

A God 251

Chapter 251 The Lord of the Dry Witch Personally Congratulates

"Teacher Honglian, who are the two next to you?" Wang Yi had a few conversations with Honglianhou who hadn't seen him for many years, and asked the two red-robed women next to her.

"They are the descendants of my family." A smile appeared on Honglianhou's face, "This is my youngest disciple, Yishan, this is a talented little guy in my clan, Dora."

Ishan, is a world lord, Dora, is a cosmic class, their looks and temperament are very similar to the teacher Honglianhou.

"Oh." Wang Yi looked at the two women with restrained expressions, smiled slightly, and nodded. Those who can be brought to the banquet by Honglianhou must be the younger generation who is highly valued by her.

And when they talked happily, the three giants of the nearby Qianwu branch also talked privately.

"It seems that Honglianhou and Wang Yi are very close."

"Wang Yi has called her teacher, of course the relationship is not bad."

"It is difficult for us to coax this Wang Yi well. It is better to start with his teacher and see how he respects the teacher. Waiting for Honglian's face is equivalent to giving him face, and it is worth a try anyway..."

"I remember that although Honglianhou was one of the three hundred princes of the Lord of the Dry Witch, but because of her personality, she was very excluded. Even the Lord of the Dry Witch didn't want to see her..." The black yarn girl looked at Jin Yuhou, "You are not the same as the Wubu. Are you responsible for absorbing elite training in the entire dry witch universe? Give their families more places."

"Hmm...that's okay." Jin Yuhou agreed very boldly. "There are quotas for elite training in the Honglianhou family. I will go back and have a look and double them."

"The Honglianhou family's property in the Qianwu universe can also be supported, and I will be responsible." The purple-robed ape-man grinned strangely, touching the hairy beard on his face.

The black gauze girl smiled, infinitely tempted, "The position of their family in the military department, I can mobilize it in the near future."

The three powerful immortal gods of Fenghou-level glance at each other, tacitly telling each other.

Change to an ordinary monitoring envoy, they will not be so exhausted to please, but if it was Wang Yi... it would be worth it!

Maybe it is just a little bit of goodwill of Wang Yi now, which will be infinitely useful to them in the future!

Being able to achieve the enviable position of the head of the branch of the witch universe kingdom, Jin Yuhou and the others are not fools, they have their own unique eyes.

What's more, their position is just to give Red Lotus some benefits in a reasonable way, and it is not against the regulations of the Virtual Universe Company.

Benefiting others and self-interest, why not do it?

...One after another immortal gods came with their men, and the three giants of the Qianwu branch and Wang Yi also received them one by one.

Including the divine lord of the Black Dragon Mountain Empire from Wang Yi's hometown, he also received an invitation to come to congratulate him in person.

"Haha, His Royal Highness Wang Yi, you came from the Black Dragon Mountain Empire, and my Black Dragon is also very proud." The God Lord of Black Dragon Mountain laughed and was extremely enthusiastic.

Wang Yi looked at the burly and tall man who exuded the scent of a beast, and he was also very emotional.

Before he wanted to enter the Heilongshan Holy Land Divine Kingdom, he had to think about it, make a roundabout, and give a favor to a prince to get in, and he had to strictly abide by the regulations and be monitored at any time.

Now if Wang Yi says he wants to go in for a visit, the Black Dragon Lord will welcome him and accompany him personally with great enthusiasm.

This is the difference brought about by changes in status!

I can say that Wang Yi's current status can be said to be less than 10,000 people per person. No one in the entire Dry Witch universe can match it, even the Lord of the Dry Witch Kingdom will attach great importance to his opinions.

While in the wide and bright, magnificent banquet hall, Wang Yi's children who like to lively also hide in the corner watching the immortal guests whispering, and several members of Wang Yi's guards of the world master accompanied them.

Nearly a thousand immortal guests have entered the banquet hall, sitting in twos and threes in some positions, whispering to each other.

A breath of powerful law rippling away, or dazzling as light, or arrogant as thunder, or as majestic as the earth, or fierce and fierce as a flame... The law is permeated, and the surrounding space is faintly distorted and shocked. .

"Sister, look, that guest came here riding a fierce beast." A pair of identical twin sisters got together and whispered.

A guard of the world hurriedly said: "Two young ladies, that is an immortal beast. It also has wisdom and can understand what you mean."

Of course, ordinary fierce beasts have no wisdom, but the immortal level is different.

The blue scaly monster that looked like a rhino but had a pair of wings raised its huge head and glanced here.

"Ah, sister, its eyes are so fierce." My sister was taken aback.

"Don't be afraid, it's a guest's mount, don't bite." The sister comforted her, she was clearly a group of mothers of children, but still some childish sisters.

Wang Yi's daughter is so well protected by her parents and family.

Immortal beast: "..."

Wang Yi's second son, Wang An, and his half-brother, Wang He, who has the best relationship, also walked in the banquet hall.

"A lot of immortality, so terrible!" It's just that the two brothers of the universe level feel like ants walking under the feet of a group of ancient beasts, frightened.

And this is because the immortal spirits have reduced their power.

To reach their level, only the leak of the breath can change the color of the world.

Suddenly, Wang He saw a figure in a red dress among the guests, and he couldn't help but fix his eyes on her inexplicably.

Although the strong among the guests in the banquet hall is like a cloud, she, who is also at the cosmic level, looks very different in his eyes.

"Fifth? What are you doing?" Wang An asked when he saw his brother stopped moving.

"Oh, oh." Wang He just woke up from a dream and followed behind his brother, but there was an unprecedented feeling in his heart.

"Who is she?" This thought came to Wang He. As Wang Yi's son and a cosmic powerhouse, he has seen countless beauties in the cosmic turmoil over the years, but he has never been so lethargic as the woman he has accidentally glimpsed now. He was shocked.

Wang He couldn't help turning his head again, but saw the beautiful girl and another woman with a slightly longer appearance following an immortal red dress.

"Is she a descendant of that immortal god?" Wang He thought to himself.

"Boom..."

At this moment, there was a huge shock outside.

A starry sky-like starry sky shrouded the sky, making the faces of the immortal gods in the manor banquet hall suddenly change.

Then, unexpectedly!

"The Lord of the Dry Witch is here--"

A majestic voice came down from the sky in a low voice and rang in everyone's ears.

"Boom!"

All the immortal gods in the banquet hall exploded.

"The Lord of Dry Witch has come in person?"

"The Lord is coming!?"

"Your Majesty!"

The three giants of the Qianwu branch glanced at each other, with shocked expressions on their faces.

They are also considered superior in the Dry Witch universe, but compared with the great and invincible existence of the Dry Witch Lord who opened up a universe, they are nothing.

"The Lord of the Dry Witch came at this time, is it to congratulate Wang Yi?" An incredible thought came to the heart of Hei Danhou'.

What a great person, the Lord of Dry Witch? Usually, it is extremely difficult for immortal gods to see each other. Now, because of Wang Yi's banquet, he has summoned such a great existence~www.mtnovel.com~! "

All the immortal gods appeared outside the manor instantly. When they raised their heads, they found that the outside world had changed color.

In this starry sky, a giant who makes it impossible to see his face stands in the void. The space around him is faintly distorted. Next to the giant who can't be seen directly by the naked eye, and whose heart trembles just by hearing the voice, there is another giant. The powerful immortal beings all stand respectfully around.

When his eyes fell, even the immortal gods could not bear the coercion, and he couldn't help lowering his head.

Only Wang Yi was unaffected, looking up at this legendary existence.

"Wang Yi!" The thick voice made the space shudder and everyone's soul shuddered.

But Wang Yi could hear the friendly and friendly meaning.

"Today is your happy day as the special envoy of the branch of the Kingdom of Dry Witch. I hereby congratulate you." The voice of the Lord of the Kingdom of Dry Witch reverberated in the sky and the whole planet could hear his voice.

"You are very good. I am the pride of the witch universe. I am very happy and come here to give you a gift."

[Chapter 252: Junk Star Field](#)

A silver spacecraft in the dark universe is flying at 50 times the speed of light and is expected to arrive at the destination coordinates two months later. Inside the spacecraft, Wang Yi sat in his cabin with his eyes closed and meditated.

"Wulong Star Field".

One of the nine war junk star domains.

It is also the goal of Wang Yi's trip.

"Through the relationship between Jin Yuhou and others, I obtained the network contact number of the person in charge "Long Jue King" over there." Wang Yi said in his heart.

In the past, when Wang Yi had no channels, he directly bought it with money. It took more than two million yuan to buy the Zerg corpse of the tiger beetle tribe that made the pinnacle of a million world masters.

And if it matters, you can choose a high-quality corpse unit. You only need to select the best 100 units (one hundred thousand corpses of the leader of the world), you can create a million tiger beetle clan army, only 1 million Mixed yuan unit.

"Someone is easy to handle."

"However, this time I went to the "Wulong Star Territory." The purchase of the Zerg corpse is a fake. Taking this opportunity to hunt for treasure and sign in is the real thing." Wang Yi shook his head.

The owner of the Zerg Warrior Legion, he made enough, so he bought it again just to cover people's eyes.

Of course, it is not wasteful to spend a million yuan unit to buy a large number of Zerg corpses, after all, it can still be used for warriors to make the Zerg brood in the future.

The Wulong star field, as one of the nine junk star fields, is located in a very remote area of the entire human territory.

Wang Yi first replayed the old tricks, teleported to the Mammoth star field closest to the Wulong star field through the immortal guard leader Jacques Kingdom, and then traveled from the star field universe, but even if it saves the journey, it will take two months. Time will come.

The universe is too big. There are 1008 universe nations in the human domain, like the Qianwu universe...the Qianwu star region, which has more than one hundred and three thousand star regions under its jurisdiction, and the number of star coefficients exceeds one hundred million.

This number is astonishing, that is, the immortal gods have an endless life span, and it is impossible to put a divine power token in every place.

When necessary, the kingdom of God is usually sent directly to the nearest location, and then the spacecraft is used to drive the road.

...

Two months later.

In the vast and dead starry sky, ripples appeared in circles, and a beautifully-shaped silver-white spacecraft emerged from the ripples. It was after a two-month journey to reach Wang Yi's spacecraft in Wulong Star Territory. .

