

A God 521

[Chapter 521: The calculations of the Prison Alliance failed](#)

The four cosmic masters of the Prison Clan Alliance looked at the crystal palace that was constantly moving out of the jade bottle with suction, and they were all helpless.

Their attacks are strong, but material attacks have little effect on this top palace treasure, and the impact is weakened by ninety-nine percent, and the palace can resist the forward rush.

Soul attack?

The power is indeed greater, but it is a virtual divine power, there is no real impact at all, and it can't pull this kind of palace.

"Big, big, big..." The dark eyes of the lord of the star prison in the palace flashed crazily, burning the divine body, and the breath soared wildly. The crystal palace also continued to grow, and soon expanded to hundreds of thousands of kilometers in height. The surrounding space kept buzzing and trembling, but the palace remained still.

Although the master of the canthus demon's control of the jade bottle is indeed stronger, the master of the star prison may not be able to support it after such a consumption, but it will have to wait until then.

"This is not the highest flying palace treasure at all, this is the top flying palace treasure." After a moment of silence, the Lord of the Master Yuan said angrily.

The Lord of Zhimeng and Lord of the Kalachakra were not very pretty.

Seeing that the "Master of Star Prison" of mankind has been caught, the net is about to be closed. Who knows that the other newcomer of the universe has not only top domain treasures, but also weapons and armors, as well as flying palaces!

How could this be an ordinary and weak newcomer of the Lord of the Universe, even if the old and peak-level Lord of the Universe is not good enough?

When did the human race become so rich, so many powerful treasures suddenly appeared, even the newcomers, the Lord of the Chaotic Source and the Lord of the Star Prison, were equipped with a suit, making them jealous.

If they knew that the Lord of the Star Prison hiding there and the top soul treasures, they would not have used soul attacks to deal with the Lord of the Star Prison just now, and they would be wasting their efforts.

How to do?

The Lord of Support, the Lord of Yuanzai, and the Lord of the Kalachakra look to the Lord of the Canthus. Among them, the Lord of the Canthus has the strongest strength and the highest status, similar to the human-like Lord of Penggong, although he is famous It's not as good as Chaos City Lord, Nine Nether Lords, and Galaxy Lords, the top masters of the universe. They may also be slightly inferior in strength, but they are truly at the same level.

Even he had no choice but to take the "Master of Star Prison", let alone other people.

The white faces on the majestic body of the Lord of Canthus were all wrinkled, and looking at the jade bottle and the four masters of the universe attacking the Crystal Palace that was still flying outwards, I felt a little headache.

A master of the universe hiding in the treasure of the top flying palace, how can this be killed?

Not to mention him, even if the strongest person in the universe comes in person, I am afraid that he will not be able to do it for a while.

"Let me report to the Demon Ancestor first," said the Lord of the Canthus Demon.

Human Hongmeng's counterattack will soon arrive, he doesn't know whether he should continue to do it, or let the real master of the prison clan, the demon ancestor, decide.

...

Prison Zushan.

Sitting aloft on the throne was a figure that was a silvery and black evil figure. This evil figure resembled a human form as a whole, with a long, scorpion-tailed sharp tail. The tail extended, even encircling half of the hall.

Under the silver carapace, a pair of red eyes looked down.

Below, the Lord of Purple Nightmare with purple flames with long hair like fluffy feathers leaned back and bowed his head respectfully.

"Top flying palace treasure?" The Prison Clan Demon Ancestor murmured.

"Before the Lord of Chaotic Source had a peak domain type treasure, which is surprising enough. This star prison actually has a top flying palace type treasure." The Prison Clan Demon Ancestor laughed hoarsely. "This human race is really hidden, which is surprising."

"Let the lord of the canthus demon come back, and let the lord of the lion who are acting on other primitive stars come back." The Prison Clan Demon Ancestor said. "There are top flying palace treasures. Even if I do it myself, I won't be able to kill the Lord of the Star Prison for a while, and the human race still has that great axe, great axe, but an incredible fellow."

Although the demon ancestor did not know the true strength of the creator of the giant axe, he also faintly felt it, knowing that the giant axe was terrifying.

"Yes, Demon Ancestor." The Lord of Purple Nightmare said respectfully.

At the same time the order was communicated quickly.

...

The primordial star numbered 02271, with endless black waves covering the entire planet, the four masters of the infernal universe, including the Lord of Canthus, received instructions from the rear and looked at each other.

They were not too surprised by this order.

After all, it is too difficult to kill the Master of the Star Territory in this situation, and the Human Alliance is not a vegetarian. If you stay longer, you still don't know what will happen.

"There has been an order from the clan, let us stop and leave immediately." The Lord of the Canthus Demon said.

"Fortunately for the Lord of Star Prison, he actually has a top flying palace treasure."

"Let's go, it will be a little troublesome when other strong people in the human race arrive."

Although a little unwilling, they can only choose to give up.

As soon as the Canthus Lord stretched out his hand, the tall and simple jade bottle in the sky was immediately reduced to the naked eye, and then the Canthus Lord put it away.

Then the four strong prisoners turned and turned into streamers, and flew towards a passage not far away.

The big fanfare of the Prison Clan Alliance was a complete failure.

But it also exposes the powerful strength of the human race to the sight of all parties in the universe.

For example, the lord of the human race and the universe has so many precious treasures, which has also led to many speculations whether the human race got a big treasure somewhere, or explored what mysterious area of the universe sea.

Another primordial star, the mighty Thousand Treasure River, is overflowing. The top domain category treasure is indeed very strong, and the coverage area can reach "light years" as a unit, covering the entire primordial star is easy.

But now the Chaos City Lord's "Thousand Treasure River" on this primitive star only occupies more than half, and the other half is shrouded by thunder and lightning flying all over the sky.

In the thunder and lightning, there is a towering magical shadow, revealing a pair of scary red blood pupils, and there are images of the universe bursting up and down in the pupils.

The towering existence said: "Everyone knows that you have three clones of Chaos City Lord. The strongest is naturally fighting and fighting in the universe. Even in the original universe, you are wearing a thousand treasures and holding a gem stick. No matter which one is in the original universe. , Are extremely powerful among the Lords of the Universe!"

"The Lord of Blood, even you want to stop me!" The towering figure of the City Lord of Chaos ~ www.mtlnovel.com~ walking along the waves of the Thousand Treasure River, holding a huge stone stick, The sound rumbling, shocking people.

The Lord of Bloodshed smiled and said: "Of course I am not your opponent, Chaos City Lord, even if I am not as strong as you in controlling the domain treasure, but here, I can stop you for a while, unless you don't pass here."

"Huh!" The City Lord of Chaos snorted coldly. He chose to come here because it was the closest to the original star of the Lord of Star Prison. If it took a detour, it would take longer.

The Lord of Bloodfall is right, he will not directly fight against the Chaos City Lord, and there is no need, as long as he delays the Chaos City Lord's speed for a while, it will be considered a success.

The battle power of the Lord of Blood is far inferior to the City Lord of Chaos, but the methods are very strange and difficult. This area of hundreds of millions of kilometers has been firmly controlled by him.

"Huh?" The bloodlord suddenly changed his face and looked at the Chaos City Master in the distance.

City Lord Chaos also received some news, with a smile on his face.

"Haha, it seems that your prisoners' calculations have failed..."

[Chapter 522: The Lord of Hunyuan](#)

Virtual universe, Thunder Island.

When the Prison League launched the attack, Wang Yi's four divine bodies had already rushed to the Primordial Star where the Star Prison was located.

However, it ended too soon.

The Prison Clan Alliance could not do anything about it, and immediately withdrew, without giving the Human Alliance a chance to go wild.

When the Lord of the universe of the prison clan left, the Lord of the universe of mankind also got news, and after asking the Lord of the Star Prison, he didn't go there anymore.

Now human beings are not at a disadvantage, and they don't want to make matters worse, so they bear with it for the time being. I just remembered this account, and sooner or later I had to settle with the prisoners.

On the top of Thunder Island Mountain, with a series of vast palaces and a quiet pavilion, Wang Yi is with the Lord of Star Prison.

"If it wasn't for the treasure you gave me this time, maybe my clone would really fall." The lord of the star inferno, sitting on the cobblestone table in a golden silk robe, said with emotion, "the prisoner alliance's The four masters of the universe, except for the master of the canthus, are all at the peak level. Under normal circumstances, I cannot match any of them. If you don't escape, you can only fall in a deadly battle. Especially the master of the canthus is a top-notch universe. Lord, it's terrifying, and the power of attack can make me fall."

There is also a gap between the Lord of the Universe and the Lord of the Universe.

It is very difficult to kill because it is only one level short.

But compared with the Lord of the Star Prison, and the Lord of the Universe standing at the pinnacle of the universe like the Lord of the Canthus, the gap is like a top cosmic overlord and an ordinary cosmic venerable who can be killed with one move.

