

A God 641

[Chapter 641: 8 eyes demon god](#)

On the top of an iceberg dozens of light years away from Wang Yi, in a palace shaped like a red worm, a universe lord also discovered the existence of Wang Yi.

This pinnacle and treasure domain was not opened by the Eight Eyed Demon God, but the Lord of the Universe was maintaining it.

The Lord of the Universe is also a well-known existence in the Universe Sea. He is known as the "Lord of Luo Heng" and is the Lord of the fifth-order universe. However, he conceals his identity and no one knows that he is the person of the Eight-Eyed Demon God.

It is as if the Lord of Darkness has always hidden his identity before, and no one knows that he is the Lord of the human race and universe.

"Master, found the lord of the human chaotic origin." He immediately reported to the eight-eyed demon god.

"Oh?" The Eight Eyed Demon God immediately got excited, got up from the ground, and said repeatedly: "I have found it? Where is he?"

"It's 80 light years away." Lord Luo Heng said respectfully, "My domain is in contact with his domain. He also found me. However, he doesn't know the existence of you, Master."

They are in the palace and have domain coverage. As long as they don't do things that expose themselves, such as exuding coercion, it is impossible for the Lord of Chaotic Source to know.

Wang Yi would only think that...the Lord Luo Heng was in the palace and would not be too vigilant.

Who can imagine that a strongest man in the universe would deliberately stay in the palace of a universe lord?

"Wow!"

The Red Worm Palace immediately flew towards Wang Yi's side at high speed, and at the same time a voice came.

"But the Lord of Human Chaotic Source?"

"Are you?" Although Wang Yi was a little wary, he didn't immediately turn around and flee. After all, judging from this breath, he should be the Lord of the universe.

"I am the Lord of Luo Heng." The voice continued.

"Lord of Luo Heng." Wang Yi was stunned.

This is a powerful master of the universe, his strength is not bad, and his life-saving methods are also very strong, no wonder he dare to take the initiative to approach him.

"Haha, I have already heard of your name, Lord of Chaotic Source, today I want to take a good look." Lord Luo Heng said, and the palace approached Wang Yi.

"I have something to do, I am busy on the road, and I am not in the mood to fight with you." Wang Yi said coldly.

"Why should the Lord of Chaotic Source refuse to stay thousands of miles away?" said the Lord of Luo Heng. "I heard that the Lord of the Chaotic Source is a peerless genius of the primitive universe. He has cultivated to become the Lord of the Universe for hundreds of thousands of years. I also saw Lie Xinxi that I wanted to compete with the Lord of the Chaotic Source. The Lord of the Chaotic Source, you dare not try, Are you scared?"

In order to complete the task of the Eight-Eyed Demon God, the Lord Luo Heng began to use the radical method.

But Wang Yi didn't bother to pay attention to the chattering Lord Luo Heng. During this period of time, he wandered through the universe. Because of the reputation of peerless genius, some cosmos masters did come up and wanted to fight him, but this kind of thing was still new at the beginning, and after a long time, Wang Yi became impatient.

If Wang Yi was still willing to fight these mighty masters of the universe in order to sharpen the secrets when the Xeon treasures were not exposed before, maybe he could get some inspiration. But now the Universe Sea doesn't know how many forces are staring at him. Maybe the strongest person in the universe will come to ambush him when he gets the news. Wang Yi has no intention to continue entanglement with Lord Luo Heng.

In the vast expanse of ice and snow, on the mighty silver river, two streamers move back and forth.

"This Lord Luo Heng is really entangled." Wang Yi looked at the red palace behind him perseveringly and shook his head.

In the Red Worm Palace, the Eight Eyed Demon God was also a little uncomfortable. "Have you not caught up with the Lord of Chaotic Source?" Although his soul secret method is powerful, there is no way to threaten a Tier 6 universe master at a distance of a few light years, and to prevent the Lord of Chaotic Source from escaping, of course The closer the distance, the better.

There is only one opportunity. After this time, the Lord of Chaotic Source will definitely be more vigilant, and it will be even more difficult to find opportunities.

"No, Master, his wing domain is better than my peak Arcana domain. Although I can burn my divine power and use secret methods to push the Arcane power to the limit to get close to him, it can't be done in a short time." The respectful way of the Lord Luo Heng.

"How far is it?" the Eight Eyed Demon God asked.

"There is still 1.5 light-years away."

"1.5 light years?" The Eight Eyed Demon God's eyes widened and couldn't help it. The two sides chased and ran, and when it was necessary to catch up with the Lord of Chaotic Source, when would it take.

"The Lord of Chaotic Source is really timid." The Eight Eyed Demon God frowned, "Fortunately, I had expected this situation a long time ago, and there are other arrangements."

In order to guard the Lord of Chaotic Source who may pass here, the Eight-Eyed Demon God is of course not only a single place, but his Cosmos Lord is also acting in several other places, and at this time he has also rushed over from all directions.

For this reason, he also specially granted many peak treasures to these universe masters temporarily, so that they can act in this harsh environment, and encounter the master of Chaotic Source that can intercept them, at least not to throw him away too much.

"Huh?" Wang Yi also noticed that the breath of the palace in the rear kept growing, and the speed was getting faster and faster, and he was a little surprised. However, he didn't think much about it, and the domain discovered that another cosmic master suddenly broke in from the side position.

The other party seemed to have spotted him too, and flew over immediately.

"Something's wrong." Wang Yi frowned. Smell a different breath.

He turned around and flew in the other direction.

However, the Lord Luo Heng and the Lord of the Universe also turned their flight directions at the same time, biting him hard.

"There is a problem." Wang Yi became alert. If the Lord Luo Heng entangled him for the test, why did this second Lord of the Universe just appear here? Is there any conspiracy behind it? Are you an accomplice of Lord Luo Heng?

