

A God 551

[Chapter 551: Dream Demon Ancestor Comes](#)

,

The battle that took place on the primordial star number 00164 not only shocked the original universe, but even the universe soon learned that the lord of **** attracted the attention of many forces.

However, compared to the cosmic sea with high mountains and distant waters, the primitive universe in front of you is even crazier.

Participating in this chase operation includes the nine strongest superpowers in the original universe and the twelve top alliances. However, due to location and distance, only a small number of the masters of the universe rushed to the original star number 00164. In fact, there are still some forces. A master of the universe did not participate.

These forces are also very fortunate now, order their own universe lord to retreat quickly, not to provoke the universe lord.

Like the top twelve leagues, they have completely given up their hearts. The Hell Lords who are so strong are no longer what they can deal with, and some of them are even considering whether they can have a good relationship with the Hell Lord or win him over.

In the universe, strength is the most important thing. If you have the strength to fear even the strongest in the universe, then you can run wild.

In the virtual space of the demon clan, in a vast cloud, the towering white palaces undulate, this is where the ancestor of the dream demon is located.

"Meng Tu."

"Shake angle."

The two strongest men in the universe meet between the Yaozu.

In the cloud and mist, there is a huge silver-white snake entrenched, but the snake's body extends far away, looming in the clouds and mist, and it is extremely large. This is the greatest existence of the monster race, the ancestor of the dream demon.

"Where are you at Primordial Star? How long will it take to get to the Lord of Hell?" The Demon Ancestor Zhenquan said eagerly.

As the strongest person in the universe, Dream Demon Ancestor has superb strength. What's more rare is that in addition to the two heaven-defying treasures "Dream Ancestral Domain" and "Magic Islet Vine", there is also a strongest armor, which makes her the strongest in the universe. China's strength is not weak.

"I'm still on my way to the original star number 00164." The silver-white snake said, "but it will take three hours."

"Three hours is too long. For such a long time, the Lord of Hell has already left. It will be very difficult for us to catch him again." The Demon Ancestor Zhen said in a deep voice. "You must find other ways to let the other strongest of Primal Star closest to the **** lord to contain the **** lord and prevent him from leaving."

"The power of the **** lord is terrifying, and it is suspected that there is a realm-like supreme treasure..." The silver-white snake spit out the snake letter, his eyes are cold, "It is difficult to contain him, and the general Lord of the universe can't even get close to him. Moreover, there is no longer the Lord of the universe in our alliance near the Lord of Hell. The only one who survives is the Lord of Tongling, but the Lord of Tongling alone cannot stop the Lord of Hell."

"No one in our alliance is there, but there are other forces." The Demon Ancestor said, "The lord of the galaxy of the Northern Frontier Alliance, the lord of the golden horns of the Star Giant Beast Alliance, the horned viper of the ancestral gods, as far as I know, Their loss was very small, almost no loss. By the way, there is also the Lord of the Chaotic Source of the human race. He actually survived. He has a peak domain type treasure. It should also be able to contain the **** lord a little bit, but they are not. A member of our alliance."

"There are some risks in dealing with the **** lord, they are not necessarily willing, unless we are willing to pay some price." Meng Yaozu said, "as long as I get there, I can stop the **** lord, and wait for you to come, our two universes are the best The combination of the strong and the others should be enough to deal with the **** lord."

It is true that the strongest in the universe cannot kill the Lord of the universe, but it is not absolute. The Lord of Hell has a treasure against the sky. Both the Dream Demon Ancestor and the Earthquake Demon Ancestor are willing to take this risk, and they can also choose to contain and weaken the Hell Lord's Strength, such as hurting his divine body, reducing his strength, etc., does not necessarily have to be killed in person, and other people can be used to kill the **** lord.

This way the risk is much lower.

At the worst, you can also seal him, and then take it back to find a way slowly.

"Then I will negotiate with other forces immediately, hoping that they can agree to our request." Demon Ancestor Zhen said in a low voice.

"The lord of **** is our common enemy, I believe they will agree." Meng Yaozu was very confident.

No matter what the **** lord did, the act of killing the universe lord of their alliance, or the treasure in the **** lord, they couldn't easily give up.

...

Original star number 00164.

Wang Yi's Xeon Supreme Treasure domain is still covering the entire Primordial Star, and he is collecting one by one the divine bodies and treasures after the Lord of the Universe has fallen.

The "Lord of the Golden Horn" and other cosmos masters spent a lot of effort, and finally rushed to the vicinity of other vortex passages with great pains, and when they left here, they were really safe.

Now there are only a dozen lords of the universe left on the Primordial Star, including three from the Star Giant Beast Alliance, four from the Ancestral Gods, four from the Northern Frontier Alliance (a few fallen), and Tongling from the Monster Race Alliance. The Lord, as well as the Chaotic Origin Lord of the Human Alliance, but he only has one divine body appearing, and I don't know where his other divine body is, whether he was killed or hid, and other people are not interested in taking care of it.

For many of them, this section of the road is probably the longest road in their lives, mainly because of uneasy feelings.

This battle completely fulfilled the prestige of the Lord of Hell, and turned people like them into a big joke.

But seeing the ubiquitous and mighty endless crystal threads on the Primordial Star, they did not have the mood to continue fighting with the Lord of Hell, and they made up their minds to see the Lord of Hell in the future. This is the most precious realm, which is the nightmare of many cosmic masters.

Not to mention the powerful and terrifying soul attack of the **** monarch, even the powerful fifth-order universe masters such as the Milky Way, facing this soul attack, are also very jealous.

"Huh?" The Lord of the Golden Horn suddenly stopped, his eyes flashing.

"The dream demon ancestor is coming here, the ancestor asked me to contain the **** lord and not let him leave?"

The Lord of the Golden Horn hesitated, and he was very confident in his own strength. Even if the Lord of Hell's soul attacked, he was sure not to be killed, but it was very difficult to contain it. After all, the domain of the supreme treasure of the Xeon was really terrifying.

The Lord of the Galaxy, who had already rushed to the vicinity of the passage, also received a contact from the Alliance.

"Dream Demon Ancestor is here?" The lord of the galaxy pondered ~www.mtlnovel.com~ Meng Demon Ancestor is the strongest in the universe. He also understands the power of the strongest in the universe. Although he is severely restricted in the primitive universe, he deals with hell. The monarch should still have no problem.

To be honest, he was also very aggrieved in the previous battle. He was clearly strong, but he was completely suppressed by the domain of the **** lord, and he had to choose to retreat. This is also a humiliation to the lord of the galaxy who has been in the universe for countless years.

Coupled with the fact that the Lords of the Universe were annihilated by their souls before, the Lord of the Galaxy was also full of anger.

He saw the Lord of the Golden Horn stop, and the two sides looked at each other from a long distance, and both understood that the other party had received the notification, and now it was time to make a decision.

The two strong men nodded to each other.

"Then, let's fight another battle with the Lord of Hell."

The Lord of Galaxy didn't believe it. He and the Lord of the Golden Horn would have no problem with pinning the strongest. Couldn't it be possible to pin the Lord of Hell?

Lord of hell, is it more terrifying than the strongest in the universe?

[Chapter 552: reward](#)

"Huh? Why did they come back again?" Wang Yi, who was collecting the treasures left over by the Lord of the Universe, suddenly saw the "Lord of the Golden Horn" and the "Lord of the Galaxy" come back in the distance.

As soon as he changed his mind, he immediately understood.

"It should be here to contain me."

"Anyone from the universe is coming?"

Through the battle just now, as long as all parties are not stupid, they know that it is impossible for the Lord of the universe to besiege the Lord of Hell, no matter how many people.

Only the strongest person in the universe who is one level higher than the Lord of the universe and possesses the mighty power against the sky can do it.

"I have almost collected the treasures, and I should go now." Wang Yi has no interest in staying and continuing to fight with all the forces.

The most important thing is that there is more than one strongest in the universe. He has exposed too much this time, and the Xeon Treasure alone can attract many of the strongest in the universe.

No strong person can remain unmoved by Xeon Supreme.

Wang Yi never does things that are uncertain. The strongest man in the universe can't be beaten to death, and he won't do any good, and he may reveal more secrets in his body. He doesn't do such things.

"It's time to go, just fly slowly behind me." Wang Yi sneered, turned and turned into a streamer, flying towards the sky.

With the oppression of the Xeon Supreme Treasure Domain, the Lord of the Golden Horn and the Lord of the Galaxy could only watch him leave.

This time the operation completely failed.

...

