

## A God 451

### [Chapter 451: treasure! ! !](#)

Soon after, above the ice crystal forest tens of billions of kilometers away from the overlord of the alien universe, a tall and oppressive black shadow was leaping across.

He was covered with dense black scale armor, a hideous helmet on his head, and a black curved unicorn piercing upward, only to see a pair of blood-colored eyes full of desire for destruction and cold killing intent.

Behind him was a pair of wings and a \*\*\*\* saber on his back.

He also saw the light rising into the sky in the distance.

"what is that?"

Wang Yi's figure gave a fierce meal, showing an expression of interest.

Since being warned by the "Seven Lunar Sword Master", he has wandered in the secret realm for nearly two thousand years, occasionally killing, but not too hot.

But I didn't see any treasures.

And now, it seems that my luck is coming?

Looking around, Wang Yi, who had switched to the adventure of the Void Zerg clone, took a breath and brushed the expanded "domain".

Huh! The avatar of the Void Zerg species flashed, and it would not be disturbed at all in the frozen space.

This is the "domain" of the secrets of talent, and the secrets of talents are all talents, and some are simply impossible to learn. Even many masters of the universe can only admire methods such as the talent clone technique. And the "domain" is to make the clone of the Void Zerg instantly merge with the space, and then break away.

And like the Lord of the Universe, the strongest in the Universe, etc., it is also impossible to completely integrate the space and become a part of the space.

Of course, they have other means to destroy the "domain" of the Void Zerg clone.

In the next moment, the clone of the Void Zerg had appeared in the light-shrouded position, which was a valley of frost.

The entire Blue Pole Iceland is almost composed of blue ice crystals... In fact, the blue ice crystals are formed by special conversion of the outer blue sand sea through the secret energy. Under the blessing of the secret energy, they are extremely strong and hard to destroy even if they are immortal. .

The whole Iceland is hundreds of light-years wide, you can imagine how powerful it is.

This is the miracle of the creation of the universe, and even the strongest person in the universe can hardly achieve it no matter how to reach the sky.

And now, there is a lake in the center of this ice crystal valley. A whirlpool appears in the lake, endless light radiates from it, and something is faintly visible, and the strong waves spread to all directions, becoming more and more intense.

"Really a treasure?" Wang Yi stood on a cliff in the valley and looked down. The powerful fluctuations surprised him.

The feeling the fluctuation gave him was even comparable to the coercion of the Lord of the Universe.

At this moment, a green streamer flew in the other direction.

"Sure enough, the treasure was born?"

He also felt the strong fluctuations transmitted from the valley for the first time, and before he had time to be happy, he found the uninvited guests standing on the mountain.

I was shocked suddenly.

"Someone is faster than me!"

He was a little anxious, speeded up and flew over.

He finally saw the first person to come to the valley.

That black scale armor full of hideous taste.

The \*\*\*\* saber on his back.

Cold blood-colored pupils.

And an extremely powerful breath.

The speed of the alien powerhouse couldn't help slowing down, and he couldn't help but chuckle in his heart.

"Lord of Hell?"

The shadow of the tree of human fame and the prestige of the \*\*\*\* lord has spread throughout the Brahma Breath secret realm over the years, and even the strong of foreign races have heard of it.

"Why the \*\*\*\* lord appeared here, and just discovered this valley with me." The strong alien was a little anxious and a little frightened.

Wang Yi also discovered the alien who had just arrived.

He happened to know it.

"Venerable Rain Worm of the Monster Race Alliance."

The monster race has the largest number of races, so the number of universe venerables and universe overlords is much larger than that of the other peak races. Of course, it is not comparable to the Northern Frontier Alliance, but it is also more than the other three peak races.

"Venerable Rain Insect" is just a cosmic overlord of a powerful race in the Monster Race Alliance.

The strength is similar to that of the "Palace Master Ni Tuo" who was first killed by Wang Yi, but with a smaller divine body.

"Om~~Om~~"

At this moment, the huge lake surrounded by the valley in the center was turbulent, a whirlpool was slowly growing, and at the same time the invisible fluctuations became stronger and stronger, making Wang Yi and the "Venerable Rain Insect" also attracted to the past. .

Brilliant! It can be observed even at a very long distance.

"This energy fluctuation... I'm afraid it will be difficult for the Lord of the Universe to get close." Wang Yi couldn't help narrowing his eyes.

He originally wanted to rush in in advance to see if he could get the treasure, but when he saw this scene, he gave up.

But now the treasure has not yet been completely born, causing such a big movement.

Of course, the greater the movement, it does not mean that the treasure is really precious to that point. Wang Yi can feel that the fluctuation is actually transmitted from the space at the bottom of the vortex, and has something to do with the entire secret realm.

Treasures are also bred in secret realms, and when treasures are born, secret realms will also have some turbulence, which will have a wide range of influence.

With such a big movement, many powerful people in the distance were shocked.

"This fluctuation!"

"From that direction!"

"Is the treasure born?"

"Go, go and see!"

The influence of the fluctuation is farther than Wang Yi thought. The strong people in almost one-third of the entire Iceland felt the fluctuation and followed the fluctuation.

"Venerable Rain Insect" landed at a distance of tens of millions of kilometers from Wang Yi, while watching Wang Yi, the Great Demon King, with greedy and hot eyes watching the shadow slowly emerging from the whirlpool.

But whether it was Wang Yi or Venerable Rain Insect, they didn't rush to \*\*\*\* it sensibly.

"According to the many treasures in the Brahma Breath Secret Realm, the treasure has just come out, but has not yet been completely born. It is connected to the entire Secret Realm, and the energy fluctuates drastically. Even the Lord of the Universe can't force it to \*\*\*\* it. You can only wait!" Wang Yi recalled Related information.

The Brahma Breath Secret Realm is vast, ancient and mysterious, with many dangerous places, and naturally it also breeds many treasures.

Treasures are born, and the greater the movement, the stronger and more precious it represents.

However, there are not many treasures that can be used immediately, and most of them are precious materials.

"We won't be able to grab the treasure until it is completely born and formed!" Wang Yi stared down.

"Look at the movement of this vortex's treasure in this world, at least it is comparable to the most precious treasure."

"However, this comes out too slowly!"

Venerable Rain Insect also muttered in his heart~www.mtlnovel.com~ At this rate of birth, I'm afraid it will take many days. "

"and....."

He looked at the tall black figure in the distance with fear. "With the lord of hell, there is no chance for me to \*\*\*\* the treasure. It's true, I will definitely be killed by the lord of \*\*\*\* without any suspense!"

"But there is still a while before the treasure is born. During this time, others will definitely come over."

Venerable Rainworm was filled with helplessness.

Although treasures were found, competitors also appeared, and they were so powerful that they were suffocating. At least Venerable Rainworm was not confident enough to grab the treasures under the hands of the \*\*\*\* lord alone.

And when other people come over, there are many people, and they can definitely suppress the Lord of Hell, but the treasure will definitely not be his turn in the end, Venerable Rainworm.

"Forget it, let's see if I have a chance to get a piece of the pie." Venerable Rain Insect comforted himself.

#### [Chapter 452: Swarming](#)

Not long before Wang Yi and Venerable Rainworm stood, several figures appeared in the distance.

Already, neighboring powerhouses have come one after another.

But because the scope of the treasures cannot be teleported, they are teleported where they can teleport, and they rely on flying in other places.

In less than a day, there are hundreds of more powerful people here, almost all of them staring at the lake with scorching eyes.

They are still waiting, while waiting, while calling their own people to come over.

Looking at the movement of this treasure when it was born, it must be extraordinary, at least it is also a treasure. When will you not wait for it?

...

The news of the birth of the Blue Pole Icelandic treasure spread quickly in the Brahma Breath Secret Realm, the other two extremely dangerous areas, and many dangerous places... The Six Pinnacle Race

Alliance, the Star Behemoth Alliance, the Northern Frontier Alliance, the Ancestral Gods... and many other forces. The strong know it.

The Lord of the Universe may not care about a treasure, but the Lord of the Universe, the Overlord of the Universe, can't care less.

Just as the immortal king can fight you to death for a heavy treasure, the star tower seals the stars and kills hundreds of thousands of kings into a ball.

Many strong men immediately set off when they heard the news and rushed towards the target location of Blue Pole Iceland.

The Ice Crystal Valley has become an eye of the storm for all parties in the Brahma Breath Secret Realm. During the birth of the treasure, a steady stream of strong people rushed to it.

The number of Cosmos Venerables is also increasing, one thousand, two thousand, three thousand... more and more day by day.

As the number of strong people increased, the valley was divided into groups.

The nine superpowers of the Human Alliance, the Monster Alliance, the Mechanical Alliance, the Zerg Alliance, the Prison Alliance, the Crystal Alliance, the Star Giant Beast Alliance, the Northern Frontier Alliance, and the Ancestral God Sect are divided into nine groups! Each has its own side!

There are also second-class ones such as the Nine Domains Alliance and the Fengfeng Alliance...

In addition, there are lone travelers like Wang Yi!

