

A God 151

[Chapter 151: Horrible killing!](#)

In the central square, millions of geniuses looked up and watched Wang Yi on the screen breaking into the first floor of the seventh trial tower.

"You said, can Wang Yi get past the first floor of the seventh building?"

"How is it possible that even Buran can only get halfway through. No matter how powerful Wang Yi is, it is impossible to be better than Buran, right?"

"I also think it's impossible. It depends on which step Wang Yi can do. Buran killed 5,615 mammoths. I don't know how many mammoths Wang Yi can kill?"

The black-haired boy in a silver suit, the 18th-ranked Mankaxing boy stared at the screen with his eyes tightly clenched into fists, and there was thunder gleaming. It was nothing more than Beran. After all, it was recognized that he was far away from them. Peerless genius of the world, but Luo Feng and Wang Yi were able to pass the first floor of the sixth trial tower, which made him, the prince of Barbarian Star, who always looked higher than the top, a little bit shocked. .

"Why, why is the gap so big."

"Wang Yi, Luo Feng, I will never lose to you..." The young Prince Mankaxing was full of fighting spirit.

But he subconsciously removed Boran from the list of opponents.

He regarded Wang Yi and Luo Feng as opponents, but he didn't know... Wang Yi didn't take these geniuses in his heart at all. The one who truly deserves to be his opponent is Boran, the **** of death feared by these peerless geniuses!

Almost all geniuses felt that they could not be Berran's opponent! But Wang Yi wanted to challenge and defeat him! This is the gap!

The holy and dusty Mengluo wing girl 'Ai Chen' has mysterious lines on her face, the gentle and elegant green-haired girl 'Qianshui', the burly tall and messy savage 'Rong Jun', her whole body is covered under a black robe. Phantom Galesi...

Even Boran, the **** of death, stood in the corner of the square, looking up silently at the black-haired boy on the screen who rushed into the first floor of the seventh trial tower!

There are millions of geniuses in the center of the square, thousands of immortals, 1008 universe nations, hundreds of millions of galaxies outside, and countless people are paying attention to the final situation of this trial!

At this moment, Wang Yi is the center of the world!

In the space on the first floor of the seventh trial tower, a black-haired boy in a dark red shirt is standing on the red moon disk, carrying two sabers on his back, and floating around him, the red moon wheel, the red moon mirror, and the Yanshen Soldier. With an indifferent face, he looked at the dense fiery red figure that appeared in the distance and spread over.

"Ten thousand blood-colored mammoths..." Wang Yi took a deep breath!

Wang Yi is not Boran. He knew in advance the difficulty of the first level of the seventh trial tower. From the changes in the ranking of the wrist guards, he already knew that Boran, Luo Feng and others had failed. Only himself is left in the entire trial tower!

From now on, this is the stage for Wang Yi alone!

"Let go of your hands and feet this time and kill!"

Wang Yi stood in the sky with his feet on the red moon disk.

On the opposite side, the mammoth group like a **** wave has swept across the earth and mammoths.

"Rumble~~" The trampling sound is earth-shattering!

"kill!!!"

Wang Yi shouted sharply.

"Boom!" A scorching and violent red air current erupted from him, covering a radius of 100 meters.

brush! brush! brush! brush! brush.....

In the red air current, one figure appeared one after another, one or two...At a time, hundreds of Wang Yi's figures appeared at the same time!

"Wow!!!"

The millions of geniuses gathered in the square to watch the screens saw this scene and suddenly did not know how many people exclaimed.

Even Buran's eyes shrank slightly.

The many immortals sitting on the tall seats were also moved.

At the moment when he collided with 10,000 blood-colored mammoths, Wang Yi also fully displayed the "Ten Thousand Threads" body technique, and at the same time he transformed hundreds of phantoms, densely packed, and a bit scary.

"Yan Shen Soldier is the third tier, Fire Flow Array!"

Chi Chi ~ ~ There was a sharp sound of breaking through the air, and red streamers flew out of the **** knife behind Wang Yi, forming a continuously rotating and changing "spherical" shape!

Like a sun, and like a meteor!

At this time, the blood-colored mammoths had roared and rushed in front of Wang Yi. Each mammoth had the strength of the top 100, and each attack contained the original law, which was terrifyingly powerful.

10,000 blood-haired mammoths just take out one, it is enough to kill the genius among the million geniuses this time! When 10,000 heads were besieged... it was really a nightmare.

At the moment of the collision, the "fireball" in front of Wang Yi that was as dazzling as the sun suddenly bloomed, like fireworks, like petals, blooming instantly, and in the area covered by their might, blood-colored mammoths bloomed at the same time. flower! Become a realm of death!

Huh! Huh! Huh! Huh! Puff...

A total of 729 blades containing special laws and mysticism are flying and spinning crazily in all kinds of incredible arcs and trajectories, killing all the creatures inside.

And Wang Yi's thought power was also consumed frantically.

Exerting the third stage of the Yanshen Soldier with all its strength is too expensive for Wang Yi, who is only a ninth-level star in the virtual universe.

With red eyes, he stared at the blood-colored mammoth rushing in front of him, "Quick, quick, quick, quicker..."

The Yanshen Soldier is the third heavy, with the flow of fire!

Once mastered, it is said to be invincible at the same level of the universe!

Unlike Bolan who can only kill with a sword, Wang Yi, who controls the Yanshen Soldier, has a much higher frequency and number of attacks... This is the advantage of the spiritual teacher!

729 Liuhuo flew like lightning under the full control of Wang Yi!

Cut!

Strangle!

penetrate!

On the screen, the death scene, like a faint blood, was so shocking.

Sudden--

"Peng!"

Behind, a blood-colored mammoth rushed out of the cutting range of the streamer, and slammed into Wang Yi, who was concentrating on killing.

Wang Yi didn't look back, the Chiyue Mirror stood in front of the blood-colored mammoth, and a powerful force was transmitted from above, causing Wang Yi's mental power to visibly tremble. Wang Yi was indifferent, and violently pulled out his sword, and the knife was shocked. The scarlet mammoth's head was chopped off.

"Oh~~"

"Boom~~"

More blood-stained, huge blood-colored mammoths rushed out of the Yanshen soldiers strangulation circle and slammed into Wang Yi.

One by one, Wang Yi's phantom body was shattered, and one after another appeared.

Bleeding from the corners of the mouth.

There was **** flames in his eyes.

The scorching destruction ** immersed in his heart has already poured into his mind, making his eyes become bloody.

But in his mind, he still maintains a cold sensibility, like a machine, manipulating the Yanshen Soldiers to perform exquisite harvests again and again!

The number of Scarlet Mammoths is constantly decreasing!

And Wang Yi's mental power was rapidly weakening.

This is the craziest battle to date!

On the square, millions of geniuses saw their souls trembling.

Even those immortals that have been unmoved from above all have a solemn expression on their faces.

On the screen, the blood-colored mammoths surrounding the black-haired boy began to thin out.

But at the same time, the black-haired boy's offensive has obviously slowed down.

"boom!"

A blood-colored mammoth brushed past the black-haired boy. Although Wang Yi had dodged, he was still taken by an arm and coughed up blood.

There are 1000!

Wang Yi already felt the mental power in his mind began to dry up.

Yan Shenbing also gradually lost his strength and became weak.

Everyone sees this ~www.mtlnovel.com~ their hearts start to mention, is Wang Yi coming to an end here?

But at this time, Wang Yi smiled, drew the saber behind his back, and put it on his side.

"Don't forget, I'm Shura!!!"

The next battle is fierce!

Wang Yi used one hand, one arm, a war knife, and the Yanshen Soldier that couldn't even make the second stage, and killed a thousand blood-colored mammoths!

800.....

500.....

300.....

Seeing the black-haired boy with bruises and bruises, blood-stained, and still fighting fiercely, as if he could feel a tragic breath coming from the screen, everyone in the square was silent.

There was no sound in the square until the last blood-colored mammoth fell with the black-haired boy.

[Chapter 152: The 2 most dazzling people](#)

"Shen Fa has reached the third level of "Hundred Streams" in "Ten Thousand Streams". It hasn't just entered, and already has a deep understanding. There is also the Yanshen Soldier. In the third stage, he can already be in such a short time. Be proficient in..."

In the square, the immortal gods were all discussing Wang Yi's performance just now.

The immortal gods all looked at the giant in the scale armor.

"Thirteen, congratulations. Now you are going to have a great genius in the world of witchcraft."

"Yeah. Buran has never made it through the seventh trial tower. He can actually make it through. Although he has the advantage of being a spiritual teacher, that also proves his strength. I think he and Buran have a good fight. Maybe in this genius battle, you can really win the first place in the world of witchcraft."

Trial does not reflect a person's strength 100%. Because... Trials and one-on-one battles are very different. For example, if a mindful master controls a mind-powered weapon, he can escape and attack from a distance. But the warrior had to fight inside the enemy...Because Beran had to rush into the blood-colored mammoth group before, he was careless, and only failed after being injured.