"What? The Lord of Hell has left the original star where he is?" Meng Yaozu was very annoyed by the report, and his voice became sharp. "Then where did he go?"

"What? I don't know? Several primordial stars didn't find him, so they were lost?" Meng Yaozu was even more angry.

But she also knows that the people below can't be blamed. After all, the Cosmos Venerables on the Primordial Star have almost completely evacuated. Only a few strong people are on it. The lord of the universe on his side withdrew back.

In such an extreme shortage of manpower. It is indeed very difficult to track the Lord of Hell on 10081 primordial stars.

Different from the concerted efforts of all parties before, there are now many people who have retreated and are unwilling to continue to get involved.

They themselves were afraid of being killed by the Lord of Hell.

Even more afraid of angering the **** lord and causing endless troubles.

After all, a "Blood Cloud Palace Master" has already provoked all the major forces in the entire universe, and has pursued and killed him many times.

As long as he doesn't come to provoke himself, he will treat him as invisible, and nothing has happened.

Even those forces with the fall of the Lord of the Universe, such as the Nine Regions Alliance, which fell three Lords of the Universe at once, have to swallow this breath. The Lord of Hell is so powerful that they have to break their teeth and have to smash their stomachs. Tun, after all, they don't have the support of the strongest in the universe, and there is no way to take the lord of hell.

The Prison Clan Demon Ancestor, who had lost the two masters of the universe, rushed over, but was also empty.

Many forces are not reconciled.

But the Lord of Hell cannot be found, even if there are more people, it is useless.

...

At this time, the **** lord who made the amazing record of shocking the universe and killing the universe lord has quietly passed through an external vortex channel and left the original star.

After teleporting to a long distance, teleported through the kingdom of God, and instantly returned to the kingdom of God.

"Wow..." The sea waves thousands of feet without wind, and the waves of the endless quiet sea tens of billions of kilometers wide are astonishing, like thunder rumbling, rushing turbulently. In the sky above the endless secluded sea, in the center of the entire kingdom of God, inside the shrine that is as majestic and dazzling as the fiery red sun. Wang Yi stood in front of the temple overlooking the boundless kingdom of God.

"Congratulations, master, congratulations, master." The tens of thousands of servants stood in front of the temple, like a legion, said in unison. "The master's supernatural power, no one can rival."

"I'm back, it's finally over." Wang Yi showed a relaxed smile on his face.

In the kingdom of God, Wang Yi relaxed. In the kingdom of God, even if the strongest in the universe came, he could only be suppressed by himself, without fear of anyone.

And Wang Yi also began to count his own harvest this time.

It can be said that this is Wang Yi's biggest gain in the history of Primordial Star.

"Now that I know my identity as the **** monarch, it is also the human race and ancestral gods." Wang Yi thought lightly.

"But don't worry about the human race, the ancestors, now I am also a member of the ancestors, and the ancestors will keep secrets for me."

Wang Yi is not very worried that the Church of the Patriarchs will not leak secrets. As long as the Patriarchs are not stupid, they will not leak them unless they encounter the original history that human beings have inherited from ancient civilizations.

In this action, Wang Yi killed tens of thousands of sages and 26 masters of the universe on the Primordial Star.

Thousands of Cosmos Venerables have given millions of killing points, which is one hundred thousand treasure points.

Twenty-six masters of the universe have given more than ten million killing points, more than one million treasure points.

"It's about 1.23 million to exchange for the supreme treasure point." Wang Yi nodded slightly, with a smile on his face, "it can be exchanged for 12 most common Xeon supreme weapons, or close to the value of a domain class supreme treasure."

Then Wang Yi began to count and sort the collected corpses of the Lord of the Universe, and began to "touch the corpses."

A majestic and tall master of the universe lay in the kingdom of God. Even if the soul was wiped out, the coercion carried by the divine body itself was still very terrifying, and the immortal gods would feel very uncomfortable when they approached.

However, not all the corpses and treasures of the dead Lord of the Universe were taken away by Wang Yi. For example, the Lord of the Universe of the Northern Border Alliance near the Lord of the Galaxy had fallen, but the corpse was taken away.

"The twenty-six masters of the universe, almost all of them were killed by my soul. I don't know what they think. None of them blew up. If they blew themselves up, there would be clones or they would be spared." Wang Yi thought for a while. Perhaps the masters of the universe did not expect that the soul attack would be so terrible when facing the mirage world, and it was too late to realize their enlightenment.

And if there is no clone, it doesn't matter if you don't blew yourself up.

It also escaped a "Lord of Yaye", and everything else was finished.

"Ha ha....."

Soon ~www.mtlnovel.com~ the trophy count is over, and Wang Yi is all smiles.

"Never mind the other cosmic masters. There are as many as a dozen or so treasures on his body, and only a few at least, but this..."

"Unexpectedly, there is actually a master of the universe who owns the highest treasure weapon, or the most treasured weapon of Nian Liliu. It is composed of 10081 pieces of the most treasured weapon. Each piece of the most treasured weapon is very ordinary, but together, there is the highest treasure of the weapon. Power...Well, in terms of strength, he should be comparable to Bingfeng, but he was killed by my soul." Wang Yi sighed, and then couldn't help himself.

The strength of the Lord of the universe is definitely not weak, but unfortunately, he was still killed by the soul under the attack of the soul of the "mirage world", and completely fell, which can only be regarded as unlucky for him.

"Haha, with so many treasures, the original star draws I have left will be lost." Wang Yi's heart is fierce, and he was lucky enough to get the Xeon's "mirage beads" in the previous 100 draws. The next 900 primordial stars will be drawn, and I don't know what he will get. This is even more exciting for him than millions of treasure points.

Thinking of the beautiful place, Wang Yi's cheerful laughter sounded in the kingdom of God.

[Chapter 553: The second strongest man!](#)

Wang Yi recalled the previous battle again.

First, he used the Xeon Supreme Treasure Domain to restrict the masters of the universe, and then used the Xeon Supreme Treasure Sabre to perform melee sword killings.

In close combat, the masters of the universe weren't their opponents at all.

"My melee power is still not comparable to the most powerful master of the universe like the lord of the galaxy..." Wang Yi whispered.

The most top-notch master of the universe, like the master of the galaxy, has to burn the divine body to perform the strongest tricks before it can exert its power.

One trick, even if the Lord of the Universe is wearing the Supreme Treasure Armor, if he can't use weapons to block it, he can directly cause severe damage or even fall.

Like Luo Feng in the original history, relying on the robbery armor and the "Star Tower" block, he still lost two thousandths of his divine body under the attack of the master of the galaxy.

If only the top treasure weapon resisted... it would be normal for him to lose 50% of his divine body. Even if there is "Jia Jia", it is still possible to kill Luo Feng with one or two moves!

And Wang Yi, relying on the two strongest treasures to be able to be comparable to the Lord of the Galaxy, in terms of secrets, he is actually far behind.

After all, he hasn't even created the strongest secret method of the Lord of the Universe, let alone the secret method that is comparable to the strongest trick of the Lord of the Galaxy. It will take a long time and endless efforts to do it.

"Come slowly." Wang Yi exhaled, with a smile on his face.

"At least my current combat power is comparable to the master of the sixth-order universe, and I have nothing to fear in the primitive universe, and also the universe, which can make me jealous."

Wang Yi began to think about how to use these treasure points again. The killing value of this battle can be exchanged for 1.23 million treasure points. With the addition of the treasure points accumulated by Wang Yi before, it has already exceeded 1.3 million points.

Wang Yi opened the panel.

Staring at the bottom line of the price of each Xeon Extreme.

Weapon category Xeon Supreme, 100,000 Supreme Points.

Armor category Xeon Supreme, 500,000 Supreme Points.

Field category Xeon Supreme, 1.2 million Supreme Points.

Soul category is the strongest treasure, 1.5 million treasure points.

Palace category is the strongest treasure, 2.5 million treasure points.

His gaze stayed on the soul-type supreme treasure, the soul-type supreme needs 1.5 million supreme points at least, which is not enough, it is still 200,000.

Wang Yi wants to redeem this Soul Xeon Supreme Treasure, of course, not for his own use. After all, he already has a "mirage orb". Even if he can't use every divine body, at least he won't be enslaved or completely annihilated, as long as he has a divine body equipment. "Miracle Pearl", no matter how strong a soul attack is, it can keep the last line of defense and lose the clone at most.

He was exchanged for his teacher, the Lord of Star Prison.

After experiencing the previous battle, he felt the importance of the soul more and more.

