

A God 491

[Chapter 491: Fight for the treasure](#)

There were a total of nine superpowers before the original universe, and each superpower, such as the Hongmeng and the Zerg Alliance, was about 40 universe masters.

The Master of the Universe in the Northern Frontier Alliance has the most...but it's about 100, and it's relatively loose!

So the primitive universe is quite peaceful.

As time passes, the Primordial Star will continue to open for a full 1000 epochs. It is destined that some precious treasures will be born with a very small probability, and only once in a long time.

Instead, suits of heavy treasures and ordinary treasures have become common targets for competition.

...

"Um?"

In the Great Hall of Hongmeng City, Wang Yi, who was talking with several cosmic masters, received a message about the virtual universe.

"The original star number 07336 just discovered that the treasure was born?"

"The source of the information is Venerable Guiyi?"

Wang Yi squinted his eyes. "Primitive Star No. 07336 is the closest to my Void Zerg clone. Let the Void Zerg clone pass first."

To compete for a treasure, one clone is enough.

He muttered, "What a coincidence, the original star numbered 07336, I checked in a few days ago."

The birth of the treasure is completely irregular and can only be waited.

In another primordial star, Wang Yi's Void Zerg clone turned into a streamer and set off directly towards the vortex channel to the primordial star number 7336!

"This is the fifth time I have received a message in the past few months. The first few times have failed."

The birth of ordinary heavy treasures and suit heavy treasures is more common, while the most rare treasures are.

How sensitive are the strong? Near the water tower, get the moon first, and Wang Yi or the Hongmeng powerhouse will be farther away. When the treasure is born, when he rushes away... the competition is over long ago.

"Either you are far away from me, and when I rush over, the fight is over."

"Either the Hongmeng member I found is not strong enough to hold on, and it will be too late for me to pass." Wang Yi shook his head.

"Fortunately, my Void Zerg clone is close to the passage here. According to the coordinates, it will take a while to reach Venerable Guiyi. I hope Venerable Guiyi can hold it."

The Yanxing Giant Beast clone who was with Youhai clone still stayed in place, looking at the sky boredly.

This primordial star has no other masters of the universe. The entire primordial universe only has more than a thousand masters of the universe. Now only a part of it has entered the primordial star and scattered to 10081 stars. That is very few. If you want to encounter it, you have to rely on luck.

"Find a chance and verify my guess..." The flame star beast in the world ring rubbed its sharp paws, stretched out its long tongue and licked its lips, its blood-colored eyes squinted dangerously, as if it was filled with blood. The real evil spirit.

...

In a vast expanse of snow-capped mountains and white snow, several people and horses are already facing each other.

On Primordial Stars, the overlords of the universe are generally acting alone, and almost all of them are the higher sages of the universe.

There are monster races with huge bodies and fierce auras, mechanical races with bodies glowing with metallic colors, and strong crystal races like perfect crystal sculptures... and in their encircled circle, there is a fire-red war robe with a faint face. The smiling bald man is just the overlord of the universe of the human race, the disciple of the Lord of Chaos, and the Lord Guiyi.

And beside the Venerable Guiyi, there was a stone pillar slowly rising from the snow. The stone pillar was covered with mysterious and complex secret patterns, faintly exuding coercion.

Recognizable, it is a treasure.

In fact, the treasure is easy to identify, one is the movement of this world, and the other is whether it was born alone.

If it is a few pieces, then it is a heavy set of treasures.

But now it seems that there is only one piece, it must be the treasure!

The current situation is that the treasure has not yet been completely born.

These are some of the more precious treasures, such as the most precious treasures, etc. that are often born in the world.

This slowly rising gray stone pillar is in the process of being born, and you must wait for the complete birth before you can recognize the Lord.

"Venerable Returned One."

"He is a disciple of the City Lord of Human Chaos."

The teams of powerful people around were eagerly watching the gray stone pillars rising at the feet of Venerable Guiyi, and they were a little afraid of Venerable Guiyi's strength.

As the second disciple of City Lord Chaos, Venerable Guiyi is very famous, a cosmic overlord, not so easy to provoke.

However, no one is willing to give in easily in the face of the treasure that is being born in front of him.

Although the gains in Primordial Star are great, they are also fighting for their lives. Since they are all here, as long as there is a chance, everyone hopes to grab more treasures.

Venerable Guiyi always had a peaceful smile on his face. "Everyone, this is the treasure I discovered first, and I ask you to leave."

"Joke, the most precious treasures on Primordial Star are unowned. Whoever grabs it belongs to whom, do you think that one word can make us give up."

"You are very strong, but we are not afraid of you."

"Do it!"

Seeing that the treasure is about to be born, the surrounding powerhouses finally couldn't help it.

They don't have to defeat the Venerable Guiyi, they just need to fly the Venerable Guiyi away from the place where the treasure was born to have a chance to grab the treasure.

Venerable Guiyi also frowned, because Wang Yi told him that he could not recognize the Lord first. He had to wait until Wang Yi arrived, but it was a little troublesome.

The surrounding parties started in unison.

Soul attack, illusion attack, mind weapon attack, divine impact... The target is the Venerable Guiyi next to the stone pillar.

"Humph!"

Venerable Guiyi snorted coldly, wow! It was like a peacock opening the screen, and huge colorful feathers suddenly appeared beside Venerable Guiyi, surrounding Venerable Guiyi in the center, and also shrouded the gray stone pillars that were being born.

"boom!"

"boom!"

The attacks of those strong aliens fell on the peacock feathers, shaking slightly, but it was limited to this.

"What treasure is this?"

"The defense is so strong, it can't be beaten at all!"

Those strong men around him attacked several times, but found that they could not be shaken, and they were a little anxious.

Venerable Guiyi sneered, "My colorful feather can even be blocked by the overlord of the universe. It is far from being broken because of your attacks." Venerable Guiyi is at the level of the normal overlord of the universe, but his supreme treasure is better. , And are good at illusion and melee.

But no one knew that his defense was so tough.

Originally, the one who belonged to the One Venerable was because of the lack of the soul treasure, and the soul was weaker, so he had no confidence in facing some cosmic overlords who were good at soul~www.mtlnovel.com~ But after getting the soul treasure borrowed by Wang Yi, he has made up for this aspect. Coupled with the many treasures and special methods on his body, it can be said that he is completely unafraid of the siege of these high priests.

"Wow!"

At this time, a group of people flew over in the distance.

"Venerable Guiyi, we are here to help you."

Venerable Hongmeng arrived.

Many strong teams such as the Crystal Clan Alliance, the Zerg Alliance, the Machine Clan Alliance, and the Northern Xinjiang Alliance look at each other.

"What to do? This Venerable One is too powerful. This treasure is so tightly guarded that it can't be moved at all."

"My full use of illusion has some influence on the overlord of the universe, but it can't distract Venerable Guiyi, Venerable Guiyi either has the soul treasure, or has a very strong soul secret method, or is very strong..."

These alien powerhouses are a little helpless.

[Chapter 492: collect](#)

And a silver-white figure flew out of the vortex channel in the midair somewhere in the original star number 07366.

It is the avatar of the Void Zerg who is covered in silver-white battle armor, with silver Senhan wings on his back and two war knives on his back.

"Here, it is the original star number 07366. My human deity has just signed in here before." The Void Zerg clone was suspended in the air, and the silver-white icy eyes swept away, immediately expanding the space-time realm and mastering this space-time.

"Boom..." An incredible pressure fell on Primordial Star instantly and quickly spread.

On the vast primordial star, all areas, whether it is wilderness, forest, desert, mountain, swamp, ocean... are all bound by an irresistible bond! The powerhouses from all races of the universe on the Primordial Star were shocked, as if being restrained by invisible power, that was a kind of complete control over the entire time and space!

At this moment, there is only Wang Yi as the master of the universe on Primordial Star, so no one is competing with him for the control of time and space. Everything that is covered by the domain of time and space is under his control.

"No, the Lord of the universe has come."

"It's the Lord of the universe!"

"The Lord of the Universe actually descended on this primordial star."

The vast majority of cosmic lords of all races did not know why the Lord of the universe came, and they all forbore immediately, not daring to resist at all.

Wang Yi flew in the sky, instantly controlling everything on the primordial star. His eyes were obstructed by layers of space, mountains, rocks, and dirt... and he directly saw the powerful men fighting on a snow-capped mountain in the distance.

On the snow-capped mountain, the fighting parties also stopped.

"Guiyi, I have come here." Wang Yi's voice rang in the ear of Venerable Guiyi.

The Hongmeng parties present were also notified through the virtual universe that their credit this time has been recorded, and all of them were happy.

"Everyone, the lord of my human universe has come!" Venerable Guiyi said loudly. "You still don't want to fight, this treasure is destined to be owned by our Human Alliance."

The strong from other parties scolded in their hearts.

"hateful!"

"Humans are too shameless."