"Master, we have arrived at the destination smoothly." The black and white ball on the screen raised its paw and shouted in a crisp and tender voice in the spacecraft control room.

At the same time, it projected a distant palace group suspended in the starry sky.

"Bermuda, let's go over."

"Yes, master."

Upon receiving Wang Yi's order, the silver spaceship immediately turned into a stream of light and flew towards the distant palace group.

The palace group is square and square, with outer palace walls. There are dozens of palaces in the palace walls, with different heights and sizes. The length and width of the entire palace group are more than 100,000 kilometers. There are also some black armor guards patrolling the outer walls of the courtyard. .

When the silver spacecraft appeared, the defense guard system of the palace group also spotted them for the first time.

A warning signal was sent immediately.

"stop."

The spacecraft stopped and Wang Yi sent a signal to go back. "I am Wang Yi, come to see King Long Jue."

Wang Yi had already met with King Long Jue in the virtual universe and discussed related matters.

Coming this time is just a process.

The enthusiasm of King Long Jue towards Wang Yi was not much smaller than that of Jin Yuhou.

After a while, the silver spacecraft landed at the main entrance outside the palace wall, and Wang Yi and Jacques flew out to look at the vast palace complex completely protected by a looming energy cover.

The target that Wang Yi wants to meet this time lives here.

"Boom..." The main gate of the palace wall opened.

"Hahaha... Your Royal Highness Wang Yi, you are finally here." A burst of bold and hearty laughter came out.

A man with dark red skin, big mouth of blood, and short dark green hair, but dressed in very formal and luxurious robes led a group of silver robes, and a large number of white guards walked out from the front door.

It was the 'Longjue King', one of the top management of Wulong Star Region, who had already met in the virtual universe Qianwu Continent and Wang Yi.

The real strength of King Long Jue should be considered very reluctant to be crowned the king. He was just crowned tens of thousands of years ago, and his strength is considered the bottom of the immortal crown.

However, because he belongs to the highest level in one of the nine garbage star regions, the "Wulong Star Region", his status is very high.

"Master Longjue came out to greet him in person. Who on earth is that domain master young man? It must have a lot of background, perhaps a deep background." Some black armor guards guarding near the palace wall were taken aback.

The silver-robed followers around King Long Jue are all immortal gods, and the white guards are all peak powers of the world lord.

In addition, one of his most dignified persons in charge, who is also an immortal king, actually came to meet him at the gate of the palace in person, which can be said to have given Wang Yi a lot of face.

However, Wang Yi is now accustomed to the enthusiastic attitude of these immortal gods or high-level officials. With a smile on his face and a few words of greeting with the king Longjue, he is welcomed into the most majestic and tallest palace in the palace group.

The two sides sat down to each other, and the waiter served wine and delicacies.

"His Royal Highness, this is the first time you and I have met in reality. If you have any needs, just tell me, you are welcome." The dark red-skinned 'Longjue King' smiled at the black haired boy on the other side.

Judging from the attitude and the scene, the process of 'Longjue King's' hospitality to Wang Yi was impeccable and passionate.

Wang Yi also smiled and said, "Then I would like to thank King Longjue for the first time. In fact, it is the ten million corpses of the peak realm master Zerg that you discussed with the 'King Longjue' at the Virtual Universe Company last time."

Ten million corpses of the pinnacle master of the Zerg race. For every 100,000 cadavers of the pinnacle-level Zerg clan, the price is 10,000 yuan. Buy 10 million, then it happens to be a unit of 1 million mixed yuan.

In fact, this amount is exactly the upper limit of the transaction amount that the 'Longjue King' alone can approve.

Because there are a total of five people in Wulong Star Territory's top management, from the virtual universe company, the giant axe fighting field, the first bank of the universe... these five human forces.

If the transaction volume exceeds 1 million yuan, five people must approve at the same time to prevent someone from being too powerful and leading to the loss of a large amount of assets.

"Oh, what do you mean is the ten million corpses of the pinnacle master of the Zerg race? No problem!" King Long Jue agreed very simply, and as if he had been prepared for a long time, he took out 200 metal plates, each metal The cards have complicated numbers.

A smile appeared on King Long Jue's hideous face, "His Royal Highness Wang Yi, this is the 200 units I specially asked the people below to carefully select for you. The overall quality of each unit is good. You can choose from them. The best 100 units, when you choose to bring them all, you can return the remaining metal plates to me."

There are many types of Zerg. The corpses of different types of Zerg are also the corpses of the pinnacle of the Lord, but the value may be several times different.

King Long Jue made such an arrangement, which was also very considerate.

Wang Yi suddenly realized, "So that's it, thanks to King Longjue."

"Hahaha... it's just a trivial matter." King Long Jue laughed.

This time he was a good friend, and he made friends with Wang Yi, a super genius who everyone in the virtual universe company is optimistic about and has a boundless future.

Therefore, sometimes your status has reached a level, and everything is easy to go smoothly.

You don't even need to do many things, and someone will take the initiative to do it for you.

It's like it's hard for ordinary geniuses to want an immortal teacher, but there are a lot of venerables who actively compete to become Teacher Wang Yi.

"By the way, His Royal Highness Wang Yi, according to our regulations, if you buy goods worth 1 million yuan in units, you can get the opportunity to go to the 'Trash Mountain' to shop for treasures." King Long Jue threw a silver white ring over and explained. , "This is a medium-sized world ring. There is a world in it, with a length, width and height of 100,000 kilometers. You can use this bonus world ring to put some items you want from the trash mountain directly into it until it fills the whole Ring, it is forbidden to take away items from the trash mountain."

"Oh, it sounds very interesting, then I will have to take a good look at that time." Wang Yi pretended to be very interested and picked up the silver-white ring.

[Chapter 253: A foreign organization that is moving by the wind](#)

However, Wang Yi's original purpose was not for the corpses of the Zerg, and of course he would not choose. He took 100 metal brands and returned the other 100 to King Longjue.

"You are..." King Long Jue said in surprise.

"Haha, I believe in your sincerity, King Long Jue, you don't need to choose, just these 100." Wang Yi smiled.

"But I'm very interested in the treasure hunt in the Trash Mountain. I wonder if King Longjue can arrange it?"

"Okay, then." King Long Jue was also happy to see that Wang Yi could speak so well. He took away the metal sign and turned his head to the outside of the palace.

"Ava, Kolzelong, come here."

"call."

Two figures walked outside the palace gate, a man and a woman, both handsome men and beautiful women, wearing silver robes. They were one of the immortal entourages who had traveled with King Longjue before.

"grown ups."

"Yeah." King Long Jue said, pointing to Wang Yi who was smiling, "After helping His Royal Highness to complete the transaction, you will go to the Trash Mountain for Taobao. You two will be responsible for the reception. You must not neglect, you know. ?"

"Yes, sir." Two immortal gods said respectfully.

King Long Jue stood up, and Wang Yi also stood up. "His Royal Highness Wang Yi, then I wish you a good time here."

"Thank you, King Long Jue." Wang Yi smiled, and followed the two respectful silver-robed entourages to leave.

King Long Jue stood there and watched Wang Yi disappear from the corner of the palace. He touched the dark red cheeks with clear water chestnuts, "Woo...Finally pleased his Royal Highness Wang Yi, Jin Yuhou did it this time. It's a good thing and gave me a feeling of affection."

Inside the palace corridor.

"His Royal Highness, let's go to the Finance Department and pay the money first. Then you will enter the Wulong Star Territory and take away the Zerg corpse unit you want, and then you can slowly buy treasures." The two silver-robed entourages said respectfully. .

"Yeah." Wang Yi nodded.

The 100 metal medals and the silver-white space ring were both tokens, representing that Wang Yi could enter the Wulong Star Territory and take away so many items.

Finance Department.

"Wang Yi, there are 100 units of corpses of the pinnacle-level zerg of the world master."

"The transfer was successful."

"His Royal Highness, the transaction is completed, and the 1 million mixed yuan unit has been credited."

A female immortal **** with a seductive face and long blonde hair respectfully said to Wang Yi.

The female silver-robed entourage with purple skin and symmetrical black and purple patterns on her face looked particularly enchanting and said to Wang Yi with a smile: "His Royal Highness, we will now send you to the Wulong Star Territory."

Wang Yi left with the two Yinpao entourages, but thought in his heart, "The news that I have purchased items here should have been sent to the foreign spies through the Internet, right? I don't know how they will act?"

The corners of Wang Yi's mouth raised slightly.

In the original book, Luo Feng came to the Wulong Star Territory to buy a Zerg unit. The transaction records were checked by the alien organization, so he organized an assassination in the Wulong Star Territory.

A lurking person lurking in the Wulong Star Territory carried a hidden immortal spirit in his body. He wanted to forcibly kill Luo Feng, but he hit an iron plate with his head.

Luo Feng's golden horn behemoth was already at the master level at that time, and possessed the tyrannical strength to fight against ordinary immortal gods!

At the end of the stalemate, the flame immortal **** that forced him to explode directly. But still did not kill Luo Feng!

His threat ranks at the top of the list, which is much taller than Luo Feng who was No. 3 at that time. Therefore, if the alien race was assassinated, he would definitely use a lot more power and a lot more methods.

It is not necessary to use the strong, it can also be some terrible treasures, technological weapons with amazing lethality, and so on.

But Wang Yi is not worried.

Unless it is a monster above the master of the universe who masters time and space, he is not afraid of those alien powerhouses now.

What's more, he was accompanied by two immortal gods this time. One of them was the immortal prince, and the other was also the immortal military master. It can be seen that King Longjue attached great importance to him and arranged for him to accompany him with two powerful immortal entourages, probably also worried about him. Something happened in Wulong star field, so strengthen the protective force around him.

After all, according to the rules, only Wang Yi and the internal staff of the Wulong Star Territory can enter. The area where the endless debris is stored in the Wulong Star Territory is forbidden to enter the immortal gods. Even if the internal staff want to enter, the immortal gods must be strictly monitored. In accordance with the requirements, the virtual universe monitoring connection is opened throughout the entire process, and the fear is that the guards will steal them.

