

## A God 261

### [Chapter 261: Wang Jia](#)

"Wang Jia?"

Wang Yi moved in his heart.

Soldier armor, general armor, king armor, imperial armor... these special armors actually come from another treasure, the 'robbing armor'.

This robbery...under the provision of special resources, it can give birth to a large number of armor beads of varying power, namely, soldier armor beads, general armor beads, king armor beads, royal armor beads...because the robbery armor and the earth people, Yan The Protoss was created by Sitshank. Those armor beads are very suitable for the Yan Gods, but they are all used by the Venerable Universe. They can at most provide the overall combat power of the entire race.

Soldier armor, general armor, king armor, imperial armor... It has nothing to do with the law and perception, it has to do with the strength of the body!

Soldier armor, the peak of the ordinary human realm can be fully carried, increasing the peak power of the realm a hundred times (the bottom line of immortal power), and reaching ten times the physical strength of the realm's peak can exert a thousand times the power of the peak of the realm (Fenghou immortal power bottom line) ).

General Armor, when reaching a hundred times the physical strength of the pinnacle of the realm master, he can exert the power of the pinnacle realm master tens of thousands of times.

Wang Jia, tens of thousands of times the peak of the human world lord can carry it, and the limit is one hundred thousand times the power of the peak of the world lord.

The emperor can only be carried by a million times the peak of the human world lord, and the limit is to increase the power of the peak of the world lord ten million times.

In addition, Wang Jia, material attacks less than 100,000 times the power of the realm master will be completely blocked by Wang Jia, and soul attacks below the peak of the king will also be completely blocked by Wang Jia. Even an attack that exceeds 100,000 times the power of the realm master... will weaken it by more than 90%.

After reading Wang Jia's message, Wang Yi was also a little delighted.

The defensive effect of Wang Jia, to be honest, is comparable to the value of many treasures... But apart from the race created by Zuoshanke, other races even if they get it, they can't use it, they can only watch it.

The human race has also been studying how to make the secret of using the armor of the Yan God race. This caused Luo Feng in the original work to go to Hongmeng City and spend 5 billion yuan to buy a king armor... But in fact this is a human being. High-level temptation.

"I used to have a purgatory armor, which is also a heavy-treasure-class armor, but how do you feel that it seems to be a bit worse than this king armor?" Wang Yi wondered in his heart.

The Purgatory God Armor is a treasure rewarded by Wang Yi after passing all the inheritance from the Purgatory Temple. Soul attacks and material attacks can resist over 90%! And it can be matched with the secret method of purgatory armor to greatly enhance the user's combat power.

However, the Purgatory God Armor can only be used perfectly by the "Purgatory God General". And Wang Jia can only be used by the Yan Gods, the earthlings, and has strict requirements on all aspects of the body, and there are restrictions on use.

Wang Yi calculated that in actual use of power, the Purgatory God Armor should be the same as Wang Jia.

"Regardless of the Purgatory God Armor, the King Armor... the defense power may be tempted by many venerables. If there is no limit, it is definitely a venerable-level armor." Wang Yi understood in his heart.

but.....

There are restrictions on the simultaneous integration of defensive treasures. For example, a battle suit that blends into the skin can only be worn on one battle suit. It is absolutely impossible to say... a strong man, at the same time, pass ten or a hundred suits.

And if the armor beads and the armor beads are completely integrated into the muscles, viscera, etc., then only one armor or one armor can be worn.

As the body is integrated into the use of the Purgatory God Armor, you have to force the Wang Jiazhu out to use it.

The truth is the same, only one defensive treasure of the same type can be used at the same time.

""Wang Jiazhu" and "Purgatory God Armor", I can only choose one of the two at the same moment..." Wang Yi pondered.

"However, I have a clone of the Void Zerg clan and a giant flame star. Regardless of the Purgatory God Armor or the King Armor, I can use both bodies in the future."

"Moreover, if I can continue to get the Royal Armor or a Royal Armor, I can continue to depend on the situation."

Wang Yi looked at the quietly floating and spinning golden ball under the sign-in panel, with a golden secret pattern on it. A very complicated text, but Wang Yi can recognize this type of text—the Yan God clan text.

"Wang Jiazhu..." Wang Yi said softly.

When Wang Yi moved, this Wang Jiazhu disappeared and entered the realm of time.

In the time world, this world is vast, with endless mountains and vast lakes. A golden light descends from the sky and falls on the huge chaos monument that is 100 meters high. The avatar of the Void Zerg

who is comprehending the maintenance of the human body image stands up and looks at this. Wang Jiazhu.

"Let the Void Zerg clone try first."

call! The golden orb with mysterious fonts faintly on its surface seemed to be attracted by something, and rushed towards the avatar of the Void Zerg.

The clone of the Void Zerg race also has nine calamities in cultivation, and can use this king armor.

The moment it touched the Void Zerg clone, the golden orb quickly turned into a golden liquid and merged into the Void Zerg clone's skin, and began to converge in the body. These mysterious golden liquids seemed to be easily integrated with the void zerg clone's skin and muscles.

"Boom..." Upheaval happened suddenly.

Wang Yi looked at his naked chest, with a golden secret pattern on his chest.

A very simple word-King!

Wang Yi looked down at the "king" mark on his chest, and then the mark disappeared automatically.

Although it is invisible to the naked eye, it senses that there is a mark of the king lurking under his chest, and the golden liquid energy before it is completely integrated into the mark.

To become the master of Wang Jia, the Wang also knows the most basic message, "This Wang Jia can be big or small, large and almost infinite, and small is almost infinitely small. However, everything needs the body to push and exert a great load on the body. "Wang Jia, there is power in itself.

With a move of his mind, Wang Yi began to urge the mark of Wang Jia on his chest.

"Chichichichi..." The Wang Jia's mark on the chest and abdomen shot out thousands of golden threads, entwining every part of the Void Zerg Clone's body, and immediately covered him with a thin and thin golden carapace, making the whole void. The Zerg clone became completely golden.

Soon, a set of streamlined golden armor appeared on the surface of Wang Yi's skin, and a pair of golden combat boots appeared on his feet. A golden mask appeared on his face and a battle helmet on his head.

Wang Yi's Void Zerg clone is already 840 times the genetic level, plus 10 'Fire Sky Beast God's blood' fusions, which is 5 times higher, plus the power of the ancient gods doubled, and the total is about 5,000 times the touch!

The secret method of the purgatory god, the body strength amplitude is a hundred times!

It is half a million times the power!

The requirement for the use of 'Wang Jia' is that 'Ten Thousand Times Lord's Peak' can carry ~[www.mtlnovel.com](http://www.mtlnovel.com)~ to exert the 'One Hundred Thousand Times Lord's Peak Power'.

The immortal divine body of mankind was crowned king and reached the peak, which was only 100,000 times the power of the realm master.

The power of Wang Yi's Void Zerg clone can now bear the burden brought by Wang Jia without feeling any pressure at all.

He increased his power, and the power provided by Wang Jia also increased.

When Wang Yi's physical strength is ten thousand times the peak of the world master, Wang Jia's power is one hundred thousand times!

This is the limit of Wang Jia!

He already felt that he should have urged this king armor to the extreme.

#### [Chapter 262: Emperor](#)

Powerful kings are divided according to their strength, generally divided into primary kings, high kings, and peak kings!

The immortal divine bodies of Fengwang Primary generally reach 10,000 times the power of the realm master.

The high-ranking \*\*\*\* body is about 30,000 times the power of the realm master.

Feng Wang Pinfeng's body is about 100,000 times the strength of the realm master.

And 100,000 times the power of the world master... is the almost highest state of immortality of human beings, and there is no way to break through the chances of not going against the sky.

However, among the powerful kings, there is one who possesses the "secret technique of body amplitude" or the secret technique of talent and other special abilities.

For example, Wang Yi's secret method of purgatory gods is a secret method of body amplitude.

For example, the secret method and "strengthening" talent of Golden Horn Giant Beast.

Another example is a treasure similar to the "Wang Jia" that can greatly increase the power.

Or it is even rarer to directly increase the power of the law and the limit of the genetic level!

Everything is possible!

And the secret method of human body amplitude is very, very few. Generally, the amplitude is 3 times 5 times, which is very rare.

As for the inheritance of the gods...the number is too scarce! Even the Venerable Universe is rushing for this place, and a large number of ethnic powers in the Hongmeng robbed it. It usually costs tens of billions of units and owes a bunch of favors to get the inheritance of the gods, which is not what ordinary kings are qualified to do. .

Therefore, the person who is strong enough to be a king is normal, that is, to be a primary king, a high-ranking king, and a peak king.

Only a few who possess body-amplitude-type secret methods or soul-amplitude-type secret methods, or create their own peak secret methods, or some special circumstances, can burst out the ultimate combat power of the king.

Above it!

The combination of many adventures plus one's own abilities, etc., can create a crowned king comparable to the ordinary cosmos venerables, such as the Heavenly Feather King and the Zhenyan King.

The power of today's Void Zerg Clone clone may be barely close to the level of the king's limit.

After all, the ultimate power of the king, under the body amplitude secret method, the body can completely explode at a million times the power of the world master.

But don't think that this is the true strength of the immortal gods.

The immortal spirit burns under the immortal power... the power of the attack can soar many times!

There is also self-destruction, the immortal body self-destructs, equally powerful.

"Well, I use Wang Jia as a clone of the Void Zerg, and I can easily mobilize all of Wang Jia's power-100,000 times the peak power of the realm master." Wang Yi felt that he reached a realm like Wang Yi, and his power judgment was very fine.

But Wang Yi also understands.

Even if Wang Jia's power is urged to the extreme, it is 100,000 times the power of the peak world master, and all add up to 600,000 times!

For the Void Zerg clone... the increase in strength is actually very limited.

In a battle at the same level, it can't have an absolute advantage, and it has to rely on law perception, secret methods, and other means.