Looking at the Lord of Star Prison, Wang Yi sighed inwardly that the teacher was still implicated by himself this time.

But the Lord of Star Prison did not blame Wang Yi.

None of the high-ranking people of the human race felt that Wang Yi was doing something wrong.

Actually, Wang Yi didn't feel that he was wrong to kill the Lord of Yihun, but he felt a little guilty that he was implicated in the teacher.

The Lord of Star Prison comforted Wang Yi instead.

"Haha, there is such a peerless apprentice who can kill the lord of the universe with one breakthrough, make the universe famous, and frighten hundreds of millions of ethnic groups. How happy and proud I am Pang Bo!"

"If you are worried about retaliation, don't do it, it will be too weak and not like my apprentice."

Wang Yi was moved in his heart, and at the same time, he secretly made up his mind to find a better treasure for the teacher in the future, and even make other human masters of the universe stronger.

As for the Prison Clan Alliance, Wang Yi also remembered that sooner or later he would settle accounts with them.

"My fourth trick, the ultimate skill is being created, waiting for me to create it..." A cold light flashed in Wang Yi's eyes.

...

The primordial universe vibrates.

The Prison Clan Alliance made a big fight, and designed the "Master of Star Prison" on the Primordial Star to attack and kill the human race. The master of the siege of the Star Prison alone sent out a total of four universe masters, each of whom was not weaker than Emperor Yan, and even The extremely high status of the "Lord of Canthus Demon" ended up with no success. This result also shocked countless forces in the universe.

Following the "Lord of Chaotic Source", the name of "Lord of Star Prison" has also been extolled among hundreds of millions of ethnic powerhouses. Everyone knows that although "Lord of Star Prison" is the Lord of the universe who has just broken through, but There are many powerful treasures in his body. Not only can he fight some peak-level masters of the universe, but also save his life in front of the top universe masters such as the "Master of Canthus".

And many new top treasures appeared one after another in the Lord of the Primordial Human Universe, which surprised the other forces and guessed whether the human race has become so rich all of a sudden, whether there is a big treasure that can be used to make the "Master of Chaotic Source", The "Master of Star Prison", the masters of the universe who have just broken through, can use so many precious treasures.

There are also some who are greedy for the supremacy of the lord of the universe of the human race, but even the weakest lord of the star **** can sustain for so long under the siege of a group of lords of

the universe, let alone the other powerful lords of the universe, although their hearts are moving, but But no cosmic master really has the idea to continue to fight the human cosmic master. After all, the human race is not easy to provoke. Of course, encountering each other's assassins in the fight for the treasure is another matter.

This time the turmoil has passed, and the lord of the star prison can be regarded as a limelight, and he is very famous in the circle of the lord of the universe, and he often proudly brags with other known universe lords.

Time flies, and the years are like songs. More than ten years have passed.

In a blink of an eye, it has been nearly 30 years since Wang Yi came to Primordial Star.

Of course, this little time is just fleeting for the Lord of the universe.

On the primordial star, the boundless wasteland, Wang Yi's human deity transformed into a normal figure and was flying.

Primordial Star was extremely calm when the treasure was not present, and there was no wave of peace.

Wang Yi looked at his panel.

[Currently collected treasures: 9/10, number of draws available: 0.]

After coming out of the temple, with the help of Hongmeng, Wang Yi received three more treasures.

A few hundred years before the primordial star opened, the treasure was born with a higher frequency, and the farther behind, the lower the probability of the treasure appearing, and of course, the rarer it is.

Like some of the strongest peak treasures, almost all appeared in the later stages.

At that time, the fight was fierce.

"As long as you can't kill and snatch, the efficiency of collecting the most precious treasures is still too low..." Wang Yi sighed inwardly.

There are many cosmic overlords and cosmic venerables on the Primordial Star. If you let go of killing, you might get hundreds of treasures at once.

But no one dared to do this, it would offend the anger of the people and offend all the forces in the universe.

Historically, it is not that the Lord of the lonely universe descends on a primordial star, displays the space-time realm, instantly destroys all the cosmic elders, and obtains a large number of supreme treasures.

But before he left, he was surrounded by a group of angry universe masters, bombarded and killed.

If you dare to do this, unless you are the strongest in the universe, you will undoubtedly die.

However, how noble is the strongest in the universe, how can he surrender his status to do this kind of thing, for some treasures, offend the forces of the entire primitive universe, and there is a group of strongest in the universe behind.

"Huh?" A towering figure flew over in the distance.

It's a woman who looks like a purple translucent crystal, but has a flawless appearance. Her eyes are as beautiful as stars, with a little bit of star shining around.

"Is the Lord of Chaotic Source in front?" she shouted enthusiastically.

"You are... the lord of amethyst~www.mtlnovel.com~ Wang Yi also recognizes the lord of the universe.

This is the master of the universe of the "Snow Palace Alliance", one of the top twelve powers.

The twelve top powers are an alliance second only to the nine superpowers in the universe, and they are also relatively loose, just to survive and stay together to keep warm.

They don't have the strongest in the universe, so as soon as the inner universe overlord falls, they have to invite other strongest forces or the strongest in the single universe to resurrect, which is a disadvantage.

The relationship between the twelve top forces and the human race is neither good nor bad.

It is also a private matter for their cosmic lord to make friends with the cosmic lords of other forces, and the alliance can't control it.

So there is such a situation in the universe that often one universe master knows two universe masters, and the relationship is deep, but those two universe masters may be mortal enemies.

After Wang Yi showed his potential, especially after the spread of the terrifying ability of the master of the top universe as soon as he broke through, many people commented that the Lord of Chaotic Source is the next Lord of Chaos, so there are indeed many Lords of the universe who intend to make friends with him. .

This is the reality in the universe, everything depends on strength.

[Chapter 523: "Beasthead Ship"](#)

Primordial Star starts its forty-first year.

"Boom..."

An extremely powerful coercion suddenly came, suppressing everything.

A towering figure walked out of the whirlpool passage.

He has a silver-white exquisite battle armor, only revealing a pair of coercive silver eyes, a pair of silver wings spread out behind his back, and a simple war knife on his back, just standing there, like the incarnation of the law, the center of the universe, invisible and cold. The suffocating aura filled the hearts of Venerable Universe.

"Master of Chaotic Source."

"Lord of the Green East."

The two masters of the human universe meet.

The Lord of the Blue East wears a cyan battle armor and a cyan cloak. The complex secret patterns on the cloak form a beautiful alien beast pattern. The alien beast picture does not belong to any of the eight beast gods, but depends on the temperament. On the other hand, it is also milder.

"This treasure happened to be born in the original star where I was, so I took it, haha, those little guys have opinions on me." The Lord of Qingdong laughed.

There is only one master of the universe on this primordial star. In fact, there is usually only one master of the universe on a primordial star. Only when the precious treasure appears in this world will multiple masters of the universe come to compete.

Obviously, an ordinary treasure, the other cosmos lord, didn't bother to come. The Qingdong's lord took it easily, and other nearby cosmic lords could only stare at it but didn't dare to move.

"Thank you, then I will take it away." Wang Yi's clone of the Void Zerg said with a smile.

Because of Wang Yi's entrustment, the Lord of the Universe of the Human Alliance is quite positive about this. It is naturally very simple to fight for the strength of the Lord of the Universe. If it is the overlord of the universe, there may be some twists and turns.

After all, the primordial stars are mixed with dragons and fish, and they are not the only one of human beings.

"Hunyuan, with your strength, this ordinary treasure should be useless for you." The Lord of Qingdong asked curiously.

"Tongtian Tower's mission." Wang Yi said.

"Oh..." The Lord of Qingdong thought thoughtfully.

Although Wang Yi didn't say it clearly, the human race also had speculations about it.

As long as it is beneficial to the human race, of course they will strongly support it.

Why not have a good relationship with Wang Yi.

"Then I'll go first, and I will find the treasure in the future, so call me." Wang Yi opened his wings and turned into streamers and flew away.

Primitive stars cannot teleport, which is really troublesome. Even the Lord of the universe can only fly close to the speed of light.

The human confederate cosmos lord's behavior to compete for ordinary treasures was also discovered by various forces, but although they were uncertain about this, they did not directly interfere. After all, some ordinary treasures do not need to compete with humans. If it is a high treasure, the top treasure is Not necessarily anymore.

The lord of the universe of the human race is now very poor. It can be said that they are "heavy in debt."

And help the Lord of Chaotic Source to get the treasure. Their contribution value is more, so they are also willing to act.

It's just that there are too many primordial stars, too few masters of the Hongmeng universe, and some of the most treasures are born. They arrived late and were taken away by other forces, but overall they were better than Wang Yi's clones fighting alone.

Shortly after.