"In order to fight for an ordinary treasure, the Lord of the universe came personally. This is too much."

"This Venerable One's defense is too strong. Two cosmic overlords have just arrived, and they can't break them together."

The Lord of the human universe came, and as soon as the space-time realm appeared, the other parties did not continue to fight and left quickly.

A silver streamer flew quickly from the distant sky and stopped on the snow mountain, revealing the figure of the silver-white battle armor. The silver-white eyes contained the terrible pressure that made the Venerable Universe's heart tremble, and the surrounding time and space seemed to melt with him. One.

"I heard that the Lord of Chaotic Source has multiple clones." Venerable Guiyi exclaimed, "This is one of the clones of the Lord of Chaotic Source."

"Return!" Wang Yi stepped forward.

Venerable Guiyi lifted the defensive form of Colorful Feather and greeted him. "Master of Chaotic Source!"

"This is the treasure of birth?" Wang Yi's eyes fell on the gray stone pillars that were completely born on the snow mountain. The pillars are thousands of kilometers high, ancient and mottled, with dense and complex secret patterns on them, and the pressure is faintly revealed. It is indeed a treasure. .

"Yes." Venerable Guiyi said with a smile, "There were just a few people who made the idea, and some of them were overlords of the universe. Fortunately, my treasure, Qi Cai Yu, is very good at defending, and there are some Hongmeng who are here to help. It keeps."

"You did a good job." Wang Yi praised. "If you believe me, I will appraise this treasure. According to the value of the item, I will compensate you accordingly."

The most important thing to obtain this treasure is the Venerable Guiyi, and the others are only sidelined. You only need to pay some credit, and the Venerable Guiyi will have to make up for it again by Wang Yi.

Originally, the Guiyi Venerable had the opportunity to recognize the Lord's Supreme Treasure. Once the mark of life was imprinted, the Supreme Treasure belonged to him. Yi's arrival, it can be said that the credit is not small.

"Of course I believe in the Lord of Chaotic Source." Venerable Guiyi said evenly.

He is not worried, because of the status of the Lord of Chaotic Source and his relationship, he will naturally not covet him for an ordinary treasure.

"Well."

Following Wang Yi's gaze fell directly on the gray stone pillars suspended in the sky, and the aura completely converged to resemble ordinary treasures. The treasures born on the Primordial Star come in various shapes and appearances.

Wang Yi immediately flew to the gray stone pillar with a trace of supernatural power, imprinting the mark of life on it, and he succeeded in acknowledging the Lord. Subsequently, a large amount of information poured into Wang Yi's mind.

Like many heavy treasures and supreme treasures, when you recognize the Lord, you will usually have a message passed into your consciousness.

Generally it is some detailed description about this weapon, even a set of secret methods for operating the treasure, etc.

Of course, some treasures have no information, such as "star map", "killing Wu Yuyi", "tazhu" and so on.

Whether there is a message depends on whether the strong man who created this treasure left a message.

However, the data about primordial stars collected by Wang Yi, all the treasures and treasures born on primordial stars... These are treasures bred in the universe, and these treasures are born with information.

"Appraisal." After successfully recognizing the master, Wang Yi puts the treasure on the panel for appraisal, which is worth 2.7 treasure points.

The Venerable Guiyi next to him was also up and down, looking at the Lord of Chaotic Source with a little expectation.

He is also looking forward to a good harvest. He has just used the soul treasure of the Lord of Chaotic Source, and he does not have to worry about being attacked by the soul. The invigorating feeling really makes him very comfortable. He is also looking forward to passing this time. To get a treasure that truly belongs to his soul.

"Return to One." Wang Yi said, "I just appraised this treasure, and it is worth 2.7 treasure points. With my public promise, it can increase by 50%, which is 4 treasure points."

"This treasure belongs to me, and the 4 most treasures belong to you, do you accept it?" Wang Yi asked.

Venerable Guiyi pondered for a moment and nodded. "I do."

"Well, I'll pass it to you immediately." A smile appeared on Wang Yi's face.

Afterwards, Venerable Guiyi's divine power incarnation from the outside world received a virtual universe email, which had already arrived at the 4 treasures.

Wang Yi doesn't have much now ~www.mtlnovel.com~, it means there are many treasure points. After all, he has contributed too much to the human race. Even the giant axe still owes him 20,000 treasure points, so he has so many treasure points in the race. It is number one, but it is useless if there is nothing to exchange.

But when he reached his level, he didn't care anymore.

The other Venerable Hongmeng watched this scene enviously.

4 treasure points, you can exchange 4 ordinary treasures. For countless cosmic lords, it is a huge wealth that is unimaginable.

Even for most cosmic overlords, it exceeds the accumulation of long years.

"Venerable Guiyi has gained a lot now."

"Yes, the Lord of Chaotic Source is really generous, but I don't know why he wants to get the treasure by himself."

"This time we just helped and got a lot of contribution points."

And Wang Yi looked at the information on the panel.

[Currently collected treasures: 1/10, number of draws available: 0.]

[Chapter 493: overbearing](#)

The original star.

A fiery red streamer flicked across the boundless sky.

"Eight months have passed, and my treasures have reached 250,000."

Wang Yi thought slowly.

In the first four months, more than 2,200 original stars were checked in, and more than 2,200 treasures were obtained, worth about 300,000 treasures.

Now in the past four months, Wang Yi has maintained his efficiency and still signed nearly two thousand original stars, but he was not lucky and only got 250,000 points.

One or two peak treasures, the most treasures may be quite different.

"Sign in faster, and if you save for another half a year, it is estimated that you will be able to redeem a Xeon Treasure Armor."

The check-in efficiency is not constant, sometimes it may be faster, sometimes slower, but at the beginning it can almost maintain the check-in of 2,000 original stars every four months.

However, the later, of course, it will be slower, but it does not affect.

After all, there are only 10081 primordial stars, and Wang Yi still has to save some for the next tens of thousands of years.

"Sign in for 8081 original stars and leave 2,000 lucky draws."

In fact, Wang Yi felt that he had left too much.

All 2,000 primordial stars are drawn, and there are 20,000 treasures. How can the primordial stars be collected?

Wang Yi is just being cautious, just in case.

When Wang Yi was busy checking in and collecting the treasures of Primordial Star, Luo Feng was also on his way to the dark universe far away from the human territory, preparing to retrieve his own Jie Armor.

Of course, Emperor Yan is at Primordial Star now, even if Luo Feng goes to ask for it in person, he will not watch Luo Feng take the robbery armor like this, he will definitely stop him at that time.

Everyone is struggling for their goals.

"Om~~"

In the tenth month of the opening of the primordial stars, a special breath suddenly spread on one of the primordial stars.

Mountains, land, rivers, deserts, oceans, lakes, forests...you can feel that special atmosphere everywhere.

In an instant, the strong men who had been hiding everywhere were shocked.

"Um!"

"This breath!"

"What a strong breath, is it a heavy suit treasure, or an ordinary treasure?"

Every strong person is excited.

Different from the previous small fights, this is the first time that the powerhouse of this primitive star has discovered that such a large treasure is born.

Like ordinary heavy treasures, there is almost no movement.

There may be a little movement in the suit heavy treasure or the ultimate treasure.

The more powerful the treasure, the larger the scene of birth, and the more cumbersome the process.

Sitting on a mountain peak like a statue, the purple monster beast faintly entwined with thunder and lightning opened its eyes fiercely, and two black lightning flashed in its eyes, revealing a hint of excitement.

"There! This breath seems to be very close to me!"

It looked in one direction, and that direction was a vast plain nearby.

"boom!"

Then he burned his divine power without hesitation, his aura exploded, and a flash of thunder flashed, and the whole figure had disappeared from the place.

Fly directly towards the source of the breath.

...

"The breath is very strong! It's a heavy treasure of a suit, and maybe even a treasure!" In another forest, an alien veteran of the Nine Regions Alliance who was more than 100 meters high and covered in monster scales quickly did it. After making a judgment, he glanced at the three companions who were also from the Nine Realms Alliance, exchanged a few words quickly, and then flew to the source of the breath together.

...

"Treasure!"

"A treasure is born!"

"Go!"

Many teams in the surrounding area rushed away quickly, and as the breath spread, some of the distant alien universe sages, also in twos and threes, quickly flew to the source of the breath, and even burned the divine body one by one with a little impatience. , I'm afraid the treasure is gone one step too late.

And the quiet and low-key staying in the secluded sea clone of this primordial star was also noticed for the first time.

"Finally a treasure is born."

A smile appeared on You Hai Clone's face.

It's not easy. After waiting for ten months, the original stars have signed in more than 5,000, and the total treasure points (including those exchanged for the most treasure) have exceeded 600,000 treasure points.

In other places, Wang Yi's other clones also successively collected 4 ordinary treasures.

That is to say, this clone is far away, so it is too lazy to move.

"go!"

Youhai clone also flew towards the place where the breath came from.

