

## A God 441

### [Chapter 441: Death of Palace Lord Nida](#)

"How is it possible, one sword at a time?" Venerable "Magic Clothes" and others who were watching were horrified, and their souls trembled.

This suddenly appeared in front of me and I didn't know which side's super existence was strong and terrifying. Three times, five and two were hacked to death from the five alien venerables of the Northern Frontier Alliance who had pressed them before.

"Where did the overlord of the universe come from?" The three Hongmeng Venerables were all worried. If the monster that suddenly appeared to slaughter the Northern Xinjiang Alliance could catch up with them, they would definitely not be able to resist it.

The aftermath of the battle is still reverberating above the canyon, and the space blockade has not been lifted. The three cosmic venerables on the Hongmeng side all raised their hearts, worrying that this existence comparable to the strength of the cosmic hegemon suddenly turned his head to deal with them.

Although they had already flown away from this area quickly, they were still very close to the battlefield because of the space blockade, and even Wang Yi would have a chance to catch up as long as he chased them.

"call!"

At this moment, a towering figure suddenly appeared on the edge of the space blockade, attracting everyone's attention.

"That's... Palace Master Ni Tuo!" The three Universe Venerables of Hongmeng showed shock at the same time.

Palace Master Ni Tuo, he, a towering body that is hundreds of kilometers high, is like a huge black rock carved out of it, with a head like a beast, four thick arms covered with magic patterns, and the armor on the divine body is looming, he, It is the super power of the rock-type life "Nituo Clan", and at the same time a powerful existence of the cosmic hegemony level!

There are many cosmic overlords in the universe.

Like the human race, the one who belongs to the normal cosmic hegemony level, but his treasure is better, and he is good at illusion and close combat.

Venerable Immortal has a great reputation, and his true combat effectiveness is at the level of the overlord of the universe, but his survivability is so strange that no one has been able to kill him so far. Was given the recognized title of "immortality".

The only three top overlords of the universe, such as the Palace Lord of the Eclipse, the Lord of the Ancestor Tree, and the Demon Lord of the Star Hell, are comparable to the Lord of the universe.

Palace Lord Ni Tuo possesses the strength of the universe hegemon, and his divine body is huge. He possesses a high-level armor that can weaken attacks and defensively. Therefore, it is difficult for the Lord of the universe to kill him.

Palace Master Ni Tuo glanced at the battlefield, his gaze swept across the three Venerable Hongmeng who were constantly moving away in the distance, and finally stayed on the one-hundred-meter-high black figure, and said solemnly, "It seems that I am late. The five Venerables of our Northern Xinjiang Alliance have been killed by you."

The situation at the scene was clear at a glance, and Palace Master Ni Tuo knew it at a glance.

"You look very strange, but you can easily kill many venerables and you should also have the strength of the cosmic hegemon. If you can cultivate to this point, you can't be an unnamed person in the universe. Who are you?" Palace Master Ni Tuo asked .

The tall scaly black shadow looked at him, raised his sword and pointed it towards him, "Want to know? Use your life in exchange."

Palace Master Ni Tuo smiled angrily.

"Well, well, it seems that you really intend to have trouble with our Northern Xinjiang Alliance."

Palace Master Ni Tuo sternly said: "I don't care who you are. Since you killed our Northern Xinjiang Alliance people today, don't think about getting out easily."

Even if he knew that the alien race in front of him was the overlord of the universe, Palace Lord Ni Tuo was still not afraid.

For a long time, he has often fought against other universe overlords, but few of those universe overlords can hurt him, let alone make him fall.

And more importantly, the fallen Venerables have something to do with him. With the temperament of Palace Master Ni Tuo, it is impossible to sit back and watch the opponent kill and leave in front of him, while sitting and watching.

The two sides stopped talking, and the two powerful auras collided in the void.

"boom!"

Palace Master Ni Tuo broke out in an instant, and his huge body turned into a dark streamer, flying towards Wang Yi.

The six eyes of the lion-like ferocious beast flashed with cold light on its head, and four bronze battle axes were held on its four arms at the same time. The distance between the two quickly approached... Boom... the surrounding suddenly plunged into the realm of the law of space, and fell into it. Wang Yi in the field of Space Law was also slightly affected. Palace Master Ni Tuo took advantage of this opportunity to roar, and instantly burned his divine power to perform a killer move.

"Empty Axe!"

"boom!!!"

Wang Yi felt that the entire space in front of him was condensed into an extremely solid giant axe, and the sharp axe was facing him. As the waves hit, they began to fall apart.

Wang Yi, who had already burned his divine power to maintain his peak state, finally moved the \*\*\*\* knife in his hand.

In an instant, the blood-colored quaint blade of the \*\*\*\* knife appeared densely with secret patterns of laws. The patterns were complex, mysterious and unpredictable, with indescribable beauty, and the moment when the sword was swung, the law of fusion of fire and air in the universe was even more aroused... ..

"Blood and fire start a prairie fire!"

Wang Yi's wings vibrated, and his figure burst out instantly, passing through the shackles of Palace Master Ni Tuo and rushing up.

The field of space law has no influence on him at all.

"You can't hurt me!" Palace Master Ni Tuo roared.

His divine body is huge, the burning of divine power can urge the ultimate in the third form of the high-class treasure armor, as well as the racial talent...This makes him confident even when facing some top cosmic overlords.

But then his face changed.

An extremely bright, dazzling beautiful knife light lit up.

It seems to be filled with the infinite mystery of the universe, yet beautiful to the extreme.

At the same time, a powerful and unparalleled impact of will appeared on the consciousness of Palace Master Ni Tuo.

He was sluggish for an insignificant moment.

In the next moment, the battle knife split the four bronze battle axes instantly, and Palace Master Ni Tuo's trick was directly defeated like a joke in front of this move.

The blood-colored blade light directly slashed on the \*\*\*\* body armor of Palace Lord Ni Tuo. The power has exceeded the limit value of this high-level treasure armor, so that this high-level treasure armor can weaken one thousandth of the attack under normal circumstances. , But now it can only weaken one-tenth of the attack, and the remaining impact is completely applied to Palace Master Ni Tuo's divine body.

"Bang!" The huge divine body of Palace Master Ni Tuo was knocked out in the next moment, flying out like a meteor like a meteor, still a little confused in his huge eyes.

"What's the matter, I..."

"brush!"

At this time, a figure appeared by his side like a tarsal maggot.

The sharp knife light cut down again.

Palace Master Ni Tuo tried his best to resist, but the opponent's sword technique was too terrifying, and the speed was incredible, and the magical impact of will caused the will and consciousness of his universe overlord to be disturbed.

"Peng!"

Palace Master Ni Tuo took a knife again.

"Boom!"

Two dollars!

"boom!"

Three knives!

The light of the sword fell like a wave, and it fell crazily, and the palace lord Ni Tuo was left to be ravaged.

The Venerable Hongmeng who watched the battle in the distance were all shocked by this scene.

What is even more shocking is that the aura of Palace Lord Ni Tuo's divine body dropped rapidly.

"Palace Master Ni Tuo's divine body is rapidly weakening!" Venerable Moyi was incredulous.

How terrible is it to attack ~www.mtlnovel.com~ to easily hurt Palace Lord Ni Tuo, a well-known defensive overlord of the universe?

That's a \*\*\*\* body for hundreds of kilometers!

They shuddered as they watched the tiny black shadow pressing down on the master of the palace of Ni Tuo, who was as large as the mountain range.

Where on earth is the strong man able to ravage Palace Lord Ni Tuo?

The body style and speed are not the strong points of Palace Master Ni Tuo, although he also has some tricks, they are easily cracked by Wang Yi.

"what!!!"

With a roar of grief and helplessness, Palace Master Ni Tuo, who was seriously damaged, blew himself up.

"Boom..."

With a earth-shattering explosion, hundreds of millions of kilometers in a radius were shrouded by vast divine power fluctuations.

A cosmic overlord who has traversed the universe for countless years fell.

[Chapter 442: Waves](#)

"Killing the Palace Master Ni Tuo, let me get a high-level Arcane armor and four ordinary Arcane weapons."

Above the canyon, a tall black scaly life spread out its gray wings and flew quickly.

"Although Palace Lord Ni Tuo is the overlord of the universe, he is not rich, and a bit poor compared to the overlord of the universe of the human race."

Wang Yi said inwardly.

But this is also normal, and there are only two or three treasures for ordinary cosmic hegemons.

"The five venerable foreign races killed didn't even have a single treasure, but the total treasures on their bodies barely made up one treasure point."

"The most important thing is to kill them." Wang Yi looked at the information on the panel.

This time killing three medium cosmic masters will get 60 kills, two high cosmic masters 200 kills, and one cosmic overlord 500 kills, which adds up to 760 kills.

