

A God 1331

[Chapter 1331: What am I doing here?](#)

As for the matter of going to those cultivators of the void lineage to ask for viewing materials...

If possible, it is best to have these materials yourself.

How long does it take to comprehend a complete Hunyuan life corpse? It's hard to say! Because as long as you are not a Chaotic Source Life, you will never be able to fully comprehend the rules for the appearance of a Chaotic Source Life corpse.

There are tens of thousands and hundreds of thousands of chaotic source life groups in the holy world of practice, and it is relatively easy to obtain a chaotic source life corpse. It is impossible to compete with someone

[Chapter 1332: The Prototype of Half-Hunyuan Life](#)

The special thing about the spiritual sanctuary is that, like the mortal world, there are days and nights, and even the four seasons rotate, although you can't see where the sun and moon are.

A cave mansion in Cold Moon City.

"The Emperor of the Realm Heart will not send it slowly." A woman in red with three eyes smiled and saw off the teenager who had just come here to patronize her.

Wang Yi secretly said in his heart, "One side of food can only be observed for such a short time, it is really expensive enough.

During this time, Wang Yi specially visited the Void Vein cultivators in Cold Moon City under the guidance of the golden-faced man 'She' and the black-winged woman 'Sha Ye', two friends he had just met.

One is to exchange cultivation experience, and the other is to see their collection of materials for the mysterious parts of the Hunyuan Life Corpse Void Rules.

However, the cultivators have different temperaments, some are very welcome and polite to Wang Yi's visit, and they are even willing to generously let Wang Yi observe their collection of Hunyuan materials for free, but some are not very happy, like the 'Heart Fire Palace Master' in the late stage of the God Emperor just now, it is Wang Yi who pays the price to show him.

After coming here for a long time, he discovered that this holy realm, containing the mysterious source life materials of the void, was very much, and from this point of view, it was really a holy place for cultivation.

However, the mysterious materials of the 'Illusory Realm' category are none!

The entire Holy Realm.

There is no innate source life of 'Illusory Realm Illusory Realm', even if other types of Hunyuan life contain part of the body material of the mysteries of the Illusory Realm?

Nor is it either!

The mysteries of the illusory realm are difficult to find even in the Hunyuan life.

Like the Hunyuan life that Wang Yi encountered before, whose body contained the mysteries of the rules of the Illusory Realm, the owner of the Demon Abyss Eye of the Origin Continent, and the existence of the Thousand Eyes of the Broken Tooth Mountain Range were not ordinary Hunyuan life.

Obviously, the Hun Origin Life that contains the mysteries of the Illusory Realm is extremely noble. At least within this holy realm... None!

In the Holy Realm, there are all ethnic groups, and there are many of them! And a large number generally means that the 'blood' is not so noble.

The more the innate source life of the top race, the rarer and rarer the number is generally the rarer.

.....

Wang Yi walked on the spacious streets of Cold Moon City, and the cultivators of Cold Moon City practiced in their cave mansions most of the time, and occasionally went out to hunt Hunyuan life, and they would not stay outside the city for too long, because there were Hunyuan lives outside the city, just walking, it was very dangerous.

If you are discovered by the Hunyuan Life and escape slowly, you will fall into more and more Hunyuan Life siege.

"The nine late God Emperor Void Lineage cultivators have all visited, and there is still the last God Emperor Perfection-level Void Emperor." Wang Yi muttered in his heart.

This 'Void Emperor' is not simple, there are more than three thousand cultivators in the city, and the God Emperor Perfection level accounts for eighty percent, but this Void Emperor's strength can rank in the top dozens, and in 'speed', 'The realm's aspect is very powerful, many of the top powerhouses like this form their own teams to hunt Hunyuan life, but this Void Emperor has no interest in dealing with others, they are all joining the team of other powerhouses, and they usually lurk in their own cave mansion, which is very low-key.

Wang Yi was very appreciative of this kind of low-key and single-minded cultivator, because he was also very low-key.

The Void Emperor's cave mansion is somewhere in Cold Moon City, and at the gate of the cave mansion, there are two Void God strength puppets guarding it.

This puppet servant is brought by the cave mansion, and its strength is weak, but it can also resist the oppression of the world in this holy realm, and it is specially for the cultivators.

But there are only two statues in total.

In Cold Moon City, there are strong people from many worlds, and of course there are those who are good at refining puppets! Just refining some puppets of the strength of the Void God... Even small semi-strong people in the city can easily do it, but it is slightly more troublesome to collect materials in the Holy Realm.

Like Wang Yi taking the Illusory Realm Road, there is still some trouble for others to refine puppet servants, but it is much easier for him, and he directly creates in the 'Void Universe'! Unreal comes straight to reality!

The 'creation' of the virtual universe is conditional, one is to fully understand the most subtle composition of the created matter. If you don't understand and master, you can't create it. The second is to consume enough energy!

Like some extremely powerful weapons, such as the supreme secret treasure, they are refined by the Hunyuan powerhouse, and Wang Yi does not have absolute control over the materials, and the inside of the refined weapons cannot be seen through. Nature cannot 'create'. The more rare it is, the more magical it is, and it is difficult to see all the essence. What can be 'made' is only something more ordinary.

And the puppet who can only live in this holy realm is very simple, as long as it reaches the most superficial level of combat power of the 'Void God'.

Therefore, in Wang Yi's current cave mansion, there are many puppet servants.

"I am the Void Sect Cultivator Realm Heart Emperor, and I came to visit the Void Emperor senior." Wang Yi was very polite.

In Cold Moon City, every cultivator's cave mansion is a forbidden place! Without the consent of the owner, you must not trespass! Throwing it out directly is still a trifle, if you dare to resist, you can even kill it directly! Because the cave mansion is a place of retreat and practice, the rules of Cold Moon City are also to ensure that every cultivator can practice quietly and not be disturbed by anyone.

"Realm Heart Emperor? It seems that he has just come to the Holy Realm. The puppet guard at the gate of the cave mansion dutifully did his duty and spoke, "Please wait, I will report to the master."

Wang Yi waited at the door for a while.

"Realm Heart Emperor, please come in, our master already knows of your arrival." The puppet guard said politely.

Inside the first hall.

Wang Yi sat opposite a man with dark purple hair, the man was dressed in a loose white robe, his hair was scattered, his face was like a crown of jade, a pair of eyes were like the vastness of the starry sky, but it seemed to contain endless wisdom, and there was a mysterious mark at the center of his eyebrows.

"Realm Heart Emperor, before you came to me, you should have met the other nine fellow practitioners, right?" The Void Emperor seemed to see through people's hearts and smiled.

Wang Yi nodded, "I took the liberty to disturb the Great Emperor's cultivation this time, firstly, to exchange the Void Dao, and secondly, for those Hun Source materials collected by the Great Emperor. As

the only God Emperor Perfection-level Void Dao enlightener in Cold Moon City, he had the most Void Mysterious Source Materials in his collection, and even got a lot from other cultivators in Cold Moon City.

The Void Emperor said, "Yes."

The Void Emperor was indeed very good at speaking as recorded in the message, and even made Wang Yi feel peaceful and close.

This exchange also benefited Wang Yi a lot.

After all, this was the first living powerhouse he had encountered who had reached the level of God Emperor Perfection in the Void Dao, although it was only physically achieved, but not in terms of rules and tricks.

Visiting all the Void Dao cultivators in the city, Wang Yi returned to the cave mansion, completely immersed in cultivation, the Void Origin Life he brought from the Thunder World, although he occasionally studied it, but it was difficult for him to gain obvious gains.

However, these brand-new many Hunyuan life materials gave him a lot of comprehension every day, making his progress in 'Hunyuan refining body' faster than expected.

It was quickly figured out for a short timeThe method of maintaining the 'late God Emperor flesh'!

Only six thousand years after coming to the God Realm, he had restored his body to the 'late God Emperor' level, which was absolutely stable.

But then... But it fell into a bottleneck. From the 'late stage of the God Emperor' to the half-source life form, the physical body is extremely difficult to break through, and it is clear that his perception is constantly accumulating. However, it is impossible to achieve a half-source life form.

More than 10,000 years later, he visited the Void Emperor again, taking the corpse of the Void Origin Life that was difficult for him to gain, and exchanged it with the Void Emperor for a large number of Mysterious Hunyuan Materials containing the Void Rules, as well as the corpses of the two-headed God Emperor Perfection-level Hunyuan Life.

This is not in the cultivation holy realm, the unique Hunyuan Life Corpse, the Void Emperor is also a great joy, naturally and Wang Yi have changed.

With these, Wang Yi had enough food for at least a long time, and he didn't have to rush out to hunt, and he could cultivate with peace of mind.

The days go by.

"Complete."

"Below the life of Hunyuan, an absolutely complete body?"

Wang Yi continued to understand, and as his accumulation became more and more abundant, he also had some ideas. According to some ideas, he began to try cultivation!

Try the route of the semi-turbid life form again and again.

Failure after failure.