The human deity of Wang Yi wearing a red armor is sitting on the peak of a primitive star mountain. The wind blows his long hair. His dark and deep eyes seem to contain an infinite world, unpredictable.

"Finally collected ten more."

[Currently collected treasures: 10/10, number of draws available: 0.]

"Let's go to the lottery." Wang Yi's planet has not signed in yet, so it complies with the lottery rules.

The original stars that have been signed in cannot be drawn.

The roulette appeared again.

"Laughter draw." After two draws, all the top prizes were drawn, and Wang Yi didn't have much expectation in his heart.

A white roulette appeared in Wang Yi's line of sight. It was divided into three areas. The most area was green, a small area was blue, and the one with only one thin line was almost invisible.

The size of this area is also related to probability, and the green area with 79% probability is the largest, accounting for 80% of the area, followed by the blue area with 20% probability, and finally the very subtle purple area with 1% probability, which is in the green area. And a line in the middle of the blue area.

They represent the top treasure with 79% probability, the peak treasure with 20% probability, and the Xeon treasure with 1% probability.

The needle began to rotate and became blurred.

Wang Yi looked at him blankly.

After spinning for about 10 seconds, the needle slowly stopped, slowly crossing the green area, and then moving towards the purple area like a snail crawling... Under Wang Yi's gaze, it steadily crossed the purple area and moved to blue. Color area.

Finally stopped.

"..."

Wang Yi took a deep breath.

【Ding! Congratulations, get a piece of blue equipment! 】

Wang Yi comforted himself, as long as there is no green, blue is also good, the highest treasure.

There is an extra blue gift box on the panel, and you have to disassemble it yourself.

Wang Yi's thoughts moved, the gift box popped open, beautiful music came, and brilliant fireworks and fireworks bloomed. Wang Yi didn't know what the panel was so fancy.

On the panel, there is an extra black ship, the bow of which is actually a beast, like a lion head with an open mouth, hideous and majestic.

"It looks like a flying palace treasure." Wang Yi finally showed a smile on his face.

Wang Yi recognized this treasure as the master and got the information. It is indeed a peak flying palace type treasure. The name is "Beasthead Ship". It has defense, flight, resistance to attacks, protects the soul, suppresses, and has powerful attack capabilities... Said to be the best in the flying palace category.

The appraisal price of the panel is 48,000 Zhibao points, which is almost half the price of a Xeon Zhibao.

The result of this lottery is quite satisfactory to Wang Yi~www.mtlnovel.com~ Although Xeon Zhibao was not drawn out, the Xeon Zhibao originally had a 1% chance, which is very low and very low. Life.

Wang Yi secretly said in his heart: "My four divine bodies all have palace treasures. This "beasthead ship" has great power and can be left to the teacher."

Wang Yi has two teachers. One is the "Med" who is far away. To him, Wang Yi doesn't feel much. It is too far away. Only when he stands on the top of Origin Continent, maybe he will be able to see this cheap teacher again.

The other one is the "Lord of Star Prison", and he is also the one with his closest feelings.

Wang Yi only lived for a few decades, and he worshipped the Star Prison as his teacher, and has continued to this day.

For so many years, Wang Yi's character makes him feel emotional, let alone people.

Although Star Prison's character is a bit dark-bellied, carefree, and ostentatious, he still has an appetite for Wang Yi.

If there are, it is the Lord of Chaos City, but the Lord of Chaos City is more like the patriarch of a big family, and he doesn't feel as close to Wang Yi as the Star Prison.

After all, City Lord Chaos hadn't touched his head.

[Chapter 524: "Jian He Luo"](#)

More than a hundred years after the original star opened.

Over the years, Wang Yi, who has been idle on Primitive Star, occasionally pays attention to Luo Feng.

After breaking through to immortality, Luo Feng went to the territory of the Yan God Race, and the news was leaked, and then he was chased and killed by several cosmic overlords who coveted him.

Luo Feng's "domain" and the avatar of the Demon Killer clan were subsequently exposed.

After returning from the Yan God Clan, Luo Feng fell silent again, seeming to be practicing.

Of course, even if he enters the Primordial Star, he will not make a big fanfare, but sneak in with a clone to change his face, and cross the sea without telling the truth.

The human body was still left in the Qianbaohe Palace in the primitive secret realm.

However, this also made the venerables who once wanted to borrow the treasures quite criticized.

Since you don't enter the Primordial Star, you still find an excuse not to borrow our treasure, is it necessary?

However, these were only discussed in private, and they did not reach Luo Feng's ears.

After all, there is a precedent for the "Master of Chaotic Origin." Luo Feng is also very enchanting. He is also a tribe from the hometown of the Master of Chaotic Origin. Who knows if he will be the next master of the universe in the human race. If not, Luo Feng only needs to break through the Lord. , Becoming the overlord of the universe is very easy, there is no need to offend Luo Feng for this.

And in Luo Feng's peaceful 100-odd years, Primordial Star also had twelve large-scale blood battles because of the birth of the treasure.

In these twelve large-scale blood battles, hundreds of cosmic lords have fallen, and more than twenty cosmic overlords have fallen, but all the cosmic masters are intact.

Of course, the major forces in the universe are extremely excited about fighting each other. Because the treasures are more precious, they will send more powerful people to compete at any cost.

In the twelve large-scale **** battles, Wang Yi personally participated in five times!

After all, he has many clones, four great divine bodies, except for the hidden Yanxing giant beast clone, there are three big divine bodies appearing!

What's more, chasing the treasure is actually second, the most important thing is killing!

Five battles have also allowed the universe to truly see the power of the "Master of Chaotic Source"!

The lord of the other universes have been vigilant, and coupled with the numerous lords of the original star universe, there is no record of the birth of Wang Yi and the killing of the lord of the universe.

"Five battles, the human deity did it once, Youhai's new clone did it once, and the Void Zerg clone did it three times...but only once, it was only a high-level treasure." Wang Yi said with emotion.

Although each of Wang Yi's divine bodies has the strongest treasures, they can only urge the first form, and the second is not that simple.

Insufficient power, even if you add a pinnacle treasure, it is only vaguely stronger than the master of the fourth-order ordinary top universe.

If it can urge the second stage, it is estimated to be comparable to the lord of the fifth-order universe such as Chaos City Lord.

But the Yanxing Giant Beast clone, a strongest treasure, is considered to be the sixth rank.

However, in order to compete for a few treasures, the strength of Tier 6 was exposed... This is not necessary for the time being. A Tier 6 master of the heaven-defying universe appeared in the original universe, and the impact was too great. Wang Yi had to wait for the opportunity. It is not yet. when.

Even if he is exposed, he cannot use his identity as a human chaotic source.

"Ordinary treasures, the Lord of the universe doesn't care, high-level treasures are beginning to be rare, and top-level treasures can fight for this." Thinking of those fierce battles, Wang Yi shook his head.

"However, although I didn't grab a few pieces of the treasures that were born, I used this to kill other cosmic overlords, get some treasures, and signed in twice." Wang Yi secretly said, "Unfortunately, they are all top treasures."

The "Beasthead Ship" Wang Yi has given it to the teacher, "The Lord of the Star Prison", and the "Master of the Star Prison" has a clone. The original top flying palace treasure has not been returned, and Wang Yi will not want it.

With the Supreme Flying Palace Supreme Treasure, even if the strongest in the universe wants to kill the "Master of Star Prison", it will be very difficult.

"There is also the 'Jianhe Luo', even though I was born, I haven't grabbed it." Wang Yi said with emotion.

Jianheluo... it can be called the most dazzling treasure of the original star in more than a hundred years!

At that time, a huge mausoleum emerged from the ground. It was the mausoleum of swords—the sword grave!

There is an ancient stone stele in the Jian Tomb. The stele records... There are a large number of precious and magical swords in the Jian Tomb, and there are even a few ordinary treasures, as well as the most precious-Jian He Luo component!

Jianheluo consists of two parts: a compass and a nine-handed sword.

The nine-handed divine sword is fused in the compass, once driven and displayed, it can be turned into an endless river of swords, powerful and powerful. Once the nine swords become one.

The superposition of power... is even more incredible.

It is not only the top treasure of the field category, but also comparable to the top treasure in attack.

A single compass is already an ordinary treasure in the field!

When a divine sword is integrated into it, its power can be increased. As the more divine swords are integrated...the stronger the power, until the nine swords... are completely integrated, the most perfect state can be reached.

Such a super treasure, the compass where the Sword Tomb was born only carried a black magic sword, and none of the other eight magic swords.

At that time, when a group of masters of the universe gathered, both of Wang Yi's divine bodies arrived, and there were even other strong men from the Hongmeng present.

They joined forces for a fierce battle, but still there was no snatch.

