

A God 591

[Chapter 591: Battle of the strongest in the universe](#)

The founder of the giant axe and the ancestor of the dream demon attacked the 'Northern Star Giant' at the same time. Although the 'Fire Demon God' did not form an alliance with them, they also tacitly cooperated with them.

After all, here, the threat of the 'North True Star Lord' is too great.

Among the strongest in the four universes on the scene, 'Dream Demon Ancestor' and 'Fire Demon God' have one supreme treasure, and 'Great Axe Founder' does not have a supreme supreme treasure, but the 'North True Star Lord' has several supreme treasures. .

Facing the siege of the three strongest in the universe, the 'North True Star Lord' could not help but his face was solemn, and he made a cold snort. Although his voice was not loud, it resounded through the space and time of a light-year radius.

The "North True Star Lord" relies on the treasure field radiated by the big green trees behind it. Although he can't do absolute control, he can also greatly suppress the three strongest in the universe and increase his own strength.

"There is no need to entangle with them, it is important to get the treasure first." Northern True Star Lord said inwardly.

The North True Star Lord, of course, is prepared for this time, and even the strongest in the universe borrowed the treasure to him so that the North True Star Lord brought a full four pieces of the strongest treasure! They are: palace type, domain type, melee attack type, long-range attack type, four Xeon treasures.

"Ning!" Facing the overwhelming black vines of Dream Demon Ancestor, the Northern True Star Lord uttered a clear drink, and the misty blue light that permeated the endless void immediately condensed from all directions, and also turned into a rope of light, intercepting the black vine and The strongest in other universes.

"Broken!" Like a tiger out of a cage, a savage-like giant axe with his hair spreading over his head, the founder has rushed over, raising the magic axe in his hand, the sharp aura turned into an axe that traverses tens of thousands of kilometers and tears time and space, everything along the way Be cut off.

The Fire Demon didn't make a sound either, and the golden flames soared into the sky, sweeping hundreds of millions of kilometers around, rushing towards the Northern True Star Lord.

The strongest in the four universes are all very close to the 'black square', and the power of battle also affects the 'black square', but no one cares how the Xeon is so easily destroyed.

In fact, the same is true. The 'black square' in the center of the battlefield of the strongest in the digital universe is like a boulder in a turbulent flow, standing still.

The Northern True Star Lord was a little worried while fighting the three strongest in the universe. Although he was strong, the three strongest in the universe, but all of them have small universes, the strength that bursts out is extraordinary.

However, the founder of the giant axe, the dream demon ancestor, and the fire demon only temporarily formed an alliance due to the strength of the northern true star master. In fact, they all have ghosts and don't work together.

"Get out!"

"Get out of the North True Star Lord first!!"

The three strongest players in the three universes used their own methods to drive the Northern True Star Lord who possessed the Xeon Supreme Treasure domain away from the black square, so that they would have the opportunity to recognize the Lord Supreme Treasure.

Although the Northern True Star Lord is strong, the creators of the Great Axe are not weak, and they all exert their powers at Tier 8. With the addition of the three of them, the Northern True Star Lord was suddenly messed up and overwhelmed.

"Swimming ten absolutes!"

The area suddenly went dark.

The voice of the Northern True Star Lord came from far away, and the three strongest in the universe were surprised. There was another mysterious white bird in front of the Northern True Star Lord. It was huge, and its wings suddenly spread out, covering an area of several light years. Shoo, hoo, hoo, hoo, hoo... a stream of white streamers flew out of the wings, and thousands of streamers flooded the sky.

"It's the long-range attack type Xeon of the North True Star Lord."

"It's so powerful."

"Damn it, the North True Star Lord actually has so many strongest treasures."

The founder of the giant axe, the dream demon ancestor, and the fire demon **** were forced to protect themselves, shocked and envied in their hearts.

The strongest person in the universe possesses four Xeon Treasures. Is this the background of the oldest holy land universe?

They didn't know that even the Northern True Star Lord was only two of the strongest treasures, and two of them were temporarily lent to him by the strongest in the other universe in the East Emperor Holy Land.

"Haha!" The white-robed old man suddenly laughed and waved his hand. The dazzling black huge sphere flew directly above the 'black square' and continued to grow larger, quickly becoming larger than the 'black square'. It was more than ten light-years tall and looked extremely majestic.

"big big big."

If the treasure is provided by the power of the strong, it is normal for the body shape to reach light years, but if you want to exert the strongest power, it is best to fit your body shape.

The Northern True Star Lord did not hesitate to burn his divine power to urge it, and the power of this supreme treasure palace also skyrocketed in an instant.

The dazzling black huge sphere stopped above the black square, revealing a hollow below, and then a powerful invisible swallowing force directly acted on the black square, and it started to swallow frantically.

The creators of the Great Axe were surprised to see this scene.

"He's crazy, he wants to **** the Xeon Supreme."

"Can't let him succeed."

Seeing the faint tremor of the black square, the creator of the giant axe was also a little worried and began to attack frantically.

In fact, the Northern True Star Lord was a little struggling, feeling that as the divine power was surging, the black square trembling, but it was still a thousand miles away from being sucked away.

"boom!"

Finally, as the fire demon god's golden flame spear passed through the layers of obstruction, it threw it over, and blasted on the palace of the North True Star, forcing him to stop swallowing.

"Attack, you all listen to my orders, take action together, attack the enemy close to the black square."

The voice of the North True Star Master reached the dozens of the universe masters of the East Emperor Holy Land Universe in the palace.

"Yes!" The masters of the universe were all refreshed.

The masters of the universe in the East Emperor Holy Land brought out this time are very strong, most of them are the masters of the fourth-order universe, a small part are the masters of the fifth-order universe, and there are two sixth masters of the universe, plus their treasures. The combination of these dozens of people is almost comparable to the strongest in the universe, and it is not a problem to block one at least.

Of course, they must go to the gate of the palace if they want to fight, and when dozens of them stand together, they are not worried. If there is any danger, they can return to the palace in time. It can be said that they are almost foolproof.

"attack!"

"Fight him back!"

"boom!"

"boom!"

A cloud of blue light shrouds the endless area~www.mtlnovel.com~ The endless white feathers of that huge white bird's wings extend several light years away. A piece of time and space is plunged into a chaotic energy storm.

In the distance, in the purple dragon boat palace that was being carried by the black torrent at an alarming speed, Wang Yi was also surprised to see the towering and endless white bird and the 'white light and dust' that kept falling from its unfolded wings. In fact, That is the streamer of countless white feathers.

Even in such a distant time and space, the power shock can be felt.

"The battle has already begun."

"The founders of the great axe are fighting there."

Wang Yi thought in his heart, "But I haven't seen the giant axe's supreme treasure field. According to the character of the giant axe, it is not necessary until the last moment. He will not use this supreme treasure. He should be looking for opportunities."

[Chapter 592: Conditions of the North Star Lord](#)

"Huh? Is the speed slow?" Wang Yi, who was in the palace, noticed that the time and space around him had begun to slow down, and the darkness was quickly passing by, revealing gray.

"The black light is disappearing."

"It seems that Black Eye's swallowing power is beginning to weaken."

"Is it affected by the battlefield?" Wang Yi looked into the palace through the palace and looked at the place where various energy fluctuations swept the void and annihilated all the battlefields.

Without the power of black light, Wang Yi's palace has begun to slow down continuously.

The battlefield where the 'black square' and the 'black sphere' are located has been in full swing.

"boom!"

The Scepter of the Northern True Star collided with the axe of the founder of the Great Axe, and both sides were shaken out.

The fire demon **** not far away wanted to fish in troubled waters and sneaked around, but was intercepted by the holy land universe masters who were waiting for him.

The big silver-white snake, whose body has swelled to the 'light-year' scale, was roaring and beating its tail, and dense black vines appeared on its body against the white feathers flying all over the sky.

Those feathers ran across the space, extremely sharp, but they couldn't leave a scar on the silver scale armor of the giant snake.

"Great Axe! Dream Demon Ancestor! Fire Demon God! Do you really want to be an enemy of our East Emperor Holy Land?" After fighting for so long, but unable to repel the opponent, the Northern True Star Lord also shot out real fire.

And he was also surprised secretly in his heart. He didn't expect this human giant axe to have no supreme treasure, and to have such a strong combat power, especially the exquisiteness of the axe and the violent offensive, which made him somewhat admired.

"Can the East Emperor Holy Land cover the sky with one hand in the Universe Sea?" The founder of the giant axe stood in the void, holding a magic axe in his hand, black hair dancing wildly, and his eyes full of domineering. "My great axe, I'm not afraid of you."

"If you want to get the Xeon, you have to rely on your own strength."

