

## A God 421

### [Chapter 421: Happy in the wool](#)

Signing out "Heart of the Beast God" means that Wang Yi can enter the realm of the master of the universe by relying on the way of the Beast God as long as he has enough understanding of the law.

"However, that's all about the Lord, the Lord of the universe is not that simple." Wang Yi said with emotion.

Under the gaze of the eight palace guards, he left the ancestral temple.

Next, go to other places to sign in.

...

Temple of the Golden Beast.

A beam of light broke through the air and fell from the sky.

"This is the palace of a beast god." Wang Yi looked at the golden palace exuding endless sharpness. There are many sculptures of beast gods on the walls and pillars of the palace. It looks like a golden unicorn and Xueluo. The world's beast gods are very similar, and there are some guards outside the palace, but most of them are just immortal, and only the two leading ones are the Lords.

This is one of the "Golden Beast Temple" of the Eight-Faced Beast Temple. From the outside, the entire Beast Temple is a majestic and brilliant palace over hundreds of millions of kilometers.

Although Wang Yi came here, he couldn't enter without the summons of the Golden Beast God.

Moreover, the Golden Beast God is not here either. Now the ancestor \*\*\*\* teaches the Bafang Beast God that only the "Thunder Beast God" sits, and the other beast gods don't know where they are going.

"Sign in."

[Ding, congratulations to the host for signing in successfully, and rewarding the 'Golden Beast's Mysterious Pattern Engraving'. ]

"Huh?" Wang Yi frowned.

A message flowed into Wang Yi's consciousness.

The beast \*\*\*\* of gold is the incarnation of the law of fusion of space and gold.

At the same time, Wang Yi's heart moved, and the eight sculptures of the golden beasts on the panel that had just been signed in disappeared, and the next moment they appeared in Wang Yi's world ring.

"This is..." Wang Yi observed with divine power, "Is it really a sculpture of a beast \*\*\*\* from the starry sky giant beast Holy Land Beast God Realm?"

Eight towering statues of the Golden Beast and God stand on the grassland. Each statue of the Golden Beast and God is different. There are angry, quiet, happy, crazy, decisive, roaring... the Golden Beast in various states and different states God's scales are also different. And among those statues, some of the

golden beast gods attacked with claws, some with tails, and some with sharp horns... it seems that any part of the whole body can be attacked.

There are complex secret patterns on the scales of the entire statue, and the patterns on each carved scale are different.

Each sculpture is a map of the secret pattern of the golden-air fusion law, and the total of the eight sculptures is the complete way of the animal gods.

The most precious thing in the entire beast \*\*\*\* world is the 64 beast \*\*\*\* statues.

Wang Yi pondered for a moment, showing a slight smile.

"interesting."

Then Wang Yi went to the second temple of beasts, the temple of beasts of wood.

[Ding, congratulations to the host for signing in successfully, and reward the 'Wooden Beast's mysterious pattern carving'. ]

...

Temple of the Water Beast.

[Ding, congratulations to the host for signing in successfully, and reward the 'Water Beast's Mysterious Pattern Engraving'. ]

...

Temple of the Fire Beast

[Ding, congratulations to the host for signing in successfully, and reward the 'Fire Beast's mysterious pattern carving'. ]

...

Wang Yi quickly signed in at the Bafang Beast Temple.

Obtain 64 carvings of the Bafang Beast God.

"Now, the 64 carvings are ready." Wang Yi was also a little speechless.

"Having this sculpture of the beast god, whether it is to comprehend the law of fusion or to study the secret method, is very helpful." Wang Yi didn't know whether it was happy or regretful.

The happy thing is to get 64 sculptures of beasts and gods, whether it is creating secrets or enlightening laws, it is faster.

Regrettably, after all, it is not a treasure that directly enhances combat effectiveness.

"Now, I have the sea of Tongtian Pagoda rules, and the place of inheritance, the sculpture of the beast god, and the master of the "heart of the beast god"... " Wang Yi couldn't help laughing.

"If I can't break through the Lord of the Universe, it would be too much."

Wang Yi knew very well in his heart that there were countless secrets in the Beast God Realm, and those other secrets seemed precious, but in fact they were nothing. 64 statues of beast gods are priceless!

With these 64 sculptures of beast gods, he can avoid many detours on the road to the law of fusion.

A beam of light left from the "Temple of the Beast of Light".

"The Ancestral Temple and the Bafang Beast Temple have signed in, and the next step is to protect the beast gods and the gods, and the gods." A leisurely voice came out.

With the permission of the Thunder Beast God, although he can't directly enter the high-rise palace of the Ancestral Gods, he can easily walk on the periphery.

For Wang Yi, this is enough.

Wang Yi landed in a towering palace that pierced into the sky like a sharp sword. The size of the palace was hundreds of millions of kilometers, almost comparable to the Temple of the Eight Sides of Beasts.

After all, the guardian beast \*\*\*\* is also the lord of the universe, just slightly inferior to the beast god.

And like the guardian god, it is the existence in the legend that is equal to the eight beast gods.

"This seems to be the location of the God Lord of the Heavens." Wang Yi secretly said, the imprint that the Thunder Beast God gave him also contains some information about the ancestral gods, including many super-existing palaces.

"Sign in."

[Ding, congratulations to the host for signing in successfully, and reward 'Feng Tian God Armor'. ]

Wang Yi immediately received the relevant information.

"Fengtian Divine Armor, the top treasure armor?" Wang Yi couldn't help a smile on his face.

Finally, another piece of treasure was signed in, and it was the top treasure armor.

"This should be the armor worn by the God Lord Fengtian himself. In terms of power, I'm afraid it is considered good among the top treasure armors."

Fengtian god, one of the sixteen guardian beast gods.

In terms of strength, it might be comparable to the Lord of Bingfeng of the human race, and it definitely belongs to the stronger level among the Lords of the Universe.

Subsequently, Wang Yi checked in one by one with the other 15 guardian beast gods.

To his surprise, he actually got fifteen treasures.

[Ding, congratulations to the host for signing in successfully, and rewarding the 'March Cutter'. ]

[Ding, congratulations to the host for signing in successfully, and reward the 'Boat of the Red River'. ]

[Ding, congratulations to the host for signing in successfully, and reward 'Apophis Orochi Spring'. ]

[Ding, congratulations to the host for signing in successfully, and reward 'Jiuyou Hook'. ]

...

The palace of the sixteen guardians of the beast gods gave Wang Yi a big surprise.

Every palace rewarded a treasure, and most of them were not ordinary treasures.

"Sent! Really sent!" Wang Yi couldn't close his mouth with a smile.

Sixteen treasures in such a short period of time!

And there are three top treasures like Fengtianshenjia, nine high-grade treasures, four ordinary treasures, a total of sixteen pieces~www.mtlnovel.com~ If this is replaced with a panel, how many treasures it should be, I don't know. Can you change it for a peak treasure class weapon? "Wang Yi licked his lips.

People are greedy.

If you have one, you will count on the two.

Desire is also motivation.

"I will be able to break through the sage immediately, and then I can redeem the pinnacle treasure!"

Wang Yi is sober.

What he lacks most now is actually output, which is a suitable weapon.

Rather than leaving these treasures to use, he even wanted to replace it with a powerful weapon.

Many of the masters of the universe do not have the pinnacle weapon, and even the strongest in the universe mostly use the pinnacle weapon, because they do not have the pinnacle weapon as a weapon.

"The peak treasure weapon, it seems that you need at least 1,200 treasure points to exchange for..."

Wang Yi's eyes were faint. "If it is the best, 2000 or 3000 are possible."

#### [Chapter 422: Breakthrough Venerable](#)

After signing in the ancestral temple, the eight-fang beast temple, and the sixteen guardian beast gods palace, Wang Yi rushed to the 72 \*\*\*\* general continent without stopping, and 3000 \*\*\*\* envoys and star world signed in.

[Ding, congratulations to the host for signing in successfully, and reward the 'blood fire \*\*\*\* will inherit the crystal'. ]

[Ding, congratulations to the host for signing in successfully, and reward the 'Hold Ice God Will Inherit the Crystal'. ]

[Ding, congratulations to the host for signing in successfully, and reward the 'Sifang God will inherit the crystal'. ]

...

[Ding, congratulations to the host for signing in successfully, and reward the 'flaming glass crown'. ]

[Ding, congratulations to the host for signing in successfully, and rewarding 'Tian Yue Sword'. ]

[Ding, congratulations to the host for signing in successfully, and reward the 'Heaven's Meteorite Curtain'. ]

...

[Ding, congratulations to the host for signing in successfully, and reward the 'Mengguang Divine Envoy Inheriting Crystal'. ]

[Ding, congratulations to the host for signing in successfully, and reward the 'Evil Night God's Inheritance Crystal'. ]

[Ding, congratulations to the host for signing in successfully, and reward 'Blue Wing Divine Envoy Banned'. ]

...

When Wang Yi checked in everywhere, many gods and envoys in the continent of gods and stars of the gods also noticed him.

"This is the peerless genius of mankind, the hunting \*\*\*\* king, who is favored by the thunder beast god?"

"Many people say that Wang Yi can be compared with the King of the Mirror, and I don't know if it is true or not." Some of the strong are interested.