Adding the previous 43 kill value, the kill value is 803.

That is 80 treasure points.

"Enough to exchange for a common domain treasure in the human race treasury, and it's still the best of the common domain treasure." Wang Yi secretly praised.

In addition, Palace Master Ni Tuo's treasures also have more than ten treasures.

"Sure enough, in this universe, if you want to get rich, killing and plundering are the kingly ways."

Within a month of coming to this Brahma Breath Secret Realm, he earned nearly 100 treasure points, which is more than other universe hegemons, and even the universe lord has accumulated over a long period of time.

"The last time I made a breakthrough, Chaos City Lord gave me 100 treasure points. I used them to exchange for ethnic treasures, and then exchanged them with the sign-in panel, but exchanged them to 112 treasure points." Wang Yi thought. "It can be seen that although the appraisal value of the sign-in panel is roughly the same as that of the human race, there are still differences in the specific value analysis of some treasures, and the panel should be more reasonable."

Of course, Wang Yi believes more in the sign-in panel.

After all, this is something that even Xeon Zhibao can redeem, and the reliability of identification is of course more reliable than that of the virtual system of the human race.

The low value of the human race may be because they did not realize the potential of some treasures.

However, Wang Yi did not intend to buy and sell, because he could not explain to the human race where he had so many treasures.

As for the exchange of Xeon Zhibao, the panel will only open this function after Wang Yi breaks through to the Lord of the Universe.

Moreover, Wang Yi has a hunch that there will be many surprising functions.

"The 112 treasure points were exchanged by me from the panel for a realm-class treasure-Baimang domain."

The domain category treasures are very rare and expensive, and even many top universe overlords may not have one.

"I can't use the colorful Aurora Lake for the time being. This 'Hundred Mang Domain' can be used to increase my strength first." Wang Yi's wings flicked, and he directly slammed into a stretch across the void that was hundreds of thousands of kilometers thick and stretched for hundreds of millions of kilometers. On the gray wind snake, with the terrible erosion force that made the venerable look discolored, he rushed past it, and flew out from the other end.

He is now a treasure, and he doesn't take this sorrow into his eyes at all.

And the Panfeng in the Brahma Breath Secret Realm is only a moderately dangerous level, and cosmic overlords like Palace Lord Ni Tuo can ignore it.

"Well, Palace Lord Ni Tuo is dead. He is the overlord of the universe. It is estimated that the strongest in the universe can resurrect him." Wang Yi chuckled slightly after thinking of something.

The Lord of the universe can be injured by resurrecting the higher cosmic sages.

The resurrection of the overlord of the universe is enough to make the lord of the universe fall.

Therefore, to resurrect the overlord of the universe, the strongest in the universe will take action.

"I remember that the leader of the Northern Xinjiang Alliance is the island owner of Shihua."

"However, the island owner generally doesn't bother to take care of things. Palace Master Ni Tuo wants to be resurrected. I'm afraid he will have to wait a long time."

In fact, the "Leader of the Northern Xinjiang Alliance" was originally the strongest alone, and was eventually drawn over, but even so, he just put a name on it, and then reached out to help. But the Northern Frontier leader himself possesses the Xeon Treasure, but he will not contribute to the Northern Frontier Alliance at all. Even if the Northern Xinjiang Alliance is finished, the leader will not feel distressed.

"Go on, kill..." Wang Yi stopped thinking about it, his wings flickered behind him, and he flew towards the distance, where he felt waves coming from there again.

...

The fall of the five venerables of the Nine Regions Alliance did not cause much disturbance, but the fall of the five veterans of the Northern Frontier Alliance...including the fall of a cosmic overlord caused a small disturbance.

Although the Northern Xinjiang Alliance is very large and its ethnic groups are super large, there are still relatively few cosmic overlords in comparison... the sudden fall of a cosmic overlord is enough to attract high-level attention.

The tribe where Palace Master Ni Tuo belongs is only a middle tribe, but it is attached to a powerful tribe. That tribe has two universe masters and is relatively strong in the alliance.

Palace Lord Ni Tuo was under the command of one of the Lords of the Universe, and his fall immediately attracted that person's attention.

In a magnificent palace.

"Niduo actually fell?" The great being sat on the throne, frowning. "That's troublesome, I can't resurrect him, I have to ask the island owner to take action."

"Furthermore, Ni Tuo also has the strength of a universe hegemon, coupled with a huge divine body, strong defense, and a high-level armored body, even if I want to kill him, it is somewhat difficult...Who did it? Could it be other universes? Lord?"

...

The virtual universe, Hongmeng City in the starry sky, the open-air bar in the inner city for the Venerable Hongmeng Universe to exchange information.

Thousands of Cosmos Venerables from Hongmeng gathered in this open-air bar, divided into circles, chatting.

In one of the corners, several Cosmos Venerables were talking.

"...I didn't lie to you. The alien powerhouse suddenly appeared, and he attacked the guys from the Northern Xinjiang Alliance with a single blow. The five venerables of the Northern Xinjiang Alliance couldn't even resist self-detonation, and they all fell." The ten-meter-high Venerable in the black robe said with emotion.

"Later, Palace Master Ni Tuo appeared, and both parties did it. What was the result? Palace Master Ni Tuo Tangtang is not an opponent at all in front of the other party. The crushed one... Finally had to explode, but that alien powerhouse company No root hair hurt."

The surrounding Venerable Universe looked at each other.

"Moyi are you telling the truth?"

"Being able to kill Palace Lord Ni Tuo, at least it will have the power of the top universe hegemon~[www.mtlnovel.com](http://www.mtlnovel.com)~ can even be comparable to the Lord of the universe, right?"

"The Primitive Universe, where did such a perverted guy pop up?"

"When you meet such a strong man, can you actually survive?"

Seeing the suspicious expressions of his friends around him, Venerable Moyi said angrily: "Who is in my magic clothes, do you not know? How could I lie... and two of the Jamona tribe were also there at the time, you don't believe it. You can ask them!"

Venerable Zhenyan was also among them and touched his golden beard soaked in wine. After breaking through the Venerable, he was more leisurely and made many friends of the Venerable.

"Dare to attack the Northern Xinjiang Alliance, I don't know which super existence this is."

"Anyway, it's better not to let us meet. It's too cruel. Palace Lord Nituo is also the overlord of the universe for many years. If the other party wants to kill, we will kill it. It is a matter of one sword for us to change the universe."

Awe and yearning appeared on the faces of some venerables.

#### [Chapter 443: Notorious](#)

Tongtian Tower, the sea of laws.

Time faintly twisted on an island.

In the middle of the sky, I saw countless divine powers, and the complex secret patterns naturally appeared continuously, forming a huge secret pattern full of endless mysteries.

"I have mastered this secret pattern flow." Wang Yi's incarnation said with emotion.

He mastered the flow of secret patterns much faster than Luo Feng had before.

Because his accumulation is much deeper than that of Luo Feng, the perfect secret pattern of the most talented secret technique plus the carved secret pattern of 64 beast gods, plus the secret pattern of the Tongtian Tower...make Wang Yi's progress faster than usual.

Mastering the mystery of the secret pattern flow has also allowed Wang Yi to understand the efficiency of the secret pattern of the Tongtian Pagoda law.

According to the flow of secret patterns, Wang Yi can also create stronger jerkiness.

"But the ultimate \*\*\*\* is not easy to create, and many masters of the universe have only one or two sets of utter jerk." Wang Yi shook his head.

He created the ultimate master of the universe in a different way before, and now he can rely on the mystery pattern flow and a solid foundation to create the fusion rule system of the universe hegemony secret method! But if you want to create the master secret method of the universe...you must research, inspiration, and feeling.

"And I want to create the ultimate ingenuity in time or space alone, I can't do it now."

"If you want to be the Lord of the Universe, you can either thoroughly master the original laws of time, and at the same time master time and space, and you will naturally become the Lord of the Universe... This may be faster than I can comprehend the way of the beast gods." Wang Yi secretly said.

He is now the fifth way of the beast \*\*\*\* at best.

But it is not so easy to integrate the three profound mysteries of the law of time.

"Look at the chance."

...

Virtual universe, Thunder Island.

"Wang Yi went out and wandered, choosing the Brahma Breath Secret Realm. As soon as he arrived in the Brahma Breath Secret Realm, news came that Palace Master Ni Tuo had been killed." A light flashed in the eyes of the Chaos City Master.

"Palace Master Ni Tuo should have been killed by Wang Yi... It seems that Wang Yi really has the power of a top cosmic hegemon."

Chaos City Lord was very happy. With Wang Yi, the human race now has four top cosmic hegemons. Although he still doesn't know the clones of Wang Yi, he knows that each clone cannot be weak.

The top universe overlord with a clone has a very low probability of falling.