And consciousness faintly locks the source location through time and space induction.

In a vast wasteland, at this moment, a hill-sized emerald spearhead is slowly rising up, releasing its breath in all directions at the same time.

At the nearest place, a purple monster was rushing over excitedly.

"It's a little far away from me. I want to get there, but I don't have enough time."

You Hai Clone narrowed his eyes.

His location, unfortunately, was at least one-tenth of the distance from the original star where this treasure was born, which means that it would take at least several hours to fly past it normally, even if it was close to the speed of light.

According to the speed at which this treasure was born, and the speed at which the other parties arrived, it would definitely be too late.

"It's rare to find a treasure, you must get it."

How could anyone else take the meat that was about to reach his mouth? What's more, this primordial star didn't have any other cosmos lord, so Wang Yi didn't need to worry too much.

boom.....

An unbelievably powerful pressure fell on this primordial star instantly, covering this star with a diameter of hundreds of billions of kilometers.

And the powerhouses in it have all encountered an irresistible bondage!

Taking control of one party's time and space, he can completely suppress his opponent even from a long distance.

And the powerful people from all sides who are working hard to fly in that direction feel this mighty power at the same time, their bodies also sink sharply, just like ordinary people are trapped in a swamp, no matter how hard they struggle, they can't break away from the sinking. feel.

As I said before, the Lord of the Universe completely controls the time and space of a party. Although it is impossible to kill the existence of the Overlord of the Universe by controlling the time and space alone, it can completely make the Universe Overlords difficult to walk. It is very difficult to walk, let alone fly!

And these powerhouses who are rushing to the most treasured locations are mostly high-level cosmic venerables, and there are not many cosmic overlords, so naturally they are even more unable to resist.

And they also felt shocked ~ www.mtlnovel.com ~ on the original star where they were, there was actually a Lord of the Universe, but they hadn't noticed it before.

"Just leave me quiet."

As Wang Yi increased his restraint, especially in the area centered on the birth of the treasure of the plain, the flying cosmic sages all fell from the sky like broken kites, and there were only a few relatively powerful cosmic hegemony. Still shaking and insisting, but the more they fly forward, the greater the pressure, on the contrary, if they stop or even fly back, the pressure will suddenly decrease.

Soon a strong person discovered this.

"Is the master of the universe fancy that treasure?"

"This is just the movement of ordinary supreme treasures. It's not so powerful at all. The Lord of the universe has to grab us." Some strong people felt unwilling in their hearts.

Especially the recent purple monster that had flown to the plains was even more angry and anxious.

"The Lord of the universe is too domineering and too bullying."

[Chapter 494: Isn't this looking for death?](#)

Domineering?

Wang Yi didn't think so.

If other universe lords are here, maybe they don't bother to fight for an ordinary treasure with these weak ones.

But Wang Yi is different.

Each primal star's treasure is related to whether he can draw a lottery and whether he can get a powerful treasure.

For this reason, Wang Yi could tear his face and fight with the Lord of the Universe, not to mention pulling down his face to "bully" some "little guys" below the Overlord of the Universe.

In the face of huge interests, face is not worth mentioning. It's just that the level is different, and the emphasis is different. In essence, there is no difference between the Lord of the Universe and the strongest in the Universe.

This vast primordial star has completely fallen into the coercion of the Lord of the Universe, and the aura undulates like a turbulent ocean. The universe lords on this primordial star are all trembling and trembling.

All the venerables who were flying towards the plain stopped, and they were unable to move on under the constraints of the domain of the Lord of the Universe. Many people wailed in their hearts. How to fight for the treasure.

Although they are very suspected of bullying, they dare not have any opinions.

Even if they knew that they might have some criticisms, the masters of the universe would despise it, but that's it.

In the universe, the strength is respected, and the lofty Lord of the universe is just grabbing an ordinary treasure, so what?

So what?

There is no way.

Other masters of the universe can still despise. Few of them dared to protest. If the master of the universe thinks that you have shot you to death by making a noise, then there is no place to reason.

Not to mention, this kind of weird, irritable and self-respecting powerhouse is abundant in the universe.

"Huh?" The avatar of Youhai, who was flying to the place where the treasure of the plain was born, suddenly frowned, then his brows stretched out, and a smile appeared on his face.

The purple monster on the plain had already swayed to a halt, but it speeded up and flew towards the place of the treasure just now. The aura was stronger, obviously burning the divine body crazily, so it just carried the space-time of the Lord of the Universe. Domain pressure is approaching quickly.

Wang Yi was a little surprised.

"I'm so bold, I have exerted pressure on one side of time and space, and warned you. Isn't it okay to give up obediently? I even dared to rush forward. It's not that I deliberately wanted to kill you, but you forced me to do it." Wang Yi Sigh with emotion.

Regarding these cosmic lords and cosmic hegemonies, Wang Yi hadn't planned to do anything.

After all, he is now the lord of the human universe, his identity is different, and every move represents mankind.

The Lord of the Universe cannot kill the Lord of the Universe at will, but if the Lord of the Universe deliberately provokes and offends the majesty of the Lord of the Universe, the Lord of the Universe will naturally not tolerate it.

It's reasonable to kill if you kill it.

"If you are really dozing off, you can give a pillow. No matter what you think, whether it's bold or profitable, let's take your first surgery, so as to verify my guess." Wang Yi looked at the desperate giant flying to the treasure through distant time and space. A cold smile appeared on the monster beast's face.

And the purple monster, which is turning into a purple lightning and rushing toward the center of the plain, is also roaring in its heart: "I have a huge divine body, special secrets, and armored treasures, which can completely resist the pressure of the Lord of the universe. With my excellent flying paradise assistance...you will surely be able to get that paradise smoothly, and then leave this place along the

nearest passage. Even if the Lord of the universe is annoyed and takes care of face, he will probably not chase me down. "

If in normal times, no matter how bold the purple monster beast were, it would definitely not dare to confront a cosmos lord.

There is a whirlpool passage in the air far away from the birth of the treasure.

This is the reason why the purple monster dared to take risks.

It guessed that the Lord of the universe must be far away, so it used the space-time realm, otherwise there is no need for it. If it's too close, the purple monster would not dare to fight this precious idea, because the master of the universe can make it difficult for a universe overlord to move with the **** formed by mastering time and space, and then it can fly over and directly kill his target.

Acting in this situation is undoubtedly looking for death.

But it's different now.

The Lord of the Universe is far away, and it has already reached the plain. As long as the treasure is snatched, it can leave here along a whirlpool passage that is very close to other primitive stars.

The Lord of the Universe has control over the time and space of one party, but he cannot penetrate the primordial star to other primordial stars.

That whirlpool passage is the biggest reason why the purple monster dared to go dangerously.

Otherwise, give him ten courage and dare not do anything.

There happened to be a whirlpool passage near the plain, which was also unexpected by the purple monster beast. It was greedy and made this choice on impulse.

Under the eyes of the Lord of the Universe, **** a treasure.

It's stimulating just thinking about it, even for a cosmic hegemon like him, it's hard to come across.

You Hai Clone also sensed the intention of the purple monster beast, and a trace of coldness flashed in his eyes.

"Humph!"

boom!

The space-time constraints surrounding the purple monster beast over the vast plain skyrocketed, as if an invisible giant grabbed the purple monster beast and squeezed tightly, trying to break the purple monster beast into pieces.

"what....."

High in the sky, the purple monster felt a terrifying power coming, and immediately burned its divine power to resist it, but the constraints around it continued to skyrocket... that power continued to increase.

"Chichichichi..." The purple monster's divine body was constantly worn down under this pressure, and the divine body continued to weaken.

Coupled with the burning divine power of the purple monster itself, this loss of divine body speed is even faster.

However, the purple monster's divine body is huge, at least more than a thousand kilometers, and some special methods can still be sustained.

Moreover, its speed has not decreased much under the constraints of the ever-increasing space and time, which also surprised Wang Yi a bit.

"It's so bold, dare to confront me directly." A cold voice echoed around the purple monster.

The purple monster roared: "Great Lord of the Universe, you are the Lord of the Universe. This ordinary treasure is of little use to you. It is as powerful as you, so why should you compete with us, the weak."

"What do I want, what to do with you? A little cosmic overlord, dare to interfere with my decision?" The cold voice echoed in his ears again, this time with a hint of ridicule and sarcasm, "You think you have a huge body, I just Can't it stop you?"

"Hoo~~~"

The endless misty light spreads over the entire primordial star like sea water mighty power.

The purple monster is also shrouded in light.

"The realm of treasure!" The purple monster felt the terrible power contained in the misty light that made its heart palpitations, and exclaimed.

It was terrified in its heart and felt that this was not a treasure of the general domain.

"Die!" The cold voice sounded.

"No, Lord of the Universe, I..."

Wow...

Guanghai rioted centered on the purple monster beast, and the endless rays of light gathered together, as if a huge wave was set off, and the purple monster beast was suddenly drowned and photographed severely.