After all, there are too many masters of the universe, and Wang Yi's pinnacle domain type treasures are not invincible. Other masters of the universe also have them.

Although Wang Yi's two divine bodies used two Xeon supreme weapons, their power was still limited, and the supreme treasure was almost missed.

It was taken away by the Northern Xinjiang Alliance, the largest number of people.

Wang Yi can be regarded as having seen what a multitude of people is. Among the masters of the universe, the masters of the universe of the Northern Frontier Alliance accounted for one-third, and there are many of them at the peak and top levels.

Snatching the treasure is not only strong, but the means and the number are also very important.

If there is no absolute strength and is stopped, one can only watch the treasure being taken away.

At that time, there were too many masters of the universe from all sides, and Wang Yi couldn't kill them, but he also severely injured several masters of the universe, and made all parties realize the terribleness of the Lord of Chaotic Source.

There is not only one divine body, each of his divine bodies is very powerful.

This also made all parties very jealous of the Lord of Chaotic Source, and was also one of the key targets in the competition.

Two masters of the universe at the pinnacle level, or a master of the top intricate universe, would be able to stop Wang Yi.

The other party didn't fight hard, just struggled to contain it, and Wang Yi had nothing to do.

Perhaps the humans and the Beiji Alliance fought too hard, but in the end the most important part of "Jianheluo" was taken away by a cosmic lord of the Assassin Alliance~www.mtlnovel.com~ The Beiji Alliance was considered to have lost his wife. The soldiers broke down again, but the treasure was not snatched, and the two masters of the universe were seriously injured by Wang Yi, which suffered a lot.

The Xeon Supreme Treasure in the first form is still extremely terrifying.

Rumors have begun to spread among the Lords of the Universe that the Lord of the Chaotic Source possesses a powerful supreme weapon, but no one guesses that Wang Yi has a supreme supreme weapon. After all, even the strongest man in the human race, the Great Axe, is not yet supreme. Zhibao, Wang Yi, a new master of the universe, how could it be possible.

The Xeon Supreme Treasure is so precious and rare.

These masters of the universe never thought that someone could "wholesale" the Xeon Supreme.

Wang Yi doesn't care much about "Jianheluo", a top-level domain-like treasure, which is comparable to the peak treasure. After all, he is much better than "Jianheluo".

Wang Yi stood up and clapped his hands.

"Forget the time, Luo Feng has returned from the Yan God Clan, he should have already obtained the 'Jia Jia', and is about to enter the Primal Star."

[Chapter 525: Luo who got into the original star battlefield](#)

As Wang Yi had expected, Luo Feng is now on the Primordial Star.

A certain original star.

Without knowing it, he transformed into the two powerhouses of the Star Giant Beast Alliance (Devil Killer Clone, Golden Horn Giant Beast, Youhai Clone staying in the Demon Killer Clone World Ring), and descended somewhere on the Primordial Star.

"Luo Feng, I finally set foot on Primal Star." Getting the 'Jia Jia' also gave Luo Feng some confidence.

Luo Feng at this time is still immortal. He did not have the ultimate master of the universe, and he did not get the fourth piece of the Nine Tribulations. Except for the clone of Youhai, the golden horn behemoth and the human body have not reached the tens of thousands of times the genetic level, energy life. The clone of the Demon Killer clan is only a 'hundredfold genetic level'.

Without "Jia Jia", Luo Feng's strength in Primordial Star can be said to be just average. After all, in Primordial Star activities, he is either a high-ranking leader in a team or a lone cosmic overlord. Luo Feng does not have much advantage, plus one. The Supreme Treasure is also stronger than the ordinary high-level cosmic venerables, and the attack power is not strong. The real advantage is that the 'divine body is huge', and the defensive power is strong, and other cosmic hegemonies can't consume him at all.

...

"Huh? A treasure is born?" The red armor figure flying on a piece of sea slightly raised his head, recognized the surroundings, and then flew in one direction.

Shortly after.

"Snatched away by the two powerhouses of the Star Giant Beast Alliance?"

Wang Yi raised his brow slightly.

It sounds a bit familiar.

"Couldn't it be Jian Heluo's divine sword that Luo Feng obtained."

The "Jianheluo" that was born not long ago has a perfect form consisting of two parts: a compass and a nine-handed divine sword.

A single compass is just an ordinary treasure in the field!

Only when other divine swords merge into it can its power increase. As more divine swords merge...the stronger the power, until the nine swords...completely merge, can it reach the most perfect state.

The single component of "Jianheluo" is also a common treasure. It is randomly born in each primordial star. If you don't pay attention, it is easy to ignore.

"If it is true that the 'Jianheluo' part was obtained by Luo Feng, it would be a bit interesting." Wang Yi laughed.

The supreme treasures on the Primordial Star that have already recognized the Lord are useless to Wang Yi, unless they are robbed by the slaughter, which is why Wang Yi himself has to personally recognize the Lord when fighting for the supreme treasure.

Many methods are considered 'violations' by the panel, but there are also some tricky methods that the panel ignores.

"The original star from which the Excalibur was born...well, it's not too far away from me. My **** is embodied in rushing to join in the fun. It should be too late."

...

In the virtual universe, an open-air bar in the inner city of Hongmeng City, a large number of cosmic sages gathered here.

Almost all the strongmen of the Hongmeng who entered the Primordial Star this time have their avatars, and the avatars are connected to the virtual universe... to send messages.

A figure walking in the open-air bar is Luo Feng.

"Jianheluo!" Luo Feng looked at the picture in the midair and heard other universe venerables talking, he was full of surprise, "The black magic sword that I got without information is actually a top domain sword. One of Heluo's nine divine swords, it looks like an ordinary treasure, but its actual value is at least comparable to a high treasure?"

At this time, the bar where the Divine Sword was born was already boiling.

Many Cosmos Venerables want to get a share of the pie.

"We hurried over and jointly killed the two star beasts and won the divine sword. At that time, there is no need to worry that the thorn ring alliance will not pay a high price. our."

Looking at this scene, Luo Feng also understood that he had become a target of public criticism, and his thoughts were not good.

"Now that I know that the Excalibur is in my hands, it is the Northern Xinjiang Alliance, Hongmeng, and Prison Clan Alliance."

"I have to act quickly."

Luo Feng withdrew from the virtual universe.

"But no matter what, I will leave the original star first. Here, the risk is too great."

Luo Feng secretly said that as long as he leaves the original star, he can give the outside world an illusion that he has taken the treasure out, and others will not get the treasure if he is killed by others.

"Go." Youhai clone and the golden horn monster turned into streamers and flew towards the nearest passage.

At this moment, the two cosmic hegemonies of the Northern Xinjiang Alliance, the "Different Blood Palace Master" and the "Venerable Humble Venerable" are flying side by side.

Both Youhai clone and the golden horn behemoth saw those two streams of light far away.

"Look, Jin Guang!"

"It's the golden horn behemoth." The Palace Master of Differing Blood and Venerable Humiliation saw it at a glance.

They are driving towards Luo Feng from the whirlpool channel, and Luo Feng is driving towards the whirlpool channel, so they will naturally be able to see each other!

"Huh? It's the Palace Master of Miscellaneous Blood, the Palace Master of Miscellaneous Blood of the Northern Frontier Alliance, and the one next to him is Venerable Humble." Luo Feng also recognized these two universe overlords, but he was very calm when he saw them rushing over.

He is not afraid of the two universe overlords.

"The star behemoth, you can't escape."

"Hand over the Excalibur!"

The battle between the two sides is on the verge of breaking out.

...

The Palace Master of Differing Blood and Venerable Humiliation finally returned without success.

However, Luo Feng also understood that the nearby forces must be trapped by the Northern Xinjiang Alliance.

In fact, at this time, some of the super-existences of the Northern Xinjiang Alliance are rushing towards the primitive star where Luofeng is located! Including the Lord of Demons. The Lord of the Blood Palace and Humble Lord are just the fastest personnel to arrive.

Venerable Hongmeng also came to join in the fun, but they just learned that it was not so fast.

In the whirlpool passage, a dark red figure quietly passed through.

It was Wang Yi's human body, but it was only a normal size, coupled with a slightly convergent aura, which was very unobtrusive. If the Lord of the Universe does not use his mastery of one time and space, I am afraid he will not be spotted for a while.

"Well, I'm here so fast, no one should know that I'm here." Wang Yi groaned, "but there is still a little distance from the place where the divine sword was born."

"Fly."

Wang Yi flew slowly towards the primordial star in a certain direction, seemingly slow, but actually reaching close to the speed of light.

"It will take a while to get to Luofeng~www.mtlnovel.com~."

And this time.

"Huh?" In the external virtual universe, Wang Yi's Youhai Sub-body is in the endless kingdom of God (the original star is the Youhai Clone that uses "creation secrets" to condense the new Youhai with a genetic level of more than 9,000 kilometers. Clone) received an emergency call request from the virtual universe.