However, since Wang Yi was able to pass the first level of the seventh trial tower, at least it was at the level of Bolan.

"Haha, where, where, it's still early." said the giant in the scale armor.

"I said so, but I laughed so happily."

"You can be proud of it."

"Ha ha....."

The immortal gods were talking freely, and in other places in the square, millions of geniuses gathered in groups to discuss the performance of Wang Yi just now.

"Wang Yi actually passed the first level of the seventh trial tower. That was a level that even the death **** Boran failed to pass! Is Wang Yi more terrifying than the monster Boran?"

"This is not necessarily the case. After all, the situation is different. The spiritual teacher is easier to perform in that situation than a melee warrior, but no matter what, Wang Yi is a peerless genius at the same level as Bolan, far surpassing us."

"Usually, there may not be one genius in the millennium and the millennium. This time there are two at the same time! I don't know if it is our luck or sorrow."

"Ugh....."

Obviously, Wang Yi's performance of breaking through the first floor of the seventh trial tower has convinced these arrogant and extremely talented geniuses.

Some geniuses were talking and looking at the white-clothed blood sword youth. Just now, when Wang Yi passed the first floor of the seventh trial tower, his expression changed instantly.

This is also the first time this iceberg is like this.

"Huh." At this moment, Wang Yi's figure suddenly appeared on the square, and all the people who were talking enthusiastically in the square fell silent at the same time. Qi Qi looked at the young man who had created an incredible record.

"Wang Yi..." Buran took a deep look at the black-haired boy who appeared suddenly, remembered his appearance, and then turned and left.

This time, he really felt that he had met someone who could be called an "rival".

The trial tower selection is over!

Wang Yi ranked first in the rankings with a total score (over one hundred billion)!

Second, the **** of death 'Bran'!

Third, the lunatic "Luo Feng"!

...

Rong Jun is ranked 13th!

Of the top twenty, three are occupied by the Dry Witch universe!

After the news spread, the whole universe of mankind was boiling, especially the cosmic kingdom of Dry Witch, which fell into a passionate mood.

There have been no geniuses in the top 20 for hundreds of times in the Universe Kingdom of Dry Witches. I didn't expect that there would be three of them this time!

And Wang Yi is the most prominent of the three!

Actually won the first place in the trial!

What an honor is this?

"Wang Yi!"

"Wang Yi!"

"Wang Yi!"

For a time, Wang Yi became the most popular idol in the Dry Witch universe, and he had an incredible popularity in the Black Dragon Mountain Empire. All the legends about his deeds circulated wildly everywhere. In one night, Wang Yi once again had n more wives. ...

It can be said that Wang Yi's fame and prestige at this moment far surpassed other geniuses, and his deeds spread in many cosmic countries and billions of galaxies.

...

And the cosmic kingdom of dry witches was actually very surprised. After learning about Berlan's strength, they had actually given up the total genius to fight for the first place, or in other words, their goal was to be in the top 20 at the beginning... but Wang Yi did not expect Wang Yi. So against the sky, he actually smashed through the first floor of the seventh trial tower that even Buran had failed, and became a genius with the best performance in the trial space. 'It was also suppressed and became one of the most dazzling people in the genius war.

Even so, most people are still more optimistic about Burlan, thinking that he can win the first place in the final battle, but he is not as firm as before.

The sudden emergence of Wang Yi became the person most likely to threaten Beran.

Wang Yi and Buran are the two most dazzling people in this genius battle!

Now, among the high-level powerhouses in the entire human domain, I don't know how many people are paying attention to Wang Yi and Bo Lan.

The topic of whether Wang Yi or Buran is stronger and has a better chance of winning the first place in the genius battle has also become a hot topic in the entire virtual universe genius battle!

Wang Yi didn't know how big a storm he had caused outside. He, Luo Feng, and Rong Jun had just come out of the scale armor giant. This time, the scale armor giant's attitude towards them was so good that the three of them would do the same. It was surprised.

In short, after some warnings and encouragement, the three of them were put back.

"It's finally over." After the team disbanded, Hong, a grim young man dressed in black, returned to the room by himself, sat on the sofa, and looked at the scenery outside the window. "My path of genius battle at the pinnacle is over here. However, my path of cultivation has just begun. Wang Yi and Luo Feng, I hope you can go further in the virtual universe company. I will definitely not lose. For you."

In the Universe Kingdom of Dry Witch, in a star field, a mountain peak suspended in the starry sky like a giant sword in one of the valleys ~www.mtnovel.com~ A bald young man in white clothes, "Thunder God", under the guidance of his master teacher, Practicing crazily in the sacred land of the sect.

"Simply comprehending the law is not enough! This speed of progress can't catch up with Wang Yi, Brother Hong and the others!"

There was madness in the calmness of Thor's eyes.

In the past three years, he has practiced madly, extremely hard, comprehended, and finally comprehended the law. This will and aptitude also amazed his teacher.

But Thor was not satisfied!

His brothers and friends are all geniuses at the top of the universe! Then how can he fall behind!

...

After the trial tower is over.

On that day, the millions of geniuses who were eliminated were all teleported away, leaving only seven people in the entire 0825 building-the immortal leader and six young people.

And their journey continues!

[Chapter 153: 4 Secret Realms](#)

The next day, early morning.

7,300 talents including Wang Yi, Luo Feng, and Rong Jun gathered in the central square.

Afterwards, the "Venerable Nine Swords" who had appeared once again descended.

"The trial is over, first of all congratulations to the 1st-100th trial person, you have obtained the qualification to enter the core layer of the virtual universe company..." Venerable Nine Swords' vague voice lingered clearly in the ears of Wang Yi and others.

"If any of you are unwilling to join our virtual universe company, you can bring it up now. Our virtual universe company will never force anyone."

No one said anything.

"Good." Venerable Nine Swords nodded in satisfaction, and then continued:

"As for the 101st-7300th, these 7200 testers, based on your performance in the test space, the virtual universe system has automatically arranged the arena for you to fight. Those who win three battles in a row will get a place. The loser is eliminated."

Venerable Nine Swords waved his hand after the announcement, and all 7,200 geniuses were sent to the arena duel space, while Wang Yi and other 100 geniuses who were qualified to join the core layer of the Virtual Universe Company in advance sat in a corner of the central square and watched the 7,200 geniuses. The battle of a tester.

After three consecutive battles, there will be 900 people left in the end.

Within five minutes, 3,600 of them were eliminated.

Half an hour later, in the second round, 3,600 geniuses were half down again.

After another half hour of rest, in the third round, 1800 people were brutally eliminated, and in the end only 900 people were left!

brush! brush! brush! brush! brush! brush!

Suddenly 900 figures appeared on the central square, and most of these 900 human geniuses were excited.

And those who are eliminated can only leave with loss.

1000 peerless geniuses carefully selected from the 1008 universe nations and billions of geniuses gathered together and looked at each other.

Among them, the two most powerful superpowers, Wang Yi and Buran, have received the most attention.

As for Luo Feng, Rong Jun, Phantom Galesi and other super talents who have the strength to impact the top ten, they also received considerable attention.

"Congratulations!" A misty voice came into the minds of a thousand people.

The cyan shirt and scaly man appeared in front of their crowd.

"You are the best 1000 people among the 1008 universe nations in this genius battle. Our virtual universe company will do our best to train you. If anyone doesn't want to join the virtual universe company, you can say now."

Silence, no one said anything.

"very good."

Venerable Nine Swords said indifferently: "Let me announce--"

"Among you 1,000 people, the 101st-1,000th, can get a bonus of 10 mixed yuan units, can enter the original universe, and can join my virtual universe company's core 'secret world'."

"The 11th place-the 100th place, can get a bonus of 100 mixed yuan units, can enter the initial universe to understand, and can join my virtual universe company's core 'Heaven and Earth Secret Realm'."

"No. 4-No. 10, you can get a bonus of 1000 yuan unit, you can enter the original universe to understand, and you can join the core of my virtual universe company's 'Prince Secret Realm'."

"The 1st, 2nd, and 3rd places can get a bonus of 10,000 mixed yuan units, can enter the original universe for enlightenment, and can join my virtual universe company's core 'primitive secret realm'."

Um?

When Wang Yi, who was originally calm, heard this, he couldn't help but raised his head slightly.

He remembers that in the original book, this genius battle seems to have only two original secret realm places, right?

Has it increased to three now?

Is it because of his appearance?

Wang Yi pondered.

"Under normal circumstances, only one entry into the 'Private Secret Realm' is accepted in each session. However, your level is relatively good in this session. Therefore, the highest level of the Virtual Universe Company has negotiated to give you three places to enter the 'Private Secret Realm' in this session."

"The decisive battle will begin tomorrow, and the final ranking will be selected."

The voice of the purple-scaled man in the cyan shirt came from a long distance.

"And the rules of the decisive battle have been transmitted to each of you. Tonight, you will have a good rest and welcome tomorrow's final decisive battle!"

The purple-scaled man in the cyan shirt disappeared instantly and left.

And those immortal gods also talked about.