Among them, the largest number and the most powerful is the Northern Xinjiang Alliance! The number of cosmic lords gathered here exceeds three thousand, dozens of cosmic overlords, and there are actually two top cosmic overlords! It can be said that it completely overwhelms other forces!

And the Human Alliance has only a few hundred cosmic lords, plus four cosmic hegemons, as for the top cosmic hegemons, they did not appear here.

There are more than one thousand camps in the monster race, more than twelve universe overlords, and one top universe overlord!

More than ten thousand cosmic venerables have gathered in the entire valley!

This is also the first time that Wang Yi has seen so many Cosmos Venerables gather together.

It's too...

Excited!

Tears of excitement almost flowed from the corners of his mouth.

Scarlet eyes kept flickering.

I kept calculating in my mind, how many killing points could he get by killing all these cosmic masters?

There are at least 10,000 cosmic sages here, almost all of them are higher cosmic sages, and there are some cosmic overlords.

Even if it were all counted as 100 kills for an advanced cosmic master, that would be 1 million kills!

100,000 treasure points!

Wang Yi seemed to see Xeon Supreme beckoning to himself.

Guru...

Wang Yi swallowed his saliva and scanned the fat sheep around him with the light like a hungry wolf.

The Venerable Universes who were closer all felt a chill from the divine body, and a strong malicious attack came.

Divine power swept away.

Oh, the lord of hell.

Then it's okay.

In the entire Brahma Breath Secret Realm, no one knows that the \*\*\*\* lord is a mad dog. He almost bites people when he sees them, and kills them when he sees them.

It is completely rampant, unscrupulous, and domineering tight.

Unreasonable guy!

There are no one thousand or eight hundred Cosmos Venerables who have died in his hands for so many years.

If it weren't for all parties to be able to crush him, the \*\*\*\* lord still doesn't know what it will be like!

"A madman!"

Those Cosmos Venerables who got closer thought in their hearts and moved their positions farther.

The Northern Frontier Alliance was the most miserable party by the \*\*\*\* monarch during this period. The two top cosmic overlords looked at each other at this time, and their eyes flashed fiercely.

Do you want to take the opportunity to siege and kill the \*\*\*\* lord at this time and kill the evil?

Not only the Northern Frontier Alliance group sees the \*\*\*\* monarchs full of murderous aura, but the other six pinnacle race group alliances, the Star Giant Beast Alliance, and the Ancestral Gods also look bad at the \*\*\*\* monarchs.

Even if the human alliance, because the Chaos City Lord and other highest-level people blocked the news, the people at the bottom didn't know that the Hell Lord was his own, and Wang Yi's eyes were equally bad.

Several hapless guys in the Hongmeng alien race were "unfortunately" killed by Wang Yi.

If the look in his eyes can kill, Wang Yi is now riddled with holes.

The situation in front of you can be completely described by what you want to say.

"The lord of \*\*\*\* is really bold enough to offend so many people, knowing that all the big forces are gathered here, he dare to appear here openly." There were also some lone travelers who were also scattered and surprised.

Unlike all parties who have members who died at the hands of the \*\*\*\* lord, they have no grudges against the \*\*\*\* lord, and their senses towards the \*\*\*\* lord are relatively simple.

"Can you kill or not? The treasure has not yet been born, we can unite and kill the \*\*\*\* monarch." A strong man showed his murderous aura.

"But there are no instructions to deal with the \*\*\*\* lord, and with the \*\*\*\* lord's life-saving means, it may not go smoothly if you start it now." There are also super existences that are more sensible.

To kill the \*\*\*\* lord, it is best to be the active hand of the universe, and it is not the general lord of the universe.

With some Cosmos Venerables, if they want to besieged and kill the Lord of Hell, they may be escaped by the other party.

And even if it can kill, the loss will not be small.

All parties know in their hearts. Although they all want to kill the \*\*\*\* lord and hurry up, after the discussion, they decided to temporarily give up dealing with the \*\*\*\* lord.

That is the matter of the masters of the universe above.

Wang Yi turned a blind eye to the malicious gaze around him, thinking about something in his heart.

His eyes fell on the lake from time to time, on the camps of all parties, and occasionally swept across the Hongmeng.

He was thinking about it in his heart.

A terrible thought came to mind.

Kill or not?

With his current strength, he can completely kill the Cosmos Venerables gathered here, one pot end and one left.

However, it will also completely anger all the forces and become the next Blood Cloud Palace Master who will be called and beaten by everyone.

I am afraid that the identity of the \*\*\*\* lord in front of him will not be exposed to the outside world for a long time.

However, the strong men of the Hongmeng are a problem~[www.mtlnovel.com](http://www.mtlnovel.com)~ There are hundreds of them here. Even if Wang Yi is willing to let them go, he will expose his relationship with the human Hongmeng.

It is also necessary to consider the relationship between the Patriarchal Church, after all, the Patriarchal Church is now also a supporter behind him.

"This can only be done..." Countless thoughts circled in Wang Yi's mind, and finally turned into a voice, and Wang Yi's eyes became resolutely cold.

"kill!"

If you kill all these cosmos venerables, you might be able to get a kill value that can be exchanged for a supreme treasure. Wang Yi knows how to choose.

Even if the highest level of the human race learns about Wang Yi's actions, they will only support it.

But what Wang Yi did was not just a simple killing. He really executed it according to his plan, and the final result might make most of the superpowers in the universe go crazy.

However, this also requires that Wang Yi's identity must be kept strictly confidential, otherwise it will be really difficult for him to move in the universe in the future.

#### [Chapter 453: With 1 enemy ten thousand?](#)

One hundred and four days later, the movement of the lake's treasure had already reached its apex. The huge energy fluctuations formed a tornado. The water of the entire lake was swept in, like a crazy dancing blue python, and the entire valley was affected. Countless ice crystal cracks were destroyed, flying all over the sky, and a large number of strong men had to retreat, looking fiercely at the treasure that gradually condensed into entities.

It was a beautiful plant with crystal clear ice-colored leaves and mysterious veins. At the top was a huge flower bud, which was slowly unfolding.

Seeing this scene, many powerful people gathered in the valley immediately refreshed.

"The treasure is about to be born."

Everyone knew that the moment of the final fight had come, and the atmosphere had become tense.

The Northern Xinjiang Alliance secretly contacted the two top cosmic hegemony who acted as the leaders. "As soon as the treasure is born, you will do your best to help us get the treasure according to the previously negotiated plan, and then distribute the contribution value according to the credit."

"Yes."

Thousands of sages of the Universe in the Northern Xinjiang Alliance responded in unison, waiting in full array.

The powerhouses of other camps are also communicating with each other through voice transmission.

"Everyone in the Monster Race Alliance, listen to my orders later."

"All of you from the Mechanical Race Alliance, all go according to plan!"

"Belonging to the Prison Clan Alliance, go all out."

...

Although the Human Alliance is weak here, it is still prepared. After all, the treasure has not yet come out, and no one knows what it will be like. Under the melee, any party may get the treasure.

Even the current strongest Northern Xinjiang Alliance cannot be the only one.

As the crystal clear buds slowly stretched and bloomed, a charming floral fragrance spread to all directions.

"It smells good."

"I feel my soul is throbbing."

"What kind of treasure is this? Is it a soul treasure?"

Even though they were far away, the venerables from all sides smelled the intoxicating fragrance of flowers, and they were all excited.

Soul treasures are almost the most precious among treasures.

Soul treasures are worth a level higher than other treasures.

Many people are aware of this and have delivered new orders.

"Modify the plan and act in accordance with the sixth plan."

"Go all out."

"It has been reported to the Lord of the Universe, and the Lord of the Universe is coming."

As the buds of the tens of thousands of kilometers of plant bloom completely, the fragrance disappears. The center of the layered petals lies quietly with nine radiant and blurred beads. The beads exude dreamy colors, even if the Venerable looks directly, the soul Can't help but be attracted to the past.

And the fluctuations that had been covering the plants also disappeared at the same time.

"Om~~"

"Do it!"

"Do it!"

"Do it!"

...

At the same time, the powerhouses of all camps also shot at the same time.

A group of figures quickly rushed towards the petals.

"Boom..."

The realm of treasure appears, and the endless white wave covers all directions.

"It's the silver world of Venerable Dragon Deng of the Mechanical Race Alliance." Some strong screamed.

"Wow..."

The purple sea of fire descended from the sky, raging everywhere.

"The Purple Fire Lake of Lord Baheng of the Monster Race Alliance."

"boom....."

The endless misty light is permeated, and there are stars rotating in the light, and the power is vast.

Venerable Universe is caught in it, and that powerful binding force can greatly reduce their combat power.

Territory treasures that were rare in the past have appeared one after another at this moment, with the petals of the valley plants as the center, and they are competing for it.

Under this circumstance, even if someone wants the divine power to permeate the past, it is impossible for the treasure to recognize the master.

You can only get close to imprint the mark of life, and you must be alone, and you must not be disturbed.

"Boom..." All the cosmic hegemons rushed out, and thousands of cosmic lords from the Northern Xinjiang Alliance launched a joint attack behind them to prevent other camp powers from stepping forward.

