

A God 341

[Chapter 341: South Punishment](#)

There is nothing new on the battlefield outside the territory.

One month after the "Hunter King" killed the "Savage Spear King" and many other kings, his deeds began to spread wildly in the battlefield outside the territory. Most of the strong knew that there was one more "suspected to be close to the battle" in the human camp. "Wang Wudi" super strong.

But the "Hunting King" is out of sight, has no friends, and no one can find him.

Gemini Rotary Domain, in that vast land palace, the Zerg mother emperor "South Punishment", who is still searching for the whereabouts of "King Chongwang", said in a puzzled way: "The Hunter King? Is it possible to be close to the invincible power of the king?"

"When is there such a strong man in the extraterritorial battlefield?"

Wang Yi has only been on the outer battlefield for more than a year. Although his reputation in the Yanji Continent is not small, it is nothing if he is placed on the outer battlefield and among the countless kings.

But this time is different. Many kings fell at one time, and there were two kings limit. This strength has already attracted the attention of the top powerhouses in the extraterritorial battlefield.

Many powerhouses believe that the "God Hunting King" achieved this record by relying on some special means to achieve this record. In fact, the real strength is not very strong, and it is not worthy of the evaluation of "close to the king of invincibility".

The true king of invincibility is like the king of true kings, who achieves the ultimate in the limit of the king, and can be comparable to the ordinary cosmic sages, and it is called the king of invincibility.

But like Wang Yi, Nanxun, and Seven Swords Kings, they are actually a little worse, it can only be said that they are close to Fengwang Invincible.

But what they think has nothing to do with Wang Yi.

Wang Yi has once again returned to the No. 026 barracks base in the void, has consumed all the wealth gained this time, and purchased various precious materials that have restored King Zhanchen's divine body to 90%.

One of the worlds in the world ring.

A nutrition cabin customized completely according to King Zhanchen's figure was parked on the grassland. The sleeping King Zhanchen was lying in it. When Wang Yi pressed the start button, the transparent hatch on the surface of the nutrition cabin was automatically closed, and at the same time, some products were automatically placed inside. Large amounts of strange substances in liquid form.

Those substances are some treasures that have a special effect on soul recovery, each of which is extremely expensive and extremely precious.

The liquid wrapped the entire body of King Zhan Chen, and the mysterious power began to melt into his body. The liquid kept boiling and bubbles surged.

"These treasures cost me more than 150 billion mixed yuan units. This time the wealth I got is all filled in." Wang Yi held his chest with both hands and looked down at the machine race lying in the nutrition cabin in front of him, "I hope you don't Let me down, King Zhanchen."

About four days later, Wang Yi suddenly clearly felt that his soul servant had a faint fluctuation in consciousness.

"I'm going to wake up." Wang Yi smiled.

Once there is a consciousness fluctuation, it will be fast, and after about an hour, King Zhanchen's consciousness will be fully restored.

"Crack!" The transparent hatch opened, King Zhanchen stood up from the nutrition cabin, looked at the dark red armored human in front of him, then bowed and saluted with respect. "Owner!"

Soul servants completely obey the master's orders from the bottom of their hearts and will never betray their masters.

The current "King Zhanchen" is completely Wang Yi's soul slave.

Even if Wang Yi let him blew himself up next moment, he wouldn't have the slightest hesitation.

Wang Yi looked at the humble "King Zhanchen" who looked like a servant in front of him, and he felt a little emotional. He was so humble in front of him that he was so dignified at the limit of his kingship. No wonder those immortals would rather die than be enslaved.

Being enslaved by the soul is more terrifying than death.

"King Zhanchen" has just regained consciousness, and his divine body has only recovered about 20%, and his strength has been severely damaged.

However, his mechanical weapons and the base of the spaceship were taken away by Wang Yi. With this, he can still display 70% to 80% of his original strength. Unlike ordinary kings, once the divine body is damaged, his strength will decline severely.

Machine clan, Zerg mother emperor, is actually better at "legion tactics" and "crowd tactics".

However, if the mechanical weapons want to exert their powerful combat power, they must have massive amounts of energy, which requires a lot of wealth.

Now that "King Zhanchen" is Wang Yi's servant, Wang Yi is responsible for this.

Wang Yi attaches great importance to the "Eight Directions of Extinction" of "Zhanchen King". With this arrangement, coupled with the "space blockade" of the "Space Locking Arm", those powerful kings will have nowhere to run.

And then Wang Yi left "King Zhan Chen" with treasures to restore the divine body, but "King Zhan Chen" had three months to recover to 90%, and Wang Yi did not intend to waste these three months.

"King Zhanchen has been settled, and the next step is the Southern Punishment of the Zerg Mother Emperor." Wang Yi sat in the spacecraft, holding a glass of wine, "However, the Southern Punishment is more difficult to deal with than ten and a hundred Kings of War. "

"South Punishment" has been offering a reward for the news of Wang Yi's human body "King Chong" enslaving her disciple "Nati Ya".

If the human body goes out and exposes its whereabouts, it is estimated that the "South Punishment" will lead people to block it. It would be better to take the initiative and have a direct fight with the "South Punishment".

As long as Nanxun understands that he can't help him, this ridiculous reward will end.

But the immortal Zerg mother emperor is no better than the limit of the king, it is a terrible existence that is close to the invincibility of the king.

Theoretically, in the outer battlefield, as long as you be careful, you will not fall.

"South Punishment" has thousands of immortal Zerg warriors, forming a corps to attack, even if the king is truly invincible, it will evade.

And she is also good at soul attacks. There are many powerful slaves under her command, which are stronger than the "Savage Spear King" and the "Zhanchen King".

Not to mention, as the Zerg mother emperor, the core of the Zerg exists, and every immortal Zerg mother emperor is valued by the Zerg, and she will definitely be protected by treasures.

Even if Venerable Universe wanted to kill them, it would be difficult, let alone Wang Yi, who is not Venerable now.

No matter how strong the clone of the Void Zerg is, it is now only close to the invincible king, with limited means.

After Wang Yi came to the outer battlefield, he really understood the strength gap between himself and those who had practiced for hundreds of millions of years to become the king of invincibility, and he realized that he had made some mistakes in his previous thoughts of being able to match the king of invincibility.

Existences like King Zhenyan are rare among hundreds of millions of races in the universe, and extremely rare.

How many cosmic sages are there in the human race, and only a few invincible kings?

Feng Wang Invincible is not something you can achieve by cultivating hundreds of millions of years in the realm of Feng King. Many immortal gods have cultivated longer than the Lord of the universe, and they are still ordinary immortal gods.

"I am still a lot worse now." Wang Yi sighed.

The Time Realm just allowed him to speed up his time and immerse himself in cultivating, and those Feng Wang Invincible who has truly accumulated countless years, which one is a good old monster?

Compared with these old monsters, Wang Yi actually has no advantage.

His previous amazing performance was actually mainly due to the difference in external concepts. Others thought that he had cultivated to the 20th floor of the Tongtian Bridge for more than two hundred years, and naturally felt that he was exceptionally talented and a peerless evildoer.

But Wang Yi also has places that other people can't compare, such as "The Secret Book of Nine Tribulations", such as the amplitude of the soul and the limit of the amplitude of the body, such as the biggest golden finger of "sign-in panel", such as he knows the real inside story of this world...

What he needs is room to continue to grow and more accumulation.

Wang Yi pondered.

"Law perception, I can step into immortality at any time, but my third clone has not yet been conceived, and the ten original laws, I now have the original laws of fire, time, and space to be recognized, and the other seven original laws have not yet been obtained. recognize."

If you want to follow the law of fusion and follow the path of "the law of chaos", it is indispensable to get the recognition of the law of origin.

And the speed and efficiency of the law of perception during the time of the master is actually much faster than immortality.

After becoming immortal, the immortal body has long become a member of the law of the ocean. It is difficult to perceive other laws, unless it is recognized by the original law, even if it is, it is much slower than the time of the master.

So why in the universe is "time" with "wind, thunder and light" and "space" with "golden, wood, water, fire and earth" practice. I have never heard of cultivation methods such as "golden wood" and "thunder soil".

Even if someone has the talents of multiple laws, they will embark on the path of combining time and space in a single system.

This is determined by the rules of this universe.

The rule determines that immortality must comprehend a complete next law.

The rule of determines that the Venerable must master the complete laws of time or space.

The rule of decides that if you want to be the master of the universe, you must either master time and space or merge the laws.

The rule determines that the strongest in the universe must go out of his own way, and others cannot repeat it.

Of course, these are all rules of the universe, but it does not mean that they cannot be broken.

But that requires an extremely shocking price or unimaginable power.

The known advanced true gods (the strongest in the universe) are divided into two major routes-the rule route: to perceive the law to a limit, go out of your own genre route, and not repeat the route that others have already walked, that is, the true **** in the primitive universe Birth is non-replicable.

The second is the divine power route, which is divided into three levels:

The first level: 30,000 times (makes the divine body soaring tenfold from its original height)

The second level: 60,000 times (makes the divine body soaring a thousand times from its original height)

The third level: 90,000 times (infinite body, size as you like)

Highest level: One hundred thousand times (invisible and invisible).

The highest level is legendary in ancient civilizations, and it is generally not divided into three levels.

The route of divine power is extremely difficult. Even in the "origin continent" of ancient civilization, only a handful of people follow the route of divine power. Even fewer can succeed. That still has inheritance and resources.

In the primitive universe, no one has achieved the strongest in the universe through the divine power route.

Since Wang Yi already knew it, of course he had to plan ahead.

He wants to take the route of 100,000 times the divine body, but also the route of the law of fusion to achieve the "law of chaos".

In short, I want it all.

And the divine body route and the law of fusion do not actually conflict.

Only one of them reaches a certain level, and then you can become a true god.

For example, the three levels of the divine body in the divine power route can only be counted as the first level when it reaches 30,000 times. The height of the divine body can skyrocket tenfold, but this is only the most common condition for becoming a true god.

And in this world, law perception is the key.

Therefore, Wang Yi would choose to comprehend the ten fundamental principles, which is also normal.

There are some treasures that improve the perception of other disciplines, Wang Yi is not without it, but it mainly depends on his personal talent and perception.

Wang Yi felt that he just needed a little time.

"Law perception, don't worry, let's finish the affairs of the outer battlefield first."

.....

"What? Did you find the King of Insects?"

In the beautiful golden palace, the tender voice of the Zerg mother emperor was suddenly full of murderous intent.

"Have you finally found him, where is he?" the mother emperor of the Zerg clan "Nanxun" asked, kneeling under the hands of the palace.

One of his subordinates lowered his head respectfully and said: "Return to the master, he is offering sacrifices to the mainland."

"Yan Ji Continent? Good!" Nan Xun's tone was as cold as winter, "We will go to Yan Ji Continent right away, this time, the King Chong King will fall."

Nanxun set off with his subordinates, teleported through the Kingdom of God, and instantly arrived at the Yanji Continent, and then teleported to the target location by a strong man who could teleport the king.

"That's the King Insect King." The detection equipment sent the picture, and Nan Xun saw the human in the dark red armor at a glance. Isn't it the "King Insect King" that she has always wanted to kill?

"If you dare to enslave my apprentice, no one can save you today."

"Teleport!"

An enslaved alien king took him the ultimate master of the king who hid the Zerg mother emperor and instantly teleported to Wang Yi hundreds of thousands of kilometers away.

"Space is blocked!"

A line of immortal divine power instantly diffused, completely locking the spatial fluctuations within tens of millions of kilometers.

"Mother Emperor'South Punishment'." Wang Yi, who was waiting here specially, recognized one of those strong aliens immediately. His aura was exceptionally strong, no less than that of King Zhanchen, his face was ugly. He is about three meters tall, and his whole body is covered with black cuticles. There are eight soft black tentacles hanging from the edge of the face on his face. The pair of small eyes squeezed by the cuticles shoot out a cold glow.

He, Pakistani survivor, King of Skeleton Needle.

"The mother emperor's subordinates control the limits and peaks of the king. Among them, the Skeleton Needle King of the Pakistani clan is the strongest defensive one she controls. Therefore, they usually act as the Skeleton Needle King. Nanxun and her immortal zerg army are in the ring of the world."

In the "seventh battlefield of the extraterritorial battlefield", the mother emperor Nanxun is already one of the top existences.

"South Punishment." Wang Yi said.

"King of insects, you dare to come out." Nanxun's voice came from her soul servant.

"You dare to be called the "King of Insects" and enslaved my Zerg and my disciples. I have to admire your courage~www.mtlnovel.com~Today, you died here, or by me Slavery."

Nanxun's tone was high.

A high-ranking king, at most the pinnacle of the king, the strength is compared with the Zerg mother emperor Nanxun, one world at a time.

Without even having to take action by herself, her soul slaves can kill Wang Yi.

"Really? I'm afraid someone will disagree." Wang Yi smiled.

"Oh, who?"

"I."

A cold and indifferent voice sounded, and a purple-gold figure appeared beside Wang Yi, and at the same time an extremely powerful, heart-palpitating aura was looming over him.

"God of Hunting!"

"Wow!" A group of alien kings became a little nervous.

The shadow of the famous tree of the person.

The Hunting King was able to individually kill many powerful kings including the Barbaric Spear King and the Zhanchen King's two king limit, and it seemed unscathed, extremely domineering, and his strength was recognized early.

Nanxun's tone also became solemn.

"The Hunter King, you are here, is this human your friend? No wonder he dared to come out. It turns out that you are behind you."

"Nanxun, if you want to kill my friend, you have to pass me first." The Void Zerg clone said indifferently.

[Chapter 342: Great War South Punishment](#)

The atmosphere between heaven and earth became solidified by the words of "God of Hunting".

Nan Xun also hesitated, and then became resolute.

"kill!"

Regardless of whether the "Hunter King" is invincible or not, it is a hostile camp. She Nanxun is also an almost invincible figure in the battlefield outside the territory. How could it be possible to retreat without a fight in the face of the enemy who enslaved her disciple.

Besides, Nanxun is also very confident in his immortal zerg army.

Following Nanxun, he issued a battle order.

"Wow!"

The surrounding space is rippling, and the huge and hideous figures are looming, one by one, huge golden Zerg warriors emerge at the same time, densely packed, and in the center of a large number of golden Zerg warriors, there is a circle that is more than ten kilometers high. The ball-shaped nest, the nest is full of holes, and all kinds of venom are permeated.

Immortal Zerg brood appears! At the same time, her tens of thousands of immortal Zerg warriors appeared!

The appearance of these golden Zerg warriors is mainly divided into two categories. One is similar to a half-human and half-scorpion shape, about 38 meters in height, covered with thick armor, and a tail with a scythe behind it, on the huge and hideous head. Only a golden one-eye emits a terrifying light.

The other is like a mosquito that has been magnified hundreds or thousands of times. It is tall and thin, covered with scales, with long and slender feet, and you can see long and sharp mouthparts when you open your mouth. The head has compound eyes and antennae, two pairs of wings, and scales on the wings. Thousands of Immortal Golden Zerg warriors flapped their wings at the same time, causing violent vibrations around them.

Suddenly an extremely harsh sound came from the zerg brood that was more than ten kilometers high in the shape of a ball.

"Howl!"

The high-pitched and harsh sound waves made the dense golden Zerg warriors roar immediately.

All the golden Zerg warriors who received the order of the Zerg mother emperor opened their mouths unanimously, revealing the needle-like fierce mouthparts, and the mouthparts suddenly gave birth to a dazzling white light.

Regardless of the scorpion shape or the mosquito shape, the golden Zerg warrior opened his mouth together, exposing his mouth, and gave birth to a dazzling white light.

"The Zerg Legion will fight together!"

Wang Yi is very familiar with this scene, his face suddenly changed, and the clone of the Void Zerg clan and the human body rose into the sky together, spreading away from the original place like lightning in two directions.

"Huh!"

"Huh!"

"Huh!"

.....

Thousands of golden zerg warriors' mouthparts all shot out a dazzling white beam of light at the same time, and tens of thousands of white beams of light converged at the same location as Wang Yi just now!

The cooperation of tens of thousands of powerful Zerg warriors is like one person.

When tens of thousands of white beams of light converge to that point--

"Puff! Puff! Puff! Puff! Puff! Puff! Puff!"

The cosmic space at that point violently quaked and burst directly, revealing the terrible spatial turbulence, various chaotic broken spaces, and cascading spaces turbulently surging.

at the same time! With that point as the center, the vibrating universe is like a domino effect, directly spreading in all directions in all directions!

In an instant, it was like a supernova explosion!

Boom!

produced a dazzling super-large ball of light with a diameter of tens of millions of kilometers, the earth, rivers, mountains...In an instant, it was wrapped in the terrifying light ball of expansion, and completely disappeared from the field of vision!

This super-large ball of light, much larger than an ordinary star, suddenly turned into countless shock waves, impacting in all directions, and then the terrifying harsh sound really sounded.

"Rumble rumbling..."

The sky is falling apart!

seems to usher in the end of the world!

Although Wang Yi's clone of the Void Zerg race and the human body move very fast, they are still shrouded in that huge light.