"Unexpectedly, there were actually three Primitive Secret Realm places in this session, and there was only one in previous sessions."

"Perhaps it is because of Buran and Wang Yi. Either of them is enough to join the Primordial Secret Realm. Moreover, the overall quality of this session is very high, and it is normal to give two more places."

1008 people including Wang Yi looked down at their wrist screens, and the screens had accepted the transmitted rules of the decisive battle.

In short, the virtual universe system selects 100 of those 900 people and competes against the top 100.

The 100 victorious people are eligible to enter the "Secret Realm of Heaven and Earth", and all the other 900 people enter the "Secret Realm of the Last Days."

Among the 100 people who won, according to the judgment of the virtual universe system, the best 20 people were selected, and the 20 people were allowed to fight one-on-one... The top ten were selected.

The top ten are eligible to enter the "Secret Realm of the Beginning".

In the top ten, the first, second, and third are finally selected to enter the "primitive secret realm."

There is also a detailed list of battles at the back.

The virtual universe system selects the best one hundred people from them, namely Wang Yi, Burlan, Luo Feng, Galesi, Carpenter, Rasha, NVC, Utvesque...

Some geniuses who know the power of the virtual universe will naturally not say anything.

But those who were eliminated before the start didn't know what they were thinking about, and many quarreled one after another.

"boom!"

The terrible conscious coercion of the immortal gods spread, causing the dissatisfied 800 people to close their mouths involuntarily, and all of them knelt on the ground unstoppable.

Wang Yi witnessed it with his own eyes and shook his head.

Why bother.

What a detached behemoth the Virtual Universe Company is, how could it be possible for you ordinary geniuses to protest a few words and change your decision.

Perhaps Wang Yi and Buran, like peerless geniuses who have been destined to enter the primitive secrets for tens of millions of years, have put forward their opinions. The Virtual Universe Company may pay attention to it, but these ordinary geniuses, don't think about it.

Among these suppressed geniuses, there are still people who want to fight for reasons, but the ones who are choked by Nine Swords Venerable "If you don't join, you can quit by yourself"!

Virtual Universe Company ~www.mtlnovel.com~ is so domineering!

...

The lobby on the first floor of Building 0825.

Wang Yi, Luo Feng, and Rong Jun, the three remaining geniuses of the Dry Witch Cosmos Nation, sat together, and the other testers had been eliminated.

"Unexpectedly, the Virtual Universe Company is so overbearing that there is no room for any change in the decision it made." Luo Feng said with emotion.

Wang Yi smiled and nodded, thinking in his heart, the magical dominance of the virtual universe is more than that. You will know how terrible the virtual universe company is in the future.

Of course, he will not challenge Luo Feng now. Luo Feng has already joined the Virtual Universe Company anyway, and this time the Virtual Universe Company has given a full three places in the Primal Secret Realm. With Luo Feng's current strength, he also has the opportunity to enter.

"If it is not unexpected, these three places will be taken up by me, Buran and Luo Feng." Wang Yi thought to himself.

History has indeed changed again.

[Chapter 154: Wang Yi to Ai Chen](#)

In a blink of an eye it came the next day, early morning.

On the central square, 1,000 peerless geniuses gathered again.

The "Nine Swords Venerable" man with cyan tabard and purple scales and the 1,008 immortal stood far away from them.

Venerable Nine Swords looked down on 1,000 young geniuses including Wang Yi, and said, "Today, the top 100, top ten, first, second, and third places will be selected from among the thousand of you."

The faces of many geniuses were serious and the atmosphere was tense.

Seeing a man with a blue shirt and purple scales waved his hand, 100 huge arenas suddenly appeared on the central square. Each ring was covered by a black silk screen on the edge and above, including 200 people including Wang Yi, Luo Feng, Qianshui, etc. The young men and women were directly sent into the ring in an instant.

There are two people in each ring.

The silver-white ring has a radius of about ten kilometers, and the black silk screen covers the entire ring.

Wang Yi stood opposite a three-eyed seductive girl with brown skin and purple lips, but his opponent's face was not very good.

At present, the most recognized geniuses are Buran and Wang Yi, and no genius wants to meet them.

"brush!"

Wang Yi was not in the mood to talk nonsense, and flames flew directly from behind, flying towards the three-eyed seductive **** the opposite side.

Without the slightest surprise, this struggling opponent was killed in an instant.

The strength gap is too big, and it can't stop a single move.

In the first victory, Wang Yi entered the top 100, and his bonus rose to 100 yuan, allowing him to enter the "Secret Realm of Heaven and Earth" of the Virtual Universe Company.

...

After all the 100 people were selected, the green-robed and purple-scaled man "Venerable Nine Swords" stood in front of them with a faint smile, overlooking them: "Congratulations, you can enter the Secret Realm of Heaven and Earth of the Virtual Universe Company. Now, According to the choice of the virtual universe system, the best 20 of you have been selected."

The man in the cyan shirt and purple scales began to report for the list of 20 people.

"Borlan!"

"Wang Yi!"

"Luo Feng!"

"Rong Jun!"

"Galesi!"

"Uka!"

"Thousands of water!"

"Ai Chen!"

...

With the announcement of the list of the men in the blue robe and purple scales, most of the 80 people who were not selected looked ugly, but with the lessons learned before, although many people were succumbed in their hearts, they did not dare to say a word.

After the blue-robed and purple-scaled man announced the roster, he let the selected 20 rest and prepare for the next decisive battle.

Soon, half an hour passed.

"Rumble..."

The entire central square shook, and ten giant arenas gradually floated in the center of the square. The arenas were also covered with a large number of black silk strips. At the same time, Wang Yi and other twenty people who had been resting were instantly transported into these ten giant arenas.

"Berlan's opponent is... Tao?"

"Unlucky guy. He's lost."

"There is no way. Whoever encounters Buran will lose, and only Wang Yi may still be able to compare with Buran."

"Wang Yi's opponent is... 'The Sword of Life' Yifeng?"

"These two are unlucky babies."

The other geniuses who watched the game in the distance couldn't help laughing.

'Guthluo' vs. 'Rong Jun'.

Luo Feng played against "Phantom Demon" Galesi.

...

Wang Yi glanced at the thin little guy in front of him. He remembered that this was one of the last five people in the trial tower.

Now, even in the face of an invincible opponent like Wang Yi, the handsome boy with purple hair has a faint smile on his face, and his eyes are full of love for life.

"Sura, I am not your opponent, but I will let you see my swordsmanship..." Yifeng slowly drew out the sword.

The sword is the continuation of his life, and his swordsmanship... interprets the splendor of life.

call!

Yi Feng blew over like a breeze.

His eyes are extremely bright, pure and brilliant.

Sword, stored his desire, his understanding of life!

The sword lights full of endless vitality light up.

Like moths fighting a fire, they rushed towards Wang Yi.

...

Ten arenas, ten battles.

The first one to win is Burlan!

The second one is Wang Yi!

The third one is Luo Feng!

The three of them ended the battle the fastest!

On one of the ten arenas, the white-clothed youth "Bo Lan" with a blood sword on his back looked towards the dark-red shirt and black-haired boy. Wang Yi turned his head and looked over. The two eyes met, and the sky seemed to light up. Invisible spark.

A cold and indifferent like an iceberg that never melts, a calm but like a molten volcano that may erupt at any time...

They have different temperaments, but they are equally powerful!

"Wang Yi..." Buran glanced at him indifferently, then turned and left the ring.

In the other ring, the winning green-haired girl "Qianshui" looked at the two people on the ring with watery eyes, and then her attention was drawn to another place. "Brother, brother!" Qianshui shouted for joy.

Her brother "Jian Mo" also entered the top ten, both of which are in the top ten.

The winners of the ten arena appeared one after another. The time sequence is Bolan, Wang Yi, Luo Feng, Qianshui, Jiang Mo, Wuka, Lanslow, Long Yun, Ai Chen, Rong Jun!

"Congratulations to the ten victors, you have entered the top ten, the bonus has risen to 1,000 yuan unit and you can enter the 'Prince Secret Realm'." The cyan shirt and purple scale man "Venerable Nine Swords" appeared with a smile and glanced at everyone, "Wait. In a moment, the top five will be selected from the ten of you, and the first, second, and third place will be selected from the top five."

"As for how the ten of you are grouped, according to the rules formulated earlier in the virtual universe system, the ten of you have won the battle before and after the time. The fastest time and the slowest time are in a duel, and the second fastest time is the second slowest. Duel...and so on!"

"Wow!" The 1,008 powerful immortal geniuses were shocked, the 990 spectators were also stunned, and the top ten peerless geniuses who were about to fight were also stunned.

Wang Yi's eyes flashed, the fastest and the slowest fight, and so on...

Bo Lan's opponent is Rong Jun!

Wang Yi's opponent is "Ai Chen", a girl from the Mengluoyi clan!

Luo Feng's opponent, UU Reading [www. uukanshu.com](http://www.uukanshu.com) is Longyun!

Wang Yi vaguely remembered that in the history of the original work, there seemed to be almost this arrangement!

