

## A God 1231

### [Chapter 1231: The Surprise of Tie Tian Dazun](#)

"The strength and background of Jiexin Continent are astonishing, far surpassing that of Origin Continent." Wang Yi was filled with emotion. The number of powerhouses in an ancient country alone is astonishing.

Now Wang Yi is also very clear about the division of strength in Jiexin Continent.

In the boundless Jiexin Continent, the Cosmic Gods naturally have different levels.

The highest level, of course, is the invincible beings!

They are tall and powerful.

There are very few cosmic gods who can save their lives in front of them. Of course, in history, they also fell!

Some fell because of going to the Broken Tooth Mountains, and some fell because of the invincible beings fighting each other.

The next level is the Cosmic God Ultimate Realm without the Supreme Secret Treasure, and the very few master-level powerhouses who can survive invincible existence, such as Fuyi Dazun, Nanyun King, and Yan Mo Hierarch.

Once again, it is a normal lord level!

Possessing a peak secret treasure, they may have two or three tricks of "Ultimate Power of the Cosmic God", many aspects such as life preservation, escape, domain, etc. may only be at the second level of the Cosmic God, which makes their shortcomings obvious and invincible. They can be slaughtered easily.

no way. 'Peak Secret Treasure' will only improve some aspects. For example, domain-type secret treasures only increase the strength of the domain to the third level of the universe god! A second-tier cosmic \*\*\*\* who is only super strong in the field, in the face of invincible existence, still has to die!

Unable to save their lives in front of invincible existence, this is also the predicament of most venerables.

But no matter what, compared with some lord-level masters such as Nanyun King, some of them are not weak in combat power, and some are even stronger. The weakest is only the life-saving ability!

They are qualified to look down on the second floor of the universe gods who do not have peak secret treasures.

"My current state is still too weak. Only one can reach the ultimate level, let alone merge into the second level of the Cosmic God." Wang Yi thought to himself. 餓

However, this is ignoring his practice time.

Counting from his birth, he has cultivated to the Cosmic God in just ten epochs of reincarnation, and this is the only one in the endless years of Origin Continent!

If Wang Yi's emotions were known to those chaotic realms in the Origin Continent, they would definitely vomit blood in anger.

As a guest, there is no time limit for living in the Fan Clan's Devil Mountain. Wang Yi wandered around the Fan Clan's Devil Mountain, but he also got to know some strong people from the Fan Clan's Devil Mountain, including those from the Xia Clan and the Cang Clan who came to practice at the Fan Clan's Devil Mountain. Among the terrifying powerhouses, there are also people who know this Emperor Jiexin, but not many people care about him. After all, the current Emperor Jiexin has demonstrated strength that is comparable to that of the "Lord of Wofeng Country" and "Lord of Huozhen Country". The levels are not comparable, and it is difficult to catch the eyes of others.

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Cave Dharma Disk'. ]

"Huh? Peak Secret Treasure?" Wang Yi was overjoyed. This is the first Peak Secret Treasure he signed in at Fan's Magic Mountain. It needs 200,000 great merit and the status of Shang Keqing to exchange for it. The value is still higher than a drop of ancestor blood.

The cave magic plate can form an ocean of spells, an ocean of arrays, boundless, with many arrays, such as mazes, illusions, traps, killing arrays, fire arrays... and even arrays can be superimposed to become more complex and powerful. Also more terrifying. 餵

Then he frowned again. "The Cave Dharma Disk is a treasure of the lineage of formations. It needs to reach the second level of the Cosmos God in the 'formation' to hope to master it?"

He was a little disappointed.

This is very tasteless.

He suddenly remembered that peak secret treasures such as 'Suppressing Heaven Ruler' and 'Dongyu Dharma Disk' seemed to have to reach the second level of the Cosmos God on a certain path before they could be mastered.

Even if this pinnacle secret treasure is given to Origin Continent to reach the cosmic god's "Treasure Sacrifice King" on the formation, he can't use it, because his formation is only the first level.

Wang Yi couldn't help shaking his head and sighing. "Sure enough, the strength is too weak, and I can't even use the treasure."

He is even more eager to achieve the second level of the Cosmos God. 餵

...

In fact, Wang Yi doesn't care too much about the secret classics. Many of the secret classics are not suitable for him to practice, and can only be used as a reference for enlightenment.

But treasures, even if they are not suitable, can be exchanged for suitable ones through the panel.

And Wang Yi also had a plan in mind.