Thousands of golden immortal Zerg warriors join forces in one blow!

can be comparable to the full blow of an ordinary cosmic monk!

Even if the king is the limit, as long as he is hit, he will fall!

The king is invincible, and it will be hit hard!

Although Wang Yi was not directly hit, he was in the fierce light, and he also felt the power of destroying the world, like a flat boat in the stormy sea.

"Purgatory God Armor" weakened 90% of the impact, and the remaining 10% fell on Mo Yun Teng, which is now the pinnacle of the king, and its physical defense is comparable to the limit of ordinary human kings!

"Bang! Bang!" The battle suit formed by the moyunteng continued to crack, decompose and recover, weakening most of it.

And Wang Yi's first-level human body was finally affected by the huge impact, Peng! The body burst open.

But the natal orb of the human body was not destroyed, and then quickly recovered.

The Void Zerg clone has a better defense than the Purgatory God Armor, and its physical strength is far stronger than the king's limit. In addition, the speed of rushing out is faster, and the impact of the explosion is smaller than that of the human body. It trembled violently, cracked, repaired a few times, and just supported it.

Wang Yi was shocked, the immortal Zerg army fought together, it was really terrifying!

With the defense and physical strength of the Void Zerg clone, it was not directly attacked by the beam of light. It was just the power of the explosion impact, and the body was somewhat unable to resist.

If it is the limit of ordinary kings, maybe the divine body will lose part of it.

And the densely packed tens of thousands of golden Zerg warriors have stared at Wang Yi's side, divided into two teams, and flew in groups.

These golden Zerg warriors fly extremely fast. They are terrifying warriors carefully cultivated by the Zerg mother emperor over hundreds of millions of years, and they are specially used for killing!

And there are about 7,000 golden zerg warriors on the Void Zerg clone, and 3,000 golden zerg warriors on Wang Yi's human body!

Obviously, the Zerg mother emperor believes that the "Hunter King" is the real threat.

But what she wants to kill most is Wang Yi, the enemy who enslaved her apprentice.

Therefore, what she chose at this time was to contain the Hunter King, and let some golden Zerg warriors kill the Royal Insect King to dispel her hatred.

The mother nest of the Zerg clan stayed in place, closely guarding a group of servants of the king, among them the Skeleton Needle King of the Ba surviving clan who was famous for his defenses, staying on the spot!

"Huh!"

At this moment, two figures suddenly appeared on the edge of the battlefield.

A huge beast like a mountain, dark red, burning flames, and golden wings covering the sky and sun.

The other one is the machine clan!

Because the area sealed off by the seal king of the Zerg mother emperor is 30 million kilometers in radius, the Yanxing Giant Beast clone can instantly appear on the edge with the Zhanchen King, who will not teleport.

Then, he teleported eight directions and lowered the eight spaceship pedestals.

"The Lord of the Flame Star Realm?"

"The King of War Chen?"

The Zerg mother emperor in the Zerg brood was surprised.

"The flame star realm master of the human camp actually appeared here."

"Also, I heard that King Zhanchen was killed to a deep sleep, it seems that he was enslaved."

"Not good!" The mother emperor of the Zerg clan felt tight when she thought of something.

With the help of the teleportation of the Yanxing Giant Beast, King Zhan Chen quickly dropped the spaceship base and activated it!

'All directions are extinct'!

Over the endless boundless land, eight pyramid spacecraft are suspended in a remote position. Using their eight pyramid spacecraft as the base point, they radiate countless misty rays of light. The rays of light are connected to each other, forming a misty white light-like space in an instant, a prisoner. The cage-like "white space"-the extinction of all directions!

hundreds of millions of kilometers, completely isolated from the outside world!

While the Zerg mother emperor includes her legion, the servants are all shrouded in a white mask.

This Extinction of the Eight directions is a master of the mechanical race of the venerable universe. The weapons they have produced are extremely powerful!

Under Wang Yi's instructions, King Zhanchen did not hesitate to start the strongest mode from the beginning!

Maximize energy output!

"Om~~"

The white light layer in the extinction space of the eight directions suddenly burst out a line of white silk threads visible to the naked eye. Countless silk threads are densely packed, covering hundreds of millions of kilometers in the six-party hell.

The condensed energy of each silk thread is comparable to ordinary immortal gods.

is already covered by dense, overwhelming energy threads!

With so many threads, the energy lost in just one second is amazing! It is definitely not lower than the maximum range of use of the "air-locking arm", the energy consumption is lower!

Every golden immortal Zerg warrior is wrapped with silk threads, and most of them slow down involuntarily.

is like a bug stuck to a spider web, and it starts to struggle.

The thread keeps breaking apart and getting entangled again.

But there are some more powerful Golden Zerg warriors still not affected much.

The golden Zerg warriors under the command of the Zerg mother emperor are mainly divided into three types: ordinary, elite, and king.

Ordinary golden Zerg warriors, the strength is equivalent to ordinary immortal gods!

Elite golden Zerg warrior, the strength is equivalent to the immortal Fenghou!

The golden zerg warrior of the king, the strength is equivalent to the king!

But for a king-level golden Zerg warrior, even if the Zerg mother emperor makes one, it is extremely difficult and costly! And they will not take the initiative to create a king-level golden zerg warrior! More of it has evolved naturally over the long years!

One hundred ordinary golden zerg warriors may not necessarily give birth to a king golden zerg warrior!

Even if Nanxun, such king-level golden zerg warriors are rare! Generally not sent out to fight, but guarded in the Worm's Nest.

So the ones who rushed towards Wang Yi were mainly the elite golden Zerg warriors equivalent to Fenghou!

When the "Eight Fangs Extinction" appeared and the white light covered the world, the three avatars of Wang Yi also killed in at the same time.

Wang Yi's natal pronucleus remains in the time world, so he is not afraid of falling!

Falling gave birth to a new body in the world of time!

The Zerg Mother Emperor also reacted at this time and issued the order again.

I saw the 10,000 golden Zerg warriors who had rushed out all back, and at the same time opened their mouths, revealing the needle-like mouthparts, and the dazzling white light was born.

But it takes a while for the energy to condense, and at this time the clone of the Void Zerg race and the human body, the Giant Flame Star Beast clone has already been killed!

And, on the edge of the battlefield, King Zhanchen also released the eight gods who had sealed the peak of the king, and flew toward this side aggressively.

"brush!"

"brush!"

"brush!"

As if three lightning bolts pierced the sky, the speed is amazing, the three ghostly figures have directly rushed into the golden Zerg warrior!

The Zerg Mother Emperor wanted to control the golden Zerg warrior to attack one of them, but found that the speed was too fast!

The movement track is too ghostly, it can't be locked at all!

Void Zerg clone's eyes were cold, and its wings shook. It instantly caught up with a group of golden Zerg warriors, and the **** rainbow gleamed across the sky.

burst out with all strength! The pinnacle of swordsmanship-time and time!

An incomparably dazzling blood-colored rainbow light across the sky, the space of the universe is like fragile tofu being easily opened.

More than a dozen golden zerg warriors even had no time to evade, they were penetrated by that **** rainbow light!

Changhong is like a knife, invincible!

Unmatched sharpness!

These golden Zerg warriors, who are at best Fenghou pinnacle, were pierced by the blood-colored rainbow light, and the overwhelming destructive power contained in the blade light instantly corroded the bodies of more than a dozen golden immortal Zerg warriors, and the immortal body was completely transformed into nothingness.

On the other side, Wang Yi's human body and Yanxing Giant Beast clone also fought with the golden Zerg warriors.

噗嗤! Huh! Huh!

The black and white swordfish came and pierced the bodies of heads of golden Zerg warriors. Wang Yi was already mad, without reservation, under the peak secret method, the black and white swordfish's lethality reached the limit of the king! The divine bodies of these ordinary golden Zerg warriors were shattered and annihilated almost instantly!

"Aung~~" The avatar of the Yanxing Giant Beast uses the innate secret method "Yanxing", which can increase its body shape tenfold. The special secret method "Yanxing Transformation" can increase its body shape by a hundred times. Thousand times!

increased from two thousand kilometers to 2 million kilometers!

The secret of talent-absorption!

has greatly improved the body's defense against the Yanxing behemoth, and can absorb most of the damage at the same time!

The giant Yanxing beast with a size of 2 million kilometers is so huge that it makes the heart tremble, like a real sun, crashing into the golden zerg warrior army.

"Wow!"

Thousands of golden Zerg warriors spread out in all directions like a blasted honeycomb, while maintaining the camp of each team.

They were also blinded. With the interference of the Flame Star Giant Beasts, they couldn't reorganize the formation or gather their strength to deal with the enemies in front of them.

"Boom!"

"Boom!"

King Zhanchen was still manipulating mechanical weapons, and beams of energy comparable to the peak of Fengwang fell among the golden Zerg warriors, killing a lot of them.

In an instant, the Golden Zerg warrior was killed and wounded.

The Zerg mother emperor almost didn't explode after seeing this scene!

"Attack!"

"Attack me all!"

At this time, blindly retreating will only cause more casualties, it is better to fight with the other side.

And she cautiously let her subordinates take her to fly to the border of "Extinction in all directions".

She can't stay in the enemy's trap.

That is too dangerous.

All the golden Zerg warriors retreated while fighting. Some took the initiative to entangle the enemy, and some gathered together. Thousands of golden Zerg warriors who had not been affected even concentrated and condensed a palpitating light, blasting on one of the white masks. Point at.

That point is where the base of one of the pyramids is located.

Under the combined force of thousands of Zerg warriors, the white mask only lasted for an instant, and it was pierced.

The power was not weakened at all, "Boom!" The base of the pyramid spacecraft was penetrated and destroyed in an instant.

"The Extinction of All directions" was destroyed, but it did not disappear. Instead, it lost an energy point support and weakened a lot.

Although there are eight spaceship pedestals in "Eight Directions Extinction", in fact, all four of them can maintain space. But the power is far inferior to turning on eight together, and it can't be expanded too much, otherwise it will also affect the intensity of the mask.

The zerg brood was taken to the edge of the light shield by the foreign king of his subordinates, blasted open directly, and rushed out.

At this time, the golden Zerg warriors were also crazy. When Wang Yi's three bodies approached, they blew themselves up!

"Boom!"

"Boom..."

The violent explosion keeps on ~www.mtlNovel.com~The space is shattered.

No matter how strong the Void Zerg clone is, it cannot rush through such a terrible explosion.

Like an lori puppet, it was directly exploded and flew out, cracks appeared on the metal body.

The flame star behemoth suffered the most explosion damage, with scales flying, and dark red molten blood spewing, but with its huge size and amazing defense power and ability to absorb damage, it was fine, and it did not hurt the root at all.

The golden Zerg warrior paid a lot of casualties and finally evacuated safely to the Zerg brood.

The Zerg Brood saw the number of remaining Zerg Legions, and my heart was bleeding.

Tens of thousands of golden zerg army groups, in the short and fierce battle just now, directly fell more than a thousand!

These are more than a thousand golden Zerg warriors comparable to immortal gods!

is the hard work of Nanxun for countless years!

"The Hunter King! The Royal Insect King! I remember you!" Nan Xun endured the anger, put away the golden zerg army, and then let the foreign king slaves take them away without stopping!

Nanpu still has a lot of hole cards and methods, but she is sure that the opposite is the same. Is it worth it to work so hard?

Nanxun finally chose to leave.

This thrilling battle between two superpowers who are close to the invincible king finally came to an end.

[Chapter 343: Star Tower](#)

Wang Yi watched the Zerg mother emperor leave, but did not stop him.

"It's over." Wang Yi put away his weapons and looked at the messy battlefield.

"Now, the Zerg mother emperor shouldn't come over easily to trouble my human body anymore."

"However, it is impossible for the other party to give up easily. I have to keep an eye on it."

Wang Yi glanced in a certain direction again, and then left with the two clones and the soul slave "King Zhanchen".

This time, Wang Yi's Zerg Mother Emperor's Zerg Legion was killed by Wang Yi for more than a thousand, which greatly increased Wang Yi's military merits and panel tasks.

Wang Yi's loss was nothing more than some mechanical weapons and energy consumed by the servant "King Zhanchen".

Compared to Nanxun who suffered a heavy loss, this time he has a bumper harvest.

A high mountain 300 million kilometers away from the battlefield, an alien spaceship is lurking here, frightened.

They happened to encounter a duel between two superpowers and were shocked.

"That seems to be the Hunter King of the human camp, and the Southern Punishment of the Zerg camp, right?"

"Why are they fighting here?"

"The Royal Insect King is also here, the Hunting God King should be here to help him."

"The two sides stopped fighting... they came out, and Nan Xun came out, why are you a little embarrassed?"

"The Zerg Legion of Southern Punishment also seems to have lost a lot."

"Oh my God, shouldn't you lose?"

These alien immortals were shocked.

In the seventh battlefield of the entire extraterritorial battlefield, the name of Nanxun is almost unknown to everyone.

Immortal Zerg Legion, beyond the vertical and horizontal domains, almost invincible!

And now, it seems to have suffered a loss in the battle with the "Hunting King".

Why doesn't it make people feel shocked.

"The Hunting King is so strong, why can't even Nanxun help him?"

"too crazy."

"Is he really the invincible king?"

When this news spread quickly on the battlefield outside the territory, it also surprised countless people.

And the "Hunter King" has also built his own prestige through this battle!

Now who doesn't know, a new top powerhouse "Hunting King" has appeared in the human camp on the seventh outer battlefield, and even the Immortal Zerg Mother Emperor suffered a big loss in the battle with him.

And the "King of Insects" who seems to have a good relationship with the "King of Hunting" also fell into the eyes of many people.

"The King of Insects is really lucky. There is such a good friend as the "God of Hunting", who offends the mother of the Zerg clan, Nanxun, and can survive."

Many people also feel envious.

The "God Hunting King" is very mysterious and cold.

is a strong man in the same camp, and few have seen him personally, let alone communicate.

And "King of Insects" is the only human who has openly interacted with him.

As the powerful strength of the "Hunting God King" was spread, his information was also collected by a large number of powerful people.

The "God Hunting King" is currently offering sacrifices to the mainland, but he may not know when he will appear on his side in the future. It's better to find out in advance. If you accidentally encounter the "God Hunting King", you still don't know anything. That's going to die.

...

"Those guys actually sent me messages asking if I knew the Hunter King." Wang Yi shook his head.

As the "King of Insects" on the battlefield outside the territory, Wang Yi did know some friends, all of whom were crowned kings.

When these kings heard that he knew the extremely mysterious "Hunting King" in the legend, they all rushed over to ask.

Some also want to invite the "God of Hunting" to go to some places through him.

was all dealt with by Wang Yi.

The spacecraft flew rapidly over the vast land. Wang Yi was sitting on the sofa, and even the surrounding alien teams discovered by the detection equipment were too lazy to bother and fell into thinking.

For the first time facing a combined blow from tens of thousands of Immortal Zerg Legions, the destructive power that ruined the world made Wang Yi feel heart trembling in retrospect.

Even if the Void Zerg clone is wearing the "Imperial Armor" and is hit by the immortal Zerg Legion, I am afraid it will not be able to hold it.

That power has reached the power level of the Lord!

Of course, the mother emperor Nanxun and others existed, so-called "Venerable Universe is invincible", but facing the Venerable Universe... it would be dumbfounded and there is no resistance.

After all, the reason why the Venerable is strong does not rely on strength alone.

And fighting with countless Zerg warriors also made Wang Yi's blood boil, and there was an inexplicable feeling in his heart.

"Life, sublimated in battle..."

Wang Yi muttered while looking at the starry sky simulated by the location.

"It seems that my plan has to be changed a bit."

Originally, Wang Yi wanted to hunt down more immortals in the Yanji Continent or other places, accumulate the task quota, and then go to the most difficult area of the Star Tower.

But after fighting with the immortal Zerg mother Emperor Nanxun, he changed his mind again.

"A thousand kings, even if I kill one in 10 years, it will cost tens of thousands of years." Wang Yi shook his head. "Moreover, there are so many crowned kings who have fallen in ten thousand years. How could it not attract the attention of powerful people of various races? I thought it was too simple before."

It's like offering a sacrifice to the mainland. Before Wang Yi came, it might not have been a hundred years before the death of a king.

But after he came, in just over a year, the fallen king could not be counted.

Because of this, the "King of the Hunting God" has become famous and has become the top powerhouse in the 7th domain outside the battlefield, and has been paid attention to by countless powerhouses.

If you continue to kill like this, I am afraid that the venerables of the alien races will pay attention to him. Maybe they have been paying attention to him now, but the venerable is absolutely forbidden to enter and interfere in the outer battlefield, so they can only pay attention.

Several kings were killed, they can tolerate it.

But one hundred and one thousand? What about a stubble of killing? I am afraid that all parties will not sit idly by.

The anger is hard to commit.

The venerable being unable to enter does not mean that those strong men cannot unite and besiege him.

no matter how strong it is, it is only a king, even if the venerable is besieged by tens of thousands of kings, he may fall.

