

A God 541

[Chapter 541: Lord of the Golden Horn](#)

Original star number 00164.

As soon as Wang Yi stepped into this world, he saw a huge palace with countless golden horn behemoths carved in the distance. This palace was about 100 million kilometers high and exuded endless pressure. Wang Yi instantly judged this. It should be a flying palace treasure.

Then three figures flew out of the palace.

The distance between the two is less than 100 million kilometers.

At the head is a towering golden horn behemoth with huge scaly wings. This is a terrifying existence whose breath is like an endless universe, watching Wang Yi.

The other two towering figures are also breathtaking, and they are also the other two star behemoths.

The Lord of the Flame Star was in the line, the surging flames formed a sea of fire, and the pupils were even more dazzling and hot than the stars.

"Starry Sky Giant Beast Alliance!" Wang Yi recognized it at a glance.

"Lord of Hell!" Three voices on the opposite side sounded at the same time.

"Hahaha, Lord of Hell, we were just about to go to the primordial star to hunt you down, but unexpectedly you came to this primordial star and ran into us."

"It's really our luck."

One of the surrounding space is like a black hole, and the starry sky behemoth whose internal time flow is constantly fluctuating and roars: "Lord of hell, since you dare to enslave the members of our starry behemoth alliance, you deserve a million deaths, here is your fall. place."

Wang Yi recognized that this was the "Light Generating Giant Beast", one of the twelve peak pedigrees of the Star Giant Beasts.

It symbolizes the original law of light and time.

"The members who enslaved your star behemoth..." The **** lord let out a weird laugh, "I have enslaved more cosmic masters, what can you do to me?"

Good guys.

What a wild **** lord!

The Lord of the Golden Horn, the Lord of the Flame Star, the Lord of the Light Yan, and the three masters of the universe of the Star Giant Beast Alliance were all agitated!

The number of Star Behemoths is sparse, and the internal unity is incomparable. If it is a leader-level member of the alliance, don't care, but Immortal is already an official member of the alliance, and the Venerable Universe is the core member of the Star Behemoth Alliance!

The **** monarch dared to enslavement for no reason, that is a naked provocation to the Star Behemoth Alliance!

"What a big tone!" The Lord of the Golden Horn roared, "Lord of Hell, let me see if you have the ability to fight against our Star Giant Beast Alliance!"

"kill!"

The breath of the three giant star beasts skyrocketed, and at the same time they rushed over.

"There are so many of you, I won't be with you!" The **** lord turned and ran.

There was interception in the front and chasing soldiers behind, so he flew to the side.

"Want to run!" The Lord of the Golden Horn roared. "Endless Light Domain!"

The "Golden Horn Lord" of the Star Giant Beast Alliance stands in the sky, with huge wings spread out, and at the same time, with it as the center, an endless field of light with a diameter of about 100 billion kilometers appears out of thin air. The dazzling white light makes everything incomparable. Bright and dazzling, everyone present can feel the power contained in the light.

The entire original star seems to be coated with a layer of white color.

Wang Yi felt like an ordinary person fell into the water suddenly and slowed down.

Lines of glittering silk surround Wang Yi, "difficultly" resisting the obstruction and restraint of these white lights.

"The Peak Domain Treasure?" The Hell Lord turned his head and roared, "Unexpectedly, in order to deal with me, the Lord of the Golden Horn actually used this Peak Domain Treasure, you really can see me."

"Lord of Hell, I said you can't escape." The lord of the Golden Horn urged the powers of the Arcane Light Domain to bind to the lord of Hell, while shouting, "Today, this is the place where you fell!"

"Haha, does the **** lord think that he can be invincible with a top-level domain treasure? How do the lord of the universe compare with the lord of the golden horn of our Star Behemoth Alliance!"

"Let him be so arrogant before, this light field can suppress him to death. Now the **** lord wants to escape too late. Today is his death date."

Under the blessing of the light domain, the Lord of Yanxing and Guangyanzhi, who are like a fish in water, advocate opening their wings and flying over in excitement.

"Roar..." The huge scaly wings of the Lord of the Flames flapped wantonly, flying through the air, and their wings were like burning war knives, directly slashing towards the slow-moving **** lord.

"Swipe!" The surrounding areas of the Lord of Light Yan turned into black holes, emitting terrible swallowing power, permeating it.

This is the ultimate knack of the masters of the two universes, with great power.

If the space of the primordial star collapsed and shattered directly, these space fragments were as fragile as bubbles, and could not stop the lord of the universe at all.

And the most terrifying Lord of the Golden Horn also followed closely, mastering the entire field of light, and the entire world became a sea of light. Each light contained huge energy, and it surrounded the Lord of Hell everywhere, and every light could do it. Easily injured a cosmic master.

Being besieged by three extremely powerful universe lords, the lord of **** seemed to be in desperation all of a sudden.

"Ah!" The **** lord also found that the situation was not good. The three masters of the universe of the Star Giant Beast Alliance appeared in front of him, leaving him nowhere to go, and the back path was cut off, and he had to fight back.

"Boom..."

There was turbulence in the sky above Primordial Star, and the fighting of the four powerhouses caused the space to fluctuate violently like the sea.

"It's not that easy to kill me!"

Behind the Lord of Hell suddenly appeared a huge black iron tower, about tens of thousands of kilometers high, black and full of strange carvings. As soon as it appeared, it flew directly to the Lord of Hell, and the Lord of Hell followed the impact of the second attack of the Lord of the Stars. At the same time, he speeded up and flew directly, drilling directly into the black iron tower.

"boom!"

"boom!"

The wings of the Lord of Flame Star and the black hole power of the Lord of Light Yan attacked the iron tower at the same time, but only made it slightly shake.

In the endless white light domain, the golden horn master with open wings stopped high in the sky, looking at the black iron tower floating in the distance, his expression changed: "Flying palace-like treasures!"

The Lord of Yanxing and Lord of Light Yan also stopped at the same time, but still surrounded the iron tower in a triangular shape.

"The lord of **** hid in this black iron tower."

"My attack just now landed on this black iron tower. I feel that the impact has been weakened for the most part. With such a strong defense, it should be a high-level flying palace treasure." said the Lord of Flame Star.

"What to do? The **** lord is hiding inside, and our divine power attack hits the iron tower. I am afraid it will be weakened to less than one percent, and then again weakened by the armor of the **** lord ~ www.mtlnovel.com~ the rest It is difficult to cause any harm to his body."

"Yeah, he is hiding inside. Even if we can trap him, it is difficult to deal with him."

The three masters of the universe are all in trouble.

"Hmph, he just hid in and delayed his death time for a while. This action is not only our Star Behemoth Alliance, but also other forces."

"When the other universe lords arrive, we will join forces to attack, so many universe lords unite, even the **** lord will have to fall." The golden horn lord said in a cold voice.

"Thinking that you can save your life by hiding in the palace treasure, this **** lord is too whimsical."

Inside the iron tower, Wang Yi, the 'Lord of Hell', also looked outside, his eyes calm.

"Next, just wait... I don't know, how many fish will be hooked."

[Chapter 542: I thought we'd take you in hiding](#)

Inside the black iron tower, Wang Yi held a saber in his hand and sat silently on the throne.

"Meng Yaozu, according to information, the distance from me, even if it takes the fastest route, will take 28 hours."

"In order to prevent it, I will wait 24 hours." Wang Yi's eyes burst into sternness.

"Wait."

"Wait for the arrival of the masters of the universe."

...

"boom!"

"boom!"

Outside, the Lord of the Golden Horn, the Lord of the Flame Star, and the Lord of the Light Yan kept attacking the towering black iron tower tens of thousands of kilometers high.

The towering iron tower kept shaking and trembling, the force rushed into the interior through the tower, and was transmitted to Wang Yi. It was completely offset by the strongest armor on his body, and Wang Yi didn't bother to pay attention to it.

However, this black iron tower is just a high-level flying palace treasure that Wang Yi casually used to cover people's eyes. Its defense power is average, and even the three masters of the universe can easily shake it.

However, Wang Yi didn't let the three universe masters toss, urge the divine power, and control the tower to collide in the field of light, as if trying to escape, making the three universe masters of the Star Giant Beast Alliance even more excited.

"boom!"

"Lord of Hell, you can't run away, give up!"

"boom!"

"Come out and fight us!"

The three masters of the universe, including the Lord of the Golden Horn, kept clamoring.

The lord of **** hid in the flying palace treasure, even they had to burn the **** body to make enough attacks, but for a long time, the three powerhouses such as the lord of the golden horn also felt a little overwhelmed.