With these arrangements, even if Wang Yi really had an accident here, King Long Jue could be justified.

Don't think of anyone as a fool, who can become an immortal god, and be in a high position, one by one is very careful.

...

A majestic and boundless kingdom of God, high above, in a towering temple.

In a hall about 100 kilometers long and wide, a green-skinned man knelt directly in front of a figure shrouded in golden robe.

"Master, just got emergency information, the name of No.1 appears in the account details of the 'Wonder Star Territory' among the nine junk star regions of mankind."

"Huh!?" The breathless figure in the golden robe suddenly raised its head, and two terrifying eyes fell on the green-skinned man as if it were real. "No.1? Wang Yi?"

"Yes, Master." The green-skinned man said respectfully.

"Can he be accompanied by a guard?" The man in the golden robe said softly.

"Two immortal gods from the 'Wulong Star Territory' led him in." The green-skinned man couldn't help saying, "The King Longjue is really careful. According to normal rules, immortal gods are not allowed to enter. Even if you want to enter, You also have to get the approval from above... Obviously, the high level of the human race really cares about Wang Yi, and even entering a place like the 'Wulong Star Territory' has been protected by two immortal gods."

Although King Longjue is one of the highest levels of the "Wulong Star Territory", he still has to act according to the rules. Normally, it is impossible for immortal gods to enter the "Wulong Star Territory" because their kingdom is easily stolen. "Wulong Star Territory" items, unless approved by a higher level.

Obviously, as soon as King Longjue reported it, he applied for Wang Yi to equip two immortal gods to accompany him in, and he immediately agreed.

What Jinpao mysterious people care about is not this, but a deeper level.

The human race in the "Wulong Star Territory" really did not give Wang Yi any other protection, really there are only two immortal gods?

To be honest, if Wang Yi is really an immortal **** and enters the vast star field of the 'Wulong Star Field' alone, although the monitoring there is tight, it is impossible to be everywhere. There are also weak places. Foreign races can definitely find opportunities. Go in and assassinate.

If this is the case, the mysterious person in Jinpao has to consider whether this is a trap.

It's as if the vehicle escorting the treasure is passing through the wilderness without guarding it, no matter how it looks.

But now the human race's attention to Wang Yi and the right arrangement made him hesitate.

Is it a trap?

Is there a conspiracy?

Do you want to do it?

The mysterious man in Jinpao thought and hesitated.

If you really want to do it, relying solely on the strength in the "Wulong Star Region" is definitely not enough, and more powerful means must be used.

After all, the two immortal gods guarding entourage are not ordinary or weak. At the critical moment, they can directly take Wang Yi into the kingdom of the gods or carry the world space. They can only stare at ~www.mtnovel.com~ The power invested in, at least they must have Make sure to kill two immortals quickly.

And this, at least, can only be done if the king is immortal.

The greater the investment, the higher the success rate.

But... what if it is a trap?

An immortal king is not a Chinese cabbage.

Once it is shot, it represents exposure, and once exposed in the human domain, it will undoubtedly die.

To trade an immortal king for the life of no.1 Wang Yi, even if the mysterious person in the golden robe is one of the top in the mysterious organization, he cannot make such a decision directly.

"Report to your lord..."

[Chapter 254: "Wulong Star Field"](#)

At this time, Wang Yi, Dylan and two silver-robed immortal gods were riding in a spaceship, traveling in the dark universe.

The enchanting purple-skinned woman named "Ava" respectfully said to Wang Yi: "His Royal Highness Wang Yi, we are now at a point where we want to enter the hinterland of the Wulong Star Territory."

Another handsome blond man "Kol Zelong" also smiled: "After all, the star field is really too big. If you take a spacecraft to fly slowly in the star field, flying for tens of millions of years, I am afraid it will only fly a small area."

Wang Yi nodded clearly.

Ordinary galaxies have a diameter of about one hundred thousand light-years. However, it is normal for a star field to have 10,000 galaxies with a diameter of several million light-years.

Even the immortal gods...If you don't travel through the dark universe or space, just fly straight at the speed of light, and want to pass through a star field, it will take millions of years. You can imagine how big it is.

There are only a few fixed points in the Wulong star field, which allow the universe to shuttle, and other areas are full of endless cargo and debris.

The nine garbage star regions are a real treasure house. Any star region combined is more valuable than a cosmic nation, so it is heavily guarded, and there are venerables stationed on it. Even if the immortal king dares to steal and commit crimes, he will be chased. Kill to death.

After flying for about two hours, the spacecraft finally shuttled through the universe. When it returned to the original space, an invisible surveillance signal instantly scanned this direction.

The spacecraft landed in a palace suspended in the starry sky, about 10,000 kilometers in diameter, and a group of people had already been waiting outside.

"His Royal Highness Wang Yi, Bing Renhou, Master Tianshui." Everyone saluted together.

Bingbianhou, that is, the blond immortal **** "Korzelong", although he is a close associate of King Longjue, he is also an immortal prince, and his status here is also very high.

"Moxi. You should have received the above order. This time we will accompany His Royal Highness Wang Yi to enter the Wulong Star Territory. You will let the two leaders enter with us." Ke Zelong said to the silver-robed old man. Immortal said politely.

The silver-robed old man smiled and said: "Understand, we have indeed received the above order, this is a temporary pass for the two adults."

He handed over two black tokens with gleaming light, and Corzeron and Ava took them, one for each.

Following that, two people in white robes came out.

Wang Yi didn't care about this. At a glance, he was already shocked by the endless starry sky blocked by the endless cargo.

Looking around, some of the surrounding areas are empty and can be accelerated to the speed of light to travel through the universe, and all other areas are cargo.

"His Royal Highness, we are going to take the internal standard spacecraft to enter, and if we travel through the Wulong star field, if other spacecrafts intrude in it, we will be attacked." A white-robed man took out a ship with a diameter of 80 meters. The flying saucer-shaped spacecraft was respectfully introduced to Wang Yi.

"Also, your highness your guard is an immortal god. Without permission, you can't enter inside, you have to stay outside."

Wang Yi nodded, and said to Jakes next to him: "Jakes, you just stay outside and wait for me to come back."

"Yes, Your Highness." Jakes nodded.

...

When Wang Yi entered the Wulong Star Territory.

A kingdom of God in the space mezzanine corresponding to a dark and silent starry sky.

God's country is vast and boundless, with towering mountains in the central area over a million kilometers high.

At the peak of this mountain range, there is a shrine with dazzling golden light, which is 100,000 kilometers high.

Inside the temple. A huge, different-looking Zerg warrior walks in the temple, and even a golden Zerg warrior (immortal Zerg warrior) can be seen occasionally.

In addition to Zerg warriors, there are also many humans wearing white robes, golden robes, and armors. These humans and Zerg warriors often pass by, but they are in peace.

The highest level of the temple. A zerg brood with a height of more than ten kilometers, like a broken meteorite, stands in the center of this highest level. There are a large number of golden zerg warriors gathered around it, no less than 100,000.

A burly and stalwart gold-clad figure like a demon **** was surrounded by a large number of Zerg warriors, but directly bowed to salute respectfully.

"Master, what do you call me?"

"Gaine!" A soft voice that seemed to be whispering in the ear of a peerless beauty echoed in the entire hall. "I am calling you here this time because I want you to kill the peerless genius in the human domain, that is, Wang Yi, who has been identified as No.1 on our clan list."

"He is now in the Wulong star field, one of the nine junk star regions, which is a very remote area of the entire human territory. But we have already arranged manpower in the Wulong star field, and you will pass through the 6th lurking there. A divine kingdom of an ordinary immortal **** in the inner world, heading to the Wulong star field."

"Remember... Once you make a move, you must kill no.1 regardless of the cost to eliminate the hidden dangers of our race." The beautiful and soft voice of the Zerg mother emperor hidden in the Zerg brood finally became cold and full of killing intent.

"Gaene, you are the top five immortal kings under my command. I have high hopes for you, and I hope you won't let me down."

"I understand, Master." The golden armor demon said with a zealous look on his face, "Even if I die, I will kill Wang Yi and complete the task that the master has entrusted to me!"

This golden armored demon **** is an extremely powerful and immortal king, and is also under the control of an alien immortal **** controlled by the Zerg mother emperor. Each Zerg mother emperor is good at soul attack and soul control, so in addition to their large number of Zerg warriors, they also control many foreign subordinates to work for them.

Watching the golden armor demon flying out of the temple as a streamer, the Zerg mother emperor of the Zerg brood muttered: "Gainie is an immortal king who is extremely good at killing under my command. This time, I hope he can kill Wang Yi smoothly. ."

The golden armored demon **** left the kingdom of the Zerg mother emperor, and then teleported through the immortal kingdom of the Zerg mother emperor, and came to a dead starry sky. After sensing it, he broke the space and rushed into the interlayer of the already known space. There is also a kingdom of God.

"Boom..."

The endless sea of fire covers the world, the sky is dyed crimson, and a towering red rock palace is suspended high in the sky.

"Nile..."

The mighty voice sounded low and deep.

The golden armor demon descended here, and the surging endless coercion made the sea of flames of thousands of kilometers retracted like grass blown down by the violent wind.

"call!"

A fiery red figure condenses from below the sea of fire. He is 12 meters tall and wore a simple black armor. The armor is not covering the whole body, but his arms are still exposed. His arms have lush red body hair and face. It also has red mane and a pair of eyes, which are also burning like flames.

He raised his head and saw the figure in the sky, showing a startled look, and hurriedly flew into the sky, bowing to the majestic golden armor demon god.

"Master Gaine."

"Your true body, right now in the Wulong Star Territory in the human realm, right?" The golden armored immortal **** with six sturdy black horns glanced at him ~www.mtlnovel.com~Yes, my lord. "Nilebi, the immortal **** of flames, is respectful.

Although he was an immortal god, he was only the most common and weakest kind. He just mastered a complete law of fire, and in terms of strength, he was at the bottom of the immortal gods, and he was too far away from Gai Ni at the peak of the king.

There is also a gap between immortal gods and immortal gods.

According to their strength, they can be divided into ordinary immortal, immortal military master, immortal prince, and immortal king.

