

A God 471

[Chapter 471: Showdown](#)

"chaos."

"Star Prison, congratulations."

"Star Prison, congratulations."

"I really envy you, now your virtual universe company has seven universe masters."

At the long stone table in front of the Great Axe Temple, 21 superpowers of the human race gathered again, including the Great Axe, regardless of their relationship, to send heartfelt congratulations to the Star Prison Demon Lord.

"Chaos can be regarded as teaching a good apprentice."

"Haha... Now, in Zihongmeng, we humans need one more palace master."

In the Hongmeng, the seven stars are the initial level of the Lord of the Universe, and the previous Star Prison Demon Lord and the Heavenly Eclipse Palace Lord are divided into this layer.

And Beyond Seven Stars, it is the Lord of the Palace, that is, the true Lords of the universe such as Wang Yi and the Lord of Chaos City. Breakthrough Star Prison Demon Lord can also be considered at this level.

Of course, Hongmeng has not only humans, but also other alien palace masters, but they are still humans.

The Great Axe sat in the first seat with a smile in his eyes. Although the breakthrough was the master of the universe of the Virtual Universe Company, it also increased the overall strength of the human race. It can be seen that he was very happy, and said Hong Kong: "Today is a great day. After the Lord of Chaotic Source, we humans have a new Lord of the Universe, that is, the Lord of Star Prison."

"Now that the Star Prison has been broken through, according to the rules of my human race, I can get the gift of a top treasure weapon..."

Wang Yi, who was sitting next to the teacher Star Prison Demon Lord, moved his expression when he heard it.

"By the way, since the teacher has broken through, I also have to give the teacher some gifts."

Wang Yi said inwardly.

After he exchanged two pieces of Xeon Supreme Treasures, there are still more than 40,000 Supreme Treasure Points remaining. With these, he can also exchange some of the Supreme Treasures for the teacher.

It used to be fine. Now that conditions are available, Wang Yi will certainly not forget to give back to the teacher who has been helping him.

Compared with Luo Feng worshipping several teachers such as Hu Yanfu, King Zhenyan, Palace Master of Heavenly Eclipse, and Zuoshan Ke, Wang Yi has always only had this teacher, and his feelings are also very deep.

"What treasure for the teacher?" Wang Yi thought. The teacher is already the master of the universe. Of course he can't get the ordinary treasure, and it must be suitable for the teacher.

At this time, the giant axe on the first seat said: "There is another thing."

The 20 masters of the universe were quiet.

"In the near future, we will hold a summit meeting to announce to the people below what will happen to Primordial Star in 10 years."

"Primitive Star is finally going to turn on again?"

"That really has to be prepared."

"Will you go this time, Huang Jian?"

...

Most of the Lords of the universe underneath seemed to have already understood the situation, and were not surprised, but started to discuss it.

Only Wang Yi was a little surprised.

"The highest meeting? The original star is about to start?"

The highest meeting is the highest meeting that the "universe venerables" of the human race and the super beings above are qualified to participate. Many major events involving the human race will be discussed in it.

The "Master of Star Prison" sitting next to Wang Yi looked at the disciple with a surprised expression on his face and smiled and said: "Disciple, don't you know the Primordial Star? This is also a secret that only high-level powerhouses in the universe know. However, with your current authority, all the internal information of the ethnic group can be viewed. After you read it, you will know where the Primordial Star is."

There was a trace of memory on his face, "I have been to Primordial Star many times. Every time I open it, it gathers the powerhouses of hundreds of millions of races in the universe. The Lord will join this feast, fighting for the treasures, and even the Lord of the universe will fall when it is fierce." The Lord of the Star Prison shook his head slightly with emotion.

Wang Yi nodded slightly. In fact, he already knew the existence of Primordial Stars, but he was a little surprised at the opening now.

After all, Primordial Star represents the battle of the Lord of the Universe where Luo Feng became famous.

"Maybe the time is a little bit different, but it's not much different from the original plot trajectory." Wang Yi secretly said in his heart.

The meeting was over here, and Wang Yi said when he saw that many strong human races were about to leave.

"Everyone, I have something to say."

The creator of the Great Axe, who was already preparing to leave, all the Lords of the universe stopped and looked at Wang Yi.

The Lord of Star Prison looked at this disciple puzzled.

"Hunyuan, what do you want to say?" The founder of the giant axe smiled.

The Lord of the universe around him also looked at Wang Yi curiously. This is the first time that Wang Yi has formally expressed his opinion in a meeting. They all wondered what Wang Yi would say.

Wang Yi said, "I want to talk about the Tongtian Tower."

"Tongtian Pagoda?" The figure sitting on the opposite side looked fat, bald, with a big beard hanging down, the master of Peng Gong frowned slightly. What do you want to say to be able to go in again?"

It can help all the strongest in the universe to increase their awareness. Needless to say, the importance of the Tongtian Pagoda, which guides the path of cultivation, is naturally mysterious, and it faintly points to the ultimate secret of the primitive universe. The universe does not know how many forces are staring at the Tongtian Pagoda, trying their best to investigate and explore. ...The human race is no exception. For so many years, there have always been several masters of the universe staying at the Tongtian Pagoda.

However, no one can enter the Tongtian Tower, not even the strongest in the universe.

Wang Yi looked at the peak existence of all the human races in front of him, and his voice calmly said, "I got the Tongtian Pagoda."

The open space in front of the temple suddenly became quiet and fell into deathly silence.

Founder of the Great Axe, Lord of Chaos City, Lord of Darkness, Lord of Peng Gong, Lord of Qingdong, Lord of Desolate Jian, Lord of Youhou, Lord of Desolation, Lord of Void Gold... and other powerful humans They all looked at Wang Yi in a daze.

Tongtian Tower, was Wang Yi got it?

How strong the will of the Lord of the Universe is, but there are still many people who were shocked for a while, a little overwhelmed.

"Wang Yi, are you telling the truth?" A deep voice sounded, the power of terror filled, the surrounding space was stagnated and suppressed, making the Lord of the universe feel the pressure, the burly and savage man with bright eyes Frightening, staring at Wang Yi closely, the whole body exuded fluctuations that made time and space tremble.

"Tongtian Tower, really got it by you?"

This is no joke.

That is the Tower of the Sky. Everyone who has ever entered ~www.mtlnovel.com~ knows the role of the Tower.

It is unceremonious to say that whoever can get the Tower of the Sky will become the number one power in the primitive universe in the future, and the race will become the supreme overlord of the primitive universe.

Haven't seen the star **** trapped in the bottleneck of the universe hegemon, have they all broken through to the universe lord?

Yaozu, there are three more masters of the universe all at once?

The Chaos City Lord also faintly felt the way to break through to the strongest in the universe.

How scary is this?

Thinking of the Tongtian Tower, the eyes of all the Lords of the universe lit up.

His eyes were fixed on Wang Yi. Although he felt unbelievable and unbelievable, everyone was full of longing and expectation.

What if it is true?

Does the human race take off right away?

[Chapter 472: Excitement at the highest level of mankind](#)

"Chaotic Source!"

"Hunyuan, are you telling the truth?"

"Hunyuan, is the Tongtian Tower really in your hands?"

The masters of the universe of the human race can no longer restrain themselves, and they are all excited and authentic.

This is not only about the future of the human race, but also about their future path.

The founder of Great Axe and Chaos City Lord looked at each other, what kind of person Wang Yi was. The two of them knew very well. They could be said to have watched Wang Yi grow up.

They believed...Wang Yi would not lie about such a major matter.

"Everyone, be quiet first." Chaos City Lord said, his gentle voice calmed the excitement and enthusiasm in everyone's hearts.

The Chaos City Lord is still very prestigious, and the Lord of the Universe present suddenly calms down.

Just looking at Wang Yi with hot eyes, of course, there is no lack of doubts.

However, just as the Lord of Chaos City believes that Wang Yi will not openly joking about this kind of thing, most people still believe in Wang Yi.

The founder of the giant axe also opened his mouth and said: "Wang Yi, what is going on? Did you really get the Tongtian Pagoda?"

He eagerly wanted to know whether the Tongtian Tower was really in Wang Yi's hands, if it really was... the creator of the giant axe did not dare to continue thinking about it.

Seeing the eager and worried gazes of the Lord of Chaos City, Wang Yi also sighed in his heart, because of this, he did not dare to expose the Tongtian Tower from the beginning.

But now, it doesn't matter.

"Tongtian Pagoda has indeed been recognized by me. The matter begins when the Tongtian Pagoda just came down on the battlefield outside the territory more than 90,000 years ago..." Wang Yi talked.

Of course he will not reveal the specific origins of the sign-in panel and the Tongtian Tower.

It just said that it was a treasure left by a mysterious strong man to select the heirs, and he got it by luck.

He didn't even explain the existence of the "Origin Continent" outside the "primitive universe", the "God King" and the "Void True God".

It's just a vague mention of being able to break through the strongest in the universe, beyond reincarnation...

The strongest of the human race still have the concept of transcending reincarnation. During the cosmic sea adventure and other sacred land and universe communication in the reincarnation era, they can also get some insider information based on the scraps of information left by the previous strong men.

They also know very well that by surpassing the realm of the strongest in the universe, they can transcend reincarnation, evolve into the holy universe, and lead the race to eternity.

