

A God 1221

[Chapter 1221: blood sacrifice](#)

Jiexin Continent.

Since breaking through the Cosmic God, Wang Yi has been concentrating on consolidating his realm.

"The Lord Wujian took action against me, and we have already broken up completely. With such a grievance, there will be a big war between me and the Wujianlou in the future." Wang Yi is very clear that the Lord Wujian is not a soft-hearted person. He is strong, and he will definitely not let him go.

When the Infernal Building reaches the ultimate level, maybe there will be some changes.

Wang Yi had no way of guessing, so he could only improve himself as much as possible.

And the deity of Jiexin Continent is the biggest guarantee for his strength improvement.

"I, in the mainland of origin, got the practice method of the Jiexin continent, and also cultivated a clone."

"But this has not been discovered by Infernal Landlord and others."

Wang Yi is still very cautious.

There are "Boundary Breaking Teleportation Technique" and "Second Body Technique". In fact, he is not too afraid of Infernal Landlord.

Because no matter how strong the Lord Wujian is, he still can't kill all his clones.

Not to mention the avatar hiding in the Origin Continent, no matter how powerful the host of the Infernal Continent in the Jiexin Continent is, she can only stare blankly, unless she can hunt down to the Jiexin Continent.

"Now, my goal is to become the second floor of the universe god." Wang Yi pondered.

"However, before that, you must first realize the God of the universe from another branch."

The lineage of Void Dao has reached the ultimate level, even if it is the level of the universe god.

The two veins are ultimate and merged, counting as the second level of the universe god.

The ultimate fusion of the nine meridians is the ultimate state of the universe god.

...

Just when Wang Yi was obsessed with cultivation, the black demon Daze.

In the entire Jiexin Continent... it is one of the places where demon heads gather at the forefront.

At this moment, in the depths of the Black Demon Great Lake, in a magnificent palace.

The top demon heads of the Black Demon Daze are discussing the 'blood sacrifice'.

There are countless demon heads in the Black Demon Daze, but they are also divided into factions.

The blood sacrifice also came in turn from the three major factions.

The black demon Daze slaughtered one city after another, on the one hand to deter all parties, and on the other hand for the 'blood sacrifice'.

"According to the rules, it's Gouxue Country's turn for the blood sacrifice." A deep voice sounded. "This time, it's our turn to act on this pulse. We must not make any mistakes, and embarrass our Black Demon Daze."

"Gou Xueguo, that's a tough guy, and an old friend of ours." The voice of a Cosmos God was stern. "The lords also ordered that this time, we must give the rebellious Gouxue country a look. Since you dare to resist our black demon Daze, you will have to pay the price."

There are many demons in Jiexin Continent, such as Black Demon Daze, Zhanba Island, and even the strongest Holy Fire City.

The three leaders of the 'Black Demon Great Lake' are also considered to be relatively high-ranking among the demon powers in the Jiexin Continent. Although the three leaders are all at the level of a master, none of them are in the ultimate state. But all of them are terrifying big devils who have brought disaster to the entire Jiexin Continent, and even the six ancient kingdoms can't get rid of them. The Dark Demon Four Kingdoms are all shrouded in their shadow!

Relatively speaking, Nanyun Country is the best. The Lord of Nanyun himself is powerful, and he has made friends with the Quartet, and secretly made friends with the three leaders of the Black Demon Daze!

The country of Huoshang...there are quite a lot of slaughters, and the Black Demon Daze occasionally slaughters, but he doesn't "exhaust the pond and catch fish". The cosmic gods of the Huosang Kingdom did not dare to resist.

Wofeng Country is the closest to the Ancient Country of Xiafeng, and in fact, it has already taken refuge in the Ancient Country of Xiafeng. It is better to have the protection of the ancient country of Xiafeng, and the number of times that the black demon Daze goes to cause trouble is less, but it does happen often. After all... the black demon Daze is not afraid of the ancient country of Xia Feng. They also dared to go to Xia Fenggu's country to cause disaster.

The last one is the Gouxue Country, who dared to fight recklessly with the six ancient countries, and the ruler had a violent temper, and also fought recklessly with the black demon Daze.

But the face of the six ancient countries and the Black Demon Daze is not so easy to fight, so the Gouxue country has suffered many catastrophes in its history.

However, the Black Demon Daze also had a headache. After all, the bones were too hard to chew, so he usually didn't make a move. Once he did, he would teach him a lesson.

Those sitting here are all cosmic gods, or the 'devil masters' who are comparable to the cosmic gods on the tenth floor of the chaotic state.

"It's important to teach Gouxue Country to protect the face of the black demon Daze, but the blood sacrifice is also very important. Once it is done, it must be successful and cannot be destroyed by

others." An illusory ancestor of the universe **** said. "Choose a few cities carefully, and start at the same time to create chaos. This can not only distract Gouxue Kingdom's energy, but also ensure the success rate."

"Every team should bring the leader's blood sacrifice bottle. Even if they fail, they must bring it back."

blood sacrifice.

When a practitioner's soul dies, special energy dissipates...but the practitioners cannot absorb it by themselves.

But in the 'Jiexin Continent'. It has long been discovered that the special energy in the soul of every living being is the most original trace of power in the entire source world, and it can be collected completely.

'Blood sacrifice' is to absorb the most original power from the souls of countless practitioners, but the core of the whole blood sacrifice is the blood sacrifice magic bottle... In the entire Jiexin Continent, there are only a few cosmic gods who know how to refine this kind of blood sacrifice treasure. countable!

Among the six ancient countries, only the three ancient countries know how to refine the treasure of blood sacrifice, which shows how difficult this method is!

Among the three leaders of the Black Demon Daze, the "Yan Mo Leader" knows how to refine the treasure of blood sacrifice.

Blood sacrifices to a city are common in the entire Jiexin Continent. Through blood sacrifices, and then through some other means, the 'Blood Spirit Essence' can be extracted. This is comparable to the 'Chaotic Source Essence', and it is of great benefit to the soul. And those who can extract the essence of the blood spirit... all of them have gone through countless trials, and all of them are big devils who are famous in the Jiexin Continent.

The 'Blood Spirit Essence' obtained by killing countless lives and blood sacrifices is even better than the source boundary stone.

So the Black Demon Daze also attaches great importance to it.

Soon, several cities in the Gouxue Kingdom were decided for the blood sacrifice, and 'Eight River City' was one of them.

...

Eight River City. It is not conspicuous in the blood sacrifice city, but the black demon Daze doesn't care, they only need a sufficient number of practitioners to perform the blood sacrifice, and it is enough to deter the four kingdoms of the black demon.

Although the majestic and huge Eight Rivers City is considered a small city in Gouxue Country, its scope is vast and there are hundreds of millions of practitioners inside.

Wang Yi's avatar is talking with his parents in this life at home in the spacious mansion.

Since Wang Yi's breakthrough, letting one avatar return to Eight Rivers City to reunite with his parents Xia Jihe and Teng Yunxin also reassures their hearts.

He can now practice nine clones. If you reach the second level of Cosmos God, you will have 10081 clones if you practice the "Second Body Technique" to perfection!

In the first layer of avatar technique, there are only two avatars.

The second layer of avatar technique, there are nine avatars.

There are 10,081 clones at the highest level of perfection.

The method created by the Lord of Nanyun can only be said to be ordinary, it mainly depends on the soul's absorption of the "power of Chaotic Source" and the degree of transformation of the soul! The ultimate degree of transformation is to be able to maintain tens of thousands of clones.

But not every avatar can have the most perfect strength.

When there are nine avatars, at most two avatars can have perfect strength. In this case, the other seven avatars are even forced to dissipate and cannot be maintained!

Because under the suppression of invisible rules, keeping the two strongest souls is the limit.

When there are 10,081 clones, maintaining the nine strongest souls is the limit, that is, allowing nine clones to have peak strength, and all other clones have to dissipate!

And if only eight clones remain at the peak, then the remaining tens of thousands of clones can maintain their existence, but their strength is very weak.

When Wang Yi and Wuxiang Huomo left, they left enough resources for Xia Jihe and his wife. In addition, the senior officials of the Xia family in Bahe City knew that the son of Xia Jihe and his wife was taken away by a mysterious chaotic disciple, so they also gave them Be sure to take care of them, even if Gongsun Wuchang was punished, he would not dare to provoke the couple again, and the couple lived happily. During this period of time, Wang Yi (Xia Yunhe) has added a younger brother and sister, who have become true gods up.

After Wang Yi came back, he learned that his son had succeeded in cultivation. Although the son didn't mention the specific realm, but at least surpassed Void God, the Xia family fell into joy.

In particular, Wang Yi's two younger brothers and sisters regarded this brother as an idol after receiving the gift. UU reading www.uukanshu.com

"Brother, look, that's Gongsunyue." Wang Yi's younger sister pointed to a woman passing by, "Hmph, she was a Void God before, and she's so proud that she doesn't dare to pass by our door now."

On the contrary, Wang Yi's real **** brother watched Gongsun Yue go away, his eyes kept staring.

Wang Yi smiled calmly, Gongsunyue, the daughter of Gongsun Wuchang who was engaged to him before birth, of course, in Wang Yi's view, it was just a joke.

However, even though Gongsun Yue is talented and has some status in the Xia family, compared with a disciple of a giant in the Chaos Realm, he still dare not provoke him casually.

"That's Xia Yunhe who was taken away from Xia Jihe's family." Gongsunyue also secretly observed, knowing what happened at the beginning, she was actually very dissatisfied, but her father and teacher told him not to provoke Xia Jihe's family .

"Huh?" Wang Yi suddenly frowned and looked out of the city.

[Chapter 1222: strange universe god](#)

Outside Eight Rivers City.

In Jiexin Continent, there is a cycle of day and night. At this moment, dusk has come, and darkness is coming, which seems to be a sign of something.

Two figures stood on the ground, looking at the majestic and huge Eight Rivers City.

One is that the upper body is humanoid, the lower body is the body of a four-hoofed beast, purple hair fluttering like seaweed, two long horns protruding like tree forks, and there are strange colorful flowers blooming on the horns. The distorted appearance of a humanoid creature, a huge phantom of the world appears around its body, and the aura it emits is even more terrifying and abnormal, making the surrounding time and space tremble continuously.