The huge wave entrained the amazing power and smashed down mercilessly, and the entire Primordial Star seemed to be trembling slightly.

"Peng!"

After the spray, the purple monster has disappeared without a trace.

[Chapter 495: Lord of the Monster Universe](#)

The overlord of the universe, who dignified and crossed the universe, fell ruthlessly in an instant.

"You, a cosmic overlord, can die under my treasure of [Starlight Sea], and it is worth your death." Wang Yi is indifferent.

[Xingguanghai] is the peak domain treasure that Wang Yi exchanged from the panel. It is worth a full 50,000 points, which is comparable to half of the Xeon.

A top treasure like "Qianbaohe" under the control of the Chaos City Lord can easily kill the universe overlord with the power of the Arcane Realm. Wang Yi's divine body is definitely not inferior to the Chaos City Lord, and he controls the peak realm-class treasure. Killing a cosmic overlord from a long distance is naturally effortless.

And this is not the true power of the Supreme Treasure. When Wang Yi burns the divine body, and then the time and space realm merges into the Supreme Treasure realm, then it will be truly powerful.

The cosmic lords of Primordial Star still don't know what's going on, and they are anxious in the endless misty light.

"what's going on."

Previously, the space-time domain of the Lord of the Universe descended, but now it is this purple sea of light that is omnipresent, making the venerables of the universe terrified. They can't help guessing, could someone irritate this existence and make him angry?

"No matter what, I just hope that we don't get involved."

After killing the purple monster, Wang Yi also got a panel prompt.

[Kill 1 universe overlord, reward 500 killing points!]

"If you didn't seek your own death, I really have no excuse to kill you." Wang Yi shook his head.

In the previous bombardment, the purple battle armor, weapons, world ring and other items of the purple monster beast scattered all around... "Come here all." Wang Yi's heart moved, and the purple monster beast was left behind after the death of the purple monster under the control of Xingguanghai. All items were quickly rolled over by Wang Yi's control domain.

As Wang Yi's divine power poured in... the items quickly recognized the master, which also made Wang Yi understand that the purple monster has no talent for the clone.

If there is a clone, the divine power can slowly condense and recover again, and this fall will only wait for the strongest in the universe to resurrect.

"There are four treasures, all of them are not bad among the overlords of the universe, but unfortunately they are just ordinary treasures."

Wang Yi murmured, but it didn't matter, then he called out the panel and focused his attention on the information he cared about most.

[Currently collected treasures: 8/10, number of draws available: 0.]

Wang Yi's eyes showed surprise.

Previously, the number of treasures collected was 4, but after killing this purple monster to get his treasure, it became 8.

This confirmed his guess.

"Sure enough... the way to collect the most treasures is not only the treasures born on the original stars, but you can also get their spoils by killing other strong men." Wang Yi clenched his fists.

"but....."

Wang Yi frowned again.

With his strength, it is easy to kill these cosmic overlords, but he can't do so, otherwise it will arouse public anger.

This time, it was the purple monster's desire to send his heart to the door and contributed a few treasures to himself, but next time he might not have such good luck.

Wang Yi thinks quickly.

"You can't do this with the identity of the master of the human chaotic source."

"You can only use the identity of the **** lord... but the **** lord is now the target of all parties. It is not visible. Once it appears, it will provoke a siege. You have to think carefully and find the right time to use it."

Primordial Star has only been opened for more than two months, and it has been a long time, and Wang Yi is not in a hurry yet.

The lord of **** is a dangerous move. Although it is convenient, it is not necessary, and Wang Yi does not want to make a move.

Wang Yi looked at the plain underneath that was completely born. The floating emerald spear was like a perfect work of art. Wang Yi was amazed by the beauty. There are also some vines on it that are entwined with natural patterns, and the endless breath of life comes from Diffuse from above.

Wang Yi separated a divine power to penetrate the emerald green spear, imprinting his own life mark, the spear recognized the master, and the information flooded into his consciousness.

"Bohr's Spear?" Wang Yi shook his head, really wondering how the names of these treasures came up. Some of them were strange and confusing.

It is judged on the panel, only worth 1.1 treasure points, it is indeed an ordinary treasure.

"The treasure of this primitive star was born too few. It took only two months before it was born. It was scattered randomly, and I couldn't get it." Wang Yi sighed and smiled again. "However, this is also very normal. There are 10081 primordial stars, and they have been opened for tens of millions of years. Even if one is born a year, there must be no tens of millions. The frequency of the birth of the most treasures during this period is actually not low. NS."

The primordial star opens once for a long time, and the treasures inside are completely random and irregular. This is summed up by the endless years of all parties in the universe.

But every time there is a pinnacle treasure appearing, it is just rare, and every time it can provoke a fight between the masters of the universe, and every time the primordial star opens, the Lord of the universe will inevitably fall.

"I have collected 8 treasures now, and there are only two pieces left, so I can start a lottery draw." Wang Yi had a look of expectation in his heart. "I just don't know what I can get in this draw."

The reason why Wang Yi looked forward to the lottery was mainly because the Xeon might appear.

Otherwise, relying on the original star to sign in Xeon Zhibao, the probability is too slim.

Although the probability of the lottery is very low, it is 100 times higher than the sign-in, and the bottom of the list is the top treasure.

Although Wang Yi is rich now, the human race is poor. Many of the weapons used by the Lord of the Universe are still top treasures, and unlike Wang Yi, he has to fight every time to gain something... Even if Wang Yi didn't think about it for himself, he still had to think about it for his own ethnic group.

At this moment, floating beside the space vortex in midair, a towering figure flew out suddenly and quickly.

"boom....."

An incomparably terrifying wave of fluctuations instantly came and enveloped the entire Primordial Star. Because Wang Yi Youhai clone had already recovered its time and space domain after killing the purple monster beast, so at this time, Primordial Star Time and Space was uncontrolled and instantly fell into this super existence. Hands.

A great existence like a Titan, entwined with lightning and tens of thousands of kilometers, appeared in the mid-air, and the atmosphere of endless coercion spread out, shaking the earth and the earth.

"Master of Chaotic Origin! You, a dignified master of the universe, killed my monster universe overlord for no reason. You must give us an explanation!"

All the cosmic lords on this primitive star are dumbfounded~www.mtlnovel.com~Oh my god, another universe lord has come! "

"Which cosmic master is this Yaozu?"

"And listen to what he said, a universe overlord was killed just now?"

"The two masters of the universe are colliding here..."

These cosmic lords were shocked, excited, and a little panicked, worried that the fire at the gate of the city would damage the pond fish.

Wang Yi also showed no weakness, and expanded his domain, bombarding the time and space where the monster race exists. Compete with each other.

"Lord of Lei Gorilla!" Wang Yi looked through time and space, saw the demon clan standing in the distance, and his voice was calm, "It was your people who rushed into me on their own initiative.

"Don't say it's him, even if it's you, dare to come over to provoke me and kill it!"

"Roar!"

The master of the monster universe was angry.

[Chapter 496: Fight against the Lord of the Universe](#)

The reason why the lord of Lei Gorilla was able to recognize Wang Yi as soon as he came over was very simple, because Wang Yi had never thought of covering up the existence of this clone, using the appearance of a human being.

Moreover, many clones are actually the same soul, and if the aura of the divine body is not disguised, it can be easily identified as the same person.

Wang Yi's words immediately angered the grumpy Lei Gorilla Lord. It was actually his descendants who fell just now.

He learned that he had come to the rescue with the intention of...Unfortunately, he was a step late.

The younger generation who valued was killed, and the Lord of Lei was also an arrogant one. Originally, he had resisted his anger and wanted to talk to the Lord of Chaotic Source, but now he was angry with the Lord of Chaotic Source in a few words.

"Unreasonable!"

The tribe was killed, and the murderer Wang Yi was so arrogant and domineering in front of him, how could the lord of the thunder-gorilla bear it, as if there was a volcano with surging molten volcano in his heart, it was about to erupt in the next moment.

"The Lord of Chaotic Origin, you are a newcomer of the universe, and dare to speak out, you really don't know that the sky is high and the earth is thick!"

The sky is full of thunder intertwined, the thunder is rolling, the lord of the thunder ape's lofty body hidden in the thunder sea stands in the sky and the earth like an ancient magic mountain, and the voice is cold to the bone.

"Lord of Lei Gorilla, I killed them all. If you refuse to accept, we can fight a battle. Of course, if you are afraid, just pretend that I didn't say it." The provocative voice of the Lord of Chaotic Source echoed in the sky, letting those who listened. The Venerable Universes who arrived were secretly surprised.

"Ha ha ha ha....."

A burst of shocking laughter resounded on the original star like thunder.

The lord of Lei Ape had obviously been completely angered, and he was so angry that he laughed.