"Can't entangle them." Wang Yi's eyes fell cold.

"boom!"

The power of the Wing Domain was raised to its limit, and at the same time the endless black river emerged out of thin air in this ice and snow. The Peak and Treasure Domain was superimposed with the power of the Wing Time and Space, and the restraining and oppressive power instantly rose to another level.

"boom!"

"boom!"

And the palace's original field that was trapped in the black river was immediately compressed back. Even under the impact of the ubiquitous, mighty and surging black river, the speed could not help but slow down.

"Master, no, the opponent's domain is too strong, and our flying speed is getting slower and slower now." Lord Luo Heng said in a hurry.

"How far is it?" the Eight Eyed Demon God shouted.

"It's still one-third light-year away. UU reading www.uukanshu.com"

"A third of light-years?" The Eight Eyed Demon God felt dissatisfied, but he also understood that this was the ultimate accomplishment by his subordinates. It's still to be blamed for this human chaotic source master for being too vigilant and not giving them any chance at all.

"boom!"

A huge and majestic figure appeared next to the palace, and that terrible wave immediately forced the surrounding black river back away. The eight breathtaking green evil eyes looked at Wang Yi together.

"Om!"

"Om!"

Green rays of light came out of its eyes, a total of eight green rays, converging into a dark green beam of light, as if sweeping towards Wang Yi ignoring the distance of time and space.

Seeing that towering evil figure appeared, Wang Yi was shocked.

"Eight Eyes Demon God!"

[Chapter 642: Evil grows from the gall](#)

As soon as he appeared, the Eight Eyed Demon God decisively launched his strongest attack.

Although separated by a distance of three trillion kilometers, this distance is sufficient for the strongest in the universe.

"Om!" A dark green beam of light that distorted time and space hit the black iron tower palace almost instantly, unable to avoid it.

The Eight Eyed Demon God secretly looked forward to it. As we all know, the palace treasure may be better in resisting material attacks, but it is far less effective in resisting soul attacks. Even Xeon Zhibao can hardly get rid of this feature.

"My soul attack has reached the top of Tier 8, even if he hides in the Xeon Supreme Palace, it can be weakened to one-tenth, or to one-hundredth, and the sky is weakened to one-thousandth... but there is the rest. The bang on him is fatal." The Eight Eyed Demon God secretly said in his heart. Unlike other methods, soul attack penetration is difficult to resist. Either use the same soul means to contend, or use the treasure and will to force it.

And in his opinion, although this human being is a peerless genius of the human race, even looking at the vast universe, he is a peerless genius, but after all, the training time is only a dozen epochs, and the "will" that needs endless time to sharpen is probably just one. Weakness, the influence released by his secret method of soul to the greatest power may not pose much threat to the real strongest in the universe, but the weak-willed human genius is definitely not something he can resist.

"Continuously use soul attacks to affect him and erode him. Even if he is not controlled by me, his speed will definitely be affected. Then I will use methods to trap him, and continue to use soul attacks to erode his divine body. , I can't do it a hundred times, I'm the strongest in the universe. I have the support of a small universe. I can burn my divine power and cast the strongest secrets... Sooner or later, he will fall." The eight-eyed demon god's eyes glowed with cold light.

It is very difficult for the strongest person in the universe to control the Lord of the Universe. The Lord of the Universe has a strong will and a soul treasure. When encountering an unstoppable soul attack, it can

last for an instant. When the time comes, the Lord of the Universe would rather blow himself up than be Slavery.

But for the Eight Eyed Demon God, it doesn't matter to him whether Wang Yi can't stand his fall or blew himself up in the end, anyway, the treasure can stay.

The Eight Eyed Demon God flew towards Wang Yi with all his strength while launching a soul attack.

There is still a distance between him and Wang Yi, and it will take a while to fly to humans.

And this has to restrain him when the opponent can't fully control the Arcane Field, otherwise the speed will definitely be slower.

But the Demon God of Eight Eyes is very confident.

"Hmph, under the attack of my soul, unless he has the soul of the supreme treasure, or his will is incredibly strong, he will definitely be affected, and his ability to control the supreme treasure will also be weakened.

The Lord of the Universe in other directions was not idle either, and gathered around the Black Iron Tower Palace, ready to help the Eight-Eyed Demon God to block this human being.

When the dark green light beam swept across the Tongtian Pagoda disguised as a black iron tower, that virtual divine power wanted to penetrate the Tongtian Pagoda.

But the Tongtian Pagoda is so special that all soul attacks and material attacks can't affect it, and this penetration is naturally futile.

"What?" The eight-eyed Demon God's face changed suddenly, "My soul attack has no effect on this black palace?"

"Soul attacks cannot penetrate at all, his palace treasure is very special, it should be a special material achievement, the virtual divine power cannot penetrate, and it can ban all soul attacks."

The Eight Eyed Demon God was also dumbfounded.

Both soul attack (virtual divine power) and material attack (simple divine power) have their own characteristics.

Some substances do have a hindering effect on the divine power of imagining. It can even completely isolate the soul from attack.

As for material attacks? However, there is some impact transmitted in, and any Xeon Supreme cannot completely ban the impact... However, under the protection of Xeon Supreme, material attacks cannot penetrate the treasure, and the impact is weak and can be ignored.

To put it simply, soul attacks can be completely isolated, but material attacks can't do it. It can't be 100%, but it is weakened to hundreds of millions of times. The impact is minimal and of course it has no effect on the people hiding inside.

The Eight Eyed Demon God originally thought that with his own soul attack he could take down the Lord of Human Chaotic Source. It would take a while at most to get rid of him, and then put two Xeon

Supreme Treasures in his bag, but I didn't expect that the other party's palace was so special, it could completely forbid soul attacks.