The other one looked like a boy, dressed in sky blue clothes, with gold rings on his neck, hands, and ankles. He looked at Eight Rivers City with a smile, and he stood beside that terrible life, but he was easily unaffected.

Time passed, and the earth was finally completely plunged into darkness. The flower-horned life said: "It's time, let's start the blood sacrifice. Demon Lord of the Golden Ring, let's do it, and finish the Eight Rivers City quickly."

The boy said: "Don't worry, Patriarch Flower Demon, there is only one city incarnated from the Chaos Realm, and it won't take much effort. In my opinion, our journey should be the fastest among all of them."

Huh, a dense group of masters appeared out of thin air next to them, there were thirty giants of the Chaos Realm and tens of thousands of the Unity Realm. There are tens of thousands of people, and it does feel like a sea of people. All of these masters of the Unity Realm are wearing armor, and they can obviously form a battle formation.

"Greetings to the ancestors, and the Lord of the Golden Ring." The thirty giants of the Chaos Realm even respectfully said, followed by the tens of thousands of Heyi Realm sergeants, and they all knew the status of the two in front of them. Needless to say, the ancestors in the inner ranks are the gods of the universe.

And the "Golden Ring Demon Lord" next to him is also one of the many demon masters in the sect, who can be honored as the first level of "devil master", and all of them are at the tenth level of the chaotic state, which can rival the Cosmic God.

For example, in the Jiexin Continent, there are some third-rate small countries with only one Cosmic God. The black demon Daze randomly dispatches a demon lord, which is enough to bring chaos to a whole country.

Ancestor Flower Demon flipped his hand, and a picture scroll appeared in his hand, he waved his hand. call. The picture scroll disappeared suddenly, and when it reappeared, it had turned into a huge picture scroll above the city of Eight Rivers. And the invisible force also completely enveloped Eight Rivers City. Of course, the Flower Demon Patriarch and other people outside the city happened to be within the enveloping range.

Space ban! With the help of secret treasures, the space around Eight Rivers City is now completely sealed off, even the boundary-breaking teleportation technique cannot enter.

The huge picture scroll gradually disappeared into nothingness, and the entire space of Eight Rivers City disappeared. Eight Rivers City, from now on, you can't see it, touch it, or enter it! It seems to be in another special space independent of the entire Jiexin Continent.

Now Eight Rivers City is isolated by space ban.

As usual, when a certain city is attacked, the incarnation of the Cosmic God can easily descend, and even a large number of powerful people teleport to support them over a long distance...so generally no one dares to kill wantonly in the city of a powerful country. But this is the black demon Daze's attack, and before the attack, the space is sealed first.

Under the space confinement, I couldn't even find Eight Rivers City!

For example, the only one who has the strength to enter the entire Nanyun Kingdom is the Lord Nanyun who can use the 'Great Boundary Breaking Teleportation Technique'.

As for Gouxue Country, there is no one who can use the 'Boundary Breaking Teleportation Technique'.

Of course, Gouxue Country can also ask for help, or just wait until the 'blood sacrifice' is over, and surround and kill the team sent by the Black Demon Daze.

And inside the ban shroud. Outside the city, two high-ranking members of the church watched the scene and directly ordered: "Action." Their status is so noble that they don't bother to do it themselves. Whoosh, whoosh... One team after another quickly teleported away, rushing towards Eight Rivers City.

...

The black demon Daze attacking the Gouxue Country, and the scene of the blood sacrifice has attracted many attentions from many countries.

Like some small countries, even if a city is sacrificed by blood, it is not worth mentioning. It's big news that Gouxue Country has been sacrificed by a whole city, and the four kingdoms of the Dark Demons must be staring at it. I am afraid that some countries that are close will also pay attention.

There was movement immediately in the Gou Xue Kingdom, except for the Lord Go Xue who did not come out, the Cosmic God and the tenth floor of the Chaos Realm also assembled and set off.

However, because the Black Demon Daze was divided into several cities for blood sacrifices at the same time, Gouxue Country's power was limited, so it could only choose a limited number of important cities to rescue.

Or, to fight back.

But Eight Rivers City was given up naturally because it was not very important and belonged to the type of city that received the least attention.

Even Xia Clan's ninth floor of the Chaos Realm, the King of Chaos Realm, and the incarnation of the Chaos Realm sitting in the Xia family's family also gave up.

But in Eight River City, hundreds of millions of practitioners are facing a catastrophe.

Teams of demon bosses in the realm of hundreds of people appeared everywhere in the city, forming a battle formation. The members were killing everywhere, and each of them was killing wantonly. They used whatever tricks were powerful and wide-ranging.

Boom~~Many places below were blasted to pieces, ordinary people scattered and fled in panic, but still died in large numbers.

"There has been no movement in Gouxue Kingdom, it seems that we are about to give up." Outside the city, the Golden Ring Demon Lord smiled at the Flower Demon Patriarch. "The sleeping incarnation of Chaos Realm has also been resolved, and no one in the entire Eight Rivers City can stop us."

"No one can stop it." The ancestor of the flower demon said with a calm smile: "They also know that we are not easy to mess with. Since they want to rescue, they will definitely choose important ones. It is normal to abandon the unimportant Eight Rivers City. Since No one has come here for the time being, so let's hurry up and let our men slaughter Eight River City as soon as possible, complete the blood sacrifice, so we can go back."

There was chaos in the city, and it spread to an incomparably wide area. Countless practitioners were killed, and the lives of the people were devastated.

The branch of the Xia family in the city, as the strongest defensive force in Bahe City, bears the brunt of the brunt. Many monsters in the chaotic realm appeared here, massacring members of the Xia family, even if the masters of the Xia family relied on formations and other forces to resist. , and still no hope.

As a member of the Xia family, the location of Xia Jihe's family is also within the range of the family's residence.

Xia Jihe's family fell into panic and fear, but they didn't know where to run. The entire city was sealed off by space, there was no way to escape, there were monsters all around, and there was only one way to die.

Only Wang Yi frowned.

"The blood sacrifice of the Black Demon Daze? They came to Gouxue Country? I didn't expect to meet them."

There was a trace of coldness in Wang Yi's eyes.

"I met you, even if you are unlucky."

Now breaking through the universe god, Wang Yi doesn't care about the black demon Daze.

"boom!"

A series of huge space cracks~www.mtlnovel.com~ are like twisted snakes, running through the entire sky.

All the people in Eight Rivers City couldn't help raising their heads.

they see—

There is a space crack penetrating from the horizon, twisting through it.

All the 'devils', seemingly terrifying and invincible demons, were instantly annihilated in front of such a terrifying crack.

The monsters were wiped out.

Regardless of the Unity Realm or the Chaos Realm, there is no resistance to the huge and distorted space cracks.

"What?" The faces of the Flower Demon Patriarch and the Golden Ring Demon Lord who were talking and laughing outside the city changed.

A figure appeared above the city, looking at them.

[Chapter 1223: blood sacrifice failed](#)

The void above the entire city of Eight Rivers is like a shattered mirror, with cracks appearing one after another. Each crack runs through more than half of the city, or passes through an entire team of demon heads, or passes through a chaotic realm demon. The head...cracks are distorted, and the ugly ones are almost all over the sky of Eight Rivers City.

Anyone who is penetrated by the crack will die in an instant!

Countless practitioners in Eight Rivers City looked up and saw the huge snake-like cracks in the space that ran through the sky above the city, and watched the ferocious and terrifying demon heads disappear in ashes.

I also saw the figure of the majestic stalwart.

"The demon heads of the Black Demon Daze are all dead."

"Those Chaotic Realms died in an instant."

"It was the senior who saved us."

"We're saved."

Countless cultivators who had narrowly escaped from death in Eight Rivers were crying with excitement as if they had been reborn.

They are all practitioners. Living for a long time does not mean that they are not afraid of death, or that they do not want to die so meaninglessly. They also have their own relatives and friends, as well as their own concerns and obsessions!

The attack that came before caused more than 70% of the demon team in Bahe City to be directly wiped out, among which there were more than 20 members of the Chaos Realm. That was because they were too close to the Xia family mansion. Yi, naturally the first to be killed.

The Xia family also wept with joy, the elders of the family, masters and countless clan members escaped from death, and they were in awe and grateful to the strong man who made the move.

"All the masters on the ninth floor of the Chaos Realm were killed directly, and many teams of the Chaos Realm demon heads were killed. This senior must be the Cosmic God."

Gongsunyue was with her teacher, who was almost killed in the catastrophe just now, and now she looked up at the figure in the sky, as if a mortal saw a god.

They couldn't see the mysterious figure clearly, but they also felt the great terror that tore the world apart.

"Yue'er, we have been saved this time. Our Xia clan, the entire Bahe City has been saved." Gongsun Yue's teacher said excitedly. "With the help of this senior Cosmic God, we can survive."

"That's the Cosmic God." Gongsunyue looked at the figure of the vast aura, a little dazed, it was the first time she saw the Cosmic God with her own eyes, and she was far more powerful than she imagined. Compared with this kind of existence, she was as small as dust generally.

At Xia Jihe's house, Wang Yi left an avatar to protect him, but the avatar went directly to the sky above the city, only slightly concealing his face.

Because of Wang Yi's thunder strike, most of the devil's team in the city was wiped out, and the remaining ones were frightened stupid. Even those in the chaotic state were heartbroken, afraid of falling into the footsteps of their companions, and frantically fled out of the city, not daring to stay. Come down and die.

"It's a terrible method." The Golden Ring Demon Lord and the Flower Demon Patriarch outside the city all looked solemn, and the Golden Ring Demon Lord said seriously: "Even the Chaos Realm teams scattered in the city were instantly killed, and there were Chaos Demons among them. The ninth floor of the Chaos Realm, this strength, I am afraid it has surpassed me." Although the Golden Ring Demon Lord can kill the ninth floor of the Chaos Realm with all his strength, but if so many people are scattered, they are all killed together. He asked himself whether he could do it. arrived.

There is no doubt about such a strong strength.

The two strong men looked at each other.

"It's the **** of the universe."

"What should I do?" The two senior leaders in the church were a little distressed.

In order to ensure the blood sacrifice goes smoothly, the Black Demon Daze picks the weak persimmons and chooses weak cities to carry out, but who would have thought that a cosmic **** would appear here!

