

A God 501

[Chapter 501: Shrine](#)

After redeeming the Arcane Armor, there are still 320,000 Arcana Points on Wang Yi's panel.

They also exchanged three of the most common Xeon Arcane weapon war knives one after another!

One piece per body!

Now... Wang Yi already has four Xeon supreme weapons (including the previously exchanged "Fantasy Slash"), one domain type "Tianluo Diwang", and one battle armor "Wuhou Jia".

With the addition of Tongtian Pagoda, there are seven pieces.

Wang Yi asked the three avatars scattered on the other primordial stars to come and lead the treasure, including the Yanxing Giant Beast that stayed with the Xinyouhai avatar. In Wang Yi's plan, he wanted to build the strongest combat power.

"Now, I only need to collect the most treasures and slowly draw prizes on other original stars."

There are two basic conditions for the lottery, one is that ten treasures can be exchanged for a chance to draw a lottery, and the other is that it must be done on one of the original stars that have not been signed in.

If you have already checked in, it will not work.

"It is too slow to collect the treasures born from Primordial Stars. If it weren't for killing a monster universe overlord last time, I don't know when we can collect ten treasures." Wang Yi was a bit dissatisfied.

The reason for the dissatisfaction is simple. It has been a year since the last lottery draw ended, and he has never won a treasure.

Although this is also normal, after all, the birth of the Primordial Star Treasure is completely irregular, and occasionally one piece is snatched by countless people...Even the Lord of the Universe, it is not so easy to get a treasure.

And if it is to kill indiscriminately... even more undesirable.

"Wait, the Primordial Star's opening time is short, and all parties have less oil and water. After hundreds of thousands of years, those strong will gain more. I will find another opportunity..." Wang Yi narrowed his eyes and hit himself. Abacus.

The Xeon Treasure is in place, and the Hell Lord can go online at any time. Although there is no Soul Xeon Treasure, the defense of the battle armor plus the Peak Soul Treasure, with Wang Yi's will to approach the strongest in the universe, is enough.

Can find a chance to have a big fight.

...

Another year has passed.

One year's time is very short for the powerful people who are trespassing on the Primordial Star, and it is almost a matter of a blink of an eye.

Until now, there are still people talking about the battle between the Lord of Chaotic Source and the Lord of Lei Ape.

And the news that the "Master of Chaotic Source" robbed of the most precious treasure everywhere with ordinary cosmic venerables regardless of their identity began to circulate.

There was even a cosmic overlord of the Monster Race Alliance who fell because of competing with the Lord of Chaotic Source for the most precious treasure.

Therefore, all parties are reminding that if the Lord of Chaotic Source comes when the treasure appears, then do not move obediently.

Because of this, the Lord of Chaotic Source is not very well-known in all parties, of course, he doesn't care.

Wang Yi, who was wandering around on a primordial star, received a virtual universe notification.

"Huh? A treasure was born on the original star numbered 09999?"

Wang Yi's eyes lit up, and after waiting so long, he was finally able to move his muscles and bones.

"It's actually the original star that I haven't signed in."

"It just happens to be the closest to my human deity, which saves trouble."

On the way to the original star 09999, Wang Yi got more information.

"Is it a temple?"

Wang Yi was a little surprised.

He knows the situation of Primordial Star very well, knowing that every time Primordial Star is turned on, the most precious treasures are born, and then he goes to the set of heavy treasures, the most precious treasures.

Like a heavy treasure, there is almost no movement when it is born, and it appears all at once, so if you don't pay attention, there is no one nearby, and it is easy to be ignored.

Some of the more precious treasures, like the Supreme Treasure, have a much greater aura of birth, and they are one with the Primordial Star before they are completely born, and cannot be taken away.

Others, such as a temple, even a mountain, a strange secret realm... However, the speed of birth is much slower than other treasures. During the emergence process, there is no way to rush into the interior. You must wait for it to fully emerge before you can find a way to open it and capture it. The treasure inside.

It can be said that the stronger the treasure, the greater the movement of birth.

The "Temple of the Gods" in Wang Yi's impression seems to have appeared 600 years after the opening of Primordial Star. As soon as it appeared in this world, it caused a great disturbance, which alarmed all forces.

You know, Primordial Stars generally need endless years to open once, and each open only lasts for 1000 epochs. In this 1000 era, treasures of the same level such as top domain treasures, top soul treasures, top flying palace treasures, peak weapons treasures... will appear many times.

It's just that they are all incomplete and will appear scattered.

And in the entire 1000 era opened by the Primordial Star, there will be one of the most terrifying treasures, which will be higher than the other treasures. Generally it will be "the highest treasure of the peak domain", "the highest treasure of the peak flying palace" or the "the highest treasure of the peak soul".

Of course, they generally have other functions.

The Xeon treasures are hard to find, and this kind of peak treasures is enough to drive the major races crazy.

"The Temple of Qishen will not be born for hundreds of years."

"And this time I can be born in a temple, no matter how high it is." Wang Yi was not excited, but frowned slightly. "It's a bit troublesome now. The birth of such a temple can easily attract those super existences."

Ordinary treasures, the Lord of the universe generally doesn't care.

But the high-level treasures are different. Some precious high-level treasures are not inferior in value to the top-level treasures, and they are worthy of the masters of the universe.

"Go and see."

Virtual universe, the highest power center of Hongmeng City... Hongmeng Hall.

The consciousnesses connected by the lord of the universe also immediately learned the news of the birth of the temple.

"The latest news, there is a temple on the original star No. 09999 that broke ground and is slowly emerging. From the perspective of the birth, the inside should be a high-level treasure, and it may also be a top-level treasure, so don't miss it. Who wants to go?"

"It's a pity that I have something to do now and can't go."

"I'm a bit far from the original position of 09999. I didn't know if it was too late in the past."

A group of masters of the universe gathered here one after another spoke.

The black-haired man in red robe sitting on the throne of the main hall said: "My human deity is close to that~www.mtnovel.com~ I'll go."

"Well, Chaotic Source is powerful, and there are many treasures, so you should have a good grasp of going there."

"Over the past year or so, Hunyuan has run very diligently."

"If Chaotic Source goes, we can rest assured."

Chaos City Lord said: "Then hurry up, there should be a time limit for the opening of the temple. Get there before the end of the birth, if it is late, you may not be able to enter." These are all lessons learned.

"Just in case, I will let the two masters of the universe come and pick you up at that time."

At this time, among the 10081 permanent ancient primordial stars, one of the primordial stars is slowly rising on the vast plains of a beautiful temple, and at the same time, accompanied by a powerful breath sweeping in all directions, alarming the primordial stars Countless powerful people, and this news quickly spread to other high-level forces. After discussion, they quickly dispatched surrounding powerful people to rush over.

[Chapter 502: "Tianliufan"](#)

According to previous data, in the hundreds of years since the Primordial Star was opened, the probability of the treasure being born was higher, and the strong men who suppressed the endless years were more excited and killed more.

However, for the vast majority of the 1000 era, the strongest were almost hidden, and they were hidden without a chance.

And this time the temple, which was suspected to be the highest treasure, was born, but many powerful beings were moved by the wind.

There are 10081 vortex channels on a primordial star, and the distance of each vortex channel is generally hundreds of millions of kilometers.

It usually takes more than half an hour to fly from one whirlpool channel to another whirlpool channel.

It should be noted that each primordial star is 100 billion kilometers in diameter. Even if it is 300,000 kilometers per second, it can only fly about 1 billion kilometers per hour. If it is a little farther from the vortex channel, it will take a long time to reach it.

Therefore, the super beings who got the news did not delay and set off one after another.

...

Many of the super powers of various races in the universe that entered the Primordial Star have their incarnations in the clan, and a very small number of them have clones in the clan!

These avatars can already send messages simply, but some important things, the avatars may not be able to do.

"The original star number 09999 found a temple born!"

The Northern Xinjiang Alliance is the alliance with the largest number of powerhouses in the entire universe. The number of His Universe Masters is over a hundred times that of Hongmeng! There are a large number of strong ones, scattered in various primitive stars, and the probability of discovery is naturally high. It is also the first to discover that the temple has broken through the ground, and is the first to react.

Suddenly a majestic figure appeared in the vortex passage in the mid-air above.

boom!

The huge coercive breath is coming!

Lord of the universe!

The Lord of the Universe has extremely high search efficiency. Once you arrive at a planet and directly control the time and space of one party, you can easily search the entire planet.

I immediately discovered the scene where the violent fluctuations were coming from.

A stream of light in the sky quickly flew to the distant place.

