

## A God 231

### [Chapter 231: Inheritance of Magic Sound](#)

"Love Pipit plate, Golden Soul Fruit." Wang Yi reached out and took the two treasures in front of him and looked carefully.

"In the original work, Luo Feng used the Demon Killer clone to pass the first stage before obtaining these two treasures."

The Love Pipit is a flying object for the spiritual teacher.

With it, the probability of survival in the dangerous universe is higher.

The Golden Soul Fruit, a miraculous fruit that only bears once in the three thousand era, has the miraculous effect of changing the soul, making the soul more suitable for inheritance.

"The price of the Love Pipit Disk is between 1 and 2 million mixed units. It is a flying weapon stepped on under your feet. It is extremely suitable for use by spiritual teachers... But few people sell it, and it is considered to be among the flying weapons used by the immortal gods. An extremely excellent and precious one. Except for a few of them are Fenghou-level immortal. Most of them are Fenghou-level immortal." Wang Yi gently stroked the strange-shaped gray stone plate. There was also a burst of joy in my heart.

Armor, he has "Purgatory Armor", although it hasn't been fully refined yet.

The soul defends against treasures, with the "eye of the abyss".

Wuzhe weapon, he already has the "Qingpudao".

Spiritual teacher weapons, currently there are "cosmic magic weapons."

But when it comes to flying effects, it is undoubtedly that Love Pipit is more powerful and specific.

Even if many immortal spirits want to get a Love Pipit plate, there is no way.

Wang Yi put away the Love Pipit tray, and cast his gaze on the golden color, but it was translucent and faintly able to see the flesh inside, and there was also an oval-shaped fruit surrounded by a golden air current.

Golden Soul Fruit can change the soul and make the soul more suitable for inheritance.

Wang Yi directly ate the golden soul fruit.

Chi Chi Chi Chi...The flesh of the fruit rushed into Wang Yi's body like an air current, poured into the pronucleus, and penetrated into his soul, causing his soul to mutate quickly and begin to produce golden tinges.

On the other inheritance ladder, with Wang Yi's point of awakening, Luo Feng also used the Demon Killer clone to break through the first stage of the ladder. He also obtained the Love Pirate Plate and the Golden Soul Fruit. He took the Golden Soul Fruit in advance and practiced. The speed of inheritance is also much faster than in the original history.

However, it is far behind Wang Yi.

When the two were carrying on the inheritance of the Magic Sound God General, time passed quickly, and soon, another two years passed.

Another immortal \*\*\*\* came to accept the inheritance, but found no abnormalities, or as long as he could accept the inheritance, he would not bother to care about others.

After all, even if Wang Yi and Luo Feng occupy one each, there are still 8 heritage palaces.

Therefore, Wang Yi and Luo Feng's occupation of Nestlé was not discovered for a while.

Soon, another fifteen years have passed.

Moyin Mountain, in the inheritance hall.

Layers of inheritance steps continue to extend upward, extending into the depths of the void. In the void, Luo Feng stepped on the inheritance ladder, advancing layer by layer!

After the golden soul fruit metamorphosis, Luo Feng's soul essence improved again, and the incomparably mysterious secret method was continuously passed into Luo Feng's memory. Luo Feng once again practiced this set of inheritance secret methods, so that his soul kept happening in the cultivation. Change.

However, Luo Feng already felt the faint pressure in his soul.

He understands that when he starts to struggle, it means that he is almost reaching the limit.

In the original history, Luo Feng spent 12 years walking about 3,200 floors on the inheritance ladder. Now, because of Wang Yi's change, his strength has greatly improved. In 15 years, he has walked 3892 floors.

"Soon."

"There are still one or two hundred floors. It should be almost at the limit."

Luo Feng had a clear understanding in his heart.

Looking at the steps that continued to extend into the depths of the void, although he felt regretful in his heart, he was also satisfied.

"I just don't know where Wang Yi went?" For more than ten years, Luo Feng and Wang Yi have not been in contact with each other because they have been immersed in cultivation. Anyway, it is basically impossible to encounter danger here.

After another six months, Luo Feng reluctantly reached the 4109 floor and finally reached the limit. The endless fatigue of his soul caused Luo Feng to fall into a state of unconsciousness, and finally fell into a state of consciousness.

Then he was directly wrapped by an invisible force and sent to the square outside the temple.

Luo Feng's inheritance in the Temple of Magic Sound is over.

...

Moyin Mountain, inherited in the palace.

In the void, steps stretched one after another, and a black-haired young man in a dark red shirt stood calmly on the stone steps, immobile like a sculpture.

It will take a long time to take a step and embark on another ladder.

In the inheritance palace, 20 years have passed.

Wang Yi has reached the 6519 level.

He completely settled down and was immersed in the practice of the magic sound \*\*\*\* general inheritance, without much psychological pressure.

Even if he can't accept the complete magic sound \*\*\*\* general inheritance at Moyin Mountain, he still has a chance to sign in and get the inheritance crystal.

Of course, if you can successfully cultivate the magic sound \*\*\*\* generals here, it would be best.

"Woo!"

"Pan!"

A series of strange magic sounds were perfused into Wang Yi's consciousness along with the mysterious cultivation method.

I don't know how much Wang Yi's soul essence is stronger than Luo Feng. In addition to the time world, Luo Feng has cultivated to more than 4,000 levels in 15 years, while Wang Yi has cultivated to more than 6,500 levels in 20 years. In fact, the more he goes, the more profound his inheritance is. The higher the soul requirements, so it takes a lot of time to practice.

In the depths of the void, that hall is the end of the second stage.

And Wang Yi is already close at hand.

Finally, before he knew it, Wang Yi stepped on the 6666th floor, completed the second stage of the inheritance, before reaching the limit of his endurance, and stepped into the mysterious and majestic ancient palace.

"Huh, it's finally here." Wang Yi couldn't help but breathe a sigh of relief, feeling the pressure in his soul fading like tide.

Regardless of Wang Yi's 20 years of training in the outside world so fast, 2000 years have passed since the world of time.

It took 2000 to cultivate to the 6666 floor, and Wang Yi didn't feel happy at all.

In fact, the pronucleus is outside, and no matter how fast the flow of time is, it only represents the speed of perception. In fact, the transformation of the soul is still going on in reality, and the speed cannot be that terrifying.

Wang Yi looked back at the endless stairs.

"The inheritance of the Demon God General is indeed much more difficult than the inheritance of the Purgatory God General. No wonder over the past countless years~www.mtlnovel.com~ more than 100,000 inheritors have come batch after batch, and there is not a single strong one. Can accept the complete inheritance and become the 'Magic Sound God General'."

Wang Yi didn't have much confidence in his heart.

This 'Magic Sound God General' inheritance requirement is indeed very perverted, even if Wang Yi now dare not pack a ticket, he will definitely succeed in his cultivation.

He can only fight.

"I don't know the second stage of the inheritance is completed, what is the reward?"

Wang Yi walked into the two huge golden gates of the hall.

Like the first hall, there is a cloud and mist here, and there is also a stone tablet floating above the clouds and mist. Mysterious words appeared on the stone tablet automatically after Wang Yi walked into the palace. Wang Yi looked up--

"You are the 861th inheritor who came here. You are eligible to receive the title of 'True Heir' and get the reward of the True Heir."

Wang Yi secretly said in his heart: "In the first stage, there were 61,200 people, and all of them were able to pass the second stage completely, only 861 people?" But when you think about it, being able to cultivate to the 6666 level means that the strength of the soul amplitude has reached 66 times. What an amazing amplitude?

#### [Chapter 232: End of inheritance](#)

In the universe, there are limits! 100 times, this is the limit of the universe. Unsurpassed!

Herodo, the overlord of the universe, can be said to be 'invincible under the Lord of the Universe'. He created the "Beast God Transformation" body amplitude secret method, which is divided into six layers, and the amplitude of the sixth layer is only 64 times!

But in fact, let alone 64 times... there are only a handful of people who can achieve 32 times the amplitude of the fifth layer.

From this we can see how difficult it is to reach the limit of the universe, whether it is the amplitude of the soul or the amplitude of the body, not to mention reaching the limit of the universe. Just reaching 50 times... is enough to stop countless super existences.

In "Inheritance of the Demon God General", even if many of the immortal gods of the Sealed King level accept the inheritance, with this adventure, many of them cannot complete the first stage!

Wang Yi was able to complete the second stage of cultivation, and more than ninety-nine percent of them came here to accept the inherited immortal gods!

This has something to do with his talent, three bodies, and the world of time!

But to reach the 6666 floor, Wang Yi already felt strenuous. If there is no new improvement, he will not go far.

