"It's you?" Although the appearance of Zuoshanke is different from before, but the soul breath is the same. He didn't hide it at all, and the three food kings naturally discovered it.

"God King of Jin, I didn't expect it to be you. You are behind all this?" The three monarchs saw Wang Yi standing beside Zuo Shanke, and immediately understood what was going on.

Wang Yi was walking in the lush mountains, looking at the distant scenery, the wind was blowing his black hair flying.

"There are only five meridian fusions left on the path of the virtual world and illusion.

When approaching the floating island, Wang Yi felt a cold and strange atmosphere, which made him very uncomfortable

Moving forward, Wang Yi occasionally found the appearance of the Nemesis Clan. These Nemesis Clans are easy to judge, and each of them is filled with the evil breath of death! The ones found before and after are almost all dark skin.

There are alien beasts, human figures, robes and even weapons. Of course, their weapons are very crude.

"Huhuhu~~" There was a cloud of white mist floating in the distance.

Wang Yi saw a slight discoloration, and came here according to the ancient Xiafeng Kingdom.

Wang Yi used thunder to instantly kill these evil clans, and then rushed to the center of the floating island non-stop. Go straight to the core of this floating island at an extremely fast speed.

"What's going on? Why did a cultivator appear?" A king-level death clan guarding the outermost edge of the clan quickly discovered him, surprised and puzzled.

He is one of the kings in charge of stationing at the outermost edge of the clan.

"What, it's blocked?" Huang was surprised.

The dead people watching the battle from a distance were also shocked.

"This cultivator is so strong."

Huang sent a voice transmission to the Great Elder: "Come and help me."

Other kings don't dare to come over at all, young

Wang Yi, who looked like a young man in a fiery red robe, appeared in the void. Looking at the floating island as big as a sesame seed in the distance, he nodded slightly, "Using the floating island as a reference, the hidden world in front of me is the Long Yue World.

#### [Chapter 1289: cooperate](#)

The Lord of Longyue, dressed in a pure white gauze, her face is elegant and cold, with no expression on her snow-white face, as quiet as a sculpture.

Her eyes were as bright as sapphires, like deep lakes.

Like a glamorous anemone, beautiful and cold.

With a flawless moon shining behind her, she seemed to be the only existence in the whole world.

When she was talking, the black-haired woman and the purple-haired woman of the Longyue tribe beside her were quiet.

#### [Chapter 1290: sweet pastry](#)

Following Wang Yi's soul tricks, the three Longyue women were all shocked.

"Can even influence me?" Master Longyue felt incredible.

Practitioners of the soul path in the Jiexin Continent, such as Fan Zu, with the fusion of three veins, can only affect the king level.

There has never been one that can affect the imperial class.

It is a level leap from the king level to the emperor level. Soul metamorphosis is very visible. In the imperial class, although the strength will gradually increase
