

A God 621

[Chapter 621: The Decision of the God Eyes](#)

Wang Yi hid too deeply. Even in the end, only the wings were exposed. Like other Xeon treasures, the perfect fusion of the strongest secrets, etc. were not exposed... This also caused the God Eye Clan to under-assess his strength.

It was the lord of the five hordes. Although he felt that Wang Yi Yuyi's control of time and space might be powerful, it seemed to be comparable to the Xeon Supreme... But after all, he didn't do it personally with Wang Yi, and he was a little hesitant in his heart.

The strength of the Lord of Chaotic Source clearly surpassed the ordinary fifth-order, but he didn't know whether it was the fifth-order or the sixth-order.

The other side.

The incarnations of the seven strongest people of the God Eye race have gathered in the small universe of the First God.

"According to our understanding of Mie Shen Jian, we crossed the endless magma sea from above, which is the Lake of Flames." The First God said. "If the Lord of the Human Chaotic Source is still alive, he should be there. We can send people to guard there first, or ask around to find out the situation."

"At that time, if the Wing Treasure is still... then we will take it, and by the way, kill the Lord of Chaotic Source to avenge the Lord of Arrows."

"The Lord of Chaotic Source has a clone, and it is impossible to kill him completely, then kill his clone... and find one to kill another." A God Eye Race God is murderous. The Lord of Arrows has a close relationship with him, and the Lord of Arrows has fallen, and his heart is full of anger. "If you can't kill the Lord of Chaotic Source, then use the other cosmic masters of the human race to make up the number!" The God Eye Race is already unreasonably venting its anger.

Originally, it was because the Lord of the Five Clues and the Lord of Arrows took the initiative to besiege the Lord of the Chaotic Source that caused the killing, but in the eyes of the strong God Eyes, we can bully you, but if you dare to kill us, then it's your fault.

Because of the fall of the Lord of Arrows, the fall of the Lord of the Five Chaotic Groups, the strongest master fighting the deity, and the loss of many treasures... Several of the strongest in the God Eye Race universe are indeed very angry.

"But that giant axe is not easy to provoke." A God Eye Race God reminded. "The news came out before that the founder of the Great Axe defeated the North True Star Lord of the Eastern Emperor Holy Land... It is said that the North True Star Lord carried four strongest treasures on his body at that time. We have never seen that old fellow, but the truth is I am afraid that only the first God is stronger than him, and we alone are not his opponents. Since the founder of the Great Axe can easily defeat the North Star Lord, he has at least Tier 9 combat power..."

As soon as these words came out, several God Eye Race Gods who had fallen into anger also calmed down.

"Don't forget the original ancestor before." The God said faintly, "With the momentum of the rise of the founder of the great axe, I am afraid that it will be the next original ancestor."

In the past, the God Eyes were a little jealous when facing their original ancestors, and their arrogant and domineering styles also converged a lot.

Of course, after the original ancestors were suppressed forever by the Primitive Universe, the God Eye Clan began to become arrogant again.

The God Eye Race does have the arrogant qualifications. If the universe as a whole is only concerned with the number of the strongest in the universe, no power can compare to them, and it does have the confidence to run rampant.

"So what!" A grumpy God Eye Race God roared: "Our first reincarnation era is about to come, let alone the original ancestor has been suppressed, the founder of the giant axe has not yet reached that point... The founder of the Great Axe really becomes the next original ancestor, so what? If we don't transcend reincarnation, our race will have to perish...In this case, it is better to let others see the power of our God Eye race."

The other Allahs felt the same way, and the First God nodded slightly.

Reincarnation! It's always a knife hanging on their heads, don't know when it will fall.

It is meaningless to say nothing if you don't transcend reincarnation.

What if the founder of the Great Axe really becomes the second original ancestor? The God Eyes are not friendly.

At this time, the God Eye Clan would no longer worry too much.

"Although the founder of the Great Axe is strong, my God Eyes are not afraid...Of course, they don't necessarily have to meet the human race life and death." The God Eyes third God said with a soft face, he He is a strong man in the God Eye Clan who is second only to the first God in strength.

God Eye Race, the seven Allahs. All of them are the strongest in the universe! And the First God... the highest status, the strongest, and of course the most worshipped.

Because the seven gods of the God Eye tribe, the first God, and the first in the history of the God Eye tribe to become the strongest in the universe, they were named "God Eye" at that time. And also along the path of "God Eye" to reach the strongest person who entered the universe, so it is called God Eye God in the universe.

And of the other six Allahs, three of them are all disciples of God Eyes.

The power of the first God of the God Eyes is undoubtedly strong. The First God was in front of the original ancestor in the past. The seven Allahs combined to perform a combined attack, that is, the original ancestor can fight together, so the original ancestor did not fight. No matter how evil the God Eye tribe is, the God Eye tribe dare not provoke humans at will.

Of course, today's time is different. Today's human beings have no original ancestors and are extremely weak. In addition, the giant axe has always been low-key, and all parties in the universe have not paid

much attention to human beings...Who knew that the giant axe suddenly broke out, and Demonstrating extremely astonishing combat power, he defeated the strongest man in the ancient universe "North True Star Lord" in the Holy Land of the Eastern Emperor in one fell swoop, and won a supreme treasure.

Nowadays, the outside world has circulated that the founder of the giant axe already has three strongest treasures, faintly as the first strongest in the primitive universe, and has the tendency to become the next original ancestor, so all parties are not willing to provoke humans for no reason.

"This time, the third child and the sixth child will set off together and take a look at the Cosmic Ark." The First God has already made a decision. "If you encounter that human being is really still alive, capture him and take the winged treasure, which is regarded as compensation for the loss of our race. As for the human clone, if he is willing to apologize to our God Eye race, then stay If he lives, it's all right to give that great axe a face."

"That Wing Treasure is very special. I doubt it can be used with the Xeon Treasure Domain. If so, you must definitely get it. Even if you really offend the Giant Axe, it doesn't matter."

The First God is very cold and tough.

Is the giant axe strong?

so what?

The God Eye Race is the strongest side of the universe now~www.mtlnovel.com~ The two holy land universes are not afraid of them, let alone the human race with only one giant axe.

Of course, the most ideal way is to grab the winged treasure, and then capture the human being. The God Eye clan will have the face... As for whether or not to kill the human, it doesn't really matter.

The God Eye tribe has fallen two masters of the universe this time, it is absolutely impossible to give up!

The other six Allahs have no objection.

So the matter was so decided.

In just a few moments-the third and sixth God of the God Eye Clan, the two strongest in the universe set off together towards the cosmic boat! The target this time is the Flame Lake above the endless magma sea of the spaceship.

[Chapter 622: Flameshui Lake](#)

Only Wang Yi, Shenyan Clan, and Yintuo knew what happened in Mie Shenjian.

Yin Tuo is dead.

Wang Yi would not take the initiative to speak out, and of course the God Eyes would not speak out either.

As a result, the entire universe did not know that Wang Yi had silently killed the three universe masters (including the strongest clone of the five chaotic masters), and now the two gods of the God Eye clan are already aggressively seeking revenge.

Two God Eye Race Gods stood in the void filled with endless chaotic air currents.

The one-eyed phantom shadow behind them both disappeared, and the aura was very ordinary, without the slightest power.

"Sixth, we must speed up. It will take a while for the spacecraft to get past our distance. If human beings can really come out of the magma sea alive, I am afraid we will not be able to catch up." said the solemn blue-eyed man.

"Then hurry up, Flameshui Lake... I remember that there seems to be the Purple Moon Holy Land stationed, but it doesn't matter. Our two Allahs act together this time, even the Purple Moon Holy Land dare not stop us." The Sixth God said.

"Well, you are right. If we go slow, then even if human beings are still alive, I'm afraid they will leave."

After that, the two God Eye Race Gods began to burn their divine power, tear time and space, and head to the space ship at the fastest speed.

At the same time, some of the cosmic masters of the God Eyes who were close to Mie Shenjian and Yanshui Lake also received orders and began to concentrate on Yanshui Lake. They received orders from the ethnic group and saw the emergence of winged humans nearby.

This time, in order to prevent any accidents, the two Allahs each carried two Xeons, and they also knew that the creators of the Great Axe were generally in the depths of the Qingfeng Realm, and they were not worried that the Great Axe would come over suddenly. They can also hold the giant axe when it suddenly appears, after all, the giant axe now is not as invincible as the original ancestor.

It's a pity that they had countless calculations, but they never thought that Wang Yi actually had a palace of the strongest treasure, which could follow the core of the magma sea vortex and pass through the endless magma sea at an incredible speed.

Otherwise, according to the many deaths and calamities of the endless magma sea, even if the lord of the five chaos takes the peak palace treasure to break through, it will take several days to break through.

Although the two Allahs deliberately carried four Xeons, one of them was aggressive Xeons that could greatly shorten the journey time, but it would take more than half a month to reach Flameshui Lake.