Except his opponent became Ai Chen!

But Luo Feng vs. Long Yun, Buran vs. Rong Jun... but they didn't change!

Destiny once again demonstrated its powerful inertia at this time!

When the result of the battle came out, the immortals who were on the sidelines also talked.

The scaled armor giant "Thirteen" looked at the three young men "Wang Yi", "Luo Feng" and "Rong Jun" in the distance, and his eyes couldn't hide his joy.

This time the battle of geniuses in the final battle against the Qian Witch universe is considered to be a big show. Three of the top ten are from the Qian Witch universe. Moreover, the strongest Wang Yi also showed the talent to fight against the sky. The peerless genius born in a million years is comparable.

"If Wang Yi can win the first place, the lord will be very happy to learn that..." The giant in the scale armor secretly looked forward to it.

[Chapter 155: Peak collision!](#)

There is nothing to describe the duel with Ai Chen...just to make her die a little bit easier.

Rong Jun didn't have any suspense against Bo Lan, and he lost cleanly.

The only ups and downs were Luo Feng vs. Long Yun... In the original work, Luo Feng finally lost to Long Yun. This was not how Long Yun was stronger than Luo Feng at that time, but was determined by various factors.

However, the current Luo Feng is much stronger than in the original history. Although it was a little bit twisted, he still defeated Long Yun in the end!

In the five arenas, a series of duels ended one after another.

The final five winners are Bolan, Wang Yi, Luo Feng, Qianshui, and Uka.

Then, there are the first five rounds of battles. The rule is...Everyone in the top five has to fight with the other four. The winner gets one point, and finally according to the points ranking, the first and second are selected.

The first game is Beran vs. Wang Yi!

This battle also affects the hearts of countless people.

Two peerless geniuses, who can win in the end, who is stronger...it will be known immediately.

On the ring with beautiful borders, Wang Yi and Buran face each other in a distance.

A dark red shirt, short black hair, a calm expression, but the depth of his eyes contained a crazily destructive color, like a volcano that erupted in silence but did not know when.

A white shirt with a blood-colored long sword on his back, white hair fluttering, cold and indifferent, just like an iceberg that will last forever.

Two completely different temperaments, but with magic power, attracted the eyes of other people in the distance like a magnet.

Wang Yi, Buran... Two peerless geniuses born every tens of thousands of years... They are facing each other on the same stage. Who can stand in the end?

"Wang Yi, Buran..." An immortal sighed. "How many years have you not seen this level of peak duel?"

Another immortal **** couldn't help sighing: "Like this peerless genius, one appeared before, not to mention two in the same session. Even the Virtual Universe Company specially modified the quota for them, increasing the original secret realm quota this time to three. It can be seen that the virtual universe company attaches great importance to them."

"Indeed, other geniuses can become immortal powerhouses, but Bolan and Wang Yi have the slightest possibility to become venerable..."

"Who can you say, Buran and Wang Yi, can win?"

"I am optimistic about Buran. After all, his perception of the law of space is really terrifying, and his terrifying speed, I am afraid that Wang Yi can't resist it at all."

"I also think Berlan has a little bit more chance of winning."

"I am more optimistic about Wang Yi."

The immortals are discussing, and the battle on the ring has officially begun.

"Wang Yi!"

"Borlan!"

The two people who looked at each other had an idea at the same time.

"Beat him!"

"boom!"

"boom!"

A violent red air current and a light and violent blue air current erupted from the two people on the ring at the same time.

"call!"

Buran moved, and the figure rushed out like an arrow from the string. In an instant, a group of figures emerged in the cyan air current. Under the strong spatial law of origin, thousands of Buran's phantoms rushed towards Wang Yi at the same time. , The momentum is amazing!

"here we go!"

The geniuses who watched the battle from the distance of the ring, Rong Jun, Qianshui, Ai Chen, Uka... and other peerless geniuses also watched this rare peak collision in thousands of years!

One, surpasses many realm masters in the perception of the original law of space, can display thousands of phantom bodies at the same time, and has been hailed as the most heaven-defying existence in thousands of genius wars!

One, the constant star can master the third level of the Yanshen Soldier. It is incomparably powerful, and successfully passed the first floor of the seventh trial tower that Bolan failed to pass, and once overwhelmed Bolan Ray's super spiritual teacher. monster!

Among them, who is stronger?

"Kill!!!" Wang Yi's black hair was flying, his eyes were cold with warfare.

Wang Yi didn't transform into a phantom body, but pointed at Buran, and bursts of fire-colored streamers flew out of the dark red knife behind his back. Under the entanglement of the red air current, like a celestial flower, it shot out like a goddess.

Beran's phantom body was looming in the cyan air current, like a ghost, at an extremely fast speed, and when the Yan Shen soldiers rushed over, thousands of Beran simultaneously made a dodge action.

puff! puff! puff! Puff... There was too much fire color, and some phantoms that couldn't be avoided, were destroyed and disappeared immediately.

But most of the phantoms still existed, swooping toward Wang Yi like a hurricane.

Wang Yi did not hesitate to control the flashback of the red moon disk under his feet, and the fire-colored streamers formed a cloud of airtight light and shadow, flying back and forth like lightning, and the figures in the many blue air currents in the crazy attack area .

A group of figures are getting closer and closer to Wang Yi, but the number is also decreasing.

This is just a momentary matter.

"Wang Yi's attack is so fierce!"

"And Buran's body style is so fast and weird!"

"These two people are terrible!"

Most of the geniuses who watched the game were frightened and sweated.

They have a feeling that in front of these two people, they can't handle a single move!

"Borlan is chasing Wang Yi!"

"But Wang Yi has been avoiding, and he has also used his illusion!"

"Wang Yi's phantom body was broken by Buran!"

Crazy fighting is going on in the arena.

Hundreds of Wang Yi and hundreds of thousands of Berrans appeared on the ring at the same time, making the geniuses in the distance blinded to see. They could not even tell which is the noumenon, or in other words, the function of the original law of space. Under the distortion, each one is the main body.

The immortals sitting in their seats were also amazed.

"impressive!"

"Borlan's body technique, sword technique, perfectly blends the law of space and the law of wind, and his characteristic is...fast! Fast body technique, fast sword technique! At this speed, opponents of the same level are only afraid of one. You will be killed in the blink of an eye!"

"Wang Yi is also very good. Although his perception of the law of space is not as good as Bolan, he has fully utilized the power of the third form of the Yanshen Soldier, and has also integrated the law of space into the body method of "The Flow of Ten Thousand Lines", which is flexible and changeable. Although it's not as terrifying as Berran's speed, it's also very amazing."

"However, Wang Yiqiang is in the control of the Yanshen Soldier. After all, he is a spiritual teacher. Long-range combat is his strong point. Therefore, Buran has been looking for opportunities to approach him. As long as he is approached by Buran, he is probably in danger."

A cold light flashed in Buran's eyes amidst the immortality in the distance and the attention of many geniuses, and suddenly the speed increased sharply again, swiftly! He avoided most of the attacks of Wang Yi's "Fire Flow Array" with a strangely tortuous trajectory that was almost "z", and then suffered two streams of light. In the bloom of blood, his white battle shirt was stained with blood, but he was already approaching. Wang Yi!

Very close!

"No, Burlan is injured!"

"Buran is so desperate!"

"He is close to Wang Yi, Wang Yi is in danger!"

The faces of the people watching from a distance also changed wildly.

Wang Yi's pupils contracted, and while his figure retreated frantically, he manipulated the scarlet moon wheel that remained beside him to attack Bolan. Behind Bobolan, the huge flash of light like a rain of meteors was approaching.

Wang Yi could clearly see the expression on Buran's face, as if saying: I won.

The badly wounded Buran took out his sword without hesitation. The sword was still as fast as lightning, unpredictable, and cruel and unfeeling!

"Dang!" Wang Yi's Scarlet Moon Wheel was easily pushed away, and Bolan's sword light paused slightly.

"Clang!" Wang Yi drew the sword behind his back.

boom!

Two battle knives were cut down at the same time, and the fire, space, and domain merged into this knife at the same time.

Dead end, dying to struggle?

There was a hint of sarcasm in Buran's eyes.

Jianguang greeted Wang Yi's double knives, and he seemed to be able to see Wang Yi's two weapons being smashed away by him ~www.mtnovel.com~ and then piercing his head.

However, at that moment, the speed of the knife in Wang Yi's hand suddenly increased wildly.

Time seems to be interpreted on the knife light.

Unbelievable fast!

Huh!

Beran reacted and wanted to stop and dodge, but it was too late, and his sword arm was chopped off.

"Ah!!!" Buran roared, with shock in his eyes.

Subsequently, he was sieved by the hidden weapons of Yanshen soldiers swarming from behind.

Cang Dang!

He fell to the ground with a broken arm with a scarlet sword.

It was quiet on and off the stage.

After a long time, an immortal spirit slowly said: "This is... the law of origin of time?"

[Chapter 156: War of genius ends](#)

The whole scene of the battle between Wang Yi and Buran can be said to have been full of twists and turns.