"The master of the world has been recognized by the Supreme Treasure of the Tongtian Tower, and it has received such a powerful inheritance. It is really incredible, incredible to the extreme." The face of a female cosmos lord could not be concealed and shocked.

There were countless strong people in the universe who entered the Tongtian Tower that day. The strongest ones in the universe couldn't be counted in a single slap. Unexpectedly, Wang Yi, who was still the master of the world, won it silently, without the outside world knowing it.

It was just in their hearts that why Wang Yi could break through the Lord of the Universe so quickly...with such inheritance help, wouldn't it be normal to break through?

Moreover, according to Wang Yi's statement, the Tongtian Pagoda also has the effect of helping the Lord of the universe and the strongest in the universe to cultivate, and it also has the effect of guiding the strongest in the universe to break through. They know very well what it means.

That means that the human race is likely to give birth to an existence beyond the strongest in the universe, and the human race may also become the third holy land in the universe!

What a feat!

They looked at Wang Yi and their eyes were very complicated. This was something that even the original ancestor had not done! But Wang Yi has this possibility in the future.

"Great opportunity!"

"This is a great opportunity for us humans!"

City Lord Chaos couldn't help but patted the table, his excitement was beyond words.

Others also wake up from a dream.

"Haha... I didn't expect that the Tongtian Tower would be obtained by Wang Yi in the end. God bless me humans!"

"Machine races, monster races, and Zerg races that are hostile to our humans are still struggling to find a way to recognize the Lord Tongtian Pagoda. I am afraid that they would never dream of it. The Tongtian Pagoda has already fallen into the hands of us humans, waiting for us to become stronger. The first one to take them, count the old and the new hatred together."

The creator of the Great Axe was also very excited, but compared with those exhilarating universe masters, he was a little calmer, and asked: "Wang Yi, can you still let people come in for enlightenment with your Tongtian Pagoda?"

The excited universe masters calmed down.

Yes.

The most important thing about the Tongtian Pagoda is to let people understand it. If it can't, it is a palace treasure. Although it is also very precious, it is far less effective than the former for the entire human race.

Wang Yi also understood the Great Axe's concerns and said: "The Sea of Tongtian Pagoda Law can be opened for enlightenment, but it can only be opened once in 100 million years. A maximum of 1008 people are allowed to participate in the enlightenment at the same time, and it can only be opened for 10,000 years at a time. ."

Just like the ancestral mystery realm inheritance, helping others to cultivate will be consumed, like the Tongtian Tower, the more people, the greater the consumption. When Ming set this limit, perhaps this factor was also taken into account. Of course, this is just Wang Yi's guess.

"Once in a hundred million years?"

"1008 people at a time? Last ten thousand years?"

The many masters of the universe at the scene looked at each other, and felt relieved that this situation was better than what they had just worried about.

Chaos City Lord also expressed a slightly loose expression, "Our human race now only has 20 Cosmos Lords, which is far enough. It can also allow some venerables who are talented and about to break through to enter. Maybe it will allow us to have more Cosmos Lords. "

"Wang Yi, would you like to let the powerhouses of our ethnic group enter the Tongtian Pagoda for enlightenment?" the founder of the giant axe asked.

"Of course." Wang Yi said without hesitation. "However, the next time it is turned on, it will have to wait at least 100 million years later."

The masters of the universe laughed.

"It's okay."

"It's a hundred million years. As far as our existence is concerned, it's just a little wait. We still have this patience."

The founder of the giant axe looked around and said: "This Tongtian Pagoda belongs to Wang Yi, and Wang Yi is willing to provide it to us, but our ethnic group cannot take advantage of Wang Yi for no reason. In this way, every time it is opened, every strong person who enters, Every ethnic group will give Wang Yi a contribution value."

"This is natural."

"We have no opinion."

"Really."

The masters of the universe have opened their minds and their minds are occupied by the powerful perceptual cultivation effect of the Tongtian Tower, and they are not concerned about other things.

At their level, there are very few helpful treasures, and the Tongtian Pagoda is almost the strongest one, perhaps only comparable to the practice guidelines of the detailed system of ancient civilizations.

Everyone knows it in their hearts. Even if Wang Yi is unwilling to share it publicly, they can't help Wang Yi.

"Great axe, that's not necessary." Wang Yi said. At his level, the contribution value of the ethnic group is no longer necessary for him.

"No rules can't make a circle, you just have just become the master of the universe. The road ahead is long, and some places still need ethnic resources." The founder of the giant axe insisted. "Go into the Tongtian Pagoda, if the ordinary venerables who are incapable are helped by the race to pay the price, they will repay it later, and the Lord of the Universe and the Overlord of the Universe will pay by themselves."

"Of course ~www.mtnovel.com~ also has to consider the confidentiality relationship, for the time being, only my human race can enter." Chaos City Lord added.

Those present nodded.

Everyone knows that if the news of the Tongtian Tower in the hands of humans is leaked out, then other forces will really be unable to sit still.

Tongtian Tower has been listed as the top secret of the human race.

And then, Wang Yi also used the Kingdom of God to teleport and took a few masters of the universe to the inside of the Tongtian Pagoda. They confirmed that they could not enter the sea of Tongtian Pagoda laws in other places.

There are also the slaves of tens of thousands of alien venerables who remain in the Tongtian Tower, which also amazes these past masters of the universe.

The founders of the Great Axe and the Chaos City Lord were finally relieved. Although the Tongtian Pagoda will be opened next time after 100 million years, they have begun a series of plans around the Tongtian Pagoda.

But the surprise that Wang Yi gave them is far from over.

[Chapter 473: The strongest treasure of the great axe](#)

This piece of land floating in the endless void, on the stone chairs on both sides of the long stone table in front of the Great Axe Temple.

"Chaotic Source, what you said is true. As long as there are enough treasures, any treasure can be exchanged from you?"

It is still the Great Axe Temple of the Virtual Universe, and the meeting has not been disbanded yet, and more than a dozen universe masters of the human race looked at Wang Yi in shock.

Just now, Wang Yi has announced that no matter who, as long as the treasure is enough to gather the treasure, he can exchange the corresponding treasure from him.

"Yes, whether it is a domain, palace, or soul, all types of treasures, as long as the value of the treasure is sufficient, even the strongest treasure can be exchanged." Wang Yi said.

Of course he would not say that he got it from the sign-in panel, but pushed it to the Tongtian Tower.

Xeon Supreme!

The strong men of the human race were shocked.

The founder of the giant axe is also a little bit unable to sit still.

Xeon Zhibao, everything is powerful and powerful, it is the strongest treasure in the universe, so it is called Xeon Zhibao.

It is extremely rare, even if the creator of the giant axe is the strongest in the universe, there is no one. This is also a regret for mankind for a long time.

With the Tongtian Pagoda undermining, although the senior human race shocked Wang Yi to take out even the Xeon Treasure, they would not have too much doubt. Besides, if you want to get the Xeon Treasure... according to Wang Yi's words, you have to pay a corresponding price.

"How can it be exchanged?" The founder of the giant axe said lowly, his eyes revealing dazzling brilliance.

Although he is the strongest in the universe, it is extremely difficult to get a Xeon. For example, even the strongest in the universe would not dare to easily set foot in some dangerous places in the Universe Sea, otherwise it is very likely to fall.

The Lord of Chaos City and other universe masters also looked at Wang Yi excitedly. If the founder of the Great Axe can get a suitable Xeon Supreme Treasure, his strength will undoubtedly be greatly improved. The founder of the Great Axe is the strongest man in the human race, the patron saint, too. As a guarantee to deter other hostile forces, his improvement in strength is also a great thing for the human race.

"It's very simple. Just enough treasures. Just like the treasure house of my human race, you can use treasures to exchange for treasures. If you have enough treasures, you can exchange for any treasures." Wang Yi explained briefly. When the other people's faces showed joy, his voice changed.

"However, to exchange for one of the most common Xeon Arcana weapons, you have to start with 100,000 Arcana points."

"100,000?" The Chaos City Lord and others were dumbfounded, even with the giant axe, frowning.

According to the division of human races, a peak treasure weapon is 1200 treasure points.

Even so, some of the masters of the universe still use top-notch weapons.

Although it may also be related to their lack of suitable weapons to exchange, it can also be seen that the human race is not very rich.

The truly wealthy is actually the founder of the Great Axe. Even if he obtains the treasure, he will generally contribute to the human race for free and help the human race grow.

Like the Lord of the universe, you have to fight to get some treasures.

Therefore, a pinnacle treasure is enough for the Lord of the universe to fight, and it is not surprising that it has fallen.

Wang Yi looked at the silent powerhouses in front of these human races, and he was deeply moved.

In the human race, there are two types of people enjoying resources and contributing resources.

All ordinary humans, immortal gods, and even cosmos venerables, are actually resource enjoyers. For example, ordinary humans can enjoy peace and stability. Like the immortal gods who perform well, they can get the guidance, instruction, and even treasures of the super strong. They are all resource people!

The human race needs the contribution of the real strong! Only with their contributions can hundreds of millions of human beings, geniuses of the past, and countless immortal resources enjoy.