There is no need to talk to the cosmic **** on the opposite side, just look at the team that kills the black demon Daze without mercy as soon as the other side makes a move, and you know that there is no room for conversation.

"Let the subordinate with the blood sacrifice bottle come back first."

The Flower Demon Patriarch gave an order, and the ninth-floor master of the Chaos Realm, who was sitting cross-legged in the middle of the entire Bahe City, put away the blood sacrifice magic bottle without hesitation, turned around and left.

"In the previous information, there was no mention of such a master in Bahe City, and it doesn't look like a strong man from Gouxue Country."

"It's really bad luck. I didn't expect it to be such a coincidence. There happens to be a powerful cosmic **** living in seclusion in Eight Rivers City. This cosmic **** is good at the way of the void, so it's not good to continue to do it. It seems that I have to report the decision to the leader." Flower Demon The ancestor looked at the man in red robe and thought to himself.

The patriarch Huamo directly contacted the No. 1 leader of the Black Demon Daze, 'Yan Mo'.

The Black Demon Daze is divided into three major factions, and the three leaders are all terrifying great devils famous in the Jiexin Continent. The six ancient kingdoms are difficult to eradicate, and the two of them are the faction of the "Yan Mo Leader".

...

Gouxue Country, inside the palace.

There are more than ten masters sitting in the hall to watch the battle. They are all the top masters of Gouxue Country, but most of them are incarnations. There is a round mirror suspended in the mid-air of the hall. This round mirror is called 'Sky Watching Mirror'. Anywhere in the entire Jiexin Continent. There are very few places that can resist prying eyes. That is, the space is sealed and isolated, and places that cannot be teleported even over a long distance can be observed. This is also an extremely expensive secret treasure. In the entire Gouxue Country, there may not be more than three.

A man in a gorgeous royal robe with a hooked nose kept staring at him with deep eyes.

He is the Lord Gouxue, and like the Lord Nanyun, he is a peerless hero in the Jiexin Continent. He can not even give face to Xia Feng Ancient Country and other ancient countries, and he doesn't even care about the life and death of his own people. He fought fiercely with the black demon Daze. However, Lord Gouxue himself is not a devil. It's just that his temper is too rebellious.

He was also very angry at the Black Demon Daze blood sacrifice to his city this time, but he didn't make a move. He knew that if he made a move, the three leaders of the Black Demon Daze would also intervene to deal with him, and it would become monstrous at that time. war.

Lord Gouxue is waiting for an opportunity.

The screen has been switching between several cities. It's just that the situation is not optimistic, making Lord Gouxue's eyes even colder.

When switching to Eight Rivers City, in the hall where the original atmosphere was frozen and oppressive, when the twisted cracks piercing through the void suddenly appeared, causing the teams of demon heads to be wiped out, and the mysterious figure appeared, "This is..." Some people's eyes widened, and some stood up suddenly, looking at the scene on the sky telescope in surprise.

Lord Gou Xue was not so shocked, but his eyes lit up suddenly.

"Cosmic God! Lord, this is a strange Cosmic God!"

"Such a cosmic **** lives in seclusion in Eight Rivers City. It seems that God protects Eight Rivers City."

Lord Gou Xue nodded. He didn't care about the survival of a city of eight rivers, but he was a little happy to be able to thwart the blood sacrifice of the black demon Daze.

...

At the same time, distant spies from all over the world, including Xiafenggu, Nanyun, Wofeng and other surrounding countries, as well as some spies from Yuehuagu, are also paying attention.

"Huh? There is such a cosmic **** in Eight Rivers City?"

"What luck."

"It seems that the Dark Demon Daze on this road is about to fail."

In the dark Daze, in the grand and vast hall. The three masters of the famous Jiexin Continent all sat at the top, and a number of cosmic gods and a group of demon masters sat below. Everyone was in a relaxed atmosphere and watched the scene displayed on the sky mirror with a smile. For them, this was a festive banquet, and they were very happy to watch their subordinates perform the Gouxue Country Blood Sacrifice.

But the situation suddenly took a turn for the worse, and there was a change.

Even the three Hierarchs sitting high on it were stunned for a moment, and the cheerful atmosphere in the hall disappeared for a while, and it became quiet.

"Master ~www.mtlnovel.com~ At this time, the patriarch Huamo contacted the 'Yan Mo leader'.

There are three seats at the top of the hall. The middle one is a middle-aged man in black robe. Behind him is a huge and strange map of six rings. The map of six rings is rotating slowly all the time. With endless death power. Even the cosmic gods who were present did not dare to look at the six-ring diagram carefully. At first glance, I feel that my mind is drawn, and my heart is full of fear.

He is the big devil 'Yan Mo Hierarch' who can be counted among the best in Jiexin Continent!

The existence of the Black Demon Daze to this day is due to the "Yan Mo Hierarch" of the Black Demon Daze, who cannot be killed by an invincible existence.

"A cosmic **** I've never seen before..." The middle-aged man in black robe stared at the sky mirror, his eyes were very flat.

"withdraw."

"yes."

With this order issued, the blood sacrifice in Eight River City was regarded as a failure.

[Chapter 1224: Xiafeng Ancient Country](#)

"Retreat." The Flower Demon Patriarch ordered the surviving subordinates.

Those devil cultivators all ran away as fast as they were granted an amnesty, and all of them withdrew from Eight Rivers City.

"Those devils have withdrawn." The people in Eight River City finally breathed a sigh of relief.

Wang Yi just watched indifferently and didn't stop him.

Although he couldn't understand the insane actions of the black demon Daze, but he was not Dongbo Xueying, and he had no ability to change now.

The ancestor of Huamo smiled and looked at Wang Yi, seeming to have forgotten about the killing of his subordinates before, "It's unexpected that there are such masters as Your Excellency in Bahe City. Do you feel wronged?"

"You black demon Daze can't control me." Wang Yi finally spoke.

"Hahaha..." The Flower Demon Patriarch laughed, "Tell me your name."

"Emperor Jiexin." Wang Yi said casually.

"Emperor Jiexin?" The ancestor of the flower demon frowned, and looked at the Lord of the Golden Ring. There was no such name among the powerhouses of the cosmic **** level. Is it because this mysterious person is really a newcomer? Or did you say a false name on purpose?

"Emperor Jiexin, what a big breath." Other forces in Jiexin Continent were also paying attention, and many people sniffed at the name.

Dare to use the name 'Jiexin Continent'.

But this name is the freedom of others.

The ancestor of the flower demon didn't take it seriously, there were others with more maddened tone, like the black demon Daze, the number one demon under the three masters, 'Yuanyi Demon Lord', 'Yuanyi Demon Lord' was powerful, he was the black demon master Yan Mo, the leader of Yan Ze, taught his disciples personally, and he loved it very much. Demon Monarch Yuan Yi calls himself 'Yuan Yi', and his name is so similar to the name of the mysterious and transcendent 'Yuan' in the entire Jiexin Continent, which also shows his ambition.

"Emperor Jiexin? This is the first time I've heard of it, and I'll give you a piece of advice." The patriarch Huamo looked at the mysterious red-robed man, "The path of cultivation is already difficult. It's not easy to get to this point, there are talents, opportunities, cultivation, and some luck... It's too difficult to get to this point. Why do you have to add so many crises to yourself because of some weak people? So many variables? They have them Let them fight their way."

"For your sake this time, our Black Demon Daze can forgive Bahe City." The ancestor Huamo said arrogantly, but they also have the qualifications to be arrogant. Blood sacrifice, the number one leader of the Black Demon Daze, 'Yan Mo', can't even kill an invincible existence!

"However, if Emperor Jiexin stops us one after another for the sake of these ordinary people... hehe."

Historically, the Black Demon Daze has slaughtered blood sacrifices to some cities time and time again. There are many times, and occasionally you will still encounter trouble. For example, a tenth-floor master of the Chaos Realm happened to live temporarily in this city, or a certain cosmic **** from the six ancient kingdoms happened to pass by here, and he would not allow himself to bow his head for the sake of face, so he naturally intervened. So occasionally the blood sacrifice will fail.

The black demon Daze doesn't care about this point of gain or loss. After all, it is not too embarrassing to have a master of the universe **** intervene to cause the failure.

Wang Yi watched from afar as the demon bosses on the side of the Black Demon Daze all retreated.

He said softly: "I have no ability to stop you now, but maybe in the future!"

The blood sacrifice in Bahe City failed, and the Emperor Jiexin also appeared in front of the world for the first time, which is well known to the world.

...

Gouxue Country, inside the palace.

"The devil team from the Black Demon Daze is gone, and Bahe City has been rescued." The atmosphere finally became a little more relaxed.

"Emperor Ji Xin" of Gouxue Kingdom said: "This Emperor Jiexin saved our city of Gouxue Kingdom, but I have never heard of it before."

"It would be great if this Emperor Jiexin could join us."

Lord Gouxue's heart skipped a beat. Cosmic God is also a very important combat force, and he also really wants the help of such experts.

Lord Gouxue, who was seated at the top, said, "Eight River City's crisis has been resolved, and the citizens of this city have survived. The Emperor Jiexin has contributed a lot. Immediately send someone to go to Eight River City on my behalf to thank the Emperor Jiexin."

As soon as the people below heard it, they could tell that Lord Gouxue wanted to solicit Emperor Jiexin.

There are also many forces who have the same thoughts as Lord Gouxue.

After all, a cosmic **** without affiliation is worth every effort to recruit.

Nanyun Kingdom, inside the palace. The ruler, the three emperors, and the five kings all looked at the round mirror suspended in midair.

"Emperor Jiexin? A cosmic **** of the Dao of Void, even I have never heard of it. Seeing him make a move, it seems to have the shadow of my secret method "Five Phases Ban." After watching the whole

process, the Lord Nanyun was puzzled. But I didn't think too much about it. After all, he is not the only one who is a master of the Void Dao, there are others who are stronger than him. "Five-Phase Ban" has also been practiced in other countries. As for the way of cultivation, different paths lead to the same goal, and it is very common to have similarities.

"Gouxue's country actually hides such a Jiexin emperor, and even prevented a blood sacrifice. Gouxue's country is lucky." The Tanpeng emperor below said. "But this Emperor Jiexin doesn't seem to be from the Gouxue Kingdom, so maybe he can be used by my Nanyun Kingdom."