One or two clones died, Wang Yi didn't care, after all, his pronucleus was in the realm of time, and the clones fell and could be reborn soon.

But treasures such as "Emperor Armor" and "Purgatory Armor" are very troublesome if they are dropped and taken away.

"My human body, go to the Star Tower to sign in first." Wang Yi touched his chin.

"The clones of the Void Zerg clan and the Yanxing Giant Beast clones, continue to hunt in the Yanji Continent, or go hunting elsewhere."

There was brilliance in Wang Yi's eyes.

It's impossible for him to stop hunting. At most, he can slow down and be more concealed.

Void Zerg clones can change their appearance and disguise their breath.

Yan Xing Giant Beast is a bit troublesome, but it's okay to hunt and kill teams below the Fenghou mainly in the Yanji Continent.

is that the "locking arm" feature is too obvious to hide.

As soon as you use it, others will know that it is you. Once a subpoena, the message cannot be kept secret, and it is useless to kill or kill.

can only reduce the frequency of using the "air-locking arm".

Wang Yi sighed inwardly.

But he was refreshed afterwards.

because he has another new discovery.

is his soul slave, "King Zhanchen", and the enemies killed are counted on him.

The military system will not be said, as long as the virtual universe is transmitted synchronously, it will automatically judge.

and the sign-in panel, it is so recognized.

In a battle with Nanxun just now, "King Zhanchen" also killed many golden Zerg warriors, and the result panel was counted on him in the end.

Now his task progress is—

【Kill ordinary immortal gods: 2877/100000】

【Kill the immortal gods of Fenghou:648/10000】

【Kill the Immortal God of the Sealed King: 19/1000】

The kill here also includes soul slavery.

Less than two years after coming to the outer battlefield, the task of hunting down the king was only one-fifth completed, and Wang Yi was fairly satisfied with this progress.

Of course, there is also an element of luck. Many of the kings were sent to the door on their own initiative and became Wang Yi's performance.

In fact, it is normal to have not met a king in the foreign battlefield for several decades.

And the battle of the king was also very cautious. No one was like Wang Yi, powerful, with many cards, and hunting wildly.

And now through his soul servant "King Zhanchen", Wang Yi has discovered a new way to complete the task quickly.

That is to pull the team!

A mechanical clan with the limit of sealing king, "King Zhanchen", can hunt prey below the level of the king alone.

If more groups are enslaved, divided into groups of three or four, and hunted together, will the efficiency increase?

"I do it myself. Once I kill too much and the risk is high, then I will enslave the strong, let them help me, stir up the water, and let others not realize that it is me." Wang Yi smiled.

He suddenly felt as if he had become a behind-the-scenes man, disturbing the situation on the battlefield outside the territory.

feels a bit insidious.

But the strong one is not insidious? At most, the style of doing things is different.

However, it is very difficult to enslave the peak of the king, and even the power of the limit. The success of enslavement before is also good luck. This kind of good thing does not happen every time. Now Wang Yi can only look for opportunities.

"Go to the Star Tower, where the strong are like clouds!"

...

The news that a new super-powerful "God of Hunting King" appeared in the human camp on the battlefield outside the territorial battlefield was also spread to all parties in the universe through various channels.

And the Chaos City Lord of Chaos City, through the army system and virtual universe, naturally knew the first time.

"This Wang Yi really surprises people everywhere."

City Lord Chaos stood alone on the edge of the cliff on the top of Thunder Island, looking down at the "Yuxiang Mountain" underneath.

Compared with "Thunder Island", "Yuxiangshan" is too small.

And "Thunder Island" is a virtual universe company above the immortal level to be eligible to enter, and it is a place where the real strong gather.

"Yuxiangshan" is a place to cultivate talents.

"Those talented newcomers who came in the same session as Wang Yi, except for Luo Feng, are all universe-class." The City Lord Chaos sighed a little. "But Wang Yi is already on the battlefield outside the territorial battlefield, and he can compete with the immortal Zerg mother emperor."

"Wang Yi is now in reality, and his strength should be close to King Zhenyan, King Longyan, these ancient kings who have practiced for hundreds of millions of years, are invincible."

Chaos City Lord is very satisfied.

The human race has one more invincible king, and it is insignificant.

However, with Wang Yi's potential, he will have to be the hegemon of the universe in the future, and it will still be the top one. With the addition of the clone, the human race is equal to three more top universe hegemony that can be resurrected at the same time, which is more than a real universe master. I'm afraid it's even more powerful.

If Wang Yi becomes the "Lord of the Universe," it will be even more terrifying. To put it bluntly, the strength of mankind will increase.

"The Lord of the Universe" is the true pillar of the ethnic group.

And "the strongest in the universe" is the strongest of the town clan! As long as a race has a "strongest person in the universe", it will not weaken.

It's a pity that the human race is now the strongest in the universe. Although the Primordial City Lord claims that the Primordial Universe is most likely to become the cosmic lord of the "universe strongest", this level has stuck him for countless years.

More importantly, the human race hasn't had a "Xeon Treasure" until now, which also makes Chaos City Lord worry about it.

"The strongest man in the universe..."

"Xeon to treasure..."

Chaos City Lord suddenly thought that in the battlefield outside the seventh domain, isn't there a "star tower" there?

Unfortunately, since the discovery of the "Star Tower" in the outer battlefield, countless people in the universe, including the Lord of the Universe, and the strongest in the universe have tried it, but no one can take away the treasure of "Star Tower".

It is impossible to shake.

"such a pity..."

Chaos City Lord sighed leisurely.

Chaos City Lord didn't know yet, someone was rushing over to the Star Tower he was thinking of.

...

"Star Tower!"

Wang Yi traveled to the "Star Tower" area through his subordinate "Zhanchen King" and arrived at the "Star Tower" area.

Actually, the "Star Tower" is too big, nine light-years high, and the sky can be seen through the sky. Across the endless distance, you can see the towering giant standing in the void and swallowing the energy of the galaxy.

seems to cover half of the universe, the towering tower of stars, suspended in the starry sky.

The dazzling nebula vortex is centered on the stars and towers, swallowing endless energy crazily. This "nine spiral nebula" looks beautiful and bright, but in fact it is the nightmare of the strong, and the sage of the universe is torn and annihilated as it goes deep.

Wang Yi was also the first time he saw such a terrifying sight with his own eyes, and was also shocked by the universe wonders made by this infinitely powerful Xeon Treasure!

"Unbelievable, this is the Xeon Supreme Treasure, the Star Tower." Wang Yi murmured, with a trace of heat in his eyes. UU reading [www. uukanshu.com](http://www.uukanshu.com)

His Void Zerg clan clones and Yanxing Giant Beast clones were still hunting in the Yanji Continent, while the human body came here with the "Zhanchen King".

Zhanchen King plus Wang Yi's human deity, the ultimate combat power of the two kings is more than enough to deal with ordinary kings.

It's really tricky, and then call the Void Zerg clone over.

And at the moment after the spacecraft successfully shuttled through the universe, he felt an unimaginable terrible summoning instantaneously, that summon surpassed the armor, general, and king armor, and even surpassed the black metal plate of the Nine Tribulations Secret Code. , Not only made every cell in his body tremble, even his soul was trembling!

"This sense of summoning is really terrible, but it's a pity that this star tower can't be used by me." Wang Yi whispered softly.

His spiritual path is destined to be unable to recognize the Lord successfully in the Star Tower.

"but..."

Wang Yi looked up at the incredible star tower that occupies half of the universe, with a smile on his face.

"Who said that you must accept the test of inheritance to get the Star Tower, there are other possibilities."

"Good boy, sign in!" Wang Yi was very angry!

Originally, Wang Yi just said casually. After all, the Star Tower can be seen here, but it is actually far away.

【Ding, congratulations to the host for signing in successfully, reward the fourth calamity of the Secret Book of Nine Tribulations! 】

[Chapter 344: On the day of signing in at the Star Tower](#)

The Secret Code of Nine Tribulations, created by the reincarnated king "Zitshan Ke", is a heaven-defying technique that is restricted by the rules of the original universe!

Practice is extremely difficult! Without the technique of avatar, practicing this is tantamount to suicide.

In essence, successful cultivation can continuously improve the genetic level of life!

Wang Yi once signed in on the earth and got the first of the nine calamities.

Signed in the "Wulong Star Region", one of the nine garbage star regions, to get the second and third calamity, which helped him a lot to improve his strength!

Now, he signs in here to get the fourth calamity!

unexpected surprise!

A mysterious power descended on Wang Yi, completely isolating the universe from time and space, and everything was done in an instant.

Wang Yi, including all the clones, has been raised to the fourth calamity level!

is 24 times!

And the limit of the Secret Code of Nine Tribulations, the Ninth Tribulations, is 768 times!

In fact, Wang Yi very much doubted that ancient civilizations existed far beyond the "Nine Tribulations" cultivation methods, after all, the mountain guest is not too powerful among the gods, just good at refining tools.

Perhaps, existence can be cultivated a thousand times! Ten thousand times the secret method of genetic level!

However, this is not what Wang Yi wanted to get. Being able to practice the Nine Tribulations is already the envy of countless powerhouses in the primitive universe.

The genetic level has been increased to 24 times, how much is the power of the beast god?

Wang Yi couldn't help but start trying.

It turns out that the gene-level power can be increased to 240 times under the power of the beast god!

did not surprise him.

If the amplitude secret method is added, it is 24,000 times!

The power of the high-ranking king is 30,000 times the power of the pinnacle of the master!

And the peak of the king is 100,000 times the power of the pinnacle of the world lord!

The improvement of the foundation means that Wang Yi's human body can exert greater strength.

And the genetic level of Yanxing Giant Beast clone has been increased to 240 times!

plus the "power of the beast god", it is 2400 times the genetic level!

With the amplitude secret method, the Yanxing Giant Beast can reach 240,000 times the power! surpassed the peak of Feng Wang!

The Flame Star Giant Beast is so terrifying, what about the "Void Zerg Clone"?

Void Zerg clone, its own genetic level is 280 times, this time the fourth tribulation metamorphosis, directly increased by 24 times, to 6720 times the genetic level!

However, the effect of the "power of the beast god" has also weakened again, even if the "power of the beast god" is driven, the gene level of the clone of the Void Zerg is only increased to 9,000 times!

"In the original historical Luo Feng, the human body's genetic level in the fifth calamity of cultivation reached 48 times, and 100 blood Luo crystals were combined. It should have been increased by a hundred times. In the end, it was only more than 3,000 times, which was more than 60 times." Wang Yi thought. Muttered, "It's not a giant star beast, neither can perfectly integrate the power of the beast god, and the giant star beast will have no such trouble."

As the level of one's own genetics increases, the effect of improving the power of the beast **** in other lives is significantly weakened.

The perfect life gene is 10081 times that of ordinary life.

And the clone of the Void Zerg race is far from the 10081 times the perfect genetic level of the universe.

If you can reach the perfect genetic level, you can get the gift of the primitive universe and get the "Secret Technique of the Strongest Talent"!

The best gifted secret method is an encounter for every strong person who has reached the perfect life gene level. Their consciousness will be attracted to the core of the universe and be inherited. This is the inheritance of consciousness... If consciousness has been passed on once, it cannot be passed on for the second time. Because each life has only one chance.

"The first calamity is 3 times the gene before. The second calamity is 6 times, the third calamity is 12 times, the fourth calamity is 24 times, and the fifth calamity is 48 times."

"It is estimated that if you get the fifth calamity, you should be able to break through ten thousand times."

But Wang Yi is not in a hurry, this will happen sooner or later.

"Void Zerg Clone" gene level reached 9,000 times! The secret method of amplitude is 900,000 times! It can almost perfectly exert the power of "Emperor Armor", reaching 9 million times the strength of the pinnacle master!

At this point, an increase of 1 million or a decrease of 1 million would have little effect on the clone of the Void Zerg.

When he arrived at the Star Tower, he had a good start, and Wang Yi was very satisfied with the result.

"As expected, it is the Star Tower, a **** king-level treasure fused with a mysterious golden light, it is awesome!"

Next, Wang Yi is going to squat here, squeezing the wool of the Star Tower.

"This kid, why did he come to the Star Tower? Does he want to go in?" In the void, a shadow perfectly blended into the surrounding space and time in an incomprehensible way, frowning and watching Wang Yi's spacecraft fly towards the Star Tower. As if recalling something, the dark eyes that seemed to lead to the black hole also became deep.

"Star Tower..."

At the time when the "Star Tower" appeared, it attracted countless powerhouses and set off a **** storm. Many super powerhouses went crazy because of this supreme treasure, and they launched fierce battles, and even the Lord of the universe fell because of it.

In the end, it was discovered that no one can get the "Star Tower"!

Countless ethnic forces tried their best, exhausted their minds, but they couldn't even move the Star Tower one step, so they simply said to take it away!

So the Star Tower has been standing here so quietly, unchanged for billions of years.

has become an ancient battle area in the outer battlefield!

"If Wang Yi enters the Star Tower, I wouldn't be able to get in..." The shadow frowned.

.....

Near the Star Tower, in the starry sky about tens of billions of kilometers away from Wang Yi's spacecraft, a blue-white elliptical, strange spacecraft with flowing water like ripples on its surface is moving forward.

There are three kings chatting in the spaceship.

"Star Tower, I have come to the outer battlefield for so many years, and finally saw the famous Star Tower." An alien king with blue scales, hundreds of spikes on his forehead, looks extra vicious and excited.

"Haha, Silver Wheel King, your first visit, of course, you will be excited. The Star Tower is the most famous and strongest place in the seventh field outside the battlefield. The number of conquered kings alone is 100,000!" Another humanoid insect The same alien kings issued a breathtaking evil laugh with echoes from the abyss.

"Speaking of the Star Tower, in fact, everyone who comes here has tried to make the Star Tower recognize the Lord. Of course, no one has succeeded so far. However, it is too impractical to get the Star Tower, and in addition to the Star Tower, there are actually Other treasures have attracted countless powerful people here to fight and fight." The third female Feng Wang, who was translucent and illusory, said with a smile: "The treasure "Zhenfeng Star" is bred in the Star Tower, and every "Zhenfeng Star" original body is It is the size of an ordinary planet. As long as it is refined, the strong can be sealed through the seal of the stars. After defeating the enemy, the enemy will be sealed in the "seal of the stars", and the enemy will never escape. These treasures... even the universe The venerable vainly tried to get it. But in the nine-light-year-high star tower, there are countless sacred stars bred, just like "water droplets" on the sea. Although this sacred star is a treasure, it is incomparable in the star tower. common."

"Why--if the Zhenfeng stars were not born on their own initiative, even if the universe is super-existing, they would not be able to forcibly remove those "zhenfeng stars" from the Star Tower."

Silver Wheel King nodded, "Yes, I know too."

Star Tower will occasionally suddenly have a Zhenfeng star born! Each sealed star is a treasure for the powerful seal, enough to make the kings crazy, and there is no way to destroy the Lord of the universe, no matter how to fight, it will naturally become the most peak battle place.

The three crowned kings are all looking forward to their next career.

.....

Since signing the Fourth Tribulation of the Nine Tribulations, Wang Yi has been in no rush. He sat in the spaceship slowly and did not arrive at the entrance of the Star Tower until more than ten days later.

The body of the star tower is surrounded by a dazzling nebula vortex.

However, there is no nebula vortex at the bottom of the tower. The tower is divided into nine floors. The bottom and first floor has nine entrances. Many foreign kings and those who come to try their luck enter along one entrance at will.

From the Star Tower, there is still a sense of calling that makes the soul tremble.

"Good luck, maybe I can get the next few calamities." Wang Yi looked up at the towering star tower that obscured the starry sky. What is the concept of being nine light-years high? Compared with it, the sun is like the difference between dust and mountains.

is full of expectations.

At the same time, there was a hint of worry.

"I just don't know if I will be discovered by the mountain guest."

"Forget it, it's a blessing or a curse, it's a misfortune that cannot be avoided. Even if the mountain guest discovers the nine calamities on my body, he can't know the existence of the panel...I will not be dissected, right?"

Wang Yi raised his head and looked at the huge black tower one million kilometers high, and muttered in his heart.

"Check in."

[Ding, congratulations to the host for signing in successfully, reward the town of the stars (quantity: 1)!]

"Um?"

A smile appeared on Wang Yi's face.

"As soon as I arrived at the door, I gave away a heavy treasure." Wang Yi felt a little fiery in his heart.

"The Star Tower is indeed a treasure."

Nonsense, don't look at what level of treasure the Star Tower is, the entire primitive universe, even if the mountain guest carries the reincarnated God King's weapon "Jinwang Palace", it cannot be compared with the "Star Tower" in terms of mystery and power!

The origin of the "Star Tower" itself is mysterious, faintly revealing the higher levels behind the Origin Continent.

"Zhen Feng Xing Chen" is a sealed treasure, as long as the strength is slightly stronger than the opponent, relying on Zhen Feng Xing Chen can forcibly seal the opponent and trap it! The opponent will never be able to escape... The seal of the stars is of special nature and material. If trapped in it, even Venerable Universe would never want to break it out of it.