"Primitive Star is really troublesome." The Lord of the Universe snorted coldly. "Although I arrived here from the closest whirlpool passage of another primordial star as soon as I heard the news, it would take a long time to reach the place unearthed from the temple."

Primitive star is the place closest to the origin of the universe, and the origin of the universe cannot be challenged. Even the strongest in the universe cannot teleport here, and cannot even fly faster than the speed of light. After all, really fighting against the origin of the universe... the strongest in the universe is still at a disadvantage.

The master of the universe also had to be patient and fly slowly.

"Fortunately, there is no Lord of the universe in this place. I arrived here the fastest. No one else has arrived. This time the treasure of the temple is born, I must fight for it."

The Lord of the Universe hadn't been happy for long, but a violent vibration suddenly rang out in a place far away from the Primordial Star.

A powerful time and space power that is not inferior to him permeated.

Another Lord of the Universe has arrived!

"The Lord of the Flames of the Northern Xinjiang Alliance!"

"The Lord of Yihun of the Prison Alliance!"

Both masters of the universe recognized each other's identities.

The Lord of Yanyan sneered and said, "Lord Yihun, you came very quickly."

"Can't come faster than your Lord of Flames." Lord Yihun's vigorous voice resounded across the sky.

And many powerhouses of Primordial Star also discovered that the arrival of the two cosmic masters, some cosmic lords and cosmic overlords who were flying to the temple involuntarily slowed down.

Before the Lord of the Universe came, they ran quickly and it was all right. The Lord of the Universe came and they quickly leaned over, which would be dangerous.

But they didn't give up either, they just slowed down a little bit and prepared to wait and see. They wouldn't dare to directly compete with the Lord of the Universe, but when a temple like this is opened, everyone has a chance to go in.

"boom....."

At this moment, another shocking coercion came.

The third Lord of the universe has arrived!

Moreover, the place of appearance is closer than the other two universe masters who arrived first.

It was a black-haired man with indifferent temperament wearing a dark red battle armor and a sword on his back. Although he was only a normal human figure, he exuded a powerful aura that was not inferior to the other two universe masters.

"Another universe lord has come!"

"It's already third."

"This time when the treasure was born, so many powerful people came over at once."

The sages of the universe on this primordial star were excited.

They didn't want to compete with these strong men, and happily watched the excitement next to them.

"Master of Chaotic Source."

"It is the lord of the chaotic source of mankind."

The flying Prison Alliance's Lord Yihun and the Northern Xinjiang Alliance's Master Yanyan were both slightly surprised.

The Lord of Chaotic Source, but recently became famous, crushed the Lord of the Thunder Ape of the Monster Race, and was hailed as a powerful existence comparable to the masters of the universe, such as Emperor Yan, and was extremely difficult to provoke.

Wang Yi just glanced at them, then set his eyes on a beautiful temple on the plain far away. Through layers of time and space, he could see an ancient stone stele in front of the temple. The stele recorded some detailed information. A kind of text that Wang Yi has never seen before, such as countless mysterious patterns, but when he sees it, he understands its meaning naturally.

"The top treasure 'Gillow Sail'?" Wang Yi was taken aback for a moment, then his eyes narrowed.

"Unexpectedly, the 'Gillow Sail' that appeared in the original history will be born at this time."

The stone tablet records the detailed information of this top treasure. With this treasure, you can teleport to throw away the enemy when you escape, and you can easily shatter layers of space in battle... It is definitely the first-class treasure for escape and attack.

"Tianliufan" is not considered a top flying palace, soul type, domain type treasure... so does it appear in the temple alone and intact? Wang Yi immediately thought of this.

"My luck is really good. I met the birth of 'Tianyu Fan'. If that's the case, let's grab it." Wang Yi grinned.

At the same speed, it flew toward the plain.

Although the rivals he faced after entering may be the masters of the universe, Wang Yi didn't care.

When I get in, I don't know who is doing it.

"The Lord of Chaotic Source has also come, and his strength is extremely strong." The Lord of Yihun was a little worried, "The Lord of Flames is also stronger than me, and the Lord of Chaotic Source is not easy to mess with, but they restrain each other. , I still have a chance." Although the opponent is strong, the Lord of Yihun is not worried about his own life. He is still confident in self-protection, but is worried that he will not be able to compete for treasures.

"boom!"

After a while ~www.mtlnovel.com~ the fourth lord of the universe descends.

This is a humanoid with a height of over a hundred kilometers, covered in black hideous burrs, and a huge one-eyed inside the countless steel-cast burrs, exuding a chilling light.

"The one-eyed master of the Nine Regions Alliance!"

Wang Yi took a look and immediately recognized the Lord of the universe who had just arrived.

The Lord of the Universe who can appear on the Primordial Star is basically impossible to be too weak.

The lord of the weakest universe like that, staying in the lair like the eclipse palace lord, cultivating.

Those who dare to come, basically have some strength.

"The Lord of Chaotic Origin, the Lord of Yihun, and the Lord of Yanyan." The one-eyed master also recognized the other party, and the huge one-eyed gloom flashed, and then flew out through the air.

The goals of the four masters of the universe are the temples that are about to open on the plain.

[Chapter 503: 4 masters of the universe](#)

On the vast plains of Primordial Star No. 09999, at this moment, it affects the hearts of many high-level forces in the universe.

The core of Hongmeng City, a shining and mysterious palace with a height of one million kilometers, looks like a huge sword to pierce the starry sky. This is the "Hongmeng Palace."

"Apprentice!" A loud voice sounded, and a strong bear man in a gold silk robe stepped into the palace. Wang Yi, who was talking with a group of universe masters in the palace, looked up and said with a smile: "Teacher!"

The other cosmos masters also laughed when they saw the people coming.

"Star Prison."

"Star Prison, you are here."

The Lord of the Star Prison (Pang Bo) has a clone (the former Star Prison Demon Lord) to roam in the Primordial Star, and another one in the Primordial Secret Realm, preparing to create the ultimate knowledge. He dares to break the Primordial Star, but also has his own confidence.

The Lord of Star Prison smiled and greeted the other universe masters, and then looked at his apprentice, "I heard that you went to the Primordial Star where the shrine just appeared?"

"Yes." Wang Yi nodded.

"Are you sure?" the Lord of Star Prison asked curiously. To be honest, he was also taken aback when he knew that Wang Yi had violently smashed the Lord of Thunder Orangutan. He didn't know whether this mysterious apprentice was capable of doing it. Which step.

"It's 70% to 80%," Wang Yi said with a smile.

Good guys. The Lord of Star Prison saw this apprentice's confident smile, and knew in his heart that this time he was sure of it, otherwise the apprentice would not be so confident.

...

On the primordial star No. 09999, on the vast plains, at this time, a towering temple has been completely born, suspended in the air, radiant, beautiful, khaka... a door of the temple slowly opened, and at the same time, if there is one Ruowu's ancient bell faintly rang, echoing above this primordial star.

"So fast." The four masters of the universe hadn't arrived at the place where the temple appeared. They saw that the temple had been completely born and the entrance appeared. , Ready to move.

"I'm the first to arrive!" There are thousands of silver-white braids hanging down to the thighs behind his head. The head is like a murloc, and the "Lord of Yihun" holding a huge trident in his hand saw it. Rejoicing, enter the temple quickly, of course, there will be more opportunities to get treasures, this is called a head start.

"Lord Yihun, if you want to go in, you should wait for us together." A hoarse and evil voice rang loudly.

"Wow..." I saw that a huge area within a billion kilometers was filled with countless sand-like crystals. The tiny crystals were indestructible. Although the power of each tiny sand was extremely weak, countless crystals of sand could converge. , That might can easily annihilate some cosmic elders.

"The realm of the one-eyed lord is the most precious Shahe realm." The surrounding area was already white. Wang Yi glanced around, divinely agitated, and the surrounding crystal grains couldn't get close

to his body. "However, this Shahe Realm feels a bit worse than the Lord of Thunder. I heard that the most powerful thing about the One-Eyed Lord is the one-eyed one that integrates into that soul treasure. Together with his talent, he is powerful."

However, the target of the "One-eyed Lord" is not them, but the first "Lord of Yihun".

"One-eyed Lord, you don't want to stop me!" The Lord Yihun let out a low roar. With him as the center, endless waves came, and the blue water was surging, wave after wave, on Primordial Star The sky is raging.

The one-eyed lord's domain was blocked.

"Lord of Chaotic Source, Lord of Yanyan, let's stop him together." The voice of the one-eyed lord rang in Wang Yi's ears.

Wang Yi just glanced at it and ignored it.

The Lord of Yan Yan sneered.

"Haha, I'm going one step ahead!"