"Lord of Chaotic Origin, it seems that you think you can break through and you can be deceived. Today I want you to know that even in the Lord of the universe, there are high and low points."

The laughter of the Lord of Chaotic Source came. "I do want to see and see, and I hope you, Lord Lei Ape, don't let me down."

The lord of thunder ape in the endless thunder seemed to perceive something and groaned angrily.

"Boom..." The entire Primordial Star trembled every inch of space, and every inch of the time and space that the Lord of the Thunder Ape had completely controlled was plundered... Apparently the Lord of Chaotic Source was competing with the Lord of the Thunder Ape for the entire time and space of the Primordial Star. Control.

The two masters of the universe compete with each other for the control of time and space, but no one can do anything for a while. In the realm of pure time and space, the masters of the universe are basically at the same level, and they are not much different.

"Lord of Chaotic Origin, if you want to fight, I will make you!" The lord of Lei Gorilla could no longer restrain himself, "Boom..." The endless silver light emerged out of thin air, as mighty as a river, thunder snakes in silver. It wandered in the light river, and also faintly made time and space have a "tearing sense", making almost all the powerhouses of Primordial Stars feel excited. When they looked up, they saw countless blue and purple thunder snakes swimming happily in the sky and the earth...

"This is the realm of the lord of the thunder ape, Thunder Snake River!"

Even many universe overlords have domain-type treasures. How could the universe master not have them? The domain-type treasures like the lord of the thunder orangutan are the high-level domain-type treasures "Thunder Snake River."

Monstrous coercion!

There are endless silver lakes and roaming thunder snakes, which fill all the surrounding space, completely enveloping Wang Yi, and there are waves of extremely strong pressure. If it is an ordinary cosmic overlord, it can only burn the divine body at this time. Came to resist, but for Wang Yi it only made him feel a little discomfort. After all, he was wearing the Supreme Treasure Armor, and he was also the Lord of the Universe.

"Bang! Bang!" With the addition of "Thunder Snake River", the Lord of Lei Ape completely overwhelmed Wang Yi in the realm of time and space, constantly colliding and squeezing the space that belonged to him.

"Huh!" A thick nasal sound spouted from the nostrils of the lord of the thunder ape with flying stars.

This tens of thousands of kilometers, silver-white hair, two huge purple beast eyes radiant like a lake of thunder and thunder, the towering giant ape stretched out his hand, and suddenly there was a black iron rod in his hand, which was tens of thousands of kilometers long. , Dark and heavy, exuding a heavy breath like a mountain.

In the next moment, the lord of the thunder ape had already turned into a thunder light, entraining the endless galaxy thunder sea, and charged towards Wang Yi magnificently.

"Lord of Lei Gorilla!" The Lord of Chaotic Source shouted coldly. "Do you think that only you have the domain treasure?"

"Boom..." The endless starlight burst out violently, instantly spreading out in all directions, directly colliding against the surging silver river, it seems that the river water and the starlight are actually a special energy form, and both areas are Covers a radius of 100 million kilometers.

Then, the figure wearing the dark red armor suddenly swelled, and instantly grew to a height of tens of thousands of kilometers, becoming a majestic giant exactly like the lord of the Lei Gorilla.

The clone of Xin Youhai, with a thousand times the genetic level, and a **** body over nine thousand kilometers high, is much weaker than other bodies in terms of strength, but it can also be comparable to the Lord of the universe, not to mention a super treasure.

There is no one below the top treasure, most of the top treasures!

The lord of Lei Ape, who was flying over, was also a little surprised to see this scene.

"According to the news, the Lord of Chaotic Source has multiple clones, the specific number is unknown, but it should not exceed three, scattered on other primitive stars, and this is only one of them, I did not expect that I encountered it. Great!"

The Lord of Lei Ape, who has been the Lord of the Universe for hundreds of millions of years, is a very ancient Lord of the Universe. After a long period of cultivation, his genetic level has reached approximately 2,000 times. At the same time, he has accumulated a powerful treasure and a clone, but He didn't move out easily. The one who appeared to the outside world was his strongest combat power. Naturally, he carried the best treasure, otherwise he wouldn't have a high-level realm treasure.

But now the lord of Thunder ape is shocked to find that his domain river suddenly fell into the wind in the collision with the lord of chaotic origin, and space is constantly being contested.

"It's actually stronger than my Domain Treasure? What is this? Top Domain Treasure? The Lord of Human Chaotic Source actually has a Domain Treasure?" The Lord of Lei Ape couldn't believe it.

The top-level domain treasures are so rare and rare that they can not be found, and only a few of them are owned by the Lord of the Universe. Even the famous Chaos City Lord has only one top-level domain-type treasure. Of course, it is considered to be among the top-level domain-category treasures. The best.

"Could it be that the human race gave it to him, the human race actually attaches so much importance to the Lord of Chaotic Source, if I can take this treasure away..." The Lord of Lei Ape had a sense of greed in his heart~www.mtlnovel.com~ The incarnation of the divine power in the outside world, quickly contacted the lord of the universe.

"What? The Lord of Chaotic Source has a top-level domain treasure, and is fighting with you?"

"The top realm class treasure, human beings are actually willing to hand it over to a new cosmic master, we can't let it go easily."

"go!"

"The Lord of the Chaotic Source is just the Lord of the universe who has just broken through. The strength should not be considered strong. We have every opportunity to besieged him. Hurry up and go to kill the Lord of the Chaotic Source and save the treasures before the Human Alliance rescues. Get it!"

The Lord of the Universe of the Monster Race Alliance has entered the Primordial Star this time, but there are also more than ten. At this time, most of them have the heart to seize the treasure, and they have set out to rush towards the Primordial Star where the two Lords of the Universe are located. past.

How fierce the fighting among the four pinnacle races is, even in Primordial Stars, it is common to fight as soon as they encounter them.

The master of the universe dealing with the human race, the monster race is not without scruples, but the temptation of a top domain treasure is enough to let them put down their scruples and fight with the human race.

[Chapter 497: 1 side down battle](#)

In fact, the Yaozu League is also looking at the dishes, and the persimmons are soft. If the owner of the top domain class is the Chaos City Lord, who dares to besiege? Who dares to grab it?

Not to mention the top domain category treasures, it is even more precious treasures, and no one dared to make an idea.

However, the Lord of Chaos City has three divine bodies, one sits in Chaos City, the other sits in the primitive universe, and the other roams in the universe. It is said that the deity who wandered through the universe has the most powerful combat effectiveness, but Wang Yi has never seen it. The Chaos City Lord who wandered through the universe had a pinnacle domain-like treasure, but the clone he was sitting in the primitive universe used the "Thousand Treasure River."

"Master of Chaotic Source! You actually have such a powerful domain treasure, but you shouldn't take it out!" Although the Lord of Lei Gorilla felt the **** of the surrounding stars, he was crazy, and crashed into the opposing tower like a comet. The red armored giant has murderous eyes in his eyes.

Only the strong can possess matching treasures. Without sufficient strength but possessing treasures beyond themselves, they will be targeted and taken away. This is also a common concept among the strong in the universe.

The Lord of Chaotic Source is just a cosmic Lord who has just broken through. The breakthrough has been less than a hundred years. I am afraid that the Lord of the Universe has not created the ultimate secret method. I am afraid that the strength of the Lord of the Universe is the bottom, but he has one in his body. This is a top-level domain treasure, and it is still used out...Isn't this telling other strong players to come and grab it?

Greedy is certain.

How could the Yaozu League miss such a great opportunity!

For a time, the masters of most of the universe of the Monster Race Alliance on Primordial Stars all killed them.

However, the primordial star, even the master of the universe and the strongest in the universe, cannot teleport, so in the primordial star... if you want to besiege an existence, you have to pass through the vortex channel and fly slowly.

On the original star numbered 07318.

The endless starlight rises and falls, forming a dreamy and blurred world, turbulent like ocean waves, setting off layers of huge waves, impacting on the silver river on the opposite side, making a rumbling sound that shakes the sky.

Although the Lord of Thunder Orangutan tried his best to maintain, his most treasured realm has been suppressed to a very small extent.

"The lord of Lei Ape, according to intelligence, is not as strong as Emperor Yan, so he is not the lord of the third-order universe. However, it is also close to the top level of the second-order." Various thoughts quickly flashed through Wang Yi's mind.

The first level is the newcomer to the universe, with a life gene level 100 times greater, no ultimate secret method has been created, and the most precious weapon is also ordinary.

The second level, 1,000 times the life gene level, created the ultimate secret method, the treasure is not bad. As the "normal level".

The third level is the peak level! Or get the heavenly treasure! Or create the strongest secret method! Or the level of life genes reaches tens of thousands of times! Satisfying the first, the other two levels should be close, which is almost the peak.

