The two demon generals "Qingyu" and "Drinking Blood" who were being besieged in a panic also saw the scene of the **** being killed in the Shenling Pavilion in the distance, especially after feeling the amazing magic energy, they were all shocked , and then surprise.

"Senior, help!" The girl in feather clothes, covered in black energy, shouted for help.

Qin Tianguan casually recorded a sentence on the bamboo book, and then went to do other things.

"What do you have to do with the power of the paper people?" Wang Xuan asked. Those people were ruthless. In order to get the fragments of the old holy decree, they did not hesitate to sacrifice blood to a large cave.

At the same time, when he was in the Realm of Immortals, Wang Xuan also had conflicts with them and killed a boatload of paper figurines. He didn't have a good impression of those paper figurines.

"Brother An? We only met in the afternoon, and we met again at midnight, by fate!" Wang Xuan hurriedly greeted him, and finally knew who he was.

Soon, a pitch-black owl flew into the closed space of the high spiritual world, stared at Wang Xuan and knew that he was a newcomer.

"Brother Hong Teng?" Wang Xuan asked.

Sure enough, it was him, manifesting a slightly dark face, and said, "I always like Qin Cheng, the **** who bullies senior brother the most?"

Wang Xuan is speechless, is he notorious?

Then, a bewitching red lotus floated in, this time it was easier to identify, it should be Qi Miao, and it was her, and thanked the mechanical pig after entering: "An Hong, thank you, Yuanshen Atlas, I really like it. "

"Okay, don't irritate him," said the sparrow.

Then, he turned his head to look at Wang Xuan, and said: "Although they are all of us, like-minded, but the heart of guarding against others is indispensable. Next time you come in, you should put it in the spiritual treasure. If there is any change, you can have it." Enough confidence to protect yourself."

Wang Xuan had already seen that paper cats, mechanical pigs, red lotuses, etc. were all top treasures, which could entrust the primordial spirit and burst out extremely powerful power.

"There are still a few people who have traveled far or are in retreat, so they may not be able to participate." Yanque said.

Here are all powerful figures who have broken the limit twice, and also represent the top wizards in the Pingtian Starfield. They have all become immortals and are stranded in the present world.

Yanque said: "Well, this is the newcomer Qin Cheng, the famous freshman thorn, so I don't need to introduce it anymore? He helped some of you win the scriptures, and also made some of you go bankrupt, hehe."

The mechanical pig's eyes widened immediately, and An Hong was very dissatisfied.

On the other side of the Demon God General, following an earth-shattering explosion, the Blood Drinking Demon God was finally killed under the siege of Master Aru and a group of top powerhouses from the Jieshan Palace. catch.

Almost at the same time, Princess Yelan also got rid of the last **** and got another original **** bead.

At this moment, Wang Yi, Ah Ruzhu

It is still the deep magma lake in the bottom of the desolate mountain range.

"Fusion!"

Wang Yi began to fuse the second original divine bead.

The initial process of fusing the second original divine orb was the same as the first time, very smooth, but until the next 90% of the time, it began to become difficult and slow.

Wang Yi's mind and mind were completely integrated with the original Shenzhu, and he clearly felt the vastness, magnificence and depth of Moyuan.

In the fusion "Original God Bead"

The space of the magma lake, which was originally in a heat wave, seemed to have stopped at this moment, turning into a picture scroll.

Wang Yi stood up and looked at the surrounding magma lakes and caves that became translucent like crystals. He then looked down at his right hand that was faintly transparent, with a strange smile on his face.

"It worked."

Integrating the original divine orb, the strength improvement is regular.

Except for the first one from scratch.

"Brother Cangli?" Princess Yelan couldn't help frowning when she saw Master Cangli's expression became weird.

Master Cangli came back to his senses, and his eyes fell on Princess Yelan.

Princess Yelan smiled and said, "Brother Cangli, do you have something important to do?"

"Haha, no, it's just that I just encountered something, it's okay." Master Cangli said haha.

In fact, it is difficult to calm down.

I was thinking about what Wang Yi had just said to him—

The boundless gray sea.

Knowing that a war broke out between Dayue Kingdom and Jieshan Palace, Wang Yi also flew to the battlefield.

But he didn't really get close, because the former divine bead fusions were inductive to each other.

On a desolate island, Wang Yi stopped and stood on the hillside, silently looking at the sky, his black robe fluttering under the sea breeze, silently waiting for the time to come.

At the same time, in a vast sea

Wang Yi, covered in darkness, was like a phantom rushing towards Princess Yelan and Master Aru in the middle of the battlefield. None of the gods and demons along the way could stop them, and they were terrified when they saw the scene of those strong men being easily swallowed. Seeing the figure with the mighty devilish energy approaching, they all hurriedly dodged.

"Here we come!" A third-party powerful enemy arrived, and Princess Yelan and Master Aru who were fighting had to stop temporarily and separated far away.

Wang Yi's goal is to

Wang Yi didn't know how strong the real six original ***** beads were, because he only fused three of them.

However, judging from the previous fight between him and Aru Juggernaut, even though he only fused three original divine beads, after using the blessing of "Lieyuanshu", his strength was obviously higher than Aru Juggernaut by a level.

Princess Yelan did it as soon as she said to do it, and shouted, "Yingluo lives!" With a shake of the longbow, Princess Yelan accompanied a slender blue shadow with no warning.

Although there were many strong men coming from all directions, they were in a mess, without a unified commander, and most of them didn't cooperate at all, appearing to be disorganized.

If these people can unite as one, cooperate with each other tacitly, and unite their strength into one, it can also bring a little trouble to Wang Yi.

But now? Princess Yelan and Aru Zhuzhuan, the two original owners of the divine orb, were both taken down, and Wang Yi didn't pay much attention to the others.

Wang Yi suddenly opened his eyes, looking in all directions

Under the eternally gray and chaotic sky, the sea is like a roaring beast, surging and surging, setting off waves of madness. The fierce waves beat the reef from time to time, splashing crystal waves.

Looking at the boundless sea, it is impossible to distinguish the end of the sky or the cape, a completely gloomy world.
