

## **A God 1321**

### [Chapter 1321: Tianxin Building Information](#)

In this God Realm, the three royal families have the highest status.

God Realm... According to legend, it was created by the three Hunyuan ancestor gods.

The three Hunyuan ancestor gods left their direct bloodlines, that is, the three royal families! The three royal families themselves are extremely powerful, and behind them are the unfathomable ancestors of Hunyuan Ancestor God! Naturally, all forces in the entire God Realm are in awe of the three royal families.

The status of the Hunyuan Ancestor God is too special. The people in this God Realm all have the blood of the Hunyuan Ancestor God.

### [Chapter 1322: classics](#)

The corpse of the chaotic source of life in the void is what Wang Yi wants most. In addition, it is the practice classics of the ascension of the void path.

There are eight types of \*\*\*\* emperor-level 'Void Dao' Ascendant classics, five early \*\*\*\* emperors, two middle \*\*\*\* emperors, and one late \*\*\*\* emperor! Of the five types circulated by the outside world, three are from the early stage of the \*\*\*\* emperor, and two are from the middle stage of the \*\*\*\* emperor, and there are many originals.

There are many treasures on Wang Yi's body, but he can "exchange things" and take the treasures to the Dalai Lama.

### [Chapter 1323: Iron Dragon City](#)

Before heading to Iron Dragon City, Wang Yi once again changed his appearance.

Silently, Wang Yi's figure became fierce and ferocious. He was wearing a dark red alloy battle robe. The battle suit had a scale structure, with layers of scales superimposed, while his face was covered with blue scales. There is no hair on the head, but a blue scalp. Its forehead is slightly curved, like the sharp corner of a scimitar! The whole body is blue from head to toe! His back is carrying two handles

### [Chapter 1324: Late God Emperor!](#)

"Take it." The Eldest Young Master waved his hand, and the stored treasure that contained the corpse of the natural Chaotic Origin life flew directly over.

Wang Yi caught it, and his consciousness extended to sense it without being hindered. He saw the huge corpse lying inside the treasure cave like a mountain, and saw the mysterious lines on it, which represented the mysterious lines of the Void Dao, and he couldn't help showing a smile.

He immediately waved his hand, and the black scale floating in front of him naturally flew towards the eldest son, the eldest son couldn't wait

### [Chapter 1325: next stop](#)

"It's just that I've been waiting for so many years, and God Emperor Yanfei has not appeared in the late stage of God Emperor, and there is no news about him in Tianxin Tower." Wang Yi frowned slightly. "Ascendents in the late stage of the \*\*\*\* emperor still have ultra-long-distance teleportation, and the possibility of dying in a corner is extremely small, even the 'Yunfeng City Lord' who is number one on the \*\*\*\* emperor list."

"If you want to kill such a practitioner easily, the only thing you can do is the three Hunyuan ancestor gods."

Wang Yi

#### [Chapter 1326: practice holy world](#)

"Buzz."

Wang Yi felt that the scene in front of him changed, and he appeared in a rather wide ancient hall. In the corner of the hall, there was a magic circle.

I am standing in the center of the magic circle at the moment.

[Ding, congratulations to the host for successfully signing in, and rewarding the map of the holy world of practice. ]

"Another practitioner is here?" A tall and thin man in a black robe appeared in the hall out of thin air and walked towards Wang Yi with a smile on his face.

#### [Chapter 1327: Opportunity to break through Chaotic Source](#)

Wang Yi fell into thought as he looked at the dense dots of light on the 'Map of the Holy World' rewarded by the panel.

If we say that the biggest and darkest one is the strongest 'Master of the Abyss Sea' among the high-level Chaotic Yuan beings.

Then the red one should be the second-class 'chaotic source prisoner', and it is also extremely dangerous.

The blue one should be the God Emperor Consummation level, that is, the semi-chaotic source life form.

As for the green one, it should be the late God Emperor, the middle God Emperor, and the early God Emperor.

#### [Chapter 1328: Panel task, Chaotic blood species](#)

I don't know that Wang Yi is lucky, those Hunyuan beings have never found him.

Seeing the city wall getting closer, Wang Yi had a bold idea in his heart.

He stared at the map, secretly circled around, and stared at a group of Hunyuan beings who were close to the city.

Judging from the breath, the three-headed \*\*\*\* emperor is in the late stage, and the two-headed \*\*\*\* emperor is in the middle stage! And they are all the same group of the black alien-like life that was observed before.

But on the map they show

#### [Chapter 1329: Cold Moon City. Wan Dao Monument](#)

Cold Moon City.

"Thank you, everyone." Wang Yi expressed his gratitude to a team of practitioners who went out of the city to rescue him before.

Although, he was well prepared at the time, and he was almost out of danger and reached the city wall.

But the other party still has to thank him for his kindness in going out of the city to rescue him.

"You're welcome, this is our duty, and even without our help, you can still enter the city."

"Newcomers welcome you to the holy world, but don't die too early

#### [Chapter 1330: big treasure](#)

I think so, but it is not easy to do it.

The five major gathering places are scattered in different regions of the world, and the distances are very far away.

Except when they first ascended, the Reception Hall would help them send them to one of the gathering places. Do you want to reach other gathering places at other times? It's almost impossible! Because the distance is too far, traveling through such a long distance to reach another city... is too difficult, and few strong people do this.

Wang Yi is careful