He was not in a hurry to create a method of half-Hunyuan lifeform at one time, as long as there was a rudimentary form, it was as if the versions of the "third layer of Hunyuan refining body" were constantly improving, from the king-level consummation to the current late stage of the God Emperor.

The method was created, and if it did not balance collapse and recovery, it would not be able to support the battle.

Snowflakes were flying outside, the entire Cold Moon City was covered in silver, and in the quiet and warm secret room of the cave mansion, Wang Yi's body sitting cross-kneeled suddenly changed.

"Boom."

The body has become burly, scales appear on the surface of the body, and the arms and thighs are much thicker... The skin of the whole body is faintly glowing with gray halos, and the breath is majestic.

At this moment, many subtle components in the body are disintegrating.

This is the new flesh method created by Wang Yi for the forty-ninth time.

"Huh? The disintegration amplitude can still be withheld! With my body, it should be able to support a quarter of an hour before it completely collapses? Wang Yi showed joy, he tried again and again before, he didn't even dare to try it all over.

The best one that can do a full body try, can only support half a breath time, and the body will collapse! Too short.

It can last a quarter of an hour! There is already a combat meaning!

[Chapter 1333: Crying and shouting for Daddy](#)

The strength of the late God Emperor enlightener is comparable to the God Emperor Perfection Level, and the creation of this 'Half-Hunyuan Life Prototype' flesh method means that Wang Yi can also briefly burst beyond the general God Emperor Perfection level strength.

The next step is to continuously improve this refining method to make the maintenance time longer... When the body can exist completely stably and no longer disintegrate internally, it is the moment when the semi-source life form is fully achieved, which represents the extreme of 'below the source life'.

Wang Yi then continued to practice, but his progress was minimal.

Time flies.

This day.

"There's not much food left, it's time to go out hunting." Wang Yi stood in the courtyard of the cave mansion, looking at the city wall, and thought to himself.

If it weren't for the fact that he had a deal with the 'Void Emperor' before, and exchanged a lot of food, he would not be able to practice in the city for so many years, and he should have gone out to hunt and adventure a long time ago.

According to Wang Yi's idea, if you want to continue to improve, first, you have to spend enough time to improve slowly, and in this holy realm, if you want to practice at ease for a long time, you must prepare enough food.

Second, he had to collect more Void Dynasty God Emperor Perfection-level Hunyuan Life Corpses, and even get a Void Vein's High-grade Hunyuan Life Corpse!

According to intelligence, among the prisoners of Hunyuan ... There are three of them in the Void Vein.

In the Holy Realm, there are thirty-eight Hunyuan races in the Void Lineage! However, only the three strongest races in the Void Vein have Hunyuan Prisoners.

Hunyuan prisoners, although they are all high-grade Hunyuan lives! True strength, you can easily kill the cultivators of the cultivation holy realm with a flip of your hand, but after all, they are all imprisoned, and the farther away they leave the lair, the stronger they are punished, and the lower their strength! The entire Holy Realm... Among the many Hun Origin prisoners, the most terrifying 'Abyssal Sea Master' is desperate. But in addition to the owner of the Abyssal Sea, it is still possible for other Hunyuan prisoners to be killed.

In fact, the most terrifying 'Abyssal Sea Master' has not been killed in history, but it is the power of gathering a city or even more cultivators. That's what did this feat.

Challenge with a team alone? That's whimsical!

It is the message left by the great lord... As long as they successfully kill the master of the Abyssal Sea, the cultivator who has contributed the most can get amazing rewards.

The biggest opportunity in the Holy Realm is to kill the master of the Abyssal Sea, as long as the master of the Abyssal Sea dies, the one with the greatest merit among all the cultivators will be blessed by the Great Lord! If it is a cultivator of the Hunyuan bloodline, almost ten out of ten can finally awaken! Even enlightened people can get amazing rewards, such as the lord's help, so that enlightened people have the opportunity to preach and master a source world? In a word..... This is enough to drive every cultivator crazy.

Of course killed one! There will also be a new Abyssal Sea master, this holy realm was created, just to sharpen the cultivators, so that a group of the top cultivators can make a breakthrough in the grinding, although there may be a lot of deaths, but as long as a Hunyuan powerhouse is born, it is worth it. But those who came to this holy realm voluntarily were also mentally prepared.

The great lord created the Holy Realm and left such a harsh living environment, naturally he also felt that grinding in life and death would also help 'Achievement Hunyuan'.

Wang Yi pondered in his heart, "According to the tasks released by the panel, if I collect the blood of 10,000 Hunyuan Beings and one High-grade Hunyuan Life, I can be promoted to a High-Level Hunyuan.

But it is difficult to do this by one person, preferably with the help of other people.

"I have to show my ability so that those practitioners value me and are willing to do things for me."
Wang Yi nodded.

Well, it's better to let them cry and shout for their own dad.

.....

"Hunting team." Wang Yi immediately investigated through the summons treasure. The latest hunting team was established by the 'Wuhua Ancestor God', and the ultimate goal was to kill a god-emperor-level Hunyuan life 'Nine Tinxing Worms', with at least 50 candidates to be selected. Forty-nine practitioners have now applied.

"It's a coincidence, it's just one worse." Wang Yi immediately issued an application.

Follow the rules. The hunting party will go all the way, kill a target, and then return. On the way to and from ... Naturally, you will encounter other Hun Yuan Beings, and you will also get food from the battle, and when you return, you will distribute food according to the respective contributions of all members during the entire battle! The 'Cold Moon Hall Instrument Spirit' will easily check all the battles on the way back and forth of the entire hunt and distribute them fairly, and the founder of the 'Nine Tin Star Worm', the ultimate target of the hunting team, is eligible to be directly selected! Of course, when the food is finally distributed, the party builder needs to make up for the other members.

'Nine Tin-Star Worms', this is also a group with a relatively noble bloodline in the lives of all the Hun Yuan in the Holy Realm. The blood is noble, representing strong strength, strong life saving, and difficult to kill. Therefore, Wuhua Ancestor God formed a team to gather everyone's strength to hunt.

Without Hua Ancestral God, his strength is also qualified to rank in the top dozens in Cold Moon City.

This is also a common thing. The top powerhouses need some kind of Hunyuan Life Corpse to help cultivate, and the other cultivators need food and take what they need.

After Wang Yi applied, suddenly the list of hunting teams this time increased by one, becoming fifty! This message was transmitted to all the cultivators in Cold Moon City at the same time.

.....

'Gu Yuan' is meditating in the underground hall of his cave mansion.

At this moment, he is not in human form, more like a flood monster, the surface of his body is covered with cyan scales, the golden unicorn on his head is constantly flashing light, exuding a powerful aura, some body parts faintly show subtle Hunyuan rules mysterious, it is obvious that Gu Yuan is walking the bloodline route, or there is a Hunyuan bloodline in the body!

"Huh?" The giant beast suddenly opened his eyes, and he also directly received the message from the Cold Moon Hall Artifact Spirit.

"The line is full?" The giant beast figure in the underground hall disappeared, and a blue-robed man with cyan skin and golden unicorn appeared.

He groaned slightly, "The last one to join is the Realm Heart Emperor?" The newcomer who recently joined Cold Moon City? Gu

Yuan didn't care too much, when he first came to cultivate the Saint Realm, the strength of the Heart Emperor Monarch in this realm was estimated to be too strong, and he might be the strength of the late stage of the God Emperor.

"It seems that I have never seen this Heart Emperor go out to hunt, and I don't know where he got the food." Gu Yuan was very envious.

"There is too little food, this time join the team and go out of the city to hunt, although the distance is long and dangerous, but there is also hope to save more food." Gu Yuan muttered in his heart.

It is not easy for an ordinary God Emperor to hunt and accumulate food in the Holy Realm, not to mention that he is a late God Emperor without a backstage.

Many times, Gu Yuan was hungry and full, often hungry, and even borrowed food from friends to survive.

"It would be better if I could turn to any strong person, the founder of this team, Wuhua Zushen, is very strong, but unfortunately, she is not willing to accept me." Gu Yuan sighed in his heart.

In the entire Cold Moon City, the top dozens of them almost all had a group of cultivators to turn to! Ranked in the top dozens, the strength is probably the level of 'God Emperor Perfection-level Enlightener', and there is not much difference.

There are more than 3,000 cultivators in the city, and there are still many who are willing to turn to them, in fact, including the 'Wuhua Ancestor God', even if there are cultivators who turn to them, they will not easily receive their subordinates. Because once they receive their men, they need shelter and even food.

"I think I was big at OriginLu is invincible, at ease, honored as an ancestor, no one wants to come to this ghost place, no one wants to surrender. Gu Yuan sighed secretly in his heart.

I don't know when a golden thigh guy will appear, willing to take him in, life is too miserable.

[Chapter 1334: Emperor Jiexin is really a best friend in life](#)

The list of hunting teams includes the establishment of the team 'Wuhua Zushen', which was immediately raised to fifty-one, meeting the minimum number of people set for this hunting team. Come to the message and come to the Hanyue Hall to meet.

Many people have gathered in the hall of Hanyue Hall at this moment, and there are practitioners coming here one after another.