There were two air currents suspended in the clouds, a purple air current and a black air current floating towards Wang Yi.

Wang Yi's eyes fell on these two air currents, and he couldn't help feeling a little excited and couldn't help thinking.

"I don't know what the rewards are for these two?"

And the stone tablet floating in the clouds and mist again appeared in the text: "The reward of the true heirs, the first one is "Nine-layered Mountain", a defensive device for the spiritual teacher. The nine-layered mountain has extremely strong defense and infinite magical effects, which can greatly improve it. The defense of the spiritual master in battle. The second is the Star Soul Orb, which is specially refined from a large amount of starlight dew from the depths of the "Death Star Abyss" in the strange land of the universe. The amount of starlight dew is scarce. It is dangerous to collect it. Each starlight dew is extremely valuable and precious. After taking it, it can completely change the soul and make the soul more suitable for inheritance!"

The purple air blast exploded, revealing a purple hill floating inside. It is about four meters long and two meters wide. Its top is sharp, with mysterious and mysterious patterns engraved on it. It exudes an extremely heavy, as if even The starry sky can collapse the same breath.

The black air flow also exploded, revealing a drop-shaped, pitch-black and deep strange crystal. It seems to absorb all the light in the surrounding space and has an indescribable attraction to other life. Wang Yi just glanced at it and felt himself. All of the souls are all being sucked in, and I can't help being taken aback.

Wang Yi didn't care much about the "Nine Layers of Mountain", the secret treasure of the spiritual teacher's defense. He stared at the "Star Soul Orb" in front of him with piercing eyes.

The effect of this "Star Soul Orb" is probably ten times higher than the previous "Golden Soul Fruit"! Even the venerable will salivate.

If Wang Yi exchanged this "Star Soul Orb" with those venerables, I believe those venerables would be happy to exchange a lot of precious treasures for this "Star Soul Orb".

Of course, Wang Yi would not do this.

The most important thing now is to use the "Star Soul Orb" to help oneself accept more inheritance.

With the information, he naturally knew how to use this precious treasure.

Wang Yi directly took the 'Ninefold Mountain' into the space ring, and then reached out to grab the "Star Soul Orb" that was faintly darkened like a black crystal, and pressed it on his forehead, while controlling the mental power in his body. Tow the "Star Soul Orb".

"Chichih~~" After the Star Soul Orb came into contact with the spiritual power of the life soul, a black mist appeared on the surface. The black mist was drawn by the spiritual power and penetrated into Wang Yi's body, turning into a black stream. Pour into the pronuclear and merge with Wang Yi's soul.

Wang Yi's original golden and red soul was dyed black again, and the blackness was rapidly expanding.

At the same time, an indescribable sensation of beauty came from the depths of Wang Yi's soul, and Wang Yi almost didn't groan.

"So comfortable!"

Wang Yi enjoyed this unspeakable comfort from the depths of his soul.

In the end, the entire "Star Soul Orb" was absorbed by Wang Yi's soul, and Wang Yi's soul also turned into a strange state of black with gold and red.

Wang Yi could feel that the essence of his soul was much stronger again.

Wang Yi nodded in satisfaction.

Now he can accept more inheritance.

...

In a blink of an eye, another 50 years have passed.

It has been 70 years since Wang Yi came to the Moyin Mountain Heritage Palace.

The news that the Temple of Demon Voice Inheritance was occupied by two unknown persons had already spread. The two unlucky guys who lost their inheritance qualifications were very angry and quarreled. They wanted Hongmeng to give an explanation, and Hongmeng's reply was to They continue to wait for the next batch of inheritance after the 10081 era!

No matter how dissatisfied they are, no matter how much they hate in their hearts, it is useless, and they can't oppose the decision of the highest level. They can only curse the guy who doesn't know who has robbed him.

Although Luo Feng left, the inheritance palace that had been used had been closed and had to wait for the 10081 era before it could be opened.

And Luo Feng also went to the world of Xueluo after handing in the task of Demon Mountain, and is currently still adventuring in the world of Xueluo.

Over the past few decades, Wang Yi has also become much quieter. Apart from occasionally proving that he is still alive under the virtual universe, there is basically no news coming out.

This group of young newcomers from other virtual universe companies are also working hard, including Ai Chen who has returned safely from the Magic Mountain for three months. They are all practicing hard for the future and doing tasks, and some people continue to die.

Moyin Mountain, the inheritance palace, extends layer by layer to the steps deep in the void. A black-haired young man stands still like a sculpture, his eyes closed, his chest slowly rising and falling.

"Hey!"

"borrow!"

The invisible magic sound pierced directly into the teenager's consciousness, but was directly crushed by his tempered tenacity and pure will.

The 70 years of the Magic Mountain and the past 7000 years of the time world, coupled with the tempering of the magic sound inheritance, Wang Yi's consciousness and will have far exceeded 70 years ago, reaching an extremely terrifying point.

Will is not inborn, basically it is tempered by the day after tomorrow!

Wang Yi was originally born on the earth, with a special soul, and he has signed the gift of mind and will. It is like a special seed. After these long years of "watering", he gradually began to take root, grow strong, and grow into a plant. Towering trees stand still in the wind and rain.

Perhaps he is not as good as "Hong" in terms of the spiritual realm, but in terms of the strength of will, he is definitely the best of the four strongest on earth now!

Wang Yi's body trembled slightly, and he wanted to forcefully take a step, but as soon as he stepped on the stone stairs, a more terrifying magic sound quietly penetrated into Wang Yi's soul consciousness. Although Wang Yi found something wrong and tried his best to struggle, Under the power of the magic sound like the abyss, he still unavoidably fell into a faint.

"call!"

At the next moment ~www.mtlnovel.com~ he has been directly wrapped by a mysterious force and sent to the outside of the palace in the square.

Wang Yi also immediately woke up and realized that his inheritance had failed this time, but there was no fluctuation on his face.

He looked at the closed palace gate and let out a sigh of relief.

"The 8873 floor..."

This is the result of Wang Yi's hard work over the years! The amplitude of mental power reached 88 times!

If the magic sound \*\*\*\* will be ranked in the inheritance, Wang Yi will definitely be ranked in the top!

"Unfortunately, my foundation is still too bad. If I come back to Immortal, I will definitely get the complete 'Magic Sound God General' inheritance!" Wang Yi was a little regretful, but there is no regret. After all, he still has a sign-in. Sooner or later, this soul secret technique can reach a hundred times the limit, but it will not get the final reward of the palace.

Of course, if Wang Yi can wait until the 10081 era, he can also pass on it again.

"Forget it, this magic sound inheritance is still here, and continue to train newcomers for the human race." Wang Yi smiled slightly.

### [Chapter 233: Brother Tianyu Wang](#)

The magic sound whizzed, and Wang Yi quickly shuttled through a rugged and deep tunnel inside the cold and boney magic sound mountain.

"It actually took 70 years in the Temple of Moyin." Wang Yi sighed with emotion.

This was also the longest time he practiced in reality. It was in Chaos City. In fact, he had only practiced for more than 30 years. In fact, the flow of time in Chaos City was three times faster than the outside world, and only one hundred years have passed.

"Devil Mountain, two sides of one body. There is the inheritance of the Demon Sound God General, and the other side should be the inheritance of the Ice God General?" Wang Yi shook his head.

After the tossing between him and Luo Feng, the inheritors of the Magic Sound Temple ran over to accept the inheritance in advance. Even if there is an inheritance on the Hanbing Mountain, it is estimated that it is almost the same.

"Forget it, go back."

Wang Yi followed the pre-recorded route and rushed towards the outside of the magic mountain.

...

The tall and majestic magic mountain, the vast platform underneath, the palaces are endless, and there are some indigenous people from the Jiuxinghai gathered in the valley.

Among the countless holes in Moyin Mountain, at a dark hole with a diameter of tens of kilometers in an oval shape, a black-haired teenager in a dark red shirt suddenly appeared.

"Finally came out." Wang Yi, who had been staying inside the magic mountain on the icy rock layer, felt a little emotional when he finally saw the dazzling starry sky at this time.

The silver deacon of a small group in the distance flew over quickly.

"Your Highness!"

"His Royal Highness Wang Yi!"

"Congratulations to your Highness for coming out of Magic Sound Mountain!"

As soon as the group of silver-clothed deacons fell, they saluted Wang Yi respectfully, and among them the clever ones even opened their mouths to congratulate them.

They were indeed shocked that Wang Yi had actually been in the dangerous Demon Mountain for 70 years.

But they did not dare to ask questions.

"Yeah." Wang Yi smiled and nodded. This time he was in a good mood to be able to obtain the inheritance of the Demon Sound God General in Demon Mountain.