Of course, it would be a lot more troublesome to use it to seal Venerable Universe.

But "Zhen Feng Xing Chen" is still a treasure, a great treasure that makes countless powerful people of hundreds of millions of races crazy. It can be imagined how tragic the killing would be in order to seal the stars.

Every star of the town seal represents a big slaughter!

And Wang Yi walked around the door to sign in and got a "Shenzhen Star".

Wang Yi looked at the sign-in panel. Since the upgrade, the image of the pure gold local tyrant on the sign-in panel has turned into a hint of purple, which is even more noble!

Wang Yi curled his lips in his heart.

And under the sign-in panel of the enhanced version of the local tyrant, there is one more black star bead that exudes an ancient atmosphere.

The real body shape of Zhenfeng Star is actually very large, comparable to an ordinary planet! It is extremely heavy. If there is no refining, it is very troublesome to use it alone.

A message flowed into Wang Yi's consciousness, telling him the message to seal the stars.

Sealing the stars is a treasure, but it is actually more suitable for those who are "spiritual".

Ordinary warriors take different battle routes, and it is difficult to perfectly play the role of sealing stars.

"A sacred star is obtained, and this sacred star has the effect of a powerful seal. In terms of value, it is probably higher than the "Purgatory God Armor"." Wang Yi sighed.

Among treasures, in the same level, weapons have always been the most common and lowest value, armor types are higher than the former, palace domain souls, etc. are more precious and rare.

The seal of the stars is regarded as a "seal type", and its value is higher than the armor type, and lower than the palace type domain type.

"Huh?" Wang Yi suddenly moved his head, turned his head, looked behind him, three streams of light flew close, revealing three alien figures.

The three foreign kings also saw Wang Yi.

Humans in dark red armor?

"Isn't this the king of insects?"

The three alien kings are all nervous.

Royal Insect King is not terrible.

The terrifying thing is the "King of Hunting" behind the King of Insects, who is close to the invincible king!

It was a terrible existence that brought the two great kings to the limit and the three top kings in the first battle, and even the mother of the Zerg clan, Nanxun, was said to be at a disadvantage!

Killing Mingzhisheng, even the king of Feng throbbed when he heard it.

I heard that the king of insects and the king of hunting are very good, and the king of insects is here, what about the king of hunting?

The three alien kings looked at each other, and at the same time they turned their directions and flew to another entrance.

Wang Yi: "....."

Am I so scary?

Come back to me and explain it clearly!

Wang Yi curled his lips and flew up, in the same direction as the three alien kings.

Don't get me wrong, he just went to another door to sign in.

The three foreign kings also found Wang Yi following behind them, and they were all nervous.

"The King of Insects is following, what should I do?"

"What can be done, the Hunter King may be by his side, do we dare to provoke him?"

The three foreign kings fell silent.

can't afford to offend.

can't afford to provoke, we can always hide, right?

The three alien kings speeded up their flight at the same time, quickly rushed to the entrance, and rushed in without looking back, as if someone was chasing behind them.

Wang Yi slowly flew behind them.

These three alien kings have good strength, and at the gate, people come and go, and they are not easy to fight, so Wang Yi has no intention of taking action.

嘖, there are too many people!

"Sign in." Wang Yi said in his heart when he arrived at the second giant gate.

[Ding, congratulations to the host for successfully signing in~www.mtlnovel.com~ Reward the seal of stars (quantity:1)!]

Another one.

Wang Yi nodded in satisfaction.

If other seal kings knew that Wang Yi would “picked up” two sealed stars so easily, he would have to be jealous and desperate.

Next, is the day when Wang Yi signs in at the Star Tower.

I fly!

I teleport!

I sign in!

[Ding, congratulations to the host for signing in successfully, reward the town of the stars (quantity: 1)! 】

[Ding, congratulations to the host for signing in successfully, reward the emperor soul (quantity: 1)! 】

.....

Wang Yi is like a hard-working bee flying around the 90,000-light-year-old star tower.

Wang Yi hummed a small tune and said, the joy of signing in, you will never understand!

[Chapter 345: Industrious ant](#)

Star Tower, nine light-years high.

A light-year, approximately equal to nine trillion kilometers.

Wang Yi is worried about missing certain check-in areas, and most of the time he maintains the flight.

Even if the flight speed is close to the speed of light, it takes more than nine years to fly from the bottom to the top.

Not to mention that it would be tens of thousands of years to complete the exploration of the entire Star Tower area. I am afraid that hundreds of thousands of years may not be possible.

And this is still outside the Star Tower, there is an incalculable forbidden space inside the Star Tower.

But Wang Yi still dare not go in.

He obediently signs in outside the Star Tower.

Days pass by.

The human super beings hiding in the dark looked at Wang Yi flying on the Star Tower, all wondering.

What is this kid doing?

.....

When Wang Yi's body was signed in the Star Tower, his Void Zerg clone and the Yanxing Giant Beast clone hunted and killed in the Yanji Continent.

The mother of the Zerg clan, Nanxun, has been paying attention to the news of the two avatars of Wang Yi. After receiving the news that the King of Insects was in the Star Tower, and the King of Hunting God was in the Yan Sacrifice to the mainland, she had some thoughts in her heart.

But she immediately pressed it down.

Star Tower, too empty, not a good place for interception.

She continued to patiently wait for the opportunity.

Having suffered a heavy loss from the Hunting God King, how could Nan Xun bear such a tone.

She will never end with humans!

In a blink of an eye, half a year passed.

Star Tower.

Wang Yi is in a good mood now.

In the past six months, he has been flying around the Star Tower non-stop, signing in more than one hundred times.

In addition to the "Nine Tribulations and Fourth Tribulations", he also received nearly a hundred sealed stars, 2 emperor souls, 1 "royal armor", 6 emperor souls, 8 emperor souls...

'Original Soul' is a very special soul treasure. When it is integrated into the soul, it can make the soul stronger!

The 'primitive soul' and the 'Jia Jia' created by Zuoshan Ke, the actual powers are not up to the level they should have, and they are slightly weaker. The main reason is that these two treasures... both

contain the ability to breed children, and more than half of the materials are spent in refining them, which is to give them the ability to breed children.

robbery armor, gave birth to soldiers armor, general armor, king armor, and emperor armor.

The original soul, bred the soul of soldiers, generals, kings, and emperors.

Star Tower, itself gave birth to "Zhenfeng Star". Of course, inside the Star Tower, there is not only the "Zhen Feng Xing Chen", but only the "Zhen Feng Xing Chen" can be taken out.

The sub-body of the original soul... Soldier soul, general soul, king soul, and emperor soul must also be the soul of a human being on the earth to be able to use it.

Soldier Soul, the pinnacle of ordinary human world masters can fully carry it.

The soul can only be carried by a hundred times the peak of the human world lord.

The King Soul can only be carried by ten thousand times the peak of the human world lord.

The emperor soul can only be carried by a million times the peak of the human world lord, and can exert the soul power of the peak of the world lord ten million times!

Wang Yi got two emperor souls, one of which can be used by Void Zerg clones, and the other can be used by Yanxing Giant Beasts.

Even if the Yanxing Giant Beast is integrated into the "Emperor Soul", it can only exert 240,000 times the soul power of the Lord's Peak, which is 2.4 million times the soul power!

And the Void Zerg clone can play 9 million times the "Emperor Soul"!

Moreover, the "Emperor Soul" also has the powerful effect of protecting the soul, weakening the soul attack!

can make up for the lack of Wang Yi's soul.

Of course Wang Yi would not be satisfied with this.

Compared with the Star Tower, these are not even root hairs.

"Star Tower, Star Tower..."

"Sign in, I sign in..."

"I'm not in a hurry, I'm not in a hurry..."

Wang Yi maintained a speed of nearly 250,000 kilometers per second flying outside the Star Tower.

From the perspective of the star tower as a whole, it looks like a tiny ant crawling on a star.

Slow and pitiful.

But Wang Yi is really not in a hurry.

The pleasant reminders that sound in his ears from time to time will make him feel happy.

Hey, I just play.

In the sky of the Star Tower, human super beings look at me and I look at you.

What is he doing?

"Pang Bo...oh, you should be called Star Prison outside." A great being covered in simple golden armor murmured: "What are your disciples doing? How do you feel that you are walking around the Star Tower. Fei, does he still want the Star Tower to recognize the Lord?"

A tall figure in a dark vortex, between illusion and reality, is full of evil and destruction in silence.

how could I know?

I am not him.

The Star Prison Demon Lord glanced at the disciple who was still "climbing" outside the Star Tower at a leisurely speed, and muttered in his heart, "Could it be possible that he really wants to recognize the Lord Star Tower?"

All the powerful people of all races who come to the Star Tower for the first time will try to recognize the Lord at a time. Maybe they will be lucky. It is a pity that for countless years, no one can successfully recognize the Lord.

But they usually give up after trying a few times. Few people are as "persistent" as Wang Yi.

Should I say that the idea of genius is different?

"At his speed, if you want to fly the entire outer area of the Star Tower, it won't work for eighteen million years." Another super existence said, "Should we remind him?"

The human race made Wang Yi come to the battlefield outside the territory for training, but he didn't come to travel.

Although they had misestimated Wang Yi's true strength, they did not expect that Wang Yi's true strength even the immortal Zerg mother emperor could not help him.

This training has become a bit outrageous.

But I can't watch him waste time on the battlefield outside the territory.

The most important thing is that they don't have so much time to waste with Wang Yi here.

The evil blood pupil of the Star Prison Demon looked at the distant Star Tower, and touched the scaled chin.

"Wait a minute, maybe he is just on a whim and will soon end this meaningless act."

So the super beings of the human race calmed down again.

Watching Wang Yi flying above the vast star tower at the tragic speed of an ant.

Wait, another ten years have passed.

Ten years is nothing for some ancient and great beings. They retreat and practice for a while, maybe thousands of years have passed.

Wang Yi was still flying on the Star Tower.

The human powerhouses stopped discussing, and watched Wang Yi's tossing with peace of mind.

I don't believe it anymore, you really have been flying on the Star Tower for eighteen million years.

Is anyone really such a weird brain?

At this time, Wang Yi also flew the Star Tower in a straight line from beginning to end.

Of course, the nebula vortex surrounding him cannot be approached.

Even so, it took him ten years.

However, it is just a straight line range, compared with the entire range of the Star Tower, but a very small part.

After flying for ten consecutive years, Wang Yi was also a little numb.

[Ding, congratulations to the host for signing in successfully, reward the star map (quantity: 1)!]

"Huh?" Wang Yi's spirit lifted slightly.

Over the years, he has signed in many treasures, but it is the first time he has signed in for the star map.

The star map is a picture scroll refined by the mountain guest and used to seal the stars. This scroll is a treasure. It can be integrated into the seal stars... The two can be combined to form one A special treasure, the star map, also barely crossed the threshold of the 'treasure'.

A message flooded into Wang Yi's mind, letting him know the information of "Star Map".

The star map itself is a treasure.

Sealing the stars is also a treasure.

However, the picture scroll can be integrated into a large number of sealed stars. According to the influx of information, it can hold up to 100,000 sealed stars! Every Zhenfeng star is a treasure... Once 100,000 Zhenfeng stars merge with this scroll and turn into a star map, they definitely enter the ranks of the most treasures.

The method of using the star map is to engrave some of the secret patterns of attacking secrets that you have realized, and it will naturally be engraved on the sealed stars.

Once attacked, the rules of communication between stars are unlimited.

controls the stars, the secret pattern of the law is imprinted on the stars, and can be erased at any time, and then imprinted again.

Therefore, the higher the level of Wang Yi's secret method, the stronger the engraved rule secret pattern, and the greater the power of the star map.

For example, Wang Yi can now engrave his own time-space attack secret "Black and White Swordfish Array" on the stars, and then integrate it into the star map. The more stars are engraved, the more powerful the star map will be.

And if Wang Yi creates a stronger attack secret method in the future, he can also erase the original secret pattern and engrave the stronger secret method on it.

"The star map plus the seal of stars is much stronger than the space-time shuttle the teacher gave me." Wang Yi couldn't help but said.

Time and Space Shuttle is a top attack treasure.

And the seal of the stars and the star map absolutely crush the space-time shuttle.

After signing in for the past ten years, I have obtained a lot of treasures, but none of them are comparable to the "Star Map".

"Big harvest." Wang Yi was in a good mood.

.....

The seventh battlefield outside the territory, Yan sacrifices to the mainland.

"Roar, brother, I said to you, why did you come to the battlefield outside the territories, and return to the human side."

A huge body with a height of over a thousand kilometers, a cyan behemoth, a strange behemoth like a gorilla, flapped its wings, and surrounded the flame star behemoth.

This is an immortal 'destroy behemoth', and it belongs to one of the twelve peak lineages of the star behemoth like the Yanxing behemoth.

But it's not a devouring behemoth. Behemoth of the "Thunder and lightning, time" category.

by nature is cunning and cruel.

has only one kind of talent secret-time stands still!

Although there is only the same secret of the talent of "Time Still", the power can be imagined.

But it belongs to the monster clan camp, perhaps because the monster clan has always wanted to win over the star behemoths, the star behemoths mostly enter the outer battlefield as the monster clan.

However, there are very few star behemoths in the entire universe, and star behemoths in the outer battlefield are extremely rare!

Can two behemoths of the starry sky meet in the outer battlefield?

That's too rare!

Therefore, this giant star beast named "Earthquake King", with the ultimate strength comparable to that of the king, is wrapped in the avatar of the giant flame star beast.

Of course, in addition to the closeness of the same family, it is more of curiosity.

After all, the Yanxing Giant Beast is just the master of the world, and it actually possesses the strength of the pinnacle of the king!

scary!

That's right, after ten years, as the Yanxing Giant Beast continued to hunt, and killed a Sealed King alone, it is now "already" in the eyes of outsiders as the "peak of Sealed King" strength.

Destroy the giant beast "Earthquake King" is also a proud generation, the star behemoth is the pride in the bones, but after fighting with the flame star realm master, he is convinced by it.

Knowing that the Flame Star Giant Beast has been wandering alone outside, he has been pestering the "Blamed Star Realm Master" and invited it back to the Star Giant Beast Alliance.

"The Yanxing Giant Beast" was muttering in his heart while dealing with this enthusiastic ruining behemoth.

Back to the Star Behemoth Alliance?

It is a realm master, and it is not immortal. The old guys of the giant star beasts can see that it is a human soul at a glance.

The Star Giant Beast Holy Land has a true god-level star giant star ancestor, even if it is immortal, it can't hide his human identity from the opponent.

Go there, don't you want to kill yourself?

He still has a good impression of "Earthquake King". The other party and him have no grievances and no grudges, and they are in the same line of star beasts. Except for Luo Feng's golden horn beast, this is the first time he has been in the vast universe in many years. The "kind" encountered.

The two major clones of Wang Yi, the clones of the Void Zerg race have now left the Yanji Continent and headed to the "Twin Swing Domain", while the Yanxing Giant Beast clones are still in the Yanji Continent to continue hunting.

After ten years of killing, now the clones of the Void Zerg Race and the Giant Flame Star Beast clones are both wicked names.

Especially the clone of the Void Zerg, the name of "God of Hunting" does not know how many powerful kings can hear it.

These are all killed!

Of course, it's only ten years. Although it's crazy killing, but with the time to find the prey, it's still far from completing the task.

time flies.

In a blink of an eye, another twenty years have passed.

It has been 32 years since Wang Yi came to the foreign battlefield.

But for the strong, this time is nothing at all.

Sometimes rushing on the battlefield outside the territory, maybe hundreds of years have passed.

For Wang Yi, these thirty years have been substantial.

[Ding, congratulations to the host for signing in successfully, and reward the meteorite stone (quantity: 1)!]

Wang Yi numbly raised his eyelids.

Some impulse to yawn.

Randomly looked at the item information and found that it was a precious material for refining weapons and treasures, and then ignored it.

boring.

Although this meteorite stone may be a material that even the venerable would value, Wang Yi has seen this material over the past 30 years and does not know how much.

Not only the "finished product" signed in the Star Tower, there are countless materials and other things that Wang Yi is not well-known.

For example, "Nightmare Stone", something that can temper people to resist fantasy.

For example, "Blue East Water" can increase the strength of the soul.

But for the current Wang Yi, it has no use.

But throwing any one outside can cause the kings to fight to break their heads and cause blood to flow into a river.

"It's so boring..."

Wang Yi glanced down at the entrance of the Star Tower underneath ~ www.mtlnovel.com ~ where there are powerful people from all races coming in and out from time to time.

But because of the busy sign-in and the crowded people at the entrance, Wang Yi has never done it.

In the Star Tower, there are hundreds of thousands of kings, and the number of them is even more.

In Wang Yi's eyes, they are all naked mission babies.

It is a pity that Wang Yi could not go in, otherwise he would be easily spotted by the big disciple "Puti" who was sitting inside the town.

Puti, but the lord of the universe, he has followed the mountain guest for a long time, and there is a clone who has hidden strength and stayed in the human world as the overlord of the human universe "Tipu".