"Is... Luo Feng?"

What Wang Yi realized. "No, he won't go to Chaos City Lord, nor his teacher, Heavenly Eclipse Palace Master, come and find me?"

But Wang Yi changed his mind and found that this is also normal.

The City Lord of Chaos in this world is not Luo Feng's teacher.

The Eclipse Palace Lord is in retreat again.

And he is also the Lord of the universe, and he is a good friend with Luo Feng.

It is normal for Luo Feng to ask himself for help because of his emotions and reason.

Wang Yi blinked, "Walking around, unexpectedly came back to me again."

[Chapter 526: Converge](#)

At the top of the Virtual Universe Thunder Island, the highest point is the "Chaos City Lord", the most powerful person in the virtual universe company. The palaces of several virtual universe companies are also magnificent and vast. .

Luo Feng, as soon as he breaks through the immortality, he kills the special life "Wing Mirror King" (Wang Yi doesn't know how the Mirror King provokes Luo Feng again, and it is probably related to himself), Luo Feng who has the ability to kill ordinary venerables Naturally, he also got the right to build a palace on the mountainside.

Moreover, he is a friend of Wang Yi, and he has the permission to enter and exit the Hunyuan Palace.

A black-haired man with a red robe and a little bit of stars came out.

"Luo Feng, didn't you say that you went to Primordial Star, what are you doing here to find me?" Wang Yi asked knowingly.

Luo Feng looked at his friend in front of him, and he was amazed. The fact that Wang Yi killed a cosmic lord had spread throughout the universe, and no one knew it. He also knew about Luo Feng's status.

What this friend did is really more and more shocking.

Although one is the lord of the universe and the other is immortal, due to the relationship between the two, Luo Feng did not have a trace of restraint in Wang Yi, and he straightforwardly opened the door to the issue of getting the black sword of 'Jianhe Luo' on the Primordial Star. , For this friend, he has nothing to hide.

"Well... you turned out to be the two powerhouses of the Star Giant Beast Alliance." Wang Yi had a smile in his eyes. "So, you are now evading hunting by all parties?"

"Yes." Luo Feng said solemnly, "The other universe hegemony is nothing, but I am worried that the Lord of the universe, once the Lord of the universe comes, my many methods will be useless, and I don't have the ability to resist, I am afraid that the treasure will be taken away. "

Luo Feng has a clone, and there is a secluded sea. The clone is not afraid of falling, and there is no loss at all, but the parts comparable to the high-level treasure "Jianheluo" may be lost. Luo Feng is not willing to sit still, so he wants to come over and seek help from this friend. He is not so pedantic and stubborn.

"So, I understand." Wang Yi nodded. "Don't worry, I have rushed over, and I am now on your planet. Even if the Lord of the universe comes himself, I can keep you safe."

The original star.

"Wang Yi is already with me?" Luo Feng was stunned.

So fast? He originally thought that the fastest arrival would be the Northern Xinjiang Alliance and the Prison Clan powerhouse.

"How do you feel that Wang Yi knows in advance?" Luo Feng was a little confused, but then he didn't think much about it, and he was relieved.

Since the Lord of the human universe is here, he has a lot more confidence.

"Wang Yi can kill the Lord of the Universe. It should be easy to keep my clone."

...

On Primordial Star, a giant golden horned beast with a pair of golden wings is fighting against an eight-armed bald strong man with black wings behind it.

It was the golden horn behemoth and the mechanical overlord "Tianyang Venerable" who were attracted to each other by their wings.

Both sides wanted to get the other's wing treasure, but they couldn't agree, and they immediately fought.

"boom!"

"boom!"

However, even if Venerable Tianyang burned the divine body to display his unique skills, he still couldn't shake the defense of the golden horn behemoth.

The golden horn behemoth's divine body was not damaged at all.

"Big body and strong armor" made him feel helpless.

"Hmph, your precious wings will be mine one day." A trace of unwillingness flashed across the eyes of Venerable Tian Yang, and then the black wings flicked and went straight away.

The golden horn behemoth also watched him leave with cold eyes. He is also determined to win this second pair of wings.

Of course Wang Yi in the distance can see it.

"Haha, Luo Feng, you are good at strength." Wang Yi chuckles through layers of time and space.

However, he didn't help Luo Feng get the second pair of wings. First, his identity was sensitive, and second, Luo Feng would be able to do it himself very quickly, without him having to overdo it.

He is now flying closer to where Luo Feng is, and Luo Feng is also flying towards him.

But the rendezvous will take some time.

On the primitive star where Luo Feng was located, the undercurrents had already begun to rag. Many of the strong men of the Hongmeng flew towards the place where Jianheluo was born, while those of the Northern Xinjiang Alliance had organized arrangements.

But no one knew that a man of the universe had already come here secretly.

For insurance, Wang Yi's other two clones rushed over.

Time passed by a little bit.

Just when Wang Yi and Luo Feng were about to converge.

"Boom..." At this moment, an incredible pressure fell on Primordial Star instantly.

The Lord of the universe has finally come.

On the primordial star, floating beside the space vortex in the air, a towering figure is slowly descending, stepping on the wilderness.

He is thousands of kilometers tall, with black and red scaly armor all over his body, and the skin on his face is green, the eyebrows are also green, and he has two dark red curved horns. The one eye seems to see through the entire primitive in an instant. Everything on the planet was moving like quiet, causing the surrounding space to shudder.

"Huh?" Standing in the wilderness, the Lord of Demon Covering instantly controlled everything on the Primitive Star, and immediately discovered that there was a place on the Primitive Star that was not controlled by his time and space.

His one eye looked through the layers of space barriers and saw the dark red armor figure flying in the distance.

At the same time, another golden horn behemoth not far away was found.

There was a hint of surprise in the one eye.

"Master of Chaotic Source?"

"Haha...it seems to have been discovered."

The laughter sounded, and then a powerful force suddenly rose, covering the entire Primordial Star, shocking the other cosmic lords, the two cosmic masters.

"Master of Chaotic Source, why are you here?" The Lord of Demon Covering came here originally to grab the 'Jianheluo' parts. He was very proud and thought that he would be able to catch it, but he didn't know when he appeared here. The Lord of Chaotic Source, he suddenly had a bad premonition in his heart.

Then I saw the golden horn beast flying towards the Lord of Chaotic Source, UU reading www.uukanshu.com. The master of com demon felt even more uneasy.

"Master of Demons, don't waste your efforts. I will protect this golden horn beast. You Beiji Alliance don't think about the treasures on his body." The Master of Chaotic Source smiled. "Of course, if you can pay a sufficient price, you may be able to exchange it, but if you want to grab it, don't think about it."

"Huh!" The Lord of the Demon snorted unwillingly, and his heart was full of anger. "How could this happen, how could the Lord of Chaotic Source suddenly appear here? It seems that you still know this golden horn behemoth?" But anyway, the Lord of Chaotic Source will soon merge with the golden horn behemoth, both of them. The Lord of the Universe, he had no control over time and space, and it seemed that the Northern Frontier Alliance's desire to grab the Black Excalibur was lost.

With the Lord of Chaotic Source, you can easily take away the golden horn behemoth.

Finally, I glanced at the golden horn behemoth and the Lord of Chaotic Origin that were about to merge together. At such a distance, the Lord of Demons couldn't stop it at all, and could only give up.

"Huh!" The Lord of the Demon Overlayer no longer wastes time and turned to leave, and the strong men of the Northern Xinjiang Alliance also got the news and dispersed one after another.

This time the operation was aborted because the Lord of Chaotic Source suddenly intervened, and the Northern Xinjiang Alliance was also very angry and helpless.

[Chapter 527: Separate](#)

Wang Yi and the golden horn behemoth have just merged and haven't said a few words yet.

"Boom!" A terrible fluctuation came instantly.

As soon as the front foot of the Demon Overlayer Lord left, the back foot of the Flame Star Master of the Star Giant Beast Alliance followed.

"Who is it? Who would dare to attack the people of our Star Giant Beast Alliance?"

The sound of thunderous anger rolled along with a towering giant figure crossing the vortex passage.

A huge flame beast that has spread for tens of thousands of kilometers appeared in the air, and the endless aura spread out, with endless majesty.

"Lord of Yanxing!" Many Cosmos Venerables recognized it nearby.

The Lord of the Flame Star... is the oldest and most powerful existence of the Flame Star Behemoth clan of the twelve bloodlines of the Star Behemoth Alliance.

Wang Yi silently glanced at the giant flame beast roaring in the distance, and speaking of it, he, like Luo Feng, had something to do with the giant star beast.

He is now the strongest clone, the "flaming star behemoth" in the bloodline of the twelve peaks of the star behemoth.

