

A God 1341

[Chapter 1341: Origin of the world](#)

"Source world?" Wang Yi showed a surprised expression.

Of course he knows what the source world is.

That's why it's surprising.

Unexpectedly, the tone of the black cat changed, "It is said to be the source world, but it is actually the seed of the source world."

"Seeds from the source world?" The black cat's charade made Wang Yi more suspicious.

The black cat sat cross-legged on the eaves, looked down at Wang Yi, and said slowly: "Wang Yi, you should know... There are three main paths to get out of the cage and achieve Chaotic Source."

"One's own blood is finally awakened into a high-level chaotic source life."

"Control a source world, become the master of the source world, and then use the power of the source world to become a world-class chaotic source life."

"Study the rules, break the law with strength, and become the Lord of Chaotic Source."

Wang Yi nodded.

Break the law with force? Forcibly mastering the 'Tao' at the Chaotic Source level by oneself? The difficulty is unbelievably high. In the hometown of the source world, to control the origin of the source world? Equally difficult.

Relatively speaking, taking the bloodline route to become Chaotic Source is the easiest.

The ultimate awakening is usually born with Chaotic Source blood in the body, and finally the ultimate awakening begins to return to the ancestors, turning into the appearance of the natural Chaotic Source life.

"If you want to take control of a source world, there are two main methods." The black cat licked its paws, and the amber cat boy emitted a strange light. "Some are to spread beliefs, let all living beings believe in them, and use the will of all living beings to influence the origin of the source world and control it." source world."

Spread the Faith! Let countless living beings submit to their beliefs, all living beings submit, and the will of all living beings also affects the will of the world, and it will also make the world's origin surrender, easily refined, and become the master of the world, so as to achieve Chaotic Source.

However, there must be a prerequisite for this. The source world must multiply to a certain extent. Only when a source world has multiplied to a later stage and the number of creatures reaches the limit of the world's endurance, the will of the creatures represents the will of most of the original power! All living beings surrender, naturally the world's origin surrenders.

It's just that each source world has different difficulties. It is still difficult to rely on missionary to control the source world without the support and permission of the lord!

"This road is difficult." The black cat flicked its paws, pursed its lips, and looked disdainful.

"Using this method to become a world-class chaotic source, the potential is generally not as good as the second one."

The black cat looked at Wang Yi, "The second method is to comprehend the rules and paths one by one, because the supreme rules of the source world are composed of extreme realms, and each rule and path must reach at least the second level of the universe **** to achieve As long as you can successfully brand more than half of the origin of the corresponding Tao, you can use this to control the source world in one fell swoop and become a chaotic source life."

"Those who become a world-class chaotic source in this way are generally expected to go further on the road of chaotic source, and are more valued by the lord." The black cat 'Blood Moon' said to himself.

Indeed... the first method relies more on external force than the second method.

The second kind is to control the source world by one's own comprehension of different ways.

"My master, your teacher is the Lord of Hunyuan. Over the long years, you have accepted more than one disciple. Some of the disciples are in charge of the source world. They achieved success by preaching faith, enlightenment by jumping out of the cage...but none of them succeeded by breaking the law with strength. Lord Chaotic Source." The black cat 'Blood Moon' sighed.

It is too difficult to break Chaotic Source Lord with force!

"Your teacher has also thought that one day in the future, she will accept a sufficiently good disciple, then she can use this source world seed to cultivate this disciple, so that his path will be smoother, and he will become the hope of Lord Hunyuan. It's also bigger." The black cat Xueyue said with a smile.

It jumped down from the eaves nimbly, landed on the ground, then glanced back at Wang Yi, motioning him to follow.

The two came to a pond in the yard.

The pond is not big, and you can see the clear water surface in the pond. There are lotus flowers, aquatic plants in the water... and a white egg constantly floating at the bottom of the water.

There are faint streams of beautiful streamers dancing in the egg.

The black cat stopped at the edge of the pond, purring. "Hey, that's the source world seed."

Wang Yi stood by the pond, looked down at the white eggs at the bottom of the water, and murmured, "Seeds from the world?"

The black cat Xueyue said: "The supreme rule of the normal source world is composed of the ultimate Tao, which blends with each other to form a perfect source world. Perfection... means that it is difficult to comprehend!"

Wang Yi understands.

Just like the initial universe where Chaos City is located, the "explicit universe operating rules".

The initial universe is a new universe in the period of "the beginning of the universe". In the initial period, the universe is constantly being perfected and formed, and the original operating rules of the universe will be revealed.

That is the original operation rule of the universe, in which there are various original laws.

The black cat 'Blood Moon' stretched out its paws. It was black all over, except for the fluffy white fur on its paws. It seemed that it wanted to touch the water cautiously, but finally held back.

It looked at Wang Yi, "The source world seeds your teacher gave you, as the name suggests, can form an extremely small source world with a short lifespan. It is not the ultimate Dao, but it is composed of the second and first layers of Dao... It can be called the prototype of the source world!"

It shook its head and sighed, "It's not easy to create such a prototype of the source world that can be appreciated by others. Your teacher also spent countless efforts and lost some unique treasures to create such a one. The entire infinite chaotic source space, or only The value of such a source world seed is far beyond the imagination of those world-class Chaotic Source powerhouses."

"Although the ultimate way is high-level, it is too difficult to comprehend."

"On the contrary, the second level, the first level, although the level is low, but because it is low, it is more conducive to enlightenment."

Wang Yi understood.

It is very difficult to reach the Cosmic God in one way, and it is even more difficult to reach the second level of the Cosmic God.

After all, practitioners are very good at some paths, and they are not good at some paths!

But with the 'source world seed' in front of me, there is great hope that a large number of 'Tao' will reach the first level, or even the second level!

Wang Yi's heart beat faster, and he knew exactly what this meant, which meant that he was very hopeful to become a world-class Hunyuan in the near future.

"So, boy~www.mtlnovel.com~ work hard, and don't let down your teacher's painstaking efforts." The black cat Xueyue said solemnly. "Once the seeds of the source world are activated, only one person's consciousness can be integrated into them. This is an extremely precious opportunity to watch the evolution of the Tao from the perspective of the source world's self, and the evolution speed of the seeds of the source world is 100 million times faster than that of the normal source world. So your practice time is limited, you must cherish it."

"Try to get started with every path, reach the first level, and lay the foundation for leading to Chaotic Source."

"You have one more way of comprehension, then you have more hope of becoming a world-class chaotic source in the future." The black cat Xueyue is very sure.

When Wang Yi arrived at the top of the Tongtian Tower and talked with the black cat Blood Moon.

Chaotic source space is a mysterious world, a vast sea of blood.

The blood-haired girl 'Ming' in a blood dress stood on the sea of blood, the corners of her blood red clothes were blown by the wind, looking at the boundless sea.

She recalled in her mind that when she was refining the 'Seed of the Origin World', a golden light suddenly fell on the way, and she didn't even have time to stop it.

"Chaotic source of golden light... so the legend is true." Ming whispered to himself.

[Chapter 1342: Hunyuan Jinguang](#)

The infinite chaotic source space is too large, no one can explore all of it, and some mysterious places may not even be known to the chaotic source lord.

"The legendary chaotic source golden light is one of the most magical treasures in the chaotic source space." Ming thought to himself. "There are even rumors that the ancestor-level Chaotic Source life has completely fallen, and can be resurrected by the Chaotic Source Golden Light. If a Chaotic Source Golden Light is integrated into a weapon, it will be the most terrifying treasure, and it has other unimaginable uses."

To revive Chaotic Source's life, even the Lord of Chaotic Source cannot do it.

Even if you are in charge of a source world and become the master of the source world, you can control the past and future of all beings in the history of your source world, and control their life and death, but 10% of the beings from Chaotic Source will jump out of the cage, jump out of the source world, and exceed the limits of the source world. Take control!

Only those who did not become chaotic sources! The owner of the source world can move them from the time period of their death to the present, allowing them to easily have eternal life. This is the means of the 'master of the source world'.

But 10% of Hunyuan's life... Even the owner of the source world, the lord of Hunyuan has nothing to do.

"However, in the entire infinite chaotic source space, there are only three chaotic source golden lights that have been discovered in history, and none of them have been obtained by our chaotic source lord."

After all, in the most distant years, there may not be a Chaotic Source Lord, and the most are born Chaotic Source beings.

"What changes will happen when Chaotic Source Golden Light enters the source world seeds?" Ming was expecting.

After Chaotic Source Golden Light entered, Ming discovered that the seeds of the source world had undergone mysterious changes, which were beyond his control.

That's why the Tongtian Tower was placed in each world and let it choose its own master.

And Wang Yi is the master it chooses.

Or... called "being voluntary"?

...

"Boy, this source world seed belongs to you now, you can decide when to use it." The black cat said slowly. "However, there is only one source world seed after all, and the comprehension time is far from enough for a source era. I suggest that you better realize the bottleneck in yourself and make it difficult to improve, and then use it."

Wang Yi was silent.

Of course what the black cat said made sense.

But he can wait, but his hometown Yuan World may not necessarily wait.

Ultimate Realm can escape the destruction of the source world.

But not necessarily others.

Among other things, it is impossible not to care about Wang Yi's universe, his descendants and clansmen.

Once the source world entered the great destruction, everything was wiped out.

Therefore, he must race against time and use every opportunity to take control of the source world before the origin continent enters its final destruction, in order to stop all this.

Only when the source world has a master can the danger of catastrophe be lifted.

A source world has a master... Then this source world will always prosper and maintain its peak state, and there will be no more catastrophe.

Practice the holy world.

The layout of the cave is magnificent, with red walls and green tiles, eaves and corners, small bridges and flowing water, winding paths leading to secluded places, pavilions, terraces and pavilions are well arranged, just like a beautiful landscape painting.

Wang Yi sat drinking in the pavilion, waiting for the person he wanted to meet.

Soon, a beautiful woman in white robe appeared from the sky and landed outside the pavilion.

Looking at Wang Yi, feeling his powerful aura, he was a little surprised, and then said with a smile: "It seems that Emperor Jiexin has made a breakthrough. Congratulations."

"How does Emperor Jiexin think?" the Lord of Cold Moon City, 'Jingye Huaqianshu' looked expectantly.

Wang Yi put down his glass, turned to her and nodded. "I can help you kill Hunyuan Prisoners, but how do you distribute them?"

The city lord was immediately overjoyed, and even said: "If Emperor Jiexin is willing to help me, it will be like the original decision. After beheading, all the heart and blood of the Hunyuan prisoner's corpse will

belong to me. And all other parts of the corpse will belong to you, and even the blood will be returned to me." I can keep 10% for you, if Emperor Jiexin has other requirements, he can ask for it."

Wang Yi nodded. When the city lord invited him, the target was the 'Evil Fire Lake Master', one of the thirty or so Hunyuan prisoners.

In the entire holy world, there are dozens of Chaotic Origin beings from the Void lineage, but among them there are only three ethnic groups that have Chaotic Origin Prisoners.

The 'Evil Fire Lake Master' is one of them.

That's why Wang Yi first chose the city lord of Cold Moon City to cooperate.

For Wang Yi, a complete corpse of a high-level Chaotic Source Life in the Void Lineage is much more valuable than those corpses of a perfect Chaotic Source Life of the God Emperor. That is a qualitative change! But those of the void lineage are better at saving their lives, and it is extremely difficult to kill them.

It's just that he was a little confused: "I heard that you, the city lord, are the descendants of the Hunyuan powerhouse, but do you also need this Hunyuan prisoner if you want to walk the path of enlightenment?"

Generally, if you don't follow the bloodline route of ultimate awakening, you won't be so eager for the corpse of the Chaotic Prisoner!

The city lord shook his head, "Emperor Jiexin, you don't need to ask any more questions, I have my uses anyway."

"Then I won't ask any more questions." Wang Yi said, "I can promise you to deal with the master of the evil fire lake."

After hearing Wang Yi's words, the city lord couldn't help showing joy.

The Emperor Jiexin's role in the team is indispensable, his soul move... is the biggest help in beheading the Hunyuan prisoner, and it is too powerful.

With him, it is possible to deal with the huge number of Hunyuan life guards around the Hunyuan prisoner.

If there is no Emperor Jiexin, the hope is probably only 10 to 20%, but with Emperor Jiexin, the hope is at least 50%.

The city lord smiled, "The emperor with a bounded heart joins, and our chances of beheading Hunyuan's prisoners will definitely be greatly improved."

Wang Yi was noncommittal.

"When will we do it?"

The city lord said: "Don't worry, the Hunyuan prisoner usually stays in his old lair, and only when he can't bear the torture of the holy world will he go on patrol every once in a while. That's our chance."

Wang Yi understands. It is too difficult to kill Chaotic Source Prisoner, a high-level Chaotic Source being, in the lair. The strength of Chaotic Source Prisoner in the lair is much more terrifying than going out on patrol! No matter how much power a practitioner gathers, they may not be able to deal with it.

Only tour! That is the best time!

"Then wait." Wang Yi has no choice, he is very eager to get the blood essence of Hunyuan's prisoner.

As long as he gets the blood essence of Chaotic Yuan prisoner, he can become a high-level Chaotic Yuan being!

Then you can try to comprehend the 'Seed of the Source World'.

The soul of a high-level chaotic life form is much higher than the soul of a semi-chaotic life form.

If he becomes a high-level chaotic source life, the speed of the soul's comprehension of the seed rules of the source world is not known to be much faster than now.