The immortality of the king is also divided into the primary immortal, the high immortal, the peak immortal, the ultimate immortal, and the invincible immortal.

For a weak and immortal **** like him, the immortality of the golden armor can be destroyed with one move.

"very good....."

[Chapter 255: Murderous](#)

Wulong star field.

A silver-white flying saucer stopped in the starry sky, the hatch opened, and five people including Wang Yi flew out one after another.

And in the starry sky ahead, there are endless corpses of Zerg.

"His Royal Highness, two adults, we have arrived at the place." One of the white-robed people said respectfully to Wang Yi and others.

"A lot of Zerg corpses." Wang Yi saw the endless mountain of corpses that occupies the entire field of vision in front of him, as if the entire starry sky was piled up. Although he had already prepared for it, he was still shocked.

The endless zerg corpses floating in the starry sky can't see the end at a glance. All are the pinnacle level of the world lord!

"So many zerg corpses, hundreds of millions of zerg corpses, pinnacle zerg." Wang Yi shook his head.

Even if the human race and other pinnacle races, the total number of pinnacle masters is far less than the Zerg race!

Zerg, originally the tribe that is best at worm sea tactics!

A master-level zerg brood can continuously create master-level zerg warriors, and can easily create a legion of millions of master-level zerg warriors! As long as they are willing and the resources are sufficient... they can even create hundreds of millions of zerg warriors over the long years!

But no matter how much it is made, the number of Zerg legions that each Zerg brood can control at the same time is limited.

For example, Wang Yi's Zerg mother emperor can simultaneously control millions of realm master Zerg fighters to attack together, which is already the limit.

No matter how large the number is... it will affect the performance and cannot achieve the perfect combined attack effect.

These Zerg corpses seem to be numerous, but they have been neatly divided. The small pieces of Zerg corpses gathered together can be regarded as one hundred thousand complete Zerg corpses, which is equivalent to a unit... After all, the strong are destroyed in battle. The world is destroyed, and a little aftermath can shred the corpse, so it is impractical to preserve the entire corpse. It is all pieced together.

Those who came here to buy a large number of Zerg corpses were used for the Zerg Brood to make the Lord Zerg Legion, and they would not care about this.

"His Royal Highness, please give us your metal plate so that we can help you choose it." One of the tall and thin white-robed men with fish scales on his face smiled.

"Okay." Wang Yi also smiled and took out the 100 metal medals that King Long Jue had given him.

The two white-robed men took the metal card over, watched it carefully, and opened the arm guard, the intelligent optical brain, to quickly operate it.

soon.

"Hmm... Your Royal Highness, the distance of the 100 Zerg corpse units represented by your 100 metal plates has been calculated by us, and we have planned the most efficient and fastest route. We fly directly with our body and fly at 100,000 kilometers per second. It takes about 11 days before and after." Another short white robe man said respectfully to Chao Wang Yi. "This is already the fastest route."

The Wulong star field is a star field with a diameter of millions of light-years, but the "goods" are all sorted and placed according to the area. The corpses of the Zerg are naturally put together, so you only need to buy the corpses of the Zerg. Naturally, there is no need to run around. It takes time. Not too much.

Moreover, when King Long Jue chose 200 metal cards, he also considered this point. The Zerg corpse unit area given to Wang Yi was relatively close.

Wang Yi nodded slightly, "In this case, let's set off."

"Or let's take His Royal Highness Wang Yi to fly, so we don't have to bother the two adults." The tall and thin white robe man said.

The enchanting purple-skinned female immortal **** "Ava" who accompanied Wang Yi said: "No, our Royal Highness will be personally responsible for leading the way. You only need to be responsible for leading the way."

"Yes." The two white robe masters said in unison, lowering their heads, but a trace of regret passed in their eyes.

The two white-robed leaders head straight ahead, breaking through the air, and the two immortal gods also released their immortal powers and gently wrapped Wang Yi, turning into a stream of light and flew away quickly.

Even with Wang Yi's perception of the ninth-level human body of the domain master now, there is a feeling of "speeding fast".

The world master pinnacle can easily maintain the sub-light speed, and the immortal gods can completely travel back and forth between the dark universe and the original universe at the speed of light.

The speed of one hundred thousand kilometers per second is already one-third the speed of light, but it is nothing to them.

If it weren't for the interlacing and complicated areas here, their speed could be almost equal to the speed of light.

I saw dense and endless cargo flooding the entire starry sky, with only one tunnel running through it. Wang Yi and the five of them were flying along one of the tunnels about tens of kilometers wide.

...

One of the observation points of Wulong Star Field.

As an observer, the lean man with black scaly armor on his head is looking up to monitor the detailed alert monitoring map of the entire wandering star field on the projection screen.

Dense light spots appeared everywhere in the monitoring map.

White represents internal staff and red represents outsiders.

And the lean man's eyes were fixed on the star chart above the enlarged B24 area.

There are 2 green light spots, 2 white light spots, and one red light spot on it.

The green light spot represents the immortal gods who have obtained temporary passes. Generally, they rarely appear and belong to the key monitoring objects.

White light spots represent internal staff.

The red dots represent outsiders.

"No.1, Wang Yi..." The thin man's green eyes stared at the constantly moving white light spot, and a strong murderous intent flashed in his eyes.

"NO.1 has entered the Zerg corpse area, it's time for me to complete my mission!" The thin man glanced at the monitor projection screen for the last time and stood up.

The information about Wang Yi's purchase of the Zerg corpse unit has been obtained by the Zerg spy, and Wang Yi's course of action can be easily known only by calculation.

"Wow!" The alloy door opened, and the lean man walked out of the room.

"Kosle."

From time to time in the corridor, internal staff passed by, and acquaintances greeted him, and the thin man responded with a smile.

"Korsel, why did you come out?"

"It's so boring, I'll go out for a walk."

"Don't be lazy, your points will be deducted again when the supervisor sees it."

"It's okay, I have a holiday."

"Are you going to Taobao?" The man looked at him enviously~www.mtlnovel.com~ Khosle smiled: "My Taobao opportunities are still useless three times. I plan to go to the trash mountain to do one. I am alone. Boring, are you going to be a company together?"

"Really? That's too envious of you. It's a pity that I used it early. When I come back, remember to invite me to drink."

"Haha, it must be."

Taobao, among the nine junk star regions such as Wulong Star Region, has become a tradition.

Some grassroots personnel in the nine junk star regions have a one-year Taobao opportunity to use the "small world ring" every 10,000 years.

Soon after, outside the palace suspended in the starry sky, Khosr had already received the small world ring used to search for treasure in the trash mountain, and took his silver-white flying saucer-shaped spacecraft to shuttle through the universe to the target area of the Zerg corpse.

[Chapter 256: Wang Yi: 3 party gank](#)

Eight days later. Landlord's pinnacle-level zerg corpse area. There are various Zerg corpses, top-level Zergs and second-class Zergs. Prices vary.

"His Royal Highness, this pile of Zerg corpses piled up is one of the units corresponding to the 100 metal tiles of His Highness." The tall and thin white robe master with a fish scale on his face introduced it with a smile.

"Oh?" Wang Yi quickly scanned the huge sphere that was piled up from the remains of the corpse of the peak Zerg who was a few kilometers in diameter in front of him with his mind.

"3 species of spider worms, 6 species of mayfly worms, 14 species of praying worms..."

Based on the detailed information searched on the virtual universe network, Wang Yi quickly determined its value.

"This pile of Zerg corpse remains has more than 80% of the top-quality Zerg clan. This unit can probably cultivate 30,000 heads of the world lord's peak tiger beetle clan." Wang Yi was also a little surprised.

"This King Long Jue is really kind to me."

Generally, a Zerg corpse unit (one hundred thousand) can produce 10,000 heads of the world leader, tiger beetle Zerg warrior is not bad.

But the Zerg units with the metal card that King Longjue selected carefully and gave Wang Yi were almost two or three times the mass of ordinary Zerg corpse units!

This is not easy. You must know that a unit of Zerg corpses can breed 20,000-30,000 World Lord Peak Tiger Beetles, and this is only 2%.

It is estimated that King Long Jue almost assigned to Wang Yi the batch of Zerg corpses with the best quality currently in the star field.

Wang Yi has picked up two million yuan worth of wealth in vain.

Although Wang Yi didn't care much about the wealth of the two million yuan unit, he laughed at it since it was given away for nothing.

"His Royal Highness Wang Yi, don't worry, Lord Longjue selected 100 Zerg units of the highest grade for His Royal Highness absolutely. Your Highness will not disappoint you." Two handsome blond men with immortal gods accompanied Wang Yi." Keerzelong" smiled.

"I'm very satisfied with King Long Jue's heart." Wang Yi nodded and smiled.

If one million tiger beetle tribes were cultivated through other means outside, it would probably require at least 2.5 million mixed yuan units. But here, it only needs 1 million mixed yuan units to cultivate more than 2.5 million tiger beetle tribes, and Wang Yi definitely earns it.

Of course, Wang Yi also knew very well that King Long Jue was so enthusiastic about him, but it was because of his great potential and high future achievements. All he needed to do was to remember the favor, and it would be impossible for him to be moved by this.

Under the leadership of the two white robe guides, Wang Yi kept moving in the Zerg corpse area of the leader's pinnacle, taking away the Zerg corpse unit belonging to his own metal card.

It is estimated that it will take about three days.

after one day.

In the starry sky, there are countless messy wreckages piled up in the distance. From the naked eye, you can faintly feel the breath left by the ancient years.

Seeing Wang Yi looking there, the white robe guide couldn't help but smiled and said, "His Royal Highness, that's the Garbage Mountain. The Garbage Mountain is scattered throughout the Wulong Star Region. Your Highness, should you go to the Garbage Mountain to search for treasures? "

Wang Yi glanced at the trash mountain in the distant void, and sensed it. He didn't feel any strong sense. The sign-in panel can maintain daily sign-in without Wang Yi's initiative to decide-as long as the sign-in conditions are met.

Wang Yi also discovered that as his strength became stronger and stronger, the sign-in requirements became higher and higher. Now it is difficult for ordinary world masters to give Wang Yi what to sign out. It is estimated that the sign-in panel feels right to Wang. Yi is useless, it is automatically blocked.