However, the appearance of this "Lord of the Flame Star" is not the same as that of the traditional Flame Star Giant Beast, but it is also normal.

"The Lord of Chaotic Source, it's you." The "Lord of Flame Star" who just appeared was surprised to discover Wang Yi's existence.

The "Master of Chaotic Source" of the human confederacy is now very famous. Just killing a cosmic master and his amazing strength in the battle for the most precious treasure has made him famous in all parties in the universe. Although the Lord is not afraid, he is also a little solemn.

"It is said that the Lord of Chaotic Source likes to fight for the most treasures on the Primordial Star, is he also here to embarrass the little guy of my Star Giant Beast Alliance this time?" The Lord of the Flame Star just arrived and did not know the situation, so he could only make this conjecture.

The Lord of Chaotic Source likes to compete with the little guys underneath for the treasure, which has become a consensus among the Lords of the Universe.

In the universe, there are really not many masters of the universe who can put aside their face like this.

He looked at the golden horn behemoth who was staying quietly as the master of Chaotic Source, angrily.

"Master of Chaotic Origin, you are also the Master of the Universe anyway, a dignified Master of the Universe, who actually bullied a junior like this, are you too much? He is a member of our Star Giant Beast Alliance!"

Although he hadn't seen Luo Feng, the golden horn behemoth, the Lord of Yan Xing had already regarded him as his own.

The star behemoth is a relatively special race in the universe.

As soon as the star beasts were born, they were stocked to various places in the universe. They do not have a fixed territory, but wander around in the universe. Because the universe is vast and the star beasts are so rare, it is difficult to encounter a star beast in a lifetime. The same kind, until they are immortal, can they be recognized by the alliance and be taken back.

The Starry Sky Behemoth Alliance is very detached and mysterious, but very united.

The golden horn behemoth blinked, the Lord of the Flame Star, the pinnacle of the Starry Sky Behemoth Alliance, and a master of the universe who had never met before could rush to rescue him without stopping, which also made him feel good.

The unity of the Star Behemoth Alliance can also be seen.

Wang Yi looked at the "Lord of the Flame Star" and said with a smile: "Lord of the Flame Star, don't worry, I have no intention of attacking the members of your Star Behemoth Alliance, I will leave now."

He didn't bother to explain anything. This time he came here only for Luo Feng's business. Now that the matter has been resolved, he has no reason to stay here.

Wang Yi spoke to Luo Feng and said, "I'm leaving first, and you can have a good chat with this behemoth in the starry sky."

"Thanks a lot this time." Luo Feng said through voice transmission.

"Ha ha."

Wang Yi laughed, and flew towards a whirlpool passage in the distance in the eyes of the Lord of Yanxing.

The Lord of Yanxing watched the Lord of Chaotic Source leave, and then set his gaze on the "little golden horn behemoth".

Well, for the "Lord of the Flame Star" who has lived for a very long time and is still the lord of the universe, this golden horn behemoth, who is only the sage of the universe, is indeed a junior.

"Little guy." A majestic voice rang in the ears of the Golden Horn Behemoth, "I haven't seen you in the Star Behemoth Alliance. Are you a Golden Horn Behemoth in the universe?"

...

The Lord of Chaotic Source's rescue of the Star Giant Beast Alliance powerhouse also spread quickly among all parties in the universe.

The strong Hongmeng who was rushing over to join in the fun was naturally surprised.

"The Lord of Chaotic Source actually helped a starry behemoth? Do they know it?"

"It might be."

"It's a pity that I can't watch the excitement this time, so I ran for nothing."

The Lord of Hongmeng Universe also learned the news and came to inquire.

There was nothing to conceal about Luo Feng's clone. Wang Yi told them one by one when asked by the Lord of the Universe.

Knowing that the golden horn beast is Luo Feng, the masters of the universe who were puzzled would also understand.

Who is Luo Feng? That is a good friend of the Lord of Chaotic Source, and it is normal for the Lord of Chaotic Source to take shelter.

"But it seems that Luo Feng has just broken through immortality, and he can actually grab the sword of Jianhe Luo under the hands of many high-ranking cosmos veterans. It seems to be incredible. Maybe it will be the next Wang Yi."

Some masters of the universe took heart and began to pay special attention to Luo Feng.

Compared with Hongmeng, the Prison Clan Alliance and the Northern Xinjiang Alliance are much more uncomfortable.

The "Barbed Ring Alliance" who got the most important component of "Jianheluo" was also very concerned, and started searching, preparing to try to get this part back.

"Jianheluo" is a single compass, which is only the supreme power of the common domain. With each additional excalibur, the power will increase, and up to the nine excalibur, that is the supreme domain of the supreme power, with powerful attack capabilities. , Can be comparable to the peak treasure, the "thorn ring alliance" is not willing to give up easily anyway, even if you deal with all parties and hemorrhage, you must get this "Jianhe Luo Divine Sword."

The Star Giant Beast Alliance and the Lord of Chaotic Source alone could not stop their determination.

And Luo Feng of course also knows that all parties are eagerly watching, and the golden horn behemoth acts alone after separating from the Lord of Yanxing. The other side has already changed the Youhai clone, secretly leaving from a whirlpool passage with the treasure, and then returns to the kingdom of God. Some people's plans fell through.

Although Jianheluo is good ~www.mtlnovel.com~ but it is useless to Luofeng, so he intends to exchange other treasures with the ethnic group.

As for how to exchange, he had been with Wang Yi for many years in the Ancestral Mystery Realm, and he had already learned.

On the same day, Luo Feng arrived at the base camp of the Virtual Universe Company, and then took a spacecraft to the Chaos City through the "cosmic channel".

The location of the treasure offering was in an ancient side hall in the City Lord's Mansion of the Original Universe.

And Wang Yi immediately learned that Luo Feng was going to exchange the treasure, and he smiled.

He can also give Luo Feng some treasures to quickly improve Luo Feng's strength, but it is not necessary.

Some training is also a good thing for Luo Feng, after all, Luo Feng is not him, and he doesn't have the ability to pick up the treasure.

Of course, when Luo Feng reaches the master level of the universe and enters the highest level of mankind, he will naturally come into contact with more. Wang Yi didn't care about adding food to Luo Feng at that time.

"Exchange, Jiuqihe!" Luo Feng has already dedicated the "Jianheluo Divine Sword" to the side hall of Chaos City, ready to exchange for a realm-class treasure.

[Chapter 528: Temple of Fortune](#)

Luo Feng left Chaos City and headed to the "Unexpected Secret Realm", preparing to obtain the fourth black metal plate, which is the location of the "Master of Craftsman God", and this will cost Luo Feng

tens of thousands of years. Then comprehend the heart of the beast **** in the "Beast God Realm", learn the genre of secret patterns, and create the ultimate master of the universe with the immortal body.

However, this has little to do with Wang Yi.

Wang Yi is still following the steps step by step, studying the rules of secret patterns, and creating unique knowledge. At the same time, Youhai is also using the secret methods of creation to analyze the genetic material of life like a toddler.

"The first three tricks are extremely fascinating. I have used them in the outside world. I can't let the **** monarch be used. If you want to use it, you must get the innovative fascination." Wang Yi has been planning for a long time and decided to get involved. "Moreover, the secret method used by the Lord of Hell, the treasure, cannot be used by the Lord of Chaotic Source, otherwise it will be easily exposed."

The practice space of the Tongtian Pagoda is now maintained at a flow rate of a thousand times, and one year outside is equal to one thousand years inside.

It's just that Wang Yi has to be distracted to do too many things, comprehend the law of origin, understand the way of beast gods, study the most precious secret patterns, create secret methods, analyze the genes of life, and wander on the primordial stars... which does not require a lot of At present, Wang Yi can only focus his energy on creating unique knowledge.

On the Primordial Star, Wang Yi continued to fight for the treasure, and sometimes he would fight for some precious treasures with other masters of the universe, but this kind of opportunity is rare. The most precious treasures are all scattered.

Like the top category of the top category "Jianhe Luo" are separated.

Perhaps only some top treasure weapons and armors were born alone.

Time flies, hundreds of years have passed all of a sudden.

Somewhere in the primordial star, in a gurgling river winding across the plain, a figure lay.

There is no life on the primordial star, so it can only be the strong from the outside world.

Wang Yi's human deity lay in the river, feeling the river wash, and it was very leisurely.

He has been lying here for several years.

Occasionally some heavy treasures and top heavy treasure suits were born nearby, and he didn't bother to bother about it.

"It's been six hundred years since the original star was opened. I have been collecting the most treasures, and I have also drawn eight prizes on the eight original stars." Wang Yi thought.

He specially left a thousand original stars for the lottery. Six hundred years have passed and only eight draws have been made.

The peak treasure is drawn once, and the top treasure is drawn seven times. This is a bit bad luck.