"I just don't know when Wang Yi can break through to the Lord of the Universe." City Lord Chaos looked forward to it.

...

The Brahma Breath Secret Realm, the Valley of the Wind, which is a hundred meters high, is covered with ferocious black scales and only reveals a pair of \*\*\*\* eyes.

"The two Universe Venerables who have just been killed should still belong to the Northern Xinjiang Alliance."

There are many famous people in the Northern Xinjiang Alliance.

Wang Yi has been in the Brahma Breath Secret Realm for almost a hundred years, and has encountered more than 30 Cosmos Venerable teams, and one-third of them belonged to the Northern Frontier Alliance.

Others include the Star Behemoth Alliance, the Nine Regions Alliance, the Fengfeng Alliance, the Six Pinnacle Race Alliance, etc...

Except for the pretense of the human race to chase and kill them for a while and let them "lucky" escape or pretend to be blind, everything else they saw was killed by Wang Yi!

Now, the Secret Realm of Brahma Breath has begun to spread Wang Yi's wicked name!

Many venerable aliens in the universe know that a super strong man with mysterious origins has come to the Valley of the Wind. He is indifferent and withdrawn. He does not like to communicate. He kills without saying a word. He is a lunatic who likes to kill. Basically, he kills when he sees people. What kind of ethnic group, what kind of force, it is unscrupulous! The background of the major forces of all parties is not taken into consideration.

There are not one hundred or eighty Cosmos Venerables who have fallen into his hands over the years!

According to rumors, he is extremely powerful, comparable to the top cosmic hegemon!

There are still many powerful treasures on him, even if the universe overlord meets, they are not opponents at all, there are already three universe overlords killed!

It can be said to be so fierce!

Because he claimed to be using the "Hell Knife" with the most precious weapon...So now others call him "Hell Lord" or "Hell Lord"!

Many people respect him, and many people hate him!

The parties who killed the members are also tracking down his news and exploring the secrets of his identity.

It is impossible for a top universe hegemon to emerge for no reason. Many people have guessed that this is a super existence, or even disguised by the Lord of the universe.

Even though the Hongmeng of the human race was also investigating, the Chaos City Lord did not reveal Wang Yi's identity.

Only the real high-ranking members of the human race can know Wang Yi's identity, and there are less than twenty in total!

Sitting on the mountain peak in the cold wind, Wang Yi looked at the sky and drank freely.

"Their guess... is right, but also wrong."

"I do have the master of the universe, even if I face some masters of the universe, I can defeat them."

"But what they don't know is that I am not the real master of the universe."

"The City Lord of Chaos concealed my identity, and in order to cover my identity over the years, I also killed a Venerable Hongmeng!" Wang Yi secretly said.

Cover your eyes and ears!

Wang Yi didn't think there was anything at the expense of a Venerable Hongmeng alien race. He had asked Chaos City Lord to resurrect, and it would be enough to make a little more compensation.

Not only did the Venerable not lose, he made a profit instead.

However, this is enough to dispel outsiders' suspicion of Wang Yi's human ethnic identity.

If you don't kill Hongmeng's people like the Hallmaster of Blood Cloud, Hongmeng's suspicion will be great.

"However, these venerables are easy to kill, and it is a bit troublesome to find them. Especially recently, with my killing, the personnel of all parties in the Valley of the Wind have been reduced a lot." Wang Yi took another sip of wine.

With the power of one person alone, the venerables of all parties were uneasy, frightened, and even retreated, and made a great reputation in the universe.

Now all the forces in the universe, who doesn't know the name of the "Hell Lord", who doesn't know that this is a terrifying strong man who can easily kill even the overlord of the universe?

"In the past hundred years, I have killed 92 strong men, including 3 universe overlords, 19 advanced universe venerables, 33 medium cosmic venerables, and ordinary cosmic venerable 38...Together, the killing value is also faster than 4100. "Wang Yi thought. "That is the 410 treasure point."

"In addition to the trophies and treasures harvested, they can be exchanged for treasures. also has more than 80..."

"Approximately touch is 490 treasure points." Wang Yi is fairly satisfied with this number.

The common field category treasures range from 16-80 treasure points.

And his harvest over the years is enough to exchange dozens of common field treasures.

Even if Luo Feng exchanged the "Jiuqihe" that helped him to show his power in the original star, it would be the lowest 16 treasures.

However, just like Palace Master Ni Tuo, these universe overlords had only a few dozen treasure points in total. One can imagine how wealthy Wang Yi is now.

Only as Wang Yi continued to kill, the number of aliens who were still active in the valley began to decrease. His sweeping in the valley over the years made many aliens realize the danger and left the valley one after another, which also made his achievements. One year is worse than one year.

"It's time to leave Yanfeng Canyon and go to other places to sweep."

Wang Yi wiped the corners of his mouth, put away the bottle, and stood up.

#### [Chapter 444: "The Lord of Hell"](#)

The Brahma Breath Secret Realm, above the originally peaceful endless purple lake "Phantom Lake".

"Om..."

The endless red fog is permeated, and there are a hundred pythons swimming in the sea of fog.

"Run!"

"It's a real treasure!"

"Damn it! It's the Lord of Hell!"

A group of alien venerables looked terrified, and fled around like mourning dogs.

And a tall and towering black shadow appeared accompanied by a powerful and mighty coercion.

Divine power burning!

"boom!"

The burning of divine power, coupled with the integration of the space law domain into the realm of the treasure, makes the power of the realm of the real treasure rise to a level in an instant.

The 80 million kilometers in the area is controlled by the domain, and the Venerables who are trapped in the domain are as if they are sinking into a mud puddle, and the speed drops drastically.

"These venerables are clever, and all of them have learned well." Wang Yi glanced at him, and when his figure moved, he rushed straight to the cosmic venerable who was the fastest to escape.

With the fierce reputation of the \*\*\*\* monarch, the strength of the top universe hegemon is known to the powerful in all aspects of the universe, and the foreign powers who encounter him have responded in succession.

It's a strategy to disperse and flee in all directions like these aliens who form a team.

In any case, the lord of \*\*\*\* is only one person, no matter how he chases, he can only chase one at the same time, and the others have a chance to escape.

The Venerable had some life-saving methods, and under various methods, there were indeed some Universe Venerables who escaped from Wang Yi's hands.

"The lord of \*\*\*\* is coming towards me."

The Alien Venerable who was flying desperately with the burning \*\*\*\* body was startled and saw a black streamer with a black spot faintly approaching quickly. He knew that if he was overtaken by the lord of hell, he would probably not be able to escape and fall.

"Damn it, this \*\*\*\* domain treasure makes me too slow."

The Venerable Alien hated in his heart.

But the alien venerable who was scattered and fleeing in other directions felt relieved.

"The lord of \*\*\*\* passed towards Venerable Quinton."

"Poor Quinton."

"Unlucky guy, he's probably going to die."

"Let's run, too, the lord of \*\*\*\* killed Quinton, it's our turn."

A scene appeared right now, I saw the vast starry sky, the mighty red mist filled all directions, and there was a stream of red air rushing like a river, and in the red river there were a hundred heads with strange bodies and tails full of scales. The beast was playing and swimming, and there was a long groan faintly.

Hundred Mang Domain is the treasure of the pure domain class, possessing extremely strong oppressive and restraining abilities. If the enemy's strength is weak, he can even directly annihilate the opponent with the power of Baimangyu. The law of space domain can also overlap with this treasure domain, increasing its power.

Hundreds of valuable points! It is the best in the common field category!

Possessing this category of treasures can completely restrict the movement of the cosmic venerables, and the cosmic overlords can also be subject to minor restrictions, making Wang Yi easy to hunt down and kill them.

When you meet the stronger, you also have the opportunity to escape the hunt!

Of course, in the Brahma Breath Secret Realm, Wang Yi has not yet encountered anyone better than himself.

The red mist was pervasive, and there was a stream of air surging like a river, wandering in the starry sky, making many alien venerables seem to be trapped in a mire, and the speed of their flight dropped sharply.

On the contrary, Wang Yi's speed skyrocketed with the field bonus.

One increase and one decrease, Wang Yi's figure keeps approaching.

"Wow..."

One of the venerable alien races was even surrounded by alien beasts. The red python alien beast, driven by Wang Yi's level of divine power and the amplitude of the divine body, was enough to seriously injure the middle-class venerable in the universe, and even if it could not hurt the universe overlord... But can completely suppress speed. For example, the Venerable Alien is only the High Venerable in the universe, and he couldn't move an inch in an instant. At this moment when he was extremely anxious, a black lightning flashed out suddenly like a \*\*\*\* of death.

"Lord of Hell!" His face changed horribly, and he let out a shrill cry.

A ray of blood-colored knife light swayed suddenly and directly merged into the endless sea of red fog, smashing the alien venerable body.