When Wang Yi's strength reaches immortality or higher, it is estimated that the entire universe can sign in for him to be even scarcer.

Of course, the odds of checking out precious and rare rewards will be higher.

I entered this star field and checked in several times, but unfortunately it was all "junk"-well, it fits the definition here.

"Well, in that case—" Wang Yi tilted his head and thought for a moment. "Why don't I give you the metal card, you help me fetch the Zerg corpse unit, let's go to the trash mountain first, and then you will give me the world ring?"

Indeed, since the metal plate has been selected, there is no need for Wang Yi to check it in person.

The faces of the two white robe guides were slightly stiff at the same time.

The two looked at each other.

The dwarf, gray-skinned world leader smiled and said: "Since your Royal Highness has requested it, we shall take the order...Maant, or you can help your Royal Highness bring the Zerg corpse, I will be the guide and continue to give the Highness the garbage. The mountain leads the way."

The tall and thin man with fish scales on his face changed slightly, squeezing out a smile, and seemed a little reluctant, "Bao Si, or you go, I often go to Trash Mountain. I am more familiar with the environment than you, so I will come. It is more appropriate to lead the way for your Highness."

Seeing the two white robe attractors who suddenly pushed off, the two immortal gods "Korzeron" and "Ava" standing beside Wang Yi snorted at the same time, and a powerful pressure enveloped them. People.

The bodies of the two world masters trembled at the same time, and they lowered their heads in fear.

"What's the matter... It's really unreasonable. How do you be an attractor, don't you know the rules? His Royal Highness is still here. Don't let His Highness read the jokes." Ava is respectful and polite to Wang Yi, but yes. The two world masters didn't have any good faces, and at this moment they indifferently reprimanded.

Both world masters bowed their heads and dared not say anything.

Then he turned his head and smiled at Wang Yi.

"His Royal Highness Wang Yi, should you choose one of these two recruits directly?"

Wang Yi touched his chin lightly and looked at the two world masters with their heads down. However, doubts arose in his heart. These two guides were all internal staff of Wulong Star Territory, and they must have been specially trained. The performance at the time was a bit strange.

Wang Yi suddenly raised his vigilance.

At this moment, a lean man "No. 6" wearing a standard white shirt was turning into a streamer, flying quickly in the starry sky with endless wreckage.

The expression on his face was cold and full of evil spirits.

He raised his head and looked at the dark starry sky ahead, as if he could see the goal at the end.

"No.1, not far ahead!"

"Kill him!"

This is the area of the monitoring point named "B2414——65213——23549——17488".

"Peng!"

The black spherical instrument tens of thousands of kilometers away suddenly exploded, and at the same time, a very, very tiny area in the entire Wulong star field monitoring map instantly became blank.

The area is too small, at least the naked eye cannot find this point on the monitoring map, but the alert system immediately found it.

Wang Yi kept turning on the detection instrument secretly, and he found it immediately.

"Master!" Bermuda's voice sounded in Wang Yi's mind.

"The detection signal around has disappeared!"

The detection signal is a detection facility that covers the entire star field with the warning system of the "No-hole Star Territory", without any concealment.

However, the signal suddenly disappeared now, indicating that the instrument at the nearest monitoring point was destroyed.

When Wang Yi noticed something was wrong, the two immortal gods and the two world masters who bowed their heads in silence also found that the signal disappeared.

"Um!?"

Wang Yi's eyes suddenly widened.

next moment.

Unexpected.

Boom~~

Beside the two world masters, a terrifying figure appeared at the same time, an extremely powerful, surging coercion that caused the space to tremble.

"The king is immortal!" The expressions of the two immortal gods guarding Wang Yi suddenly changed at the same time.

And tens of thousands of kilometers away, the same strong wave came from far away.

The third king is immortal!

The three assassins unanimously chose to dispatch three immortal kings here to assassinate Wang Yi at all costs!

There is only one purpose-kill him!

The corner of Wang Yi's mouth twitched.

...

At the same time, the real-time monitoring network of the virtual universe opened on the bodies of the two immortal gods also found this scene in an instant.

Because the simultaneous transmission of the virtual world is enabled, when the image is transmitted back, in a monitoring room in the palace complex of the starry sky, two realm master inspectors who are monitoring this side saw this scene, and immediately stood in shock. stand up.

"Alien immortal gods!"

"Intruder!"

The two masters of the world have been working for many years, and this is the first time they have experienced this kind of sudden situation, and they were a little flustered for a while.

"Quickly report the situation to the higher level!"

"Guard! Star Monitoring Guard! Send them a first-level guard signal! Tell them the situation here!"

And when the inspector passed the news to it, and it reacted, almost 10 seconds had passed.

"boom!"

King Long Jue, who was receiving another guest in the virtual universe, suddenly received an emergency notification, his face changed wildly, he instantly stood up from his seat, and even couldn't restrain his tyrannical aura, shattering the seat under him.

"King Long Jue, you?" The immortal king sitting opposite him was a little puzzled and puzzled. "What happened?"

But then he was shocked to discover that King Long Jue, who had been talking to him well and had never offended people easily, didn't say a word, and disappeared from him in the next moment.

"Huh? Just exiting the virtual universe, so anxious...what is going on?"

...

The area of the monitoring point named "B2414——65213——23549——17488".

"Boom~~"

"Shasha~~"

"Wow~~"

At this moment, it has been shrouded by terrifying coercion, thunder and lightning, ice and snow, storm...Three law domains cover here, as if it can destroy everything, the ruins and debris that can be seen are flying and shattering everywhere, and the world is changing color, like the end of the world.

Three terrifying figures came here with a shocking power.

"The Eclipse King of the Monster Race!"

"The Black Horned King of the Zerg!"

"The evil claw king of the mechanical race!"

The two immortal gods of the human race, "Korzeron" and "Ava", who took Wang Yi back quickly, had ugly faces and shouted: "You are all crazy? Dare to come to our human hinterland to make trouble? Are you not afraid of death?" The two have been constantly calling for rescue through the virtual universe network.

The Immortal Golden Armor, which moved instantaneously from a distance, also immediately discovered the immortality of the two powerful kings in front.

"It's actually them!" It was the soul servant controlled by the Zerg mother emperor who flew over, Gaene, a burly man with six black horns and a golden armor on his head.

Not far behind him, followed by a flame immortal god.

The two immortal alien races that rushed out of the inner world of the two realms, one with crablike tentacles and eyes, but thin and slender, wearing black scales, and holding two black war knives in both hands. , An aura that was as sharp as a blade came oncoming, he was the "evil claw king" of the mechanical clan camp, and his strength belonged to the high-level kingship level, but he had amazing speed in battle.

The other figure was completely shrouded in the golden flames. If it was looming, only a figure that was winding and twisting like a snake could be seen. It was the "Star King of the Demon Race~www.mtlnovel.com~" and it was also close. A strong man with the pinnacle of the king's strength!

Under the influence of the golden flames still overflowing around it, the space was being burned, and black cracks continued to grow.

The three immortal kings who suddenly came out were also very surprised by the appearance of the other two. They suddenly discovered that besides themselves, there were other forces to assassinate human geniuses.

In that case...

"The Eclipse King! The Claw King! Surely you are here to assassinate the human genius, right? In that case, the three of us joined forces to kill the human Wang Yi!" The black-horned **** who was covered in purple thunder and lightning, with a burly body like a mountain. The roar sounded in the ears of the other two.

"Yes, if we join forces with the three parties, we will be able to kill them quickly and have a chance to escape!"

"It should be so!"

[Chapter 257: His Holiness: Our protection is in place](#)

The exchange of immortal consciousness between the three kings was completed in an instant, and without even a second passed, they reached an agreement in an instant to deal with the human race unanimously!

"Boom!"

The three immortal kings know that the time is urgent, and the super powers of the human race may come and rush at any time. They are too lazy to say a word. At the same time, they drive the figure and turn into a stream of light, rushing towards the two immortal humans who flee wildly at an astonishing speed. .

The three of them were all teleported through the immortal gods of the world lurking in the spy's body in the Wulong Star Territory. The three masters were all received and carried by the other three ordinary immortal gods in the world, but they were not killed. .

"Wulong Star Territory has so many powerful and threatening foreign spies lurking!" The immortal **** "Kor Zelong" who turned into a stream of light ramming through the **** ruins of Wulong Star Territory had a pale face, and his heart was full of anger. "The staff of the Intelligence Department have left so many intelligence loopholes, are they all rubbish?"

The two immortal gods of the human race fled with all their strength.

Even on the way to escape, he didn't forget his responsibilities, and he still remembered to bring Wang Yi, an important genius.

Although they also knew that the immortal kings of these alien races appeared, 80% of them came for Wang Yi.

But because of this, they were even more unable to leave Wang Yi behind.

Although they are also very clear, the chance of being able to escape successfully is very low.

The speeds of both parties are very fast, and both quickly reached the limit of the flight speed of the primitive universe, which is close to the speed of "light".

Those **** rubbish all over the starry sky, like nothing in front of the power of the immortal gods, shattered by the impact, appeared a straight line and a long and empty passage.

The speed of both sides reached the limit close to the primitive universe at the same time, and the speed of light would be broken sooner, and the flesh would enter the dark universe. But neither party has any plans to enter the dark universe.

However, human immortality does not feel that this situation will continue.

"His Royal Highness Wang Yi, the situation is critical now. You come into the world that I carry with me." Keer Zelong's voice was solemn and his voice was quick.

Wang Yi, who was wrapped and protected by the power of immortality, was not harmed, but he also felt the drastic changes in the surrounding environment.

At a speed close to the speed of light, without the protection of immortal power, the body of the ninth rank of the domain master cannot withstand the pressure brought by this high speed, and it would have been torn long ago.

"It's really stubborn." Following behind, the serpent-shaped immortal strong man shrouded in the golden flames had a cold voice.

"Huh! Did you escape?"

The burly man in gold armor and black horns sneered.

"Wow!"

The next moment he disappeared, suddenly appearing beside the two immortal gods.

Within just one thousandth of a second of appearance, he made an attack.