Some members of these ancestors of the sect were indifferent to Wang Yi, while others welcomed Wang Yi warmly.

Gods are very proud. They are all overlords of the universe, so although they paid attention to Wang Yi, they didn't take the initiative to greet Wang Yi.

Those divine envoys are different. The ancestor \*\*\*\* teaches 3000 divine envoys, and the inheritance of divine envoys is lower than the inheritance of divine generals.

Even if you train the divine envoy to great success, you will become a 'divine envoy candidate', that is, the limit of kingship...Only by fusing the inheritance crystal and becoming the only certain kind of divine envoy, can you have the strength comparable to the most common cosmic venerable. .

But now Wang Yi breaks through immortality, spreads his combat power comparable to that of the Universe Venerable, and is valued by the ancestral gods. It can be said that he has a boundless future. It is very possible to become the overlord of the universe in the future. Most of these divine envoys are happy to make Wang Yi.

They all make friends.

However, Wang Yi was busy signing in, and declined all the warm invitations to these envoys.

"Those divine envoys are really enthusiastic, especially the dream divine envoy, who actually wants me to spend the night with her." Wang Yi was trapped by the beam of light, broke through the area of the colorful Aurora Lake, and flew back to Zijing Island, thinking of those gods before. Enthusiasm, shook his head slightly.

"Sure enough, strength is everything." Wang Yi said softly.

Just like those gods and generals, the beast gods of the eight directions, that is, just take a high look and pay attention to it, but the gods who are not as strong as Wang Yi are all vying for it.

"After I go back, I will break through immediately!" Wang Yi's eyes bloomed.

"Time should be almost there, and most of the treasures of the ancestral gods have been explored, and there is no need to stay there anymore."

The most important 108 peaks have already been checked in. The probability of finding the most precious treasures in other places in the treasure land is too low. At most, the most important treasures are heavy treasures. Now Wang Yi is not very interested in them.

Even if you sign in hundreds of thousands of treasures, they may be worth a treasure. For Wang Yi, it's a waste of time.

It's better to make a breakthrough. Once you have the strength to cross the universe, you can travel everywhere in the universe, and the probability of getting treasures will be much higher.

"The universe is so big, I want to see the scenery."

...

Wang Yi returned to his palace, then teleported through the kingdom of God, and returned to the human domain.

"The last time I broke through the immortality here, then this time I will break through the Venerable."

Wang Yi was suspended in the starry sky, behind a bleak planet, surrounded by pressure.

Breakthrough...Venerable!

Wang Yi didn't tell others about breaking through the Venerable, but chose to break through quietly.

So no one knows that the peerless genius Hunter King who has only entered the immortality for only one year has actually made a breakthrough again!

Wang Yi stood quietly in the starry sky with his eyes closed, and the pressure fluctuations around him became stronger and stronger.

The Yanxing Giant Beast spends tens of thousands of times the flow of time to comprehend in the sea of Tongtian Tower Law!

The clone of the Void Zerg and the clone of Youhai also spent tens of thousands of times the flow of time to comprehend in the kingdom of God!

Many insights all come together, like a trickle, converge into a big river, and finally flow into the sea.

"Teleport, strangle, blockade." Wang Yi murmured.

Since Breakthrough Venerable, just choose the time or space side to break through.

Master the laws of time and space at the same time, and that is the master of the universe.

Wang Yi is the immortal achievement of the law of the origin of fire, and the system of the law of natural selection space has made the Lord.

Wang Yi slowly opened his eyes, and his divine power spread out.

"Chichi..."

I saw in the starry sky, countless divine powers spurred a number of law threads, and three incomplete space law secret patterns representing teleportation, blockade, and strangulation appeared in the mid-air.

Following the direct fusion of the three secret patterns, one perfect combination...soon, as it happens, a pair of perfect secret patterns appeared.

This is faintly similar to a certain part of the pattern in the seventh picture of "Universe Chaos Stele".

"The law of space is done." Wang Yi showed a slight smile.

"Boom!"

The coercion of the endless cosmic origin law directly descends on the kingdom of God...

And the ever-expanding endless secluded sea in God's country is also boiling...

The sky over the endless quiet sea is a huge colorful vortex, which spreads over tens of billions of kilometers, covering the sky above the quiet sea.

The five laws of gold, wood, water, fire, and earth are in perfect harmony. At the core of the vortex, there is nothingness, exuding the aura of the origin of the law of endless space!

"Wow..." The sea of divine power in countless spaces visible to the naked eye rushed from the void and flowed into the endless secluded sea.

Wang Yi's human body appeared in the kingdom of God. He looked up at this spectacular scene with a smile on his face.

"The rule is, the origin descends and enters the Lord."

The movement of Wang Yi stepping into Venerable Man can be described as earth-shattering.

In the history of the universe, there are many who have become cosmic lords.

When each strong breaks through... there will be the origin ocean of the colorful vortex space.

But generally the colorful vortex is very small ~[www.mtlnovel.com](http://www.mtlnovel.com)~ such as hundreds of kilometers in diameter and so on.

But when Wang Yi broke through, the colorful vortex was as large as tens of billions of kilometers in diameter!

The breakthrough scene can also illustrate strength.

From immortality to cosmic sage, the limit of the divine body will reach a hundred times before!

Normal humans are from 100,000 times the power of the world master to 10 million times the power of the world master.

And Wang Yi's "Endless Youhai", "Yanxing Giant Beast", and the three clones of the Void Zerg tribe have reached the perfect level of life genes, and the purity of natural divine power is 10081 times!

In addition to the Void Zerg, the Flame Star Giant Beast, and the larger endless sea... the power of the divine body swallowed can be imagined!

"Boom~~"

Like a galaxy hanging upside down.

The Kingdom of God is shaking.

As the void channel with a diameter of over tens of billions of kilometers continuously flooded with divine power, the endless secluded sea below was also madly absorbed and transformed, and began to transform itself.

#### [Chapter 423: Great strength](#)

Generally, when breaking through to be a cosmic sage, if there is no clone, it is like some sages. Then the origin of the universe naturally descends directly on the only real body of the Venerable, so that the Venerable who breaks through can devour the divine power more effectively and quickly!

If there is a clone, like Wang Yi.

Then the origin of the universe descends on the "largest volume and most energy" avatar, which is more conducive to the efficiency of devouring divine power.

For example, Wang Yi's human deity, Yanxing Giant Beast clones, and Void Zerg clones are scattered all over the universe.

The moment he broke through and entered the universe... the origin of the universe appeared directly above the "Endless Secluded Sea".

Because the efficiency of the endless sea of absorbing divine power in a short period of time is more than 100 million times stronger than that of other clones, it is even higher than the absorption efficiency of the earthly deity. I don't know how much.

"Choose the best", this is also a gift of the universe to the lives living in it.

"Absorb, absorb, absorb..."

Wang Yi's endless secluded sea in God's country desperately absorbed the divine power poured into the sea of laws and transformed it into his own divine power.

The origin of the universe is very short-lived. Among the three levels of stepping into immortality, stepping into the sage of the universe, and stepping into the lord of the universe, only stepping into immortality can absorb the perfect conversion divine body as much as possible.

And the last two leaps... the time that can absorb divine power is very short, and how much it can absorb depends entirely on ability.

After a while, the origin of the universe receded, the colorful vortex space channel disappeared, and everything returned to calm.

Above the turbulent endless secluded sea, Wang Yi's human deity, Yanxing Giant Beast clone, and Void Zerg clone are all here.

During the frantic dumping of the divine power sea water just now, the other three avatars of Wang Yi naturally transformed completely with ease, and the strength of the divine body soared a hundred times.

"This time I broke through and entered the Venerable. The Endless Sea has transformed about 68% of its divine power, just over half." Wang Yi felt the changes in the Endless Sea.

It has only been one year since Wang Yi became immortal, and the endless secluded sea with a diameter of tens of billions of kilometers has no time to expand much in such a short time.

But it is also far more than the amount of divine body conversion of the powerful people of other races when they stepped into the universe.

With this endless secluded sea, if Wang Yi casts the "mirage world", he might be able to kill even the top cosmic overlord.

It is difficult for the lord of the universe to kill the top cosmic overlord. Wang Yi is also very difficult under normal circumstances, but if he relies on the most powerful secret technique of "Mirage World", the probability of success is extremely high.

The current self is no worse than the original Luo Feng, and even stronger. There is no reason why Luo Feng can do it. He has a mirage world and masters time and space and many treasures, but he can't do it.

"The breakthrough of the divine body, with this endless divine body, is also helpful to my consciousness and will. My current will should be close to the Lord of the universe." Wang Yi smiled.

"It's only a year, from the world lord to the immortal, and from the immortal to the venerable. Who would have imagined that I would break through so soon." Wang Yi smiled.

Even if the Lord of the Universe, the Divine Body is a hundred times stronger than the Lord of the Universe, with a much higher genetic level, coupled with the secret method, mastering time and space, and the most precious... only so that the Lord of the Universe has no power to fight back in front of the Lord of the Universe.

In the original work, it is evident that Luo Feng killed thousands of sages with one move.

How big is the power gap between the Lord of the Universe and the Lord of the Universe.

Therefore...becoming the master of the universe is regarded as standing at the pinnacle of the primitive universe.