Although their divine body is huge, the more the burning divine body weight is naturally stronger. Every time they play the ultimate skill, the burning divine power is massive, so they can make the advanced flying palace treasures like this.

It is very difficult for ordinary attacks to shake the palace's treasures.

"No, I can't move." The Lord of the Flame Star stopped first. Regardless of the Lord of the Flame Star who only maintained a figure of tens of thousands of kilometers, in fact, his divine body was 100,000 kilometers high, which was second to none among the giant star beasts.

"This high-level flying palace treasure is too strong in defense. I feel that our attacks have been weakened a lot. Even if it passes in, it won't hurt the lord of **** much." Lord Guangyan also shook his head.

If they are good at soul attacks, it's a pity that none of the strong players in the Star Giant Beast Alliance who came here this time is particularly good at attacking directly.

The Lord of the Golden Horn stared at the slow-moving black iron tower that was bound by layers of light, and slowly said: "If this is the case, we will not bother to work hard, and wait for the arrival of the Lord of the universe. Let's attack together again. After all, this **** lord is alone, and he won't be able to hide inside for long."

The other two star behemoths also agreed.

...

Shortly after.

One after another, towering figures flew out of the whirlpool passage where the **** lord had come out.

It is the lord of the universe who chased after the lord of **** before.

The Lords of the universe, such as the Lord of Sirius and the Lord of Tongling, are all inside.

They also saw the white light permeating the entire primordial star at a glance, and the black iron tower surrounded by three giant star beasts in the distance.

"Everyone in the Star Behemoth Alliance, here we are."

The Lord of the Golden Horn nodded. "You are here just right. The **** lord hid in this black iron tower before. It was a bit of a hassle for the three of us to kill him. Come and help."

The Lord of Tongling and the Lords of the universe suddenly laughed.

"It turns out that the lord of **** is trapped inside and can't get out."

"Stupid guy, he really thinks he is invincible in the world, and he dares to oppose the great forces of the entire universe. If he is going to fall, he is also to blame!"

"Haha, let's help too."

"Does the **** lord think that we can't do anything if we hide in? He probably doesn't know how many universe lords we have this time, and even the strongest person in the universe has come personally to kill him."

The Golden Horn advocated flying wings and floating in the sky, glanced at the excited universe masters, and reminded: "The **** lord hiding in now is a treasure of the high flying palace. The ordinary means are not powerful enough to be useful to him. It's best to use the ultimate skill, and we will fight together to maximize the lethality. No matter how strong his defense is, so many of us will be enough to kill him."

Among the masters of these universes, the one of the golden horn is the strongest and the highest, and the proposal is reasonable, so no one opposes it.

"The Lord of the Golden Horn makes sense."

"Let's do this."

"If you can't break this shell, can you still help the people inside?"

Everyone is confident.

This time all the forces in the universe acted together. It was good for the **** lord to hide or escape. Since he was blocked, his fall was the inevitable result.

No one can save him.

Even if the strongest in the universe wants to make a move, they have to worry about it. After all, the strongest in the universe behind these forces add up, almost representing the will of most of the primitive universe.

The situation is clear at a glance, the **** lord is destined to fall.

Everyone felt that the **** lord was dead, but it was a matter of time.

"Should we do it first, or continue to wait for others to arrive?" a universe lord asked.

Now there are more than a dozen cosmic masters who have arrived here. Although the number is quite large, it is less than a quarter of the number of cosmic masters in action.

And like the Master of Galaxy of the Northern Frontier Alliance, the Lord of the Horned Viper of the Ancestral Sect, the Lord of the Chaotic Origin of the Great Alliance of Humanity... none of the representatives of these major forces have arrived.

The Lord of Sirius in the crowd also looked at the black iron tower that kept trembling in the endless white light. Because there were many masters of the universe controlled, this black iron tower could not escape the current desperation even though he tried his best to resist.

The Lord of Sirius is full of joy at this moment. The anger that was filled with the Lord of Hell at this moment has turned into a mockery and contempt for the Lord of Hell. "Lord of Hell, lunatic, go to death."

"We don't need to wait any longer. Since there are so many people, we should get rid of the Lord of Hell as soon as possible." The Lord of Sirius said loudly.

He fell into trouble, wishing to let the lord of **** disappear immediately.

The more miserable the Lord of Hell, the happier he is.

"Well, the Lord of Sirius is right."

"We also have more than ten masters of the universe, and the combined attack power should almost rival the strongest in the universe. There shouldn't be any problem with the **** lord, the treasure of the palace."

The Lords of the universe all felt that Sirius Lord's opinion was good ~ www.mtlnovel.com~ Of course, it was mainly the merits and trophies of killing the **** lord, and they were also very excited about the top domain treasures and the high flying palace treasures.

When other people come over, they will get less.

No matter how they count, they are very transparent in their hearts.

"Then do it."

The Lord of the Golden Horn said in a deep voice. "I control the field of light to restrain the black tower from moving, and then you attack the same location together, so that the damage can be maximized."

"good!"

More than ten masters of the universe burned divine power together, and ten mighty attacks fell on the black iron tower at the same time in the next moment.

"Boom!!!"

[Chapter 543: Is everyone here?](#)

"boom!!!"

A powerful attack landed on the black iron tower, and the towering black iron tower, which was tens of thousands of kilometers high, was instantly knocked out. Even the white light domain was instantly repelled by the monstrous power that surpassed any cosmic lord.

And that mighty impact of divine power also passed through the thick walls of the Supreme Flying Palace's treasure, and passed into the interior.

The black scaly creature sitting on the throne in the core area of the palace fiercely opened those scary scarlet eyes.

"Peng!"

Outside the iron tower, many masters of the universe looked forward to the black iron tower flying out.

Normally, the flying palace treasure is the strongest among the treasures of the same level, and is best at resisting material attacks.

An ordinary flying palace treasure, comparable in strength to the high treasure armor.

The treasure of the high flying palace is comparable to the top treasure armor!

Even if a universe overlord owns a high-level flying palace, it is enough to cross the universe, leaving most of the universe masters helpless.

In the face of possessing a flying palace, the only way to attack is usually from the soul!

And possessing the flying palace treasure is equivalent to possessing double protection. Attacks from the outside are generally transmitted to the inside through the palace, and then weakened by the human armor inside, before finally affecting the body.

So if the attack is not strong enough, it will not be possible at all.

"this....."

"There seems to be no change in the aura of the **** lord's divine body?"

The face of the master of the universe changed.

Some were surprised, some were unbelievable.

The Lord of the Flame Star roared angrily: "We have joined forces, and we attacked together just now. The combined power is definitely more than any cosmic lord. Even if the Chaos Lord dare not directly take it against us, otherwise he will be injured. , This **** lord is not affected by hiding inside?"

There are more than ten Lords of the Universe present, one of them is in the fifth order, and there are also three in the fourth order. The rest are all third or close to the third order.

Many powerful people attacked together, and the power was naturally extremely huge, and it had surpassed Tier 5 and reached Tier 6 level.

Even if it doesn't reach the limit, it's terrifying. The normal master of the universe will be injured even if he hides in the palace treasure.

After all, there is a limit to the ultimate treasure. If the limit value is exceeded, the weakened attack will be greatly reduced. For example, the defense of this high-level flying palace is comparable to the top treasure armor, but under the combined attack of many universe masters, it has reached the ultimate treasure. Defensive limit, then the defensive power will be greatly reduced, the attack that could have been weakened to one in ten thousand, may only be weakened to one percent or even one tenth now.

Even the ultimate trick of the Lord of the Galaxy is weaker than the combined attacks of the Lords of the Universe.

If it hit a cosmic master with a little weaker protection, it would definitely be able to kill with one blow.

"Could it be that in addition to the Supreme Flying Palace Supreme Treasure, he also has a top-level Supreme Treasure armor guarded by it, so our attacks cannot cause him enough damage?"

"Or is there any powerful defensive method? Either the divine body is amazingly large, so although the injury is too slight, we can't feel it?"

The masters of the universe have speculated.

Their expressions are not pretty.

Either way, it is not good news for them, which proves that if you want to quickly kill the **** lord, you can't do it at all.

"Attack it!" said the lord of the golden horn coldly, "Since the material attack is ineffective, then the soul attack. Attacks again and again...this is also a treasure of the high palace. Perhaps it is better to resist material attacks and can resist soul attacks. It must not work. If the soul is attacked, I don't believe that he can hold it! We might even kill him by the soul."

Like the treasure of the palace, armor generally has a very high defense against material attacks, but it is much weaker in defense against soul attacks.

The other masters of the universe looked at each other, and finally nodded. "There is no other way, but the only dumb way."

