

A God 1251

[Chapter 1251: Qibao task](#)

In addition to the Broken Tooth Snake Orb, there are other rare treasure tasks listed on the scroll, with credits ranging from '200,000 merits to 2,000 merits'.

In the competition for the number of places in Xiafeng Ancient Country, even if there were dozens of targets in the beheading mission, it would be a big deal to kill one or two targets.

Because it is really hard to kill.

Mission rewards, of course it is impossible to reward invincible beings that cannot be killed, but you can reward the subordinates around them.

But even so, those targets are not stupid,

Wang Yi said helplessly: "Brother Shuanggu, isn't 30,000 merits a bit expensive?"

Maharaja Shuanggu laughed and said: "Expensive? It's not expensive at all. Brother Jiexin, there are quite a few people who want to enter the Jiexin Shrine this time. There are many in the ancient Xiafeng country alone, let alone other countries. This 'Blood-dropping ice crystal pillar' has already been asked by more than one person, the 30,000 meritorious service was determined by our ancestors, and it is impossible to change it."

He looked at Wang Yi, "And last time, Brother Jiexin, you

brush!

In unison, many cosmic gods all looked at the red-robed boy sitting there.

"The Emperor Jiexin is number one?"

"My dearest guest?"

"Thirty-one thousand credits are too much."

"Where did he get so much wealth?"

Dozens of cosmic gods in the hall heard the result announced by Xia Lao, and it turned out that a cosmic **** who was not even a lord won the first place in the second floor, and they were all surprised.

To know

Wang Yi mingled in the camp of Xiafeng Ancient Country and looked at it secretly.

Especially those invincible beings.

Almost all of the invincible beings who entered had clone means. Even someone like the 'Moonflower Lord' practiced the Void Dao to the level of chaos, obtained the top clone technique, and cultivated a second clone. For example, King Nanyun's avatar technique can only be regarded as mediocre in Jiexin Continent, and the threshold for cultivation is too high.

Soon Wang Yi's eyes were fixed.

"Peak Secret Treasure?" Wang Yi looked at the prompt and didn't care much.

There are many peak secret treasures on him now, and they can all be used for exhibition.

For example, if you get a peak secret treasure on the second floor of the ordinary universe god, you can become a 'lord' level.

And Wang Yi is also at the "Supreme Level" now, and he is still a terrifying Lord Level who has mastered the realm of the Illusionary Realm, the Dao of the Universe, and the Dao of Void and the Dao of Destruction at the same time to enter the second level of the Cosmic God!

In fact, he is the cosmic **** of the five paths

According to the experience of the predecessors, there are usually treasures in the halls, but they are also more dangerous.

Wang Yi fell on the small road and was about to head towards the hall in the distance.

"Wow." Suddenly, an invisible wave restrained Wang Yi, and followed Wang Yi to feel an illusion.

The void moves and changes.

This is a huge square, and in the center of the square is a ten-story tower. As for the area around the square, there is white mist everywhere.

Many avatars are hidden in some nearby source worlds. This is also a life-saving method that masters of the Void Dao who can perform the "Boundary Breaking Teleportation Technique" will use!

In other source worlds, the avatars of invincible beings were suppressed in the chaotic state, and they didn't worry about being 'killed' at all.

What's more, in other source worlds, outsiders are restricted in various ways, and they may not be able to find their hidden clones.

Hiding in another source world...none

"About 100 million years?"

"Yeah, almost."

"Emperor Jiexin hasn't come out yet..."

In the Jiexin Shrine, the two masters of the three major families of the ancient Xiafeng Kingdom who are still inside are discussing.

In recent years, the members of the three major families who entered the Boundary Mind Palace have been expelled one after another, even the Lord has been expelled!

In addition to the three invincible existences of Emperor Xia, Fan Zu, and Emperor Cang, these two are also the only two remaining in the Jiexin Palace of Xiafeng Ancient Country.

Wang Yi was in a trance.

In 100 million years, from the fusion of the five meridians of the Void Dao to the perfect fusion of the nine meridians, it has reached the ultimate!

Even if time is accelerated ten thousand times, it is only one trillion years!

Even Wang Yi never dared to think that he could do it before!

"I really did it, entered the ultimate realm?" Wang Yi muttered to himself, as if in a dream.

Many years have passed since he became the **** of the universe, and even among his descendants have become masters of chaos.

Realm Heart Continent.

"Om~~"

The towering Hunyuan Pagoda shines brightly throughout.

Wang Yi, who was on the tenth floor inside, raised his head and looked up. On the inner dome, there was a ball of light twisting and appearing. There was a dark chaotic source power surging inside, and something faintly conceived in it.

Feel the pressure coming from above.

In the light cluster, surrounded by the power of darkness and chaos, a drop of light green liquid appeared, exuding vitality