"His Royal Highness, please follow us." The group of silver deacons knew Wang Yi's position in the Virtual Universe Company, and they did not dare to neglect, and respectfully led Wang Yi to the palace group at the foot of the Devil Mountain.

Wang Yi muttered in his heart, "This time I stayed in Magic Mountain for so long. It is estimated that the Virtual Universe Company has long known that it is Luo Feng and I who have seized the Magic Sound Temple and inherited it."

It is impossible for the Virtual Universe Company to not know, after all, this is the original secret realm, the important place of the Virtual Universe Company, and there are so many immortals on the periphery that the owner of the world guards.

It is almost impossible for the Jiuxinghai natives to enter the palace. In addition, in these years, only Wang Yi and Luo Feng have been in the Devil Mountain for so many years. No one would doubt it.

However, even if they knew, the Virtual Universe Company did not pursue Wang Yi and Luo Feng's intentions, but instead covered up the matter. At least the two unfortunately occupied guys still don't know who is occupying their places. .

"By the way, your Highness, have you collected 10,000 black tokens?" A white-robed law protector asked curiously.

"No, bad luck." Wang Yi shook his head. In fact, he had never taken the initiative to collect black tokens.

Although there are detection equipment that can easily hunt down those indigenous people, Wang Yi has disdain to do this kind of thing.

"That's a shame." The white-robed guardian said regretfully, "If your Highness can collect 10,000 black tokens, you can get more valuable rewards than the points of this mission. That is even the immortal gods. Huge rewards."

"Really? That's too regrettable." Wang Yi also showed regret.

He smiled inwardly.

He was in Magic Mountain this time, but he got the adventures of "Magic Sound God General Inheritance", "Nine Layers Mountain", Love Pipit Plate and so on.

Regarding the importance, just like anything, it must far exceed the so-called huge reward.

Of course, Wang Yi would not say anything.

Because he did not complete the additional task of collecting black tokens, the white-robed guardian did not take Wang Yi to see the "Sky Feather King" who is stationed here by the Virtual Universe Company who is responsible for issuing special task rewards... But what he didn't expect was that the Sky Feather King did. Take the initiative to send someone to invite Wang Yi to be a guest.

Yes, in the name of King Tianyu himself.

Between the palace complexes at the foot of the Devil Mountain, there is a huge palace with a height of hundreds of thousands of kilometers. Almost half of the outer wall of the entire palace is used to carve a strange-looking bird. This bird has three pairs of wings, three eyes, and feathers resembling a crown on the top of its head.

Especially the one of the vertical eyes, although it is only a huge sculpture, the vertical eyes of this bird sculpture still have a shocking sense of seeing through time and space.

A female white-robed law protector in charge of leading the way respectfully said to Wang Yi next to him: "This is the Yu Imperial Palace, your Highness, please go in."

Wang Yi looked at the palace. There were thousands of guards standing outside the palace. Among them, there were 10 immortal gods who exuded amazing fluctuations in laws.

Watch the door with immortal gods?

The guards had been notified by the above, and when they saw Wang Yi coming over, they all swept away to open a passage.

Wang Yi stepped into this magnificent, majestic and majestic temple.

The main hall on the first floor of the Yuhuang Palace is extremely majestic and magnificent. The entire main hall is mainly composed of two colors, gold and black.

With Wang Yi's current vision, the main hall is nearly 100,000 kilometers long and wide.

"Immortal gods, building palaces is really extravagant. They are much bigger than planets." Wang Yi secretly said.

Wang Yi turned into a stream of light and flew in the palace. After a while, he saw a throne on the high platform. In front of the throne stood a tall and stalwart figure.

"I have seen King Tianyu." Wang Yi fell down, leaning slightly.

Although he is a peerless genius of the Virtual Universe Company, he still has to maintain proper respect in the face of such a super existence.

But he was also puzzled. Why does King Tianyu want to see him?

In the original book, he saw Luo Feng because Luo Feng completed the task and because he owed Luo Feng's teacher Zhenyan Wang the favor, so he took this opportunity to benefit Luo Feng.

However, although Wang Yi and "Sky Feather King" are both members of the Virtual Universe Company, they have never met. A transcendent existence like "Sky Feather King" close to the power of the venerable will not take the initiative to meet Wang Yi if it is not necessary. Grade genius.

"Hahaha....."

'Sky Feather King' turned around, he has long golden hair, one of his eyes is blue, but the vertical eyes of his brows are gold-colored pupils, his nose is tall and his lips are thin, but his eyes look down. Below, it gives people the feeling of facing the endless starry sky, which is naturally noble.

He is the invincible king of the virtual universe company, immortal, super existence, the king of heavenly feathers!

The strength and fame are no less than that of the virtual universe company's other super strong with the existence of "True King"!

If the truth is about the position of power! Maybe it's better than the "King Zhenyan" who has been low-key and submerged for many years!

Inside the palace, there are only two people, Wang Yi and the 'Tianyu King'.

'Sky Feather King' looked down at Wang Yi, then grinned, but he was very kind and gentle.

"Junior Brother Wang Yi, it seems that the teacher hasn't told you yet?"

"Um..." Wang Yi was stunned.

"Hahaha..." Seeing Wang Yi's appearance, the seemingly noble and domineering 'Sky Feather King' couldn't help laughing again.

call.

His figure appeared next to Wang Yi, as if he was teleporting, no, this was originally a teleportation.

With the strength that is infinitely close to that of the venerable, and the Tianyu Bridge has reached the 20th floor, the Sky Feather King can be said to have already used the three major abilities of space "teleport, blockade, and strangulation" to have already used his mastery.

It's a pity that the level of immortality to the venerable is too difficult, and it has plagued the super-powerful such as the King of Heavenly Feather and the King of True Yan for hundreds of millions of years.

'Sky Feather King' looked at Wang Yi with gentle eyes. "Wang Yi, you and I are both the same teacher, and I am also a disciple of Teacher Pang Bo, but I started many years earlier than you, and ranked fourth under the teacher. You can call me Senior Brother Fourth or Senior Brother Tianyu."

Only then did Wang Yi understand that the terrifying immortal \*\*\*\* in front of him was also a disciple of Venerable Pangbo. He couldn't help but sigh inwardly, and it really was fate.

"Senior Brother Tianyu." Wang Yi said respectfully.

Tianyu Wang smiled slightly ~[www.mtlnovel.com](http://www.mtlnovel.com)~ and took the initiative to pull Wang Yi's arm, "You don't need to be so restrained, you and I are both under the teacher, that is, your family, everyone is a brother, you can do whatever you want."

If the immortal gods who are familiar with the arrogant and domineering nature of the Sky Feather King outside see him now, he will be stunned.

With Tianyu King's temperament, even if it is also an immortal king, he rarely sees it in his eyes, let alone treats it with enthusiasm.

At this time, Wang Yi also recalled the information about the super existence he had learned. The King Tianyu was good at the two laws of 'space' and 'time', and was a super existence who practiced "Universe Chaos Monument." It has a very high status in the virtual universe company, and it is one of the very few existences "infinitely close" to the level of the universe ruler in the immortal kings.

Wang Yi remembered that his teacher Pang Bo once said that he had accepted some disciples and none of them had fallen. All have reached the level of immortality.

But Wang Yi didn't expect that the 'king of the heavenly feathers' was one of them.

Think about it this way, a group of his senior brothers are immortal, and there is also the "king of heavenly feathers". The teacher is the unfathomable Venerable Pangbo, and the master is the Chaos City Lord who exists at the pinnacle of mankind, is it quite awesome.

#### [Chapter 234: Last task](#)

King Tianyu warmly entertained Wang Yi.

Wang Yi stayed in the palace of King Tianyu for one day, and then left in a spaceship the next day.

In the dark red spacecraft with a sharp aura like a sharp sword, in the rest cabin, Wang Yi was sitting on the sofa, drinking wine while consciously connecting to the virtual universe network.

In Magic Mountain, because of the need to accept the inheritance, I rarely contact relatives and friends. Now that the inheritance is over, there is naturally no restriction, and I can do my own things as much as I want.

"The training time in Chaos City of the Original Universe, plus the time spent on missions over the years, has passed 195 years." Wang Yi said with emotion after contacting his family.

The years are merciless!

If he is still an ordinary person on the earth, how can he let his family get the benefits now.

Now the top four on the earth, Wang Yi, and Luo Feng have entered the original secret realm with the highest core position of the virtual universe company. Hong and Lei Shen have also entered the dry witch secret realm of the dry witch universe country. In the future, they are also very likely to enter the core layer of the virtual universe company.

This has also led to the earth's status in the entire Qianwu universe.