Soul attacks are completely forbidden, it is the Xeon Supreme Palace itself, and material attacks are of course useless.

"Damn! Soul attacks are useless, then I will catch you, seal you off, and bring you into my mini-universe. I don't believe that you can't kill you!" My strongest method actually didn't work, and the eight-eyed demon went crazy.

"Eight pillars!"

boom!

Behind the eight-eyed demon **** suddenly shot out parallel beams of light, like a rainbow. It is the eight colors of gold, cyan, aqua, ochre, fiery red, purple, white, and black.

In the rays of light, eight huge pillars with countless beast designs descended from the sky. Each of the huge pillars stood several light years high, and they descended in an instant, smashing into Wang Yi's palace from eight directions, completely sealing Wang Yi inside like a cage.

In the cage, eight colors of brilliance surged like ocean waves, and an extremely powerful pressure squeezed toward the black palace from all directions.

"Fell into my cage in all directions, even if the strongest in the universe wants to break through, it will take a lot of effort. You will obediently be suppressed and sealed by me!" The eight-eyed demon flew over with madness in his eyes.

The eight-eye pillar is the strongest treasure of the long-range attack type. It can also be used as a blockade and restraint. It is infinitely powerful.

Wang Yi in the palace also felt tremendous pressure. These eight-headed pillars are the supreme treasure of the strongest. Although they are not the supreme treasure of the domain, they form a realm inside with the eight huge pillars, which is equivalent to the realm of the supreme strongest treasure.

Not to mention that the Eight Eyed Demon God is the strongest in the universe, and the power to control the Xeon Supreme is absolutely beyond the wings and peak domains he controls.

"In this case, using Xeon's Supreme Treasure Domain and winged space-time control should be able to get rid of it, and even suppress the eight-eyed demon~www.mtlnovel.com~ so that he can't catch up with me." Wang Yi is still very calm. .

"but....."

He looked at the eight-eyed demon **** who flew in the distance, and endless murderous intent was reflected in his dark pupils.

Anger comes from the heart, evil comes from the gall.

"Want to kill me? Then see who will die first!"

Wang Yi is fed up with the strongest men in the universe who covet his treasure.

First, the four gods of the God-Eye clan, then the rampant demon god, and then the eight-eyed demon god.

Either forcefully oppress or use conspiracy methods.

The clay figurines have three points of anger, not to mention Wang Yi.

"I want to **** my treasure, want to kill me, OK, then I will kill you first!"

[Chapter 643: Panic 8 Eyes Demon God](#)

"Eight-eyed Demon God, you are the strongest man in the universe. It's too despicable to attack me as the lord of the universe! Don't you be afraid to make a joke?"

The Lord of Chaotic Source shouted angrily, but rushed down without stopping.

Although the eight giant pillars tried their best to restrain and suppress, the Lord of Chaotic Source also had wings and a realm of treasure formation, and could still contend with this force.

In addition, the Eight Eyed Demon God was a little far away, and Wang Yi wanted to escape, but he couldn't stop it for a while.

"Human kid, leave the palace treasure and wings, I can spare you not to die!" The voice of the eight-eyed demon **** came.

"Boom!" The eight towering pillars several light-years high moved together, smashing towards the palace with the aura of shattering everything.

It is still based on blocking.

"Binding!" Wang Yi tried his best to control the domain to stop these eight giant pillars. At the same time, the black palace turned into a swift stream of light swooping down the mighty silver glacier at a hundred times the speed of light.

"boom!"

A huge pillar smashed into the palace and flew out fiercely.

Another huge pillar followed.

"boom!"

"boom!"

The palace was constantly being attacked, and Wang Yi also controlled the palace's angle of flight and the direction of force. Even if he was bombed, he would fly downward.

It's getting closer and closer to the glacier.

The Eight Eyed Demon God saw cold light flashing across his eyes. "Want to escape by the Eclipse God Glacier?"

He spent so much effort, how could he be willing to watch the loot fly away.

"Even if I escape into the glacier, I will catch you."

The Eight Eyed Demon God is very confident in him. Although the God of Erosion Glacier is terrible, he has the strongest armor. As long as he is careful to avoid some dangerous places, the threat is not big.

Besides, the Lord of Chaotic Source is the Lord of the Universe no matter what, even if there are two strongest treasures in his body, how can he be his opponent.

The icy Eclipse God is in the glacier.

"boom!"

The eight huge pillars smashed through the boiling water and smashed into the black palace that was fleeing forward.

The eight-eye pillar kept blocking, and the palace's flying speed was affected, but the eight-eye demon **** was getting closer and closer.

In the icy river water, a towering evil figure followed behind the palace, and eight huge pillars bombarded the palace from time to time, trying to intercept it.

The eight-eye demon **** is mainly strong in soul attacks. Although the eight-eye pillar is also very strong, it is only the seventh-order top power in blocking and trapping enemies, and the more powerful is the "smashing" and "booming" powers... Wang Yi Controlling the superimposed Wings Supreme Treasure Domain tried its best to block, and then controlled Gongshou Temple to dodge cleverly. The Eight Eyed Demon God was so far away that he couldn't stop him for a while.

But when he catches up, he can naturally use more methods.

Seeing the eight-eyed demon **** getting closer, the humans in the palace seemed to understand that the situation was critical and suddenly turned and flew towards a whirlpool.

"Master of Chaotic Source, you!" The Eight Eyed Demon God reacted and shouted angrily. "Don't think about it!"

The Erosion Glacier is extremely dangerous, and the most dangerous thing is that ice vortex, even if the strongest person in the universe wearing the Xeon Treasure armor is drawn into it, it will instantly fall.

Only the Xeon Supreme Palace can save your life.