The reason why the masters of the universe are easily destroyed, even if they have clones, are still falling, it is not the reason why there is no powerful soul treasure guard.

If there is a powerful soul treasure, it won't be like this.

And his teacher Star Prison, although there is a clone, one day he will travel to the universe, and maybe he will encounter some terrible disaster and be killed by the soul.

If there is a soul that is the most powerful and precious, guarding a divine body, then even if other divine bodies are in trouble, at least not all of them will be involved, and they can still be unharmed and lose the divine body at most.

Maybe you think there are resurrection crystals.

But the resurrection crystal is not unlimited. Being enslaved by the soul cannot be resurrected.

Because he was already "alive", but his soul was controlled.

Fortunately, being killed by the soul, but controlled by the soul, there is no possibility of reversal.

Unless Wang Yi reaches a higher level, it may change.

In order to put an end to this danger in advance, now that there is a chance, Wang Yi's treasure is not in a hurry, so he intends to exchange a piece of soul supreme treasure for the teacher.

It is hypocritical, but Wang Yi really values this teacher.

After all, apart from the cheap teacher "Ming" who only showed up once, he only has such a real teacher.

To be honest, even Luo Feng, Hong, Thunder God, Ai Chen and others are not as good as Star Prison in his heart.

Even if you add the treasures of the Lord of the Universe, there are only tens of thousands of treasures, which is not enough.

"It's not enough, then wait." Wang Yi murmured.

...

...

The virtual universe, the temple of the giant axe.

When Wang Yi appeared, he welcomed the unanimous greetings from the masters of the universe.

"Chaotic Source."

"Chaotic Source."

"Chaotic Source."

...

Even the giant axe in the first seat stood up and nodded slightly.

This is a very high courtesy.

It is also a respect for Wang Yi, "the strongest master of the original universe".

The current Lord of Chaotic Source, in the hearts of the multiverse master of the human race masses, is already only below the founder of the Great Axe, and even surpasses the Lord of Chaos City, so he has this qualification.

Strength is everything. When Wang Yi showed his power to overwhelm the Lord of the fifth-order universe and destroy the Lord of the fourth-order universe, he had already decided that he surpassed all the existing human masters of the universe and has become the second only human race. The existence of the strongest man in the universe, the founder of the giant axe, and the second strongest man of mankind!

Star Prison looked at this dazzling apprentice, who was overwhelmed by the stars, and felt proud in his heart.

To have such an outstanding disciple is his greatest fortune.

In order to celebrate Wang Yi's victorious return from Primordial Star, the human race gave another celebration banquet to congratulate Wang Yi. During the banquet, cheers and laughter continued.

As the protagonist, Wang Yi was also frequently persuaded to drink.

Looking at the enthusiastic faces of these universe masters that were much more sincere than before, Wang Yi also felt a little emotional.

Sure enough, strength is king in the universe!

Even if he has the Sky Tower that determines the fate of the human race, and has the ability to exchange the strongest treasure, as long as his strength is not strong enough, although he can get the immense attention of the human race, he still cannot get the real respect of the masters of the universe.

But now, Wang Yi, who possesses the strength of the Lord of the sixth-order universe, and Wang Yi, who can kill more than twenty universe masters in one battle, can convince these universe masters.

These are all determined by strength, and Wang Yi's determination is strengthened even more.

...

After the banquet, Wang Yi and his teacher, the Lord of Star Prison, walked in the palace on Thunder Island.

"Now, Disciple, you are truly the second person in our human race." The Lord of Star Prison sighed.

"From now on, I, as a teacher, can also be touched by your apprentice. Now the name of your **** lord is very big in the outside world. He is known as the strongest cosmic lord of the original universe, and his reputation is more chaotic than my teacher. , The Lord of the Galaxy of the Northern Xinjiang Alliance is still big." The Lord of the Star Prison joked.

With such a talented and constant apprentice, he is also under great pressure to be a teacher.

What can we do? Can only lie flat, let the apprentice fly.

"Haha, is the honor of the disciple to be able to be touched by the teacher." Wang Yi smiled.

"However, it is fine to talk about your **** monarch within the human race, but don't talk to the outside. Even the master of the universe of the Hongmeng, don't want it, including the high-level secrets of our human race and your big secrets." Worried that this young apprentice would be overwhelmed, reminded.

"You have to remember that alien races are alien races after all. Even if it is an alliance, we cannot give them 100% secrets. These secrets are obtained by our human race desperately. Non-members of our race are not loyal enough. Among them There are many secretly dealing with other forces."

Wang Yi nodded. Those alien races depend on human beings for survival. When other forces tempted them, they naturally would rather sell some information in exchange for benefits.

As long as no handle is left, there is no way to check it.

Even some dependent alien races...because of some circumstances, they broke away from the Hongmeng and joined another alliance. This has happened in history.

Even the human power "Yan Di" broke away from the human race, not to mention the alien race broke away from the Hongmeng.

"Don't worry, teacher, I know it in my heart, and I will never reveal it."

[Chapter 554: Reverse time and space, resurrect!](#)

Primitive Secret Realm.

The Qianbao River is ups and downs, vast and mighty.

In a towering temple, a stalwart figure sitting on the throne, only saw the robe burning like fire.

Underneath is a group of respectable venerables.

"I am responsible for the resurrection of the Venerable Hongmeng who fell on the Primitive Star this time." Wang Yi glanced at the Venerables under his eyes and secretly said.

It is not an easy task to resurrect so many cosmic sages, almost all of which are high cosmic sacreds.

The resurrection of a cosmic high priest will cause a cosmic lord to be seriously injured! Only those with extraordinary talents, such as the world tree, mountain giants and other giants of the universe, can resurrect more.

The number of resurrected universe veterans has nothing to do with their strength, it has something to do with the divine body!

The more resistant it is! There will be more resurrection!

The more the resurrection, the stronger the punishment backlash of the universe!

Because reversing the time and space to resurrect the strong is punished by the law of the universe, which violates the law of the universe. Violation once, twice or three times... Too many violations are a provocation to the origin of the universe! The punishment will get heavier and heavier!

And to resurrect the overlord of the universe, you have to do it yourself with the great axe as the strongest man in the universe. No matter how powerful Wang Yi is, there is nothing he can do.

But fortunately, there are not many universe overlords who have fallen this time, only one or two.

After all 10081 primordial stars are scattered to one primordial star, one or two are considered good.

"Fortunately, my **** body is huge, and I have Youhai clone as the backing. Although it's a bit troublesome, it's not a big deal."

"In order to facilitate the resurrection, those Hongmeng Venerables have been here, leaving their footprints, and let me see who they are."

Following Wang Yi's thoughts, he mastered this time and space.

Following his thoughts, the time in this void began to flow backwards quickly-scenes and scenes quickly flowed backwards.

"Wow..."

The time and space in the hall was suddenly reversed, and time and space flowed backwards.

I saw scenes in the main hall constantly appearing back and forth. There were groups of cosmic venerables who had come here, leaving behind their shadows, which became the traces of looking for them to reverse time and space in the future.

And the surrounding universe veterans watched this scene in awe. This is the great power of the Lord of the universe, reversing time and space, and resurrecting the dead.

Wang Yi's eyes moved. "Ding!" Suddenly a figure was directly locked in a certain era.

Time continued to rewind, and the surrounding scenes kept changing, but the figure remained motionless.

"Set!" Two figures were locked again.

"Certainly!"

"Certainly!"

Wang Yi recklessly manipulated time to accelerate backwards, looking for the traces of those strong men who had fallen on the primordial star.

One after another, the figures were locked, and all kinds of Cosmos Venerables, a total of 108 Cosmos Venerables stood motionless, like sculptures.

Everything is locked.

"Time and space are reversed." Wang Yi immediately let time back again.

Time and space are returning.

The scenes in the past years were reversed before, and now they are accelerated and played back. Everything else is just illusory. Only the stalwart figure on the throne and the locked-in universe venerables are eternally unchanged, passing through time points in time, and finally Return to the present world.

This is an incredible power and the authority of the primitive universe to bestow such a great life on the Lord of the universe.

"Boom..."

Time and space oscillate, and waves of backlash in the universe follow along with the return of time and space.

It's as if the spring is pressed down and it will automatically return! If Wang Yi didn't save any of them... then there would be no burden on him, but if some lives were to be resurrected, they would be brought back from the past time and space to the normal time and space now. Then you have to bear the punishment.

In fact, the punishment is aimed at the dead who are resurrected, but they can't bear it, only the Lord of the universe can bear it.