No slave merchant dared to commit crimes in the galaxy.

And Wang Yi has not been in his hometown for so many years. Almost all of the children of the Wang family have established a family, and the Wang family is also spreading branches and leaves throughout the galaxy.

Inevitably, as the generations multiplied, Wang Yi suddenly became the ancestor of the Wang family, and even a legend.

But in fact, only a handful of close relatives can be valued by Wang Yi. Other Wang Yi can't be called by name, and he doesn't even have an impression. He only knows that he is his own blood, and his feelings are naturally very natural. light.

In fact, it is not only the Wang family, but also the Luo family and Hong family.

The only Thor has only one daughter, but there is no such phenomenon.

Wang Yi's family, Luo Feng's family, and Hong's family have also become the three major families in the galaxy.

Wang Yi believes that as time goes by, there will be more and more descendants of him.

However, family affairs have been entrusted to the three wives and children to take care of. Wang Yi generally does not need to take the initiative to intervene in family affairs, but set very strict house rules to prevent too much corruption in the family. In this regard, depraved children, Wang Yi's tolerance is very low.

And as long as Wang Yi does not fall, the Wang family will not fall, and more and more elite powerhouses appear, and they are destined to become a powerful family.

...

Yuxiangshan.

A luxurious hotel covering several kilometers long and wide, the Rongzhuang, the highest floor of the hotel, has an artificial building on the top floor, and there are ancient trees around the artificial lake.

What can be consumed here, even in Yuxiangshan, where countless talents of virtual universe companies gather, is a very luxurious thing. Therefore, the top floor of the Rongzhuang is generally available, at least the members of the original secret realm. Or some powerful immortal existence, high-level.

"Hahaha... It's rare that Wang Yi actually invited us all to drink, and today we all let go of eating." The most unrestrained Prince Uka of Mankaxing's hearty laugh echoed by the lake.

In front of the lake, there is a noble and elegant dark gold dining table. There are ten chairs next to the dining table. Two talented newcomers Wang Yi and Luo Feng from the original secret realm. Seven of the eight talented newcomers from the ancient secret realm are here, and one is left. Bit did not come because of something.

The hair is messy, domineering, restrained, and savage like Rong Jun, the seemingly barbaric but noble prince Uka of Star Star, the cold and sharp young Luo Feng, the soft and quiet Mengluo wing beauty Ai Chen, the pure water like Qianshui ...

These peerless geniuses who are usually busy with their own affairs are all gathered here because of a word from Wang Yi.

Today, this group of new talents in virtual universe companies is faintly headed by Wang Yi.

Wang Yi specifically booked the famous Rongzhuang Hotel in the public area, and wanted to get together with these friends and acquaintances.

After all, after this mission, it is estimated that he will not stay in the Primal Secret Realm any longer.

"Wang Yi, you actually completed the three desperate level tasks. That's amazing." Qianshui's elder brother, a handsome young man with secret lines on his face, gave a thumbs up to Wang Yi who was drinking, and sighed: "Desperate. I don't dare to do any of them. The 90% mortality rate scared many people."

"It's that in the past 100 years, more than a hundred of our geniuses have fallen while doing tasks." The elegant green-haired girl Qianshui sitting next to her brother said.

Others felt the same, and their hearts became heavy.

There are more than a hundred people, but these are also geniuses who have come out of battle. They have met and acquaintances around them, but in a blink of an eye, they may become memory people.

Courage alone is not enough, we must have strength and luck.

Otherwise, there may be one more of them on the list of more than one hundred deaths.

Among these people, only Wang Yi, Luo Feng, Bo Lan and Ai Chen dared to do desperate tasks.

Even Rong Jun and Wuka were very cautious, not daring to take risks right away.

In the original work, Wang Yi didn't know, but this time Ai Chen, who was on the mission of the Devil Mountain, might have been in danger of falling if it wasn't for Wang Yi to pass by.

During the party, Ai Chen looked at Wang Yi from time to time with bright eyes.

She didn't know that Wang Yi made the shot, but she had some guesses.

After all, it happened to appear in Demon Mountain at that time, and there was a motive to save her, only Wang Yi.

But since Ai Chen didn't take the initiative to ask, Wang Yi wouldn't say it.

...

"Ninety-five years have passed since this one hundred years, and nine tasks have been done, and there is the last one." Wang Yi returned from a drink in the hotel in the public area with his friends, and sat in the small building of his manor in the original area. Laptop on the desk.

A row of records appeared above--

Ruins of the ancient temple, complete, points: 200,000

Viska star, complete, points: 50,000

Old God Relics, complete, points: 80,000

...

Abyss of Purgatory, complete, points: 1 million

Lost Galaxy, complete, points: 500,000

Magic Mountain, complete, points: 500,000

The 6 dangerous missions ~[www.mtlnovel.com](http://www.mtlnovel.com)~ were all completed in the original secret realm, which totaled 605,000 and took five and a half years.

Three desperate missions, two completed in the Primal Secret Realm, and one completed in the Primal Secret Realm (Magic Mountain). They add up to 2 million points and took 90 years. Among them, the Purgatory Abyss 14 years, the Lost Galaxy 5 years, and the Magic Mountain 70 years.

A total of 2.605 million points were obtained, and the points on Wang Yi's account totaled 18.23 million points.

Wang Yi sat in a quiet, quaint study, sipping tea with a porcelain cup, "there is the last dangerous mission..."

"Just choose Xueluo World."

Wang Yi didn't mean to return to the original secret realm. Instead, he immediately chose to apply for the dangerous level mission "Blood Luo World" in the Primordial Secret Realm after completing the mission of the Magic Mountain.

Each cosmic genius member can only take on 10 missions in a hundred years.

This was also the last task that Wang Yi took.

After Wang Yi's application was approved, the spacecraft that transported Wang Yi was notified and turned around and headed to the "Blood Luo World" in the Secret Realm of the Beginning of the Beginning.

#### [Chapter 235: Xueluo World](#)

Three years later.

Blood Luo world.

In the void outside the Xueluo Continent, the silver triangle spacecraft was advancing in the direction of the ruins of the ancient \*\*\*\* at an astonishing speed.

In the spaceship training room, Wang Yi appeared abruptly in an exquisite and gorgeous fire-red robe.

On that handsome face, there was a mark of flame pattern on his forehead, which added a touch of nobility and domineering.

Since getting the "Fire Sky Beast God Sculpture" in the Abyss of Purgatory, it was handed over to the "flaming star giant beast" clone for enlightenment, plus the time flow of the time realm hundreds of times, the "flaming star giant beast" clone was finally realized two years ago. The point where the law of origin of fire recognizes.

All bodies are a soul consciousness, so the law perception is also common... Therefore, the Yanxing Giant Beast clone is recognized by the law of origin of fire, and other clones are naturally recognized by the law of origin of fire.

Not only Wang Yi's human body, but also the Void Zerg clone's head also had this flame mark.

"Unfortunately, the law of origin of fire is easy to comprehend, but it is much more difficult to comprehend the law of origin of time and space until it is recognized by the law of origin."

Wang Yi touched the black hair that had grown to his back, a smile on his handsome Wuzhu face.

Since accepting the mission of Xueluo World, for the past three years, Wang Yi has been running around the world of Xueluo, hunting and killing the powerhouses of Xueluo World, collecting Xueluo Jing... and

in order to temper himself, many times are The human deity shot, the ninth-level human body of the universe, plus the genetic level, the power of the ancient gods, the power of the beast gods, the secret method of the amplitude of the purgatory \*\*\*\* and the secret method of the amplitude of the magic sound god, the law perception, etc... It's easy, and if the opponent is the landlord, let the Void Zerg clone shoot.

However, Wang Yi also discovered that he could no longer fuse the "Blood Luo Jing" with the "flaming blood jade", and the two could not coexist.

But the "power of the ancient gods" obtained in the ruined ancient temple does not have this limitation. It seems that the "power of the ancient gods" does not belong to the bloodline power of a certain powerful creature, but some treasures of heaven and earth.

Although he could not fuse the blood Luo Jing, Wang Yi did not give up collecting it. After all, the blood Luo Jing was considered a rare treasure in the universe, but it was difficult to fuse with the characteristics of fighting evil spirits with will, which made it difficult for humans to use.

Wang Yi walked to the spacecraft's central control room and sat on the main seat, watching the virtual projection of the flight path of the world of blood.

Cultivation tasks in the Blood Luo World: 1. Obtain a Blood Luo Jing (a special product in the Blood Luo World, there is no Blood Luo Jing in other places in the universe), and successfully obtain 10,000 points.

2. Obtain the title of "Blood Warrior", get the "Blood Luo Medal", and successfully earn 100,000 points.

As long as one of the two tasks is completed, it means that the cultivation task has been successfully completed.