At this time, the Lord of Yihun had already flown to the gate of the temple.

"Wow!" The Lord of Yihun showed excitement on his face, turned into a stream of light, and rushed into the gate of the temple without looking back.

The one-eyed lord's huge one-eyed gloom flickered violently, making him a little angry. He was the furthest away from the temple, so he wanted to stop the lord of Yihun. It would be better for the four cosmic lords to enter together, but the lord of chaotic source and Yanyan The lord obviously didn't care what he meant.

"Wow!"

Afterwards, it was the "Lord of Flame Flames" of the Northern Frontier Alliance. He had a red crystal bald head and three horns on his forehead. Before entering, he looked back at Wang Yi and another universe lord behind him, showing a weird smile. .

Not long after the "Lord of the Flames" disappeared at the gate of the temple, Wang Yi and the fourth Lord of the Universe also followed in.

Primordial Star Treasure was born, there is no danger in itself, the danger comes from other opponents, so they don't have to worry about any environmental threats they will encounter, they just need to be vigilant not to be ambushed by other strong men.

Less than an hour passed from the first Lord of the universe to the last Lord of the universe.

"Go in."

"The four masters of the universe have all entered."

"go."

"Let's go in too."

"It's a rare opportunity, this time I will give it away."

"You go, I won't go."

After the four masters of the universe had all entered, the other cosmic lords gathered nearby all exploded, some followed into the temple, some hesitated, and some turned and left without intending to get involved.

Some are crazy, some are sensible, some are out of the way, and some are not too big to watch the excitement.

Four masters of the universe have already gathered inside, and those who dare to enter at this time are all for profit.

In the end, a total of four universe masters, eighteen universe overlords, and hundreds of universe venerables rushed into this temple.

"Boom!"

After three hours of continuous opening, the gate of the temple suddenly closed, shutting everything out.

At this time, even if other people want to go in, it is too late.

"Huh? The temple has been closed, are we coming late?" The other universe masters were late to come soon, but they could only sigh at the closed temple~www.mtnovel.com~ even if they are the universe masters, face this The temple that is one with the original star can't help it.

They also quickly learned the situation.

"Before I entered the four masters of the universe, including the lord of Yihun from the Prison Alliance, the lord of Yanyan from the Northern Frontier Alliance, the lord of Chaotic Origin from the Human Alliance, and the one-eyed lord of the Nine Realms Alliance. The four universes The Lords are not weak, but the strongest should be the Lord of Chaotic Origin and the Lord of Yanyan. The One-Eyed Lord is good at the way of the soul. The Lord of Yihun also has some special methods, but he does not know that this top treasure will fall. Who has it."

"Wait, wait for the masters of the universe to come out. According to the previous law, 90% of the most precious treasure will fall into the hands of the strongest group."

If the treasure falls to the Lord of the Universe, they can't do anything, but if it falls into the hands of the Overlord of the Universe or the Lord of the Universe, these Universe Lords who are guarding outside will not hesitate to start and take away the top treasure. Of course, this probability is very low.

[Chapter 504: islands](#)

As soon as Wang Yi rushed into the gate of the towering temple, a huge corridor appeared in front of him. With the eyes of the Lord of the Universe, endless distances can be easily seen, but the farther away you are here, you can see The more blurred.

Wang Yi glanced at the palace wall beside him again, a war knife appeared in his hand, and he cut it down without hesitation.

"Peng!" Wang Yi felt as if he was hacking on an indestructible object, and his arm was tingling faintly from the shock.

There was only a knife mark more than one meter deep on the wall, and it recovered visible to the naked eye. In a blink of an eye, it recovered as before, and it was impossible to see that it had been chopped off just now.

A strange color appeared in Wang Yi's eyes, and he quietly put away the saber, "The information is correct. These world-born temples with top treasures inside are one with the Primordial Star. Even the strongest in the universe can't force it. Destroy them."

Wang Yi turned into a stream of light and shuttled through the channel like lightning.

"It's a long passage." Wang Yi thought while flying. "It's also impossible to teleport here. I don't know where the Lord of Yihun and the Lord of Yanyan are going. The top treasure should be based on the message on the stone tablet. In the core area of the temple, I want to find it as soon as possible."

Wang Yi flew at close to the speed of light and could fly 1 billion kilometers in one hour. He has been flying for more than three hours, but there is still no end in sight of this passage.

"The inner space of this temple looks much larger than the outside world. It is like a ring containing a world, with a cave inside." Wang Yi thought secretly, "I guess it won't be easy to get that top treasure."

In the long and tortuous passage about tens of millions of kilometers away from Wang Yi, the "Lord of the Flames", who was surrounded by flames and wore a hideous black armor with complex secret patterns, was also thinking.

He has an avatar in the outside world, and of course he can immediately learn the latest information.

"This time there are four masters of the universe, besides me, there are three, but the most threatening to me is the "Master of Chaotic Origin" of Hongmeng. I am not afraid of the other ones, that is, the top domain category. Arcana is too troublesome."

The Lord of Yanyan also has envy in his eyes. He can possess top-level domain treasures. Unless he is lucky, he will be the top cosmic master in the universe, such as the "Thousand Treasure River" of the Lord of Chaos and the Lord of Tongling. "Floating Mountains and Seas", the Eruo realm of the Zerg'Lord of Bilong'... The master of the universe at the highest level like the "Lord of Flame Flame", it is not easy to obtain a top domain treasure.

Once the domain treasure is deployed, the scattered area will be its control area. In this area, if you face a comparable strength, you can suppress the opponent, and face a strong opponent, and it can also restrict the enemy's actions. Escape yourself calmly.

In the face of the weak, you can easily kill your opponents by relying on the domain treasure.

So the realm of treasure! Although it is an auxiliary, it is extremely useful!

"The realm-like treasure possessed by the Lord of Chaotic Source, once he uses the realm at a critical moment, the threat is too great. Maybe I can join forces with the other two universe masters to have a chance to suppress him, in case if the top treasure is found, He has the best chance." The cold light flickered in the eyes of the Lord of the Flames.

To be honest, they were lucky this time and arrived first to enter the temple, and this time only their four universe masters entered, without facing more competitors.

For this top treasure, the lord of the flames is also very greedy and is bound to win it.

"Huh?" The Master of Yanyan's expression suddenly changed slightly, and at the end of the passage in front, there were six more passages suddenly. "Fork in the road?"

...

Soon after, Wang Yi also appeared here. Looking at the six new passages, he pondered for a while, observed carefully, and found no abnormalities, and finally chose the middle one to enter.

The same goes for the subsequent "One-Eyed Lord", as well as other universe overlords and universe lords who have entered.

Those Cosmos Venerables are even more pleasantly surprised, with sidetracks, their probability of encountering the Lord of the Universe will be correspondingly lower, and they will have a greater chance of saving their lives after getting the treasure.

Wang Yi flew alone in the deep passage for nearly ten days, and there were continuous divergences on the way. Wang Yi always chose the middle one to enter. According to his estimation, he has flown at least 240 billion kilometers in this passage. Nothing happened along the way, very calm.

"Um?"

At the end of the passage, it turned out to be a mirror that kept emitting light.

"Is it the end?" Wang Yi stopped and swept over with divine power, but touching the mirror is like touching nothingness, and nothing is felt behind it.

Wang Yi was floating in the air, looking at this huge light mirror.

For a long while.

"There is only one channel, so you can only go through it." Wang Yi's eyes were light.

Although vigilant, there shouldn't be any danger in this place.

brush!

As soon as the figure moved, the mirror surface was no longer in the next instant. The mirror was like a rippling water surface, easily engulfing Wang Yi.

...

"Wow..."

With the sound of the waves, Wang Yi appeared on an island with sea water in all directions. As for the entrance channel, it was in the middle of the sky behind, similar to the original star vortex channel.

Wang Yi flew into the sky and looked around.

At a glance, from Wang Yi's eyes, there is vast sea water within at least 100 million kilometers. This is an endless sea area, and faintly, there seem to be more islands in the distance.

Wang Yi's thoughts moved, and the realm of time and space descended in an instant, covering an area of hundreds of billions of kilometers in radius, but he still couldn't feel the edge.

Moreover, there seems to be a kind of power in this space that faintly suppresses his space-time domain, making his largest observation range at most a radius of about 100 billion kilometers.

In this area, there are many islands scattered around. Some islands seem to have treasures, but they should not be very good treasures. Wang Yi did not pay much attention to it, but started thinking.

"It seems to have come to a big place." He did not expect that such a large space would appear inside the temple.

"It seems that we have to find the top treasure 'Tiny Sail' by ourselves."