...

Wang Yi waited and waited until he finally received the news from the city lord.

The master of the evil fire lake is on tour!

immediately!

A powerful ~www.mtlnovel.com~ team that assembled the top experts in Cold Moon City set off.

Go and kill the 'Evil Fire Lake Master'!

Killing Hunyuan prisoner is a big event!

In Hanyue City, many strong men stood in their own caves, and they could see the team flying away in the middle of the sky in the distance. After all, the team this time included the city lord, the two deputy city lords and the Emperor Jiexin! Gathering too many elites is a rare big operation in the entire Cold Moon City.

They all talked about it, and even other cities got wind of it and began to pay attention.

...

time flies.

A shocking news came back, the owner of the evil fire lake was beheaded!

This news made Hanyue City, including the other four major cities, shake and boil!

[Chapter 1343: Promoted to Higher Chaotic Source Life](#)

The successful beheading of the Hunyuan prisoner had a huge impact on the entire holy world of practice.

Not to mention the shock of the practitioners in the five major cities, even the Hunyuan prisoners in the holy world were equally shocked.

It was the first time that the name of Emperor Jiexin entered their eyes, especially when they found out how the 'Evil Fire Lake Master' was killed, which gave them infinite murderous intent.

"A soul path practitioner who has never been before?"

"Thousands of guards of the owner of the evil fire lake have been affected, and they cannot stop the practitioners from besieging."

"Damn Emperor Jiexin!"

"He is too threatening to us, we must find a way to kill him!"

All Hunyuan prisoners are well aware of the threat posed by Emperor Jiexin's methods, and wish to get rid of them immediately.

But although they have a strong killing intent, they are just thinking about it.

The shackles and chains that bind them in the holy world are always there, making it impossible for them to leave their nests under normal circumstances. They can only go out when the time for patrolling is up.

But at that time, it was also the best time for practitioners to kill them.

...

The team that killed the 'Prisoner of Hunyuan' returned to Cold Moon City full of joy. This time, the great hero, Emperor Jiexin, once again became the focus of attention, and everyone's eyes were hot.

The City Lord's Mansion gathered practitioners from the entire Cold Moon City to hold a grand celebration.

Wang Yi had already received the allocated spoils, and carried the special treasure containing the corpse of the 'Evil Fire Lake Master'. After attending the celebration banquet in the City Lord's Mansion, he returned to his cave mansion reeking of alcohol.

He saw Gu Yuan, thought that Gu Yuan usually did his best to serve him, so he gave him a few drops of the blood of the "Master of the Evil Fire Lake" at will, which surprised Gu Yuan inexplicably, and made him even more grateful to Emperor Jiexin, I decided in my heart to hug Emperor Jiexin's thigh tightly in the future.

In the future, the hope of eating delicious food and drinking hot food, and achieving Hunyuan may rest on Emperor Jiexin.

"Emperor Jiexin." Emperor Void came to the door with embarrassment.

He came this time because he wanted to ask Emperor Jiexin to let him comprehend the corpse of the 'Evil Fire Lake Master'.

After all, this kind of high-level chaotic source life of the Void lineage has a huge temptation for every practitioner of the Void Dao.

But Emperor Void didn't dare to be greedy, as long as Emperor Jiexin let him follow and comprehend for 18 million years, he was willing to pay the price.

When Wang Yi heard Emperor Void's request, he agreed without thinking too much about it.

After all, Emperor Void had a good relationship with him, and this request was not too much. He promised that Emperor Void could study in his cave until he left.

"Thank you, Emperor Jiexin." Emperor Void still felt quite ashamed. Because the real practice is to retreat alone. It's just that the high-level Hunyuan beings have helped him too much in his cultivation, so he still couldn't help but have the audacity to ask, and the generosity of Emperor Jiexin also made him feel grateful.

"To comprehend the corpse of the owner of the evil fire lake?" Wang Yi shook his head secretly.

He is about to complete the panel task 'Chaotic Origin Blood', and he will be promoted to a high-level Chaotic Origin Life soon. If 10% of the high-level Chaotic Source beings are about to leave this holy world, how long can this Void Emperor be enlightened?

Wang Yi took out the huge corpse of Hunyuan's prisoner and put it in the basement of the Dongfu, so that Emperor Void could comprehend it first, and he was not afraid of being taken away.

And Wang Yi himself came to another secret room.

"Ten thousand kinds of chaotic source life blood." Wang Yi waved his hand, densely packed drops of liquid suspended in the air in the secret room, colorful, all are blood of some kind of chaotic source life, exuding different rules of power.

In order to collect these, Wang Yi also worked for a long time, and traveled all over the five cities of practitioners before collecting them.

"The blood of Chaotic Origin." Wang Yi waved his hand again, and a drop of blood flew out from the treasure storage. This blood was red all over, like magma, and the blood seemed to contain countless voids.

After completing these, the panel finally has a prompt.

[Ding, the task is completed, and the reward 'Chaotic Origin Blood' is obtained.]

Wang Yi looked at the panel, and there was an additional item under the task reward on the panel, like a gray heart, still beating slightly. At the same time, a lot of information poured into Wang Yi's mind.

Wang Yi understood. "It turns out that this is the way to become an advanced chaotic source life."

"Cultivate the power of the blood first." Wang Yi took a deep breath, and integrated the heart-like 'Chaotic Origin Blood Seed' into his body, turning it into his own heart.

Refining continuously.

Peng, Peng, with the beating of the heart, the new Chaotic Yuan life blood flows in the blood vessels in his body.

That is the bloodline of any Chaotic Source life that does not belong to the present infinite Chaotic Source Space.

Wang Yi's semi-chaotic source life is obtained through the chaotic source body training of Void Dao, and it is two different things from digging out the chaotic source blood.

But now, there is an unprecedented chaotic source blood in his body.

Until the blood in the body completely turned into Chaotic Source blood, after this step was completed, Wang Yi followed his gaze to the blood of the 10,000 ordinary Chaotic Source beings and the drop of Chaotic Source prisoner's blood, and opened his mouth to **** it.

Wow~~ Tens of thousands of drops of blood suspended in mid-air flowed into the sea like a river, and all of them flew into Wang Yi's mouth and were swallowed by him.

When the blood enters the body, it encounters the special chaotic blood and is swallowed one by one.

Every time one was devoured, Wang Yi felt the blood in his body change. He could see this change very clearly and subtly, and there were more insights brought about by the changes in the blood in his mind.

One, two, three...

a hundred kinds...

a thousand kinds...

time flies,

time flies...

After devouring 10,000 kinds of chaotic source blood, Wang Yi felt that his chaotic source blood had reached a critical point, and then he looked at the last drop, which was also the blood of the most special high-level chaotic source life.

Devour!

boom!

As if a drop of ice water fell into a boiling oil pan, Wang Yi felt as if his whole body was going to explode at this moment!

It was as if an infinite universe exploded within his body!

...

On this day, the practitioners in the holy world suddenly felt moved and looked up to the sky.

Rumble~~

The clouds in the sky lowered rapidly and became dark and dense. From clear sky to dark and dense, it happened almost within one breath. Billowing black clouds covered the entire holy world, and waves of terrifying power accumulated above

This power is so strong that the practitioners all changed their faces: "What's going on?"

"This power?"

"What the **** is going on here?"

There was too much movement. Except for a few people who were closed to death, most of the five cities came out quickly to look at the sky and the terrifying power accumulated in the billowing black clouds. They could all sense that the accumulated power was so strong that they might be turned into ashes in an instant. This is a terrifying force that cannot be resisted.

In Cold Moon City, thousands of figures flew into the air, looking at the black clouds high in the sky, all of them were puzzled and in awe.

"Huh, huh, huh~~" Suddenly, in the depths of the black clouds above, a faint golden light appeared, and the golden light was surging.

The dazzling golden light even shines on the earth below through the black clouds.

These surging golden lights gradually formed a huge vortex. On the periphery of this golden vortex were countless black cloud vortexes. The vortex was so big that it gradually spread in all directions.

"Wow!"

follow closely.

In the vortex of golden light, there is a tumbling force rushing directly downwards, directly rushing into one of the caves in Hanyue City directly below, this tumbling force did not damage any buildings, but entered the depths of this cave.

"Is that the cave of Emperor Jiexin?" The cultivators turned their heads to look, and they were sure at a glance, and they couldn't help showing surprise.

Some even guessed and came up with incredible ideas. "With such a loud force and such terrifying power to enter his cave, could it be that Emperor Jiexin took the most critical step...to break through?"

...

A certain world in Chaotic Source Space.

In a cloud-shrouded mountain peak, Wu Jian, the master in green clothes, was chatting and laughing happily with several strong men.

All of those powerhouses had astonishing auras, and even some Chaotic Source rules manifested, obviously they were all Chaotic Source powerhouses.

It's just that they all restrained their breath.

"Brothers." The host Wujian sighed, "Little sister, I am fortunate to be accepted by the teacher. I have just started, and there are still many things I don't understand. I hope you can give me a lot of advice in the future. I am very grateful, little sister."

Several high-level Hunyuan beings around were smiling very politely.

"It's easy to talk about."

"Junior Sister Qing, you don't need to be polite."

"Junior Sister Qing is favored by the teacher, and even the Xulian Cave Mansion is given to you. It will be a breeze to catch up with us in the future."

The owner of Wujian has a humble face, but a trace of pride rises in his heart.

Back then, she took the risk to go through the colorful vortex channel of the continent of origin and set foot on the unknown road.

Experience a world, but also encounter many dangers.

Life and death were in danger several times, but fortunately there was a void tower before he escaped.

But I didn't expect that in a world where the Void Tower was exposed, it happened to be seen by a passing Hunyuan being. This Hunyuan being recognized it as the treasure of the famous "Qingjun" back then, and "Qingjun" had already fallen for many years .

Because of 'Qing Jun''s good temper and willingness to help others, there were many Hunyuan experts who made friends with her and accepted her favor!

Among them is a world-class Hunyuan powerhouse, 'Taoist Qinghuan', who was very grateful. When he learned about the relationship between the landlord Wujian and 'Qing Jun', he moved his mind and accepted her as a beginner. kindness.

The master Wujian went from **** to heaven in one fell swoop, relying on the relationship with the teacher who just worshiped him, he was in trouble.

Even the senior brothers and sisters who are fellow high-level Hunyuan beings know that the teacher likes her very much, and they give her face very much.

However, the host Wujian has never forgotten the humiliation he suffered from Wang Yi, and the fact that he left Yuanyuan Continent in an extremely embarrassing embarrassment.

Even afraid of Wang Yi's soul means~www.mtlnovel.com~, he didn't dare to leave a clone in the Origin Continent because he was afraid of being found.

Now he is under the sect of the world-class Hunyuan powerhouse, and there are a group of powerful fellow disciples to help him. The master Wujian has also learned many methods like "Boundary Breaking Teleportation Technique" and "Clone Body Method", and his strength has improved. Wash away the humiliation.

But she quickly restrained herself.

"Don't worry, that traitor has strange means, has many treasure clones, and is powerful. It's not easy to kill him in the source world. You have to prepare well and plan carefully. This time, you will let him die without burial. land."

Alien life entered the source world, and its strength was suppressed to the 'chaotic state'.

Even if Master Wujian asks his fellow disciples to help him, he may not be able to get that heaven-defying apprentice in the Origin Continent.

Just because he knew it, the host Wujian was even more full of murderous intent.

Because she knew that the grievances between the two could not be let go, there must be one party down, the more Wang Yi defied the sky, the more she wanted to kill.

[Chapter 1344: Rebels die!](#)

With such an earth-shattering scene, the eyes of the entire holy world of cultivation were focused on Cold Moon City.

Abyss Sea.

The master of Abyss Sea looked at the dark clouds and golden light in the sky, and his eyes showed a trace of coldness.

"Among the practitioners, another one has finally awakened into a high-level chaotic source life."

The city lord of Cold Moon City, "Jingye Huaqianshu", turned into a phantom and flew towards Jiexin Emperor's cave, but her heart was not at peace. She was very knowledgeable, so she recognized it naturally. "Such momentum, indeed

[Chapter 1345: This is the master of the source world! ?](#)

On the mainland of origin, Wang Yi is immersed in understanding the rules of the original world in Tongtian Tower.

There was light all over his body, streams of light danced around him, each stream of light represented a second-level Tao, and smaller streams of light represented the first-level Tao... The stream of light on his body had almost drowned his entire figure.

Once the seeds of the source world are activated and start to evolve, they will evolve at a speed far exceeding the normal source world outside, and the second layer of Dao will interweave together

[Chapter 1346: Ye Mengshahua](#)

"You already guessed it, didn't you?" Wang Yi said calmly.

The owner of Wujian trembled, bit his lips involuntarily and did not speak, but his face became paler, and he no longer had the feeling of superiority, but looked pitiful instead.

She probably never imagined in her dreams that the apprentice who was easily killed by her with a slap back then would one day become a chaotic source.

And it's not an ordinary chaotic source, it's a world-class chaotic source! master of the source world

[Chapter 1347: Break the law with strength!](#)

The genius remembers the address of this site in a second: [Aibilou]<https://The fastest update! No ads!>

"Ye Mengshahua, do you want to launch a large-scale attack on the camp of practitioners?"

In the deep and boundless darkness deep in Chaotic Source Space, there is a huge hollow sound echoing.