However, if it is relatively weak, like Ten Thousand Times Realm Master's peak physical strength, it will be increased tenfold, which is still very impressive.

I can only say...the Void Zerg clone is too strong!

"If there is no such a hundred times the amplitude of the Purgatory God General's secret technique, the Void Zerg clan clone would be five thousand times the power of the peak world master, but with the Purgatory God General's secret technique, this power will be increased by a hundred times." Wang Yi shook his head and sighed.

This is just the clone of the Void Zerg in the first calamity of cultivation.

Therefore, the basics and secrets are very important! It's all part of the strength!

Power is just the foundation, like the immortality of the prince, if the law is strong enough, you can also display the power of the prince, which is equivalent to increasing the strength in disguise, in fact, it can be regarded as the immortality of the prince.

Feng Hou! Seal the king! In fact, it's just a title that represents the level of strength.

With the reward of the "Wang Jia", Wang Yi was encouraged again, and he continued to collect the remaining pieces of armor on the planet Garbage Mountain.

Now that you encounter these things, you can take them away and leave them to the people on earth or your own family or forces to use.

It can also be regarded as "accumulation".

Time just passed by day by day.

Came to the 4th year of Wulong Star Domain.

Whoosh—

Two streamers flew quickly from a distant starry sky and landed on a planet formed by a towering mountain of garbage.

"Just wait for me here." Wang Yi looked at the trash mountain ahead.

"Yes, Your Highness." After these three years of "running around", the two immortal gods were already numb after flying again and again.

Seeing Wang Yi leaving, they looked at each other and unanimously silently separated a trace of consciousness to connect to the virtual universe, and relieved the boring emotions in the virtual universe.

Others come to Trash Mountain Taobao every time the most time is one year.

But Wang Yi stayed here for 3 full years.

The two immortal gods, including King Long Jue, were puzzled. His Royal Highness Wang Yi didn't look like a "playful" type of person... Why did he play for so long in Garbage Mountain this time? "NS.

Garbage Mountain also has a separate Taobao business.

In addition to buying goods to give away Taobao World Rings, you can also come to Taobao alone.

1 Hun Yuan buys a small world ring, 10 Hun Yuan buys a medium world ring, and 100 Hun Yuan buys a large world ring. At the same time, Taobao time can be purchased separately... It can be Taobao for 1 year, 10 years, or 100 years.

That's why Wang Yi has been here for such a long time.

In the past 3 years, Wang Yi obtained a total of 681 black carapace fragments, 48 silver carapace fragments and 6 fragmentation blades.

About 110-120 black carapace fragments are combined to form a perfect armor. In other words, 5 "soldier armors" can be made up.

And the scarce and much more "Jiang Jia" is not enough.

The most important thing is that there is no "Wang Jia" fragment, "Imperial Armor" fragment here.

Perhaps because of the "Royal Armor", the "Imperial Armor" material withstands attacks far better than other armors, and it is not that easy to be broken.

In the Wulong star field, almost the entire star field stored countless debris caused by ethnic wars. All kinds of debris blocked the starry sky, and of course they were divided into pieces in an orderly manner.

Wang Yi followed the sense of calling skillfully into a planet of trash mountain.

"For so many years, I have signed in every day. Wang Jia and Huang Jia have not signed in. Instead, I have signed in two pairs. Adding up the other rewards and materials, there are about 10 million yuan units." Wang Yi felt a little bit in his heart. resignedly.

Sign-in is good, but this randomness can sometimes make people crazy.

"Stay here for three years, three years have passed, and the time world has also passed three thousand years... It made me thoroughly understand the sixth picture of the cosmic chaos stele." Wang Yi secretly said in his heart. "Now, I have fully understood all the six pictures in front of the cosmic chaos stele. I truly have my understanding of the 18th floor of the Tongtian Bridge."

Three years ago, he was assassinated by a foreign race, and the venerable descended, that froze thousands of miles of time, and the incredible sword technique touched Wang Yi at that moment.

Let him have the opportunity to thoroughly understand all the six pictures in front of the cosmic chaos stele.

The original law of time and space reached another level in Wang Yi's eyes.

What made Wang Yi even more pleasantly surprised was that his perception of the law of space reached the 18th level. His Void Zerg clone used the core secret pattern of life to resonate with the space, and he could naturally use the ability of "teleport".

The immortality of other kings is the ultimate understanding of the law of space, can understand the teleportation.

The clone of the Void Zerg is due to its special spatial talent. When the law is deeply felt, or when it breaks through to immortality, it can automatically master the powerful spatial ability of "teleport" with the bonus of talent!

But his other body doesn't have this ability yet.

"With teleportation, it will be very convenient whether it is fighting, running away or on the road in the future." Wang Yi was very happy at that time.

The huge junk planet is tens of thousands of kilometers deep.

"Sign in." Wang Yi dug out the pieces of armor, habitually signing in.

[Ding, congratulations to the host for signing in successfully, and reward 'Emperor' (Quantity: 1). ]

【Number of check-ins available for this place: 0】

[Chapter 263: Five million world masters](#)

In the space grid of the sign-in panel, there appeared a purple-golden orb with a text-Huang formed by mysterious and ancient lines.

The emperor!

Wang Yi was delighted, and then accepted the information from it.

It has been three years since Wulong Star Territory Taobao has come. This is the best reward that Wang Yi has ever signed.

The supreme treasure "Jie Jia" refined by the mountain guest belongs to the top supreme treasure and even the pinnacle supreme treasure.

There are many types of treasures, including melee type, long-range attack type, mental mind type, armor type, town seal type, palace type, soul type, domain type, special type...

Among them, the level is divided into ordinary, advanced, top, pinnacle, and Xeon.

Let me put it this way.

Just like the famous treasure "Qianbaohe" of Chaos City Lord is one of the top treasures. It is that most of the many cosmic masters who stand at the pinnacle of the universe can't get this kind of treasure.

Just like the powerful race in the universe, Emperor Yan of the Yan God race can rebel against the human race and make the super powers of the human race helpless. In addition to the "Sit Mountain Guest" behind him, his own "Jia Jia" is also indispensable.

This Jie Jia is a treasure that is enough to make some super beings jealous, such as Emperor Yan. Even the Chaos City Lord... is enough to fight for such a treasure regardless of life and death.

The armors bred from such treasures, the generals, the kings, and the emperors also have some of the characteristics of the "maternal body." Power.

And the immortal divine body of the peak of normal human beings is one hundred thousand times the peak level of the realm master, one million times! ? Perhaps only the Yan God Race, which is extremely powerful in physical talent, can easily meet this condition.

"Try it." With a thought to Wang Yi, the purple-golden orb suddenly appeared in the realm of time.

The time world is different from the world ring, just like the pronucleus, it is completely controlled by Wang Yi, so it is very convenient for objects to enter and exit.

Of course, only Wang Yi's deity and clone can enter the time world. Other lives cannot be brought in. Even if a life is put in the world ring, the world ring cannot enter.

And the inner world like the clone... is also lifeless.

After breaking through the immortality and transforming into the kingdom of God, and the kingdom of God merges into the space mezzanine, there will be no such worry.

"Now that the Void Zerg clone can explode more than half a million times the power of the realm master, let me see what level it has improved!" The Void Zerg clone raised its head and looked at the luxurious purple-golden orb on it. There is also a mysterious word "Emperor" from the Yan God Race.

The Void Zerg clone began to merge with the "Imperial Armor Bead" for the first time.

Fusion!

Large amounts of purple-gold liquid converge and fuse in the body.

"Boom!" When the fusion of the body and the Emperor Jiazhu was completed, drastic changes occurred in an instant!

Wang Yi felt a tremor all over his body, and then a mysterious text imprint appeared on his chest.

This is a lavish purple-golden text mark, revealing the ultimate noble and domineering, it is the Yan God Race text-"Emperor"!

Numerous purple-gold silk threads quickly took the "Imprint of the Emperor" as the core and diffused, seeming to blend into every muscle and skin of the Void Zerg clone, and quickly spread throughout the body. Under Wang Yi's conscious control, a surface appeared on the surface of the skin at the same time. Set of streamlined purple-gold armor, a pair of purple-gold combat boots were automatically born on the feet, a purple-gold mask appeared on the face, and a battle helmet on the head.

A powerful and surging coercion rushed in all directions centered on the purple-gold figure, and the space was slightly shaken and distorted.

"Woo..." Wang Yi in the purple-gold armor snorted and frowned slightly. He felt pain in every muscle and nerve in his body, as if his body was about to tear.

This emperor armor far exceeds the power that the emperor armor had before.

Wang Yi's urge was pressed to the limit of his body, unable to afford it, and his body was extremely painful.

"I'm probably just urging 5 million times the power of the world master." Wang Yi quickly sensed and calculated.

And this is far from the ultimate power of the emperor.

5 million times the peak of the world lord!

The power of the peak divine body of ordinary human beings is only 100,000 times the peak of the world master!

However, Wang Yi's clone of the Void Zerg urged the "Emperor Armor", but it could reach 50 times the power of the pinnacle of the king!

And in terms of defense, performance has once again improved a lot! Material attacks lower than 1 million times the power of the realm master will be completely blocked by the emperor, and soul attacks below 1 million times the power of the realm master will also be completely blocked by the emperor.

Even an attack that exceeds 1 million times the power of the realm master will weaken more than 90%. In terms of weakening effect, Huang Jia is much stronger than Wang Jia.

"I have now reached the level of the 18th floor of the Tianqiao Bridge, which is the immortal level of the king, although I am only a newcomer... But because I am practicing the cosmic chaos stele, the law perception is not necessarily better than those of those who have been practicing for hundreds of millions of years. The veteran king is immortal!"

"The law perception conditions are met. In the secret method, I can use the secret method taught by the "Universe Evolution" and the teacher, or I can create my own! Anyway, this software has reached the standard!"

"In terms of strength, I have a clone of the Void Zerg to mobilize the emperor, and now I have 5 million times the power of the realm master, and I absolutely must exceed the limit of the king!"