Wang Yi stepped into the hall, and saw at a glance a red-haired snake-body woman 'Wuhua Zushen' surrounded by everyone.

At the same time, he also found that besides him, a late-stage **** emperor (who can burst into the full body of a **** emperor for a short time), there is only one blue-skinned man with a golden one-horned burly blue robe, who is a late-stage **** emperor.

After all, this time is different from going out of the city to hunt and kill. It is only near the city. It is to go to a very far place to take the risk of finding the "Jiuduixi Xingyin" to kill. God Emperor Consummation will also consider it.

"Emperor Jiexin, I am Gu Yuan." The burly man with golden horns came over on his own initiative.

"Hello, Fellow Daoist Gu Yuan." Wang Yi smiled.

Gu Yuan expressed emotion: "Emperor Jiexin came to Hanyue City not long ago. This is the first time he has gone out to hunt, right? If you dare to join the team of Wuhua Ancestor God and go hunting in a distant place, the means must be extraordinary."

Wang Yi said: "Isn't it the same for fellow Daoist Gu Yuan?"

Gu Yuan heard the words but showed a helpless expression: "I am different from you, Emperor Jiexin. To be honest, if I don't go out again, I will have nothing to eat."

Following Gu Yuan, he began to pour out bitter water.

The other party spoke in a funny and nice way, and seemed to have a straightforward temper, but Wang Yi didn't find it annoying.

Gu Yuan thought in his heart.

"Well, after getting acquainted with this Emperor Jiexin, there will be one more person who can borrow money in the future."

Gu Yuan can't do anything about it. God Emperor Consummation generally doesn't like him, and most of God Emperors are not close to him in the later stage. He borrows everything that can be borrowed recently. He can only target the newly arrived Jiexin Emperor. .

When the other party first came to Cold Moon City, he was able to hide in the city and practice without seeing him, so there was a way to get food.

He faintly wanted to make friends, win the favor of Emperor Jiexin, so that he could borrow food in the future, so Gu Yuan would talk about everything.

"In this Cold Moon City, because we often go out to hunt Chaotic Yuan life forms for food. The outside world is too dangerous, so we form a team every time." Gu Yuan said, "When forming a team to act, the most important thing is to You have powerful means that no one else has, and can be of great help to the team."

"There are about 80% of the strong people in the city, all of whom are at the consummation level of the God Emperor." Gu Yuan said helplessly, "So, you need to be very strong in a certain way to be invited by all parties, and even the final spoils can be divided into a very high share. People like me can only be regarded as ordinary members, although their bodies are extremely strong and their life-saving is not bad, but they are of no help to the team, and the life of other **** emperors in the later stage is better than mine."

"Now, we join the team of Wuhua Ancestor God, and we are going to kill the God Emperor Consummation level 'Jiuduixi Xingyin' far away from the city."

"The difficulty of killing 'Jiuduixi Xingyin' ranks in the top ten among all the chaotic source life groups in the holy world, especially the long journey, and there are many territories of chaotic source life on the way, which is full of dangers. It can be seen that this time The action will not be so peaceful." Gu Yuan sighed, "Emperor Jiexin, you and I are the only two late-stage **** emperors in this team. In danger, others may not try their best to help us. We have to help each other to be safe. Back to town."

Wang Yi nodded, seeming to agree with Gu Yuan's words.

Seeing the appearance of Emperor Jiexin, Gu Yuan felt even more relieved, "I don't know why, but when I saw Emperor Jiexin, I felt very attached to each other, as if meeting an old friend from my hometown. If you and I had known each other earlier, maybe We are best friends now. However, it is not too late."

Wang Yi also knew that this ancient source came from a certain source world. He was already invincible in his world, but because he was too lonely and longed for a higher level path, he left his hometown and came out to take risks.

But looking at his current situation, it seems that he is living in a very desolate life.

"Emperor Jiexin, if you want, you can find a way to seek refuge with Wuhua Ancestor God, or other top powerhouses. Of course, the city lord and the two deputy city lords are the best." Gu Yuan couldn't help but suggested, "Our weak God Emperor late stage, the last It's a good thing to take refuge under the command of a certain strong man and get shelter, and the days to come will be much easier." He laughed at himself, "It's a pity that I am not strong enough, and I took the most superficial route of awakening the Chaotic Origin Bloodline, and the methods are ordinary. Willing to accept."

"Take refuge?"

Wang Yi looked at the gorgeous red-haired woman surrounded by the crowd. Wuhua Ancestor God can be ranked among the top ten in Cold Moon City, so she naturally has a team under her command. Counting Wuhua Ancestor God, her own team has a total of eighteen people.

In fact... To recruit a fixed team, you need to consider the cooperation of the team's strong players, as well as the large amount of food to maintain so many strong players. According to the long years of experience in Cold Moon City, a fixed team is generally maintained at around 20 practitioners, and almost never exceeds 30.

Therefore, every new recruit, the manager will be very cautious, if they do not have enough means, they will not accept it.

As for the most powerful city lord and the two deputy city lords.

It is rare for them to go out of the city once, but once they go out of the city, the harvest every time is amazing. Because their team is very strong! Not only are they themselves strong, but the companions they recruit are also extremely strong. They are either recruited from the top dozens of strong men, or some masters with unique skills in Cold Moon City. The whole team cooperates...it is naturally terrifying.

"Take refuge?" Wang Yi just smiled disapprovingly.

With his method, although it can only temporarily explode in the physical body of the "semi-chaotic source life form", his method of illusory world and illusion is not available to other powerhouses!

The entire Cold Moon City is gone!

The entire holy world of practice is gone!

In the entire infinite chaotic source space, it is not known whether there is anyone who has reached the same level as him.

This is Wang Yi's confidence.

According to Wang Yi's understanding, the Hunyuan life in the late stage of the **** emperor can only exert 30% of its strength with its current soul skills, which is similar to that in the middle stage of the **** emperor. The perfection level of the **** emperor will also be weakened, which may be comparable to the late stage of the **** emperor!

This is because they are born with strong souls! Hunyuan Life's physical body is too powerful by nature, all the rules and tricks contained in the body are used, and it doesn't need to be distracted to control so much strength to retain so much strength!

Especially, the least afraid of group attacks!

Such soul domain tricks are useless in front of him.

Such means, no matter which team in Cold Moon City, are extremely needed.

What are you most afraid of encountering when you go hunting? Of course it was besieged by countless Chaotic Source beings!

One-on-one, that is, the practitioners in the late stage of the **** emperor are not afraid of the **** emperor's consummation of the chaotic source of life. Generally, life preservation is no problem~www.mtlnovel.com~ If you are a late **** emperor enlightened person, you can also play the **** emperor's perfection level force!

However, if caught in the endless siege of chaotic sources of life, even the top masters like the city lord and deputy city lord may fall!

But if there is a soul master like Wang Yi joining, then the safety of going out to hunt and kill will be guaranteed, and it will even be easier to hunt and kill those Hunyuan beings!

It's safe! Great harvest!

There is such a skill.

Does he need to rely on others?

Shouldn't someone be crying and begging him to join?

As for encountering danger outside the city... How could Wang Yi, who has a panel map message and can see the situation of the holy world of practice at any time, be in danger?

It can even easily hunt and kill those Chaotic Source beings!

To put it bluntly, if Wang Yi builds a team, it will definitely be the most efficient and safest hunting team in the entire practice holy world!

[Chapter 1335: out of town hunting](#)

The 'Wuhua Ancestor God' who was surrounded by everyone walked away at this time... his tail twisted and swam out, his eyes swept over Gu Yuan, and looked at Wang Yi. "Emperor Jiexin, you are joining my team for the first time, so I don't know what you are good at?"

Wang Yi said: "I am a little proficient in soul tricks." He is not in a hurry to expose himself, anyway, he will have a lot of opportunities to open the eyes of these people when he goes outside.

Soul means? Wuhua Ancestor God didn't care too much, and the others didn't think how powerful this Jiexin Emperor would be. It's not that there are soul tricks in the entire holy world of practice, but those with great power are rare. After all, the path of the soul is notoriously difficult to walk, and many of the things that can be used are similar to supernatural powers brought by one's own chaotic source blood, which are not created by one's own enlightenment, and it is even more difficult to improve.

In the entire infinite chaotic source space, in terms of soul, there are only one step away from the ultimate, although there are hundreds of them.

But there may not be one who created the third ultimate move like Wang Yi, which can affect the perfection of the **** emperor.

Even so, Wang Yi didn't feel complacent at all.

On the Dao of the Illusionary Realm, although I am amazing, I can greatly reduce the strength of the God Emperor in the late stage. , if it is a enlightened person of the **** emperor's consummation level, everyone's soul and mind are amazing, and it is very good to be able to influence two or three achievements.

Even on combat strength. Although the physical body is barely at the level of a semi-chaotic source life body, but his own realm has not yet reached, and the tricks he uses are all lacking. Compared with the real "Half Chaotic Source Life Body Enlightened Taoist", I am afraid that the opponent's strength is only 70% to 80%. If you don't count the soul tricks, you can only be at the bottom of dozens of top powerhouses.

