

A God 461

[Chapter 461: Lords of the universe](#)

"Hunyuan, you have been the lord of the universe for more than ten thousand years, but it is really admirable. I was just like you at the time, and I was only the lord of the universe."

"Chaotic Source, what did you do with the capture of those venerables in Blue Pole Iceland? My disciple Suihuo is in your hands."

"Hunyuan, what is the principle of your strongest soul secret technique? I also study the way of the soul, but the strongest soul secret technique has not been created successfully for so many years. We have time to discuss it together."

"Chaotic Source..."

Faced with the curiosity of these enthusiastic masters of the universe, Wang Yi also responded one by one.

Most of the masters of the universe have been very friendly to Wang Yi, of course, there is no lack of indifferent and indifferent.

The Lord of Xujin, the Lord of Desolate Jian, the Lord of Qingdong, the Lord of Peng Gong, the Lord of Desolation...

Wang Yi's gaze swept over the many masters of the universe present, remembering their reaction in his heart.

According to the general division of the power of the Lord of the universe in the primitive universe.

The strength of the Lord of the Universe can be roughly divided into "first entry", "ordinary", "peak" and "top".

First entry refers to the Lord of the universe who has just stepped into the universe, whose life gene level is one hundred times, and has not had time to create the ultimate secret method of the Lord of the universe. Generally, the masters of this kind of universe rarely show up, and will live in seclusion first to concentrate on improving themselves.

Ordinary, it means spending some resources to reach a level that is temporarily difficult to improve, such as a thousand times the level of life genes, which also creates the ultimate secret of the Lord of the Universe, and obtains a good treasure.

Peak, or get the heaven-defying treasure! Or create the strongest secret method! Or the level of life genes reaches tens of thousands of times! Satisfying the first, the other two levels should be close, which is almost the peak.

The top, such as the lord of the ice peak, or the lord of the galaxy who does not perform tricks.

And the top of the top is the Master of Galaxy, the Lord of Chaos, and the Lord of Darkness who use the strongest fusion of secrets. They are extremely strong in life levels, treasures, and secrets!

Of course, according to Wang Yi's understanding, there are more specific classifications based on "rank".

It is also the first cosmic age of the universe sea (the original universe is the third cosmic age), and the division of the strength of the master of the universe is divided into six levels.

If divided according to that, the fifth level is the level of the master of the galaxy and the city of chaos. Generally, it has created the strongest secret method of fusion, or obtained strange things.

The sixth order...There is no such division in the primitive universe. This sixth order refers to the master of the universe with the strongest treasure.

For example, the Chaos City Lord was originally a Tier 5 top, and when he got the Xeon Supreme, he was Tier 6.

But how precious is the Xeon Treasure, there are more than a dozen of the strongest in the original universe, and there are still some who do not have the Xeon Treasure.

For example, "the ancestor of monsters", such as "the founder of the great axe"...

Therefore, in the original universe, there is no master of the universe with the strongest treasure, and naturally there is no master of the sixth-order universe!

Wang Yi estimated his own strength. The **** body is considered to be the lord of the universe with a hundred times the genetic level, and the basic law perception is considered to be the level of the hegemon of the universe. He has created the most unique cosmos and possesses the strongest secret method. Not counting the Sky Tower and the colorful Aurora Lake, he also owns three pieces. The pinnacle of supreme treasure...

The strength should be considered to be between the second and third ranks, and the strength is not the bottom among the masters of the universe, but it is not very strong.

Compared to the third-tier "peak level", such as Emperor Yan, the "lord of flint", and "lord of worms" of the human race confederation, the main universes are a bit worse. However, with the huge divine body and the most treasures, even the Chaos City Lord level The Lord of the universe wants to kill him, and there is no possibility.

Of course, this kind of strength is also mixed in the primitive universe, and it is easy to kick the iron plate into the universe where the strong are like clouds.

For example, the "God Eye Race" is the strongest among the peak races in the First Universe Age! The strongest in the seven universes! Nearly a hundred masters of the universe! All of them have lived for a long time... Even if the lord of the ice peaks in the human race, among the nearly 100 universe lords of the God Eye tribe, they can only be regarded as "medium".

If Wang Yi meets one casually, it's not bad that he can save his life.

However, the only difference is that compared with those of the ancient universe masters who have practiced for countless years and whose progress has been close to nothing, Wang Yi is still young and has unlimited possibilities for progress.

"Among the current superpowers of the human race, the Chaos City Lord, Darkness, and Peng Gong should be the Lords of the fifth-order universe, and others such as Bingfeng, Longxing, Huangjian,

Qingdong, and Xujin are all fourth-order. There are more than three levels." Wang Yi said with emotion. On the master level of the universe, the human race is considered extremely high in the vast universe.

And he is just a crane tail now.

However, he has only cultivated for more than 10,000 years and has the main battle power of the universe, in the eyes of other universe masters, it is also extraordinary.

...

As time passed, "the founder of the great axe" finally appeared for the last time.

"Wow!" In front of the long stone table in front of the temple, abruptly, a savage giant with loose hair appeared on the main seat.

Suddenly the masters of the universe were quiet, and their expressions were respectful.

This is also the first time that Wang Yi has seen with his own eyes the only living strongest man in the universe.

Founder of the Great Axe!

"Sure enough, he is far inferior to the founder of the giant axe, but in appearance and temperament... it is very similar to Rong Jun!" Wang Yi said inwardly. The founder of the giant axe and the savage Rong Jun obviously have the same temperament. "Is it in the same vein?"

The creator of the giant axe and the masters of the universe chatted for a while, and then smiled and said: "From today onwards, the number of the masters of the universe of our human race has one more, and that is Wang Yi, oh, he is now called" The Lord of Chaotic Source".

The lord of the surrounding universe laughed.

In any case, it is a good thing that the human race has one more master of the universe.

"According to my human rules." The founder of the giant axe kindly nodded to Wang Yi, and said in a deep voice: "Everyone who becomes the master of the universe can get a treasure of the value of a top-notch weapon from the race, Wang Yi, what do you want?"

The top treasure weapon, generally worth hundreds of treasure points. That is to say, the peak tribe like humans will give such generous gifts to the newly promoted Lord of the Universe. Replaced with such as the Northern Frontier Alliance and some small forces, those who have just broken through to the Lord of the Universe receive very few gifts. Mainly rely on the individual to work hard.

However, Wang Yi said, "I have been bestowed by Chaos City Lord before, so I don't need the bestowment this time."

He has enough treasure points, there is no need to take advantage of the ethnic group.

He had only accepted gifts from others in order to accumulate ~www.mtlnovel.com~ and he was carrying a huge amount of treasure on the panel, and there is no need to continue to accept gifts from ethnic groups. It is not his style to always take advantage.

The founder of the Great Axe looked at the Chaos City Lord, and the Chaos City Lord looked at Wang Yi, muttered, and said, "I did give Wang Yi hundreds of treasures before. Since Wang Yi is unwilling to accept it, let's give it this time."

Other universe lord nodded secretly, this is indeed the style of Chaos City lord.

However, Wang Yi took the initiative to reject the gift from the ethnic group, which was somewhat unexpected.

If he doesn't refuse, it is probably a matter of course to get the treasure of the ethnic group. After all, it was a personal gift from the Chaos City Lord, but this time it was a gift from the race. It was different. When Wang Yi spoke, his nature changed.

"Is Wang Yi stupid?" some masters of the universe thought.

They didn't know that Wang Yi had so many treasures that even the strongest in the universe would be jealous.

[Chapter 462: Everything is done](#)

Wang Yi is unwilling to take advantage of the race, the Lord of Chaos City agrees, and the founder of the Great Axe is not reluctant.

Then he mentioned another thing.

"Next, it's about the Venerables who were enslaved by Wang Yi."

"I already learned from Chaos."

"Before, Wang Yi disguised himself as the lord of hell. In the blue pole Iceland of the Brahma Breath, he captured tens of thousands of venerable aliens in one fell swoop... This is a very large number, and Wang Yi has all been enslaved. He alone has it. Tens of thousands of venerables are servants." The eyes of the creator of the giant axe were glorious, and the other masters of the universe were also silent. Everyone looked at the creator of the giant axe, with different colors in his eyes, and his heart was shocked.

Thousands of sages!

How many sages are there for the entire human race!

More than six thousand!

The number of enslavements by Wang Yi by himself is far beyond the scale of the universe sages of the human race.

Venerable, it is nothing to the Lord of the Universe. No matter how large the number of ordinary Venerable Universes, they are not the Zerg mother emperor, and it is difficult for them to play a role in the battle of the Lord of the Universe.

But the role of the Universe is to give birth to the Lord of the Universe as much as possible.

Thousands of Cosmos Lords, these are not Cosmos Lords who cannot progress. It is no exaggeration to say that in the future, it is very likely that many Cosmos Lords will be born.

The momentum of the virtual universe company will grow stronger.

Even if Wang Yi is stronger, he might be able to establish another line of influence in the human race!

This is not impossible.

However, this is Wang Yi's soul servant, and it is useless for others to envy it.