"Haha, the giant axe is right, the East Emperor Holy Land wants us to retreat after a few words, it's a dream." The Fire Demon said with help, "the giant axe, I will help you deal with this Dongdi Holy Land guy."

Meng Yaozu didn't say a word, just glanced at the North True Star Lord indifferently.

Although the strength of the Northern True Star Lord is strong, but it has not yet crushed them, really fight it, it is not certain who will be the winner.

For the Xeon, the strongest people in the universe put together without any ambiguity.

The North True Star Lord looked at the three strongest people in the universe, snorted, frowned, but thought in his heart, "There are three of them, but I have only one person. Although there are those universe Lords to help, it is difficult to be short. Achieve results in time."

If the news is learned by other forces, the more powerful people come, the harder it will be to realize the intention of the Eastern Emperor Holy Land to possess the strongest treasure.

Originally, the Northern True Star Lord still wanted to force the supreme treasure with his strength, and even if he brought so many masters of the universe, he also wanted some of them to recognize the supreme treasure.

After all, the strongest person in the universe generally has much higher conditions for recognizing the master, and the master of the universe is easier.

However, under the interference of the strongest in other universes, those universe masters can only hide in the palace, and dare not come out easily.

The Northern True Star Lord didn't expect that three of the strongest in the universe would suddenly appear. If one or two he thought he could deal with, the three would be in trouble.

The founder of the giant axe, the ancestor of the dream demon, and the **** of fire actually have the upper hand, but the North Star Master has four strongest treasures, and a group of cosmic masters assisting. Comparing, no one can overwhelm others, the situation is temporarily stalemate.

Wang Yi, the Lord of the Eight Ruins, the two palaces in the Holy Land of the East Emperor, and the Lord of the Eagles of the Monster Race all watched the battle from a distance, and they also saw huge black spheres and black squares full of golden patterns.

The Lord of the Eight Ruins and the Lords of the universe are all shocked with fiery eyes.

"Xeon Supreme."

"That is Xeon Supreme."

"If I have one of the strongest treasures, I will have the confidence to escape in the face of the strongest in the universe."

They are eager.

And Wang Yi also watched quietly. This was the first time he had witnessed the battle between the strongest in the universe. The terrifying might that even the laws would blow away made him feel bad.

If Wang Yi hadn't made a big leap, he would still be far from the level of the strongest in the universe.

Of course, with his hole cards, he is not afraid of the strongest in the universe.

"In the previous battle, the three strongest in the universe fought one, and that should be the North True Star Lord of the Eastern Emperor's Holy Land." Wang Yi can easily make inferences based on the information of the human race and the memory of the previous life. "This Northern True Star Lord is really powerful. He can actually resist the three strongest in the universe, but it should be the reason for the strongest treasure in him, and the creator of the great axe has not exerted real combat power."

Although Wang Yi didn't know the current strength of the founder of the Great Axe, it was definitely more than the previous performance.

The great axe that truly possesses the Xeon Supreme Treasure can be chased by the two gods of the God Eye Race who use the combined secret method. Those two gods also have two strong and supreme treasures, and the combined use of the secret method is no worse than the northern true star.

The giant axe can sling those two, slinging a Northern True Star Lord, there shouldn't be any difficulty.

The Northern True Star Lord pondered, "Three, we can't continue fighting like this. It's better to take a step back, and my East Emperor Holy Land will give you other compensations. This black square belongs to my Holy Land."

"Compensation?" There was a sneer in the distance, and an indifferent voice came. "How precious is the Xeon Supreme Treasure, what can you take out of the Eastern Emperor Holy Land to compensate for our loss?"

"Our East Emperor Holy Land is willing to produce three peak treasures." North True Star said.

"For us, what's the use of ordinary peak treasure?" the fire demon said dissatisfied. He is regarded as the strongest person in the lonely universe, and also a special life, so there is no race, and the life in the small universe has nothing to do with him. Most of them are brought by the masters of the universe who depend on him, so the fire demon **** wants the strongest treasure.

However, he also understood that it was almost impossible for him to get the Xeon Treasure in the hands of the East Emperor Holy Land alone, so he could only unite with the other two.

"Three treasures at the level of the pinnacle palace~www.mtlnovel.com~ The North True Star Master also understands that the three strongest in the universe are not so easy to pass, and tell their true conditions.

In fact, he only needs to send one or two away, and the rest is not enough.

"The fire demon is alone, it is the first reincarnation era, and there is no ethnic concern, it is very crazy, and it is almost impossible to buy it." Northern True Star Lord secretly said, "but that giant axe is different from the dream demon ancestor. They are all primitive universes, and there are ethnic groups behind them. It shouldn't be difficult to separate them."

The Great Axe and Meng Yaozu fell silent.

The treasure of the pinnacle palace? For a group of people, it is already extremely precious.

Of course, it's far inferior to the Xeon Supreme, but the current situation wants to grab the Supreme Treasure under the Dongdi Holy Land. There are two other unreliable allies. Is there really a chance?

[Chapter 593: Intrigue](#)

"Several people, I have been very sincere in the Eastern Emperor Holy Land." said the North Star Master.

He does not care about the strongest people in the universe, but if he wants to successfully obtain this Xeon Treasure, he cannot bypass the three in front of him, and the Northern True Star Master has learned many ancient civilization information and vaguely guessed the black square. It's not simple, most of it is an extremely precious Xeon.

In order to avoid long night dreams, the North True Star Lord decided to cut the mess with a sharp knife.

Three treasures that are comparable to the most treasures of the pinnacle palace were returned by the East Emperor Holy Land, and the North True Star Lord took it out without blinking at the moment.

"Joke, how can the value of the three peak palace treasures be on par with the Xeon treasures?" The flames of the fire demon god's eyes were full of anger. He was originally in the First Reincarnation Era. When the deadline is approaching, his behavior is even crazier. The price of the East Emperor Holy Land In his opinion, it is useless at all.

Meng Yaozu's eyes flickered.

She is not the Fire Demon God, and there is a whole demon clan who needs support behind her.

"The North True Star Lord of the East Emperor Holy Land, with the help of a few Xeon Supreme Treasures, although he has not yet reached the ninth rank, it is also very close. None of our three one-on-one is his opponent." Meng Yaozu secretly said in his heart.

Divided by strength, the Lord of the Universe is from Tier 1 to Tier 6.

And what about the strongest in the universe?

Because of the suppression of the will of the primitive universe, even in the "universe sea", the divine power used by the strongest person in the universe is the master level of the universe ten thousand times more genetically. So like some of the strongest people in the ordinary universe, they can only play the seventh-order combat power!

And some of the mixed ones are good, and there are Xeon, and they can generally reach eight levels!

Like the Father God of Mechanical Race! Like the dream demon ancestor! Like the founders of the Great Axe who didn't have the Xeon Arcana before, they were all of the eighth level!

Since obtaining the Xeon Supreme Treasure, with the help of the multiple secret patterns contained in the Xeon Supreme Treasure... it can explode even stronger combat power, and the creator of the Great Axe has reached the ninth order of combat power!

Need to know...The entire universe sea now has many of the strongest forces in the universe, and it is only at the top of the ninth rank.

Unless there is a combined secret technique, such as the seven Allahs of the God Eyes gather to perform the combined secret technique, it is possible to reach the tenth rank!

Xeon Demon Ancestor is so greedy, but not sure enough, Dream Demon Ancestor can only face reality.

"Star Lord Beizhen, give me the treasure, and I won't stop you." Meng Yaozu finally made up his mind and decided to quit.

"Okay." The North True Star Lord showed a smile.

call out! The Northern True Star Master waved his hand, and a streamer flew directly towards the Dream Demon Ancestor under the control of the domain. He was not afraid that the opponent would lose his promise and get fat. The strongest man in the universe still wanted the face.

"What about you, the giant axe?" The North True Star Lord ignored the roaring Fire Demon, and looked at the silent savage man with a full smile, "Are you choosing the same as the Dream Demon Ancestor?"

Should I choose to take the treasure and leave, or stay and continue fighting?

The giant axe clenched the axe tightly, raised his head and looked at the Northern True Star Master with blazing eyes, with a rough and wild voice.

"Northern Zhen!"

"It's not enough to buy me at this price!"

"Oh?" The North True Star Master frowned slightly, and then unfolded.

"I think it's enough. After all, you just got a treasure that is comparable to the highest treasure of the Peak Palace..." The Lord Beizhen star narrowed his eyes slightly. Although his Dongdi Holy Land is rich, he is not allowed to be blackmailed by others.

"Great Axe, don't be too greedy!"

"If you are too greedy, you won't get anything."

"That would be a shame." The giant axe shook his head and raised it.

"Then fight!"