Otherwise, he wouldn't resurrect a high cosmic venerable, and it would cause a cosmic lord to be seriously injured.

Moreover, they only brought back the dead. As for their treasures and treasures, or some unique encounters, Wang Yi ignored them.

Even though some lifeless items already exist, such as a treasure that already exists, reversible time and space will still bring the treasure of that era again. It's just... the punishment is terrible. Reversing time and space is more expensive to bring back a treasure than to get ten treasures.

Might as well directly recompensate.

moment--

The return of time and space finally stopped.

Everything returned to normal, and finally returned to the original time and space node.

"I....."

"This, this is..."

The 108 Cosmos High Venerables all regained their sobriety, looking at each other in amazement, and soon they all regained their memories.

"Thanks to the Lord of Hunyuan." All 108 Cosmos Venerables saluted respectfully, very grateful.

It is indeed a lucky thing to be able to be resurrected in time and space after death.

Wang Yi overlooked them aloft.

"The price of your fall and resurrection this time will be borne by me, and you don't need to pay."

"Master of Xie Hunyuan." The 108 Venerable Universes were even more grateful.

The price of resurrection is not light. Fortunately, there are ethnic groups as their backers. The ethnic groups are still very kind to their own cosmic venerables, but those outside alien venerables cannot be treated like this. Once they fall, they have to bear a heavy burden. For a long time, he had to work for the resurrected forces, and I don't know how long it will take to repay it.

The Lord of Chaotic Source took the initiative to forgive their debts this time, which really made them breathe a sigh of relief.

"The Lord of Chaotic Source is very kind, not as vicious and murderous as the outside world said."

"Can the rumors from the outside world be believed? In my opinion, they are all slanders."

"right."

Some Cosmos Venerables secretly transmitted voices in private.

"You still have a choice." The Lord of Chaotic Source said.

"You fell on the Primordial Star before and lost the treasures. I can compensate you for those treasures now, but you have to serve me for a period of time. This is a contract. You can check it out first. If you agree, it will take effect immediately. Don't force it."

Compensating for these cosmic sages directly can easily arouse unnecessary suspicion.

Just follow this method.

These cosmic sages can have a cosmic lord as their backing, I am afraid they can't ask for it.

The divine power forms text in front of Venerable Universe~www.mtlnovel.com~ The content is very simple and clear at a glance.

The sages of the universe looked around.

They had just raised their hearts, and they were worried about what harsh conditions the Lord of Chaotic Source had put forward, but after reading the contents of the contract, they were all relieved.

The contract conditions are incredible. In addition to compensating for their loss on the original star, everyone will get a treasure in the end.

Where can I find such a good thing?

Besides, is it not normal to serve the Lord of the Universe?

As long as you are not stupid, you know how to choose.

They have no reason to refuse such a favorable condition.

Some Cosmos Venerables are also overjoyed and feel that they are making a lot of money.

Of course they didn't know that the reason why they fell was because of the Lord of Chaotic Source in front of them.

"We are willing to serve the Lord of Chaotic Source." All the sages of the universe bowed one after another.

[Chapter 555: Desperate character? Do not! I do not believe!](#)

The original star.

Wearing a dark red armor, Wang Yi's human deity flew in from the external whirlpool channel.

"Those treasures have already been obtained, so we can use them to draw prizes next." There was a hint of excitement in Wang Yi's eyes.

He looked at his panel with relief in his eyes.

[Currently collected treasures: 0/10, number of draws available: 900.]

That's right, Wang Yi threw the trophies obtained by the Yanxing Giant Beast, the tens of thousands of treasures into the top treasure, to the panel, and exchanged it for 900 chances of lottery.

It's not easy, if it weren't for killing a group of universe masters this time, there would be no chance to get so many treasures.

Especially when luck was overwhelming, the peak treasure was obtained, which was composed of tens of thousands of ordinary treasure components, and was in the hands of the master of a top cosmos. If it were not for the active hand of the Lord of Hell, Wang Yi would never have the opportunity to kill.

I want to work hard to complete the lottery of all the remaining original stars by collecting the most treasures, but I don't know if I have to wait until the year of the monkey.

"There are 900 lucky draws. How many Xeon treasures should we get, right?" Wang Yi was full of expectations.

"Which primordial star to start with? Plan your route and increase your speed."

Soon, Wang Yi calculated the most efficient course of action.

"Start with that primordial star first."

Wang Yi flew towards a vortex passage in the distance, "It is about going to the passage of three primitive stars."

Wang Yi's happy lottery tour has begun.

Is there anything happier in life than a lottery?

If there is, it is more lottery.

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of blue equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

...

Soon after, Wang Yi stayed on a primordial star, looking up at the sky melancholy.

100 original stars were drawn in the lottery. Wang Yi counted and found that 78 pieces of green equipment and 22 pieces of blue equipment were obtained in the lottery.

No...very...very...strong...very...treasure...

Green equipment, that is, the top treasure, the value of the treasure point is generally between 100-3000.

The blue equipment, that is, the peak treasure, the value of the treasure point is generally between 1,000 and 30,000.

As for Xeon Zhibao, it goes without saying.

A hundred draws, 78 top treasures, 22 peak treasures, the total treasure point is more than 90,000, which is close to an ordinary Xeon treasure.

If the human race gets so many treasures at once, they can get rich overnight.

But for Wang Yi, failing to draw the Xeon Treasure is tantamount to failure.

After tidying up these treasures, Wang Yi was not discouraged and continued to draw the lottery.

He felt that this wave of his own luck was not very good.

The probability of Xeon Zhibao being drawn is inherently low, and it is normal that you cannot draw it yourself.

And being able to get a lot of precious treasures is not a loss.

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

...

I don't know if Wang Yi ran out of luck in drawing the "mirage beads" before. Most of the next lotteries are top treasures, a few of them are pinnacle treasures, and there is none of them.

The second wave of 100 consecutive draws was even more bleak, with 92 pieces of green equipment and 8 pieces of blue equipment, worth 89,000 points.

The 201 to 300 draws in the third wave were better, with 73 pieces of green equipment and 27 pieces of blue equipment, worth 117,000 points.

The failure to draw out the Xeon Supreme for three consecutive times gave Wang Yi a bad feeling in his heart.

My SSR...No, where is my Xeon?

Wang Yi, who never admitted that he was a black chief, continued to struggle on the road to the lottery.

In the fourth wave... 92,000 Arcana Points were obtained, there is no Xeon Arcana.

In the fifth wave...135,000 Arcana points were obtained, there is no Xeon Arcana.

The sixth wave...

Seventh wave...

eighth.....

Wang Yi is already numb.

Seeing fewer and fewer times, he couldn't help but start to doubt life.

Although the sum of the treasure points redeemed for the lottery has exceeded one million.

But Wang Yi still didn't mean much to be happy.

He already doubted himself.

Is my character so bad?

Is your face so dark?

890 lottery draws, not once?

But the panel is not under his control, even if he wants to drive the Xeon, there is no way.

Wang Yi rubbed his face and looked up at the sky, feeling that he could not go on like this.

It's really shocking to keep going like this.

It is easy to disintegrate people's mentality.

"There are the last ten original stars, everything is over..."

Wang Yi pondered.

This time he has actually gained a lot, but people will never be satisfied.

After thinking for a while, Wang Yi still had no choice but to fly towards the next primordial star.

Can only hope that the next luck will not be too bad.

On the way, I was informed by Hongmeng that a treasure was born on Primordial Star, and Wang Yi was not interested in taking care of it.

The collected treasures were enough, and no new missions were released on the panel. Wang Yi had cancelled the previous missions in Hongmeng, which disappointed many cosmic lords who wanted to take advantage of this to earn a wave.

Especially Venerable Guiyi and Venerable Immortal, these two goods are very good. After discovering the treasures and grabbing positions, they have earned more than 10 treasure points from Wang Yi. Venerable Guiyi also loaned him from Wang Yi. His soul treasure was exchanged. This time the Primordial Star opened him and he earned more than any time before. It was simply beautiful.

"Huh? No." Wang Yi reacted, "Isn't the treasure born on a primitive star that I didn't have a lottery draw? According to the original plan...Is it the last one?"

Wang Yi blinked.

"Although it's a bit wicked...but still go there to get luck?"

As he thought of it, Wang Yi turned around and turned and flew towards the original Star Passage that he planned to go to last. Although the location was not too close to Wang Yi, Wang Yi chose to rush over for his own plan.

"The fastest route to get there is... it takes about 7 hours original star number 07264.