Because this can't be replicated, other universe masters can't do it even if they want to be enslaved.

It is very difficult for them to enslave a universe overlord, let alone tens of thousands of universe venerables.

This is almost a miracle!

All the masters of the universe looked at Wang Yi with complicated eyes.

"I have to say that Wang Yi did a good job this time. There are tens of thousands of cosmic lords, and it is very likely that many cosmic masters will be born in the future. At least two or three are very possible." The creator of the giant axe praised.

The masters of the universe at the first bank of the universe and the bank of the universe galaxy did not speak, and there were only two masters of the universe in their veins.

"Wang Yi is our human race. He can have a few more masters and servants of the universe, and he can also be the help of our human race in the future. However, this time he also offends almost all the major forces in the universe, so these people cannot Use it." The founder of the giant axe cautiously said.

Others also nodded silently. No one accused Wang Yi of why he did it. He did everything. The most important thing now is how to deal with the troubles.

As long as it's not found, it's okay.

Once discovered, the fun will be great.

After discussing for a while, Wang Yi also promised that he would never cause trouble to the human race, and this matter was over.

The captured universe venerables of the Ancestral God Sect and the Hongmeng alien race will not be able to return for a long time.

The cosmic sages of the human race have also been unable to show up for a long time, but the high level of humanity will make arrangements for this, and Wang Yi does not need to worry about it.

"Chaotic Source, although you are now the master of our human race, but your identity has to be kept secret. In the outside world, you are still a venerable one." said the founder of the giant axe, "what do you plan for yourself in the future, say Talk about it."

The founder of the Great Axe still has great expectations for Wang Yi, whether his talent clone is destined to be extremely strong, or many treasures, or his subordinates may give birth to multiple

masters of the universe in the future... all prove that Wang Yi's future is destined to become the top existence in the universe.

He is also very happy that such an existence can appear in the human race.

The other masters of the universe also looked at Wang Yi, curious about his choice.

Wang Yi said, "I plan to stay in my hometown galaxy in the future, and I will practice and break through to the Lord of the universe."

The Chaos City Lord and others were a bit surprised. Wang Yi devoted himself to cultivation. This was a normal choice. After all, he was the Lord of the Universe now, and the most important thing was to break through to the Lord of the Universe as soon as possible.

But a planet resident in their hometown surprised them a little, because the Lord of the universe is generally in some secret realm such as a primitive secret realm.

It is very rare for a cosmic lord to be stationed in a galaxy, but the Chaos City lord did not say much to obstruct it. This is Wang Yi's personal choice. As long as it does not affect the overall situation of the ethnic group, they will not interfere more.

The masters of the universe glanced at each other, and there was no objection from the virtual universe company. Although the others were puzzled, they didn't say much.

The creator of the Great Axe said: "You chose to give up the value of the top treasure weapon before. Since you choose to stay in the galaxy in the future, then the race will transform your territory, the Milky Way, to make it more stable and convenient. You are stationed."

Chaos City Lord also smiled and said: "The Milky Way is just a galaxy, with a very small range. It is firmly built with a top treasure value, and there is still left to build the most stable galaxy."

"Thank you for the ethnic group, then." Wang Yi did not refuse the great axe's kindness this time.

Therefore, everything was decided in this way. Wang Yi changed his name to the Lord of Chaotic Source, and he will reside in the galaxy, preparing to concentrate on practicing as the Lord of the Universe... In the eyes of others, Wang Yi will be silent for a long time. After all, the universe The Lord is not so well accomplished.

How long has it been for Wang Yi to become Venerable? According to the ideas of the Lord of the Blue East and other universe masters, I am afraid that there will be no success in a few million epochs.

This meeting was mainly to greet Wang Yi, and then talked about some primordial stars, the universe and the sea, and then the meeting was disbanded.

The masters of the universe in the virtual universe also dispersed, only Wang Yi stayed and strolled with the Chaos City Master in the palace at the highest point of Thunder Island.

"Wang Yi, are you really planning to stay in the galaxy forever?" Chaos City Lord asked.

Wang Yi nodded. "Yes, forever in the galaxy." After all, the galaxy is also his hometown, and the earth must be in the galaxy to play a special role. Once you leave the galaxy alone, there will be no such

magical role in nurturing souls, unless the entire galaxy is packaged and moved. , But what a huge project, and the humans on earth are still developing at a high speed and are in line with the universe, so there is no need to do so.

The master of the universe of the human race is generally stationed in the powerhouse of human territory. As a result, there are cosmic sages, immortals, and some geniuses gathered there, and they need to be guarded by super powers.

Secondly, there are usually several cosmos masters in the most important places of ethnic groups, so that if they encounter major disasters, they can help each other and get through threats more easily.

If you are alone in the galaxy, if you are suddenly attacked by a foreign race, it will take some time even if other strong people in the race want to rush away. Of course, there are also masters of the universe stationed in their hometowns, but most of them just stay in their hometowns.

However, although the Lord of Chaos City couldn't understand it, he also saw that Wang Yi was determined. Thinking that Wang Yi had the ability to be a clone, even if he was suddenly attacked, he could still save his life. He did not continue to persuade him, but moved to another one. topic.

"Wang Yi, do you have the treasure of the soul now?"

City Lord Chaos knew that Wang Yi had several treasures of unknown origin, but the specific circumstances were not clear.

Wang Yi immediately understood the meaning of the Chaos City Lord ~www.mtlnovel.com~ and he was grateful, and said: "I already have a soul-like treasure on my body." He added another sentence in his heart, and it was the pinnacle treasure.

Chaos City Lord nodded and didn't ask much. Now Wang Yi is not assassinated by the imaginary demon god, the most powerful man in the universe, like Luo Feng in the original history, so the human race is not in a hurry to bestow Wang Yi's higher soul protection.

Chaos City Lord reminded: "Although you are now as powerful as the Lord of the Universe, you are not the real Lord of the Universe after all. Facing some of the highest peaks of the universe, there is still the danger of falling, so you can't be careless about everything. If you face the danger of not being able to escape, you must be timely. Blast decisively, you are the overlord of the universe, even if you fall, the race can still resurrect you, but if you are controlled by the soul, there is really no way."

"I see." Wang Yi nodded seriously. This is also one of the reasons why Wang Yi didn't plan to go to the Universe Sea now. In the Primitive Universe, the strongest in the universe has limitations and cannot exert maximum combat power, but in the Universe Sea, it can be unscrupulous.

When Wang Yi breaks through to the Lord of the universe, his strength will soar, and there are many super treasures. Even if he faces the strongest person in the universe, even if he can't beat him, he can still protect himself.

[Chapter 463: Wang Yi and Luo Feng](#)

Wang Yi has a special position in the hearts of many peaks of the human race.

Treasures are endless. Unpredictable progress in strength.

In just over 10,000 years, he has cultivated to a level comparable to that of the Lord of the Universe. It can be said that with the exception of the natural beast gods, Wang Yi's rate of progress is unprecedented in the primitive universe.

It's so defying now, what about in the future? who knows.

Tower of Babel.

The sea of law.

Wang Yi's avatar of the giant flame star stared at the surging ocean outside, revealing the crystal threads of the law entwined with each other, and they were comprehending.

The Tongtian Pagoda itself contains incomparably profound secret patterns. This pattern of laws... is the true ultimate power, which integrates all laws in it. With the help of the pattern of law... it is possible to realize the secret method beyond the limit of the original universe, but it is difficult to see the comprehension.

Since Wang Yi comprehended the "heart of the eight beast gods" and obtained the "64 sculptures of beast gods", plus the "perfect secret pattern map" of the "strongest talent secret method", he naturally understood the flow of secret patterns.

However, the flow of this secret pattern is also related to the perception of the law, Wang Yi's perception is weak, and the understanding of this secret pattern is naturally slow.

In fact, the mystery pattern is also a manifestation of the law, and the law is the most original existence.

It's just like the secret law and law perception.

At the level of the Lord of the Universe, the divine body gap is already very small, so the treasures and secret methods are even more important.

Some of the treasures themselves contain multiple secret patterns, and some can understand thoroughly and comprehend the matching secret methods. With the most treasures of secret patterns, the natural power is greatly increased.

If you can't comprehend the secret pattern of the treasure itself, naturally you can't grasp it, and you won't be able to exert any power.

It's like using a modern firearm as a stick.

It is as if Wang Yi's Hell Sword has the secret pattern of the triple law, he has only now mastered the secret pattern of the first law, and the secret pattern of the treasure is more profound than the other, and it is more difficult to comprehend.

Under the same strength, one more comprehension can completely lower one.

And the human body also returned to the ancestral sect, with the help of inheritance, and from time to time he signed in with the mentality of having dates and no dates. His current way of the fire and air beast gods has been cultivated to the sixth peak, and The way of the other seven beasts and gods is still the fifth.

Wang Yi intends to use "the way of fire, sky, beast and god" to break through to the Lord of the universe if he can't quickly comprehend the mystery of the law of fusion of the origin of time.

However, the more you get to the back, the slower your cultivation progress will naturally be.