The fire demon **** laughed wildly. "Haha, Great Axe, you are really domineering, much better than the courageous ladies of Dream Demon Ancestor."

The Dream Demon Ancestor, who had already withdrawn from the sidelines and was ready to watch the next changes, froze.

Is he my mother to provoke you?

Forget it, don't care about the lunatics of the first reincarnation era.

Wait a moment, Meng Yaozu's eyes rolled, and suddenly he had an idea in his heart.

"Master Beizhen, if you give me three more treasures of the previous level, I will join you and help you deal with the giant axe."

The concealed divine power transmission of Meng Yaozu sounded in the ears of the Northern True Star Lord.

The eyes of the Northern Star Lord flickered slightly.

This dream demon ancestor, seeing the wind make the rudder very quickly, not only withdrew, but also immediately dealt with the original allies for profit.

But this is also normal, after all, the previous alliance was also for profit.

"Up to two pieces." The North True Star Lord would not allow the Dream Demon Ancestor to make a price.

Two pieces.

Meng Yaozu's eyes flashed, but he was still very satisfied in his heart.

"The two are too few, I can only help you entangle the giant axe, I don't care about the Fire Demon God." Meng Yaozu said.

In fact, she wanted to take revenge on the Fire Demon who had spoken harshly to her before, but she also felt that it would be easier to deal with without the giant axe of the strongest treasure.

After a quick bargain, the two parties quickly reached a deal.

And all this happened in an instant, because there was the domain cover of the Northern True Star Lord, neither the founder of the Great Axe nor the Fire Demon had noticed the problem.

However, although the founder of the giant axe and the Fire Demon God did not know that the Dream Demon Ancestor had joined the side of the Northern True Star Lord, they did not relax their vigilance against the Dream Demon Ancestor.

As long as Meng Yaozu has not left, here, that is a potential opponent.

It's normal for the strong to turn their faces for a Xeon Supreme Treasure.

"Great Axe, why are you so unwise." The North True Star Lord sighed lightly. Now that the price has been paid to win over the Dream Demon Ancestor, then the giant axe is not necessary. After all, the treasure of the East Emperor's Holy Land is not brought by a gale, and the cost is valuable.

And like the creator of the giant axe, the Northern True Star Lord would not really believe the Dream Demon Ancestor who fell on his side at once.

Several of the strongest in the universe are calculating and intrigue with each other, no one will believe anyone except their own camp.

"Originally, I was thinking about looking for opportunities, but I didn't expect Dream Demon Ancestor to be so useless, so I had to do it myself." The giant axe was holding the bronze battle axe, and there was a blazing fire in his eyes. "Since I got the Xeon Supreme Treasure Axe, I have realized that it is even stronger. You are the first opponent I have encountered. Let me use you as my sharpening stone."

The founder of the giant axe soared to the sky, and his fighting spirit was bold.

"Axe~www.mtnovel.com~ Let's go together!" The golden flame on the fire demon **** also turned into golden armor, shouting.

"Okay." The founder of the huge axe with a disheveled hair in the distance, holding a bronze battle axe, the battle axe stretched out and covered his whole body with a blue streamer, suddenly forming a layer of cyan armor.

"Meng Yaozu, stop the giant axe!" The Master Bei Zhenxing said.

At the same time, he released the Lord of the Universe in the palace, ready to let them try to recognize the Lord one by one.

"Dream demon ancestor." The creator of the giant axe and the fire demon **** looked at the flying silver-white giant snake at the same time, and said coldly: "You really fell to the side of the East Emperor Holy Land. The peak of the district can drive you. The strongest in the universe is ashamed."

"Great axe, I won't let you pass." Meng Yaozu said, she hasn't got the two peak treasures of the East Emperor Holy Land, how could she let the giant axe pass easily.

[Chapter 594: Great axe!!](#)

With the sudden change of Meng Yaozu's attitude, the situation changed abruptly, from the previous three-on-one to the current two-on-two.

"Giantaxe, you should give up, Xeon Treasure is not something you can get." The Dream Demon Ancestor didn't care about Fire Demon God at all, and said with a body that was winding for hundreds of thousands of kilometers in front of the creator of the giant axe, gloating.

Although she did not get the Xeon Supreme Treasure, she obtained three Peak Palace Treasures from the East Emperor Holy Land... In contrast, the founder of the Great Axe was far more miserable.

I am afraid of comparison in everything, and it is unlucky to see the founder of the giant axe, who has always been a competitor, of course Meng Yaozu is happy.

"Meng Yaozu!" The giant axe looked at Meng Yaozu, with an astonishing murderous intent suddenly appearing in his eyes.

Humans and monsters hate endlessly because of territorial disputes in the primitive universe. Of course, the founder of the giant axe and the dream demon ancestor are also old opponents.

"You demon race, you have committed crimes against my human race again and again, and your dream demon ancestor is even more sinful." The creator of the giant axe yelled through the void. "Today, right here, I want you to know that my human race is not easy to bully!"

"kill!!!"

New hatred and old hatred rushed to my heart, the giant axe no longer retained, and shot out in anger.

"Just because you don't have the strongest person in the universe, there is no chance..." The silver-white snake's laughter stopped abruptly, and then turned into fright. "What? When did you get this supreme treasure axe?"

If a piece of Xeon supreme treasure does not display its true power, it cannot be seen from the surface alone.

But the founder of the giant axe no longer hides his true strength at this moment, the power of the magic axe is thoroughly stimulated, and that monstrous wave makes the surrounding 'blue trees' brilliance cut and shattered.

Realizing that something was wrong, Meng Yaozu roared and snarled, swinging its body towards the giant axe.

Accompanied by a dazzling brilliance to the extreme, the sharp ax directly slashed on the silver-white body of the dream demon ancestor covered with scales, smashing the huge body of the dream demon ancestor and flew out fiercely.

"Great Axe!!!" Meng Yaozu roared in resentment. "I didn't expect you to hide so deeply and get the Xeon Treasure, but you have never used it. You human beings have such a deep scheming!"

Dream Demon Ancestor has the strongest and most precious armor on her body, so she is not injured at all, but she is frightened by the strength of the giant axe.

There is no giant axe that has the Xeon Supreme Treasure, and it is already as good as her, even surpassing her.

There is a supreme treasure, or the most aggressive axe, what level of strength the giant axe should be, Dream Demon Ancestor himself can't imagine.

"Ha ha!"

"Go away!"

The savage giant with loose hair striding over in the distance let out a loud shout: "Twelfth!"

"Wow!"

The magic axe is raised. Suddenly a giant axe phantom appeared in the surrounding time and space, and each giant axe phantom was like a vast expanse of hundreds of millions of kilometers, like a world!

I saw a full set of twelve great axe phantoms, scattered in various directions, such as up, down, left, and right. Under these twelve great axe phantoms, every place where the extremely condensed universe was oppressed began to crack and crack. open.

now!

The twelve-handed giant axe phantoms, each phantom is hundreds of millions of kilometers away, for a time, in the endless space, the creator of the giant axe who raised the axe is like the core of the universe!

Then his powerful right arm slashed forward and the magic axe!

Suddenly, the phantoms of the twelve giant axe quickly gathered and merged into the magic axe, causing the entire magic axe to emit an extremely dazzling cyan light.

"This is the twelfth axe realized by the founder of the giant axe?" Wang Yi, who was watching the battle in the distance, looked refreshed and happy. "I heard that the founder of the giant axe used the axe method to enter the Tao, so the strongest is the axe method. There was no suitable Xeon Treasure before, and there was no way to exert true strength, but now there is this magic axe... It's the same!"

"When will I be able to create such a secret method, it is estimated that even with the body of the Lord of the universe, I will be able to fight the strongest in the universe." Wang Yi was full of excitement.

"What a powerful axe!" Meng Yaozu was full of shock. It wasn't that she had never fought the giant axe, but she had never seen the giant axe perform this trick.

"Moyu Vine! The Way of Ten Thousand Transformations!" Meng Yaozu tried his best to perform his own attacks, ejecting black vines all over his body. The axe thunderously drew it past, and the surrounding time and space were swept away and turned into nothingness.

And the axe of the giant axe was also chopped down, and the entire infinite universe seemed to be shattered under this axe.

"boom....."

Time and space tremors.

The dream demon ancestor's most precious weapon of thought power, the black python, was chopped down and flew back without any resistance, and even the strongest "entanglement" ability was not displayed.

The "Northern True Star Master" and the "Fire Demon God" who were fighting in the distance looked at this scene in amazement, the scene where the Dream Demon Ancestor was ravaged by the giant axe.

"Xeon Supreme Treasure? The Giant Axe actually has the Xeon Supreme Treasure?" The Northern True Star Lord didn't expect it.