At the junction of the magma sea and the lake of flames, there is a void. The void is distorted, extremely hot and cold, where it meets, the void here is distorted and the mist evaporates.

The core of the lava sea vortex.

A dazzling and dreamy black light is still accelerating, already soaring more than 100,000 times the speed of light.

"Wow!"

It instantly rushed out of the magma sea, with a strong momentum, directly passed through the twisting void, and plunged into the ice-cold flame water lake on the opposite side.

boom! boom! boom! boom!

Unreservedly crashing into the waters at more than 100,000 times the speed of light, every drop of water is heavier than the "neutron star" in the endless waters, and the terrible impact is that the top palace treasure will be broken, but the Tongtian Pagoda has no effect. , Wang Yi, who was sitting in the palace, could still feel the terrible impact from the shock.

"I'm finally out." Wang Yi looked towards the magma sea behind, and said with emotion: "How long has it been before I left the magma sea, it's too fast!"

From entering the magma sea to leaving, it took less than 6 minutes.

If you don't follow the route of the core of the magma sea vortex, you will have to go through a lot of deaths. I don't know how much time will be wasted... Of course, the vortex core is the biggest death. Who knew that Wang Yi would have a palace of the strongest treasure, and he could follow it safe and sound. The vortex core channel rushed out.

"The God Eye tribe has fallen two cosmic masters this time. Although the Five Chaotic Lord died as a clone, it is enough to make the God Eye tribe angry. Maybe they will come to trouble me soon, so let's leave here first." Wang Yi said inwardly.

The God Eyes knew Wang Yi's "true strength", and it was definitely not the Lord of the universe who was sent to trouble him, but the strongest in the universe... Maybe there was more than one.

The strongest in the universe, Wang Yi is not an opponent at all without breaking out with all his strength.

Wang Yi began to study the route. This time he suddenly changed his route, starting from Mie Shenjian, penetrating the magma sea, and arriving at Yanshui Lake. In this way, the original path would be slightly changed, and three more dangerous places would have to be circumvented.

However, those dangerous places are not as ridiculous as Mie Shenjian.

The black palace broke through the water at a hundred times the speed of light and stopped at an altitude of hundreds of millions of kilometers, overlooking the endless waters below.

"This is Yanshui Lake."

Surrounding the endless flame water lake, I saw the gurgling water of the entire lake, glowing with bubbles, and the surface of the lake was still surrounded by blue flames, just like the alcohol burning flames in the earth age.

"The most dangerous thing about the Yanshui Lake is that every time a period of time passes, the boundless frozen lake will suddenly fall on the entire flames of the lake space. The other nearly a hundred kinds of dangers are nothing to the master of the universe, but The Frozen Lake Tinghuo, even the strongest in the universe, would not dare to resist, the top flying palace, the treasure, will be shattered. Of course, I have the strongest palace and I can bear it." Wang Yi felt once again in his heart, adventuring in the Jedi for a long time. The benefits of the strongest treasure palace.

To adventure in the Jedi Innerland, at least there must be a top palace treasure.

And in some depths, you need the peak palace treasure to resist some dangers.

As for the core area, the environment is extremely dangerous, and even if it spreads at will, even the peak palace treasure will be instantly shattered, and the strongest in the universe will fall.

However, the Xeon Supreme Palace can resist it. At present, the entire Jedi does not seem to have discovered the danger of truly destroying the Xeon Supreme Palace. Of course, there is a danger of permanent fall.

Huh!

Suddenly, in the sky above Yanshui Lake, where spatial fluctuations could teleport, a figure appeared out of thin air.

"I was ordered to be stationed in this area. I seemed to feel a wave of fluctuations just now. Could it be possible that a treasure was born?"

A burly and tall giant with four faces and sixteen arms appeared out of thin air. His four faces had different expressions, either hideous, smiling, or evil...

He glanced around.

The sight of the super strong was so far away, and soon he found a palace far below.

"A palace appears here? Who is it?" The alien powerhouse immediately turned into a streamer and flew over~www.mtnovel.com~ Wang Yi in the palace also immediately noticed a golden streamer approaching in the distance at a high speed. The towering figure thousands of kilometers high inside.

"Sixteen arms on all sides?" Wang Yi raised his brows, "Sure enough, the people from Purple Moon Holy Land Universe are here!"

"According to memory, the strong man stationed here in the Purple Moon Holy Land Universe seems to be the Lord of Fenglong, a fifth-order universe lord, and the same level as the lord of the five chaos."

Anyone who came out was the lord of the fifth-order universe, which seemed very amazing.

In fact, the two sacred universes are too old. You can practice ten hundred times of reincarnation at will. It's normal to reach this level, and it's pure time to pile up.

Even the master of the sixth-order universe, there is more than one of them.

"Well...Send the master of the hulls first." Wang Yi also flew out of the palace to meet the master of the hulls.

[Chapter 623: Can't let it go](#)

The strong person of the Ziyue ethnic group has a very distinctive appearance.

The Ziyue tribe with the purest blood has twenty-four arms on all sides.

The second is four sides with sixteen arms, followed by three sides with eight arms, the most common single-sided double arms.

This also represents the four classes within the Ziyue Clan...The ones with twenty-four arms on all sides are the rarest, the blood is the purest, and the potential is the greatest.

But this is for the weak of the Ziyue tribe, and once they become the master of the universe, there is no hierarchy. After all, they are all super strong.

The Lord Fenglong who was flying in the distance also saw a figure flying out of the palace, his eyes moved. "This is... the Lord of Human Chaotic Source in the Primitive Universe?"

The Lord of Chaotic Origin has gained a great reputation recently. He defeated the Lord of the Dove Crocodile of the Second Peak Clan in the First Reincarnation of the Universe Sea, proving that he has the power of the Lord of the Tier 5 Universe, and there are many clones... In addition to the short training time, he has been hailed as the second of the Chaos City Lord, and he has a good chance to become the genius Lord of the Universe who is the strongest in the universe.

There are actually quite a few universe masters who are interested in him in the Purple Moon Holy Land and the East Emperor Holy Land.

"The Lord of Chaotic Source." The Lord of Fenglong flew closer.

"Master of Fenglong." Wang Yi stood above Yanshui Lake, smiling and saying kindly.

Although it is estimated that it will inevitably be against the Purple Moon Holy Land in the future, there is no need to entangle these universe masters now.

They are just poor people. If the trajectory is not wrong, the masters of the universe will all fall after the end of this reincarnation era!

"Master of Chaotic Origin, this is the residence of my Purple Moon Holy Land, why are you here?" The Lord of Fenglong said in a loud voice.

Flameshui Lake can only be regarded as ordinary among the countless dangerous places in the vast expanse of the spacecraft. But it is adjacent to Mie Shen Jian... Mie Shen Jian is a place where many powerful treasures have been unearthed, and Yanshui Lake also gets some benefits. Occasionally, the lake water also overflows with treasures. The probability of making the Yanshui Lake appear to be a treasure is out of proportion to his degree of danger.

The danger is small, and the probability of appearing a treasure is relatively high.

Therefore, in the Yanshui Lake area, in the records of Jie Fanzi, there are generally strong forces stationed for a long time, waiting here.

Everyone in the Universe Sea knows that Fireworks Lake is the site of the Purple Moon Holy Land.

This kind of thing is also capable of the Purple Moon Holy Land and the Eastern Emperor Holy Land. After all, the other three reincarnation ages all have a life span, and they will die if they exceed three reincarnation ages.

However, the Purple Moon Holy Land and the East Emperor Holy Land did not have this trouble, and it was a joy to stay in the treasures of the universe sea and collect leeks.

This is also a kind of strength.

Nearly a hundred forces in the universe.

The strongest is undoubtedly the two holy land universes.

Perhaps the God Eye Clan is now very powerful, relying on the fact that there are many strongest people in the universe, and the top level strength, even the two cosmic holy places are not willing to easily provoke them.

But in fact, the two holy places despise these powerhouses of the reincarnation era that are about to fall sooner or later.

The two great holy land powerhouses are somewhat arrogant in the face of other cosmic forces.

Wang Yi still smiled and said, "Don't get me wrong, Lord Fenglong. I just passed by here on my way, and I will leave immediately. There is no other meaning."

"Well, you leave quickly, don't stay here for a long time." The Lord Feng Long didn't mean to make trouble either.

It is unnecessary for a fifth-order universe master to be at the same level as himself.

Of course, the Lord of the Universe of the Purple Moon Holy Land has different personalities, and not everyone is the same as the Lord of Fenglong.

Some will bother you even if nothing happens!

"I'll leave soon." Wang Yi smiled. Although the head of the seal was a bit arrogant, he was still good at talking.

brush!

Wang Yi turned into a streamer and went away.