After the battle of "Blue Pole Iceland", tens of thousands of Cosmos Venerables disappeared, and all parties were searching for the culprit all over the world, but Wang Yi, who caused all this, leisurely practiced in the mysterious realm of ancestors.

No one thought that the feat of Blue Pole Iceland that shocked the entire universe was done by a human who had just broken through the Venerable.

And the 10,000 Venerable slaves who had just been collected were also thrown into the inner space of the Tongtian Tower, but they could not use time to accelerate cultivation like Wang Yi did. After all, the more life accelerated by time, the greater the number and the greater the consumption, Wang Yi Now they can't afford to consume so many people, and there is no need, after all, they are not like Wang Yi, making rapid progress.

And Wang Yi's expectation of them is that some universe masters may be born in the future.

But it certainly won't be of much use now.

Occasionally, in leisure time, I also reunited with my family, or met some venerables in the virtual universe, Hongmeng, and learned some interesting facts and secrets of the universe.

If it's just this kind of life, it's pretty easy.

However, Wang Yi, who understands the development of this world, knows that if you don't transcend reincarnation or resolve the world beast crisis, all of this will turn into the past.

And to do that, you must have enough strength.

This is the goal of Wang Yi's hard work.

With this strength, it is impossible for him to put all his hopes on Luo Feng, since he has the ability, of course he has to fight hard.

In the Milky Way, in the starry sky, there is a majestic and fiery red palace comparable to a star. Wang Yi in a red robe walks in the vast palace. Along the way, the palace guards and waiters respectfully salute.

Wang Yi said with emotion that it is not difficult for him to become the master of the universe, because the insights of the secrets will be smooth sailing, and the "heart of the beast god" has already been understood, the way to become the beast **** in the future will be very easy!

But if you want to become the strongest in the universe, you don't have to... because every strongest in the universe must take a different path.

Because the mystery pattern genre, the stream of beasts and gods, etc., all the ancestors have walked through, and they all need to be discarded! If any ancestors have passed by, they need to abandon it. In this way, the road is very narrow.

"If I take Luo Feng's 100,000-fold breakthrough route one step at a time, I don't know if Luo Feng can still go?" Wang Yi suddenly thought of this, but this is just a speculation, and he will not give up on this because of this. the way.

"A few years ago, Luo Feng was trapped in the Ice Prison Star for almost two thousand years. At that time, I was in the Brahma Breath Secret Realm." Wang Yi touched his chin, "But not long ago, Luo Feng came back and got a Beast God's Inheritance Order."

This time, it was the Chaos City Lord who went to rescue Luo Feng, because Luo Feng's teacher, Heavenly Eclipse Palace Lord, was in retreat. Before the retreat, he had entrusted his apprentice to the head of the Virtual Universe Company Chaos City Lord to take care of him.

Ever since he discovered the earth's peerless genius, Wang Yi has now become the backbone of mankind. The Lord of Chaos also values Luo Feng, who is also from the earth and has amazing potential, and he has received the news without saying anything.

The Ice Prison couldn't stop the virtual universe. As long as Luo Feng sent a request for help in the virtual universe, City Lord Chaos knew immediately.

However, Wang Yi in "Dive Xiu" is completely uninterested in mixing up this kind of thing.

He only needs to know that the Chaos City Lord brought Luo Feng back safe and sound from the monster "Lord of Sirius".

As for the twists and turns in the process, whether it was the same as the original history, he was completely uninterested in knowing, if it weren't for Luo Feng this time, he wouldn't even bother.

When he reached his level, it was nothing more than that, like the invincible invincibility of the king, the inheritance order of the beast god, and the genius of the world master.

Oh, by the way, Luo Feng... The news that "Knife River King" was the master of the world was also exposed by the demon clan "Lord of Sirius".

It has attracted the attention of many super beings ~www.mtlnovel.com~ and many forces in the universe.

After all, there is already a living example of Wang Yi, and Luo Feng's attention is even higher than that of the original history.

I heard that the "Lord of Sirius" discovered that Luo Feng was the Lord of the Realm. He suddenly went crazy and must kill him in front of the Lord of Chaos. As a result, he was rubbed by the Lord of Chaos on the ground...

Hey, I don't know what irritated him.

Wang Yi looked down on the "Lord of Sirius" very much. The master of the monster universe was of average aptitude, and his strength was not as good as Emperor Yan. Even the current Wang Yi is capable of fighting him.

Had it not been for a high-level palace treasure body, the Lord of Sirius would not even have the qualifications to stand in front of the Lord of Chaos City.

And he just got the news that Luo Feng has been given the Golden Sky Beast Divine Order by the race, and he is about to go to the mysterious realm of ancestors to accompany Wang Yi.

This time, because King Zhenyan had broken through, Luo Feng was the only one to go.

[Chapter 464: The reunion of the ancestors](#)

The mystery of the ancestors.

Bauhinia Island.

In a castle by the beautiful lake, two young black-haired men are sitting face to face at a round stone table and talking.

The dignified and stern young man glanced around and smiled: "Wang Yi, ah, it should be Venerable Hunting God now. It's very lively near your residence."

"Haha, those are spies from all races staying here to monitor me. They are so boring." The red-robed black-haired boy also smiled: "The news of your Knife River King spreads across the universe now, and you will receive this treatment in the future. of."

"Then should I feel honored?" Luo Feng said helplessly.

The two looked at each other and then laughed together.

The exposure of Luo Feng's Knife River King identity was an accident, making him a thorn in the eyes of all parties, but he was not afraid of it.

It's just that Wang Yi has already messed up the original trajectory. Whether Luo Feng can be as beautiful as the original history of the ancestral gods, I don't know, at least the inheritors of all races will no longer be foolish to give him glory points.

"Since you live here, let me build a mansion nearby, so I can communicate with each other in the future," Luo Feng said.

Wang Yi nodded and reminded, "Beware of assassinations by foreign races."

Luo Feng understood, "I know."

Luo Feng has a clone and many hole cards. Although he is still the master of the world, it will be difficult for Venerable Universe to assassinate him.

"If you need glory, tell me, I can't finish it anyway," Wang Yi said.

He obtained more than 6 million Glory Points through the Battle of Glory World. Even if he exchanged the number of inheritance times, there were more than 60,000 Glory Points.

"I will speak if I need to." Luo Feng was also polite.

Starting from the earth, the two have been friends who have known each other since childhood, and there is no need to get too close to the slightest things.

The two talked about their experiences over the years, and when they talked about Hong and Thunder God, Luo Feng was also quite moved.

Hong and Lei Shen are now world masters, but the speed of progress is far from that of Luo Feng, let alone Wang Yi, who is now the overlord.

Their "Mental Path" is more suitable for later use. Even if they are assisted by a lot of resources, they can't change this fact.

For them, being down-to-earth and getting out of their own way is the most important thing.

Not every genius is Luo Feng and Wang Yi, and their path is not suitable for others.

However, even if the relationship is so good as Luo Feng and Wang Yi, they still have their own secrets, and they will tacitly tell each other, and they will not take the initiative to ask each other stupidly.

When the two drank halfway through drinking, Luo Feng thought of something, he hesitated, and said, "Wang Yi, I have a teacher who wants to meet you."

Wang Yi, who was pouring the wine, gave a slight hand, and then returned to normal.

"Your teacher Zhenyan Venerable? Or the Eclipse Palace Master? No, isn't the Eclipse Palace Master in retreat?"

"No..." Luo Feng took a deep breath and whispered, "It's a new teacher I accidentally met on the battlefield outside the territory."

"Isn't it from my human race?" Wang Yi smiled.

"Yes." Luo Feng nodded, "but the teacher is not malicious to you."

Luo Feng recalled what Zuo Shan Ke said to him at the beginning, and he was also very strange in his heart. Why did he suddenly pay attention to Wang Yi, who was the most powerful person in the universe, who stood at the pinnacle of the universe like Zuo Shan Ke, who was so young?

However, being so interested in Wang Yi with the strength of the mountain guest made Luo Feng think about helping his friends.

What if Wang Yi also fell in love with Wang Yi and accepted him as a disciple, wouldn't it be a good thing?

In terms of Wang Yi's qualifications, it is normal to sit on the mountain.

Didn't Luo Feng never think that the guest sitting on the mountain would be malicious to Wang Yi... It's just that the possibility is too small, a dignified existence of the strongest in the universe, invincible across the universe, wants to kill a cosmic venerable, is he still using calculations?

"Disciple, my identity is more sensitive. Your friend may be suspicious of me. In addition, he has been valued by the human race. I don't want to come out in person... It's best if you can bring him to see me. If you can't, That's okay."

Luo Feng recalled what Zuoshanke had said at the beginning. Zushanke's guarantee was the prerequisite for him to offer an invitation with ease. He looked at his friend Wang Yi and found that his expression was plain.

"Luo Feng, you and I have known each other for so many years. I know your character and I believe you will not harm me." After all, I have never known each other in my life, you and I can believe it, but your teacher..." Wang Yi shook his head. "To be honest, I don't trust your teacher, so you invite me to refuse."

Luo Feng saw that Wang Yi had decided. Although he was a little bit sad and puzzled, he didn't ask any more.