Huge tentacles could be faintly seen wriggling in the darkness, completely shattering the surrounding void, carrying the power of destroying heaven and earth.

"Yes." The huge colorful snake hovered in the void, raised its head, and looked at the terrifying existence opposite. "My elder brother Yemengade died at the hands of practitioners. I must avenge this revenge. If I want to get back my brother's bones, I must divert the attention of the practitioners and lords. Lord Azathoth, I want you help me..."

The depths of the darkness vibrated, and a terrifying existence that had existed since ancient times and would never die or die emerged.

Its appearance is like a huge shell, with several knobby cylindrical pseudopods protruding from the half-open shell, a mouthless face with sunken eye sockets peeking out from the inside.

There are also huge tentacles stretched out from the boundless darkness behind him, twisting at will.

Its existence distorts the world, distorts the rules, and distorts cognition... just watching, can make semi-chaotic source life forms and even high-level chaotic source life forms die crazily.

"Help you?" the voice said again.

"Yes." Ye Mengshahua said. "I know, my lord, you also had your favorite descendants who died at the hands of the cultivator lord. The hatred between us is common. As long as you persuade the other four eternal ancestors, most of the ancestors of our Hunyuan life group will support it." This action."

There are countless groups of life forms born with chaotic origin.

There are more than a hundred ancestors, and there are even new ones born over the years.

However, among the ancestors of the Chaotic Origin Life Clan, only five are the most special. These five... are all immortal. They all have special bloodlines, can never be killed, and are also the most powerful.

They are called "eternal ancestors".

As for the other ancestors, their bloodlines were excavated to the extreme, and they were equally terrifying, but after all, they were a little bit worse than these five.

Azathoth said with emotion: "You, the world-devouring snake family, started to decline after the death of Yemengad, but I didn't expect that after a long time, you became the ancestor class again..."

Ye Mengshahua said: "The corpses of my brother and the ancestor of the Thousand-Eyed Clan were placed in a source world. That source world is very special. It was created by the oldest lord Yuan of the practitioners. It is more difficult to attack than ordinary source worlds. If we act rashly first, the lords will attack me vigorously, I only need my brother's bones, the thousand-eyed corpse, I can hand it over to others."

Azathoth pondered slightly.

Whether it is the snake that eats the world or the existence of the thousand eyes, it is of no use to existences like it, but it may not be the ancestors of other factions.

Coupled with the hatred with the cultivator...

A deep and hoarse voice echoed in the darkness: "Your proposal is very tempting, I agree."

"I'll help you convince others."

Ye Mengshahua was overjoyed. With this ancestor, it was almost a certainty to persuade the ancestors of other forces to launch an offensive against the practitioners.

Watching Yemengshahua leave, Azathoth was rarely lost in thought.

I don't know how long it took, and a sigh came.

"The lord... When can we kill one? But if we can kill a lord, we should be able to kill us too, right?"

...

In the infinite chaotic source space, the inborn chaotic source beings dig their blood to the extreme, and they become lord level chaotic source beings, all of them are extremely tyrannical and possess unimaginable means.

There was even a lord-level chaotic source life of time-space bloodline, who was once killed by a practitioner lord, but after a long time, he was resurrected again.

That great existence, whose combat power is at the bottom of the lord level, can be resurrected from time and space, and can never be killed. Every great existence of the 'lord level' has its own means against the sky, and they can also hit the practitioners who are seriously injured.

However, the strength of the seven lords of the practitioners is stronger than the lord-level existences in the Chaotic Source Life. All of them have understood the essence of the highest level of power and the 'Tao' in it. They may be injured, but should they be killed? It is almost impossible to kill their 'main battle clones', let alone they all have clones in their own source world. With the help of their own source world, world-class Chaotic Source beings are almost invincible, let alone lords.

It is very difficult to kill a world-class Hunyuan in the active world, but killing the Hunyuan lord in the active world is as difficult as going to heaven!

At least, in the Infinite Chaotic Source Space so far, no one has the power to kill the Lord of Chaotic Source.

...

continent of origin.

Wu State, the current monarch of Wu State 'Carved Heart' walked together with a luxurious man in royal robes.

The man in the royal robe said with emotion: "I really didn't expect that I would be resurrected one day."

He is 'Chen Jing', the fallen monarch of Wu Kingdom. After Wang Yi took charge of the source world, he was naturally resurrected from the past time and space.

In fact, resurrection does not mean changing the past. No one has the power to really change the past. Even the Lord of Chaotic Source cannot do it. Now it is known that no life in the Chaotic Source Space can do it. Resurrection is just moving the life that died in the past to the present time and space, but it will not have any impact on the past, what should happen still happens.

Princess Kexin walked in the garden beside him, and said with a smile: "Father, this is all thanks to Senior Brother Wang."

Thinking of that terrifying existence, the monarch of the Wu Kingdom, Chen Jing, couldn't help but sigh with emotion: "Yes, the master of the source world is in charge of the highest rules. I have heard such legends before, but I didn't expect that a successor who appeared only after I fell, But to reach such a state is really unimaginable."

Like the monarch of the state of Wu, there is more than one, even the general of the state of Wu, many important members of the state of Wu, and many dead creatures in the past of the state of Jin have also been resurrected. There are too many creatures, that's too many.

Now that Wang Yi has become the master of the Yuan World, many changes have been made, and the Yuan World will no longer suffer from catastrophe of catastrophe. At the same time, there will be no world beasts born in the universe sea.

Now the high-level powerhouses in the entire origin continent know the legend that the owner of Tianhuang Mountain is in charge of the source world.

The owner of Tianhuang Mountain is even more mysterious and detached, but except for a very small number of people who are related, it is very difficult for others to meet him.

The monarch of the state of Wu sighed endlessly, and was extremely proud in his heart.

"The master of a great source world is actually my disciple."

...

"The master of a great source world is my apprentice." A golden fluffy big bear in a golden robe sat there, bragging to other people.

Although those strong men in Tianhuang Mountain had heard him play countless times, they still listened with a smile on their faces.

"Star Prison God King, we all know that you are the teacher of Tianhuang Mountain Lord, but I have heard that you did nothing in the early days of the great Tianhuang Mountain Lord's growth..." a human female **** Wang Dan laughed.

"Who said I didn't do anything?" The former Lord of Star Prison, the True God of Star Prison... the current King of Star Prison stared with huge bear eyes, and retorted dissatisfiedly, but then his tone dropped again, "Hmph, what do you know? You are not my apprentices, so how do you know what I have done..."

Several **** kings passed by in the distance, seeing this scene, they looked at each other and shook their heads.

"Grandpa Star Prison is bragging again."

"Forget it, who told him that he is really my dad's teacher, you can brag about it, and it's not breaking the law."

"Let's go quickly, don't be seen, I don't want to hear the old man blowing water all the time."

Several **** kings slipped away quietly, only voices could be heard.

"Speaking of which, why is Luo Hai still in Universe Sea?"

"Not sure, it seems that my dad wanted to help, but Luo Hai didn't want to."

"I heard that Luo Hai was not Uncle Luo's biological son?"

"Shh, don't talk nonsense..."

"By the way, Mom and Dad have been together recently, do you want to have a fourteenth child?"

"You are going to die, dare to say anything?"

Gradually, several children of the Wang family walked away.

...

On the top floor of Tongtian Pagoda, in the quaint courtyard, a black cat with a **** crescent on its forehead was lazily napping on the eaves, and a white egg was floating at the bottom of the pond.

Inside the egg, there is a vast world that is changing rapidly.

In these years, apart from understanding the rules and mysteries of the "World-Class Chaotic Source" and creating new tricks, Wang Yi has focused his energy on continuing to understand the seeds of this source world.

"It is said that it is impossible to comprehend the supreme law, and no one has truly comprehended the supreme law."

This is actually true.

Wang Yi thought to himself. "In fact, even if you comprehend more than half of the second-level Dao, and use more than half of the original source to refine a source world, it is far from comprehending the supreme rule."

After so long, he also understood in his heart.

To truly comprehend the supreme rule, one should comprehend the ultimate state of all Taos, and then integrate them perfectly, just like the perfect origin of the source world, that is the real supreme rule.

But has anyone done it?

There are huge source worlds, and the composition of the source world is also extremely mysterious. Each source world is the most miraculous existence in this endless chaotic source space, and they give birth to all living beings.

Perfect, balanced, great, even from a certain point of view, even the strongest Hunyuan lord in the Chaotic source space came out of the source world, the source world is really very special.

"Even Lord Hunyuan, who has comprehended the essence of 'Tao', can't do it." Wang Yi understood clearly.

All the ultimate ways...

Naturally, it includes the ultimate of the soul path.

But the infinite chaotic source space has never reached the ultimate soul path.

Naturally, no one has really comprehended the supreme rule.

"The supreme rule, or is it really the supreme rule, and not just limited to the source world?" Wang Yi had many thoughts.

It's as if he was in the universe sea back then, and the operation rules of the original universe were influenced by the universe sea.

Or the operating rules of the source world are also affected by the entire infinite chaotic source space.

Not to mention that all Taos reach the ultimate level, or that all Taos reach the second level...not at all.

No one knows what changes will happen when the soul path reaches the ultimate level, and naturally no one knows what changes will happen if you really master all the ways.

Because of mastering all the Taos, the difficulty is still reaching the ultimate in the soul road!

And the source world seed that Wang Yi obtained has never appeared in the infinite chaotic source space before, and he doesn't know how the teacher refined it.

These years, one path after another, was realized by Wang Yi to the first level and the second level.

Wang Yi had a hunch in his heart that maybe he could comprehend all the Taos to the second level.

...

The years passed silently.

this day.

The vast and boundless world of Chaotic Source outside Jiexin Continent.

Several terrifying existences descended quietly.

"This is the Jiexin Continent created by Yuan. The ancestors of the dead thousand-eyed ancestor and the world-devouring snake are all here?"

"Damn lord, you actually killed so many ancestors of my natural Chaotic Source Life."

"We can't be careless. This source world is not a natural source world, but created by Yuan. Yuan is the oldest lord of practitioners. You should know how difficult he is."

"Well, that's right, just looking at this source world, I can't see through it. I'm afraid Yuan has a lot of arrangements in this world. After all, the corpses of our two ancestors who were born with chaotic source life are placed here. Yuan should have thought about us. There are people who want to take it back."

"Wait a little longer, wait until the other ancestors contain the practitioners and lords, and then launch an offensive against many source worlds, mess up the situation, and then we will do it."

"This time, the bodies of the two ancestors must be brought back."

The ancestors who were born with Chaotic Source of Life secretly discussed.

...

The attack on the territory of practitioners by the natural chaos source life group broke out soon!

The news of the world-class Hunyuan powerhouses patrolling the territory was quickly sent back to the lords.

As for the lords, they were also alarmed.

"Infinity, what do you want to do?"

A loud voice echoed in the vast dark space.

The ones who did it by themselves were not the ancestor-level innate Chaotic-source beings, and they generally would not end in person at that level, but the lords found that there were many strong innate Chaotic-source beings appearing in their territories!

And the ones sent out to fight are definitely not those new world-class Chaotic Source beings. Many of them can only be dealt with by the top powerhouses on the side of practitioners.

But the lords can't control them, they have been restrained by the ancestor of the natural Chaotic source of life.

While the lord's ancestors are restraining each other, many other important places, and even some source worlds, are facing the threat of strong people born with chaotic origin life.

"It's crazy. How long has it been? The natural Chaotic Source life group hasn't launched such a big offensive." The inspectors under the command of the lords from all over the place also felt nervous and stressed.

Among them are the inspectors of the Seventeen Regions under Yuan's command.

As the largest lord of the oldest territory, Yuan also has the most powerful people under his command.

Of course, the most battles broke out in his territory!

As a patrol, he is specially responsible for monitoring and detecting the surrounding movement, so naturally he also has powerful means in this regard. Right now, Venerable Silver Wing is frowning and looking at the distant Chaotic Source Space. Shuttle at high speed through these passages.

He is very clear that if those world-class chaotic source beings that are about to arrive come over, they will wreak havoc and destruction, and the source worlds will definitely be destroyed, and even some other important places will be destroyed.

"It's messed up, it's really messed up." Venerable Silver Wing shook his head as he knew how many enemy powerhouses had come through the communication treasures between Chaotic Source powerhouses.

"All-out offensive?"

It seems that this time, it really can only fight.

...

In a certain territory of the boundless Chaotic Source space, there is a powerful Chaotic Source being rushing along a fixed passage at high speed.

"boom."

A gigantic creature came out of the tunnel, and once he came out, his body size skyrocketed and returned to normal. His size was about one percent of the normal source world, and even standing there caused a sensation. The surge of countless chaotic source powers around him, and the rules of his body's natural release, impacted the chaotic source power.

The twelve golden horns on his head are all piercing upwards, and the eight arms are strong and strong, on which there are countless rules of Chaotic Source levels flowing mysteriously. Different parts of his body have different time flow speeds. Some areas have fast time flow speeds, and some areas have slow time flow speeds. The space is even more intertwined, but the same space can have many body parts folded here.

His existence... is like an ultra-small source world.

This is 'Yan', a very well-known strongman in the Chaotic Origin life group.

Yan is a world-class Hunyuan late stage, and his accumulation is extremely thick, so he is not easy to provoke. Only a world-class Hunyuan consummation powerhouse among practitioners can deal with him.