"I am now a clone of Xin Youhai, with only a thousand times the genetic level, but the lord of Thunder Ape is only about 2000 times as high as per intelligence, which is at most two times different from me. The secret method, the strongest talent secret method, cannot be used here, but In the past few years, I have created two extreme skills, which are comparable to other masters of the universe... and more importantly, the treasures. My weapons, armors, domains, palaces... are all peak treasures!" The dim light in Wang Yi's eyes flickered, and the chill was pressing.

"Not a treasure, I'm not much different from the Lord of Thunder Orangutan, maybe even worse, but with the treasure, I am completely comparable to the master of the third-order universe. Even if the master of the universe is at the peak level like Emperor Yan, I am not afraid. !"

brush! Two dark red sharp sabers that were thousands of kilometers long appeared in Wang Yi's hands and flew out fiercely.

"You are the first Lord of the Universe to fight me head-on. Let me sharpen my sword skills and verify my achievements over the years!" Wang Yi looked at the lord of the Lei Gorilla who flew over aggressively in the distance. A cold and stern light broke out in his eyes.

However, because of the blessing of "Starlight Sea", Wang Yi's speed was faster than that of the Lord of Lei Gorilla, and it had completely turned into a blur of light and shadow.

When the lord of Lei gorilla saw Wang Yi rushing over on his own initiative, he was not surprised but rejoiced.

"Good job!"

Two towering bodies measuring tens of thousands of kilometers quickly collided.

"All directions are gone!"

The two battle knives were the pinnacle weapons exchanged by Wang Yi. As the endless divine power poured into them, a huge shadow of the knives formed around the battle knives for a while, and the sword aura was filled. Carrying the power of the sea of stars, it faintly affects time and space.

"Broken Galaxy!"

The lord of the Lei Ape's body was full of thunder and lightning, and he also swung down with a stick, forming layers of stick shadows.

The attacks on both sides are urged by the ultimate ingenuity, and both contain incomparably esoteric conceptions, exquisite, and equally powerful.

"boom....."

At the moment the two collided, the powerful power instantly turned the surrounding into a vacuum and nothingness. Whether it was the sea of stars or the silver river, everything was screened out, and even the flow of space particles was swept away.

The huge body of the lord of the thunder ape flew out, crashing down on the solid ground of the primordial star at a speed almost comparable to that of light. Step back a little, then dive over without hesitation.

The lord of Lei Ape felt the numbness in his hands, and his thick arms trembled faintly, and he couldn't help showing the color of error. He did not expect that he would fall into the wind in the frontal collision.

"what?"

"Take me another knife!" Wang Yi had already rushed over, his expression on his face was excited, and his divine power suddenly burned, and the two knives slashed down again.

"The second trick, wind and rain in all directions!"

"Ah!" The lord of Lei Gorilla's eyes reddened and roared, with the same burning divine power, he was also struggling to wield his top treasure weapon "Heiluan Cudgel"!

The lord of the thunder ape stood on the ground, and Wang Yi descended from the sky, so Wang Yi became the lord of the thunder ape crazy with a knife on it, and the lord of the thunder ape also roared, wielding stick shadows all over the surrounding space, Space is constantly shattered and reorganized because of the power emanating from the fighting between the two super beings.

"Boom!" "Boom!" "Boom!"...

At the level of the Lord of the Universe, how fast they played against each other, head-to-head against each other, hundreds of times in just ten seconds, each time the Lord of Thunder Orangutans was crushed and beaten.

"How could it be possible that the power is greater than just now." The eyes of the lord of Lei Ape showed a look of shock.

"Third trick! Dream bubble!" Wang Yi changed his previous frenzied style. The shadow of the sword suddenly became hazy, erratic, and the speed surged sharply. The lord of Lei Gorilla was caught off guard, too late to parry, and simply smashed it cruelly. The Lord of Xiang Chaotic Source, thinking in his heart that if you don't take the knife, you will suffer both losses.

As a result, Wang Yi was not moved at all. The sharp blade light instantly slashed on the body armor of the lord of the thunder-orangutan, and the huge force slashed him out. At the same time, Wang Yi also received a blow, and couldn't help but retreat. A few steps~www.mtlnovel.com~ The top treasure armor on the lord of the thunder ape bears the monstrous impact and weakens most of it, but the rest still rushes into his body fiercely, raging in his god, causing the thunder ape The lord snorted and his face changed.

"My **** body actually lost three thousandths?"

When he looked at Wang Yi in the distance, he was even more surprised.

"His breath is hardly weakened."

The lord of Lei Ape couldn't believe it.

Wang Yi is very relaxed. In fact, the two sides are almost the same in secret attack power, but the peak Arcana weapon makes Wang Yi's attack invisible a level higher, and the peak Arcana armor also allows him to withstand more minor damage... so the wave just now hurts. In the battle for injury, the lord of Lei Ape lost three thousandths of the divine body, but Wang Yi's new Youhai clone did not even reach one ten thousandth.

See you immediately.

[Chapter 498: Powerful Lord of Chaotic Source](#)

Generally the two are at war.

They are all weapons intersecting...Then the remaining power after the weapon resistance is much weaker, but just now it was purely an injury for the injury, there is no weapon to block, Wang Yi's long knife slashed directly on the lord of the Lei Ape, Lei Ape The lord's club also smashed directly on Wang Yi.

However, the injury that Wang Yi suffered was obviously much easier than that of the lord of Lei Gorilla.

The Lord of Lei Gorilla is very serious, don't look at the three-thousandths of it, but this is just a moment. If this continues, the Lord of Lei Gorilla will not be able to hurt him.

At this time, the lord of Lei Ape was still immersed in shock.

"The Lord of Chaotic Origin is just the Lord of the human universe who has just broken through. How could it be so strong."

In fact, Wang Yi hasn't completely urged the power of the domain-class treasures, and only maintained it at the top-level treasure level, otherwise the strength of the Lord of the Lei Ape will be weakened more severely.

"It doesn't matter if you have a top-level domain treasure, this attack power is so powerful, he has mastered the ultimate peculiar knowledge." The lord of Leisha couldn't believe it, but had to believe it. "Only break through, master the ultimate master of the universe, and display such a strong strength... This human being has terrible strength, even stronger than me."

"Moreover, the armor on his body is not ordinary, otherwise it is impossible to withstand my great damage to the divine body but it will have no effect!" Various thoughts of the Lord of Lei Glimpse quickly passed through his mind. "Is it the top treasure suit, or the pinnacle armor?"

The lord of Thunder ape realized that the situation had changed dramatically, and immediately passed the news to the lord of other universes. The power of the lord of chaotic origin was completely beyond his expectation, and he could not handle it alone. In this case, do you want to Continuing to besieged the Lord of Chaotic Source is no longer his decision.

The Yaozu League was also shocked when he received the news from the lord of the thunder ape.

"What? The Lord of Thunder-Ape is not the opponent of the Lord of Chaotic Source, he was suppressed in the frontal battle and fell completely into the disadvantage?"

"What a joke, the lord of the Lei Ape is not weak among the lords of the universe. At least the third-order lord of the universe can suppress him, such as the emperor Yan. Is it possible that the lord of the chaotic source can break through? Comparable to those strong like Emperor Yan?"

"The Lord of Chaotic Source has mastered the ultimate knowledge, and the Lord of Lei Ape suspects that the Lord of Chaotic Source has at least one Supreme Treasure Armor besides the top domain-like treasure. He fights with the Lord of Chaotic Source to replace his injuries. The Lord of Chaotic Source's divine body has hardly weakened."

"this....."

Many masters of the universe were frightened.

If that were the case, possessing the top domain category treasures, and possessing the peak treasure armor, plus that huge divine body... it would be very difficult to kill.

Perhaps only the fifth-order master of the universe, such as the Chaos City Lord, has the opportunity to kill such a powerful person.

"Will you continue to do it?" asked the Lord of the Universe.

The Lord of Chaotic Source really has the strength comparable to the Lord of the Third-Order Universe as the Lord of Lei Ape said. There is almost no possibility of success in this siege.

After all, the human alliance is not a display. How could they allow them to besiege the Lord of the Universe on their side. If they must act, if they can't quickly kill the Lord of Chaotic Source, once it is delayed, they might evolve into two major forces in the end. The melee.

"The Lord of Chaotic Source, who just broke through, is actually so powerful."

"I knew that. I should have been in the Patriarch Cult and killed him at all costs."

"Don't forget that he still has a clone. This is just a divine body. If his other divine bodies are of this level, I don't know how terrible it is."

"How could it be possible that the human race has so many treasures for him."

The senior officials of the Yaozu League were angry, furious and helpless.

"give up."

"Let's give up this action."

The Monster Race Alliance could not do anything about it, so sensibly gave up this action and issued an order.

"The siege is canceled, let the Lord of Thunder-Ape come back."

"Also, let the rest of the alliance not easily provoke the Lord of Chaotic Source."

The original star.

The lord of Lei Xian said in a low voice: "Lord of Chaotic Source, I didn't expect you to be so powerful. I admire you."