Of course, if you count the soul tricks, the strongest combat power that explodes in a short period of time can also be ranked among the top few. After all, even with all his strength, he can still overwhelm him, probably at the city lord level.

But what is most against him is when his illusory world descends. The souls of all enemies within the range are dragged by the illusory world, unless you actively avoid the influence on some enemies. Soul tricks are aimed at all enemies, one thousand heads, three thousand heads, ten thousand heads, the number is meaningless in front of him.

In this team, there are eighteen strong men headed by Wuhua Ancestor God on one side, and thirty-three people including myself, all of whom are idle practitioners. Some idle practitioners are aloof and disdain to join any party. There are more that are carefully selected by the top powerhouses, and they cannot be selected at all.

Life is not easy for these idle practitioners. So although we all know that 'Wu Hua Zu Shen' is going to hunt and kill the very difficult 'Jiu Dui Xi Xing Yin' this time, but the risk is high, and the reward will not be small. People make money and birds die for food, and practitioners are no exception.

"Let's go!" Ancestral God Wuhua, as the team builder, said something on the scene and gave a warning before he gave the order. Whoosh whoosh... A total of 51 figures, including Wang Yi, turned into phantoms, quickly crossed the city wall, and flew out of the city.

Flying along the way, Chaotic Source of Life was detected from a distance, and this team also avoided it early. The flight speed of the team is sometimes fast, sometimes slows down, and sometimes goes around.

In the team, there are those who are good at speed, leading everyone to move quickly, and those who are good at detection, they can detect the surrounding Chaotic Source life form far away, and evade in time.

Wang Yi felt relieved that no danger was encountered along the way.

However, the purpose of Wuhua Zushen this time is to "Jiuduixi Xingyin", which is an extremely dangerous place, so she has limited the number of people in this team to at least 50! Because there is less, she is not sure.

Gu Yuan next to him saw the Emperor Jiexin's relaxed expression on his face as if he was on an outing, and secretly shook his head. This Emperor Jiexin had never come out to hunt, so he probably didn't know what was going to happen next.

"If you really encounter a big crisis, everyone can't protect themselves. If you only care about yourself, no one can help you." Gu Yuan thought to himself.

After all, he and the Emperor Jiexin had just met each other, and they didn't have a deep friendship. If they really encountered a life-and-death crisis, they would not be able to take risks for each other.

And Wang Yi also looked at the map on the panel. The most obvious thing on the map is the huge black dot and the much smaller red dot. There are dozens of them. Chaotic source prisoner.

The vicinity of the lair of the "Chaotic Source Prisoner" is very dangerous, and a large number of Chaotic Source life groups usually gather. The route map of their flight along the way is very carefully arranged, and it is very far away from any lair of Chaotic Source Prisoners!

For Wuhua Ancestor God and the others, if they encounter a large-scale Hunyuan life group, and the God Emperor has hundreds of thousands of consummation levels, even their team will be destroyed!

Hunting outside the city, the most fundamental point - don't love to fight! Because there are countless Chaotic Yuan beings, the longer the delay, the more and more people will be sieged, one hundred, two hundred, five hundred, one thousand... If you delay for a day or two, tens of thousands of Chaotic Yuan beings will be sieged. It's normal! At that time, no matter how strong a practitioner is, he will surely die under the boundless chaotic source of life.

Time flies, covert tracks, flying all the way.

This team is very strong, and there was no crisis on the way. Wang Yi came out to fight this time, one for food, and the other is to sharpen himself, but it has been very easy along the way.

Since he was not in fatal danger for the time being, he didn't immediately expose his soul tricks.

In a blink of an eye, it's been a day since I left Cold Moon City. Although I also encountered some dangers, I encountered several large-scale Hunyuan life groups who were entangled. But because the team is strong enough, it took some effort to throw off the pursuit.

Finally, he arrived at the target 'Jiuduixi Xingyin'.

Wang Yi can't see it. Although he has a panel map, he can only see the opponent's location, but the specific situation is not clear unless he uses the Illusory Realm of Illusion.

But the members of the team who are good at scouting have clearly seen the strange insects with nine lines on their bodies crawling around in the swamp in the distance, with starlight flowing.

'Wuhua Zushen' stopped the team~www.mtlnovel.com~ said with a solemn expression: "Everyone, according to the investigation, there are some 'Jiuduixi Xingyin' ahead, a total of thirty-seven heads, eighteen of which are God Emperor Consummation Level."

"Only eighteen **** emperors at the perfection level?" The members of the team were overjoyed. This time, the target belonged to a Chaotic Yuan life with a more noble bloodline. As an individual, it was far more difficult to deal with than other Chaotic Yuan beings.

But I can't stand it...the quantity is small!

There are fifty **** emperor consummation ranks in their team, namely Wang Yi and Gu Yuan. Although they are only in the late stage of **** emperor, they still have the combat power of "divine emperor consummation rank".

"As long as we kill a **** emperor to complete the level, we will return immediately, and please do your best." Ancestral God Wuhua said.

But Wang Yi looked at his map with a frown...

Although the scope of investigation in the team is large, there is still a distance. After all, the rules of the holy world suppress all aspects.

But through the map, Wang Yi can see that although the Hunyuan beings in the vicinity are far away, the number seems to be a bit too dense...

[Chapter 1336: 9? Duan? Star worm](#)

Although he knew it, Wang Yi couldn't directly remind him that the team had already started.

The 'Jiuduixi Xingyin' in the swamp also found them.

The battle broke out in an instant.

Fifty-one practitioners have the upper hand against such a group of 'Jiuduixi Xingyin'.

After all, the weakest cultivators are almost all God Emperor Consummation, and they are good at different things. With the cooperation of each other, they can complement each other.

It's just that the practitioners are not complacent.

Because other Chaotic Source beings in the distance also got the message, and they are also rushing here quickly.

"kill!"

Among the practitioners, Wuhua Ancestral God, with the assistance of a group of companions, and according to the pre-planned plan, attacked frantically around a "Jiuduixi Xingyin" of the perfection level of the emperor.

The rest of their team resisted other 'Jiu Dui Xi Xing Yin' to create a good environment.

Wang Yi and Gu Yuan also stopped a "Jiuduixi Xingyin" of the level of a perfect **** emperor, and fought frantically.

Their attacks rained down on the surface of 'Jiuduixi Xingyin', and the starlight rippled like water waves.

This starlight can not only protect the body, but can also be released to form a field, which is very difficult to deal with.

"What a strong physical body." Wang Yi couldn't help being speechless. "My normal attack can't even break through the defense. It's hard to hurt it. I have to use tricks that penetrate the starlight to effectively hit the opponent."

Fortunately, they are practitioners, with mysterious tricks and many means, and they can barely support them.

"Peng!" Gu Yuan's body was ruthlessly swept by the tail of 'Jiudui Xi Xing Yin'. His body surface was sunken, and he was swept away like a cannonball. He spit out a mouthful of blood, but he still flew back as if nothing happened. He also recovered in a blink of an eye under the tyrannical vitality, but it didn't affect his strength.

What Gu Yuan said was right, he couldn't fight head-on, but he was very strong in protecting his life.

According to Wang Yi's observation, Gu Yuan's physical defense is much stronger than his. Maybe the point of "life-saving" is better than some **** emperors.

Or relying on this, Gu Yuan was able to survive in the cruel holy world until now.

However, in such a fierce life-and-death battle, Wang Yi tried his best to force himself to use stronger Void Dao moves, completely devoting himself to a natural fighting state, and various inspirations burst out in his mind.

If one wants to achieve the 'semi-chaotic source life form', not only does the body reach the extreme below the chaotic source life form. The tricks that contain the Dao of the Void must also reach the extreme! Perfecting the tricks... perfecting the physical body... are actually the promotion of Tao!

Gu Yuan is not as fanatical and immersed in the battle as Wang Yi. After so many years of practicing in the holy world, he has long been tired of fighting to the death, because it is really possible to die.

Unlike Wang Yi, he has a clone in the Origin Continent, and when he dies, he really dies.

But he is also madly pestering the terrifying 'Jiuduixi Xingyin', first because this 'Jiuduixixingyin' can't kill him temporarily, it can only be killed if it completely injures him instantly or exhausts his vitality, The second reason is that the Artifact Spirits of the Cold Moon Hall distribute the spoils according to their efforts in the battle.

For food, Gu Yuan is also desperate.

"Boom! Boom!"

The battle is very fierce, these 'Jiuduixi Xingyin' are the weakest in the late stage of the **** emperor, even if the **** emperor is perfect one-on-one, it is difficult to kill them, and the 'Jiuduixi Xingyin' of the **** emperor is the most powerful in the team The Wuhua Ancestor God is not sure to kill one-on-one!

Therefore, we can only rely on siege!

Wuhua Ancestor God stared at the target, her fiery red hair danced wildly, and her aura had soared to the extreme, which proved that she had gone all out. This hunting operation was carefully planned by her for a long time, and she absolutely cannot afford to fail.