At that time, the two immortal gods of mankind only rushed out less than a hundred kilometers.

"Boom~~"

The king of black horns slashed out, and the purple thunder light swept across like a waterfall hanging upside down in the galaxy, spreading to the two immortal humans instantly at a speed that surpassed the light.

King Blackhorn, the existence of the pinnacle of the king, possesses the ability to teleport. This is why he is ranked in the top five immortal kings under the command of the Zerg mother emperor!

With this knife, he has done his best to burn the immortal divine power, and its power has skyrocketed hundreds to thousands of times. It has surpassed his own limit and reached another level. It is so powerful that the starry sky in the range of the sword's light has been exhausted. All annihilated and broken.

"Do not!!!"

Kolzelong and Ava were trembling at the knife, and the shadow of death was enveloped.

"Humans, all go to die!" The eyes of the three immortal kings flashed with excitement.

At this moment--

"Om~~"

An invisible force came instantly in an incomprehensible form.

Everything is static.

It instantly becomes a quiet still picture within a million kilometers.

The debris and **** thrown by the explosion.

Stardust from the air flow rolled up by high-speed flight.

The divine power burst torn apart the fragments of the starry sky space.

Many immortal gods, Wang Yi...all life, objects, things, as large as the stars in the universe, as small as the most basic space particles..."Time" at this moment, seems to be frozen in by an invisible piece of "amber" in.

But the shock in the eyes of the immortal gods could not be concealed.

Their soul consciousness is still barely maintained sober.

"This is....."

In the starry sky, suddenly appeared a white flame about ten meters tall, and the whole was like a group of humanoids. This group of white flames solidified into a strong white armor, and his whole body was completely enveloped in a simple and mysterious white armor, only a pair of strange blue eyes were exposed.

Looked over.

"Venerable White Fire!"

The three alien kings who are extremely familiar with the information of the super powers of the human race trembled at the same time.

"How come, how could the super existence of the human race appear so quickly!?"

"From our appearance to the shot, less than ten seconds have passed! In such a short period of time, this Star Territory human race should not be able to react."

"Unless he stays here all the time, is nearby, watching us..."

"It's in the game!" A thought came to the minds of all the immortal gods of the alien race.

"Foreign race, looking for death!" The sudden arrival of the inconceivable caused the white armor's existence who was still in a moment of time to snorted coldly.

"what!!!"

Astonishing fluctuations erupted on the three immortal kings at the same time, and the surrounding space was shattered at the same time, and the effect of time stillness was also destroyed.

They have completely burnt their immortal powers, and they don't care about anything.

"Venerable has already appeared, can't escape!"

"There is no chance, fight it!"

"Die together!"

The eyes of the Claw King, the Eclipse King, and the Blackhorn King were red.

They are either slaves controlled by the soul, or absolutely loyal to the race, or they have to fight to death for reasons...Anyway, it is impossible for them to surrender and succumb to the human powerhouse.

The three immortal kings are completely immortal divine bodies at the same time, and the endless immortal divine power that has accumulated endless years of time is far more pure than ordinary immortal gods and burns instantly, releasing incredible power.

"kill!!!"

They didn't care about the White Fire Venerable in the distance. Instead, they all targeted the immortal gods of the two human races...or Wang Yi who was protected by the immortal gods.

"Really ignorant!" Venerable White Fire shook his head.

"In front of me, do you think you still have a chance?"

The voice of Venerable White Fire floated in everyone's consciousness in a weird way. In the next instant, he had already come to the front of the three immortal kings. Seeing their desperate expressions, a handful of primitive scales appeared in his hand. Heavy sword.

One knife!

Peng!

The claw evil king's divine body was instantly shattered as if it were annihilated.

Two dollars!

Peng!

King Blackhorn stepped into the footsteps, burning the immortal body, he didn't even have the strength to stand firmly in front of Venerable White Fire, let alone resist.

Three knives!

Wow!

The splendid and incredible light of the sword crossed the starry sky, tearing a 10,000-kilometer-long crack, and the Yaozu's "Star King" also disappeared in the light of the sword, nothing existed!

Three swords, behead the immortal three kings!

I could see that the two immortal gods of the human race behind and Wang Yi both had a chill on their heads.

And there are three other immortal alien races who were also caught by the White Fire Venerable. A big hand covering a 10,000-kilometer radius crossed the space and grabbed the three terrifying immortal gods. They couldn't even blow themselves up. The soul consciousness was suppressed in an instant, caught by a big hand like a little chicken, and taken into another world.

All of this was accomplished in an instant. Wang Yi and the others watched as the three powerful immortal kings were killed by the mysterious White Fire Venerable in one fell swoop in a blink of an eye, with amazing power.

"It's terrible..." Wang Yi took a deep breath. His Void Zerg clone now possesses the power of immortality, but he might not even be able to resist in front of this white armored man.

At this moment, he deeply realizes that his strength is still very weak, and there is a long distance between these strong people standing on the peak of the universe, and he is far from proud.

"Are you all okay?" After Venerable White Fire finished all this, he turned his gaze to Keerzelong and the others indifferently.

"We are fine, thank you for your help!" Two human immortal gods, Wang Yi said respectfully together.

"Well, that's fine, then I'll leave first. Wulong Star Territory has actually made such a big mistake this time! Humph!" Venerable White Fire snorted coldly, and his voice struck everyone's souls like a heavy hammer, making them head down involuntarily.

They know that someone is going to be unlucky.

"If it's okay next, go ahead, and I will tell them about your situation on the Wulong Star Territory side." Venerable White Fire took a look at Wang Yi last. But didn't talk to him.

Venerable White Fire left.

"Huh..." Ava, the two immortal gods of Corzeron breathed a sigh of relief at the same time.

Wang Yi was fine, because the coercion of the Venerable White Fire didn't really fall on him from the beginning to the end. Although he also felt the power of the Venerable, it felt different from the others.

"Venerable White Fire unexpectedly appeared so soon." Wang Yi thought to himself, "Is it the arrangement of the human race?"

The foreign race dared to send the Emperor Immortal to assassinate him, he must have made careful investigations and preparations in advance, and only after calculating the time, he would take action.

Normally speaking, the human race is super-existent and it is impossible to arrive in such a short time.

However, Venerable White Fire suddenly appeared in time.

With a slap, three immortal kings were slapped to death, and three other immortal gods of foreign races were taken away.

Too strong.....

Wang Yi recalled Venerable White Fire's shot just now, the sword light slashed out, and the space area "time" in front of him was in a static state.

If the original state of time is "flowing water", which is constantly flowing, then under the power of the knife light, it becomes "ice cubes"!

Everything is frozen!

fear!

That mysterious knife technique carries a kind of ultimate mystery of the origin of time, and there is also a space law that is extremely mysterious and directly points to the great road of essence.

Something was faintly triggered deep in Wang Yi's soul.

This feeling came suddenly, without the slightest warning.

"Om..."

Time world.

The pronucleus has always been brought here by the clone, and the two clones are both enlightening the law.

What the Void Zerg clones comprehend is the cosmic chaos stele, which is the original law of time and space.

The Yanxing Giant Beast clone comprehends the mood of the beast god, which is the way of fusion of the laws of "fire and space".

Under the thousand times the time flow rate, the perception of the two avatar laws keeps improving.

"Um?"

Suddenly a mysterious feeling came to my heart.

The Void Zerg clone stared blankly at the huge Chaos Stele in front of him. The picture on it had empty eyes, and the mist that had been shrouded in his mind seemed to be lifted. www.mtlnovel.com, revealing the essence of the deep inside.

Wang Yi was immersed in it.

"I!"

"This, this is..."

The Void Zerg clone became excited.

"The sixth picture has troubled me for so long, and the insight that flashed just now... actually made me discover the way to fully understand the sixth picture!"

Completely comprehend the sixth picture of the Chaos Monument, which represents the perception of the laws of possessing the 18th floor of the Tongtian Bridge.

That is, the perception of the real immortal level of the king!

At this point, even among the masters of the Primitive Secret Realm, they are considered the strongest level!

[Chapter 258: Aftermath](#)

The law senses that the more difficult it is to improve as you get to the back, it takes a long time to reach immortality, just to improve a little.

Not to mention the 18th floor of Tongtianqiao, that is the immortal king!

None of the Lords of the Dry Witch Universe Kingdom has an immortal king.

Only when he reaches this level can he be regarded as the real powerhouse in the universe.

The Venerable can truly cross the universe.

The Lord of the universe can be regarded as standing at the pinnacle of this universe.

The strongest in the universe, as long as you don't die, no one in the original universe can kill you. Since the birth of the original universe, the number of the strongest in the universe has been counted. Every group with the strongest in the universe can be regarded as the pinnacle. Ethnic group.

There are only six peak races in the universe now!

Of course, the kind of starry behemoths that are too scarce does not count.

If Wang Yi could achieve this step in more than two hundred years of cultivation, it would really be against the sky.

King Long Jue sent an e-mail inquiries soon.

"Wang Yi, are you okay?"

With such a major event happening, Wulong Star Territory, as an extremely important place for the human race, was actually infiltrated by foreign races and brought in the immortality of the king...This situation is already very serious.

King Long Jue, as one of the top leaders of the Wulong Star Region, one of the nine junk star regions, must be to blame.

"I'm fine." Wang Yi responded.

The immortal powerful aliens seemed to be aggressive, but they were pinched to death by Venerable White Fire without even touching him.

Wang Yi said that he feels very safe.

"That's good." King Long Jue also breathed a sigh of relief. He had already neglected his duty. If Wang Yi, a genius who is highly valued by the ethnic group, had an accident with him, then his responsibility would be even greater. Losing his position would be considered light. , Said that he must not be sent to star field prison.

But although there are responsibilities now, it is not to the point that King Longjue will be hurt. This incident is more of the responsibility of the intelligence department of the virtual universe company.

Instead, King Longjue made an exception and sent two immortal gods personally to protect Wang Yi, saying that he would not be exonerated.

"I didn't expect that the two recruiters were actually alien lurkers." King Long Jue said bitterly.

"By the way, Wang Yi, you don't have any followers now, right? Do you continue in Wulong Star Territory, or..."