The human being in front of him clearly wants to escape with the help of the vortex of the glacier.

Of course, the eclipse glacier vortex is extremely dangerous, and the interior is full of many traps, which are difficult to explore. Even if the strongest in the universe rides on the Xeon to the palace, you may get lost in it. If it is not necessary, no one of the strongest in the universe would dare to rashly. Rush in.

The Eight Eyed Demon God has consciously seen through the human plan, and he is anxious. Although this human may not be able to come out if he enters, his hope of getting the strongest treasure is also lost. This is something that the Eight Eyed Demon God cannot tolerate.

"You must stop him before reaching the whirlpool." The Eight Eyed Demon God gritted his teeth.

The Eight Eyed Demon God rushed forward desperately, desperately trying to catch him before the Lord of Chaotic Source rushed into the whirlpool.

At the same time, the eight huge pillars also suddenly exerted their strength, smashing the palace and shaking it everywhere.

Finally, he caught up when the black palace flew to the edge of the whirlpool.

"Haha! The Xeon is mine!" The Eight Eyed Demon God said with joy.

"town!"

"sleepy!"

"Lock!"

"bundle!"

"Bind!"

...

Getting closer, the Eight Eyed Demon God's ability to control Xeon Supreme has reached its limit. At the same time, there is a whip on his hoof feet that is intricately rooted like a plant root, and the top of the whip is opened like a huge unfriendly mouth. Numerous roots entwined from all directions.

"Oh, let me suppress and seal it!" There was a cruel light in the eyes of the eight-eyed demon god.

Although Xeon Supreme Treasure Palace is not easy to deal with, it also consumes divine power for urging. The Eight Eyed Demon God is to consume the opponent's divine power. The other side consumes almost the same divine power, so there is no way to continue to control the Xeon Supreme Treasure. Then he can slowly brew it. .

He is the strongest in the universe, and is supported by the origin of the small universe, which is completely exhausted. *n0Vεlus&.c0m*

Of course, the best time is as soon as possible, otherwise the Eight Eyed Demon God can only run away in despair when the giant axe arrives.

Just as countless roots in the sky were about to wrap around the black palace, a golden figure suddenly appeared in front of the black palace.

"boom!"

Its stature has skyrocketed, just 10,000 kilometers when it first appeared, but it directly skyrocketed to a million kilometers, tens of millions of kilometers, hundreds of millions of kilometers... As long as the universe's strongest divine body can afford it, it can even increase to the height of "light years". , But it will definitely affect the strength.

The best fit is your own body shape.

But this golden existence did not hesitate to skyrocket to a height of hundreds of millions of kilometers, and it is still getting bigger, and it has been growing to a height of tens of billions of kilometers, like an endless and majestic mountain.

"What is this?" The Eight Eyed Demon God was taken aback.

What appeared in his sight was a body similar to a human being, with golden scales all over his body, silver secret patterns on it, a single horn on his forehead, and a tail covered with scales! And it is as strong as steel and has extremely long arms, hanging down to the calf, like a gorilla. With the eyes of the beast closed, his body exudes the breath of a wild beast, like a sleeping demon.

"It" raised its head abruptly, and two bright golden lights suddenly illuminated the world of cold river water, staring directly at the Eight Eyed Demon God.

The two sides were in close contact, even less than an arm's distance from "it".

Seeing the existence of this statue, the Eight Eyed Demon God instinctively perceives the threat.

"boom!"

Without hesitation, the Golden Armor God blasted towards the Eight Eyed Demon God with a punch. This punch seemed ordinary, but it was full of endless mystery, as if hundreds of millions of stars exploded at the same time, and the fist had turned into a ball of dazzling light. ~www.mtlnovel.com~ Time and space are directly transformed into nothingness under the power of this punch.

The eight-eyed demon god's **** treasure was instantly torn apart by this punch.

Then the huge golden steel-like fist blasted heavily on the eight-eyed demon god.

"Peng!!!" The Eight Eyed Demon God was directly beaten out.

Somewhat blinded.

"This, what the **** is this?" The Eight-eyed Demon God has the strongest armor. Although the power of this punch is strong, it is not injured, but he is a little panicked.

What is this? I can't feel the breath of life, but it has the strength of the strongest in the universe.

The Golden Armor God was not forgiving, and directly rushed forward, punching and kicking the Eight Eyed Demon God.

"Peng! Peng! Peng! Peng!..."

[Chapter 644: The strongest in the fallen universe](#)

"Let me use the "Golden Armor God" and act in a play. It's worth your fall." Behind the Jin Armor God, Wang Yi in the palace indifferently watched the scene of the Eight Eyed Demon God being caught off guard by the Golden Armor God at close range. .

The Golden Armored God is a special purple equipment reward that Wang Yi received in the last draw of Primal Star, which is equivalent to a puppet of True God level combat power.

It can be used three times, each with different strengths and different summoning costs.

"Ah! Bastard! How can such a monster exist in this human?" While resisting, the eight-eyed demon was filled with shock and doubt. "It feels like a lava demon, but it doesn't seem the same."

The lava demon is much stronger than this golden monster.

However, the Eight Eyed Demon God did not know that this was only the lowest-grade Golden Armored God.

Wang Yi felt that it was enough to use the lowest-level Golden Armored God, anyway, this is not the real killer.

The Golden Armor God was expressionless and smashed at the Eight Eyes Demon God with a punch. With each punch, it was like a powerful blow from the strongest in the universe. It was definitely a Tier 8 top power!

Fighting at close range, but unable to get rid of it, the Eight Eyed Demon God was beaten to disgrace, desperate to vomit blood.

Even among the strongest in the universe, this kind of combat situation is very rare.

It was mainly the Eight Eyed Demon God who was careless. At this time, he was entangled by the Golden Armor God close to him, and Wang Yi was restrained and suppressed by a realm comparable to the strongest treasure.