On this day, Wang Yi, the emperor of Jiexin, visited Lord Shitian again.

Emperor Jiexin is now considered to be the faction of Lord Shitian, so it is naturally much easier to see Lord Shitian.

In the palace, Venerable Tie Tian was sitting on his seat, looking at the young man in fiery red robes in front of him. This Emperor Jiexin has been wandering around the Magic Mountain these days, and often walked to the edge of the forbidden area. He did not change after repeated reminders. It makes people wonder if he is trying to be a thief. Of course, this is a trivial matter, as long as Emperor Jiexin doesn't violate Fan's rules, no one can do anything about him, and Venerable Tietian doesn't care about it. 餽

However, he was also a little worried about the troubles that the Emperor Jiexin who had just taken refuge in would cause.

"Emperor Jiexin, you have stayed in my Fan Clan's Demon Mountain for a long time, but are you still used to it?" Venerable Tie Tian smiled.

"Thank you for your concern, my lord. I have seen a lot and felt a lot in Fan's Magic Mountain these days." Wang Yi said with emotion, "I feel that I have some confidence in the breakthrough."

Master Tie Tian's eyes lit up, "Oh, then congratulations." He doesn't care what Emperor Jiexin wants to do, as long as he doesn't make trouble for him, he is very happy to see another powerful master under his command.

Wang Yi's expression changed, "My lord, I'm here today, and I have something to ask my lord."

Great Master Tear Heaven: "You say."

Wang Yi then said: "I watched Fan's great merit exchange list, and I was attracted by "Hunyuan Wenwen", but in order to exchange, I need the identity of Shang Ke Qing, and I am currently only Ke Qing..." 餽

"Wait." The Great Master Shitian interrupted, frowning. "Emperor Jiexin, if you want to exchange for "Hunyuan Wenwen", will require a hundred thousand merits in addition to the status of the guest." His meaning is very obvious, you just joined us as a guest, how can you get ten thousand dollars? Great work.

In fact, Wang Yi only has a hundred meritorious deeds, and it was given by Fan Shi.

"Of course I don't have great merit, but if I make a contribution to the Fan family, it can be replaced by great merit, right?" Wang Yi said calmly.

In order to encourage these guests to make contributions, the Fan family does have this rule, and even if the contributions are large, exceptions can be made in many places.

Venerable Tietian couldn't help laughing, thinking that the Emperor Jiexin was really interesting.

"Do you know how demanding it is to make a contribution to our Fan family, which is worth a hundred thousand merits?" Great Master Shitian shook his head.

Even if he, regardless of his high status and strength, would need a lot of time if he wanted to achieve a hundred thousand meritorious deeds.

Wang Yi looked at Master Shitian, "I know Fan's rules very well, but I don't know how much merit a peak secret treasure is worth?"

"What?" The teacup in the hands of the originally calm Master Shitian trembled, and he looked at Wang Yi in surprise, as if he wanted to confirm whether he was joking.

"Exchanging 200,000 peak secret treasures at Fan's is a great effort, so it shouldn't be too much for me to ask for 200,000?" Wang Yi continued: "And this peak secret treasure, speaking of it, is very suitable for you... "

#### [Chapter 1232: trade](#)

In fact, Wang Yi's visit to Master Shitian this time was after careful consideration.

He has more than one pinnacle secret treasure on him, but none of them can be used!

But it can be exchanged for other peak secret treasures through the panel.

He intends to use a peak secret treasure 'Tearing Claw' to exchange great merits with Fan Shi through Tian Tian Dazun, and then use the great merits and the opportunity to make an exception to exchange for Fan Shi's needs.

However, it is necessary to get Dazun Shitian, who is currently in charge of the operation of the Fan family.

#### [Chapter 1233: Pulse 2 to Ultimate](#)

The white mist covered the lake like a light gauze, a piece of lotus bloomed on the water, and the blooming lotus petals in the middle had six seats and six figures sitting on them.

The black robed man Tie Tian Dazun said: "This is what happened."

It was about a peak secret treasure and 200,000 great merits, and Master Shitian couldn't do it arbitrarily. Fan Zu didn't care about it, but the other five masters were notified to incarnate and come to discuss.

one of the bodies

#### [Chapter 1234: Sign in at the Summer Palace](#)

Inside Fan's Demon Mountain, there are ancient vicissitudes, lurking terrifying and mysterious atmosphere, and forbidden places are everywhere, some of which even the Great Master can't directly enter.

