Territory, the domain master actually wants to accept themselves as apprentices?

Wang Yi has no problem with his brain, how could he agree!

ignore it all!

Wang Yi clicked on the email, looked at it, his eyes condensed.

"Huh? This is..."

After quickly reading the content of the email, Wang Yi showed a smile on his face.

"Finally, it's time to fight the people from the universe kingdom."

[Chapter 118: Secret Realm of Dry Witch](#)

Wang Yi left the duel space and returned to the killing field, and he saw a waiter from the killing field approaching.

The waiter leaned forward and smiled: "Sir, there is an adult in the meditation room upstairs who wants to see you."

"Okay." Wang Yi nodded, and followed the waiter to the second floor of the Killing Field.

On the way, I also saw the head of the Killing Fields in the Black Dragon Mountain Island branch, the old man 'Man Luo' with green skin and wrinkles on his head.

As Wang Yi was about to walk up the stairs on the second floor, he looked at the direction Wang Yi was leaving, and shook his head.

Killing Field Hall is a training place for many elites who have been specially trained. And the meditation room is a very private room. Many strong people rent a meditation room for a long time, and the owners of the meditation room are generally cosmic at least.

Follow the spiral staircase to the second floor. The first floor is an extremely wide super lobby, and the second floor is a beautiful and quiet maze. There are meditation rooms in the maze.

The waiter took Wang Yi to a door and knocked on the door. "My lord, the guest has been brought here."

"Come in." A hoarse old voice came from the door.

The waiter pushed the door open and smiled to Wang Yi in a gesture of inviting him in. Wang Yi nodded and walked in.

is very empty in the meditation room, with only a few futons, an old man with green skin and a big head, wearing a gorgeous blue robe embroidered with an unknown beautiful plant pattern, sitting there with a big smile on his face.

"Wang Yi, please sit down."

Wang Yi leaned slightly, found a futon, sat down, and looked at Rabic.

Rabic's face smiled even more.

"Wang Yi, introduce myself. I am the Cosmos Kingdom of Dry Witch, the main person in charge of the Black Dragon Mountain Branch of the Black Dragon Mountain Empire, 'Rabic'. You can call me Mr. Rabic or Master Rabic. ."

"Master Rabic." Wang Yi would naturally not be arrogant and rude in front of such a strong man.

"Wang Yi, you must be very puzzled in my heart when I come to see you this time." Rabic smiled.

"Yes, I don't know what advice the adults can give me?"

"Wang Yi, you are a genius, so I won't talk about you anymore." Rabic said, "I have been collecting elite geniuses in various star regions, and you have been selected by me. I think you are very There is potential and there is a good chance to become a super strong in the future, so I want to recommend you to the headquarters of the Dry Witch Universe Nation, in the Dry Witch Secret Realm, and join the Dry Witch Secret Realm. I don't know what you want?"

Rabic looked at Wang Yi's expression secretly after speaking, only to find that his expression hadn't changed, and he couldn't help but feel a little disappointed.

Wang Yi made a thinking face, thought for a while, then raised his head. "Master Rabic."

Rabic gave a gesture of "please speak" with a smile.

"I would like to ask, what status will I get when I join the Secret Realm of Dry Witch?" Wang Yi asked.

Of course, this is what he asked deliberately.

Rabic let out a sigh of relief. He wasn't afraid of Wang Yi's inquiry, but he was afraid that he would not be moved.

After all, this kind of peerless genius is something that every force will compete for.

The Qianwu universe is indeed a huge monster, but it is far from the giants that span the entire human domain, such as the virtual universe company.

Mandatory requirement for this kind of genius to join? This kind of brain-dead behavior, as long as there is a little brain, will not do it.

After all, what they cultivate is super strong, not cannon fodder or ordinary bottom.

Make this kind of strong person feel resentful. It's okay if they don't become strong. When they become strong, they will immediately leave, join other super forces, and then turn their heads to deal with you.

Therefore, when dealing with these super geniuses, the various forces are still very cautious and have their own rules.

"Wang Yi, you need to know, our witchcraft secret realm..." Rabic began to talk about the benefits of joining his witch universe country. There are naturally some exaggerations, but not many.