"I have not yet become the Lord of the Universe, but my strength has reached the level of the Lord of the Universe!"

"What's more, I still have the original soul and the robbery armor!"

Wang Yi possesses two special peaks, the "Jia Jia" and the "Primary Soul"!

Whether it is the third form of Jie Jia or the original soul, it needs 100 trillion times the power of the realm master to drive. After being driven, the material (soul) attack is reduced to one hundred thousandths! And give users one hundred million million times the power of the master of the world.

"I was immortal before. Even if the amplitude of the divine body is added, it will be 100 billion times the power of the realm master." Wang Yi secretly said, "Break through the Lord, and the power of the divine body will be increased by a hundred times again, which is ten trillion times! It is a pity, Li reminder The third form of movement is still a bit worse."

"However, the second form of the original soul and the robbery, I can easily drive and weaken the material and soul attacks to one ten thousandth!"

Arcana armor, many can weaken the attack by one ten thousandth, but the upper limit of the damage is different.

For example, the ordinary treasure can resist the attack of the universe hegemon, but it can't stop the universe lord.

Even the powerful Lord of the Universe really launched a surge, and it can destroy ordinary treasures!

And the pinnacle treasure...I haven't heard of anything destroyed by the strong yet.

Even the strongest person in the universe can hardly destroy the peak treasure, let alone the master of the universe.

The Supreme Treasure Armor is fully capable of withstanding the battle of the Lord of the Universe.

Not to mention that the robbery armor is still the highest quality of the highest treasure armor. It has stronger defense and greater power. The upper limit of the attack is naturally high and terrible. It urges the second form, even if the Lord of the universe attacks, it can easily weaken the ten thousand. Times.

And "Original Soul" is even more precious soul peak treasure!

If Jie Jia can make the Lord of the universe fight desperately, the original soul can make even the strongest in the universe be moved.

A crystal armor emerged from the avatar of Wang Yi's Void Zerg clan, and the secret patterns of crystal silk thread spread. On the chest of the armor, there was an ancient word "Jie" appearing. At the same time, a powerful force instantly filled the whole body.

powerful!

Very powerful!

Not only on the body, but also on the soul!

In the divine body, the original soul is also sitting, and Wang Yi's soul power has been greatly improved!

Because of the divine power, it has two basic attacks, material and virtual!

Matter is naturally an ordinary divine attack!

Blurred, that is an attack of soul divine power!

And with the "Jia Jia" and "Original Soul", if the third form is activated, whether it is a material attack or a soul attack, as long as it does not reach the limit of the treasure, it can be weakened to one hundred thousandth.

Plus the huge divine body nearly 100,000 kilometers high!

Even if it is as strong as the Lord of the universe, it is hard to hurt Wang Yi.

Now Wang Yi can be regarded as the real power to gain a foothold in the universe.

"In addition to the Jie Jia and the original soul, I also have the domain-type supreme treasure Colorful Aurora Lake. With my current strength, I can barely use it." Wang Yi thought.

"However, Wucai Aurora Lake is the treasure of the Ancestral God Sect. There is only one item in the Primordial Universe. Its characteristics are so obvious that countless powerful people can recognize it and cannot use it. Otherwise, it will be a big trouble."

Once the colorful Aurora Lake is exposed ~[www.mtlnovel.com](http://www.mtlnovel.com)~ Except for the ancestors, the entire primitive universe will be crazy.

The strongest man in the universe who wants to trouble Wang Yi may not be able to count with both hands.

Wang Yi still does not want to directly confront the strongest in the universe.

...

After Wang Yi stepped into the universe, the kingdom of God also began to undergo tremendous changes.

The kingdom of God is the foundation of immortal gods!

As the strength of the immortal gods increases, the kingdom of gods will also gradually change.

Since Wang Yi's kingdom of God was originally the fusion of the four bodies and worlds, it was originally larger than many venerables.

But at this moment--Wang Yi stepped into the universe, and the qualitative transformation took place, and the kingdom of God was also transformed!

"Boom..." The entire kingdom of God is shaking, expanding, and transforming. This process will last for several days.

And when the transformation of the kingdom of God is completed, even if the Lord of the universe uses all his strength, he will not be able to destroy the kingdom of God.

#### [Chapter 424: "Hell Knife"](#)

"Venerable Universe, the power of a divine body is a hundred times stronger than that of immortality, and it is stronger to master the laws of time or space, and to use secret methods..." Wang Yi said with emotion.

Comprehend the three profound mysteries, and then merge them into one, and you will truly enter the rank of the Universe.

"Of course, there are treasures."

Therefore, immortality is almost impossible to defeat the Universe Venerable. The so-called Invincible King can match the Universe Venerable, but it can fight against the Universe Venerable to save his life. It is very slim to defeat, let alone kill.

Those who can defeat or kill the Venerable Universe are all special beings in the universe that are extremely against the sky!

Like a 5,000-fold genetic level insect king, he has defeated the Venerable many times, and even has a record of killing the Venerable Universe.

The King Barking Mirror with 2000 times the genetic level can also defeat the most ordinary Venerable.

Except for the human deity's life level exceeding 5000 times, Wang Yi's life level of the other three clones is 10081 times, reaching perfection!

"The King of Insect Chasers who are highly valued by the ancestral gods, and the King of Barking Mirror, have not broken through the venerable for so long, but I have achieved it easily." Wang Yi was happy.

With a movement of your mind, you can feel all the spatial fluctuations in a radius of thousands of light years.

Master Space, you can control space! Use the power of space to improve your strength!

"brush!"

Wang Yi teleported and appeared on a planet a thousand light years away.

Now without using the Void Zerg clone, Wang Yi can easily teleport thousands of light-years at a time!

Wang Yi stood on the top of a mountain on the planet, looking up at the vast starry sky.

"The domain of the Void Zerg clone is still useful in the battle between the cosmic lords and the cosmic hegemon, but when facing the enemy of the cosmic lord, once they use the space-time blockade, the domain is useless, unless it is in its own time-space domain."

"Now that I have broken through the Lord, it's time for the next step."

Wang Yi pondered that in the kingdom of God, the endless secluded sea was surging and smashed, and a secluded sea clone with a height of more than nine thousand kilometers and a genetic level reaching a thousand times was created.

Reaching the Venerable, the strength of this Youhai clone has surpassed the strongest world tree on Jiuyou Time and Space Tree Island.

Many bodies, because only the human deity has not reached the perfect genetic level, so there is no huge divine body, and the strength is the weakest!

But the human body is necessary to break through, and the weak is mainly due to the small divine body, and can't use the strongest talent secret method. In fact, the strength is absolutely not bad!

"It's time to redeem a pinnacle treasure." Wang Yi focused on the panel again, and put all the treasures he had obtained during this period on the panel for identification.

Put it on the "Devil Bottle" in the Treasure Land, and there is an extra value on the panel.

"182."

The value represents the treasure point.

"This is the treasure of high-level town seals." Wang Yi muttered in his heart, and then put it on top.

'Eight Treasures Turn Ring Armor'.

The panel appraisal value changes.

"2.1." This top armor suit is a heavy treasure, and its value is comparable to ordinary treasure armor.

The ancient ship Milky Way, the top treasure of the flying palace category, the registered treasure at the 106th place of Treasure Land, worth 3.6 treasure points.

And like those heavy treasures, unless the top palace type, domain type, and soul type, most of them are less than 1 treasure point, and once they are lower than 0.1 treasure point, they are all shown as heavy treasure points.

After Wang Yi's appraisal, "the overall value is similar to the appraisal of the treasure of the human race, but there are still some differences."

For example, there is no middleman to deduct the price difference.

Wang Yi handed it over to the panel, it was 1 treasure point, so the same treasure can be exchanged with only 1 treasure point.

But in the ancient side hall of Chaos City, it would cost 10% or 20% to exchange it again.

Not to mention, the panel can be customized according to your personal situation, which can perfectly fit your combat needs.

Unlike many powerhouses, who have worked so hard to obtain the treasure, but found that it is not suitable for their own use, and can only be exchanged with others.

"continue."

'Fleeing Huntian Spear', a top heavy weapon with 120 heavy treasure points.

'Tiantian Brahma Sea Hammer', a top heavy weapon with 98 important points.

'Silver Dragon Phantom Ship', a top-class palace treasure, 3.6 most treasures.

'Heaven's Halberd', a high-level supreme weapon, 12.4 supreme point.

'Heart of Time', the source material of the Highest Treasure, 12 Treasure Points.

...

'Father's Feather', a heavy treasure of common flying category, with 23 heavy treasures.

'Kui Shenzhong', a heavy treasure of common attack type, with 3 key points.

"Silver Moon Wheel", the most precious of ordinary weapons, 1.9 most precious points.

"Poseidon Shuttle", the most common auxiliary class, 2.9 most precious points.

...

How many treasures has Wang Yi collected during this period?

Almost every time a treasure is placed, the value of the treasure point on the panel will change.

The total number of authenticated items behind the panel keeps beating.

When Wang Yi put all the treasures on it, it had become the "1921.7" treasure.

One piece of the most common treasure can be exchanged for 1 treasure point.

Nearly two thousand treasures!

It can be seen how great Wang Yi has gained during this time!