A group of Cosmos Venerables is divided into several teams and is struggling to compete for a newly born treasure. There are also several teams of Venerables from other forces nearby. If they have the opportunity, they don't mind participating in the battle.

At this moment, a figure flew out in a whirlpool passage in the distance.

However, because the distance was a little far away, and Wang Yi didn't deliberately exude coercion, the sages of the universe who were so hideous that they were about to knock out the dog's mind did not notice.

"Hey, for a treasure, why bother." Wang Yi shook his head and sighed in embarrassment when he saw an alien veteran being besieged and smashed from the sky to the ground with a dog-eating posture.

I completely forget that when I was hungry when I first started, it was no better than these venerables.

"Raffle!" Wang Yi finally remembered the business.

【Ding! Congratulations, get a piece of purple equipment (special)! 】

[Chapter 556: Here comes the SSR you want](#)

"Really got it?"

Wang Yi stood there with a weird face.

Originally, he was just trying his luck, but he didn't expect the panel to show such face this time.

But looking at the prompt message on the panel, what does "purple equipment (special mean.

"Follow him, just open it."

With a thought, Wang Yi opened the purple box.

Suddenly a golden object appeared in front of him.

"Well, this is..."

What appeared in Wang Yi's line of sight was a body similar to a human being, with golden scales all over his body, silver secret patterns on it, a single horn on his forehead, and a tail full of scales!

And it is as strong as steel and has extremely long arms, hanging down to the calf, like a gorilla.

With the eyes of the beast closed, his body exudes the breath of a wild beast, like a sleeping demon.

There is also a simple message note at the back——

【Golden Armor God】

[True God Puppet]

【Eighth Tier Top: 1/1】

(Startup condition: 10,000 treasure points)

【Nine-level top: 1/1】

(Startup condition: 100,000 treasure points)

【Ten Tier Top: 1/1】

(Startup condition: 1 million treasure points)

[In the original universe will be limited by combat power, please use it carefully]

[Unable to trade]

...

At the same time, a lot of relevant information flooded into Wang Yi's mind.

When Wang Yi finished receiving the message, he couldn't help but take a deep breath, with shock in his eyes.

"True God-level puppet", as the name suggests, is a puppet with the strength of True God-level (the strongest in the universe).

But it has no emotions innately, possesses superb fighting talent, and with its indestructible body and incredible strength comparable to that of the Xeon, it is not afraid to fight even the strongest in the universe.

It is an extremely powerful fighter machine!

However, this is a consumable item, and it must be summoned from the panel space.

And there are only three chances to summon, after three times, the Golden Armor God will be taken back.

Although they are all the same puppet each time they are summoned, their strengths are different.

The first gear requires 10,000 supreme treasure points. The summoned Golden Armor God can display the top combat power of Tier 8, comparable to most of the strongest in the original universe.

The second stage requires 100,000 treasure points. The summoned Golden Armor God can display the top combat power of Tier 9 and has stood at the apex of the primitive universe, including the universe sea, even if the God Eye family is faintly known as the number one power in the universe sea. God is only this kind of power at present.

The third gear requires 1 million supreme points. The summoned Golden Armor God can display the top tenth rank combat power. This is the limit of the universe! It is also the ultimate combat power of the true god!

Even the original ancestor was at this level! Known as invincible!

More importantly, the "Golden Armor God" is a puppet. Although full of fighting wisdom, such as the smartest fighting robot, he has no soul, so all soul attacks are invalid for him! Coupled with a body comparable to the Xeon's Supreme Treasure, even the tenth-tier top universe's strongest person can't hurt him at all.

In other words, in addition to the somewhat monotonous attack method, almost entirely relying on the body and the fists, in the universe, this is the truly invincible existence!

However, the Golden Armor God is so abnormal that it is not without flaws. The first is that it is a pure consumable and can only be used three times, and each time can only last for an hour at most, that is, it can only be summoned to fight for an hour at most. long.

The second is that it consumes a lot of treasure points, and the third level requires 1 million treasure points, which is equivalent to 10 Xeon treasures, and the cost is staggering.

Finally, it cannot be traded, that is, it can only be used and cannot be exchanged for treasure points with the panel.

Although there are so many shortcomings, it can't conceal its power against the sky.

To put it bluntly, if you own it, you have an extremely powerful hole card that can play a vital role at critical moments.

The only thing that made Wang Yi regret was that it seemed that he couldn't break through the limit of combat power in the primitive universe. I am afraid that he could only play the top combat power of Tier 6, or it would go against the sky.

If there is no limit.

He had to go over and directly blast the strongest of the three universes of the Monster Race, Zerg Race, and Machine Race.

However, in contrast, there is no limit to combat power in the universe, and unlike other universes, the strongest will be punished by the law of the universe when facing the Lord of the universe, and their strength will decline. The Golden Armor God is a puppet, fundamentally It's a dead thing, even if it hits the Lord of the Universe, it won't be constrained by the original laws of the original universe.

Of course, it is too wasteful to use the precious combat power of the "Golden Armor God" to deal with the Lord of the Universe, and there is no need for Wang Yi not to do this.

"Golden Armor God..." Wang Yi looked at the puppet with the golden scales like a gorilla but with a scaled tail. The more he looked at the puppet, the happier he became. This can rival or even suppress the existence of the strongest man in the universe. At the beginning, he had another hole card, and he had enough confidence even against the strongest in the universe.

"Golden armor god, you can't use it at will, good steel must be used on the edge of the knife." Wang Yi secretly said in his heart.

Wang Yi decided to use the "Golden Armor God" as a killer.

The only headache is that the activation of "Golden Armor God" requires utmost treasures, and the activation of the strongest form requires a full one million utmost treasures, which makes Wang Yi very entangled.

These are ten supreme treasures, if the human race's Chaos City Lord, Peng Gong's Lord, Xu Jin's Lord and other masters of the universe know, I am afraid that blood will drip in my heart.

"Fortunately, I don't need to use "Golden Armor God" now, this can be considered later." Wang Yi took a deep breath.

Then bet your gaze on the treasure point of the panel.

"2560851!"

2.56 million! This is the total of Wang Yi's previous accumulation plus the total of nearly 900 lucky draws on the original star!

"Enough to exchange for a Xeon Supreme Palace." Wang Yi's eyes were fiery, but he still remembered his original intention.

"I think there are still many opportunities after getting the treasure point~www.mtlnovel.com~ first exchange a piece of soul Xeon to the teacher."

Wang Yi still respects the teacher very much.

The soul is the strongest treasure, and the minimum needs 1.5 million treasure points! Much more expensive than the realm of treasure!

It was a fake if Wang Yi didn't feel distressed when he took it out to exchange for one, but in the end he exchanged it with his teeth.

Being able to be so willing also proved the feelings of the Lord of Star Prison in Wang Yi's heart.

The ancients said that one day is a teacher and a lifelong father.

Although the Lord of Star Prison and Wang Yi are not the real father and son, their relationship is worse than that.

"Just this one." Wang Yi still understands the characteristics of the teacher's cultivation. He deliberately exchanges a soul treasure that meets his characteristics. Of course, each Xeon treasure has different requirements for recognizing the master, some of which are still more. Being harsh, Wang Yi naturally chose the one that is easier to recognize the Lord. Even if the Star Prison is unable to recognize the Lord now, it will be almost the same after a while.

"I believe that the teacher has this soul, the treasure of the soul, and as long as the divine body does not all go out for adventure, even if the clone falls, a divine body can be guaranteed to be safe forever." Wang Yi smiled slightly.

[Chapter 557: Be careful](#)

Wang Yi continued to draw a lottery on Primordial Star again, and finally used up all the remaining nine opportunities.

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of green equipment! 】

【Ding! Congratulations, get a piece of blue equipment! 】

...

I don't know if it was the effect of previous luck. This time he actually got six pieces of green equipment and three pieces of blue equipment, the ratio reached two to one.

And the three pieces of blue equipment are respectively the treasure of the Zhenfeng type palace, the domain type, and the soul type. The total value is more than 20,000 treasure points.

Normally, the treasures won in the lottery are mostly weapons and armors, occasionally mixed with other things.

Things like palace treasures, realm treasures, and soul treasures are relatively rare.

Wang Yi smiled, "I just gave the teacher one more Peak Domain Treasure and one Peak Palace Treasure."

The palace treasures and domain treasures previously used by the Lord of the Star Prison are all top-notch treasures.

It was actually enough for the Lord of the Universe, but Wang Yi was not satisfied.

"10081 primordial stars, it took ten thousand years and finally ended."

Wang Yi sighed.