Lord Nanyun nodded.

...

The Fan family of the Xiafeng Ancient Country also noticed that the Fan family is one of the three major families of the Xiafeng Ancient Country. The other two big families 'Xia' and 'Cang' in Xia Feng Ancient Country are more aloof and arrogant, they don't look down upon other countries, and even more disdain to set up branches in other countries! In other words, the 'Fan Clan' crazily infiltrated his power network into every part of the Jiexin Continent, and was actually able to rank among the top ten super-big families in the Jiexin Continent...

They are all arrogant, which is also normal, after all, their individual strength is too strong, which makes them disdain to make friends with some small countries! In their opinion, if they have time and energy, it is better to meditate and practice, so as to make themselves stronger! There are very few super big families who are willing to crazily infiltrate and make friends with all parties.

The Fan family is a very domineering, cruel and ruthless family, representing 'dominant', 'ruthless', 'spicy', and 'killing'... It is the only one among the three major families of Xiafeng Ancient Country who likes to expand and fight abroad~www.mtlnovel.com~such as A peerless hero like the Lord of Nanyun had to greet him with a smile, not daring to offend the Fan family. Many talented practitioners have taken refuge in the Fan family, become Fan's guest ministers, are loyal to the Fan family, and fight for the Fan family!

"Emperor Jiexin? A new master emerging from a small place like Gouxue Country, at the level of a Cosmic God, is worthy of being recruited by our Fan family."

As soon as the Black Demon Daze team withdrew, the Fan family also sent people over.

But at this time, Wang Yi had already returned to Eight Rivers City, and said to his parents and family in this life: "Eight Rivers City is too dangerous. It is close to the Black Demon Daze. It is safer to move to other places to live."

Xia Jihe's family was also frightened, so of course they had no objection. "Then where are we going?" They didn't know that the young man in front of them was the terrifying cosmic **** who just killed the black demon Daze and all the demons, and coerced all directions.

"Let's go to the ancient country of Xiafeng." Wang Yi had already made plans in his heart.

Although the ancient country of Xiafeng was occasionally harassed, it was only encountered in some ordinary small cities on the border. Like those important cities, the black demon Daze would not dare to make a move. Daze couldn't bear it.

This time, Wang Yi chose Cang Ancient City, the largest city in the ranking of "Xiaofeng Ancient Country". Since its establishment, it has not encountered any major disasters. He plans to let his parents and family live there so that he will have no worries. . At the same time, he will also leave the 'Dragon' servant on the ninth floor of the Chaos Realm to protect his family.

[Chapter 1225: solicit](#)

Wang Yi's deity came quietly, and let the avatar take the demon servant "Magic Dragon" to send his family to the "Canggu City" in the ancient Xiaofeng country, and he stayed in Bahe City by himself.

Wang Yi sat drinking in a restaurant in Eight Rivers City. Although he had just been ravaged by a demon, the street on this side was lucky not to be affected and was still open for business. It was a catastrophe, and some regretted that some people they knew died unfortunately in this turmoil.

However, many places in Eight River City are in a mess and gloomy.

"Father, woo..."

"My child..."

Although Wang Yi shot immediately after the devil came in, there were still countless practitioners who were robbed.

Many people are grateful to the Cosmic God, but some also resent why he didn't make a timely move.

Wang Yi watched calmly, as if he was from another world.

"Wow—" At this time, a luxurious chariot exuding jewels and jewels slowly landed in midair.

I saw a group of guards wearing special armor on the extravagant chariot. Sitting there was a woman in a colorful robe and a purple veil covering her face. Her starry eyes were like diamonds, exuding the atmosphere of chaos.

She walked in slowly, came to the second floor, and saluted Wang Yi sitting at the window. "Qian Yili from the Moon Flower Ancient Country, Qian Yili, has met seniors."

The Moonflower Ancient Country was almost the bottom of the six ancient countries in terms of strength, comparable to the Skyscraper Ancient Country!

Unlike the ancient country of Motian who has always been low-key and dormant, the ancient country of Moonflower is even more skilled at dancing. The masters of the ancient country of Moonflower can be seen almost everywhere in the Jiexin Continent. Absolute classics and so on.

The Qianyi family is a big family with eight cosmic gods!

'Qian Yili' is the person in charge of the Qian Yi family in the Gouxue Country. She is a master at the ninth level of the Chaos Realm. She has made friends from all over the world, and also invisibly increased her influence in the Ancient Yuehua Country and the Gouxue Country.

Obviously, the other party came here for Wang Yi, the **** of the universe who appeared suddenly.

After all, there are only eight cosmic gods in the Qianyi family, but they have always been very keen on expanding the power of the family. It is naturally very beneficial for them to have one more cosmic god.

Wang Yi glanced at this 'Qian Yili', and the speed of Qian Yi's family coming was beyond his expectation.

But the other party was not the one he was waiting for.

Wang Yi shook his head: "What do you want to do with the old man because you are shallowly dependent on the family?"

Although Wang Yi has a youthful appearance, Qian Yili is not at all surprised that he calls himself an old man.

She said with a light smile: "Senior showed his supernatural power before and let the Black Demon Daze team retreat. Our Qianyi family is also very interested in senior hermit masters. The family would like to ask senior if he intends to join our Qianyi family. Family, any conditions can be negotiated."

Wang Yi looked at her, "Can your Qianyi family give me the secret treasure of the peak?"

Qian Yili was startled.

"this..."

Peak Secret Treasure? That is enough to make any cosmic **** crazy, and the value of the peak secret treasure is high enough to make many strong people willing to go through fire and water for it!

If Emperor Jiexin's strength was terrifying, comparable to those of the Ultimate Realm and those great lords, there might be some talk of joining the Qianyi family sincerely.

But even in the Qianyi family, there are not many peak secret treasures, and it is absolutely impossible to just give it to an ordinary cosmic god.

She was annoyed in her heart, but she didn't show it on her face, and said with a smile: "Senior, how rare and precious is the pinnacle secret treasure, your conditions are really difficult for others..."

Before she finished speaking, the young man in the red robe in front of her interrupted her with a wave of his hand, "Since there is nothing to talk about, then don't talk anymore, let's go."

...

Qian Yili came out of the restaurant with a gloomy expression, and before getting into the car, she turned her head and looked up at the drinking boy at the window on the second floor of the restaurant, thinking bitterly in her heart: "You are a **** of the universe who just wants the secret treasure of the peak just by talking in plain language. Who do you think you are? Emperor Xia or Fan Zu?"

Even if the invincible existence wanted their peak secret treasure, they would have to pay a price in exchange for it.

Most of the cosmic gods of the family who have worked hard and made great achievements do not have peak secret treasures.

From Qian Yili's point of view, the cosmic **** lion opened his mouth so much that he was too ignorant of good and bad.

"Walk."

...

Afterwards, people from Gouxue Country finally came. It is an emperor of Gouxue Kingdom, Emperor Danhua, of course the incarnation of the God of the Universe.

He warmly invited Wang Yi to join Gouxue Country and offered various prices.

But Wang Yi flatly rejected even the extremely powerful Qianyi family, one of the six ancient kingdoms, so the Gouxue kingdom naturally couldn't move his heart.

He also refused.

Then, Emperor Tanpeng of Nanyun Kingdom arrived.

There are currently three emperors in Nanyun Kingdom, namely Emperor Chunyu, Emperor Tanpeng, and Emperor Tianyin!

Emperor Tanpeng followed the king of Nanyun before the founding of the country, and was loyal. The Lord of Nanyun also had some embarrassing and miserable years at the beginning, so he naturally missed the old feelings, and he was very attentive to the advice of Emperor Tanpeng, and even used various treasures on Emperor Tanpeng, so that Emperor Tanpeng finally stepped from a chaotic realm to the God of the Universe.

He is also the eldest disciple of the master of Nanyun.

His arrival also brought the goodwill of Nanyun Kingdom.

Lord Nanyun, the wealth is well-known in the Jiexin Continent, even surpassing some real ultimate realms, and even invincible existences are jealous.

】

The conditions he offered for solicitation were much better than that of Gouxue Country.

However, Wang Yi has already 'squeezed' the wool of the Lord of Nanyun, even the "Book Collection World" of the Holy Sect of Nanyun and the secret treasure of the King of Nanyun's fame, the "Two Worlds Knife", are in his hands. It's no longer attractive to him.

Therefore, he also politely refused.

A cosmic **** is still very attractive~www.mtlnovel.com~Following the other two kingdoms of the Dark Demon Four Kingdoms, 'Huozhen Kingdom' and 'Wofeng Kingdom' also came.

"I'm sorry, the old man likes to practice purely."

"Thank you, Lord, for your kindness. I'll think about it again."

Of course, Wang Yi did not agree to any of these forces and sent them all away.

...

Suddenly, Wang Yi raised his head, looked outside, and smiled.

"finally come."

The luxury chariot pulled by eight golden-clawed fire beasts in the sky is so mighty and domineering that the flames it emits cover a vast area, leaving afterimages in the midair.

The 'Fan' logo on the chariot obviously represents the identity of the owner of the chariot.

There are maids and a group of guards around the chariot, and a thin old man in green clothes sits on it, his eyes are shining brightly, and his breath is mighty.

The chariot stopped. The old man in Tsing Yi saw Wang Yi upstairs and came to him with a smile.

"I have met Emperor Jiexin." The old man in blue smiled and said, "I am Fan Yuji, the head of the Fan family in Gouxue Country. I am here this time to invite Emperor Jiexin to join our Fan family on behalf of my Fan family."

This is the one with the most arrogant attitude among the representatives of all parties who came to see Wang Yi, but Wang Yi is not surprised, who let the other party be Fan's.

More importantly, Fan Shi was the one he was waiting for.

[Chapter 1226: Fan Shi Keping](#)

(can jump)

Fan Yuji said: "If Emperor Jiexin is willing, he can be a guest in our Fan family."

"Your guest?" Wang Yi frowned, showing a thoughtful look, and the representative of the Fan family did not rush, calm and composed, as if it didn't matter if you agreed or not.

Wang Yi recalled Fan's information in his mind.

Of course, the Fan family needless to say, relying on their terrifying strength, the entire Four Kingdoms of the Dark Demons dare not be too disobedient. The Fan family is the uncrowned king of the Four Kingdoms of the Dark Demons!