The Lord of Fenglong looked at the direction Wang Yi was going away, shook his head, and looked at the endless lake of fireworks below.

"It's not a treasure that was born, so happy for nothing."

...

It took only ten minutes for Wang Yi to leave the endless magma sea to talk to the Lord of Fenglong before leaving.

At this time, I'm afraid the Shenyan Clan still doesn't know about Deshenjian.

After a few hours, the God Eye Clan began to arrange.

However, it's not easy for the nearby god-eye clan powerhouses to rush to Mie Shenjian. They also knew that the Purple Moon Holy Land was stationed in the Fireworks Lake, so they immediately asked if they were in the Fireworks Lake by knowing the strong people in the Purple Moon Holy Land. Found that other strong men appeared.

The powerhouse of the God Eye tribe does not necessarily know the Lord of Fenglong, but as long as they know the Lord of the Universe of the Purple Moon Holy Land, the Lord of the universe will naturally ask the tribesmen stationed in the Fireworks Lake... and the Lord of Fenglong will soon be inquired. .

"The strong man who appeared in the Lake of Fireworks? Yes, the Lord of Human Chaotic Source in the Primitive Universe just appeared here, but he has already left."

The God Eyes got the news right away, and the two true gods who were still on their way in the chaotic air flow naturally learned about it.

"The Lord of Chaotic Source is really not dead!"

"It's just weird, how did the Lord of Chaotic Source rush through the magma sea so quickly, and the danger there, even if we, can't pass it so quickly." The strongest in the God Eye Race universe was taken aback.

They began to collect more information, carefully analyzed, and came to amazing conclusions!

According to the news from the Purple Moon Holy Land, they keenly discovered that the time when the Lord of Human Chaotic Source appeared in the Fireworks Lake... Almost the front foot entered the endless magma sea, and the back foot came out!

If you want to leave so quickly, the only way is the Magma Sea Vortex Channel!

But the vortex passage is extremely dangerous, and the peak palace treasure will be broken when it is caught in it, and the strongest in the universe dare not enter it easily.

If you want to pass safely, the only possibility is to take the Palace Xeon Treasure!

Therefore, they speculated that human beings came out along the core channel of the endless magma sea vortex, then humans must have palaces and supreme treasures, otherwise there is no way to explain!

The God Eye Race was really shocked.

"Then the Lord of Chaotic Origin actually has the strongest palace on his body?"

"He is a primordial universe, the Lord of the universe, actually has a palace of the strongest and most precious?"

"I heard that the giant axe got a supreme treasure in Qingfeng Realm last time. Could it be this that he has given this palace supreme treasure to the Lord of Chaotic Origin?"

The god-eye clan powerhouse is a bit unable to sit still.

"Grab! This Xeon Treasure must be grabbed!" The God Eye Clan gathered together again, and after a short discussion, they quickly made a decision... Taking advantage of this opportunity, grab the human Xeon Treasure. !

I can't let it go!

Too greedy!

So... In addition to the third and sixth allahs who have already set out~www.mtlnovel.com~ the God Eye Clan sent two more Allahs, the fourth and seventh Allahs!

However, there is only one Xeon in these two Allahs. The reason is that the third and sixth Allahs have already taken away four Xeons.

It adds up to six! This is already the most powerful treasure of the God Eye Race!

Add four Allahs!

The God Eye tribe once obtained the secret arts of ancient civilizations, under the union, any one of the strongest in the universe can be suppressed!

Even if the giant axe comes over, they have a way to deal with it.

It can be said that this time the God Eye Clan is already determined to grab the treasure from the Master of Human Chaotic Source!

And Wang Yi didn't know that the God Eye Clan had already started to mobilize the crowd, and killed him aggressively, and was still flying into the depths of the cosmic ark leisurely.

[Chapter 624: Hunt](#)

"Look! Find the Lord of the Human Chaotic Source!"

With an order from the high level of the God Eye Clan, the Lord of the Universe underneath immediately took action.

In addition to the primitive cosmic humans, through the intelligence eyelineer of various forces, the location of the Lord of the Chaotic Source can be determined.

As long as the Lord of Chaotic Source is still adventuring in the universe ark, he will definitely be able to discover it.

And the four Allahs of the God Eye Race have already rushed towards the spaceship.

However, the first batch can arrive within ten days and a half month at most, and the fourth and seventh Allahs who set off afterwards take two months to arrive at the Fireworks Lake.

As for the Lord of Chaotic Source, he still doesn't know where it is.

They can only hope that the Lord of Chaotic Source will not run too far or hide.

Unless he doesn't venture into the universe in the future, can he hide for a lifetime even if he hides for a while?

The movement of the God Eyes made such a big noise, and they searched for news about the Lord of the Chaotic Source everywhere, and all the forces in the universe and sea were also aware of it.

"The God Eye Clan seems to be exploring the coordinates of the Lord of Chaotic Source everywhere, what is this going to do?"

"The movement is so big, isn't it possible that the entire God Eye Race will deal with this human? Could it be that the Lord of Chaotic Source killed which powerhouse of the God Eye Race, and the God Eye Race wants revenge?"

The various forces speculated and sat and watched the show.

The human beings in the primitive universe also received the news in hindsight.

Virtual universe.

"Why did Wang Yi offend the God Eye Clan?" City Lord Chaos was surprised when he got the news.

This God Eye Race is not easy to mess with!

Even if the original ancestors were known as invincible back then, they did not clashed with the God Eye Clan, and the two sides did not violate the river.

But that was before, and now if it weren't for the strong rise of the giant axe, the God Eyes really didn't put humans in their eyes.

"The God Eye Clan is actually looking for news about Chaotic Source with great fanfare. It seems that the person who came here is not kind." City Lord Chaos showed a trace of worry in his eyes.

What he wants to know most now is what Wang Yi has done to make the God Eye Clan so exciting, making such a big move to look for him.

The lord of the human universe meets again in the Great Axe Temple of the virtual universe.

The great axe from the depths of Qingfeng Realm also appeared to participate in this meeting.

"brush!"

When Wang Yi appeared, everyone in the room looked over with weird eyes.

"Chaotic Source."

"Hunyuan, you are here."

"Chaotic Source, Cosmic Sea is now asking you trouble for the Fengchuan God Eyes, what is going on?"

Seeing Wang Yi's appearance, the masters of the universe asked immediately.

"Hunyuan, what happened between you and the God Eye Race?" Chaos City Lord also asked.

Sitting in the first seat above, under the loose hair of the giant axe, there was also a caring gaze.

Chaotic Source... It is now a taboo for human beings, no one can move!

Wang Yi looked around, saw everyone's concerned and doubtful eyes, and slowly said, "The reason why the God Eyes are looking for me everywhere is because... I let the Lord of the Five Chaotic Forces, the strongest combat clone and the Lord of Arrows, fall. ."

Of course, this was one of the reasons. Wang Yi also had some speculations in his heart, but it was inconvenient to talk about it here.

"The avatars of the Lord of Arrows and the Lord of Five Clues have fallen?"

The other masters of the universe were stunned.

Investigating the Lord of Arrows, that is the Lord of the fourth-order top universe, at the same level as the Lord of Bingfeng.

The Lord of Five Chaotic Forces, his strongest main battle clone, is even more comparable to the Lord of Chaos!

These two, even if the strongest in the universe wanted to kill, it was not that easy.

Even if the founder of the Great Axe and the Chaos City Lord were calm, they were shocked at this time.

Wang Yi shook his head slightly, "Their fall is related to me, but I didn't kill it..."

Wang Yi said what happened in Mie Shenjian.

Those masters of the universe were thrilled and excited.

"hateful!"

"The Lord of Chenhe was actually killed by Yutuo?"

"Lava Demon Appears?"

"Yin Tuo was kicked and exploded by the lava demon, and then killed by you? Good! Good to kill! If you dare to harm us, the Lord of the universe should die!"

"The Lava Demon actually swallowed the Forbidden Interpretation Hall, and the Lord of the Five Chaotic Systems is dead!"

The masters of the human universe exclaimed.

Also looked at Wang Yi with admiration.

Because of Tuo, he was known to be unkillable, and he fell because of Wang Yi.

The Lord of Arrows is as powerful as the Lord of Bingfeng, and the Lord of the Five Hurds is at the same level as the Lord of Chaos. As a result, because of offending Wang Yi, they all fell into the fall!

The Lord of Five Chaotic Body lost one of the strongest main battle clones, and all the precious treasures on his body were also lost, and the Lord of Arrows completely fell.

It's no wonder that the God Eye Clan moves like this!

This is clearly the trouble of finding the Lord of Human Chaotic Source!

There are also the Lords of the Universe worrying that the loss of the God Eyes is not small, and it is definitely impossible to swallow their breath.