There are millions of treasure points on the panel, but he hasn't decided how to use it yet.

Leaving the big head, just give a little bit here to the human race, it will be infinitely useful to them.

Of course, if everyone is equipped with a complete set of peak treasures, it won't work.

In fact, Wang Yi's idea is that in the future, the lord of the human race and universe at least everyone has the strongest treasure, and even the strongest combat power such as the founder of the giant axe should be fully equipped, but it is not possible at present.

Even the avatars of Wang Yi are just a supreme treasure right now.

The one that can barely be called the complete configuration is also the "flaming star behemoth" clone.

The rise and struggle of this generation of the Lord of the universe are not easy, and they have made great contributions to the ethnic group. Wang Yi doesn't mind helping them. Some treasures are willing to dedicate to the ethnic group.

But the future masters of the universe will not be so easy to get preferential treatment.

After all, Wang Yi is not a bad guy. He is only good to the people around him. It is only his wish to contribute to the ethnic group, but it is wishful thinking to ask him to do everything and everyone will help.

"Go, this primitive star is of little value to me."

Wang Yi glanced at the vast land, then turned and left without reluctance.

...

The Lord of Star Prison has a main battle clone in Primordial Star, and the true deity is practicing in the Primitive Secret Realm.

There hasn't been much fighting in these days.

Moreover, he possesses top flying palace treasures and domain treasures, unless he is the Lord of the universe who is particularly against the sky, he is not afraid of everything.

"Wow..." The waves made waves.

Ebb and flow.

He was walking leisurely on an ocean beach on the Primordial Star with his bare feet, very comfortable.

If you don't know, think he's here on vacation.

"boom."

A powerful figure walked out of the vortex passage, revealing the appearance of a black-haired man in red armor. His face was handsome, his eyes were like stars, and there was a flame mark on his forehead. It was powerful but it made people feel very deep. Introverted feeling.

Carrying a sword behind him, he looked extraordinarily sturdy.

"Teacher!" he shouted.

"Haha, disciple, how come you come to me when you have time."

The Lord of Star Prison smiled.

"I wanted to see the teacher in reality, so I came here." The black-haired man said casually.

"You." The Lord of Star Prison smiled and shook his head.

With a wave of his hand, there was a quaint pavilion beside him. There were stone tables and chairs in the pavilion, and wine and cups were placed on it, and he sat down. "Since it's all here, let's drink and chat with me for a while."

"Okay." Wang Yi also walked over and sat opposite the Lord of Star Prison.

The two masters and apprentices were sitting in the seaside pavilion, drinking and chatting with the sea breeze.

"During this time, the human race has changed a lot, and everyone is full of enthusiasm and hope." The Lord of the Star Prison sighed with emotion.

"Teacher has gone through the two eras of the original ancestor and the giant axe. The original ancestor led the human race to rise to glory. After the original ancestor was suppressed, the giant axe continued to lead the human race to fight and fight with other ethnic forces for the human race in the universe. The interests in China are fighting with other strong men, intrigues..."

The Lord of Star Prison shook his head, sighing infinitely.

"To be honest, the pressure is really great. Our human race was once brilliant. The original ancestors were invincible. It suppressed other races in the primitive universe. No one dared to fight directly with our human race. Maybe it was because of such concerns. The forces are very jealous of our human race, and they have been deliberately suppressing it. Fortunately, the deterrence of the giant axe and the legacy of the original ancestor have allowed our human race to have a foothold in the universe. It is still one of the pinnacle races, and not completely. Weak and die."

"However, everyone still can't see hope. The road ahead is too slim. The monster race is stronger than our human race. Not the ancestor of the monster beast, there are two strongest in the universe. The creator of the giant axe is also worried. Sitting in Chaos City, Primitive Secret Realm, there is a clone who fights in the Universe Sea all year round... By the way, you don't know the Universe Sea yet." The Lord of Star Prison laughed, "But with your authority, you can read it at will. Related information, that is a truly vast world."

The Lord of Star Prison was full of fascination, and shook his head again. "Your teacher, I have followed Master Chaos several times, but in Cosmic Sea, my strength is only the bottom, too dangerous."

"But you are different. As the lord of the universe, you have great strength and unlimited potential. The sea of the universe is your real training ground, and you will soon be exposed to it."

Wang Yi nodded, "After this time, the disciple will go to the Universe Sea."

After the Primordial Star, there is no place in the Primordial Universe that is worthy for him to explore. The Universe Sea is his next place to practice.

"Oh, it seems that you are already prepared." The star of the star prison's eyes lit up, and then he raised his glass and drank it, saying: "But the first time you go, you are not familiar with the universe, you have to Together with other strong people."

Wang Yi nodded ~www.mtlnovel.com~ and then said, "By the way, teacher, I'm here this time to give you some gifts."

Wang Yi grinned, showing white and beautiful teeth.

"Be careful, as if I honor you, teacher, it's not a respect."

When Wang Yi stretched out his hand, a star, a palace, and a golden plant appeared in front of him.

"Oh? It's worth coming by yourself, shouldn't it be unusual?" The Lord of the Star Prison was also interested, raised his wine glass, and showed his divine power, "Let me see what it is, baby...puff..."

The Lord of Star Prison almost didn't spray out all the drinks he had just drunk, his face was shocked and confounded.

"This...this is...this is actually..."

"Teacher, why are you making such a fuss? It's just that the apprentice is a little careful. Are you not satisfied?" Wang Yi pretended to be puzzled.

The corner of the star prison's mouth twitched and looked at this apprentice.

He, you are really "billion points" careful.

[Chapter 558: I can only choose to lie in the star hell](#)

"This is... the strongest treasure..." The master of the star prison began to tremble.

Can he not get excited.

Think about the fact that all the peak races in the universe were about to hit their brains for a "star tower", and the Lord of the universe fell for it.

I tried my best, but in the end, everyone still had no choice but to take the Star Tower.

Can only look greedy.

Even the founder of their giant axe, if it weren't for the freak like Wang Yi, there hasn't been a supreme treasure until now.

It is so difficult for the strongest in the universe to get a Xeon Supreme Treasure, and it can be seen that it is precious and rare.

The supreme treasure, the treasure of the town clan, can give a group of people its heritage and prosper forever, and it can also increase the strength of a strong person to a new height.

Priceless!

"This is the supreme treasure of the soul class. I gave it to the teacher. Please accept it." Wang Yi smiled.

The Lord of the Star Prison awakened from the infinite reverie, and immediately shook his head.

"This is too precious, I can't ask for it!"

This gift is too hot.

Although I am a master and apprentice, I can't come like this.

Apprentice, do you know that your gift can scare the teacher to death.

"This is the strongest treasure, this is the strongest treasure." The lord of the star prison became excited, "you should keep it for your own use. If you don't help, you have to give the giant axe, to the chaos... how can you give the teacher to me..."

The Lord of Star Prison didn't know what to say.

I was touched, but what a character the Lord of Star Prison is, still refuses this temptation. You must know that this is the most powerful treasure. To be honest, it is not easy. Some strong people have this kind of personality. They are either stubborn or weird, but Each has its own unique character.

The Lord of Star Prison was very disturbed for taking advantage of his apprentice.

This is the Xeon's treasure, with infinite value. It can make the strongest in the universe jealous. The various forces are shopping for it, and countless strong are crazy.

But just such a treasure, the apprentice actually gave it to him.

The Lord of Star Prison was very complicated in his heart, but he was sane, and he knew the overall situation, and asked Wang Yi to give this treasure to a suitable powerhouse of other races.

This Xeon Treasure was really wasted to myself.

Wang Yi said earnestly: "Teacher, I already have Soul Xeon Treasures..." Seeing the corners of the teacher's mouth began to twitch again, Wang Yi coughed, "This Xeon Treasure is specially prepared for you by me, teacher. After you have it, you will be cloned to go out and wander, this treasure will remain in your other divine body to sit in the soul, and you will no longer be afraid of being controlled by the destruction of the soul..."

Wang Yi said indifferently: "And this is the treasure of the disciple, whoever the disciple wants to give it to him, if it's not the teacher, I won't give it."

Star Prison laughed bitterly, this was really his apprentice's character, and there was no way for him to be a teacher.

Looking at the three supreme treasures in front of them, all are precious, any one can make the Lord of the universe fight for this at all costs, of course the most precious is the soul supreme treasure.

The Lord of Star Prison hesitated, "The other two..."

"Oh, it's the Supreme Treasure of the Palace and Domains. Although it's not a big deal, but I thought it would be useful to the teacher, so I sent it over. After all, do you need a clone of the old teacher."