Fan Zu is in a vast wilderness, sitting cross-legged beside a stream, his appearance is different from different people.

Some people see Fan Zu as a beautiful and enchanting woman. Some people saw Fan Zu as a majestic old man.

All kinds of appearances. Everything comes from the heart, different hearts will see different

#### [Chapter 1235: 2 great secrets](#)

A clone of Wang Yi landed outside the capital of Xiafeng Ancient Country.

As a cosmic god, he has cultivated the avatar technique to the second stage. If he doesn't care about combat power, he can create nine avatars at the same time, and just let one avatar bring the peak secret treasure "Tearing Claw".

This process is still necessary to deceive people.

Follow Wang Yi to receive the treasure and return to Fan's Magic Mountain.

The Fan family has received a message from Wang Yi, and Venerable Shitian is standing in mid-air, waiting for him for a long time.

#### [Chapter 1236: Chaotic Source Body Refining](#)

The meritorious service has almost been changed, and the sign-in is almost done, and the rest does not know when it will come out. In addition, the Fan family is unfathomable after all, and Wang Yi has too many secrets, so he did not stay here any longer and chose to leave.

Outside the capital of Xiafeng Ancient Country.

"This time I come to Fan's, it's a rewarding experience." Wang Yi thought to himself. "It's a pity that it is difficult for the Cang and Xia clans to act."

After all, the Cang and Xia clans only accept the strong in their own country

#### [Chapter 1237: power](#)

Under the Burning Heart Tree, the red-robed boy who had been sitting cross-legged for countless years finally opened his eyes again.

The body has become incredibly powerful, and the undisguised aura distorts the surrounding space.

He looked at the void next to him, revealed a groan, and then swiped with his right hand.

tear up.

An extremely thin void crack unexpectedly appeared.

The other end of the black lacquered crack is a higher-level space, filled with the power of Chaotic Source.

#### [Chapter 1238: Atlas Tier 2](#)

"I can't practice the avatar method before." The world beast turned into a heart, "But this Chaotic source asked..."

The corner of the beast's mouth twitched slightly.

Although the world beast has tens of thousands of clones, its strength is too weak, and it doesn't dare to divide too many, because once it is discovered, it will become the fatal point. It's just used as a last resort.

Moreover, it is easier for realm beasts to sense each other's existence. This is why no realm beasts dare to openly act in the Origin Continent except for Palace Master Tantai.

Palace Master Tantai also had that inconceivable senior to guide her to hide herself perfectly, and the conditions were very strict. Even if she wanted to teach it, other beasts would not be able to do it.

What's even better is that although the incarnation of the beast is Wang Yi's consciousness, its soul is different, and the supreme rule does not restrict it.

Wang Yi's Void Dao achievement is also equal to the achievement of the Realm Beast Incarnation, after all, this is the comprehension of the mystery of the rules!

Similarly, Wang Yi is now in the realm of the gods of the universe!

In such a short period of time, both paths have reached the Cosmic God, which has never happened in the Origin Continent or the Jiexin Continent.

Therefore, once the world beast incarnates it to practice "Hunyuan Wenwen" and "Clone Technique", not only will its strength soar, but it will also be able to have nine clones!

Also, it can also be used as the secret art of will called "Lieyuanshu!"

Therefore, regardless of how long it took for the Realm Beast to break through to the God King, the real strength is actually top-notch in the Realm Nest.

...

Wang Yi is still studying the changes after the success of his "Hunyuan Wenwen".

"Chaotic source body training, the body has some characteristics of Chaotic source."

"After the soul absorbs the power of Chaotic Source and transforms, most of the tracking methods are useless to me." Wang Yi thought to himself.

Wang Yi is now at the level of the Cosmic God, and all the eight channels of the Void Dao have been promoted to the level of the Cosmic God. It seems that there is still one channel left, but he has comprehended the mystery of the "nine turns of reincarnation", and the nine channels are closely related, so there is no difficulty in achieving .

What remains more critical is fusion.

The second level of the Cosmos God only needs to fuse the two veins.

To reach the 'ultimate state of the universe god', several bottlenecks need to be broken through. The fusion of each vein is a big obstacle. In the end, the fusion of all the veins and the deduction of the void path to the ultimate is the most difficult.

Wang Yi looked up at the sky, seeing the vast sky through the lake space.

Then close your eyes.

Continue to practice.

...

Time passed silently.

There was silence between heaven and earth.

