

A God 1241

[Chapter 1241: shameless king of beasts](#)

The destruction of the ancestral city is where the 'World Beast King', one of the five ancestors, resides.

But the Beast King Wang Yi saw was a tall and burly man with green hair, leaning on the throne, tilting his head to look at Wang Yi while drinking fine wine.

The unrestrained ferocious aura, and the evil eyes full of desire to destroy and devour, truly told others his identity.

Wang Yi also looked at the notorious World Beast King in front of him. Legend has it that the World Beast King is the ultimate realm of the Dao of Destruction, and the Void Dao

Although Wang Yi once thought that there would be a strong man who would not abide by his reputation, he never thought that he would be so shameless when he met the Beastmaster of the World.

Invincible beings all value identity, and few of them directly take it away as shamelessly as the Beastmaster of the Realm.

Because there is no need!

Only a few of them, such as the Beastmaster of the World, can do it so simply, with a temper like that of the 'Emperor Xia', or a temper like the 'World Exterminating God Emperor', it is a shame and a shame for them to do this! unless it affects

"I realized the Dao of the Illusionary Realm not long after I originated from the Continent, and now I have finally stepped into the Cosmic God." Wang Yi was filled with emotion.

As the path of the soul, the "Virtual World and Illusionary Dao" is much more difficult. Looking at the entire Jiexin Continent, there are very few soul paths that become cosmic gods! There are fewer soul paths reaching the second level of the universe **** than other paths reaching the ultimate level! This road is difficult. Even the classics are incomparably precious!

Actually speaking

[Chapter 1244: I'm in charge of everything between you](#)

The mysterious figure who appeared in front of the world beast incarnation burning prison was a burly and strong man covered in silver scales, with twelve silver horns on his head, and a silver scales tail. His breath is not strong, it seems to be only at the level of chaos.

But the look in his eyes made Burning Prison on the second floor of the Cosmos God tremble a little. It was a kind of absolute aloofness, as if a **** looked down on the creatures on the ground.

[Chapter 1245: Lonely](#)

Lord Tantai's heart was shocked by Lord Hunyuan Jin's words, and then he said respectfully: "Yes, junior obeys orders." She couldn't help but glanced at the gray-robed boy next to her, she knew in her heart that since the senior said so, it proves that the world beast 'Burning Prison' also fell into the eyes of this senior.

The incarnation of the world beast also reacted, and immediately said: "Thank you, senior."

Wow, the figure of Chaotic Source Lord Jin dissipated like a bubble, and the consciousness of the Realm Beast Avatar and Tantai Palace Master

Infernal Building.

In the magnificent and inconceivable Void Tower, in the void, a blue figure sat cross-legged.

She is the Infernal Landlord who snatched the treasure "Wick of Fog Void" from his apprentice Wang Yi.

Over the years, Infernal Landlord has been accumulating, trying to perfect her realm, because she only has one chance.

After all, the burning time of the 'fog wick' is limited.

The Infernal Landlord will never allow himself to fail.

[Chapter 1247: A gift for God King Goujian](#)

In the sea of reincarnation, Infernal Landlord became the ultimate realm, and appeared here not long after, her deep eyes stared at the boundless sea.

To reach the ultimate state of the universe god, one has to advance to another level, and the means have become more and more unpredictable.

Like the body refining flow that reaches the ultimate state of the universe, in the chaotic void, it can exist everywhere, and it can be explored everywhere. At this level, the body is impermanent, and can appear anywhere in the source world in an instant. Can't find

[Chapter 1248: Jiexin Shrine](#)

A piece of egg-shaped jade appeared in Wang Yi's hand, and he sent it to King Goujian.

God King Goujian took it, his consciousness penetrated into it, and he quickly showed a shocked expression, looking at Wang Yi. "This is..."

Wang Yi smiled lightly, "Is there any help for the king?"

"Yes, of course it helps!" Even with the disposition of an invincible overlord like God King Goujian, he became excited.

"That's good." Wang Yi nodded. This is what Wang Yi gained from Jiexin Continent.

[Chapter 1249: let me in](#)

Jiexin Shrine is named after the mainland. From this we can understand its specialness.

It is located extremely deep in the center of the ocean "Black Prison Yin Sea" surrounded by the entire Jiexin Continent. According to rumors, it is the most central location in the entire Jiexin Continent!

It is also the source of all the 'chaos' and 'magic' in the entire Jiexin Continent.

From the birth of the Jiexin Continent to the present, there have been many great disputes, including the first ancient country war and the second ancient country war, all because of it.

[Chapter 1250: Quota competition](#)

In fact, although the 'Jiexin Shrine' is gradually opened, the opening process is very slow and will last for a full hundred thousand years! It is estimated that the senior 'Yuan' who is walking further on the road of cultivation is to allow the strong people in Jiexin Continent enough time to decide on a place.

"Your Majesty." Wang Yi immediately went to see Venerable Fan Shitian.

The man in the black robe smiled when he saw Wang Yi coming. "So it's Jie Xin Shang Ke Qing."

Since Wang Yi achieved the second level of the God of the Universe