"However, I don't know where I am in this space, nor where the core area of 'Tian Liufan' is located. It's a bit troublesome." Wang Yi frowned.

It's no wonder that in the history of this kind of temple opening, the Lord of the universe has come in ~www.mtlnovel.com~ There are still many weak cosmos elders who dare to take risks, because under such circumstances, they indeed have the opportunity to get the most precious treasure. , Of course, the hope is very low, but even if it is only one-tenth of the possibility, it is enough for many cosmic lords to take risks.

Even if you can't get the top treasures, there are usually other inferior treasures in the temple, such as ordinary treasures, if you are lucky, you still have a chance to get them.

"Well...for me, it's not bad to be able to search for a few ordinary treasures here." Wang Yi was a little moved.

Other masters of the universe look down on this kind of ordinary treasure, and they are all aimed at the top treasure. It is normal for a top treasure such as "Tianliufan" to be worth thousands of ordinary treasures.

But Wang Yi is different. He has the task of drawing a lottery. Here, any piece of treasure is very useful to him.

"Then, while searching for the location of 'Tianliufan', let's look for the treasure." Wang Yi quickly formulated this course of action.

[Chapter 505: Encounter on the sea](#)

The boundless sea, the waves are undulating, the waves are still there, and the waves are splashing everywhere.

A red streamer flew from the horizon like lightning and landed on an island.

Although it is an island, it also has a diameter of over ten thousand kilometers.

"According to Hongmeng's information, there are hundreds of strong people who came in this time, but I haven't met one yet." Wang Yi secretly said.

He cast his gaze on the island, the space-time domain was covered, and everything on the island was visible in his eyes.

"Katang!" The dark triangular object embedded in the rock and gravel of an island broke open automatically and flew in front of Wang Yi. It was a pyramid-like object that was a hundred kilometers high.

Wang Yi stretched out a trace of supernatural power, and the imprint of his life was imprinted on this cube, sending waves of messages.

There was a faint smile on his face.

"Good luck, it really is a treasure."

Heavy treasures can be divided into ordinary heavy treasures and top heavy treasures.

At the same time, there are heavy treasure suits (generally comparable to top heavy treasures) and top heavy treasure suits (some are comparable to general treasures).

However, even if it is a top-level heavy treasure suit whose value is comparable to that of ordinary treasures, it is still of little use to Wang Yi, because the panel does not recognize it, and the panel only recognizes the treasure.

Wang Yi's time and space domain covers a large area. Although some of the treasures can be found, it is difficult to tell whether the treasure is a treasure or a treasure from its appearance.

Must recognize the Lord!

So when he finds some treasures that are not on the route, he will think about whether to collect them.

If it's close, if it's at the edge of the field, it will take half a day for Wang Yi to fly there.

"My previous speculation was that I was in the outer corner of this space. The plan I made was to move in a straight line in one direction. No matter what, I would always reach the edge or the center." Wang Yi put the treasure away and thought to himself. If you know the situation in this space, you don't have to be so troublesome, but now you don't even know the exact location, you can only boast luck."

According to Wang Yi's memory of the original history, the talents of the Temple of "Tian Liufan" will come out within six years of opening. Either the temple will be opened for a fixed period of six years, and the people inside will be expelled when the time is up, or the treasure is in six years. It was acquired within the year, so it was closed... Wang Yi thinks that the latter is more likely.

[Currently collected treasures: 1/10, number of draws available: 0.]

Wang Yi nodded in satisfaction. After only more than ten days after entering the temple, he collected one ordinary treasure, more than a dozen ordinary heavy treasures, and one of the top heavy treasure suits. This efficiency is not too slow.

There is also a whirlpool passage on the island, in fact, there is this passage on about one-tenth of the islands.

Wang Yi once condensed a divine power incarnation to test it out. If he wanted to leave this space, he would just go in and he would return to the long corridor, but the temple had been closed and he could not leave at this time.

Wang Yi looked into the distance, the sea was vast, but there was no end in sight.

"I have been flying straight on this sea for almost 15 days. The flying distance has exceeded 300 billion kilometers, but I still haven't seen the end of the edge or the center." Wang Yi sighed secretly. "I don't know when I can find the location of the top-level treasure 'Gillow Sail', and when this collection will end."

As soon as Wang Yi's figure moved, he whizzed through the air and left, quickly reaching close to the speed of light, and instantly disappeared at the end of the sky and the earth.

On the other side of the vast ocean, the "Lord of Flames" with three horns on top of the black armor like a red crystal bald head is also flying.

The flames lingering around make the space twisted.

The time and space of a party controlled by the Lord of the Universe covers a radius of hundreds of millions of kilometers, and all movements are clear to the heart.

"It's been half a month and I haven't found anything, not even a treasure." The Lord of Yan Yan was a little impetuous.

"I met a little guy from the Monster Race Alliance, but I didn't find any treasure even after killing it."

If it were outside, the weak and weak lord of Yan Yan would not bother to take a look.

But inside the Primordial Star Temple, if they encountered it, they would not let it go.

What if there are treasures on you? The attitude of these powerhouses is that...

But that hapless Cosmos Venerable obviously has no treasures on him.

If the overlord of the universe meets the lord of the universe and avoids it far, it may save his life.

But Venerable Universe, he couldn't run under the constraints of the time and space domain, he could only be killed.

"This space is really too big, where is the top treasure 'Gillow Sail'? Where are the Lords of Chaotic Source?"

...

This time the temple opened, in addition to the four universe masters, there were also eighteen universe overlords and hundreds of universe venerables coming in.

The unlucky ones encountered the Lord of the Universe and were directly killed.

There were encounters, but they ran away.

But this space is vast, and such encounters are still rare.

"Ha ha....."

On a vast island, a black light figure standing on a beach is an illusory energy body, just over ten meters high, with an insect-like face.

He was looking at the stone carvings in front of him with ancient secret patterns that looked like strange creatures with a face full of surprise.

He had already confessed to the Lord and got excited when he learned about the treasure.

"Unexpectedly, I, Bian An, would get a treasure so quickly, which is still a precious domain-type treasure."

"Although it is only a treasure in the general field, it is far beyond my previous accumulated wealth."

"Sure enough, this place is right."

"I only had a set of supreme weapon and armor before. This supreme treasure can greatly enhance my strength."

The cosmic overlord of the Northern Xinjiang Alliance quickly became familiar with this newly acquired treasure.

The treasure is just obtained, and you have to study it carefully before you can gradually master it.

The stronger the treasure, the more difficult it is to master.

However, the treasures of this kind of field are naturally easier to master than other treasures.

Bian An's smile was all over his face. With this category of treasures, his life-saving combat ability will be greatly improved, even facing the Lord of the universe, it will be easier to escape.

"I'll see if there are any other places." Get a treasure, making Bian Anyi happy and complacent.

"Wow!"

The black light energy body flew in one direction, and there was an island in that direction, but it took a long time to fly by just looking close.

"Haha, now my strength will also increase a lot in the league's cosmic hegemony rankings. The Famuda who has been pressing on me~www.mtnovel.com~ he does not have a domain treasure, and I will meet him after going out. , Just mock him severely." Bian An thought happily.

At this moment, a field quietly covered it, covering the happy Venerable Bian An.

"what!?"

Venerable Bian An trembled in his heart, his face changed wildly in the next moment, and he turned around and ran away.

"This coercive breath is not the master of the universe of our alliance!"

There is only one master of the universe in the Northern Frontier Alliance, that is, the master of Yanyan. His coercive aura has been felt by Venerable Bian An, and he will not admit it.

Bian An was shocked and realized that he was facing a major crisis.

"Run! Run far away!"

And hundreds of billions of kilometers away from him, a black-haired man in a red armor also stopped and his gaze fell on this side.

[Chapter 506: Encounter the Lord of the Universe](#)

"It's Bian An of the Northern Xinjiang Alliance." Wang Yi recognized this fairly well-known universe overlord at a glance.

The Northern Frontier Alliance has always been known for its many strong people and broad ethnic groups.

"Want to run?" Wang Yi smiled when he saw Venerable Bian An's reaction.

And Venerable Bian An was frightened now.

Inside the temple, encountering a stranger of the universe is undoubtedly the worst situation. Venerable Bian An was so scared that he turned and turned into a stream of light and escaped.

Although he is a cosmic overlord, he still has little resistance to confront a cosmic lord at close range.

He comforted himself in his heart, "Fortunately, the distance is still far, it shouldn't be..."

"boom..."

It was as if the sky and the earth were sprinkled with ink, and a torrent of pitch black rolled in, flooding the whole world.

There are countless rolling streams of water in the dark space, full of great power.

