While Wang Yi was leisurely inquiring about the world's information in the city, an unexpected visitor also came from outside the city.

On a hillside outside the city, there was a black wind, and the black wind howled and swept in. For a while, sand and rocks were flying, and some rocks on the ground were directly blown into powder by the black wind, and a figure landed. It was a tall mountain...

In the Great Xia Dynasty, Guan Tiansi.

Qin Tianguan casually recorded a sentence on the bamboo book, and then went to do other things.

"What do you have to do with the power of the paper people?" Wang Xuan asked. Those people were ruthless. In order to get the fragments of the old holy decree, they did not hesitate to sacrifice blood to a large cave.

At the same time, when he was in the Realm of Immortals, Wang Xuan also had conflicts with them and killed a boatload of paper figurines. He didn't have a good impression of those paper figurines.

"Brother An? We only met in the afternoon, and we met again at midnight, by fate!" Wang Xuan hurriedly greeted him, and finally knew who he was.

Soon, a pitch-black owl flew into the closed space of the high spiritual world, stared at Wang Xuan and knew that he was a newcomer.

"Brother Hong Teng?" Wang Xuan asked.

Sure enough, it was him, manifesting a slightly dark face, and said, "I always like Qin Cheng, the **** who bullies senior brother the most?"

Wang Xuan is speechless, is he notorious?

Then, a coquettish red lotus floated in, this time it was easier to identify, it should be Qi Miao, and it was her, and thanked the mechanical pig after entering: "An Hong, thank you, I really like the Atlas of Yuanshen. "

"Okay, don't irritate him," said the sparrow.

Then, he turned his head to look at Wang Xuan, and said: "Although they are all of us, like-minded, but the heart of guarding against others is indispensable. Next time you come in, put it in the spiritual treasure. If there is a change, there will be a change." Enough confidence to protect yourself."

Wang Xuan had already seen that paper cats, mechanical pigs, red lotuses, etc. were all top treasures, which could entrust the primordial spirit and burst out extremely powerful power.

"There are still a few people who have traveled far or are in retreat, so they may not be able to participate." Yanque said.

Here are all powerful figures who have broken the limit twice, and also represent the top wizards in the Pingtian Starfield. They have all become immortals and are stranded in the present world.

Yanque said: "Well, this is the newcomer Qin Cheng, the famous freshman thorn, so I don't need to introduce more? He helped some of you win the scriptures, and also made some of you go bankrupt, hehe."

The mechanical pig's eyes widened immediately, and An Hong was very dissatisfied.

hum! Wang Yi suddenly launched a will attack, and his eyes became extremely vast and empty!

Mastiff Zun was extremely vigilant: "This person is very mysterious. Since he dared to look for me, his strength must be extraordinary. I have to be careful. If something goes wrong, I will..."

It hadn't finished thinking "huh?" It felt the scene in front of it changing, and the invisible force even began to affect its soul, and its scarlet eyes suddenly became confused.

But it quickly followed

In the Undersea Cave Mansion, a mediocre man in green clothes sat quietly cross-legged on a spotless stone bed.

"Brothers are also god-level wills, equivalent to the gods of this world." Wang Yi thought. "Based on their strength, plus the large number of powerhouses who entered the Infernal Building this time, there are no less than dozens of god-level wills. Such a huge power is almost invincible based on my understanding of this world."

"But they have explored for so long, and there is still nothing

"Your Majesty." The two guards outside the bedroom saluted respectfully.

This is the bedroom of the Queen of Yueli Kingdom, and only her closest and trusted people can approach it.

"Still pretending." Wang Yi had a half-smile but not a smile: "It's useless for you to pretend any more. You're hiding it very well, but unfortunately you can't hide it from me."

"It's really surprising that the majestic ruler of a country actually degenerated into a devil. I've only heard of it in stories circulating in the mainland..." Wang Yi's surprised expression.

The power that Wang Yi erupted just now was too terrifying, it scared Queen Yueli a little.

Wang Yi was scanning his surroundings, thinking to himself. "This palace is really a bit tricky. I used the "Lieuanshu" blessing to show the most powerful will tricks, and only then broke this palace."

"You are obviously a holy spirit, why can you explode with such a strong force?" Queen Yueli looked at him in shock.

Although Wang Yi's will is still called the holy top,

"Wow~~" The whole world was dark red, and the boundless and monstrous water flow turned into a blood-colored water cocoon. Every drop of blood is extremely poisonous. The ordinary Holy Spirit falls into it, and it will erode and fall in an instant.

And Wang Yi was trapped in a **** water cocoon.

Around him, there is a mass of chaotic and dark light, resisting the erosion of the blood river.

"How can I last so long in my "Boundless Blood Prison"?" The Three-phase Demon God was also very surprised and angry, "

"Thank you, brother." Wang Yi was full of gratitude. Master Cangli took good care of him from the very beginning.