Various thoughts flashed in Wang Yi's mind, and he said: "If the founder of the great axe wants to exchange for the strongest weapon, I am willing to contribute 20,000 points."

"20,000 treasure points?"

"this....."

"Chaotic Source."

The Lords of the Universe present were all shocked by Wang Yi's words.

"Chaotic source you." The founder of the giant axe was also startled by Wang Yi's words, looking at him with strange eyes.

"You also know that I have inheritance and some treasures. I am a member of the human race. Let me contribute."

Wang Yi understands that the treasures of the ethnic group are also limited, and they are only accumulated by the endless years of dedication by the masters of the universe.

The treasure house of the ethnic group is limited, relying on the contributions of these dozens of universe masters and the strongest of the universe, the master of the universe has less contribution, mainly the founder of the great axe. A large number of treasures of the founder of the giant axe are directly placed in the ethnic group, completely free of charge, and the treasures he obtains are also free of charge to the ethnic group, just like a big patriarch who takes care of the ethnic group and cares for the ethnic group.

Therefore, there are treasures on the giant axe, but most of them are what he needs. It should be difficult for the creator of the giant axe with 100,000 treasure points. If the treasure from the creator of the giant axe is exchanged, it will undoubtedly weaken the battle power of the giant axe.

Even if the human race treasury were to take out so many treasures at once, it would probably hurt the vitality.

Wang Yi feels that he should do something at this time, but he will not hand over all the treasures, just make some intentions.

"Chaotic Source, you..." The creator of the giant axe didn't know what to say.

He is dignified to be the strongest person in the universe, but he has to accept the favor of the juniors in the clan.

"Hunyuan is right. If it's not enough, I can also contribute to my treasure."

"I have it too."

"I also....."

The other masters of the universe glanced at each other and said aloud, none of them hesitated much, showing the cohesion of the high-level powers of the human race.

There may be disputes and contradictions, but they are still clear when it comes to ethnic issues.

The creator of the giant axe watched this scene, and his heart was warm. He opened his mouth and said:

"Everyone." The presence was quiet, and the creator of the giant axe solemnly said: "I will use my treasure to exchange it first. If it is not enough, Coupled with the ethnic treasure house, if it is not enough, you can think of other ways. In any case, you are the strong pillars of my ethnic group. Those treasures are related to your combat strength and cannot be easily lost."

Chaos City Lord also said: "The Great Axe is right."

However, they also understand that the wealth of the ethnic group is mainly concentrated in the giant axe and more than a dozen universe masters. Without cutting the flesh, it would be really difficult to make up the 100,000 treasure points.

so.....

The creator of the giant axe looked at Wang Yi and said in a deep voice, "Hunyuan, even if you owe your 20,000 treasure points, I still owe you a favor."

Wang Yi didn't say much, smiled and nodded.

...

Half a day later, the original universe, Chaos City.

The founder of the Great Axe handed over his treasures and the massive treasures of the ethnic group to Wang Yi. Together with the 20,000 treasure points contributed by Wang Yi, he finally made up 100,000 treasure points. In this regard, Wang Yi did not take advantage of it.

Then, according to the request of the giant axe, he exchanged a Xeon Arcane weapon axe to the panel.

Of course, the axe-type Xeon might seem to belong to the offensive type, but since it is a Xeon, it usually has many powers.

And the conditions for recognizing the master are also in line with the situation of the giant axe, and there will be no such big oolong that can be taken out, but can't recognize the master.

In the void filled with chaotic air currents, a burly man stood in the void, holding a bronze axe in his hand.

"Great Axe?" The Chaos City Lord next to him and the many Universe Lords who came together looked at them with concern.

The Great Axe opened his eyes and couldn't hide his excitement~www.mtlnovel.com~Hahaha, I have successfully recognized the Lord, and from now on, I also have a supreme treasure! "

"Wow!" The masters of the universe of the human race were all excited.

The supreme treasure is the treasure of the town clan. If there is not a supreme treasure among the peak race group, the many super beings of the human race have always been a little uneasy. If the founder of the great axe gets a supreme treasure, This is simply a combination of strong and powerful, soaring strength, so that all the powerful people are excited and excited.

"Haha, the giant axe gets the Xeon Treasure, this is a grand event for my entire human race, we have to celebrate!" Chaos City Lord laughed loudly.

"And our hero, Hunyuan!"

"Yes, thanks to Chaotic Source this time!"

"Hunyuan, I want to exchange a treasure with you, look..."

The founder of the Great Axe and the Lord of Chaos City looked at Wang Yi, who was surrounded by enthusiasm by the Lords of the Universe, with a knowing smile.

[Chapter 474: The future of the human race](#)

Chaos City Lord's Mansion, a banquet was held, and many masters of the universe gathered on the lofty throne.

"This time the Giant Axe can get the Xeon Treasure, and the human race can see the future beyond reincarnation. The Hunyuan has made great contributions... Let's respect the Hunyuan." The City Lord of Chaos raised his glass and laughed heartily.

"Jing Hunyuan."

"Thanks to Chaotic Source."

"Come on, Hunyuan, I toast you a glass."

The Lord of the universe present did not object at all.

The cultivating effect of Tongtian Tower can continuously exchange all kinds of treasures from Wang Yi, which has completely convinced these universe masters.

The entire human race will rely on Wang Yi in the future, who can have any opinions?

Even if the leader of Peng Gong, the leader of the famine, and other leaders did not dare to offend Wang Yi, it was too late to cheat.

Now Wang Yi's importance and status have risen to the same position as the founder of the Great Axe, even surpassing the Chaos City Lord.

Moreover, the masters of the universe all understand that although Wang Yi is only the master of the universe now, the possibilities in the future are infinite. The hope of the human race lies in him. Naturally, there will be no such cold-eyed relative situation again. After all, they will be in the future. They all ask for help. Didn't the founder of the giant axe owe Wang Yi favor?

"I'm afraid that Wang Yi has more than one supreme treasure..." Some masters of the universe muttered in their hearts, but this is Wang Yi's secret.

As Wang Yi's only teacher, "The Lord of Star Prison", this moment is also infinite.

Compared with Wang Yi, he has more friendships with the "Lord of Star Prison".

Many people couldn't help but start to feel jealous. With such a promising disciple as Wang Yi, relying on the close mentor-disciple relationship, this bear still doesn't know how much benefit this bear will get in the future.

City Lord Chaos looked at the pair of masters and disciples, and his eyes were filled with relief and joy.

"teacher....."

"I live up to expectations."

"My human race is really going to rise..."

Since the "primordial ancestor" of the previous generation of human leaders was suppressed by the original will of the universe, the burden of the human race fell on the Chaos City Lord and the founder of the Great Axe. At that time, the human race faced strong pressure and was suppressed by all parties. Later, the founder of the Great Axe To live up to expectations, to break through to the strongest in the universe, so that the human race can maintain the status of the pinnacle race and get a chance to breathe.

Over the years, the Lord of Chaos has been burdened too much. The teacher's entrustment and the future of the race are all weighing on him.

Too long, too long, countless years, sitting in Chaos City, guarding the human race, Chaos City Lord's heart has been full of pressure.

Until now, seeing the opportunity for the rise of the race, the possibility of transcending reincarnation, and becoming an eternal holy land, has it been easier.

"Wang Yi, thank you..." City Lord Chaos drank a glass of wine in silence.

He looked forward to the future even more.

...

Chaos City, the treasure offering location... is in an ancient side hall in the City Lord's Mansion of the Original Universe.

A human universe overlord with cyan hair and a pair of black meat wings walked into the palace. The ancient bronze door with a width of about a hundred meters opened, and the universe overlord walked in with joy.

"Turn in the treasures I got over the years, I should be able to get that treasure this time." The universe overlord looked forward to it in his heart.

The overlord of the universe placed the treasure in the stone tray.

"Dedicating to the ethnic group can get 1.6 treasure points. Venerable Wusong, would you like to dedicate the treasure to the ethnic group?"

Venerable Wuzong frowned, "It's only 1.6 treasure points? It's less than I thought."

"However, there is no way." Thinking of the treasure that has been longing for, Venerable Wusong chose to offer the treasure and then get the treasure point.

"Enough, you can exchange it." Venerable Wuzong lifted his spirits and began to open the exchange list.

Arcana category, ordinary Arcana category, select armor category.

null.....

"What's the matter?" Venerable Wuzong's face showed a stunned error. "Why are all empty, the virtual universe system is wrong?" Venerable Wuzong threw this absurd idea behind him in a blink of an eye. How could it be possible that the virtual universe system has never had a problem for countless years.

Venerable Wuzong did not give up on choosing weapons.

null.....

Domain class.

null.....

Palace class.

null.....

The more I watched, the more I was frightened.

Highest treasures are still empty.

As for the top treasure, the pinnacle treasure, the strongest treasure... they are not qualified to watch it at all.

He already understood that it was not the virtual system that had a problem, but that the race had taken away all the treasures.

"In the end what happened?"

...

When this cosmic overlord doubted his life, another ancient mansion in Chaos City, which occupies a vast area, now belongs to the mansion of the lord of the universe "the lord of the star hell".

Of course, Wang Yi also has a mansion in Chaos City that belongs to him alone. Regardless of whether he lives or not, the ethnic group will allocate mansion and servants specially, and Wang Yi can also arrange it himself.