He did have a suspicion in his heart that the guest sitting on the mountain wanted to see Wang Yi. Since Wang Yi cautiously refused, it is normal.

"Don't say this, we continue to drink. We haven't met in reality for more than 10,000 years. This time we have to have a good drink." Wang Yi touched his hand, and a bottle of stone bottles appeared in his hand and gave it to Luo Feng. I poured a glass with myself, and it was instantaneously strong, and the aroma of the wine that made people's souls pervaded.

Luo Feng smelled the fragrance of the wine and felt his consciousness dizzy slightly. He was a little surprised. He is now comparable to the will of the Venerable Universe. He drank too much good wine, and he was affected just by smelling the fragrance. It was incredible.

"What is this?" Luo Feng couldn't help smelling it.

"This is Star Soul Dew, just such a bottle, worth 1 treasure point." Wang Yi said concisely.

Seeing that Luo Feng was a little confused, he realized that he still didn't know the value of the treasure point, and then explained: "1 treasure point is probably worth 3000-4000 heavy treasure points, which is the value of hundreds or thousands of ordinary heavy treasures." Slightly proud, "There are only a few bottles of the ethnic treasure house, which I have exchanged." With Wang Yi's current wealth, it doesn't hurt to spend so much enjoyment.

Even the Lord of the universe rarely enjoys this much.

When Luo Feng heard Wang Yi's words, he shook his hand and almost didn't shake the wine glass.

"Thousands of treasures?" Luo Feng was dumbfounded.

He is also considered to be pregnant with a treasure, and his wealth is extraordinary, but he can't make a drink and drink thousands of treasures so extravagant ~ www.mtlnovel.com ~ This is simply inhumanity.

But when Wang Yi didn't care, Luo Feng knew that this bottle of wine was nothing to him.

It's just that Luo Feng's head is still a little dizzy. A heavy treasure is calculated in trillions of mixed yuan units. How many mixed yuan units do they drink like this?

He felt more and more that the gap between him and the little friend in front of him was getting farther and farther.

But thinking of myself "Star Tower". He calmed down again.

However, he also felt that he and Wang Yi were already at different levels now.

"Drink, of course, good wine must be shared with good friends to have fun." Wang Yi laughed when he saw Luo Feng's thoughtful expression.

"You are right." Luo Feng returned to his senses and laughed.

He also made up his mind that he must become stronger as soon as possible, but he can't let his former partners go too far.

[Chapter 465: Long years](#)

"Wow..."

In the kingdom of God, the sound of the waves is still the same.

In the kingdom of God, the endless secluded sea is constantly expanding, and a large number of lives are created and then merged into the secluded sea to make it continue to expand.

The quiet sea is still expanding, approaching from 10 billion kilometers in diameter to 20 billion kilometers.

However, it took Luo Feng more than 100,000 years to only expand the endless secluded sea to 80 billion kilometers in diameter.

Only a few thousand years have passed, and the endless secluded sea is still less than 20 billion kilometers in diameter.

Above the endless secluded sea, a dazzling and brilliant red shrine hung above the kingdom of God like a star, emitting endless light.

In the middle is an island. The time flow on the island is nearly ten thousand times faster than the outside world. Many immortal kings under Wang Yi's command, and even the mother emperor of the Zerg clan, occasionally appear here, practicing and enlightening.

Although they are far from being able to provide assistance to Wang Yi, some of the most loyal servants under his command are still supported by Wang Yi.

"You Hai, although it is still expanding, but I don't know how many years it will take to expand to the size of the Lord of Nine Nethers." Wang Yi sat in the main hall of the temple, overlooking everything.

As soon as his thoughts move, he can see everything in the entire kingdom of God, and he can clearly feel the speed of the expansion of the sea, very slow, very slow...Of course, this is from the naked eye, in fact, the divine power that increases every minute and every second, They are more than the accumulation of many cosmic elders for thousands of years.

Endless secluded sea, such a huge volume.

It takes a long, long time to increase divine power!

And the larger the divine body, the stronger the recovery ability... Even if a master of the universe explodes instantly, the speed at which he explodes and consumes his divine power at this instant is far less than the speed of the endless sea of automatic recovery!

The greater the volume and the greater the energy, the more amazing the recovery.

Therefore, the growth of "Endless Sea" is very slow in the initial stage.

It will take a long time for the endless secluded sea to grow from 10 billion kilometers to 20 billion kilometers in diameter. From 20 billion kilometers in diameter to 80 billion kilometers in diameter, it is much faster, but compared to the future, it is still much slower. The further behind, the speed skyrocketed geometrically. Otherwise, like the "Lord of the Nine Nethers", it would not have made the huge sea of Nine Nethers.

"Come slowly." Wang Yi sighed with emotion, then settled down and began to practice.

Ordinary places are no longer helpful to him. Even today, he is in danger of losing hands in those peak power places. Before reaching the realm of the master of the universe, he does not intend to go to the outside world.

"I can't let go of the ten fundamental laws. Then, it depends on luck, whether it is the way of the beast **** to achieve great perfection to break through the lord of the universe, or whether to comprehend time and space to become the lord of the universe." In the temple, Wang Yi closed his eyes.

Began to meditate.

The four avatars, some in the Tongtian Pagoda, some in the mystery of the ancestors, and some in other remote areas of the universe, hide their identity and wander, but they are very low-key, with little deeds spread, and occasionally shot for various reasons, showing a little power, But no one knows that this is the Venerable Hunter of the human race...

However, the peak tribes such as the Yaozu seem to have temporarily ignored Wang Yi and the others because of the "Hell Lord" matter. They have never taken any action again. Of course, Wang Yi didn't care.

Even if they didn't die, and invited the imaginary demon to assassinate them like the original, Wang Yi wouldn't even be able to survive the first wave of attacks.

In the Patriarchal Church, it is still very safe.

Luo Feng also started his training career in the Patriarchal Sect. Wang Yi once considered whether or not to directly give him the "Water of the Emperor Sea", but in the end he gave up.

Luo Feng went to the Sea of Nine Netherworlds, the mysterious ancestral realm, in order to breed the third clone. On the way, he obtained the material "Space Heart" of the "Space Origin Supreme" material, which allowed the Demon Killer clone to evolve.

Wang Yi didn't plan to intervene this time, and watch from the wall. If Luo Feng didn't get the blood of Huanghai, he would take action.

During the period, Luo Feng also invited Wang Yi to go to the mystery of the ancestors. After all, Wang Yi is now a venerable, powerful and trustworthy. It is undoubtedly much easier to go together. However, Wang Yi struggled, and finally refused in the name of needing to cultivate.

So Luo Feng could only regret that he went on his own.

Wang Yi looked at Luo Feng's back and shook his head. With Luo Feng's strength and many backers, he would never die when he died. At most, he would experience some twists and turns without his intervention.

...

"Venerable Hunter God has come out again."

"Watch him."

There was a castle by the lake, and a red scaly human walked out of the door, and the spies who were in charge of monitoring from the surrounding parties were also refreshed and began to record information.

"At **** time in **** year, Venerable Hunter came out of the castle..."

Of course, Wang Yi could perceive the surrounding sight and knew that his residence was being monitored by at least a few hundred inheritors from various parties. He shook his head in his heart. These people are really persevering.

Over the years, Wang Yi's life in the ancestral sect has been very regular. He practiced, went to the place of inheritance to accept the inheritance, and occasionally went to the place of treasures, but he did not go to the secret place to wander, leaving many forces helpless, in the secret place. , They still have a chance to deal with the Hunter God, but on Bauhinia Island, this is within the range of the colorful Aurora Lake, unless the strongest in the universe makes a move, they will not be able to kill the Hunter God.

Even if you want to buy some inheritors to lure Venerable Hunter God, it is useless. Venerable Hunter God is not fooled at all. No matter what means, he will not leave Bauhinia Island for half a step.

Wang Yi left the castle without wasting time. He teleported directly to the teleportation channel in front of the island owner's palace and stepped into the water curtain.

"Venerable Hunter God is going to accept the inheritance again."

"He has more than 6 million glory points. He can accept the inheritance whenever he wants. The place of inheritance becomes his territory. If you want to go, go." Some alien inheritors who watched this scene are not without jealousy.

In the ranking of inheritors, the hunter is already the sixth inheritor.

It's only been a few years, and it's just stunned.

"If this continues, may soon be able to break through to the Lord of the Universe." Some people said with emotion.

In fact, the three peak tribes like Zerg, Monster and Machine have always been paying attention to the Hunting God, and found this situation. Some of the tribal leaders proposed to solve the Hunting God at any cost, but some opposed it. The secret realm assassinates the hunting **** who has become a climate, the chance of success is too low, and it will waste one's own resources.

And more importantly, they put more energy on the "Lord of Hell" who had just made appalling deeds in Blue Pole Iceland and drew attention from all forces. Compared with the enemies of the Lord of the Universe, even several universes The strongest are all alarmed by the "Hell Lord" who has joined together to discuss, and the Lord Hunter who has not shown any threat is naturally behind. It is not that he does not want to deal with it, but he did not think of a good way...