Wang Yi's understatement caused the Star Prison to choke.

Wang Yi had actually sent the Peak Palace Treasure before, the "beasthead ship", but there was no peak domain class. Thinking of the teacher's divine body more than one, Wang Yi himself is not rare, so he just sent them all.

The Lord of Star Prison is really speechless. What kind of attitude is this? Isn't the pinnacle treasure? Moreover, they are also extremely precious palace treasures and domain treasures. You must know that in Primordial Star, a treasure of this kind was born, and the Lord of the universe could kill the blood. All of them are normal, and they may not be grabbed.

The Lord of Star Prison sighed when he saw Wang Yi's resolute appearance. This master and apprentice was also strange, one insisted on sending it, the other hesitated.

"Then I will accept the teacher with a cheeky..." The master of Star Prison still couldn't help his apprentice. "By the way, this is the most powerful treasure, I might lend it to other powerful people in the race..." The master of Star Prison hesitated. , Or explain to the apprentice.

The Xeon Supreme Treasure is too wasteful for him. He usually hides in the core of human territory. It is still very safe. As for the soul destruction, it is still very rare that the soul attack of the Lord of the Universe can instantly kill the universe.

Wang Yi nodded. He knew who the Lord of Star Prison would lend it to him. It was nothing more than the founder of the Great Axe and the Lord of Chaos City. As for the others? Even if they want to borrow, the Lord of Star Prison may not dare to borrow. After all, the Xeon is too precious, let alone the soul-like

Xeon. I am afraid that there are not a few pieces in the entire universe. To be honest, even if the entire mankind The ethnic group sold not enough for half the value of this treasure.

"This Xeon Treasure, you got it from Tongtian Tower?" Decided to accept the Xuan Treasure, the Lord of Star Prison sighed in relief and curiously asked his apprentice, "How many Xeon Treasures do you have now?"

To be honest, not only him, but the entire human high-levels, since Wang Yi's "Hell Lord" clone killed more than 20 universe masters in one fell swoop on Primordial Star, they are all wondering how many Xeons there are in him, but Star Hell has been holding back. did not ask.

But now I can't bear it anymore.

The apprentices all took out to give away, even though it was themselves. It still made him have the urge to scold the prodigal son.

"Um...it should be..." Wang Yi thought about it. The Yanxing Giant Beast had 'Futu Zhan', 'Tongtian Tower', 'Wuhou Jia', 'Tianluo Diwang', and 'Miracle Pearl' on its body. That was five. Pieces, the other three divine bodies all have the most powerful weapons, that is eight pieces, and the true **** puppets just obtained should be considered as such, that is nine pieces...

Plus the teacher's...

Seeing Wang Yi thinking, the Lord of Star Prison almost jumped up his eyelids.

What kind of expression are you, don't you even know how many Xeon treasures you have on yourself?

What kind of monster apprentice am I?

"Adding the teacher's ~www.mtlnovel.com~ is exactly ten." Wang Yi said seriously.

"Ten pieces..." The master of the Star Prison twitched in his heart. Fortunately, he was already mentally prepared. Although it was still very shaken, he still remained calm on the surface.

Alone alone can have so many Xeon treasures, the entire primitive universe, no! It should be the entire universe and only his apprentice can do it.

His apprentice is still a master of the universe, and the treasures in his body are more powerful than the strongest in the universe.

The Lord of Star Prison was inexplicably proud.

Then I felt inexplicably sad, hey, his teacher is too useless, and he can only lie down for the elderly in the future, and let his apprentice take him away.

No more, first drink a glass of wine to suppress the shock.

Wang Yi saw the teacher holding up the wine glass with a calm expression on his face, then smiled again, and said: "In fact, the teacher's soul treasure is also very precious, probably the strongest weapon equivalent to fifteen giant axes."

"puff....."

No way, who will help me accept this enchanting apprentice!

[Chapter 559: Wang Yi's children](#)

"It's a monster."

With a sigh of emotion, it spit out from the mouth of the world master'Ze Yuan'.

As the primary member of the Primitive Secret Realm, he has practiced in the Primitive Secret Realm for hundreds of thousands of years. He is a peerless genius and has seen countless geniuses, but feelings like today are rare.

He was finishing an interview with an old friend, flying over the original area of Yuxiangshan, a virtual universe company, and inadvertently looking in one direction, where there is also a vast and luxurious manor.

There, there was one of his juniors, a latecomer to the Primordial Secret Realm, who had already surpassed him now. This gap made this member of the Primordial Secret Realm with a firm heart feel a little uncomfortable.

"Rong Jun, it's okay for Buran to surpass me. They have already broken through to immortality, and immediately they were crowned king and left the primitive secret realm... This Wang An has been staying in the primitive secret realm. He has reached the 18th floor through the sky bridge. The law perception also has the level of kingship. I heard that he is the direct descendant of the closest blood, so it's no wonder..."

Ze Yuan shook his head and sighed to leave. During this time, there were too many genius monsters in the Primitive Secret Realm, and they were endlessly emerging.

Wang Yi and Luo Feng are extremely dazzling. One has become a myth, and is now the lord of the universe, the highest level of mankind, unattainable.

One also broke through to immortality, possessing the strength to defeat the Venerable, and building a palace on the mountainside of Thunder Island is also legendary.

Rong Jun and Buran are a bit worse, but breaking through immortality immediately means becoming an immortal king. They are also in a high position in the virtual universe company and are favored by many super existences.

This is the peerless genius of these 100,000 years, they have all left, and many of the world masters who have been in the primitive secret realm for millions of years are still staying in the secret realm.

Really people are more dead than people.

In the primitive area, many manors covering an area of thousands of kilometers are distributed here. There are 113 manors in the entire primitive area, including 100 realm masters, 10 domain masters, and universe masters 3. Each His Highness is the most valuable asset of the Virtual Universe Company.

One of the manor houses of the realm is Wang An's residence.

Each of His Royal Highnesses in the Primal Secret Realm has a personal immortal teacher, who is generally held by the immortal king.

Wang An is the second son of Wang Yi. Wang Yi has a total of eleven children. Since then, he has nothing to do. His eleven children are all very talented. Under the cultivation of his parents, he reached the star rating before the age of ten. , This was an incredible thing on the previous earth, but it was normal in the universe.

Not to mention that Wang Yi still has infinite precious resources to cultivate his own children. Even the master of the world can easily cultivate them as long as he wants to.

However, Wang Yi did not encourage him. After his children experienced constant star ratings, many chose to join the virtual universe company.

They are proud of their father, so they also plan to follow the path of their fathers and practice hard work in the virtual universe company.

But even between brothers and sisters, there is still a difference between superior and inferior. Seven of the eleven children joined the Virtual Universe Company, but only five entered the Secret Realm of the Beginning, and only two entered the Secret Realm of the Primal Beginning.

This is actually incredible. Even the descendants of the Lord of the Universe, a generation rarely has so many outstanding things, but knowing that it is Wang Yi's child, many existences understand it.

At the beginning, in order to rush to accept the disciples, a group of high-ranking venerables almost didn't do anything.

What they care about is not the talents of Wang's children, but Wang Yi.

One hundred thousand years have passed, five of them have broken through to immortality, four are crowned marquis, one is crowned king, and two continue to stay in the original secret realm and struggle.

Among the most outstanding geniuses in the Primitive Secret Realm now are Wang An... and Luo Dingjun.

Luo Dingjun is the son of Wang Yuanyuan, the daughter of Wang Yi, and Luo Ning, the descendant of Luo Feng. Wang Yi is his grandfather in terms of seniority.

There are two super-existence families behind. Luo Dingjun is also smooth sailing. Various resources are softened, countless powerful masters have given pointers, plus talents. After a little tempering, he soon rushed into the primitive secret realm and became a realm of primitive secret realm. host.

You must know that even Wang An was promoted to the Primal Secret Realm when he was the master of the world, after all, the speed of practicing the law of perception during the time of the master has a powerful advantage.

But Luo Dingjun did it in the domain owner, and it is rare in the virtual universe company Yuxiangshan.

This shows that Luo Dingjun is also an evildoer. Of course, Wang Yi and Luo Feng play a key role behind them.

After all, one is grandfather and the other is great grandfather. He still loves this outstanding younger generation very much.

However, during the period of the landlord, Luo Dingjun is still in the outer battlefield, and Wang An is in a cosmic secret realm. Of course, they can enter the virtual universe Yuxiangshan at will.

Manor 110.