He raised his head. "Your treasure was given to you by the human race. I didn't expect the human race to attach so much importance to you, but if it wasn't for your treasure to be better than me, I would never lose to you."

The lord of Lei Ape was still very unwilling.

In fact, his strength is not inferior to Wang Yi's new Youhai clone, but he is inferior to the treasure.

Wang Yi said: "The treasure is also strength."

The Lord of Lei Ape did not refute either.

"Yes, the Supreme Treasure is also part of the strength. This time I am not as good as you. The previous thing is forgotten, but next time you will kill the strong of our clan indiscriminately, you won't end it so easily."

The Lord of Lei Ape unfolded the domain, soared into the sky, breaking through the layers of starlight waves, and flew towards a whirlpool channel.

Wang Yi did not deliberately block it either.

The new Youhai clone is stronger than the Lord of Thunder Orangutan, plus a treasure, the Lord of Killing Thunder Orangutan is not without a chance, but it takes a lot of effort... He also knows that the other universe Lords of the Monster Race Alliance will not sit idly by, to At that time, he was about to face a battle with the entire Yaozu alliance.

After thinking about it, Wang Yi still felt that he would be let go for the time being.

"The attack power is still a little worse. If there is a Xeon Supreme Treasure as a weapon, the power will be greatly increased. If it hits the Lord of Thunder Orangutan, even if he has the top-level Treasure armor, it can greatly annihilate his divine body." Wang Yi thought in his heart. .

It turns out that in history, Luo Feng is only the venerable cosmos, and he can kill the "Master of the Sunken Fire" with the "Star Tower" as a weapon and the "Small Armor". That's because the attack power after the second layer of the Star Tower directly reaches the top level The limit value of Arcana armor.

The power of urging the second layer of secret patterns plus the power of the Star Tower itself has surpassed the power of the most talented secret method "I am the Universe"!

Originally, the top treasure armor can weaken external attacks to one ten thousandth, but beyond the limit, it may only be weakened to one hundredth, or even one tenth.

Annihilated one-third of the Shenhua Lord's divine body instantly!

The Lord of Thunder Ape is stronger than the Lord of Shen Hua, and the Supreme Treasure is better, but Wang Yi is now the Lord of the Universe, and the weapon is also the pinnacle of the highest treasure, but the Lord of Killing the Thunder Ape is still very difficult.

"Xeon Supreme Treasure, it is really terrible..." Wang Yi sighed inwardly, considering whether to postpone the exchange of the Xeon Supreme Treasure Armor, and first exchange each body for a powerful Xeon Supreme Weapon.

But he quickly threw this idea behind him, what's the use of strong offensive power alone, defense and other aspects also need to keep up.

Just like he didn't have the Supreme Supreme Treasure armor body, the damage he suffered during the previous wave of exchange was not necessarily lower than that of the Lord of Thunder ~

www.mtlnovel.com~ There is no domain-type treasure to suppress the opponent, and the opponent can't stop it even if they want to escape.

Without soul treasures, it is easy to be interfered by some masters of the universe who are proficient in soul secret magic and illusion, especially when they are besieged in melee, it is even more troublesome.

"It's better to develop in an all-round way..."

...

The lord of the human chaotic source and the lord of the monster thunder ape met on Primordial Star and battle broke out.

The news of this battle spread quickly, and the powerful strength of the Lord of Chaotic Source was recognized.

The major forces in the universe knew right away that although the "Master of Chaotic Source", the master of the universe that the human race had just made breakthroughs, was just a new master of the universe, he had already created several sets of masters of the universe, and he also possessed a master of the universe. The most greedy treasure, the strength can be comparable to the third level such as "Yan Di" and his like.

[Chapter 499: The first draw](#)

"Even if I get the Xeon Supreme Treasure, I have to comprehend the secret patterns on it to evoke the true power. It takes a lot of thought, and it is much more difficult than comprehend the Peak Treasure." Wang Yi said with emotion.

Even with his two supreme swords, Wang Yi tried his best to comprehend, and time is far from enough. At present, he is only urging the first layer of secret patterns. This is still the speed of his universe lord's comprehension.

However, these two pinnacle treasure weapons war knives are the best products of pinnacle treasures, and they were specially exchanged by Wang Yi. They are so powerful that they can exert all the power beyond the top treasure weapons.

"Now that this battle is spreading out, all parties know that I am not easy to provoke. If I want to deal with me in the future, I must use more terrible means. I can't carelessly." Wang Yi secretly said.

After becoming the lord of the universe... it is very difficult for the lord of the ordinary universe to be killed, unless the lord of the galaxy, the powerful lord of the universe with strange objects, etc. can kill the lord of the ordinary universe.

And some of the more powerful ones or the best treasures, even the Lord of the Galaxy, can't kill them.

As for the level of the master of the galaxy, and even the lesser master of the ice peak and other top existences, even the strongest in the universe can't help it.

What to do then?

Suppress the seal!

Maybe it can't be killed, but it can be suppressed by the upper hand. Generally, it can be done.

As long as you "suppress the opponent" first, and then directly force it to be swallowed in through the "suppression class supreme treasure"...then you will be trapped in the "suppression class supreme treasure" to stabilize the supreme treasure, such as one A top treasure of the seal class, even the strongest in the universe can't be destroyed and rushed out.

And then sent to places such as "Original Universe".

In the original universe, the City Lord of Chaos uses the origin of the original universe, it is absolutely invincible, and even the strongest in the universe can be killed, let alone a master of the universe.

Wang Yi's strongest combat power combined with Xeon Zhibao can be compared to the Chaos City Lords and others. However, it is far from being invincible. Once the Xeon Zhibao is discovered, then there must be the strongest in the universe. The strongest man in the universe worked together to plot, even Wang Yi might have to plant it. Even if he hides in the tower of the sky, if the tower of the sky is trapped in a small universe of the strongest person in the universe, it is called Tiantian should not, and the earth is not. Spirited up.

"Also, compared with those cosmic pinnacle powerhouses, my secret technique level is still far behind."

Wang Yi's biggest flaw right now is the level of the secret technique, even the Lord of the Universe has not created the strongest secret technique.

Not to mention the strongest secret method of fusion!

If he can create the strongest secret method of fusion, then he is the true master of the sixth-order universe of the primitive universe!

...

When Wang Yi's three major clones (the Yanxing Giant Beast clone has been carried in the world ring of the Youhai clone) were checking in while collecting the most treasures, the Lord of the Chaotic Source and the Lord of the Thunder Ape of the Demon Alliance also fought. There is a lot of uproar in the upper circles of the universe.

Wang Yi also welcomed an inquiry from the Lord of the Hongmeng Universe.

Like the master of the universe of the human race, knowing that Wang Yi has been inherited from the Tongtian Tower, he does not know how many cards he has, so he is naturally not surprised.

However, it was the first time that the master of the alien universe of Hongmeng learned about Wang Yi's strength and was shocked. Most of the inquiries that Wang Yi faced came from the masters of these alien universes. After all, before Wang Yi was in the city of Hongmeng. I also know a lot of alien palace masters.

...

In a blink of an eye, another year passed.

Over a piece of desert on Primitive Star No. 03129, a towering figure stepped out of the vortex passage.

The silver battle armor, a pair of silver wings on the back, silver eyes under the sealed helmet, and two war knives on the back, are Wang Yi's clone of the Void Zerg.

"I have signed in with Yuanxing for almost two years, and have also checked in more than 6000 times."

In addition to the 300,000 treasure points that have been redeemed, Wang Yi now has 470,000 treasure points on his body.

There is still a shortfall of 30,000, and it can be exchanged for a Xeon Arcana.

"Venerable Hongmeng's message says that there is a treasure born here."

He was also a little speechless in his heart. He collected 9 treasures from Primordial Star (including 4 for killing the monster universe overlord), only this one was missing, but he waited for a full year.

Wang Yi looked into the distance, and the next moment, "Boom..." the endless pressure was released instantly and directly descended on the entire Primordial Star.

"Ah, Lord of the universe."

"It is the Lord of the universe who has come."

The cosmic lords from all forces in the universe on the entire primordial star were shocked.

And in the vast ocean, a group of strong teams from all sides who are vying for the treasure of the world also felt a powerful and incomparable atmosphere of coercion.

"This thing belongs to my Hongmeng, you quickly retreat." A voice rang in their ears and roared in their minds.

"Yes... is the Lord of the universe."

"It is the master of the universe of Hongmeng."

The venerable alien races were shocked, no matter where they dared to defy the order of the Lord of the Universe, they quickly dispersed.

Just now, the fight was inexhaustible, and the lively sea suddenly calmed down, leaving only the Venerable Hongmeng.

"Swipe!" A streamer flew quickly from a distance and stopped in front of them.

A tall and towering silver figure was revealed.

Those silver eyes looked high at them.

"The Lord of Chaotic Source." Venerable Hongmeng bowed their heads and saluted respectfully.