As for Xeon Supreme, I didn't even see the shadow.

After all, the 1% chance of a lottery is still too low, it depends on luck.

"Moreover, the farther behind, the lower the frequency of the treasures appearing, the more difficult it is to collect the treasures on the original stars." Wang Yi sighed.

In fact, Wang Yi also considered starting with the strongest of Zhibaoduo. What is Zhibaoduo?

For example, the treasures of some powerful people are composed of many common treasures, such as "Jianheluo", "Thousand Treasure River", "Beast God Armor"...

Jian He Luo is composed of a main component compass and nine swords!

Qianbaohe is composed of thousands of treasures!

The beast armor is also composed of hundreds of treasures!

This is the "Treasure Set"!

However, the more Arcana sets of Arcane Combinations, the sharper they can be. All the masters of the universe have powerful life-saving capabilities. Not to mention that Wang Yi's strongest clone has Tier 6 combat power, that is The strongest in the universe personally mounts it, and it is difficult to kill, or impossible to kill at all, unless the layout is perfect, or the opponent is in desperation.

So Wang Yi just thought about it for the time being.

Universe overlord Wang Yi wanted to kill it easily, but he couldn't kill at will due to his identity.

The Lord of the universe is difficult to kill, and it is not easy to do it at will.

With too many restrictions, Wang Yi is also very distressed.

"Only after the fourth trick is created by the ultimate secret method, and then see if the vest of the **** monarch can be played again. At that time, those cosmic masters should have gained some gains after mixing on the original star for a long time."

...

In the 612th year of the opening of the original star channel.

On the original star number 02892.

Wang Yi's clone of the Void Zerg has stayed here, because according to his memory, some of the top major events that occurred during the first period of the Primordial Star opening included the turmoil in the Temple of Qishen.

There was originally a Cosmos Lord here, but when Wang Yi came over, he automatically gave in.

Generally, the masters of the universe are unwilling to get together, even if they are in the same camp, and the Primordial Star Arcana is irregular in this world. No one knows which Primordial Star will suddenly appear as the Arcana, so they are scattered randomly among different Primal Stars. Unless there is a treasure, it is rare for multiple masters of the universe to stay together for a long time.

Different primordial stars, in fact, the scenery and environment are the same. Wang Yi's Void Zerg clone has shrunk to more than three meters high, wearing gorgeous silver armor, with both hands resting on the handle of a huge war knife, sitting on a large stone. , Looking into the distance.

He looked at it occasionally when there was some movement.

The wind was blowing gently.

At a certain moment--

"boom!"

Suddenly the origin of the universe descended on the primordial star numbered 02892. The origins of gold, wood, water, fire, earth, wind, thunder and lightning, light, time, and space all descended on this primordial star at the same time.

The coercion was overwhelming, and the entire planet seemed to be caught in a shackle for a while, and it was difficult for any cosmic master or even the cosmic hegemon to move.

Wang Yi slowly raised his head, with a strange look in his eyes. He looked at the changing and colorful sky, where there seemed to be a will roaring, and the coercion of the ten fundamental laws haunted the primordial star. It shocked the cosmos lords and cosmos overlords.

"The Law of Origin is here!"

"This is the coming of the law of origin!"

Many of the cosmic lords who have experienced it are crazy when they think about it.

The message was quickly communicated to all forces.

"What? The law of origin descends on a certain primordial star?"

"There is an original law coming~www.mtlnovel.com~ It seems that a very precious treasure is about to be born."

"Quickly, go over and take a look."

Countless strong people received the news and moved by the wind.

In midair, a tall silver figure flew past in one direction.

A temple is gradually breaking through...

"boom!"

The terrible pressure came, and a cosmic lord walked out of the passage, and the space-time realm filled over, but it was immediately discovered that someone had taken the lead.

"Master of Chaotic Origin?" The master of the universe, who had burst through the air like a peerless weapon, was a little surprised.

"boom!"

"boom!"

Powerful existences soon came one after another, and there were waves of powerful coercion as vast as the law of origin hovering on the primordial star.

The Lord of the universe descended on this primordial star one after another.

[Chapter 529: Thirty-six Mirror Stone](#)

The coercion on the original star where the temple was born, because of the unprecedented movement of the law of origin, attracted the nine superpowers and the twelve top powers of the universe.

"Chaotic Source."

"Absolutely."

Wang Yi also saw the Lord of the Universe on his side.

Because the temple was born with great movement, there are really many masters of the universe who rushed over to join in the fun.

The Lord of Desolation flew over, looked around, with a solemn face, and said to Wang Yi: "This temple has a huge impact on the birth, and there are really many super existences that have attracted. I just don't know if it is the strongest treasure since the opening of the original star. ."

Wang Yi looked at the majestic temple surrounded by the law of origin, slowly breaking out of the ground, that amazing power is difficult for the Lord of the universe to approach. This is the power of the origin of the universe, and the strongest in the universe cannot match it.

In the vicinity, the super presence of all parties is also looking at nearby opponents.

"Is that the Lord of Chaotic Source?"

"Master of the Chaotic Source of Hongmeng."

"I heard that he has more than one peak field treasure."

"What, it's impossible, right?"

"I heard that this is the case. The two divine bodies of the Lord of Chaotic Source seem to be the peak domain type treasures."

"this....."

The Lord of Chaotic Source, who has gained fame during this time, has also attracted the attention of many powerful people.

Especially the focus is on the treasures of the Lord of Chaotic Source.

A newly promoted master of the universe has so many top treasures and top-level combat power, which is indeed very amazing, and it is also extremely rare in the primitive universe.

"The human race spoils this Chaotic Source in this way, are they not afraid of his fall and the loss of the treasure?"

"How to fall? The human race pays more attention to the Lord of Chaotic Source, absolutely more than the peerless genius of the demon race, "Master of Eagles". If the Lord of Chaotic Source is in danger, I am afraid that the giant axe will come over immediately."

"Huh, what a peerless genius, it's just relying on the role of the treasure, in terms of real combat power, the Lord of the Chaotic Source is at best the level of the Lord of the normal universe, how can it let the Lord of the universe of the prison clan fall."

Many masters of the universe have different attitudes, some are amazed, some are envious, and some are disdainful.

For example, some people who are hostile to the human alliance, or have hatred against the Chaotic Source, are naked hostility.

"Hmph, wait, this chaotic source is so blatant, it will fall sooner or later!"

Experts like the Zerg, Mechanical, Demon, and Prisoners looked at Wang Yi's eyes very wrongly, full of killing intent.

The murderous intent and hostility were unconcealed, and everyone else could see it.

Wang Yi was too lazy to bother, they could still kill himself.

The temple is here!

Massive!

A huge beam of light that penetrates the sky and the earth descends from the primordial star. Gold, wood, water, fire, earth, wind, thunder and lightning, light, time, and space, the origins of all major laws descend on this primordial star at the same time, the mighty universe The power of the law of origin makes it difficult for the sages of the universe and the overlords of the universe to act, but the masters of the universe are still floating in the sky, not caring at all, just far away from the place of birth.

"This temple is so slow to be born." Wang Yi shook his head and looked at the speed of the temple's emergence. I don't know how long it will take to be fully born. Of course, the super beings with extremely long lifespans have seen many such scenes, and there will be no trace of it. impatient.

The process of breaking out of the ground lasted for nearly a hundred years, and during these nearly a hundred years, all major forces in the universe sent super beings here.

For a while, almost all the cosmic masters surrounding the temple, the cosmic masters who dared to approach were also the "top cosmic masters" strength.

Over the centuries, the Qishen Temple was completely born, the coercion disappeared, and the Primordial Star returned to normal, but an additional towering temple stood on the plain.

"Finally completely born." Over the years, Wang Yi's human deity, who has separated most of the laws of consciousness and enlightenment, opened his eyes and breathed a sigh of relief.

The birth of this temple is really tormenting.

"The temple is completely born."

"After waiting so long, I was finally born."

"Go, go and see."

The super beings surrounding the temple also approached.

"Huh? There is a black stele there." The sharp-eyed strong man noticed.

In fact, he was not the only one who noticed, many strong people noticed it for the first time.

"There are words on the stele."

A black stone stele was quietly erected in front of the Qishen Temple. There were ancient secret patterns on the stele. Anyone who is strong will know its information at a glance.

The content of the message is very simple-

"The Temple of Qishen was born, the stele appears, and when the stele is annihilated, one or more spectroscopic stones will appear irregularly at a certain time and place on the 10081 primitive stars! The number of spectroscopic stones is 36... The stone is like a normal stone. When it is born, the movement is comparable to the high-level treasure. When all the 36 Mirror Stones are born, the Temple of the God of God should be opened. Only those who have the Mirror Stone can enter, and other strong people will be annihilated if they trespass..."