If Wang Yi does not plan to join the Virtual Universe Company, the Secret Realm of Dry Witch is indeed a good place, but Wang Yi's goal is already six years from the peak of human genius battle, then the World of Dry Witch is just a springboard.

"Master Rabic, I want to know, after joining the Secret Realm of Dry Witch, will I have a chance to participate in the peak genius battle in the near future?" Wang Yi asked. This is what he cares about most.

Rabic could not help but glanced at Wang Yi, with a smile on the corner of his mouth, "You even know this. It seems that you already have plans. Do you want to join the Virtual Universe Company?"

"That's right." Wang Yi admitted without hesitation, "If I join the Secret Realm of Dry Witch, I can't participate in the Peak Genius War held by the Virtual Universe Company. Forgive me, I can only refuse your invitation."

"You little guy, you have a big heart, and you are not afraid of going too far." Rabic shook his head, but his attitude was not angry. "As one of the pinnacle giants in the universe, the virtual universe company cultivates geniuses and has the best conditions! The original universe, many secrets, various magical treasures, the best teacher..."

Rabic looked at Wang Yi, "However, only the top 1,000 in total can we get the virtual universe company to spend countless resources to cultivate."

"You are very good, you may even rush into the top 1000 of the Qianwu universe, but if you want to join the virtual universe company, you must become the top 1000 in the universe. It is difficult, difficult, difficult, very difficult."

Rabic admits that the young people in front of him have good talents, but he is still not optimistic about Wang Yi.

He fixed his eyes on Wang Yi, as if he wanted to put pressure on him.

"Wang Yi, do you know that in every peak genius battle, 1008 universe nations of our human territory will participate. After countless geniuses, after fierce competition, will they choose the strongest 1000 geniuses in their respective universe nations to participate in the event? The finals of humanity!"

"There are 1008 cosmic nations, representing the highest number of human geniuses, there will be more than one million points."

"And the virtual universe company will only absorb the top 1,000 in the peak showdown."

"Your opponent is not only us, but also countless geniuses from thousands of other universes. Do you really think you can successfully break through?"

Under Rabic's oppressive gaze, Wang Yi nodded slowly but firmly.

"Master Rabic, I am confident that I will be able to break into the top 1,000 of the top genius battles, and even become the number one, to join the virtual universe company!"

Rabic looked at Wang Yi, and laughed blankly.

"Young people are really ignorant and fearless."

"Forget it, I won't scare you anymore. If you join us in the Secret Realm of Witchcraft, it will definitely represent the Universe Kingdom of Witchcraft in the pinnacle genius battle. If you can rush into the top 1000 and join the Virtual Universe Company, it will be regarded as the Secret Realm of Witchcraft for us. a good thing."

Rabic smiled and said, "So, do you have any other opinions about joining the Secret Realm of Dry Witch?"

Wang Yi thought for a while, and slowly nodded under Rabic's smiling eyes.

"No, in this case, my lord, I am willing to join the Secret Realm of Dry Witch."

[Chapter 119: respectively](#)

An appointment has been made with Rabic. One month later, in March 2060, people from the World of Dry Witch will come to Bailan Star to take Wang Yi to the secret realm of Dry Witch.

Wang Yi still has one month to reunite with his family.

At night, the master bedroom of the tall castle is shrouded in stars, shrouded in the night, after some lingering lingering, Shen Yan lay on Wang Yi like a dead fish and panted.

"Are you leaving again?"

"Um."

"Remember to come back, we will all wait for you at home."

Wang Yi nodded heavily with a warm heart.

"Um."

"Don't worry, we can still meet in the virtual universe." Wang Yi hugged her.

Perhaps, this is their greatest comfort at the moment.

This night is very long and very short.

Hong, Thunder God, Luo Feng soon learned that Wang Yi was going to practice in the witch universe kingdom, and they were all a little surprised.

However, they also understand Wang Yi's choice. After all, since they have embarked on this path, they all have their own consciousness.

The strong are almost lonely.

What's more, Luo Feng and the others are also burdened with the important task of letting the people of the earth rise.

Although no one asked them, they did so voluntarily.

Unknowingly, Wang Yi was still affected. He has parents, wives, children, friends, brothers...Here is already an inseparable part of his life. How can he be indifferent and turn a blind eye?

has been hiding in the earth or a certain corner, maybe he can be at ease, but he will never grow up, since he has this ability, he will do some things.