Nowadays, the name of "Master of Chaotic Origin" has spread throughout the human race, including Chaos City. No one does not know this new master of the universe, one of the greatest beings of the human race.

At this point, even Venerable Universe, it is very difficult to see Wang Yi, so there is no such thing as a crowded situation.

In the garden.

Wang Yi and Pang Bo, who were dressed in golden robes, were sitting on the stone table and drinking wine.

"Time flies so fast, I feel that these 100,000 years have changed more than the past hundreds of millions of years." Pang Bo said with emotion, "The last time I saw you, it was when you just came out of the Chaos Monument and crossed the sky bridge for the first time. At that time, you were still a universe-level little guy, but now you are already the master of the universe." Pang Bo sighed infinitely.

"It is also the teacher's contribution that the disciples have achieved what they are today." Wang Yi subconsciously flattered him.

"The credit of the fart!" Pang Bo glared and cursed. "Those old guys look at me like I have picked up a big deal, hum, don't they just envy me that I have a disciple who may transcend reincarnation in the future? No matter how envy they are, they won't be envied."

Pang Bo was triumphant.

After drinking a cup, he said: "Actually, once you become the Lord of the universe, we can also leave a chaos monument for future generations to practice."

Wang Yi thought of something and asked: "Teacher, is the 52 Chaos Monument of our human race ~www.mtlnovel.com~ all left by the Lord of the Universe?"

"Most of them are, some are left behind by strong men whose strength is comparable to that of the Lord of the Universe." Pang Bo said. "How many Cosmos Venerables in our human race, there are only 52 Chaos Monuments, and ordinary Cosmos Venerables are not qualified to leave Chaos Monuments."

"So, in the history of our human race, have many lords of the universe fallen?" Wang Yi asked.

Pang Bo fell silent, and then slowly said: "Yes, I remember the one who fell recently is the Lord of Mengchen, who fell in the universe many years ago."

"In fact, the most downfall was the battle where our original ancestors were suppressed and all parties oppressed us together." Pang Bo's expression became savage. "So you have to remember, disciples, that our hatred with all races cannot be reconciled. Either we humans dominate the primitive universe and suppress them, or they bully us until one party is unable to continue fighting."

Wang Yi nodded silently. The struggle between ethnic groups is not about good or evil, it is a struggle for interests, accompanied by **** hatred.

[Chapter 475: Give treasure](#)

"By the way, teacher, I'm here today, and there is one more thing." Wang Yi waved his hand-there were four treasures suspended in midair, a shining crystal palace, and a purple bead with brilliance. The blue armor also has a shuttle-shaped weapon and a dark ancient mirror with leaf patterns.

This is the treasure that Wang Yi deliberately used the remaining 20,000 treasure points to exchange for the teacher.

Among them, the peak treasure weapon "Streamer Shuttle", 1300 treasure points.

The top field category "Magic Sky Mirror", 4000 treasure points.

The top palace category "Luofu Temple", 6,400 most treasures.

The flying palace treasure is the strongest among the treasures of the same level, and is best at resisting material attacks! An ordinary flying palace treasure, comparable in strength to the high treasure armor. The treasure of the high flying palace is comparable to the top treasure armor! The top flying palace treasure is comparable to the peak treasure armor! And almost 100% resist material attacks!

A set of top-level Arcana armor suits (comparable to ordinary peak Arcana armor), 1800 Arcana points.

The most expensive is the top soul treasure, that bead is worth 8,000 treasure points. Soul category treasures, at the same level, can almost 100% resist soul attacks.

Adding up, there are a total of 21,500 treasure points, and after redeeming these, there are not many treasure points left on Wang Yi's body.

"Disciple, you are..." Pang Bo stood up and looked at these five treasures in shock. From the ancient and unpredictable breath, he could see that these five treasures were extraordinary.

"Teacher." Wang Yi explained, "This is my gift to you."

Although Pang Bo is the top cosmic overlord of mankind, there is none of this level of treasure.

He also exchanged these to help the only teacher. Although the teacher has a clone and broke through the Lord of the universe, because of this, the future danger will be greater. Having these can also improve the teacher's combat power and survival ability.

As for the other masters of the human universe, they have nothing to do with him. The conditions are limited, that is, the Lord of Chaos. He didn't give it, which is to help the giant axe.

"These gifts are too expensive." Pang Bo's bear face was squeezed into a ball.

Such a treasure is false, but such a precious treasure is too hot. Taking the apprentice's treasure for no reason is not in line with Pang Bo's temperament.

"Teacher, just accept it, there is still on the disciple." Wang Yi persuaded.

Pang Bo finally accepted the five treasures with Wang Yi's good or bad words, and was full of emotions in his heart. This apprentice is really extraordinary, and even he has to rely on this apprentice.

How many years are this?

Even the giant axe owes this disciple's precious points and favors, and it seems that it is nothing to get the light of the disciple?

After laying down his burden and accepting the apprentice's supreme treasure, Pang Bo couldn't wait to stretch out his hand, and the supernatural thread shot out, quickly infiltrating the five supreme treasures, and suddenly a turbulent message came... the top flying palace class supreme treasure, the top domain class supreme treasure, the top supreme treasure armor set, The top soul treasure, the peak treasure weapon...

"This, this..." Pang Bo was completely frightened.

He knew that Wang Yi was backed by ancient and mysterious inheritance, and there must be many treasures, but he didn't expect to give him a set of treasures. It was so amazing.

"Apprentice, this..." Pang Bo didn't know what to say.

The top domain category treasure, even the "Thousand Treasure River" of Chaos City Lord, is it estimated to be at this level, right?

The Heavenly Wolf's main battle, the heavenly flying palace, the supreme treasure of the universe, the "Sirius Palace", that is, the highest treasure, now Pang Bo's is much better than him.

The top domain category treasures, the top palace category treasures, the top soul category treasures... Each piece can make the Lord of the universe jealous, and one piece appears. It is not surprising that you are desperate for it.

He Pang Bo, a newly promoted master of the universe, has accumulated for countless years and is less than 1% of it. Even if the race has bestowed him a top-level treasure, he is far from comparable to the five treasures in front of him.

To know that the peak treasure weapon, the value far exceeds the top treasure weapon, let alone other.

Pang Bo, he could have this day, possessing so many powerful treasures, it was almost a dream.

And with these treasures, Pang Bo's combat power will also soar to a level, at least not worse than "The Lord of Youhou".

Wang Yi couldn't help but smile when he saw the teacher's shocked appearance.

Deliberately said: "Teacher, how do you feel?"

Pang Bo didn't know what to say. While moved in his heart, he patted Wang Yi's shoulder with excitement, "Good apprentice!"

...

The two masters and disciples talked a lot, and talked about things in the universe and talked about primordial stars.

"Teacher, will you go this time when Primordial Star opens?" Wang Yi asked.

"Of course." Pang Bo is now full of self-confidence. With the blessing of a treasure given by Wang Yi, even among the many masters of the universe, Pang Bo's strength is not weak. Even if you run into the master of the apex universe like the Lord of Chaos, you can protect yourself if you can't beat it.

"Then teacher, how about your secret method?" Wang Yi asked concerned.

The master of the universe's ultimate jerk, generally only the master of the universe can create it. Whether or not he creates the ultimate **** is also an important factor in measuring the power of the master of the universe.

Pang Bo groaned, "Teacher, I have been researching suitable secret methods. I have made considerable progress in the past few years. It is estimated that within one to two thousand years, a master of the universe will be created, and it will be close to the master of the universe. There are also several sets. In terms of combat power, they are not too different from those of the masters of the universe."

He showed a confident expression again, "Moreover, there is a treasure that you gave to me. On Primordial Star, as long as I am not crowded with the Lord of the universe or besieged by several Lords of the Heaven-defying universe, I will not encounter any danger. You can also call the strong people of the ethnic group for rescue, and nothing will happen."

Wang Yi nodded. With the top flying palace treasure, in the primitive universe, as long as you don't die, it's hard to die. Even the strongest person in the universe can do nothing but the Lord of the universe who possesses the top flying palace treasure.

Pang Bo looked at the mysterious apprentice again, "Apprentice, will you go too?"

"Of course." Wang Yi smiled. The opening of the primordial star is a grand event in the primordial universe~www.mtlnovel.com~ many treasures were born, how could he not go.

"Okay, then we will act separately, and we will see who gets the most precious treasures at that time." Pang Bo was excited.

Wang Yi glanced at him, "Teacher, then you are sure to lose."

"That's not necessarily." Pang Bo stared, "If you want to get treasures, strength alone is not enough. We have to have luck. We compare our masters and disciples until the Primordial Star closes. Whoever has the most precious treasures will give the harvest to the Primordial Star. other side."

"Um..." Wang Yi couldn't say that he had a cheat device like a front panel. It could be said that he was walking to pick up the most precious treasures. Not to mention that you are the master of the universe, even the strongest in the universe, and you have to kneel.

At this moment, Wang Yi and Pang Bo received a notice from the virtual universe system at the same time.

Wang Yi opened it and took a look.

"Huh? The highest meeting is about to begin?"

[Chapter 476: Supreme Conference](#)

"Teacher, the Supreme Council is held today." Wang Yi couldn't help but said.