"In terms of treasures, I am a little weaker in weapons, but the defensive treasures are very strong. The soul defense has the "Eye of the Abyss". Even the immortal soul of Fengwang Peak can be attacked, not to mention that I am very strong now, absolutely more than Partly immortal, not too bad in terms of soul."

"The most important thing is the emperor. Attacks below a million times the power of the master cannot harm me at all. Even if it exceeds a million times, it can weaken by more than 90%. I am afraid that there is only the extremely powerful limit burning power of the king. In order to cause some threats to me." Wang Yi was a little excited.

One hundred thousand times the power of the pinnacle world master is considered to be the peak of the king, and the peak of the king burns the divine body. It can also reach the maximum lethality of the king, which is to the extent that it can cause damage to the Wang Yi who is equipped with the emperor.

The inability to burn the divine body is regarded as a shortcoming of Wang Yi now.

Unless he gives up the advantage of law perception and tries his best to enter immortality.

Although the internal world is independent, no matter which one of the three major bodies reaches immortality, all bodies must be transformed at the same time and break through to immortality due to certain limitations.

Of course it is impossible for Wang Yi to do this. He has not yet chosen his fourth clone, and Wang Yi already has a plan for the fourth clone.

Not to mention, there are many conditions for breaking through to immortality, and it must also meet the conditions for all four bodies to break through at the same time. It is much more difficult to enter immortality than a single Flame Star Giant Beast clone or a Void Zerg clone.

"It took three full years to get the Emperor Armor, and the next few kalpas of the Nine Tribulations Secret Code, I don't know when we can get it." Wang Yi flew out of the trash mountain with emotion in his heart.

"There are also the descendants of the "Primary Soul" corresponding to the descendants bred by Jie Jia, and none of them have actually signed in."

The robbery gave birth to soldiers, generals, kings, and emperors.

The original soul gave birth to the sent troops soul, general soul, king soul, and emperor soul.

Those armors, generals, kings, and imperial armors can only be used by the Yan God tribe, which is a special race led and evolved by a mountain guest, and Wang Yi, who has practiced the Secret of Nine Tribulations, can also use it.

The sub-body of the original soul... Soldier soul, general soul, king soul, and emperor soul must also be the souls of earthlings to be used.

"Original soul... now in the second disciple of Zuoshanke, Emperor Yan, the master of the universe, only Emperor Yan, earthlings, or people who practice Nine Tribulations can use the original soul and its descendants." Wang Yi secretly said in his heart. .

"Unfortunately, Trash Mountain doesn't seem to have those soldier soul beads and other fragments. I haven't signed in for these years."

Wang Yi is actually very greedy for the original soul~www.mtlnovel.com~ The original soul is unlikely to be signed in... its children, such as the king's soul, and the king's soul, Wang Yi still wants it very much.

After all, in addition to the inheritance of the Purgatory God Generals for enhancing physical strength, Wang Yi also has the inheritance of the Magic Sound God Generals for enhancing the soul. Although the inheritance of the Magic Sound God Generals is not as complete as the inheritance of the Purgatory God Generals, there are more than 80 times the soul amplitude!

Moreover, Wang Yi also has a "Magic Sound God General Inheritance Crystal", and sooner or later he will be able to accept the complete magic sound God General inheritance, reaching the limit of the soul amplitude!

With this, coupled with Wang Yi's extremely strong will and soul talent, he naturally has the conditions to use the king's soul and the king's soul!

If the "Emperor Soul" is added, even if only part of its power is used, Wang Yi will no longer have any shortcomings. With the "teleport" and spatial talent of the Void Zerg clone, there will be no fear, and he can completely play on the outer battlefield. Massacre!

Unfortunately, Wang Yi could only think about it if he couldn't sign in.

#### [Chapter 264: 9 calamity second and third calamity](#)

Wang Yi was in a very good mood after being awarded the "Emperor First" again.

The power of "Huang Jia" is much stronger than "Wang Jia".

"Well... now I have Wang Jia, Huang Jia and Purgatory God Armor. After I break through to the realm master level, I can have three bodies." Wang Yi was in a happy mood.

"His Royal Highness." Seeing Wang Yi coming out of the trash mountain, the two immortal "Ava" and "Korzelong" who were guarding outside hurriedly withdrew from the virtual universe.

"Well, let's go ahead and go first..." Wang Yi swept his eyes and landed on a towering trash mountain in the distance, "Just there."

"Okay, Your Highness." Now Ava and Keerzelong are not even complaining, with smiles on their faces.

"Huh." The two immortal gods wrapped Wang Yi with immortal divine power, turning into streamers and flying towards the distance.

The vast and stretched palace complex in the void outside the Wulong Star Territory, the palace at the highest point, King Long Jue had handled the important tasks at hand, after leisure, he thought of Wang Yi who was still hunting for treasure in the trash mountain, he inquired... ..It was found that Wang Yi also took two immortal men to hunt for treasures everywhere in Trash Mountain, and he was puzzled.

"This Wang Yi is too playful." As long as anyone with potential, King Long Jue will not easily offend him. In fact, staying with Wang Yi for a few days is not a big deal, but suppose Wang Yi wants to search for treasure in the trash mountain. I'm afraid it will take a long time.

This is also one of the reasons why King Long Jue had learned that Wang Yi was going to Trash Mountain to search for treasure, so he didn't ask for his company, but directly let the two subordinates follow him.

"One Taobao is three years, and the domain master level was originally a time to concentrate on cultivation, and he was a waste of time."

But King Long Jue just thought about it, he wouldn't say such things to Wang Yi.

"I just don't know when Wang Yi will come out. King Yingge and King Yunyu all want to meet this Wang Yi. They have come to me. I can't refuse... the most dazzling genius in human history. Identity, there are so many people who want to make friends." King Long Jue muttered to himself as he looked at the vast and deep starry sky outside the palace.

"Even the overbearing and arrogant people of Nightmare Candle King want to show their favor to Wang Yi. It seems that I have to work harder."

Although Wang Yi's status as a peerless genius was respected and valued by them before, more of it still remained in the mind...Until the alien race sent three immortal kings to assassinate, the sage of the human race suddenly appeared to protect Wang Yi, this kind of attention Extent... Let Long Jue King, the senior officials of the Wulong Star Territory, have a deeper understanding of Wang Yi's status in the minds of the human race seniors.

At this time, I still don't agree and make good friends. When Wang Yi really rises and becomes the overlord of the human race, it will be too late.

Garbage mountain.

"Here I found 11 black carapace and 1 silver carapace, but I didn't sign in what I wanted."

This is four months after receiving the Emperor's Armor, and it has been almost three and a half years since Wang Yi has arrived in Wulong Star Region.

He began to get bored with this endless and boring work on Taobao.

Soldiers and generals are really of little value to him.

It is almost impossible for Wang Jia and Huang Jia to find fragments here.

The main reason why he stayed here for so long was to sign in for the next exercises of the Nine Tribulations Secret Code.

At his level, ordinary treasures, he doesn't pay much attention to it.

He now has more than 100 million yuan in cash on his body, and with the addition of treasures, his wealth can be doubled.

Not to mention the emperor armor, the purgatory \*\*\*\* armor, the eye of the abyss, such a treasure that even the immortal king would covet.

In terms of net worth, he is definitely comparable to the venerable, and this is still not to add some extremely special treasures, such as the cosmic chaos monument.

The chaotic monument is hard to describe with specific value.

Wang Yi's exploration of Taobao in Trash Mountain continues.

...

...

In a blink of an eye, another nine days passed.

On this day, when Wang Yi and the two immortal gods flew over a mountain of ordinary garbage, they had not sensed any other debris.

Because it is set to automatically sign in every day, every 24 hours, the sign-in panel will automatically retrieve the surrounding environment, and once the requirements are met, it will automatically sign-in.

"Sign in."

[Ding, congratulations to the host for signing in successfully, and rewarding the second and third calamities of the 'Secret Code of Nine Tribulations'. ]

[This reward is the highest reward for the current location, and you can no longer get any rewards here. ]

【Number of check-ins available for this place: 0】

"Um!?"

Wang Yi's body suddenly shook, and his soul seemed to agitate.

Secret Code of Nine Tribulations!

Or the second and third calamities appear at the same time! ?

This surprise came so suddenly that it completely smashed Wang Yi.

At the same time, a mysterious power came again quietly and silently, covering Wang Yi.

At this moment, the rules of Wang Yi's space were rewritten.

The primordial universe is still moving slowly, as if it doesn't know that there is something going in and out of it frequently.

The two immortal gods who were flying with Wang Yi were unaware of this and knew nothing about it.

And Wang Yi's body...including the two avatars of the Time Realm, the body undergoing an incredible transformation at the same time.

The original "Secret of the Nine Tribulations" must be flesh and blood to be able to cultivate. This set of the secrets of the Nine Tribulations allows the cultivator's body genes to continuously rise and improve, reaching the genetic level of some rare races in the universe.

The body genes of the first tribulation are increased by 3 times!

The second tribulation body gene is increased by 6 times!

The third tribulation body gene is increased by 12 times!

...

The eighth calamity has increased the body's genes by 384 times!

The Ninth Tribulation's body genes increased by 768 times!

And before the Lord of the Universe, ordinary beings in the Universe could increase their genetic level by 100 times at most! This is a limitation of the rules of the universe!

hundred times! It's the limit!

Unless you become the master of the universe, you can raise the genetic level of life to ten thousand times!

Or some special beings... the level of innate genes is hundreds or thousands of times!

The higher the level of innate genes and the stronger the foundation, the greater the improvement of the Nine Tribulations Secret Code!

At this moment, Wang Yi's body genetic level has tripled to 12 times!

The avatar of Yanxing Giant Beast has increased from 30 times to 120 times!

The clone of the Void Zerg has increased from 840 times to 3360 times!