A terrifying impact of will is coming!

The Venerable Alien burned the divine body, and the top heavy treasure armor that was sent to the extreme was destroyed in an instant, and the divine body was also annihilated directly. Only the weapons and the world ring were left. Chase the past.

...

"Four venerable aliens, one escaped in the end."

After a brief chase, Wang Yi stood alone on the purple star lake.

"It's really not easy to kill the venerable. They have survived endless years, each has the means to save their lives, and they are extremely cunning." Wang Yi said with emotion, "If I don't have the domain treasure to restrict their actions, I can't chase them, I'm afraid they will be chased. Kill one, and the others will have a chance to escape."

The venerable aliens ran away separately, even if Wang Yi urged the domain power of Hundred Mang Territory, coupled with the Chaos Divine Wing to increase the speed, and tried his best to hunt down, finally let one of them escape.

When Wang Yi chases and kills one of them, the others will naturally run in the opposite direction. The faster Wang Yi chases, the further away from the others.

After leaving the shackles of the Hundred Mang Domain, the space is sealed off, and Wang Yi teleported directly, it would be difficult for Wang Yi to chase him down.

Uninterrupted teleportation, thousands of light-years at a time, I am afraid that only the Lord of the universe can easily chase him down. Now Wang Yi has no good way unless he uses the "Mastering Time and Space" talent secret method.

But "mastering time and space" as a secret method is not used in such a place.

As long as the Lord is resurrected, the secret does not exist.

He would be suspected and judged to be the "Master of the Universe"... A powerful master of the universe with an unknown identity actually slaughtered everywhere in the Brahma Breath Secret Realm, slaughtering the weak and weak... I am afraid that no power can tolerate it.

Wang Yi's hunting operations will also be affected.

Maintaining the strength of the top cosmic hegemon like this, although the hunting efficiency is lower, it will not attract the jealousy of all parties, although with Wang Yi's continuous hunting, this may not last long.

All parties can tolerate the death of some venerables, but no one can continue to tolerate the death of hundreds of thousands.

At that time, Wang Yi will have to face the chase and siege of these forces~www.mtlnovel.com~ It doesn't matter, come on! "

Wang Yi looked at the quiet purple star lake. On this vast phantom lake, there were islands dotted with islands. Even if the venerables destroyed them in battle, they would condense again from under the water soon.

"I don't know what's at the bottom of Phantom Lake." Wang Yi secretly said.

However, he has no interest in exploring the secrets of Mirage Lake. It has been searched by the masters of the universe for hundreds of millions of years. There is really no good in it, and it will not be left to him.

Moreover, a medium-dangerous area like Phantom Lake is generally not dangerous to the overlord of the universe. The treasures that appear are at most the ordinary supreme treasure level, and the Lord of the universe does not look down on an ordinary supreme treasure, so the venerables are crazy. , Has been searching here tirelessly for countless years.

"It's almost a hundred years, and after a while, there are fewer prey, and I should change my territory again."

Wang Yi turned around, turned into a streamer, and disappeared.

#### [Chapter 445: Luo Feng wakes up](#)

The cosmic mystery is vast and endless. The years of Wang Yi fighting and fighting in the cosmic mystery have sometimes made Wang Yi feel, and occasionally a little bit of inspiration will be touched, and he has progressed much faster than before.

One thousand years, two thousand years, three thousand years...

Yanfeng Canyon, Mirage Lake, Silent Island, Hell Valley... all these places left Wang Yi's footprints.

One year outside the outside world, the Kingdom of God and Tongtian Tower are ten thousand years. Wang Yi's understanding of the law has continued to deepen, but he still has not created the second type of ultimate fascination, nor has he thoroughly understood the law of the origin of time, and stepped into the realm of the master of the universe.

Wherever he went, there was a \*\*\*\* storm, and a foreign veteran fell on his hands, acting evil and brutal, and the reputation of the arrogant \*\*\*\* monarch continued to spread in the universe, and was known by hundreds of millions of ethnic powerhouses.

Some powerhouses of various races with relatives and friends who died in his hands wanted to unite to find the trouble of the \*\*\*\* lord, but each time they were easily resolved by the \*\*\*\* lord. The domain type treasures plus wings make the \*\*\*\* lord want to fight and go. Just leave, it makes people helpless.

Over time, all parties realized that unless several masters of the universe were dispatched to besieged and hunted down at a time, there would be no way to take the lord of hell.

Therefore, although some of the strong from all sides hated the \*\*\*\* lord, they had to give up the action of continuing to chase and kill, let the \*\*\*\* lord continue to run wild, and let the venerables of all sides change their colors.

at the same time.

On the seventh outer battlefield, there are two towering towers, one of which is inside the star tower.

Luo Feng has been accepting the inheritance of life and death for more than 6000 years, and has finally woken up after experiencing a long torture like hell.

...

"Success?" Puti looked at the young man who had stopped trembling lying in astonishment.

And just now, that crystal bead finally completely merged with the soul, completely merged.

boom!

Luo Feng, who had been sitting cross-legged, even if he was on the line of life and death, he had been sitting cross-legged, but at this time he collapsed suddenly, lying motionless on the ground, completely falling asleep.

"Fell asleep? Actually fell asleep?" Puti looked at this scene and laughed. "It's rare for a realm master to fall asleep and lose consciousness when he is tired."

There was also a hint of appreciation in Puti's eyes. "It's really amazing that the world master can persist in the inheritance of life and death for six thousand years."

"But your persistence is meaningful. When you wake up, you can become a disciple of the strongest man in the universe... This is something that the masters of the universe can't even envy."

Luo Feng has been conscious for more than nine years!

...

Brahma Breath Secret Realm, a starry sky floating endless gravel, the space is completely locked here, and it is shrouded in endless darkness, without a trace of light, here is the top ten "dark dust collar" among many dangerous places.

The Dark Dust Collar often raises "sandstorms", which makes it impossible for the venerable to teleport in certain areas, and the detection ability is also severely disturbed by the environment. If you want to use teleport, you have to go to the area where the stardust calms down.

A tall and burly black shadow sits on a huge rock with a diameter of hundreds of kilometers and is full of potholes. In front of it is a simple blood-colored war knife. A pair of blood-red eyes are like a devil who chooses people to eat in the dark. As if blending with the surrounding darkness.

And this huge rock is flying in the dark void at a speed close to light.

"Um?"

The burly shadow moved suddenly.

"Luo Feng's mail?"

Wang Yi's eyes flashed.

"He finally accepted the inheritance of life and death?" Wang Yi has also paid attention to Luo Feng's news over the years.

Wang Yi whispered: "Luo Feng, the son of destiny in this world, really has a deep blessing."

The Star Tower, the Supreme Treasure of the King of Gods, although it can only exert its power in the Primordial Universe, it is also enough to make the strongest in the universe envy.

Unexpectedly, Luo Feng, a little fellow of the realm master level, got it.

"The self-contained mountain guest created the human line of the earth, this star tower, the secret of the Nine Tribulations, unless there is a more enchanting character, otherwise it is destined to be owned by Luo Feng." Wang Yi said with emotion.

"Now Luo Feng has worshipped Zuoshanke as his teacher, and with the help of Zuoshanke, his rise in the primitive universe is unstoppable."

Luo Feng, as the son of destiny born and raised in this world, had many adventures on his way to rise.

The Chaos Golden Wings and Dongdong River inheritance belonging to the ancient civilization of the "State of Wu".

A series of help brought by Zuoshanke belonging to the "Jin State".

I also encountered a "world beast" that did not necessarily appear in this latitude of the universe in the past endless reincarnation era.

But Wang Yi has also grown to a point where others can only look up.

"Go and meet Luo Feng." Wang Yi's eyes flashed.

Consciousness connects to the virtual universe.

...

Virtual universe, in the manor of Luofeng in the original area of Yuxiang Mountain.

Luo Feng has just finished processing the mail he has accumulated for many years.

There was his teacher, the "Lord of the Eclipse Palace", but the "Lord of the Eclipse Palace" had also practiced in retreat not long ago, preparing for a breakthrough.

In addition to teachers, friends, and family members, there are also some emails from friends I met in "Hongmeng City".

Such as his teacher Zhenyan Venerable, wife Xu Xin, parents, brother Luo Hua.

But Berlan and some of his good brothers had just entered the master class of the world not long ago.

But what shocked him was that his friend Wang Yi slightly mentioned in an email three thousand years ago that he had already broken through to the Venerable.

When he reached the level of Luo Feng, he had seen countless big winds and waves, received the recognition of the strongest treasure, and worshipped the strongest person in the alien race and powerful universe as his teacher. There were not many things that could surprise him so much.

But the incident of Wang Yi breaking through the Venerable still shocked him.