Suddenly the Eight Eyed Demon God felt the changes in the surrounding space, and his heart suddenly burst.

It turned out that the Eight Eyed Demon God was being beaten back and forth... Behind is the dark vortex of the Eclipse God Glacier, after all, the two previous parties were close to the glacier vortex. When Wang Yi first entered the glacier... just to fly in the direction of a whirlpool, closer to each other. At this moment, fighting and fighting, they are all fighting next to the core vortex. The powerful vortex strangling force has spread to the surroundings.

What did the Eight Eyed Demon God realize.

"Do not!"

He wanted to leave here, but immediately beat him back with a golden fist.

It was too late for him to leave at this time. Wang Yi had made so many preparations and used a precious opportunity to use the Golden Armor God. How could he let him escape? At the moment when he wanted to escape from war-endless turbulence. The red flames spread out instantly, spreading out in light-years around.

Xeon to treasure field!

After the original battle of Primordial Star, he exchanged the "Tianluodiwang" into another Xeon Supreme Realm.

Unless he re-uses the identity of the "Hell Lord", he will no longer use the "Tianluodiwang".

At the same time, the three pairs of wings behind him flicked, and the endless thin gray light diffused into the sea of fire and merged with the sea of fire.

The oppression of the realm immediately soared to an outrageous level.

Only the former Peak Arcana domain is comparable to Xeon Arcana under the blessing of Wing Arcana.

And at this time, the power of the Xeon Arcana has already surpassed the ordinary Xeon Arcana with the increase in the time and space of the wings.

The sea of flames was overwhelming, and the eyes were full of dazzling red light.

However, when this flame approached the "glacial vortex" next to it, it turned into nothingness, obviously unable to cover that terrifying area.

The Eight Eyed Demon God felt that the constraints of the surrounding space were suddenly so strong that his actions were severely affected.

"Xeon Supreme? Domain category Xeon Supreme?" Eight eyes of the Demon God's eight eyes widened at the same time. "You actually have three Xeon treasures on your body?"

He didn't expect at all that a new master of the original universe would have three supreme treasures.

There are not a few strongest people in the universe who can have more than three Xeon treasures in the entire universe, right?

"How can it be?"

"Do not!"

The Eight Eyed Demon God felt bad, and struggled frantically.

However, under the entanglement of the Golden Armor God's attack and the oppression of the Xeon Supreme Treasure Domain, he still inevitably retreated in the direction of the whirlpool.

The shadow of death hung over the strongest man in the universe in the first reincarnation era.

"I actually fell because of a master of the universe?" There was a strong sense of absurdity in the Eight Eyed Demon God's heart.

At the core of the glacier vortex, the terrible power of the glacier has long been verified by history. Even though the eight-eyed demon **** is wearing the strongest treasure armor, but in the process of reaching the core vortex, if it has not reached the most center, it will be strangled and shattered.

Unless there is a palace of the strongest and most precious in the universe, the strongest will also fall in it.

He couldn't resist the combined forces of the Golden Armor God and the domain oppression at all, so he could only fly backwards under constant bombardment... he had already entered the range of the glacier vortex.

"Why ~www.mtlnovel.com~ I have been fighting until now, I struggled hard, no matter the cost... just to transcend reincarnation, not to die here. No, it shouldn't be." The Eight Eyed Demon God is painful and crazy. "I can not be reconciled."

"I'm not willing to die in the hands of a master of the universe!"

Accompanied by an unwilling roar, the Eight Eyed Demon God and the Golden Armor God entered the glacier vortex together. The terrible strangling and tearing force of the glacier vortex of the God-Eating Glacier continued to act on the whole body, and saw that his huge alien beast's body was quickly torn. The beginning of shattering, even if there is the protection of the Xeon Supreme armor to weaken the attack, the impact of the armor can still cause his body to fall into a state of destruction.

The Golden Armor God's own body is particularly comparable to the Xeon Supreme, but it is unscathed.

The Eight Eyed Demon God looked at the cold golden monster in front of him, with a trace of trance in his eyes.

Soon the divine body dissipated completely under the torn and destruction of the whirlpool.

Everything returned to silence.

[Chapter 645: Shocked human race](#)

【Ding! Kill one of the strongest in the universe and get 60 million kills】

【Ding! Kill 1 true god, reward a diamond card with 100% sign in the highest reward, the current number of killings: 1/1 (can only be received once)】

With the fall of the eight-eyed demon god, pleasant hints emerged in Wang Yi's consciousness.

Killing a master of the universe is a killing value of 100,000 to 1 million.

Kill one of the strongest in the universe and start with 10 million kills directly!

The Eight Eyes Demon God died under the combined efforts of the Golden Armor God and Wang Yi. The panel clearly determined that Wang Yi killed it alone, which was in line with the rules. The strongest in the universe did not have a clone, and the reward was given out in full.

"60 million killing points!" Wang Yi took a deep breath.

1 kill value is equal to 0.1 treasure point.

60 million kill value is 6 million treasure point.

It can be exchanged for 60 Xeon Xeon weapons or four or five domain and soul Xeon Xeon weapons.

Such a huge sum of treasures frightened Wang Yi.

The reward for killing the strongest in the universe is simply so rich that it scares people to death.

"Huh!" In the glacier vortex, the Golden Armor God has already obtained the strongest treasure armor and the eight-eye pillars after the fall of the Eight-Eyed Demon God, and is flying out with difficulty against the tearing force, because the most terrifying vortex has not yet been reached. At the core, the Golden Armor God can barely break free, and the real scary thing is the tearing force.

If it goes to the core of the vortex, no matter how powerful it is, it will be useless.