In fact, not only the four kingdoms of the Dark Demons, but also the nine kingdoms in the north of the ancient Xiaofeng country, as well as other second-rate and third-rate countries around them, are all under the influence of the Fan family!

The main reason is that the other two 'Cang' and 'Xia' of the three major families in Xia Fenggu's country are very disdainful of the outside world, and only the Fan's is inclusive of all rivers and absorbs experts from all sides for their own use.

Although the nearby Moon Flower Ancient Country and Motian Ancient Country also wanted to infiltrate some surrounding countries, their influence was far from comparable to Fan's.

The powerhouses of the Fan family in the surrounding countries are usually directly absorbed into the core!

Either as a door guest, a guest, or an elder.

The doorman is the lowest class, who becomes Fan's doorman and must obey Fan's order completely.

Ke Qing is much better, but the constraints are also great. Emperor Tanpeng, Emperor Danhua, and some powerful tenth-level chaotic realms are just Ke Qing.

Your Excellency! Relatively free. Among Fan's guest ministers, the Lord of the Huozhen Kingdom and the Lord of the Wofeng Kingdom... are only Shang Keqing. Although the rulers of the Huoshang Kingdom and the Wofeng Kingdom are relatively weaker, they are far superior to ordinary cosmic gods.

Externally strong, the highest status in the Fan family is the level of 'Elder Keqing'!

In Fan's Keqing system, different levels mean different benefits.

In terms of rank, the elders of Keqing are equal to the elders of the Fan family, but they have no real power. For example, the 'Lord of Nanyun' is an elder guest of the Fan family! Elder Ke Qing is more free, and usually doesn't get involved in Fan's affairs at all.

The Fan family is only qualified to dispatch the elder Ke Qing to participate in the action if it is ordered by 'Fan Zu' for extremely important matters! Others are not qualified to order directly.

The reason why Wang Yi chose the Fan family was not only because there was an invincible existence in the Fan family, but also because the Fan family was one of the three major families in the ancient Xiaofeng country, and there were also two invincible existences 'Xiahuang' and 'Cangzu'.

Except for the 'Ancient Kingdoms of All Worlds', which is slightly stronger than them, there are five invincibles, all of whom are reincarnated.

But the "Ancient Kingdoms of All Worlds" is not as united as the "Ancient Xiaofeng Country". They all reincarnated and came to the Jiexin Continent, and they were not originally from the Jiexin Continent. Because they come from different worlds, although they form an ancient kingdom of many realms together, their internal relationship is not close.

Even the city has five ancestral cities, and even the style of doing things is different.

Five Patriarchs—

The domineering 'World Destruction God Emperor', the ferocious World Beast King, the transcendent 'Wanderer', the calmest and best-tempered Infinite City Lord...

But they are dissatisfied with each other, and there is not even a nominal supreme leader.

The ancient country of Xiaofeng is relatively more united, and the supreme leader of the ancient country of Xiaofeng is the emperor of the ancient country of Xiaofeng—Emperor Xia!

Compared to Fan Zu, Wang Yi cared more about the 'Emperor Xia'.

The most terrifying existence in the entire Jiexin Continent, the strength is faintly number one, and a single point is enough to disdain other invincible existences - he has practiced both ways to the final Dzogchen.

You know, how difficult it is to achieve Dzogchen. To achieve the ultimate Dzogchen in the two paths, the difficulty is simply ten times and a hundred times higher all at once. But there are still existences like Emperor Xia.

Emperor Xia has achieved the ultimate Dzogchen in both the 'Void Dao' and 'Fire Dao'. In addition, he also practiced other Dao. Naturally, teaching disciples is also powerful.

Even among the three major families, the 'Xia Clan' beats the other two major families no matter in terms of the number of grand masters or the number of geniuses they have cultivated.

"Emperor Xia..." Wang Yi thought to himself. It's a pity that the Xia family is not keen on recruiting outsiders. Otherwise, the Xia family would be his first consideration.

Void Dao, reaching Dzogchen, and achieving the third level of the Cosmic God.

Only two.

One is Emperor Xia!

One is a "wanderer" who is one of the five ancestors of the ancient kingdoms of the world.

Therefore, if you want the top secrets of the Void Dao, these two forces are the most suitable.

As for the imaginary world...'Fan Zu' also cultivated to reach the second level of the Cosmic God, and the one from Motian Ancient Country also cultivated to reach the second level of the Cosmic God. !

Yes, in the entire Jiexin Continent, the Void Realm Dao has never really reached the Great Perfection, the existence of the third level of the Cosmic God!

Because the path of the soul is inherently difficult!

In the realm of the virtual world, there has never been a third layer.

"Emperor Jiexin, what do you think?" Fan Yuji, the representative of the Fan family, waited for a while, and seemed to feel that it was almost done, and said, "If you are willing to be my guest of the Fan family, our Fan family will not treat you poorly." Wait, if you make contributions to our Fan family and obtain great merit in the future, as long as the merit is enough, you can use it to exchange everything you need in my Fan family."

Wang Yi nodded, "I am willing to join the Fan family as a guest secretary."

"Okay, then congratulations to Emperor Jiexin." Fan Yuji was also very happy when he saw that the mission was accomplished, "Every guest who joins our Fan family will get a hundred great merits, this is for every new guest Gift, of course, if you want more great achievements in the future, you have to work hard to earn it yourself."

One hundred great achievements? Just join? Wang Yi also couldn't help feeling Fan's arrogance.

In Fan's Keqing system ~www.mtlnovel.com~ one hundred great achievements can be exchanged for one hundred million universe crystals!

100 million cosmic crystals are not worth mentioning to the Fan family, which has a big business.

But only the cosmic **** or the powerful chaotic realm served as guest ministers would give it like this.

The Fan family also relied on 'great achievements' to lure and win over these masters to work for them.

The strong don't bother to change the universe crystal, and they won't join the Fan family for the sake of the universe crystal! With this 'great merit', those guest officials can exchange for some unique secrets under the Fan family's guest official system. The Fan family will take out some classics of unique learning to lure these guests.

Although the most important thing is not to spread it outside, but a little bit of it is enough to make many strong people from the outside world howl! What is the background of the Fan family? If you take out some of it, it will far surpass Nanyun Country.

Fan Yuji said: "Then please come back to the Fan family with me, Emperor Jiexin. As a guest, you need to be confirmed by the family, and some identity tokens, scrolls and other things will be sent to you."

"Okay." Wang Yi nodded, stood up, and the two walked out of the restaurant together, and the forces guarding outside the restaurant immediately noticed.

"Emperor Jiexin and the head of the Gouxue Kingdom of the Fan family came out together."

"They left together."

Therefore, all the forces in Jiexin Continent knew that this newly emerged Void Dao Cosmic God, the initially famous 'Emperor Jiexin' had already been recruited by the 'Fan Clan', one of the three major families of Xiaofeng Ancient Country.

[Chapter 1227: The day of signing in Xiaofeng Kingdom](#)

(can jump)

Xiaofeng is the capital of the country, and the city gate is majestic.

Although there are only a few cities in Jiexin Continent that can compare with it, in terms of the size of the cities alone, the capital of Xiaofeng Kingdom is already the largest in Jiexin Continent.

Moreover, the laws of Xiaofeng Ancient Country are strict, and killing is generally strictly prohibited. Princes from outside countries have to behave well when they come here, even the gods of the universe... dare not be arrogant.

Wang Yi and Fan Yuji sat on the chariot, and the latter introduced him to places along the way.

This vehicle representing the 'Fan family' went all the way, and no one dared to stop it.

[Ding, congratulations to the host for successfully signing in, and the reward 'Fen Ye Ying Mi Gong'.]

[Ding, congratulations to the host for successfully signing in, and rewarding 'Sheng Guang Tian Sad Forbidden Gu'.]

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Purple Pattern Fire Crow Forbidden Book'.]

[Ding, congratulations to the host for successfully signing in, rewarding one billion universe crystals.]

While enjoying the scenery along the way, sign in and get various rewards. Although there is nothing special to look at, it is not a waste of time. After all, Wang Yi is already the **** of the universe, and the sign-in level has also crossed to the "cosmos god". .

Xia Feng Country, which is almost number one in Jiexin Continent, is definitely one of the most suitable places to sign in. Just passing by along the way will give him a lot of rewards.

The cosmic god-level rewards are amazing, even the cosmic crystals start at one billion.

However, Wang Yi was not fascinated by these bells and whistles. If you can't really improve your cultivation level, it's useless to give you more things. Even if you give yourself a Hunyuan weapon, it's useless.

...

The capital of Xiafeng. There is a magic mountain that covers an extremely wide area. The mountains are continuous, and its scope is comparable to that of the entire Nanyun Kingdom. But in Xiafeng Country... it only occupies a small corner. This is where the Fan family is located in the capital.

"Huh. Huh." The breath from Fan's Demon Mountain was very cold.

Looking into the distance, Wang Yi faintly sensed that in the continuous mountain ranges, some places exuded terrifying auras, some were tumbling with terrifying flames, and some places had deep pools tumbling.

"The Fan family is really terrifying." Wang Yi thought to himself, even if you don't count Ke Qing, there are dozens of cosmic gods in the Fan family, but there is still the 'Cang family' who can fight against the Fan family, and the royal Xia family is even more powerful than the first two. one head.

It's just that there are so many strong people, any big family has more than one ultimate realm, and there are invincible existences that are more terrifying than the ultimate realm!

"I'll take you to your residence first. For the time being, don't wander around. Some places are forbidden areas. As a guest, some items will be delivered soon, and you will know the rules in Fan's Demon Mountain." Fan Yuji said .

Fan Yuji took Wang Yi to a mountain top, and there were some elegant houses on the top of the mountain.

"Emperor Jiexin, stay here temporarily, don't run around, many places in the Fan Clan's Demon Mountain are forbidden areas! Even the Xia Clan and Cang Clan have terrifying experts who come to our Fan Clan Demon Mountain to cultivate...you If you trespass into the forbidden area, you may be directly suppressed and killed by the magic circle in the forbidden area."

】

Fan Yuji, an old man in Tsing Yi, reminded, "Your guest's identity token and other things will be sent later, and you will know which places you can go to and which places you can't go in Fan's Demon Mountain."