On March 5, 2060, China National Time, Bai Lanxing was still in the icy night, and the sky was full of wind and snow roaring. A red flying saucer-shaped spacecraft from the Qianwu universe stopped outside the castle, saying goodbye to family and friends. Wang Yi walked out alone.

The one who came to pick up Wang Yi was actually the master of Rabic domain, the head of the Black Dragon Mountain branch.

"Wang Yi, it seems that you are ready, shall we go?" Rabic could not help smiling when he saw Wang Yi appear.

"Okay, Master Rabic," Wang Yi said softly, but turned his head to look in one direction.

This time I parted, and I don't know when I can reunite with my family and friends in reality.

However, Wang Yi chose this path himself, and he will stick to it.

Wang Yi silently turned around and walked into the spacecraft door.

The spacecraft started, soaring into the sky.

In a blink of an eye, only the footprints of Wang Yi along the way remained on the spot, and they were soon drowned by the wind and snow, leaving nothing.

...

In the dark universe, a red flying saucer-shaped spacecraft is flying at a constant speed.

furnished spacious and comfortable cabin room, Wang Yi and Rabic were sitting on the sofa and talking.

"Wang Yi, since you are about to join the Secret Realm of Dry Witch, your status is different, you should call me Rabic from now on." Rabic said.

The true core members of the Dry Witch Secret Realm are very few, and each is a peerless genius, so if the genius does not fall, the future achievements will be very high. It is almost not difficult to become a world master, and after careful training, they are all relatively powerful among the world masters. Exist, so the core genius status is generally above the head of the peripheral division like Rabic. It can even be comparable to some world masters.

Wang Yi said, "Mr. Rabic, how long will it take for our spacecraft to fly like this?"

Rabic smiled and said: "My spacecraft is an e3 class, which can fly at 10 times the speed of light in the dark universe. If we set off from the Black Dragon Mountain Empire, it will take about a month to reach our destination."

Wang Yi nodded. One month's time is neither long nor short, which is barely acceptable.

Wang Yi's avatar, the Flame Star Giant Beast, swallows, cultivates, and grows in one world. It doesn't matter to the main body. At most, it enters the virtual universe to practice, which is not a waste of time.

Rabic saw Wang Yi's appearance and reminded him: "Wang Yi, we have gathered a large number of geniuses from the entire universe in the Secret Realm of Witchcraft. There, you are encouraged to compete with each other. The better your performance, the more resources you will naturally get, and you can even worship immortality as a teacher. Although you have a good talent, you should not be complacent when you just enter."

Facing Rabic's kind reminder, Wang Yi made a serious and humbly obedience to his teachings.

As for what he thought, of course it was impossible for Rabic to know.

The Secret Realm of Dry Witch was opened by the Lord of Dry Witch. It was the creation of a cosmic nation, the invincible existence that has been in the cosmic nation for billions of years.

The constant star level felt that some of the original laws were indeed against the sky, but there were too many people in the Qianwu universe, and there were still hundreds of people in the entire Qianwu universe.

Although Wang Yi is very good, he is only one of them.

"By the way, Wang Yi, since you have joined the Secret Realm of Dry Witch, you can enter the real headquarters of the Universe Kingdom of Dry Witch in the virtual universe-Dry Witch Space." Rabic thought of something and smiled at Wang Yi.

"Witch Space?" Wang Yi was a little puzzled, but he followed Rabic into the virtual universe.

Wang Yi showed up at his home in Jiuxingwan, and then he received an email. After reading it, he called a horse-drawn carriage and rushed to the teleportation square on the nearest island of Heilongshan.

And Rabic in a blue robe was already waiting there.

"Wang Yi. Let's teleport to Qianwu Continent first. UU reading www.uukānshu.com" Rabic said.

The Black Dragon Mountain island in the virtual universe is extremely vast. Therefore, there is a transmission channel inside the island. Depending on the distance, you also need to pay. The price of intra-island teleportation is not high, and if you want to travel from the Black Dragon Mountain Island to the "Dian Wu Continent", the price is amazing.

The two of them spent expensive teleportation fees, and through the teleportation array, they instantly traveled from the Black Dragon Mountain Island to the Qianwu Continent.