As for the other treasures of the Eight Eyed Demon God? All have been destroyed under the power of the vortex, even the peak palace treasure cannot be kept, let alone other, only the Xeon can stay and be successfully harvested by the Golden Armor God.

Even some corpse fragments of the Eight Eyed Demon God were also taken away.

"Hahaha!" Wang Yi was excited when he saw the golden armor **** flying back.

"This time the Eight Eyed Demon God calculated me, wanted to murder me and seize my precious treasure, but was killed by me, really deserved it!" Wang Yi exhaled in his heart.

This time, not only successfully killed the Eight-eyed Demon God, the strongest man in the first reincarnation era, and obtained a huge amount of killing value, but also completed the last killing mission and obtained a diamond sign-in card.

As well as the two supreme treasures of the Eight Eyed Demon God, it can be said that they are earning blood!

It would be nothing to use a golden armour **** opportunity and 10,000 treasure points.

Good steel has to be used on the edge of the knife. If you expose your strength early and expose the existence of the Golden Armor God, let other powerful forces in the universe know, how can the current record be achieved?

If the Eight Eyed Demon God knew, it would be impossible to risk chasing the Eclipse God's Glacier Vortex, and if the situation was wrong, he would avoid it early and would not give him any chance.

So, keeping the hole cards is very important.

The eight-eyed demon **** fell, and his soul servants also fell.

Those cosmic masters didn't dare to enter the Eclipse God Glacier at all, but just stayed on the glacier according to the order left by the Eight Eyed Demon God before, and they died in a daze before they knew what happened.

Wang Yi was polite to laugh at the treasures on their bodies, which was another gain.

This time, the treasures of the Eight Eyed Demon God and the treasures of the Lord of the universe who fell around belonged to Wang Yi.

Of course, things are not over yet.

When he encountered the Eight Eyed Demon God, Wang Yi had anticipated this situation, and had notified the strong men of the human race in advance, presumably they had already begun to act now.

...

At the same time, with the fall of the eight-eyed demon god, something strange is happening in different areas of the three major Jedi in the universe.

In the "Tanxi Ridge" inside Liuzhong Mountain, several masters of the universe, who were adventurous together, acted cautiously here, and occasionally communicated with each other. Suddenly-one of the strong men fell silently, with the slightest divine body. No damage, but the breath of life has dissipated.

"what?"

"what happened?"

"Why did he fall suddenly?"

The other universe masters were stunned, and they were observing and talking.

"Why, why did it suddenly fall silently? No one attacked."

"Ah, could it be that the small universe he lived in collapsed? The small universe collapsed...all the lives entrusted to this small universe were lost. But if this happens...Ah, is the Eight Eyed Demon God lost?" These universes The lord quickly guessed the truth.

But they are unbelievable.

The fall of the eight-eyed demon? How could one of the strongest in the universe suddenly fall for no reason?

It should be understood that in the entire universe, the three great reincarnation eras and the two great holy places, few of the strongest in the universe have fallen. Even if they perish, they are usually killed by other strong men in the core area of the three major Jedi because of the environment, which is very rare.

And then, at the same time, in all parts of the universe, the eight-eyed demon small universe that was discovered by the major forces alone had five cosmic masters directly perished, without any breath of life.

Many forces have contacted and investigated and found that the eight-eyed demon **** should have really fallen, otherwise it would be impossible for multiple masters of the eight-eyed demon universe scattered all over the world to fall at the same time.

Only the fall of the Eight Eyed Demon God can explain it.

Some people reacted.

"Quickly, go to the small universe of the Eight-Eyed Demon God. Once he died, the small universe would disintegrate. There must be many masters of the universe, and a large number of venerables of the universe are all in it. Suddenly fell, the treasures have become ownerless... That is a great treasure!"

Some forces are moved.

"Quickly, go to the small universe of the Eight Eyed Demon God."

"Clan ancestors, we are closer to the small universe of the Eight Eyed Demon God, and we will be able to arrive soon. Let's act quickly as the news just spreads."

Suddenly, many masters of the universe and even the strongest ones in the universe rushed towards there quickly. They all believed that the eight-eyed demon **** should have fallen in a dangerous place in the three major Jedi. Such a sudden fall, no one would have imagined that the small universe would collapse, but a large number of treasures would be unowned. This is a waste of time. Wealth is fast and slow.

No one thought that the eight-eyed demon **** fell into the hands of a master of the universe because of greed.

The Eight Eyed Demon God also kept a secret before the action, and did not reveal anything about it.

Therefore, although the fall of the Eight Eyed Demon God attracted the attention of all parties, it did not cause much disturbance.

...

Virtual universe, the top of Thunder Island.

A group of cosmic masters of the human race are gathering together, anxiously discussing.

When Wang Yi was attacked by the Eight-Eyed Demon God, he had quickly notified the high level of the human race. The Lord of Chaos and others were shocked and angry, and worried about Wang Yi.

After getting the news, the giant axe of the spacecraft adventure rushed to Wang Yi as soon as possible.

"I don't know how Hunyuan is now? Is there no news yet?"

"The Eight Eyed Demon God is really hateful! How dare to be so bold!"

"I hope that the giant axe can hurry to ~www.mtlnovel.com~ The Lord of Chaos, Lord of Peng Gong, Lord of Qingdong, Lord of Void Gold, Lord of Desolate Jian, etc. are all sitting on their thrones, anxiously Anxiously waiting.

Although Wang Yi has stated that he has the means to save his life and has a way to kill the "Eight Eyed Demon God," the high level of the human race does not believe it very much.

Although Wang Yi is strong, he is still the lord of the universe after all. Facing a strongest man in the universe, it would be good to be able to escape with his life. Kill? Who can believe it? With the ability of the strongest in the universe to leave and fight if he wants, how can he perish?