Although the current human race is slowly rising, its strength has also improved a lot, and the giant axe has many Xeon treasures on its body (including the soul treasures given to the teacher by Wang Yi,

which are actually on the giant axe), which is known as the best in the primitive universe today. The strong!

But compared with the "God Eye Race", the first peak race in the First Reincarnation Era, the gap is still not small.

Not only in the number of the strongest in the universe, but also in the number of the masters of the universe, human beings are far inferior to the God Eyes.

The God Eye race, but there are hundreds of cosmos masters, and most of them are not weak, such as the five chaotic masters. There are many of them. They really want to compete with humans. The human race is currently not an opponent at all. They will meet in the universe. A lot of trouble.

Of course, the human race now has a giant axe after all, and the giant axe is now very deterrent, and the God Eyes should not dare to be too unscrupulous and bully.

But it is impossible to expect them to swallow their breath and let them lose the two Lords of the Universe and the many treasures of Wang Yi.

"This time the cause of the conflict is still because of the God Eyes, too greedy, and they actually took the initiative to move towards our universe." There is nothing to say, of course the human powers are on Wang Yi's side this time.

"Hunyuan, you have caused the God Eye Race to lose the two Lords of the Universe this time. The God Eye Race will definitely not give up. They must find your revenge. If it is the Lord of the Universe, I am worried that their God will come personally. Trouble with you." The founder of the giant axe said. "I will come out of Qingfeng Realm right away and go to your side~www.mtlnovel.com~Before I arrive, you'd better not expose your traces and hide first."

"When I negotiate with the God Eye Race to end this matter, everything will be easy."

Wang Yi is very clear about the meaning of the giant axe, and is negotiating with the God Eyes?

The God Eye Clan is proud and arrogant, and when facing reincarnation, they are very crazy and take their face very seriously. This time Wang Yi has caused the God Eye Clan to lose a lot. How could the God Eye Clan negotiate properly.

I must have done one.

However, Wang Yi did not refuse the giant axe, nor did he intend to bite the bullet and charge upwards to be a hero.

The Lord of the Universe vs. the Strongest in the Universe sounds very exciting, but it's not really interesting.

If you really want to do it, kill it!

Wang Yi is actually not very interested in battles where the enemy cannot be killed.

He also didn't understand that the so-called protagonists in the past often liked to challenge the ranks.

Aren't they tired because they often make such excitement and thrills?

That is to say, the protagonist, who has a halo to add to his body, changes individuals, and various sorrow operations. He has already capsized in the gutter and can no longer die.

He likes to be upright, overwhelming with power, and prefers to fight forever.

The most important thing is that he doesn't have that strength now. Even if he uses the "Golden Armor God", he will not necessarily be able to kill the God Eye Race God, and will expose his hole cards, which will not be effective at the critical moment.

The hole card is the hole card because the enemy doesn't know it.

So he accepted the proposal of the founder of the Great Axe with peace of mind.

The child looks like he is going to be bullied by the opposite adult. Isn't it normal to ask their parents to help support them?

Not ashamed.

The shame is the opposite.

Afterwards, the human deity Wang Yi in the universe ark immediately found a place to linger, and waited for the giant axe to arrive to solve this trouble.

[Chapter 625: The Great Axe Arrived](#)

[Ding, congratulations to the host for signing in successfully, and reward the 'Neon Star'.]

Wang Yi, who was staying in a black and green underwater palace with turbulent waters, raised his eyelids.

Highest treasure?

Now I can only let him take one more look.

Of course, in the Jedi of the universe ark, what you get is not just the treasure, but also some weird things.

For example, some materials, some unintelligible knowledge, some incomplete secret methods... are all possible.

The value can range from the most precious to the highest treasure, of course, whether it is used or not is another matter.

For example, the incomplete secret method, because it is incomplete, it is impossible to practice at all, or the practice is extremely difficult, and the value is greatly reduced.

This kind of sign-in reward has been seen a lot by Wang Yi, and it is no surprise.

It is gratifying to be able to get some map information, or useful treasures like 'Neon Star' (at least it can be exchanged for treasure points with the panel).

After entering the universe for more than eight hundred years, Wang Yi's most precious thing is to obtain two pairs of Chaos Divine Wings and silver tokens. As for the others... it's hard to say.

This is hard to say, but for him, changing into wealth is enough for any peak race to be jealous.

He is now hiding in the depths of the "Soul Drifting Sea" in the inner space of the cosmic ark, where he is isolated from divine power and field exploration. Even the strongest in the universe can't find him if he is not close.

The environment here is very dangerous. The endless ocean is still reverberating with confusing sounds. Even if the Lord of the universe does not dare to go deep without the peak palace treasure and the top soul treasure, and there are few treasures born, the master of the universe who came here to explore is of course also very Rare... Under normal circumstances, hiding here for thousands of epochs will not necessarily be discovered by others. Wang Yi chose to hide here also very deliberately.

"Stay here first, and wait for the giant axe to come over."

Wang Yi closed his eyes.

...

Qingfeng world.

"It's finally out."

The barefooted savage giant stood in the void outside Qingfeng realm, looking at the endless void in the distance, "The God Eye Clan is the first reincarnation era, and it is even more crazy when facing the limit. In addition, they are so proud that they are not even the two holy places. How can I look down on it. I've lost face this time, so I must take the opportunity to show it off."

"Ha, the original ancestors crossed the universe, and none of the strongest in the universe dared to be arrogant in front of him. This time, I have the treasure in my body, and the seven Allahs gathered together and joined forces. I may not be able to beat it this time unless seven God come together, otherwise I have no fear at all." The eyes of the barefooted savage giant burst out with terrible madness and absolute confidence.

The voice is deep and powerful.

"The God Eye Clan also wants to deceive me humans. If they retreat obediently, it would be better to settle the matter, otherwise, do you think my giant axe is disadvantageous?"

boom!

It was teleporting again and again at long distances, quickly leaving the Qingfeng realm area, and rushing to the spaceship in the endless universe.

...

On the other side, the God Eyes are still looking for the Lord of Human Chaotic Source, but months have passed, and they have not found any useful information at all.

Several Allahs of the God Eye Clan gathered together again.

"If the human chaotic source is mainly acting in the space ark, this is not the case at all. Either he has secretly left the space ark and left the universe to return to the original universe, or the lord of the chaotic source of mankind received the wind and hid."

"If this is the case, then it will be troublesome. The universe ark is so vast and dangerously countless. The Lord of Chaotic Source can find a corner at random, I'm afraid no one can find him."

This is also the most worrying thing for the God Eyes before. The universe ark is extremely vast and countless regions. No one dares to say that they have all of them, and it is extremely difficult to investigate them carefully. The sea forces gathered here can't do it... As long as the Lord of Chaotic Origin finds a place to hide, it is undoubtedly a needle in a haystack to find him.

"Unreasonable!"

Several God Eye Clan Allahs are angry.

"The Lord of Chaotic Source is so timid that he offends my God Eyes and wants to run."

"The majesty of my God Eyes cannot be offended!"

"If the Lord of Chaotic Origin does not come out, then we will take the other cosmic masters of mankind! Even if you offend the giant axe, we will not hesitate!"

"Look, keep looking! Only a few months later, the humans may not have left, maybe somewhere in the universe ark, all the areas near Mie Shenjian will send people to look for them! I don't believe it anymore, the Lord of Chaotic Source can run away. So fast!"

At this time, the four Allahs of the God Eye Race had arrived at the Cosmic Ark Fireworks Lake and reunited, but they did not continue to act because they could not find the goal.

The four Allahs of the God Eye Clan did not intend to hide their whereabouts, and they traveled vigorously, and they were quickly learned by various forces.

All forces in the universe were surprised. The God Eyes actually dispatched four Allahs at once. What do they want to do?

The four Allahs, together, it can be said that in the entire universe, no one of the strongest in the universe is their opponent.

"God Eye Race, is it going to go to war with humans?" Some forces smelled unusual auras.

"The God Eye Clan is the strongest peak tribe in the First Reincarnation Era. There are seven Allahs, and the ancient inheritance secrets they have obtained are amazing. The last time the seven Allahs worked together to destroy the second reincarnation era 'Kong Luo'. Do they want to deal with the giant axe this time?" The attention of some forces was attracted.

In particular, all forces in the primitive universe are paying more attention.

The other five pinnacle races, which rank alongside human beings, also secretly look forward to it.

"Fight? Is the God Eye Race going to fight the human race?"

"Maybe the rise of the giant axe has made the God Eyes see the threat, and maybe they want to kill this threat ahead of time."

"If this is the case, that's fine. This giant axe is too dangerous. Let him continue to grow. Maybe when he will be the next original ancestor, then we will be suppressed again? I don't want to go back to that stage. It's a day when I can't lift my head and see the original ancestors and I'm terrified~www.mtlnovel.com~ Kill it, kill the giant axe, you can't kill it, and it's okay to let mankind be contained in the universe."