And since this primitive universe opened up, it is probably the first time that life has undergone such a rapid and incomparable change, but it has been completed silently in an instant.

Wang Yi, once again completed a transformation!

The imagined ecstasy did not appear, on the contrary, Wang Yi's mood at this time was somewhat calm.

It's just a faint joy lingering in my heart.

In the world of time, the clone of the Void Zerg race and the clone of the Yanxing Giant Beast opened their eyes at the same time, and there was joy in their eyes.

He clenched his fist, feeling the power many times stronger from above.

"The third calamity of the Secret Code of Nine Tribulations, 12 times!"

"The blood of the beast god, I have only merged to more than 30% of the second step and 100% of the third step limit. It requires a stronger will. I am afraid that it must be at least the noble level to do it, and this amplitude effect is still It will continue to weaken as my genetic foundation improves."

The human body ~www.mtlnovel.com~ Void Zerg clones can be increased by 10 times by fusing 10 Flame Blood Jade!

For the Yanxing Giant Beast clone, you need to fuse 100 Flame Blood Jade to increase it by 10 times!

To reach Consummation, the human body and the Void Zerg clones need to fuse 100, while the Yanxing Giant Beast clones need a full 10,000! Of course...Because of the pedigree of the Yanxing Giant Beast, the difficulty of fusion is much lower than that of other beings.

It is difficult to fuse flame blood jade, but Wang Yi has exchanged many "bloods of fire and sky beast gods" from the virtual universe company, but has not yet used them. The difficulty of fusing the blood of beast gods is much lower than that of fusing flame blood jade. .

"But the purgatory \*\*\*\* will inherit the secret method, but it can keep my body strength a hundred times the amplitude of strength! This is very powerful." Wang Yi smiled with satisfaction.

"Ava, Korzeron, let's go back." He said to the two immortal gods.

[Chapter 265: Nightmare Candle King](#)

Wulong star field.

A group of palaces suspended in the starry sky.

The most lofty and tallest palace in the palace group, there are large groups of white-clothed guards standing at the door, all of these white-clothed guards are the peak strength of the world lord.

In the splendid and luxurious palace, there were bursts of hearty laughter.

"Come, come, Your Royal Highness Wang Yi... I'll introduce you." Long Jue Wang Hongsheng, who was sitting on the spacious golden wafer table, laughed and introduced Wang Yi to the other four immortals around him.

At the top management of Wulong Star Domain, there are a total of five people from the virtual universe company, the giant axe fighting field, the first bank of the universe... these five human forces.

But now, the five highest officials in Wulong Star Territory gathered together to entertain Wang Yi, the genius of the primitive secret realm of the human race.

As the owner of this place, King Long Jue did his part to introduce him.

"This is King Darhu from the First Bank of the Universe."

Sitting on the side, Wang Yi looked at the tall and thin man with curly hair and green skin. He also nodded and smiled to Wang Yi.

"His Royal Highness, the first time we met, it was indeed an extraordinary demeanor. He deserves to be a famous peerless genius of our human race." King Dahu smiled.

"Hello, King Dahu." Wang Yi also smiled.

King Long Jue continued to introduce: "This is the Hidden Ge from the Universe Mercenary Alliance."

King Yin Ge, whose appearance is very similar to that of people on earth, except that his body hair is more luxuriant, and his eyes are like blades. He is smiling and nodding towards Wang Yi.

"His Royal Highness Wang Yi."

"King Yin Ge, hello."

"Also, this one is the King of the Rain from the Bank of the Universe Galaxy."

King Rain, this is a humanoid creature with four arms and four eyes, and the invisible breath looks very cold.

However, he also seemed very polite to Wang Yi.

"As for this... is also a legendary peerless genius, who broke through to immortality at the time, has the peak strength of Fenghou-level, he... is the Nightmare Candle King!"

King Long Jue's voice was louder, and he was obviously more enthusiastic about the Nightmare Candle King.

Wang Yi looked at the other side of the dining table. The beautiful man in a gorgeous white robe was a beautiful and thrilling man.

He has long flowing silver hair, crystal clear skin and perfect features.

There is also a faint mysterious secret pattern on the forehead, adding an ancient and eternal breath.

Just such a beautiful man, standing there, the other four persons in charge, including Wang Yi, seemed to be a foil.

The Nightmare King, with a faint arrogant smile on his face, also looked at Wang Yi.

"His Royal Highness, I have been admiring a great name for a long time. I don't know why... I feel very kind when I see you. It's a rare meeting today. We have to have a good chat." Nightmare Zhu said in his mouth, but felt in his heart. A bit unhappy, he prides himself on being noble, but he hates peerless genius like Wang Yi the most in his life.

"I heard that Wang Yi, like Zhen Yan's new disciple Luo Feng, came from the earth and is a good friend. My father knew that I was at odds with Zhen Yan, so he asked me to befriend Wang Yi. It's really..." The Nightmare King felt annoyed in his heart.

Although angry, he dared not directly defy his father's orders, but in his tone, the Nightmare Candle King looked less enthusiastic.

Wang Yi smiled faintly, "If I have the opportunity, I will." He is narrow-minded, and the King of Nightmare Candle, who is bound to report, is not too cold.

Wang Yi's unsatisfactory response made Nightmare King's eyes narrowed slightly.

The other four star field leaders on the seat saw that the atmosphere was not right, and looked at each other. King Long Jue let out a light cough, and laughed: "It's rare for everyone to get together today. What's more rare is that His Royal Highness is also here. We Have to drink and enjoy yourself."

"Yes, Your Highness Wang Yi, I toast you a cup."

"His Royal Highness Wang Yi, I heard that you have been to the Lost Galaxy, and I also did missions there..."

Under the mobilization atmosphere of King Long Jue and others, the subtle bluntness between Wang Yi and King Nightmare was concealed.

After accepting the warm hospitality of King Longjue and others, Wang Yi said goodbye and left the palace complex in a spacecraft.

When the group of palaces in the void behind had become insignificant and invisible, Wang Yi stood with his guard leader Jakesi inside the spacecraft.

Although he was assassinated, Jakes couldn't enter the Wulong Star Territory because no one was leading him. Until Wang Yi came out of the Wulong Star Territory for many years of treasure hunting, the two men saw it.

"His Royal Highness Wang Yi, the kings of the five forces are so enthusiastic about you." Jakesi said with emotion.

"Also, this time your Royal Highness encountered an alien assassination. As your guard, I couldn't help at all. I really feel ashamed." Jakesi's face was ashamed.

He is an immortal \*\*\*\* who is not even a prince. In such a scene, facing three extremely powerful alien kings, it is actually useless, but he feels that since he is the guardian of Wang Yi, he should play a role. There is a role.

"Jakes, you are not to blame, no one would have thought of this." Wang Yi shook his head.

Then there was a weird smile on his face. "And not everyone in charge of the five forces in the Wulong Star Territory wants to see me."

Jakesi was a little puzzled, but seeing the mysterious smile on Wang Yi's face, he didn't ask, but said: "His Royal Highness, shall we start the teleportation of the kingdom of God now?"

"Let's go back." Wang Yi nodded.

Looking back at the direction behind his head for the last time, he also noticed the awkward attitude of the Nightmare Candle King towards him during the banquet.

"Luo Feng..." Wang Yi chuckled lightly.

At the level of Wang Yi's strength, to be honest, the "Second God of God" who relies on his father to break through to the king, like Nightmare Candle, can only break through to the king. His own strength is only average in the king. of.

It was the Venerable Fire Eclipse behind him that made Wang Yi jealous.

Nightmare Candle King? What is it?

The dazzling green light shrouded the surroundings, and the space rippled.

Whoosh!

A vague space channel was created and disappeared in an instant, and Wang Yi's silver spacecraft had already left the Wulong Star Territory through the "Divine Kingdom Teleportation" of Jakes.

It took a few months to fly when I came, but when I went back, because Jacques had already put divine power in the solar system as a guide, he immediately returned to the earth from the distant Wulong star field.

Within the territory of the Qianwu universe, the Heilongshan star field.

Now the entire Heilongshan star field is Wang Yi's domain.

The Milky Way, the Solar System, and Mars in a heavily guarded manor.

Suddenly, a dazzling light appeared out of thin air, and a silver spaceship suddenly appeared.

"Haha...Jax, the scenery of your kingdom of God is really beautiful and magnificent~[www.mtlnovel.com](http://www.mtlnovel.com)~ No matter how many times you see it, it makes people feel refreshed." Wang Yi and Jakes flew out together, followed by a large group of guards.

"Your Highness, if you like it, you can watch it a few more times." Jakes smiled beside him. "Besides, your Highness, you will have your own kingdom of God in the future, and you can create it as you like. The kingdom of God is the foundation for immortal gods."

"Yeah." Wang Yi also had some expectations in his heart.

"Master!" The many guards guarding the manor knelt and bowed together.

This vast manor was deliberately left by Wang Yi on Mars as a location for the transfer of the kingdom of God.

In fact, there are divine tokens left by Jakes on the earth, but Wang Yi chose to return from Mars.

"Earth..." Wang Yi muttered, looking at the beautiful azure blue planet like a magnificent gem in the distance.

### [Chapter 266: Peaceful days](#)

Earth.

Wang Yi sighed after sensing the changes in the two avatars of the time world.

"The effect of the blood of the beast \*\*\*\* on the clones of the Void Zerg has been further reduced."

Like the human body, it used 3 times the genetic level, combined with 10 blood jade, and its strength increased 10 times.

Now it is 12 times the genetic level, and the strength is also increased by 10 times! Up to 120 times!

Yanxing Giant Beast clone, 30 times the previous genetic level, fused with 100 Flame Blood Jade, and its strength increased 10 times! And now the genetic level has been increased to 120 times, and it is also increased to 1200 times!

And the strongest clone of the Void Zerg clan as a special life has an innate genetic level of 280 times. The first calamity of the Nine Tribulations of cultivation reached 840 times... When the 10 flame blood jade was successfully merged for the first time, it was only about 4200 times! It's only improved by less than 5 times!