Venerable Bian An's eyes widened in the illusory energy body, full of shock.

"Treasure field!"

In the distance, with a faint smile on his face, Wang Yi approached Venerable Bian An.

Wang Yi's four divine bodies, except for the strongest Yanxing Giant Beast clone which possesses the Xeon Arcana, the other clones possess the Peak Domain-type Arcana, and are the best among the Peak Domain-type Arcana. After all, the Xeon Arcana cannot be exchanged. That peak treasure will do the best.

The domain treasure of Wang Yi's human deity is called "Black Night River", which is very similar to the name of the ultimate trick of a powerful cosmic lord of the Northern Frontier Alliance.

Within hundreds of billions of kilometers, it has become a black world, and the river is rolling in, rushing and boundless, revealing an amazing breath, crushing everything.

"Since you are here, don't leave." Wang Yi is not soft-hearted.

"Master of Chaotic Origin, I just passed by, please spare me, I am willing to offer my treasure."

For example, Venerable Bian An, who was stuck in the quagmire, found that he could not get rid of the surrounding black river space. He also understood that when he was in danger, he hurriedly asked for mercy and said: "You are the Lord of the universe and your status is noble. Why should I embarrass a weak person like me? Not nice."

"Oh? Offer the treasure?" Wang Yi paused in his voice.

Venerable Bian An showed expectation on his face.

He couldn't help it. The Master of Chaotic Source's domain was the strongest he had never seen before. He had a feeling that if he continued to struggle, he would have a terrible end.

If the Primordial Star still has a chance to leave through the whirlpool channel, but there is no island whirlpool channel to leave nearby, there may not be one of the ten islands that leave the channel, it is all luck.

"Although the loss of all the treasures in your body is heavy and you can't make up for the long years, it's better to survive than being resurrected by the Alliance, and that loss is even greater." Venerable Bian An knew in his heart that there were only two choices at the moment.

One was directly killed by the Lord of Chaotic Source, the people were gone, and the treasures were taken away.

The second is to beg for mercy... It is not shameful to beg for mercy from a master of the universe. Although the treasure will be robbed, you can live. It is better to be resurrected by the Alliance after you die. Not only will the treasure be gone, you will also have to bear more debts.

"It's really unlucky for me. With such a large space here, I actually encountered the Lord of the Universe, the Lord of Chaotic Source who has mastered extremely powerful domains..." Venerable Bian An regretted himself.

At this moment, in the distance of the black night river, a towering figure with the upper body like a human, but the lower body like a fish was attracted by the powerful waves.

Because the distance was too far away, he couldn't see the world of the dark night river, but he could feel it.

He is holding a huge blue trident, and thousands of silver braids hang down behind his scaly head. It is the "Lord of Yihun" of the Prison Clan Alliance.

"What a strong fluctuation."

Lord Yihun looked at the huge bulging fish eyes.

"Are there strong men at war?"

"Anyway, I haven't found anything now. Go there and check the situation."

...

And in the mighty, boundless black river, Wang Yi in a red armor leaped over.

"Providing the most precious treasure to get a chance to survive?" Wang Yi's expression was indifferent, and his eyes looked at the low-pitched Venerable Bian An through layers of time and space like a high god.

Although Venerable Bian An could not see through the black river realm and could not see the Lord of Chaotic Source himself in the distance, he lowered his head slightly, "Yes, I have three treasures, one of which is a realm-type treasure I just got, and I am willing to offer it. To the great Master of Chaotic Source."

Venerable Bian An was bleeding in his heart, but he had to do so.

He was also afraid of the low value of the treasure, and let the Lord of Chaotic Source attack him.

Since he dared to get involved in the fight, he would die in vain if he was killed by the Lord of the Universe in a place like the temple.

Here, there is no restriction that the Lord of the universe cannot kill low-level powerful people indiscriminately.

Whether to kill or not depends on the choice of the Lord of the Universe.

Venerable Bian An stood motionless in the black river, seeming to give up resistance, feeling uneasy.

The choice of the Lord of Chaotic Source is...

"A real treasure?"

Wang Yi smiled slightly.

"Don't be so troublesome, you are dead, all the treasures on your body are mine."

Venerable Bian An's face changed drastically, and he eagerly said, "Master of Chaotic Origin, if you are worried about my hiding treasures, I can let you search my world ring..."

"No need." Master Chaotic Source's indifferent voice came.

"boom!"

The Black River rioted, and the mighty power that filled it broke out around Venerable Bian An at this moment.

A vortex of a river formed, in the middle was Venerable Bian An, and the devastating force crushed Venerable Bian An.

"Oh no!"

Venerable Bian An felt that under the impact of the black river, his divine armor was crying, and every drop of river water was like terrible venom, eroding his divine body crazily.

Even though Venerable Bian An madly burned his divine body to resist, he still couldn't resist the impact of the river.

"What kind of territorial treasure is this, why is it so terrible?" Venerable Bian An was desperate.

In fact, he and the Lord of Chaotic Source are still separated by a long distance. Under this distance, they are completely crushed, without the slightest ability to resist, it is conceivable that this field is terrible.

"Master of Chaotic Source!" Venerable Bian An let out a sorrowful roar, fell, and was easily killed like an ant.

The divine body is completely annihilated, UU reading www.uukanshu.com His armor, weapons, treasures, and world rings are lying quietly in the river, drifting with the flow.

"Wow..." The river rushed toward Wang Yi with treasures.

"Only you are qualified to bargain with me." Wang Yi dismissed it.

"Well, there are indeed only three treasures in Venerable Bian An, but he did not lie." Wang Yi got the treasure left by Venerable Bian An's fall. Venerable Bian An did not have a clone, and the life imprint left on it after his fall was nothing. Will dissipate, and you can easily recognize the Lord.

After Wang Yi recognized the Lord, he threw all the treasures on the panel. Seeing that the number of treasures collected on it became "4/10", he was in a good mood.

"Um?"

Suddenly Wang Yi thought and looked in one direction.

Within the coverage of the space-time realm, another space-time realm was suddenly discovered.

[Chapter 507: "Lord of Yihun"](#)

"This breath of supernatural power... seems to be the Lord of Chaotic Source."

With the time and space contact, the Lord Yihun also saw the black river and felt the mighty power hidden by the black river, and the Lord Yihun was also secretly shocked.

"Black river?" Lord Yihun moved in his heart. "Isn't it said that the master of chaotic origin's domain-type treasure is the endless misty starlight? No, it is said that there are multiple clones of the master of chaotic source. My feeling is very strong, and it should not be weaker than other top-level domains. Is it possible that the Lord of Chaotic Source has two top-level domains? How could this be possible." The Lord of Yihun was also shocked by his own speculation.

Most of the top treasures used by the masters of the universe are mainly weapons and armors. The top domain treasures are still very rare. Like the top flying palace treasures and the top soul treasures, only a small part of the universe masters have them.

Every master of the universe who possesses such top treasures can be said to be uncomfortable.

But the Lord of Chaotic Source, a newly promoted Lord of the Universe, actually has two top-level domains.

Some of the long-established masters of the universe in the Human Alliance may not be able to have them, right?

"It's the Lord of Yihun." Wang Yi also noticed the flying over to the Prison Clan Alliance's Cosmos Lord. Seeing him alone and surrounded by the boundless ocean, he couldn't help but feel a bold idea.

"Master of Chaotic Source, you are here." The Lord of Yihun did not continue to approach, and the two sides spoke at a distance of hundreds of billions of kilometers. "It seems that you just killed a weak person, and I don't know how you got it."

"Huh?" Lord Yihun's expression changed.

"Boom..." The world changed color, the sky dimmed suddenly, and there was no light, endless black rivers were born out of thin air, and countless rivers instantly flooded the surrounding radius of 150 billion kilometers.

This time and space was completely occupied by Wang Yi's most treasured realm.

"Master of Chaotic Source! You!?" Master Yihun realized that something was wrong and yelled.

"Lord Yihun, since you have met, you can stay." Wang Yi's voice came faintly, but it was full of murderous intent.

"Lord of Chaotic Source, do you want to kill me?" Lord Yihun felt incredible.

Everyone is the master of the universe, and the strengths are not much different. Why do you think you can kill me?

"Lord Yihun, blame you for bad luck, meeting me here." Wang Yi's voice was faint.

At the same time, the power of the surrounding area suddenly strengthened.

"Master of Chaotic Source. Do you think that you can kill me with this top-level domain treasure?" The Master of Yihun was furious, and he felt that he was underestimated. "Even the Lord of the Ice Peak of the Hongmeng, dare not say that you can kill me, you are a new cosmos lord, but with the help of your supreme treasure, I will take note of today's affairs, and I will settle accounts with you in the future!"