After Fan Yuji left, Wang Yi sat alone in the courtyard, looking at the rolling mountains in the distance. Even though the distance was far away, he could still detect places shrouded in terror everywhere.

Not long after, there was a knock on the courtyard door, and a sergeant in black armor with cold eyes and a chaotic aura was standing outside the door, and said respectfully when he saw the young man in red robe with a mighty aura coming out, "Xin Keqing, I was ordered to send many items and put them away." Respectfully presented a golden bracelet with both hands.

"Thank you." Wang Yi took the golden bracelet, and when the sergeant left, he took out all the items inside and checked them one by one.

Ke Qing's identity token, scroll, etc... I also got a detailed map of the entire Fan Clan's Magic Mountain, and the levels of different areas are also marked on the map. As a guest Qing, most of the Fan Clan's Magic Mountain can be visited.

"Wow."

He unfolded the green wood scroll in his hand, but lines of words appeared on the scroll.

"No Phase Wonderful Method": 300,000 meritorious deeds can be exchanged (Elder Ke Qing)

Zhentian Ruler: Peak Secret Treasure, 200,000 credits can be exchanged (Shang Keqing)

Cave Dharma Disk: Peak Secret Treasure, 200,000 credits can be exchanged (Shang Keqing)

...

"Hunyuan Wenwen": 100,000 great contributions can be exchanged (Shang Keqing)

"Taiyin Knife Three Volumes": 100,000 great achievements can be exchanged (Shang Keqing)

Formless dharma body: Fan Zu makes a move, and the body transforms into a formless dharma body, which requires a hundred thousand great efforts (Shang Keqing)

Ancestral blood: A drop of blood from the ancestor of Ji Ye requires a hundred thousand great efforts (Shang Keqing)

...

"Heart Realm" is the most powerful book in the imaginary world created by Fan Zu, and it is only a book that reaches the second level of Cosmos God, but it needs a full 80,000 merits, but Ke Qing can also exchange it.

Looking at the entire Jiexin Continent and the Illusionary Dao of the Illusionary Realm, I am afraid that there is not a single person who is a fusion of the four veins. Fan Zu's "Heart Boundary" is already very strong.

...

This scroll densely records a large number of treasures that can be exchanged, the most expensive is 300,000 merits, and the cheapest is only 1,000 merits!

Every treasure above is recorded in detail. For example, the 'Suppressing Heaven Ruler' is a treasure of the lineage of time and space, and it needs to reach the second level of the universe **** in the aspect of 'time and space' before it can be expected to be mastered.

Another example is "Hunyuan Wenwen", which must reach the extreme of virtualization before it can be expected to get started.

Although Wang Yi has become a cosmic god, he has not yet reached the extreme of virtualization.

These methods, which can only be exchanged for a price of 100,000 yuan, are more precious than the "Five Phases Sealing Technique", pointing to the pinnacle!

Like Fan Zu who helped transform the body, the 'Phenomenon-Law Body' is at the level of the God of the Universe. Once the transformation is successful, a practitioner will directly become the God of the Universe.

How outrageous?

The blood of the ancestors... During the second ancient country war, the ancestors of the "Ancient Ancestors" Jiye and Yongye joined forces to fight against the three ancestors of the Xiaofeng Ancient Kingdom "Xiahuang", "Cangdi" and "Fan Zu". The Ancestor of the Extreme Night and the Ancestor of the Eternal Night who fought in the battle were seriously injured, and they even directly snatched part of the source blood of the 'Ancestor of the Extreme Night'! One drop of original blood, one hundred thousand meritorious deeds are enough to lure the guests to go through fire and water. After all, the source blood of the ancestor of the extreme night is simply a legend.

Wang Yi was also envious.

But one hundred thousand great achievements. Just exchanging for cosmic crystals can be exchanged for 100 billion!

And these credits can only be obtained by completing missions one by one for Fan's life and death. It is the level of Lord Huozhen and Lord Wofeng, and a task usually costs thousands of merits. And if Fan doesn't give the task, they won't have any task to take!

It is too difficult to gather 100,000 merits, and it is almost impossible to gather 200,000 merits! Even the elders of Ke Qing have so far rarely collected 200,000 credits.

"It's all a temptation." Wang Yi understood clearly.

The six ancient kingdoms are powerful, but the battles are also fierce, and the core members of the Fan family cannot avoid the battle. But it's different if you are a guest. The power of a guest is much smaller, but you can face the task... and you can choose to accept it or not.

If you don't give enough temptations, no one will be willing to sacrifice their lives.

"Peak secret treasure." Wang Yi aimed at those peak secret treasures in exchange.

Fan listed six peak secret treasures on the scroll, all of different types.

Wang Yi just glanced at these peak secret treasures that made many cosmic gods go crazy.

He thought to himself, "The one that is more suitable for me is the secret book "Hunyuan Wenwen."

"Chunyuan Wenwen" is very special, it is not a secret biography that directly points to the peak, but it requires a hundred thousand great achievements.

The exchange of one hundred thousand functions is usually a secret that directly points to the pinnacle. Although it is said that "Tao should not be passed on lightly", in fact, the value of buying and selling, under normal circumstances, the secret of the peak is indeed lower than the secret treasure of the peak.

Because the second-tier powerhouses of the Cosmos God get the right pinnacle secret treasure, they can immediately fight across the ranks.

And if it's just a peak secret...it won't help one's own strength.

Of course, there are also differences in the peak secrets. For example, "Wuxiang Miaofa", which includes various methods of Fan Zu, requires 300,000 great efforts. If you disassemble the "Wuxiang Miaofa" and find a powerful peak method, 100,000 merits will be enough.

"Chunyuan Wenwen" only has two levels, one is for small successes and the other is for great achievements.

The second level of the Cosmic God is expected to achieve great success.

Wang Yi understood in his heart that Hunyuan asked, it was created by Emperor Xia, and it contained tactics and body training. It was the void method that Xia Huang broke through the cage of the source world and used the "power of Chaotic Source" from the outside world. It can be called the same level. The top method.

At the same level, it is stronger than the "Five Phases Forbidden Technique". It is the most perfect way of the void created by Emperor Xia, but unfortunately, the last level has not been created yet.

There are only the first two floors, so it is only a hundred thousand great achievements.

Wang Yi secretly said: "Others can be used, but "Hunyuan Wenwen" is of great help to my practice and strength improvement, so I must find a way to get it."

In the Fan family, it is possible to get, although "Hunyuan Wenwen" was created by Emperor Xia~www.mtlnovel.com~, but the three major families communicate with each other and communicate with each other, like some secret books of the other two major families It's not surprising that someone who is out of school will appear in another family.

But Wang Yi is also clear that there are some benefits that are not recorded on the scrolls, and it is impossible for the real treasures of the three major families to appear here.

For example, the Supreme Secret Treasure, which is a higher level than the Peak Secret Treasure.

For example, the "Origin Realm Temple" left by Yuan, one of the most important treasures that was contested in the second ancient country war, was destroyed, and even the invincible existence fell! As for those who were seriously injured, there were even more of them, and in the end they were awarded the 'Origin Realm Temple' by Xiaofeng Ancient Country.

That is a place that is helpful for the cultivation of the ultimate realm, but every time it takes a long time to go in again.

Another example is Fan's secret 'Burning Heart Divine Tree', which is most suitable for soul cultivation and perception, even other path perceptions are also of great help. It is a magical treasure that no peak secret treasure can match! The 'Enlightenment Tree' obtained by Wang Yi has similar functions, but the soul effect is not strong.

Moreover, the flower blooms once to practice, and the time is short, and one needs to wait for an era of reincarnation. It is far inferior to the 'Burning Heart Sacred Tree' which can practice infinitely.

This is what Fan Zu snatched before the first ancient country war. He named it the 'Burning Heart Sacred Tree', and it was under this sacred tree that Fan Zu's "Wonderful Method of Formlessness" was truly complete.

Hunyuan lord Dong Bo Xueying also became the **** of the universe in the "Illusory Realm of Illusion" under the Burning Heart Tree.

These treasures...Wang Yi wants them all.

[Chapter 1228: My requirements are actually very low](#)

Fan's Magic Mountain.

A young man in a red robe walks around.

Look everywhere.

He grumbled in his heart: "There are so many forbidden areas in Fan's Demon Mountain."

Wang Yi could see a huge lake in the distance, and there was a large piece of blood-colored grass around the lake. If he looked carefully, there was a huge eye in the huge lake looking out through the lake.

shudder.

There is a sense of danger.

The sense of threat brought by the huge eyes under the lake feels close to the 'Ultimate Realm', even if it is not as good, I am afraid it is not much worse.

"There are so many masters in the Fan family." Wang Yi dared not go over. "I heard that it is a great venerable of the Fan family, the Cloud Swallowing Beast."

The strength of the swallowing cloud beast should be about the same as that of the king of Nanyun.

When Fan Zu was still weak, he traveled to Jiexin Continent to study and practice. At that time, he carried a mount 'Swallowing Cloud Beast' with him. Now, even if Fan Zu went out to act, he would not bring his mount anymore. The Cloud Swallowing Beast back then was also a great venerable of the Fan family.

Fan Zu... is one of the invincible existences in the entire Jiexin Continent. One person is enough to create an ancient country. Don't even think about taking a peek. There are three of his apprentices who are comparable to the Lord of Nanyun, for example, the "Honest Killer of Heaven" is Fan Zu's apprentice.

"The place where Fan Zu practiced is the most important place. It is an absolutely forbidden place. I am afraid that only the high-ranking members of the Fan family can get close to it. Those who come from the outside, even the highest-ranking elders of Ke Qing, can't get close either." Wang Yi I sigh in my heart. He is the Keqing, the above is the Shang Keqing, and then the elder Keqing, the status is too far behind.

Even if he asks to see Fan Zu now, Fan Zu may not be interested in seeing him.

If Fan Zu knew that he was a reincarnation, he might be willing to meet him.

But now Wang Yi doesn't want people to know this secret.

In the entire Fanshi Demon Mountain, most areas can be visited, while other places are forbidden areas, which cannot be entered without permission.

It's a pity that the most valuable are those forbidden areas.