When Buran rushed to Wang Yi's side, everyone thought Wang Yi was finished.

Especially when Wang Yi finally faced the enemy with a war knife, everyone seemed to see the scene of Wang Yi being killed by Buran.

But what I didn't expect was that that knife actually cut off Beran's arm.

The scene fell into a dead silence.

"Qiang——" The indifferent black-haired boy thrust his saber back in his back, and only then awakened these people.

"Wow!"

The nearly a thousand permanent star geniuses were in an uproar, shocked one after another, and their eyes were cast on Wang Yi.

After Wang Yi tried the tower, he defeated Buran head-on one-on-one!

And the immortal gods who watched the battle from a distance were also amazed.

"I'm not mistaken, am I? The knife just now seems to contain the mystery of the law of origin of time?"

"You read it right, I saw it too."

"Unbelievable! Unbelievable! This Wang Yi actually crossed the threshold of the original laws of fire, space, and time at the same time!"

Whether it is the original law of time or the original law of space, it is the most unpredictable existence in the original law.

In my sense, it is thousands of times more difficult than the original laws of gold, fire, and wind!

Among the top 20 geniuses in this cosmic peak genius battle.

Luo Feng has stepped into the threshold of "gold and space".

Rong Jun has crossed the threshold of "earth and space".

The same is true for others. For example, the **** of death Buran crosses the threshold of "wind and space", such as Yi Shi crosses the threshold of "wind and wood", such as Ai Chen crosses the threshold of the original law of "light and time"...

Among the 19 people who perceive the two kinds of laws, 8 have crossed the threshold of the law of space, 6 have entered the threshold of the law of time, and 5 have no perception of 'time, space'. But no matter what, these 19 people have crossed the threshold of the dual origin law.

Only Wang Yi has stepped into the threshold of the triple original law of "fire, space, and time"!

No one thought that Wang Yi could hide so deeply! It broke out in the decisive battle with Berran!

"The law of time origin and the law of space origin have crossed the threshold at the same time. This is a genius who is more enchanting than Buran. Buran won't be wronged." A short blond hair immortal like the sun sighed.

"It's a monster, he can step into the threshold of time and space at the same time. I really don't know how he did it." Many immortals were amazed by it. "Whether he goes to the extreme in the law of time, the law of space, or integrates the original law of space and time, and embarks on another path, he can become a terrifying super power in the future!"

Under the ring, Buran was resurrected again, but his expression was still a little confused, as if he couldn't believe it, he actually lost.

"I actually lost, I lost to Wang Yi...Teacher, I..." Buran bit his lip and clenched his fist. He, who has always considered himself invincible among the same generation, tasted the taste of failure for the first time.

"Wang Yi!" He turned his head abruptly, and looked at the black-haired boy who had stepped down from the ring, and his heart seemed to ignite a raging fire. "This time I lost. I never expected that you actually understood the law of the origin of time. It seems that you are my destined opponent in my life! I swear, I will definitely defeat you!"

Luo Feng, who was sitting with Rong Jun, witnessed the entire matchup. When Wang Yi defeated Buran, Luo Feng was also shocked. After all, although he admitted that Wang Yi was unfathomable and above himself, he was still in his heart. I feel Wang Yi is inferior to Buran's.

Unexpectedly, the final result was that Wang Yi defeated Buran, and he also struck a note on his mind.

"Wang Yi..."

Rong Jun, the burly and savage Han, also looked at Wang Yi with piercing eyes.

I don't know how many geniuses, at this moment Wang Yi is regarded as the biggest opponent!

But Buran, who used to be shining, didn't have any sense of existence anymore.

After all, Wang Yi, who has three talents at the same time showing the original law of time, the original law of space, and the original law of fire, is really terrifying!

Not to mention, he also defeated the peerless genius Boran, who is known to be born every tens of thousands of years!

This is a monster more terrifying than Berran!

Wang Yi knew in his heart how lucky he was with that move just now.

It has been so long that Wang Yi has also passed the law of time origin and blended into the knife.

It can only be the last killer, if it is known in advance, it will have no effect.

After all, there is only one move, and by relying on this move to fight against a peerless enchantment like Buran, you will definitely die miserably.

But no matter what, Wang Yi has defeated Buran, and is destined to become the number one in the peak genius battle!

...

The first five reincarnation battles passed one after another, and soon they were finally ranked. Wang Yi, won four games, the undisputed number one! Berran, three wins and one defeat, finished second! To lose is to lose to Wang Yi, and this is his only failure.

Luo Feng, with two wins and two losses, finished third! Although he tried his best, he was still defeated by Berran's quick sword.

Uka, with a win and three losses, was reduced to fourth.

Qianshui was the worst, lost all four battles, was abused from start to finish, and could only rank fifth.

...

Wang Yi, Bo Lan, and Luo Feng were able to enter the primitive mystery. In addition to the recognition of Wang Yi and Bo Lan's strengths, Luo Feng was still subject to some doubts. After all, there are still some geniuses close to his strength, and when there is no absolute advantage. It is difficult to convince others.

But this is the end of the matter, and no one else can change anything.

1,000 geniuses and 1,008 powerful and immortal, all stood in the central square listening to the words of the man in the cyan shirt and purple scales.

"The four levels have all been selected. This is the end of the summit genius battle held by our Virtual Universe Company, and it has ended successfully!" The purple scale man in the cyan shirt smiled. "You are a very good one. I believe that after dozens of epochs and hundreds of epochs, many of you will be famous in the entire universe.

"Someone will contact you later and take you to the Universe Headquarters of my Virtual Universe Company, gather there, and then go to the 'Original Universe'."

The voice of the purple-scaled man in the cyan shirt echoed in the minds of many geniuses.

This genius battle has officially ended!

...

After Venerable Nine Swords and the 1008 Immortal left, Wang Yi and the thousand geniuses who had just joined the core layer of the Virtual Universe Company were then taken by the staff to the meeting room on the second floor of Restaurant No. 2 in the Central Plaza. Listen to the relevant staff of the Virtual Universe Company and give them the arrangement of going to the headquarters of the Virtual Universe Company.

The spacecraft sent by the Virtual Universe Company to pick up talents from all over the world can guarantee that they will arrive at the headquarters on the same day.

It takes about 3 years.

And Wang Yi is now in the Secret Realm of the Dry Witch universe, but he still wants to go back to the earth to see his family once, so he also filled in the address of the Black Dragon Mountain Empire, Bran Star.

As for how to return to Earth in the shortest time, he thinks there must be a good way to fight the witch universe. After all, he is now a member of the original secret world of the virtual universe company.

[Chapter 157: New journey](#)

The dry witch universe, the surface of an unnamed and desolate desert planet in the Black Dragon Mountain Star Territory, a dazzling light appeared out of thin air, and a half-moon-shaped spaceship appeared out of thin air.

"His Royal Highness Wang Yi has come to the Gumar Galaxy in the Black Dragon Mountain Star Territory. This galaxy belongs to the closest location to the Milky Way." In the control room, an iron-faced man wearing a thorny armor stood smiling beside the black-haired boy.

"Thank you, Chief Baique." Wang Yi said. "Thanks this time."

"Don't thank you, I was ordered by the Lord, and it is also my honor to be able to serve His Highness such a peerless genius." The seemingly cold and domineering Sergeant Bai Que was very polite.

Wang Yi submitted an application to go back to his hometown on the day after passing the pinnacle genius war... But this time, in order to return to the earth as soon as possible, he requested "the kingdom of God teleportation" from above.

The kingdom of God is all in the cracks of the universe. Those channels connecting the kingdom of God and the outside world are transmission channels. Let the two places that were originally hundreds of millions of light-years away or even farther away, through the transmission channel, can be reached in an instant.

The Kingdom of God can also be teleported at once.

In God's country, as long as there are coordinate points left in some other place in the universe, the space teleportation can be instantly opened up for a one-time teleportation.

Every time it is transmitted, a space channel must be opened up, and the cost varies according to the distance.

With Wang Yi's status as the original secret realm of the Virtual Universe Company now, it was enough for the Kingdom of Dry Witch to attach great importance to his opinions. Even the Lord of the Kingdom of Dry Witch immediately sent his next immortal to personally send Wang Yi back to the vicinity of the galaxy.

But it is only teleported within the dry witch universe, the distance is short, and it is very convenient.

After bidding farewell to this polite immortal, Wang Yi, who had already returned to his heart, boarded his spaceship and returned to Earth in less than a day.

He wants to reunite with his family during the time he travels to the original universe.

After all... After going this way, I don't know when I will come back.

...

At night, Jiujiang City, the first high school.

A pair of young men and women walked here together as if they were young lovers.

The long-haired girl looked at the brightly lit teaching building, her eyes full of nostalgia.

"In the past, you always slept in the last class of the class and couldn't wake up." Lin Youyu smiled and said, "At that time, every time the teacher approached, I was frightened."

Wang Yi touched his nose. At that time, he exercised every day until late at night, and he would inevitably be sleepy in class.