"1921 Supreme Treasure Point." Wang Yi looked at this number, happy in his heart, and secretly said, "It should be enough for me to exchange for one Peak Supreme Treasure, and perhaps a few top Supreme Treasures."

Wang Yi didn't exchange all the treasures, such as the beacon armor, the top treasure armor, even the Lord of the universe was jealous, so Wang Yi would naturally not exchange it.

His clone is not enough to use.

Only those that are not needed, or temporarily unused, will Wang Yi use them to redeem the treasures.

[Whether to hand in these items? ]

"Yes."

Wow, the next moment, all the items placed in the panel space disappear, and the treasure point under the panel exchange function becomes "1921.1".

"Next, it's time to exchange the treasure."

Wang Yi chose "Primary Treasure-Weapon".

He is already a Venerable, the highest can be exchanged for the pinnacle treasure.

When he becomes the master of the universe, he can exchange for the strongest treasure.

"Weapon, choose a knife." Wang Yi smiled.

A list of catalogues immediately popped up in front of him, with a dazzling array of items, which made Wang Yi's heart jump.

"Red Fire Knife, 1200 treasure points."

"Aurora Knife, 1200 treasure point."

"The Cone Dragon Knife, 1200 treasure points."

...

"Taiyi Eclipse Magic Knife, 1355 Supreme Point."

"Shu Dao, 1368 Treasure Point."

...

"Blood Path Knife, 1870's most precious point."

"Gray Knife, 1900's most precious point."

...

Wang Yi swallowed his mouth~[www.mtnovel.com](http://www.mtnovel.com)~ The peak treasure weapon, the lowest is 1200 treasure points, and the highest is more than 3000 treasure points.

And at the top, there is a custom function. As long as you put forward specific requirements, the panel can make corresponding weapons according to your requirements, but the greater the power and the higher the level of the treasure, the more treasure points are needed.

Behind the Treasure Weapon, there is a detailed information introduction.

For example, those suitable for the law of fire and sky origin, those suitable for the law of light time... or those suitable for violent style, suitable for raid style, light style... or weapons with soul attack function, with sharp effects... etc. .

However, Wang Yi did not choose to customize. His last gaze fell on one of the blood-red swords with blood-colored eyeball jewels on the handle.

"Hell's knife, 2000 most treasures, joins a drop of blood of a mysterious and terrifying creature in a certain world. A killing weapon made of special materials. It contains a treasure of horror spiritual impact. It needs the will of the Lord of the universe to control this knife. The strong consciousness of this sword will be affected, and only the Lord of the universe can resist it."

## [Chapter 425: Shocked human top](#)

Hell Knife, the pinnacle of the most treasured weapon, and the best among the pinnacle of the treasure.

Wang Yi looked at this \*\*\*\* knife, and felt that it was in line with his own taste.

What he lacks now is a cruel weapon!

But seeing the exchange price...

2000 treasure points!

Wang Yi really wants to ask, is there a discount?

2000 treasure points!

What is this concept?

If you replace it with the most common treasure, you will have 2000 pieces.

To put it more plainly, like the Lord of the Universe of the Monster Race... the Lord of Sirius, he owns the Heavenly Wolf Palace, which is also the highest flying palace category, but it belongs to the more excellent ones. According to the human race, it is about 800-900 most precious. .

The Lord of Sirius relied on it to cross the universe, even the Lord of Chaos City and the Lord of Nine Nethers could not break open.

These 2,000 treasure points are more than enough to exchange for two Heavenly Wolf Palaces.

Or, it can be exchanged for an ordinary top-level domain treasure.

For example, the "Thousand Treasure River" of the Chaos City Lord, even if it is a top-level domain type treasure, the Chaos City Lord relies on it and possesses monstrous power.

The price of the treasures of weapons and armors has always been much cheaper than other types of treasures. It is normal to be ten times cheaper... But no matter how cheap it is, this is the pinnacle of treasures!

The most common peak treasure weapon can only be exchanged for 1200 treasure points.

And Wang Yi valued this supreme sword, and got 2000 points!

Wang Yi sold most of the treasures on his body, and it was only 1921 points.

"This supreme weapon can greatly enhance my combat power, and it must be exchanged." Wang Yi gritted his teeth and finally took out the supreme treasure that had been kept before and sold a few pieces to make up the 2,000 supreme treasure points.

"Exchange the \*\*\*\* knife!"

[The \*\*\*\* sword is worth 2000 treasure points, is it redeemable? ]

Wang Yi did not hesitate to choose yes.

Afterwards, a blood-red, chilling quaint war knife appeared in the space where the panel belongs to the host. There was a drop of blood on the handle, like the eyes of a certain creature, as if staring at you, with all consciousness. As if sucked into the abyss.

Just looking at it, you can feel the monstrous murderous aura.

"I don't even have a scabbard, so stingy." Wang Yi muttered.

With a thought on Wang Yi, his divine power blended into the blade, imprinting his own mark, and at the same time a large amount of information poured into Wang Yi's mind.

Wang Yi stretched out his hand and scratched it.

boom! In the endless starry sky, a battle knife tens of thousands of kilometers long appeared and hovered horizontally in the endless starry sky. Wang Yi's mind controlled the battle knife to shrink and shrink until it was held by his own hand. The moment he reached out and touched it, he felt a surge of heaven. The evil spirit attacked him instantly.

Wang Yi's will of the Lord of the Universe suppressed this war knife before it calmed down.

At this time, Wang Yi and this blood-colored sword had a feeling of fusion, as if they were fused together.

Following that feeling, Wang Yi waved his knife gently.

He didn't use much power, just a normal slash.

The \*\*\*\* knife suddenly appeared.

Silent.

The vast starry sky ahead was torn into a dark ravine, which was more than 100 million kilometers long and hundreds of thousands of kilometers wide.

You can see the huge space mezzanine and turbulence inside.

Wang Yi nodded in satisfaction.

Hell Knife, the pinnacle weapon, with great power.

Moreover, Wang Yi felt that even if the cosmic hegemon would be affected by the terrifying evil spirit contained in the blade, only the cosmic lord could resist it. If the cosmic venerable faced the spiritual impact of the sword, he would lose consciousness in an instant.

Wang Yi gently stroked the blade, "However, I can kill Venerable Universe even without the interference of evil spirits, that is, the overlord of the Universe, which takes a little effort."

Wang Yi is so confident now.

With his strength reaching his level, he is also an absolute overlord in the universe.

With a thought to Wang Yi, his consciousness connects to the virtual universe.

I didn't break through. After I broke through, I connected to the virtual universe, and the virtual universe could discover the situation of my breakthrough.

And the other high-ranking members of the human race will surely know what they have broken through soon.

...

Virtual universe, Thunder Island.

The palace of the Lord of Chaos.

In the palace filled with chaotic air currents, the Lord of Chaos City sat cross-legged, frowning thinking about something.

"The last time I was at the Tongtian Tower, I felt a lot clearer about the direction of future breakthroughs, but I always felt that there seemed to be something short of screen windows, but I couldn't grasp it..."

Chaos City Lord is the human race closest to the strongest in the universe.

But even he was trapped in this level for countless years.

It is very, very difficult for the Immortal to break through, and the Lord to the Lord of the Universe is ten times a hundred times more difficult than the former.

From the Lord of the Universe to the Strongest in the Universe?

In the past, there was no road at all, so I had to find it on my own.

The path of the strongest in every primitive universe is unique.

"drop!"

The sudden system news interrupted the thoughts of City Lord Chaos.

The Chaos City Lord was not surprised, he sighed and stood up.

"The path of the strongest in the universe is really not easy, but compared to the previous two eyes, I am already very lucky. Sometimes I really envy Pang Bo and the others, they can easily find the direction of their breakthrough."

This time the Tongtian Pagoda came, and a large number of sages of the human race entered, and it is expected that two or three masters of the universe will appear.

Many powerful people are in retreat, such as Venerable Pangbo, Venerable Ancestor and other top cosmic overlords, they are sure to break through, but it takes time.

A retreat may be thousands of years, and for a strong man with unlimited life, it is just a matter of blinking an eye.

It is said to be sure, but if it really wants to make a breakthrough, it may be stuck in the last billion years.

After all, it's too much to see the chance of personal savvy to break through this kind of thing in cultivation.

The Chaos City Lord tapped Void, and a system email suddenly appeared.

City Lord Chaos took a look, and a look of shock immediately appeared in his eyes.

"What? Wang Yi broke through to the Venerable?"

...

As soon as Wang Yi connected to the virtual universe, the virtual universe system immediately monitored the strength of his divine body and determined that he had broken through the Lord!

Such important news, of course, will be reported to the high level of the human race immediately.

Ordinary Venerables were down, but the Lord of the universe of the human race got news of Wang Yi's breakthrough almost at the same time.

The five forces of the human race ~www.mtlnovel.com~ The human race has 18 masters of the universe, including 5 in the Virtual Universe Company and the Giant Axe Fighting Ground, 3 in the Universe Mercenary Alliance, the First Bank of the Universe and the Universe Galaxy Bank Then there are 2 masters of the universe.

However, the only one of the strongest in the universe, the creator of the giant axe, is the creator of the giant axe battlefield!

Therefore, the virtual universe company and the giant axe fighting field are the strongest, and the other three are slightly inferior.