The Lord of Yihun turned around and left. He didn't want to get entangled with the Lord of Chaotic Source. Although he said that he looked down on the Lord of Chaotic Source, he knew in his heart that the Lord of Chaotic Source was definitely not weak. He was the treasure of this top domain. I'm not sure, so it doesn't make sense to stay.

Wang Yi smiled when he saw Lord Yihun wanted to leave.

Top field category treasure?

"boom!"

Wang Yi's divine body burned, and at the same time the endless divine power urged the domain, urging its power to an incredible level.

"Boom boom boom..."

The black river that was already rushing instantly roared, smashing... the endless river condensed countless black water dragons, hideous in shape, exuding monstrous coercion, and the majestic and majestic lord of Yihun turned around and wanted to leave.

"This is..." Lord Yihun felt the pressure suddenly rising around him, and the infinite pressure made him, the Lord of the universe, feel heart palpitations. "The power of this field is too strong. This is not the top field treasure..." Lord Yihun widened his eyes, "This is the pinnacle treasure!"

"The Lord of the Human Chaotic Source actually has a peak field treasure!"

The Lord of Yihun roared out. "How is it possible! How can you have the peak domain treasure! How can your human alliance give you such a valuable treasure!"

The Lord of Yihun also has a realm-class treasure, but it is not even a high-level treasure. It was destroyed by the surrounding Heilong River just as soon as he was urged. The mighty river bound the Lord of Yihun with its endless power, even if he Burning divine power can't get rid of it.

Wang Yi has flown towards the lord of Yihun, but the two sides are separated by hundreds of billions of kilometers...Even if Wang Yi flies at the speed of light, it will take 10 hours to fly to the lord of Yihun, and this is also necessary. The Lord of Mud did not move.

The Lord of Yihun wanted to escape, but he was surrounded by infinite black rivers. His flying speed was much slower than Wang Yi's. The distance between the two sides kept shrinking. If this continued, it was only a matter of time before the Lord of Yihun was caught up.

The Lord of Yihun became anxious, "What should I do? The Lord of Chaotic Source is already stronger than me. He also has a peak domain type treasure, which can completely weaken my strength by one or two levels. Really fight, I am not his opponent at all. ."

The Lord of Yihun never dreamed that the Lord of Chaotic Source actually had a peak domain type treasure. You must know that this powerful treasure is generally held by the leader of the top universe such as the Lord of Chaos, or the strongest person in the universe. The Lord doesn't have it at all.

"Call for help? No! I'm in the temple, no one else can get in!"

"Leave through other whirlpool channels? But the whirlpool channel closest to me is trillions of kilometers away, waiting for me to drive there at the current speed, and has already been overtaken by the Lord of Chaotic Source. And even if I leave through the whirlpool channel, Just return to the hallway of the temple, the temple is still closed, unable to get out, there is still the danger of being chased by the Lord of Chaotic Source."

The Lord of Yihun kept thinking, only to find that he couldn't think of a way to get rid of the predicament in front of him.

I can't beat and beat, and I can't escape, and no one has come to help myself.

"Lord of Chaotic Origin! I have no grievances and no grudges against you, so why bother to me!" The Lord of Yihun gritted his teeth. "I am the master of the universe of the Northern Xinjiang Alliance. If you do this, are you not afraid to provoke a war between my Northern Xinjiang Alliance and your Hongmeng? I have already contacted the external avatars. If you continue to chase me, I will have you the pinnacle The news of the domain treasure is out, aren't you afraid of being targeted by the strongest in other universes?"

"If you are willing to let me go~www.mtlnovel.com~ I am willing to join hands with you in this capture of the treasure."

Lord Yihun saw the danger of falling, and in order to survive, he also tried every means.

"Lord Yihun, you don't need to talk nonsense. Since I did it today, I didn't intend to hide anything. You can accept your fate." Wang Yi was unmoved.

Lord Yihun doesn't have a clone, and if he falls, he really falls.

The Lord of Yihun is usually very careful, even if he enters the Primordial Star, he is cautious, avoiding those extremely powerful universe masters, the Primordial Star is so big, there are so many channels connected, and with the help of allies, the masters of the universe against the sky. It's not so easy to kill them.

Who knew that he would encounter the Lord of Chaotic Origin who possessed the peak domain category treasure, unable to ask for help, and was unlucky enough to stay away from all the passages.

So curiosity kills people.

[Chapter 508: Fish on the chopping board, a few dollars](#)

The mighty black river is surging between the heaven and the earth, and countless black dragons are spreading their teeth and claws.

The Lord of Yihun continued to flee quickly, delaying time as much as possible...At the same moment, his avatar in the primitive universe was quickly releasing news in a secret realm where all the powerful avatars of the Prison League gathered.

However, the Lord of Yihun also knew that no one could save him, so at this time he just wanted to make trouble for the Lord of Chaotic Source as much as possible.

The distance between Lord Yihun and Wang Yi is getting closer and closer.

The oppression of the "Black Night River" ordered the Lord of Yihun to be unable to escape at all. If there were no "Black Night River", the Lord of Yihun had escaped early.

This is the reason why domain treasures are so precious. If it is an advantage, it can trap the enemy. If you are weak, you can escape. It is easier to kill a large group of weak people.

"Die!" Wang Yi's eyes flashed fiercely, and he drew his saber.

The black quaint sword body of the Xeon Extreme Treasure sword suddenly lit up, and a powerful breath permeated like billions of stars. The extremely bright blade shredded the solid space inside the temple, crushing it. Lord of Yihun.

"The Lord of Chaotic Source!" Seeing that he was out of hope, the Lord of Yihun turned around, his braids were erected, his mouth was full of sharp teeth, and he screamed, agitated his divine power, and pierced his trident.

The blue trident seemed to pierce through the universe, rumbling... a wave of waves hit the towering existence on the opposite side like waves.

And Wang Yi has restored a divine body that is more than 90,000 kilometers high, and the sword in his hand has stretched for 100,000 kilometers. Black dragons formed by rivers are wrapped around it. The power of the treasure of the domain is blessed on the sword, making the sword more powerful. One floor.

On the contrary, the Lord of Yihun was greatly weakened under the suppression of the "Black Night River".

The light of the knife was dazzling like a blazing sun, and the eyes of Lord Yihun who stabbed him at a close range felt pain.

Both are the ultimate masters of the universe, but Wang Yi is ten thousand times the genetic level, and the lord of Yihun is only more than two thousand times.

One wants to kill, one wants to resist, both sides burn divine power, mighty power.

The sword came whizzing, time and space chaotic, easily avoiding the trident stabbed by the roar of the lord of Yihun, and the blade of the sword smashed directly into the chest of the lord of Yihun.

Without being blocked by the supreme weapon, all the power of Wang Yi's move hit the chest of the Lord of Yihun.

Peng!

The armor trembled, the Lord of Yihun's chest suddenly shook, and the divine body was faintly cracked, and at the same time, it quickly flew backwards without resistance.

Of course, before flying upside down, his trident finally pierced Wang Yi as expected.

Of course, Wang Yi didn't plan to block it either.

"Ding!" This thorn produced a very crisp sound.

Wang Yi was hit by this thorn, and the ultimate peak Arcana armor on his body immediately weakened the impact to one hundred thousandths. With the super huge divine body of higher purity and strength, he was almost unaffected, so he just gave a slight pause, tightly. Then continue to kill.

"The Xeon Supreme Treasure Sabre just urges the first layer of secret patterns, and with the assistance of "Black Night River", it is so powerful." Wang Yi was also a little excited.

The strength of Lord Yihun was originally inferior to Wang Yi, and now that one is declining, the gap is even greater.

Following the first collision, Lord Yihun, who was much shorter than Wang Yi's figure, turned into streamer and flew away at a terrifying speed.

The Lord of Yihun was completely blinded at this moment. The terrifying power carried by the knife just now made him shudder. He couldn't react soon enough. If he tried to stop him before, but now he is bound by the black river. His speed was obviously much slower, and it was inevitable that the war knife slashed in his chest, and the endless impact instantly raged on his top-level treasure armor, directly reaching the limit value of the top-level treasure armor, and the violent impact caused his huge divine body to tremble.

"It made my divine body annihilate 49% instantly?" Lord Yihun sensed the state of the divine body and almost didn't believe his eyes.

Who is he, Lord of the universe!

Moreover, the Lord who has stepped into the universe has endless years of existence. His divine body's life gene level is more than two thousand times. He is also wearing a top treasure armor, and his divine body is thousands of kilometers!