His huge eyes looked at the huge source world in the distance, and he grinned.

"According to the information, the practitioners don't have a world-class Chaotic Source around here, so I can act as I like."

"Or they have already discovered me, but by the time the cultivators send strong men over, it will probably be enough time for me to destroy this source world."

He flew towards the source world.

That source world is the Origin Continent.

...

"Huh?" As the master of the source world, he is extremely sensitive to his surroundings. The Hunyuan life has not even completely arrived, and Wang Yi has already sensed his arrival from a distance.

Wang Yi gazed, easily penetrated the source world, saw the endless chaotic source space outside, and even saw the innate chaotic source life that was shuttled at high speed in the distant passage.

Wang Yi was startled, and then his eyes became serious.

"He was born with a Chaotic Source life force, and he looks like a world-class Chaotic Source? His aura is stronger than the current me."

Wang Yi has just entered the world-class Hunyuan not long ago, although he is constantly comprehending the mystery of Hunyuan's rules.

But now a source era is far from over. The source era is the unit of time calculation among Chaotic Yuan powerhouses. One source era is estimated to be equal to the time when a source world enters the Great Destruction. In fact, it has been a long time.

Even Wang Yi's source world seeds haven't finished evolving yet, which shows how short it has been for him to enter the world-class chaotic source.

"The strength I can display now is barely the mid-stage of the world-class Chaotic Source. This is why I am good at tapping the potential of the world-class Chaotic Source rules by understanding the rules of the original source to control the source world." Wang Yi frowned. "But the Chaotic Source Life that came over is at least at the level of the world-class Chaotic Source Late Stage. I should not be his opponent."

but...

"Fortunately, this is my source world." Wang Yi didn't feel much nervous.

A world-class chaotic source late life? Very strong, but for a world-class chaotic source in an active world, it is far from being a threat.

"Wang Yi." The black cat Xueyue also told him at this time what happened between the camp of infinite chaotic source space practitioners and the camp of innate chaotic source beings.

"War?" Wang Yi was surprised.

"That's right, it's a war. I don't know why the people born with Chaotic Source Life suddenly launched a large-scale attack. Our lords are all restrained by the other party's ancestors and can't be distracted. Besides this, there are more strong people born with Chaotic Source Life Kill them too." Black Cat Xueyue said. "My main battle avatar has also passed away. This time the battle is likely to be fierce."

She glanced at Wang Yi again, "But you have just broken through, and you are not even a world-class Chaotic Source late stage, so you are not needed."

Wang Yi also felt that things were unusual, but he was not strong enough, and he couldn't participate in things at that level.

"There is a life form born with a chaotic source coming towards us." Wang Yi nodded, and then said.

"He?" The black cat Xueyue looked out of the source world, the world-class chaotic source's perfect level made it easy for her to see the 'rock' flying over.

But she doesn't care.

"Yan, I know him, he is a world-class Chaotic source late stage of the Chaotic source life group. His group has an ancestor, and there are several world-class Chaotic sources. He is also considered a relatively powerful one in the group, but for you The owner of the world should be nothing." The black cat Xueyue said very calmly, "If he gets close and sees your source world, he should know that this source world has a master, as long as he is not stupid, he will not fight you. "

Fighting against the master of the source world in the lair, even if the world-class Chaotic source is perfect, it will not do such a stupid thing! Even if they won't be killed, they can't do anything to the master of the world.

I'm afraid that only the ancestors who were born with chaotic source life can destroy a source world with a master.

It's just that the black cat Xueyue said with some worry: "That Yan knows that he can't deal with you, and he can't destroy your source world, so he will definitely give up and go to other places to destroy it."

"Yeah." Wang Yi also thought of this, but just like the black cat Xueyue said, he is not strong enough and invincible in his old lair in the source world, but when he goes out, he is only barely a world-class Chaotic source middle stage, and he can't even entangle the other party. If you really want to fight, I'm afraid you will be killed in a short while.

Of course, what died was only a clone of the main battle, and it only took some time to regroup in the old lair in the source world.

At this time, the 'Yan' who was gradually approaching the continent of origin also found that something was wrong.

"Wait." He stopped and did not continue to approach, with a hint of surprise in his eyes.

It landed in the distance just now, the distance is too far, he hasn't discerned it carefully yet.

But now that he was approaching, he could feel the powerful aura hidden in the huge source world in front of him.

"This source world has an owner?" Yan was extremely surprised. "Why didn't the information come out? Could it be the new world-class Hunyuan?"

The natural Chaotic Source life group will also collect information on the strong practitioners. Of course, it must be a world-class Chaotic Source. As for the high-level Chaotic Source life? There are too many chaotic source spaces, it is not eye-catching at all. It is not considered combat power.

The three Hunyuan ancestral gods in the Thunder World community are relatively powerful high-level Hunyuan beings, but only with the help of the Thunder World community can they fight against the world-class Chaotic source.

"It's troublesome." Yan frowned slightly. "Since a master was born in this source world, it is completely impossible to destroy it."

There is a huge difference between a source world with and without an owner!

There is no master in the source world, and it can only rely on the laws of nature to operate. The incomparably huge power is scattered everywhere, and the ability to resist is very weak.

But there is a source world with a master!

The power is perfectly mobilized! The power of the vast source world merged into one and exploded! Comparable to a lord!

His world-class Hunyuan late-stage lifeless past, I am afraid that he will be strangled to death by the other party all at once.

Even getting close to... is dangerous.

"Fortunately, it was discovered in time." Yan shook his head.

"Let's go." Since there was no hope, Yan gave up, but before giving up, he took a look at the source world, and at the same time passed the information back.

The Chaotic Source life group knew that there was a world-class Chaotic Source practitioner in this territory... But this has no effect on the entire battlefield situation, and no one cares that there is a world-class Chaotic Source here.

"He's gone." Wang Yi in Origin Continent also watched 'Yan' leave.

"Huh?" Suddenly, his heart moved, and he felt something, showing a smile.

Source World Seed.

A stream of dreamlike streamers surrounded Wang Yi, completely surrounding him.

"All the Taos are on the second level, and even the Tao of Void is the ultimate." Wang Yi was full of joy, "Unfortunately, after all, there is no hope of breaking through the Lord of Chaotic Source, or even the ultimate path of the soul. The environment is always a little bit worse."

"However, before the seeds of the source world completely dissipate, I have realized the Tao to the second level." Wang Yi thought to himself.

All the ways of the seeds of the source world have been realized by Wang Yi.

"Buzz!"

All of a sudden, the lights on Wang Yi's body shook, and they resonated with the seeds of the source world.

From the depths of the seed in the source world, a golden light suddenly appeared.

The golden light is indescribable, even with the soul of Wang Yi's world-class chaotic source life, he can't see it. There is only a feeling of facing the supreme and magnificent thing.

"What is that? Why is there such a golden light in the seed of the source world?" Such a thought flashed through Wang Yi's mind.

Afterwards, the golden light merged with the flowing light on the surface of his body.

The Taos of the source world, the Taos of the second layer, merged with the golden light all of a sudden, turning into a gray and mysterious sphere with traces of golden light, flowing with supreme charm and exuding a supreme aura.

"The origin of the supreme rule? No, it should be the prototype of the supreme rule? A new seed?" Wang Yi was shocked.

This mysterious sphere is composed of the second-level Dao that Wang Yi has comprehended, which also incorporates the mysterious golden light, which has undergone some special changes.

There is a sense of perfection and eternity.

But then, this mysterious sphere, attracted by Wang Yi, flew towards him, and the next moment, it entered Wang Yi's body.

Wow!

Endless light bloomed from Wang Yi's body!

...

Realm Heart Continent.

Outside the source world, several terrifying existences descended, their incomparably huge bodies even looming over the volume of the source world.

"Boom!" It has been premeditated for a long time, just for this moment, the ancestors who were born with Chaotic Source of Life mercilessly launched their most terrifying attack!

Jiexin Continent is facing a huge crisis at this moment!

[Chapter 1348: Overlords! Half step to Chaotic Source 2nd Realm?](#)

In the infinite chaotic source space, many terrifying existences are recognized—the lord is the most powerful among individuals!

But relying on the source world, in the source world, even a world-class Chaotic source who does not have the 'Tao' at the level of Chaotic source can contend against the lord!

This proves that the source world is not inferior to the Lord of Chaotic Source in essence, and may even surpass it in some aspects!

All the origins of the source world are composed of the Taos of the ultimate realm, and they are all integrated to form a complete and supreme rule.

No one can really comprehend the supreme law, because the ultimate of the soul path is also a part of the supreme law.

Even if you control the source world and refine the source of the source world, you can only control it, and you can't fully understand it.

What will happen if you truly comprehend the Supreme Rule?

Nobody knows.

But at this moment, Wang Yi has comprehended all the Taos of the second level, and under the fusion of the mysterious golden light, he has completely integrated into one!

Condensate a seed similar to the "Seed of the Supreme Rule of the Source World"! A prototype!

Wang Yi is the master of the source world, and the source world is a part of him.

When the mysterious sphere merged into his body, boom! Unspeakable changes appeared in Wang Yi.

The 'Original World Seed' and the Supreme Rules of this Fangyuan World attract each other and move closer to each other, just like two magnets that naturally attract each other, gradually approaching irresistibly, and finally, they merge together.

If the source world was only a part of Wang Yi before, it is all of it now!

He is the supreme rule! The supreme rule is him!

Void Road!

Fire Road!

Destruction Road!

Thunder Road!

Shadow Road!

...

The rules of Taoism, those of the ultimate realm, and those of the second level, all emerged in Wang Yi's soul and continued to evolve.

Naturally, he understood what the ultimate of these Taos was.

Including... the most mysterious path of the soul.

The path of the soul is not only the path of the illusory realm, including the path of the illusory realm, it is just a path of the soul path.

But now as Wang Yi has become the supreme rule and truly understands the essence of the supreme rule, he has naturally mastered the ultimate of all Taos, including the ultimate of all Taos of the soul path, and mastered the mystery of the ultimate rules of the soul path .

Wang Yi sighed inwardly.

How great and full of mysteries is the supreme rule of the source world!

Even Lord Chaotic Source cannot master all the paths to the ultimate realm! There is no way to master the ultimate of the soul path!

Master the ultimate of the soul path! It can be integrated into the origin of an ownerless world, the origin of the world is immortal, and the soul is immortal. Even the ultimate of the soul path is compatible with other semi-chaotic source-level dao, and other dao can be deduced to the level of "breaking the law with strength", and become the lord of chaotic source.

But do you want to realize the ultimate and consummation of each path? Re-integration? Like the supreme rule?

Normally, it's almost impossible.

This difficulty is much more difficult than becoming the Chaotic Source Lord.

In the history of infinite chaotic source space, no one has achieved it.

Except Wang Yi.

He comprehended the second-level Taos one after another by comprehending the 'seeds of the source world', but he couldn't merge them into one! He doesn't even know what to do!

If you think about it, you will know that it is so difficult for the two veins of a road to merge together to form the second level of the universe god.

Only when all branches of one path are fused together can it become the ultimate.

This is still the same path, and integration can be said to be much simpler.

A fusion of different paths?

How to integrate?

How to integrate?

That difficulty, I don't know how terrifying it is!

Anyway, Wang Yi had never thought of merging these Taos before, even if it was only the second level, it would be too unbelievable.

But the mysterious golden light that appeared after that almost changed everything.

The mysterious golden light is hidden in the deepest part of the seeds of the source world, but only when Wang Yi fully realizes all the second-level Tao and forms a resonance with the seeds of the source world, can it be summoned.

As soon as it came out, it integrated all the Dao that Wang Yi had comprehended, and then condensed into a mysterious sphere of gray and golden light.

This sphere is a fusion of all the Dao of Wang Yi's second level, although it is one level lower than the source of the supreme rule composed of the Tao of the ultimate realm in the real source world!

But after all, it is also a prototype! a seed! A low-end version of the 'Supreme Rule Origin' that combines all the rule paths.

And Wang Yi is the master of the source world, and has already refined the original core of the source world.

So this newly born 'Seed of the Source World' has an instinctive connection with the Supreme Rules of the Source World!

The seeds of the source world are integrated into the source of the supreme rule, and Wang Yi's path is also integrated into the source of the supreme rule, and then start to absorb the mystery of the supreme rule to grow!

In the past, he was in charge of the supreme rule, but he was just in charge, not really comprehended.

From this moment, Wang Yi truly comprehended the supreme rule, which is his way!

"Boom!" Wang Yi felt that his soul had changed again after becoming a world-class chaotic source and taking charge of the source world.

This change is far more than ever before!

"It turns out that only when the soul path reaches the ultimate, the soul is truly complete." Wang Yi had a clear understanding in his heart.

Although Hunyuan beings have a high soul level, they have not mastered the soul path of the ultimate realm. The soul is powerful in a certain way, but it is not really perfect.

Only soul path rules are mysteriously fulfilled! Only then can a soul be truly fulfilled.

Wang Yi's soul is finally complete now.

Previous attainments in the soul have already surpassed the infinite chaotic source space, and now all kinds of soul paths are not limited to the illusory realm and the path to the ultimate! He is also the first among all living beings to cultivate the path of the soul to the extreme!

Any kind of Tao, to reach the ultimate, will have various means. Ordinary people who realize Taoism in the ultimate state, such as breath can be completely restrained, cause and effect are hidden, various means of escape are greatly increased, and so on. And the Tao of the soul...reaches the ultimate! But it never happened.