An independent space belonging to a certain universe lord of the universe mercenary alliance.

"Wang Yi broke through again?"

Among the towering palaces, a very hideous-looking creature with complex scales and three pointed horns on its head, at first glance looked like a human-shaped beast, but with the same overbearing aura, a great being suddenly stood up from the throne.

He is the master of Huang Jian, the first in power of the Universe Mercenary Alliance!

"It's only been a year since he broke through immortality. After only one year, he has broken through?"

As shocked as the Lord of Desolate Jian, there are other Lords of the Universe.

#### [Chapter 426: The Joy of Chaos City Lord](#)

"It's about 80,000 years before the primordial star opens."

Wang Yi has cultivated for 14,000 years.

The Primordial Star was probably opened in a hundred thousand years after the story of the Starry Sky World was devoured.

Luo Feng probably became immortal at that time.

After more than 10,000 years, he broke through to the Venerable.

Wang Yi's current breakthrough time is undoubtedly much faster than Luo Feng.

And strength, even reaching the level of the master of the universe.

Wang Yi appeared at his palace on Thunder Island. His palace was built soon, and he didn't arrange any servants. The vast palaces were quiet and empty. He was the only one walking and thinking about the road ahead.

"Chaos City can also sign in, but the last time I came back, I have already signed in almost. Except for the highest reward, I have almost the same, and I always feel that it is of little value to continue to go on."

Primitive stars are the places where the most treasures of the primitive universe are born.

But the long years of Primordial Star only begin once, and each time it opens, it will last for a thousand epochs! It will be closed after a thousand epochs. There are still about 80,000 years before the next opening. Of course, Wang Yi does not want to spend such a long time.

"Tongtian Pagoda must continue to cultivate, and the ancestral gods will also leave one to accept the inheritance. My human deity must go personally and leave a clone to sit on the earth..." Wang Yi thought.

"By the time the Lord, the divine body transforms, I can use the divine power incarnation, but there are many things that the incarnation can't do, so it is better to use the clone."

"In addition to practicing, I will break through to the Lord of the Universe as soon as possible. If I want to break through, either in the primitive universe, or I have another goal, that is, the universe!" Wang Yi's eyes flashed.

Of course, Wang Yi has many clones, and he can also act separately, but due to the limitation of the distribution of the treasures, the combat power cannot be balanced.

More importantly, only a human body can sign in.

"If you want to get more treasures, one is to trespass and explore many secret realms. The second is to kill. The panel exchange function, killing can be exchanged for the most precious points."

"And I want to create a new level of mystery, to explore and practice can provide more inspiration."

All sorts of demands require Wang Yi to go to war.

"Then go for it." Wang Yi is very confident in his current strength. Although he is not at the peak of the universe, he can still protect himself under normal circumstances.

More importantly, because he has a clone, even if the clone falls, he can come back.

In fact, relying on his own initiative to find the strong to kill is still too slow. Wang Yi actually has a bold idea in his heart, but it is not the time to implement it.

"Wang Yi, you come to me." A gentle voice suddenly rang in Wang Yi's ear.

"City Lord Chaos." Wang Yi recognized immediately.

"The Lord of Chaos City came to me. It is estimated that he knew about my breakthrough Venerable." Wang Yi was not surprised.

In the virtual universe, there is nothing to hide from the Chaos City Lord.

Except for the original ancestor who has been suppressed by the original universe, the Lord of Chaos is the first in charge of the virtual universe company, and the control of the virtual universe can be imagined.

At the highest point of Thunder Island, Wang Yi appeared in a towering palace surrounded by chaotic air currents.

I saw the Chaos City Lord in a golden robe standing in front of the palace.

"City Lord." Wang Yi bowed slightly.

The Lord of Chaos City looked at Wang Yi, and from Wang Yi's demeanor and temperament, he finally confirmed that Wang Yi had indeed broken through to the Lord.

He was also extremely amazed at Venerable Wang Yi Breakthrough at the moment, this speed was too fast.

From immortality to venerable is also a hurdle. Wang Yi's ability to break through quickly also proves his strength.

"Wang Yi, have you broken through the venerable now?" City Lord Chaos asked.

"Yes, City Lord." Wang Yi said respectfully.

"I didn't expect that you could break through so quickly." City Lord Chaos shook his head. "You really surprised me."

Wang Yi respectfully said: "That's because there was some accumulation in the Tongtian Pagoda before, and the disciples had time to accelerate the means, coupled with the role of the place where the ancestral religion was passed down, so that the law perception speed increased, so that we can break through so quickly."

"That's the case, but being able to break through is also your ability. There are countless strong people trapped at the peak of the king, but how many can break through, let alone break through twice a year like you!"

The corner of Chaos City Lord's mouth slightly raised, and it was obvious that he was in a good mood at the moment.

"Haha, since you have made a breakthrough, your strength will definitely improve. Tell me, what level of your current strength is, I'm very curious."

The Lord of Chaos City was very happy that Wang Yi was able to make a breakthrough, and the human race would soon be able to obtain a super strong, and this also proved that his previous efforts were not wasted, and Wang Yi did not live up to his expectations.

But just ordinary venerables can't satisfy the Chaos City Lord, he even more looks forward to Wang Yi's current combat power.

When it comes to His Holiness, what exactly can Wang Yi do?

After Wang Yi made a thoughtful expression, he said seriously: "The disciple is now sure to face the top cosmic hegemon."

"What?" The smile on the face of City Lord Chaos was slightly stiff, his eyes burst out, and his tone was a little rushed. "What you said is true?"

Don't blame the Chaos City Lord for a little gaffe.

It would be terrifying to say that after Wang Yi broke through the venerable, he experienced a period of years of experience and precipitation, and the Chaos City Lord still believed that he had the strength of a cosmic hegemon, but once he broke through, he would have the strength of a top hegemon, that would be terrifying.

As the pinnacle powerhouse of the universe, the Chaos City Lord clearly knows what this means.

In fact, Wang Yi has said that his strength is low. His current strength is not inferior to some cosmic masters, and he may even be defeated.

But he didn't mean to explain, time will prove everything.

Faced with the question of City Lord Chaos, Wang Yi solemnly said: "The disciple will never lie."

Chaos City Lord looked at him, and he also knew Wang Yi's character. This little guy has always been very low-key. Since he said it, he must be sure.

A huge joy lingered in the chest of City Lord Chaos.

"Hahaha..." City Lord Chaos couldn't help laughing out loud.

The cheerful laughter not only echoed above Thunder Island, but also spread far to other places.

"What is this laughter?"

"Um?"

"This seems to be coming from the top of Thunder Island, like the voice of City Lord Chaos."

"What happened? Make Chaos City Lord so happy?"

Not only the Venerable on the mountainside, many immortals have also heard.

They were very surprised, what made the city master of Chaos who had always been steady so pleased?

No matter how they guessed ~[www.mtlnovel.com](http://www.mtlnovel.com)~, it was impossible to think that Wang Yi, who had just broken through immortality for only a year, had actually become a noble one.

"Good, good!" Chaos City Lord said three times, and the look in Wang Yi's eyes became extraordinarily gentle and joyful.

What is the concept of the top overlord of the universe?

Humans have more than a dozen universe masters, but there are only three top universe masters.

The top universe overlord is not afraid of falling, the strongest in the universe can be resurrected, and can play at any time!

Not to mention, Wang Yi also has the ability to clone, a combat power equivalent to several top hegemony in the universe.

A breakthrough is that the Lord of the universe who has a clone is definitely the backbone of the race!

If Wang Yi really has the power of a top cosmic hegemony, it would be a great thing for the human race. It can improve the overall strength of the human race, how can Chaos City Lord not be happy and happy.

At this moment, Wang Yi's position and importance in his heart has once again undergone earth-shaking changes.

#### [Chapter 427: High-level](#)

"Wang Yi, since you have broken through, then I can call the shots and grant you 100 treasure points." Chaos City Lord said. "What treasures you need, you can redeem them, but if you want to get more, you have to contribute to the ethnic group to get it."

"Thank Chaos City Lord." Wang Yi bowed slightly.

In general, the strong human beings break through to the venerable, and the ethnic group will not give anything, but occasionally a very small number of the high sages of the human race cosmos have a treasure, like the middle-level sages and the elementary sages, almost none of the treasures.

Treasures are generally owned by the overlords of the universe.

The City Lord of Chaos gave Wang Yi 100 arrogance points, which is definitely very important. You should know that a high-level arsenal weapon is only about 10 arrogance points. In exchange for a top-level Arcana armor, 100 Arcana points in the human race are enough.

Like ordinary treasures, such as palaces, domains, souls... you can also make a set.

But Wang Yi really has the strength of a top cosmic hegemony, and it's worth it.

In the view of Chaos City Lord, with these, Wang Yi will undoubtedly greatly improve his strength. I'm afraid they can be among the top 20 human powers.

Wang Yi did not refuse either. He is indeed short of the most precious points now. This is the support of the ethnic group. The 100 most precious points are not a big deal to the human race, and he will return in the future.

Chaos City Lord smiled and said: "Since you have broken through to the Venerable, then according to the rules, you can join our Supreme Council of Humanity. By the way, have you thought about your Venerable name?"

Many strong people are well-known in the universe, but no one knows their names.