99.5% of the missions in the world of Blood Luo have completed the first mission.

A warrior who merges three blood Luo crystals will possess incomparable magical abilities. Such warriors are called "Blood Warriors". Blood Warriors can go to any world city to receive the "Blood Luo Medal". Each of them is The pride of the mainland.

A warrior combines ten blood Luo crystals. Such a warrior is a "black warrior" and can go to the Immortal Temple to receive the precious "Black Blood Luo Medal."

Sitting in the driver's seat, Wang Yi shook his wine glass, with a strange smile on his face.

"Unexpectedly, my human body has fused more than 10 flame blood jade, but even 3 blood Luo crystals cannot be fused. The first task can be completed, and the second task seems to have to be given up." Wang Yi shook his head.

Fortunately, these 100,000 points are nothing to him.

And in the world of Xueluo, the bigger gain is "Xueluojing".

Over the past three years, after Wang Yi's endless hunting, he has harvested close to 20,000 Blood Luo Jing.

Although he doesn't need it, he can also leave it to the earth and the family.

"It's a pity... the fusion of Xueluojing requires too much will. Even if only three fusions are made, not many people can do it." Wang Yi secretly said in his heart.

Obtaining a blood Luo Jing is relatively simple, basically cosmic-level geniuses who come to do tasks can do it.

But integration is much more difficult. Otherwise, 99.5% of the missions in the world of Blood Luo will not be completed, and they will complete the first mission.

"It's very difficult to fuse one...Fusing two crystals raises the requirements for the body ten times, and fusing three blood crystals raises the requirements for the body a hundred times! The later, the requirements become more demanding!" The experience, of course, is very clear.

Even for the human race, it took a long time in history to have a "black warrior" fused with ten blood Luo crystals.

"From this point of view, there is a great advantage in the same line of people on the earth." Wang Yi's thoughts glowed.

Because of the special soul, the people of the earth are in one line, so they are very strong in "cultivating the heart" and "will"!

In the original book, Hong Lian was not the realm master, and he passed through the 20th floor of the "Illusion Sea", and even the giant axe was alarmed. One can imagine the talent of the people on earth in this regard.

Wang Yi intends to divide Xue Luoqing into two halves.

Fortunately, under his management, whether it is a genius from the earth or the royal family, they pay much attention to mental state cultivation.

The blood of human beings on earth is very weak, and it is placed in the universe, which is the ninth class at most.

And the highest is the first class, and the adult is the domain owner!

The human race is not the race of the world leader as an adult, only the peak blood race of the universe, such as the twelve peak bloodlines of the star behemoths, the Zerg mother emperor, and the monster royal family have such races! Their common feature is their scarcity!

And with the blood Luo Jing can improve the law perception ability, and the power of the law, I believe that the earth line is easier to rise.

However, there is still a long way to go before that.

Wang Yi is now taking a spacecraft to the ruins of the ancient gods in the world of Xueluo. Because the world of Xueluo is so vast, calculated in "light years" (one light year is about 9 trillion kilometers), so even if you use a spacecraft to drive the road, you have to some time.

The ruins of the ancient gods, with a diameter of hundreds of billions of kilometers, are boundless and an ancient battlefield.

In the ancient times, the beast gods and the human race superseded in a battle, and then fell, and a large number of gods and powerhouses in the Xueluo world also fell here, creating a unique environment of evil spirits in the ruins of the ancient gods.

Many natives of the Xueluo world will go to the ruins of the ancient gods to temper themselves.

However, Wang Yi did not go to temper himself this time. After all, the evil spirits of the ruins of the ancient gods have their limits~[www.mtlnovel.com](http://www.mtlnovel.com)~ At the level of Wang Yi, the ruins of the ancient gods have no effect.

What he thought was whether he could sign up for rewards in the Ruins of Ancient Gods.

And Luo Feng has been squatting in the ruins of the ancient gods for decades.

The environment of the ruins of the ancient gods is of little use to Wang Yi, it is different to Luo Feng. From a certain point of view, Luo Feng is a human-shaped golden horn beast, and has a great relationship with the beast \*\*\*\* that fell there.

"I just don't know if Luo Feng encountered the blood \*\*\*\* Tyrant Qi, and whether he got the golden sky beast \*\*\*\* carving." Wang Yi pondered slightly.

If Luo Feng didn't get the sculpture of the beast god... Then he didn't. There are so many opportunities in the universe, as long as Luo Feng grows up all the way, the sculpture of the beast \*\*\*\* is actually nothing.

"Beast God Sculpture" in Xueluo World is just a worship object, not much important use, but symbolic significance. There are 18 statues of beast gods, of which 15 are in the Immortal Temple, and 3 are left outside... I don't know if Luo Feng is not as lucky as the original history, he can get a statue.

In Wang Yi's thinking, the spacecraft turned into a flash of electric light and descended on the ruins of the famous ancient gods in the world of blood.

#### Chapter 237 Talent Secret Copy Card

The immortal temple in the world of Xueluo, located in the core area of the ruins of the ancient gods.

In an area with a radius of tens of thousands of kilometers, the earth is vast.

10081 blood-like vortexes of evil spirits are distributed in the sky, lakes, mountain peaks, deep valleys, etc., naturally forming a special pattern!

A silver-white spacecraft stays in the void above the endless high-altitude cloud layer in the world of Xueluo, and underneath is the core area of the ruins of the ancient gods.

Wang Yi was in the spacecraft control room and watched the detector detect an ancient temple composed of black and red in the center of the 10081 evil vortexes, covering an area of about a million kilometers. That is the highest in the entire Xueluo world. Power center.

"There are thousands of immortal gods, and there are several kings..." Wang Yi was surprised.

But think about it, it's not too surprising that there were so many immortal gods in the world where the beast gods (masters of the universe) once existed.

"And..." Wang Yi frowned slightly, "There should be other secrets in the ancient temple. In some places, even my detection equipment can't detect it."

Since it was defeated and suppressed by the Virtual Universe Company, the world of Xueluo has been secretly studying the human technology of the outer universe, and can create flying spaceships, intelligent optical brains, force weapon suits, etc. Of course, the technological content is far inferior. Of the Virtual Universe Company.

However, Wang Yi's detection instrument was purchased with millions of points. Generally, only a few Fenghou or even Fengwang existed to buy and use it. Naturally, its technological content far exceeds that of Xueluo World.

Therefore, Wang Yi unscrupulously searched the ruins of the ancient gods with detection equipment. The immortal temple still failed to find its existence. Those immortal gods living in the temple, including several immortal kings, did not know that there was a human spacecraft at high altitude. Probe them.

Originally, Wang Yi planned to go deep into the Immortal Temple. After seeing this situation, he had to think about it. This time, he did not intend to do anything to the Immortal Temple of the Blood Luo World. Virtual Universe Company There must be some reason for not destroying the entire world of Xueluo.

Moreover, it is easy to kill an immortal god, but it is difficult not to be discovered by others after the kill. Wang Yi does not intend to directly conflict with the Immortal Temple unless it is necessary.

Wh, the spacecraft disappeared, and the figure of Wang Yi appeared in the same place.

then merged into the space and flew towards the core area of the ruins of the ancient gods.

After the talent secret method of "Meeting into Space" is cast, the clone of the Void Zerg is like a drop of water that blends into the sea, perfectly blending into the space. Even if the immortal gods sweep with immortal power, it is difficult to find its existence.

He just sneaked into the Immortal Temple without knowing it.

Look at the ancient temple that is surrounded by 10081 blood-red evil spirit vortexes from a distance, covering an area of more than one million kilometers comparable to the size of a star.

Wang Yi didn't intend to go deep into the Immortal Temple. He stopped after a few hundred kilometers from the Temple. The space in front of him was already experiencing unusual and obscure fluctuations. He must have been moved by the Immortal Temple. The Immortal Temple of the Blood Luo World has experienced countless years here. The methods used by Wang Yi are definitely amazing, and Wang Yi doesn't want to try it rashly.

And Wang Yi's original goal was not to enter the Temple of Immortality.

"Sign in."

【Ding, congratulations to the host for signing in successfully, and reward a "talent secret copy card"! 】

【"Talent Secret Technique Copy Card" has been placed in the panel space. 】

【This reward is the highest reward at the current location, you can no longer get any rewards here. 】

【Number of check-ins available for this place: 0】

"Um!?"

"The highest reward!?"

Wang Yi, who was still a little inattentive, was taken aback.

For so many years, he has experienced ten practice mission worlds, and none of them have signed in for the "highest reward"!

does not mean that you can get the "highest reward" if you keep checking in in an area.