"Thirty-six Mirror Stones? Only one of them can enter the Temple of Discord, and all trespassers will be annihilated?"

The strong men who saw the information were all surprised.

Primitive star is the place closest to the origin of the universe, and the treasure born is also very mysterious. No one knows how the above information came from, but everyone knows that this kind of natural information is absolutely true. If it is annihilated, it is 100%. Annihilation means that if the strongest in the universe truly does not abide by the rules, and is invincible in the primitive universe, but if there is no ambiguity stone to break in, it will definitely fall.

"It seems that if you want to enter this Temple of Discord, this discordant stone is the key, and you have to pay special attention to the Alliance."

"The movement of the birth is comparable to the Highest Treasures, and there are 36 more. This is also the key information."

However, Wang Yi also noticed the key point... "One or more discordant stones may appear irregularly in a certain place"... In other words, there may be more than one discordant stones in the same place?

The super being present has not left yet, but waits quietly. One year later, the stele is annihilated, and the towering temple is still standing there, waiting for the opportunity to open.

However, in the following years, there were various rumors~www.mtlnovel.com~ that the mirror stone was born on a certain primitive star, causing many disputes.

However, I don't know the exact time and place, so this requires luck.

Even if the strength is strong, it is difficult to get the Mirror Stone!

Wang Yi didn't care much about this. According to the original plot, until Luo Feng entered the Universe Sea 20,000 years after Primordial Star opened, this "Temple of the Gods" was not opened.

It's only been more than 700 years since the Primordial Star opened, and it's still a long time.

In addition to the "Temple of the Forbidden City," other primordial stars have been born one after another, but they are far less attractive than the Temple of the Forbidden City. Of course, Wang Yi and Hongmeng will grab it as soon as possible.

During this period of time, Hongmeng made a lot of noise in order to **** the most precious treasure.

Even the dignified City Lord of Chaos has personally endured more than once and competed with a group of little guys who were not the overlords of the universe for ordinary treasures, which surprised others.

What is going on with this Hongmeng?

Of course they don't understand Hongmeng's happiness.

[Chapter 530: Ten thousand years, 0 draws](#)

Time flies.

The original star opened 10081 years later.

On the primordial star number 10081, Wang Yi's human deity descended on the highest mountain here.

Over the past ten thousand years, in order to collect the most treasures, Wang Yi and Hongmeng attacked everywhere, fighting everywhere, but also grabbed a lot of the most treasures.

Some were taken by Wang Yi himself, some were obtained with the help of Hongmeng, and some were obtained by Wang Yi deliberately killing some universe overlords.

The lord of the universe cannot deliberately kill the overlord of the universe, but to be honest, he really wants to kill a few. Even if other forces are angry, they can't do anything to Wang Yi.

Over the years, some unlucky ones have always fallen into Wang Yi's hands and died.

If it is more powerful, you can also protest to Hongmeng or ask Wang Yi for an explanation, asking for compensation or something.

If there is no background, you will die in vain.

However, because of the excessive killing, the "Master of Chaotic Source" has an evil character and has a reputation for killing foreign races.

However, the overlord of the universe can't be killed casually.

Therefore, every time the treasure is born, as long as Wang Yi can catch up, he will not miss it.

This is a fair chance to kill and win treasures.

The other cosmos masters were all fighting for the most precious treasure, and when they broke their blood, Wang Yi was the only one who was murdering with unpredictable thoughts.

Only the top cosmic hegemon dared to compete with the lord of the universe.

However, over the past ten thousand years, at least three top universe overlords have fallen into Wang Yi's hands. The overlords of the universe have been severely injured by Wang Yi to no less than ten. Those who almost died were the Sirius Lord of the Monster Race and the Prison Race. Lord of Ba Shi.

Had it not been for the "Lord of Sirius" to have the Heavenly Wolf Palace to protect his life, and the Lord of the Ba Lions who had the prisoners' powerhouse desperately rescued, they might have really fallen.

It made the other strong people scared.

The tyranny and madness of the Lord of Chaotic Source are spreading more and more in the universe.

There are many high-level human beings with different personalities, but it is rare for people like the Lord of Chaotic Source to kill without blinking and extremely murderous.

The master of the universe who is good at killing and fighting is also the most afraid of headaches on all sides.

Other strong aliens have been warned, and when they see the lord of the human chaotic source, they will stay away.

Wang Yi proved his strength by killing and fighting!

In the universe of hundreds of millions of ethnic groups, who doesn't know the reputation of the Lord of Chaotic Source?

That was all killed!

It's as if Wang Yi was invincible as the "God of Hunting King" at the stage of the landlord, making countless alien kings frightened.

After these ten thousand years, Wang Yi actually didn't kill too many. The treasures were mainly collected from primitive stars.

As for the gaps in the drill panel, buy the universe overlord or simply let some universe venerables bring a large amount of treasures to the door for Wang Yi to kill.

Don't be kidding, it won't work at all.

There are only two channels that can collect the treasures, either collecting the treasures of the original stars, or getting them by killing.

Wang Yi spent tens of thousands of years in Primordial Star.

But the lottery was not satisfactory.

How should I put it, ten times in the lottery draw, seven or eight times are green, making Wang Yi's face almost green.

In ten thousand years, nearly a hundred draws were drawn, and 81 top treasures and 9 peak treasures were obtained.

These treasures add up to less than 100,000 treasure points.

It is also necessary to pay the remuneration of the powerful Hongmeng who rushed to work. Although not much, part of it was deducted and donated to the ethnic group.

Therefore, Wang Yi still has 80,000 treasure points.

As for Xeon Supreme, I didn't even see a ghost.

Although the message on the panel says it is 1% probability.

But that is 1% for each draw, in fact, the probability is very, very low.

You can't draw it 100 times in a row.

But Wang Yi pondered for a while, and felt that it couldn't go on like this.

So he deliberately saved 10 chances to draw a lottery, and then kept drawing on the 10 original stars.

Fight a wave.

turn out.....

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

...

Wang Yi's face was really green.

He smoked nine times in a row, and every time he opened it was all green, and he panicked when he was green.

At that moment, Wang Yi really had the urge to slap the nine primordial stars. If it weren't for him, he couldn't do it.

Can you still have a happy lottery?

In fact, the top treasure is not a loss.

The problem is that there is no harm without comparison.

With a 20% probability, the Peak Treasure hasn't drawn a single prize in nine consecutive draws. It can only be said that the luck is too bad.

Wang Yi, who has never believed in evil, couldn't help but start metaphysics.

Wait until the day of 10081 to draw a lottery on the original star numbered 10081.

The number 10081 is a very special number in this universe.

The original will of the original universe bless me, and I can give out great prizes.

Wang Yi said silently in his heart.

Taking a deep breath, Wang Yi squinted his eyes, and a panel appeared in front of him, naturally it was the dazzling purple gold, sparkling.

Start the lottery roulette.

The draw begins.

A line of prompt popped out.

[Currently collected treasures: 0/10, number of draws available: 1.]

[Whether to draw a lottery?]

"Yes!"

Afterwards, the rotating needle began to spin under the gaze of Wang Yi's expectation.

From slow to fast, the fast becomes a blurred shadow in the end.

"Wow!"

"Wow!"

"Purple, purple, purple...I don't want green, I don't want green, I don't want blue, I want purple, I want purple..." Wang Yi muttered silently in his heart.

Don't say he can't hold his breath.

Even if it were replaced by someone else, the Lord of the Universe, the strongest in the Universe, couldn't hold back his anger.

One hundred chances to draw a lottery, there is no Xeon Zhibao, to be honest, Wang Yi is really a little anxious.

According to the historical trajectory, in tens of thousands of years, the "Broken East River Inheritance" of the universe will come out, and the entire primitive universe will become a pot of porridge. The various forces are in intrigue. If there is no accident, the inheritance will most likely fall on the human race. At that time, even if there is still time, he can't rest assured to continue to roam on Primordial Star ~www.mtnovel.com~ and 8 million years later, it is the arrival of the "Jin World", and another wave of exploration is set off. Everyone wants to get the opportunity to transcend reincarnation in the world of Jin, and whoever has the time to go to Primordial Star.

It is true that Primordial Star hasn't shut down by then.

Although Wang Yi was looking forward to it, the panel was not based on human will, otherwise he would not have been greened nine times in a row before.

Confirmed, this is a bear kid.

Time passed quickly. Under Wang Yi's seemingly calm but nervous expression, the speed of the needle on the white roulette began to slow down, and then stopped slowly. The colors of the three areas were all next to each other, blue. Behind it is purple, behind purple is green, and behind green is blue.

It can be described as a line of heaven and a line of hell.

When Wang Yi's face was about to turn green, the needle slowly stopped at the edge of the purple and green areas.

It's just a slight difference.

【Ding! Congratulations, get a piece of purple equipment! 】