Just like the "Hunting King", the entire universe knows who it is, but human Wang Yi knows very little.

The name is usually made by oneself, or by making amazing deeds, before it is widely circulated and recognized by others.

Either the strength is strong enough, such as becoming the lord of the universe or the top cosmic hegemon, and you don't need to do anything. The entire universe knows your existence.

"It's better to call it Venerable Hunting God." Wang Yi doesn't care much about the name of the Venerable. Of course, he will only change it unless he breaks through the Lord of the Universe.

The name of the venerable is too arrogant and domineering.

If you go to the Lord of the universe, you can basically go wild.

"Waiting for the Lord of the Universe, I must be domineering." Wang Yi said inwardly.

"You can be regarded as the top of our human race now. Have you figured out how to take the road in the future?" Chaos City Lord asked with concern.

He was also a little embarrassed in his heart. In fact, Wang Yi had only lived for more than 10,000 years in reality, and he was still a little fellow in his eyes.

But who would have thought that, in a blink of an eye, this little guy has actually cultivated to the venerable level, and also possesses the strength of the top cosmic hegemon!

Even City Lord Chaos must be treated seriously.

"The disciple has a clone, and wants to cultivate and break through the Lord of the universe, while exploring and tempering himself in the universe." Wang Yi said his inner thoughts, of course, he concealed some.

In fact, cultivation and rushing and tempering are the main life of a strong person.

"Well, that's fine, if you have any needs, you can tell me." City Lord Chaos nodded slightly.

There is no problem with Wang Yi choosing this way.

"The token I left you before, you can call me at any time when you are in danger." Chaos City Lord reminded.

"Wang Yi understands." Wang Yi respectfully said, he still respects the Lord of Chaos City very much.

"By the way, City Lord, is my teacher still in retreat?" Wang Yi asked, thinking of his teacher.

The Lord of Chaos City smiled and glanced at Wang Yi, "Your teacher retreats and prepares to break through to the Lord of the Universe. How long has it passed? It's too early."

Many strong people practice in retreat and isolate all communication from the outside world, and they will not come out unless they are really important.

Wang Yi nodded, "I hope the teacher can make a smooth breakthrough."

Otherwise, maybe I will break through to the Lord of the universe. Wang Yi muttered.

"Haha, if your teacher leaves the customs, you will be very happy to see that you have already achieved this." City Lord Chaos said with a smile.

Wang Yi's progress is too fast.

It has only been more than ten thousand years from an ordinary life with no name to a venerable person, and it is the first in the history of the human race.

Chaos City Lord said: "I will submit your proposal to join my Supreme Council of Humanity immediately. Since you are already a Venerable, the highest level will definitely approve it. From then on, you are eligible for the highest meeting seat."

"But although you are eligible for the highest meeting seat, this highest meeting is only held once for a long time. Every time it is opened, it is an important event related to my human race. There is no major event now. I don't know how long it will take until the next meeting. Hold a supreme meeting and there will be a notification from the virtual universe system."

"Yeah." Wang Yi also had a glimmer of expectation in his eyes. By that time, he would be considered one of the high-level human beings, and he would be able to see many of the top powerhouses in the human race.

And since Wang Yi has become a decisive super existence of the human race, he can guard the earth as long as he is a clone, and he does not need other forces to interfere.

As soon as Wang Yi and Chaos City Lord talked about protecting the earth, Chaos City Lord immediately agreed, after all, Wang Yi already had this strength.

The order was reached. On the same day, the temple guarding the solar system quietly evacuated, but replaced with another temple.

...

In the solar system, in the starry sky millions of kilometers away from the earth, a majestic and tall fiery red palace appeared.

"Hahaha...This Huosuo Palace, just stay here, and I will take the seat of Youhai Clone, and the earth will be guarded by me from now on!"

A giant with a height of more than nine thousand kilometers sits in the towering palace, looking at the earth with infinite majesty.

In the palace, there are many immortal kings and other immortal gods standing respectfully, all immortal servants under his command.

A vine plant tens of millions of kilometers long entwined outside the palace, it was a void thorn that had broken through to the immortal level.

The immortal level of void thorns, coupled with special talents and divine bodies, can already rival ordinary venerables.

With Wang Yi's current strength and methods, it is strong enough to guard the earth, even if the Lord of the universe comes, he can take the earth away in time.

And all of this, the people on earth still don't know, for them, these things are too far away.

Wang Yi looked at a certain place in the solar system. There was a special space where the people of the earth could cultivate the strong.

Dragon's nest.

Wang Yi shook his head.

However, the time is still too short, and there are not a few who are truly given the Law Star Orbs, and only those who are strong like Hong and Thunder God are qualified to fuse one.

And if the talent of the law star bead is enough~[www.mtlnovel.com](http://www.mtlnovel.com)~, multiple stars can be merged to increase the speed of law perception!

"The time is still too short. There are very few world masters on the earth now. I want to achieve what I expected, immortal like a cloud, and venerables in groups. I don't know how long it will take."

"Now Luo Feng, Hong, and Thunder God are not immortal!"

"I'm so impatient."

The Kingdom of God can now accelerate time to allow outsiders to enter.

However, it is of little significance, and without training, it is difficult to give birth to a truly strong person.

As for ordinary immortality, Wang Yi really didn't take it seriously.

Wang Yi smiled slightly. "However, this is always a good start, isn't it?"

He has left too much for the people of the earth. The rise of the earth is only a matter of time. Now, he only needs to wait slowly.

And the news of Wang Yi breaking through the Venerable also spread throughout the entire human race, and spread to the universe, triggering a new storm.

#### [Chapter 428: Venerable Hunter?](#)

,

On Thunder Island, City Lord Chaos was standing on the top of the mountain, overlooking the scenery, but thinking about Wang Yi in his heart.

"Wang Yi got the 100 most precious points I just gave him, which can be exchanged for many treasures. With his ability, even if he walks in the universe, he should not fall easily." City Lord Chaos said softly.

Having a clone does not mean absolute security!

The reason why the Chaos City Lord bestowed Wang Yi 100 Treasure Points at a time is also the reason.

100 treasure points are enough to redeem an ordinary soul-type treasure. Even if the Guiyi Venerable who has been following the second disciple of the Chaos City Lord's sect, he is also the overlord of the universe, but he does not have the soul-type treasure.

The Lord of Chaos City is indeed very impartial and selfless, always taking the development of ethnic groups as the first.

This time, the Lord of Chaos City was partial to Wang Yi. In addition to the previous Huoshao Palace, he had already bestowed Wang Yi twice.

This is also because the Lord of Chaos City believes in Wang Yi.

Moreover, no one dared to deceive a top master of the universe!

...

An e-mail notification from the virtual universe instantly caused a huge shock among the upper echelons of the human race.

"What? Wang Yi broke through to the Venerable?"

Many venerables of the human race were very surprised and even dumbfounded when they saw the mail.

Didn't Wang Yi still say that it was a breakthrough in immortality last year?

How come you become a Venerable again?

However, the mail from the virtual universe must be confirmed by the highest level, and it is impossible to make mistakes.

Suddenly, the venerable circle completely exploded.

Wang Yi, who had been the top topic during this time, once again became the subject of heated discussion among the venerables.

What they were even more curious about was that what they couldn't help but guess was how powerful Wang Yi became a Venerable?

Immortality has been blown so hard, isn't it even more terrifying to become a sage? Maybe he will soon become the overlord of the universe, and that's right, it's the high level of the human race.

Moreover, Wang Yi has many treasures, even if his current strength is not too low, the future is even more promising.

Many flexible-minded Venerables took the opportunity to visit Wang Yi, the newly-promoted Venerable of the ethnic group, intending to make friends and build a good relationship.

The human race is lively here, and other places are not peaceful.

...

The news that the human peerless genius of the Hunting God King broke through the Venerable quickly spread throughout the universe.

Many people couldn't believe it when they heard the news.

What a joke.

Some time ago, you said that the Hunting God King was the lord of the world, and that he was immortal a year ago, but now that it has only been a year later, you said that he is the Lord.

What is it for you to be the hunter king? What about the pro-son of the original will of the primitive universe?

"This news is simply ridiculous, it must be fake!" Some people sneered.

There are also some powerful people who know the venerables of the human race. They personally ask and get a response before they believe this fact.

And the major superpowers in the universe are the first to get news.

In fact, all parties also vaguely through some intelligence at this time, guessing that the Hunting God King has a clone.

In fact, there are not many clones in the super existence, but they are not uncommon.

That's why, they chose soul slavery in the first place.

If one soul is controlled, other clones will be controlled by the same soul, even if there are more clones, it is useless!

Forces like the Zerg, Demon, and Mechanical Races that are mortal enemies of the human race are still studying how to deal with the Hunting God King to stifle this threat.

When the news came, many people were astonished.

The Hunter King broke through too suddenly, so fast that they couldn't react.

They repeated confirmations many times before finally admitting that that hateful human peerless genius really broke through the Lord.

In the depths of the Monster Race, a palace is suspended in the endless starry sky, surrounded by flames, black, white, purple, red, green, blue... flames of various colors, each flame is the same The size of a star, surrounding the palace.

If you are far away, you can't see all of this at all. Obviously the time and space around the palace has been distorted, and it becomes a time and space on its own.