Now the clone of Void Zerg has successfully practiced the second and third calamities of the Secret Book of Nine Tribulations, and the genetic level has been transformed to 3360 times!

Inspiring the "power of the beast god" again, but only increased by more than 2 times, reaching about 7000 times! But the effect of the power of the ancient gods... disappeared inexplicably.

The effect on the Yanxing Giant Beast can be called the perfect blood Luo power, but it is weakened on the Void Zerg clone.

Just as Wang Yi estimated, the blood of the beast \*\*\*\* is probably not effective against other unique and special beings in the universe.

And the effect is very good when the foundation is weak in the early stage, and the effect gradually weakens later.

"The next time you make a big improvement, you will have to wait until you obtain the following techniques of the Nine Tribulations Secret Code, or you can integrate more blood of the beast gods to reach completion." Wang Yi thought.

But this is not an overnight event.

Wang Yi's current will is not enough. Even if he uses the blood of the beast god, he will not achieve the result of the fusion.

As for the other places where Nine Tribulations signed in, Wang Yi already knew that there was no need to rush for a while.

Maybe in the end, you have to face the ancient powerhouse Zuoshanke.

On earth, in the evening, Yangzhou City's Wang Family Castle, the spacious and bright hall dining table is now full of Wang's people.

Wang Yi sat in the first seat, with his parents on the left, three wives on the right, and eleven children, their wives, husbands, and children lined up along the line. A huge dining table filled almost fifty or sixty people. extraordinary.

Those who can sit for dinner are generally within three generations. For example, Wang Yi's grandchildren and grandchildren, or some grandchildren, rarely appear at the dinner table with members of more than three generations.

"Dad, I will toast you a glass." Wang An, the second son of Wang Yi, said with a smile while holding up the wine glass.

"Yeah." Wang Yi also smiled and held up the wine glass.

Watching the scene where the family happily ate together, Wang Yi was also very happy.

His guard, Jacques, was also sitting on the side of Wang Yi's parents because of his special status.

The youngest daughter who had just been married a few years ago and his husband Ronin also sat in the seats.

Outside, the lights are bright, the guards are patrolling guards, and servants are constantly bringing up fine food.

And in the hall, there were bursts of laughter.

"By the way, Dad, I have something to tell you."

Wang Yuanyuan suddenly said to Wang Yi.

"Well, you said." Wang Yi still loved this youngest daughter very much.

When a father loves a child, he always wants to give her good things, so Wang Yuanyuan gets more gifts among the children. However, the children of Wang Yi's family are close to each other and grow up together, so there is no gap between them. .

"Dad, Luo Ning and I have a baby." Wang Yuanyuan glanced at her husband next to her.

Ronin, who was still a little restrained, nodded quickly.

"Oh?" Wang Yi showed a hint of joy.

"Dad, congratulations on having another grandson." Wang He interjected at this time.

"It's twin brothers and sisters." Wang Yuanyuan corrected.

"Haha...good, good." Wang Yi was really happy.

He is also very happy to see his children start a family, have children, and be happy.

"By the way, Dad, I also have one thing to tell you." The baby Wang among the twin sisters glanced at his brother Wang He, and said with a weird smile: "Fifth brother, has he had a partner recently?"

"Oh?" Wang Yi was really surprised and couldn't help looking at his fifth son.

This child is also the only one in the second generation of the Wang family who is not married. Although Wang Yi said that he was letting him choose by himself, he was still a little concerned.

A strong person like him who has cultivated to the domain master level, and has cultivated the Nine Tribulations, still has many secrets in his body, and it is more and more difficult to want children.

So of course I care very much about my children.

Wang He saw everyone in the hall looking over, his old face blushed, and he said, "Sister, we haven't known each other for a long time, and we haven't left a word. What are you talking about?"

Knowing his son Mo Ruo father, Wang Yi knew his son had a sweetheart when he looked at his son's expression, and couldn't help smiling. "Who is it for? How is the character? Which family? Do you want Dad to help you talk about it?"

"Why do you talk so much?" Shen Yan, the wife beside him, pulled the corner of his clothes: "Don't mess with your children. Go and say, don't you just force the other party to sell their daughters?"

The entire high-level circle of the Qianwu universe is now the most popular, and it is not him, the special supervision envoy of the Qianwu branch, that is the most famous. Even the other three departments are very enthusiastic to draw in, and the Lord of the Qianwu country personally showed up to congratulate him on taking office... , In the entire dry witch universe, it is estimated that few families dare to refuse.

"Um..." Wang Yi was slightly surprised.

Gao Yurong smiled slightly, "Don't worry, we've already investigated. The other party is a descendant of your teacher Honglianhou's tribe, named Dora, a pretty good girl."

"It's mainly because Xiaohe likes it." Lin Youyu also said. She actually likes Wang's children the most. Because of personality reasons, all the children of the Wang family are very close to her.

The family is mainly divided into three parts and managed by them, the territory, external forces and the family's internal affairs, and Lin Youyu manages the family's internal affairs, so he is very clear about this kind of thing.

"Well, that's fine." Wang Yi nodded. When he reached his level, he no longer needed to worry about the trivial matters of the family. What he had to do was to become stronger and occupy a higher position in the ethnic group in order to let the people on earth. One line and family have long lived and prospered in the universe.

Because of double happiness, Wang Yi had a happier meal than before.

"Hey... the children are all grown up~ [www.mtlnovel.com](http://www.mtlnovel.com)~ After eating, Wang Yi and his three wives were walking in the castle garden under the night, looking up at the bright moon under the pure night, Wang Yi's picture Under the soft moonlight, it looks even more blurred, and the same young face also shows a trace of emotion.

Gao Yurong gave him a white look, "It's been more than two hundred years, how could it not grow up."

"Yes, soon your eleventh grandson will be born, and you will become an ancestor." Shen Yan also joked.

Wang Yi smiled and shook his head.

"That's good too." Wang Yi looked at the three girls next to him, and couldn't help holding their hands.

The four people stood together in the castle garden under the moonlight, looking up at the beautiful night sky quietly.

"That's good too."

#### [Chapter 267: Fire Phoenix Organization](#)

More than two hundred years have passed since Wang Yi signed in at the Reality Headquarters of Virtual Universe Company to get the "Time World".

Among them, more than 30 years of Chaos City in the Initial Universe is equal to 100 years of the outside world.

The time flow rate of the "Time Realm" is changed according to Wang Yi's current time and space. In other words, when Wang Yi was in Chaos City, at the cosmic level, when he accelerated the time flow rate by a hundred times, he actually only practiced for more than three thousand years. .

After I came out of the original universe, I started to do the training task again, and in the more than 80 years of receiving the inheritance of the Purgatory God General and the Demon Sound God General, I couldn't be distracted from practicing.

Therefore, before Wang Yi broke through to the domain master level, he used the realm of time to cultivate for more than 5,000 years.

At that time, his law perception almost reached the level of the 15th floor of the Universe Bridge.

Then he broke through to the domain master level, and the power of the time realm increased again, becoming a thousand times the flow rate of time.

One year in the outside world is equal to a thousand years in the time world, and nothing can interfere with Wang Yi's practice midway.

So after leaving the original secret realm, Wang Yi has been practicing in the realm of time for nearly 5,000 years in this short period of less than five years.

Add up, it's almost 10,000 years!

Wang Yi's perception of the true law also reached the level of the 18th floor of the Universe Bridge! Even more than many immortal kings!

This is when Wang Yi has the Chaos Monument and two powerful world master-level clones to comprehend together, and encounters many against the sky!

The real law perception is on the 18th floor. With the addition of secret methods such as purgatory gods, Wang Yi can pass the 19th floor with absolute certainty, and 50% surely can pass the 20th floor. As for the 21st floor... Wang Yi still dare not think about it. .

"The second and third calamities of the Secret Code of Nine Tribulations have been obtained, and the main purpose of my return this time can be regarded as achieved. Next, I will break through." Wang Yi secretly said in his heart.

This is only the past few years? Wang Yi actually wanted to break through to the level of the world master, and it is estimated that no one could think of it.

Even looking at the history of the human race, his speed of cultivation is amazing, not to mention that Wang Yi's law perception has reached the level of kingship.

It is easy to cultivate to the world master, but it is very difficult to improve the law perception, let alone cultivate to the level of immortal perception of the king in more than two hundred years!

If it spreads out, it will definitely cause another major earthquake.

However, before the breakthrough, he still has one thing to do.

...

"Cui Lang Star Territory" of the cosmic kingdom of Qianwu.

Wang Yi's silver triangle spacecraft suddenly appeared here.

When Luo Feng was the special envoy for the supervision of the Qianwu branch in the original book, he once received a job assignment from above.

The first time was to clean up the two immortal gods 'Yaohai' and his apprentice 'Jeffries' of the Dream You Empire of the Dry Witch Universe Kingdom and Dream You Empire controlled by the Zerg powerhouse.

Then Luo Feng took this to go to Rasoff World, the hometown of the Golden Horn tribe. The "Sacred Stele" that comprehends the principle of combining "gold and space" and obtained the "Shen Shen Thirty-Six Layer" by Xidoro, the creator of the God Army Sculptures of beast gods...I have realized the secrets contained in the giant beast \*\*\*\* statues, and gained great strength.

From then on, I have the opportunity to embark on the way of the golden sky fusion law of beasts and gods.

This is also a key to his rapid rise.

Hmm...just to perform the first mission, "just right" to dispatch to the Golden Horn tribe immortal team to help, and then to the canyon with the giant statue of the golden beast god... One link, the standard protagonist configuration, Wang Yi will not complain.

Wang Yi still has to find the secret method like Wang Yi's "The law of the fusion of fire and air, the way of the beasts and gods." I think it's impossible.