It is not so easy to kill a 'Jiuduixi Xingyin'!

The value of one 'Jiuduixi Xingyin' is generally equivalent to several other Hunyuan beings of the same level!

"The key to 'Jiudui Xi Xing Yin' is the life core in the body, but the life core walks among the nine lines of the body during the battle. With the different powers of 'Jiu Dui Xi Xing Yin', 'Jiu Dui Xi Xing Yin' exerts different powers. Xi Xingyin's life core will appear in different parts, which is not under its control and can be used." Wuhua Patriarch God and these besieging practitioners have already figured out the target's weakness, and they are all prepared.

But 'Jiuduixi Xingyin' is also extremely intelligent Hunyuan beings, they are not stupid, and they still don't forget to protect their own weaknesses in fierce battles.

So if you want to attack the life core, you must break the self-defense of the 'Jiu Dui Xi Xing Yin', and forcibly destroy the life core to kill it.

The battle between the two sides was fierce, and the Chaotic Source beings around the other side also frantically rushed over, causing the team members who were always in charge of scouting the four directions to send out anxious urgings.

"Captain, the latest wave of seventy-seven-headed Jiuduixi Xingyin' is coming and getting closer."

"Captain, hurry up and kill, or I'm afraid there won't be enough time."

From Wang Yi's perspective, it can be seen that with their battlefield as the center, there are a large number of densely packed Hunyuan beings in all directions.

This is also the reason why most cultivators dare not hunt easily in the distance outside the city, because they are easily besieged by a large number of chaotic origin beings, and it is difficult to escape even if they escape.

Not long after, the first batch of 'Jiuduixi Xingyin' arrived, more than 70 'Jiuduixingyin' joined, especially half of them were God Emperor Consummation level, which made everyone present feel powerful pressure.

Practitioners are slightly at a disadvantage.

And the 'Jiuduixi Xingyin' was too much to bear under the siege of many practitioners almost regardless of the cost.

Its life-saving is powerful, but it also has a limit. These practitioners are almost stronger than it. Together, they crush it. It can only shrink back and rely on its natural ability to save life as much as possible, but now it feels like it can't support it anymore. .

"Help me." It began to call for help to its companions.

Those surrounding 'Jiuduixi Xingyin' all received the call for help, and rushed towards this side frantically, and were stopped desperately by other practitioners who were in charge of stopping it.

"It's going to be unable to hold on anymore, and has already asked for help from its companions." The Wuhua Ancestral God was overjoyed.

Wuhua Zushen and the others thought well, this 'Jiuduixi Xingyin' has been seriously injured, and only 20 to 30% of its vitality is left.

Their many means, or restraint, or penetration, or erosion, all kinds of means are still maintained.

Under the bombardment one after another~www.mtlnovel.com~, the Jiuduixi Xingyin, who had no companion to rescue him in time, completely annihilated his soul breath, and the starlight on the surface of his body also dimmed, completely losing his vitality.

"It's done."

"Hahaha, finally dead."

"This Jiuduixi Xingyin is really hard to kill."

Wuhua Ancestor God and other practitioners were overjoyed. Wuhua Ancestor God waved his hands in relief and directly put away the coveted corpse of Jiuduixi Xingyin, and at the same time sent a voice transmission to each member, "The target is achieved, everyone quickly leave the battle, we hurry back !"

Wuhua Patriarch God ordered that everyone no longer love to fight, and tried their best to get rid of the constant fleeing while fighting. The advantage of fleeing while fighting is that you can choose your own escape route, and try to get rid of the other Chaotic Source beings who came to besieged.

But at this time, Wang Yi also saw Chaotic Source beings appearing nearby on the panel, and the number was astonishing.

This team was clearly surrounded. If you want to escape, I'm afraid it won't be that easy.

[Chapter 1337: Terrible Jiexin Emperor](#)

In addition to the Jiuduixi Xingyin that Wuhua Zushen took away, the other eleven other **** emperor late stage Jiuduixi Xingyin were killed, and their hunting team finally got rid of the remaining large group of Hunyuan. The entanglement of life, flee away.

"Haha, get rid of it."

"The harvest is okay."

Many practitioners thought they were safe and smiled.

It's just that Wang Yi knew that this was the beginning.

As Wang Yi expected, it didn't take long for the practitioners to discover that there was a chaotic source of life blocking the way.

"Wuhua, be careful, a group of ant dragons in front of us sensed our team and are killing them." One of the Cyclops in charge of the investigation sent bad news.

Wuhua Ancestral God's face was serious. "how much?"

"One hundred and sixteen were killed first, and there are more ant dragons coming quickly in the distance." The one-eyed dragon man said through voice transmission.

"Blood Flying Bee." Wuhua Zushenlian ordered, "Take everyone on the road with all your strength." More than a hundred ant dragons are nothing, but the number of ant dragons is huge, and it will be troublesome if they all attract them.

"Yes." The woman with insect wings and blood-colored eyes named 'Blood Flying Bee', the fastest among the 18 members of Wuhua's own team, responded, and immediately released her power, and saw the blood-colored power erupting from around her instantly, wrapping There were fifty-one people living in the entire team, and vaguely saw the shadow of a huge insect spreading its wings.

Follow, boom! The speed of this blood-covered team suddenly skyrocketed, more than tripled.

According to long years of experience. Practitioners are very aware of the importance of speed in the holy world. Once danger is discovered, they will burst out at extremely terrifying speeds to escape! Each hunting team specially invites a practitioner who is extremely good at speed, and the speed is far beyond that of practitioners of the same level. The speed of those Chaotic Source beings is also unmatched. Because of the advantage of speed, the practitioners were able to get rid of the chase again and again, escape from the encirclement and so on.

But there is no guarantee that you can escape every time.

If it is a relatively common Hunyuan being, their team of practitioners is confident that they can compete with two hundred 'God Emperor Consummation Level'! Encountering three hundred **** emperors at the perfection level... Even if they fight, they are sure to escape. Four hundred? Once they fight, there will be losses in the team! Five hundred? The casualties of the team are heavy, and it is normal for half of them to die. More than 800 **** emperor consummation level? Once at war. Good luck, a few survived. Bad luck, the whole army was wiped out!

Of course, the extremely powerful Hunyuan life group like 'Jiuduixi Xingyin' can suppress them with nearly a hundred heads, so it's really hard to say who will kill who.

Soon—their entire team saw Chaotic Origin beings appearing in front of them. This kind of Chaotic Origin beings, which are called "Ant Dragons" by the practitioners of Cold Moon City, looked like ants, but they had one after another. Long and sharp tail, its tail is the most aggressive part of the whole body. This ant dragon... wins by numbers. According to the intelligence, there are at least 100,000 ant

dragons living in the vast surrounding area! There was even an 'Ant Dragon' of a high chaotic source life level imprisoned.

"Rush! Don't get too entangled with them, rush over as quickly as possible!" Ancestral God Wuhua urged.

Everyone also understood the characteristics of the ant dragon group, and responded one after another.

The whole team quickly rushed over under the power of the fastest member of the 'Blood Flying Bee'.

And Ant Dragon also found them.

boom! A large group of ant dragons, the smaller ones are about 100 meters high, and the tails are 300 meters long. The largest one was a thousand meters high, like a hill, and they were all crazy, and they rushed towards Wang Yi and the others.

Boom boom boom...

The practitioner side has too much advantage. In terms of individuals, except for the two idle practitioners in the "late stage of the **** emperor", the weakest ones are all at the perfection level of the **** emperor! And that group of chaotic source life forms 'ant dragons' are much weaker. Although they have strong life-saving ability, they are all at the middle stage of the **** emperor, some of them are at the late stage of the **** emperor, and some of them are at the perfection level of the **** emperor. And the side of the practitioner is good at means in different directions, and can cooperate perfectly. Appropriate cooperation can make them burst out with extremely strong combat power. Just like the small team that went out of the city to rescue Wang Yi back then, they combined and easily overwhelmed nearly a hundred ordinary Hunyuan beings. It can be seen how amazing the combat power of a group of God Emperors who have been carefully selected to cooperate with each other is perfect.

Ant dragons? All of them are similar methods, and it is difficult to form a complementarity! In particular, the practitioners only want to leave quickly, and they don't like fighting at all. "Boom—" it broke through as soon as it charged, and the ant dragons were flying around, unable to stop them at all.

But before they could completely break out of this group of ant dragons, they found other Chaotic Origin beings appearing on the edge.

"Everyone be careful." Cyclops' cold voice spread throughout the team, "A large group of 'poisonous dragons' spotted us, more than five hundred in number, and they are rushing towards us."

"More than five hundred poisonous dragons?" Many practitioners in the team were startled.

The poisonous dragon is the name they gave to a kind of chaotic source life form. Because of the tricks they are good at, the chaotic source life forms pose different threats to practitioners! And the poisonous dragon is a kind with a high degree of threat, and the most important thing is that there are still a lot of people encountered this time. If it is an ordinary hunting team, encountering more than 300 poisonous dragons, members may even die in battle! Five hundred... If we really want to fight, I don't know how many members will die, half of them may die.