"attack!"

"attack!"

"Don't let them come close."

Not to be outdone, all parties joined forces to fight back.

Are there many people in the Northern Xinjiang Alliance? The Human Alliance, the Mechanical Alliance, the Monster Alliance, the Zerg Alliance, the Prison Alliance, the Crystal Alliance... will fight you together.

In this battlefield of fighting for treasures, the camp has begun to blur, as long as which side is slightly ahead, the other side will join hands to suppress it by coincidence.

"Bang! Bang! Bang!"

The invisible impact exploded in the void, and the powerful vibration made the Venerable Universe uncomfortable.

Thousands of cosmic sages, and almost all of them, are intertwined with the divine power attacks of cosmic sages. How terrifying is it? Even if the overlord of the universe is affected, he may be seriously injured and fall.

Tens of millions of kilometers in the center of the valley have been shattered into fragments, and many towering figures are also fighting in it.

"Lord Baheng, get out!"

"The treasure is mine!"

"dream!"

"kill!"

The Venerable troops in the rear were fighting fiercely, and the cosmic overlords who were in charge of the hands-on \*\*\*\* in the front were also jealous.

And under the restraint of each other, no one of the universe overlords can be one step ahead.

Even if the top cosmic overlord is on such a battlefield, he has to be cautious.

The fierce competition continues.

"Om~~" The red sea of fog suddenly appeared, joining the competition of all parties.

Abruptly, a black figure took the lead, with its wings exuding a dazzling brilliance, breaking all the shackles, like a fish swimming in the water, flying towards the petals of the plants in the middle of the valley.

A nearby overlord of the universe launched an attack on him without hesitation.

The blood-colored knife light lit up, as if the light of a knife tearing the firmament counterattacked him.

"boom....."

The universe overlord's weapon was smashed away, and the light of the sword smashed his body. The armor of the heavy treasure suit on his body was slightly shaken, and a huge crack appeared.

Fallen!

This is the first cosmic overlord to fall from all sides after the start of the war.

The overlord of the universe who was killed in an instant?

The eyes of the strong from all sides who were fighting around were instantly attracted.

Seeing the tall black figure, they burst into anger.

"Lord of Hell!"

"Lord of Hell, you are looking for death!"

The camp of the slain universe overlord was furious. Hundreds of cosmic lords joined forces, murderous aura, and powerful soul attack came in an instant.

Not only one side, but the other camps who have endured the arrogance of the \*\*\*\* monarch for a long time, together with the new and old hatreds, also couldn't bear it, and shot without hesitation.

In an instant, more than the six parties took the initiative to attack the Lord of Hell at the same time.

The Hell Lord, who attracted most of the firepower present, turned a blind eye to those attacks, and still rushed towards the huge plant without looking back.

"Peng!"

"Peng!"

"Peng!"

"Peng!"

...

A series of terrible attacks fell on the Lord of Hell almost indiscriminately, with power comparable to the power of the Lord of the Universe!

The six powerful attacks all fell on the Lord of Hell.

But a shocking scene happened--

The \*\*\*\* lord withstands these attacks, and uses his strength to quickly rush to the petals, and with a wave of his hand, all the beads are swept away.

"How can it be?"

"Why is there nothing wrong with the Lord of Hell?"

All parties were shocked by the defensive ability of the \*\*\*\* lord ~www.mtlnovel.com~ It was a joint attack by more than five thousand high cosmic lords. Even if the lord of the universe was hit by a bombardment, he would be seriously injured, but the \*\*\*\* lord easily resisted it. , It looks like nothing at all.

"Lord of Hell!"

The \*\*\*\* lord's move to roll up the treasures completely angered all the strong on the scene.

"kill him!"

"No matter how powerful he is, there is only one person. With so many high-ranking cosmos venerables of us, even the lord of the universe can fight!"

Under the command and order of their leaders, the tens of thousands of cosmic monarchs surrounding the valley did not hesitate to attack the \*\*\*\* lord who was heavily surrounded.

#### [Chapter 454: Nightmare, mirage world](#)

Wang Yi wore a "Jie Jia" that changed into a black scale armor, with chaotic wings spread out behind him, holding the "Hell Knife" in his right hand, and looking around the densely glaring Venerable Universe.

"I have the Supreme Treasure Tribulation Armor and the original soul in my body! I can weaken all attacks to one hundred thousandths or less! My divine body is more than 90,000 kilometers high, and

only the divine body is defensive... even the lord of the universe With the existence of the pinnacle, it takes endless effort to kill me. Just relying on the combined attack of you venerables? I can't even shake me." Wang Yi was very cold.

The six attacks hit him just now, no different from tickling.

This shows the importance of armor. The "robbing armor" is in the body, even if the Lord of the universe has few attacks that can reach the "limit value" of the robbery armor.

As long as the limit is not reached, all attacks can be weakened to one hundred thousandths.

The top treasure has already made the masters of the universe slanderously pay attention. Under normal circumstances, even the weapons of the top treasure...that are generally equipped by the master of the universe! As for the pinnacle treasures, such as "Jia Jia" and so on, it is even more unattainable, and it is very difficult for Emperor Yan to get it.

Possessing "Jia Jia" and "Original Soul", whether it is material defense or soul defense, can reach an extremely terrifying level.

"Waiting for my breakthrough, plus the Tongtian Tower and Wucai Aurora Lake... Even the strongest in the universe, I dare to touch it."

The exposure of the colorful Aurora Lake is easy to cause trouble, and perhaps the panel can be replaced with another Xeon in the field.

"And now... you will all be the first stepping stones of my famous universe!" Wang Yi looked around at those cosmic venerables who wished to eat him, his eyes were cold and cruel.

The situation at the scene seemed like Wang Yi was surrounded by tens of thousands of cosmic venerables all alone, and there was no escape.

But who is the real hunter and who is the real prey?

who knows?

At this moment--

"boom....."

An incredible pressure descended on the valley in an instant, and spread out. The Cosmos Venerables who were about to attack originally seemed to be restrained by invisible power. It was a kind of complete control over the entire time and space!

"Control the time and space of one party?" A trace of horror passed in the eyes of a top cosmic overlord!

"Master time and space!"

"It's time and space!"

"The Lord of the universe has come!?"

All the Cosmos Venerables from all sides in the valley were shocked and commotion.

Mastering the time and space of one party is the hallmark of the Lord of the Universe.

However, they don't know that even if they are not the master of the universe, there are people who do this step by virtue of this.

For example, the talent secret of the "strongest world tree"-"mastering time and space", the venerable world tree is comparable to the master of the universe.

And Wang Yi's divine body level now far surpasses the strongest world tree! At this moment, he is fully excited, and his ability to master time and space is no worse than the master of the universe.

In the middle of the valley, a towering figure is slowly rising, with wings spread out on its back, and the boundless space-time constraints centered on him, radiating in all directions.

"Yes..." A strong man trembled, "It's him, the lord of hell!"

The power to master time and space is too obvious! Unscrupulous!

Thousands of Venerable Universes present all reacted.

The lord of \*\*\*\* is the lord of the universe!

"Escape!" The Venerable Universe who had reacted was horrified and prepared to flee here.

Besieging a top universe overlord and besieging a universe lord are two concepts.

There is a fundamental gap between ordinary high-level cosmic sages and cosmic masters. Only one master of time and space can defeat the cooperation of these cosmic sages, and even by mastering time and space, the weaker cosmic sages can be wiped out.

How do you fight this?

The fact that the lord of \*\*\*\* is the lord of the universe instantly collapsed these camps that were hurriedly united together.

And this news was also sent back to their respective alliances for the first time!

Wang Yi stood high in the sky, his \*\*\*\* eyes were cold and merciless, as if seeing all the movement in the whole world instantly, making the surrounding space shudder.

His space-time realm is still strengthening, boom...except for the valley, all areas covered by the space-time realm are bound by an irresistible bond! The powerhouses from all races in the universe in the center of the field were shocked.

Once you become the lord of the universe, you can control time and space... and even reverse time and space to see everything that happened in the past, and it is not impossible to even take a perished existence from the past to the present, and Wang Yi now controls time and space. The range of is extremely large, at least the range of only 100 billion kilometers in diameter can be easily completely covered.

Within this range, everyone is tightly bound.

Fall apart!

Because they wanted to encircle Wang Yi, these cosmic lords were all too close, and this became the deadliest factor that restrained them!

No one can escape!

"Boom..." The surrounding space-time constraints skyrocketed.

The cosmic lords felt a terrifying force coming, and immediately burned the divine power to resist, but the surrounding constraints continued to skyrocket... that power continued to increase. "Chichichi..." The divine body was constantly worn down under this pressure, and one percent or more was lost in the blink of an eye.

However, the space-time domain alone cannot quickly kill many of these powerhouses, including the overlord of the universe.

The overlord of the universe with a treasure in his body can resist the erosion of this time and space domain.

And the fact that Wang Yi is the Lord of the Universe has been exposed, and soon the Lord of the Universe will come from all sides, and he cannot delay.