The secret method of Xidoro and the way of the golden sky beasts and gods are of no use to Wang Yi, so he will not fight the idea of the golden horns.

The way of the beast gods is actually just eight ways of fusion of the two laws... the end point is the Lord of the universe, and the way of the beast gods of the same kind is not only practiced by one person... but like the strongest ones in the universe, they are all out of the unprecedented and belong to Only by own way can we achieve it.

And this is a limitation of the original universe, or certain conditions are insufficient, that makes it so difficult for the strongest in the universe to be born.

In the difficult "primitive" unguided environment of the primitive universe, they can become the strongest in the universe, through the cycle of reincarnation, enter the continent of origin, and become the true gods of the void, all of them are amazing and brilliant... and later become the eternal true gods and even the dominator of chaos. The probability is also very high.

The second mission was the highest point mission at the domain master level, and it was a test of Luo Feng.

In the second mission, the Fire Phoenix organization appeared. This is an organization that operates the slave trade in the "Cui Lang Star Territory" of the Qianwu universe. There are 18 high-level leaders. In addition to the normal slave trade, the Fire Phoenix organization also operates Some dark businesses that do not comply with the laws of the universe.

"Darkness is everywhere." Standing in the spacecraft control room, Wang Yi muttered to himself softly as he looked down at the distant planet. This is the nest planet "Beth Planet" of one of the directors of the Fire Phoenix Organization.

It is also a sinful planet.

"dark."

"rot."

"Depraved."

"savage."

...

All adjectives can be used on this planet and the Fire Phoenix organization.

Wang Yi was silent, his eyes were cold, and a murderous look appeared on his face.

"His Royal Highness, we have blocked all virtual communications between all members of the Fire Phoenix Organization."

A respectful voice from the head of the intelligence department of the Virtual Universe Company came from the communication.

"His Royal Highness, the 1st Army of the Third Army of the Dry Witch Universe Nation has been dispatched and rushed to the expected location to complete the arrangement. The leader of the team is Immortal."

"According to your instructions... they have already sealed off all the bases and planets of the Fire Phoenix Organization. As long as you give them an order, they can be wiped out."

The army of the Dry Witch universe, each legion, group army, is composed of 100 armies.

It is jointly managed by the Virtual Universe Company and the Qianwu Universe Kingdom.

Each army is composed of an immortal god, 100 realm masters, 1,000 domain masters, and 10,000 universe-level masters.

This time, because of Wang Yi's order, an army was directly dispatched to deal with the Fire Phoenix Organization, which can only dominate a star field.

As Wang Yi's special envoy for supervision, communicate with the black man in charge of the military headquarters, and it is still possible to mobilize an army.

"Yeah." Wang Yi nodded slightly. Since he has the power of the Virtual Universe Company to borrow, he certainly wouldn't be so troublesome to do it alone.

What's more, if the wind leaks and the senior officials of the Fire Phoenix organization get news in advance and escape, it will be very difficult to find them in the vast universe, hiding in a remote corner.

In his opinion, these people all have a way to die, so naturally they won't let one go.

Wang Yi asked the 1st Army of the 3rd Army to suppress other branches of the Fire Phoenix Organization, and he himself came to the boss of the Fire Phoenix Organization... the owner of the Fire Phoenix Organization Pansy, besides this is the leader of the Fire Phoenix Organization, but also because the opponent has a treasure on his body. ... Locke Shenshui.

Although Wang Yi would easily destroy the Fire Phoenix Organization without Locke Shenshui, he would not necessarily come over and do it himself.

In a word, you can mobilize the army, kill what should be killed, catch what should be caught, release what should be...

"According to the information from the Virtual Universe Intelligence System, Pansy is here now." Wang Yi looked at the planet.

As the spiritual leader of the Fire Phoenix Group, he is recognized as the boss, the world leader and Tier 3 powerhouse. Pansy seldom enjoys, instead, she meditates in some lonely places.

However, he occasionally shows up and meets with other directors. For example, now, he is on the planet Beth underneath, on the nearest planet in the distant starry sky~[www.mtnovel.com](http://www.mtnovel.com)~ It is a white and dark red hybrid. The white one is the cloud layer, and the dark red is the main color of the whole planet.

Pansy is now with Kraqi, one of the directors of the Fire Phoenix organization, the master-level ninth-level strongman, and the planet Beth is also a slave planet for captive slaves.

Wang Yi didn't have to worry about the two immortal gods of the Mengyou Empire controlled by the Zerg. The Virtual Universe Company had already discovered that it had an arrangement, but it hadn't dealt with it yet.

"Locke Divine Water should be in the world that Pansy is carrying with him." Wang Yi smiled slightly, but he was cold and without emotion, making the immortal \*\*\*\* guard Jakesi behind him, and the other world lord guards mutter in their hearts, I don't know. How did this Fire Phoenix Organization provoke His Highness, so that His Highness was so angry that he ran over to deal with the Fire Phoenix Organization himself.

"Okay, let's go down." After watching for a while, Wang Yi waved his hand and ordered.

"Order the 1st Army of the 3rd Corps to start action!"

#### [Chapter 268: Pansy](#)

"Cui Langxing", the capital star of the Cui Lang star field.

The originally peaceful and peaceful planet, after Wang Yi gave an order, an extremely large, pitch-black interstellar battleship that had been hidden in the starry sky suddenly lifted its camouflage and appeared, and landed on the imperial star "Cui Langxing".

A distance of millions of kilometers, ten streamers suddenly flew out of the battleship. They were ten powerful world masters, behind them there were a hundred domain master captains and a thousand universe-class fighters.

"The killing target is Caffin and his guards, a total of 103 people, don't move others." The leader of the green eyebrows said coldly.

"Yes!"

Emperor Capital Star, a secret realm deep in the palace, the founding emperor of Cui Lang's medium-civilized country, the immortal gods had already received the news and appeared from a high place to watch this scene, but only shook his head.

"Fire Phoenix Organization..."

"I don't know which big man they offended, and they directly provoke the space army!"

The three departments of the Qianwu branch seem to have similar functions. The three ministers have equal status, but the military department is indisputable. The strongest is the most powerful and the most powerful... This is the army used in ethnic warfare, why? May not be powerful?

"The location of that manor seems to be Kafin from the Fire Phoenix organization, right?"

"Actually there are ten world masters who have been recognized by the law of origin, come here together!"

"Ruined!"

"This Cavin is not saved!"

As the core of a star field, Cui Langxing also has many ancient families and forces. They quickly discovered the Fire Phoenix organization that was slaughtered, and keenly sensed that there was a big man behind it that was launching an action against the Fire Phoenix organization.

Someone also whispered: "The Fire Phoenix Team is also related to a certain prince from the Royal Family of the Qianwu Universe Kingdom..."

Another person quickly retorted: "Didn't you see clearly? The Universe Army was dispatched, just to deal with a Caffin, and the ten world masters were the lead... How could it care if the Universe Army was able to mobilize the Universe Army to deal with the Fire Phoenix Organization? A prince?"

The others were silent, and soon there was news that Caffin, including his 103 guards, were all controlled and killed in his manor, while the other unrelated people were unscathed.

When the Cui Lang planet launched the operation, the tourist planets "Fuqiu Planet", "Yiwei Star", "Dripping Star", Weifeng Star...every planets existed in the upper levels of the Fire Phoenix group, and space warships arrived at the same time. , A large number of cosmic warriors, dominated by world masters, began to hunt down and kill the members of the Fire Phoenix group.

Especially the killing of "Driving Star" was the most tragic. Wang Yi has already handed over a list of up to one million people to the army commander in charge of the mission. His order is...on the list...not leave!

There is a devil's cave, hell. At the same time, it is also a place of enjoyment for many powerful people in Cui Lang's star domain. What kind of decay can be seen on this planet, which fascinates countless fallen people.

"If people can degenerate to such a degree, then don't be human, just go to death."

It was the immortal army master who was in charge of the cleanup task. He remembered very clearly that Wang Yi's very light tone had an icy killing intent.

So he also implemented Wang Yi's order thoroughly.

As long as it appears on the list, no matter who he is, what background he has, and the backstage... all are killed!

In Qianwu universe, no matter how big the background is, can there be a virtual universe company? No matter how high the status is, in addition to the Lord of the Dry Witch, can there be the top four of the Dry Witch branch?

What's more, the immortal military master alone would not care about the high-levels of the Cui Lang star field, even if there are other high-levels in the Dry Witch Universe Nation in those high-levels, they would not care.

Now that Wang Yi has issued a killing order, what he has to do as an army commander is to fulfill Wang Yi's order meticulously.

With this kill, Dripping Mercury turned into a \*\*\*\* on earth, with human heads rolling, turning into a sea of corpses and blood.

The death toll is the largest among all parties involved in this operation.

Let all parties get the news afterwards, and they are all horrified.

...

Beth Planet.

Devil's Palace.

The most terrifying place on the planet Beth, a place that scared countless slave tribes.

Built on the lofty peaks of the huge Demon Temple covering an area of tens of kilometers, it is now singing and dancing.

The master of Beth Planet, one of the eighteen directors of the Fire Phoenix Organization, "Crutch" is accompanying his organization's leader "Pansy" in the palace to have fun.

"Crutch" is a man with a height of more than three meters, a black beard, a pair of purple eyes, a powerful atmosphere, and a rude appearance.

And "Pansy" is a lean man, his eyes are like wild wolves, full of aggression.

At this time, the various action teams scattered in the Cui Lang star field had already begun to capture and kill, but the two high-level members of the Fire Phoenix organization still did not receive any news and were still enjoying themselves.

Eighteen directors have different tempers.

Crazy likes to abuse his servants to enjoy pleasure, so he often goes to live on a slave planet under his command for a period of time.

And the strongest "Pancey" among the eighteen directors is already the third rank of the world leader, but he is very self-disciplined. Except for occasional venting, most of the time he lives in the "Bain Asteroid Group", that is deadly silent. The asteroid group that cannot allow ordinary humans to survive at all is the place of Pansy's asceticism.