"How come it came so fast. Besides, it's a bit different from the distribution of Hunyuan life that we knew beforehand." Wuhua Ancestor God's face became very ugly. Originally, their operation this time was very successful, but after encountering so many poisonous dragons, the team might suffer damage.

However, every action cannot be completely as expected, and accidents always happen.

Only Wang Yi knew that the Chaotic Origin beings around were not only poisonous dragons, they were more numerous than Poisonous Demon Dragons, and there were even more terrifying Chaotic Origin beings.

When they found the cultivator, they rushed over excitedly and frantically, like sharks smelling fishy.

Soon, a terrifying aura approached.

Boom, boom, boom, boom... A group of extremely fast shadows appeared in the line of sight, the 'Poison Demon Dragon' was gray all over, like a crawling dragon! Its whole body is covered with spikes, and its back has countless spikes like a huge fan. The tail is very long, and the tail is full of spikes... Wang Yi glanced over it hastily, and he was sure that the poisonous dragon has 1.8 million spikes all over its body. These spikes all contain 'venomous'! It is extremely poisonous that makes these practitioners in Hanyue City, who are generally **** emperors and consummation level, look pale! Because the spikes contained strong poison, the threat level of the 'Poison Demon Dragon' was high enough.

"Kill, kill all the practitioners." The Poison Demon Dragon rushing to the front had cold eyes and sent out a voice transmission directly. They also have extremely high wisdom and show no mercy to practitioners.

"kill"

"kill"

"kill."

All the poisonous dragons were extremely crazy with red eyes, bursting out with extremely strong killing intent.

"Fight! Go out with all your strength!" Ancestral God Wuhua has no choice but to gather everyone's strength to go out now.

"There are so many poisonous dragons." All the practitioners panicked. This time the situation is really bad, and they might be in a desperate situation. It's hard to say whether they can return to Cold Moon City alive.

But practitioners also know that they can't get entangled with these poisonous dragons. The longer the delay, the more Chaotic Source beings will gather nearby, and the chances of them escaping will be lower.

"Fight it!" Some practitioners were jealous.

Wang Yi shook his head, he couldn't do anything at this time.

"Illusory world, come." With a thought in his mind, Wang Yi used his strongest ultimate move of "Illusory Realm of Illusion".

"Boom." The huge illusory world crashed down. Covering all chaotic source life in front.

"What is this..." These chaotic source life forms, the 'poisonous dragons', felt that an illusory world was crazily dragging their souls, wanting to drag their souls down, sinking in that illusory world.

These poisonous dragons immediately resisted instinctively one by one, and there was a rumbling... The poisonous dragons who had swooped across the sky and howled to kill them, some extremely weak "God Emperor mid-stage" series rolled and smashed on the ground. On the ground, the breath of life was annihilated, and he was killed on the spot!

Even the poisonous dragons in the late stage of the **** emperor lost consciousness and fell on the ground, and they were also killed.

blink of an eye.

Of the more than 500 poisonous dragons that rushed to the front of the team, 51 of them died in one fell swoop! Other poisonous dragons, like those in the later stage of the **** emperor, have only 30% to 40% of their strength left, and only 10% to 20% of their strength left. As for the Poison Demon Dragons of the God Emperor Consummation level, they all spent a lot of effort to resist, and their strength also dropped a lot, only about half of what they were before.

The poisonous dragons rushing over were all shocked.

"How can it be?"

"There is a terrifying world pulling our souls. If we want our souls to sink into that huge world, I only have 20% of my strength left."

Some poisonous dragons in the late stage of **** emperors were so frightened that they started to retreat. They are also extremely intelligent, and it is clear that only 10 to 20% of their strength is left, and they are easily slaughtered when they meet those practitioners.

The practitioners of Wuhua Ancestor God's team were all ready to fight to the death. However, they felt a terrifying soul power suddenly burst out from the Emperor Jiexin around him. Sweeping everything, covering the poisonous dragons ahead.

Then, there was a scene that left them dumbfounded.

Dozens of poisonous dragons suddenly fell down for no reason~www.mtlnovel.com~ More than a hundred poisonous dragons turned their heads and retreated.

Even the speed of the remaining poisonous dragons slowed down slightly, as if they were shocked by the sudden situation in front of them.

"what happened?"

"Why did those poisonous dragons suddenly fall down?"

"Did the Emperor Jiexin make the move?"

"Is this a soul trick?"

They all felt incredible, although they felt the burst of soul power just now, but the burst of power deliberately avoided them, so they couldn't feel the real influence and power.

The practitioners couldn't help but look at the young man in the team with a calm face.

"Emperor Jiexin is so terrifying?" Seeing groups of poisonous dragons being swept away in an instant, and hundreds of poisonous dragons being scared away, Gu Yuan looked at Wang Yi beside him, and he couldn't believe it.

Chapter 1338: man of the hour

With Wang Yi's help, as soon as the fighting started, the practitioners found that the strength of the originally difficult **** emperor consummation level poisonous dragons had been greatly reduced, leaving only the late **** emperor level strength, which was almost vulnerable.

Puffy! A group of **** emperor perfection level poisonous dragons rushed over one after another, but their strength was not as good as before. Although their **** emperor perfection level bodies were still there, so that they would not be easily killed by practitioners, it was already difficult to confront practitioners head-on.

One head after another was suppressed, bound, and knocked into the air...

They all knew that it was the practitioner's young man in red who caused all this.

So they rushed to Wang Yi in large groups to kill him!

But was stopped by other practitioners.

"Emperor Jiexin, I admire you."

"Emperor Jiexin, you have such powerful means, it's the first time I've seen it."

The practitioners thought that they would encounter a brutal fight this time, and they didn't know how many companions would die. Seeing the turning point at this moment, everyone is very excited, and at the same time admires Wang Yi's methods extremely! Such a method... Even the three major city lords do not have it.

"Emperor Jiexin, are you using soul tricks?" Some practitioners couldn't help asking.

Wuhua Zushen looked at Wang Yi even more, and remembered asking Wang Yi what he was good at.

"I am somewhat proficient in soul tricks." Wang Yi replied.

"Is this also called slightly proficient in soul tricks?" Ancestral God Wuhua was a little dazed.

She had never heard of such a powerful soul move in the holy world before.

Even with other descendants from many worlds, even Chaotic Source powerhouses, I have never heard of any soul direction that is so strong.

This is never heard of! Unbelievable!

Thousands of thoughts floated in my mind: "This Emperor Jiexin actually has such an unimaginable method. Although the frontal combat power is weaker, but with such a method, his appeal in Cold Moon City in the future may be stronger than the three city lords."

Then Wuhua Patriarch God was filled with joy. "The emperor with bounded heart is here, we have hope this time."

At least, there will be no casualties.

...

With Wang Yi present, this team successfully broke through the siege of the Hunyuan life group and escaped.

When they saw so many Chaotic Source beings popping up along the way, the practitioners broke out in a cold sweat and became terrified, only then did they realize how lucky they were just now.

At the same time, he was even more grateful to Emperor Jiexin.

All of them felt gratitude and admiration for Wang Yi. Admiration... is admiration for the strong. They all know how unnatural this kind of tactic that can sweep the Chaotic Source life group on a large scale is! Once the 'Emperor Jiexin' returns to Cold Moon City, his status will rise sharply. If Emperor Jiexin is willing to form a team, there may be a large number of practitioners willing to join.

Gu Yuan even kept saying praises around Wang Yi, trying his best to flatter him.

Do your best to build relationships.

He knew very well in his heart that with Emperor Jiexin's ability, if he could hug his thigh, he would really not have to worry about survival in Cold Moon City in the future.

He has been looking forward to the stars and the moon for so many years, and it is hard to look forward to such an opportunity. If he misses it, he will definitely regret it.

At this time, Wang Yi is the absolute center of the team, even the 'Wuhua Ancestor God' can't be compared.

After breaking through, fighting, and hunting back along the way, the harvest this time is surprisingly rich!

Everyone is smiling!

Although the emperor of Jiexin must have the most credit, but the cake is too big, and everyone can get a much bigger share than before!

One harvest is comparable to the previous ten!

And this time they experienced such a great danger, if they were replaced by other ordinary hunting teams, the entire army might be wiped out!

But they are unharmed!

Looking at Emperor Jiexin's eyes became even hotter.

The emperor with a bounded heart is here, so do you have to worry about food? I just don't know if the Jiexin Emperor Group will form a team or accept people?

Gu Yuan doesn't care so much! He now has the advantage of being the first to know Emperor Jiexin, and he has already regarded himself as the younger brother of Emperor Jiexin.

This team hadn't returned to Cold Moon City yet, and the news had already been sent back in advance. Every practitioner who heard the news paid attention to this Jiexin Emperor who had amazing soul skills and could sweep away groups of Chaotic Source beings.

"Emperor Realm Heart?"

"There is such a powerful soul move, it's amazing."

"If he establishes a hunting team, I don't know how many practitioners are willing to join."