You can only sign in once a day (according to 24 hours of earth time).

You can only sign in once for each place.

Sign-in rewards are random.

The highest reward is the highest reward of the current sign-in range considered by the sign-in panel, and this range is automatically identified by the sign-in panel, but there are traces to follow.

For example, on the earth, the earth is the highest reward.

In Chaos City, the entire Chaos City or Original Universe is the highest reward.

In a certain kingdom of God, the kingdom of God is the highest reward.

In fact, if the scope is infinitely enlarged, in fact, the entire universe, the entire human domain, a certain cosmic area...even the entire primitive universe, the universe, three thousand latitudes...are all regarded as the highest range.

Wang Yi feels that the highest reward may not be a fixed one, or there may be multiple ones, but the sign-in panel may give one randomly.

However, the general highest rewards all represent the best rewards in the current area, and they must surpass the general rewards.

What makes Wang Yi strange is that the highest reward for signing in in the world of blood is actually "talent secret copy card", something that sounds very strange as soon as the name sounds?

He thought it would be the bloodline of the beast god, the secret method, the law perception talent and so on.

Wang Yi put his gaze on the glittering sign-in panel Son (Incorrect). In the first grid in the space under Son (Incorrect), there was already a silver-white card that looked like a translucent crystal card quietly placed.

And Wang Yi also received messages from him.

Talent Secret Technique Copy Card: Use it on a target with a talent secret method and copy one of its talent secret methods to yourself. The higher the target's talent secret method level, the lower the copy success rate, and it can only be used once.

cannot overlap with the secrets of talents already possessed by oneself.

Before using the target, there will be a hint of the success rate.

Wang Yi opened his mouth wide.

He didn't expect at all that he would get the highest reward in the world of Xueluo, and it would be so heavenly.

According to the message of this talent secret method copy card, as long as it is a target with a talent secret method, it can be copied, but the stronger the target talent secret method, the lower the copy success rate, and you can only choose to copy once. If it fails, it cannot be used again.

You must be cautious.

The key point is that any target can choose to copy there, which means that if Wang Yi is lucky enough, he can choose the best talented secret method in the universe to copy!

Like the golden horn behemoth, there are three talent secrets, "Clone", "Strengthening", and "Swallowing".

Like the magic killer's talent secret "keep changing" and "copy".

The talented secret "creation" like a sea of blood can give birth to a race that has the mark of life, is wise, and can practice self-cultivation.

One of the twelve peak lineages of the star behemoths, the ruined behemoth, belongs to the "thunder and lightning, time" type behemoth, and possesses the secret of talent-time is still!

and the legendary even more heaven-defying... "World Tree"'s talent ability, "Mastering Time and Space", all time and space are controlled within a certain range around it!

Although it is far inferior to the "Lord of the Universe"'s ability to fully control the time and space of one party, as the world tree itself continues to grow stronger, the ability to control time and space is also continuously enhanced.

The strongest world tree of the Universe Venerable Level, the ability to master time and space is no less than the Lord of the Universe.

Wang Yi's chest is hot.

Unfortunately, you can only choose one to copy, and the stronger the talent secret method, the lower the success rate. Choose the "World Tree" to copy. Although you can get an extremely powerful "Control of Time and Space", the success rate will be very low. The highest reward for signing in in the world is the lucky one to get a "talent secret copy card~[www.mtlnovel.com](http://www.mtlnovel.com)~Wang Yi must use it carefully.

And the "Talent Secret Technique Copy Card" copied the talent secret method on Wang Yi's pronuclear core, which means that all three of his bodies can be used!

This improvement is scary!

"If I copy the 'Enhancement' of the golden horn behemoth's talent secret, all my physical strength will be doubled again! That would be terrifying." Wang Yi thought to himself. Because this is the secret of talent, it will not be weakened by genetic blood.

Talent enhancement is all-round enhancement, both body and soul are strengthened! Directly double! In the strengthened state, the speed, strength, consciousness, etc. of the club have soared, doubled!

Unfortunately, the Golden Horn is not the best choice.

Wang Yi already had a vague idea about how to use this copy card.

Wang Yi looked at the sky.

"Since we have received the highest reward, it is time to leave the world of Blood Luo."

#### Chapter 238 Qualification Battle

Blood Luo World is over, and Wang Yi only received 10,000 mission points as a reward this time.

Because he cannot fuse the blood Luo Jing.

But this is just a small matter.

With the passage of time, almost a hundred years have passed since Wang Yi came to the primitive secret realm. The qualification battle for the core members of the universe of the virtual universe company, which is held once every 100 years, is about to begin!

Qualification battle is a large-scale elimination and selection battle in which members of the universe compete and are finally selected. Qualifications once every 100 years. And at the master level... it's only a qualification battle in 100,000 years!

Each Secret Realm will have a qualification battle at the same time. 30 people in the Primal Secret Realm plus 8 newcomers, and 3 people in the Primitive Secret Realm plus 3 newcomers.

The fixed universe-level members of the Primal Secret Realm are 30 people, the Primal Secret Realm is 30 people, and the Heaven and Earth Secret Realm is 300 people... And every time the qualification battle, the extra quota will be restored to the original number.

That is to say, 3 people from the Primordial Secret Realm will be eliminated from the Primordial Secret Realm this time, and 11 people from the Primordial Secret Realm will be eliminated to the Heaven and Earth Secret Realm!

The survival of the fittest is so cruel.

Original area, Wang Yi's manor, Wang Yi, Luo Feng, and Bolan are all sitting on the sofa in the living room.

This is the first time that three people have met in a century.

Silent.

Wang Yi, whose expression is plain but his eyes are extremely confident.

The temperament is faintly cold, like Luo Feng with a sleeping fierce beast in his body.

Blanc, an aloof young man who is like a sharp sword out of a scabbard.

"The primitive zone universe-level qualification battle is about to begin, all gather!"

The rumbling sound suddenly sounded in the primitive zone.

Wang Yi and the three raised their heads at the same time and stood up.

Wang Yi is the most peaceful, with his strength, this time the qualification battle can be won even lying down.

Luo Feng has had many adventures over the past century, he has practiced hard, and his strength has also improved by leaps and bounds. Not long ago, he broke through the seventh floor of the Tongtian Bridge and was already on par with Buran. Now he is confident and confident, and his eyes are full of fighting spirit.

Boran glanced at Wang Yi, and then at Luo Feng. It was fine if he couldn't catch up with Wang Yi. Now even Luo Feng, who was far inferior to him, was about to surpass him. This made the proud Boran feel very pressured. Big.

In the sky above the primitive area, there is a figure wearing a emerald uniform.

Huh! call! call!

Wang Yi, Luo Feng, and Buran all walked out of the manor and rose into the sky. In other places, three figures flew into the sky and came to the emerald green figure.

"Look."

"It's Wang Yi."

"That monster."

Seeing Wang Yi, the faces of the three people showed solemn jealousy.

There are a total of six people in the Primitive Secret Realm, three old people and three newcomers.

The three newcomers are of course "Bolan", "Wang Yi" and "Luo Feng" who were selected by the genius war.

The three old people are "Fito", "Sima Yan" and "Molo". Among them, Fito is the only one of the core cosmic members of the Virtual Universe Company who has broken through the eighth floor of the Tongtianqiao! Sima Yan and Moruo both passed the seventh floor of the Tongtian Bridge...Of course, they both passed the seventh floor for a long time.

If Bolan and Luo Feng are both peerless geniuses born in thousands and thousands of epochs, then Wang Yi, who has broken through the 15th floor of the Tongtian Bridge in Chaos City for more than 30 years, has been hailed as the first genius in human history. .

is also a peerless genius, and the gap is already huge.

The three old men were very aware of the difference in their strengths, so they never thought about winning Wang Yi, but instead focused on other opponents.

Such as the weakest "Bolan" and "Luofeng"!

Although both "Bolan" and "Luo Feng" have already passed the seventh floor of the Tongtian Bridge, they have just passed a long distance from the seventh floor...There is also a big gap.

In the eyes of outsiders, the two primitive newcomer geniuses, "Luofeng" and "Bolan", are destined to be eliminated to the primordial secret realm.

And the worst "Molo" among the three old people is estimated to be eliminated.

The handsome boy "Molo" with a thin appearance is a bit ugly.

The rules of the Virtual Universe Company this time are-the last four of the Primal Secret Realm and the top three of the Primordial Secret Realm, a total of 7 people, compete for the only Primal Secret Realm place.

So, 3 people must be eliminated.

Wang Yi, who is so powerful as to be terrifying, is completely unmatched.

The only second "Fito" who passed the eighth floor of the Tongtian Bridge also secured a place.