Not to mention, all roads reach the ultimate!

However, Wang Yi's strongest is still the 'Void Dao', only the Void Dao is at the semi-chaotic source level! Everything else is extreme!

"It seems that only by combining my physical body and soul path can I break through to become a lord the fastest." Wang Yi said softly.

His avatar in Jiexin Continent also noticed the changes outside the source world. He knew that the inborn Chaotic Source beings were also attacking Jiexin Continent, and that there was no source world master in Jiexin Continent. How is the result.

"My soul is in the ultimate state, and I am already a world-class chaotic source. I can easily deduce the mystery of a higher soul level, which poses a threat to the chaotic source level, and any avatar can integrate into any world without a main source." Wang Wang Yi thought to himself.

The soul can easily integrate into the origin of the world. Although it is not the master of the world, it can also mobilize part of the original power of the world and all the power of the world. Can it be regarded as the messenger of the world?

But the most powerful thing is to integrate into the source of the world. If the source of the world is not destroyed, the soul will not be destroyed.

After the clone is killed in battle, it is enough to quickly condense from the origin of the world.

Such means are enough to make many Hunyuan beings envious.

"But if the ancestors of Chaotic Origin beings are born outside the Jiexin Continent, how about facing the ancestors?" Wang Yi still felt that he was not sure enough.

He must be stronger.

And now he has direction.

As long as the physical body reaches the semi-chaotic source of life, and the soul path reaches the ultimate, the combination of the two can break the law.

This is a smooth road, but reaching the ultimate soul...is difficult and difficult. Among countless practitioners so far, only Wang Yi has achieved this step.

After all, the path of the soul is difficult, unlike other paths, such as void, flame, thunder...all of which are a kind of external force.

The path of the soul involves many aspects such as ideology, and it is very difficult to practice.

It is not so easy to become a lord after all.

And after becoming a world-class chaotic source, the soul is strong enough to integrate the mysteries of the soul of the ultimate realm into the body. It is estimated that it only takes two hours to deduce smoothly all the way and become a lord.

And Wang Yi felt that there would be new changes if he comprehended the supreme rule, or became a lord.

...

Realm Heart Continent.

Several giant bodies, although much smaller than the source world, are still extremely huge. The ancestors of Chaotic Source Life are attacking this source world frantically.

"Yuan, your main battle avatar is not here, relying on this avatar, plus the means arranged by the source world, how long can you resist us?"

"Give up, we just want to get back the corpses of the two ancestors, we will leave, and this war will end."

"We can even promise to take back only what belongs to us, and this source world will not be destroyed."

"Since you want to resist, don't blame us for being ruthless!"

The secret pattern chains formed a formation that exuded boundless power and protected the Jiexin Continent inside. However, under the full attack of several powerful innate Chaotic Source beings, the secret pattern chains began to break, collapse, and even the battle occurred. A trace of terrifying power spilled out, making the powerful people in Jiexin Continent feel the monstrous fluctuations of terror, and feel boundless fear in their hearts.

"What the **** happened? Where did those terrible beings outside come from?" Emperor Xia, Fan Zu, and Emperor Cang looked out of the source world with serious expressions in the palace of Xiaofeng Ancient Kingdom, but even they did not. They can't see the situation there clearly, they can only feel that kind of destruction, which far exceeds their level of strength, and just the induction from a long distance can make them feel irresistible fear.

They also guessed that there was a strong Hunyuan attacking Jiexin Continent, and they were even more anxious.

"They haven't done anything to Jiexin Continent yet, so Yuan should be fighting them, but if Yuan can't hold on..."

People in Jiexin Continent who understand the situation feel heavy in their hearts.

This feeling of not being able to control fate and waiting for death to come is really uncomfortable.

As for the Continent of Origin, in the chaotic source space outside, Wang Yi stood in the void with his eyes closed, feeling the change of the soul blending into the body, and at the same time, he was constantly deducing the void path of the "chaotic source level" in his mind!

In fact, he even feels that he can deduce the path of other levels, and he may even deduce it to the "chaotic source level"!

It's just that the time required may be very long and uncertain, and the 'Void Dao' is currently his strongest, the only one who has reached the semi-chaotic source level, and it is only one step away from crossing to the chaotic source level.

Break the shackles of life.

This is 'breaking the law with force'.

Other soul paths in the ultimate realm may only be able to deduce one path to the chaotic source level, but that is because they are not good at other paths.

However, Wang Yi has achieved the ultimate in all paths and integrated them into the supreme law, truly incarnating the existence of the supreme law.

No one can imagine his future path.

Time passed by little by little, and this void seemed to stagnate.

"Boom—" Wang Yi's mind was roaring at the moment. The more the final stage, the continuous combination of many rules made Wang Yi's understanding of the rules more advanced.

He suddenly opened his eyes, and countless streams of light flickered in his eyes.

"It's so strange." Wang Yi looked at the endless chaotic source space, and the originally surging and endless chaotic source power turned into lines in his eyes! Lines... are the essence of the Chaotic Source Power, and these lines are the rules! After the rules are condensed, the endless power of Chaotic Source will naturally evolve.

Although this endless chaotic source space, there are still many things that confuse him.

For example, some life forms born with chaotic origin... They are born like this, and their bodies contain many rules, and some of them are beyond comprehension by Wang Yi. Another example is the various strange forces generated under the operation of this endless chaos source space, such as strange time and space, such as some special creations...

"It's not enough." Wang Yi continued to deduce his feelings.

until-

"It's so beautiful." Although Wang Yi closed his eyes, the complete "Chaotic Origin of Void" appeared in his mind. At this moment, he had fully comprehended it.

It's really beautiful!

It contains the most essential truth of this infinite chaotic source space.

Finally, now he has grasped the essence of the 'Power of Chaotic Origin Void'.

The operation of the infinite Chaotic Source Void, at least in terms of the power of Chaotic Source, has no secrets from Wang Yi.

"The power of Chaotic Source, it is the soil of the source world and many other worlds, it contains everything, it is the foundation of everything."

Wang Yi opened his eyes.

boom!

!

His body began to leap, and his level began to increase.

He began to crazily absorb the endless power of Chaotic Source around him, and saw that the power of Chaotic Source in the vast area around him gathered violently, forming a huge vortex, and a large amount of Power of Chaotic Source poured into Wang Yi's body all the time, making him The body of the body is changing, and the surface of the body skin begins to have small chaotic source worlds, and the body itself is as powerful as the chaotic source, as if every move has endless power, but it is also as vast

as the void, no matter how many The attack fell on Wang Yi's body, as if attacking the void, unable to touch Wang Yi's real body.

"Lord?" Wang Yi felt his strength.

In this infinite chaotic source space, there are many powers of the highest level, which can control the power of the highest level... that is, the power of the lord level and the ancestor level! The difference between the lords of the practitioners and the ancestors who were born with Chaotic Source Life is... Although the ancestors are in charge, they can display this kind of power. But what they rely on is the blood that has been tapped to the extreme.

The lords, on the other hand, have mastered the 'Tao' of the essence of power, so it is naturally different.

"In this infinite chaotic source space, the power of chaotic source is just the soil. On this soil, there is more power." Wang Yi felt slightly emotional in his heart. He knew that there were still many mysteries in the infinite chaotic source space that he needed to explore.

"Huh?" After Wang Yi mastered the 'Power of Chaotic Source Void', he felt the existence of the mysterious sphere in his body. It was a gray sphere flowing with golden light. The seed of the world, then, is now the source of the true supreme rule.

It's just that it relies on the source world to exist after all, without the blessing of the original power of the source world, it is still not as good as the Lord of Chaotic Source outside the source world.

But after becoming the lord of Chaotic Source and mastering the 'Power of Chaotic Source Void', Wang Yi felt a connection between this source and the infinite Chaotic Source space outside.

It's like a ubiquitous... vibe.

"Resonance?" Wang Yi was thinking, following the feeling, stretched out his hand, and at the same time manipulated the 'Power of Chaotic Origin Void'.

boom!

!

The power of resonance from the source of the supreme rule is stimulated by the power of the chaotic source void, and it immediately expands billions of times!

Then Wang Yi felt that the infinitely vast range of chaotic source space, countless, countless chaotic source void powers were mobilized by him.

If the Chaotic Source Void Power that Wang Yi could mobilize before was one, then now it is ten, one hundred, one thousand...

The almost boundless power comes from the entire chaotic source space, which seems to be boundless and endless, but what Wang Yi can mobilize is only an extremely small, extremely small point.

Like a drop of water in the ocean.

Compared with the entire infinite chaotic source space, even the ancestors born with chaotic source life, the chaotic source lords of practitioners, and even other special beings are just a drop in the ocean, and they are just one of the more powerful lives bred and born in its infinite space.

But no one has been able to truly mobilize the power of the infinite chaotic source space before.

Except for Wang Yi who comprehended the true supreme rule at this moment and became the lord of Hunyuan again.

"How can I do this?" Wang Yi was also puzzled.

And he faintly felt that resonating with the infinite chaotic source space or this was just one of the abilities of the 'mysterious sphere', and there were other abilities waiting to be discovered by him.

"Could it be that there is really a higher level above Lord Hunyuan?" Wang Yi had a thought in his mind.

However, although this kind of power can be mobilized, only Wang Yi can feel it, but no one can perceive that a more terrifying existence has been born.

...

When Wang Yi took that step and became Lord of Hunyuan.

That kind of power fluctuation belongs to the fluctuation of the "Tao" at the chaotic source level, and it also makes some movement in the infinite chaotic source space.

In the depths of infinite chaotic source space. A strange world is hidden, it is hidden, and no living body in the infinite chaotic source space can find it.

At this moment, it exudes fluctuations and watches from a distance.

Looking at the man in the fiery red robe in the distance.

"The creatures in the source world finally gave birth to another lord? It's amazing, these originally extremely weak beings can finally become Hunyuan beings, and even reach the peak. It makes me feel pressure." The film of this world A huge eye loomed faintly on the wall, followed by the eye and disappeared.

...

Infinite Chaotic Source Space, the first world born.

This is a very special world.

In this world, there are clouds in the sky, and each cloud is actually a source world outside.

But the ground is endless black soil. In the black soil, a snake-shaped monster slowly drilled out, it wandered in the void, very comfortable.

"Um?"

Suddenly, snake-shaped monsters emerged from the endless black soil. They all looked up at the sky, and the location of Chaotic Source Void corresponding to the sky...was exactly where Wang Yi was, and a terrifying aura appeared there.

"Those weak practitioners, another lord has emerged?"

"How nostalgic for the past. At that time, you could eat as much as you wanted, and there was no lord. It's gone forever."

"Sleep, sleep."

The snake-shaped monsters retracted into the depths of the soil again.

The snake-shaped monster in mid-air was still walking leisurely, slowly moving around.

...

Standing in the Chaotic Source Void, Wang Yi marveled at the power of the Chaotic Source Void mobilized through the mysterious sphere just now.

It feels like it has surpassed the level of Chaotic Source Lord!

"All the Taos of the ultimate realm are fused into the highest rules, and there is such a terrifying ability? It seems that this is just the beginning, and it is far from being truly formed." Wang Yi has a feeling.

The gray and mysterious sphere in his body seems to have just formed, it is a 'seed'.

"Since it is related to the infinite chaotic source space and condenses all the ultimate dao, then I will call it the 'chaotic source dao seed'."

"I should be stronger than the Lord of Chaotic Source now, but it's not a real leap. If there is a higher level in the Chaotic Source realm, and the Lord of Chaotic Source is considered the first level, then'...I should be half-stepping into the second level of Chaotic Source? "

"But that mysterious golden light..." Wang Yi had many doubts in his heart.

The mysterious golden light emerges from the seeds in the source world.

The seed of the source world was given to him by the teacher Ming in the Tongtian Tower.

Tongtian Tower was pulled over by the sign-in panel again...

so...

What is the reason for all this?

But Wang Yi quickly calmed down.

Immediately after Wang Yi broke through, he also sensed the existence of another equally powerful person.

First of all, he sensed seven existences similar to his own aura type. They were scattered all over the place, each of them possessed different powers. However, the power is restrained to the extreme, but

people can't help but feel jealous, and some seem to be boundless and engulf everything in the sea of ??blood... These seven are no less than him, and they are at the same level of power as him.

"Seven lords." Wang Yi also understood. Over there, he felt the breath of Yuan, Jin and the teacher' Ming'.

There are four other Hunyuan lords who have never seen before.

These are probably the seven strongest existences on the side of practitioners in the Infinite Chaotic Source Dimension.

And they also noticed the existence of Wang Yi at the same time.

Wang Yi's breakthrough into Hunyuan Lord was too fast, too sudden! Without the slightest warning!

The seven Hunyuan lords were also very shocked.

Not to mention Hunyuan lords, even the ancestors who were born with Hunyuan life... never expected that a new lord would suddenly be born at this time!

"damn it!"

"Why! Why is a new lord suddenly born?"

Knowing that the ancestors of Chaotic Source Life were extremely angry.

It's also that they didn't expect it in advance.

Compared with a Hunyuan lord, taking back two dead ancestor corpses is nothing at all.

However, the war is still going on, and the cultivator Hunyuan lord and the ancestors are still in a stalemate.

The Lord of Hunyuan is also communicating rapidly.

After all, they all have avatars scattered in the infinite chaotic source space, and they also have means of communication with each other.