Wang Yi said, "It doesn't matter, King Long Jue, I want to continue walking around the Trash Mountain."

King Long Jue didn't say much when he heard it, "Well, that's good. In that case, I will make arrangements and let Ava, Keerzelong and the others continue to lead the way for you."

As for the Zerg corpse unit that has not yet been obtained, King Longjue also promised to arrange for others to help Wang Yi collect it.

In fact, Keerzelong and Ava are under the command of King Longjue of the Wulong Star Territory, but they are more in charge of the transaction. If they want to operate in the Wulong Star Territory, they must be authorized by other parties.

soon.

"drop."

"His Royal Highness, we have obtained the authority of the Star Controls headquarters and can move freely here." The enchanting purple-skinned female "Ava" looked over and said respectfully to Wang Yi.

She just saw that she could be protected by one...perhaps more than one venerable at any time. Needless to say, Wang Yi's status was far beyond her imagination.

"Then let's continue, it's time to work." Wang Yi said.

"It is our honor to be able to serve His Highness." Ava and Korzeron smiled at the same time.

Wang Yi didn't need to think about the storm brought about by the alien assassination. Anyway, he already knew that the human race must have made arrangements.

Just like this time, although the alien sent the king to immortal assassination, it was still swept away by the ambush of the human race.

In fact, the alien races are also betting...Unfortunately, they lost the bet, but they also deeply understand the importance the human race attaches to Wang Yi.

There is a space mezzanine corresponding to a remote and silent starry sky, the vast and boundless God's house, the highest peak of a mountain range over a million kilometers in the central area, and a temple shone with dazzling golden light.

Surrounded by countless golden Zerg warriors, the three Jinpao men knelt and reported the situation to the zerg brood, which was more than ten kilometers high, which looked like a broken meteorite:

"Master, the assassination failed. The target is protected by a super existence of human beings. The king was killed as soon as he shot it."

In the temple, a soft and dreamy female voice sounded.

"It really failed."

The Jinpao people underneath were a little nervous.

But the thunder anger they expected did not come, and their master couldn't hear the joy and anger.

"If you fail, you will fail. Anyway, I don't have any expectations for this action."

The Zerg mother emperor is very calm.

Even if the loss of a king is just a temptation, it won't make her angry, it's just a little regretful.

"Humans are as careful as always."

And the other side.

"Damn it! It failed!"

The three immortal kings, plus three important chess pieces lurking in the immortal star field, the immortal gods, this time the loss is not small.

The monsters, the zergs, and the machine races are very upset.

"The three immortal kings failed to kill this Wang Yi!"

"The human race actually sent the venerable to protect Wang Yi, it really takes him seriously."

"This action failed, let's continue to wait for the opportunity."

"I don't believe that the human race can always send strong men to protect Wang Yi. It's all right now. Go to the battlefield outside the territory where some venerables can't enter. I don't believe that the human race dares to blatantly violate the rules of each race!"

"The real strong are all tempered from the battle of blood and fire. The human race has protected Wang Yi so much. It may not be a good thing for him to grow up. Let's watch it slowly."

No matter how unwilling the three major ethnic groups are, they can only temporarily admit the results of their failures.

However, their actions against the peerless genius Wang Yi of the human race cannot be stopped.

This time there is no chance, then wait for the next time!

The struggle between ethnic groups is unreasonable.

The probability of a genius falling midway is very high. One is that the road to cultivation is inherently rugged and dangerous; the other is that geniuses are jealous, assassinations by foreign races, and the overwhelming power of the genius will all put geniuses in danger.

Not to mention that Wang Yi is known as the most dazzling genius in the history of human race. There are definitely as many other races as the stars in the sky who want him to die.

...

"Huh? Teacher's mail?"

The news of Wang Yi's assassination also spread between the Virtual Universe Company and the high-level human race. Wang Yi's teacher "Venerable Pang Bo" naturally received the news immediately and quickly sent Wang Yi an e-mail inquiry.

In fact, Wang Yi is in the territory of the human race, and he has a token for help from the Chaos City Lord, and his safety is guaranteed...I am afraid that the foreign race does not follow the rules, and it is dangerous to send an assassin at the venerable level directly to assassinate him.

Once dead, although the Lord of the universe can reverse time and space to resurrect...but resurrection is also conditional, not all deaths can be resurrected.

For example, once the soul is enslaved, it cannot be resurrected.

For example, if you carry a big secret, you may not be able to resurrect because the cost of resurrection is too high... or you lose that secret chance after the resurrection.

Another example is the resurrection of the Venerable, at least at the master level of the universe.

The overlord of the universe almost needs the strongest in the universe to be resurrected.

The Lord of the universe is dead, and no one in the primitive universe can resurrect them.

These are limitations.

Of course Venerable Pang Bo understood very well, that's why he was so worried about Wang Yi.

The various methods in the universe are weird and weird. Uncertainty will cause Wang Yi to die and cannot be resurrected.

Wang Yi also knows ~www.mtnovel.com~ Although he has treasures on his body and various means of encounters, his soul defense has the immortal soul guardian treasure of "Eye of the Abyss", which urges the soul attack of the immortal level of the ultimate continuous king. Can be weakened to one-tenth.

But in the face of the venerable, or some strength against the sky, the invincible immortality of the talented secret method, it may not be able to resist it.

"I can't be satisfied until I'm strong enough. Except for the time realm, I need more hole cards." Wang Yi is actually not sure whether hiding in the time realm can resist the control of the soul. All clones, including the deity, are a soul. Therefore, as long as the soul attack is strong enough, it can spread to all bodies along a body consciousness, completely destroy the soul consciousness of a creature, or control him.

Once enslaved by the soul, it really is over.

Wang Yi looked at his golden panel and rubbed his chin.

I just don't know if this foolish son can play any role at that time.

[Chapter 259: Trash Mountain Taobao?](#)

"This Wang Yi actually wants to go shopping in the trash mountain, his heart is really big." Long Jue sighed inwardly.

He also had some lingering fears. If Wang Yi was really assassinated here, he might have sat down too.

No, there is still prison!

He knew that Wang Yi's teacher was "Venerable Pangbo". As long as he was the high-level core of the human race, he knew how terrifying "Venerable Pangbo" was.

Most of the Venerables had to bow their heads respectfully in front of the most ancient Venerable of the human race.

When Wang Yi died, Venerable Pangbo was angry, and a large group of people would be unlucky. King Long Jue didn't think he could keep himself backstage, and at best he would not die.

"Not a personal disciple of the founder of the Great Axe, no matter how hard it is, the Lord of Chaos is hard? Venerable Pang Bo is the big disciple of the Lord of Chaos. Although he hasn't shot once for hundreds of millions of years, his strength is said to be very close to the Lord of the universe. I can't afford it." King Long Jue was grateful in his heart.

Venerable Pangbo is also regarded as the top figure among the overlords of the universe, and he is definitely one of the dozens of strongest human races.

"Huh?" Long Jue's heart moved, the virtual universe network prompted.

"The Nightmare Candle King? The Dahu King? The Rain King? And the Yin Ge King?"

There are five top officials in Wulong Star Territory, and the impact of this incident is too great. Obviously, other people in charge can't just sit idly by, and they all come to ask the relevant King Long Jue.

In addition, the above will definitely interfere a lot this time, and thoroughly clean up the Wulong star field. Under the circumstances, Longjue and the others still have a headache.

In the starry sky tens of thousands of kilometers away from Wang Yi's previous assassination, where the original spherical monitoring instrument was located, several figures stood here, and the surrounding time and space were distorted and isolated.

Even if the immortal king passed by, they could not be found.

"White Fire, you guys actually came here together. It seems that the Virtual Universe Company is very concerned about Wang Yi."

The one who was speaking was a Venerable. He was about ten meters tall. He was wearing a seemingly complicated strange armor. The armor was purple and black, and there were faintly mysterious patterns covering the entire armor, making this armor set. With the breath that makes the universe tremble,

those high-top boots are the most eye-catching...Looking at these boots, there is a sense of suffocation of looking at the endless mountains. Standing in the starry sky, he seems to be the master!

However, the other people across from him were no worse than him.

Each one is the Venerable Universe! When they stand there, time and space are naturally affected.

Among them, there was the "Venerable White Fire" who had previously shot and killed the three immortal kings.

...

There are trash mountains everywhere in the Wulong Star Territory, just among the well-divided "goods". According to Wang Yi's understanding, they are like "trash cans" with worthless wreckage.

When riding a standard spacecraft, Wang Yi occasionally designated a location, and after traveling through the universe, he would casually look for one or two garbage mountains to find treasure.

Of course, it's just a superficial look. In fact, Wang Yi keeps signing in and responding.

I can't go right away, so the speed is very fast.

The status of the two immortal gods was under Wang Yi, and King Long Jue ordered them, so Wang Yi was the only one who was the first.

It's just that Wang Yi's way of wandering aimlessly also made them mumble.

In his mind, Wang Yi was also thinking.

"Now, I should be stared at by the sage of the human race. I don't know if this is a good thing or a bad thing." Wang Yi already understood that the human race must be protected by a strong person at this moment, and he began to mutter in his heart.

Although it is a good thing to be protected, there are too many secrets in his body, and many of them are unable to meet people and cannot be explained.

You can only proceed with caution.

It doesn't matter if the fragments of the armor beads are found, even if there are high-level experts who know it, it is at best guessing and suspicion.

It just attracted some speculation, but Wang Yi didn't care.

Which peerless genius has no secrets in him? It's just that Wang Yi's is quite special, and I believe those high-level powerhouses are understandable.

Soldier armor beads, the value of armor beads is very low, and it will not let the human race do anything to Wang Yi for this.

At most, he suspected that he had something to do with the Yan God Race.

...This seems not so good. Will it involve the earth?

Wang Yi thought about it. Still try to be careful, all the nail beads fragments found are thrown into the world, and the fusion of the nail beads fragments is also carried out in the world, which is relatively hidden.

No matter what, thrown into the world of time, the Venerable can't explore it.

"Next, I will look for the armor left by the Yan Gods, and shard the armor...If I'm lucky, I might be able to get a king armor."