Looking at the vast universe...there are very few that can annihilate 49% of his divine body in one move, and all are the most terrifying existence in the universe.

"How could his attack be so strong!" Lord Yihun couldn't believe it. "Even if there is the Peak Domain Supreme Treasure, it is impossible to reach this point."

Wang Yi also felt that the lord of Yihun's divine body aura was greatly weakened.

Compared with Luo Feng in the original history, he also used the Xeon Arc to fight against the Lord of the Universe for the first time. Luo Feng is the Venerable, he is already the Lord of the Universe, his law perception is stronger than Luo Feng, and his divine body is a hundred times stronger!

However, Luo Feng played the second layer of secret patterns painstakingly studied by the Star Tower. Wang Yi's Xeon Treasure Sword was only available for the first time.

For Xeon Zhibao to exert enough power, it needs to study its mystery. If it fails to trigger perfectly, the power has not reached the limit that Xeon Zhibao should have.

But even so, his power is much greater than that of Luo Feng, and he also has the peak field-type paragon assistance, so even if the Lord of Yihun is stronger than the Lord of Shenhua, and the divine body is larger, he can still slash it away. Had a half-life of the Lord of the Universe, resulting in even more terrifying results than Luo Feng.

"Lord Yihun, today is your death date!" Wang Yi pounced with cold eyes.

The Lord of Yihun was cold all over. "How can the Lord of Chaotic Source have such a terrifying attack power, is he also a super treasure weapon in his hand?"

If the weapon resisted, Lord Yihun could hold on for a while.

But being bound by such a terrifying realm of the Black River, Lord Yihun's strength was suppressed too much.

Can't stop it at all!

The Lord of Yihun was terrified.

"Also, my attack hit him, and he didn't have anything to do with it."

It wasn't really unscathed, but the damage was so slight that it was almost imperceptible.

After all, Wang Yi is a divine body with a height of more than 90,000 kilometers~www.mtlnovel.com~ the figure is dozens of times taller, the size difference may be thousands of times, plus Wang Yi is tens of thousands of times the genetic level, and his divine power is several times more pure and strong. There is a 100,000 times weakening of the Supreme Supreme Treasure Armor...Combined, it creates this terrible defense. Even if it is replaced by injury, I am afraid that it will be difficult for the Lord of Yihun to stand there to consume such a huge divine body, and Wang Yi only needs two swords. Can make him hang up.

The higher the level difference between the masters of the universe, the greater the difference in strength.

"He annihilated 49% of my divine body with one slash, and with another slash, I'm done." Yi Hunzhi advocated. "Chaotic Source..."

boom!

The blade light came too fast, and the final voice of Lord Yihun was interrupted by the roar of the war knife slashing on the armor.

The Lord of Yihun had fear in his eyes, and the huge figure was quickly thrown away as a streamer uncontrollably, and the divine body was completely dissipated while still in the air, leaving only some treasures and other remaining items still flying at an astonishing speed.

The Lord of Yihun...fallen.

[Chapter 509: Wicked name](#)

Relying on the mystery pattern flow and the insight of the Tongtian Pagoda's secret patterns, the unique knowledge created by Wang Yi can be regarded as the first among the masters of the universe.

Plus Xeon Supreme, plus Peak Domain category Supreme.

Killing a peak level is not even considered a treasure, and a **** body is not considered a perverted master of the universe, it is just a matter of two swords.

"That is, the perception of the weapon's secret pattern is a little slow, or else the second step will be sent directly, and it will be done in one stroke." Wang Yi put away the sword and sighed while collecting the treasures left by the lord of Yihun.

Almost one hundred thousand years passed, unknowingly he had come to the point where he could kill the lord of the universe such as the butcher dog.

It smells so good!

Of course, it was also the reason why the strength of Lord Yihun was not strong and his treasure was average.

The genetic level is only more than two thousand times, the strongest secret method has not been created, and there is no top domain type, flying palace type, soul type treasure...It is indeed not powerful.

Like Wang Yi, his genetic level is ten thousand times perfect, he is a pinnacle treasure, and he has a Xeon treasure weapon. The secret method is also regarded as the first-class one among the masters of the universe... Killing the master of the ordinary universe like the Lord of Yihun is a bit difficult. nothing.

[Kill a master of the universe, reward 250,000 killing points.]

Wang Yi raised his eyebrows slightly.

Killing a top cosmic overlord will only cost 3000 kills.

Killing the lord of the universe is a killing value of 100,000 to 1 million.

Perhaps this is because in the primitive universe, the Lord of the universe could not be resurrected.

"A lot of money, 250,000 kill value, that is 25,000 points of the treasure. You can exchange several pieces of the peak treasure." Wang Yi couldn't help sighing.

But the Lord of the universe is not so easy to kill.

This time it was also in a special situation. The other party didn't expect Wang Yi to be so perverted, so he said.

Trapped in the temple, there is no way to ask for help. It is still the sea with unobstructed terrain. It is bound by the peak field treasure and cannot escape. Wang Yi is abruptly beaten to death.

It can be said that he died very aggrieved.

Otherwise, if you ask for help from the outside world, you will be able to survive until the rescue comes. It is not so easy to kill a universe lord.

And this is also this time the Primordial Star opens the first truly fallen universe lord.

You know, this prison clan's master of the universe does not have a clone, and he will fall forever and cannot be resurrected.

For those with clones on the panel, killing a clone can only get one-tenth of the killing value, and only by killing it completely can you get all the rewards!

And enslavement is considered to be completely annihilated.

In addition to the kill value message, there are other mission reminders.

[Kill 10 Lords of the Universe: 1/10]

[Kill 1 of the strongest in the universe: 0/1]

Wang Yi glanced at the task, then slapped his lips. It used to be a task that was as difficult as climbing to the sky, but it is no more than that now.

Afterwards, Wang Yi looked at the supreme treasures and world rings left by the lord of Yihun in front of him, carefully explored and found that the lord of Yihun had left behind a top-level supreme weapon trident, a top-level supreme armor, a common field-class treasure, and even a common one. Flying palace type treasure, high soul type treasure...

The harvest is full.

Without a clone, it is normal for the Lord of Yihun to bring all the treasures with him.

After all, once he fell, no matter how many treasures stayed, it would be useless.

"The Lord of Yihun has completely fallen, and the imprint of life on the treasure has disappeared, so I don't need to spend any time to break it." Wang Yi smiled slightly.

And in a world ring, there are still a lot of materials, heavy treasures, and some treasures, but the total value is not as good as one-tenth of the Lord of Yihun. There are very few treasures, they are all ordinary treasures, only five pieces. I don't know if the Lord of Yihun originally put it in the ring or got it from Primordial Star.

But it doesn't matter, it belongs to Wang Yi now.

Wang Yi is also welcome. The armor of the top treasure weapon and the treasure of the high soul class are left behind, and all the others are thrown on the panel.

[Currently collected treasures: 11/10, number of draws available: 0.]

[Do you want to redeem the number of lucky draws?]

Wang Yi licked his lips and chose "Yes".

The panel information changes.

The 10 treasures placed on the panel disappeared.

[Currently collected treasures: 1/10, number of draws available: 1.]

[Whether to draw a lottery?]

The original star number 09999 has not been signed in yet, so it can naturally be used to redeem the number of draws.

Wang Yi's expression immediately became serious.

Rubbing his hands and rubbing his face.

Very serious said:

"Yes."

...

The territory of the prison clan, the secret realm of the prison clan. The avatar that the Lord of Yihun stayed in the group when he encountered the Lord of Chaotic Source before, directly relied on the servant's divine kingdom to quickly reach the secret realm of the prison clan. When reaching the secret realm of the prison clan, he immediately connected to the "virtual space". "

The Lord of Yihun is the master of the universe of the Prison Clan Alliance. As the pinnacle group of human beings, the Prison Clan also has more than 30 cosmic masters in his alliance. The message of the Lord of Yihun immediately attracted great attention from the top.

Especially the Lord of Chaotic Origin of the Human Alliance actually possesses a peak domain type treasure...This also shocked many of the Lords of the universe of the Prison Alliance.

But after asking the Prison Clan Demon Ancestor, the Prison Clan Demon Ancestor said that he could not do anything. Even if he personally descended on Primordial Star, he would not be able to enter the temple. Naturally, he would not be able to save the Lord of Yihun. After discussion, they found the only one The solution is to put pressure on the human alliance! Or simply communicate with the other clones of the Lord of Chaotic Source from the outside world, threatening him, and let him give up the action of continuing to chase and kill the Lord of Yihun...