The Sirius Lord also looked at the black iron tower in surprise, and muttered in his heart, "I feel that this black iron tower is almost comparable to my Sirius Temple." The Sirius Lord's Sirius Temple is the supreme treasure of the high flying palace. The Lord of Sirius relies on it to cross the universe.

"good."

"Attack together."

Suddenly the eleven masters of the universe attacked the black tower again, but at this moment, the **** lord was hiding in the black tower, as if the target was motionless, allowing them to attack.

However, compared with the material attack with huge impact, the soul attack has no impact, but it is even more damaging. A huge soul power rushed into the iron tower and blasted Wang Yi.

However, Wang Yi has a "mirage bead" sitting in his body. Although this soul attack is powerful, even if the Lord of the fifth-order universe is hit by the front, Wang Yi is still not affected at all.

What are you kidding about, souls like the "mirage beads" are the most powerful souls, and the attacks of souls below the sixth level are all invalid.

Although many outside masters of the universe are very desperate, not all of them are good at soul attacks. Even if they are combined, the power of soul attacks can only reach five levels. The breeze is not much stronger.

Even if they sit there and let them fight, it has no effect at all.

"Fight, fight."

Sitting leisurely in the core palace, Wang Yi could easily see the crazy attacks of the eleven masters of the universe outside. Although the black iron tower was only the treasure of the high flying palace, it could not withstand too much attack and was shaken constantly, but Wang The "Wuhoujia" and "mirage beads" on Yi are really too strong, so the impact that Wang Yi's divine body can really feel is weakened to the point where it is almost negligible.

The Lord of the Golden Horn outside and the Lord of the Universe tried a soul attack, then a divine power attack, and then a soul attack... After trying several waves, it was discovered that the **** lord divine body aura inside seemed to be weakened.

In fact, this is just Wang Yi covering the eyes and ears, weakening his own divine breath.

But the people outside didn't know, they couldn't observe the inside of the palace treasure.

The attack seemed to be effective, but they were still unhappy.

All of them burned the gods to perform unique attacks, and they seemed to weaken one-thousandth of the gods of the **** lord.

And some of their divine bodies lost 3%.

They are also a little bit overwhelmed after such consumption.

"Lord of Hell, why is his defense so strong, how can we have so many people?"

"It's just a treasure of the high flying palace!"

The attack stopped again, and the eleven masters of the universe surrounded the black iron tower, all with ugly faces.

...

As time passed, a team of cosmic masters arrived here, and the number continued to increase. With more members, they also tried to attack the black tower.

"boom!"

"boom!"

From time to time ~www.mtlnovel.com~ a loud noise erupted over the Primordial Star, and those cosmic lords hid far away and admired this rare scene.

The League of Machine Races, the League of Monster Races, the League of Zerg Races, the League of Prison Races... The twelve top power alliances... More than 30 universe masters gathered here a day later.

Among them is the super existence of the Lord of the Galaxy and the Lord of Horn Viper.

The Lord of the Chaotic Source of the Human Alliance is also mixed in.

Their combined attacks can even reach the limit of the original universe.

"boom!"

Another wave of attacks hit the black tower, which trembled violently, as if it was about to disintegrate in the next moment.

The lord of **** sitting alone in the palace opened his blood-colored eyes, stood up abruptly, and lifted his sword.

"The time has come."

[Chapter 544: Full of combat power!](#)

In the virtual universe, Hongmeng is also paying attention to the siege of **** monarchs from all sides.

Knowing that the Lord of Hell has been surrounded by dozens of masters of the universe from all sides and cannot escape with their wings, all the human masters of the universe have a solemn expression.

"It's careless!"

"I'll just say, why do you want to indulge him to take risks?"

"Even if we want to save, there is no way."

Hongmeng could not risk the world to save the lord of **** and offend the forces of the whole universe.

"Fortunately, it was only a clone who fell, and it is a pity that those treasures are a bit of a pity."

Some masters of the universe expressed regret.

Now the **** lord exposed only the high flying palace treasures and the top domain treasures, so they didn't know that Wang Yi's clone was carrying the Tongtian Pagoda, otherwise they would definitely not be able to sit still.

If the Tongtian Pagoda is exposed, the problem will be serious.

"Hunyuan is still too young and energetic, this failure may also be a good thing for him." The Lord of Huang Jian said indifferently.

This time Wang Yi's "willfulness" has indeed made some universe masters quite criticized.

"Chaos, Star Prison, when Chaotic Yuan comes back, you have to tell him well, this time it's okay, but in the future, he will have to stumble one day, maybe it will be too late then." Mother-in-law said.

The Lord of Chaotic Source is related to the future rise of mankind. How important is the opportunity to transcend reincarnation?

No risk can be taken.

In their opinion, it is best for Chaotic Source to hide in the Tongtian Tower and practice safely, if it is not for the consideration that Chaotic Source has to sharpen himself and improve the chance of breakthrough before the end of these three reincarnation eras, otherwise they will miss him. Just stay quietly behind.

Although Wang Yi seems to be guarded by the Xeon, the Xeon is not invincible.

Looking at the three Jedi in the Universe Sea, it seems that the super treasure spacecraft "Spacecraft" created by humans are all destroyed in the Universe Sea, and you can see that this universe is full of mystery and danger.

It is normal for them to worry.

It's okay now, they worry that Wang Yi will be proud and complacent, and take risks at will. Sooner or later there will be an accident.

The Lord of Chaos City and the Lord of Star Prison also looked at each other and smiled bitterly at each other.

"Pang Bo, why don't you talk to Wang Yi?" Chaos City Lord said through a voice transmission.

"Uh..." The Lord of Star Prison touched his face.

If his apprentice is so persuasive, they won't have to gather here to discuss.

"I'll give it a try." The Lord of Star Prison could only say so.

...

All parties in the universe also received the news that the **** monarch was besieged on the primordial star number 00164, and they all celebrated.

But on the primordial star, the masters of the universe are not so happy.

More than 30 universe masters attacked the black iron tower together. Logically speaking, it should be able to annihilate the **** lord's divine body in it with a single blow, and let him disappear.

However, although the Divine Body aura of the Hell Lord continued to weaken, he still stubbornly controlled the black iron tower, which surprised them.

"Is this **** lord so capable? Unbelievable, what kind of life is he?"

But no matter what, being trapped here and surrounded by dozens of cosmos lords, it is difficult even for powerful people like the Chaos City lord to get away. The **** lord is destined to fall here today.

"attack!"

"Go on, don't stop!"

"He's going to be finished soon!"

"Wow!"

"Wait, what is that..."

When the parties were about to join forces again to attack, the black iron tower that traversed everyone suddenly disappeared, and a burly black scaled figure more than 100 meters high appeared.

However, compared with the ordinary giant figure of the Lord of the Universe that was thousands of kilometers high, this figure seemed so insignificant.

"The black tower disappeared."

"The lord of **** is out."

More than thirty masters of the universe stopped.

One of the masters of the universe said: "Lord of Hell, are you finally willing to come out? It's a pity that you have been surrounded by us. Even if you want to run, there is no chance."

"I really don't know that the sky is high and the earth is thick."

"Such an idiot, who dares to fight against all of us, deserves to fall."

A twisted dark void also made a sound, "Lord of Hell, what else do you have to say before you die?"

The head of the **** lord who was heavily surrounded suddenly lifted slightly, revealing **** eyes, looking around, revealing a weird smile. "Death? To die, it is also you."

Be quiet around.

The lords of the universe are all looking at the lord of hell.

"Death is imminent, still such a big tone, really a lunatic."

"His divine body has been weakened to this point, and I am afraid that he has no strength, and he dares to be so rampant."

"Crazy man, get rid of him as soon as possible. Keeping it is a curse."

"Killing so many members of our alliance, I can't wait to cut him a thousand times and suffer the burning of his soul forever."

More than thirty universe lords surrounded the **** monarchs, and did not rush to do anything, but mocked and scolded.

Almost all of these universe masters are extremely powerful. They are all famous super beings in the universe. There are even more terrifying universe masters such as the galaxy master, the golden horn master, the horned viper god, and so on. It is the fifth-order existence!

Any one can suppress the Lord of Hell, let alone a group in front of you!

Even if the strongest in the universe faced so many masters of the universe in the primitive universe, they dare not say that they could win.

The lord of **** is simply mad to say such a fantasy at this time.

The Lord of the Golden Horn sneered.

The horned viper's eyes moved slightly.

The galaxy lord in the dark void shook his head.

The Lord of Chaotic Origin, the humble human race among the many powerhouses, has a very calm expression.

Everything is still at this moment.

The Hell Lord grinned.

"boom!"