Again, without sending the strongest man in the universe, no one has the confidence to assassinate a strong man who may be the overlord of the universe in the hinterland of the Patriarchal Cult.

As a result, Wang Yi's leisurely practice life began, and occasionally he still had free time to follow Luo Feng's rise in the ancestral religion...

[Chapter 466: The lord who stepped into the universe](#)

Without a foreign race jumping out to make trouble for himself, Wang Yi maintained a fulfilling and peaceful practice life.

The primitive universe is still in motion, and the hundreds of millions of ethnic groups are still fighting for their own interests, and Luo Feng is also carrying out his personal adventures...

Time just passed by a little bit.

a thousand years.....

Twenty thousand years...

Thirty thousand years...

In a blink of an eye, more than 70,000 years have passed.

The "Venerable Hunter" who once famously moved the universe fell silent and faded out of the vision of many people.

However, tribes such as the Monster Race, Mechanical Race, and Zerg who regard the Hunter God as their confidant still have not forgotten the Hunter God, but they have never had the opportunity to deal with the Hunter God. place.

As for the Mechanical Father God, at this time, he didn't expect to invite the Void True Demon God to assassinate the Venerable Hunter God, or it was not worth it.

After all, the human relationship of the strongest person in the universe is not light, even more than a peak treasure. In the eyes of the mechanical god, the importance of the hunting **** is not so important.

What's more, the three major ethnic groups are still fighting each other, all counting on other forces to come forward to deal with this human threat, so that others can sit back and enjoy their success.

Under such circumstances, not only Wang Yi, but also Luo Feng also spent a rare time in cultivation.

In the ranking of ancestral gods inheritors, Wang Yi did not know when he was already the seventh inheritor. Others thought that he was only the inheritance of "the way of fire and sky beast gods", but they didn't know that he also felt the same in other fusion laws. To an astonishing level.

this day.

"Boom~~"

In the primitive mystery of the human territory, throughout the Qianbao River realm, some cosmic venerables and a large number of immortal waiters looked at the top of a distant palace in astonishment, and saw the endless golden light almost enveloped the entire Qianbao River.

"what happened?"

"What's wrong?"

"The law of origin of gold has come, is there anyone who has stepped into immortality, but how can such a big movement be made when stepping into immortality?"

They almost never saw this power.

"The one who stepped into the universe is less than one percent of this power, right." Some of the universe are shocked by it.

As for the entire Qianbaohe realm, those universe venerables and immortal waiters only saw the surface.

"It's Luo Feng, he has stepped into immortality..." The Chaos City Lord stood on the top of the main hall, looking at the railings, looking at the sky above, the law of origin of gold has completely enveloped the entire Qianbao River, and the pressure is strong... It was unbelievable, this had already surpassed the coercion manifested by the Venerable who stepped into the universe.

"who is it?"

"Who is so powerful, who stepped into immortality actually caused such a big disturbance."

"That direction... seems to be Luo Feng's palace!"

"That disciple of Palace Master of Eclipse, Luo Feng?"

In the entire Qianbao River territory, the Venerable Universe and the immortal waiters all looked up at the endless golden light in the sky, and there was a lot of discussion, which was obviously shocking.

Inside the palace hall.

Luo Feng, who had broken through to the immortality, sat cross-legged, his power filled, making the servants of the king behind him tremble.

At the same time, in another palace in the primitive secret realm of Qianbaohe, there was also a red robe and black-haired young man sitting quietly cross-legged. He suddenly felt a sense of relief, and his face showed a relieved expression.

"I see....."

Over the years, his divine power incarnation has been staying in the "Tongtian Pagoda" and the cultivation space of the Kingdom of God. He has been practicing and enlightening in an environment where the flow of time is tens of thousands of times. The strongest "Law of Fire and Sky" has long reached its final bottleneck. And other laws of fusion have also entered the seventh level...just the last trace of inspiration, or some kind of insight, the "Law of Fire and Air Fusion" can enter the master level of the universe.

In terms of law perception, the bottleneck limit was reached early, and the "heart of the beast god" was also realized early. It can be said that...everything is complete with many conditions.

And his avatar is always practicing in the practice space that is ten thousand times the flow of time. Under the tens of thousands of times the flow rate, I have been practicing for many, many years.

In the cognition of the powerhouses of the primitive universe, the Lord of the universe cannot be achieved by blindly practicing hard cultivation. This is correct, and not completely correct.

If the accumulation is sufficient, there is guidance, and a breakthrough is found, then it is entirely possible to make a breakthrough without tens of thousands of years of trial and error.

But blindly cultivating hard, it is indeed lacking the inspiration, unique touches, and emotional fluctuations in the life and death crisis. Perhaps this is the reason why Wang Yi has been able to break through after so many years of cultivation.

In any case, he is about to usher in a breakthrough!

Wang Yi slowly opened his eyes, and his eyes had become red, like two stars, motivating the changes in time and space. The brilliance is endless and bright, penetrating all the fog.

"boom!!!"

The original law of the primitive universe suddenly came, and that endless coercion enveloped the entire Thousand Treasure River Realm, and even a wave that was billions of times stronger than Luo Feng's breakthrough before directly permeated the entire primitive secret realm.

This coercion was so strong that even the venerable shuddered, immortal knelt directly on the ground.

"What?" City Lord Chaos looked over in shock. "This kind of coercive breath is..."

The Lord Chaos City's eyes penetrated the space and landed on the palace. He happened to see Wang Yi who opened his eyes. The two looked at each other. In an instant, the City Lord Chaos had understood everything, and his heart was shaken.

"Wang Yi, are you really going to break through to the Lord of the Universe?"

A strong sense of absurdity floated in the heart of City Lord Chaos.

However, there will be no mistakes in the volatility that comes from the Law of Origin.

"If you have cultivated for less than 100,000 years, will you become the Lord of the Universe?" The City Lord Chaos couldn't believe it, but his expression couldn't hide the excitement.

In a blink of an eye, he forgot about Luo Feng's breakthrough to immortality.

Lord of the universe!

This is the backbone of the ethnic group!

Wang Yi, who had already stood up, nodded to the Chaos City Lord, and then teleported out of thin air, and the brush disappeared. It was no longer suitable for him to break through.

After Wang Yi left, the overwhelming coercion also dissipated, leaving the venerable and immortal with shocking faces there to talk and discuss, and what followed was a shocking news not long after. Like a hurricane, it spread throughout the primitive mystery—Wang Yi broke through to the Lord of the Universe!

...

Wang Yi's Kingdom of God~www.mtlnovel.com~ is so vast that it can be said to be boundless.

Just as at the moment of breakthrough and stepping into the universe, the origin of the universe appeared directly above the "endless sea", the origin of the universe descended on the body of the "largest and most energetic" body, which is more conducive to devouring divine power. efficient.

At this moment, Wang Yi broke through to the "Lord of the Universe", and the origin of the universe still appeared directly above the "Endless Secluded Sea" in the kingdom of God.

"Wow~Wow~"

Compared with more than 70,000 years ago, the secluded sea of today has a diameter of more than 40 billion kilometers, and its volume is many times larger than before.

The originally peaceful kingdom of God, when Wang Yi in the original secret realm Qianbao River broke through the bottleneck——

"boom!!!"

The original law of the primitive universe descended, and that endless coercion enveloped the entire kingdom of God, and the endless secluded sea that was originally calm suddenly surged.

[Chapter 467: Lord of the universe. Wang Yi](#)

Wang Yi had already prepared for this day, and when he broke through, all the clones quickly returned to the kingdom of God.

"Om~~"

In the sky above the endless secluded sea, an incomparably huge whirlpool, black and white whirlpools...a circle of huge whirlpools, vast and endless, carrying endless power.

Wang Yi was shocked by the majestic momentum.

The huge vortex with a diameter of more than 100 billion kilometers in the sky is different from the colorful vortex when breaking through the Universe Venerable last time. This time, it is black and white alternating with each other. There is a huge black vortex inside, a white vortex inside, and then inside.

It's a circle of black vortex... black vortex, white vortex, black vortex, white vortex... a circle and a circle... exuding monstrous coercion. In the center of this huge vortex, there is a channel, one connecting the "universe" "Law of the Ocean" and Wang Yi's passage to the kingdom of God.

And now it's the most critical moment of the breakthrough...that is to devour the divine power!

After all, different from the immortal breakthrough, the divine power can be fully transformed. The Venerable Level, the Lord of the Universe's breakthrough, all have a time limit for absorption and transformation, and how much divine power can be absorbed by the origin law of the universe depends entirely on efficiency.

Endless secluded sea, with such a huge volume, it would take a long, long time to increase divine power. So naturally we have to cherish the opportunity at this moment.

"Boom..." Then, in the shocking eyes of Wang Yi's many clones, the black and white circles of the vortex core center, the vortex channel with a diameter of tens of billions of kilometers is directly madly pouring the monstrous divine water.

Wang Yi didn't dare to hesitate for a moment, and immediately controlled the endless secluded sea to absorb the divine power seawater that poured down, and to transform it with all his strength.

The divine body is transformed from "universe venerable level" to "universe master level", and the strength of the divine body is a hundred times pure!