The courtyard wall of the manor is like a continuous mountain range, continuously extending until the end of the field of vision. In terms of area alone, this manor is larger than the territory of any country on earth.

Wang An is cultivating under the guidance of a female Universe Venerable who is wearing a beautiful star gown and her long black hair shed like stars.

The other Highness Manor teachers are immortal kings. Only the two children of the Wang family are Venerable Universe, and they are only Manor teachers. Think about the difference.

"If you want to break through the world master level primitive Tongtian Mountain, one of the prerequisites is that you must reach the 20th level of law and perception..." After the teacher left, Wang An closed his eyes and sat on the grass of the vast training ground. One hundred thousand years passed. His face is also much mature and firm, and he has gone through many dangerous trials. He has personally punished the immortal gods, and his aura has become cold and domineering.

Wang An has a longing, a dream, that is to follow his father's footsteps, rise in the virtual universe company, and become a great powerhouse like his father, whose name extols the entire universe.

He wants his father to be proud of him~www.mtlnovel.com~ He thought so when he was very young.

However, it is too difficult to break through the primitive Tongtian Mountain. Only by personal experience can I know what difficulty it is. There was only one in the history of human races for a long time, and in modern times, two monsters, Wang Yi and Luo Feng, appeared.

Therefore, Wang An admires his father even more. You must know that his father has managed to break through the world master-level primitive Tongtian Mountain with his own strength in just over two hundred years of cultivation. The 18th floor of Tongtian Bridge is far away from the original Tongtian Mountain on the 20th floor.

What a huge gap among them, although Wang An is already considered the top three world masters in the Primitive Secret Realm, but thinking of the gap with his father, he still feels helpless.

Especially in Yuxiang Mountain, the Primitive Secret Realm often hears others discussing his father. That kind of worship and admiration also makes Wang An proud. He also wants to be a strong pillar of his father's ethnic group.

Therefore, although Wang An's law has already accumulated extremely deep, comparable to a king, the reason why he didn't break through was to break through the primitive Tongtian Mountains. He didn't want to live under his father's wings all his life. He believed in his other sister, and That boy Luo Dingjun thought so too.

"Primitive Tongtian Mountain..."

[Chapter 560: Wang Le](#)

Not everyone is suitable for the path of the strong, the path of the strong is to practice and fight to kill, which is inevitable.

Talent, temperament, and resources are all indispensable!

So even if Wang Yi painstakingly cultivated, his children now only have four immortal princes, one immortal king, two members of the original Secret Realm at the master level, and the others are just ordinary masters, and they are still suffering.

Wang Yi's request for them is to at least seal the Marquis.

As for Wang Yi's wives and parents and relatives, it is simple, just pile it up to immortality. For Wang Yi, this resource is nothing.

But it's only limited to the closest relatives. The other descendants of the Wang family don't have unlimited resources. Those who can fight can fight, and those who can't fight can enjoy the resources provided by the family, and spend their lives worry-free.

And it's only a small part of it that you can enjoy it this way. If you don't work hard, you can starve to death.

After all, the king's family is too big now, with too many descendants, in the hundreds of millions, even today's king's family can't take care of all the tribesmen.

The same goes for the Luo family!

So when Lin Youyu told Wang Yi with emotion that she accidentally knew that a sister she knew was dying of old age, Wang Yi discovered the gap between ordinary people and high-level powerhouses.

The constant star can only live for 10,000 years, and the universe level can live for 100,000 years. The sister Lin Youyu can live for 100,000 years. It's actually pretty good. It's better than ordinary people. I don't know how much, but the domain master can live. It's not that easy to break through.

Not to mention immortality, it is an unattainable hurdle, the human territory of 1008 universe country, endless population, how much can be achieved?

Even the descendants of the Wang family don't know how many have died for generations, but that kind of existence naturally doesn't even have the qualifications to be known by Wang Yi.

As the lofty master of the universe, he has set his sights on the entire human race, and only occasionally pays attention to his own family.

As long as they do not fall, the family will not fall!

Even if they fall, when you are their relatives and friends, the disciples of Venerable Universe are all fake? The same can last forever.

How could there be no disciples of Venerable Universe under a master of the universe, but they were too lazy to accept too many disciples.

Wang Yi stroked his smooth chin, and sat with his three wives in the backyard of the old family house. He came back this time to reunite with his family, and by the way care about house affairs.

After all, he is nominally the patriarch of the family, although he never cares about things.

The big family is mainly managed by the wife and children.

As the master of the universe, Wang Yi doesn't care about such trivial matters.

Gao Yurong sighed, "When you come back this time, just take care of your daughter Lele. You said that a girl's house, why always go out and wander around? You, the father, don't care about her."

Wang Le is the daughter of Wang Yi and Gao Yurong and the eldest daughter.

Because the three wives were pregnant almost at the same time, the first six children were about the same age. As the eldest daughter, Wang Le was also the strongest among many children because of his personality.

It can be described as a strong woman.

Because of her independence and family, she still listens to Wang Yi's words, and Gao Yurong's words are not working well.

The two realm masters of the Wang Family in the Primal Secret Realm, except for the second child, Wang An, the other is her.

The lord of the world can be compared to the king, so it can be seen that Wang Le is not an ordinary woman, she is definitely a ruthless character.

Most of the brothers and sisters of the second generation of the Wang family are a little afraid of this "sister".

"Father, mother."

A clear and cold voice came.

A tall woman walked in from the outside, she was very young, with a thunder mark on her forehead, and her blue eyes exuded a striking light, as if there was a thunder world inside.

Wearing an exquisite blue armor, he fits a perfectly tall figure, with shoulder-length short hair, and his face is also amazingly beautiful.

This is Wang Yi's eldest daughter, Wang Le.

Wang Yi looked at his daughter with emotion in his heart.

As the saying goes, when the eighteenth woman changed, her daughter got married on the earth, and her children had long been there. The biggest change was to enter the virtual universe company. After entering the universe, the environment has changed a lot for a person.

"Sit down, you just came back from the Secret Realm of the Universe, have you worked hard?" Wang Yi said.

Wang Le sat down with a smile on his face, "It's not hard, it's still very safe in the secret realm of the universe, and the treasure given by my father, no one can hurt me."

Wang Yi looked at his daughter. The tradition of the Virtual Universe Company is to go out and practice during the period of the landlord. Although Wang Le is his daughter, he does not plan to intervene because this is also the daughter's wish.

"Although the training is good, the family is also very important. You should gather with your husband and children. Don't be like someone. You don't come back once in ten thousand years." Gao Yurong pointed out to the side.

Wang Yi's face stiffened slightly, and seeing his daughter wanting to laugh but not daring to laugh, he coughed and brought the topic back.

"You have to pay attention to safety when you are roaming outside. When encountering irresistible danger, don't be stingy with using the treasure. At the last minute, use the token I gave you."

Wang Yi handed over the token with his own spiritual imprint to his children. As long as he crushed it, Wang Yi would know immediately and rush over as quickly as possible!

It's okay in the human domain. If you leave the human sphere of influence, other forces don't matter what your background is, especially some forces that are hostile to the human race unscrupulously kill the peerless genius of the human race.

Children like Wang Yi have also been targeted for several assassinations, but Wang Yi has done a good job of protecting his children, and they always return without success.

"Don't worry, father, in that secret realm, no one is my opponent yet." The daughter said extremely confidently, full of expression.

After all, it is also the world master who can be comparable to the king, and kills the peerless genius, how can he not be confident.

Wang Yi's heart was filled with relief, but at the same time he was a little worried.

It is a good thing for a daughter to be confident ~www.mtnovel.com~ but too much self-confidence is not enough.

That's how parents are. Children who are always worried about going around outside, especially girls, are inherently more worried than boys.

But this is the daughter's own choice, and Wang Yi will not deliberately stop it. Instead, he will try his best to help her as much as possible.

Wang Yi exhorted some more words, and then said again. "If you are attacked by the soul, you can't stop it. I would rather commit suicide than become a soul slave." Wang Yi's expression was solemn.

This is what he worries most.

If he is enslaved by the soul, even the current one cannot be saved.

"Yes, father." Wang Le also experienced many trials and hardships and was not stupid. Of course, he understood his father's worries, and his expression became solemn.

In fact, relying on Wang Le's current life-saving methods, even if Venerable Universe made a move, it would be difficult for her to hurt her in a short time. At that time, Wang Le could crush the tokens his father gave her for help, and it was natural.

But this universe is full of dangers, who knows what will happen in the rush, it's better to be more cautious.