"Boss Pansy, it's hard for you to do it once. This time, I will have a good time with me." Crazy was naked with his chest, and the two peerless beauties who were still cuddling around him, one of his hands moved on them while facing each other. The lean man smiled.

"Yeah." There were also two stunning beauties beside Pansy, with a slight smile on their faces.

He practiced hard all the year round. After a long period of cultivation, he naturally felt boring and boring.

Because "Crutch" knows his preferences and pleases him every time, he often comes to "Crutch" here.

"By the way, Boss Pansy, this time I asked someone to secretly purchase a few "Mengluoyi tribesmen" from the distant mother ancestral planet to bring them back..."

"Oh." Pansy's eyes lit up.

The "Mengluoyi tribe" is also a more famous race in the universe of human territory, rich in peerless beauties.

But the Mengluoyi clan is not easy to provoke, there are also super-existences in the clan, so no one dares to catch the Mengluoyi clan openly, but only dared to capture it in private.

Because there are many people in the Mengluoyi tribe, so as long as you be careful, there are still many people who take the risk.

Every member of the Mengluoyi tribe, even if it is a constant star, the price is far more than ordinary cosmic slaves!

Of course, they only dared to play secretly in private. If they were discovered, the Mengluoyi tribe would have heard the wind, and the Mengluoyi tribe would hate the arrest of their own people as slaves, so if they were discovered, the person involved would be almost a dead end.

But perhaps because of such taboos, certain powerful figures in many universe nations regard playing with the Mengluoyi tribe as an exciting thing.

"Where?" Pansy ignored the two girls around him, pushed them away, and asked with interest.

Those ordinary beautiful girls, how can there be special, holy and noble Mengluo Wing girls interesting?

Even Pansy would never have the opportunity to play with this race.

"Boss Pansy, don't be anxious~[www.mtlnovel.com](http://www.mtlnovel.com)~ People I have been locked in your usual resting place, and sent a special guard, there will be no problems." Crazy laughed.

"Well, that's fine..." Pansy nodded in satisfaction, just about to say something, suddenly his expression changed drastically, and he stood up and looked at the palace gate.

"Who are you?"

A scream resounded throughout the palace.

At the entrance of the palace, there were originally heavily guarded and guarded by a large number of guards, many of them at the domain master level, but now those guards are nowhere to be seen. Two figures walked in at the tall front entrance.

One of the black-haired teenagers who wore an exquisite and gorgeous red robe with a mysterious and mysterious flame mark on his forehead raised his head and glanced at him, and said indifferently:

"Pansy, Lakki, today is your time to die."

#### [Chapter 269: Death of Pansy](#)

When Wang Yi and Jacques walked into the palace and Pansy saw them, a look of horror appeared on their faces.

"Immortal God!"

"I don't know why the two of you are here?" Pansy felt a little uncomfortable.

Facing Pansy's question, Wang Yi shook his head and did not speak any more, looking at him like a dead person.

"Jakes."

"Yes, Your Highness."

For Pansy, Wang Yi didn't mean to do it himself. In the original book, Luo Feng's murder was mainly because of the mission requirements of the Virtual Universe Company. Now Wang Yi has not performed the mission, so naturally there is no need to do it himself.

When Pansy heard the conversation between the two, his heart sank sharply, knowing that he had faced a real life-and-death crisis, and perhaps this was the biggest crisis he had faced in his life.

Pansy gritted his teeth and said: "I don't know where I offended the two adults? I can make amends... Behind me is the seventh prince of the witch universe kingdom. If the two of you want to kill me, I'm afraid they will offend the seventh prince..."

"When death is imminent, there are still so many words." Jakes's tall and burly body walked over, and the pressure of the immortal gods was slowly released, like the awakening of a wild behemoth, as if a terrible natural disaster was about to come, and the palace suddenly panicked.

Crazy was also terrified, and Transsion asked Pansy: "Boss, what shall we do?"

An immortal god, such a superior existence, why would he suddenly come to deal with them? It was a nightmare. It wasn't that Crazy had never seen a big storm, but at this time he was completely panicked.

Pansy ignored him. At this time, his heart was cold. When he discovered that Jax was an immortal god, he had already connected to the virtual universe network for the first time. He wanted to send a call for

help to the big figures in the background, but he was shocked to find... He failed to connect to the virtual universe network, and only the virtual universe company can sever the power of connecting to the virtual universe network. Therefore, Pansy instantly guessed that the person in front of him was a member of the Virtual Universe Company.

Virtual Universe Company, Pansy feels completely powerless! That is the superpower that has made many cosmic nations surrender!

He is an ordinary world master who is cultivating in the star field, how can such a big man come to deal with him personally? A thought suddenly appeared in Pansy's heart, could it be that the wind was leaking...no, it's impossible, only he knew the existence of that, it was impossible to leak the news.

"This lord..." Pansy seemed to want to say something. The next moment, he suddenly turned into an afterimage and rushed out.

"Want to escape?" Jacques snorted, and the vast domain of immortal laws descended, and the entire palace suddenly turned into a green wilderness, with countless thorns and vines intertwined and entangled like pythons.

At the same time, there are endless fluorescent-green light spots shrouded, and each fluorescent-green light spot is like a mountain, and it is heavily oppressed on the many Fire Phoenix organization personnel such as Pansy and Lakchi. They are ordinary people with scared faces. The servant was staggered.

Lakchi, the members of the Fire Phoenix organization, didn't even have time to beg for mercy, and they were strangled into scum in the realm of law.

And Pansy, who turned into an afterimage and wanted to escape, was also trapped in the realm of the law. Although this "rule comprehension" could not kill him, it made him slow down sharply, as if deep in a quagmire!

This green world is a world that contains the laws of wood. Only wood immortal gods who truly understand the laws of wood can easily manipulate this field of wild thorns and vines... it is the kingdom of gods, the real field of laws! Although it is not as good as the real kingdom of God, it is at least much stronger than the "world projection" of the world leader's peak power.

Immortality and immortality battle, some are flame gods, some are earth gods, some control flames, and some control the earth. These are law domains, gold, wood, water, fire, earth, wind, thunder and lightning, these eight original law status Equivalent, so the law domain is also equivalent.

Therefore, the immortal battle is disdainful of manipulating the law field.

but!

If the immortal spirit kills the world master, the domain master, etc., you can directly use the "law domain" to bully people. This is the "law field" that can only be possessed by truly understanding a law.

Just like now, the world's projection of the world master Pansy has been instantly crushed and collapsed in the field of the law of the wilderness and thorny forest of Jacques, and there is no power to fight back at all.

"Ah!!!" Seeing that life and death are at stake, the landlord Pansy, the founder of the Fire Phoenix organization, is also crazy.

Wow! Countless colorful tree and vines flew out of his hand. In an instant, a few kilometers around was full of various tree and vines. These tough tree vines rushed directly to Jakes and Wang Yi in the palace, trying to entangle Jakes or Take down Wang Yi and give yourself a chance to escape.

"The ninth-level iron cane grass of the world master!" The expression of Jakesi's expression changed.

"His Royal Highness, be careful!"

Iron cane grass. A very ordinary plant life. If "Moyunteng" belongs to the rare existence in plant life, then the iron rattan grass is a popular commodity, very cheap, and at the same level, the iron rattan grass is far more powerful than others. Plant life is much weaker, at best slightly better than humans of the same level.

In general, it is the limit to cultivate iron cane grass to the "9th-level constant star".

It is very rare to cultivate to the cosmic level.

If you want to cultivate a domain master, then it is pure luck!

If it is said that it is cultivated to become the ninth rank of the world master, this, this is simply a miracle!

Jakesi didn't worry about himself. He was mainly worried about Wang Yi's safety. After all, Wang Yi was only a ninth-level domain master. Although he had a strong sense of law and had many hole cards in his body, it was a ninth-level master-level iron cane grass. The ninth rank of the world master is much stronger, what if something happens accidentally?

Especially after seeing a large number of iron cane grass rushing towards Wang Yi madly, Jakesi became a little anxious.

"Bold!" Jacques shouted angrily, the law domain pressure increased sharply again, and at the same time a jade-like spear engraved with various plant patterns appeared in his hand, and endless life fluctuations radiated from above.

As soon as Jax's figure moved, he flew out, and the spear in his hand pierced towards Jax in the distance. The space was cut like a thin piece of paper by the spear cut into a \*\*\*\* and deep crack.

The entire magnificent palace was instantly destroyed under the power of the immortal gods and the crazily spreading iron cane and grass.

Before the spear stabbed, Pansy's soul felt the tingling sensation of being cut by a sharp edge in the air. After gritting his teeth, blood-red leaf vines shot out from him in an instant, and a large number of red leaf vines blocked Jakes almost instantly. In front, at the same time, bright blood-red flowers appeared one after another. Each of these coquettish blood-red flowers was more than one kilometer in diameter, and the black cold teeth could be faintly seen in the flowers.

Jakes was taken aback. "The ninth rank of the realm master... Brahma Flower!"

Pansy flees quickly while looking at Wang Yi's side. He doesn't have much confidence in the resistance of his plant life to Jakes. He is more hopeful that he can see that the immortal \*\*\*\* guards the ninth rank young man. Grab it as a hole card for threats.

"His Royal Highness!" Jakesi sank and wanted to withdraw.

If the iron vine grass is a popular commodity, cheap, and belongs to the low level of plant life, then the snail flower is not weaker than the moyun vine. Moyunteng is famous for its "phagocytosis" and "cell activity", while this snail flower is a peculiar plant that likes to devour flesh and blood. It is famous for its strong offensive power and strong phagocytosis.

Even Jacques, it is difficult to quickly kill the plant life of this world lord's ninth rank.

Of course, it is very simple to get rid of the entanglement of the other party and hunt down Pansy, which is why Pansy is not hopeful about it.