In the next moment, his divine body skyrocketed, from more than 100 meters to millions of kilometers!

In front of him, other universe masters immediately became little brothers, like ants.

It's like a two-meter-high person with a crawler less than two centimeters under his feet.

The divine body alone is huge. What is shocking is that the debilitating aura of the divine body of the **** lord suddenly soars and rises steadily.

Ten thousand times the perfect genetic level, coupled with a million kilometers of huge divine body, perfectly crushes any master of the universe present!

"brush!"

The wings spread out behind him, covering the sky and the sun, and the whole world seemed to be shrouded in this shadow.

Many masters of the universe who got too close were caught off guard and were knocked out abruptly.

Wait for them to react from the shock.

A cold voice sounded in a low voice~www.mtlnovel.com~ Tian Luo Di Wang! "

Lines of crystal clear silk threads stretched out from the void, like spider silk, criss-crossing and woven into a huge spider web on the primordial star, and inside the spider web is the lord of the universe who is as small as a bug.

At this moment, the power of Xeon Zhibao unreservedly erupted, and the power was mighty!

The Lord of the Golden Horn originally shrouded the endless light field of the original star instantly collapsed.

The lord of **** slowly pulled out the pitch-black sword behind him, his pupils were scarlet as blood, cruel and cruel.

"Next... is the time of death."

"Are you ready?"

"Welcome the arrival of death!"

[Chapter 545: It's turned upside down!](#)

How strong is Xeon Zhibao's field?

Look at the treasure "Colorful Aurora Lake" of the ancestral gods.

The ancestors of the gods relied on the "Colorful Aurora Lake" to sit in the nest, and no one dared to easily commit crimes.

Even the strongest in the universe will have to go down.

And Wang Yi's "Tianluodiwang" is a supreme treasure that is not inferior to the "Colorful Aurora Lake", and its domain power is of course extremely amazing!

The power is exerted to the extreme, even the Lord of the universe can live and die forever!

At the moment, dozens of cosmic masters from all sides are trapped in the net of heaven and earth.

"what?"

"what is this?"

Shocked exclamations sounded one after another.

The power contained in the endless silk light around made them all feel great pressure.

Especially the irresistible bondage! The Lord of the Universe is unable to break free from being caught in it.

The Lord of the Golden Horn was even more shocked. He looked at the endless criss-crossing silk thread world around him. His peak, treasure, light realm was torn apart and crushed by this silk thread world easily just now. Cast it and be crushed immediately.

"My endless light domain was displayed by the peak domain category treasure. Even the strongest in the universe can't easily suppress it to this degree. What is it..." The Golden Horn Lord couldn't believe it.

"This is the treasure of the **** lord? Why does it feel that it is almost comparable to the power of the colorful Aurora Lake of the Ancestral Gods."

How precious and rare is the Xeon Treasure?

As we all know, the Primordial Universe is one of the most powerful treasures in the domain, that is, the colorful Aurora Lake of the ancestors of the gods.

However, other peak domains are far from being compared with Wucai Aurora Lake.

The colorful Aurora Lake is the endowment of the original will of the universe. With the colorful Aurora Lake, the ancestors can secure its position as the number one power in the primitive universe, guard the nest, and frighten the Quartet.

After all, the three ancestor gods taught by the ancestors are not the strongest in the universe, and there is no small universe as a backing. The reason why they have always stood firm is because of the protection of the universe's original will and the second because of the colorful Aurora Lake.

However, the realm that appeared in front of him showed the power to make the masters of the universe dumbfounded.

That irresistible pressure forced some masters of the universe to burn divine power to resist it.

"What the **** is this? Is it really a domain treasure?"

"This is a realm-type treasure displayed by the **** lord? But where did he come from such a powerful treasure?"

Until now, no one can believe that this is the Xeon treasure.

It can only be guessed that this is a "quasi-Xeon treasure", just like the strange thing or the pinnacle of treasure suit, it has the power close to the Xeon treasure.

"no!"

"The **** is too strong!"

"This **** lord actually hides such a terrifying treasure. If he takes it out at the beginning, we can't stop him at all. What on earth does he want to do?" Some universe lord realized something was wrong.

Some universe masters also use their domain-type treasures, but even the peak domain treasures of the golden horn masters collapsed under the pressure of the strongest treasures, let alone them.

"Lord of the Golden Horn! Where's your most treasured realm? Can't it block this silk thread realm?" The flame star master flies hard in the endless silk thread winding, the silk thread is crystal clear, the roots are extremely tough, even the master of the universe is very difficult Break free.

"No! Not at all! My endless light field can't be used here at all!" The Lord of the Golden Horn said in a voice transmission, "Go, let's go, I feel that something big will happen next, and we can't stay here anymore. Let's join hands. , Break out first."

The Lord of the Flame Star and the Lord of Light Yan both felt incredible. The Lord of the Golden Horn was the Lord of the fifth-order universe and had the power of a clone. The one in front of him was his strongest divine body. Are they afraid of the **** lord's realm in front of him?

What the **** is this?

Dozens of masters of the universe are like flying insects that have fallen into the spider web, struggling, and the lord of **** has revealed his fangs, that is, the spider that is about to start hunting, and these are his prey.

"kill!"

Wang Yi burned his divine power, the breath of the divine body reached its peak, turned into a stream of light, and flew towards the nearest lord of the universe.

In order to attack the lord of hell, every lord of the universe was divided into various camps and gathered in twos and threes, and they were very close to Wang Yi, otherwise it would be convenient to attack.

They didn't expect it to become a reminder for them.

Surrounding the endless silk thread domain, the mighty power is mighty, the pressure is outrageous, now trapped by the net of heaven and earth, their speed of action is much slower than Wang Yi, and their strength has been suppressed and weakened by at least one level.

However, Wang Yi's strength has improved under the blessing of Tianluodi.com.

There was a big gap in power originally, so one increase and one decrease, one goes down and the other grows, and the result can be imagined.

The three universe lords of the Nine Regions Alliance saw the **** lord flying over and looked at each other.

Since you can't escape, fight.

They have three masters of the universe, all of whom are long-known figures among the masters of the universe, and they are not necessarily afraid of this **** lord.

The wings of the **** lord vibrated like lightning, avoiding the attack of the other two universe masters, and rushed to one of the universe masters, with **** eyes blooming brilliance.

"Wanzai Spring and Autumn!"

A knife light that was beautiful enough to shock the soul of the Lord of the Universe lit up. This **** knife light slashed through the void and directly came to the Lord of the Universe in an unrivaled posture. The Lord of the Universe's eyes widened and he was furious and tried his best. Swinging the battle axe in his hand, cast his most powerful "Yu Ming Liushuang"!

Bang! The tomahawk flew away directly, rolling in the void.

The blood-stained sword light smashed directly on the divine body of the Lord of the Universe without any reduction in speed, and the Lord of the Universe was full of horror: "What kind of power is this! This is... This is better than any one I have encountered in the long years. The Lord of the Universe is even more terrifying!"

This sword technique is already beautiful to shocking, and it completely represents the ultimate of a kind of Tao! The ultimate of a law!

But more importantly, the weapon in his hand completely crushed the weapon level of the Lord of the Universe.

Xeon Supreme War Sword "Fantasy Slash"! After thousands of years of comprehension and research, Wang Yi completely urged Wang Yi to issue the second secret pattern! The extensive secret pattern on the black sword glowed with blood.

This is not the treasure of palaces like the Star Tower, but the treasure of war swords that specializes in killing!

Although the attack has not reached Tier 6, there are also top tiers of Tier 5!

In addition, the Lord of the Universe is suppressed by the heaven and earth network
~www.mtlnovel.com~ weakened!

The strength gap is huge!

So as soon as the weapon of the Lord of the Universe touched, it was smashed into flight.

"Peng..." The black sword smashed directly on the Lord of the Universe with unstoppable force. The power directly reached the limit value of this top-level Arcane Armor, making the Arcane Armor that was originally enough to weaken the impact to one-tenthousandth... The attack weakened less than one percent!

Infinite impact, all fall on the Lord of the universe!

Bang!

Under the poignant light of the sword, the divine body of the Lord of the Universe was instantly annihilated, leaving only a piece of exquisite treasure armor with a dark glow in suspension. As for the world ring and battle axe, they had long been thrown away into the distance.

With the power of a sword, a master of the universe has fallen!

[Chapter 546: Kill the world crazy! ! !](#)

The Lord of the universe of the Nine Regions Alliance fell so fast, and it had something to do with his choice of the wrong way of confrontation.

If he didn't choose to head-on with Wang Yi, but instead stood guard, he might be able to support a few more moves.