The divine power that was originally "Ten Thousand Times Gene Venerable Level" immediately soared a hundred times, reaching the "Ten Thousand Times Master Level of the Universe" divine power level!

Constantly absorbing and transforming...

The speed at which the vortex channel dumped the divine power seawater is completely related to the speed at which Wang Yi's endless secluded sea swallows. If it swallows fast enough, the dumping will naturally be faster.

Moreover, his strong will greatly improved the conversion efficiency under his control.

He has practiced for hundreds of millions of years under the acceleration of time tens of thousands of times, and under deliberate tempering, Wang Yi's will has been further improved, and he has reached the pinnacle level of the Lord of the Universe.

The super-large divine body with a diameter of tens of billions of kilometers makes the absorption speed terrifying, and the strong will also allows Wang Yi to control the divine body more effectively to absorb the ocean of divine power and achieve the fastest transformation...

But even so, it is still impossible to completely transform the endless sea.

In just a few moments, the entire kingdom of God returned to calm, the coercion of the original law of the original universe had receded, and it was only a short time before the divine power could be swallowed up.

Wang Yi, who was hunting in a red robe, stood in front of the temple, overlooking the turbulent endless ocean.

"For a while, the transformed divine power reached about 13% of the volume of my endless secluded sea!" Wang Yi felt it, revealing a trace of regret.

"Wow..." The entire endless secluded sea still resonates with the distant ocean of origin law of the universe, absorbing divine power, and working hard to transform the entire secluded sea. Just at this speed, it can't be compared with just now.

A stream of divine power quickly flew out from the "Secluded Sea" below, directly enveloping the three divine bodies above. Those three divine bodies were exactly-the earthly deity, the avatar of the giant flame star beast, and the avatar of the Void Zerg race.

In an instant, the three divine bodies were transformed.

The divine power of the deity of the earth, the clone of the giant Yanxing beast, and the clone of the Void Zerg race immediately soared by a hundredfold, reaching the level of "ten thousand times the main gene of the universe".

And Youhai Clone landed directly below. thump! Fall into the endless secluded sea, automatically decompose and merge into the endless secluded sea.

Subsequently, a new Youhai clone was once again condensed in the endless secluded sea. This secluded sea clone was nearly 10,000 kilometers tall, and its divine power level was also a thousand times the master gene divine power level of the universe.

"Now that I use the secret technique of the strongest talent again, my power will rise to the next level!" Wang Yi was full of fighting spirit.

"The law perception has reached the level of the master of the universe, and the secret method has also reached the level of the normal master of the universe. There is also the strongest talented secret method. The divine body is huge, plus a treasure. Even if I don't use the strongest treasure... Lord, right? Like Emperor Yan and his ilk, they should not be my opponent." Wang Yi said inwardly. "However, I don't know how it is compared with the master of Bingfeng, the veteran Tier 4 universe master."

As far as Wang Yi knows, in the First Universe Era, the strength of the Lord of the Universe was divided into six levels.

The first level is the newcomer to the universe, with a life gene level 100 times greater, no ultimate secret method has been created, and the most precious weapon is also ordinary.

The second level, 1,000 times the life gene level, created the ultimate secret method, the treasure is not bad. As the "normal level".

The third level is the "peak level", such as Emperor Yan, Lord of Flint, etc. Refers to the level of life genes, treasures, and secrets. For example, the creation of the strongest secret method, the genetic level of the divine body reaches ten thousand times, the possession of the heaven-defying treasure, etc., which fits one of them, and the others are also very close, even at this level.

The fourth level is the "top level", such as the lord of the ice peak or the lord of the galaxy who does not perform tricks. It means that the level of life genes, treasures, and secrets have reached their peak.

The fifth level, the top of the top...This level is the Lord of the Galaxy, the Lord of Chaos City, and the Lord of the Nine Nethers. Generally, either created the strongest secret method of fusion, or obtained strange things.

The sixth order...There is no such division in the primitive universe. This sixth order refers to the master of the universe with the strongest treasure.

"But the secret method of my strongest talent has only one trick. It is too rigid and consumes too much of the divine body. It can only be used desperately as a hole card." Wang Yi shook his head slightly.

Like the master of the fourth-order universe, he can create two or three of the strongest secret methods, which can be used flexibly in battle, and the combat power is absolutely terrifying.

Even the strongest master of the universe like the "Lord of Galaxy" can perfectly blend the two strongest secrets together, greatly increasing their power.

Wang Yi has not even created the strongest secret method of the Lord of the Universe. Strictly speaking, it is several levels weaker at the level of the secret method.

But this is under the premise that it is not considered Xeon Supreme.

Using Xeon Zhibao, theoretically, even the strongest in the universe can't do anything with him.

A smile appeared on Wang Yi's face, "The master of the universe who owns the most powerful treasures, and there is more than one ~ www.mtlnovel.com~ the original universe, and even the entire universe, maybe I am the only one."

Next, you can improve your understanding of the law, and create the strongest secret method with the supreme treasure, or integrate the strongest secret method, then Wang Yi can reach or exceed the level of Chaos City Lord, and become the sixth-order universe master in the original universe legend!

Wang Yi squinted his eyes, "If you create the eight strongest secrets of the Lord of the Universe based on the way of the beast gods, and then merge them, I don't know if you can reach the level of the sixth-order secrets."

The strongest secret method can not only integrate two, but can also integrate three, four... But the difficulty will also soar to incredible.

The creation of the sixth-order secret method, in the universe, can only be done by the strongest in the universe.

Other masters of the universe, perhaps relying on the secret pattern on the Xeon Supreme Treasure, after countless years, can spur the Xeon Supreme Treasure to form a secret method to display it, but want to create one? It's impossible, and no one can do it yet.

"Maybe this is a road, I can explore it in this direction..."

[Chapter 468: Xeon Exchange](#)

Although he has broken through to the Lord of the Universe and has many super treasures in his body, Wang Yi does not have a trace of arrogance in his heart.

His current strength is only in the waves of the original universe. When he goes to the universe, any one of the strongest in the universe can reach the seventh, eighth, or even ninth rank!

Although the strongest person in the universe will face the suppression and weakening of the primordial universe when they attack the Lord of the universe, there is still no problem in crushing Wang Yi.

Even if Wang Yi hides in the "Tongtian Tower," people can throw him into some Jedi so that he will never stand up.

so.....

"We are as weak as I am, so I have to keep working hard." Wang Yi said with emotion.

"Break through the Lord of the Universe, the genetic level can continue to improve, but it is not easy to break the 10081 times level. Without the help of the life gene map, I rely on myself to use the "creation" talent secret method to explore. I don't know how long it will take..."

"Also, it is to improve the law's perception and create secrets."

"You can't let go of your will. The will is very important in devouring the starry sky." Wang Yi remembers, however, that Xeon Treasures have harsh requirements for recognizing their masters, such as killing Wu Yuyi's other parts. In fact, it is even higher, like the Lord, he requires the will of the strongest in the universe!

Others, like the Lord of the Universe, demand the highest will of the strongest in the Universe, which is very normal.

But even if he knew it, Wang Yi would not stop his speed of progress, and of course he had to break through quickly. Staying in the realm of the Universe did not help him at all.

The most is to improve one's will.

"Breakthrough to the Lord of the universe means that I can master time and space, and my supernatural power is a hundred times pure."

"However, at least the genes of life can be analyzed and the level of life genes can evolve."

"It also satisfies the basic stimulating conditions of the Tongtian Tower." Wang Yi sighed with emotion.

The Tongtian Pagoda had to be activated, at least to master the first secret pattern... Wang Yi had already achieved this.

The second is massive divine power, otherwise Wang Yi's divine power will be exhausted by urging alone, let alone fighting.

Only the Lord of the universe can meet this requirement.

But even so, if you want to use Tongtian Tower to fight, you have to understand more secret patterns.

"It's a long way to go." Wang Yi said so, but he felt happy in his heart.

It's as if all the hard work has finally paid off.

What people are most afraid of is that they have no goals, and only when they have goals can they move forward.

Speaking of Tongtian Pagoda, Wang Yi has to think of other Xeon treasures.

Wucui Aurora Lake, this was signed by Wang Yi from the mysterious realm of ancestors.

"Unfortunately, this overlaps with the treasure of the ancestral ***** teaching town education, otherwise I would use it well." Wang Yi regretted a little, and then threw the colorful Aurora Lake onto the panel.

[Do you want to recycle this treasure?]

Wang Yi chose yes.

"Ding Dong" made a clear sound, and then an astonishing number jumped out from the message on the panel.

[You have got 1.5 million treasure points.]

Wang Yi opened his eyes in shock.

"1.5 million!?"

The price of Xeon Zhibao in the field category is so high that it is beyond Wang Yi's imagination.

And as Wang Yi broke through to the Lord of the Universe, the new redemption function has been automatically opened, and Wang Yi can already check the Xeon Extreme-class redemption.

Wang Yi also saw a bunch of numbers that made him dazzling.

The bottom line of the price of each Xeon Zhibao.