The vast expanse of the Qianwu Continent, a magnificent square paved with white stones covering an area comparable to a city, is lined up with teleportation arrays, the light shines on from time to time, and people walk out of it in twos and threes.

"This is the Continent of Dry Witch." Wang Yi, who came here for the first time, looked around, and he could see that the buildings were old and simple in style, extending to the end of his sight, and he couldn't help feeling a little bit emotional.

The entire Qianwu Continent is extremely vast, gathering countless people from the entire Qianwu Continent, and most of the powerhouses in the universe are also active here.

Lifting his head, you can see the floating island in the endless heights, where only the real strong can go up.

A large number of world masters, immortal gods gathered there, it can be said that the strong are like clouds.

Rabic invited another luxury carriage drawn by flying wings and horses, and the two of them sat in, and the coachman threw off the whip, and the two white-winged horses of the gods screamed, raised their hooves, flapped their wings, and flew. Up to the sky.

And around, you can see many horse-drawn carriages like them swimming in the sky.

The carriage did not fly towards the hanging island, but flew to an empty high altitude. When Rabic and the others came to that high altitude, a bright bronze gate appeared in the space. The door opened, and Rabic and Wang Yi sucked in together, while the carriage and the coachman turned their heads and left here.

[Chapter 120: Qianwu Headquarters "Qianwu City"](#)

Virtual universe, an independent space.

This space is like a vast starry sky, and there is only one vast continent in the starry sky.

Somewhere on the edge of the continent on a high peak teleportation formation.

At this moment, on the teleportation formation, the light suddenly lit up.

Hoo! call!

Wang Yi appeared here with a big old man in a blue robe.

"Here, is the Qianwu Space? It belongs to the headquarters of the Qianwu Universe Kingdom?" Wang Yi looked up at the vast and silverless land. When he raised his head, it was the boundless starry sky. In a distant place, there was a sun rising high. There, like a real star.

On the vast land, a huge super city stretches to the end of the sky, without seeing the edge.

Rabic, who was next to him, explained with a smile: "Wang Yi, we have now come to the Qianwu headquarters, which is the Qianwu Space. This is the true core of our Qianwu universe in the virtual universe, and we are the elites of the Qianwu universe. , The strong, all departments are concentrated here."

Qianwu Space is different from Qianwu Continent.

It is like the Dry Witch Continent can allow other affiliated empires and other cosmic nations to enter, and the Dry Witch space can only appear as internal members of the Dry Witch cosmic nation.

is like "Yuxiangshan", the headquarters of the virtual universe company.

The continent that Wang Yi saw in front of him was the real land of Qianwu.

"Let's go, I'll take you to the Secret Realm of Dry Witch in the virtual universe." Labich flew first and led the way, while Wang Yi followed.

Rabic was flying and introduced Wang Yi to the situation of Qianwu Space.

"This land of Qianwu Space has a diameter of hundreds of millions of kilometers and is inhabited by billions of people, but most of them are not members of the core layer."

"For example, the selected geniuses, there are 130,000 star domains and hundreds of millions of galaxies under the Qianwu Universe Kingdom. Even if one is selected from a galaxy with a constant star, there are hundreds of millions of geniuses."

"Not to mention there are cosmic, domain master, and world master genius powerhouses!"

"The number of constant star elites is the largest, reaching hundreds of millions. Most of them are assigned to the third, second, and first level elite training camps. Only a very small number can enter the special elite training camp!"

"And above the four major training camps are the true core members of the Dry Witch Secret Realm. The number is fixed at one thousand. Most of them are super geniuses who have understood a few rules! Each star field can be placed first!"

"In fact, most talented elites are selected and eliminated one by one before entering the Secret Realm of Dry Witch!"

Rabic looked at the thoughtful Wang Yi with a smile: "Wang Yi, you were recommended by me and approved by the above. As usual, you don't have to go through the four training camps and you can directly enter the witchcraft. The secret realm occupies a valuable place."

"Thank you, Master Labich." Wang Yi said respectfully.

Rabic waved his hand, "You don't have to thank me, it's all because of your good performance. Only when you see your outstanding performance above, I am willing to give you a permanent star member of the Secret Realm of Dry Witch. It has nothing to do with me. I also want to thank you, if it weren't for you, I wouldn't get the reward above."