"Isn't the teacher all used to it?" Wang Yi laughed.

At that time, Wang Yi was also considered to be a high school leader. As long as it does not affect the class, the teacher often opens his eyes and closes his eyes.

"At that time, I was thinking about what will happen to us in the future." Lin Youyu carried a happy smile on his face. "As a result, we were still together in the end, and there were children."

Wang Yi felt a little guilty and distressed, and couldn't help holding her tightly.

The two hugged each other gently under the curtain of night, silently, as if recalling the beauty of their youth.

"Husband, I want to have another child."

".....Do it?"

...

September 18, 2071.

Inside the royal castle.

Although Wang Yi's eldest child is already as tall as their father, Wang Yi's parents appear to be very young, holding their son's hand and telling them.

In fact, they have nothing to say, just vent their emotions in this way.

Wang Yi's eldest child is thirteen or fourteen. Because they are well developed, they look about the same age as Wang Yi, who looks like a teenager. It is not an exaggeration to stand together and say that they are brothers and sisters.

They were also red eyes, looking at their father.

Wang Yi reluctantly parted from his family.

Since then, we will be separated.

Brandy star.

The icy and snowy land, the squally raging wind.

Wang Yi and Luo Feng boarded a special spacecraft from the Virtual Universe Company.

This is a quaint spaceship with a length of 600 meters, a width of 100 meters, and a thickness of nearly 100 meters. The spacecraft is dark throughout. Facing this spacecraft, you can faintly feel the quaint atmosphere, as if already It has existed for a long, long time in the long river of time.

The spaceship also has a powerful immortal **** who personally escorted them to the headquarters of the virtual universe company.

Inside the spacecraft, an extremely luxurious and comfortable room.

"His Royal Highness Wang Yi, His Royal Highness Luo Feng." The burly man covered in purple fluff, like an ape-man smiled and said: "First introduce myself, I, Zi Kun, an immortal in the core layer of the Virtual Universe Company's Secret Realm of the Beginning ."

"The Secret Realm of the Beginning! Immortal!" Both Wang Yi and Luo Feng were shocked at the same time.

"Yes, because this time I was picking up the two Royal Highnesses from the Primordial Secret Realm. The Virtual Universe Company took it very seriously and sent me over." The purple-haired ape man has a rough appearance, but his tone is very soft, even though he is a member of the Primordial Secret Realm. He still maintains sufficient respect for the two His Royal Highnesses "Wang Yi" and "Luo Feng" from the primitive secret realm.

The core layer of the virtual universe company has four secrets, which are divided into primitive secrets, secrets of the beginning, secrets of heaven and earth, and secrets of the last days.

As for why the two are called His Royal Highness... Among the four core secrets, the last secret realm belongs to the outermost layer, and the core members of the last secret realm. See the first three secret realm members. If the other party is lower than immortality, they must be called your Royal Highness!

Those ordinary subordinates who are not at the core level, see the core members below the immortal level, and they will all be called Your Highness.

And Wang Yi and Luo Feng entered the highest primitive secret realm among the four great secret realms, and their status is comparable to that of the immortal gods of Fenghou. Strictly speaking, their status is higher than that of the immortal military master-level 'Zi Kun'... so Even the immortal **** "Zi Kun" from the secret realm of the early days must maintain sufficient respect for the two in etiquette.

Of course, immortality or immortality, even if Wang Yi and Luo Feng are higher than each other, it does not mean that each other can be bowed to their orders.

Wang Yi and Luo Feng also have self-knowledge, and are very respectful and polite to Zi Kun~www.mtlnovel.com~ Your Majesty, you and I will enter the virtual universe together. "The purple-haired burly ape-man smiled, "I will take you into the virtual headquarters of my virtual universe company." "

"Oh?" Wang Yi lifted his spirits and finally entered the legendary virtual universe company "Yuxiangshan" in the virtual universe base camp?

Wang Yi and Luo Feng both lay down in the most comfortable and luxurious lounge in the spacecraft, and then their consciousness entered the virtual universe network.

Now that Wang Yi and Luo Feng are core members, their virtual assistants "Bermuda" and "Babata" automatically get a function. Once they enter the virtual universe, they can be directly transmitted to a special plane in the virtual universe. .

"Teleport!"

...

In reality, the spacecraft of the Virtual Universe Company they carried has already shuttled into the dark universe, and the speed has continued to rise, climbing to nearly 20 times the speed of light, and then moving forward at this constant speed in the dark universe.

Goal, the headquarters of the virtual universe company!

[Chapter 158: future](#)

The virtual headquarters plane, Yuxiangshan.

The entire Yuxiang Mountain is divided into five districts. They are the 'primitive area', the 'primordial area', the 'day area', the 'end-time area' and the 'public area'. The areas of these five districts are all about the same size.

The population of the primitive area does not exceed 120.

There are currently 113 manors in the entire primitive area.

Normally, there are 100 realm masters, 10 domain masters, and 3 universe masters.

And now there are six people in the Primitive Secret Realm Universe Grade Highness, three old people and three newcomers.

The three newcomers are of course the "Wang Yi", "Luo Feng", and "Bo Lan" who were selected by the genius war.

The three old people are "Fito", "Sima Yan", and "Molo". Among them, Fito is the only one of the core cosmic members of the Virtual Universe Company who has broken through the eighth floor of the Tongtianqiao! Sima Yan and Moruo both passed the seventh floor of the Tongtian Bridge...Of course, they both passed the seventh floor for a long time.

In particular, Moruo was a hypocritical villain. In the original history, Luo Feng had been bardosed once in the Demon Mountain Desperate Level mission. If it weren't for Luo Fengfu's fate and many cards, I'm afraid he would really capsize.

Wang Yi has already learned this information from the memory of his last life and shared it with Luo Feng, including some opportunities. He is now let go. He feels that he can carry the audience by his own development. As for Luo Feng, the **** teammate The future development is controlled by him, and no matter how bad it is, he is not Luo Feng's nanny, so naturally he will not be staring at him all the time.

"There are the golden horn behemoth, the clone of the demon killer clan, the secret of the Nine Tribulations, plus the world of blood Luo, the demon mountain... Luo Feng should be fine, right?"

In the original area, Manor 114, the courtyard wall of the manor is like a continuous mountain range, which continues to extend until the end of the field of vision. In terms of area alone, this manor is larger than the territory of any country on earth.

Standing on the balcony of his pavilion, Wang Yi muttered, looking at the sky outside the window.

The four powerhouses of the earth, Wang Yi, Luo Feng, Hong, and Thor have all gone to the universe. As for which step they can take in the future, it can only be determined by fate.

...

"I have finally entered the core layer of the Virtual Universe Company. Tsk Tsk, I am now also the Royal Highness of the Primitive Secret Realm." Wang Yi sat in the study seat on the third floor of the exquisite pavilion modeled after the Chinese style building, feeling comfortable.

It's as if I have been working hard to sign...cough, struggle, and finally got rewarded.

Every Royal Highness in the Primitive Secret Realm will be equipped with an escort! This guard will be led by an immortal army master.

But the immortal guard leader of Wang Yi Manor was a tall, icy man with green skin, a bald head, and two cruel tentacles on his forehead. His name was Jacques.

Moreover, every Lord of the Primordial Secret Realm can choose an immortal **** teacher who has lived in his manor for a long time.

Being able to serve as the immortal **** teacher of these highnesses is generally at least at the level of immortality!

If these highnesses have no specific requirements for candidates, the Virtual Universe Company will randomly arrange an immortal **** to come and teach.

Regarding this, Wang Yi, who is not familiar with his life, has no idea for the time being, so he can only put it aside.

The only requirement he can make is "to be proficient in any original law of time or space, and to be good at thinking power weapons." Of course, it is best to be "an immortal teacher who is good at combining the two laws of time and space".

As for what immortal **** teacher the Virtual Universe Company will send him at that time, it can only depend on luck.

After submitting the formal application, Wang Yi breathed a sigh of relief.

And Wang Yi is thinking about his future cultivation path.

Although he believed that he was exceptionally talented and hardworking, and with a little help from his son who signed in to the panel, he worked so hard, and finally got to this point and got a good harvest in stages.

But he can't slack off!

Joining the Virtual Universe Company is just a starting point, and where he can go in the future depends on signing... Ah, his persevering efforts.

Wang Yi, he is definitely not the kind of person who relies on external forces and doesn't want to make progress!

"I have three bodies now. The human deity is proficient in time origin talent, the Void Zerg clone is proficient in space origin law talent, and the Yanxing giant beast clone is proficient in fire origin law talent." Wang Yi opened the laptop on the desk that fits his own habits. , Randomly click to open a "treasure house" folder.

drop!

The treasure house opened, and suddenly there were eight categories: "Secret Techniques", "Weapons", "Rare Treasures", "Science and Technology Weapons", "Materials", "Tools", "Biology", and "Other Special Classes" on the screen. There are many sub-categories floating under each category, such as "plant life", "metal life", "taming animals" and so on floating under the biological category. For example, the "secret method" is also divided into different factions... , Vast as a sea of smoke.