Pang Bo was rather indifferent, "Then go participate." He saw Wang Yi's slightly curious appearance, and smiled, "The first time you participated, I am afraid it feels very new... In fact, the Supreme Council is just like that. There are most of the real ethnic issues. Those of us who are the masters of the universe decide in advance, and then announce it in the Supreme Council, and the sages of the universe will have the right to participate at most, and there is no right to decide."

It's as if the ethnic group decided to exchange all the treasures in the treasure house for the Xeon Treasure, the masters of the universe didn't even need to notify the people underneath, they used it directly, at most they would tell them afterwards, and even what they took may be confidential. .

Therefore, it is the founder of the Great Axe, the Lord of Chaos City... and Wang Yi and the others who are the masters of the universe that really make decisions about the tribe.

Wang Yi nodded.

Pang Bo smiled again, "In fact, it takes a long, long time for a major event that can affect the human race. Moreover, more than half of the highest conferences do not need to be discussed, but the masters of the universe are notified! Only a few need to vote. It will take a lot of time, no voting is required, and

the time consuming is very short! After all, the masters of the universe above, there is no time to talk with the sages of the universe below, and to talk to them too much."

...

On the other side, Luo Feng and his teacher Zhen Yan also received an email from the virtual universe, informing them to attend the Supreme Conference.

"The highest meeting is held today?" Venerable Zhen Yan asked in amazement.

Luo Feng and Venerable Zhenyan looked at each other, and they both received the email from the virtual universe system at the same time.

"I have never participated in the Supreme Conference." Venerable Zhen Yan looked forward to it.

"Me too." Luo Feng smiled.

"go!"

The consciousness of the two connects to the virtual universe.

...

Virtual universe.

"Go to the sacred mountains." Wang Yi whispered while standing in his palace on the top of Thunder Island.

Since breaking through to the Lord of the Universe, his palace has moved from the mountainside to the top of the mountain, making it even more majestic.

The temples of the gods and mountains are the place where the highest meeting is held.

The highest meeting is held today, and when the virtual universe system sends out email notifications, the mountain of gods will automatically open!

As for normal, it has been closed.

...

The clouds are lingering and the peaks are faint.

A number of human powerhouse figures appeared one after another, and soon thousands of cosmic masters had gathered, and the number was increasing.

The gathering of the gods and mountains is divided into two places. One place gathers the four-star, five-star, and six-star powerhouses. Generally, they are the "universal elementary sages' combat power" cosmic sages' combat power" cosmic high-levels Venerable combat power'.

The other place... is where the Seven Star Overlords and the Hall Masters gather, which is where the universe overlords and the universe masters gather.

When Wang Yi appeared, there were already some super-existences of human races around, and the Lord of the universe also had a number.

"Lord of Chaotic Source." The universe overlords bowed slightly to show their respect.

"Chaotic Source."

"Chaotic Source."

"Haha, you came soon."

The masters of the universe are more casual and more enthusiastic.

There are not too many masters of the universe that the human race wants to deal with Wang Yi well.

Not to mention those cosmic overlords whose status and strength are inferior.

Soon Wang Yi was surrounded by many great cosmic masters like stars Gongyue. This enthusiasm made those unknown cosmic masters secretly surprised when they saw it.

Faintly felt that this newly promoted Chaotic Origin Lord seemed to be well-recognized among the Lords of the Universe.

The Lord of Chaos City, Lord of Void Gold, Lord of Qingdong, Lord of Desolate Mirror, Lord of Peng Gong... A great master of the universe appeared, and the vast and powerful laws of fluctuations pervaded this place, and ordinary universe hegemony stayed far away. Open, look here with awe.

They were surprised to find that no matter which side of the universe master, as long as they come, almost immediately greet the chaotic source master, without exception.

"Hunyuan, this is your first time attending the Supreme Conference, so don't get bored later."

"Hunyuan, the thing I told you about in exchange for treasures..."

"Hunyuan, come to me when I have time. I have a pot of peerless wine brewed with special materials from the depths of the Universe Sea Qingfeng Realm. I'll wait for you to come over and take a swig."

...

Although they couldn't hear the conversation of the Lords of the Universe, the enthusiasm and respect of the Lord of the Chaotic Source could still be seen by the overlords of the Universe, and they slapped their tongues secretly. What exactly did the Lord of Chaotic Source do to make all the Lords of the Universe be so polite to him?

As time passed, more and more powerful people gathered on the Mountain of Gods, gradually approaching the opening time of the Supreme Conference.

As long as the cosmic masters of the human race, the cosmic masters can participate in the meeting, all have come.

The founder of the Great Axe also appeared.

Wang Yi glanced at the palace master of the eclipse and the top universe hegemon of the giant axe battlefield, "The Ancestor Tree" is not there, and he should be still sprinting for the master of the universe in retreat.

I don't know if they can succeed smoothly.

"Boom..." The world roared.

Wang Yi and the masters of the universe around him looked up at the sky at the same time, only to see two doors with dazzling golden light slowly opening in the clouds and fog of the sky, and there were bright starry sky above the two doors. The place where the meeting was held... is the palace suspended above the mountains of the gods, and that is the "temple of the gods".

"Human powerhouses, gather together!" A magnificent voice resounded throughout the world.

call! All the strong men on the mountains of the gods disappeared instantly, and they were all teleported into the temples of the gods.

"Boom..." The two doors that illuminate the entire space with golden light suddenly closed.

...

In the temples of the gods, there was a huge and exquisitely carved round table. Luo Feng, who was transported in with the other cosmic masters, could only see a part of the round table, and the other parts of the round table seemed to be shrouded in clouds and mist.

The thrones are densely packed around the round table.

The throne with no end in sight.

Luo Feng sat on one of the thrones.

"Huh?" Luo Feng stroked the armrests with both hands, and looked back, there was the human common word "daohe" on the back of the king's seat. UU reading www.uukanshu.com

"Many Universe Venerables." Luo Feng looked around. I found a large number of Universe Venerables sitting at the bottom, and they were all elementary Venerables of the Universe. Their throne is the smallest!

About 2 meters wide!

The throne of the middle sage in the universe is 10 meters wide.

The throne of the cosmic elders is 50 meters wide.

Luo Feng is sitting on a 10-meter wide...

Moreover, he can only see the "universal elementary sages", "universal sages", "universal sages", and "universal sages". As for the higher status of the "universe hegemon" and "the lord of the universe", they are completely trapped in the misty clouds. , Can't see it at all.

"My divine body has also become just right to fit this throne." Luo Feng stroked the handrail, secretly exclaiming, sitting on the 10-meter-wide throne, just putting his hands on the handrail.

[Chapter 477: Primordial star on](#)

At a height that Luo Feng couldn't see, Wang Yi was also condescendingly overlooking the scenery.

It can be seen that around the huge round table, the densely packed gods are divided into five levels.

It is 2 meters wide, 10 meters wide, 50 meters wide, 200 meters wide, and 1000 meters wide, and the gods of all the strong are perfectly matched with the chair.

Among them, some cosmic hegemony such as Venerable Guiyi, Venerable Jiufeng, Venerable Immortal, etc. are all sitting on the two-hundred-meter-wide **** seat.

And the highest point... On the lofty throne, the lord of the universe is at the highest point. They overlook all other human powers. They are super existences from the five forces of the human race.

The 1,000-meter-wide towering throne, everything else is dazzling gold, only the two towering thrones in the center are black, exuding a sense of dignity.

One of the black thrones is faintly carved with a giant axe. Sitting on this throne is a savage-like giant with thick fingers and scattered long hair. But the other black throne next to him was empty, with no one sitting.

There are towering figures sitting on the other golden thrones.

Sitting on the golden **** seat on the left hand of this savage giant is the City Lord of Chaos, and on the right next to the golden **** seat next to the empty black **** seat... it is Wang Yi with red robe and black hair.

With his hands on the armrests, Wang Yi looked back and saw that the back of the king's seat was carved with the word "Hunyuan" in the lingua franca.

Wang Yi glanced at the empty black **** seat next to him again, and the word "Yuan" was carved on the back of the chair.

"Disciple, how do you feel about attending this kind of meeting for the first time?" Next to Wang Yi is his teacher, Pang Bo, the "Lord of Star Prison". This is also deliberately arranged.

And they are condescending and can easily see everyone's reactions in their eyes.

"The number of sages of the human universe is so small." Wang Yi said with emotion.

It's less than seven thousand, so few.

His voice made the Lord of the surrounding universe look over.

I know that you have many sages of the universe, but you don't have to show off like that.

...

This meeting, as always, was presided over by the Lord of Chaos City.

However, the first thing that Chaos City Lord announced was that the treasure house of the human race was vacant.

After all, more than 90% of the treasures in the treasury have been used to fill the big hole of the giant axe's supreme treasure, and other needy cosmos masters will also exchange it... the human race must first meet the needs of the cosmos master before it's turn. Those universe overlords, universe lords.

When this notice was received, the venue was in an uproar, but this was a joint decision of all the senior leaders of the ethnic group, and even if someone had an opinion, it would not have any influence.

Of course, the Chaos City Lord also promised that this is only temporary, and in the future, the treasure house will still be opened for them to exchange freely, but there will be a shortage of treasures during this period of time.