Heads of divisions like Rabic, who are responsible for digging out elite talents in various star domains, want to improve their performance and contributions. Of course, the best way is to provide them with talents.

The better the recommended talents, the greater the contribution.

That's why the Rabbi Wizards spared no effort to help Wang Yi in.

Wang Yi went into the Secret Realm of Dry Witch, and the reward he received above would naturally not be low.

And with Wang Yi's talent, coupled with the powerful training of a large number of resources in the Secret Realm of Dry Witch, it is very easy to become a world master. Moreover, 10% of the world masters are all strong among the world masters, and the future is the existence that Rabic must look up to.

Rabic is also very happy to have a good relationship with Wang Yi.

The entire Qianwu universe has millions of masters! And there are only a few hundred people like Wang Yi who understand a few laws in the Hengxing Star! This shows how rare and precious Wang Yi these geniuses are. To put it bluntly, these are the seeds of the future becoming 'immortal', and the chance of breakthrough is greater than all the realm masters of the Black Dragon Mountain Empire combined. Now, even if the emperor of the Black Dragon Mountain Empire knew that Wang Yi had become a member of the Dry Witch Secret Realm, he would respect him and vigorously win over him.

"By the way, Mr. Rabic, I have something to ask you." Wang Yi suddenly thought of something and said.

"Oh? What's the matter?" Rabic smiled and looked at Wang Yi.

Wang Yi said: "My hometown is in the Milky Way Galaxy under the Black Dragon Mountain Empire's Silver Blue Empire. I want to buy it. I wonder if Mr. Rabic can do this for me?"

Before, Wang Yi didn't buy the earth, because he was worried that he would attract the attention of the realm master families and big forces of the Black Dragon Mountain Empire and cause unnecessary trouble.

And now, he has joined the Secret Realm of Dry Witch. In other words, the Universe Kingdom of Dry Witch is his backing. Naturally, there is no need to cover up, and he can safely expose the earth to outsiders.

In the universe, strength, status, and identity are all very important.

Wang Yi's current status is definitely more noble than the prince of the Black Dragon Mountain Empire.

Even a realm master would not easily offend a genius of his background.

Rabic also carefully investigated Wang Yi's data. Of course, some internal information related to a giant like the Galaxy Bank of the universe could not be detected by him, but even so, he also knew that Wang Yi came from the Milky Way. The one who came out has been smashing in the Black Dragon Mountain Empire ever since.

Of course he knows the information of the Milky Way very well.

As soon as Wang Yi's request was this, Rabic smiled with a relaxed smile on his face and nodded and said with a smile: "The galaxy of the Silver Blue Empire, right? It's just a country of elementary civilization. If you want to buy it, then I will help. You can buy it. I happened to know that silver-blue empire. It's very simple in one sentence."

The domain owner's lifespan is millions of years~www.mtnovel.com~ The Silver Blue Empire has not only existed for a million years, but the founding emperor has fallen. If the family can give birth to a second strong domain owner, it can continue to continue. If No, it is very dangerous without a backing.

Hearing Rabic's promise, Wang Yi also breathed a sigh of relief. Now the earth is no problem in a short time.

As for the future, when he grows up and has enough strength to guard his hometown, he will let those people know that tiger's **** cannot be touched.

Rabic took Wang Yi to fly into the ancient and majestic giant city.

"The city of Qianwu is divided into six areas."

"The first area, or the core area, is the Secret Realm of Dry Witch. Inhabited are the real peerless geniuses, super powers, and core members of our Dry Witch universe nation! The constant star genius includes you, and in it, there are only a thousand people. The total number of people is only a few thousand!"

"In the second area, members of the genius ranked 1001 to 10,000 live."

"The third area, inhabited by the members ranked 10,001 to 100,000 in genius."

"The fourth area is not considered a genius, but an elite. The elites ranked from one hundred and one million to one million live here."

"The fifth area, that is, the most ordinary elites after one million, hundreds of millions, and they are also the most numerous."

"The sixth area is the staff responsible for all aspects of our Qianwu headquarters, and the number is even greater."

Wang Yi was fascinated by it.

This is the largest city that Wang Yi has ever seen in the virtual universe.

The Black Dragon Mountain island can only be regarded as an island, and the island is divided into regions, cities, and communities...