Venerable Universe, this is the level of the sovereign of the universe, opening up a great existence in the universe.

Wang Yi, after only a few thousand years of no contact, he has become the Venerable Universe?

Remembering the first time I saw "Venerable Nine Swords", I was like an ant in front of the opponent's mighty power.

Luo Feng couldn't help but think back to the scene where the two were still getting along in Jiangnan Base City many years ago, and he couldn't help but feel a little dazed.

Time flies, they are no longer the immature little guys back then~[www.mtlnovel.com](http://www.mtlnovel.com)~ a famous "Knife River King" who has become an extraterritorial battlefield, and a high-ranking man of the human race, a lofty cosmic sage.

"Wang Yi has become the Venerable Universe!" Babata couldn't help screaming. "Perverted! Too abnormal! That is the existence of the Universe, at the same level as the Lord of the Dry Witch. Your teacher was just like an ant in front of the Lord of the Dry Witch. Wang Yi has only cultivated for more than 10,000 years. How can he grow so fast! Unbelievable! Unbelievable! NS!"

"There must be a big secret in Wang Yi! Otherwise, it's impossible to have such a rapid breakthrough speed!" Babata said, Luo Feng was already the most enchanting genius he had ever seen, but Wang Yi was even more monster than Luo Feng.

It is beyond common sense!

Luo Feng calmed down and said with a smile: "There are people outside the world, and there are heaven outside the sky."

Luo Feng took a deep breath, "However, I will definitely catch up with him!"

At this time, Wang Yi had appeared outside Luo Feng's manor, smiled, and walked over.

#### [Chapter 446: Top universe overlord](#)

Brahma Breath Secret Realm.

The vast and vast dark dust collar.

"Lord of Hell!"

A magnificent voice resounded through the entire starry sky like thunder, and this magical voice echoed thousands of light years.

"Lord of Hell! Come out for me!"

An angry voice rolled again, echoing in the void.

The dark dust collar has a maximum diameter of just over a thousand light years, and the owner of this voice used unknown means to instantly spread his voice throughout the dark dust collar.

Many strong aliens were also alarmed.

"Whose voice is this?"

"Someone is looking for trouble with the Lord of Hell?"

"Hell Lord is here?"

"Since you dare to trouble the \*\*\*\* lord, you must also be a top cosmic overlord."

"The lord of \*\*\*\* is too shameless. As the top cosmic hegemon, he is very close to the cosmic lord, but he still slaughters us weak venerables everywhere, without any face."

"Look, if he acts recklessly like this, he will definitely be sanctioned by all parties."

Some were exclaimed, some were indifferent, and some were frightened by the reputation of the \*\*\*\* lord and left quickly.

After all, the lord of \*\*\*\* is not a good person, and his reputation for killing weak sages everywhere has spread throughout the universe.

The burly black shadow sitting on a rock as huge as an island slowly opened its scarlet eyes, seeming to have sensed it, and looked in one direction.

Then a trace of different color was revealed.

"who is it?"

Over the years, because of the slaughter everywhere, many powerful people from all sides have died in his hands, and many super existences have been angered.

But after several top universe overlords returned without success, almost no one came to provoke him.

The virtual universe, Yuxiangshan.

Wang Yi, who was talking with Luo Feng, had a thought, smiled and stood up.

"I have something to talk about next time." The next moment his consciousness has left the virtual universe.

"call!"

On the huge rock, a tall black figure stood up, the dark and hideous scales made a creak, and the thick and powerful tail behind it shook slightly, pulling out the sword on the ground, looking in one direction, a very far place.

"Interesting, anyway, boring, just let me meet you."

When Wang Yi teleported, the figure disappeared from the place, and the next moment it appeared in a silent starry sky hundreds of light years away, surrounded by a vast void, only the dazzling stardust suspended, and there was another one among the stardust. The towering figure.

Wang Yi saw the figure, suddenly.

"It turned out to be the Seven Lights Sword Master of the Mechanical Alliance."

The Seven Lights Sword Master looks like a silver humanoid creature, but it is not a mechanical race, but a kind of energy life. The body is like a flawless crystal jade, and the divine body is hundreds of kilometers high. There are seven swords behind it. "Palace Lord Tuo" and "Venerable Immortal" are more powerful, and they are truly top cosmic hegemon!

The human race has many cosmic hegemon, but because humans are born as ordinary beings, most of the cosmic hegemon, but only three top cosmic hegemon, are because of the weak foundation of mankind.

Like the ancestors who assembled a large number of special lives, on the contrary, there are more top cosmic overlords.

Like the Northern Xinjiang Alliance, which has a large number of ethnic groups, there are also many top cosmic overlords.

The mechanical clan has four top cosmic overlords.

The monster race has a full 21 top cosmic overlords. After all, the bloodlines of the monster race vary from high to low. There are many monsters with talent clones, and the number of top cosmic overlords is extremely large.

Zerg... The Zerg has 81 universe overlords and 2 top universe overlords.

But the cosmic overlord of the Zerg race, once the Zerghai tactics are activated, can completely compete with the top cosmic overlords of other races.

However, in addition to the top cosmic hegemon of the human race, the Hongmeng, which gathers many alien races with the human race as the core, also has the top cosmic hegemon.

"The allies of the mechanical race have 12 top cosmic overlords."

"The allies of the monster race have 16 top cosmic overlords."

"There are 9 top universe overlords among the Zerg allies."

The Northern Xinjiang Alliance is even more terrifying, the number of top cosmic hegemon is more than any other alliance!

Wang Yi, who had transformed into a black scaly creature, stood in the starry sky, looking at the silver and white existence that exuded terrifying coercion on the opposite side, and said in secret: "The Seven Lights Sword Master is one of the 12 top universe hegemon of the mechanical allies, in terms of strength. , And absolutely not inferior to Palace Master of Eclipse and Venerable Ancestor Tree!"

"Sovereign of Hell!" Seeing Wang Yi's appearance, a pair of green crystal-like eyes on the giant silver-white life's weird head without a neck immediately looked over and made a low, angry voice.

"I respect you and I have the same strength, and I have never troubled you, but you, as the top cosmic overlord, obviously have superb strength, but you surrender your status and slaughter my mechanical clan alliance everywhere. Is it too much?"

"Ha ha....."

The tall, burly black scale armor with a hideous appearance, the tail lashed in the void at will, smashing the space into fragments, and making a sneer.

"Sword Master Qi Yao" his face sank, and he held back his anger. "Lord of Hell, what are you laughing at?"

"I laugh at the hypocrisy of your mechanical clan alliance. Where did you break the rules?" Wang Yi sneered. "You slaughtered small and weak races, opened up extraterritorial battlefields, and destroyed races. Why don't you say this?"

"Tell me these are useless!"

"In the universe, the weak and the strong eat the strong, and the strength is the respect! Either use the strength to defeat me now! Or get out of me!"

"Lord of Hell, I remind you that although your top cosmic hegemon is strong, but you are not qualified to be arrogant in front of our mechanical clan alliance." Qi Yao Sword Master's voice is cold, "If you go on like this again, don't regret it when you die. ."

"Only you?" Wang Yi shook his head.

Suddenly yelled. "Qiyao, do you take yourself too seriously?"

Whoosh!

Wang Yi directly turned into a black streamer and rushed towards the Qi Yao Sword Master.

"Hell, I'm not afraid of you!" The Seven Lights Sword Master had already endured the arrogance on the opposite side.

The seven war swords turned into seven rainbow lights, tearing apart the void, as fast as lightning, piercing the black scaly life.

"Seven Lights Sword Master, I heard that your seven war swords are the most treasured suits. They add up to great power. Let me see if they are that strong today!" Loud laughter echoed in the starry sky.

Wang Yi's figure also swelled suddenly, soaring to hundreds of kilometers.

When the Seven Lights Sword Master saw this scene, his eyelids twitched.

"The intelligence is right~[www.mtlnovel.com](http://www.mtlnovel.com)~ The Lord of Hell really has a huge body."

Over the years, as the \*\*\*\* lord is killing everywhere and fighting some super beings, some of his information has already been known.

For example, possessing super-large divine bodies, powerful supreme weapons, armors, wings, and domain-type supreme treasures, the secret technique is also regarded as the top level among the top cosmic hegemony.

These make it very difficult to kill the Lord of Hell.

"Hell Lord!" The Seven Lights Sword Master roared, and he fought wildly with the Hell Lord in the vast starry sky.

As the top cosmic overlord, he possesses a not-weak treasure of armor, and also has a domain type treasure.

"Boom..."

Silver waves appeared in the starry sky and collided with the sea of red fog.

The two super existences are constantly fighting in the starry sky.

#### [Chapter 447: Wang Yi's ambition](#)

A black streamer was flying in the starry sky.

"The Seven Lights Sword Master is really difficult."