So they soon knew that this was the apprentice of 'Ming'.

"Ming, I really didn't expect that your apprentice has become a lord."

"congratulations."

"Ming, shouldn't this have something to do with you?" Yuan Ye sent a message to Ming.

Ming was also very surprised and puzzled, and immediately sent a message to his pet "Black Cat Blood Moon". Although the black cat Blood Moon is really strong and world-class chaotic source is perfect, but it is only kept as a pet by Ming.

"Meow, he has become the Lord of Hunyuan, meow, I don't even know about it." The black cat Blood Moon was also very confused.

However, from the black cat Xueyue, Ming knew that Wang Yi had finished comprehending the 'Seed of the Source World', and there seemed to be some changes after that, and he also had some guesses in his heart.

At this time, those lords also sent congratulations to Wang Yi.

After all, the addition of a Hunyuan lord is a great joy for practitioners.

"Wang Yi, congratulations."

"I'm waiting for another Taoist friend, congratulations, congratulations."

"Ming's apprentice, haha, then Ming and I are good sisters, what should you call me?"

"Shadow, don't talk nonsense."

"Xingmang, don't meddle in other people's business, do you want to come to my pure land to make gestures?"

"Wang Yi, I am Ao. If you are interested, you can come to my place as a guest in the future."

There are also some strange sounds mixed in.

While communicating with these lords, Wang Yi observed other terrifying existences.

On a strange land, Wang Yi was shocked by the power brought by that land. The moment he saw it-the flow of time around him stopped completely, and he followed Wang Yi to see a round table on that land, and three people around him. Eleven seats. Among the thirty-one seats, there are not many strong people in the seats.

They look at themselves in different ways, some are curious, some are friendly, and some are hostile.

But they should not feel the scene of Wang Yi mobilizing the power of Chaotic Source Void before, because it was only mobilized and did not really explode. The power of Chaotic Source Void permeated the entire infinite Chaotic Source Space. Naturally, I can't find it.

...

This is a very special place in the infinite chaotic source space. A piece of land was born here. The time here is always static relative to the outside world, and the stability of the void here is also the strongest. A grain of soil here... will make the high-level Chaotic Source life form feel unbearable, and the world-class Chaotic Source life form will be crushed into powder by gravity when it steps here.

Only the lord level can stand here.

And on this piece of land, there is a round table with thirty-one thrones around it, and now only a few of the seats are filled with beings. They have different shapes and life forms.

"Huh?" These people immediately looked in one direction from a distance. They sensed that an equally noble and powerful life form was born there.

"The creatures in the source world gave birth to another lord? It seems that we have to add another seat to the eternal land." A creature in white armor sat there, and his existence exuded The meaning of endless destruction.

"Those who came up from the weakest and humble cultivation, and finally reached the lord, all mastered the essence of power. I was born with the most peak combat power, but I couldn't grasp the essence of power anyway." A strange cube was also on the throne, and he A sound was made, and the figure echoed around.

"Cultivators have only had one 'Yuan' at the beginning, but now there are more and more, and there are more and more seats in our seat. I think they are becoming more and more threatening, and they must be weakened!" A big snake sat on the seat, he meandered Serpentine bodies wrap around. "We are born in the Hunyuan life group, and there are only five people who can occupy seats here, and there are eight of them." He said dissatisfied.

The other powerhouses were noncommittal about his words.

It is not easy to be recognized by this group of terrifying existences in the Eternal Land.

Among the first ancestors of the Chaotic Source life group, only five are recognized, and these five... are all said to be immortal. They all have special bloodlines and can never be killed.

However, the cultivator lord does not need to be confirmed, as soon as one is born, he will be invited to become a member of the Eternal Land.

...

"These horrors exist. UU Reading www.uukanshu.com" Wang Yi felt it.

In the infinite chaotic source space, there are more than two hundred terrifying existences that I can sense alone!

Of course, more than half of them are the ancestors of the Chaotic Source Life Clan.

This natural Chaotic Source life group has a huge advantage in numbers.

"There should be some, I can't sense it." Wang Yi secretly said, "And this infinite chaotic source space, I always feel that there are many unknown places."

He has now mastered the Dao of Chaotic Origin Void. So it is easy to faintly discover some unknown places, and he can't spy on those places from afar. You have to go there in person to find out.

"But there are more important things now." He looked in the direction of Jiexin Continent.

The war between the cultivator and the Chaotic Origin Life is still going on, and it doesn't end when he breaks through to become the Lord of Chaotic Source. Obviously, the Chaotic Origin Life is determined to bring back the two ancestor corpses from the Jiexin Continent.

[Chapter 1349: The horror is boundless!](#)

Yuan and other lords are also here to discuss how to deal with this crisis.

"The Jiexin Continent is being attacked by several ancestors who were born with Chaotic Source of Life. My main battle avatars are being led away by their ancestors, and they are very far away from the Jiexin Continent. Even if we rush there now, we may not be able to make it in time." Yuan said a little. anxious. "Without lord-level support, my arrangement in Jiexin Continent won't last long."

Wang Yi said: "I can go to Jiexin Continent."

"Your way of Chaotic Origin and Void is really fast, but will it be in time?" Yuan was still a little worried, but said helplessly: "But now that the situation is urgent, you can only use a dead horse as a living horse doctor, try it. "

Some lords did not believe in Wang Yi's strength. "You have just broken through to the lord, and your realm is not yet stable. Can you deal with several ancestors at the same time?"

In terms of strength, the Lord of Hunyuan is indeed better than most of the ancestors, but in essence, both are at the same level, they just take different paths.

So far, there has never been a one-on-one killing of the ancestors. They were all killed by the siege of several Hunyuan lords, which shows the strength of the ancestors.

Of course, Lord Hunyuan is stronger, even if he is besieged, it is very difficult to kill him. Even if he is killed, he is only killing a clone of the main battle. He still has clones in the source world. Unless the source world of the lord is destroyed, and then find a way to kill All the clones of a lord can make a lord fall completely.

But the ancestors and the lords have been fighting for so long, but they haven't done it once.

Wang Yi said: "Actually, my soul path has also broken through the ultimate realm..."

Wang Yi revealed the mystery of the soul path.

"The ultimate of the soul path?" The lords were all surprised.

Because in the entire infinite chaotic source space, the known ultimate soul path is only Wang Yi.

"It turns out that you can easily integrate into the origin of the ownerless world and borrow the power of the world? Then your clone's strength will recover soon, won't it?"

Some lords think even more, "Now we are waiting to guard all parties, and we are stretched. After all, I only have one main battle avatar. The other place is in danger before rushing over... It will take a long time for the main battle avatar to travel. After all, Chaotic Source Space It's too vast! If your weak clone can quickly reach the level of the main battle clone, it can help guard many places."

The lords only have one main battle avatar, and the weak avatar needs to be promoted to the main battle avatar, the energy required is astonishing, and it takes a long time to absorb the power of Chaotic Source! It would take a long time to travel from their own source world.

The overall strength of practitioners is weak, so the lords need to work harder to protect many territories.

Wang Yi replied: "There are two points from my weak avatar to the main battle avatar. One is that I have reached the lord level now. The energy required for the lord's weak avatar to be the main battle avatar is many times that of the previous world-class chaotic source level. Another point is the world origin of the ownerless world that I use. The stronger the world origin, the faster I can recover. For weak world origins like those in the holy world of cultivation, it may take half an hour to restore my lord-level main battle avatar. Time."

The world-class chaotic source life, relying on the weak world origin of the holy world of practice, will soon recover, even if it is a perfect level, it only takes more than ten breaths.

But lord, it will take half an hour.

But if it is the real source world, the source is huge and perfect, and the time needed will naturally be shortened a lot.

Yuan excitedly said: "Wang Yi, you also have a clone in Jiexin Continent. Although Jiexin Continent was created by me, in terms of origin, it is not weaker than the real source world. If you absorb it, how long will it take to reach the level of the main battle clone?" degree?"

Wang Yi nodded, "I can try it."

Originally, the lords thought that this time they were going to fail, but Wang Yi's ultimate soul path made other lords see hope again.

...

Realm Heart Continent.

Several terrifying ancestors of Chaotic Origin Life are also communicating.

A huge spherical creature. He is a pure spherical shape, even if it is magnified hundreds of millions of times, it is the means of the Chaotic Source powerhouse to spy on it. The surface of this huge creature is absolutely round! He is one of the ancestors of the Chaotic Origin life, named 'Initial'. Among the ancestors, the original ancestors belonged to the middle and lower levels in terms of combat effectiveness. Of course, this is compared with the ancestors. But in terms of defensive means, it is the first.

Several lords such as Yuan once besieged him, but only slightly injured him. His physical existence itself represented the ultimate defense method.

"There is another Hunyuan lord among the practitioners. He has not been restrained, and he is probably rushing towards us now." "Zhi Shi" said. "If he arrives, it's going to be a bit of a problem."

Yemengshahua snorted coldly: "No matter what, he is just a Hunyuan lord who has just been promoted. Even if he has mastered the essence of Dao and just made a breakthrough, it is too late to perfect many conveniences. If he has not mastered the lord-level tricks, it may not be good for us. There is a threat, but we have several ancestors here."

The other ancestors also felt that what she said made sense.

indeed. A qualified Hunyuan powerhouse will study many rules and mysteries of the body, and even dig out many secret techniques to make the body stronger! For example, the newly promoted world-class Chaotic Source, to the middle stage of the world's Chaotic Source... the normal physical body will be three or four times stronger. There is also the secret technique of body protection, which forms many protective layers on the body surface.

There are also some defensive tricks in battle. In short, the strength of the body itself, the secret technique of body protection, the defense tricks, the escape tricks...all are complete, and this is considered qualified in terms of life preservation. In terms of combat, there are some domineering, insidious, or weird tricks... Only by digging in all aspects can they be strong enough.

As for the innate Chaotic Source Beings, they all die as soon as their life cores are extinguished, so they are more cautious. When digging out their blood, the first thing they do is to dig out their life-saving power to the extreme. They are the strongest in terms of life-saving! Even the first ancestor, the Hunyuan lord is obviously more powerful than them, and it takes digital cooperation to kill one! The strength of life-saving can be seen.

"The Hunyuan lord has just been promoted. Even if he arrives in time, it would be very good if he can reach the ordinary ancestor level. Any one of us can deal with him, and maybe he can be killed." The ancestors thought so in their hearts. .

As for killing the main battle clone of a lord? In fact, it doesn't make much sense, and it's not their goal this time.

...

Realm Heart Continent.

Wang Yi and Yuan's avatar stood together, and Yuan asked solemnly, "Are you sure?"

Wang Yi looked at the sky. He could see through the vast source world, the ancestors of the Chaotic Source beings who were launching a terrorist attack outside. Under their monstrous power, the endless Chaotic Source power in a wide range was turbulent. After getting up, the secret pattern array outside Jiexin Continent kept shaking, shattering and rejoining, but now the breaking speed is getting faster and faster, and Jiexin Continent can feel this vibration. He nodded. "should be no problem."

"Then hurry up, I can't hold it anymore." Yuan still had no idea in his heart.

Wang Yi didn't speak this time, and his soul entered the origin of Jiexin Continent.

"Om." Wang Yi felt very strange. The origin of the world in the Jiexin Continent was like a huge ball of light, and his soul was integrated into it.

"I'll integrate into the origin of the world first." Wang Yi's heart moved, he can fully mobilize the power of the world scattered throughout the entire origin world! It is the power of the world's origin, which can mobilize all parts!

If he refines the origin of this source world and becomes the master of this source world, then he can completely control all the power of the entire source world.

Although I can only mobilize part of the original source, I can mobilize the scattered world power as much as possible.

"Huh?" Yuan could feel that the world power of the entire source world was being mobilized, and even part of the original source was being mobilized, and he couldn't help showing surprise.

The power of the world that can manipulate the entire source world and part of the original power of the world, is this the ultimate power of the soul path?

"Boom!" The source world's guardian circle, which had gradually begun to collapse, suddenly increased in strength, and more secret pattern chains emerged, shining brightly. This is Wang Yi's control.

"What's going on? Why has the defense of this source world become so much stronger all of a sudden? Could it be that the old guy Yuan is playing tricks?" Every ancestor who was born with a chaotic source of life felt that the resistance of the source world in front of him suddenly changed. Much bigger, can't help but be surprised.

Wang Yi shook his head, "Unfortunately, I am not the master of this source world after all, or else..."

His strength depends on the world. The stronger the world, the stronger his strength will be! The world itself is immortal, and in this world, he is immortal.

However, there are a few ancestors outside, and the current strength alone may not be able to resist.

"Absorb the origin of the world and condense the clone of the main battle."

The origin of a source world is extremely vast and powerful.

Purely on size. The worlds created by some Chaotic Source powerhouses are even larger than the source world, but such worlds are generally very rough! Like the "Jiexin Continent", which is indistinguishable from the source world, in fact, only the oldest lord "Yuan" can create it, and he also paid a huge price.

The origin of the world in the source world is not rough, and the rules contained in it are simply perfect. Each way is the way of ultimate perfection. The combination of many Taos... forms the original rules of the world. It operates naturally and instinctively, absorbing the power of the chaotic source in the infinite chaotic source space, and nourishing all living beings in the source world.

"Huhuhu~~~" Wang Yi could clearly feel that the "world origin" of the source world easily transformed the power of the chaotic source in the endless chaotic source space into the original power. With a slight smile, he began to absorb the original power and use it into your own power.