Then, the remaining one must be selected from among the remaining four.

Luo Feng's face was very calm. Others thought that he would be eliminated to the Secret Realm of the Beginning of the Beginning this time, but Luo Feng was very calm in his heart.

"Passing the seventh floor of the Tongtian Bridge is not all my strength. In the next qualification battle, let you see the results of my training over the years."

Luo Feng was very confident in his heart, and this was brought about by his strong strength.

Among these people, the only one he has no confidence in is Wang Yi, and the other is "Fito" who has broken through the eighth floor of the Tongtian Bridge. He also dared to fight.

In everyone's mind, the emerald uniform staff said: "The qualification battle is very simple. You 6 people, each of you will fight with the other 5 people. The winner gets 1 point! The loser gets 0 points for a draw! Finally! According to the ranking of points... the bottom four are going to compete with the top three in the Primordial Secret Realm for a place in the Primal Secret Realm."

means that each player will play 5 games. Because of the small number of people, the original zone qualification battle can be over in one day.

Other people's faces were solemn, but Wang Yi felt a little bored when he saw this scene.

Wang Yi glanced at Luo Feng with a cold expression, and then at Molo, whose eyes were twinkling, and found it very interesting.

History has changed. Luo Feng staggered with Moro because he arrived at the Magic Mountain ahead of schedule. There was no historical grievance between the two sides, but the ending of Moro being defeated by Luo Feng will remain unchanged.

Wang Yi didn't feel much about the unscrupulous villain like Moro, perhaps because the level difference between them was too far, and there was no intersection.

For people like this, there are too many in the world, and Wang Yi will not do anything to him just because he knows what he is. At most, he will be indifferent when the other party does not provoke him.

Others thought that Luo Feng would definitely be eliminated to the Secret Realm of the Beginning~[www.mtlnovel.com](http://www.mtlnovel.com)~ Only Wang Yi knew that this time the qualification battle, three people left in the primitive zone, it would be him, Fito and Luo Feng.

"The qualification battle will begin soon!" The man in the emerald uniform looked at the young people in front of him. Screen, watch other people's battles!" After speaking, he just disappeared out of thin air.

Whoosh! Whoosh! Whoosh! Whoosh...

"Wang Yi, the cosmic qualification battle in the Primordial Zone, your first battle is about to begin, and your opponent is 'Fito'." While being teleported into the field, a voice rang in Wang Yi's ear, and his wrist Battle information data also appeared on the arm guard screen.

At the same time, the same content appeared in Luo Feng's ears, but the opponent was different, "Luo Feng, the cosmic qualification battle in Primordial Zone, your first battle is about to begin, and your opponent is 'Molo'."

The six people have been teleported away, and they are teleported to the same scene as their opponents.

6 people, 3 battles, going on at the same time!

(The qualification battle in the original work is about 88 years after the Chaos City)

Chapter 239 Luo Feng fights Molo

"Boom!"

At the moment of being teleported, Wang Yi felt the surrounding world change, and then stepped on the ground.

He was standing on a huge mushroom-like plant that was as high as a kilometer, and his sight was full of plants with an umbrella-like canopy, extending to the end of his sight. The "mushroom giant tree" sea was blue water.

In the sky, the colorful clouds are changing, and the sun rushes down from the clouds like a waterfall, casting magnificent light bands, shining on the vast water and the boundless mushroom forest, forming a magnificent, dream-like mysterious scene.

And through the blank space of the flowing clouds, you can still see the infinite starry sky, and even another planet that is very close.

Wang Yi stood on the canopy of a mushroom tree that was as big as a football field and looked out. There was also a figure a hundred kilometers away, his opponent Fito this time.

The strongest genius among the old people of the Virtual Universe Company wears purple armor, steps on a silver frisbee, hovering in the air looking at the figure in the distance, a distance of hundreds of kilometers, but with their eyesight, they can even see clearly The other's expression.

"Wang Yi!" Fito's face was solemn.

He had no confidence in defeating Wang Yi. The difference between the 15th floor and the 8th floor was so big that it would not be an exaggeration to describe it as a difference.

Fito can also give up.

But retreating without a fight is not his style.

Wang Yi, dressed in a dark red shirt with two knives on his back, quickly flew in front of Fito and looked down at him condescendingly, as if a \*\*\*\* was looking down on an ant who could not help himself, making Fito feel the invisible tremendous pressure and at the same time rise in his heart. A strong anger.

"Wang Yi!" He raised his head sharply, staring firmly with his eyes slightly lowered under his bangs and couldn't see any expression...or the black-haired boy who had no expression at all.

He is also a genius of the virtual universe company. He is powerful. Although he is not Wang Yi's opponent, he cannot accept such insults.

Wang Yi, who was thinking about the battle between Luo Feng and Moruo, heard the opponent shout, raised his head slightly, saw Fito's face showing anger, startled slightly, and then smiled: "Sorry, since the game has started, then... you Are you ready?"

Boom!

A terrible conscious coercion directly oppresses the past! With the coercion of consciousness comparable to immortality, Fito's head is like an ant being shaken by thunder from the sky.

Under this terrifying coercion, Fito, who is only at the cosmic level, has to collapse no matter how firm his will is!

Even if the universe-level Luo Feng's will in the original work is so terrifying, he will be defeated in the face of the coercion of ordinary immortal consciousness, not to mention that Wang Yi's current consciousness intensity is much more terrifying than ordinary immortal!

No matter how firm your will is, you can't shake it, but in the face of this immortal strength of consciousness, you will be directly bombarded into scum like an ant!

It was as if the sky collapsed and fell, directly bombarding Fito's consciousness. Almost instantly, Fito's consciousness was completely dissipated.

Now that Wang Yi's single-eyed expression contains the coercion of consciousness, even the domain lord, the soul can directly crush and disintegrate!

Fito's eyes dimmed, and his face was still shocked. At the same time, his lifeless body and his uncontrollable silver frisbee also fell.

Fito, one face to face, death!

Even Wang Yi didn't even move his hands.

Wang Yi hovered in the air, looking at Fito's body below.

"You are good at strength. You should have done a lot in this qualification battle, but it was a pity that you met me."

"With my current strength, it is too bullying to face these virtual universe companies' cosmic geniuses." Wang Yi couldn't help shake his head.

Consciousness coercion is generally only obvious when there is a great difference in strength. If the domain master level oppresses the universe level, it will make the opponent feel uncomfortable at most! But to oppress the two-level lower constant star... a look in the eyes caused the opponent to collapse directly.

Wang Yi is now the ninth-level master-level clone of the Void Zerg, but the intensity of consciousness is definitely immortal-level! Not to mention that Fito's talent for will is not very good, even Luo Feng in the original book can directly crush the collapse.

Of course, the current Luofeng Golden Horn behemoth has also reached the level of the world master, and with his will, it is difficult for Wang Yi to directly oppress it with his consciousness.

...Wang Yi glanced down at the arm guard screen. After his name, "1 wins, 0 draws, 0 negative points 1" was displayed.

.....

After the battle was over, Wang Yi was teleported out of the battle space and returned to the original high altitude of the original Yuxiang Mountain. He was the only one left in the original place. It seems that he was the first to end the battle.

"Huh." Fito also appeared afterwards, but his face was very ugly, and Wang Yi's eyes looked like a ghost.

He was forced by Wang Yi's consciousness to collapse his consciousness and then exited the virtual universe, and then re-entered.

"Look at how the battle between Luo Feng and Moruo is going." Wang Yi ignored it, tapped the void in front of him with his finger, and a screen appeared, and Wang Yi chose to open the live broadcast of the battle of "Luo Feng and Moruo."

This is the surface of a desolate planet. The surface of the earth is faintly dark red. The extremely hot high temperature makes the vision slightly distorted, especially the terrible gravitational force when ordinary life comes in and the body will definitely collapse in an instant.

But at this moment in the sky, the world of sword aura is completely formed, the world is changing, countless sword auras linger, murderous aura, Luo Feng's foot on the dark cloud shuttle is in the air, but in front of him is a pale gold sword with four strands of sword-point shape condensed. Qi, attacked Moro in the golden armor rushing violently in front of him.

"Ah!" Moruo's eyes widened, his face was sullen and crazy, and he let out an earth-shaking roar. On the outside of his body there appeared a four-hooved beast phantom that was about 30 meters long, and even the space was affected. An invisible brutal and fierce aura came oncoming.

"Boom!" A sword aura was torn apart by his claw strength, but then a few light golden sword auras pounced at the same time. Moruo tried his best to resist, but still couldn't stop the terrible sword aura.