All the practitioners were amazed when they knew what had happened.

The means of Emperor Jiexin is Cold Moon City! No, to be more precise, it has never been seen in the entire "Holy Realm" history. With one's own power, hundreds of thousands of Chaotic Source beings at the level of God Emperor Perfection can be greatly reduced, and all of them are attenuated to "Late God Emperor's level of combat power! This method is simply incredible. In front of this Emperor Jiexin, Hunyuan Life's most terrifying 'number advantage' was wiped out at once!

"Emperor Jiexin and his team are back."

With the return of Wang Yi and his team, practitioners in the entire Cold Moon City received news one after another.

The cave of the city lord 'Jingyehuaqianshu', in the underground hall.

The city lord 'Jingye Huaqianshu' is a beautiful woman wearing a pure white robe. The black hair opposite to the clothes is full of luster and grows to her waist.

Except for some abnormalities in the irises emitting golden light and the erect oval child hole, she is basically an impeccable and peerless beauty.

Two curly goat-like horns protrude from the side of its head, and black wings can be seen around its waist.

The body emits a golden light, like a spider web spreading throughout the entire space.

Let the whole space become like its heart beating with the breath, full of mysterious charm.

The most defiant thing in the entire Cold Moon City is the city lord.

It is said that she is a descendant of a terrifying Chaotic Origin Powerhouse. The blood in her body is extremely powerful, and she also follows the route of "enlightenment". The combination of the two makes her strength rank among the top three horrors in the entire holy world. exist!

"Emperor Jiexin?" At this moment, the beautiful city lord was chanting someone's name and smiling.

"I was at my ancestor's place, and I never heard of any cultivator with such means. This Emperor Jiexin is worth getting acquainted with."

And the two deputy city lords also communicated with her and discussed the matter of Emperor Jiexin.

The three powerhouses all agree that although this Emperor Jiexin is currently weak in frontal combat power~www.mtlnovel.com~, but with such unprecedented soul means, he can only make friends and not offend him.

She is also very clear about the thoughts of the two deputy city lords.

"It seems that the holy world of practice will soon become lively." The city lord said with emotion.

She is the strongest among the descendants of that ancestor, and she is also the closest to 'jumping out of the cage to achieve Chaotic Source'! It is just as difficult for the blood descendants of Hunyuan powerhouses to achieve Hunyuan.

But she is even more ambitious, she wants to be like her ancestors, use her strength to break the law and become Chaotic Source, become the most powerful Chaotic Source powerhouse!

It's just that in the infinite chaotic source space, since the endless years, many people have jumped out of the cage, and very few have become great chaotic source lords.

Emperor Jiexin's method may not be an opportunity for some strong people who are eager to jump out of the cage.

She shook her head slightly, and said in a low voice: "We must seize every opportunity, otherwise the next world will be even more cruel and hopeless."

...

[Chapter 1339: half chaotic life form](#)

Wang Yi, who is famous in Hanyue City and attracts thousands of people's attention, has ushered in the days after becoming famous.

Even the other four gathering places have heard of his existence.

Such a practitioner, who would not want to get acquainted?

The three city lords of Cold Moon City hosted a banquet and invited all practitioners in the city.

But everyone knows that Emperor Jiexin is the main guest of this banquet!

At the banquet, Wang Yi also met the three strongest practitioners of the long-known Cold Moon City, and got to know each other and exchanged ideas.

The three powerhouses also admired Emperor Jiexin's achievements in the soul path.

They are all at the top of the entire holy world of practice, some have reached the semi-chaotic source level through two paths, and some are direct descendants of the legendary Chaotic source powerhouse who is valued!

Either the talent is extraordinary, or the background is amazing.

Of course, they didn't know that there was also a Hunyuan lord behind Wang Yi.

After the banquet, the city lord also left Wang Yi to discuss private matters.

"You want to invite me to kill Hunyuan Prisoners?" Wang Yi had already guessed the thoughts of these top practitioners, but he still pretended to be surprised.

"That's right." Jingye Huaqianshu nodded, "Whether Hunyuan prisoners stay in their lair or go on patrol, they always have a lot of Hunyuan beings around them as guards. I once invited some experts from Hanyue City to help, but those two thousand God Emperor's Perfect Level Chaotic Source life makes it difficult for us to deal with Chaotic Source Prisoners with all our strength. Now that you have appeared, Emperor Jiexin, I have also seen a chance to succeed again. Brother Jiexin, I ask you to help, and go with my team Kill that Hunyuan prisoner. You just have to ask for any conditions you want!"

Wang Yi did not directly agree, but said: "Let me think about it."

Now that he has not yet perfected the half-chaotic source life body method, he is not in a hurry to kill the Chaotic source prisoner.

The Illusory Dao of the Illusionary Realm seems to have swept away Chaotic Origin beings, but advanced Chaotic Origin beings are at another level.

His illusory realms and illusions have miraculous effects on ordinary Hunyuan beings, but they are completely useless to Hunyuan prisoners.

In the face of such high-level Chaotic Source beings, the soul level is too high, and the illusory world and illusion cannot shake them at all.

Because even if they are punished and suppressed, the soul essence of the Hunyuan prisoner will not change. The illusory realm, to Chaotic Source Prisoners... is like a breeze blowing on the face, and has no effect on strength.

Although Wang Yi has a panel task that requires the blood essence of a high-level chaotic source life form, even if he completes the task and obtains the chaotic source blood species, the prerequisite for promotion must be a "semi-chaotic source life form".

Naturally, Wang Yi was not in a hurry.

Later, a deputy city lord also extended an invitation to Wang Yi, and Wang Yi also said that he would consider it.

Wang Yi is unwilling, and they can't help it.

Intimidation? It is completely useless against the current Emperor Jiexin.

In terms of obtaining food, this emperor thinks he is second, and no practitioner in the entire holy world dares to say that he is the first! The ultimate soul move, unique in the holy world, can be easily hunted and killed by Chaotic Source life forms at the God Emperor Perfection level.

This matter has been shelved for the time being.

Then Wang Yi announced in Cold Moon City that he would collect the blood of Hunyuan's life at a high price, as long as it was of a non-repetitive type, he would accept it.

At the same time, if you have Chaotic Source life body materials that contain the mysteries of the rules of the Dao of Void and Dao of Illusion, or some helpful treasures, you can also come and exchange them with him.

As soon as the news came out, the entire Cold Moon City was in a commotion. Many practitioners came to their door to send materials, whether it was in exchange for benefits or to have a good relationship with this very popular Emperor Jiexin.

Wang Yi immediately obtained a large amount of Chaotic Source Life's blood and materials, and even obtained more than a dozen corpses of Chaotic Source Lifeforms from the God Emperor's Consummation Level of the Void Lineage. At present, in the entire holy world, there are thirty-eight Hunyuan tribes of the void lineage! He got almost half of it!

As for the others, I'm afraid you have to exchange them with other cities to get them.

Historically, Cold Moon City had some connections with the other four cities, and even sent teams to other cities for the purpose of exchanging treasures. The rare Hunyuan beings on my side, but there are in another city.

Wang Yi later handed over these trivial matters to Gu Yuan, who had taken refuge in him, and went out to hunt Hunyuan beings while comprehending them.

After all, he needs a lot of food to exchange with other strong people in the future. He owed a lot of it to other people before.

It's just that no one doubted Emperor Jiexin's ability to repay, and some even didn't want Emperor Jiexin to pay back at all, and were willing to give it away for nothing, just for the sake of favor.

Of course, Wang Yi would rather pay a high price than owe favors easily.

As soon as the team formed by Wang Yi appeared, practitioners in the city rushed to join, and even some strong men who would rather act alone than join the team were willing to join the team of Emperor Jiexin, that is, to seek refuge.

After all, everyone knows that with Emperor Jiexin's strength, it is very easy to kill the God Emperor's Consummation-level Chaotic Source Life. If you go out with Emperor Jiexin once, even if Emperor Jiexin takes half of the harvest, the rest will make them drool. Oil, compared to the previous ten times out.

With the help of the map information on the panel, Wang Yi easily found the Hunyuan life group that was easy to hunt, and then led the team to hunt there.

Every time I return with a full reward, the harvest is so great... It makes the eyes of other practitioners in the entire Cold Moon City turn red with envy.

The three city lords went out to hunt, but they couldn't compare to a Jiexin Emperor!

Even other cities are envious when they hear about the situation here.

Because hunting was too easy, soon Wang Yi was too lazy to go out to hunt, and spent most of his time concentrating on cultivation, only going out once in a while when he needed sharpening.

Wang Yi also took time to go to other cities, signed all four [Wan Dao Monument], and obtained the classics of all practitioners in the entire holy world of practice.

Moreover, all the Chaotic Source life blood and materials that could be collected were collected.

The top powerhouses in those cities also offered various prices and invited Wang Yi to hunt and kill Hunyuan Prisoners.

But Wang Yi did not agree, and declined all of them.

It's just a trip. Although the blood of ordinary Hunyuan life satisfies 10,000 types, it is still short of the last one, which is also the blood essence of Hunyuan prisoners, which is the most difficult to obtain.