"However, even if it is the Xeon Supreme Treasure, it is too late at this time." The Northern True Star Lord glanced at the black dazzling huge sphere behind him. The Lord of the Universe of the East Emperor Holy Land had flown out, ready to recognize the Lord.

Although the Fire Demon God tried his best to rush over, but was stopped by the Northern True Star Lord, the omnipresent blue light and the overwhelming white flying feathers, plus the Northern True Star Lord, could not be rushed past by the Fire Demon God in a short time.

The Fire Demon God was already furious with anger, and when he saw the giant axe burst out, he was not surprised but rejoiced.

"Great Axe, the guys in the East Emperor Holy Land are about to recognize the master!"

To tell the truth, the Fire Demon God would rather the giant axe get the strongest treasure than the arrogant East Emperor holy land.

Perhaps, there is also the envy and hatred of the strongest in the universe that is about to face the end of the first cycle of the universe, which can last forever.

Why, you can establish the Holy Land Universe, which will last forever, and we will fall?

However, the Eastern Emperor's Holy Land can't be helped, and they have to be blocked. This is what the Fire Demon God thought.

"It's not that easy!"

The founder of the giant axe smashed the flying dream demon ancestor with one axe, and it flew over very quickly.

"Meng Demon Ancestor, stop the giant axe!" The Northern True Star Lord did not expect that Meng Demon Ancestor would not be able to hold on to the giant axe for a turn, and thought she deliberately released water, a little annoyed. "Don't forget the agreement between us~www.mtlnovel.com~I..." Meng Yaozu felt bitter in her heart and couldn't tell. She was strong in the Xeon Treasure "Dream Scale" armor, which made her face others The strongest in the universe has the confidence not to be killed. Except for the weakness in the soul, the strongest in the universe is not afraid at all.

However, the bursting strength of the giant axe with the strongest treasure axe is really amazing, she tried her best to stop it, but she couldn't stop it at all.

A huge sacred axe traversed the void with brilliance, breaking through the sky.

"This dream demon ancestor is really useless!" Seeing the situation, the northern true star master twitched his eyes, and also cursed the same words as the giant axe and fire demon **** before, and the dream demon ancestor became impersonal inside and out.

"The giant axe, you should stop." The Northern True Star Lord had to allocate a part of his energy to deal with the giant axe. The Fire Demon God on the front breathed a sigh of relief. With the combined bombardment of Xeon Zhibao, the Vulcan God was simply beaten by one-sided suppression.

[Chapter 595: The giant axe is unstoppable!](#)

In the void, a strong savage man holding a giant axe strode over with a grim face.

There are endless blue light and white feathers all around, one after another.

"boom!"

The Fire Demon was once again flew out by the Northern True Star Lord. Although his mighty supreme treasure spear might be powerful, he was undoubtedly at a disadvantage when fighting against the Northern True Star Lord who had many blessings.

"Acknowledge the Lord soon." The Northern True Star Lord glared at the troubled Fire Demon God. Had it not been for him to stop him, the people of the Eastern Emperor Holy Land would have already recognized the Lord's treasure.

The recognition of Xeon Zhibao actually takes a while, and it needs not to be disturbed.

If it is disturbed by shocks or other divine powers when confessing the Lord, it will fail.

"Yes!" One of the masters of the universe in the East Emperor Holy Land flew out, looking excited.

At this time, after breaking through the blockade of the Dream Demon Ancestor, the giant axe had already slammed into it aggressively.

"North True Star Lord!"

The giant axe's hair is scattered, and his eyes are like electricity.

The Northern True Star Lord also has a solemn expression, this giant axe...very strong!

It was so difficult to deal with before the Xeon Supreme, and now it breaks out to the Xeon Supreme, is it still worth it?

"Vortex field!"

Wow! With the giant axe as the center, a huge cyan vortex suddenly appeared within a range of hundreds of millions of miles. The white feathers flew over like a blade, and flocked to the founder of the giant axe... "Shuhuhuhu." The whirlpool whirled. The Great Axe only felt a terrifying force sweeping and pulling himself. This was not only a force, but a combination of the domain-type Xeon and the long-range attack Xeon.

In a blink of an eye, the giant axe was drowned in the blue light and endless white feathers.

The North True Star Lord looked at this scene indifferently, "Even the strongest in the universe, it is difficult to break free with my trick, you will give me a behaved...what?" In the North True Star Lord's surprised gaze.

A dazzling axe light flew out from the endless blue light and white feathers.

With a bang, the giant axe rushed out frantically holding the giant axe.

"This giant axe, even if it has the most powerful treasure, it shouldn't be so strong." The North True Star Lord couldn't believe it.

"Flying Feather Sword!" The Northern True Star Lord did not dare to hesitate, and continued to attack.

Wow... Then you can see the white flying feathers that fill the endless area, start to gather together like butterflies, shrouded in a layer of blue light, and turn into a white long sword that lasts for a 'light-year'. Slashed fiercely towards the giant axe that came across.

"Thirteenth!" The giant axe raised his head and looked at the white giant sword that couldn't be seen at a glance, and only shouted such a sentence.

Raise the magic axe.

Wow... Thirteen vast axe phantoms appeared in the endless time and space. Each giant axe phantom was like a world, and the giant axe phantom even enveloped the distant dream demon ancestors, fire demon gods, and northern true stars. Lord, wait... It's just that the phantom seems to be in another dimension.

Swing!

God axe out!

Facing the white giant sword that traversed the entire world and came across the world...the **** axe came on!

"boom!!!"

The entire chaotic world seems to be shaking!

The founders of the white greatsword and great axe stepped back at the same time.

"Blocked?" The Northern True Star Lord's face changed slightly.

He knew very well that his move was already the strongest attack that could be performed at the moment, completely reaching the ultimate level of the eighth, and even comparable to the ninth.

The fact that the giant axe was able to block the sword frontally and relaxedly made his heart sink.

"Haha, you can't see the giant axe, you are really amazing." The flames of the fire demon god's golden spear swept across the void, and the divine power spread to the black square, forcing many cosmic masters to resist together.

Even the Lord of the universe who is acknowledging the Lord has to be interrupted.

"This **** Fire Demon God!" The corner of his eyes jumped when the North True Star Master saw this scene.

Had it not been for the slick Fire Demon God who made troubles from time to time, the people on his side might have recognized the strongest treasures long ago.

"Come on! Look at my fourteenth axe!" The founder of the giant axe was like a rainbow, and immediately raised the magic axe directly.

"What, the fourteenth?"

"How could it be..." The Northern True Star Lord and the Dream Demon Ancestor who followed afterwards were a little surprised.

And the many powerhouses in the core area of the Magic Light Cave then witnessed the thrilling scene.

As soon as the phantom shadow of the fourteen vast axe appeared, it was like a jigsaw puzzle, completely interlocking with each other, as if covering the time and space, making the entire endless time and space dark!

There is no light.

Total darkness!

With a loud noise, the surrounding time and space recovered again.

And the white giant sword has been bombarded far, tumbling and flying away again and again. Before everyone can recover from the shock, the creator of the giant axe drifted away, and his voice boomed: "My fourteen axes, I can't even split this flying feather sword. My fifteenth axe...I just created it, so let you try it."

"Fifteenth!!!" With the voice of the founder of the giant axe.

Following the endless time and space, it darkened again, but in the endless darkness... unexpectedly appeared a gleaming giant axe phantom.

Strangely, this giant axe phantom made every strong person present, including the weaker universe lord, feel that the giant axe phantom seemed to be in another world.

Dream Demon Ancestor has stopped acting, his eyes are full of shock, as if seeing something incredible: "This, this, this great axe..."

Wang Yi was also completely shocked by this move in the distance.

"Okay, it's a terrible one."

Something in Wang Yi's heart was touched, and his eyes were horrible.

It was like a ray of light suddenly lit up by the boundless darkness, illuminating the fog deep in his heart.

"My secret method should also be created like this..."

The shadow of the giant axe that lit up in the endless darkness was so magical, as if it were in another world.

That kind of weirdness deeply shocked Wang Yi's heart, and Wang Yi even felt that this axe might destroy a universe!

Of course, Wang Yi understood that this was just an illusion, that it was an illusion that was too powerful for him.

"He..." The Fire Demon God, who was destroying Dongdi's Holy Land, the Lord of the Universe, was also stunned.

"Shield!" The North True Star Master had a sense of crisis inexplicably, and with a roar, the white giant sword instantly disintegrated and turned into a huge and simple shield in front of him, surrounded by endless blue light surging like sea water.

And the giant axe also cleaved its own "fifteenth axe."

Silent!

Hit it out!