Under the Burning Heart Tree, which was short and thick, and whose whole body was carved like dark purple jade, under the huge canopy, dark purple leaves fell all over the ground.

Wang Yi, who looked like a boy in red, sat there with his hands on his lap, his head slightly lowered in thought.

Surrounding them are worlds that look like scrolls, sometimes born and rotated, sometimes shattered and dissipated.

In the past so many years, Jiumai has naturally reached the ultimate, Jiumai ultimate! Then Wang Yi tried to integrate the two veins.

But Void said he was stuck in a bottleneck, and the fusion of the "sky" and "earth" to the end, but there was still a slight incongruity, and it was almost impossible to be truly perfect.

A little bit of insight passed through his heart like a stream of light.

"One day, one place, is the world you see."

"Heaven and earth seem to be limited, yet infinite."

"Look at the Sumeru of the small world, and become the vastness of the big world."

Wang Yi suddenly smiled.

boom

The surrounding space is roaring, the lake above is trembling, water splashes, and countless fish are jumping in a panic.

The purple leaves piled up on the ground were also blown up, like countless purple butterflies flying in the sky.

Wang Yi is looming among the purple butterflies all over the sky.

Just now, he broke through the bottleneck of the fusion of heaven and earth!

Really stepped into the second layer of the universe god.

With a wave of Wang Yi's hand, everything calmed down, and the leaves fell one after another. There was a white jade table and a jade chair under the Fenxinshen tree. He sat down, took out another jug of old wine, and poured himself a glass casually. Pick up the wine glass and take a sip to feel the taste.

Since becoming the Cosmic God, many times of reincarnation have passed! With his strong foundation in the void, all nine channels have reached the Cosmic God Realm. With such accumulation, it is not inconceivable that he will break through to the second level of the Cosmic God early.

This breakthrough is also fundamental to his strength improvement.

The body far away in his home continent of origin has stepped from the first floor of the universe \*\*\*\* to the second floor, and his strength has naturally improved significantly.

"Void secret treasures, as long as they are not peak secret treasures, I can use them to the extreme."  
Wang Yi rubbed his wine glass and narrowed his eyes.

If you want to exert the power of the peak secret treasure, it is best to be the second peak of the Cosmos God, which is the level where the seven or eight meridians are fused.

For example, King Nanyun has a peak secret treasure "Two Realm Knife" that gives him the strength to fight across the ranks, and he is sure to survive under the hands of invincible existence, although his combat power is not necessarily stronger than other great masters with peak secret treasures.

But the Void Dao Cosmic God's methods are inherently more unpredictable, and life-saving is naturally powerful.

And like the legendary "Supreme Secret Treasure", it contains some of the mysteries of the supreme rules, and it is hoped to truly grasp it in the ultimate state of the universe god.

The stronger the strength, the more perfect the power of the secret treasure in hand.

"Moreover, the "Clone Body Art" can really reach the perfection."

Wang Yi punched out directly!

boom!

The violent and incomparable power was blasted out with this punch, and the surrounding world suddenly collapsed and gathered, and finally a black lacquered hole about half a person's height appeared.

With one punch, he was overbearing to the extreme!

The surging power of Chaotic Source poured in, and it seemed that the power of Chaotic Source in some areas quite far from the source world was pouring in.

Too rich, too bulky.

huh huh

The surging power of Chaotic Source transformed Wang Yi's soul again.

The restrictions of the Supreme Rule have been weakened.

Rays of light flew out of each Wang Yi's body, flying to the side to condense a new body, sitting cross-legged.

The bodies are cohesive, and at the same time as the cohesion, the soul is also recovering and becoming stronger rapidly.

There are more and more avatars sitting cross-legged, hundreds, thousands.

10081 clones.

It took several days to practice all of them.

There are so many clones, it can be called countless clones!

However, in order to maintain the most perfect soul power, you can only maintain the nine avatars, but this also allows Wang Yi not only to increase his strength, but also to increase his practice speed a lot!

It is difficult and difficult to practice the avatar technique to such an extent that if you really want to kill it.

As long as a clone is alive, it will not die.

It's not against the sky now, because if you really want to kill, if you don't have the protection of a strong person, some terrifying existences like 'Infinite City Lord' can still kill all Wang Yi's clones in Jiexin Continent in a single thought!

As for the protection of the strong? It's not without flaws either. A handful of people like Infinite City Master and Emperor Xia are completely capable of beheading all other life outside the lair of the strong.