Wang Yi nodded slightly. "Well, your contribution value this time has been recorded and you can leave."

"Yes."

The Venerable Hongmeng left with excitement.

Because even if they compete for the treasure, they may not be able to compete. Even if they compete, they often have to hand in the ethnic group because it is difficult to distribute, and then assign the contribution value according to each person's contribution.

In addition, in the past, the Lord of the universe would basically not intervene in the fights of the lower-level venerables, and could only rely on themselves, and they could only blame themselves for the fall, and rely on the resurrection of the race.

This time, Wang Yi took the initiative to release the mission. After completing the mission, he can get more contribution points than before. In addition, if he falls during the mission, he will also be responsible for the resurrection. This has made many venerables enthusiastic about this mission.

Wang Yi looked at what was floating out of the sea like an Icelandic treasure, a trace of excitement flashed in his eyes, and when he stretched out his hand, a trace of supernatural power fell on the treasure, quickly recognized the Lord and received its information, even the identification was too lazy to directly throw the identification on the panel .

New content appears on the panel.

[Currently collected treasures: 10/10, number of draws available: 0.]

[Do you want to redeem the number of lucky draws?]

Wang Yi chose "Yes".

The panel information changes.

The 10 treasures placed on the panel disappeared.

[Currently collected treasures: 0/10, number of draws available: 1.]

[Whether to draw a lottery?]

Wang Yi took a deep breath~www.mtlnovel.com~choose "Yes".

A white roulette appeared in Wang Yi's line of sight. It was divided into three areas. The most area was green, a small area was blue, and the one with only one thin line was almost invisible.

They represent the top treasure with 79% probability, the peak treasure with 20% probability, and the Xeon treasure with 1% probability.

"Wow!"

The needle moved.

Not under Wang Yi's control, after spinning for about 10 seconds, he slowly stopped and stopped on the green area.

【Ding! Congratulations, get a piece of green equipment! 】

"???"

Green your uncle! ! !

[Chapter 500: Exchange Xeon Arcana Battlegear](#)

Three years after the original star opened.

The original star numbered 01332.

A figure leaned against a big tree. He had an ordinary human figure and was wearing a battle armor with a complicated appearance. The battle armor was black and red, and there were faintly mysterious patterns covering the entire battle armor. There is an aura that makes the universe tremble. He also held a three-meter-long wide-handled war knife in his hand. The wide-handled war knife was inserted on the ground. There were extremely complicated secret patterns on the surface of the knife. The strange secret patterns made the entire surface of the knife pulsating. The space around the faint blades seemed to tremble, or it was curbed, the fierce and huge aura could tear the immortal gods to pieces alive.

"I have been in Primordial Star for three years, and finally signed all 9081 stars to the end, and also completed the lottery on a Primitive Star." Wang Yi's mouth twitched again when he thought of this, obviously thinking of the unpleasant lottery experience last time.

"The signed treasures were all exchanged for the treasure points, and a total of 1.12 million treasure points were obtained, of which 300,000 have been exchanged for various peak treasures, leaving 820,000."

"And to redeem a piece of the most common Xeon Arcana... requires at least 500,000 Arcana points."

Only 100,000 Arcana points are needed to exchange for an ordinary Xeon Arcana weapon, and a minimum of 500,000 Arcana points is required to exchange for an ordinary Xeon Arcadia Armor (War Armor of the True God).

The exchange price is determined by the panel, and it is even very different from the exchange price of the human race treasure house.

In fact, Wang Yi can understand that the 10 top treasures in the primitive universe and the universe may be comparable to the one Xeon.

But in higher worlds, such as the ancient civilizations and the world of Jin, the battle armor and weapons of the True God rank are equally precious. The next few armor weapons are very common. Most of the masters of countless laws (the masters of the universe) have them. In the world of Jin, even if there are hundreds of pieces of the "Primary Treasure", I don't want to exchange for one.' Xeon Zhibao'!

Think about it this way... In fact, the exchange price is acceptable.

Wang Yi called the panel, opened the redemption function, and selected the True God-level battle armor redemption list.

Start searching for the favorite armor.

"Red Gujia, 500,000 supreme treasure points, all attacks below Tier 5 in normal form are invalid. With six levels of secret patterns, every layer of activation will greatly increase the defensive power. If you exceed Tier 6, material attacks can be weakened to 100,000 points. One, the limit of damage tolerable is...The other aspects are average, the best is to save your life and escape, and you are very good at constantly changing directions to dodge and so on..."

"Backlight armor, 500,000 treasure points, all attacks below the fifth rank in normal form are invalid. With six secret patterns..."

"Guardian of Sin God, 680,000 treasure points..."

"Niluo ice armor, 1 million treasure points, all attacks below the sixth rank in normal form are invalid, with seven secret patterns..."

"Sunset armor, 2.2 million treasure points, all attacks below the seventh level in normal form are invalid, with seven secret patterns..."

"Sacred Rhinoceros Cloth, 6 million treasure points, all attacks below the eighth rank in normal form are invalid, with seven secret patterns..."

"Moschino battle armor, 90 million treasure points, all attacks below the ninth rank in normal form are invalid, with seven secret patterns..."

Wang Yi was dazzled and dumbfounded.

The sixth order is invalid?

The seventh order is invalid?

The eighth order is invalid?

Damn it!

This makes Wang Yi, who currently has the strongest attack power reach Tier 4 (not the Xeon Supreme), feels so embarrassing!

However, the better the armor, the price is also very amazing.

There are even more than "100 million" as the unit, and the attributes are incomparable, which makes Wang Yi's heart tremble.

Of course, the higher the level of battle armor, the more difficult it is to urge the conditions. For example, the Xeon Supreme, even if there is a powerful and incomparable master of the universe, it usually urges the third secret pattern...because they cannot meet many conditions, such as basics. For example, the divine body, some true gods with secret patterns have to burn the divine body to be activated, how can they be able to do it!

And even the limit value of the True God-level battle armor... At the very least, the attack of the Void True God can reach that level. There is no need for such a strong armor in the universe. As for the invalidity below the seventh level or the eighth level? True God powerhouse, which attack is lower than the eighth rank?

But in the Lord of the Universe, this goes against the sky.

Any one, after putting it on, all attacks below Tier 5 can be ignored, and many of the attacks of the Lord of the Universe are no different from Tickle, and they are only at the level of the Chaos City Lord to barely shake it.

"Change, change, change, I want to change!" Wang Yi roared.

But he finally regained his senses.

Arcana points are not enough, and he also plans to exchange other Xeon Arcana weapons.

"Xeon Supreme Treasure Armor...may be able to make me invincible in the Lord of the universe, but in front of the strongest in the universe, it is not enough to look at it. It can't kill me. There are other ways to deal with me." Wang Yi was very calm.

Gou Ru him, how can he care less.

"And without encountering the strongest in the universe, an ordinary Xeon and Supreme armor is enough."

Wang Yi finally chose a "Wuhou Jia".

"Exchange Wuhoujia!"

[Wuhoujia is worth 500,000 treasure points, do you want to redeem it?]

"Yes!"

"Ding!" A clear prompt sounded, and Wang Yi couldn't help but move his eyelids when he saw that most of his precious points on the panel were missing.

However, his panel space also has an additional armor.

The armor was as smooth as black porcelain, without a trace of polishing, or even a secret pattern showing, giving people a perfect and natural feeling... But the breath is as large and deep as a black hole, even if the Lord of the universe looks at it. To it, there is a sense of inexplicable suffocation.

This is the Xeon Supreme War Armor, that is, the True God War Armor!

"I finally got a Xeon Supreme Treasure Armor." Wang Yi said emotionally, "With it, the Lord of the universe will no longer threaten me in battle, and only the strongest of the universe can threaten me."

"Wuhoujia, all attacks below Tier 5 are ineffective, but once extremely powerful cosmic masters such as Chaos City Lord desperately, their power can reach or close to Tier 6, and they can barely hurt me, but they will also be greatly weakened. ."

The Xeon Supreme Battle Armor is so powerful!

"It's just that if you want to take advantage of the greater function of the armor, has to understand the secret pattern as soon as possible."

Wang Yi was in a good mood, recognized this precious armor as its owner, and then slowly refined it.

Xeon Zhibao generally has the conditions for recognizing the master, but it is much more convenient for Wang Yi to exchange it from the panel.

Because it is the same soul, after acknowledging the Lord, naturally all clones can be used. Of course, Wang Yi will assign to a clone according to the situation to strengthen combat power.

"Now, in the primitive universe, I am fearless anymore."

The maximum power limit allowed by the primitive universe is the Tier 6 top. Wang Yi wears the Xeon Arcane Armor and uses the Xeon Arcane Realm-type Arcana to fight against the suppressed universe's strongest. However, because of the secret technique level The gap, he is most likely the one who was beaten.

"Well, now there is still a soul-type supreme treasure, then it will be complete..."