Endless time and space returned to normal.

The endless sea of azure light was completely split into two halves ~www.mtlnovel.com~ and the huge shield was completely disintegrated and disintegrated, turning into a large number of countless white feathers.

"He, he actually separated the "shield"." The North True Star Master was stunned. "This is a shield. I have studied endless years, and it took me how many times of reincarnation to develop the strongest defense method. How can he use an axe..."

"I didn't have the power to fight back against Bei Zhenxing. He, he, the giant axe... Could this giant axe be another original ancestor?" On the other side, the dream demon ancestor was trembling. She had been with the original ancestor. After passing, I was beaten and fled, the absolute powerlessness of the original ancestor... At this moment, the original ancestor was permanently suppressed by the original universe, which made many of the strongest in the universe secretly thankful and applauded.

"Great Axe..."

Looking at the savage brawny with dangling hair but invincible momentum, the strongest men present in the universe were all in absolute shock, and their hearts were very complicated, and many thoughts arose.

[Chapter 596: All retreat](#)

"The strength of this giant axe is so strong?"

"Oh my God, the Northern Star Lord has also been suppressed."

The Lord of the Universe in the East Emperor Holy Land was also frightened.

In fact, the founder of the Great Axe has always lacked a suitable Xeon Supreme Treasure. Otherwise, why is he so low-key and has never shown his true strength in the universe.

"Meng Yao Ancestor, you stop the Fire Demon God, I will deal with this giant axe." The Northern True Star Master knew that he was in a big trouble and encountered a terrible opponent, but Xeon Zhi Treasure was in front of him, and he couldn't give in.

"And you, protect the companions who recognize the Lord!" The North True Star Master shouted to the universe masters of the East Emperor Holy Land in the rear.

He didn't let these masters of the universe directly participate in the battle. In the face of such an attack by a powerful axe, the master of the universe can only play a limited role, and it will also distract him.

The fire demon **** in the distance was also muttering in his heart, "Hey, this giant axe, shouldn't it be the next original ancestor? It's incredible that the human race of the primitive universe can give birth to two such powerful men against the sky."

The Northern True Star Master knew that frontal combat was not an opponent of the giant axe, and all he had to do was to delay the giant axe, and delay until the person on his side could recognize the master, then it would be considered a success.

He looked at the magnificent giant axe with emotion in his heart, and said: "Great axe, I admire your strength. In today's universe, your strength is already at the forefront, but the strongest treasure. I will not give in."

There are four strongest treasures in the body, although the heart is guilty, but the northern true star master is still a little confident in stopping the giant axe and delaying time.

"Great Axe!"

And the Ancestor Meng Yao was anxious and angry, and there was an unspeakable fear of fear, "This giant axe is so powerful, if he gets the strongest treasure again, wouldn't it be even more difficult? No, you can't let this happen. "Meng Yaozu made up his mind.

Unlike the major forces in the universe, the monster race is in the primitive universe, and it is adjacent to the human border. It will fight you to the death, and it is completely a mortal enemy. The stronger the human race, the more threatening the monster race... How could the dream demon ancestor let this happen? things happen.

Although it is understood that the rise of the giant axe has become a reality, but if it can weaken the strength of the human side, then weaken it as much as possible.

As for the offending giant axe? Humans and monsters are both hostile, so how can they care about this? After a big deal, I will see the giant axe walking around.

"Want to stop me? Then try it!"

The founder of the giant axe carried the bronze giant axe and strode forward in stride, full of domineering.

An axe... the boundless darkness descends, like a giant axe phantom in a virtual space glowing with dazzling light, followed by this dazzling luminous giant axe phantom merges with the "divine axe", silently, Hacking towards the shields that countless white recondensed.

"Boom..." Countless cyan rays of light were obstructed and directly split apart.

The magic axe fell heavily on the shield.

"It will definitely be able to block it!" The Northern True Star Master strained. He still has a Xeon Arcane melee weapon, but at this time he didn't dare to fight melee with the giant axe. He could only hide behind the shield and use the domain to resist the giant axe.

"Boom!!!"

The entire shield was split again, turning into countless white streamers, and even though the Northern True Star Lord tried his best to resist it, he still couldn't stop the amazing axe of the giant axe.

Even though he had already anticipated something in his heart, the Northern True Star Lord still had an ugly face.

The creator of the great axe then ignored the Northern True Star Lord, turning his head to look at the huge black dazzling sphere.

A group of cosmos masters in the East Emperor Holy Land hiding in the palace were swept by the cold and electricity-like gaze, they all felt their scalp numb, and a tremor appeared in their hearts.

"Entangled!"

The Northern True Star Lord had to switch a way. The old emerald trees floating behind were shining fluorescently, and the brilliance was scattered like stars, while the white bird's wings opened fiercely, and then violently swung down towards the giant axe, as if Close the giant axe in the middle.

"Get away!" The giant axe knew that there was no delay, his eyes were full of chill, and the bronze giant axe in his hand swung out again.

"For being a strongest treasure, it is worth exposing more." Ju Axe secretly said.

And this time.

With the swipe of the giant axe, the next moment endless golden light gushes out of nothingness, endless sharp aura permeates, sneer...the golden light is composed of endless golden sword light, and every sword light contains it. With amazing power and sharp aura passing by, the space was torn through countless dense holes.

The endless golden light shrank fiercely, condensed into a golden magic axe, and then overlapped with the axe of the giant axe.

"boom!!!"

In the shocking eyes of the strongest in other universes, this axe flooded the entire universe.

It's as if the universe will be shattered under this axe.

The obstruction formed by the "blue tree" and "white flying feathers" that the Northern True Star Master tried his best to display could not even be maintained for an instant.

Invincible!

Unstoppable!

"No..." The North True Star Master was stunned.

The Fire Demon God and Dream Demon Ancestor who were fighting with each other were also stunned.

The masters of the universe, the masters of the eight ruins, and the masters of the eagles of those east emperor holy land were also stunned.

Wang Yi touched his nose.

"This is the Xeon Supreme! The second Xeon Supreme! How could it be possible!" The main brain of the North True Star was shocked for a while. Why? Why did two Xeon Treasures suddenly emerge from him!"

The one who was also shocked was the Dream Demon Ancestor, except for the Northern True Star Lord.

Dream Demon Ancestor was unbelievable, and she was even more unacceptable than the Northern True Star Lord.

"The second Xeon Supreme Treasure... There are actually two Xeon Supreme Treasures on the giant axe~www.mtlnovel.com~ It seems that it can still be comparable to the ancestral gods' colorful Aurora Lake!" Meng Yao Zudu I'm going crazy, "It's impossible. Where did humans come from the two Xeons, even if the original ancestors did not have two Xeons, and the original ancestors were suppressed, they didn't stay, otherwise, how could the human race be possible? Resist not using it, where did this... come from."

"Could it be that the giant axe just got it from the Jedi?" Dream Demon Ancestor can only think of this possibility, but getting two Xeon Supreme Treasures at once, is this luck too bad? Meng Yaozu can only be jealous and angry.

"Haha, get out of here, this strongest treasure is mine." After the giant axe split the North True Star Master, it rushed directly to the black square, and those terrified Dongdi Holy Land universe masters didn't dare at all. Resist, even the Northern True Star Lord didn't have the strength to fight back in front of the giant axe. How dare they stay to stop them, they scattered one after another and fled desperately.

The giant axe didn't care about these little guys of the Lord of the Universe, and landed directly on the black square, grinning, and then endless golden light radiated, covering the entire black square.

[Chapter 597: Acknowledge the Lord](#)

"Giant axe, don't think about it!" A silver streamer rushed forward like a lightning bolt, even more unwilling to see the dream demon ancestor whose giant axe had won the most precious treasure appear in a desperate manner than the Northern True Star Lord.

"Moyu vines!" The dense, overwhelming black shadows drilled towards the golden light like countless venomous snakes.

The Northern True Star Lord also had a gloomy expression.

"Sword of Feathers!"

I saw white feathers flying all over the sky, instantly condensing into a towering and fierce giant sword, slashing mightily towards the giant axe.

The only thing that didn't move was the Fire Demon God. He stood there hesitantly, looking around, his eyes flickering for a while, as if he had suddenly made some determination, and the golden spear in his hand blazed into the sky again.

"Fire Demon God, what are you doing?"

Meng Yaozu, who was suddenly blasted upside down, roared through the void with an angry roar.

She didn't expect that the Fire Demon God would still stand with the giant axe at this time.

"Haha, I can do whatever I want, do you care?" Fire Demon God smiled presumptuously. "Great Axe, I will help you with this supreme treasure, but... you owe me a favor!"

"Okay!" The calm voice of the giant axe came from the golden light.