"But it will be different when I master the Boundary Breaking Teleportation Technique." Wang Yi thought to himself.

No matter what, if you use the Great Breaking Teleportation Technique, send a few clones to other different source worlds! Then Wang Yi is qualified to be a peerless hero!

Like King Nanyun, he can send his avatar to other source worlds, and his strength is so strong that it would be difficult for an invincible existence to kill him. Only when it is impossible to completely kill him, let King Nanyun become The peerless overlord of Jiexin Continent.

After all, even an invincible existence can't be killed, so what can others do?

It's just that there are very few in the Jiexin Continent, and not many of the great masters can do it.

#### [Chapter 1239: Ancient Kingdoms of the Worlds](#)

The ancient country of all realms is the strongest country in the Jiexin Continent, faintly stronger than the ancient country of Xia Feng.

The five ancestors of all worlds are all invincible existences.

The ancestral city where the 'Wanderer', one of the five ancestors of the world, is located.

Wang Yi came here, looking at this vast and boundless city, thinking in his heart. "The Wanderer is one of the only two known ultimate realms of the Dao of the Void in Jiexin Continent. Even King Nanyun's "Second Body Technique" was created by asking the Wanderer for advice."

The Lord of Nanyun is a guest of the Fan family, and logically he has a better relationship with the ancient kingdom of Xiafeng, so it would be more convenient to ask Emperor Xia for guidance, but he still found the wanderer, which also proves that the wanderer has his own uniqueness on the void road.

This is the case in the first place, even if you follow the same path and practice the same classics, there are still some differences in becoming the God of the Universe in the end.

"The Wanderer lives in the Wandering Shrine of the Wandering Ancestral City all year round, but the Wandering Shrine is in a special time and space, and cannot be seen from the outside, and it is difficult for an invincible existence to break into it."

Wang Yi looked towards the center of the city. It is reasonable that the Wandering Shrine is there, but he can't see anything. Even though he has broken through to the second level of the Universe God of the Void Dao, he still can't feel anything.

It can be seen that there is a huge gap between him and the drifter.

Wang Yi went directly to the center of the ancestral city, where there were majestic and magnificent palaces, filled with powerful auras, and the power of the formation restraint was faintly revealed, making it clear that it was absolutely not easy to invade.

But Wang Yi did not come to invade, but visited in an open and honest manner.

"Emperor Jiexin?" A figure appeared in the air, looked at Wang Yi, and revealed his identity.

Although Wang Yi's rise to the top in the Jiexin Continent was actually not that long, the information about a Cosmic God was collected by all parties.

Wang Yi also recognized the identity of the person, a walker under the command of the "Wanderer", one of the five ancestors of the ancient kingdoms of the world--Yuchen Walker.

This one has a great background. Although it is the tenth floor of the Chaos Realm, its strength is stronger than that of ordinary cosmic gods. It is similar to the "Hundred War Demon God" under the command of Venerable Tietian. sixteen.

The short-haired man in a black cloak smiled and said, "I heard that Emperor Jiexin has become a guest of the Fan clan and was recruited there. I don't know what is the purpose of coming to our wandering ancestral city?"

He landed in front of Wang Yi.

Of course, he is not the only one on the tenth floor of the Chaos Realm near the Wandering Shrine, and there are some powerful cosmic gods.

In his opinion, an ordinary cosmic \*\*\*\* can be received by himself.

Wang Yi smiled and said: "I have admired the name of Senior Wanderer for a long time, especially the accomplishments of Senior Wanderer on the Void Dao, so I came here specially to ask him to give me some advice."

Yuchen Walker is not surprised either, he knows that Emperor Jiexin is the God of the Void Dao universe, and in the entire Jiexin Continent, one of the only two ultimate realms of the Void Dao is his master.

It was normal for Emperor Jiexin to seek advice from his master.

But...

Yuchen Walker looked at Emperor Jiexin, "Emperor Jiexin, I'm sorry, my master is in the middle of his cultivation, I'm afraid I don't have time to see you."

Rain and Dust Walker declined.

I sneered in my heart, an ordinary cosmic \*\*\*\* also wanted to see his master, just kidding, his master is an invincible existence, how can he see it whenever he wants.

However, Wang Yi was also prepared, and he was not disappointed at being rejected. Instead, he smiled and said, "Yu Chen Xing Zhe, I came to see your master for something important, and it is about the ultimate method of emptiness in the chaotic state."