Weapon category Xeon Supreme, 100,000 Supreme Points.

Armor category Xeon Supreme, 500,000 Supreme Points.

Field category Xeon Supreme, 1.2 million Supreme Points.

Soul category is the strongest treasure, 1.5 million treasure points.

Palace category is the strongest treasure, 2.5 million treasure points.

...

Although Wang Yi had predicted in his heart, the difference in the value of Xeon Zhibao's different types was beyond his imagination, making it difficult for him to calm down.

"The palace type is the most powerful treasure. At least 2.5 million points are required to exchange for one piece?" Wang Yi took a breath.

And even the most common weapon category Xeon, the lowest price is 100,000 points.

Of course, each category is special. The highest attack category also has 5 million treasure points. There are also tens of millions of treasures in the palace category.

"Guru..." Wang Yi swallowed hard.

He thought he was already rich, but he didn't think he was still a poor man.

Looking at the dazzling array of treasures, Wang Yi was so greedy.

Unfortunately, many of them cannot be replaced.

And in it, Wang Yi also discovered the existence of the treasure of mechanical flow.

But that is more terrifying than the exchange price of the Palace Xeon Arc, it is terribly high, and the lowest price is the starting point of tens of millions of Arcana.

The power is also terrifying, and it can completely increase the combat power by two or three tiers.

For example, the equipment of the strongest in the seventh-order universe can completely match the ninth and even tenth-strongest!

However, there are many demanding requirements, such as the true god, the secret technique of burning divine power...Wang Yi can't do it at all!

Just take a look.

Wang Yi silently wiped his saliva, condensed his mind, and placed it on other treasures.

"You need at least one of the strongest domains, weapons, and one." Wang Yi secretly said in his heart.

When Wang Yi witnessed the prowess of the colorful Aurora Lake, Wang Yi was very impressed. At that time, he secretly made up his mind to obtain a realm-class supreme treasure.

Although the domain treasures generally cannot directly improve combat power, they have a very large auxiliary role in battle.

You can attack, retreat, and escape, which is a must for every strong person.

As for defense, the "Tongtian Tower" can also be used. As long as you hide in the Tongtian Tower, even a group of the strongest in the universe can't help it. Of course, you have to fight to get out, otherwise you can't fight.

"Domain category Xeon Treasure, that is, true **** level domain treasure, let me see..." Wang Yi began to read.

For true **** level domain category treasures, the minimum exchange price must be 1.2 million treasure points.

Finally, after thinking and comparison, Wang Yi chose a true god-level domain treasure named "Tianluodiwang" among the many domain treasures, and the exchange price was 1.35 million treasure points.

He still had close to 200,000 Arcana Points, and then Wang Yi began to choose other Xeon Arcana (True God) weapons.

In fact, no matter what the Xeon Supreme, 100,000 or 1 million is enough for Wang Yi now.

Too strong, he can't activate the ultimate power, even if he is given the best Xeon, he can only use ordinary power, it is better to choose a cheap one.

As for the armor of the true god, the minimum cost is 500,000, which he can't afford to change.

In the end, Wang Yi chose a true **** war knife named "Fotu Zhan", which was worth 150,000 points.

There are more than 40,000 treasure points left on his body.

Counting this way, Wang Yi already has three Xeon treasures, "Tongtian Pagoda", "Tianluo Diwang", and "Fantasy Sword"~www.mtlnovel.com~ One person sits on three Xeon treasures, which can be called the most powerful treasure of the primitive universe. The most people.

There are also "Primary Soul" and "Jia Jia" such top-quality peak treasures, as well as special wings of the treasure.

There are so many heaven-defying treasures, even if they dare to fight with such a powerful person as the Chaos City Lord.

"Low-key, low-key..." Wang Yi said silently in his heart.

Later, Wang Yi turned his attention to the bottom of the exchange function, which was a function that did not exist before and only appeared after his breakthrough.

【Resurrection Crystal】

[It can be used to resurrect a dead creature in the history of the universe]

[Lord of the Law: Start with a minimum of 100,000 treasure points]

[True God: Start with a minimum of 10 million treasure points]

...

[Chapter 469: Pang Bo exits](#)

【Resurrection Crystal】

[It can be used to resurrect a dead creature in the history of the universe]

[Lord of the Law: Start with a minimum of 100,000 treasure points]

[True God: Start with a minimum of 10 million treasure points]

...

"Resurrection crystal? Can it resurrect creatures above the Lord of the Universe?" Wang Yi's heart was shocked.

As we all know, in the primitive universe, the most reversal of time and space is the resurrection of the top universe overlord, and the strongest in the universe must be resurrected.

The Lord of the Universe can be seriously injured by resurrecting the High Universe Venerable.

The Lord of the Universe has fallen, and no one can resurrect them.

But Wang Yi did not expect to see this function on the panel.

It's just that the price is too great. The lowest price for resurrecting a universe lord is 100,000 supreme treasure points, which is enough to exchange for a supreme supreme treasure.

Moreover, the stronger the Lord of the Universe, the greater the cost of resurrection. The resurrection of a strong man like the City Lord of Chaos is far more than 100,000 treasure points, and it is only a simple resurrection, and the lost treasures cannot be retrieved.

"But..." Wang Yi took a deep breath, "In the history of my human race, it seems that there has also been a fallen master of the universe."

Since the rise of the human race, many strong men have been born, and of course some have fallen. Once the Lord of the universe falls, he cannot reverse the time and space resurrection, which is equivalent to a permanent fall. Although the human race regrets it, there is no way.

After all, the human race is as strong as the original ancestors, but only the strongest in the universe, and there is no way to resurrect the dead Lord of the universe.

Wang Yi also thought of the 52 chaotic steles in the human holy land "Chaotic City". Of course he now knows that the 52 chaotic steles are left over by super beings in the history of the human race. Although there are high and low levels, the average venerable and The overlord of the universe is not qualified to leave a chaos monument, and those who can leave the monument have at least the strength comparable to the lord of the universe.

"In addition to the original, the human race had a giant axe and 18 masters of the universe, which means 19 chaos steles, but there are a total of 52 chaos steles. That is to say, the human race once had 20 or 30 masters of the universe fallen." Wang Yi felt incredible.

But think about it, this is not impossible.

After all, although the Lord of the Universe is powerful, it is not impossible to kill.

Even if there is a clone, there is still a way to kill it!

Or lost in some Jedi, or the strongest in the universe shot to kill, or besieged by a group of strong...

Once the Lord of the universe is killed, there is no way to reverse the time and space to resurrect, which is equivalent to a permanent fall.

"If the fallen masters of the universe can be brought back to life, the strength of the human race will undoubtedly increase greatly." Wang Yi pondered.

If the lords of the universe of the human races that have fallen in the past can be resurrected, the number of cosmic lords of the human race will far exceed the number of other peak forces, and the

number of cosmic lords of the monster race, the zerg race, and the machine race, which are the enemies of the human race. There may not necessarily be more human races.

The human race will soon become the number one power in the primitive universe! It's not known to exceed the ancestors' religion!

However, thinking about the ease is too costly!

It is equivalent to a master of the universe, and exchange it for a piece of the strongest treasure.

The human race cannot even pay for the resurrection of the Lord of the universe.

After all, 100,000 treasure points are only the lowest price, referring to the Lord of the universe who has just broken through and has a genetic level a hundredfold.

And the master of the universe of the human race is even the lowest rank second, and at least 200,000 treasure points.

Like those with special circumstances, there are many clones... the cost is naturally greater.

If there is a Master of the Universe like the City Lord of Chaos, it is not surprising that a million treasure points are needed.

So even if Wang Yi now tells the human race to let them find a way, they can't do it.

"Wait a minute, wait until the time is right." Wang Yi decided to conceal this matter first, wait until it can be resurrected, and then announce it to the human race.

I said it now, but it didn't help.

"However, it can be said that the Sky Tower and the ability to exchange the most precious treasures can also improve my status in the human race." Wang Yi groaned.

The Tongtian Tower has always been Wang Yi's secret. He hid it in his heart and didn't tell anyone.

But now, it can be a showdown.

I didn't talk about it before, but I was naturally worried about accidents and troubles.

No one can guarantee that no one at the top of the human race was tempted by the Tongtian Pagoda and attacked Wang Yi.

People's hearts are unpredictable, and Wang Yi doesn't want to take risks, and there is no need.

People's hearts cannot stand the test in the first place.

And now, Wang Yi is already the lord of the universe, and has enough strength to protect himself.

Simply put, it means having the confidence to challenge the human race.

It doesn't matter even if you confess, and you can also push the ability to exchange the most precious treasure to the mysterious tower of the sky, by the way, strengthen the strength of the human race.

Those top treasures, the Lord of the universe is still very scarce.

Didn't you see that he was as strong as the Chaos City Lord, and he was also a top domain treasure?

It's not that the Lord of Chaos doesn't want to exchange for better treasures, but that the human race simply doesn't have enough peak domain-type treasures, and there are only a few treasures needed by the strong. The ordinary treasures obtained by the masters of the universe don't need them, or give them. Other descendants, either handed over to the ethnic group as a contribution.