Without being blocked by the supreme weapon, all the power of the **** lord's move was bombarded on the Lord of the universe. With the blessing of the supreme supreme war knife and the domain power, the power of this sword surpassed anyone's imagination.

Even the top treasure armor can't bear it, and can't do anything.

Can only watch the master fall.

The other cosmic masters nearby couldn't believe their eyes when they saw this scene.

"what?"

"The Lord of Stone Axe was actually killed by the Lord of Hell with a single knife?"

An invincible universe master was killed so easily, the scene before them was so unreal, a sense of absurdity floated in their hearts.

Wang Yi also received a panel message prompt.

[Kill a master of the universe, reward 430,000 killing points.]

[Kill the Lord of the Universe: 2/10]

The Lord of the universe did not have a clone. When Wang Yi killed him here, he fell completely.

Subsequently, Wang Yi rushed towards the other two universe masters of the Nine Regions Alliance without hesitation.

Since he dared to chase him, he must have the consciousness of being killed.

"The Lord of Stone Axe is dead?"

"How can it be?"

All the masters of the universe were frightened.

The Lord of the normal universe fights, unless there is a huge gap, it is impossible to kill the other party.

The Lords of the universe who can come here are actually not too bad, basically they are at the level above the third level, slightly weaker such as the "Lord of Sirius", and there is also a "Sirius Palace" to save their lives.

It's a pity that it was weakened and suppressed by the Xeon Supreme Realm too. Wang Yi has the Xeon Supreme Sword in his hand, and his divine body is also ten thousand times perfect. The sword technique is also regarded as one of the first-class masters of the universe... The Arcane Armor couldn't hold it at all.

Weakened ten thousand times, and weakened less than a hundred times, the gap may be a thousand times.

The difference in strength is a thousand times, it is strange that it is not crushed.

Seeing the **** lord rushing over, the two universe lords of the Nine Regions Alliance also panicked.

They are almost the same as the master of the stone axe, and there is even a high-level armor on his body, not as good as the master of the stone axe!

But in this case, can the **** lord let them go?

Of course it is impossible.

There is no escape. They seemed to be the dominant party and suddenly fell to the status of the previous **** monarch, and they were even more sad. After all, the **** monarch also had a high-level flying palace treasure, which they did not have.

"Lord Mu Heng!"

"Lord Yaye!"

The lord of the two universes glanced at each other, and they all understood that now when it comes to life and death, they can only fight.

"kill!"

The Lord of Mu Heng controlled eighteen scimitars as huge as stars and slashed towards the lord of hell. This is his thought power treasure suit, which can be comparable to the top treasure in total.

On the other hand, the Lord Yaye, who looks like a bright silver vine, the Lord of the universe of plant life, wields tens of thousands of kilometers of vines and beats Wang Yi overwhelmingly.

It's just that their movements are inevitably much slower under the obstruction of countless crystal silk threads.

"brush!"

The black figure of the **** lord flashed past their attacks like a ghost.

The poignant and sharp light of the intoxicating sword suddenly descended, illuminating the horrified expressions of the masters of the universe.

"No!" The lord of Mu Heng was Wang Yi's first target, and he still wanted to resist.

There are other treasures guarding him.

But even if the Lord of the Universe wanted to stop it, he couldn't stop it. Under the constraints of the domain, his strength was too limited, and Wang Yi's sword was so fast and terrifying that even the Lord of the Universe's thought-power weapon had not had time to stop it. .

If the weapon can block...then the remaining power after the weapon is blocked is much weaker, after the treasure armor is weakened, the Lord of the universe can resist it.

Unfortunately, there is no if.

Even if the previous master of the stone axe, all the weapons had been slashed out directly.

The strength gap is too large, even if the defense can't do it.

"Boom..." In the horrified eyes of the Lord Mu Heng, the sword slashed on his chest like a streamer, and the Lord Mu Heng's divine body was thousands of kilometers high, but his body was a high-grade armor. Therefore, the weakened is much worse than the previous master of the stone axe. With just such a cut, the master of Mu Heng stepped into the footsteps of the master of the stone axe, and the divine body was annihilated and cleansed instantly.

The second Lord of the universe has fallen!

[Kill a master of the universe, reward 470,000 killing points.]

[Kill the Lord of the Universe: 3/10]

The second Lord of the Universe killed by Wang Yi also didn't have a clone, so he directly gave a full kill value of 370,000.

If you have a clone, you can only get one-tenth.

Seeing the lord of **** instantly kill the second lord of the universe, all the lords of the surrounding universe were dull.

And the last universe lord of the Nine Realms Alliance, "Lord of Yaye", was also terrified.

"Lord of Hell, how could it be so terrible?"

"It can kill a cosmos lord in an instant, this kind of strength is at least at the level of the galaxy lord, chaos city lord?"

That's right, the Lord of the Universe can also kill the Lord of the Universe, but that requires a huge difference in strength, and the opponent does not have a powerful means of life-saving.

Like "Lord of Sirius", it is very difficult for Chaos City Lord to kill.

It's not impossible. It was the Lord of Sirius who hid in the palace, and the attack of the Lord of Chaos could not directly damage the Lord of Sirius through the palace.

But now the Lord of Hell is beheading the two masters of the universe one after another in the face-to-face duel, and they are not the ordinary masters of the universe.

What kind of strength is this?

When is there such a terrifying cosmic master in the universe?

Because the distance is too far, and there is the **** of the silk thread domain, other universe masters are too late to rescue, and can only watch their companions being killed.

There is no doubt that at this moment, these lofty masters of the universe are all shocked.

Even the masters of the fifth-order universe, such as the Lord of Galaxy and the Lord of the Golden Horn, were full of shock.

The three universe masters of the Star Giant Beast Alliance glanced at each other, their eyes solemn.

"Lord of the Golden Horn, are you sure to deal with the Lord of Hell?" the Lord of Yanxing asked.

After seeing the power of the sword, the Lord of the Flame Star was a little confused. He believed that he was not an opponent of the Lord of Hell.

The Lord of the Golden Horn thought for a while and shook his head, "If I were not bound by this silk domain, I might still be able to fight with this **** lord, but the oppression of this domain is really incredible and outrageous." The Lord of the Golden Horn was dark golden. There was a trace of shock in his pupils, he hesitated for a moment, and said: "I suspect, this is the Xeon Treasure..."

Both the Lord of Yanxing and the Lord of Guangyan were stunned.

Xeon Supreme?

On the other side, UU reading www.uukanshu. The four masters of the universe of the Com ancestors also gathered together, watching the massacre in the distance.

"Divine Lord..." The three Cosmos Lords under his command became nervous. Their strength is not necessarily much better than the three of the Nine Regions Alliance. Those three fell with ease, and they are probably not much better.

The Horn Viper God Lord looked at the towering figure of a demon **** brandishing a butcher knife in the distance, and shook his head.

"Do your best to protect yourself..."

He faintly said: "The Master of the Universe that the Nine Regions Alliance came here this time is all over."

too crazy!

The Lord of Hell is cruel and ruthless!

The three universe masters of the Nine Regions Alliance have all fallen!

The three masters of the universe fell all at once, still in the hands of the same person, and the whole world was going crazy.

[Chapter 547: Lord of Hell! Terrifying](#)

[Kill a master of the universe, reward 45,000 killing points.]

[Kill the Lord of the Universe: 3/10]

Looking at the message on the panel, Wang Yi frowned slightly. The Lord of Yaye actually had a clone, and the killing mission quota did not increase.

The third shot made him gain a lot less, but he killed the three masters of the universe and he also put away the ring of the precious world left by the opponent, which was not a loss.

Now the lord of the universe from all sides are fleeing! Fly towards the original star vortex channel.

In fact, if they join together, it's not impossible to fight Wang Yi.

It's not that no one has thought about besieging the **** lord, but there have been some breakaways. The surrounding area is oppressive and outrageous. The previous scene of the slaughter of the three universe lord also shocked many people. As a result, all of them gave up confrontation and went straight. Run away.

Even the powerful masters of the universe, such as the Lord of the Golden Horn and the Lord of Galaxy, can only choose to leave, and they don't have the confidence to fight with the Lord of Hell in such a strong treasure realm.

Too bad for them.

However, under the restraint of the "Sky Net", their speed is naturally far slower than before, one by one doing their best, still flying slowly.

Wang Yi glanced away and quickly selected a target.

The two masters of the universe in the Prison League are also very close to him.

The goal is of course not chosen randomly.

One is to look at the distance.

The second is to look at the opponent's lineup.

If there is such a strong master of the universe as the Lord of the Golden Horn and the Lord of the Galaxy, even if Wang Yi wants to kill it, he can't do it.