At this moment, an e-mail appeared in front of City Lord Chaos. He tapped it lightly and looked at the e-mail, suddenly revealing an unbelievable and pleasant look.

"Everyone, just received the news from the Universe Sea Chaotic Source, the Eight-Eyed Demon God..." The City Lord of Chaos looked around and looked at the Lords of the Universe who were staring at him, his tone of exclamation, with a hint of shock: "Dead!"

The lord of the human universe present were all stunned.

[Chapter 646: Big gain](#)

"Eight Eyed Demon God is really dead? Was he killed by Chaotic Source?" All the masters of the universe were shocked.

The strongest in the universe, what a terrible existence? Even the Seven Allahs of the God Eye Race had to join forces to besiege, what the original ancestor could do... Can the Lord of Chaotic Source do it now? And still kill the strongest in the universe as the lord of the universe?

Chaos City Lord said: "The news will not be wrong. The universe has now spread. It is constantly discovered that the life of the Lord of the Universe belonging to the small universe of the Eight Eyed Demon God has disappeared, but the divine body is left behind. The Eight Eyed Demon God has been Fallen."

Although the other universe masters were still shocked, they had to believe them.

"too crazy....."

"Hunyuan is simply too bad."

"Unbelievable."

"How did he do that?"

It is a miracle that the Lord of the Universe kills the strongest in the Universe!

The slain eight-eyed demon **** and the small universe life are naturally extremely tragedy, but they are extremely excited for the human race.

"Regardless of how Chaotic Source did it, the Eight Eyed Demon God is dead anyway." The Lord of Huang Jian smiled, "Before Chaotic Source sent a message to let us quickly rush to the small universe of the Eight Eyed Demon God, we were still confused. , Now I understand that I was preparing for this."

The eyes of the other masters of the universe are bright.

...

An endless stream of chaos permeated.

When informed by Wang Yi, even though he didn't believe it very much, the Lord of the human universe around him rushed over, and the "Lord of Qingdong" was the first to arrive here.

"Hahaha... actually killed one of the strongest in the universe, Chaotic Source is really amazing!" The Lord of Qingdong was overjoyed, "This is the treasure of a small universe in the first reincarnation era, a disintegrated small universe, I Here comes." While riding in the palace resembling a beautiful bird, the Lord of Qingdong immediately flew towards the small universe. As soon as he got closer, he already saw the surface of the small universe begin to separate and crack layer by layer.

In the small universe that began to decay and disintegrate, the floating continents cracked, the space appeared cracks, and a doomsday scene. In fact, this is only the initial stage of the collapse... It's just that all the original creatures in the entire small universe have quietly disappeared. I saw a divine body floating.

The strongest man in the universe has fallen, the origin of the small universe dissipated, and the small universe collapsed, and the life entrusted within it also died.

But the Lord of Qingdong didn't have any mercy at all.

"Dare to attack me humans, this is the end."

"Go, take away those masterless treasures first. Don't wait for other forces to come, it will be troublesome."

The Lord of Qingdong should not be too late, act quickly, with excitement on his face, this is the wealth accumulated in three reincarnation eras in a small universe, and it is absolutely comparable to a race.

I saw a beautiful cyan bird, like a phoenix, flying at high speed in the collapsed universe, opening its mouth and swallowing wantonly, swallowing some treasures directly, and even directly swallowing some of the Lords of the Universe, and even the divine bodies of the Universe Lords. Suck in. Because in those divine bodies, there may be treasures such as divine armor.

"I am human."

"I am human, come on, come on all."

Scrape!

When did the Lord of Qingdong experience this kind of thing, it was extremely happy in his heart.

The Eight Eyed Demon God has two strong supreme treasures, and they have a long survival time. The peak supreme treasures are more than humans, but this time in order to capture the Lord of Chaotic Source, many precious ones were taken away, but almost all of them were lost. In Wang Yi's hands, and in the small universe, there are also 70% of the wealth of the human race.

"Qingdong." A streamer flew in from outside.

"Haha, it's Huang Jian. You are here too."

"Let's get together, speed up."

"good."

Soon, under the rapid capture of the two cosmic masters, only a "clean" collapsed small universe was left.

And the Lord of Desolate Jian and the Lord of Qingdong, who had received a lot of rewards, left happily.

After the strong of the human race left, other forces were long overdue.

In fact, they have come very quickly, but the human race has made preparations in advance, one step ahead of them.

"No!"

"No! It's all gone... Who the **** is it? It turned out to be faster than me, and the entire mini-universe was scraped clean, not one left."

Those strong men could only stare at the empty and desolate small universe, and some who misunderstood other strong men also broke out some skirmishes.

...

Wang Yi also smiled when he learned that the human race had scraped away the small universe treasures of the Eight-Eyed Demon God.

This time, thanks to his blessing, the human race has gained a lot.

Of course, Wang Yi's harvest is even more amazing!

The kill value alone is 60 million, which is equivalent to 6 million treasure points.

He also got the "Eight Eye Column" and "Eight Eye A" two pieces of supreme treasures left by the Eight Eyed Demon God.

In the palace. Wang Yi began to use the panel to appraise the two Xeon treasures. As for the other treasures, they were all exchanged for the treasure points on the panel.

"Eight Eye Column" is the name given by the Eight Eye Demon God. In fact, the original name is "Eight Desolate Column".

It is the Xeon Supreme of the remote attack type. The appraisal price given on the panel is 750,000 Supreme Points, which is not low anymore.

He also saw the scene where the Eight Demon God used the Eight Desolate Pillars before, and it could attack from a distance or trap the enemy. Wang Yi was also a little moved, and finally decided to keep the Eight Desolate Pillars as his long-range attack method.

The "Eight Eye Armor" is much more ordinary, only worth 600,000 treasure points, which is indeed ordinary for the true **** armor.