"This Fire Demon..." The corner of Bei Zhenxing's eyes twitched again. His aversion to the Fire Demon is far above the giant axe. The giant axe relies on his strength to hit him in a panic, and the Fire Demon is a dung-stirring stick, which makes people very depressed and can't help him.

"Boom!" The Flying Feather Sword slammed into the golden light, and then hit a hard object, and an axe approached it, blocking the Flying Feather Sword.

"This giant axe actually has more power in the process of recognizing the master?" The North True Star Master was anxious.

And the universe masters of the East Emperor Holy Land dispersed, all hiding in the previous palace, without losing one. Obviously, the giant axe did not intend to kill, otherwise these universe masters would not know how many would survive.

The masters of the universe watched the huge energy fluctuations in the endless golden light with lingering fears, and kept communicating.

"You said, can Northern True Star Lord stop the creator of this great axe?"

"It should be possible? After all, there are four Xeon treasures in the North True Star Lord. It is impossible for this great axe to recognize the Lord in this situation."

Wang Yi frowned slightly when he saw this situation, "I don't know if the giant axe can hold on."

Wang Yi did not rush out rashly. Under such circumstances, even if he was added, it would not help the situation.

His combat power is too weak.

As for the use of the "Golden Armor God", one is that the most precious points left on his body can only use the third-class form of the "Golden Armor God", and the other is that he feels that the situation has not yet reached the final step, and it is not exposing the "Golden Armor God". 'when.

"Wait, if Giant Axe really can't recognize the Lord alone, then..."

While Wang Yi was thinking, time was slowly passing by. He was anxious, and for the first time he felt that time passed so slowly.

"call!"

Suddenly the endless golden light disappeared.

The Northern True Star Master subconsciously stopped, and looked at that place, his heart sank suddenly...the place was already empty.

Dream Demon Ancestor and Fire Demon God also stopped fighting and looked at the giant axe.

ended?

The Great Axe recognized the Lord too quickly.

Xeon Supreme... no more.

The founder of the giant axe stood alone, his voice rough.

"Everyone, I have obtained this supreme treasure, do you continue to fight?"

"Great axe, you..." The Northern True Star Master gritted his teeth, he was really not reconciled. This time, he moved all the people and rushed to the Demon Light Cavern and tried his best. As a result, the strongest treasure slipped away from his hands.

It's just that he also understands that the Xeon Supreme Treasure has been obtained by the Great Axe, and the only way to get the Great Treasure is to kill the Great Axe.

How can this be done.

The creator of the Great Axe was only two pieces of Xeon Treasures before, but he was in a panic when he had beaten him, but now he has become three pieces...

In the two palaces in the distance, the universe masters of the East Emperor Holy Land were also stunned.

"The Northern Star Lord has failed."

"This human great axe is too powerful."

"What to do, shall we continue to fight next?"

"this....."

Meng Yaozu was mad with hatred.

"Great axe! Great axe!" She was extremely angry.

Obviously it was a great opportunity to get the Xeon's supreme treasure, but in the end it was snatched by the human race.

The most important thing is that she probably won't be able to get the two peak palace treasures of the East Emperor Holy Land.

Except for the fire demon who used soy sauce from start to finish, the biggest loss was actually the Holy Land of the East Emperor.

However, she can't help it.

"Humph!"

She glanced bitterly at the Fire Demon God, if it weren't for this guy, how could the Giant Axe get the Xeon Treasure so smoothly.

Fire Demon God also looked at her with a sneer, "Why, dissatisfied? Do you want us to continue the battle?"

He Fire Demon God is not afraid of Dream Demon Ancestor.

Dream Demon Ancestor is strong in defense, while Fire Demon God is strong in attack.

The strengths of each other are very close, and the Dream Demon Ancestor can't hold the Fire Demon God. It really fought, and I don't know when he is tall.

Meng Yaozu ignored the provocation of the Fire Demon God. Since the capture of the Xeon Supreme Treasure had failed, it was useless for her to stay here, not to mention that she was worried that the giant axe would trouble her.

"The giant axe..." Meng Yaozu took a deep look at the direction of the giant axe, his eyes full of jealousy. "I didn't expect you to hide so deeply, but your human race wants to rise in the primitive universe. That's no idea." The dream demon ancestor has already decided. After returning, he will immediately publicize the strength of the founder of the giant axe and unite with other forces to suppress humanity. Ethnic group.

Although the giant axe is strong now, it has not yet reached the level of the original ancestor, and its deterrence is not enough, otherwise other forces have to think about it if they want to suppress it.

"Wow!" Meng Yaozu turned into streamer and left quickly at high speed.

"Great Axe, congratulations." The North True Star Master quickly eased his mind. After all, he has lived in the East Emperor Holy Land for a long time. The strongest person in the universe against the sky hasn't been seen before, but what about it, it's not a fall. .

"It's rare in history to have a strong like you in the primitive universe, plus the super strong "primordial ancestor" before your race, your human race is indeed amazing and powerful... although you don't know that in the end you will be there. Which step, but I still hope to have a chance to meet next time." The Northern True Star took a deep look at the giant axe, flew to the palace's treasure, and then drove the palace into a stream of light.

"Haha, Giant Axe, congratulations, and got another Xeon Supreme Treasure." The Fire Demon God flew over, his tone full of envy.

He Fire Demon is also a supreme treasure, still a weapon, but there are three giant axes. His strength is so defying, and people are more popular than dead people~www.mtlnovel.com~ Haha, Fire Demon, thank you so much! "Great Axe also smiled.

"Where, where, I just see that Dongdi Holy Land and that female snake are not pleasing to the eye..."

When Wang Yi saw this scene in the palace, he was relieved, with a smile on his face.

...

Periphery of Magic Light Cave.

In the palace, the huge body of the Dream Demon Ancestor curled up into a ball with a gloomy face, and surrounded by a group of suppressed and silent Lords of the Universe, the Lord of the Eagles was also here, but he did not dare to say anything.

"Human..." Meng Yaozu murmured, feeling a burst of upset.

"Why can't this human race disappear by itself."

[Chapter 598: Palace treasure](#)

After the fire demon **** left, the giant axe came to Wang Yi's palace.

"Hunyuan, thanks to you this time."

Wang Yi knew that the giant axe was talking about what he provided information, and said hurriedly.

"I'm just sending the news back. You can win the treasure, mainly by the giant axe."

The Great Axe shook his head, "If it weren't for the supreme treasure you gave me, I think it would be almost impossible to win this supreme treasure alone...Don't shirk it, it's all your credit." He smiled again. With a smile, "What's more, with your contribution and strength to the ethnic group now, the ethnic group has nothing to reward you."

Ju Axe looked at the young black-haired man in front of him, and sighed in his heart.

"You have contributed so many treasures free of charge, and you have contributed a lot to the ethnic group, but the stronger the ethnic group, the stronger the ethnic group needs the dedication of the strong. Before you, the treasures of the ethnic group are also limited, and it is also the endless years of dedication by the Lords of the universe. Just accumulate those."

"So when the contribution is too large, the ethnic group cannot give equivalent returns." The giant axe looked at Wang Yi, with a touch of complexity in his eyes.

Wang Yi also laughed. He understood that the treasure trove of ethnic groups is also limited. It depends on the contributions of these dozen or so universe masters and the strongest of the universe. The masters of the universe have less contribution, mainly the founder of the giant axe. A large number of treasures of the founder of the Great Axe are directly placed in the ethnic group, completely free of charge. The maps he collected are also free of charge to the ethnic group, just like a big patriarch who takes care of the ethnic group and cares for the ethnic group.

"It's my wish to be able to help the ethnic group." Wang Yi said softly.

One can never forget the original.

Although it is said that Wang Yi was born on earth, but without the large ethnic group of human beings, how could earthlings survive in the vast universe? Still so moisturized?

Has long been annihilated.

Wang Yi has always remembered his identity. He is an earthling and a member of the human race.

His roots are on the earth, but he also left too many traces and memories of the human race.

His teacher, his friend, his confidant, and his comrades-in-arms are all in the human race.

For these, he did give some willingly.

"This time my strength is exposed, other forces must be more vigilant to my human beings, but this is also something that will happen sooner or later. It is enough to win a supreme treasure," the giant axe said solemnly.

The giant axe was standing next to the palace, surrounded by golden light and mighty power, and the chaotic magic light cave gray tide could not affect him in the slightest.

"Great Axe, what exactly is the supreme treasure you won this time?" Wang Yi couldn't help but asked curiously.

The black square emerged from the black hole of the abyss, it was almost unheard of, and it looked very simple.

A smile appeared on the face of this giant axe at the mention of it.