The "Secret Method of Controlling the Soul of Ten Thousand Hearts" was created by Tip.

Wang Yi would not believe it if he said that he did not know the identity of Wang Yi from the earth.

Of course, Wang Yi can also refuse to recognize the Lord. The essence of the problem is where his second "Secret Code of Nine Tribulations" came from.

Luo Feng can now practice with a black metal plate.

I was really caught, it's easy to get into trouble.

Wang Yi sighed in his heart.

"Check in."

[Ding, congratulations to the host for signing in successfully, reward 'Jia Jia'!]

[Chapter 346: coming!](#)

"Jia Jia?"

Wang Yi was startled, then his eyebrows were overjoyed.

"Jia Jia" is a type of bodyguard warfare. It is a treasure prepared by Zuoshanke for the leader of the earth's family, which is the third disciple.

Because the human line of the earth emphasizes the soul, mind and understanding, so the body will be weak. Therefore, in addition to "The Secret Book of Nine Tribulations", Zuoshanke also refined the "Jia Jia" to leave the line of people on the earth.

Of course, now "Jia Jia" is with "Yan Di", the leader of the Yan Protoss.

And Wang Yi now also got a "robbing armor" by signing in at the Star Tower.

The robbery armor can derive a series of armors such as soldier armor, general armor, and king armor. The robbery armor itself will also be accompanied by huge divine power!

"Jia Jia", to drive, the body strength must reach 100 million times the power of the realm master! Only ordinary cosmic monks can reach it!

"This is the ultimate treasure!" Wang Yi swallowed his saliva.

This robbery armor was created by the leaders of the family of people on the earth, and no other strong people can recognize the master. Although Emperor Yan could recognize the Lord, he could only drive part of his power.

Like tower beads...Who knows who will die!

Although Jie Jia is not so outrageous, other strong people can't use it at all, and even "Yan Di" can only use part of its power.

Wang Yi himself was born on earth, and he practiced "The Secret Book of Nine Tribulations", and he can also make "Jia Jia" recognize the master!

More importantly, the sign-in panel directly gives Wang Yi the ability to use Jie Jia!

The ____ does not work?

limited?

I said you can use it! Then you can use it!

The sign-in panel is so overbearing. Anyway, Wang Yi has not encountered what the sign-in panel cannot do.

Wang Yi's current body cannot meet the requirements for the use of "Jia Jia", but he is immortal, that is the most enchanting limit for kings, and the divine body can definitely meet the requirements!

10% immortal, because of his law perception, the divine body will immediately reach the peak strength of the king, that is, one hundred thousand times the power of the world master!

Ten thousand times the genetic level is one billion times the power of the world master.

The use of "Jie Jia" is more than enough.

Not to mention that he has the secret method of amplitude, a hundred times the amplitude is one hundred billion times the power of the master!

The use of Jie Jia is related to the strength of the divine body. If the divine body is not strong enough, no matter how high the law perception is, it will be useless.

If the divine body is strong enough...the law perception is very low, it's okay.

The robbery... is divided into three forms!

The first form requires 100 million times the power of the realm master to drive. After being driven, it can resist and weaken the material attack to the remaining one-thousandth! The soul attack was reduced to one tenth! And give users the power of 1 billion world masters.

The second form requires 100 billion times the power of the realm master to drive. After being driven, it will weaken the material attack to one ten thousandth! Soul attack is reduced to one tenth! And give users trillions of times the power of the master.

The third form requires 100 trillion times the power of the world master to drive. After being driven, it will weaken the material attack to one hundred thousandths! Soul attack weakened by one-tenth! And give users trillions of times the power of the master.

This is a very guarding treasure!

Wang Yi feels happy.

If such a super treasure appeared in the original universe, it would be enough to cause a lot of cosmic masters to fight, so it is normal to fall one or two cosmic masters.

The human race does not have many peak treasures. As far as Wang Yi knows, even if the status is as high as the Lord of Chaos, there is no such treasure as the armor and armor as powerful as the robbery.

"continue!"

Wang Yi is full of motivation again.

.....

Time flies, and soon more than thirty years have passed.

"This Wang Yi is still flying there, what is he looking for?"

The super powers of the human race who followed Wang Yi secretly are speechless.

These super powers are at least one venerable, and any one of them is the overlord of the universe.

But they now have a feeling of playing with their children.

While Wang Yi didn't know that his behavior was slandered by a group of bigwigs, he was still tirelessly exploring the area outside the Star Tower.

The Star Tower is too big, it is nine light-years tall alone, let alone its overall area, want to explore it by flying alone? It takes a long time.

Wang Yi spent more than seventy years, but he didn't even explore one millionth of the area outside the Star Tower.

There is a feeling of "the foolish man moves the mountain".

And on this day.

【Ding, congratulations to the host for signing in successfully, and reward 'Original Soul'! 】

Wang Yi couldn't help smiling when he heard the sign-in panel prompt.

finally signed in!

Over the past seventy years, Wang Yi has signed in many times. Even "Emperor Jia" and "Emperor Soul" have signed enough for three bodies. The "Ji Jia" is always one piece, which is comparable to "Ji Jia". "Original Soul", just signed in now!

And this is actually much faster than Wang Yi expected. After all, Wang Yi feels that it is normal for him not to sign in for thousands of years.

Fortunately, he is lucky.

The strongest man in the universe, "Zitshan Ke", left two treasures for his two apprentices, one is the Yanshen Halberd, and the other is the original soul.

also left two treasures for the three apprentice Luo Feng, one is the Star Tower and the other is Jie Jia.

During the creation process of the Star Tower, because of some unexpected circumstances, its power will increase sharply and reach the level of "Xeon Supreme Treasure". It should only be the pinnacle of supreme treasure. It is only by merging with a golden light that incredible evolution takes place and becomes " "God-king class" is a treasure, even the mountain guest can't understand it.

Jie Jia, Yan Divine Halberd, and Original Soul are all treasures of the same level. Each piece is extremely precious in the universe!

"Jia Jia", biased towards material defense, physical aspect!

"Original Soul", which is more defensive to the soul, the soul side!

If the master of the universe can obtain both the "Jia Jia" and the "Primary Soul" at the same time, he can walk sideways in the entire primitive universe, even if the strongest person in the universe is limited by the Primordial Universe, he will not be able to kill the possession of the "Primary Soul" and the "Primary Soul". A" the Lord of the Universe.

Primal Soul, Jie Jia and other peak treasures, all have strict requirements on the owner, and other strong people can't use it.

The original soul, the soul treasure, requires the user's soul power to reach 100 million times the power of the world master before it can be used, and like the robbery, it gives the user 1 billion times the power of the world master's soul, and it also has a triple form!

"The ultimate material defense of Jie Jia is to weaken the material attack to one hundred thousandths, while the original soul's ultimate soul defense also weakens the soul's attack to one hundred thousandth..."

The treasure armor, from the ordinary treasure, the high treasure, the top treasure, and the pinnacle treasure, is generally weakened to one ten thousandth, but the endurance limit is different.

Only some of the extremely high-quality and rare ones in the peak treasures can be weakened to one hundred thousandths.

Tribulation Armor was weakened to one hundred thousandths. Obviously, they were all first-class among the Peak Treasures.

and the limit value is super high!

At least the attacks of the Lords of the Universe are difficult to reach the limit that Jie Jia can withstand, that is to say, generally when fighting with the Lord of the Universe, Jie Jia can reduce the attack to one hundred thousandths!

Just like Emperor Yan had a robbery armor body and an original soul guarding his soul, he was fearless at all! Very arrogant.

Wang Yi already has the "Primary Soul" and "Jia Jia". Even if he can't get the strongest treasure like the "Star Tower", he will become the lord of the universe and he is almost fearless in the original universe.

Wang Yi couldn't help but sigh after understanding the information of the "Primary Soul", "It is possible to refine such super treasures as the "Jia Jia" and "Primary Soul". ."

In the Primitive Universe, it is very difficult to refine ordinary treasures, let alone high-level treasures, top-level treasures... and peak-level treasures can only be refined by a mountain guest, and it also requires a great price!

Wang Yi was considered a genius in cultivation before, but he was also a layman in terms of refining tools. Only after he got the inheritance of "Yan Ji. Sacrificial Secret Pattern", he knew how to make secret pattern weapons.

Of course, the genre is different, the refining method, and the process are also different. He can refine the Yanji secret pattern weapon, which does not mean that he can also refine other ordinary treasures smoothly.

And even "Yan Sacrifice Secret Weapon", without actual hands-on experience, the success rate will be terribly low.

A heavy treasure, Wang Yi is too lazy to study that kind of effort.

Didn't he see that he now has two pieces of "Peakest Treasure"?

"Not to mention other things this time, it is worthwhile to get the fourth calamity of the nine calamities, the original soul, the armor of the robbery..."

Wang Yi said with emotion, the good son did not let him down!

.....

"Original soul, I have obtained the robbery armor." Wang Yi in a dark red armor turned into a streamer to fly on the expansive surface of the Star Tower, and said inwardly, "However, these two are the pinnacle treasures, even the lord of the universe. They are extremely eager, if they don't have enough strength to use it, it's self-inflicted."

There has always been a rule in the universe, treasures can only be obtained by those who can.

This capable person, of course, is the strong one.

does not have enough strength, but occupying treasures is tantamount to getting angry.

"At least until I have the power of the Lord of the Universe, I can't expose it, otherwise I will face the Lord of the Universe interception." Wang Yi is very clear.

Even if the ordinary flying palace treasure that Chaos City Lord bestows on him, he has repeatedly told him not to use it until necessary.

let alone the peak treasure!

"Fortunately, I am in the human race, and I have the shelter of the human race, so I don't have to worry about it for the time being."

Wang Yi continued to fly, looking at the towering giant star tower, suddenly felt in his heart.

The universe is vast, full of infinite mystery and excitement, and he has just started.

When will he be able to stand shoulder to shoulder with a strong man like "Chaotic City Lord", then he will truly enter the forest of the strong man in the universe.

.....

Wang Yi flew outside the Star Tower, and occasionally encountered some strong foreign races, but he was too lazy to pay attention to these foreign races, and when those strong men saw Wang Yi, many recognized him as a good friend of the "God of Hunting", and perhaps took care of "The deterrence of "The Hunting King" did not mean to conflict with him.

The entire sign-in process has been dull as water.

And "The Hunter King" and "The Lord of the Flame Star Realm" are fighting on the battlefield outside the territory.

But because the kings were seldom encountered, after more than a hundred years, only less than 60 were hunted, and none of them were enslaved. For the time being, there was only "King Zhanchen" a slave to the king.

It is that most of the mission quotas for "Ordinary Immortal Gods" and "Hou Hou Immortal Gods" have been completed.

This means that tens of thousands of immortal gods have fallen into Wang Yi's hands in just a hundred years.

But the extraterritorial battlefield is so big, the immortal gods of hundreds of millions of ethnic groups gather here, it is not a big deal to die some, and it did not cause much disturbance.

instead, he killed dozens of kings, and some forces on the battlefield outside the surveillance domain began to notice something was wrong, but they didn't think of Wang Yi for a while.

virtual universe.

Thunder Island.

Over the years, the Chaos City Lord has been paying attention to Wang Yi's movements on the battlefield outside the territory, and he is a little confused.

"Wang Yi has been flying outside the Star Tower, it seems he has a purpose, what is he doing?"

"Does Wang Yi really find a way to recognize the main star tower?"

Chaos City Lord thought of this, a little funny.

What do you think, that is the Star Tower, the Xeon Treasure. Since its emergence, countless races in the universe, many powerful people have used methods and tried their best, no one can make the "Star Tower" recognize the lord.

Once Wang Yi comes, can the Star Tower recognize the Lord?

How can this happen?

"Um...Could it be that Wang Yi discovered the secret of the Star Tower?" City Lord Chaos asked secretly.

But the human race has many super beings staying there all the time. If there is anything, then they will find out for the first time.

"Let's take a look again."

Chaos City Lord no longer thinks about it. One of his main combat clones has always been the universe. Recently, he encountered some things. At this time, he couldn't pay much attention to Wang Yi, this little guy.

"The old fellow Zuoshanke is really amazing. He created the Yan Divine Clan at the beginning and taught him the apprentice of Emperor Yan, the Lord of the Universe. Now, there is another Wang Yi who seems to be even more powerful..." There was a hint in Chaos City Lord's eyes. fear.

The human race was able to tolerate Emperor Yan's rebellion from the race at the beginning, and it has nothing to do with the "Zaishan Ke".

Zuoshanke is one of the strongest in the universe and the oldest in the primitive universe. As early as when mankind was not yet the peak race, Zuoshanke had become the strongest in the universe, and it was very mysterious and alone. Being alone, with many means and unpredictable, it is the most unpredictable kind among the strongest in the universe, and no one wants to offend the strongest alone.

came to the one hundred and twenty-first year of the Star Tower.

On this day, Wang Yi was flying outside the Star Tower in his spacecraft as usual.

Sometimes Wang Yi would teleport to some places to sign in, but most of the time he took a spacecraft. After all, flying on his own was too boring.

Wang Yi was drinking tea in the spacecraft's lounge, thinking about the harvest over the years and the next arrangements.

"The teacher just contacted me and asked about the recent situation. It seems that the human race has been paying attention to my situation..." Wang Yi thought silently.

He doesn't think this is weird.

Since the assassination of the alien king in the Garbage Star Territory, a cosmic Venerable suddenly appeared, and he thought that the human race had always been around him to make arrangements.

Maybe he is now seen by the super existence of a certain human race.

But Wang Yi doesn't care. What is exposed now can be exposed. And like "Jia Jia", "Original Soul", sign-in panel, it is impossible for the human race to know.

"I don't have to be so cautious when I really become stronger." Wang Yi drank the tea slowly.

"Wait ~www.mtlnovel.com~ I will go to the movies with Shen Yan and others..." When he was bored on the battlefield outside the field, occasionally Wang Yi would spend time with his family in the virtual universe or chat with friends.

"That guy Luo Feng, he is currently doing a task arranged by the Virtual Universe Company, and it seems to have done a great deal." Wang Yi was a little emotional.

Luo Feng, kills decisively, and calmly and rationally.

Some people in the Virtual Universe Company wanted to use him as a puppet, so I'm afraid they had the wrong idea.

And this time, Luo Feng also exposed his extremely strong killing ability, killing blood in the cosmic kingdom of dry witch, heads rolling.

But Wang Yi is not much better. His clone also caused boundless killings on the battlefield outside the territory, and probably killed more immortal gods than the dry witch universe combined.

Luo Feng is nothing compared to him.

[Ding, congratulations to the host for signing in successfully, and reward 'Star Tower'!]

[This reward is the highest reward at the current location, and you can no longer get any rewards here.]

【The 'Star Tower' has been placed in the panel space. 】

【Number of check-ins available for this place: 0】

"?????"

Unprepared, the tea in Wang Yi's mouth burst out all at once.

[Chapter 347: Mission "Tongtian Tower"](#)

Happiness came so suddenly that Wang Yi couldn't react to it for a while.

He opened the sign-in panel for the first time and looked over it. Sure enough, there was a small star tower that had shrunk countless times.

Star Tower!

God Lord weapon!

Specifically, it should be "the weapon of suppressing the king of the gods"!

Luofeng relies on it to cross the universe.

Even as the King of God, this is an extremely powerful weapon.

But before Wang Yi could adapt from the huge surprise, another prompt appeared.

【Ding! 】

【Trigger mission! 】

[Task name: Inheritance of Tongtian Tower. 】

【Condition: You need to exchange the "Star Tower" in exchange for the "Tongtian Tower" to come. 】

[Task content: From the heritage of the Tongtian Pagoda outside the world of three thousand latitudes, the long epoch has only come once, to find its inheritors in many source continents. Generally does not appear in the latitude universe.]

[Reward content: Complete the test of the Tongtian Pagoda inheritance, you can get the Tongtian Pagoda including the inheritance.]

[Because the host level is too low and the world level is different, the inheritance test has reduced the difficulty for the host accordingly.]

[Task time limit: 10,000 years. Please pass the test of the Tongtian Pagoda's inheritance within ten thousand years, otherwise the Tongtian Pagoda will leave the original universe.]

【Please pick up before the countdown ends, otherwise it will be cancelled automatically and no longer appear...】

【59.....58.....57.....】

Fuck!

Wang Yi's mind was a big daze.

How is this going? Why did he clearly sign for the Star Tower, but he jumped out a "Tongtian Tower Inheritance", and this "Tongtian Tower Inheritance" actually had to use the "Star Tower" in exchange for it to come.

Wang Yi started thinking crazy in his heart, how amazing his consciousness is now, and his calculation speed is comparable to that of an intelligent optical brain.

In just an instant, countless thoughts passed by.

Star Tower!

Tongtian Tower inheritance!

"I choose to pass the Heavenly Pagoda inheritance!" After just ten seconds, Wang Yi's eyes were determined and he made a decision.