"Bloom!"

"my world!"

At this time, Wang Yi closed his eyes and murmured.

"Boom..." The burning divine power surging out, as a divine body of more than 19,000 kilometers, it has not consumed so many attacks. But at this moment, as soon as the "mirage world" is activated, the endless divine power surging out...the vast world is completely shrouded in an instant!

The whole world suddenly became completely dark, and I saw countless dark air currents surging wildly. For a moment... the whole world seemed to have entered another world instantly, this is a chaotic world, which is full of endless chaotic air currents!

The strongest talent secret-Mirage World!

"Why is it dark?"

"what is this?"

All the Cosmos Venerables who were trapped in the chaotic air current and the space-time realm panicked, and an ominous premonition came to their minds. The endless chaotic air currents, and the coercion generated by the chaotic air currents alone made them all hold their breath. They felt that... this chaotic air current could easily crush them and annihilate them.

rustle.....

In an instant, the endless chaotic air flow spread over an area of 10 billion kilometers in diameter. The chaotic air flow rolled, condensed, and suddenly condensed into a strange creature like a snake like a dragon with a long beard on its mouth. Its snake body is tens of billions of kilometers long and a huge body. It curled up into a ball, like the real thing, and kept swimming, and inside were the strong

aliens~www.mtlnovel.com~ It slowly lowered its head, its eyes were closed, but at this moment it suddenly opened, staring at the one below. Thousands of Cosmos Venerables.

"Woo-" came a strange and melodious moan.

boom! ! !

An incomparably powerful soul power descended the next moment, crashing onto the heads of tens of thousands of powerful people of all races.

You should know that Wang Yi has not consumed a trace of the divine body for more than 90,000 kilometers in the battle so far. He can use the "mirage world" every time he consumes 10% of the divine body, and it only lasts for 9 seconds each time! With so many divine bodies consumed, one can imagine the terrifying power of this mirage world.

The Lord of the Universe, which is equivalent to more than 90,000 kilometers high, uses the burning \*\*\*\* body to perform the strongest secret method of soul!

Powerful!

In an instant, the tens of thousands of Venerable Universes below only felt his head bang and lost consciousness at the same time.

#### [Chapter 455: No one can run away!](#)

Within the chaotic giant snake "mirage", tens of thousands of universe venerables collectively fell into an illusion and fell asleep under the mighty and mysterious soul's most talented secret method.

Just like the mother emperor of the Zerg clan, she fell into a deep sleep by the master of Meteor Star using the soul secret method.

Even if there is a clone, one soul is attacked by the soul, and the other clones will also be affected because of the same soul consciousness. As long as they can't resist it, regardless of the body or the clone, they will fall into a deep sleep after being attacked by the soul.

Thousands of cosmic venerables all lost the ability to resist and fell asleep, but the divine body remained intact, but fell from the sky out of control, like the following dumplings, the scene was magnificent.

Of course, there are people who have been completely defeated by the "mirage world".

More than a dozen top cosmic hegemony from all sides, and some special or soul-treasure cosmic hegemony, they are still supporting the terrible soul attack of the "mirage world".

And seeing the scene where the tens of thousands of people around them seemed to lose their souls together, they were all desperate.

Although they are not dead, what is the difference between Immortal being killed to sleep and losing consciousness?

Thinking of a more terrifying possibility, a tremor rose from their hearts.

Some strong roared hoarsely: "Lord of Hell, how dare you!"

How dare he!

This is tens of thousands of sages of the universe, including all the great forces in the universe!

The entire human race has only more than 6,000 cosmic sages.

So many strong people, if all of them are lost here today, the consequences will be unimaginable.

Wang Yi, who was looming in the chaotic air current, also saw the dozens of cosmic overlords who were struggling.

Most cosmic overlords were caught off guard and were attacked by the mighty soul attack just now, but some had the ability to resist.

However, as time went on, every second caused their divine bodies to burn violently.

Wang Yi's mirage world can support nine seconds.

How long can they support?

Those strong aliens don't know the maintenance time of Wang Yi's strongest secret method. Seeing the divine body is rapidly annihilated, the consciousness is constantly weakened and corroded, and soon, a universe overlord uttered an angry and unwilling curse and blew himself up.

This is a helpless choice.

It's better to blow up than to sleep. It can also be resurrected by the strongest in the universe.

If he was killed to a deep sleep and fell into the hands of the enemy, the end would be unpredictable.

It's better to die.

A blow out seemed to have sounded a signal, and then one after another the overlord of the universe blew up.

"boom!"

"boom!"

Wang Yi looked at him coldly, and he didn't stop it, and he couldn't stop it either.

The mirage world lasted for nine seconds, and the last top cosmic overlord blew himself up in the eighth second.

And Wang Yi started to clean up the battlefield while replenishing his supernatural power.

The huge valley was in a mess at the moment, and he was the only one standing.

Dozens of cosmic overlords were killed by him, and tens of thousands of cosmic lords were put to sleep by him.

The record is amazing!

The treasures left by the dead strong men were put away by him, while the sleeping cosmic masters were thrown into a world ring uniformly by him.

While quickly clearing the scene, Wang Yi still had time to glance at the panel.

Killing dozens of cosmic overlords, including the top cosmic overlords, caused Wang Yi's killing value to skyrocket in an instant.

"124129!"

And this is just the beginning, there are tens of thousands of high-ranking cosmos venerables waiting for him to "harvest."

Even if Hongmeng and Ancestral Gods are excluded, the big head is still a considerable number.

"Ha ha ha..." Wang Yi laughed thinking of the million killing value he was about to obtain.

Moreover, he still has one more important thing to do. If he really does this, I'm afraid that the entire primitive universe doesn't know how many forces will have a major earthquake, and the Lord of the universe will have to jump his feet.

"Ten Thousands of Universe Venerables!" Wang Yi said with emotion, and he did not expect that he really did it.

The entire primitive universe is destined to usher in an unprecedented turmoil this time.

There has never been a situation like this time, when tens of thousands of cosmic elders surrounded a cosmic lord, but the opponent used the strongest soul secret method to end him!

After Wang Yi cleared the scene as quickly as possible, he did not hesitate to use the "domain" to leave, and then opened the next letter to the kingdom of immortal servants in a safe place, and kept using different kingdoms of immortal servants for teleportation. "Domain" jumps to other star fields.

Finally, use the Kingdom of God to teleport to the "Tongtian Pagoda", and place the tens of thousands of cosmic Venerables who have fallen asleep in a special confinement space in the Tongtian Pagoda.

This time, even if the strongest in the universe came in person, there was no way to rescue people. If the strongest in the universe dared to come in, Wang Yi would be able to make them come back.

And Wang Yi also began to count this harvest.

The killing value was 124,000.

The 44 fallen universe overlords and 13 top universe overlords combined have more than a thousand treasures.

Wang Yi calculated it, if all were exchanged, he could now have more than 14,000 treasure points.

And this is not counting the tens of thousands of sleeping cosmos venerables and their treasures, among them there are more than a hundred cosmic overlords.

However, what Wang Yi will do next to these cosmic masters is only in pediatrics.

According to statistics, there are a total of 12,081 captives of the universe.

Excluding the Hongmeng and the Universe Venerables of the Ancestral Gods who are specifically isolated in other dimensions, there are 10,987 people.

Those Cosmos Venerables, Wang Yi won't hurt them, but he won't wake them up for the time being.

In an independent space of Tongtian Tower, Wang Yi's figure appeared.

In front of him, there is a divine body of an alien universe. Because he has lost consciousness, his divine body is kept in its true form. There is a divine body more than ten kilometers high, humanoid, and the whole body is red, like molten, even when sleeping. , The heat wave is raging, and the whole body exudes a powerful aura that makes the space vibrate.

But no matter how big the divine body is, it is still useless in the face of soul attacks.

The Senior Universe Venerable in front of him has completely fallen asleep, and he hasn't reacted to Wang Yi's arrival at all.

Wang Yi stared at the divine body in front of him, his eyes faint.

"Let's start with you first."

"You are amazing to be the Venerable Universe, but unfortunately, you fell into my hands. Starting today, your destiny no longer belongs to you."

Wang Yi used the secret method of soul enslavement.

God body burns!

A powerful and vast soul power immediately poured into the body of the Universe Venerable ~www.mtlnovel.com~, leaving its mark deep in the soul of the alien Venerable who has lost consciousness and has no ability to resist.

The consciousness of the will of the Lord of the Universe, coupled with the blessing of the "Primary Soul", as well as the research of the strongest talent secrets over the years, and the exploration of other soul secrets have made Wang Yi's soul secrets more powerful and profound than before.

Very smoothly, he imprinted his spiritual mark on the soul of the sleeping Venerable Universe, turning him into his soul slave.

The soul slave of the Universe Venerable!

After confirming the success of the secret method, Wang Yi immediately awakened the newly acquired servant.

"Master." As soon as the alien waking up, he saw Wang Yi, and immediately shouted respectfully. The eyes looking at Wang Yi also showed loyalty and enthusiasm from the heart.