"Hateful! Hateful! What a terrible thing!"

An extremely angry roar came from the towering palace faintly shrouded in flames, shaking the sky.

"Da! Da!" A terrifying sound of footsteps came.

Afterwards, a silhouette of flames walked out slowly, as if the incarnation of the laws of the universe.

The whole body was full of hair and flames, and the huge, pitch-black Sirius walked slowly with its four hooves, and the surrounding time and space were completely under his pressure.

He is the number one existence of the Sirius clan among the endless races of the monster clan, the Lord of Sirius clan.

But at this moment, its mood is extremely angry.

"That human genius actually broke through to the Venerable?"

"In such a short period of time, did he break through to the Venerable?"

The Lord of Sirius has been studying how to deal with this threatening human peerless genius. As a result, he had just figured out some clues, but suddenly received the news that the Hunter King broke through to become the Lord of the Universe.

It's like working hard to give the opponent a blow and hitting the cotton.

The Lord of Sirius almost didn't vomit a mouthful of blood.

"The Hunter King is so threatening that it should have been resolved long ago, but when I put forward a plan, the old guys disagreed, saying that the cost was too great and it was not worth it, that is, the two ancestors were affected and did not agree with my proposal... Alright now, that human being has broken through and has become a sage, how should he kill now? Can't let the strongest in the universe break into the mystery of the ancestors to forcefully kill, right?" The Sirius Lord is very irritable.

It is impossible for the strongest person in the Yaozu universe to break into the Ancestral God Cult in person, which is equivalent to a direct war with the Ancestral God Cult.

The members of the Ancestral Gods Demon Race Alliance are at most the cosmic hegemony level, and this level is impossible for the Ancestral Gods to kill the Hunting God King who has become a venerable under the protection of Wucai Jiguang Lake.

If you invite the strongest from other universes, don't say please don't ask for it, at the price, it will make the Lord of Sirius' heart tremble.

"Damn it!" The Lord of Sirius gritted his teeth.

The Lord of Sirius is the highest person in charge of the assassination of the Monster Race, and the inability to kill the Hunter King represents its failure.

The most important thing is that it felt that there was a chance to kill the Hunting King, but it was only hindered by others that made it unsuccessful.

This time, the Hunting King broke through the venerable, completely disrupting its original plan.

...

The Yan God race is a group that lives in a remote place far away from the territory of mankind, and is a group that owns a huge secret realm of the universe!

Emperor Yan took his subordinate Yan God Race, separated from the human race, and found a cosmic mystery that is extremely remote from human territory to live and thrive. Endless years passed... Yan God Race also became stronger, plus Emperor Yan No one dared to provoke the invincible strength of the cosmic universe~[www.mtlnovel.com](http://www.mtlnovel.com)~ Although the territory of the Yan Protoss and human beings are extremely far apart...Yan Protoss still often enters the "extraterritorial battlefield" and joins other camps to fight humans.

The Yan Gods live on three huge and vast continents.

In the central void surrounded by three continents, there is an endless group of suspended palaces surrounded by flames of various colors.

In the highest main hall, a majestic figure is sitting high on the throne. This figure is nearly 10,000 kilometers high. The airflow from the nostrils makes the surrounding void burn. The black unicorn pierces the sky, and the body is densely covered with black scales. He tapped his fingers lightly on the armrest, his eyes thoughtful.

"The peerless genius who has just emerged from the human race, the Hunter King...No, it should be called the Hunter God by now."

"Being able to become a venerable person in such a short period of time and gain such a great reputation, it seems that this little guy's talent is even better than I was back then."

The voice gradually became cold.

"Huh! The peerless genius of mankind should die!"

#### [Chapter 429: Set off, Blood Cloud Palace](#)

The earth, a special space, the world of dragon's nest.

This is an incomparably vast and vast world, with huge land, stars, sun and moon, vast void outside, and even dense cosmic energy, like some of the secret realms for cultivating genius in the human race, even the most Ordinary earthlings, as long as they live here for a few years, become a planetary star easily.

With Wang Yi's current resources and methods, it is very easy to create such a secret realm at a great price.

However, resources are always limited, and ordinary people are not qualified to come in. With limited precious resources, it is necessary to cultivate true geniuses so that the race can give birth to more powerful people.

One by one, human geniuses with excellent qualifications were selected, joined here, and cultivated.

There are constant star level, universe level, domain master level, and world master level.

It is divided into four areas: Heaven, Earth, Xuanhuang, and Yellow.

In the future, this place may be divided into four regions: Yu (Lord of the Universe), Universe (Overlord of the Universe), Hong (Venerable Universe), and Huang (Immortal).

Just like Yuxiang Mountain and Thunder Island, one is a place for cultivating talents, and the other is a gathering place for the strong.

However, I don't know how long it will take to reach that stage.

For the rise of the earth's human line, it is obvious that the cultivation of those new generations is very important.

In fact, many training models are similar to the mechanisms used by virtual universe companies and other universe masters to cultivate family talents. It is normal to learn from the mature and complete training system of virtual universe companies after the rise of the earth.

There is always no reason to cultivate civilization, and the system that people on earth think that it has only started for more than ten thousand years is stronger than the experience that the universe has been on the pinnacle of many great existences summed up for countless years.

That's unrealistic, it's self-righteous.

Moreover, in general, it is difficult to match the resources of the entire human race by relying solely on Wang Yi, Luo Feng and other current strengths, so it has to rely on the strength of the human race to develop.

It's as if the earth people have the earth to give birth to special souls and allow young generations of other races to come in and give birth to children.

The human race also has places specializing in cultivating talents such as the "Blood Luo World". With Wang Yi's current status and paying a certain price, he can send some geniuses from the earth.

In addition, Wang Yi also has his own special background, and the people of the earth will soon be born in a steady stream of strong people.

Dragon Nest World, the highest peak of a lofty mountain in the center of the mainland, has a continuous group of palaces. Outside the palace, besides the immortal guards, there are more world owners.

In addition to their own clan, the forces of the earthlings have actually had a large number of other powerful people who have come to take refuge in the past so many years, there are a large number of world masters, and some immortals, but they can join the earth after screening, and the Dragon Nest world is now only Only the people on earth can enter.

An avatar of Wang Yi stood at the highest main hall, overlooking everything here.

As the overlord of the universe, an energy incarnation with a trace of consciousness is easy to maintain the strength of the landlord.

Moreover, the one who really sits on the earth is the secluded clone in the palace in the solar system.

"Ten million years is a reincarnation. I don't know when it will blossom and bear fruit." Wang Yi whispered softly.

Perhaps it has been too long in the world of time, and I don't know when, the concept of time has also become very weak here.

For thousands of years, the life of a realm master is just a stage in his eyes.

But just before coming out of the earth, a realm master is already the top figure in the Black Dragon Mountain star field.

After all, Heilongshan Star Region is also only two immortal, Heilongshan Divine Lord and Ice Sea God Kingdom Divine Lord.

Now, let's not talk about the Black Dragon Mountain Star Territory. Not long after the news of Wang Yi breaking through the Venerable, a message came from the Qianwu Universe Kingdom. In order to congratulate Wang Yi on his breakthrough, a large number of territories centered on the Heilong Mountain Star Territory were presented as a gift. His permanent private domain.

The Lord of Dry Witch also visited the earth in person and talked with Wang Yi for a long time.

"The Lord of Dry Witch... is still so poor!" Wang Yi said with emotion.

Although a little unkind, he still wanted to say that Venerable Qianwu is really poor.

The last time he came back as a special envoy of dry witches, he gave a black dragon star field to move away the lair of the \*\*\*\* lord of black dragon mountain.

Breaking through immortality, he sent some star fields.

This time he broke through the Venerable, he still sent the Star Territory.

His feelings are already poor and only the site is left for delivery, or is it still shabby because he can't get other things?

And he not only pleased Wang Yi, but even Luo Feng, Hong, Thor and other geniuses at the core of the human race were no exception.

After all, Luo Feng is also a peerless genius of this generation of human race. Although not as dazzling as Wang Yi, it is also comparable to Kedi.

Hong, Thor is also a registered disciple of the founder of the Great Axe, taught by the Lord of the Universe.

Needless to say, Wang Yi is comparable to the Venerable in the rumors of breaking through immortality. He was offered a treasure from the three peak races. Now he has broken through the Venerable. I don't know how strong he is. The lair of Venerable Dry Witch, the strength, status, and power are superior to Venerable Dry Witch... Venerable Dry Witch afterwards might have to look at Wang Yi's gaze.

Wang Yi thought of Venerable Dry Witch's expression that day, and couldn't help but laugh, "Of these Venerables, few are fuel-efficient lamps."

"However, I also helped him a little, which can be regarded as repaying some favors." Wang Yi said softly.

Venerable Dry Witch originally fell on Primordial Star three times because of greed for a while, owing a large amount of debts to the group and other friends. The cost of the three resurrection is very high,

plus the lost treasures, Venerable Dry Witch is heavily in debt! I don't know which epoch will be able to return it all.

Wang Yi looked at his past affection and the help of the Universe Kingdom of Qianwu to the earth, and used the most precious points to help the Lord of the Kingdom of Qianwu repay the debts owed to his friends.

As for those who owe to the insult to the ethnic group, let Venerable Dry Witch pay back slowly.