This "Tongtian Tower Inheritance" is more powerful than the Star Tower at first glance, otherwise, how could one need to get a complete "Star Tower" in exchange for a chance for the "Tongtian Tower" to come.

Wang Yi has not obtained it directly, but has to pass the so-called test of inheritance.

An unprecedented opportunity!

Although the Star Tower is powerful, it is still a weapon. In the Primitive Universe, at best it was only used as a Xeon treasure.

And "Tongtian Tower Inheritance" has a mysterious origin and is full of infinite possibilities.

Wang Yi finally made a choice.

【Ding! The host chooses Tongtian Tower to inherit! 】

【The mission opens! 】

Wang Yi watched the Star Tower disappear on the sign-in panel. Although he had already made a decision, he still couldn't breathe with heartache.

My Star Tower...

At the same time, an incredible, unimaginable force broke through the barriers of the world, from a mysterious and unknown place, forcibly "pulled" a "thing" into the primitive universe.

This world is far bigger than anyone imagined, but the environment is different, and the boundaries you see are different.

is like the vast primitive universe, in the eyes of some beings, it is just a small pond.

The original will of the primitive universe finally reacted this time, and it moved.

This great will, which represents the rules of the primitive universe, slowly "looked" over.

It saw a hole in its body, and a strange thing stabbed in it.

"..." The will of the primitive universe was silent for a moment.

Where did this stuff come from?

.....

The will of the primitive universe is insignificant at this time, because it can't do anything.

Even the Supreme Rule remains silent at this time.

But in the original universe, the outer battlefield, the seventh battlefield, the starry sky where the star tower is located has undergone tremendous changes.

"Boom..."

Nine light-years high, there was a big opening in the void above the towering star tower that seemed to cover half of the universe. The opening was so big that it traverses thousands of light-years. In the cracks, chaotic air currents linger, and a huge shadowy figure slowly emerges. , Falling towards the starry sky.

The Void Crack is so big that many powerful people of all races in this area have seen it.

They were completely stunned.

"Oh my God!"

"what is this?"

And Wang Yi, who was in the spacecraft outside the Star Tower, also looked up and saw the mighty and boundless shadow.

The power that just descends is like the entire universe has been crushed and collapsed.

Any strong person is extremely small in front of this terrifying existence.

"Om! Om! Om! Om..."

As the behemoth slowly descended, the entire starry sky was shaking and trembling.

One after another cracks emerged and spread, exposing the interlayer and spatial turbulence inside.

"It's down!"

"Quick! Get out of here!"

Although this huge shadow looks very close, it is still far away from the Star Tower, but it is too huge. Even the Star Tower, nine light-years high, looks like a small broken house under a tall building in front of it, let alone other people. NS.

The unstoppable power that destroys the sky and the earth made the strong in the Star Tower area scared to leave quickly.

And the strong inside the Star Tower also received the news and rushed out one after another.

When they saw the huge and boundless huge building in the distance, they were all shocked!

And a huge building appeared near the Star Tower, and the news that a treasure was born was also spread crazily throughout the universe through countless channels.

.....

The virtual universe belongs to the plane space of the creator of the giant axe.

In the endless darkness, there is a little bit of starlight in the distance, and a simple palace is suspended in the core of the dark void. On the long stone table in front of the palace, one by one, figures appear out of thin air...

In just a moment, all the pillar powerhouses of the human race, including the founder of the Great Axe, the Lord of Chaos, and others, arrived, and their faces were shocked and surprised.

"Everyone, I believe you already know." The creator of the giant axe swept his eyes, "What happened to the Star Tower."

He pointed his hand, and an image suddenly appeared in the void in the center of the palace.

Watching the shocking giant tower descending in the picture, the star tower next to it is like a scene of grass under a giant tree, and the many super beings of the human race present have a solemn expression.

The Star Tower is terrible enough. It has stood on the battlefield outside the territory for countless years, and even the strongest in the universe can't help it.

And the mysterious tower that just appeared in front of me seems to be stronger than the Star Tower.

"What exactly is this?"

"Is it another Xeon treasure?"

The super existence of the human race was full of doubts and discussions began.

"Master of Void Gold, should your disciple protect Wang Yi on the battlefield outside the territory? Didn't you receive any news?" said an ancient great being.

"Pang Bo is also there."

"Didn't we have several Venerables there? Ask them what is going on."

The Chaos City Master said: "Everyone, when the incident happened, Pang Bo and the others had sent the message back for the first time, but even they didn't know what was going on. There was no warning for this huge tower as if it suddenly appeared out of thin air. . And Pang Bo and the others are now touching this huge tower."

The eyes of the super beings present simultaneously glowed.

"Yes, we humans have several strong people there this time."

"The Lord of Darkness is also there. We humans should be the first to discover this huge tower. This is our chance!"

Out-of-domain battlefields are strictly forbidden to enter the universe by the rules.

But the rules are rules. They are made by the four pinnacle races. If they can be made, they can be broken.

Because of Wang Yi, the human race, including the Lord of Darkness, has several Venerables there, but the Lord of Darkness hides deeper and is not with Venerable Pangbo.

"Everyone is quiet." The creator of the giant axe spoke, and when everyone present calmed down, he said in a deep voice: "Darkness, they just sent back news. It is preliminarily determined that this mysterious giant tower is at least one of the most powerful treasures comparable to the Star Tower. ..."

"Boom!"

Many powerful people in the palace immediately became excited.

Xeon Supreme!

Dignified human race, pinnacle race, there is no strongest treasure! The power of each Xeon Supreme Treasure is incredible...even the characteristics are extremely weird, even the strongest in the universe are extremely greedy, after all, although the number of the strongest in the universe is extremely rare, there are only a few.

But there are still some parts, there is no Xeon.

The founder of the giant axe is not there!

If the human race can get a supreme treasure, it will undoubtedly become even stronger!

"Great opportunity!"

"Great Axe, we'll rush over right away, we must get this supreme treasure!"

Many masters of the universe can't bear it anymore.

At the beginning, for the sudden appearance of the Xeon Treasure Star Tower, human beings, monsters, machine races, Zerg...etc. crazy killings, but in the end there is no way to take the Star Tower.

And the appearance of this mysterious tower in front of him made the strong human beings excited again.

The founder of the Great Axe and the Chaos City Lord looked at each other, nodded, and said: "I am still in the universe, and I am rushing back. This time, in addition to the three universe masters who are still in the universe, at least some people will be left in the lair. Responsible for guarding, everyone else goes to the battlefield outside the territory."

"Our human race must get a supreme treasure!" The giant axe solemnly said.

Other people also have serious faces.

There are a total of 18 universe masters in the human race, but 15 are disclosed to the public, and some have clones, and apart from the founder of the giant axe and the three universe masters who are still in the universe, the others stayed to visit their homes. All rushed to the battlefield outside the territory for the first time.

The strongest treasure... That is enough to shake the foundation of a pinnacle race, and it is already the most precious existence in the entire universe! This has caused the eyes of the super-existence of hundreds of millions of ethnic groups to gather on the battlefield outside the territory.

The remote Zerg territory.

A huge purple sphere with a height of trillions of kilometers is suspended in the starry sky. The surface of the purple sphere also has layers of twisted and entwined patterns, like the veins of a person.

"Emperor!" Inside a beautiful hall within the huge purple sphere.

The six female Zerg queens covered in a layer of looming transparent gauze, all respectfully salute the Zerg queen on the throne.

The Zerg queen looked down and slowly spoke, her voice full of endless charm, but there was a hint of killing intent in it: "You should already know that there has just been another treasure in the area where the Star Tower is located in the seventh outer battlefield. Strongest treasure, when the Star Tower was born, we fought wildly with humans, monsters, and machine races for this reason. This time, apart from leaving the two sisters, we all dispatched! We must get this treasure!"

"Yes!" The mother emperor of the Zerg clan is obedient.

There are very few cosmic masters of the Zerg race, only six, but when they join forces, they are no less than human beings, the twenty or thirty cosmic masters of the monster race!

And endless Zerg warriors, it is even more frightening.

.....

The territory of the monster race.

In the virtual space of the monster clan.

An alien beast with a serrated shell and a giant silver snake entangled among them, issuing orders.

There are two strongest in the universe in the monster clan, namely Zhen Yao Zu and Meng Yao Zu.

Under , there are also twelve masters of the Monster Race universe, all with agitated expressions.

Sawtooth Shell Alien: "This time, a new Xeon Treasure will appear. I will personally lead you to the outer battlefield, where the dream demon ancestor will guard the clan."

"No matter what, I have to take the Xeon Supreme."

.....

In a single universe owned by the mechanical clan.

Countless glittering rays of light connect planets and stars... The entire universe is like a huge net, with countless glittering rays of light connecting everywhere.

"Father God!" "Father God!" "Father God!"

One after another powerful ideas spread.

"Go, go to the primitive universe, go to the outer battlefield!"

The black oval-shaped sphere made a sound, and those towering metal figures responded one by one, and then flew into the universe channel together.

.....

One of the six pinnacle races.

Prison clan.

The hometown of the prison tribe, the birthplace, is a place called "prison".

Prison is extremely dangerous. The lives born from it are killing each other. There are countless people falling at every moment. They are divided into many races... But because the birthplace is "Hell", they are collectively called-Prisoners!

In the endless "prison", the highest status is undoubtedly the legendary Prison Demon Ancestor!

An endless stretch of vast and majestic mountains, also called the ancestral mountains of the prison clan.

The top of the ancestral mountain.

In the hall.

More than a dozen tall and majestic prisoners who exuded endless evil aura stood respectfully under the steps, and the upper throne was a silver and black evil figure. This evil figure resembled a human form as a whole, with a long scorpion tail. His sharp tail, the tail stretches, and even surrounds half of the hall.

Under the silver carapace, a pair of red eyes look down below.

This is the Mozu! The demon ancestor of the prison clan!

The fight against each other within the entire prison clan is extremely fierce, and the hierarchical system is also extremely strict.

"This time, news came from the remote battlefield outside the territory. Next to the Star Tower, a new Xeon Supreme Treasure appeared." The deep voice of the Prison Ancestor Demon Race echoed in the palace, "Everyone followed me to the outer battlefield. Last time the Star Tower appeared. The fighting among the various races is tragic, and this time, our prisoners must not miss the opportunity."

The Prison Clan Demon Ancestor has no plans to keep anyone down to guard the clan.

"Yes!" More than a dozen masters of the prison clan universe were all excited.

Out-of-domain battlefield!

All races gather!

Xeon Supreme!

These are all making their blood boil!

.....

The six pinnacle races of the universe, the machine race, the zerg race, the human race, and the monster race live in nearby areas, while the crystal race and the prison race... are located in remote places.

The Prison Race and the Crystal Race belong to groups that go to two extremes.

Prison races are countless races of various forms born in a place called "prison", encouraging internal fighting and fighting.

The crystal family is the opposite.

The crystal clan is the same kind of life, and they are extremely united. The degree of unity is even slightly higher than that of the "machine clan"~www.mtlnovel.com~ In particular, some crystal clan powerhouses have joined forces with each other and exerted their strength to increase geometric multiples.

Prison Clan... the individual is powerful.

Crystal...the whole is strong.

Two completely different ethnic groups have been fighting each other very fiercely.

Like the human race, the machine race, the monster race, and the zerg race, because of the close borders, they fight each other...times.

But the Prison Race and the Crystal Race simply hate each other's race... As if they were born with a mismatch, the universe has created two completely different races, so they will fight again and again.

When the prison clan got the news, the crystal clan also got it.

The first time they did not send people to the outer battlefield, but to observe the movements of their mortal enemy prison clan. After finding that almost all of the prison clan's high-level powerhouses were dispatched to the outer battlefield, they decided to make an all-out move, led by the ancestors of the crystal clan. The master of the crystal clan universe, go together.

.....

And the news of a Xeon treasure suddenly appeared on the battlefield outside the domain is still spreading wildly in the universe. In addition to the six pinnacle races, there are also the Star Giant Beast Alliance, the Northern Frontier Alliance, the Thorns Alliance, the Ancestral Gods... and other super powers are shocked!

They have also sent their staff to the battlefield outside the territory, wanting to get a share of the pie.

The entire primitive universe caused a huge wave because of the mysterious tower that suddenly appeared.

[Chapter 348: Convergence](#)

The seventh field outside the battlefield, far away in the starry sky where the Star Tower is, there is another towering black quaint tower that reaches the sky and the earth is suspended.

The height alone is more than a hundred light-years high, and the huge star tower beside it also appears low.

"brush!"

A figure suddenly appeared, and it was Wang Yi who had teleported over.

He looked at the huge indescribable tower that traverses the universe, and was in shock.

Just by looking at it, you can feel its endless power.

Nearby, a large number of powerful kings also moved over.

Not much effort, over 10,000 powerful people of all races have gathered here.

"What exactly is this?"

"How could a huge tower suddenly appear next to the Star Tower? It's actually much bigger than the Star Tower."

"Is it born naturally, or is it a treasure left by a great existence?"

Many strong people were shocked and inexplicably, and some people couldn't help but flew towards the black tower.

At the bottom of the black tower, there are eighteen entrances, all of which are open.

Most of these powerful people who rushed out were other races besides the four pinnacle races. They knew well that the four pinnacle races in the outer battlefield were very powerful and had super existences. If they didn't take this opportunity to rush in, wait for those super races. If it exists, I am afraid it will be difficult to get in again.

"Fight! A treasure comparable to the Star Tower, if I get this treasure, I will climb into the sky in one step and become a super existence in the universe. It is not a dream to make my race a powerful race." Some eyes flushed.

The birth of a seal of a star is enough to attract hundreds of thousands of seal kings to fight each other.

Let alone a treasure comparable to the Star Tower, no one can bear this temptation.

"Wow!"

Seeing someone rushing out, all of a sudden most of the strong people from all races rushed along.

And somewhere in the "Tongtian Pagoda", Venerable Pangbo arrived here one step ahead of time, and initially probed the bottom of the black giant tower, and found that they couldn't destroy the building at all. That's why the creator of the giant axe would quickly get it. This is a message from the Xeon.

The scene in front of him is exactly the same as when the "Star Tower" was discovered, surprisingly similar.

"The Lord of Darkness is already the Lord of the Tier 5 top universe, and with his tyrannical Arcana attacks, even the Peak Arcana will not stay still."

"Xeon Supreme, this black tower must be the Xeon Supreme."

The Lord of Darkness came as soon as the "Tongtian Tower" appeared, and he approached after a test that there was no danger. Just now, he attacked the mysterious tower with a treasure test, but found that he couldn't shake it at all, just like an ant was intent. Like shaking a big tree.

The super beings of all human races have fiery eyes.

"Lord of Darkness, those little guys are here, what should I do?" asked a cosmic master with two horns on his forehead.

They originally came to protect Wang Yi, who knew they would encounter this kind of thing halfway through.

Compared with a Xeon Supreme Treasure, Wang Yi is nothing.

And they have received the order from the ethnic group to do their best to take this newly born Xeon Treasure as their own.

But they have just exhausted their methods outside, tried various methods, even if the divine power penetrates the brand, they can't make the giant tower recognize the master.

They are also worried.

The extraterritorial battlefield is also guarded by super-existences of various races. The longer time delays, the more powerful people from all sides come.

In the early days, the human race still had the advantage that was the fastest to be discovered, but when the powerful from all walks of life came over, this advantage disappeared.

In the scene, the Lord of Darkness is the main one.

The Lord of Darkness, from the outside, he is simply covered in a black coat. Inside the black coat is a strange silver and black armor.

He has a bald head and his skin is as white as jade.

There are very strange and complicated black secret patterns on his head, and his eyes are looking at someone...like a poisonous snake in the night spitting a core behind his neck.

Even the surrounding time and space were affected by him, and the whole time and space was plunged into a strange atmosphere.

The Lord of Darkness is the junior of the Chaos City Lord, and he is also a very powerful Lord of the Universe.

And he also taught an apprentice of the Lord of the Universe, "The Lord of Youhou", which shows his ability.

There are currently five universe masters in the virtual universe company, four of whom are in the same relationship, and the Chaos City Master is the leader.

The Lord of Darkness frowned when he looked at the large number of kings of various races approaching in the starry sky.

He can ignore these kings, but he can't ignore the forces behind them.

And in his capacity, he was a killer to the immortal king, and he was deprived of his status.

"Om..." The vast black and misty light wave is immense, and there are endless little stars in it, and the endless starry sky is scattered.

The realm of the Lord of Darkness.

In this realm, the Lord of Darkness is the master of this kingdom!

All the Feng Wang who rushed over were suddenly frozen, just like flying insects frozen in ice, unable to move.

"what is this?"

"In such a large area of Guanghai, all the kings are controlled in an instant, which race has the super existence of this group arrived?"

All the princes are panicked.

In front of such a super existence, they have no power to fight back at all, and they can only pray in their hearts that such a great existence will not care about them.

"Outside, it's useless at all. It seems that if you want to get this treasure, you have to go inside." said the Lord of Darkness.

The other people's faces changed slightly.

Now no one knows the origin, purpose, or danger of this ancient pagoda. Once inside, the future is unknown, even if it falls, it is normal.