"The treasure house of the Virtual Universe Company really deserves its reputation." Wang Yi sighed.

Members of the Secret Realm of the Beginning can get 10,000 free points, which can be used to purchase items in the treasure house.

However, members of the original Secret Realm have 100,000 free bonus points!

In other words, Wang Yi now has 100,000 points that he can use to buy anything he wants, as long as the points are enough.

Moreover, there is no need to waste time cultivating original abilities and thoughts.

Once it reaches the cosmic level, the virtual universe company will provide free physical evolution resources to help these highnesses quickly upgrade to the ninth cosmic level.

The domain master level is the same as the world master level!

With rich wealth, this is the Virtual Universe Company!

The breakthrough from the ninth rank of the constant star to the first rank of the universe is nothing to Wang Yi. If it weren't for participating in the peak genius battle, he would already be able to break through!

You know, his two clones have already broken through to the domain master level!

"Well, the Yanxing Giant Beast, it will take about 20 years to evolve to the ninth domain master level, but the ninth domain master level to the world master level is another big level. I don't know if it can be like the previous two times. Then break through smoothly." Wang Yi thought.

As for the clone of the Void Zerg, don't worry about Wang Yi, it just doesn't provide any resources, and its evolutionary speed surprised Wang Yi.

"If it goes well, maybe the Flame Star Giant Beast will be able to break through to the master level in Chaos City for more than 30 years! Master level! The speed of comprehension is much faster than it is now, I don't know how many times it! The biggest advantage of this stage is to perceive the efficiency of the original law!" Wang Yi also had a trace of desire in his eyes.

"Well, when you go to Chaos City, you may be discovered by the Chaos City Lord who controls the space and time of the other side of the universe, but it doesn't matter, Lao Tzu is now a human being with a true root." Wang Yi is not worried about being discovered by the Chaos City Lord of his own anomaly. .

As long as the sign-in panel is not exposed.

For this "small chance" of the younger generation, the City Lord of Chaos, standing at the pinnacle of the universe, would not care.

"As soon as you arrive in Chaos City, you have to choose one of the 52 Chaos Tablets for cultivation. I have the advantage of the original law of time and space, so I can choose the Universe Chaos Tablet to practice ~ www.mtlnovel.com~ The Universe Chaos Tablet seems to be chaotic. Created by the city lord, it is the second among all the Chaos Tablets, and the Tongtianqiao checkpoint has a full 30 floors!"

"It is extremely difficult to study both time and space, but if you succeed, you will achieve great achievements in the future."

"It's just that the chance of the beast **** is a bit painful." Wang Yi rubbed his chin, trying to recall the details that he had almost forgotten before.

The combination of abandoning the long-established "fire and space" laws made Wang Yi a little bit reluctant, but Wang Yi knew that since he had the advantages of "time and space", he would naturally want to give full play to it.

As for "fire, space", the years are long, and if there are opportunities in the future, it is not impossible to practice.

Both? Wang Yi is not Boran, and he is not so proud and blind.

The only thing that hurts is that the Flame Star Giant Beast is the darling of the law of the origin of fire, and has a little talent in the law of space, and it is far inferior to the law of the origin of fire in the law of time.

Even if he breaks through to the realm master and perceives the efficiency of the original law of time and space as high as Wang Yi thought, Wang Yi cannot be sure.

[Chapter 159: Secret method selection](#)

Wang Yi browsed the treasure house list. He didn't look at the others, but clicked on the "secret method".

Search-"Scorching Star Behemoth".

Now Wang Yi is already a member of the Primal Secret Realm, with very high authority, and the upper limit of search has also been increased.

In the next second, a dense array of search items appeared on the screen.

As one of the five strongest giants in the human domain, the virtual universe company has existed for a very long time. During such a long time, it has naturally collected resources, treasures, technologies, and secrets of countless other races, and the foundation of the rise of the secrets is naturally The most important thing is, even if there are many secret methods that humans cannot practice, they can be found here.

The secret method of "Yanxing Bian" can be exchanged for 8 million points (30% off the original secret realm, 20% off the secret realm of the beginning, 10% off the secret realm of heaven and earth, full price of the secret realm of the last days)

"Space Realm" secret method, 7.8 million points can be exchanged (30% off the original secret realm, 20% off the secret realm of the beginning, 10% off the secret realm of heaven and earth, full price of the secret realm of the last days)

...

Each page presents an introduction to one hundred secret methods, and there are dozens of pages below.

These are the long-standing secrets of the Yanxing Giant Beast clan!

Some are powerful special secrets created by the super beings in the Yanxing Giant Beasts based on their own race characteristics.

Some, obtained elsewhere in the universe, were improved by the strong of the Flame Star Giant Beast clan, and became the secret method of their clan.

But once a giant Yanxing beast is enslaved by the soul of a strong human race, naturally these secrets fall into the hands of the human race!

Of course, these secret methods are of little value to humans, because humans cannot practice, but they can be exchanged for other groups in need!

Like the human race, the super race that stands at the pinnacle of the universe, has accumulated profound knowledge for countless years! Almost everything Wang Yi thinks about can be found here.

There are many, there are nearly 3800 kinds of secret methods that Yanxing Giant Beast can practice here.

Among them, there are 21 special secret methods and 3756 common secret methods.

Just...too expensive. One of the most expensive special secrets, "The Change of the Stars", requires 8 million points! Now Wang Yi can only look greedy and can't afford it.

Obviously, the Virtual Universe Company also knows that it is not ordinary people who can afford Yanxing Giant Beast's secret method, and the price is very high.

"Woo...This is the disadvantage of not taking the house and devouring the soul of the original owner. There is no memory of inheritance. Naturally, there is no secret method to practice." Wang Yi was a little helpless.

"The existence of King Zhenyan that is invincible and immortal close to the Universe Venerable, the strongest creation of the secret method only has 800,000 points, and the secret method of the average Venerable only has 1 million points. This flame star behemoth is the most You actually want 8 million..."

The joy of 100,000 free credits just got in hand, disappeared at this moment.

"Both "Blank Star Transformation" and "Space Domain" are extremely suitable for my avatar, the Yanxing Giant Beast cultivation, so that the strength of the Yanxing Giant Beast can achieve a qualitative transformation. However, I don't have any points at all now, and it is far from enough..." Wang Yi looked at After the introduction of the secret method, the eyes started to turn red.

He could feel that there was a big "poor" written on his forehead!

"If you want points, there is only one way at present. To break through the sky bridge, and if a newcomer passes through the Chaos City training for more than 30 years, the reward points will be ten times the original!" Wang Yi thought in his heart.

Originally, the reward for each layer was 100 points, 200 points... now it is 1000 points, 2000 points...

"But the difficulty of the bridge is so high, even if it has only been through the sixth level in 30 years in Burlan's original work, and the more difficult it becomes as you get to the back, the seventh level? The grasp is too low."

"Even if you pass the sixth level, plus ten times the reward, you will only get 32,000 points!"

"Other than that, it's the cultivation task of a cosmic genius, it can provide a lot of points, but that has to wait to leave Chaos City."

Wang Yi could only temporarily suppress his idea of buying the secret technique for Yanxing Giant Beast.

In addition to the Yanxing Giant Beast, there are also the human deity and the avatar of the Void Zerg race, and they also need to practice secret methods.

The clone of the Void Zerg is the same as Luo Feng's clone of the Demon Killer, because it was conceived by the secret method of talent and has no inherited memory. Although the talent is high...but now the fighting skills are all based on talent, and there is no effective combat secret method.

Moreover, the Void Zerg family feels more like a warrior approaching a warrior, or to be more precise, like an "assassin" who suddenly flashes hidden in the void and kills with one blow!

Therefore, Wang Yi combined the characteristics of the Void Zerg, and after comprehensive consideration, he chose the close combat method of the warrior similar to Luo Feng in the original book "Hidden Instant Step", which is worth 4000 points, and "Xingkong Knife" is worth 5700. Points, and this body technique and sword technique are a complete set, which is known for its ghostly body technique and powerful sword technique.

Double-sword weapons, battle armor, etc. have already been equipped, so there is no need to spend points.

In this way, it cost nearly 10,000 points.

As for the human deity, the secret method is not so hasty.

After all, the deity of human beings will come to Chaos City to choose "Universe Chaos Stele" to practice. Wang Yi remembers that Luo Feng, who was in another time and space, did not know the existence of "Floating Blood Sword Classic". Passing the sky bridge, unable to obtain the points, resulting in the inability to purchase the "Floating Blood Sword Classic" in time at that time, and can only go to the place where the secret creator genius'Lian Luo' practiced at the beginning to learn about the burning on the ground.

And Wang Yi thinks more about it.

"Since there is a basic secret method "Floating Blood Sword Classic" that assists in comprehension of the first three pictures of "Nine Universe Chaos Stele", there should also be a basic secret method that can help comprehend the first few pictures of "Universe Chaos Stele". "

"There are still three years to reach Chaos City, and these three years are also quite precious to me and cannot be wasted."