All forces in the primitive universe secretly look forward to the fight between the God Eye Race and the human race. After all, if the human race is suppressed and weakened, the greatest benefit will be the peak races of the primitive universe.

Otherwise, when the human race really grows up in the future, they will be the first to be threatened.

The territorial dispute alone is a very real and cruel thing.

Other forces in the Universe Sea watched a lot of excitement, whether it was the God Eye Race or the Great Axe, it had nothing to do with them, even if they all fell.

East Emperor Holy Land Universe, Northern True Star Lord also got news.

"Great Axe, God Eye Race..."

The Master Beizhen suddenly smiled. "The God Eye Clan has always been proud, and I don't even pay attention to my Dongdi Holy Land. This time it actually confronts the human race, hehe, I'm afraid they will hit the iron plate."

The North True Star Lord also began to pay attention to the development of the situation.

And soon it was three days later, half a year after the Extinguishing God Stream event, outside the cosmic ark, a huge axe light tore through time and space descended from the endless void.

The giant axe arrived.

[Chapter 626: 4 Allahs](#)

Inner domain of the space boat.

Dang the soul sea.

"boom!!!!"

An extremely bright axe light rushed into the Dangling Soul Sea domineeringly, breaking through all obstacles and dangers along the way.

The axe light dissipated, revealing a burly barefoot savage man.

A stream of light flew out from below the Dangling Sea, and it was Wang Yi.

"Great axe."

"Chaotic Origin." said the brawny savage man with loose hair, "you will set out now, and I will be with you. I see who dares to openly besiege my mankind, the Lord of the universe." The eyes of the giant axe revealed a breathtaking breath. The cold man.

"Okay." Wang Yi was also a little excited.

Worried that the giant axe will be in danger? What a joke, the great axe of the palace of the strongest treasure can resist the attacks of ten or twenty of the strongest in the universe.

"I'm in your palace. If you are in danger, I will come out immediately." said the giant axe.

Wang Yi said that he understood that the giant axe flew into Wang Yi's palace, but this was not a tower of the sky, but a palace of the highest peak.

After that, Wang Yi did not cover it, nor entered the palace, exuding his aura, turning into a stream of light and flying towards the black stone pillars of the space boat.

This way, it is destined to make waves.

...

In Yanbing Lake, the third God of God Eyes "God of Stars", the sixth God "Blue Eyes God", the fourth God "Purple Lian God", and the seventh God "Ice Cliff God" gather together.

Several universes in the Purple Moon Holy Land were far away, but they didn't dare to come and drive them away, and the God Eye Race God didn't bother to pay attention to these small characters.

Suddenly, the four God Eye Race Gods all got news at the same time.

"The master of the human chaotic origin has been discovered."

"It has been confirmed that he is alone in the sea of souls."

The four Allahs are pleasantly surprised.

"Let's go quickly, don't let him run away." A God said.

"He can't run, our people are already behind him."

"The Sea of Soul Dangling is very close to us." The Third God said: "We are on our way at full speed, and we can get there in at most three hours."

"It's not too late, we will set off right away."

boom! ! !

The four Allahs turned into streamers, and their speeds were extremely fast, and they disappeared into the endless lake of fireworks in a flash. Only then did the Lord of the Universe in the Purple Moon Holy Land flew over, looking at that side with an ugly expression.

A cosmic lord said angrily: "The God Eyes are too arrogant and hateful. If it weren't for too few of the strongest in the universe in our Holy Land, how could they be allowed to be so arrogant and domineering."

Everything is good in the Purple Moon Holy Land. There are hundreds of masters of the universe, and there are only two strongest in the universe, and they seem relatively cold.

You must know that even if the original universe has not multiplied to the later stage of the monster race, there are two strongest in the universe, not including the ancestor of the monster beast that has been driven away and the ancestor of the star giant beast that has automatically separated from the monster race, the universe of the monster race The Lord is no more than one ten to twenty of the Purple Moon Holy Land, but the number of the strongest in the universe surpasses the Purple Moon Holy Land.

There is such a big gap in the number of top combat power levels in a holy land universe, or it is because the holy land universe cannot give birth to the strongest in the universe...or the cost of birth is too great.

Therefore, when facing a strong peak race like the God Eye Clan that has not yet transcended reincarnation, it is inevitable to get angry from time to time.

...

Inner domain of the space boat.

The Third, Fourth, Sixth, and Seventh God are already advancing in the inner realm with great power.

All smiled and confident.

"Our four gods from the Divine Eye Clan are dispatched together, looking at the universe, there is no opponent under their joint hands."

"This time, the Lord of Human Chaotic Source has been our palm."

"The treasure of wings, the treasure of palaces, will all belong to my God Eye Clan."

Invincible!

The God Eye Race is so confident!

"Wow...wow..."

The endless black ocean is covered with dark green clouds and mist. Even if the Lord of the universe does not have armor to protect the divine body, it will quickly erode away. The wind is whistling, and Wang Yi flying with open wings looks at the divine eye clansman strong behind. By.

There was only one person just now, and now it has been increased to three.

"The God Eye Clan is really wicked." Wang Yi sighed.

A look at the posture of the God Eye Clan shows how passionate Wang Yi was for chasing him down.

"I'm so passionate, probably because of my treasure." Wang Yi secretly said in his heart.

"I just don't know if it is for the winged treasure or the palace treasure."

"It's a pity that you want to get my treasure this time, it's not that easy."

When using the treasure in front of outsiders, he is ready to expose this day in his heart.

Several experts from the God Eye race were chasing after them. They were at least Tier 4 top cosmic masters, and they were not afraid that Wang Yi suddenly turned around and killed them, all of them chasing them hard.

"Master of Chaotic Source, stop, you can't run."

"Master of Chaotic Origin, this time the four Allahs of our clan are dispatched for you alone, and you should feel honored. Those who are conscious and interested should be obediently arrested and stop struggling."

"Humans, give up resistance, my clan God has said, I can spare your life."

In addition to the God Eye Clan, there are other powerful people nearby who have heard the news and rushed to watch the excitement.

"Look, that is the lord of human chaotic origin."

"I heard that the four Allahs of the God Eye Clan were dispatched together, just for him."

"The four God-Eyes Allahs are dispatched together...for the sake of a master of the universe? What is so peculiar about this human being?"

"I heard a little bit of news that the strongest avatar of the Lord of the Five Observations of the God Eyes and the Lord of the Arrows have fallen in Deshen Stream not long ago, and even the unique special life in the first reincarnation era is claimed to be unkillable. Yin Tuo has also fallen, and the culprit is the Lord of Human Chaotic Source."

"What? Yintuo, the strongest clone of the Lord of Arrows and Lord of Five Clues has fallen?" Hearing this amazing news, the Lord of the Universe was shocked.

"Isn't it said that the Lord of Chaotic Source is only the Lord of the fifth-order universe? Even if there is a clone, it is not better than the strongest person in the universe, how could it be possible to let these few fall together? It's hard to kill these three universe masters in a short time, how did the chaotic source master do it?" The universe master was puzzled.

"It seems that this human being has a treasure against the sky, coupled with the use of the danger of God Extinction, finally let Yintuo and the others fall. In the end, only the Lord of Chaotic Source escaped. Of course, the God Eyes will not let the Lord of Chaotic Source go. ."

"That's it, it seems that the treasure must be very simple, otherwise the God Eye Clan will come out of four Allahs, this is to seize the Lord of Chaotic Source at any cost."

Similar discussions can be seen everywhere among the powerful in all parties~www.mtlnovel.com~Boom! ! ! "

A stream of light flew from a distance at an astonishing speed, and a powerful force surged over the sky.

Other powerful forces are attracted.

"What a terrible breath!"

"This, at such an astonishing speed, there is only the strongest in the universe, right?"

"Which one of the strongest in the universe has arrived?"

Their doubts were answered immediately.

"The Lord of Human Chaotic Source!" A cruel and majestic voice spread across the Dangling Soul Sea, and then four towering figures filled with endless coercion appeared.

Everyone understands now, the God of God Eye Race has arrived.

[Chapter 627: fear](#)

"It is the third, fourth, sixth, and seventh God of God Eye Race!"

The sharp-eyed people recognized it immediately and took a breath.

Although the news spreading time is too short, there are very few cosmic masters gathered at this time, but there are also those from the first reincarnation era, who are very familiar with the strongest in the universe of the God Eye race.

"The four Allahs of the God Eye Clan have arrived, and the Lord of the Human Chaotic Source is over."

Some sympathize with humans.

Fight against who is not good, fight against the god-eye clan of the first reincarnation era.

"Humanity."

I saw the endless expanse of starlight spreading across the Black Sea, and instantly collided with the gray field of light.

Wang Yi's face changed when he was flying, "The Third God's Strongest Treasure Domain, "The Kingdom of Stars"?"