Wang Yi shook his head. The Fan family, which is the easiest to accept outsiders, is like this. Wouldn't it be more difficult to go to the more conservative Xia and Cang families?

As a guest minister, it's okay for him to walk casually in the ordinary area of Fan's Demon Mountain, but he wants to get involved in the real core secrets of Fan's Demon Mountain? That is impossible.

Wang Yi walked freely in Fan's Magic Mountain, as long as he did not violate the rules, no one stopped him.

But in the distance, there were several children of the Fan family watching from a distance.

"Is this the new foreign visitor who joined our Fan family, Emperor Jiexin?"

"I've also heard that it came out of the Four Kingdoms of the Dark Demons. It was not famous at all before."

"His strength seems to be stronger than ordinary cosmic gods, but he is not as good as the lords of Wofeng Kingdom and Huozhen Kingdom. In my Fan family, I can only serve as a guest minister, but there is no inheritance from any top power before, and there is no real peak. Guidance, unique skills, maybe even my Fan family's most outstanding disciples from the Chaos Realm family can't match."

These children of the Fan family are all the arrogances that the Fan family attaches great importance to. Although they are in the chaotic state, they all have a mighty and unfathomable aura, which can overwhelm the newly promoted Cosmic God.

As the core geniuses of the Fan family, they look down on ordinary cosmic gods from the outside world. powerful.

Only the peerless overlords like 'Lord Nanyun' and 'Lord Gouxue', who even the Fan family can't do anything to, they value.

It is normal for the children of the Fan family to be so proud. The best among them even practiced a terrifying classic left by the mysterious 'Yuan'.

The group of peak powerhouses in the ancient country of Xiaofeng looked down upon the neighboring countries. Although the Fan family has friends from all over the world, there is still a sense of superiority that I am from the ancient Xia Feng country, and even those guest lords have come to join the Fan family. Fan still discriminated against those guests.

Wang Yi also noticed those people in the distance. Although he didn't hear the conversations of those Fan family members, he roughly understood their thoughts.

But Wang Yi didn't take it to heart. He was strong and naturally high-minded. He just shook his head in his heart and sighed, "I just want to go in. The requirements are actually very low, and this can't satisfy me."

[Ding, congratulations to the host for successfully signing in, and rewarding the "Tearing the Heavenly Power Demon Manual".]

Wang Yi glanced at it.

"Tearing the Heavenly Power and Demon Sutra" is the secret secret of the Fan family. It is characterized by its infinite strength, and its physical strength is comparable to secret treasure weapons.

It was created by Venerable Tie Tian Da, one of the few masters in the Fan family except Fan Zu.

The Venerable Tietian has a very high status in the Fan family, and is also one of the few great reverends second only to Fan Zu.

No matter in terms of his own strength or refining demon servants, he is very good at cultivating subordinates. For example, he can raise an ordinary chaotic state to ten levels, which other powerful cosmic gods cannot do, but he can do it!

Therefore, in Fan's family, he has great influence and power.

"Is this the unique skill of Venerable Tie Tian Da? It's a pity that it's not what I want most." Wang Yi thought to himself, and suddenly felt a terrifying aura. There was a layer of **** flames all over them, and the strength of the breath made Wang Yi feel the threat of death.

Wang Yi naturally recognized this majestic man with blood-colored flames on his body. He was a cosmic **** of the Fan family—"Lord Kuichen", who was the right-hand man of the Venerable Tie Tian. Confronted with Lord Huozhen and Lord Wofeng.

Seeing Wang Yi, the other party paused and walked over.

"It turned out to be the Emperor Jiexin."

"Lord Kuichen~www.mtlnovel.com~Wang Yi is very humble.

Monarch Kuichen smiled and said: "Why, Emperor Jiexin has been walking in my Fan's Demon Mountain for so long, and seems to like it very much?"

Wang Yi sighed and said: "To be honest with Monarch Kuichen, I didn't realize how deficient my practice was until I entered Fan's Demon Mountain. How shallow my eyes were before, the extraordinary background of Fan's Demon Mountain is really amazing."

"Hahaha..." Monarch Kuichen laughed. As a member of the Fan family, he naturally liked to hear such words. "I'm going to meet Great Master Shitian now, does Emperor Jiexin want to go together?"

Wang Yi's heart moved, "If it is possible, of course I would like it."

Monarch Kuichen didn't take it seriously, "It's okay, Master Shitian is actually the kindest to the newcomers. You just arrived, and it's normal to pay a visit to Master Shitian. How could Master Shitian blame him?" It is Master Shitian who is in charge. After all, strong strength does not mean that he is also good at managing the family. Among the great masters, Master Shitian is indeed good at commanding his subordinates and mastering affairs.

In order to facilitate the management of personnel, he also did not hesitate to meet with those guests frequently.

"Then respect is worse than obedience." Wang Yi nodded.

There are also various high-level members of the Fan family, like Monarch Kuichen, who prefers to win over powerful people from all sides, so I saw Wang Yi deliberately approaching.

Next, Wang Yi followed Lord Kuichen and flew towards the location of Lord Shitian, one of the forbidden places.

[Chapter 1229: Wave 1 wave, don't take away 1 cloud](#)

One of the forbidden areas of Fan's Magic Mountain, at the foot of the lush green mountain, there is a majestic and majestic palace under a waterfall like a galaxy.

"Here we are, Emperor Jiexin, this is it." Lord Kuichen smiled at Wang Yi.

There is also Lord Kuichen leading the way, otherwise Wang Yi cannot enter without permission.

However, Wang Yi couldn't help but look at the guards in black cloaks and simple armor standing in front of the palace. There are ten guards, each of whom feels very powerful, comparable to a cosmic god.

Monarch Kuichen noticed Wang Yi's gaze, and introduced with a smile: "This is the Demon God of Hundred Battles of our Fan family back then!"

At the beginning, there were ninety-nine super masters under the command of the Fan Clan "Tearing the Great Venerable", and under the special opportunity of the "Tearing the Great Venerable", he obtained a rare and peculiar "Red Demon Nine Dream Beast" core stone after death, In the end, ninety-nine masters were transformed out of this, all of whom are at the tenth level of Chaos Realm!

These ninety-nine... are also called the 'Hundred Battle Demon Gods'!

In the later period of the first ancient country war, they made many military exploits. All of them were tyrannical and powerful, but after a long time until now, there are only thirty or so remaining of the original Hundred Wars Demon God. Bit up. 嚙

Wang Yi was extremely amazed. These ten guards are the 'Hundred War Gods'. Any one of them is already comparable to the Cosmic God, and some are even better than ordinary Cosmic Gods, and they are good at joint battles. The ten guards can be the second floor of the Cosmic God. Doudou, but acting as the guard of Tiantian Dazun here, is really terrifying.

Wang Yi and Monarch Kuichen walked towards the palace, and the 'Hundred War Demon God' near the door looked over, his eyes were cold, and his aura was overwhelming and terrifying, giving people a strong sense of oppression.

"Lord Kuichen." The sergeant saluted, and then looked at Wang Yi, "This is..."

Monarch Kui Chen explained with a smile: "He is the new Keqing Emperor Jiexin who joined our Fan family. I will bring him to see the Great Master Shitian."

The sergeants nodded and did not stop them. Monarch Kuichen, as the right-hand man of Shitian Dazun, has the right to bring people over.

And Monarch Kuichen did this to show his favor to Wang Yi.

"Great Master Tietian is inside." Wang Yi looked at the palace. 嚙

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Red Devil Nine Dream Stones'.]

The 'Red Demon Nine Dream Stones' is the core stone behind the death of the 'Red Demon Nine Dream Beasts', from which Master Tietian transformed ninety-nine masters, all of whom are at the tenth level of Chaos Realm!

However, Wang Yi wasn't too surprised. He couldn't conjure the Hundred Wars Demon God just by getting the stones.

Master Shitian can do it because he is very good at refining demon servants and training subordinates.

"Master."

In the palace, Wang Yi saw the legendary Lord Tietian.

To be called a 'Great Senior' is second only to invincible existence! In terms of strength, it is not much different from the King of Nanyun. Although the Lord of Nanyun is richer, the various treasures, classics, and resources of the Ancient Xiafeng Kingdom are incomparable to the Lord of Nanyun. 嚙

But King Nanyun's ability to create the 'Boundary Breaking Teleportation Technique' is also the basis for him to dare to challenge the invincible existence!

"Emperor Jiexin." The Tietian Dazun, who was dressed in a black robe, had a kind of domineering arrogance in the sky and earth, but it was taken for granted. He smiled and looked at the red-robed boy, but his eyes were quite gentle.

Like the Xia family and the Cang family... although they don't accept strong people from external countries, they accept strong people from their own country. Many strong men took refuge in them and merged with them, and were even given surnames!

The Fan family accepts those who are strong from outside the country. For example, if you learn from Fan Zu, you will immediately become a core member of the Fan family! If he is willing to accept the given surname and change it to 'Fan', the benefits he gets in the Fan family will be greatly increased!

Of course, the Fan family is full of masters, so the rules are naturally stricter.

If the Xia family of the Gouxue country where Wang Yi was born could be traced back to its origin, it could even be related to the Xia family of the ancient Xiafeng country. For various reasons, no matter what, they could no longer be recognized by the Xia Clan of the ancient country of Xia Feng.

Like Wang Yi's Void Dao bloodline, it may even come from the 'Emperor Xia'! 嚟

However, after countless generations, and not being born in the direct line of the royal family, they are no longer the descendants of Emperor Xia.

"I've seen the Great Lord Tie Tian." Wang Yi was extremely respectful. This is an existence comparable to the Ultimate Realm.

Some terrifying great masters are even stronger than ordinary ultimate realms.

Venerable Tie Tian said in a gentle and majestic voice, "Emperor Jiexin, this is the first time you and I have met, are you satisfied with me, Fan?"

Wang Yi said sincerely: "The Fan family is indeed powerful, worthy of being a super family in the Jiexin Continent."

Venerable Shi Tian smiled, "If Emperor Jiexin is willing to work for my Fan family, my Fan family will not treat any hero who has contributed to my Fan family."

Wang Yi heard that Master Shitian wanted to solicit. 嚟

After all, the Fan family has a great career, and apart from the supreme Fan Zu, there are also factions under his command, and Master Shitian also wants to have more masters under his command. Emperor Jiexin is a guest of the Fan family, but he can also join a faction, which is why he sees The reason why Emperor Jiexin is so kind.