Wang Yi thought for a while, and called the immortal 'Jax', the guard leader of his manor.

"His Royal Highness, what's your order?" With green skin, has strong muscles, and the cold bald man immediately appeared and smiled at Wang Yi.

"I want to ask, is there such a secret method that can help me practice and comprehend the first few pictures of "Universe Chaos Stele"?" Wang Yi put forward his own purpose without concealment.

"His Royal Highness would like to choose "Cosmic Chaos Tablet" to practice?" Wang Yi said so clearly that 'Jakes' also immediately reacted. While marveling at the young His Royal Highness's ambition, he quickly thought, and then said carefully, "His Royal Highness, related I do know a little about this. It's not a secret in the Virtual Universe Company. If your Highness wants to understand the "Cosmic Chaos Stele", in the three previous pictures, you can choose the basic secret method of the universe genre- "Gallery Knife Catalogue" !"

"Galatian Knife Illustrated Record"?" Wang Yi muttered the term.

"Yes." The immortal **** 'Jakes' said with emotion: "The "Gallery Knife Catalogue" is a basic secret method of the universe genre. It mainly tells the first three pictures of the "Universe Chaos Stele" and requires 80,000 points to be exchanged."

"And its creator is our virtual universe company long ago, a legendary genius "Kedi"!"

"Huh!?" Wang Yi raised his head fiercely.

[Chapter 160: Galaxy Knife Catalogue](#)

After the leader of the Immortal Guard 'Jakes' left.

"Treasure Treasure." Wang Yi clicked on the Treasure Treasure folder, and then selected "Secret Techniques" and directly entered the name of "Star River Sword".

drop!

An introduction to the secret code of "Gallery Knife Catalogue" appeared on the laptop screen.

The secret method of "Galactic Knife Catalogue", 80,000 points can be exchanged (30% off the original secret realm, 20% off the secret realm of the beginning, 10% off the secret realm of heaven and earth, full price of the secret realm of the last days)

"Piaoxue Sword Classic, only 800 points."

"The Catalogue of Galaxy Swords, which actually requires 80,000 points."

"It's 100 times more expensive, isn't it?"

Wang Yi felt very toothache.

But think about the "Galactic Knife Catalogue" created by Kedi, a peerless genius who was born in the billions of eras. Wang Yi gritted his teeth to comprehend the basic secrets of the first three layers of "Universal Chaos Stele". Still bought it.

"I can't bear the children but can't beat the wolves, and the wife can't help the hooligans." Wang Yi cheered up. "In order to comprehend "Universe Chaos Monument" faster, I have to fight for it."

Wang Yi recalled some records and deeds about Kedi.

The universe level, the domain master, and the world master, in the three periods, all directly rushed through the primitive Tongtian Mountain. It made other ethnic groups tremble even more. During the period of the world master, he could kill the Fenghou-level immortal!

A group of Cosmos Lords and Venerables rushed to accept him as a disciple, and finally the City Lord of Chaos City accepted him as his disciple.

If the "Lianluo" who created the "Sword of Floating Blood" can be sealed as soon as they break through the immortality, then it is nothing compared to the time when the landlord can kill the immortal Kedi.

This is definitely the most dazzling genius in human history!

Wang Yi looked forward to how magical the secret method he created would be.

"The universe is vast and boundless, and there are special encounters and adventures. There must be many. Really combine everything well... Only when you make good use of it can you become a peerless power." Wang Yi knew in his heart that the virtual universe company was only a rise of its own. It's just a platform.

What really depends on is your own hard work!

In other words...what reward will you sign in when you go to Chaos City?

...

With a single click, Wang Yi exchanged the secret code of "The Catalog of Galaxy Swords".

"The transaction is successful!"

"With 56,000 points deducted, the balance is 34,300 points."

"Please wait, someone will deliver the secret method soon."

A string of prompt text appears on the screen.

"Okay." Wang Yi smiled on his face.

"Fortunately, I am a newcomer member of the Primordial Secret Realm, and I have a full 100,000 points. If the Secret Realm of the Beginning, I only have 10,000 points, I can't buy this "Galactic Knife Catalogue" at all." Wang Yi said with emotion.

There is a huge gap between the treatment of members of the Primal Secret Realm and the Beginning of the Secret Realm!

This is one of the reasons why everyone is vying for the first place and wants to join a higher secret realm. Resources are one of the aspects.

If you are highly talented and strong, you can naturally get more resources.

The virtual universe company also encourages core members to compete with each other.

Otherwise, there won't be any genius battles, qualification battles, Tongtianqiao, Tongtianshan... whatever.

The ultimate goal of the virtual universe company is one-to train the real superpower for the human race!

Different from the purchase of weapons and other physical objects, which must be delivered in reality...The secret method of purchasing is obtained directly in the virtual universe!

After all, the secret method is a kind of dissemination of knowledge. After all, the virtual universe is a 100% simulation, which is the most effective, fastest and safest knowledge transfer channel.

Delivery in the reality of the universe also requires identification.

The virtual universe is under the supervision of the "virtual universe system". This secret method is sold by the virtual universe system! Delivery is of course extremely safe.

"Master, there is an application for a call." The black and white dumpling Bermuda sitting on Wang Yi's shoulder leaned into his ear and shouted clearly.

"Take it." Wang Yi snapped his fingers, and a screen appeared in front of him. An old man with white beard and hair and wearing a white robe appeared on the screen. The whole person faintly made the surrounding space bright and warm. It was Yu Xiangshan. "Aitor", the master of all kinds of trivial matters in the primitive area.

Ai Tuoer smiled on the screen and said: "His Royal Highness Wang Yi, I just received the secret law books sent, and I need His Highness Wang Yi to receive it."

"Well, I know, I'll come over right away." Wang Yi also said with a smile.

Turning off the call screen, Wang Yi smiled even more. "In the virtual universe, the efficiency of buying secrets is really fast. That's right, after all, it's virtual."

...

Wang Yi went out and soon brought back a huge silver-white suitcase.

"When you get it, open it and take a look." Wang Yi put the silver-white suitcase on the desk and opened it. You can see neatly stacked silver-grey cheats, each with the same brilliance as the stars. The books all have the golden universal lingua franca of "Universe" and "Galaxy", and they are also numbered: Book 1, Book 2, Book 3... Book 220!

"There are actually 220 volumes!" Wang Yi was a little surprised. After all, "Gallery Knife Catalogue" is a basic secret method, there are only so many basic categories, and you can imagine how much more advanced secret methods are.

Wang Yi took out the first book and opened it directly.

"An introduction to "Universe Chaos Monument"?"

"Comprehension of the original law of time and space?"

"The practice of 'Galaxy Sword Catalog'?"

"It turns out that the 'Universe Chaos Monument' actually has 10 pictures, and each picture roughly corresponds to the third floor of the Tongtian Bridge." Wang Yi seemed to open the door to a new world, and the more he looked at it, the more shocking it became. "As long as you thoroughly comprehend the seventh picture, you can pass through the 21st floor of the Tongtian Bridge and become the Venerable Universe!"

"The 108 essences of space and the 108 essences of time... all have a perfect interpretation here!" Wang Yi's eyes glowed and he was extremely excited.

"It turns out that this is the case, it turns out that it can be felt like this, the law of time, the law of space... I was wrong before..."

Reading the first volume of "Gallery Knife Catalogue" had an extremely huge impact on Wang Yi!

Only now did he know that it was possible to think like this in cultivation!

"Kedi! As expected, he is a peerless genius born in the hundreds of millions of eras! Not only is his chances against the sky, his own cultivation talent is also unmatched." Wang Yi secretly sighed.

"Unfortunately, he fell early, I have to take it as a warning, and I can't repeat his back path!"

The first volume ~www.mtlnovel.com~ does not say how to practice specifically, but the author "Ke Di" describes his own knowledge of the cosmic chaotic monument, time and space origin laws, and his own creation of the secret method "Some information about the practice of 'Galatian Sword Catalog'".

In general, the first volume of "The Catalogue of Galaxy Swords" is the general outline of the entire Secret Book!

"The first three pictures of 'Universe Chaos Monument' contain 108 time essences and 108 space essences..." Wang Yi pondered.

"The first picture of 'The Monument of Chaos of the Universe' is the nine-star map, followed by the star map, the hundred-star map...there are three pictures, one of which is more difficult than the other. The first picture contains the simplest 18 types of time and space. Essence, the second star map shows 36 time and space essences, while the third picture contains 72 more esoteric time and space essences. Unfortunately, I am still on my way to the headquarters of the virtual universe company. It will take three years. Only later will I be able to witness the 'Universal Chaos Monument' with my own eyes, and it is impossible to get a glimpse of its true meaning."

Wang Yi felt a little regretful. "However, this 'Gallery Knife Catalog' is a detailed analysis of the first three layers of the 'Universal Chaos Stele', which can lay a foundation for me in the past three years, which is not bad."

In the following time, Wang Yi was fascinated by the secrets of the "Galatian Sword Catalog" in the virtual universe.