A voice of emotion came from the streamer.

"The weapon I use now is the pinnacle of treasure 'Hell Knife', but the secret pattern of the Hell Knife I only comprehend the first level, so I can only activate the power of the first layer." Wang Yi said with emotion, "but even hell. The first layer of secret pattern power of the knife can also be compared to the second or even third layer of form power of the top treasure weapon."

"I have the pinnacle of the most treasured armor, the 'Ji Jia'... The use of the 'Ji Jia' is under special conditions. As long as one hundred billion times the power of the master can urge the second form, there is no need for enlightenment. It can weaken the attack by ten thousand times! And provide One trillion times the power of the world master!"

"I won't talk about the original soul. Like Jie Jia, it's just a soul."

Normal Universe Venerables, there is no such a heaven-defying technique like the 'Nine Tribulations', and the level of life genes is up to 100 times.

And Wang Yi, the genetic level is ten thousand times the perfect genetic level, and the power of the divine body is a hundred times that of them, comparable to the power of the lord of the universe divine body that is a hundred times the genetic level!

The law is weaker in perception, but it also creates many powerful jerks.

Even if you can't use the Master of the Universe's Ultimate Kyushu, there are also the Master of the Universe's Ultimate Kyushu!

All aspects have an absolute advantage, even if Wang Yi can't expose too much strength and let go of the water, he can still have an absolute upper hand in the battle against these top cosmic hegemon.

Wang Yi shook his head, "However, it is almost impossible to kill the top cosmic hegemon without using the power of the master of the universe."

At the top cosmic overlord level, life-saving means are stronger than ordinary cosmic overlords and venerables, and it is very difficult to kill them if they are not the lord of the universe.

Especially some top cosmic overlords with huge gods are the most difficult to fall, unless a terrifying soul attacks!

Because soul treasures are rare and rare, many top cosmic overlords have tried their best to strengthen soul defense by various means, such as soul secrets, strengthen consciousness and will... But if there is not a strong enough soul treasure, compared to \*\*\*\* body defense, it will be better in soul. Appears weaker.

Some masters of the universe who are good at soul attacks are extremely terrifying!

However, although Soul Attack Wang Yi is also practicing, he is not very good at melee and long-range methods.

What he is best at right now is the knife technique!

The fight with the "Seven Lights Sword Master" just now ended in an embarrassing manner. Wang Yi did not kill the "Seven Lights Sword Master".

It's not that it can't, but it's not the time.

Wang Yi recalled the words of the "Seven Luminaries Sword Master" before, and said in deep thought: "It seems that my killings over the years have caused strong dissatisfaction from many forces."

Over the past three thousand years, Wang Yi has been running around and hunting.

There are hundreds of Cosmos Venerables who have fallen on his hands, and the Cosmos Overlord can't count them with both hands!

The killing was too cruel, too crazy.

Generally, top cosmic hegemony would not do this, and only Wang Yi could be so unscrupulous.

Many powerful men of every major force died under the sword of Wang Yi.

This exceeds the tolerance limit of all parties.

"If I continue to kill like this, I am afraid that all parties will attack me." Wang Yi said softly.

Wang Yi glanced at the kill value on his panel.

61322!

Represents more than 6000 treasures.

This is the harvest of three thousand years of killing for Wang Yi, and it is not counted as other trophies.

Add up to more than 7000 treasure points.

"I really can't bear it..." Wang Yi sighed.

The Seven Lights Sword Master was actually a warning. If he continued to casually deal with the Venerable, the parties would definitely not let him go.

At that time, what he has to face will be hunted down by all parties, even the Lord of the universe.

And there may be more than one!

He has only two choices, either to escape or to fight head-on.

Fighting against... also represents the exposure of strength.

At that time, the strongest in the universe may be alarmed.

"It's not time yet." Wang Yi's eyes flickered. "Let's die first, and then look for opportunities to do a big wave."

Wang Yi decided to stop and stop.

The passage of the kingdom of God was opened, and Wang Yi's human body put away the treasure of armor, returned to Bauhinia Island, and exchanged with the Void Zerg clone.

The avatar of the Void Zerg went to the Brahma Breath Secret Realm, while the human body remained in the Patriarchal Cult to accept the inheritance, and continued to sign in.

After all, the highest reward of Ancestral Mystery Realm has not yet been obtained.

"I am the honorable person who completed the killing mission and got a silver card with a 25% chance." Wang Yi said with emotion. "Together, there is a 42% chance of signing in with the highest reward... But whether to use it in the mystery of the ancestors is very embarrassing."

There are only a few chance cards, and they are gone after once used.

Although the Ancestral Mystery Realm is precious, it is far from the three major Jedi in the Universe Sea and even the "World of Jin" that may appear in the future.

Wang Yi is reluctant to give up.

So grind it slowly, anyway, he doesn't lack time now.

"The Primordial Star will be opened in about seven or eighty thousand years, and I can go in and gang up at that time." Wang Yi thought leisurely.

Being powerful, standing among the super powers in the universe, he didn't care about the dangerous Primitive Star.

The universe is what he really pays attention to.

"There are 10081 primordial planets. The treasures are endless. To me, it is also a huge treasure house." Wang Yi looked forward to it.

In fact, he was a little tired after killing for so many years.

I began to miss the good time when I signed in.

"My current strength of the Primordial Star is enough to go in. Even if I meet the Lord of the Universe, I can retreat with my whole body." Wang Yi thought, "But the Universe Sea will not work. There are multiple forces from the Reincarnation Age, the Lord of the Universe. There are many more powerful people in the universe than the original universe, and there are Jedi like "Qingfeng Realm"."

With the strength of the Lord of the Ordinary Universe, if he ventured into the depths of these Jedi, the possibility of his fall is very high.

"When I break through to the Lord of the Universe, add the Sky Tower, Wucai Aurora Lake and other treasures to adventure, it will be much safer and easier to get many treasures." Wang Yi's abacus cracked in his heart.

After reaching the Lord of the Universe, he can continue to improve his life gene level and take the route of 100,000 times the divine body.

If you want to take the route of 100,000 times the divine body, it is very difficult to analyze the essence of life based on the creative talent of "Seoul Sea" alone. It is necessary to draw on the power and experience of ancient civilization.

To achieve these, one must break through to the "Master of the Universe."

Wang Yi decided to spend most of his energy on comprehending the law, and spend less on creating secrets and hunting.

Break through to the Lord of the universe with the fastest speed!

After Wang Yi decided to temporarily reduce hunting operations.

Following this, the terrifying killing of the Lord of Hell slowly began to cease.

It is rare to hear of a nobleman who died under the hands of the \*\*\*\* lord.

"Hehe, the \*\*\*\* lord is so arrogant, he still wants to bow his head to the major alliances."

The parties are not surprised by this result.

"We sent someone to draw him in before, but he didn't appreciate it, and killed our people. Now it's okay. He offended all the forces. Let's see what he does." Some gloated.

The Seven Lights Sword Master sneered after learning the news: "I knew today, why bother back then."

In the virtual universe ~www.mtlnovel.com~Thunder Island, the Lord of Chaos City also learned the news.

"Well... it's okay to stop for a while." City Lord Chaos still approves of Wang Yi's decision.

Although he also wanted Wang Yi to kill those venerable foreign races and weaken all parties, he also understood the truth that too much is too late.

And now, the number of killings of Wang Yi has already shocked him.

"Wang Yi said that he has a treasure in disguise. It seems that he has more secrets than I thought." City Lord Chaos sighed. This is not the first time he has said this.

Until now, Wang Yi still has too many mysteries.

But for a long time, City Lord Chaos didn't ask Wang Yi's secrets, and prevented others from exploring it.

Give Wang Yi the utmost respect.

Wang Yi didn't let them down either, thinking of the shocked expressions on the faces of those old friends when they learned that Wang Yi was the "Lord of Hell," a smile appeared on the face of the Lord of Chaos City.

#### [Chapter 448: transfer](#)

The virtual universe, an independent plane space, the cosmic sages of each human race can be allocated their own personal space in the virtual universe.

In this space, there are endless oceans, boundless rivers rushing, there are lush forests, endless wilderness, and rolling, majestic mountains.

In the mountains, there are beautiful palaces similar to the Chinese classical style, and there are many maids and servants walking in them.

Among the tallest main halls.

A beautiful woman with long flowing purple hair wearing a blue battle armor bowed and saluted the towering figure on the throne respectfully.

"Meet the Venerable Hunter God."

But he sighed inwardly, "Unexpectedly, for more than ten thousand years, that little guy would have grown to the point of being a cosmic master."

She had learned that Wang Yi had already broken through Venerable Universe, and her heart was also full of incredible.

But facts are facts.

At the beginning, Wang Yi was just a genius with unlimited potential, but now Wang Yi is the existence she can only look up to.