Many people are aware that something big has happened to the ethnic group that they don't know, but since the senior management has not given a clear answer, they can only put away their dissatisfaction and make their own guesses.

The Lords of the Universe above were indifferent to the reaction of these Universe Masters.

Wang Yi secretly said in his heart that the high level of the human race has done too much this time.

But this is also what he expected.

Rather than giving those treasures to these cosmic lords, it is the right way to first supply them to the masters of the universe to increase their combat power.

What's more, the treasures in the treasure house are basically obtained by the masters of the universe and contributed to the race. It is normal to take them back when needed.

It's just that these cosmic lords have always been accustomed to enjoying the welfare and resources of the ethnic group.

"The human race is still too poor, and the resources are not enough, otherwise, why not come to this." Wang Yi thought in his heart.

The human race is equivalent to tearing down the east wall to supplement the west wall, and there is no way.

At the same time, Wang Yi also felt the difficulty of being the masters of the human race.

The lone traveler is unrestrained, and the founders of the giant axe have to consider for a race, it is much harder, and they act more restrained, and have to be responsible for the entire race.

It's like a mountain guest who is so chic and rampant in the universe, no one can give any face, but other forces have to tolerate him as much as possible.

After all, an unfettered, unconcerned, lonely strongest man in the universe is too terrifying, no one wants to provoke such a person.

The meeting continued, and Chaos City Lord announced the second thing.

The original star is about to open!

"Primitive Star is about to turn on?" After hearing the announcement of the Chaos City Lord, almost all the universe venerables showed shocked expressions on their faces.

In front of the many powerful men sitting on the densely packed **** seat, a screen was suspended, and a large amount of detailed information appeared on the screen.

The Chaos City Lord sitting close to Wang Yi lowered his voice and said to Wang Yi: "Wang Yi, this time our human race has decided to take advantage of the opening of the Primordial Star. The Lord of the Universe who can go will enter this time and try to collect it. Zhibao, I heard that you will also go in. If you are not acting alone, you can tell me and I will make arrangements for you."

Obviously, the exchange of treasures stimulated the human race and gave them greater ambitions.

But every ethnic group that aspires to grow is ambitious.

"I'll be alone first, the efficiency of two people is a bit low." Wang Yi said.

Chaos City Lord nodded.

In fact, the masters of the universe they entered also acted alone. Just as Wang Yi said, the strength of companionship is naturally strong, but the probability of obtaining treasures is also reduced.

Acting separately, the probability of discovering treasures is of course much higher, and there is no need to assign them to other people.

"If you find a treasure and cannot fight for it, you can notify others." Chaos City Lord reminded.

This time, the strong of the human race will march into the Primitive Star on a large scale.

Wang Yi stared at the screen in front of him, which contained all the detailed information about the original star.

The most central place in the entire universe is the "land of the origin of the universe."

However, for infinite years, apart from the occasional consciousness that can descend to the origin of the universe, no superpower can personally reach the origin of the universe!

It seems to be an illusory place, but the primordial star is real.

Original stars, a total of 10081 stars!

According to the information that has been transmitted since the birth of the universe, these 10081 primordial stars surround the "land of the origin of the universe", which can be said to be the closest place in the entire universe to the "land of the origin of the universe".

There are countless treasures bred on these 10081 primordial stars, and there are also many crises.

There are a total of 10081 passages leading to the Primordial Star, but these tens of thousands of passages... are usually closed all the time, and will only be opened once after a very long time.

Every time you open it, it will last a thousand epochs! It will be closed after a thousand epochs...All the strong who entered must come out before closing ~www.mtlnovel.com~ or they will inevitably perish!

No matter it is the stay of the clone, the stay of the avatar, etc., many secrets are invalid, as long as the original star is still staying when it is closed... it must be lost!

Without exception!

This is the most mysterious place in the universe! No place can surpass it.

The 10081 primordial stars, although there are dangers everywhere, they also have countless treasures. The treasures are not worth mentioning, and the treasures often appear!

The super beings of hundreds of millions of races in the universe will fight wildly here, competing for treasures for their respective races! Every time it is turned on, it is a terrible killing...Every time it is turned on, the Lord of the universe perishes in it.

Very **** and cruel. But it also made countless strong people crazy!

But... this is the primordial star, the closest place to the origin of the universe!

[Chapter 478: Borrowed treasure](#)

"This primordial star is indeed a treasure. I am afraid it is the place where the most treasures of the primordial universe appear." Wang Yi exclaimed.

According to the above information, each of the 10,081 primordial stars is a treasure star, but it also brings together the major superpowers in the universe.

Some heavy treasures, some ordinary treasures, the competition is not too fierce, like some precious treasures! Such as flying palaces, domains, souls, and even some high-level treasures, top-level treasures... the more precious the treasure is born, the greater the movement, and the masters of the universe of all races will fight for it.

In history...every wave of primordial stars is opened, and the Lord of the universe will fall!

However, although Primordial Star has always appeared countless treasures, there has never been a treasure of the Xeon Supreme Treasure level.

"It shouldn't be nothing, but a restriction issue." Wang Yi understood in his heart.

The primitive universe gave birth to countless strong people, but all information that surpassed the strongest in the universe before the strongest in the universe was obscured and forbidden to appear.

While watching the information and understanding the situation of the Primordial Star, Wang Yi talked with the masters of the universe around him.

Shortly after.

"In 10 years, my human race will enter the Primordial Star!" In the calm and majestic voice of the Lord of Chaos City, the highest meeting ended.

Rumble...The door of the temples opened.

One by one, the venerables of the universe talked and laughed to each other and walked directly to the gates of the temples full of golden light. Once they stepped through the gates, they all teleported and disappeared.

But the cosmic masters sitting on the highest seat of the gods don't have to walk through the gate with those cosmic lords, as long as they want to leave, the figure will teleport away.

Before leaving, I greeted Wang Yi.

"Hunyuan, see you on Primordial Star."

"Hunyuan, there are still 10 years to go. If you want to get together, you can find me and Qingdong."

"Hunyuan, if you encounter any trouble in Primordial Star, please call me at any time."

...

Wang Yi sighed, these masters of the universe are really passionate.

Can you not be enthusiastic? They will all count on Wang Yi to break through the road and the treasure in the future.

Being grasped by the lifeblood, the masters of the universe are not fools, so how can they not make good friends with Wang Yi?

Wang Yi glanced at the Golden Light Gate again, just in time to see Luo Feng and a group of Universe Venerables walking towards there talking and laughing.

However, there are also some cosmic lords who are talking to him.

Wang Yi doesn't need to think about what these cosmic masters are talking about.

Jealous.

After all, Luo Feng has several treasures in the rumor.

Wang Yi smiled slightly.

He knew that if the historical trajectory did not change, Luo Feng would probably also go to Primordial Star, and would disturb the situation.

However, before this, Luo Feng will still encounter a little trouble. Those strong men who thought Luo Feng would not go to Primordial Star came to borrow the treasure. Go, Luo Feng is so weak, how could he go.

Wang Yi was also thinking about how he should use less than 5,000 treasure points left on his body. After all, he has four bodies. The journey of the original star does not necessarily have to go with one body, but two more clones. Uncertainly, Wang Yi is very poor now.

Moreover, the Tongtian Pagoda should also be taken back, and it is not a way to keep it on the battlefield outside the territory.

"Disciple, let's go." The Lord of Star Prison said to Wang Yi, and the Lord of the surrounding universe was almost gone.

Wang Yi nodded and left with the Lord of Star Prison.

...

Just as Wang Yi had imagined, Luo Feng soon faced the embarrassing situation of acquaintances from the past coming to borrow the treasure.

On the mountainside of Thunder Island, under the pavilions outside Luo Feng's palace complex.

"Venerable Nine Swords." Luo Feng looked at the green scale man in front of him apologetically, "This, this, this is a bit sorry. I don't want to borrow it. I plan to go to the Primordial Star myself."

Venerable Nine Swords could not borrow the treasure, so he left soon, but only a moment later, another strong man arrived to borrow the treasure...

This time it is the one who is Guiyi.

He actually wanted to ask Wang Yi to borrow it, but Wang Yi is already the lord of the universe, and his position is extraordinary. Venerable Guiyi had concerns in his heart, and he thought that Luo Feng would not go to Primordial Star. When Luo Feng met the Lord of Chaos City, He also had several dealings with Luo Feng, and the relationship was pretty good, so he came too.

Of course, he was also disappointed. After all, Luo Feng really planned to go to Primordial Star. Of course, the more treasures he had, the stronger.

Although the rejected Venerable Guiyi was a bit unwilling, he didn't say anything and turned and left.

If Luo Feng didn't borrow, he couldn't help it.

"Luo Feng, I have promised to reward me with three ordinary treasures. He is actually unwilling to lend me." Venerable Guiyi came here this time but he looked down. He is the second disciple of the Chaos City Lord, and he is the overlord of the universe. What a position. , Fortunately, he spoke aloud, but was rejected by Luo Feng at once.

"It seems that I have to find a way to borrow the treasure from other places." Venerable Guiyi frowned, feeling a bit tricky.

Among the human races in the universe, those who possess the most treasures are generally the cosmopolitan venerables and even the "universal hegemons."