Unless Wang Yi dispatches other clones, this is impossible.

Seeing Wang Yi chasing him, the strong man of the Prison Clan Alliance felt distressed, and then there was a scene where the two universe masters of the Prison Clan Alliance fled separately.

Obviously they recognized the situation and didn't dare to fight head-on with the **** lord here.

Can only escape one by one.

Then there was such an absurd picture.

Dozens of famous universe masters who were still awe-inspiring before were chased by the underlord's sword like a group of ducks. They didn't dare to turn their heads back to fight. Eye-opener.

They have never seen such an exciting sight.

The three masters of the universe were killed one after another in an instant.

The masters of the universe from all forces in the universe were suppressed and chased by the **** monarch alone.

The invincible posture and domineering figure of the **** lord made them fascinated and excited.

This is the super power that truly stands at the pinnacle of the universe!

And there is also the Venerable Universe who noticed that the two divine bodies of the Great Alliance of Humanity, the Master of Chaotic Source, ran the happiest.

They still ran in front of several universe masters in the Yaozu League, making them stare.

"Hey, isn't this what, the bereaved dog?"

The words of the Lord of Chaotic Source floated over, making the Lord of Sirius who had already hid in the flying palace and tried to fly desperately wanted to vomit blood.

He wanted to say something, I am a bereaved dog, so what are you doing? Are you still running away like me?

At this time, a universe lord of the prison clan alliance has been overtaken by the **** lord.

He roared in anger and could only bite the bullet to fight.

If the Lord of the universe of other forces could beg for mercy or threats, but now everyone knows that the Lord of Hell is an out-and-out lunatic, unable to communicate at all, and no one would do such useless work.

He even killed three of the masters of the universe of the Nine Regions Alliance, so he still cares about killing one more?

"Ah! Lord of Hell, my Prison Alliance will help me get revenge!"

The grief and anger of the universe lord of the Prison Clan Alliance was not dead yet, but his body was greatly damaged, and in the end he could only blew himself up.

"Boom!" Accompanied by the dazzling big explosion, under the powerful restraint of the original star, it still swept through tens of millions of kilometers and then annihilated.

However, this explosive power is naturally not painful to Wang Yi wearing the Xeon Arcane War Armor.

He stretched out his hand, bound by his divine power, and directly put the world ring and the treasures left by the strongmen of the prison alliance into his world ring.

[Kill a master of the universe, reward 500,000 killing points.]

[Kill the Lord of the Universe: 4/10]

He looked around and found that his killing speed was still too slow.

Before the killing was finished, most of the people ran away. Even if he kept chasing, he could kill a few more in the end. Those cosmic masters weren't so stupid, they gathered together and let him kill.

And gathered together, there are such difficult things as the Lord of the Golden Horn and the Lord of the Galaxy.

Almost all the masters of the universe possessed the flying palace treasures, and he could only stare at him once he took his companions.

Some cosmos masters just flew in the direction of those powerful cosmos masters, seeking refuge, face is not important at this time, so Wang Yi frowned secretly.

Moreover, the Supreme Treasure Domain he currently controls can only suppress the restraint, but there is no way to directly annihilate the Master of the Universe so powerfully, or the strongest in the universe will fully urge the Strongest Treasure Domain to have this power, but Wang Yi can't do it yet. .

A quick decision must be made.

Wang Yi immediately made up his mind.

"Humph!"

Standing high in the sky, the lord of **** gave a cold snort, with a grinning smile on his face.

"Thinking to run far, I can't do anything with you?"

The strongest talent secret-Mirage World!

The endless body burns at a terrifying speed!

The "mirage bead" in Wang Yi's body also shined brightly, the simple and complicated secret patterns were lit up, and the looming snake-shaped creature leaped out of it.

"Ang~~~"

The Lord of the Universe, who was fleeing under the pressure of the world of Silk Threads, was suddenly shocked and discovered that the surrounding scene had changed.

An ancient breath is awakening from behind.

The whole world suddenly became completely dark, and I saw countless dark air currents surging wildly. For a moment... the whole world seemed to have entered another world instantly, this is a chaotic world, which is full of endless chaotic air currents!

When Wang Yi was Venerable Universe before, he used this trick to capture tens of thousands of Venerable Universe in one fell swoop, but it was completely incomparable with the present.

Just like the giant Yanxing beast of more than 1,000 kilometers and the avatar of Youhai nearly 10,000 kilometers in height, the difference in size may be thousands of times!

So, how many times is the giant flame star beast clone of millions of kilometers?

And such a vast divine body, while simultaneously using the "Secret Technique of the Strongest Talent" and the "Miracle Bead", it instantly burned 3%!

Such a huge amount of divine power burns in an instant, how terrible is the power exerted?

The strongest talent secret method "Mirage World" and Xeon Supreme Treasure "Mirage Bead" are combined with the second secret pattern which is urged to the extreme~www.mtnovel.com~ It is equivalent to the perfect combination of the strongest secret methods of the two masters of the universe!

Coupled with the suppression of the Xeon's "Treasure Net" and the suppression of the cosmic origin of the microcosm, many of the cosmos masters caught in it are mired in a quagmire. Their actions are extremely difficult, involuntarily, and suddenly have a sense of imminent disaster.

"Woo~~"

The wind rose, and in the chaotic air current, a behemoth, terrifying creature that made one's heart palpitating, slowly walked out.

The body was twisted and stretched for hundreds of millions of kilometers. The strange life like a dragon and a snake slowly lowered its huge head. The eyes that had been closed suddenly opened, staring at the Lords of the universe below.

"boom!"

The next moment, as if the sky were falling, an unimaginable soul pressure suddenly fell!

[Chapter 548: Lawless](#)

The Lord of the Universe is the strongest secret method, and many of the highest level of the Lord of the Universe can create it.

But the fusion of the strongest secret method is generally only the master of the fifth-order universe can do it.

If you want to play a stronger strength, the fusion of the strongest secret method is already the ultimate, you have to use Xeon Zhibao.

Normally, it is easier to induce secret lines than to create secret lines!

Like those of the sixth-order universe masters, none of them have created the secrets of the strongest level in the universe, but they can spur the secret patterns of that level!

Now Wang Yi burns the divine body at any cost, and with the help of Xeon's supreme treasure "Mirage Orb", completely urges the "Mirage World" to raise the power of this talented secret method to another level.

When the "mirage" appeared, the masters of the universe who had fallen into the chaotic air current world looked up and saw, they couldn't help but be stunned.

"This is....."

"The strongest secret!"

"It is the strongest secret of the soul of the **** lord!"

Some masters of the universe realized something and exclaimed.

The horned viper **** master glanced at the three surrounding subordinates, and said in a deep voice:
"I will swallow you into my body. Don't resist."

Before the three masters of the universe nodded, he opened his big mouth. The snake's mouth opened to the extreme. A powerful suction came from the black hole, which absorbed the three masters of the universe, and then closed it again.

This is the innate ability of the "Hornviper God Lord" as a special life.

Then the "Horn Viper God Lord" raised his head again and looked at the huge chaotic creature, with a hint of shock in his eyes.

From the appalling pressure, he could vaguely feel that this was not the strongest ordinary secret method. For the sake of safety, he immediately took the three masters of the universe into the special space of his body for protection, instead of using the palace treasure.

It is necessary to know that the soul attack can destroy the body and the clone.

Regardless of whether the clone or the main body encounters a soul attack, one will die, and all of them will be implicated, and the same will die.

"boom!"

When the soul attack fell, the masters of the universe in the chaotic airflow were attacked at the same time in no particular order.

That soul attack was so domineering and powerful.

The mighty, swept over.

The masters of the universe facing the attack feel like ants facing the impact of the waves, so small and fragile.

"Peng!"

A cosmic lord of the top alliance was flying, suddenly his whole body was shaken, his eyes lost his spirit, and he fell dejected.

Soul killing is different from divine power attack. It destroys the soul consciousness in the mark of life, so although the soul is destroyed, the divine body is still there.

"what!"

Another master of the universe burned the divine body to resist, but just one or two breaths, and also stepped into the footsteps.

The escaping team of the Monster Race League also encountered the gaze of chaotic creatures, and the "Lord of Sirius" in the Heavenly Wolf Palace was panicked.

"No, my palace can definitely be blocked, and I still have the guardian of the soul treasure, this attack can definitely be..."

"boom!"

At that moment, a powerful and unimaginable soul attack fell on him.

The Lord of Sirius' eyes dimmed.

There is still unwillingness in his eyes.

"Peng!" The huge corpse fell, and the Heavenly Wolf Palace, which was not controlled by the owner, also stopped in place.