The red-robed and black-haired boy sitting on the throne looked down at the beautiful woman underneath, and smiled and said: "Long Jade King, Lord Nine Swords personally asked you to come over to spread the message, I think there should have been an answer?"

Venerable Nine Swords, the taker of their virtual universe peak genius battle, according to the rules, is also responsible for their genius. If there is any strong one among them, it will be under the command of Venerable Nine Swords in the future.

However, Wang Yi broke away from the Nine Swords Venerable very early, and now not to mention that he is self-reliant, and his strength status is still higher than that of the Nine Swords Venerable.

After all, the strength of Venerable Nine Swords is inferior to Venerable Fire-Easter of the Universe High Venerable. Of course, he dare not neglect Wang Yi's request.

Longyu King bowed and said, "Venerable Hunter, my lord has agreed to your request."

"That's good." Wang Yi nodded. This was not beyond Wang Yi's expectation. After all, he didn't ask too much. He also compensated Venerable Nine Swords.

All he wanted was just a few people under the command of Venerable Nine Swords who were not available yet.

Shortly after Longyu King left, another group of people came to Wang Yi's plane.

It was a group of young men and women wearing all kinds of armor. There were both world masters and domain masters.

Everyone's complexion is a bit complicated.

"Is this Wang Yi's plane space?" a strange cry came.

"Unexpectedly, Wang Yi became Venerable so quickly, and asked Venerable Nine Swords to transfer us to his hands." A handsome young man with black hair shook his head and sighed.

After so many years, Uka is only the ninth domain master level, and he is still at the bottom of the domain master level primordial secret realm.

But Bolan and Rong Jun had become world masters, but they were only the world masters of the Secret Realm of the Beginning.

Primitive Secret Realm, they are not good yet, they are almost too.

Rong Jun, a strong man with messy hair and a burly savage-like savage man, patted Uka on the shoulder of Prince Barbarian Star Star, and said with a smile: "Isn't it good to be under Wang Yi? Everyone is acquaintance and knows the roots. Waiting for the big eaters. ."

"It's easy to enjoy the cold under the big tree. I don't care. My father and the elders in the clan also let me and Wang Yi have a good relationship all day long. I am tired of listening to them. This is what they want." Wu Ka shrugged, looked at another indifferent young man in white clothes beside him, and shouted, "Bolan, haven't you always wanted to surpass Wang Yi, what do you say?"

Berran glanced at him indifferently, "What do you think I would do? Everyone is an adult, so don't be arrogant like a child."

The handsome green-haired young man with the green secret pattern on his face nodded and said, "Bolan is right. We have been in the virtual universe company for years, have we not eaten enough hardship? Since Wang Yi is in love in the past If you want to help us, please stop being hypocritical."

The others also quieted down.

Over the past ten thousand years, everyone has experienced a lot, and those partners and acquaintances who had come in together at the beginning have also disappeared a lot.

The more experienced, the natural mature, knowing how to seize the opportunity.

To be honest, they are very lucky to survive.

Like more people, they have already fallen through various trials.

Under Wang Yi's command, let alone the others, at least the possibility of falling is very low. With the old relationship, as long as Wang Yi misses the benefits in his fingers, they can be inexhaustible.

As Burlan said, everyone is not a child, so naturally they know what to do.

Like Rong Jun, he also has a teacher of Venerable Universe, isn't he here too?

Rong Jun nodded slightly, "This time my teacher knows and supports me to come to Wang Yi's side."

Rong Jun's teacher is the "Lord of Yuanchen Kingdom" and an ancient cosmic Venerable. However, in the circle of cosmic Venerables, to be honest, it is just average. Compared with the day in the sky, he is regarded as the new pillar of the future race. Wang Yi is far worse.

But like others, many of them don't even have Teacher Wang. To be honest, the confusion is indeed a bit miserable.

Qian Shui and Ai Chen looked at the palace with a little complicated expression.

At this time, a group of golden robe envoys came out, the aura of the vast laws was permeated, and they were all immortal. The headed beautiful immortal woman smiled at them and said: "Our master has already hosted a banquet in the palace to welcome you, please come with me."

Rong Jun and Uka looked at each other.

"Let's go quickly, don't let the host wait for a long time."

Led by this group of polite immortal attendants, a group of people rushed to the palace happily. They hadn't seen Wang Yi for a long time.

...

In another plane, a man with a green robe and purple scales was listening to the report of the Dragon Jade King.

Nodded slightly, "Well, thank you for your hard work."

"Unexpectedly this time, the Lord Hunting God would personally ask you for someone." Longyu Wang said regretfully: "Forget the others, Rong Jun and Boran have good talents and potential, and they will become immortal kings in the future. It's not difficult, but it's a pity that the Lord Hunter wants to pass this time, otherwise you will be able to help you again in the future."

Venerable Nine Swords glanced at her ~www.mtlnovel.com~ and smiled, "Is it a pity? I don't think so."

He shook his head, "In the future, Rong Jun Bolan will have a better chance to become a king, but it is difficult to become a venerable person. Since Wang Yi himself opened his mouth and asked me to make a request, it doesn't matter if I give him face."

Long Jade King looked at the face of her adult. She had followed the Nine Swords for many years, and was also familiar with the character of her master. When she found that the Nine Swords was in a good mood, she immediately understood.

Secretly said, "It seems that Venerable has gained a lot of benefits from this exchange with Wang Yi."

Face is face, but if Venerable Hunter is empty-handed and wants to pass the potential genius of Venerable Nine Swords, Venerable Nine Swords may give it, but his face cannot be as good as it is now.

"It's different now." Venerable Nine Swords said with emotion. Thinking of the treasure that Wang Yi gave him, the corners of his mouth couldn't help but a little bit.

"This Wang Yi really should not be underestimated. It just requires a few people, which has given me such a big advantage, and he grows so fast, and he will definitely become the pillar of the ethnic group in the future. It seems that he has to find opportunities to get closer to him." Jiu Jian The Venerable groaned.

#### [Chapter 449: Blue sand sea](#)

"The lord of \*\*\*\* has finally been quiet."

Thorned Ring Alliance, in a towering palace in the void, a cold voice came from the main hall.

I saw a majestic figure on the throne of the main hall. She was wearing a deep purple armor and had a needle-like pointed horn on her head, a female Lord of the universe with hundreds of sharp horns. She has a demon-faced face. Yi had a strong charm, but his whole body naturally exuded bursts of icy cold, which made the Venerable feel terrified.

The Lord of the Universe is the "Master of the Heart" in the Thorns Alliance who is responsible for many matters of the alliance, and his status is equivalent to that of the Chaos City Lord in the Hongmeng.

The majesty also stood by several cosmic venerables, among them the alien venerable with green skin and a prismatic jewel on his head respectfully asked: "The Lord of the Stabbing Heart, the lord of the \*\*\*\* relied on his strength to kill us for no reason. With so many people in the Ring Alliance, shall we just forget it?"

There was a hint of anger in his tone.

One of his friends died under the hands of the "Hell Lord", even if he avoided it, it was useless.

A dignified top cosmic overlord actually deliberately slaughtered an ordinary and weak venerable who was far less powerful than him. This indeed caused the anger of the public.

The Lord of Stabbing Heart glanced at him and said, "Venerable Red Mo, do you know the specific origin of the Lord of Hell?"

Venerable Red Mo's heart shuddered.

The Heart-Stabbing Lord slowly said: "Prior to this, the Primordial Universe didn't have any information about the \*\*\*\* lord, as if it suddenly appeared out of thin air. Forget it, there are still many treasures on his body..."

Where is the treasure so easy to get, and many treasures have their origins. It's not something you can get with good luck.

Venerable Red Mo could not help saying: "The Lord of the Stabbing Heart, do you think he may be a disguise of some super strong?"

The Heart Stabbing Lord nodded and said: "It is very possible. Of course, it does not rule out that the \*\*\*\* lord really has no background power. However, compared to the first guess, this possibility is very small. A fool who dares to provoke the forces of almost the entire universe so unscrupulously, this \*\*\*\* lord is by no means an ordinary existence."

The Master of Stabbing Heart has a deep gaze.

She remembered the evil existence that was notorious for killing time after time a long time ago.

It is so similar to the current "Hell Lord".

However, the "Hell Lord" shows the strength of the top universe hegemon, while the "Blood Cloud Palace Lord" is even more powerful, killing countless, even the Lord of the universe has two fallen in his hands, offending almost all major forces in the universe, worthy of Called the "universal enemy"!

The human race has not been harmed much.

The Lord of Thorns said again: "You didn't find out? Not only did the Lord of the universe of our Thorns Alliance not appear to deal with the Lord of Hell, nor did other forces. They are all watching."