Wang Yi's thoughts changed sharply, and he said directly: "If the Reverend Titian does not give up, I am willing to work for the Reverend."

Seeing that the Jiexin Emperor was so upright, Master Shitian was a little surprised, and then a smile appeared on his face. "Haha, Emperor Jiexin, don't worry, if we encounter any troubles in the Fan family and the outside world, we will not sit idly by."

Wang Yi immediately said while the iron was hot: "Master Tietian, I heard that there is a burning heart tree in the Fan family, which has a miraculous effect on cultivation. I wonder if I can observe it?"

"Burning Heart Divine Tree?" Venerable Tie Tian frowned slightly, and then stretched it out. It's a bit strange for Wang Yi to know about the Burning Heart Tree~www.mtlnovel.com~ But after all, the existence of the Burning Heart Tree is not absolutely airtight, and it's not like outsiders have never practiced under the Burning Heart Tree. Where did I get it.

"Emperor Jiexin wants to go and see the Burning Heart Divine Tree, so it's fine." The other party had just taken refuge in him, so it was naturally difficult for Tietian Dazun to refuse such a small request.

But if you want to cultivate and enlighten under the Burning Heart Tree, it's not that simple. 嚟

...

Fan's Magic Mountain.

Under a dark purple low and thick tree, the trunk of this big tree is several feet thick, but it is only more than ten feet high, and the crown is very huge, covering an area of nearly a mile.

This is also one of Fan's forbidden areas. It is heavily guarded and surrounded by magic circles. Without permission, you can't even see the place.

Under the leadership of Master Shitian, Wang Yi came here.

As the person in charge of the Fan family whose status is second only to Fan Zu, Master Shi Tian has the right to bring Ke Qing over.

"Emperor Jiexin, that is the Burning Heart Divine Tree."

Wang Yi looked at the tall, short and sturdy tree. The trunk, branches, and leaves were all dark purple, and the whole body seemed to be carved from dark purple jade.

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Burning Heart Tree'.]

The prompt on the panel arrived as expected.

[Chapter 1230: exchange](#)

Wang Yi can feel that standing under this big tree, there is an invisible breath absorbed by his body. This invisible breath directly nourishes the soul, and the soul feels extremely comfortable, and the soul faintly strengthens at an extremely slow speed. the

Venerable Tie Tian smiled and said: "The Burning Heart Divine Tree has nourishing effect on the soul, that's all. After all, nourishing it for a year or so is the end, and the soul can no longer be promoted."

"The most special thing about the Burning Heart Divine Tree is that it is on the 'Burning Heart'. You practice under this tree, and the longer the time you feel it, the more intense it will be. It will be of great help to the cultivation of the soul! My master is no matter what level he was at the beginning. Under this sacred tree, the "Wonderful Method of Formlessness" has been perfected!"

Wang Yi sighed: "It's amazing."

But now I have one too.

A strange smile appeared on the face of Venerable Tie Tian: "Practicing under the Burning Heart Tree is of great benefit to practitioners, but this is the only tree! The breath it emits is usually only enough for one practitioner to absorb. , if two practitioners absorb it at the same time, the effect will be worse."

"The Burning Heart Divine Tree is incomparably precious, and it is usually used among the six Great Venerables in turn. I, a disciple of the Fan Clan or Ke Qing, only those with sufficient status and great contributions have the opportunity to come here."

Venerable Shitian said with emotion: "However, if you make great contributions to the Fan family for me in the future, it is possible to come here to practice."

Wang Yi nodded, "I understand that if you want to get something, you have to give something."

Master Tietian smiled and said: "It's good if you understand this truth, it's not that I don't want you to practice here for a while, it's really that I am in charge of Fan's affairs, and I have to follow the rules in order to convince everyone."

Wang Yi cupped his hands: "I understand, I'm already very satisfied that His Majesty brought me to see the Burning Heart Tree. I just don't know how to practice under the Burning Heart Tree?"

Venerable Tie Tian has strange eyes, in fact, he is not eligible to be exchanged for practicing under the Burning Heart Tree in exchange for his meritorious service! What he said before was just to let Emperor Jiexin understand how precious the opportunity to practice under the Burning Heart Tree is.

It's just that he deliberately wooed him so he made it vague on purpose. Because of the existence of the Great Senior, some people only focus on practicing and only want to be strong. This is also the most common.

However, there are also a few who attach great importance to external forces, and Master Tietian also attaches great importance to his subordinates, helpers, and various external forces! Among the six Great Venerables in the Fan Clan, Venerable Tie Tian commanded the most powerful force, and a large number of strong men were on his side. Even 'Fan Zu' asked him to preside over the operation of the entire Fan family.

Venerable Tie Tian's smile remained unchanged, "There is only one Burning Heart Tree in Jiexin Continent, and the six Venerables like me have to take turns to use it, so if you want to use up your cultivation, you need a lot of great merit. Practice for 100 million years."

Don't look at the high price, why practice under the burning heart tree for 100 million years requires 10,000 meritorious deeds. In fact, cultivating under the Burning Heart Sacred Tree will not harm the Sacred Tree. A hundred million years is just a waste of time. There is not much loss to Fan Shi.

The corner of Wang Yi's mouth twitched.

One hundred great achievements are 100 million cosmic crystals, and ten thousand great achievements are ten billion.

You know, the mysterious treasures of the universe are generally in the range of 5 billion to 10 billion universe crystals.

After 100 million years of practice, only one or two mysterious treasures of the universe are gone. How many have such a luxury? Among the rulers of the second-rate countries, the wealthiest Lord Nanyun was reluctant to spend such extravagance a few times.

And 100 million years seems to be a long time, but it takes a long time to practice, and I want to have great achievements on the road of practice! It is necessary to practice under the burning heart tree for hundreds of millions of years, so that the help will be even greater!

So if it wasn't for someone who was really stuck in a bottleneck and was extremely eager to break through, he would not have spent a lot of money to use the Burning Heart Tree at Fan's place. the

...

After leaving from Venerable Tie Tian, Wang Yi walked around Fan's Demon Mountain again.

It seems that he is familiar with the various parts of the Magic Mountain, but in fact he is trying to sign in.

Although there are many forbidden places that cannot be entered or even approached, because in some places even Dazun Tietian can't make decisions, only Fan Zu can decide, but Wang Yi also signed in and gave out a lot of rewards.

He is now the **** of the universe, and this reward level is already very scary.

[Ding, congratulations to the host for successfully signing in, and rewarding 'ancestor blood'.]

[Ding, congratulations to the host for successfully signing in, and the reward 'Lone Star Thunder Stone'.]

There will also be rewards that surprise Wang Yi.

Especially the original blood, from the 'Ancestor of the Extreme Night', one of the two invincible existences of the ancestors of the six ancient kingdoms.

The ancestor of the extreme night is nothing else, but its source blood is rare, and it is many times stronger than the vitality of the blood in the body of the body training master.

You must know that the ancestor of the extreme night bestowed only a drop of blood essence on his subordinates, and they can recover after practicing! But 'Original Blood' is its foundation, and it needs to devour a lot of treasures to restore it, and it is impossible to sell it.

The blood of the ancestors of the ancient country of Xiaofeng came from the decisive battle between the two ancestors and the three ancestors of the ancient country of Xiaofeng during the war of the ancient country.

One drop is less than one drop, it is extremely precious, one drop needs 100,000 great powers, and one hundred thousand great powers can be exchanged for 100 billion cosmic crystals, but only the Xia Feng ancient country has them, and outsiders can't exchange them with cosmic crystals. Of course, if you can come up with something that makes the heart of Xiaofeng Ancient Country, you can still discuss it.

And a drop of 'blood essence' from the ancestor of the extreme night can regenerate the practitioner and greatly increase his strength! For example, if a strongman on the tenth floor of the Chaos Realm absorbs a drop of blood essence, the hope of breaking through the Cosmic God will greatly increase. It's just that once they absorb his blood essence, they will be absolutely loyal to him without any disobedience. Those who absorb his blood essence all respectfully call him the 'ancestor'. the

Therefore, among the six ancient countries, the ancient country of the first ancestor can be said to have the strongest ruling power and the strongest cohesion. Of course, in terms of strength, the ancient ancestor country can only be ranked in the middle of the six ancient countries.

In addition to direct absorption, the blood essence of the ancestor of the extreme night can also be used for many other purposes, such as cultivating insects and beasts, transforming one's own body, etc., and the selling price is tens of billions of universe crystals, which is terribly expensive.

"Ancestral blood, if I practice the secret art of body training, it will be of great use." Wang Yi thought to himself. Just don't use it for cultivation, just use it for research, a drop of ancestral blood is more precious than essence blood for invincible existence, it contains infinite mysteries, and you can study and understand a lot.

"And the Burning Heart Divine Tree has already been obtained by me~www.mtlnovel.com~ With its help, my cultivation speed will be even faster." Wang Yi is still in a good mood. Fan's Burning Heart Tree is used by many people in turn, but Wang Yi's tree is used by one person.

"However... the source world temple may not be able to sign in."

Wang Yi suspected that the Temple of Origin Realm was where Emperor Xia and other three invincibles existed.

After all, in the entire Jiexin Continent, there are few places that are safer than seeing them in person. the

"If it's in the Fan family, there's still a little chance, if it's in Xia Huang's place..."

Wang Yi shook his head.

The stronger the strength, the more precious the treasures you have.

Similarly, the more precious the treasure, the more difficult it is to obtain.

Emperor Xia only has one Void Supreme Secret Treasure! There may also be a flame supreme secret treasure!

And there are a lot of pinnacle secret treasures on the lower level! For example, Xiafeng Ancient Country is one of the six great ancient countries, the Fan family has six great lords, the Xia family has nine great lords, and the Cang family has seven great lords. There are also a group of lords who are not from the three major families. Even a few like 'Great Master Fu Yi', who is one of the best among the nine Great Masters of the Xia Clan, possess several peak secret treasures. All together, there are dozens of peak secret treasures.

Some of the peak secret treasures in Jiexin Continent are obtained from Jiexin Divine Palace, some are obtained from Broken Tooth Mountain Range, and some are refined by experts in the ultimate realm! the