The entire human race is actually relying on the super beings such as the founder of the Great Axe and the Lord of Chaos to make continuous contributions to support and cultivate the younger generations.

If everyone wants to ask, who will contribute? The human race will not become stronger.

"Now, I also have the ability to contribute to the human race." Wang Yi took a deep breath, feeling inexplicably relaxed in his heart.

Having been hiding under the protection of the wings of the human race, to be honest, Wang Yi also had depression in his heart, and now it is time for him to spread his wings and fly high.

He can also spread his wings, shelter the race that has always protected him, and care for it to grow, watching it grow a little bit.

"It feels so good..."

Wang Yi looked up at the sky of the Kingdom of God.

Wang Yi's kingdom of God, with the breakthrough to the Lord of the universe, the kingdom of God will also be more perfect.

The vast kingdom of God.

The kingdom of God is slowly changing at this moment. The expansion of the scope is second, and more importantly, the structure of the kingdom of God is becoming more stable and reaching its limit.

It should be known that after this perfection and transformation... the next breakthrough will be the breakthrough of the Kingdom of God to the "mini-universe". This time is the ultimate degree of the kingdom of God.

...

Primitive Secret Realm, Thousand Treasure River Realm.

The news of Wang Yi's breakthrough to the Lord of the Universe was still being discussed by various forces in the human race ~www.mtlnovel.com~, and countless people who learned the news were shocked.

This is the lord of the universe! Standing at the pinnacle of the universe! Everyone is an invincible existence in the universe. How long has it been since the human race has given birth to a true master of the universe?

The breakthrough was Wang Yi, who had practiced for less than 100,000 years, which was even more incredible.

The Lord of Chaos was also smiling when he was standing in the tall building.

At this moment, a huge coercion came crashingly on a towering palace in the distance following the origin law of the universe.

The entire Thousand Treasure River Realm was shrouded in this powerful pressure.

Although this pressure was far lower than when Wang Yi had just broken through before, it was also far higher than Luo Feng, and it was obviously the situation of the Lord of the Universe breaking through.

The Chaos City Lord froze, his eyes fell to the palace like a torch, revealing a hint of weirdness.

"Pang Bo?"

[Chapter 470: 1 Door 3 Lord of the Universe](#)

Inside the palace, Wang Yi was staring with Pang Bo.

Wang Yi gave a light cough. "Teacher, you don't have to look at me that way, I really have broken through to the Lord of the universe."

The Lord of Chaos City was standing beside him, his eyes full of smiles.

His apprentice is the master of the universe.

The apprentice of his apprentice is also the master of the universe.

One master of three universes is also a good story in the primitive universe.

Pang Bo grinned, patted Wang Yi's shoulder hard, his smile was out of sight.

"Well, it's my apprentice, really enchanting." Then he sighed.

"I know that you broke through to the Lord of the Universe. I thought it had been a long, long time since your retreat. I didn't expect that you would cultivate from the Lord of the Realm to the Lord of the Universe after only tens of thousands of years. It really makes me ashamed to be a teacher."

After breaking through to the Lord of the Universe, Pang Bo was bewildered when he learned that his apprentice Wang Yi had just made the breakthrough to the Lord of the Universe.

It wasn't until Wang Yi appeared in front of him to show his power that he believed that the little guy was really on the same level as him...No, he learned about the deeds from the Master of Chaos City, this apprentice may even be better than himself. .

At least the strongest secret method, Pang Bo hasn't been able to create it yet.

Pang Bo couldn't understand the treasure that came from nowhere.

Chaos City Lord said comfortedly next to him: "Pang Bo, now you are the Lord of the universe, and the 20th Lord of the universe in my human race, have you thought about your name?"

There are many disciples under the Master of Chaos City, and there are more than 30 surviving today, but the Lord of the Universe has only cultivated one Pang Bo, and Pang Bo is mainly good enough to make breakthroughs on his own.

And Wang Yi's breakthrough had nothing to do with Chaos City Lord.

So far, Wang Yi's breakthroughs have still made many human races and the masters of the universe find it difficult to understand.

This speed is too fast.

Pang Bo rubbed his rough and fluffy face, "Just call the Lord of Star Prison."

"Lord of the Star Prison, the teacher's name is very domineering." Wang Yi slapped a small flattery beside him.

"Haha..." Pang Bo squinted his eyes and laughed very favorably, and by the way raised his big plush hand and touched Wang Yi's head.

Wang Yi: "..."

City Lord Chaos was watching the scene of the interaction between the two masters and apprentices, and a smile appeared at the corner of his mouth.

"In one day, my virtual universe company has two more real universe masters. Now, my virtual universe company has 7 universe masters!" Chaos City Lord smiled.

"Besides, the Eclipse Palace Lord is still in retreat, maybe it will break through soon. By then, there will be 8 universe lords in my virtual universe company line. Thinking of that scene...hahaha..."

Chaos City Lord laughed happily.

Wang Yi and Pang Bo looked at each other and laughed.

Isn't it?

The Virtual Universe Company originally had five universe masters, but now with the addition of Wang Yi and Pang Bo, they suddenly become seven!

Moreover, the Palace Master of Eclipse is a peerless figure whose talent and talent are not inferior to Pang Bo, so the probability of his breakthrough is naturally very high.

In this way, the number of masters of the universe of the virtual universe company greatly exceeds that of other forces.

And Wang Yi also knew that Luo Feng would break through to Venerable Universe in a few days. At that time, he also had the main force comparable to the universe, and the Virtual Universe Company was equivalent to the nine masters of the universe.

At that time, the faces of the universe masters of the other Quartet forces must be very exciting.

...

The news of the birth of two masters of the universe in the human race spreads in the primitive universe like the wind.

The Machine Race knows, the Monster Race knows, the Zerzu knows, Crystal Race, Prison Race, Star Giant Beast Alliance, Patriarch Cult... etc. all got the news immediately.

In fact, in the original universe, there have been more cosmic masters born in these years than in the past one trillion years. Just like the monster race with a large number of strong men, in fact, there have been three new cosmic masters after returning from the Tongtian Pagoda. Greatly enhance the high-level strength of the Yaozu, so that the Yaozu will be very happy.

The fact that the human race now has two more masters of the universe is very shocking and shakes all parties.

Because this breakthrough did not cover up, information about the two new cosmic masters of the human race was quickly collected by all parties and reacted differently.

"Master of Star Prison? Master of Chaotic Origin?"

"In other words, it is the Star Prison Demon Lord who broke through, and that peerless human genius Wang Yi?"

"The Star Prison Demon Lord was originally the top cosmic hegemon, and breakthroughs are excusable. Then how long did Wang Yi practice before he actually broke through?"

Many beings were shocked when they received the news.

The Star Hell Demon Lord is one of the three top cosmic hegemons of the human race, and his breakthrough is actually expected by all parties.

But Wang Yi's breakthrough was really shocking.

"If you have cultivated for less than one hundred thousand years, you will become the master of the universe?"

"Damn it, this kind of peerless genius actually belongs to the human race."

"I knew that at the beginning, he should be killed by all means. It is too late to do it. The human race will definitely increase the protection of Wang Yi and bestow him with a treasure. He still has a clone. If you want to kill him, you need to pay more. Costly."

The Monster Race, Machine Race, and Zerg Race all regretted it.

In the past, they had to deal with Wang Yi in a daunting manner, and they were reluctant to pay too much. They all thought of other forces to assassinate them, so that they could take advantage of them.

But now, even if they want to pay the price to kill Wang Yi, they may not be able to do it.

The Lord of the universe is so easy to kill, the Lord of the universe of all races is already dead.

And Wang Yi finally rose to the point of becoming a figure known to countless powerhouses in the universe under the name of the "Master of Chaotic Source" of mankind.

Now that all parties want to deal with him, they have to weigh and weigh. After all, the "Master of Chaotic Source" is not an individual. Behind it is the entire human alliance, backed by the strongest in the universe. This is the reason why all parties are truly jealous.

The news of Wang Yi's breakthrough soon spread throughout the entire human race because it was not forbidden.

"Wang Yi became the lord of the universe~www.mtlnovel.com~ like a thunderstorm, blasting on the heads of countless people.

Of course, Luo Feng, who was on the scene, knew the fastest.

Shocked, sighed, sighed...At the same time, I am also happy and proud of this friend.

"Wang Yi can become the lord of the universe, and I will definitely be able to!" Luo Feng's eyes were electric, his determined and stern face full of fighting spirit.

Now he has also nurtured Youhai, breaking through to immortality, but he is confident that his strength is comparable to that of the Venerable Universe.

Of course, it is incomparable to a monster like Wang Yi who broke through to the Lord of the Universe in less than a hundred thousand years.

Wang Yi's acquaintances and friends also knew. His mailbox was suddenly filled with various emails. Almost all the sages of the human race, high-level officials sent him congratulatory messages, and some of them, such as Venerable One, Hong , Thor, Rong Jun, Ai Chen, Qianshui and the like.

Unlike before, it was only at the highest level. Now the entire human race knows that Wang Yi has made a breakthrough, and the impact is naturally extremely wide.