This is the soul slave. Once you are enslaved by the soul, although you still have memory consciousness, your body and mind no longer belong to you. It can be said that the past self is dead and will never be able to turn back, even if the strongest in the universe wants to save it.

Therefore, those strong aliens before would rather blew themselves up than sleep.

## [Chapter 456: Stabbed the sky!!!](#)

"Which clan and force are you from, and what is your name?" Wang Yi looked at this majestic figure of a foreign race with a fierce appearance, feeling full of accomplishment in his heart.

Things are really impermanent.

The venerable alien race in the past has now become a servant of his own rank!

Who can think of it?

"Master." The smelt-skinned alien venerable respectfully made a deep and heavy voice: "I belong to the Kabi tribe of the Star Giant Beast Alliance, and my name is Chi Huo."

"Venerable Scarlet Fire?" Wang Yi thought for a while and seemed to have never heard of it. "Are you good at soul secrets?"

"No, Master, I am good at physical and melee combat." Chi Huo said ashamed.

"Oh." Wang Yi nodded. If the newly recruited slave is proficient in soul secrets, he can still ask him to help.

But it doesn't matter, so many sages, there are always some who are good at soul secrets.

Wang Yi went on to enslavement.

In order to prevent accidents, Wang Yi used secret methods of enslavement one by one, but when he enslaved the eighth one, there was still an accident. At the last moment, the soul of the other party was awakened, regained a trace of consciousness, and controlled the divine body and chose to explode.

Although Wang Yi was not injured, he was still given a warning.

But Wang Yi still will not give up enslavement.

Whether it is success or failure, he does not lose.

Every Venerable is a precious treasure to which force, tens of thousands of Universe Venerables, and all of them are High Universe Venerables, what a huge force is this?

Even if the human race has accumulated endless years, there are now only more than 6,000 cosmic sages, and most of them are not advanced cosmic sages.

Killing is nothing, soul enslavement, this is a taboo.

Even the strongest in the universe can't enslaved all universe venerables at will.

This is a bottom line!

By doing this, Wang Yi simply touched the most painful nerve of all forces and made them mad.

Once discovered, it is definitely the result of endless death!

so.....

"It must be kept secret!"

Wang Yi sighed with emotion.

After this time, the identity of the Lord of Hell is absolutely unusable.

In addition, all the items that may be left behind by the venerable to be tracked must be destroyed, otherwise it will be a trouble to be tracked to the Tongtian Pagoda, which will lead to unknown variables.

The enslavement of tens of thousands of venerables is only a pediatrics compared to the Tongtian Pagoda.

Wang Yi still doesn't want others to think of Tongtian Tower.

And Wang Yi's killing value kept rising.

Whether it is the success of the soul enslavement or the failure to make an alien venerable die, you can get a killing value.

The pleasing reminder keeps appearing.

[Kill 1 High Universe Venerable, reward 100 killing points! ]

[Kill 1 High Universe Venerable, reward 100 killing points! ]

[Kill 1 universe overlord, reward 500 killing points! ]

[Kill 1 High Universe Venerable, reward 100 killing points! ]

...

When Wang Yi enslaved the captive Cosmos Venerables, the powerful aliens who fought before left messages to the ethnic group before they died, and Venerable Hongmeng was able to connect to the virtual universe... So the Brahma Breath Secret Realm, Ice Crystal What happened in the valley soon became clear, causing a huge shock in the entire universe!

This is an accident with tens of thousands of Universe Venerables at once!

This battle is destined to become a shocking event that cannot be erased in the history of the universe!

The extinction of more than 10,000 cosmic sages (at least the high sages of the universe) at one time is extremely rare in the history of wars of countless forces in the entire universe, and they are all major events that can shake the universe.

Because the influence is so great, countless powerful forces have been alarmed. The cause, course, development, result of the entire incident... and the rest, the battlefield was personally checked by the master of the universe, and even more than one of the strongest in the universe. Coming, showing up.

Zerg Alliance, Mechanical Alliance, Monster Alliance, Human Alliance, Prison Alliance, Crystal Alliance, Star Giant Beast Alliance, Northern Frontier Alliance, Ancestral Gods...

Fengfeng Alliance, Nine Regions Alliance, Nightfire Alliance...

All the major forces in the universe were enraged and issued an angry statement that the culprit who caused this incident would pay the price!

Stabbed the sky!

The tens of thousands of cosmic sages are almost all higher cosmic sages. There are hundreds of human confederations, and there are dozens of them belonging to human beings... No matter which force, you will lose dozens of higher cosmic sages at a time, you will not be indifferent. .

What's more, this is not falling, but being enslaved by the soul!

Except for those who have been killed and blew themselves up, other cosmic elders can't be resurrected by resurrection!

This approach... completely angered other forces.

Which cosmic Venerable has no relatives or friends? No teacher tribe?

It's nothing more than falling down.

Soul slavery... Even the strongest in the universe can't reverse the time and space and resurrect!

This is the real permanent fall!

This is something that the universe masters of the major alliances simply cannot tolerate.

All the forces went mad, and more than one cosmic lord rushed out of the retreat angrily, looking for the lord of hell, to avenge his disciples and people.

"To kill the lord of hell, you must kill him!"

"The lord of \*\*\*\* is immortal, so how is the face of our mechanical clan alliance!"

"My disciple is well in the Brahma Breath Secret Realm. The Lord of Hell dared to enslave him, and I must die!"

Many strong people were also shocked, and some news was blocked, or those who had just come out of closed doors, they were dumbfounded when they heard the news.

"Thousands of sages are all captured by the soul secret?"

"So cruel?"

"Which universe lord is the lord of hell, who is proficient in soul secrets, and can put tens of thousands of cosmic sages into a deep sleep, so powerful soul secrets must stand on the peak of the soul of the universe lord... in the universe? I don't seem to have this impression."

"Who knows, this is too terrifying, is it possible that Venerable Ten Thousand Yu will be enslaved by the soul?"

The masters of the universe were furious, and the venerables of the universe were also in an uproar.

Miracle!

There are also some strong people with emotion, as expected, anything can happen in the universe.

Wang Yi had a clone in the outside world, and he also laughed secretly when he heard other venerables of the virtual universe Hongmeng discussing these matters.

"I'm afraid no one can guess that the terrible existence that captured tens of thousands of venerables at once is me." Wang Yi sat in the open-air bar where the venerables collected information, smiling while listening to the surrounding venerables in amazement, angrily talk.

In this incident, Hundreds of Universe Venerables also lost their news in Hongmeng.

However, they all stayed quietly in the Tongtian Tower, falling asleep.

Wang Yi suddenly received an urgent email from Virtual Universe.

"Well, Chaos City mainly sees me~[www.mtlnovel.com](http://www.mtlnovel.com)~Wang Yi is not surprised about this.

Others were kept in the dark, but the Lord of Chaos City, including the Lords of the Human Race and the Universe, knew Wang Yi's true identity.

This time the Blue Pole Iceland battle also shocked them.

This battle also confirmed that Wang Yi has the power of the Lord of the Universe!

The record of putting tens of thousands of cosmos venerables to sleep at one time, mastering time and space, the strongest mystery... all heralds that Wang Yi is truly comparable to the Lord of the Universe!

...

A silent and ancient starry sky, as if it was frozen by ice, seemed extremely depressing. The seven huge phantoms transformed by the seven thoughts are divided into six directions.

The nine pinnacle forces of the universe, in addition to the human race, the ancestors and the Northern Xinjiang Alliance, the other six forces: the Star Giant Beast Alliance, and the other five pinnacle races, a total of seven strongest in the universe, for the newly-occurring Blue Pole Iceland's tens of thousands of cosmic gods The things that the readers have heard of without a trace...gather here!

#### [Chapter 457: Gathering at the highest level of the human race](#)

Wang Yi was still happily enslaving the sleeping venerable aliens in the Tongtian Pagoda.

By his side, there was already a group of new Venerable Soul slaves helping.

When the strength is increased to this point, the number of soul slaves that Wang Yi can have has greatly increased.

This time, being able to capture so many high-level cosmic lords, and even many cosmic overlords, is completely uncopiable.

Normally, the overlord of the universe is almost impossible to be enslaved by the lord of the universe.

However, Wang Yi possesses the strongest secret method of the Lord of the Universe Soul, plus a divine body that burns more than 90,000 kilometers, to perform such a powerful trick.

Every second is equivalent to the loss of tens of thousands of kilometers away from the Lord of the universe!

Which universe lord is willing?

This step can be achieved by possessing a \*\*\*\* body tens of thousands of kilometers high and possessing the strongest soul secret method of the Lord of the Universe.

But are they willing? Just to enslave the overlord of the universe to burn and accumulate countless years of tens of thousands of kilometers high divine body, no one is willing!

That's why there are so many cosmic overlords and high-level cosmic lords who can't even struggle, so they get caught, fall into a deep sleep, and even have time to explode!

Of course, it was also because they didn't know the strength of the \*\*\*\* lord.

Who could have imagined that the lord of \*\*\*\* is actually the lord of the universe, and he can also use the strongest secret method of the soul!