In Jiexin Continent, there are only two ways to achieve the ultimate emptiness in the chaotic state.

One is in the ancient country of the worlds. The other is in the Ancient Country of Xiafeng. Other ancient countries, including those who have reached extremely high levels of emptiness, such as the Lord of Nanyun, cannot create a way to achieve the ultimate emptiness in the realm of chaos.

Because Jiexin Continent possessed the two ultimate methods of virtualization in the chaotic state, both of which were created by invincible existences!

One is Emperor Xia, and the other is a drifter.

They are also very eager for other methods of extreme virtualization. Although the level is not high, they may be triggered by themselves.

Yuchen Walker has followed the Wanderer for many years, and he is also aware of this mystery. Hearing Wang Yi's words, his eyes immediately changed.

"Emperor Jiexin has the ultimate method of blurring the chaotic state?"

It is very difficult to achieve the ultimate emptiness, even if the Dao of Void becomes the \*\*\*\* of the universe, it is not easy to achieve the ultimate emptiness.

Moreover, some of the top powerhouses among the Cosmos Gods also want to have the method of "extreme virtualization", which is a super powerful method to save their lives in frontal battles.

For some of the top beings among the Cosmic Gods, it is too difficult to achieve the Cosmic God Realm by also practicing the 'Void Dao'.

The difficulty of becoming a chaotic state is much lower.

There are quite a few people who want this method.

"Yes." Wang Yi nodded.

Wang Yi also created it after comprehending the mystery of the "Nine Turns of Reincarnation" of the Nine Meridians before.

This is because he comes from two source worlds, and he can only do it by comprehending the rules of different source worlds.

Even an overlord like Lord Nanyun couldn't do it.

It is still hard for Yuchen Walker to imagine that an ordinary cosmic \*\*\*\* can actually create such a secret method?

"Emperor Jiexin, is what you said true?" Yuchen Walker couldn't help asking.

Wang Yi said calmly: "How dare I deceive one of the Fifth Patriarchs with this kind of thing."

"Haha..." Yuchen Walker then laughed, with great enthusiasm. "Emperor Jiexin, please come into the palace with me to rest for a while, I will report to the master right away, I think the master will definitely meet you. UU Read [www.uukanshu.com](http://www.uukanshu.com)"

Wang Yi didn't take it seriously for the change of Yuchen Walker's attitude, and walked to a palace under the leadership of Yuchen Walker.

...

Wandering Shrine.

Looking out from the Wandering Shrine, there is a vast void, but there are countless real and illusory pictures in the void, which are the scenes of various places in Jiexin Continent. The legendary "Wanderer", one of the five ancestors of the world, is exactly Live here.

"Master." A voice sounded in the drifter's ear. "Raindust Walker has something to report to you."

...

Wang Yi is talking to Yuchen Walker in the palace.

Sudden.

call.

A figure was condensed beside him, it was an old man in silver robe with a gentle temperament.

"Master?" The Yuchen Walker next to him was surprised when he saw this.

This silver-robed old man is one of the five patriarchs, a 'wanderer', very detached.

"Wanderer?" Wang Yi was also secretly surprised. How this man got here was completely unknown to him.

The wanderer's eyes were as deep as the sea, looked at Wang Yi with a faint smile and said, "I heard that you have the ultimate method of blurring the chaotic state?"

"Yes." Wang Yi nodded.

"Interesting, your realm is not an ordinary cosmic god, it should be the second level." The drifter looked at Wang Yi for a moment, and said suddenly.

The Yuchen Walker next to him was shocked. The Emperor Jiexin was actually the second level of the Cosmic God?

"I kind of understand why you were able to come up with this method." The drifter showed a penetrating smile.

He also seemed to guess that Wang Yi was reincarnated.

This method may have been created by Emperor Jiexin, or it may have been created by a strong man in Emperor Jiexin's source world.

But he didn't want to get to the bottom of it. He cared more about the other than this kind of thing.

[Chapter 1240: Excuse me, bring it to you!](#)

in the palace.

"You brought this method here to make a deal with me?" The wanderer guessed Wang Yi's intention.

"Yes, senior." Wang Yi nodded.

"Okay, but I have to confirm your method first, Jiexin Continent. Before that, there are two kinds of ultimate methods of emptiness in the chaotic state. They were created by me and the Emperor Xia from Xiaofeng Ancient Country." The wanderer said, "You are the third ultimate method of virtualization in the chaotic state. I need to take a look first, so I can judge