The palace treasure is mainly to weaken the material shock, like this soul attack, especially the high-level soul attack, but it has no effect.

The strongest fusion method like "Lord of Galaxy" can kill a universe lord with one move.

Wang Yi's also relied on the Xeon's supreme treasure "Mirage Bead", how could it be less powerful than the "Lord of the Galaxy".

The chaotic airflow of the "mirage world" filled tens of billions of kilometers in diameter, and a huge snake-shaped creature was scanning below.

Wherever he looked, the lord of the universe fell.

Their soul consciousness was destroyed, and similarly, the clone divine body and divine power incarnation they left behind were also destroyed.

It's just that the former will still retain the divine body, and the latter can't even keep the divine body.

The masters of the universe below Tier 3 hardly have the ability to resist, and they fell one after another under the power of the soul attack that surpassed Tier 5.

On the side of the towering palace of the Lord of the Golden Horn, "Boom..." The sweeping virtual divine impact instantly swept the entire palace treasure. Only the Lord of the Golden Horn and others have protected the Lord of the Universe on his side, and most of them attacked. It all fell on them, and they could barely resist it.

Feeling the impact of this virtual divine power, the Lord of the Golden Horn, the Lord of the Galaxy, and the Lord of the Horn Viper all looked ugly.

As the strongest group of universe masters in the original universe, they naturally have soul defense methods, but they have never seen such an amazing soul attack on any universe master!

This is beyond imagination!

It feels almost reaching the power level of the strongest in the universe!

"The Lord of Hell has such a terrifying soul attack method..." The Lord of the Galaxy tried his best to resist the impact of the virtual divine power, feeling that his divine body was constantly being consumed. He is a special life, and the divine body is naturally not simple. Bei Jiang Alliance He resurrected countless cosmic masters, and it can be seen from this that the divine body possessed by the "Lord of the Galaxy" is absolutely extraordinary.

But even so, he could feel his divine power being eroded at an unprecedented speed.

"I can stop it, other forces will be miserable."

The Lord of Galaxy looked around and sighed inwardly.

"This **** lord is absolutely lawless. This time, the Primitive Universe will be turned upside down by him alone."

That's horrible!

Under the soul attack of the **** lord, the lord of the universe who lacked the means of soul defense fell down immediately.

And then, in less than ten seconds, some people who couldn't hold on were killed.

Most of the slain were the masters of the universe below the third order, and there were also some unfortunate fourth-order universe masters who did not resist the past due to their own weaknesses.

Those who can survive are either as powerful as the Lord of Galaxy, or the Lord of the universe who has the means of soul defense.

Everything else fell!

In addition, the three universe lords of the Nine Domains Alliance who were killed by the **** lord before, at this time more than 20 universe lords have fallen!

Because he was too close to the **** lord, the **** lord broke out too fast. From the **** lord's sudden eruption to the world of chaos, the battle actually ended in a very short time.

As a result, more than twenty masters of the universe from all sides of this action have fallen!

Although this is only less than one-third of the number of the masters of the universe ~www.mtlnovel.com~ and most of the masters of the universe did not rush over in time due to distance issues, this is already an extremely shocking number.

"call!"

The chaotic air flow dissipated, and the huge snake-shaped monster also disappeared, revealing the figure of the **** lord.

He overlooked it all.

Above the Primordial Star, huge corpses of the Lords of the Universe floated, and the sight made people feel chilling. Those Universe Venerables within a radius of tens of billions of kilometers had already been wiped out.

The surviving universe lord on the entire primitive star is less than one-third of the previous one. Even if the galaxy lord is attacked by the overwhelming souls, it is difficult to shelter all the universe lords under his command, and there are also the universe lords of the Northern Frontier Alliance. Fall.

everything is over.

[Chapter 549: The wrath of the strongest in the universe](#)

Wang Yi's panel messages rolled frantically.

[Kill a master of the universe, reward 440,000 killing points. 】

[Kill the Lord of the Universe: 5/10]

[Kill a master of the universe, reward 420,000 killing points. 】

[Kill the Lord of the Universe: 6/10]

[Kill a master of the universe, reward 480,000 killing points. 】

[Kill the Lord of the Universe: 7/10]

...

[Kill a master of the universe, reward 520,000 killing points. 】

[Kill the Lord of the Universe: 13/10]

...

【Kill a master of the universe, reward 570,000 killing points. 】

[Kill the Lord of the Universe: 21/10]

...

At the end, the record information of the panel stopped.

[Kill a master of the universe, reward 460,000 killing points. 】

[Kill the Lord of the Universe: 27/10]

【Killing value: 12285060】

In other words, starting from Wang Yi's killing of the first master of the universe of the Nine Domains Alliance, to the use of the "mirage world" to carry out large-scale sweeps and killings, a total of 26 masters of the universe were killed!

And finally it is the soul attack, the extermination at the soul level, and the body clone will exterminate together! So the kill value obtained is complete.

There are also tens of thousands of Universe Venerables who have been killed before, and they also have millions of killing points.

Of course, compared to the reward given by the Lord of the Universe who killed it, it was nothing short of a big deal.

Wang Yi exhaled slowly.

Scan the Quartet.

I feel a little unbelievable.

More than twenty masters of the universe were killed by their own souls with little resistance.

This is the lord of the universe, and any one is the pillar powerhouse of the race! Anyone who owns the Lord of the universe is a powerful race in the universe, and even super powers such as the Hongmeng of Mankind must pay attention to its existence.

Each is the overlord of the universe!

The human race has just passed twenty masters of the universe!

And now, alone, twenty-six masters of the universe have been killed in one battle!

Except for the "Lord of Yaye" of the Nine Regions Alliance who was lucky enough to be spared, all the others have fallen!

This is the Lord of the Universe, not the Venerable Universe. Once he dies, he cannot be resurrected!

"After completing another killing mission, you can get a 50% golden chance card." Wang Yi glanced at it and ignored it.

The most important thing now is to clean up the current original Star Battlefield.

Those lords of the universe were killed by their souls, and the gods and treasures remained intact. These were the spoils of Wang Yi alone.

This is a huge asset.

The wealth of the twenty-odd masters of the universe, although not all of them, is also the vast majority, adding up to an amazing number.

For Wang Yi, there are still many uses for their treasures, whether it is to exchange for treasure points with the panel or to draw prizes on the original stars, they are all very useful.

"This time, it's really a big gain." Wang Yi was in a good mood.

The endless glittering silk threads on the Primordial Star were intertwined, and the Xeon Supreme Realm used to control everything. Wang Yi easily controlled the domain and gathered all of them. Fortunately, because they were close to Wang Yi, they didn't run far, so it didn't cost much. time.

The remaining teams who are trying to stay away from the battlefield are also very anxious.

"Run, the lord of **** is crazy."

"Damn it, there are endless silk threads everywhere, these silk threads are so powerful that they are entangled desperately... The palace treasure can't fly, and the speed of flying is too slow."

"Can't fly."

"The domain thread has been entangled."

The Lord of the Golden Horn, the Lord of Horn Viper, etc. all felt headaches. They only felt that there was a lot of resistance when controlling the palace's treasure to fly, and the crystal silk threads seemed to be crazy about the palace.

Fortunately, their speed is even slower under the suppression of the chaotic air currents of the microcosm and the origin of the universe.

The only thing that made them feel at ease was that the **** lord seemed not to care about them anymore, and instead went to collect the treasures of the fallen universe lord.

It's just that they are very embarrassed now, and the action team has changed from nearly forty before to more than ten now, and more than twenty cosmos lords have been killed by the **** lord alone.

This embarrassed them.

And when the news spread, the primitive universe also ushered in a violent shock!

...

The territory of the demon race belongs to the independent small universe of the ancestor of the earthquake demon.

"Roar....."

A loud roar sounded.

When the Lord of the Universe of the Demon Race Alliance was killed, all the incarnations of their divine powers gathered here disappeared at the same time, and the Demon Ancestor who mastered the entire small universe immediately discovered it.

"The divine power incarnation of the Lord of Sirius has disappeared, and the divine power incarnation of Lord Louwa has also disappeared." The huge figure of the sawtooth shell alien beast of the ancestor of the tremor descended on the place where the consciousness of the masters of the virtual space and the universe gathered. The universe also has a virtual space, which is convenient for the masters of the universe to communicate.

"The only one who is still alive is the Lord of Tongling."

"Master of Tongling, what is going on!"

Facing the question of the Demon Ancestor Shock, the Lord Tongling in the palace walked out and bowed slightly, his expression remaining shocked that could not be concealed.

"The Demon Ancestor Zhen, is like this..."