"Luo Feng, how is his strength so strong! Impossible! How could I lose to him!" Moruo's eyes were blood red, unwilling to believe the result.

boom! Moruo's blood-stained hands were shaken apart, and then a light golden sword qi pierced his forehead, and the splashing sword qi shattered his brain and consciousness.

"I... unexpectedly lost... Lost to Luo Feng, a newcomer?" There was a sharp pain in his mind~[www.mtlnovel.com](http://www.mtlnovel.com)~ At the end of consciousness, Moro's heart was still full of incredible.

Peng!

Molo's corpse fell from a high altitude and fell heavily on the hard ground.

Luo Feng looked down at Mo Luo's unwilling and angry eyes, "Mo Luo, Wang Yi once told me that you are a villain and you are a villain, but this is the first time I have fought with you and lost to me, too. Fortunately for you... This time the qualification battle, I must stay in the Primal Secret Realm." Luo Feng's eyes were calm.

Molo, only a defeated man, his strength can't threaten him at all.

Even Berlan has already been surpassed by him now.

The only person who can pose a threat to him is Fito, and Wang Yi, who he cannot rival.

"Wang Yi..." Luo Feng was also silent when he thought of this former companion, who is now walking far in front of him.

Molo vs. Luo Feng, Luo Feng won the first match!

Chapter 240 Cosmos Grade Primitive Tongtian Mountain

The primitive zone universe-level qualification battle is over.

Wang Yi has a record of 5 wins, 0 draws and 0 losses! Number one!

Luo Feng has a record of 4 wins, 0 draws and 1 loss! Ranked second! The only time I lost was to Wang Yi!

Fito, who even passed the eighth floor of the Tongtianqiao, finally lost to Luo Feng after a fierce battle!

This result also shocked many people.

Wang Yi, forget it, he is a mountain that no one can climb over this generation of geniuses. The Universe Level reaches the 15th floor of the Tongtian Bridge, an achievement that countless geniuses cannot surpass in their lifetime.

And Luo Feng, only recently passed the seventh floor of the Tongtian Bridge! Now that he can defeat Fito, the strongest old man in the primitive zone, in the qualification battle, this speed of progress has shocked many people.

Luo Feng completely surpassed "Bolan" and became a dazzling figure second only to Wang Yi, and received renewed attention from many senior executives of the Virtual Universe Company.

.....

Original secret realm, Wuchen Continent.

Wang Yi's palace, tens of thousands of servants work here, and Wang Yi's guards also patrol and guard the palace.

A colorful garden with an area of tens of kilometers, covered with countless precious flowers, plants and trees from the universe. The beautiful buildings set off here like a paradise on earth. Wang Yi, wearing a gorgeous red robe, black hair and shawl, sits alone. Enjoy the scenery while drinking wine in the pavilion.

There is a flame mark on his handsome face and forehead, which is a sign that his law of origin of fire has been recognized.

"A hundred years have passed, all the tasks have been completed, there is nothing to miss at the cosmic level." Wang Yi thought to himself. "It's time to break through to the domain master level."

With a hundred times the flow rate of the time realm, Wang Yi has stayed at the universe level for too long.

Moreover, after the human body enters the domain master level, the time world function bound to the human body can be improved again, becoming "1000 times" time flow rate, of course, the energy consumption will also be greatly increased.

"However, there is one more thing to do before breaking through to the domain master level."

Wang Yi is still sitting in the courtyard drinking and enjoying the beautiful scenery, but he has already separated a trace of consciousness to connect to the virtual universe network.

.....

Virtual universe, specializing in the development of one-dimensional space.

There is a vast land in space, and there are three majestic mountains on the vast land, one taller than the other!

"Huh!"

Wang Yi, dressed in a dark red jersey and carrying two sabers, appeared in the distance, looking up at the three towering mountains. On the three mountains and halfway up the mountains, there were two golden shining texts—Heaven and Earth, Taichu, Primitive! Among them, the primitive Tongtian Mountain is even more majestic and taller!

"Universe-grade primitive Tongtian Mountain..." Wang Yi's eyes fell directly on the tallest mountain, and he whispered.

Whoosh!

Wang Yi turned into a streamer and flew directly to the primitive Tongtian Mountain.

Shortly after.

Three corpses scattered at the foot of the mountain, clean and unscathed, Wang Yi stood beside the corpses.

"Huh!" The tauren, snake girl, and ape-man corpses next to them were resurrected again. Looking at the black-haired teenager who was not in a hurry to leave in front of him, his face was full of wonder.

"His Royal Highness Wang Yi, you have passed the pass at the foot of our mountain, and you can go to the pass at the mountainside." The tauren warrior said in a low and roaring voice.

"With the strength of His Royal Highness Wang Yi, I believe that it is easy to break through the primitive Tongtian Mountain." The snake-man charming woman also said in a soft and graceful voice.

"His Royal Highness Wang Yi is the most powerful genius I have ever seen." The Ape Man Spiritual Teacher also said with a smile.

"You guys, do you need to praise me so much." Wang Yi chuckled lightly.

The three gatekeepers remained silent.

Is      useful?

Of course it's useful, what if you don't rush through the barriers and slowly ravage us?

All gatekeepers seem to be different, but in fact they are all derived from the same intelligence, but their strength is different, otherwise they won't look exactly the same.

They will also hurt.

Faced with such a perverted Wang Yi, even the three gatekeepers were not tempered.

The guards of the primitive Tongtian Mountain are divided into three levels: the foot of the mountain, the mountainside, and the top of the mountain. Each level is a joint attack by "the tauren warrior, the spiritual teacher of the ape man, and the illusionist of the snake woman". It's harder, and the top of the mountain is even harder! The final success can only be considered after three consecutive levels.

The rules for breaking through the Tianshan Mountains are very simple. You only need to kill from the foot of the mountain to the top of the mountain, and kill all the guards at the foot, side, and top of the mountain, even if you successfully pass through the Tianshan Mountain!

The strength of the gatekeepers on the mountainside is 10 times stronger than that at the foot of the mountain! The strength of the gatekeeper on the top of the mountain is 10 times stronger than that of the mountainside!

Even if you have the strength of the seventh floor of Tongtian Bridge, you may not be able to break through the foot of Tongtian Mountain!

Not to mention a hilltop gatekeeper who is 100 times stronger!

It can be said that...this "primitive Tongtian Mountain" was not intended to allow people to pass through, but to set a high benchmark that people can't reach.

But after all, human beings have monster-like geniuses.

For example, some peerless geniuses born in tens of millions of eras have broken through the primitive Tongtian Mountains!

Wang Yi smiled slightly and flew towards the mountainside. The three guards on the spot heaved a sigh of relief and watched him leave. The fierce ape man slapped his lips, "This Wang Yi is really a monster. I hope that we on the mountain will not be abused." awful."

The other two companions glared at him.

"Crow's mouth!"

Wang Yi thought while flying up.

"The cosmic grade 'primitive Tongtian Mountain' requires the ability to cross the 12th floor of the Tongtian Bridge in order to pass."

"And the law perception is just one of the basic conditions. It does not mean that if you can pass the 12th floor of the Tongtian Bridge, you will definitely be able to pass the cosmic-level primitive Tongtian Mountain."

"Domain master-level 'primitive Tongtian Mountain' requires approximately the ability to pass through the 16th floor of the Tongtian Bridge in order to pass."

"The realm master-level 'primitive Tongtian Mountain' requires approximately the 20th floor of the Tongtian Bridge to pass through."

Unbelievably difficult to pass the level, and the rewards are also generous and exaggerated!

According to the regulations of the Virtual Universe Company...

1. Through the "Universe Grade" primitive Tongtian Mountain, when you become the master of the world, you will directly reward 100 million points~[www.mtlnovel.com](http://www.mtlnovel.com)~ Through the "domain master" primitive Tongtian Mountain, you will directly reward 30 when you become the master of the world. Billion points.

3, 100 billion points will be directly rewarded through the original Tongtian Mountain of the "Master Level".

So many points rewards, Wang Yi is also greedy.

With Wang Yi's current strength, it is no difficulty to break through the cosmic-level and domain master-level primitive Tongtian Mountains!

Although they can only be obtained by the realm master, ordinary cosmic-level geniuses usually stay at this stage for thousands of years, and they seem far away from the realm master, but Wang Yi has no plans to stay at the universe-level or the realm master for too long.

World Master Class, is the period when he really exerts his strength!

After all, the realm master period is the most advanced stage!

Wang Yi has already made a plan.

Domain master level, he will not stay, and after going out to complete some things, he will break through to the world master in one go!

Wang Yi passed three levels like a lightning storm!

On this day, many people in the Virtual Universe Company got news that Wang Yi had broken through the original Tongtian Mountain.