These prestigious existences all have signature treasures.

The third God, named God of Stars, casts that endless meteor, which is the strongest treasure of the domain class! It is called "The Kingdom of Stars."

Wang Yi's time and space wings were unable to inspire higher levels. Only two pairs could not fight against the God of the Stars, who spurred the strongest treasure realm, and were directly suppressed.

However, as with other peak and treasure domains, this suppression is gradual and visible to the naked eye.

"Zizi..." It's like hot oil dripping into the water. There are tiny gaps in the space where the two big areas touch, showing the strength of the collision.

"Huh?" God Xingchen narrowed his eyes, a little surprised. "To be able to persevere in my Xeon Arcana domain, this winged Arcana is really extraordinary."

"But since we are here, he can't run."

As the supreme treasure of the Xeon, under the impetus of the Third God, the kingdom of stars is powerful and can easily be shrouded in a radius of a hundred light-years or even thousands of light-

years. At this moment, from the outside to the inside, it has completely wrapped Wang Yi's domain inside. Laminated press.

He firmly believes that this human being can no longer run. After all, he is not the only one who came here this time. The four strongest people in the universe, no matter how strong the Lord of the universe, are useless.

"Huh, Negative Yu stubbornly resist!"

With a sneer, the next moment, time and space were distorted. In that distorted time and space, countless meteors dazzlingly passed by, smashing toward the gray realm.

"Wow..."

The mighty black river suddenly appeared out of thin air, merged into the gray light, and its power soared in an instant. It was even comparable to the frontal collision of the star kingdom. Although it was trembling constantly, it persisted.

"Blocked? This is the strongest treasure of the strongest in the universe." The other powers who were also caught in the field were shocked when they saw it.

"God Eye Race!" A roar resounded through the soul sea. "You four Allahs bully the small with the big, do you still need a face?"

"This... Winged time and space control plus the domain-type supreme power? It's so big?" The four Allahs were surprised when they saw this scene with their own eyes, and at the same time they became excited. "This winged treasure is really extraordinary, we have come to the right. If this winged treasure is paired with the strongest treasure field, wouldn't it be even more powerful."

"This precious treasure should fall into the hands of our God Eye Race."

The four God Eyes Allahs no longer hesitate.

This kind of treasure, so special, might be comparable to a supreme treasure. The God Eye Race has already made up its mind to take it down.

"The Lord of Human Chaotic Source!" The Sixth God said indifferently, "You kill my god-eye clan powerhouse, and your sin is unforgivable. If you have a sense of interest, you will be obediently arrested and apologize for your mistakes. We can still spare you, otherwise... .."

"Joke! It was your God Eye Clan who deceived me first, can't I resist?" Wang Yi said angrily. "Are your God Eyes just so unreasonable?"

"Haha..." The four Allahs all sneered.

Seeing Wang Yi still resisting, God of the God Eye Race was impatient.

"Resolve him quickly."

"A mere master of the universe also wants to reason with us."

"Stubbornly stubborn, it's easy to suppress him."

"I'm coming too." The Sixth God then shot.

"Om! Om!"

Two dazzling blue lights, these two blue lights... a million kilometers long and unmatched sharp, they run side by side, piercing through the twisted time and space into the black river and the gray light field.

The sixth God, named Blue-eyed God, casts two rays of blue light. In fact, it is a very strange soul attacking the supreme treasure! Named "Blue Eyed Light".

They held their own identities, and they had already surrendered their identity to deal with the Lord of the Universe as the strongest in the universe. At this time, they did not use the joint secret method. They were confident that Wang Yi was already in the bag and could not stop it at all.

It should be known that the God Eyes have been carved with ancient secret patterns in the Three Jedi. After careful study, the Seven Allahs have understood many mysteries, and even have some means to cooperate with each other. Looking at the universe, apart from the original ancestors, they are indeed not afraid of anyone.

The masters of the universe from other forces watching from afar talked a lot.

"The God Eye Race is as overbearing as ever, this human chaotic origin master is unlucky."

"The Third God and the Sixth God take action together, no matter how strong the Lord of Chaotic Source is, it is impossible to resist it. It is either killed or suppressed."

"Don't forget that there are two other Allahs nearby who didn't make a move. Even if the giant axe came over, it's not easy to use."

"That winged treasure is so powerful that it seems to fall into the hands of the God Eye Race."

"boom!!!"

At this moment, the entire time and space of Dangling Soul Sea was shocked, and a huge gray axe burst out of the air, and the sharp aura split everything in front of him.

The two dazzling blue lights and countless dazzling meteors were directly annihilated under the axe light that seemed to be able to split a small universe.

The smiles on the faces of the four God-Eyes Allahs who were holding the winning ticket solidified.

"Great Axe!!!"

The seventh God said with anger.

"God Eye Race!"

A burly and tall savage man with bare feet and loose hair, who seemed to be able to hold the world apart, stood majestic in the void, his stern and stern eyes shot out from under his hair like a sharp sword, and his voice was loud and powerful.

"You deceive me humans! Do you want to go to war with us humans?"

Facing the four Allahs of the God Eye Clan alone, the giant axe is fearless.

Still domineering and strong! Axe refers to the strongest in the four universes.

"Great Axe!"

"It's the great axe of mankind!"

The lord of the universe who acted as a group of melon-eating people in the distance was shocked~www.mtlnovel.com~ The giant axe actually followed the human being, no wonder the human dared to show up easily. "

"Things are interesting. I thought that the Lord of Human Chaotic Source would be easily suppressed by God Eye Race God, and the matter was over, but the giant axe has arrived, so there is a good thing to watch."

Those onlookers were excited as if they were fighting with blood.

There are not many opportunities to watch the battles of the strongest in the universe. Of course, they are also afraid of being affected, so they hide away one by one. The four Gods of the God Eyes also intend to stand up this time, and they have been open to their existence before. He closed his eyes and did not deliberately expel.

But it's different now.

The giant axe is actually here, competing with the God Eye Clan. This time, the God Eye Clan is making a massive outing under the nose of the entire universe, and there is no possibility of easily retreating. Next, a big battle will definitely break out.

[Chapter 628: Eternal God!](#)

"The giant axe is here, it's troublesome." The faces of the four Allahs of the God Eye Clan were not pretty.

The great axe is here, no matter what the outcome is, it is difficult for the human chaotic source master to fall into their hands.

With the protection of the giant axe, at least it is very easy to take the humans away.

The four God-Eyes God exchanged quickly.

"Great Axe!" The third God of the God Eye Clan said in a cold voice, "Your lord of the human chaotic source killed our people. If you don't give us an explanation today, you don't want to leave here."

"But it's not that there is no room for reconciliation." The Fourth God also said, "Take that winged treasure to us as compensation, and let this matter go."

Originally, they wanted to take the humans directly, so all the treasures naturally fell into their hands.

Regardless of whether it is the winged treasure or the strongest palace that I haven't seen, the God Eye Clan doesn't want to let it go.

But the great axe is here, which is difficult to handle.

They didn't have the confidence to stop the giant axe.

The strong of the God Eyes can only retreat first...get the Wing Treasure first, as for the other Treasures, there will be opportunities in the future.

"Hehe, your God Eyes are really big lions." The corner of the mouth of the creator of the giant axe evoked a trace of disdain. Then he shouted violently: "When did the God Eyes be so shameless? Your tribes were greedy for my treasure of the Lord of the Chaotic Source of Mankind in Destroying the God Stream, and they joined forces to besieged, which led to the fall. It is completely self-blame, to make up for it? I haven't yet. I want to talk to you God Eye Race!"

It was quiet all around.

"Really not?" God Eye Race God looked at the giant axe.

"No." The giant axe looked at them indifferently, raised the giant axe in his hand, and made a clear statement.

This is not only a dispute between the treasures, but also a face-to-face dispute between the two powers.

No matter which side it is, it will not easily back down and give in.

"In that case..." The Third God said slowly: "Today we can only leave you here."

Endless murderous aura pervades.

"Haha, don't hesitate to come if you have the ability." The giant axe held the bronze battle axe, his eyes full of warfare, without fear. "I also want to see how powerful your God Eye Race God is."

"You will see it." After the third God said, he exchanged a glance with the other three Allahs, and they all understood each other's intentions.

The giant axe is not easy to provoke, so I do my best.

This time the four gods of the God Eye Clan are dispatched, and they must stand up, and even if they can't kill the giant axe, they must defeat him.

"This time the four of us have brought six Xeon treasures, and if we go all out, we will definitely be able to defeat the giant axe!" The third God said through the voice. "Never weaken the name of my God Eye Clan."

The other God nodded one after another, with murderous eyes in their eyes.

"war!"

The battle broke out instantly!

The founder of the great axe standing tall with loose hair in the distance, holding a bronze great axe, the great axe stretched out and covered his whole body with a blue streamer, and suddenly formed a layer of bronze armor.