Originally, Wang Yi was thinking that those people in those cities killed Hunyuan prisoners more than once, and some people might get blood essence.

But when I asked, I found out that no one had this thing.

The blood of ordinary Chaotic Source prisoners is fine, no matter how powerful the Chaotic Source Prisoners are, they will always be injured due to suppression, but the Chaotic Source Essence Blood, which is one of the sources of the Chaotic Source Prisoner's physical strength, is the most important blood, unless Kill it, otherwise it's hard to get.

Wang Yi also tried to find a way to sign in around the prisoner's lair, but unfortunately, although some rewards came out, there was no high-level chaotic source life essence he needed.

time passed.

Wang Yi's many avatars in the holy world of practice, Jiexin continent, and origin continent are constantly practicing.

The corpses of Chaotic Source Life in the Holy Realm, which allow him to see all kinds of complete Void Mysteries manifested in the body, are just the strength of the ordinary Chaotic Source Life itself
~www.mtlnovel.com~ At most God Emperor Consummation level, its body Some of the secret techniques manifested, Wang Yi doesn't think much of them either! It's just a great help to his Void Dao accumulation.

The thousand-eyed existence and the terrifying serpent are all terrifying existences at the same level as the 'Yuan'. Although they fell and turned into the Broken Tooth Mountains, there are still some deep-level mysteries inside, although they are all a little bit, unlike those in the holy world. Hunyuan life's corpses are all intact, but this little bit is amazing.

Even in recent years, I have obtained Thousand Eyes Water Bead and Snake Tooth Pulp Bead, entered the Snake Tooth Corridor to explore again, and found many useful things for him.

Hundreds of millions of years have passed since Wang Yi comprehended these things.

One day, in the depths of the Broken Tooth Mountains, Wang Yi, who was practicing, was suddenly touched by something, and he was slightly stunned. His avatars in the Holy Realm, his many avatars in his hometown Origin Continent, his avatar in Jiexin Continent, and the memories of many avatars Communicate! At this moment, under the collision of comprehension and harvesting memories, a brand new Chaotic Source Body Refining Method suddenly emerged in his mind. Although too many versions have been deduced before, this time, it is a blessing to the soul.

He has a feeling—

[Chapter 1340: Babel top floor](#)

He naturally felt a sense of perfection in his heart when he realized the method this time.

"This new method..." Wang Yi felt it and closed his eyes.

Then my mind moved.

"breakthrough."

As soon as the thought came up, he immediately manipulated the physical body to change. Normally, the physical body at the later stage of the **** emperor broke through again at this moment.

"Slap..."

Change according to the latest method of Chaotic Source Body Refining.

At first glance, his body didn't change much, only the skin trembled slightly, and the skin itself was being restructured.

There is even a layer of gleaming light on the surface of the skin, his body is like the most perfect treasure.

But beneath the skin... drastic changes are taking place inside the body.

This is the most subtle composition, with countless secret lines covering every fine particle, the body is undergoing radical changes, bones, muscles, internal organs, blood vessels, blood, eyes, etc. are all undergoing transformation.

This kind of transformation is perfect, everything seems to be a matter of course, and it seems to draw the most beautiful picture scroll in this life.

"boom."

The membrane wall of the world was directly shattered, and the power of the chaotic source poured into Wang Yi's body continuously, and was continuously absorbed like a sponge absorbing water.

This time the metamorphosis was very fast, only a dozen or so breaths. Everything will calm down.

"Breakthrough." There was a smile in Wang Yi's eyes, and there was no big movement, and the breakthrough was as simple as a matter of course.

The inside and outside of the body are transparent, and the body structure is perfect to the extreme. Wang Yi can't even think of how to improve it significantly.

This is a perfect body.

It felt perfect... as if there was no way ahead.

Although it can perceive a higher level of "chaotic source life", it knows that there are more perfect life forms. But my own semi-chaotic source life body, under my own wisdom, feels that it is complete.

According to the legend, those who realize the Tao rely on their own strength to break through the extreme of the semi-chaotic source life body, break the shackles, and master the 'Tao' at the chaotic source level! It immediately became the highest level of lord-level existence.

Like those who rely on spreading beliefs... relying on some other methods, they finally successfully mastered the origin of a source world and became the master of the source world!

With the help of the original power of the source world, Hunyuan life is achieved.

Although it is a 'world-class chaotic source life form', its strength is also very strong, second only to the lord. In the source world under his control, he was able to fight against the lord even more.

However, these levels do not rely on themselves to master the 'Tao' of the Chaotic Source level.

Like those born with chaotic origin, they are constantly digging out the power of their own blood, and the life is also constantly evolving, and they can be tapped to the extreme! Compared with the lord who controls the 'Tao' of Chaotic Source level, it is still a little worse.

Whether it is a natural Chaotic Source being or an extremely powerful world-class Chaotic Source expert who can display endless power, they have not grasped the essence of Chaotic Source 'Tao'.

...

continent of origin.

Wang Yi's Realm Beast incarnation did not stay in the void abyss, since he broke through to the Ultimate, he returned to the Origin Continent, and Palace Master Tantai also followed him.

The two were walking on a bustling city street.

"Sure enough, the world of practitioners is full of vitality and more lively." Palace Master Tantai said with emotion as he looked at the streets full of people coming and going.

The avatar of the world beast in the gray robe just smiled slightly.

Suddenly he was taken aback.

"What's wrong?" Palace Master Tantai who was beside him immediately noticed the change in him.

The beast incarnation shook his head.

"Semi-chaotic source life form." He whispered in his heart. But he is not in a hurry to break through now.

He continued to walk leisurely with Palace Master Tantai on the street, no one could tell that these were two world-destructive realm beasts.

And Tongtian Pagoda has already been sent back to Tianhuang Mountain.

Tianhuang Mountain.

The broken chaotic source crack has recovered and healed, and Wang Yi smiled, his body absorbed the sharply rising strength of Chaotic source's power, and he has already reached the semi-chaotic source life body.

Just the aura emanating from standing there can make the Cosmic God Ultimate Realm fearful.

But Wang Yi's current soul, just a look can make God Emperor series lose consciousness.

No matter in the Origin Continent or the Broken Tooth Mountains in Jiexin Continent, he is invincible.

"Since we have broken through the semi-chaotic source life body, this is already the acme of the chaotic source, and also the acme of the source world." Wang Yi thought to himself.

Tower of Babel.

The figure of Wang Yi appeared, standing on the vast sea of origin, but the terrifying fluctuations he radiated now could bring the sea of origin to a slight standstill.

Wang Yi raised his head and looked upwards, the corners of his mouth curled up slightly.

"Huh." Fly up.

Originally, he was standing on the forty-eighth floor.

It is only one floor away from the forty-ninth floor.

With such a flight, Wang Yi flew directly over the sea of origin in an instant, passing through an invisible screen.

"Om!" With a flash in front of his eyes, Wang Yi found that he had come to the top of the sea of origin, with nothing around him, and an island floating in front of him.

"Island?" Wang Yi looked over and thought to himself. "It seems that what the teacher left for me is on this island."

Wang Yi flew over and landed on an island with singing birds and fragrant flowers. The island seemed small, but it gave Wang Yi the feeling of seeing the source world from the outside for the first time. That was the essential gap in the level of life.

Wang Yi knew in his heart that this island was probably created by the strong Hunyuan, probably by his teacher.

There is a small path paved with bluestone slabs on the island. Wang Yi walked on it, walked through the lush forest, crossed the gurgling river from a bridge, and saw an antique courtyard.

A black cat was lying lazily on the eaves of the gate of the yard, looking at him.

On the cat's forehead, there is a **** meniscus.

"Meow~~" The black cat stood up, arched its body violently, and yawned.

Then he looked at Wang Yi and said, "I felt like I fell asleep, and you came here, boy, you are very good. I thought that you would not be able to make it after one Origin Era."

Wang Yi felt that he couldn't see through the cat. When he heard the cat talking, he smiled slightly, "I don't know who the senior is?"

The black cat man stood up, with his hips crossed in a dignified manner, revealing his domineering arrogance.

"I am the great Chaotic Source Lord who is invincible in the infinite Chaotic Source space..."

"...Master Blood Moon is the most powerful under the command of 'Ming'~www.mtnovel.com~Wang Yi was a little stunned.

Good guy, I was almost scared by you.

I thought I met another Hunyuan Lord here.

But from the words of the black cat, it seems that he is also a strong Chaotic source, and has a deep relationship with Ming.

"I have seen Lord Blood Moon." Wang Yi was very polite.

"Hmm~~" The black cat 'Blood Moon' seemed very satisfied with Wang Yi's politeness. "Boy, I think you are very pleasing to the eye. You will be very promising in the future. It is not in vain that I have stayed here for so long, looking at what your teacher left you."

Wang Yi's heart moved, and he asked curiously: "Senior, I don't know what the teacher left for me?"

"Haha." The black cat 'Blood Moon' laughed, and said mysteriously.

"Your teacher is here, leaving you a source world."