He stretched out his palm, and a black square the size of a palm appeared out of thin air, similar to the "Rubber's Cube" that Wang Yi had seen, with criss-crossing golden secret patterns on it, filled with ancient and eternal breath, just breath, but let Wang Yi this The powerful master of the universe also feels depressed.

The giant axe looked down at this treasure, with a hint of excitement in his tone.

"Hunyuan, do you know that the most treasure won this time is the palace-like supreme treasure."

"The palace-like strongest treasure?" Wang Yi was also taken aback.

The most precious thing in the entire universe is the palace treasure.

Not to mention the Xeons, there are not many who can own the Palace Xeons.

Judging from the price given on the panel, the palace treasures are indeed the most precious.

Unexpectedly, this time the giant axe was actually a palace-like supreme treasure, and Wang Yi was also excited.

"Well, it's the treasure of the town seal palace." The founder of the giant axe grinned.

"That's great." Wang Yi was also happy.

"Hahaha..." Ju Axe couldn't help laughing when he saw Wang Yi's appearance.

Wang Yi also laughed.

"Three Xeon!"

"With these three supreme treasures, especially the creator of the great axe, he originally had a supreme axe and a realm class supreme treasure. Then equipped with palaces... it is almost invincible across the universe." Wang Yi Very satisfied, although the founder of the Great Axe was strong before, he was not invincible.

Because the magic axe is an offensive type, not enough in the face of defense.

The giant axe's eyes lit up and said: "With this palace-like supreme treasure, my confidence is different. Although I was strong before, it would be very troublesome if I was besieged. Not much else, this palace has If it cooperates with my magic axe, I am truly fearless, and I am not afraid of being under siege. I dare to be the enemy of ten or more of the strongest in the universe alone."

"This time the palace is the strongest treasure, I owe you another favor." The giant axe now has more lice and is not itchy, and the debt is not worried.

Wang Yi nodded. Of course, this supreme treasure palace belongs to the giant axe. This is indisputable. After all, the giant axe is the greatest treasure won by the founder of the giant axe, and the giant axe is still the strongest of the human race.

What's more, Wang Yi himself also has a tower of Tongtian.

"This great news, we have to let everyone know and celebrate together." Giant Axe smiled.

"Yes, you have to celebrate." Wang Yi said, the human race has been celebrating a lot recently.

...

In the virtual universe, when the uneasy City Lord of Chaos, they learned that the Great Axe had won the supreme treasure, or the palace-like supreme supreme treasure, they were all overjoyed.

They all know exactly what this means.

This means that the Great Axe, the strongest man in humans, will almost never fall again!

"Happy event!"

"A happy event for our human race!"

The celebration banquet will be held in the virtual universe immediately, and because the news that the Great Axe has the Xeon Supreme Treasure has been leaked, we simply invited the other universe masters of Hongmeng.

When the masters of the alien universe in Hongmeng learned that the giant axe had obtained three supreme treasures, they were shocked and dumbfounded.

"Three Xeons?"

"When did the human race get the three Xeon treasures?"

"It should be impossible for the human race to declare so publicly."

"This, this is incredible. In the entire primitive universe, no one has three Xeon treasures, right?"

These universe masters are full of shock and doubt.

You know, among the six peak races of the primitive universe, three of them do not have the most powerful treasures.

Humanity! Crystal family! Prisoners!

There are two monsters, one for Zerg, and one for Mechanical.

But now, the human race has announced that the founder of the giant axe has three strongest treasures!

Why not let these masters of the universe be horrified.

In the virtual universe, the majestic Hongmeng City, the Hongmeng Hall, and the majestic palace, the atmosphere is fiery and festive.

"Haha, drink."

"Today is a great day for my human race~www.mtlnovel.com~You are welcome, drink as much as you like."

The strong men of the human race are beaming with smiles on their faces.

The other alien universe masters also had smiles on their faces, but there were lingering doubts in their eyes.

Looking at the giant axe sitting high in the first seat, they were all in awe and awe.

The human race got three Xeon treasures. What happened behind this? They are itchy. But the masters of the universe of the human race are very strict, and it is very difficult for them to know the inside story from it.

It's just that they all know that this human race is really going to rise.

With the rise of the human race, they should also be able to get some benefits. When they think of this, the smiles on the faces of these alien universe masters are much more sincere.

[Chapter 599: Map·Exploration Mission](#)

When the power of the giant axe was exposed in the primitive universe, the forces of the universe and sea caused a sensation.

The inner domain of Qingfeng.

Magic Light Cave.

The creator of the giant axe was leading Wang Yi towards the direction of the abyssal black hole in the central area, but the speed was getting faster and faster, breaking through a hundred times the speed of light and continuing to soar upward.

The speed rises linearly, a thousand times the speed of light, ten thousand times the speed of light, one hundred thousand times the speed of light...the place you have passed is vast, devastating, and mighty power against the sky.

"This is the way the strongest man in the universe speaks, absolutely controlling one side of the universe."

Wang Yi secretly slapped his tongue, the creator of the giant axe's ultra-high speed advance has broken through the restrictions of the law of operation. The fluctuation is not small.

Of course, there is only the creator of the giant axe and the strongest in the universe near the Demon Light Cave, so don't care.

"Here." The voice of the founder of the giant axe rang in Wang Yi's ears.

A vast and endless black hole of the abyss appeared in front. The strange thing was that the gray tides around were not affected by the huge swallowing attraction of the black hole of the abyss, and they were still spinning fast according to their own path.

And Wang Yi has the founder of the giant axe by his side, and of course he is not afraid of being swallowed.

"This is the black eye of the magic light cave that you asked me to show you." said the creator of the giant axe.

Because of Wang Yi's request, the creator of the Great Axe brought him here. Otherwise, with Wang Yi's current ability, unless he uses the "Golden Armor God", it will be difficult to move freely in this area and he will be sucked into the black eye accidentally. , Then trouble.

The founder of the Great Axe certainly didn't know Wang Yi's intention here, but it did not prevent him from fulfilling Wang Yi.

"Don't you want to get into the black eye?" The creator of the giant axe misunderstood Wang Yi's intentions and reminded: "The internal space of the black eye is actually very small. The treasure is in it, if you want to get something here, you will only be disappointed."

"I'm just curious about how these black eyes exist." Wang Yi couldn't explain why he came here to sign in, so he could only give another reason.

"Black eyes are indeed magical, but there are many, many, many in the entire Qingfeng world like Demon Light Caverns, and there are many similar ones. How they formed is a mystery, even the most ancient universe is the strongest. It's hard to figure it out." The creator of the giant axe exclaimed. "Our human race's exploration in Qingfeng Realm is less than one ten thousandth."

Qingfeng Realm, one of the three major Jedi of the Universe Sea, is unimaginable for a long time. Long before the establishment of the East Emperor Holy Land Universe, Qingfeng Realm and other three major Jedi existed.

The vast mystery and long history of Qingfeng Realm can also be known from the few words and ancient ruins discovered in various places.

It is definitely far beyond the age of tens of thousands of reincarnations!

How many secrets such an ancient Qingfeng realm will leave is really imaginative.

What is the origin of Qingfeng Realm? I believe that countless experts in the universe are very curious.

I just don't know if I can explore it. Wang Yi thought to himself.

"Sign in."

[Ding, congratulations to the host for signing in successfully, and reward Qingfengjie Map·Remnant Map.
】

"Um?"

In Wang Yi's line of sight, one could see an extra thing in the space of the panel, which was a black and gold mixed silk cloth, and then received its information.

Pulling silk is a very precious material. It is an important material used to make "illusionary" treasures. Naturally, it has the effect of calming the mood, and the breath that it emits makes people extremely comfortable.

If it weren't for panel rewards to make such a large piece of silk cloth with extravagance, it is estimated that only the strongest in the universe would be willing.

[Map of Qingfengjie (1%)].

This was the first information Wang Yi received, and it also represented the completeness of the map.

If it reaches 100%, then it will be a complete map of Qingfeng Realm, which can be said to be a crazy treasure for the entire universe and sea forces.

But since ancient times, no power can say that it has complete map information of Qingfeng Realm, that is, neither the East Emperor Holy Land Universe nor the Purple Moon Holy Land Universe can do it. For example, since ancient times, even if the universe has the strongest The dim place where the person was stuck in and could not get out, probably because the two holy places didn't know what was going on inside.

A trace of Wang Yi's divine power penetrated directly into the drawing silk drawing, and his consciousness also entered the "drawing silk drawing", as if he had entered a virtual space.

In this virtual space... is a virtual huge leaning peak world, a red thread running through part of the leaning peak world. The danger in each area is completely virtualized, and the way to avoid the danger and pass through the dangerous place is described.