"Boom~~~~" The entire Jiexin Continent trembled, the heavens and the earth were slightly distorted, the turbulent world origin gathered in the depths, and a terrifying breath was born.

The terrifying aura was so powerful that even the ancestors outside the source world felt it all at once.

"What's this?"

"With such a powerful aura, is it the birth master of this source world, or the arrival of the Hunyuan lord?"

"Impossible, we have blocked the surrounding chaotic source space, it is impossible for a chaotic source lord to break in quietly."

"Is it just a coincidence that a source world master was born by such a coincidence?"

The ancestors who were born with chaotic source life are not calm anymore.

Originally, they were sure of victory and full of confidence. They could destroy the source world of the practitioners in this operation, and get back the two precious ancestor bones. Especially Ye Mengshahua, they could not only take back the body of their elder brother, but also destroy the practitioners. Only the hard-built world can dispel the hatred in your heart.

But they didn't expect that there would be so many variables in this operation. Not to mention the birth of a Hunyuan lord among the practitioners, it seems that another terrifying powerhouse appeared in the source world that was about to be breached.

In the Jiexin Continent, Wang Yi also devoured the original power of the source world to his heart's content. Under normal circumstances, it would take a long time for a weak avatar of a Chaotic Source powerhouse to absorb the power of Chaotic Source and slowly improve to become the main battle avatar. However, Wang Yi is the lord of Hunyuan, and he is also at the ultimate state of the soul path. The soul can be integrated into the world source, which can fully mobilize the world source. The turbulent world source is being swallowed continuously. The source of the world is frantically swallowing the power of Chaotic Source in the infinite Chaotic Source space in all directions.

Huge momentum!

The attacks of the ancestors stopped unknowingly.

All of them looked serious.

Almost all of them are knowledgeable.

The movement in front of me... doesn't look like the master of the source world, but more like a chaotic source lord devouring the source of the world to form a main battle clone.

time flies.

"The main battle clone." Wang Yi, who was dressed in a fiery red robe, stood in the vast void and couldn't help smiling. This main battle avatar occupies 90% of his current strength.

In the Continent of Origin, the combined strength of many avatars in other places is only 10%. No way, although many clones are scattered all over the place, they are actually the same consciousness, the same individual! The strength that can be endured has reached the limit for the time being.

But... Wang Yi looked at the gray golden sphere in his body.

Wang Yi has comprehended many ultimate Taos, so he can naturally condense this mysterious sphere in any clone at any time.

And he had many thoughts in his heart, thinking that this "Chaotic Source Dao Seed" seemed to have even more incredible uses.

He shook his head, "Let's deal with those ancestors first."

He stepped forward and came to the outside of Jiexin Continent.

"Huh?" Several ancestors also saw him and were shocked. "So it was him?" They all knew that a new lord was born among the practitioners, but they were very puzzled. "Why is he here? Did he come from this source world? Or did he just become the master of the source world after refining?" Although they still had many doubts in their hearts, only this reason could explain it.

Several ancestors looked at each other, and Yemengshahua's face was even more ugly. There is one more Hunyuan lord in this source world, so it is almost impossible for her to get back her brother's body. It has never happened in history, which lord's The source world was compromised.

And Wang Yi also looked at the ancestors in front of him, and Yuan also sent messages about his ancestors at the same time.

"The ancestors of the five immortal beings born with Chaotic Source are not here." Wang Yi felt a little regretful, "Forget it, let's take them first." He clenched his fists, although he didn't have any suitable weapons on him now. But Lord Hunyuan's body is the most powerful weapon. At the same time, many mysterious secret techniques emerged in his mind, and a series of secret techniques such as lord-level combat body protection were quickly deduced in his mind.

Several ancestors are also discussing.

"The lord of the practitioners is here, there is nothing we can do, let's retreat."

"It's time to withdraw."

"This world has no choice but to give up."

Ye Mengshahua was very unwilling, but did not object.

With the Lord of Chaotic Source, it seems that he is still the master of this source world, so it is useless to continue fighting. A Lord of Chaotic Source is in their own lair of the source world, and they also know how terrifying their strength is.

But they wanted to leave, but Wang Yi disagreed.

"Om." Wang Yi moved his mind, and the huge illusory world came directly, and even appeared in reality.

Under the dragging of the soul in the illusory world, although each ancestor is powerful, he must bear it alone!

Became the lord of Hunyuan, Wang Yi's mastery of soul tricks is even more terrifying. After all, he is the first soul path in the history of Infinite Chaotic Source Space to reach the ultimate, and it is also the ultimate of all soul paths. Now his soul tricks, fusion Not only the Dao of Illusion, but all the tricks of the soul path are already the scariest in the Infinite Chaotic Source Space. Even the "Thousand-Eyed Existence" of the Broken Tooth Mountains can't compare with him! Even Dongbo Xueying, who also reached the ultimate level of the Illusory Realm, is far from being able to compare with Wang Yi's current achievements in the soul path!

After all, this is the ultimate of all roads!

"What's this?"

For a moment, the four primordial ancestors who appeared here were all startled, and allotted a part of their mental strength to resist. For a moment, only about 50% or 60% of their respective strengths were left.

If it is the lord of the practitioners, it is estimated that the power to resist the illusory world is stronger, because they have grasped the essence of the Tao, and the will of the mind is stronger. Wang Yi's soul tricks may only affect them by one or two percent of their strength.

But these are just natural Chaotic Origin beings who are good at digging out their natural blood and don't have much research on the 'Tao' at all? Even if the Chaotic Source Life Soul is born strong, but at the Chaotic Source level, it is not as good as the Chaotic Source Lord, and the strength of each of them is greatly reduced.

"This is his soul trick? It's so powerful!"

"Facing his soul tricks, wouldn't his strength drop drastically? In the lord-level chaotic source, one-on-one, who would be his opponent? No way, how could there be such a terrifying existence in this infinite chaotic source space? ."

"The life in the infinite chaotic source space has a limit to the strength of the lord-level chaotic source. Everyone is like this. Why is he an exception?"

They were all astonished and incomprehensible. They don't know... Wang Yi is a lord who has comprehended the highest rules, and the ultimate of all soul paths is naturally not comparable to them.

Not only them, but even the ancestors of the Chaotic Source life group, the lords of the practitioners, and many mysterious existences who watched the situation here from afar also discovered the situation of the four ancestors.

"No, what kind of soul trick is this?"

"Why did the breath of the four ancestors weaken so much at once?"

"The new Hunyuan Lord did this? How did he do it?"

They were all shocked by the situation here.

However, this is just the beginning.

Wang Yi felt the mysterious sphere formed by the supreme rule in his body, and his eyes were extremely deep.

reach out.

"Source world!"

boom! The supreme rule is the collection of all the ultimate dao belonging to the source world, which constitutes the complete origin of the source world, and this is how the source world was born.

But in the same way, Wang Yi, who has the highest rules, can now display a domain similar to the "source world".

Rumble~~

As the power of the boundless and chaotic source was absorbed, a vast and boundless source world was born.

In the source world, the world-class Hunyuan can compete with the lord class!

Then, Wang Yi at the lord level, how powerful it must be.

An incomparably huge source world was born directly in the chaotic source world, thousands of times larger than the normal source world!

At the same time, the ancestors inside felt the incomparable constraints coming from all directions.

They were weakened again with only half of their strength left!

"this..."

When they saw the source world born around them, they all froze.

"Is this the source world?"

"No, how could he directly create the source world so quickly?"

"This is a domain similar to the source world."

"However, this binding force is too strong, and it feels almost the same as the source world."

Initially, Ye Mengshahua and the other two ancestors of life born with chaotic origin felt incredible.

At this time, Wang Yi's figure emerged, looking down at them indifferently.

The ancestors who were born with Chaotic Source of Life all looked at him.

This Hunyuan lord is really the new Hunyuan lord?

It doesn't matter if the soul technique is so terrible, there is actually such a way to directly create the source world.

Yuan of Jiexin Continent looked at the scene outside the source world, and his eyes were full of shock.

He created the Jiexin Continent himself! Of course it is clear how difficult it is to create a source world!

Although what Wang Yi created was not the real source world, the Supreme Rules are intact!

This proves that Wang Yi has mastered the true supreme rule. As long as he wants to, he can create the real source world with a little effort, and it is a thousand times easier than him.

"Wang Yi is stronger than us." Yuan realized this. "How did he do it?"

They are all in charge of the Dao at the Chaotic Source level. Even if they are good at different aspects, the strength of the Chaotic Source lords should be almost the same, and in fact it is.

However, Wang Yi is no ordinary Hunyuan lord! And it may be an unprecedented half-step Chaotic Source Second Realm.

At this moment, the eyes of the entire infinite chaotic source space are focused on this void!

"You..." The ancestors of Hunyuan looked at Wang Yi who came over, but for the first time, a trace of uneasiness appeared in their hearts.

This Chaotic Source lord... is too terrifying.

Wang Yi glanced at them.

"You all, stay here."

resonance!

boom!

Through the special resonance of the "Chaotic Source Dao Seed" and the infinite Chaotic Source Space, Wang Yi's control over the "Chaotic Source Void Power" immediately increased a thousand times!

Wow, I don't know how far away, the endless power of Chaotic Source was mobilized and gathered towards Wang Yi.

This vast void has been turned into an ocean by the power of the gray Chaotic Source.

In a blink of an eye~

In the shocking eyes of all Chaotic Source powerhouses.

A gigantic Hunyuan giant stands up from the Hunyuan ocean, standing in the vast Hunyuan space, Horrible fluctuations oscillate infinite time and space.

He is huge! Even the source world of Jiexin Continent seemed as small as a gravel beside him, which showed how huge he was.

Wang Yi felt that his body was full of strength, and it seemed that every move of his hand could blow up a source world.

"To completely mobilize the resonance of the Chaotic Source Dao Seed to the infinite Chaotic Source Space, it is actually possible to reach this level." He couldn't help but sigh with emotion.

Then he looked at the four ancestors who were bound by the domain of the source world and could not escape. Their bodies were not much smaller than the source world, but at this moment in front of him, they were as small as ants—

Wang Yi took a step forward.

Then, in the terrified eyes of everyone.

Punch down!

boom! ! ! !

[Chapter 1350: I am Hunyuan, my destiny is fixed!](#)

The infinite chaotic source space has never had such a powerful force.

When the Hunyuan giant punched down, not to mention the four ancestors who were born with Hunyuan beings who were the first to bear the brunt, even the other Hunyuan powerhouses who watched from a long distance felt trembling.

Because it's too scary!

Just looking at them, they all had a premonition that the four ancestors might not be able to survive today.

The four ancestors who were born with Chaotic Source of Life felt the threat of death and went crazy.

They all broke out completely and used their strongest means.

But in the face of this power that can directly blow up a source world, it seems ridiculous like a mantis' arm is like a cart.

This punch has sealed all angles and obliterated all possibilities.

The past, the present, and the future are all dead forever.

"boom!!"

Where the fist falls, it shrinks and collapses sharply, time and space collapse, matter disintegrates, and rules disappear... shrinking into an infinitely small point.

This destructive power is thousands of times stronger than the power that caused the source world to enter the final catastrophe!

But the void centered on the Chaotic Source giant turned into a complete void, no trace of Chaotic Source's power existed, and even time and space stagnated, and everything seemed unreal like an illusion.

Wang Yi looked down at the blank space, and the aura of the four ancestors had disappeared.

Even the "initial" ancestor who claims to be the number one defensive method, whose body exists and represents the ultimate defense method, has completely disappeared under Wang Yi's rule-breaking, annihilating punch.

No matter how powerful the ancestor of the natural Chaotic Source Life is, how strong it is in life-saving, as long as it is not the lord-level Chaotic Source Life of the time-space bloodline that can die and resurrect, and the Life Core is destroyed, it will not be able to survive.

One punch, kill the four ancestors!

The Chaotic Source Dimension that witnessed this scene was completely silent.

Wang Yi couldn't help shaking his head, "Actually, I just want to test how powerful this punch is. There are still many tricks I haven't tried. You guys...why can't help but hit?" Wang Yi didn't lie, he really thought so.

Unfortunately, he underestimated his current strength.

Even several Hunyuan lords united can kill an ancestor, he is much stronger than the lord now.

Yuan of Jiexin Continent was stunned, feeling that he had received more shocks today than he had in his entire life combined.

"Wang Yi's strength is so terrifying? Even the four ancestors were killed with one move, known as the strongest defense, and our alliances were only slightly injured at the beginning, and they were all punched away? How did he do it?" Yuan Du It feels unbelievable.

Not to mention Yuan, the other lords and the powerhouses of the infinite chaotic source space were shocked and terrified.

In the entire infinite chaotic source space, it was previously recognized that the existence of the strongest monomer was the chaotic source lord.

But compared with the current Hunyuan giant, the Hunyuan lord is simply not at the same level.

This is the first time such a terrifying existence appears in the Infinite Chaotic Source Space, it can instantly kill the ancestor!

The ancestors who were born with Chaotic Source beings were all in turmoil, and they no longer had the heart to entangle with the Chaotic Source lords.

The appearance of such a monster among practitioners has already made them feel scared.

"In the beginning, Yemengshahua, Huixuan, Laiye, all four of our ancestors were killed."