"I'm fine, continue to chase Pansy, don't worry about me." Wang Yi has been watching this scene indifferently, Wow! The vines shot out from the surface of his body, and each one quickly became thicker and longer. A total of 360 main vines. There are many branches and dense vine leaves on the vines. These vines instantly entangled towards each other. Those iron cane grass and snail flowers.

"Rumble..."

The plants at the pinnacle of the three world masters kept entangled and killed on the mountain.

Obviously, Mo Yun Teng is one enemy and two, but still has the upper hand, suppressing the lives of the other two plants.

Jacques was relieved when he saw this place, his eyes turned to Pansy, whose face changed drastically, and said coldly: "I didn't expect your small and medium-sized realm master in the star field to have two plant life on the top of the realm, go to death."

"My lord is forgiving..." Pansy's face was horrified, but he was still pierced with a spear by Jakes. The powerful immortal power instantly shattered the life core in his body. The world in his body collapsed at the same time, and a large number of treasures were scattered outside.

After Pansy's death, his two plant life also fell.

Mo Yun Teng was also taken back by Wang Yi, turned into a battle armor, and reunited on him.

"His Royal Highness."

On a messy mountain range, Jakes fell in front of Wang Yi respectfully and sent the collected treasures to Wang Yi.

"Everything in Pansy is here."

"Hmm..." Wang Yi nodded, took two space rings and one world ring, and then sent them into his own world ring.

"Let's go." Wang Yi glanced at the palace that was suddenly turned into ruins by the sudden battle, as well as the servants and slaves who fled in panic and the slave tribe people who didn't know what happened. As for the Huofeng organization, The personnel here have been strangled clean.

Shaking their heads, Wang Yi and Jakesi turned into two streams of light, soaring into the sky and returning to the spacecraft in the starry sky.

"His Royal Highness. UU Reading [www.uukanshu.com](http://www.uukanshu.com)" Many world masters, domain masters, and universe-level guards who remained in the starry sky saluted.

They were also watching the battle just now, but because of Wang Yi's previous order, no other guards except for Jakes had intervened.

Obviously, Wang Yi didn't want too many people to interfere in this battle.

In the central control room of the silver-white spacecraft, Wang Yi said to the intelligent life "Bermuda" that controls the spacecraft: "Let's go back to Earth."

"Yes! Master!"

"Starting to accelerate, we are about to shuttle through the universe and enter the dark universe!"

"Go! go! go!"

The silver spaceship started to activate, and Wang Yi also focused on the world ring at this time.

#### [Chapter 270: Breakthrough Lord](#)

One side of the world.

This is a continent with a length and width of more than one billion kilometers. On the mainland, a silver-white figure suddenly appeared, which was the clone of the void zerg in the image of Wang Yi.

He held a beautifully carved silver sign in his hand. It was a sign to store a small world, from the dead Lord Pansy.

"It's pretty tight to hide, and that's right, this kind of treasure is known to outsiders, and he has ten lives not enough to die." The Void Zerg clone grinned.

"However, it's mine now."

laugh! A power of the world forcibly penetrated this silver brand, and the silver brand still contained Pansy's spiritual mark, but without Pansy's own support, the spiritual mark was quickly broken by force, and Wang Yi's spiritual mark was imprinted on it.

Afterwards, Wang Yi's world power penetrated into the world in this silver brand.

This is a small world with a radius of about 100 kilometers. Except for the plain land, the entire world is the lake in the center of the plain. It is a lake with a diameter of more than ten kilometers. The water in the lake is extremely cold and positive. Exuding cold air, permeated the entire world.

"Locke Divine Water." A smile appeared on the face of the Void Zerg clone.

"Well, it is estimated to be 712 cubic kilometers." Wang Yi's world power quickly scanned and estimated the volume of the lake there.

The price of a cubic kilometer of Locke Shenshui is about 8.9 million mixed yuan units.

The lake in front of you, which is completely composed of Locke's Divine Water, has an overall value of about 6.337 billion yuan!

In general, the immortal wealth of the king is tens of billions of mixed yuan units, and the wealth of this lake is 6.3 billion mixed yuan units. What is the concept? This can be said to be all the assets of many king-class immortal gods.

"Sure enough, people don't get rich if they don't have windfall, and horses don't have any night grass or fat." Wang Yi said softly.

Such a large sum of wealth is enough to make the king immortal jealous and fight wildly.

It's fine if Wang Yi doesn't know. Now that he knows, Pansy is not a good person, how could he let him go.

"With so many Locke divine waters, I can use them to cultivate mowing vines, or to cultivate more plant life for the earth and the family to use."

Locke Divine Water possesses incredible vitality, which can be used to cultivate plant life and to heal the body.

There are many uses, so the value is extremely high, and the level of 'life energy' contained in Locke Divine Water is extremely high, the effect is much stronger than the fruit of life, and it has a powerful effect on immortal plant life.

Although Wang Yi was very happy to receive Locke Divine Water, he was not moved by it.

There are many treasures in his body that surpass Locke's Divine Water. Take any one of them, and their value is far more than Locke's Divine Water. At the level of Wang Yi, Locke's Divine Water has an effect on Wang Yi. It is used to cultivate plant life and increase a little wealth.

Wang Yi glanced at the cold lake for the last time, "Just stay here and cultivate it." Now the Moyunteng is already the ninth rank of the world master, and it is difficult for ordinary treasures to make the Moyunteng break through to immortality. And the massive amount of Locke Shenshui is still very helpful to Moyunteng.

Even at the level of Wang Yi's strength, Mo Yun Teng had a much smaller effect on Wang Yi, he was still unwilling to give up Mo Yun Teng, and wanted to cultivate it to immortality.

...

Milky Way, Solar System.

The dazzling green light cluster lit up, and a silver-white triangle flying abruptly appeared.

"His Royal Highness, it doesn't take long to take a spaceship from the Cui Lang star field of the Qianwu universe country to the star field of Heilongshan. You all use the Kingdom of God Teleport. It's really... this time, you spent 2.1 mixed yuan units." Immortal The god'Jacks' was helpless.

"Haha... it will take several days to return to Earth from Cui Lang's star field. I promised Shen Yan that I must accompany her to dinner." Wang Yi smiled.

"Um..." Jacques didn't know what to say.

It can only be said that this young His Royal Highness is rich and willful.

Wang Yi glanced at the place where the Divine Kingdom Passage appeared behind him. This time it appeared on a celestial satellite disguised as a meteorite outside the solar system.

"The Kingdom of God teleportation is indeed very convenient, but unfortunately, it is difficult to use in battle." Wang Yi secretly said.

The difference between teleportation and teleportation of the kingdom of God is still very big. Teleportation can be used directly during battle, but the teleportation of the kingdom of God cannot work... The teleportation of the kingdom of God must form two points and then open a space channel. Stable, once in battle, the space channel will collapse directly, and it will not be able to successfully transmit at all.

Therefore-although there is a "Divine Kingdom Teleportation", there is absolutely no immortal spirit that can use the Divine Kingdom Teleportation in the fierce battle.

Earth, Yangzhou City's Wang Family Castle, the top practice chamber.

One side of the world.

Wang Yi, with flames and faint star marks on his brows, appeared in this world.

The mark on the forehead and the center of the eyebrows respectively represents that he has been recognized by the law of origin of fire and the law of origin of space.

When the Void Zerg clone can teleport, the strong reaction to the origin of the universe is recognized by the law of space origin. There are marks on the center of the eyebrows of the body.

The law of origin recognizes that there is also a difference between high and low.

Like the "Law of Fire", either a flame mark is formed between the eyebrows, or a spark mark is formed...different marks represent different aspects of recognition. But at the moment, there are a few more stars in the center of Wang Yi's eyebrows. If it is looming, it is the imprint that will appear only when one of the highest three types of "teleshift" recognized by the law of the origin of space.

Wang Yi's current law perception has reached the eighteenth floor of the Tongtian Bridge, and his fighting power has directly reached the 20th floor, and he is stuck at the level of the "Venerable."

If he went to break through now, he would have a good chance to break through the 20th floor Tongtian Bridge and the original Master-level Tongtian Mountain, and become the fastest person in the history of the human race.

"Now... it's time to break through to the world master." Wang Yi muttered, looking around the vast land.

Because of the spying of the venerable human race that may exist in the dark, he dared not break through the time realm, but chose to put it in a world.

Even if it is discovered, it is no big deal.

When human beings reach the domain master level, they will condense a "life core", also called "singularity", which condenses the human soul, so if the life core is not broken, the domain master will not be killed.

To be promoted to a realm master, you must have enough law and understanding, and the life core has evolved to the limit, which is the peak level of the realm master.

Wang Yi's current law perception is long enough, and the human body has reached the ninth rank of the domain master, and it is almost a breakthrough.

"Void Zerg clones and Yanxing Giant Beast clones have broken through for so many years, and finally it is the human body's turn." A smile appeared on Wang Yi's face.

When the human body reaches the world master, the time world can be upgraded once, turning into ten thousand times the flow of time.

However, Wang Yi also found that there is a bottleneck in the perception of the law  
~www.mtlnovel.com~ It is impossible to improve without limit. The improvement of his perception of the law has also slowed down a lot. Thinking of the real law of perception on the 20th floor, even if there is a time world, I am afraid It is not so easy.

There is no real powerhouse who can reach the peak with simple penance. Otherwise, the immortal gods will have endless life span. A witch universe has tens of thousands of immortal gods. The total of the 1008 universe of humanity is probably over 100 million immortal gods. Most of the immortal gods are concentrated in the five pinnacle powers. The endless years have allowed the number of immortal gods to accumulate to an astonishing level, but the venerable is still pitiful and it takes a long, long time to be born.

The same is true for Wang Yi. If you want to keep advancing on the road of cultivation, you need more tempering and challenges!

"Humph, that's interesting."

"Now, it's time for me to break through the world master."

Wang Yi looked up at the sky, his long black hair moving without wind behind him.