"Lord of Darkness, I have a clone. It doesn't matter if I fall inside. You can lose one clone and treasure at most. Let me go in." A white armored venerable said in a low voice.

"Then I will go in too." The Star Prison Demon Lord spoke. He is the main battle clone of Venerable Pangbo.

In the early days of the universe, there were still a lot of special beings, so at that time many powerful people had clones, but later on, they became rarer. The main reason is that the special life has been hidden, and it is difficult to find it again.

The Lord of Darkness glanced at them and nodded, "Go in, and if you find anything, let us know. If you fall inside, the race will resurrect you and compensate you for your loss."

"Then let's go in too." The other sages said. "Multiple people, one more chance."

"Hmm..." The Lord of Darkness nodded.

Suddenly the Lord of Darkness frowned slightly, and a figure appeared in the time and space around the starry sky in the distance.

At the same time, an extremely powerful and arrogant coercion enveloped the surrounding stars, making those immortal kings tremble.

It is a huge and majestic beast. At a glance, you can see the black light that fills the front and the towering black tower full of endless pressure standing in the sky, revealing an incredible color.

"The treasure of the domain?"

The Venerable Beast from the monster clan camp was shocked.

Domain category treasures are not available to ordinary powerhouses, they are generally owned by top cosmic hegemony or cosmic masters.

"Huh!"

"Huh!"

At the same time, there appeared a series of astonishing figures with aura and coercion around it, and the super existence of the monster camp in the outer battlefield came one by one.

"If there is no time, you can go in. I will help you stop for a while outside." A stern look broke out in the eyes of the Lord of Darkness.

He has hidden his identity for many years, no one knows that he is a human camp, and crosses the universe. Others think that the Lord of Darkness is the Lord of the lonely universe, but they don't know that he is a human race.

Now, by chance, because of the appearance of the "Tongtian Tower", the identity of the Lord of Darkness may not be concealed.

Wang Yi was also in the outer area, watching the Lord of Darkness use the domain-class treasure and immediately blocked the area of the Tongtian Tower that was more than a hundred light-years away. This powerful ability made him amazed.

The Lord of the Universe is really extraordinary.

Almost all of the human universe sages rushed into the entrances of those eighteen gates, while the Lord of Darkness guarded the entrances, watching the super existences of various races constantly appearing in the starry sky.

He is the lord of the universe, no one can resurrect him when he is dead, and he does not have a clone, so it is best to stay outside for the time being and block the passage.

Although the extraterritorial battlefield is dominated by the human race, the monster race, the machine race, and the Zerg race, there are still a large number of various races joining in, and some super existences of various races are seated here, so what rushed at this time is not purely the super existence of the Quartet camp. .

"Who blocked the void with the domain treasure?"

"Is it a human?"

"No matter who it is, you can't monopolize the treasure!"

"Come over!"

After the appearance of several powerful people, they quickly discovered the situation on the scene, exchanged ideas quickly, and then rushed towards the bottom entrance of the black giant tower.

The Xeons are very important. They have their own orders. Even if they die, they can't let the Xeons fall into the hands of other people. Anyway, they are the sages of the universe, and they can reverse the time and space and resurrect when they die. More and more, so they stopped scrupulously and rushed up all at once.

"roll!"

A sound rolled and shook the void like thunder.

Boom! An invisible impact swept through the surrounding venerables who rushed over, dozens of venerables flew upside down like meteors, most of the divine body shattered, and then condensed again.

All faces were shocked.

"Lord of the universe?"

"Can easily repel so many of us at the same time, and among them is Venerable Mengjian. He is the overlord of the universe, and the opponent should still be an extremely powerful universe lord!"

"Which Lord of the universe is he?"

"The Lord of the human universe, how could he appear here so quickly?"

These venerables were all shocked.

Venerable Universe, there is a huge gap between the strength of the Lord of the Universe.

Perhaps only the overlord of the universe can barely resist in front of the lord of the universe.

But in the face of those extremely powerful universe masters, even the universe masters have to bow their heads.

In the endless black wave, a black figure is looming, like the incarnation of the law, the aura oppresses the time and space of one side, but it makes people indistinguishable.

The kings were released when the Lord of Darkness spoke out to retreat many venerables. They were like boats floating in the sea in the black wave. The feeling of powerlessness made them all fear and dare not go anymore. Close, you can only watch the confrontation and confrontation between the parties from afar.

"Well, I thought we still had a chance, but I didn't expect these big people to come so soon."

Some Feng Wang is unwilling.

Some are afraid of being affected by the battle of the super beings, and choose to leave.

But more still stay, choose to wait and see.

This kind of battle between super existences is rare for hundreds of millions of years. They have the opportunity to witness it with their own eyes this time, and many people are unwilling to give up.

Wang Yi was also in the crowd, not very eye-catching. He had made the clone of the Void Zerg race and the Yanxing Giant Beast rush over to join him. Mutter willingly.

"This is mine, why don't you join in the fun."

"Master, the virtual universe has mail and call applications, it's your teacher."

"Teacher?" Wang Yi blinked.

But it still separates a trace of consciousness and enters the virtual universe.

Virtual universe, Primitive District Manor, Wang Yi and Venerable Pang Bo are in a video call.

"Apprentice, you will leave the giant tower that just appeared right now, and then there will be unimaginable battles there. If a little guy like you is accidentally affected there, you can't survive at all." Venerable Pang Bo confronted the king as soon as he met. Yi said.

Wang Yi couldn't say that this was made by himself, but he didn't expect it in Dalian, so he could only say helplessly: "Teacher, can I go in? I have a clone and I am not afraid of death."

"Huh?" Venerable Pang Bo gave Wang Yi a glance, "Isn't you afraid of losing so many treasures on your body?"

Next, the powerhouses of the entire universe, the sages, and the masters of the universe may gather in groups, and the strongest ones in the universe will appear one after another...To be honest, a king is here, and it is not even cannon fodder.

Even if his apprentice has amazing talents, he now has a combat power that is close to the invincibility of the king, but even a venerable can pick him at will.

What's the use of going in?

"If your true identity is discovered by a foreign race, and other cosmos masters are brought in, the strongest in the universe will deal with you, a soul enslaved, if you are controlled, even my Chaos City Master Teacher will not be able to save you, you know?" .

"Then I let my clone in, they won't recognize it, right?" Wang Yi said.

"You underestimate the Lord of the Universe." Venerable Pang Bo sneered.

Seeing Wang Yi's look as if he was about to go in, he also had a headache.

His clone "Star Prison Demon Ancestor" and the venerable of another race are in the mysterious tower, and he really can't tell him too much to restrain this apprentice.

Thinking about it, Venerable Pang Bo said: "It's not impossible if you want to go in, but you have to promise me that if you are discovered by a strong alien, if you can't resist it, you will immediately blow yourself up, and you would rather die than be controlled by your soul."

Venerable Pangbo looked serious.

"Yes!"

Wang Yi's heart is overjoyed~www.mtlnovel.com~ I'll talk to the Master of Darkness, and let you in. Venerable Pang Bo shook his head.

He didn't understand why this apprentice was so noisy.

In the starry sky, under the huge black tower a hundred light-years high, the Lord of Darkness received a communication from Venerable Pang Bo and couldn't help but glanced at the location of Wang Yi.

"It's a mess..."

The Lord of Darkness frowned slightly.

But in the end, he managed to separate a trace of strength and transfer Wang Yi over.

"Huh!"

Time and space change, Wang Yi instantly appeared under a giant gate, and surrounded by an endless wave of black, faintly pressured to make his heart palpitations, he had a feeling that a random trace of power in the wave, the immortality of the king entered, instantly Can be annihilated.

"Go in, be careful." A cold voice sounded in Wang Yi's mind.

Wang Yi looked around, but he bowed in one direction without seeing a figure, and then flew into the huge gate passage.

The Lord of Darkness watched Wang Yi enter and shook his head.

"Boom!"

At this time, time and space are trembling, and a boundless coercion shrouds like an infinite starry sky, and a more powerful alien has arrived.

[Chapter 349: All parties gathered](#)

"Tongtian Pagoda" is as high as a hundred light years, like a whole, it is not clear from the outside how many floors there are, and there are a total of 18 passage entrances at the bottom.

At the entrance of each passage, there is a dark iron gate with a height of tens of millions of kilometers.

Wang Yi's human body and the Yanxing Giant Beast stayed outside, while the Void Zerg clone took the "Emperor Armor", "Emperor Soul", and "Shenzhen Star Map" into it.

When Wang Yi flew into the door, a deep, black-lighted passage appeared in front of him. It was three thousand kilometers wide and ten thousand kilometers high, extending to the end of his sight.

"Something's wrong." Wang Yi clearly felt the moment he stepped into the gate of Tongtian Tower. It felt like a person swimming in the water suddenly came to the shore. It seemed that the surrounding environment had completely changed.

He can't feel the spatial fluctuation!

can't feel the virtual universe either!

Only the interaction with the clone is clear.

Wang Yi frowned.

Wang Yi paused and looked at the surrounding space environment in thought, "What's going on, space fluctuations? Without space blockade, how could this space fluctuation disappear?"

The endless passage in front of me, as if there was no wave in the natural space, as if completely isolated from the original universe.

"Even the virtual universe can't be connected, but the original ancestor used the 'virtual universe' secret method to cover the entire universe..." Wang Yi's eyes flickered, "It is estimated that only the ancestral gods, a few secret realms, or some The territory of the strongest in the universe."

"If nothing happens, the kingdom of God cannot be sensed here."

"There is no kingdom of God, no virtual universe, communication with the outside world will be a problem here, unless there is a clone, and communication depends on the contact of the same soul." Wang Yi thought.

"Tongtian Pagoda is really mysterious, but I don't know, what exactly is the test?"

"But no matter what it is, I have to pass the test and get the Tongtian Pagoda!"

Wang Yi showed firmness on his face.

.....

Outside the Tongtian Tower.

"Boom..."

The powerhouses of the four pinnacle races arrived at the Tongtian Tower in the outer battlefield with almost no gap, and then the war broke out in an instant!

The founder of the Great Axe was on his way back from the Universe Sea at this time, so the original universe plus the Lord of Darkness, plus the clone, only came to the 12 Lords of the Universe.

Opposite them, there are more than 30 universe masters from the three pinnacle races, including the strongest Zerg mother emperor, mechanical father god, and shock demon ancestor three strongest in the universe.

If it wasn't for the strongest in the universe to be restricted in the original universe, and the highest power could only explode with the power of the "Sixth Tier Top", humans would not be able to bear it for long.

"Hahaha..." a mighty voice came.

The tall body of tens of thousands of kilometers, holding an ancient ruined stone stick, barefoot, and wearing a thousand treasures, is one of the peak powers of the human race, the Lord of Chaos.

rumbling...The mighty starry sky and river enveloped the entire black tower area. I saw that this vaguely vague river was floating with various weird and powerful artifacts, exuding huge coercion.

This is the famous weapon of Chaos City Lord-Qianbaohe.

This Thousand Treasure River is a treasure of the top field category!

Territories like "Qianbaohe"...Once it is deployed, the spreading area will be its control area. In this area, if you face a comparable strength... then you can suppress the opponent and face the extreme strength. Strong opponents can also restrain the enemy's actions and escape for his life calmly.

Facing the weak, relying on "Qianbaohe" can easily kill opponents.

Domain category treasure! Although it is an auxiliary, it is extremely useful!

Qianbaohe is one of the top treasures. Even the many masters of the universe who stood at the pinnacle of the universe were mostly unable to obtain such treasures. The reason why the Chaos City Master was so powerful was that Qian Baohe had also contributed in addition to himself.

"Get out of the way! The giant axe is not there, you dare to stop me!" The serrated beast made a roar that made the universe vibrate. The boundless force shook the starry sky, and the law of the universe had to temporarily retreat in front of such a strong person.

Chaos City Lord has three main clones. In addition to the deity, there are three main battle clones. One of them has appeared here, the other is coming back in the Universe Sea, and the other is sitting in the primordial universe, and the deity does not appear easily. The universe is the foundation of mankind, and there is no room for loss at any time.

can become the lord of the universe...have a clone, and there are usually some, like the lord of the dragon walk of the virtual universe company has a clone.

It's just that there are a lot of two clones.

It is normal for one clone to pay attention to the kingdom of God, and for the other clone to play.

Those who have several clones like Huang Jian, Luo Feng, Wang Yi and Chaos are a minority.

Such a master of the universe is worth several.

"The nine superpowers of the universe, except for our human alliance, will soon be coming soon." The City Lord of Chaos led his own Cosmos Lord to resist the combined attack of the three opposing tribes, with a trace of sigh in his eyes.

The nine superpowers of the Primordial Universe, Ancestral Gods, Humans, Monster Races, Machine Races, Zerg Races, Prison Races, Crystal Races, Northern Frontier Alliance, Star Giant Beasts Alliance!

Tongtian Tower was born. Humans, Zergs, Demon Races, and Machine Races arrived the fastest because they were close to each other. However, the Crystal Clan, Prison Race, and Star Giant Beast Alliance, which are far away from the outer battlefield, arrived slower.

However, human beings have made arrangements in advance, led by two avatars of the universe, have sent a large number of venerables, including immortal gods, into the tower, looking for ways to recognize the Lord, or looking for the treasures inside.

Chaos City Lord, they are only delaying time outside as much as possible to prevent others from entering.

And this makes other ethnic groups more and more irritated.

"Damn it!"

"Chaos! Get out of here!"

"You can't stop it!"

The Zerg, Monster, and Mechanical races launched powerful attacks under the command of the strongest in their respective universes, and even the starry sky was turned into a white world, with violent fluctuations spreading thousands of light-years away.

However, human beings are already prepared, and they are not vegetarian, they just resisted the previous waves of attacks.

"Asshole, if it weren't in the primitive universe, I would make them look good!" The three strongest men in the universe were very angry.

Perhaps in the cosmic sea, it would be very difficult to face the strongest in the universe, because of the divine power. However, there is an energy limit in the "primitive universe", and the "tier six top" is already the limit. The strongest in each universe will be suppressed by the original universe until the most powerful force can be used.

The same is true for other strong players, even if they are combined, they can only exert the power of the "Sixth Tier Top" at best.

Therefore, under the leadership of the "City Lord of Chaos", "Lord of Darkness", and "Master of Peng Gong", the three top-ranking universe masters, relying on the treasures and various methods, they just categorized the monster race, the machine race, and the zerg race. The big ethnic group dragged here, blocking all 18 passages.

"The chaos is almost unstoppable, everyone is almost reaching the limit, and if it goes on, there will be losses." The master of Huang Jian said in a voice transmission.

"Now it's only the three pinnacle groups of Zerg, Demon, and Machine and their strongest..." The City Lord of Chaos frowned, "The Primitive Universe, but there are more than a dozen of the strongest in the universe."

In addition to the six pinnacle races, each has the strongest in the universe.

There are also some of the strongest in the lonely universe, all of whom are not easy to mess with.

or mysterious, such as the leader of the northern border, such as the mountain guest, such as the island owner of Shihua.

If there has been a strong battle of fame, such as the founder of the black universe, the ancestor of the monster beast, the imaginary demon...they are born from a special life and are more ancient!

Except for the unlucky monster ancestor and the unlucky giant axe founder who did not have the Xeon, all the others have the Xeon!

The nine superpowers in the universe have five superpowers, but the human race does not.

Without the Xeon Supreme, human beings are indeed at a disadvantage.

City Lord Chaos sighed inwardly, and couldn't help but miss the glorious days of human beings when the teacher was still there before.

At that time, gave ten courage to the monster race, and the Zerg race did not dare to besiege human beings, otherwise, try it out of the universe?

The original ancestors will teach them how to be human.

"Om!"

On the edge of the battlefield, in the silent and dark starry sky, there are no stars around, only a huge gray island in the distortion of time and space in the distance emerged, with blood shining into the sky.

The strong men of the four major ethnic groups on the battlefield are also attracted attention.

"The prisoners are here too?"

"It's so fast!"

Many powerhouses on the human side were surprised.

"Haha, it's really lively here!" An extremely evil aura that made the Lord of the universe tremble overwhelmed.

"Prison Demon Ancestor!" Many strong men present recognized this prison clan, the strongest man in the universe with the extremely ancient and evil.

"Prison Demon Ancestor, humans blocked the door to prevent us from entering, you just came here, we join hands, we will go in together!" The Zerzu queen's soft and beautiful voice is full of killing intent.

"The Prison Demon Ancestor is also here, we can't stop it, let's leave!" The City Lord of Chaos sighed inwardly, and then decisively issued the order to leave.

"These humans are cunning!"

"Forget it, don't care about them!"

As soon as the human race gave up blocking the entrance to the Tongtian Tower, the other three races had no common interests, and the temporary alliance just now dissipated.

Then, they each sent people in.

Like the Lord, like immortality.

such as the master of the universe with a clone, or the master of the universe.

These can be resurrected, or have clones.