"How could that Lord Practitioner be so strong? His defense was invincible at the beginning. They couldn't block a punch together, so wouldn't we all be able to block it?"

"Maybe all five of our immortal ancestors will be killed?"

The faces of the ancestors of the Chaotic Origin life group were extremely solemn.

They have already realized that such a terrifying existence born by a practitioner is enough to crush any chaotic source life. The power of that level makes them feel hopeless just by feeling. They even suspect that all the ancestors combined may not necessarily be the opponent of the other party .

The survival of the natural chaotic source life group is even threatened.

...

As a well-known world-class Hunyuan powerhouse in the Yuan Territory, Taoist Qinghuan is also paying attention to the situation in Jiexin Continent after the four ancestors born with Hunyuan life attacked the Jiexin Continent. They didn't target her world of origin, although that's highly unlikely.

When Wang Yi appeared, Taoist Qinghuan was also amazed: "This is the new lord of our cultivators? It is really extraordinary, and it is not comparable to my generation."

However, the expressions of the disciples around her who had seen Wang Yi changed drastically, and one of them said in a trembling voice: "Old, teacher, this lord is the world-class Hunyuan strong that we were brought to deal with by Junior Sister Qing last time." By."

"What?" Daoist Qinghuan was stunned immediately. Then he turned his head sharply and looked over, his eyes became very sharp. "What did you say?"

When he knew that Wang Yi was the world-class Hunyuan that the apprentice had provoked, Taoist Qinghuan felt bad all of a sudden.

Although Daoist Qinghuan is the master of the source world, but because he relied on spreading beliefs and preaching to refine the source world into Chaotic Source, it is only in the middle stage of the world-class Chaotic Source now, and his status in the world-class Chaotic Source is actually just average, but she This person is very face-saving.

So she knew that her apprentice had offended a world-class Hunyuan, who seemed to have great potential and a strong background, she thought that since the other party let the apprentice off, she shouldn't care about it, knowing that the apprentice did something wrong, she didn't want to sacrifice her face to make amends.

Even "Infernal Landlord" didn't expelled him from the school, but he was punished a little and then left it behind.

But now, the other party is actually the lord?

Daoist Qinghuan's face suddenly became ugly.

Offending a world-class Hunyuan, even if there is a backer, is still the master of the source world, but she doesn't really care much.

But he offended a great Hunyuan Lord...

Even if the other party didn't care about it, Taoist Qinghuan didn't think so anymore.

"Where's that traitor?" Taoist Qinghuan shouted immediately. "Bring her here, I will take her to personally apologize to the lord!" She said bitterly again. "I was really blind back then, why did I accept such a white-eyed wolf as my apprentice?"

But following Wang Yi's use of the means of the source world, he became an indomitable giant. The fluctuations seemed to be felt here, and then he punched down and blasted the four ancestors...

They couldn't see the picture of the four ancestors being blown up, because everything was annihilated there, and they couldn't see anything, but they also knew that the four ancestors were finished.

Killing the four ancestors of Chaotic Origin Life with one punch?

What power is this?

Anyway, Taoist Qinghuan has never heard of any lord who is so terrifying.

Is this the character my apprentice tried to deal with?

Daoist Qinghuan was completely dumbfounded, his beautiful face was distorted...

He didn't speak for a long time, the silence was terrifying.

...

"withdraw."

"Remove for me, all of you."

The offensive of the natural Chaotic Source life group also stopped, and the Chaotic Source life forms retreated everywhere, panicked and panicked.

The news that the four ancestors were killed by a new Hunyuan lord on the side of the practitioner has spread quickly, and almost every Hunyuan being knows it.

They were all terrified, who would dare to stay here?

Of course, the practitioners also know the great achievements of their lords, and of course they can't believe it.

"This newly-promoted lord can actually kill four ancestors born with Chaotic Source Life with one punch? Could it be that his strength surpasses that of the lord?"

"I've heard that among the group of life forms born with chaotic origin, they are the best at defense, and the 'beginner' ancestor who couldn't even be killed by our lords joined forces, was killed by that adult with a single punch in this battle. "

"So scary?"

The powerhouses on the side of the practitioners were shocked and puzzled, but the news was true, and it was passed by the lords, so there was no doubt about it, so they quickly became excited and joyful.

For a long time, practitioners have had a difficult time facing the group of life forms born with chaotic origin.

Think about it, there are countless life groups born with chaotic sources, and the number of world-class chaotic sources far exceeds that of practitioners. There are hundreds of ancestors at the lord level, and the number far exceeds that of practitioners. It is very difficult to guarantee the safety of the territory of the practitioners and practitioners. Every lord must keep running around to guard in order to ensure that the natural Chaotic Source life will not invade.

But now, an invincible existence has been born on the practitioner's side, who can kill four ancestors with one punch, which is really exciting.

Practitioners fell into joy, but the group of people born with Chaotic Source were uneasy.

...

Yuan and other lord avatars all gathered in Jiexin Continent at this time. They were all frightened by Wang Yi's previous display of power, and they were eager to learn the inside story from him.

And Wang Yi finally met the seven lords.

Except for 'Yuan', 'Jin', and 'Ming', the three I have seen or are familiar with.

There are also four lords, namely 'Zhao', 'Ying', 'Star Mang', and 'Ao'.

Every lord has its own uniqueness.

The seven lords all mastered the 'Tao' of Hunyuan, like the lord 'Yuan' who has the most comprehensive means, even he is the only lord who can create the source world. Like the lord 'Xingmang', he is the one that scares the Chaotic Source beings the most, because the Lord 'Xingmang' is the best at sneak attacks. If he sneaks up and sneaks, it will be difficult for even the ancestors of the Chaotic Source beings to find out.

'Zhao' is a strong man with a holy half face and an evil half face. His aura is like a collection of countless sentient beings.

'Ying' is a noble and glamorous purple-haired woman, but her body exudes endless thunder and coercion. She is the owner of a very special existence of 'Pure Land' in the infinite chaotic source space.

'Ao' is like a celestial mechanical life as huge as the source world, with latitudes superimposed on him, but turned into a middle-aged man with a simple and honest appearance.

Chaotic source space, so far the eight chaotic source lords have gathered here!

"Teacher." Wang Yi saluted a girl with **** hair.

There was a hint of a smile on Ming's face. A black cat was lying on her shoulder, poking its head out carefully, peeping like a thief. Seeing Wang Yi smiling at her, he meowed and hid behind the blood-clothed girl. Later, she still clearly remembers how she played tricks on Wang Yi back then. Knowing that Wang Yi is terrible now, she is very afraid of his revenge.

"Tell us, what happened to you, how did you become so strong?" Ming was also very curious.

Wang Yi didn't hide it either, and told the process of his own strength improvement, which made the lords amazed again and again.

Really comprehend the supreme rule?

Chaotic source dao species?

Can it resonate with the infinite chaotic source space?

While Wang Yi was speaking, he also looked at his own panel, and new changes appeared on it.

[The host is promoted, the function of "crossing the heavens" is turned on, and the function can be explored by itself.]

This function actually appeared when he first entered Chaotic Source Lord.

Traveling through the heavens? Wang Yi was thinking. Since the emergence of the "Chaotic Source Dao Seed", he no longer thinks that the Chaotic Source Lord is the ultimate of the infinite Chaotic Source Space, nor does he think that the infinite Chaotic Source Space is the only world.

It's just that he is the Lord of Chaotic Source. Even half a step to the second level of Hunyuan, I am afraid that the Lord of Hunyuan can only save his life in his lair. Is there anyone stronger than him?

"A wider world? Interesting." A smile appeared on Wang Yi's face.

...

The years are long.

Since that earth-shattering battle, the four ancestors were killed! The Chaotic Source life group also felt that the practitioners were not easy to provoke, so they negotiated with the practitioners.

This negotiation is taking place in Eternal Land! Witnessed by all the strongest existences in the infinite chaotic source space!

Of course, the only one that is special is the newly born Hunyuan Lord, Wang Yi.

He is the stronger of the strongest!

All the powerhouses of Eternal Land feel restrained in front of this one.

This negotiation also established the future situation of the infinite chaotic source space!

From then on, practitioners' territories will expand, while those born with chaotic origins will take the initiative to retreat and give up most of their territories.

And you must not take the initiative to enter the territory of practitioners!

This is a very humiliating negotiation, but with the acquiescence of the five ancestors of Chaotic Origin Life in the Eternal Land, it was still established.

From this day on, the world in the realm of practitioners will no longer be threatened by the natural Chaotic Source life group, and the prestige of Lord Wang Yi has also spread to the endless world. Wang Yi is also recognized as the strongest in the infinite Chaotic Source space, surpassing all powerful The existence above those!

Countless practitioners are eager to see this great lord.

...

Surrounded by green hills and sparkling lakes, looking at the hills from a distance, the sky and mountains are connected, and the clouds and mist are lingering in between, like a picture scroll.

Wang Yi, dressed in casual clothes, sat with his sleeves rolled up and grilled fish by the grill, next to a girl in blood and hair and a black cat.

"Meow." Blood Moon is very proud that she can let an existence that is more terrifying than the Lord of Chaotic Source grill fish for her personally. Besides her, which pet in the entire Chaotic Source space has such a big face?

Looking at Wang Yi with a clear and refined face, "Breakthrough?"

"No, just a little bit." Wang Yi shook his head.

Over the years, he has been comprehending the "Chaotic Source Dao Seed", and deduced each path to the "Chaotic Source Level".

His Chaotic Source Dao Seed has become more and more perfect, and has grown to an unimaginable level. Even the Lord of Chaotic Source cannot see through his strength.

After all, in the entire infinite chaotic source space, there is no one worth his shot.

On a whim, Wang Yi also created source worlds one by one. For Yuan Du, it took a huge price to create a source world, but for Wang Yi, it was done with ease.

Then let his wife, children, relatives and friends around him take charge of the source world and become a world-class chaotic source.

I envy the dead.

As for one of Luo Feng's sons, he has finally become a Void God these years. Seeing this scene, Fa Xiao in the past could become Hunyuan by jumping out of the cage and laying down. Thinking of his "hard work" all the way, he couldn't help but shed tears silently.

People who also have Lao Tzu, how can they be treated so differently.

Wang Yi has created a series of secret arts, including the secret art of the ultimate realm of the soul, leaving some opportunities for inheritance in the infinite chaotic source space. If he is in a good mood, he will casually train a junior, occasionally explore in the infinite chaotic source space, and go to one by one. The mystery, unfortunately, with his level of strength, there are no rewards on the panel.

Only the soul path has not reached the 'chaotic source level'.

The chaotic source level of the soul path... Even he can't see the direction.

Ming Anjing ate the fish and didn't say much. This apprentice has already surpassed her in strength, so there is nothing to say.

The road is just under your feet, just walk.

"Is there a way?" Wang Yi came to the infinite chaotic source space alone, feeling the various powers of the chaotic source space.

He has all the power in his hands, except... his own soul.

"The one who has to surpass is always yourself." Wang Yi said softly.

He closes his eyes.

"Panel, return." An order was issued.

next moment.

I saw a person walking out of the void beside Wang Yi.

Although the person walking out of the void looked a little different, they were exactly the same as Wang Yi's original aura, they were exactly the same person!

Moreover, this person's aura is so powerful that he seems no weaker than Wang Yi himself, and he is another terrifying existence!

He looked at Wang Yi and smiled slightly: "When you reach the other side, you will be your true self."

This is a soul clone that Wang Yi traveled to other worlds through the world traversing ability of the panel.

then.

Another person walked out of the void beside Wang Yi.

One, one, and another...

billions of clones,

endless.

God knows how many avatars Wang Yi created over the years, and now they are all back.

"The soul is one, and everything belongs to me."

Every avatar merged towards Wang Yi.

Every time one is incorporated, Wang Yi has an additional memory and countless insights, and various emotions of the soul are intertwined and sublimated.

His soul metamorphoses to an unprecedented level.

After a long time, Wang Yi opened his eyes.

What kind of eyes are these, with a will of infinite latitude inside!

The Chaotic Source Dao Seed in his body has evolved to the end and quietly disappeared.

But the Infinite Chaotic Source Space now has an extra will.

"I see." Wang Yi sees through infinite time and space, the past, present and future are all reflected in his mind, with a clear smile on his face.

He stretched out his hand, and all the regular avenues of the infinite chaotic source space condensed and turned into one thing.

panel.

The two panels are one at this time, because they are originally the rules of the infinite chaotic source space, and they become tools in Wang Yi's hands after he dominates everything.

Now, the infinite chaotic source space is him, and he is the infinite chaotic source space.

The so-called lord? It can be created with one thought. With one thought, hundreds of millions of worlds can be born and shattered.

"I have given you will and mission. From now on, what should you call me?" Wang Yi said.

The panel was silent for a moment before speaking: "Dad?"

Wang Yi smiled. "Good boy."

With a flick of his finger, the panel sank into the void and disappeared... It traveled through time and space, and with an immature soul, it came to an ordinary family in the blue star era where monsters ravaged, and restarted its mission.

After doing all this, Wang Yi looked outside the infinite chaotic source space, where only he could feel it.

At his level, he knows everything about the infinite chaotic source space, and even other infinite worlds.

only there. UU Reading [www. uukanshu.com](http://www.uukanshu.com)

That is the source of all worlds, the end of eternity, and the only truth besides destiny.

"I am coming."

Wang Yi said softly.

He took a step forward and disappeared.