The Xeon Xeon Weapon also has some body protection functions, which of course can't compare to the real Xeon Xeon Armor.

"Boom!" "Boom!" "Boom!" It sounded one after another, as if a drumstick hit the heart.

At the same time, a misty figure with a dazzling light appeared out of thin air. He smiled and looked very kind, and countless stars were stagnant. At this moment, this misty smiling man was like the only true **** in boundless time and space, and then he smiled softly: "When you think about it, it is the eternal kingdom!"

Bang! A star splits, changes rapidly, and turns into a four-hoofed unicorn. Bang! Another star split, and instantly turned into a double-headed snake-like alien beast.

Bang! Bang! Bang! Countless stars split, and hundreds of millions of strange beasts appeared. All these countless strange beasts were crawling. Facing the bewildered man, they worshipped and knelt down towards him, making a hoarse voice.

Invisible power can permeate.

That kind of absolute suppression has completely condensed and fixed one side of the universe.

It is said that the God Eye tribe had a complete and ancient inheritance, so the fighting method is also the fighting method of that powerful civilization.

The face of the founder of the giant axe also became serious, but his eyes became crazier and tougher.

Wang Yi hid in the distance and looked at this misty figure with full of amazement.

"This is the eternal true God of God Eye Race God?"

The huge misty figure hovered in the air, and smiled lightly: "Great Axe, this is the second time I have tried my best. Last time, our seven Allahs joined forces to kill Kong Luo in the second reincarnation era. Even if you have The strongest treasure is not our opponent either."

"Don't talk nonsense, come on if you have the ability!" Giant Axe's eyes were full of madness.

"Okay!" The god-eye clan powerhouse is not sloppy either.

"Eternal kingdom, divided into billions of stars and beasts, together, eternal true god!"

With the formation of the ancient secret law.

An endless and majestic alien beast stands in the void, with nine huge heads, thirty-six pairs of wings, 108 pairs of claws, and nine tails. This huge alien beast is standing in this void, The law of operation has long since receded, and the coercion is even more powerful than every strongest person in the universe.

The strong man in the distance also looked at this behemoth in shock.

"Boom!" "Boom!" "Boom!" Then the eternal true spirit moved, stepping on the void, and the sound of 108 pairs of claws stepping on the void was very neat, and every step made the void shudder and roar.

Knowing that the giant axe is not easy to deal with, and the four Allahs have no intention of temptation. They directly attack the killer. The six strongest treasures are integrated into the eternal true god, which

is equivalent to the four strongest in the universe attacking the giant axe. That kind of power, directly Let the endless space completely collapse into nothingness. The Lord of the universe felt endless trembling.

"The six strongest treasures! The four of us join hands and the secret method is combined. I don't believe you can stop it!!" I don't know which God has a cold voice.

Except for the first and third allahs of the God Eye Race, all the other Allahs have only one supreme treasure. It is also a rare thing to use six in one move this time.

"Haha... It's good!" The creator of the giant axe stared at the endless and towering beast with a high-pitched cry containing soul impact, trampling on it, and shouting in a low voice: "You guys It's also worth my real outbreak!"

"Arrogant!"

"Om!"

A dazzling golden light spread from the giant axe, is like putting a layer of brilliant golden armor on him, his eyes instantly become as brilliant as endless stars, in his hand The bronze giant axe also blooms endless brilliance.

The Great Axe also went all out. Under the combined attack of the four great gods and the six strongest treasures, no one dared to say that it would be able to withstand it.

"fifteenth!"

The endless time and space darkened, but a gleaming giant axe phantom appeared in the endless darkness, and then a golden light merged into the giant axe phantom, turning it into a golden giant axe just like the substance.

The savage brawny swung the golden axe without hesitation.

Split out with one axe.

"boom!!"

[Chapter 629: Unstoppable!](#)

At that moment, the void bloomed with incomparably dazzling light, the dark green clouds and mist around it had long since dissipated, and the black sea of souls was silently evaporated over tens of billions of kilometers, facing the fighting and fighting of the strongest in the universe... these are not united. The energy naturally carried by the pure cosmic boat is obviously in a weak position, and that strong fluctuation makes the Lord of the universe tremble.

"Boom!"

In an instant fight, the founder of the giant axe retreated violently, but the 108 pairs of claws of the Eternal True God retreated again and again.

"What, it's actually on par with the Eternal God?"

This shocked the Third, Fourth, Sixth, and Seventh God.

The eternal true gods are their assassins. The four Allahs have joined forces, plus the six strongest treasures. Logically speaking, there are no rivals in the universe.

But the great axe can compete head-on with the eternal true god, which is too...

"impossible!"

"kill!"

The four Allahs are crazy.

The huge and majestic beast with nine huge heads, thirty-six pairs of wings, 108 pairs of claws, and nine tails roared toward the giant axe again.

The body formed by billions of stars, the blue-eyed divine light contains the impact of the soul, the arms formed by two purple streamers are the "star hands", the long tail is for the long-range attack on the strongest treasure "Purple Training", and the black head is the palace "Ice Cliff Castle"... The ancient secret method used by the four Allahs to burn the divine body, it can be said that the powers of the six strongest treasures are combined together, and any one of the strongest in the universe will be blown away in front of them.

For the dignity and face of the God Eye Clan, the four Allahs have no reservations.

That piece of time and space has been completely distorted, and under the attack of the strongest of the five universes, it turned into a group of invisible and extremely dazzling light. Only the roaring eternal true **** and a golden indestructible great axe can be seen vaguely.

The lord of the other universes are hiding farther, this battlefield is too dangerous, as long as a little aftermath, can annihilate a lord of the universe wearing a top-tier armor.

Looking at the time and space that seemed to have turned into the end of the universe, the souls of all the masters of the universe were shaking.

"The Great Axe has fought against the eternal true gods of the four great gods of the God Eye tribe."

"Who can win?"

Wang Yi also hid in the palace in the distance and watched this scene excitedly.

The Great Axe has the strongest and most precious palace, it is impossible to fall, but he has no confidence in whether he can survive the alliance of the four Allahs of the God Eye tribe.

"boom!"

The Eternal God and the Great Axe separated again.

The Eternal True God did not pounce on it again, and the four Allahs of the God Eye Clan looked ugly.

The giant axe shrouded in the endless golden sword light carried the axe like a demon **** who opened the world, looking at the eternal true **** in the distance, and his voice was loud and magnificent.

"Four members of the God Eye Clan, are you still going to fight?"

"Great axe...Don't be proud, only four of the seven Allahs of our God Eye Clan are here. If the seven of us come over, you are definitely not an opponent." The seventh God gritted his teeth.

Not reconciled, with the power of four people, they can compete with this giant axe. The God Eyes are evenly matched with the giant axe. Next, let alone want to keep the giant axe. The giant axe wants to go, they simply Can't stop it.

"The third child."

"Youngest, what should we do?"

The Fourth God, the Sixth God, and the Seventh God all look to the Third God together.

Here, the third God makes up his mind.

Hearing is fictitious, seeing is believing, they never think that the giant axe is more terrifying than the rumors. This kind of combat power is better than the first God of the God Eye Clan.

In fact, they were still holding a trace of fluke in their hearts, thinking that they could suppress the giant axe and force the giant axe to lower its head... but now that idea is gone.

The Third God was silent and spoke slowly.

"Great Axe, I admire your strength, how about letting things go today? The entanglement between you and me ends here."

What can we do? With the strength and ability of the giant axe, even if the seven Allahs of the God Eye race gather together, there is nothing left for the giant axe.

Such an undead opponent with amazing strength, once it becomes an enemy, is a nightmare, and no power wants to provoke it.

For the God Eye Clan, face is very important... but transcendence is even more important.

Without going beyond reincarnation, everything is empty.

And the giant axe has developed to immortality, I am afraid that apart from the first and third allahs, the other allahs of the God Eye tribe must be cautious when walking in the universe.

It is not worth it to delay the great event of transcending reincarnation.

The God Eye clan is softened.

Unwilling to continue fighting with the giant axe.

The Great Axe said: "It's okay to let it go, but you have to promise that you, the seven Allahs, will never attack my lord of the human universe in the future, otherwise, don't blame me for making ruthless moves."

Like the God Eye Clan, the Great Axe does not want to continue fighting with the God Eye Clan. It is not good for the human race. The Great Axe is strong, but the other cosmic masters of mankind are sad in the universe.

And the promise he wanted was mainly to prevent God's Eye Race from being unruly to attack Wang Yi.

The four Allahs of the God Eyes also understood the meaning of the giant axe, but they also agreed swiftly.

There were no waves in the whole process...After all, strength is everything.

When both parties scrutinize each other, compromise becomes inevitable.