As for the strongest in the universe, they would not dare to enter when the situation is not clear. Otherwise, if it is a trap, no matter how strong they are, they will not be able to break through the Xeon Treasure and run out, and they may be trapped alive in it.

"By the way, what should I do if those kings are still immortal?"

said a master of the universe.

He was talking about the powerful lords of various races who had been wandering outside the battlefield of the Tongtian Tower.

Because of the news of the appearance of "Treasure", now the entire Seventh Territory Outer Battlefield, including other battlefields, and other powerhouses in the universe are rushing in madly.

is the master of the universe outside the six pinnacle races, and more than a dozen have arrived.

Together, they are a powerful force, and it is impossible to completely isolate them.

And these universe masters are also very clever to unite. Although they dare not directly conflict with the six pinnacle races, the six pinnacle races can't drive them away.

"The crystal family has appeared!"

crystal family.

Each of them has a perfect face!

Both men and women are perfect. The body made of crystals is more like the essence of the universe. They have golden eyes on the center of their eyebrows, and they exude coercive aura. They are the noblest group of existence in the entire crystal family.

11 masters of the universe, 1 strongest person in the universe.

Headed by the crystal clan, they are their holy masters, and they are also the strongest in the universe with monstrous power.

Except for the four masters of the universe who stayed in the territory to guard the tribe, the crystal tribe almost came out.

The Prison Clan and the Crystal Clan looked at each other coldly from a long distance away, and they wanted to do it if they didn't agree with each other.

"The Starry Sky Behemoth Alliance is here!"

A behemoth in the starry sky with its head as huge as a mountain and exuding the fluctuations of the law of terror emerges from the starry sky.

The star behemoth is divided into twelve peak bloodlines, each branch has at least one master of the universe, and there are at least more than ten in total.

And the star behemoth non-peak lineage may give birth to the Lord of the Universe in the long years. It is only a few pitiful, but there are also a few in total.

This time I heard that the new Xeon Treasure appeared on the outer battlefield, and the star behemoth was also dispatched on a large scale.

is their ancestor, the ancestor of the giant star beast.

The breath of is like the terrifying existence of the endless universe.

A soft body that is indeterminate and indefinite. The huge head is similar to a dragon's head, except that there are nine sharp horns on the top of the head. Nine golden horns surround the top of the head like a crown. The stretched head alone is thousands of kilometers long, and the ancestor divine body of the star behemoth is probably tens of thousands of kilometers long.

"Kirou, go in!" said the ancestor of the star behemoth.

"The lord of the golden horn, the lord of the whirlwind. You all have clones. This time, you will take the lead." The ancestor of the star giant beast ordered.

"Yes, ancestor."

The lord of the golden horn and the lord of the unwinding belong to the line of the golden horn behemoth, naturally possessing the secret talent of the clone, and can have three clones.

Two golden horn behemoths, but because they have clones, they add up to the main battle power of the eight universes. However, there may be a power gap between the clone and the deity, which is generally not comparable to the deity.

The Lord of the Golden Horn and the Lord of Tornado also have a glimmer of expectation in their eyes. If this new Xeon Supreme Treasure can get their hands~www.mtlnovel.com~, they will no longer be fearless in the primitive universe.

The Lord of the Golden Horn is the oldest of the universe in the Golden Horn line, and the Lord of Destruction is the new Lord of the Universe, who entered the universe a thousand years ago.

Wang Yi's avatar of the Yanxing Giant Beast was hiding in the distance, and seeing a group of strong and scary giant star beasts appeared, he turned around and silently moved away.

"Earthquake, why are you here?" A Sovereign-level destroyer behemoth surrounded by electric lights suddenly looked at a group of sealed kings in the distance, and said in a loud voice.

"Earthquake King" is the talkative behemoth that met the "Big Flame Star Clone" in the outer battlefield. It saw a group of its elders appear, and immediately flew over happily.

There is also a huge flame beast that has spread for tens of thousands of kilometers in the air.

The Lord of the Flame Star... is the oldest and most powerful existence of the Flame Star Giant Beast family of the 12 bloodlines of the Star Giant Beast Alliance.

It suddenly twisted its huge head and looked in the direction where the Yanxing Giant Beast clone was leaving, snorted, sprayed out sparks that melted the space, and blinked, it seemed a little puzzled.

"The one just now seems to belong to my Yanxing line? But it seems to be the realm master? Is there a realm master-level Yanxing behemoth in the outer battlefield?"

But at this time, Wang Yi's Yanxing Giant Beast had already run far away.

[Chapter 350: Inheritance test?](#)

Wang Yi is now advancing inside the huge tower of "Tongtian Tower".

And there are side roads next to the passage, I don't know where it leads.

"Is it the end?"

Wang Yi looked at the light curtain flowing down like water before rushing in.

When Wang Yi rushed in, the streamer automatically formed a bubble-like screen around him.

And he is being wrapped in a mask, moving fast in the ocean of flowing light at an unimaginable speed.

I don't know how long it took.

"Wow!"

As if passing through some thin film, Wang Yi appeared in a vast world.

Under , the chaotic air current lingers in the void, without seeing the edge, there are small islands floating in the void, like endless stars scattered in the sky.

But above the head is a more shocking scene, where various colors of light are intertwined, powerful laws are surging and surging like ocean waves, and there are silk threads running through the light, and crystal silk threads are flowing strangely. Secret pattern.

Wang Yi found this scene very familiar.

In the initial universe, because it is a new universe in the period of the 'first opening of the universe', during the initial stage, the universe is constantly being improved and formed, and the original operation rules of the universe will be revealed.

And this scene is similar to the original universe, but it gives Wang Yi a different feeling.

"No, this rule..."

Wang Yi looked at it and found that the boundless ocean of laws above his head not only contained various individual laws such as gold, wood, water, fire, earth, etc., but also the laws of fusion, and even traces of the laws of the universe.

"brush!"

The streamer took Wang Yi, cut through the sky, and instantly landed on one of the small islands.

Wang Yi fell to the ground and looked at this small island less than a hundred kilometers in radius. In the center was a towering gray stone pillar, surrounded by a rocky square, but nothing else.

There are many mysterious carved secret patterns on the surface of the gray rock. These secret patterns are colorful, and countless secret patterns are imprinted on the ground of the square and on the stone pillars. Brilliant rays of light are shooting away from these secret patterns.

When Wang Yi appeared on the island.

"Om——"

The secret pattern on the square floor of the entire island suddenly shot out a misty light. The brilliant light flowed around Wang Yi and quickly condensed on the stone pillar in the center of the island. Then a bright pillar of light rose up into the sky and exploded like fireworks. Formed a mysterious pattern of secret patterns, and then completely condensed and turned into a colored light layer.

This color mask completely covers the entire island.

"what?"

Wang Yi was slightly surprised.

At the same time, the gray stone pillars in the middle of the island with countless mysterious patterns gleamed, and ancient and strange words suddenly appeared on the rocks. Wang Yi can say that he has never seen these words before, does not know them, but can clearly know them. What this text means.

"Since its birth, Tongtian Pagoda has gone through 157,672 source worlds. This time it was opened for the 157,673 times, and the opening time was 10,000 years..."

"Every life that comes in can watch the sea of Tongtian Pagoda rules, perceive the rules, and create secrets."

"The secret method is imprinted on the island's inheritance pillar. If you meet the requirements, you can pass the test and get the qualification for the inheritance of the Tongtian Tower!"

"The sea of laws can help you better understand the laws of the universe, including individual laws, fusion laws, origins, cosmic operation rules, etc. The higher the level of the realm, the higher the level of the imprinted secret law, the island will naturally rise, and the closer it is to the law. At the core of the sea, it is easy to perceive higher-level laws."

"The level is low, so I can only stay at the bottom."

"To pass the test, there are two requirements."

"The first is that the laws and perceptions meet the requirements, and the appropriate secret methods are created."

"The second is that the will meets the inheritance requirements."

"Both of these can be tested by the inheritance column."

Next is some specific information about the inheritance.

"The law of perception?"

"The secret of creation?"

"Will meet the standard?"

Wang Yi has some enlightenment.

Wang Yi raised his head and looked at the boiling sea of light, and the endless mystery patterns lingering on the endless crystal silk thread, as if seeing time, space, gold, wood, water, fire, earth, wind, thunder...and other laws blending together to form each This kind of mysterious existence.

He seemed to see the change and path of the "Fire and Air Fusion" law, his mind was faintly moved, and he unknowingly improved the way of the Fire and Air Beast God's fusion.

Wang Yi took a deep breath.

It was only a short while, and I felt that his understanding of the law of fire and air fusion, the way of beasts and gods, was more than a decade or so.

If it takes ten thousand years to realize it...

Wang Yi has a tingling scalp.

This is not like the original universe, what I feel is actually the simplest and most superficial law of the original universe.

And here, the changing process of various fusion laws can be clearly seen. As long as you keep watching and understanding, of course, the progress far exceeds the groping alone.

is similar to the "Chaotic Monument" that guides others to practice, but this is the real road.

directly fuse the law of infinity into the boundless vast ocean, where any road is here.

"The law of fusion? Is this the way to guide others towards the law of chaos?"

This sea of laws was created by the master of the Tongtian Pagoda. According to the information on the tower just now, he traveled through more than one hundred thousand source worlds, constantly looking for qualified inheritors.

The owner of Tower must be an existence beyond the source world.

"Son, what did you bring here?" Wang Yi was shocked.

The primitive universe lacks the method and way to guide others to cultivate to the true god.

And the Sea of Laws is not the method of chaos stele that guides you to practice in detail, but a "world"!

lets you see how the laws blend together!

Financial Union! Fire fusion empty! When light is fused! When the wind merges!

go deep into the core step by step.

As long as you can feel it, that is your "Tao"!

The Chaos Monument is like giving you an original painting, and then letting you watch the principles and methods, and then paint your own.

The sea of law directly gives you a real world that changes, allowing you to comprehend it, and then draw it.

The degree to which you can comprehend, whether you can draw it, and what level you can draw is all up to you!

"Law perception..."

"The secret of creation..."

"It feels like this time the primitive universe is terrific. Isn't it about the birth of the strongest man in the universe, or the lord of a large number of universes?"

Wang Yi raised his head and looked at the sky that is filled with infinite coercion.

What is in the depths of the core?

Not only Wang Yi was shocked, but the powerful people who came into the tower were also crazy.

A venerable person looked at the ocean of laws above his head, and his body trembled violently.

"I, I seem to have seen the way of the Lord of the Universe..."

God, he has been trapped in the realm of the venerable for countless years, and he has also been to the ancestors, tried countless methods, but he has never made a breakthrough.

But now seeing the ocean of laws full of endless changes, inspiration arises in his heart, a burst of enlightenment.

is like a bright light.

The fog on the road leading to the Lord of the universe slowly dissipated.

The bottleneck that had troubled him for so many years began to faintly loosen.

And there is more than one who has the same feelings as this Venerable.

The sea of laws of the Tongtian Pagoda was originally created to help those who come in to understand the laws.

Venerable can understand the path of the Lord of the Universe through this.

The Lord of the Universe, can see the infinite combination of laws, merge and change, and find his own way.

True God, you can go further.

But... only ten thousand years!

Venerable Pangbo's clone "Star Prison Demon Lord" is also here, his expression is excited and fanatically looking at the secret pattern crystal line of the sea of law above his head, his eyes are crazy.

The stronger the law, the more profound the law of understanding, and the more you understand.

Venerable Pangbo is one step away from the realm of the Lord of the Universe, and this step is very difficult.

But Venerable Pangbo now sees the possibility through the sea of law.

"It's terrible, who created this sea of laws?"

"It's nothing more than the Lord of the universe, shouldn't there really be a way to break through to the true god, or above the true god?"

Some strong people were shocked.

"What is the source world?"

The entire universe...There is no place that is not under the control of the original will of the original universe, but it is just a simple will formed by a huge law of operation, and there is no desire and so on.

Affected by the will of the original universe, the creatures of the universe can only know the countless inheritance information up to the limit of the strongest in the universe! If you go further up, you must go through the cycle of reincarnation in order not to be affected by the will of the original universe.

These are actually the protection of the primitive universe.

But now, some messages are being understood and spread unimpeded, and the original universe can't stop it.

The sea of laws of the Tongtian Pagoda is like the laws of the original universe, but it also has the function of "Chaos Stele" to actively guide others' perceptions.

is equivalent to opening up all the laws and mysteries to outsiders, without covering up, but the extent to which it can be achieved depends only on your personal ability.

Many strong men were affected by it and indulged in the mystery of the ocean.

This is their greatest opportunity in their lives!

The nine superpowers of the universe, plus some ordinary scattered races, this time there are dozens of masters of the universe, thousands of venerables, and hundreds of thousands of immortals, but there is not a single master of the universe. Obviously no one thinks. What role can the world master play here?

Regardless of the immortality, the venerable, or the master of the universe, he was attracted by the sea of laws, and he couldn't extricate himself from it, and practiced frantically.

As the news spread through various channels, the entire primitive universe went crazy.

In the virtual universe of the human race.

"What? Is this true?" For the first time, City Lord Chaos showed such a shocked expression, looking at the disciple Pang Bo in front of him.

"Yes, teacher, after seeing the sea of laws, I saw my own path in the fusion of countless laws." Pang Bo said solemnly, "I have a feeling that as long as I keep on understanding, after ten thousand years, I am 70% sure that I can break through to the realm of the Lord of the Universe."

Chaos City Lord was shocked for a long time.

"The Sea of Law in the Tongtian Tower really has such a big effect?" Chaos City Lord murmured.

Because of certain concerns, the real powerhouses of all parties did not enter the Tongtian Pagoda in the first time, and wanted to wait until the situation inside was almost explored before entering.

And Chaos City Lord did not expect to receive such a shocking news for him.

"Can guide people to practice and make breakthroughs?" Chaos City Lord said, "Is there still above the Lord of the Universe?"

Venerable Pangbo said: "According to the message left by the tower itself, there should be."

Chaos City Lord's face became solemn.

If this is the case, it is too important. This tower of towering sky must not be obtained by other ethnic forces, otherwise it will be easy to cultivate countless strong people.

"How about the inheritance test of this tower?" Chaos City Lord asked.

"It's not clear at the moment. The message in the tower does not give specific standards, but only refers to the level of the law of perception and the two requirements of will." Venerable Pang Bo said, "However, since the owner of the tower wants to choose the inheritor, of course it is. The more genius the better, and the standards of the strong at different levels should also be different."

On the small island, Venerable Pang Bo used the strongest secret technique he created to imprint on the column of inheritance. The position has risen a lot, and there are only dozens of people who can compare with him.

There are thousands of sages and hundreds of thousands of immortals underneath.

"Well, it's also very possible. If I want to choose a disciple, I must also choose a talent with good understanding and will."

Chaos City Lord nodded, suddenly remembering something, "By the way, your apprentice Wang Yi also went in, right?"

Venerable Pangbo rubbed the bear's face, "Yes, teacher, one of his clones is also in the Tongtian Pagoda."

It is currently known that the Tongtian Pagoda is not hostile to these outsiders, but is very safe. Everyone who enters is taken to a separate island for protection at the first time. Once the light shield rises, even the Lord of the universe will have nothing to do.

"Wang Yi is also one of the peerless geniuses in the history of our human race. I wonder if he is lucky enough to win this Tongtian Tower inheritance?" Chaos City Lord said.

"It should be impossible?" Venerable Pang Bo hesitated and said, "Wang Yi's cultivation time is too short, and he is still the master of the world now. The origin of the master of the Tongtian Tower is mysterious. It's unimaginable that the level is high, and his selection requirements are definitely very high. It's probably difficult for Wang Yi to stand out from the many super powers in the universe."

"Yeah." City Lord Chaos nodded, his heart fluctuating.

"If our human race can really get this inheritance, we will probably become the number one power in the primitive universe or even the universe." Chaos City Lord's eyes brightened. "Maybe, there is still the possibility of transcending reincarnation~www.mtlnovel.com~ This opportunity should not be missed..." The City Lord of Chaos groaned for a moment, and finally made up his mind and issued an order.

All the strong men and geniuses of the human race were summoned and sent to the Tongtian Pagoda.

After learning about the internal situation of the Tongtian Tower, all forces in the entire universe made the same decisions as humans.

"This time is an opportunity for our ethnic group to rise, we must go all out and we must not lose it!"

"Even if you can't get the Tongtian Tower, as long as you have a chance to break through to the Lord of the Universe, you have to fight for death!"

Countless strong people rushed to the tower of the outer battlefield, even the master of the universe, the strongest of the universe is no exception.

"Boom..."

The first one to go in is the "Shaking Demon Ancestor", while the second in the universe "Meng Yao Zu" of the Yao Clan stayed outside to guard.

When the "Shaking Demon Ancestor" came in and was surrounded by the mask bubbles and felt the breath of the vastness of the original universe, his heart trembled.

Then, it passed through the light curtain, entered the endless chaotic void, and saw the boundless sea of laws full of endless possibilities.

"Zhen Yaozu" was stunned.

It has lived for a very long time, and it trembles after seeing countless mysteries of the universe.

"How can it be....."