"I hope my modified version of the Nine Tribulations physique can be sensitive to Jiazhu." Apart from Wang Jia and Huang Jia, other Jiazhus are actually of very low value to Wang Yi.

Wang Yi's Void Zerg clone exploded with all its strength, and it was almost 500,000 times the power of the realm master!

I won't talk about Soldiers and Generals, the amplitude is too weak, Wang Yi looks down upon him!

If Wang Yi breaks through to the level of the world master and reaches the ninth level of the world master, three times the nine calamities of his cultivation, plus ten times the blood of the beast god, is thirty times!

The "Secret Method of the Purgatory God General" can increase the amplitude of the body's strength by a hundred times!

That is three thousand times!

The bottom line of Fenghou's immortal power is a thousand times the power of the pinnacle master.

In addition, Wang Yi has a time realm, and his perception of the law is fast. At that time, it was a proper perception of the rule of the king.

Even if the human body is poor, it can immediately have the Fenghou-level peak combat power!

If you are stronger and have more treasures, you can fight the immortal king.

Not to mention, Wang Yi has a lot of cards!

Like the "Purgatory Armor", this high-grade heavy armor, I am afraid that many venerables do not have it.

Wang Yi will break through soon and will not stay at the domain master level.

In reality, Wang Yi has only cultivated for more than two hundred years.

"Of course, the most important thing is to sign in."

"What if you get lucky, just sign in for a treasure, such as "Jia Jia"? It's not impossible."

Jie Jia is a treasure of the body armor and armor left by the leader of the earth.

Cooperating with another "Primitive Soul", the most precious one left to the earth, it is perfect and can display extremely powerful combat power!

The robbery armor can derive a series of armors such as army armor, general armor, and king armor. The robbery armor itself will also be accompanied by a huge divine body power!

However, if the treasure 'Jie Jia' needs to be driven, the body strength must reach 100 million times the power of the realm master! Normally the Universe Venerable can only reach it... Even if Wang Yi has signed in now, he can't use it immediately.

"Of course, it is better to sign in the Secret of the Nine Tribulations ~ www.mtnovel.com ~ Your own strength is the root, but it can only depend on luck."

There are five fragments of the heavenly soul crystal plate in the "Secret Code of Nine Tribulations".

Where these five fragments are located, there is a high probability that they can be signed in to come out of the Nine Tribulations Secret Code for the next few tribulations.

In other places, it's just "possible" and it depends on luck.

Hmm... luck...

The garbage star field is so big, depending on luck, it is a bit unreliable, unless you sign in and get the highest reward.

Wang Yi glanced at his son.

Sign-in panel: "....."

What are you looking at!

[Chapter 260: Wang Yi Taobao](#)

Wulong star field.

Among the endless cargo, occasionally a huge mountain of **** stands there, and there are hundreds of kilometers wide cargo starry sky in the middle.

Wang Yi's standard spacecraft once again traveled back and forth to the original universe and appeared here.

"what?"

When the spaceship appeared, Wang Yi in the spaceship immediately felt a faint call of attraction, attracting his entire body, as if the whole body cells were faintly boiling.

Somewhere in the distance, there seemed to be an invisible magnetic field beckoning oneself.

"It comes from the armor fragments of the Yan God race... More specifically, this is a call from the armor beads fragments made by the Supreme Treasure's Jie Jia." Wang Yi squinted his eyes.

He had already expected it, but he wouldn't be too excited.

but.....

"Since there are fragments of armor beads, go there and sign in." Wang Yi immediately made a decision.

To be honest, he didn't know whether he could sign in here to sign out the "Nine Tribulations Secret Code" for the next few kalpas, he just had a chance.

This is also the place where he knows best to sign in the Secret of the Nine Tribulations, except for the earth so far.

If you go to the Shanke Lair to sign in, it is estimated that the hope will be great, but he is not willing to meet this old monster right away.

The actual age of "Zaishan Ke" is longer than the primitive universe of this era. It is a veritable old antique with vast magical power and unfathomable.

"His Royal Highness, in which direction we will go next, there are many garbage mountains around." Immortal **** Ava asked.

"Let's go there." Wang Yi pointed to a towering trash mountain in the distance, and it was that direction that sent a unique feeling.

Ava immediately controlled the standard spacecraft into a stream of light and flew towards the garbage mountain pointed by Wang Yi, passing through a long empty starry sky cargo channel along the way, and finally came to the garbage mountain that was bigger than a planet.

Phew, the spaceship disappeared, and two immortal gods and Wang Yi appeared here at the same time.

After the assassination that happened just now, they didn't dare to leave Wang Yi too far, and the human race didn't mean to send other strong men over.

"Not here, keep flying forward and go there." Wang Yi said suddenly.

"Yes." The two immortal gods immediately obeyed.

Wrapped with immortal power, Wang Yi turned into a streamer and continued to advance at a speed of nearly 200,000 kilometers per second. After almost two hours, he arrived at another towering garbage mountain with a diameter of hundreds of thousands of kilometers.

"Well, this induction is still ahead." Wang Yi quickly flew around the trash mountain, and his mental power quickly swept across, but found nothing. On the contrary, the induction like a magnetic field in the distance was still beckoning him.

"There is nothing that suits my heart. Keep going." Wang Yi turned his head and said to the two immortals standing behind.

"Yes, Your Highness."

Although the two immortal gods were a little puzzled in their hearts, they obediently released their immortal power and took Wang Yi into the air and flew into the distance.

Flying, flying continuously.

The three of them flew over mountains of garbage one after another.

"Really."

Seven days later, Wang Yi, who had crossed over unknown garbage mountains, felt the magnetic induction still "in front", and was a little speechless.

"The induction of the fragments of the jade beads can make me feel such a strong feeling from such a long distance. It is indeed a treasure related to the 'robbing armor' refined by the sitting mountain guest." Wang Yi sighed.

"But it's too slow to fly like this. It takes a long time to collect a complete set of armor beads. If it can be teleported, it would be great." Wang Yi thought of this, and laughed at himself.

This is the garbage star field of the human race, and it is also a treasure. It is absolutely strictly controlled, and the private use of space transmission and teleportation is prohibited. Only the super existence of the human race can enter and exit at will.

What's more important is that although Wang Yi signed in every day these days, he didn't give any good rewards.

Add up to less than 10 mixed yuan units, not to mention the rewards related to "Jia Jia" and "Nine Tribulations Secret Code".

Wang Yi looked at the vast starry sky and endless mountains of trash, feeling that he had "a long way to go".

Keep flying.

And the two immortal gods who had been flying with him also murmured in their hearts. This Royal Highness Wang Yi seemed to behave a little strangely.

But of course they dare not show it, they are still warm and respectful.

Maybe this is the quirk of peerless genius.

They thought.

...

After the 13th day.

Just when Wang Yi was brought down here, a towering mountain of **** like a giant planet full of debris and waste, he could feel an extremely strong call that caused his blood flow rate to soar all over his body, and every cell was boiling. Reached the point of running away.

"Huh!!!" Wang Yi's eyes exploded.

"You are waiting for me here." Wang Yi said to the two immortal gods who had been conscientiously leading him on the road, and then his figure turned into a flash of light and flew quickly in the direction of the garbage mountain.

"Korzelong" and "Ava" two immortal gods spoke from the command and stayed behind, watching Wang Yi's figure go away.

However, their immortal power has swept an area of several million kilometers in a circle, and with the monitoring of the star map, they are not worried about the sudden killing of the alien race.

"His Royal Highness Wang Yi is really not entertaining, he is really interested." The two immortal gods are still in the mood to chat.

"Well, after all, Your Royal Highness is still young. It's normal to have this interest when I came to Trash Mountain to shop for treasure for the first time."

"I don't know how long your Highness will stay here."

When the two immortal gods were chatting, they were always paying attention to Wang Yi's movements, seeing him flying into the huge mountain of trash with their own eyes. At the same time, they were slightly relaxed, and it seemed that His Highness would not leave immediately.

And Wang Yi, like a sharp arrow, forcibly pursued the induction on the garbage mountain planet with a diameter of hundreds of thousands of kilometers, and quickly went deep inside.

Soon, he drilled into an area tens of thousands of kilometers deep, and at the same time he felt a lot of messy calls nearby, located in all directions, at least seven or eight.

The degree of strength varies.

He immediately understood that this was fragments of broken nail beads scattered here.

"boom!"

Wang Yi used his powerful mental power to push away the obstacle in front of him and rushed to a place tens of thousands of kilometers away. At a place with strong induction, he could see at a glance that a piece of armor was deeply embedded in the wreckage of a spacecraft.

"Come here!" Wang Yi made a move, and wrapped the piece of armor with mental power, pulled it out of the metal plate of the spacecraft, brought it back in front of him, and hovered in front of him.

This piece of carapace fragment was about the size of a foot long, half a foot wide, and the thickness of a thumb thick. The whole body was silver, and it was suspended there.

"Well, silver, this should be a fragment of the 'General Armor'." Wang Yi observed the continuous waves of summoned carapace fragments, and slowly approached.

When Wang Yi approached a distance of about five meters, the fragments of the dead carapace that were originally suspended suddenly seemed to contain life. The entire fragments of the carapace were squirming, and at the same time they flew towards him violently, as fast as lightning, and instantly pounced. He reached his right hand and directly touched Wang Yi's skin to get into his body.

However, Wang Yi had already prepared, and his mental power abruptly encased the fragment of the carapace, and then transferred it to the world ring given by King Longjue.

Because the world ring that King Long Jue gave him has been refined and bears Wang Yi's spiritual imprint, it will not be refunded until he leaves the Wulong Star Territory, so Wang Yi can temporarily use this world ring~www.mtlnovel.com~the inner part of the ring The world is 100,000 kilometers long, wide

and high, and the objects that Wang Yi brought out of the Wulong star field can only be placed in it. The volume of the removed items will be calculated by the system, and once the volume has accumulated to 100,000 kilometers, the length, width and height will naturally be recorded.

"success."

Standing in place, Wang Yi glanced around, and waves of summoning came from other directions.

But Wang Yi is not in a hurry.

"Now... sign in first."

"Sign in!"

[Ding, congratulations to the host for signing in successfully, reward 'Wang Jia' (Quantity: 1). 】