And this map is very complete, very systematic, and very detailed... I feel that the same area is more detailed and complete than the map that the human race has worked hard to explore.

After all, this is directly given by the panel, and many human races are unable to carefully and thoroughly explore places that are directly marked on the panel.

It's as if X-rays illuminate the human body, everything is clear.

"This, part of the map of Qingfengjie is so complicated and detailed!" Wang Yi was overjoyed.

"But only one percent of the area, only a part of the inner area, and no core area, otherwise I might be able to know some information about the dark place."

Wang Yi never forgets the "dark place". After all, there is the nest of the world beasts, and the world beasts can be said to be the greatest disaster in the later primitive universe.

The world beasts are born to swallow any universe, no matter the original universe, the small universe, or the holy land universe...all of them are swallowed, and with the loss of the origin of the universe, the universe collapses, and all the life entrusted in the universe will die...Of course it is. A huge catastrophe.

"The world beast must be dealt with." Wang Yi's eyes were cold.

However, his current strength is far from enough, and he can only continue to cultivate and strengthen himself.

"This map will be of great help to me in my next exploration in the Jedi!"

"Moreover, I can continue to sign in, I believe I can add more map information."

"Even in the future, you can get a complete Qingfeng world, even the map of the Three Jedi, and even the entire universe!"

Just when Wang Yi sighed...

【Ding! 】

[Trigger mission!]

[Task name: Path of Exploration~www.mtlnovel.com~ Task content: Explore a certain number of areas in the three Jedi of the Universe Sea, "Qingfengjie", "Liuzhongshan", and "Space Boat".]

[Target: 100 S-level areas, 1,000 A-level areas, and 10,000 B-level areas in the Qingfeng world]

[Target: 100 S-level areas in Liuzhongshan, 1,000 A-level areas, and 10,000 B-level areas]

[Target: spacecraft 100 S-level areas, 1,000 A-level areas, and 10,000 B-level areas]

[Reward content: After completing one of the three mission objectives, you can get its complete map, and pay the corresponding price to open the new map function.]

【Task time limit: None. 】

[Chapter 600: clue](#)

Wang Yi was a little surprised. He didn't expect that he triggered another mission, which was also related to exploring the Three Jedi.

Just like the tasks posted by the panel in the past, there are only rewards and no punishments.

There is no time limit.

His own cub is as reliable as ever.

But the S-level area, A-level area, and B-level area sound very strange.

Wang Yi studied the mission statement and the map, only to discover that the so-called S-level area is the core area of the three major Jedi.

That is to say, generally only the strongest in the universe will enter, and the Lord of the ordinary universe is close to the kind of place that will be dead.

Even the strongest in the universe may fall.

It can be said to be extremely dangerous.

The A-level area is a high-risk area, one level lower than the core area, and is located in some dangerous areas in the inner periphery of the three Jedi.

For example, in the "flaming ice domain" of the universe ark, only the master of the fifth-order universe or the master of the fourth-order universe with strong life-saving methods dare to enter, deep in the inner domain.

However, the treasure born in the inner region must be the best. If you are lucky, you will encounter the pinnacle treasure, and even the super chance that the "Magic Light Cavern" only appeared once in billions of epochs is not impossible.

Areas like this are in the three major Jedi, millions.

The B-level area is regarded as an ordinary dangerous area, located between the outer area and the inner area. For example, the "Magic Light Cavern" is actually just an ordinary area. There are too many places, countless, and most of the lords of the universe below Tier 4 are in this kind of place.

"According to the prompt of the panel task, any Jedi must explore 100 S-level areas, 1,000 A-level areas, and 10,000 B-level areas..." Wang Yi took a deep breath. There are a lot more, but it can always be explored in time, but the S-level area, which is located in the core area of the three major Jedi, even if the giant axe enters, it may fall inside..."

"Fortunately, there is no time limit. Even if I don't need a giant axe to help me, I can finish it slowly. I will not be too late to do it when I have more strength and more methods in the future." Wang Yi felt a little relieved.

...

The edge of the Magic Light Cavern.

"Okay, let's separate here. I'm going to the depths of Qingfeng Realm. You act alone, be careful." The giant axe and the bronze giant axe stood in front of Wang Yi and said.

"Boom!" A huge radiant axe flew through the air at high speed and hurried away.

"I want to act, let me study the map of Qingfeng Realm that I just got."

With a wave of Wang Yi's hand, the purple dragon boat palace appeared again, Wang Yi flew in, and then the dragon boat palace turned into a purple streamer and flew away.

Inside the palace, Wang Yi sat on a huge and exquisite throne carved from cyan jade, with a glass of wine in his hand, feeling contented.

"Let me see, I vaguely think this map should help me."

A trace of Wang Yi's supernatural power penetrated into the Tusi Tu again, and his consciousness entered the virtual space of the "Tusi Tu".

Looking at the dense and clearly visible red route, Wang Yi began to look at the information in it.

"This is the outer waters."

"This is airspace."

"It actually includes so many gravel from the mountains, it's amazing."

"It's so complicated, it's too complicated." Wang Yi almost lost his eyes. Although it is a one-percent range map of Qingfeng realm, the main body of Qingfeng realm is more than 100 million light-years in diameter, not including it. The surrounding environment...Even if it is one percent, the combined map range is terrifying, and its information is vast and huge. If it is recorded in words and pictures, I am afraid that ten libraries on the earth can't fit it.

Fortunately, Wang Yi's consciousness is so powerful now that he can remember and think clearly.

"Inside the main mountain of Qingfeng World..." Wang Yi patiently searched for the clues he wanted in the seemingly endless messages.

Powerful people are very patient. It takes hundreds of millions of years to study secrets in retreat, and it takes millions of years to break into a secret realm. Wang Yi, who has cultivated to this point, is naturally calm.

He can even be distracted to practice and study secret methods.

In this way, I have been searching for more than half a month in the map of Yansitu.

Wang Yi finally combined the one-percent map with the map data of the human race and scanned them all once.

"Well, I finally finished reading. There are about 27 places that meet my goals, and the most likely three are right here." Wang Yi rubbed his forehead. Although he didn't feel tired, he still felt uncomfortable.

"Of course, because there is only one percent of the maps, even if it is combined with the map data of human beings, it is actually very likely to be missed, but..." Wang Yi's eyes fell on the original red routes of the map, where the king has already been marked the new color and mark, which was very conspicuous.

"Even if there is only one percent chance, I should check it out. Rather than rushing around in the inner field, I have a chance to find another part of Wu Yuyi's sign-in opportunity. It is absolutely not to be missed." Wang Yi His eyes are piercing.

Wang Yi signed an alternative version of "Chaos Divine Wings" from the Lord of Chaos, but Luo Feng later got it from the "Palace Lord of Eclipse", so Wang Yi guessed that either the pair of Killing Wu Yuyi was originally in the hands of the Lord of Chaos. Here, Chaos City Lord later bestowed it on Heavenly Eclipse Palace Lord.

Either the Heavenly Eclipse Palace Lord came to Chaos City to give this treasure to his disciples.

This pair of wings has been acquired by Wang Yi for a long time, and it is still a pair now.

A single pair of wings is just an ordinary supreme power. Of course, Wang Yi is the full version without damage. It has greater power, but no matter how it is just a pair of wings, it is simply not comparable to the six pairs of wings in Quansheng.

That was the pinnacle of the ancient civilization's single mechanical flow that the Eternal True God relied on and even possessed part of the power of holy warfare.

And the second pair of wings can have the function of "space-time domain", and the domain of wings can be superimposed with the realm of domain-like treasures, which has a huge amplitude effect.

Other wings also have their own uses. The more wings there are, the higher the level that can be activated.

The fourth level of Wings is the realization of the universe at one thought! The fifth stage, UU reading www.uukanshu.com, is the eternal true **** to display, relying on this to possess some of the power of holy war, which is very against the sky.

How could Wang Yi easily let go of such an important treasure.

They can't be exchanged on the panel. According to the current rules of the panel, the Lord of the Universe can only exchange the True God Supreme Treasure, and the True God can only redeem the Void True God-level Supreme Treasure. If you want to redeem the eternal True God Mechanical Flow Supreme, I'm afraid Wang Yi. It is only possible to go to the true **** of the void, let alone where to get the most precious point, Wang Yi was the true **** of the void at that time, and he could go to reincarnation.

"If I'm lucky, maybe I can sign all the wings directly, that would be great." Wang Yi was fascinated.

The "source" of the wings is a huge and eternal true god-level energy, which is a peerless weapon in the universe, and can be used to slaughter millions of true gods.

The army of world beasts in the original work, which is as strong as nearly a million, was not even scummed by the complete explosion of the "source" of the wings.