"As long as the lord of \*\*\*\* no longer violates the bottom line of all parties, no one will deal with him."

Although the \*\*\*\* lord has been killing time and again in the "Van Breath Secret Realm" over the past few thousand years, it is divided among all parties, and the loss is acceptable. Only the fallen universe

overlord will feel distressed, but at present, only the top universe overlord is looking for the \*\*\*\* lord. trouble.

One is because there are some unspoken rules in the Brahma Breath Secret Realm, unless there are important things, the Lord of the universe rarely appears.

In addition, the influence of "Tongtian Pagoda" has not subsided, and many masters of the universe are digesting the gains in it, and they don't even bother to care about external affairs.

There is also the identity of the \*\*\*\* monarch with some scruples. No one knows that this is the identity of a certain power super existence, or it is really a newly emerging strange power, or a certain power has hidden super powers.

But now the \*\*\*\* lord has stopped, no longer killing people at the sight of a mad dog, and all parties are slightly relaxed.

"Is this \*\*\*\* lord really a new top cosmic overlord?"

"Even if it is, but his style is almost the same as that of the Palace Master of Blood Cloud, there is no way to win him."

"Let's take a look again, if there is a chance, we will kill him completely. This \*\*\*\* lord offended all the big forces this time, and he is destined to have no good end in the future."

Of course, some people suspect that Wang Yi, the newly promoted venerable of the human race, is likely to have a clone according to intelligence.

But this is only a small part of the suspicion, after all, Wang Yi has not shown his strength to the outside world.

There are "Blood Cloud Orbs" disguise, \*\*\*\* knives and other treasures can also be disguised. The ultimate master of the universe, Wang Yi, has not used it before, and the secret techniques used have never appeared in the outside world. Don't worry about being seen through by all parties.

That is, when using these treasures with other identities in the future, you will have to disguise again, pay attention and don't miss out.

...

The maximum diameter of the Brahma Breath Secret Realm exceeds 200 million light-years, which is comparable to the size of a cosmic kingdom. It is one of the largest cosmic secret realms in the primitive universe. The degree of danger ranks among the top three among all secret realms in the primitive universe. Some areas even possess The terrible danger of killing the top universe overlord and trapping the universe lord.

Even if it is a safe place that has already been proven in the periphery, it is difficult for immortality to survive, and the Venerable must act cautiously.

"Wow..."

In a dark star field, there is not a single star, but countless blue quicksands are rushing and flowing. The center is an endless blue sand sea, and there are blue sand rivers along the edges. Emanating from the Sessa River, just getting close may cause the immortal body and soul to be frostbited.

Encountered by those blue sand rivers, the immortal king will undoubtedly die, and only the Venerable can protect himself.

"Boom..."

There are also vortexes randomly appearing everywhere in the blue sea, and terrible suction power comes from the mouth of the dark vortex. It is the Venerable who is accidentally drawn into it, and it may be wiped out.

Ordinary heavy treasures cannot withstand the erosion of the "blue sand whirlpool", only top heavy treasures can barely bear it.

Here is the "Blue Sand Sea", one of the top 20 dangerous areas in the "Brahma Breath Secret Realm".

In the endless sand sea full of crisis and death, a tall black figure with a pair of wings spread behind its back walks freely in the blue sand sea without incident. Those blue waves that make the universe dread are constantly impacted. On him, it was like ordinary sea water, unable to cause any impact. UU reading [www.uukānshu.com](http://www.uukānshu.com)

"The Brahma Breath Secret Realm has more than 700 moderately dangerous areas, 18 high-risk areas, and three extremely dangerous areas."

"The more dangerous the place, the less people there are, the greater the probability of a treasure." This hideous black scaly life shook the tail of the scaly tail at will, and his blood-red eyes looked into the distance, as if he could see through it. everything.

"Sign in."

[Ding, congratulations to the host for signing in successfully, and reward the 'Blue Sand Origin Spirit'. ]

Wang Yi glanced at the panel information casually, and didn't care.

He is already a Venerable now, and according to the urinary nature of the panel, he can only sign in for Venerable-level rewards at the lowest.

Therefore, Wang Yi could not sign in in many places, and he has received very little sign in these years.

Although he doesn't care much about ordinary Venerable-level rewards, at most there are only a few important points.

#### [Chapter 450: Blue Pole Iceland](#)

In fact, after Wang Yi ended his frenzied hunting, the human body basically ran everywhere these years.

Chaos City, Primitive Secret Realm, Ancestral Mystery Realm, Brahma Breath Secret Realm...

Because of the transmission of the kingdom of God, it is very convenient to travel on the road.

In order to prevent his position in the kingdom of God from being discovered, he often uses the kingdom of the immortal servants under his command to drive on his way.

Try to "maximize check-in efficiency".

And Wang Yi has never gotten the highest rewards of these four places.

In the past of the blue sand sea, is the "Blue Pole Iceland", one of the three extremely dangerous areas in the Brahma Breath Secret Realm.

The three extremely dangerous areas have their own characteristics.

The only thing in common is that it is very dangerous. Even if the Cosmos Venerable enters, the probability of falling is more than half!

The most dangerous places in the three extremely dangerous areas have great horrors!

The primitive universe can give birth to the secret realm that destroys the Venerable, and naturally it can also give birth to the Jedi that can threaten the Lord of the universe.

Only "the strongest in the universe" can truly run wild in the primitive universe.

"Blue Pole Iceland" is one of the three extremely dangerous areas.

The shape is a vast expanse of land, born under the special energy of the secret realm. The whole continent is made up of a unique ice crystal with a maximum diameter of more than one hundred light years... In fact, it is located in the center of the "sea of blue sand". , On that endless ocean.

It was crowned with the name of Blue Pole Iceland, and it became the graveyard of countless venerables.

There are many dangerous places on Blue Pole Iceland, and the island often blows cold wind. If the Venerable is blown by the wind, the divine body will be eroded and annihilated instantly. Even the top heavy armor will not last long. But it is the most common and common danger in Blue Pole Iceland.

Some "dangers" will appear randomly, and some "dangers" will move by themselves.

In addition, space fluctuations are severely disturbed by the environment, and most places cannot be teleported, and they can only fly by themselves.

Even if the overlord of the universe walks here, he must be careful, otherwise, if he is not careful, he will be in danger of death.

The Venerable High Universe would not dare to come here without teaming up.

In the endless world of ice and snow.

"Woo~~" An invisible gust of wind blows, and the entire space is frozen. Only when the gust of wind is over, the space will return to normal.

In a rocky mountain range, there is a deep cave. An alien powerhouse wearing a green scale armor shrinks, swinging his body like a centipede underneath, condensing his breath, and flies outside.

"If I can get a top-level treasure, I can exchange it with the alliance for a high-level treasure." The alien powerhouse secretly said. "My current contribution value is more than half short of the high-level treasure I want."

But just think about it, the foreign powerhouse also knows how lucky he is to find the top treasure materials.

How big is the entire Blue Pole Iceland? And the more precious treasures generally appear, the more dangerous the area.

In history, more than three-quarters of the most precious treasures that appeared in the Brahma Breath Secret Realm came from the three most dangerous regions, and most of them were in the core of the region.

For example, in the "Meteor Lake" where the overlord of the universe might fall, two top treasure materials were found, the value is comparable to the high treasure. That time, even more than ten universe masters came to fight after hearing the news.

"Huh~"

"Roar~"

The cold wind howled and weird roar came.

Even this roar is accompanied by a terrible magic sound, ordinary immortal gods hear it, and the soul is directly broken and annihilated.

The three most dangerous places in the Brahma Breath Secret Realm are not a joke, even Venerable Universe, it is difficult to survive here.

Those who dare to stay and walk here for a long time are all cosmic overlords such as alien powerhouses, or cosmic lords with special methods.

"It's a pity that I don't have a clone, otherwise I can go to the depths to explore like the lord of Jiuye in the clan." The powerful alien looked at the gray sky in the distance, a little envious.

Like these powerhouses with the background of major alliance forces, while exploring and exploring, they will often exchange information and learn about the latest situation.

"Huh?" The alien powerhouse had just subconsciously glanced at ~www.mtlnovel.com~ but found something different.

"Light?"

"what is that?"

In the direction that the alien powerhouse was looking at, the gray sky was faintly bright and radiant.

"It's very far, it's probably hundreds of billions of kilometers away from me." The stranger might estimate it.

"What is it? The strong fight, or the treasure is born?" The foreign strong couldn't hold back, thought a little, and finally flew towards the bright place quickly.

Secretly expecting, "Is it a treasure? It must be a treasure, where I want to be the first."

The cold air in this area almost freezes the space, and even more turbulent winds, there may be some places where the space fluctuations are frozen, even if the strong aliens have the strength of the cosmic hegemon, they cannot teleport and can only fly past honestly.