There is no time to escape!

There was no choice to self-detonate at the first moment. When the attack came, it was too late.

And this incident also allowed the \*\*\*\* lord's sordid name to spread throughout the universe, and after that year, the "Blood Cloud Palace Lord" became another universal public enemy.

Of course Wang Yi didn't care anymore.

What does the Lord of Hell have to do with Wang Yi, my human being?

There are also reasons why he uses "mastery of time and space" to confuse all parties.

"Mastering Time and Space", "Master of the Universe's Most Powerful Secret Method"...all have conclusive evidence that the Lord of Hell is the true Lord of the Universe.

At that time, Wang Yi will break through again and become the lord of the universe in full view.

Isn't this suspicion cleared up?

"Anyway, at least for now, I can't let the outside world know that the lord of \*\*\*\* is me." Wang Yi thought leisurely.

He didn't want to be blocked by a group of the strongest in the universe as soon as he went out.

This time, all parties in the universe were really offended to death. Except for the Hongmeng and the Ancestral Sect, the other strong Wang Yi did not stay, and all chose to forcefully enslaved them.

Except for the luck that blew himself up, the rest can't avoid becoming a slave to Wang Yi's soul.

But as Wang Yi became more and more proficient, and with the many helpers around him, fewer and fewer could blow himself up... The speed of enslavement was very fast, and in the end, 10,321 Cosmos Venerables were enslaved by Wang Yi!

The treasures on their bodies were also swept away by Wang Yi.

Slaves don't need treasures, they give them all to the master.

These treasures were thrown into the panel by Wang Yi in a blink of an eye and exchanged for the most precious points.

Now Wang Yi's killing value is "1361198"!

The treasure point is "5366"!

Most cosmic sages do not have treasures in them. There may be two or three of them, but they are very common. There are more than one hundred cosmic masters, and the total amount is more than 3,000 treasures.

But the kill value is different, any high-level cosmic master has a kill value of 100, the cosmic hegemon is 500, and the top cosmic hegemon is 3000.

Ten thousand high cosmic venerables, that is, one million kills, which is equivalent to 100,000 treasure points!

The killing value and the loot harvest are all exchanged for the treasure points, more than 140,000 treasure points.

Wang Yi seemed to see the Xeon Supreme Weapon beckoning to himself.

but.....

He wiped his saliva.

He is not yet the Lord of the universe.

Only by becoming the master of the universe can you exchange for the Xeon Treasure on the panel!

Now, he can't even see the information of Xeon Zhibao, but based on some information, he can probably estimate the amount of the Xeon Zhibao weapon needed.

"One hundred and forty thousand utmost treasures are enough. It should also allow me to exchange for some other utmost treasures." Wang Yi felt very happy.

The vote this time is worth it!

Massive treasures, tens of thousands of slaves, it can be said that they are dead!

Of course, he selectively ignored the distressing reactions of all parties after such a large loss.

Now, he still has some things to confess to the human race.

This time, Wang Yi will officially step onto the highest stage of the human race with the strength and performance of the Lord of the Universe.

...

The virtual universe of the human race, the temple of the giant axe.

In the endless darkness, there are faint starlights in the distance. A simple temple is suspended in the air. There is a long stone table in the not too big open space in front of the temple. The main position of the long stone table is only a stone chair, and the two sides are Each has a row of stone chairs, and at this moment, there are towering figures sitting on these stone chairs.

Seated a master of the universe of the human race.

This time, Wang Yi's amazing act in Blue Pole Iceland completely shocked the universe masters who have experienced countless winds and waves.

They never thought that Wang Yi, who had repeatedly said that he was the top cosmic hegemon, had such a power against the sky. He didn't say anything to more than 10,000 cosmic venerables at one time, and he even swept them all at once, and captured them all!

As the master of the universe, they know the consequences of being captured.

That's why it feels even more incredible.

"Wang Yi really became the Lord of the Universe? It only took him thousands of years to break through to the Lord of the Universe, and has he broken through to the Lord of the Universe again?"

"It's not the Lord of the Universe, how do you master time and space, and how to use the strongest secret method of the Lord of the Universe?"

"Wang Yi really dare to do tens of thousands of high-ranking universe venerables."

There was a lot of noise in front of the temple, and the masters of the universe, who were usually as stable as a rock, were quarreling one after another at this time.

More than a dozen masters of the universe talked to each other, they were divided into several factions, and their views on Wang Yi also had subtle differences.

And Chaos City Lord, also sitting in the same position, his complexion was gentle.

As the first person in charge of the virtual universe company, the virtual universe collected information and was the first to receive the news. When he first learned the news, even if he was as steady as he was shocked.

The Lord of Qingdong laughed and said: "The facts have been formed. Anyway, Wang Yi is a member of my human race. Whether he is the Lord of the Universe against the sky, he has the main power of the universe, or breaks through and becomes the real universe. Regardless of the Lord, it is our human race that will eventually grow stronger."

The Lord of the Blue East, the ruler of the First Bank of the Universe, wore a cyan battle armor and a cyan cloak. The complex secret patterns on the cloak formed a beautiful alien animal pattern.

His remarks also attracted the approval of other universe masters.

Indeed, it doesn't matter whether Wang Yi's true identity is the Lord of the Universe or not. To achieve this step ~[www.mtlnovel.com](http://www.mtlnovel.com)~ many of the Lords of the Universe can't do things, Wang Yi can already be on an equal footing with them. In an equal position.

"Fortunately, Wang Yi has been disguising his identity and has not been seen by all parties, otherwise the consequences will be serious this time." A master of the universe sighed.

"Ten Thousands of Universe Venerables, I haven't killed so many since I broke through and became the Lord of the Universe. It really is terrifying afterlife."

"By the way, those Cosmos Venerables, didn't they fall asleep, what should Wang Yi do?"

"Everyone." The Chaos City Lord present here said.

The other masters of the universe calmed down and looked at him.

The host of Chaos City said mildly: "I will communicate with him about Wang Yi's affairs. As for those of the universe, I believe that Wang Yi is a human being and will not do things that endanger the ethnic group."

The other masters of the universe looked at each other, and there was nothing to say. Wang Yi was a member of the Virtual Universe Company, and it would be best if the Lord of Chaos should arrange it.

#### [Chapter 458: Soul slavery!](#)

Virtual universe, Thunder Island.

At the highest point of Thunder Island, the palace of the Lord of Chaos is located.

One is a floating place built in mid-air just above the Chaos City Lord's Palace.

The quaint blue-gray huge round table is surrounded by endless air currents. There are six huge stone chairs next to the blue-gray stone table. At the same time, the back of each stone chair has intricate carvings, even the blue-gray stone table. There are a large number of sculptures, carved with pictures.

"City Lord." Wang Yi bowed slightly and shouted respectfully.

No matter what level of his strength is, the City Lord Chaos has taken care of his elders.

The figure of Chaos City Lord walked out of the chaotic air current, a pair of deep and gentle eyes stared at the humble black-haired boy in front of him, and he nodded inwardly. He saw a lot of people who became arrogant and arrogant when they became stronger, and Wang Yi's heart was very lethargic He is satisfied.

The scene of the previous meeting flashed across his mind, and the Chaos City Lord walked to the huge round table, waved to Wang Yi and smiled affectionately: "Wang Yi, ah, no, now I should call you the lord of hell, come and sit. "

Wang Yi glanced at the quaint blue-gray round table surrounded by six huge stone chairs, thinking of something in his heart, and sat down on the second chair on his left.

There are carvings on the stone table. There are pictures of the carvings. There are three strong men respectfully saluting a strong man, a single strong man slaughtered the square, and two strong men joined forces to attack a group of strong men... carved Very abstract, Wang Yi can faintly recognize that one of them is the Chaos City Lord, and the others, there are also brutal and white-robed men seen on

the mysterious murals of the Lost Galaxy. Wang Yi guessed in his heart that it should be the founder and the creator of the Great Axe. The first ancestor of the strongest man in the universe.

"Wang Yi, we already know about you." City Lord Chaos looked at him, "You are not the Lord of the Universe right now, right?"

Wang Yi said honestly: "Yes." At the highest level of the human race, there is no need to hide this.

Chaos City Lord curiously asked: "The Lord of the Universe can use the strongest secret of the Lord of the Universe, and how did you master time and space, Wang Yi, on earth?" He paused, "Of course, this is just my curiosity. , If it's not convenient for you to answer, it's okay, I can understand."

Regarding this, Wang Yi has nothing bad to answer.

"I have three clones, all beings of flesh and blood. One of them is the clone of Youhai." Wang Yi explained.

"You Hai Clone." The Chaos City Lord's eyes changed. As the Lord of the Universe, he still has a good relationship with the Lord of Jiu You, so why doesn't he know the meaning of You Hai.

Looking at Wang Yi, the Lord of Chaos City admired: "Having the Youhai clone is equivalent to having an infinite supply of divine bodies. Wang Yi, it will be hard for you to die in the future."