"Lord of Hell!" Hearing the report from the Lord of Tongling, the demon ancestor shocked his body.

"You said, that the supreme realm of the **** lord, even the peak realm of the golden horn lord of the Star Behemoth Alliance, can't match the supreme realm, and it collapsed instantly?"

"Yes." The Lord of Tongling recalled his previous memories, with a frightened expression on his face, "The silk thread domain is utterly outrageous and terrifying. I feel that there is no top treasure armor in the universe, and the Lord of the universe will burn divine power. It can be sustained. Even if it burns divine power, it is difficult to sustain it for too long. Except for Wucai Aurora Lake, I have never seen such a powerful treasure field..."

"Do you suspect that this is a supreme treasure?" The Demon Ancestor Zhen felt incredible.

How much is the Xeon Treasure in the entire primitive universe? Even if he didn't.

Also dream demon ancestor, there is a strongest treasure armor.

It's incredible that a master of the universe who didn't know where he came out owns a supreme treasure.

"Also, the Lords of Sirius were killed by their souls, and they were killed by the strongest secret method of souls used by the **** lord in Blue Pole Iceland." The Lord of Tongling connected. "However, the power is too strong. I just supported it for just ten seconds, and the divine body lost more than 30%. This is the most terrifying soul attack among the Lords of the Universe I have ever seen..." The Lord Tongling also revealed An expression of lingering heart palpitations.

This is still a large-scale raid~www.mtlnovel.com~ and it is not aimed at him alone. If all the power is concentrated on him alone, the Lord of Tongling doesn't know whether he will survive.

too frightening!

The oppression of that realm makes people inevitable, plus that terrible soul attack, it is simply a nightmare.

"Damn it!" Knowing what happened before and after, the ancestor of the Demon Earthquake, the strongest in the demon universe, couldn't restrain his anger.

The Monster Race is only the Lord of the Universe. Although the Universe Lord in the Alliance fell this time, the Monster Race also has the Lord of Sirius.

This loss was too heavy, even the Demon Ancestor Shaking could hardly accept it.

"Lord of Hell!"

The anger of the strongest in the universe spreads in this universe.

And there is more than one who is as angry as him.

[Chapter 550: The prestige of the strongest master of the universe! ! !](#)

The Primitive Universe, these years, are simply eventful, with constant big news.

No, the primordial star **** monarch killed 26 universe masters in one fell swoop. When this news spread in the primitive universe at an unimaginable speed, the primitive universe was completely crazy all at once.

Compared with the enslavement of tens of thousands of cosmic venerables in the "Blue Pole Iceland" in the Brahma Breath secret by the **** monarch before, the shock caused by this incident is even greater.

Even the tens of thousands of Cosmos Venerables killed on the Primordial Star are nothing.

"Lord of the universe, none of our ethnic groups have fallen to twenty-six in a sudden!"

"Our Nightfire Alliance has fewer than thirty universe masters in total!"

"How can the lord of **** do it, that's the lord of the universe!"

All parties are crazy.

Countless strong men are preaching the name of the lord of hell, and they are deeply afraid of this name.

The prestige of the Hell Lord has even completely overshadowed the name of another evil existence in the universe, the "Blood Cloud Palace Master". Compared with the previous "Blood Cloud Palace Master", the Hell Lord is undoubtedly more evil, more cruel, and more terrifying.

After all, the "Blood Cloud Palace Master" also killed the two cosmic masters, or killed them separately.

But the **** monarchs killed more than 20 people in one battle!

Moreover, it was achieved in a frontal battle with more than 30 universe masters from various forces. Among these universe masters, there are even the golden horn master, the galaxy master, and the horned viper masters. A superb figure at the pinnacle of the Lord of the Universe.

But they weren't the opponent of the **** lord, and he was killed by the **** lord chopping melons and vegetables!

Others, under the butcher knife of the **** lord, all chose to flee.

This kind of record cannot even be achieved by the strongest in the universe, because the strongest in the universe is bound by the laws of the original universe and cannot attack the Lord of the universe.

To kill a master of the universe, the strongest in the universe will have to face severe punishment. After killing the Lord of the Universe, he will be severely punished and the divine body will be severely damaged!

And how terrible is the deterrent power of the **** lord who can do this? After all, he is not the strongest in the universe, but he is not subject to too many restrictions!

Even the lord of the golden horn, the lord of the galaxy, the lord of the horned viper, and the lord of the universe, who are comparable to the lord of the Chaos City, are not the opponents of the **** lord, which makes people feel incredible.

There is no doubt that the battle of the **** lord has established his position as the strongest cosmic lord of the original universe!

And the lord of **** has also become the most terrifying and evil cosmic lord of the primitive universe.

Some people even think he can fight the strongest in the universe.

The news that the **** lord possesses the most powerful treasure also spread in the primitive universe, attracting the attention of countless people.

Many powerhouses are relieved. In the original universe, the Lord of the Universe has never had the Xeon Supreme. If the Hell Lord possesses the Xeon Supreme, then it will be understandable to achieve this kind of result.

And some of the strongest in the universe were also attracted by this news.

The supreme treasure is so precious, it's a pity to fall into the hands of a universe master, and they want it too.

...

The virtual universe, the temple of the giant axe.

Twenty masters of the human universe, including the creators of the great axe, gathered here in silence.

When the news that the local **** monarch had killed 26 cosmic masters on Primordial Star came back, the entire human top level was also shocked.

So in the atmosphere like this, everyone was in shock, but didn't know what to say.

Even the creator of the giant axe was shocked.

Although he is the strongest person in the universe, he is subject to invisible constraints. Although his strength is monstrous, it is impossible to slaughter the Lord of the universe in this way, and he can't do it.

In the primitive universe, no one can really fight against the original laws of the universe.

Even "original" can't do it.

"Hun Yuan actually killed 26 universe masters this time, how did he do it?"

"Twenty-six people, according to intelligence, including most of the powers of the Lord of the Universe, there are only a few top universe Lords and the Lord of Galaxy that are no less powerful than Chaos."

"Chaotic Source is actually stronger than the Master of the Galaxy. Doesn't this mean that he has surpassed us, surpassed Chaos, and has become the second existence in our race after the Great Axe?"

"In the history of the primitive universe, there seems to be no such precedent, right?"

The lord of the human universe was amazed, still lingering shock on his face.

Although Wang Yi has always displayed enchanting talent and unfathomable potential, his strength has increased beyond imagination, and he even has the Tongtian Pagoda, which leads the race to transcend the possibility of reincarnation, and the mysterious ability that continuously provides treasures to infinite reverie... ..But in the hearts of these ancient universe masters, they have always regarded Chaotic Source as a younger generation who hasn't grown up yet.

Only when Chaotic Source killed a cosmic lord of the Prison Race Alliance in Primal Star, their thoughts were slightly reversed, but they had not completely reversed it. Many people regarded Chaotic Source as an immature junior, and felt muddled in their hearts. Yuan still needs to be tempered, and it is not the most important combat power of the race.

But now, the Lord of Chaotic Source is facing the union of more than 30 universe masters on Primordial Star, but he has killed more than 20 universe masters in one battle!

Twenty-odd people, this is enough to make any pinnacle race cosmos lord to die, even the human race, there are no more than 20 cosmic lords now!

They suddenly realized that they seemed to have never really understood the abilities of the Lord of Chaotic Source.

"There is a legend in the outside world that the lord of **** can kill so many lords of the universe with the supreme treasure." The founder of the giant axe said in a low voice, "we also know that Chaotic Source does have the supreme treasure, but in order to worry about his feelings, We didn't even ask."

"If there is Xeon Zhibao, maybe this step can really be done."

"It's just ~www.mtlnovel.com~ this is incredible. Xeon Zhibao is indeed powerful, but it also depends on who uses it. If you can't really use the power of Xeon Zhibao, even Chaos may not be able to beat it. With so many cosmic masters joining forces, after all, there are also terrifying existences like the galaxy master and the golden horn master."

"It is rumored that the **** lord can suppress so many lords of the universe by using the domain type Xeon." Chaos City Lord said, "plus the tower of the sky, that is two pieces, and we can't know whether Chaotic Source is still there. There are other Xeon treasures, if there are, it would be really terrible."

He sighed, "Perhaps, the first sixth-order universe master of the primitive universe will be born in our human race."

There was silence in front of the temple, and all the masters of the universe fell into thinking.

The sixth-order master of the universe, that is the level that the master of the universe can only reach with the strongest treasures, each can be called an extremely heaven-defying existence among the masters of the universe, has the master of the chaotic source really reached this state?

He has only cultivated for a hundred thousand years, right?