And these super beings generally go to Primordial Stars.

There are only a handful of people who have treasures and don't want to go to Primal Star.

When Venerable Guiyi had a headache, a voice rang in his ear.

"Normalization."

The voice was heard more than once, and he reacted to it all at once.

"Master of Chaotic Source?"

Now Wang Yi is the lord of the universe, the highest level of the human race, and has the same status as the lord of Chaos City. Venerable Guiyi never thought of relying on his identity in front of Wang Yi. After all, strength is the respect in the universe, and he is not Teacher Wang Yi, close. The degree is not surpassable.

On the top of the mountain, Wang Yi occupies a majestic and huge palace covering an area of 10,000 kilometers. In a pavilion on the lake, Venerable Guiyi and Wang Yi are sitting here.

"I just saw that you went to Luofeng's place, what's the matter?" Wang Yi asked knowingly.

Venerable Guiyi's face was slightly stiff, and then he sighed slightly, telling him about the rejection of borrowing the soul treasure from Luo Feng just now.

"You are wrong to blame Luo Feng. I know his character. He will not deceive you for no reason. Since he says he is going to Primordial Star, he will definitely go." Wang Yi also did not explain that Luo Feng's so-called soul treasure is the star, tower, and tower. There is no way to recognize the Lord for others.

"He's just immortal. His strength is a bit weak. Isn't it a bit too risky to go to Primordial Star?" Venerable Guiyi also knew the relationship between Wang Yi and Luo Feng, and didn't say anything excessive.

In fact, what he thought in his heart was, isn't this a death.

"Maybe he has his own ideas, but Luo Feng is not the kind of blindly arrogant person. Since he goes, he should be sure." Wang Yi didn't say more, changing the topic. "Guiyi, you said you lack the treasure, which one is missing? Maybe I can help."

Venerable Guiyi's eyes lit up immediately.

Wang Yi is the lord of the universe~www.mtlnovel.com~ There must be many treasures in him.

Compared to Luo Feng, Wang Yi is undoubtedly more reliable.

Wang Yi borrowed a soul-like treasure to the Guiyi Venerable, which is what the Guiyi Venerable lacks most.

In fact, in the treasure house, only 36 treasure points can be exchanged.

But as the overlord of the ordinary universe, the Guiyi Venerable is obviously not that wealthy.

Wang Yi borrowed the supreme treasure to the Venerable Guiyi, and he did not need to repay it with the ordinary treasure, and could be used until the end of the thousandth era of the Primordial Star. Naturally, the Venerable Guiyi was very grateful.

Wang Yi had thought of giving away, but let's forget about it. Don't Luo Feng, if he didn't become a gifting boy, he first became a gift boy.

Don't worry if you help, but the bad guys can't just do it casually.

[Chapter 479: Take away the Tongtian Pagoda](#)

At the level of the Lord of the Universe, according to the panel rules, Wang Yi faced a somewhat embarrassing thing, that is, he could only sign in for the reward of the Lord of the Universe.

Heavy treasures are not good, only treasures.

This has also led to a higher probability of Wang Yi signing in for high-level rewards, and at the same time, the number of rewards received will also be drastically reduced.

I don't know if it's a good thing or a bad thing...

And the powerhouses of the entire human race are preparing to enter the Primitive Star.

...

Earth.

Now that 90,000 years have passed, the population of the earth has multiplied to the point where it is difficult to count the earth's officials. Not to mention the people of the earth, even the Wang family and the Luo family, the population has already surpassed a star field.

With such a large population, the earth is still a holy place in the eyes of countless people on the outside world, where there are countless elites and powerful people on earth.

It should be noted that according to the high-level calculations of the human race, the development of the human race on Earth alone will be enough to rival the human race at least one tenth! How many immortal gods does that get? How many Universe Lords?

Moreover, the potential of the human connection on Earth has just emerged, and it has not yet fully exploded. This outbreak requires enough time.

Not to mention, Wang Yi, Luo Feng, Hong and others supported and helped behind.

Wang Yi in a red robe walks among the tall buildings and fields on the earth. His figure disappears and disappears. In the eyes of outsiders, there is no such person. Even with the highest technology, it is difficult to find.

"The earth is really different." Wang Yi stood on the top of a skyscraper, overlooking everything, underneath the bustling scene of people and people coming and going, a faint smile appeared on his face.

Today's earth has long realized the harmony between technology and nature, and the environment is extremely beautiful. Even if it is placed in the universe, it is also the most suitable planet for humans to live in.

On the earth, there should be more than half of the elites of the hundreds of millions of people in the whole earth. On the earth, planetary stars are very common, and even constant stars and even cosmic levels can be seen frequently. There are also some immortal inhabitants. On Earth.

Today, there are 26 immortal gods (including Wang Yi, Luo Feng, Hong, and Thor) in the human line of the earth, and 11 of them live on the earth.

"The earth's living space has been used to the extreme, and it can completely inhabit trillions of people, but in this way, only a part of the elite can live." Wang Yi secretly thought.

Compared with the entire universe, the Earth's population is too small, but they account for more than 99% of the entire planet's elite.

With a reasonable and powerful training mechanism and countless resources, the people on earth will continuously cultivate more talents and strong people.

Many of Wang Yi's younger generations have also emerged in virtual universe companies. For example, several of his children have entered the core four secret realms of virtual universe companies. The strongest one is already at the master level of the original secret realm. They dream of it is to enter the original secret realm of the world master and break through the original Tongtian Mountain.

However, even with Wang Yi's teaching and training at all costs, it is still very difficult for them to achieve this step. After all, it will take many years for the human race to emerge a peerless genius who has broken through the world master-level primitive Tongtian Mountain.

...

In a starry sky about 1,000 light-years away from the earth, there is a majestic and tall fiery red palace. Here is Wang Yi's current temple residence.

And the fire red palace, also known as the most treasured "Huosuo Palace", of course Wang Yi no longer needs it now, so he used it as his residence on the earth in the Milky Way galaxy.

In the palace, a towering figure sits on the black throne. It is Wang Yi, who is tens of thousands of kilometers high, with a red robe, black hair hanging down, and a flame mark on his forehead, looking indifferently at the multiple figures below the temple. .

"Meet the Lord of Chaotic Source." The dozens of powerful figures bowed slightly at the same time.

Wang Yi looked at the dozens of familiar figures, and said in his heart: "The human race actually threw the dozens of advanced cosmic sages that I had captured before to me, and let me be responsible." There was also "Venerable Qianwu" in the crowd. "Zhe" and several newly sent Universe Venerables, these are Wang Yixin's subordinates.

"But raising these dozens of venerables is nothing to me. I can also be a helper and deal with some trivial matters." Wang Yi smiled slightly and said with a loud voice: "You will host everything here in the future, if so. If you have something to do, you can find me directly through the virtual universe. If you have something urgent, you can crush the token I gave you."

"Yes." The sages of the universe respectfully took their orders.

These cosmic masters were also very happy in their hearts.

This kind of Universe Venerable who directly belongs to Wang Yi is equivalent to approaching the great backer of Wang Yi... With and without backing, it is completely different.

For example, as soon as they became Wang Yi's subordinates, they were bestowed an ordinary treasure by the ethnic group, and then Wang Yi gave them an ordinary treasure, which is equivalent to each person getting two treasures out of thin air. Where can I find such a good thing?

We must know that there are very few among the higher cosmic venerables who possess the most treasures.

And with a backing, you will not be easily bullied and squeezed out. What resources will be available in the future will be easier to obtain. In case of a fall in the future... Even if you are resurrected, it will be much easier than other cosmic masters without a background!

Moreover, there are often opportunities to meet the Lord of the universe, and it is easier to get guidance.

Under normal circumstances, a cosmic master will choose some cosmic masters to accept as disciples. There are only so many cosmic masters of the human race, and most of them are unwilling to accept disciples. Therefore, most cosmic masters cannot worship in the universe. Under the main door!

This is enough to make other Universe Masters who have not been able to worship the Lord of the Universe to be jealous.

However, although Wang Yi was already the Lord of the Universe, he hadn't planned to accept disciples. Even though the Lord of Chaos City and some human races and the Master of the Universe persuaded him to accept disciples, he didn't have this intention.

Actually, Wang Yi doesn't want to accept apprentices, but he just doesn't want to find apprentices casually. First, he has talent, second is his personality and taste, and third is fate.

Therefore, even though many people are looking at the position of his disciple, Wang Yi still has no disciple.

...

On the outer battlefield, there are two towering towers, one of which is the Star Tower, where hundreds of millions of immortal powers in the universe roam, while the other is more towering and tall, but lonely and deserted, hardly seeing any figures, this is what appeared. The tower of Tongtian for tens of thousands of years.

In the core hall, the misty golden light lit up. Wang Yi walked out of it.

Wang Yi wandered through it and watched everywhere, even the most obvious secret patterns... all felt that perfect, and the countless secret patterns in the entire Tongtian Tower were even more complicated and complete than the 'microcosm secret pattern map'.

mysterious! profound! Incredible!

Time, space, gold, wood, water, fire, earth, wind, thunder and lightning, light... It seems that various laws and threads are mixed in, and they are perfectly combined, which is billions of times more complicated than the microcosmic mystery map.