The Chaos City Lord showed confusion again, "However, although Youhai Clone has the ability to master time and space, it seems to be able to do it by transforming the sea. According to the situation of the day, it seems that you were not using Youhai Clone?"

"Yes." Wang Yi continued: "There are three avatars, and the disciples have other chances to raise the level of all body life genes to ten thousand times the perfect level! Consciousness enters the origin of the universe, and is given a gift of secret magic! This can be used. The strongest talent secret! That's the one I used in Blue Pole Iceland."

"As for mastering time and space... that is another opportunity for the disciple, and it has something to do with the strongest world tree in the Ancestral Mystery Realm."

"So that's the case." The Lord of Chaos City suddenly realized. Although there are still many things that I don't understand, such as how Wang Yi increased the level of life genes by ten thousand times, you must know that the lord of the universe can only reach a hundred times the level of genes, which is the limit, even the universe. The master wants to improve the level of life genes to perfection.

To be able to achieve the perfect genetic level is basically the strongest in the universe.

For another example, how did Wang Yi get the mastery time and space talent of the strongest world tree.

For another example, how did those treasures of Wang Yi come from?

However, City Lord Chaos understands that everyone has their own secrets. Wang Yi can tell him that he is satisfied. He does not force Wang Yi to confess all his secrets, which is unrealistic.

"Those venerable foreign races were all captured by you, right, there are also members of my Hongmeng, what do you plan to do with them?" Chaos City Lord asked.

"I'm just about to talk to the city lord." Wang Yi looked at the Chaos City Lord, looking straight. With Wang Yi's current realm consciousness, even the mighty Chaos City Lord could not make him feel a little moved, and he was calm in his mind.

"I used the strongest soul secret technique this time and captured tens of thousands of universe venerables in one fell swoop. Except for my Hongmeng and Ancestral God Cult, as well as the dead, everything else has been enslaved." Wang Yi said.

Even though the Lord of Chaos City had already expected it in his heart, he couldn't help but be moved after listening to Wang Yi's explanation in person.

"all?"

"There are 10,321 Universe Venerables in total." Wang Yi said a shocking number.

The Lord of Chaos City's brows trembled slightly, and his mood was very restless.

"10321..."

The entire human race now has only more than 6,000 cosmic masters.

This is what the human race has accumulated over the long years.

But the number of nobles under Wang Yi alone has surpassed all the human races!

Moreover, they are all high-ranking cosmos venerables!

"Wang Yi, you are causing a huge trouble now..." The City Lord of Chaos rubbed his eyebrows with a serious expression. You know, enslaving the weak is okay, but Venerable Universe is a big taboo, especially if you enslaved tens of thousands of venerables from all sides at one time like this unscrupulously, it is hard for me to predict the impact. Do you know what you did? If it leaks out, how much pressure will our human race face?"

Wang Yi is still very calm, "I am confident that my identity will not be exposed unless someone from the ethnic group reveals the secret."

"That's absolutely impossible." Chaos City Lord said, "The one who knows your identity as the lord of the \*\*\*\* is the lord of the human race and universe. There are less than twenty people in total, so how can it be leaked."

"Then I can guarantee that the identity of the lord of \*\*\*\* and me will never be revealed." Wang Yi said confidently.

Back then, the "Hall Master of Blood Cloud" ravaged the universe for so many years, harming all parties, and even the Lord of the universe fell two. It is a bit more serious than what Wang Yi has done now... But the identity of the "Hall Master of Blood Cloud" After so many years, it is still a mystery.

Later, Luo Feng inherited the identity of the "Blood Cloud Palace Master" and did not reveal it.

It's impossible to get to him, you suddenly exposed, right?

Seeing Wang Yi's confident look~[www.mtlnovel.com](http://www.mtlnovel.com)~, the Lord of Chaos nodded his head secretly. It seemed that Wang Yi's behavior was measured, and he would go crazy without his head and bring disaster to the group.

The human race is a big collective. If Wang Yi incurs a huge disaster for no reason and causes the race to suffer huge losses, even the Lord of Chaos might have opinions on Wang Yi.

"Those aliens are enslaved." Chaos City Lord thought of another question, "You can release your own cosmic sages, and I will make arrangements so that they will not be exposed to the outside world, but those of the Hongmeng aliens With the patriarchs of the ancestors..."

The cosmic sages of the human race can be trusted, but the Hongmeng alien races and the ancestral gods teach people to have many eyes, which is not necessarily the case.

This kind of thing cannot be risked.

"Let them continue to sleep first, and then make arrangements depending on the situation." Chaos City Lord suggested.

Wang Yi nodded, this is the arrangement he thought of.

#### [Chapter 459: The 19th Lord of the Universe](#)

At the huge blue-gray stone round table, City Lord Chaos and Wang Yi were talking.

"Wang Yi, although you have not truly become the Lord of the Universe, you are not much different from the real Lord of the Universe." Chaos City Lord said with emotion, "You already have the ability to master time and space, and you have the strongest master of the universe. Secret method, even if you cross that threshold in the future, it will only make the divine body stronger."

Other powerhouses stepped into the masters of the universe. Firstly, the divine body soared a hundredfold, and secondly, the increase in the law perception can create a stronger secret method, and the level of the secret method can also soar two or three levels. On the whole, the combat power is naturally much stronger than when the universe was the overlord.

But Wang Yi's secret method has reached the "strongest secret method" of the master of the universe, and his life gene level has reached ten thousand times perfection. Even if he enters the master of the universe, his divine power is only more refined.

"With your current strength, you can already join us and become one of us." The City Lord of Chaos looked at Wang Yi with a smile, "Before you came, the highest resolution of the human race was passed unanimously. You are the number one in my human race. 19 masters of the universe."

Regardless of the power, there must be some secrets. Like the Lord of the Universe, the human race also has an undisclosed Universe Lord. Even the Cosmos Master of the human race does not know how many Universe Lords his race has. Obviously this is the highest secret of the human race.

Of course, the Lord of Chaos City didn't know that Wang Yi had already known the secrets of the human race, and he was still continuing to explain it. "If you don't include you, the entire human race has 18

universe masters, my Virtual Universe Company and Giant Axe Fighting Ground each have 5, the universe mercenary alliance has 3, the universe first bank has 3, and the universe galaxy bank has There are two masters of the universe."

"With you of course, I have 6 people in the Virtual Universe Company."

"Haha...Congratulations, becoming the lord of the universe faster than your teacher Pang Bo."

Wang Yi couldn't help but smile.

After so many years, finally reached this point, he can also stand together with the masters of these universes to become the highest level of mankind.

"However, your information is still in absolute secrecy, and it is only known to a very small number of high-level members of the ethnic group." Chaos City Lord said again.

...

Following the report of the Chaos City Lord, Wang Yi also had a more detailed understanding of the situation of the most powerful players in the Virtual Universe Company.

The entire virtual universe company, including him, currently has six universe masters.

Except for "Chaos City Lord", the first power holder of the virtual universe company.

The first one is the Lord of Longxing. The Lord of Longxing is the very early veteran of the virtual universe company, who entered the universe early.

The second is the junior of Chaos City Lord, Lord of Bingfeng. Very inaccessible, extremely indifferent, extremely withdrawn. The Lord of Bingfeng is a super existence in close combat, with extremely strong combat power, and belongs to the ranks of the pinnacle of the Lord of the Universe, and I am afraid that it is slightly weaker than the Lord of Chaos.

The third is still the junior of Chaos City Lord, Lord of Darkness. He is also the most low-key and hidden master of the universe. Great reputation in the universe! He is a terrible master of the universe.

The fourth place is the Lord of Youhou. The Lord of Youhou was the youngest Lord of the Universe before Wang Yi joined the Virtual Universe Company, and he was a direct disciple of the Master of Chaos City Master and the Master of Darkness. A master of the universe who is extremely arrogant and strong in killing and fighting. Of course, he was weaker than the Lord of Bingfeng and City Lord of Chaos, but he was also the stronger Lord of the Universe in the universe.

Chaos City Lord smiled, "Plus you, our Virtual Universe Company now has 6 universe masters, and it is also the one with the most universe masters among the five human race groups."

In the past, the Virtual Universe Company and the Giant Axe Fighting Field were equal in the number of masters of the universe, but now with the rise of Wang Yi, the Virtual Universe Company overwhelms the Giant Axe Fighting Field in terms of the number of masters of the universe.

"After a while, they will come over and meet you."

"You are a disciple of Pangbo, and logically speaking, you are also in the line of my family, but our existence is not very particular about these. If you want, you can call it by seniority, if you don't want it, you can also call it by name." Chaos City Lord said .

The life span of the super existence in the universe is too long. Immortality can be eternal as long as it does not fall. Generations of apprentices are collected from generation to generation, and there is a big gap in strength. Therefore, they are not so particular. Chaos City Lord did not deliberately ask Wang Yi to call him before. To be the master is entirely up to Wang Yi's wishes.

Not long after, a figure walked in the distance, tall and thin, with two ears facing upwards, like two sickles, with an eye on the brow, and wearing a set of scaly dark blue armor.

This is the famous "Master of Youhou" of the virtual universe company.