In this way, the Lord of Dry Witch has been grateful.

"Venerable Dry Witch was greedy and blind and finally fell to the end where he could barely turn over. I can't learn from him. I have to be cautious and careful every step of the way." Wang Yi said softly.

Even if you venture into the universe, you have to be sure and be careful.

"Tongtian Tower, I can only be driven by the Lord of the Universe. The colorful Aurora Lake cannot be used."

"The ones I really use now are three peak treasures, the robbery armor, the original soul, and the \*\*\*\* knife. There are also other treasures such as the Chaos Wings and the Fire Conch Palace."

Wang Yi nodded, "Supplying one clone as the strongest main combat power should be enough. Other clones are matched with some treasures ~ [www.mtlnovel.com](http://www.mtlnovel.com)~ and there are even the top hegemony of the universe even comparable to the power of the universe lord."

"Now, it's time to take the next step and set off to find the Blood Cloud Palace." There was a light in Wang Yi's eyes.

"This is my first step out of the universe."

Like before, going to the outer battlefield is just a stage of the master's tempering.

Only when you become a venerable can you have the capital to cross the universe!

The earth, the solar system, the majestic and red unique palace suddenly shrank and replaced it with another palace.

"The Huosuo Palace is still useful. I will take it away this time." Wang Yi's human deity stood in the void, smiling at the Huoshao Palace that had shrunk to the extreme.

"This time, the avatar of the Void Zerg race will act together with the earthly deity."

"Youhai clone sits on the earth, Yanxing Giant Beast clones in Tongtian Tower, and another incarnation is left in the Ancestral God Sect to accept the inheritance."

"Hope, this time it can be as I wish."

#### [Chapter 430: Ancient Chin Secret Realm](#)

"Om..." Somewhere far away from human territory, on a desolate planet, golden light is permeated, and the law of immortality is powerful.

After the divine kingdom teleported the light dissipated.

An immortal alien with a weird appearance and a black-haired boy in a battle armor suddenly appeared on this desolate and remote planet.

"That's it. The transfer coordinates of the Kingdom of God controlled by my immortal servants are closest to the secret realm of the ancient chin. Next, I will have to fly in the dark universe." Wang Yi glanced around. "From here, it will take a while to get to the ancient chin secret realm. It should be faster to use the Huosuo Palace to drive."

When Wang Yi flipped his hand, a delicate and small conch that looked like a fiery red emerald appeared in his palm.

"go!"

With a wave of his hand, the palace immediately pierced the air and flew away. At the same time, Wang Yi's divine power poured into it like a wave. Under the impetus of the vast divine power, the fire snail grew rapidly in the starry sky, and soon became bigger than Wang Yi's. This planet is even huge, like a fiery red star floating, and there are traces of light flowing on the surface of the palace, which is so beautiful.

"It's the first time to use this Huosuo Palace to drive on the road in such a long time." Wang Yi exclaimed, a teleportation had appeared at the gate of the palace and was absorbed in.

Soon, Wang Yi sat on the throne of the towering palace, looking at the starry sky outside, feeling like everything is under control of the vastness of the world.

Wang Yi gently stroked the handle.

"This flying palace-like treasure is much stronger than a spaceship."

"It's a bit bigger, but smaller." With a thought to Wang Yi, he manipulated his divine power, causing the palace to shrink quickly, and soon it turned into a palace about a kilometer high. After all, the palace remains super-large, which consumes a lot of divine power.

"Go! Get on the road!"

Under the impetus of Wang Yi's divine power and the control of his mind, the palace instantly turned into a fiery red streamer, breaking through the space, and instantly reached the limit threshold of the speed of light, and then disappeared out of thin air and entered the dark universe.

In the dark universe, the speed of the palace's flight is still soaring.

100 times the speed of light, 200 times the speed of light, 300 times the speed of light.....

800 times the speed of light, 900 times the speed of light, 1000 times the speed of light.....

It didn't stop until 1380 times the speed of light.

This is not the limit of Fire Conch Palace, but if you continue to increase the speed, it will increase the consumption of divine power.

If the divine power is burned, the palace's flying speed will be even faster.

"boom....."

In the dark universe, a fiery red streamer moved crazily at an astonishing speed and aura, and a cone-shaped protective film was naturally formed on the front surface to protect the entire palace.

If an ordinary F-class spacecraft is hit by this palace, it will be destroyed and killed instantly.

Wang Yi stayed in the palace comfortably, waiting for the moment he arrived in the secret realm of the ancient chin.

"At this rate, it will take about a month to reach the destination."

Wang Yi closed his eyes.

...

The ancient chin secret realm is a very ancient universe with a maximum diameter of nearly 1.2 million light years. Although much smaller than the ancestral secret realm, it is very dangerous.

An almost deserted cosmic secret realm, extremely dangerous, with very few treasures, and very few foreign races wandering into the ancient mysterious realm, it has become a little desolate.

No one knows that this is the lair of the Hallmaster of Blood Cloud, who is notoriously screamed and beaten by everyone in the universe.

A month later, a fiery red palace appeared here.

"arrive."

The palace disappeared, and a black-haired boy in battle armor appeared here.

"Let's let the Void Zerg clone come out first." Wang Yi looked at the starry sky. His figure was a flower. A tall silver-white figure appeared on the spot. He was wearing a quaint battle armor with a blood-colored war knife on his back and a pair of grays. Meng Yu's wings opened and stood in the void, revealing only a pair of silver-white icy pupils.

This is a Void Zerg clone with a changing body shape. After all, in a normal body shape, the Void Zerg clone has a \*\*\*\* body nearly 100,000 kilometers high.

In addition to possessing the Peak Arcana War Knife as a weapon, as well as many Arcane Armaments such as Jiejia, Original Soul, and Chaos Wings, the strength is far above the Yanxing Giant Beast clone!

"This sense of summoning!" The Void Zerg is a flesh and blood life, and also cultivates the Nine Tribulations, sensing the metal fragments of the Nine Tribulations Secret Code.

At this moment, every cell of the divine body seemed to boil and tremble, and a strong call was transmitted.

"The fifth black metal plate is hidden here." Wang Yi squinted.

He didn't know the exact location of the Blood Cloud Palace, but based on the sense of calling of the metal plate, he could find it.

"The one I worry about most is Zuoshanke... But Luo Feng hasn't finished accepting the inheritance, the Zuoshanke body shouldn't be here. As for the incarnation staying here? Even if the incarnation of the strongest in the universe, the most powerful is the Immortal Venerable, It's not a big deal to me." Wang Yi secretly said in his heart, "I'll be more careful. I will leave as long as the sign-in is successful. It shouldn't attract the attention of the visitors."

The strongest person in the universe will return to the origin and become a flesh and blood body, and the clones will all merge into one body. Therefore, even the strongest person in the universe will at most split a consciousness into energy to form an incarnation, and there is no clone at all!

In addition, Wang Yi guessed that the mountain guest is now paying attention to Luo Feng's acceptance of inheritance from the Star Tower, and the probability of being in the Blood Cloud Palace is very low.

"The ancient chin secret realm is at most the special beings with the strength of the two top universe hegemony left by the mountain guest. Even if they are discovered, I am not afraid at all." Wang Yi's eyes were deep.

The absence of Zuo Shan Ke is his greatest confidence.

Otherwise, even if Wang Yi is confident, he will not choose to break into the ancient chin secret realm to find the Blood Cloud Palace at this time. Even if he has the main power of the universe, he also has a treasure, but Zuoshanke is known as the universe with the most difficult and most difficult methods in the primitive universe. How can it be easy to mess with the strongest?

"Try not to attract the attention of the mountain visitors, so I have to pretend first."

When Wang Yi's thoughts turned, his body immediately changed, dense and complex golden scales emerged quickly, and his body swelled and became nearly 100 meters tall. There were also a pair of golden wings behind him, and two tails extended from below. Coming out, shaking in the void, the battle armor also turned into an unfamiliar appearance, and the whole body had undergone earth-shaking changes, even the aura was suddenly different from before.

Wang Yi smiled slightly, "I've never wandered through the universe. Those super beings don't recognize me at all. A little disguise makes it hard for them to guess who I am."

The Void Zerg clone has the talent to disguise ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ but Wang Yi is not sure of how useful the Lord of the Universe is, but it should be no problem to hide the special life from the ancient chin secret realm that is not even the Lord of the Universe.

Wang Yi looked in one direction. "The sense of summoning came from over there." Wang Yi retracted the palace, displayed teleport, and quickly teleported towards the sensing position.

"brush!"

The cosmic secret realm is extremely weird and dangerous, but it can easily pass through the "Void Zerg clone" that is far more terrifying than the top cosmic overlord.

"Just ahead." The avatar of the Void Zerg clan looked up, where the endless black air current filled the void, and it was impossible to see what was in the depths of the darkness, but the strong call made Wang Yi affirm the last piece of "The Secret of Nine Tribulations" The black metal plate is there!

In the Secret Code of Nine Tribulations, although other clones are no longer needed, the earthling deity needs it very much.

Because once it reaches the perfect genetic level, the earthly deity can also reach the height of more than 90,000 kilometers of the divine body, with a much larger divine power reserve, and can also use the strongest talent secret method, even the combat power will be greatly improved!