But the avatar of the Lord of Chaotic Source is hidden, and now I don't know which primordial star is on, even the prison clan can't find it for a while, so I can only find the Hongmeng.

Hongmeng did not directly express his position, but said to talk to the Lord of Chaotic Source. After all, this is the word of the prison clan. Who knows what is going on in the temple, what if the two sides are fighting for the treasure? Who is merciful is a fool.

What's more, this situation is also the master of the universe of the prison clan alliance, and the human alliance is not worried.

It took a lot of time to come and go, and the communication didn't result... The Lord of Yihun fell.

According to the message left by the Lord of Yihun, it fell in the hands of the Lord of Chaotic Origin!

The Prison Alliance is furious!

Human Hongmeng is also a big shock!

No one thought that there really was a master of the universe who fell into the hands of a new master of the universe who had been practicing for less than 100,000 years.

Incredible!

There is no airtight wall under the world~www.mtlnovel.com~ This shocking news spread quickly and was learned by other forces.

With the fall of a master of the universe, the forces of the entire universe are shaken.

The Lord of Chaotic Source, killed a Lord of the Universe!

This also caused the reputation of the Lord of Chaotic Source to spread throughout the universe, and even soon to the sea.

Countless powerhouses soon knew the terrible name of the Lord of the Great Alliance of Mankind and Chaotic Source.

...

And when the primitive universe was full of storms, the culprit who caused all this stood on the sea, staring deeply at the panel roulette in front of him.

The pointer above is happily set on the green area.

[Chapter 510: Prisoners](#)

The newly promoted master of the universe "Master of Chaotic Source" of the Great Alliance of Mankind killed a master of the universe with his own power in the frontal battle of Primordial Star, especially this "Master of Chaotic Source" has not yet been able to cultivate One hundred thousand years has shocked many people inexplicably.

And this shocking news spread all over the universe like the wind.

In a single universe owned by the machine race.

Countless glittering rays of light connect planets and stars... The entire universe is like a huge net, and countless glittering rays of light connect everywhere.

A voice resounded in every corner of the universe. "Unexpectedly, the Lord of Chaotic Source possesses this level of strength, and he can actually kill the Lord of Yihun head-on. Judging from the information collected, his strength is no longer inferior to the Lord of the Human Alliance Ice Peak and the Lord of Sins... Go down, order the Lord of the universe of our clan alliance, don't be careful when encountering the Lord of Chaotic Source, don't fight him easily. He has that pinnacle domain type treasure...Even if it's me, it's not easy to kill him, you just It's even more difficult. Some of you will be killed by him if you are not careful."

"Yes, Father God."

"Fortunately, it was not us who hit the gun head this time, it was the Lord of the Universe of the Prison Alliance who fell."

"The Lord of Chaotic Source hides so deeply and grows so fast. I made a mistake before and caused such a big trouble. I was too hesitant." The voice sighed faintly. "This Chaotic Source Lord has become a climate, and I don't know when it will grow to the level of Chaos City Lord. You pay close attention to the

movement of this Chaotic Source Lord, and if you have any important news, you will pass it back immediately."

"Yes."

The Zerg, Monster, Crystal, Star Giant Beast Alliance, Ancestral God Sect, Northern Xinjiang Alliance... and other parties were also shocked after learning about it, and carefully investigated relevant information.

The crystal clan who is an old enemy with the prison clan is even more gloating.

...

"Unreasonable! Human beings are really deceiving people too much!"

Prison Zushan.

One after another towering figures stood in the vast hall. These towering figures were either rock creatures with flames burning all over their bodies, or burly, hairy heads with no mouth, only one eye. Or... different creatures, some are flesh and blood, some are rocks, and some are metals.

This is the prisoner!

A very chaotic ethnic group, but each of them exudes endless evil aura, which is shared by the rising creatures of the prison clan.

"Yes, the Lord of Yihun is also a strong man in my prison clan alliance. Hongmeng kills when he says kill. If my prison clan let it go, what do other cosmic lords who vassal our clan think of, and other forces in the universe? ?"

"Then what should we do? Shall we also go to kill the Lord of the Universe in Hongmeng? Whom to kill?"

"In my opinion, immediately mobilize people to descend on Primordial Star and besieged and kill the Lord of Chaotic Source. First, you can save your face, and second, you can get the treasure of the Lord of Chaotic Source.

"It's easy to say that the Lord of Chaotic Source has peak domain treasures on him. It is so easy to kill. Moreover, when we make a big move, Hongmeng is not blind, and will not sit idly by, and will become us and Hongmeng. War."

A master of the universe from the Prison Clan Alliance gathered here and started to discuss, most of them were full of anger.

The death of Lord Yihun is not only a matter for him, but also the face of the entire alliance.

The fall of an important member of the forces, no matter what the reason, if left alone, it will only make people look down, and it will also affect the cohesion of the alliance.

"What are you doing so excited? The Lord of Yihun fell in the temple. Whatever the situation is, it is his own words. If he falls while competing with the Lord of Chaotic Source for the most precious treasure, it is also a normal thing. Why should we go? Revenge?" There are also different opinions from the Lord of the Universe.

"No matter what reason the Lord of Yihun fell, the most important thing now is how to deal with it. The entire universe is watching us. Are we just making people laugh at us?"

"I feel like revenge! Severe revenge! Use blood to deter other forces!"

"How to get revenge? Lord of the Devil, you tell me."

"Hmph, Lord Yongbi, you have been preventing us from revenge. Isn't it because the Lord Yihun offended you?"

"joke....."

...

When the main hall was disturbing and arguing, there was a towering evil figure on the throne above the main hall, and a pair of red eyes under the silver shell of the head looked down below.

This is the greatest existence of the Prison Clan, the Prison Clan Demon Ancestor.

"Magic Ancestor, I have an idea." A seductive voice sounded lightly in the hall.

The others calmed down and looked at a corner of the hall, looking at the tall human figure, with a vaguely female silhouette, long hair dancing like a purple flame, and the blood-colored eyes on the face of a monster. The eyes were full of endless charm, which made people Sinking forever.

"Hmm... Lord of Purple Nightmare, what do you think?" The Prison Clan Demon Ancestor said.

"The Demon Ancestor, the Lord of Chaotic Source killed a cosmic lord of our Prison Alliance. The forces of the entire universe are in our eyes. Of course we can't let it go." The Lord of Purple Nightmare smiled, and the endlessly charming voice made people heart-wrenching. Tickle, this is a terrible master of the universe.

"However, the Lord of Chaotic Source possesses a peak domain type treasure, and it is really hard to kill. Then we will choose someone close to him to start."

"Oh?" The Demon Ancestor raised his interest. In fact, he didn't pay much attention to the death of a cosmic lord of the Alliance. He was only a little annoyed by making his old opponent the crystal clan holy lord laugh. "You said, who should I choose? If the weight is too low, we won't be able to start."

The prison tribe is different from the three peak tribes of the Zerg tribe, the monster tribe, and the machine tribe. They are not adjacent to the human tribe, so they are not fierce in fighting. It is impossible to accuse the other party for not being merciful. This is not a life-and-death war between the races. The Prison Clan Alliance is just to save face, just to have a step down, not to fight humans.

Therefore, the method hasn't reached the point where it can be used in every way, and both sides are still very restrained.

It's like deliberately dealing with Wang Yi's family, joking, using this method will only completely anger a powerful and incomparable universe lord, a crazy cosmic lord coming over to retaliate unscrupulously, the Prison League will not do this, also No one wants to do this lightly.

The Lord of Purple Nightmare said with confidence: "I have a choice~www.mtlnovel.com~ that is the teacher of the Lord of Chaotic Origin, the Lord of Star Prison. He is now on the Primordial Star. We will arrange it carefully and definitely have a chance. Kill."

Discussions arose in the hall.

"The Lord of the Star Prison? Isn't it the former top cosmic hegemon of mankind, the Demon Lord of the Star Prison?"

"I think it's okay. The Lord of Star Prison has only broken through for a few years, so he won't be as against the sky as the Lord of Chaotic Origin, right?"

The Prison Clan Demon Ancestor thought for a while and nodded. "The proposal of the Lord of Purple Nightmare is good. Then, let's hunt down the Lord of the Star Prison. The Lord of the Star Prison has a clone, but killing one clone is not a true fall, and the human alliance will not be with us because of this. Rip your skin."

Others heard that the Prison Clan Demon Lord said so and had no objection anymore. This kind of revenge was not bad, and it was a revenge against the Lord of Chaotic Source. It also promoted the strength of the Prison Clan Alliance and confined the fight to the Primitive Star. It's hard to find faults in the human alliance, and everyone thinks it's good.