But because it was in the virtual universe, he did not carry his iconic "Youhou thorn".

"Hahaha..." The Lord of Youhou laughed loudly and strode over, "You are Wang Yi, right? I heard about you. It's amazing to capture tens of thousands of Universe Venerables at once."

His Lord of Youhou was a powerful man full of evil spirits, but he showed a friendly smile to Wang Yi.

The Lord of Youhou greeted the Lord of Chaos City and sat down beside Wang Yi and patted him on the shoulder, "Wang Yi, when I see you, I feel like a match. I think we have a common topic."

Wang Yi also has a good impression of this "lord of the Youhou".

And shortly after "The Lord of Youhou" appeared, a figure suddenly appeared in the distance. He had a burly body, a long dragon tail, and a pair of eyes that seemed to conceal the entire universe. He could just stand there. That invisible domineering aura made this virtual space tremble and twist. This is another universe master of the Virtual Universe Company, the "Lord of the Dragon".

"Haha, it seems that I am not too late." The Lord of Longxing glanced at the three people in front of the round table and laughed loudly.

"Dragon Walk."

"Dragon Walk."

Chaos City Lord and others also said.

The Lord of Longxing found a seat and nodded to Wang Yi.

Later, "Lord of Darkness" and "Lord of Bingfeng" also appeared one after another.

"Lord of Darkness" Wang Yi has seen him on the battlefield outside the territory before, and "Lord of Ice Peak" is a silver-haired man with white temples and a sword on his back. He wears an ancient battle armor with blood stains, but only from his appearance. Look... Among the six universe masters of the Virtual Universe Company, the master of Bingfeng and Wang Yi should be the most handsome! And it is in line with the overall aesthetics of the human race.

"That's right." Chaos City Lord thought of something and said, "Wang Yi, you are now the Lord of the universe, at least in the highest circle of our human race, you have proven your strength and can get the corresponding status, for the convenience of calling, Do you have any thoughts on your title of Lord of the Universe?"

After becoming the lord of the universe, you may have some ideas, so most of the lord of the universe will change to a new title.

Like the Lord of Chaos City, he was entrusted by his original ancestor to sit in the City of Chaos.

Other masters of the universe also looked at Wang Yi.

"Title?" Wang Yi muttered to himself.

But he already had an idea.

"Just call... the Lord of Chaotic Source."

#### [Chapter 460: Lord of Chaotic Source](#)

"Master of Chaotic Source?" The others stared at each other.

"Yes, Lord of Chaotic Source." Wang Yi smiled. This title also represents his ambition.

"Master of Chaotic Origin." The five masters of the universe in the room thought for a while, and then all nodded.

The title is just a code name, you set your own title, and other strong people will not interfere.

Unless it is too ugly or taboo, no one will care about your title.

"Okay, then the sixth master of the universe in my virtual universe is the master of Chaotic Origin." Chaos City Lord suddenly got up, "Go, take you to see the creator of my virtual universe."

"Let's go, see the teacher." The Lord of Darkness got up.

"See the teacher to go." The Bingfeng Master also got up.

The Lord of Youhou and Lord of Longxing also stood up with solemn expressions.

Wang Yi also got up, with a glimmer of expectation in his heart, finally going to see the original ancestor, the strongest man of this era who swallowed the starry sky.

The six masters of the universe flew directly toward the endless chaotic airflow in the sky, and kept advancing along the endless airflow.

While flying, the Lord of Chaos City talked to Wang Yi about the secrets of the human race full of memories.

"Wang Yi, I, Darkness, and Bingfeng are all teachers' disciples. Even the founder of the giant axe has been under the guidance and kindness of the teacher."

"He is the first strongest person in the universe in my human race!"

"Teacher, his name is 'Yuan'."

...Under the narration of the Lord of Chaos, the past of a super strong man who was magnificent and traversing the universe also unfolded in front of Wang Yi's eyes, let him listen with breath.

At that time, the human race was just a powerful race, and under the leadership of "Yuan", it continued to grow and become stronger. "Yuan" crossed the universe, smashed into the universe, and killed countless people, and its prestige was endless! The human race has continued to grow stronger.

"Yuan" has made a great contribution to the human race. If it weren't for his existence, the human race would not have become the pinnacle race so easily.

The other four masters of the universe also looked slightly excited, immersed in the past.

That was the strongest and most glorious moment of the human race!

The six strong men flew through the air, and the surrounding chaotic air flow kept separating.

Soon after, the endless air currents around were already thin, and in the distance of the endless void, there was a towering and endless statue.

"Here." The voice of Chaos City Lord also sounded in Wang Yi's ears at the right time.

Wang Yi looked up, surrounded by air currents, the endless towering statues...There are endless laws of fluctuations, gold, wood, water, fire, earth, wind, thunder and lightning, light, space, time, golden sky, Mu Kong, Water and Air...Many laws and even operating laws fluctuate from the endless statue.

In a daze, Wang Yi felt that this endless and towering statue resembled "The Origin of the Universe."

"That's the original?" Wang Yi didn't know what it felt like looking at the towering statue from a distance.

This is the greatest existence in the history of such a human race, the strongest existence in the Primordial Universe and even the Universe Sea, and the peerless powerhouse who has also cultivated three disciples of the Lord of the Universe, including the City Lord of Chaos.

As the six masters of the universe flew forward, the endless void, the closer, the taller the endless and majestic statue naturally became clearer.

Yuan is a slightly thinner man with a simple white robe and a smile on his face. His smile is a perfection that can penetrate everything. He just looked up at the statue from afar and looked at it. The slight smile on his face made Wang Yi's mood completely peaceful, and a warmth of returning to his mother's embrace filled his heart.

His eyes seemed to see through everything in the infinite universe, and there was nothing he didn't know.

The stature is stalwart, standing upright.

The endless universe revolves around him.

Wang Yi obediently stepped forward to see him, and saluted respectfully. "The disciple pays homage to the original ancestor."

This worship was also willing, and Wang Yi also admired the existence of this series of great achievements.

There is no original ancestor, there is no virtual universe created by the original ancestor, there is no human powerhouse such as the founder of the great axe and the "Chaos City Lord" taught by the original ancestor, and there is no powerful human race today.

The Chaos City Lord and others stayed in front of the statue for a while, then bowed and flew away from here.

After they left, the eyes of the towering statue standing in the endless era seemed to move faintly, glanced at the place where the six figures disappeared, and a sound of Ruoruuowu sounded.

"Wang Yi..."

At the same time, if Wang Yi looked back, he didn't find anything before turning around and continuing to leave the original place of the virtual universe with others.

I still muttered in my heart, "This "virtual universe" secret method of the original ancestor is really too bad..."

...

Thunder Island.

When Wang Yi and the six masters of the universe came back, they all received another email from the founder of the giant axe, asking them to attend the highest-level meeting of the human race.

The highest meeting of the human race is divided into two categories.

One is a large-scale supreme conference in which all the sages of the universe, all the masters of the universe, and the strongest of the universe will all participate.

This kind of large-scale highest meeting is generally a big event, or a big event that affects the interests of the sages of the universe.

For other important events involving the ethnic group, general discussions at the highest level of the ethnic group are sufficient.

This highest-level meeting...is attended by the Lord of the Universe, the strongest in the Universe. Because it was the founder of the Great Axe, it was also called the "Great Axe Meeting".

Now that Wang Yi's authority has increased, he can also directly send to the Great Axe Temple, participate in the highest meeting, and become one of the decision makers.

The masters of the universe, the strongest in the universe, really make decisions on major issues of the human race.

In the endless darkness, a simple temple was suspended in the air. In the open space in front of the temple, there were already towering figures sitting on a long stone table. They seemed to be waiting for something, and occasionally exchanged a few words.

"Wow!" Six figures appeared almost at the same time, and they were exactly the six powerhouses of the virtual universe headed by Chaos City Lord.

"chaos."

"Chaos, here you are."

"chaos."

Wang Yi's eyes quickly swept across the scene, and the masters of the universe were also observing Wang Yi.

The presence was clearly divided into factions. The six universe masters of the Virtual Universe Company sat down, sat together, and chatted with other universe masters.

A total of 19 universe masters from the human race ~[www.mtlnovel.com](http://www.mtlnovel.com)~ have all gathered here.

Through exchanges, Wang Yi also got to know other cosmos masters, and actually learned some of the human situation at the highest level.

The human race is divided into five major factions.

Virtual Universe Company, headed by Chaos City Lord.

The battlefield of the giant axe is headed by the founder of the giant axe, and is usually presided over by the master of the virtual gold. He is also the temporary teacher of 'Hong' and 'Thunder God', and created the "Tianxu Chaos Stele".

The Cosmos Mercenary Alliance is headed by the Lord of Famine Jian.

The First Bank of the Universe is headed by the Lord of Qingdong.

The Universe Galaxy Bank is headed by Peng Gong's master.

The giant axe hasn't arrived for the time being, and everyone present also knew that Wang Yi had already named him "The Lord of Chaotic Source", and some directly called him the "Chaotic Source".