In a battle between the God Eyes and the Great Axe, they really saw the strength of the Great Axe, and were afraid that the Great Axe would become the next original ancestor in the future, and they did not continue to provoke the human mind.

As for the death of the Lord of Arrows and the fall of the clone of the Lord of Five Clues, the God Eye Clan didn't mention it.

It's dead in vain.

"Wow!"

The Eternal God disappeared, turning into a sky full of stars and two blue lights, as well as a pair of purple handguards, an ice castle, purple ribbon...

And the golden sword light of the giant axe also disappeared.

The Third God glanced at the giant axe and sighed in his heart.

"The human race in the primitive universe is really amazing."

"go!"

The God Eye Race God turned into a streamer and left quickly and at high speed in the direction where he came.

The giant axe also took Wang Yi away.

Danghunhai returned to calm.

But the news spread quickly across the universe.

The founder of the giant axe and the four gods of the gods eye race are fighting in the sea of souls, and finally the two sides truce!

Anyone with a discerning eye can see that although the four Allahs of the God Eye Clan are not ashamed this time, they did not take advantage.

Many forces were shocked.

"The strength of the founder of the Great Axe is so strong that it can rival the four Allahs of the God Eye Clan?"

"It seems that it is indeed the next original ancestor~www.mtlnovel.com~ As long as the God Eye Race is not stupid, they will not continue to fight with the giant axe, otherwise the God Eye Race will suffer in the end."

The other eight superpowers in the primitive universe, the twelve pinnacle forces were also shocked, and they were full of fear of the giant axe.

"The strength of the giant axe is getting stronger and stronger."

"In the future, let's try to provoke humans as little as possible."

Afterwards, the Lord of Chaotic Source possessed a pair of special Winged Treasures that could be compared to Xeon Treasures and even the news that there might be a Xeon Treasure Palace on his body also spread, attracting the attention of many powerful people.

This news was mainly spread from the Shenyan clan. Then got the "confirmation" from the Purple Moon Holy Land.

The entire universe was in an uproar.

A master of the universe has two Xeon treasures?

[Chapter 630: On the cusp](#)

"Have you heard? The Lord of Human Chaotic Source in the Primitive Universe has the news that there are two strongest treasures."

"It's a rumor, how can a master of the universe have two supreme treasures."

Some felt it was nonsense and sneered, some were dubious, and more people were full of curiosity.

Are there really two supreme treasures in the Lord of Human Chaotic Origin?

During the three reincarnation times, the eyes of the two holy places were cast on Wang Yi.

Many of the strongest in the universe were also attracted by this news.

Some feared giant axe, although the strongest in the universe moved a little but did not act, but some did not care about the threat of giant axe.

Especially the strongest person in the lonely universe in the first reincarnation era, is even more lawless.

Not to mention the current great axe, even the return of the original ancestor can not make them truly afraid.

Some evil and overbearing ones are that the two sacred places are not in the eyes, and the master of the universe who encounters them kills if they want to kill, and they don't think about the master of the universe who goes out to explore in their own small universe.

Unlike the God Eye Clan, Cumin had no scruples who were not dragged down by the race.

If there is a chance, they don't mind putting two Xeon treasures in the bag.

Even if the Great Axe and the human race are offended, what about? The universe is so big, it is not inevitable.

A certain area within the spacecraft.

"The God Eye Race is really sinister."

"There is also the Purple Moon Holy Land, which is also contributing to the flames behind it."

In the vast mountains, a red figure with three pairs of wings spread out flying in the endless gust of thunder and lightning.

Wang Yi was a little emotional.

This is the first thousand years after Wang Yi entered the universe.

He is about three to four hundred years away from the destination "Tongtian Demon Column" (the name given to the black stone pillar by humans).

Almost two hundred years have passed since the Battle of the Dangling Soul Sea, and the news that Wang Yi possessed two of the most powerful treasures spread throughout the universe.

He is no longer the master of the fifth-order universe, but the master of the sixth-order universe who surpasses the most top-notch masters of the universe such as the chaos city master, the galaxy master, and the golden horn master!

It is also one of the only sixth-order universe masters in the primitive universe!

The first one, of course, is the mysterious identity. The horrible soul method used to kill dozens of universe lords in Primordial Star killed him. Now he does not know where he is hiding!

The second one is the "Master of Chaotic Source" of mankind!

I don't know how many Cosmos Lords envy and hate the "Chaotic Source Lord" after receiving the news.

The two sacred grounds have fallen, they are in a special situation, and only then can the Lord of the sixth-order universe appear.

But for a mere primordial universe, why is the new master of the universe possessing the strongest treasure?

More than one!

When this news first spread back, the entire primitive universe was shaken.

The Monster Race, Mechanical Race, and Zerg Race are even more likely to call it impossible.

They didn't know how poor the human race was before, and none of the great axes in the past had the strongest treasures.

But now not only the giant axe has several Xeon treasures on his body, but also the master of the universe of mankind has Xeon treasures on his body...This reality makes them feel a little magical.

They were shocked, and then began a frantic investigation, wanting to unearth the origin of the human Xeon, there must be something they don't know about.

And Wang Yi in the inner space of the cosmic ark also often meets the masters of the universe from other forces, but most of the masters of the universe avoid him, and only a small number of fifth-order and above will bump into him.

It's just that Wang Yi didn't want to expose more secrets, didn't want to fight against each other, relying on the Wing Treasure to easily throw them away, all the way into the space ship.

Since the news of more than one Xeon Supreme Treasure was exposed, it has indeed caused some trouble to Wang Yi.

However, the spacecraft is very big, and the dangerous environment is everywhere. Wang Yi's whereabouts are uncertain, and it is not so easy for other people to find him.

Most of the strongest in the universe are in the core area, and they are rarely seen in the inner area, so unless they deliberately chase after God's Eye Race last time, they will generally not be encountered.

Others, whether they are the masters of the fifth-order or sixth-order universe, pose no threat to Wang Yi at all.

"Those guys, if they know that I have several Xeon and Treasures in my body, including the Tower of the Sky, I am afraid that the entire universe will be crazy." Wang Yi sighed.

The treasures of Wang Yi's human deity are now extremely luxurious, including the most powerful weapons, armors, palaces, souls, domains, wings... there are six in total!

In the entire universe, it can be said that no strong person has as many as his strongest treasures.

If it is known to others, let alone a giant axe as a deterrent, ten of them are useless.

Especially the Tongtian Pagoda, which has a mysterious origin, and is suspected to be the heavenly treasure related to ancient civilization and transcending reincarnation.

All the forces in the universe were already jealous when they learned about it. If they knew that Wang Yi had managed to kill dozens of the strongest in the universe, Wang Yi would truly become a public enemy of the universe.

You must get the Tongtian Tower at any cost!

"Actually, it's not impossible for Tongtian Tower to draw in primitive cosmic forces or those in the Universe Sea who desire to transcend reincarnation."

The Tongtian Tower can be taken out. Although it takes only 100 million years to comprehend 10,000 years, only 1008 people can enter each time. But whoever enters is entirely up to Wang Yi to decide.

As long as Wang Yi let go out a little bit, maybe many strong people will be moved.

However, it is not as simple as imagined.

Fortunately, the Tongtian Pagoda has no owner. Once in the hands of human beings, even the strongest in the universe can't come out. They can only be slaughtered. Once they are brought into the giant axe small universe, it is not impossible to kill.

No one dares to bet that no one will put his life in the hands of others.

Therefore, the most likely thing is that all parties will unite to persecute human beings and try their best to force them to share the Tower of Heaven... at least there must be a life guarantee.

Going in is tantamount to bowing to humans. Fortunately, the Lord of the universe who has a clone, I am afraid that none of the strongest in the universe dared to go in.

Of course, this is also a card, and there are also the masters of the universe and the strong who may not help being tempted. They will really surrender to humans and join the human camp. This is also an advantage.

However, mankind is now only more than 20 masters of the universe ~ www.mtlnovel.com ~ Hongmeng alien races are not counted, they are not really a part of mankind.

Even if you win, you have to consider whether it is worthwhile and whether it will cause bad consequences.

If too many people are drawn in, the number of enlightenment places for human beings will be reduced, and there will be fewer masters of the universe born. On the contrary, the masters of alien universes may become the strongest in the universe. One universe is stronger than one hundred universes. The threats of the Lord are great, and it is difficult to suppress them.

Therefore, as a last resort, Wang Yi would never consider opening the Tongtian Tower to those alien races.

Wang Yi sighed softly, "It's still the mankind's own lord of the universe that is reliable. Maybe we have to find a chance to resurrect the fallen human lord of the universe, but the price is still too high, and it is difficult to do at present."

It's not impossible. It's difficult. For example, Wang Yi's current treasures are all exchanged. It is not a problem to resurrect a group of masters of the universe, but it is not worth it for Wang Yi.

Therefore, we can only resurrect when the conditions are sufficient in the future.