What Wang Yi enlightened was only the roughest and simplest outer layer.

Finally, I returned to the core hall~www.mtlnovel.com~ My current supernatural power should be able to drive the Tongtian Tower. "

As early as in these years of cultivation, Wang Yi has mastered the second secret pattern of the Tongtian Tower, plus he is now the lord of the universe, so he is naturally confident.

boom! Wang Yi's body surface divine power burns instantly, and the burning divine power is directly transmitted along the ground of the main hall. It is transmitted layer by layer as quickly as electric current flows. It enters some cores inside the Tongtian Tower and flows through the pillars, various structures, and walls. Numerous secret patterns on the surface.

It's just that the secret pattern is too complicated, Wang Yi knows almost nothing, and now he can only vaguely understand the easiest and most obvious part.

Relying on the powerful divine power, it can force the movement, but the divine power consumption is exaggerated. It would be much easier if the enlightenment through the sky tower urged a lot of mysteries.

"Tongtian Tower, move!"

"boom....."

[Chapter 480: The way forward](#)

At the moment, Wang Yi and his servants are the only ones in Tongtian Tower, so there is no need to expel others.

"boom....."

In the outside world, there have been strong people from all sides staring at the Tower of the Sky, even the Lord of the Universe, after all, the Tower of the Sky is very important.

But at this moment, they were shocked to discover that the towering tower that was one hundred light-years high, like a towering tower covering half of the universe, shrank rapidly and at an amazing speed. In the blink of an eye, it went from one hundred light-years high to one kilometer high. The tower of Tongtian which was only one kilometer high... disappeared out of thin air, disappearing completely.

"Disappeared!"

"Tongtian Tower disappeared!"

Super powers appeared, searching frantically, but couldn't find the trace of the whereabouts of Tongtian Pagoda.

Following this news quickly spread back to all parties in an extremely crazy manner, shaking the entire universe!

...

Human territory.

Milky Way.

Wang Yi felt that his cheap master, who had only met once, had taken him too far.

If you lose a Tongtian Tower, you will realize everything by yourself, and don't care about the others.

Only by thoroughly mastering the Tongtian Pagoda and reaching the apex of the origin continent can one obtain the gift left by the master.

"No matter what, law perception is the kingly way and the essence of everything."

Wang Yi naturally knew exactly how he should go. First, the "divine power route" became a true god! After becoming a true god, the ten basic laws of metal, wood, water, fire, earth, light, thunder and lightning, wind, time, space... are the foundation to condense the void. In fact, starting from the ten basic rules is the kingly way! Ten legs move forward at the same time, naturally and easily.

But before that, the ten rules must be fully understood.

"My Fire and Sky Law is fully understood, and it blends perfectly."

"But the other eight rules are far from it."

Wang Yi took a deep breath, feeling that the road he had to walk was a long one.

According to his speculation, if you have a thorough understanding of the ten source laws, and then condense the void based on this, you can become the true **** of the void.

But every step is not easy, just like the immortality of a king must integrate the three profound mysteries of the space to break through to the nobleman, trapping countless people.

This condenses the void based on the law, and the difficulty is undoubtedly more terrifying.

Even if there are countless universe's strongest people in this long cosmic sea of reincarnation, few can do it.

The strongest person in the normal universe is to perceive the evolution and birth of the small universe, and perceive it until it truly controls the void.

The eternal true **** is to perceive the evolution of the entire universe to the extreme, and even create a mini-universe in an instant, realizing a trace of the origin of the universe, such as the source of water and fire, the source of light and darkness, and the source of time and space.

It can be seen from the journey of cultivation that the planetary star to the master of the universe is an understanding of the law. The true **** (the strongest in the universe) to the eternal true **** is an insight into the mystery of the evolution of the universe.

And taking the route of law fusion, becoming the true **** of the void, is just the most preliminary fusion of the ten laws.

"The Lord of the Universe I created before is extremely fascinating, but it's just a fusion of the secret law, and it is a thousand miles away from the true law." Wang Yi secretly thought.

However, the successful integration of the secret law also represents the gift of law perception and proves that Wang Yi's path is correct.

The final stage of the rule of law route-return to the original and return to the original: the ten basic rules are thoroughly integrated to achieve the "law of chaos", which is the realm of the eternal true god, "the ruler of chaos", and the existence of the holy is also super in the ancient civilization. The strong is equivalent to the existence of the master of the universe in the primitive universe.

"But before I become the true **** of the void, I have to follow the path of divine power to break through the true god." Wang Yi felt the difficulty of cultivation.

Starting from divine power, breaking the law with strength, breaking through to become a true god!

Like the masters of the normal universe, they are all rule-based. After they break through... they become the strongest, and then use the "mini universe" to transform the chaotic energy into divine

power to supply themselves. Make oneself reach the level of the strongest person in the "ten thousand times gene" universe.

Therefore, no matter how bad the universe is, the strongest person in the universe has a tens of thousands of times the genetic level and possesses a divine body close to one hundred thousand kilometers.

Starting from divine power, three levels.

The third level...extremely difficult!

If it is said that 10,000 masters of the universe can hardly have a "divine power start" to succeed, then it is necessary to reach the third level. It can be said that 10,000 real gods starting from divine power can hardly have a third level.

"I don't have the guidance of ancient civilizations. I don't know which step I can do with Youhai's talents and secrets." Wang Yi walked in his hall, looking up at the vast starry sky from time to time. The universe, he still felt a trace of awe from his heart.

Endless Youhai has two great talents, one is to transform the sea, and the other is to create.

Once the second talent is used... it can analyze the fundamental characteristics of many lives, and even create life.

Like the Lord of the Nine Nethers, he created a race, relying solely on the strength of the Lord of the universe, and even the strongest in the universe, no one can "create" a race on his own.

But the Lord of Jiuyou did it.

Relying on the secret method of talent "creation".

"According to my memory, this kind of innate secret method that can analyze the fundamentals of life and create life! It is the best aid for studying the 'Gene of Life'...With it, I hope to sprint 90,000 times the gene." Wang Yi meditated.

In fact, even if the original book of the Donghe sect is determined, it can reach 90,000 times the gene, and there are only two.

To follow this path, it is necessary to study the hundreds of millions of creatures and countless substances conceived in the "primitive universe" and analyze their essence.

Combine hundreds of millions of creatures and hundreds of millions of materials to study everything. this road. It takes endless time and effort to study endless creatures and substances... to find a way to make the divine power one step further.

Even in the process, it is necessary to obtain the bodies of many powerful men to break them...

Wang Yi woke up from his contemplation and smiled.

"I will go this way, and Luo Feng will also go, I don't know who can reach the end first."

"Discussing with Luo Feng and promoting each other, maybe we all have the opportunity."

In the future primitive universe, it is Luo Feng and himself who will follow the line of divine power.

Wang Yi stretched out his hand, and a small tower appeared in his hand.

The normal Xeon Supreme Treasure is usually the third Secret Rune-Tier 6 top combat power!

The fourth layer of secret pattern-the top combat power of Tier 7!

Fifth Secret Rune-Tier 8 top combat power!

The sixth Secret Rune-Tier 9 top combat power (level of the giant axe)

Seventh Secret Rune-Tier 10 top combat power (level of the original ancestor.)

Some Xeons do not necessarily have the seventh appearance.

Power division, but it is generally the case.

And Wang Yi's Tongtian Pagoda has forty-nine layers of secret patterns. Of course, there are differences in the division.

According to Wang Yi's estimation, the first and second levels are equivalent to the first secret patterns of ordinary Xeon Zhibao.

The third and fourth levels are equivalent to the second level of ordinary Xeon Zhibao.

The fifth and sixth levels are equivalent to the third level of the ordinary Xeon to treasure.

The division is more detailed.

Wang Yi now vaguely perceives the sixth level, and then it becomes more vague and completely unclear. As for power, it is also vaguely judged based on secret patterns. Of course, what can really be displayed now is the second level that has been fully understood after spending more than 80,000 years!

The strength of the strongest in other universes is to understand more than one layer of secret pattern, but he is more than two layers of understanding.

As a result, they can maximize their strength. Secondly, each layer of secret lines represents a kind of fighting secret. The first and second levels represent that Wang Yi has mastered two different secret methods. And it is different from the original first kind of "all directions", the more powerful master of the universe, the ultimate genius!

However, no matter what kind of unique knowledge ~www.mtlNovel.com~ Wang Yi has never performed it outside.

...That is to say, if Wang Yi understands the sixth level of the Heavenly Pagoda, it is estimated that he will almost have the top combat power of Tier 6.

But now, Wang Yi has just realized the second level, and he is still far from the third level.

Therefore, Wang Yi feels that his future cultivation path is very long, very long, which is not a joke.

When I saw Tongtian Pagoda, I thought of Star Pagoda, and then I thought of Zuoshanke.

In fact, Wang Yi's heart has always been a little complicated in his attitude towards Zuoshanke.

Fear, with some inexplicable expectations.

And with Luo Feng's relationship, in the future, Zuoshanke will also be regarded as a potential ally of the human race.

"The secret technique of will "Lean Yuanshu", the secret technique of burning divine power, Yuan embryo, the most precious mechanical flow..." Wang Yi's thoughts were a little lost for a while.