But no matter how common it is, this is also the Xeon Supreme Armor.

After Wang Yi pondered, he decided to exchange a Xeon Supreme Armor for the Great Axe. After all, the Great Axe now lacks a Xeon Great Treasure Armor, which is somewhat inadequate.

The giant axe is rushing towards the Eclipse God Glacier, and just hand it to the giant axe at that time.

Of course, I borrowed it this time. The Giant Axe has already endured too many favors. Even if Wang Yi wanted to send it, the Giant Axe would not accept it, and his pride would not allow it.

The founder of the giant axe now has the soul class Xeon treasure (Wang Yi gave it to the teacher at the time, in fact, it also means that it was handed over to the giant axe), weapons, palaces, domains... just one Xeon treasure armor is missing~www.mtlnovel.com~ And now it has made up, there is no defect anymore, and now it can be said to be the number one strong in the universe.

"The Eight Desolate Pillars stay, and the eight-eye armor is exchanged for 600,000 treasure points, and the giant axe is enough for an armor of 500,000. Then I still have..." Wang Yi looked at the treasure point value on the panel, and his face was brilliant. Smile.

"There are still 6.45 million treasure points."

Too rich!

Richer than ever!

"My wealth now is less than that of the two oldest holy places, but other forces should be inferior to me." Wang Yi was excited.

"Unfortunately, a piece of True God-level Mechanical Flow Arcana requires a minimum of 10 million Arcana points, which is far from enough." Wang Yi scanned the exchange list and calmed down a bit.

"It's better to redeem other treasures first, then the original Xeon Xeon treasures and the restraint Xeon Xeon treasures can be exchanged."

[Chapter 647: Jie Fanzi's Treasure](#)

The death of the eight-eyed demon god, because the matter did not leak, it quickly subsided, and the universe returned to calm again.

After Wang Yi handed over a piece of Xeon Treasure armor to the giant axe, he continued to advance toward the depths of the space ship.

The cyan token space secret room left by Jie Fanzi is located in the deepest part of the inner space of the cosmic ark. It has reached the edge of the core area. It can be said to be extremely dangerous. Don't dare to take risks.

Time began to pass quietly.

Wang Yi was roaming in the spacecraft, and the other two clones were also exploring Qingfeng Realm and Liuzhong Mountain.

Wang Yi continued to follow the path of divine power, sending a large number of items from the primitive universe and the sea into the endless secluded sea to analyze the endless secluded sea. The endless secluded sea has a talent for "creation", which can analyze the genes of life, create life, and analyze the endless secluded sea. , And then the incarnation of divine power will research and think under the speed of "practice space" tens of thousands of times. Once the research yields, it will use the endless secluded sea to experiment.

I am also comprehending the law and studying the secret method, wanting to understand the sixth level of the Tongtian Tower as soon as possible, and create the secret method of the strongest in the universe, but this is a water milling skill, and it needs opportunity and inspiration. I don't know when it will be completed.

After all, in terms of basic laws, from the top of the fifth to the sixth is a threshold, and there is no master of the universe before the universe can create it.

Practice "Inheritance of Black Stone Pillars"! Improve your will!

Going on adventures, analyzing life genes, studying secrets, enhancing will... It can be said that this is all Wang Yi's daily life, although boring, but very fulfilling, and Wang Yi actually enjoys it.

As the days passed, Wang Yi took the Tongtian Tower and talked about entering the inner space of the spacecraft, passing through terrifying dangerous areas. Although he was not afraid of being on the road, he was always careful to hide, and he would not attack the strongest in the universe. Opportunity... Soon Wang Yi has entered the universe for five thousand years.

"Wow!" A black iron tower palace was flying at high speed.

"Finally here." Wang Yi looked at the vast space in front of him with a sigh in his heart. The space in front of him was already in the secret room of cyan tokens. It took him thousands of years to break through dangerous areas. In some areas, the strongest in the universe dared not enter. Wang Yi also relied on the Tongtian Pagoda to rush. Sometimes, Wang Yi's heart was hanging up. Xeon can resist some dangers, but it can also fly randomly by the impact of some terrible environments. If he strayed into some desperate situation, it would be bad, but fortunately, he was always lucky... and finally arrived here.

It can be said that it is not easy.

Wang Yi was in the Tongtian Pagoda, looking at the huge buildings floating on the huge blades in the distance, and flew closer and approached.

It took three days. Wang Yi found his own "Cyan Token Space Secret Room".

"It's this one." The black iron tower slowed down and landed on the huge blade. The gate of the palace opened and Wang Yi walked out from it, looking up at the building on the blade in front of him.

Like the black token secret room, the cyan token secret room also has no sense of beauty, giving people a shoddy feeling, but I don't know if the silver token secret room will be special.

Wang Yi pondered for a moment, and walked directly to the ancient building in front of him. When he touched his body, he felt like touching the surface of the water, passing directly through, and entering the interior of the space secret room.

...

Soon after, Wang Yi walked out again with a smile on his face.

"Jie Fanzi's treasure is here."

Jie Fanzi left his inheritance "The Origin of Water and Fire" and other treasures in addition to Xeon Treasure in the secret room. It can be said that those treasures alone will exceed the overall wealth of the previous human race. After all, the Great Axe didn't even have the Xeon Arcana before.

Jie Fanzi also swept the entire universe in his time. It's just that he is obsessed with "The Origin of Water and Fire" and has no ambitions. Otherwise, if he concentrates on plundering, there will be more treasures. Collecting so many treasures from the three reincarnation eras is naturally normal.

Numerous treasures... there are 32 treasures at the level of the peak palace category. Ordinary peak treasures (the top domain category treasures are also counted at this level), a total of 91 pieces. There are very few common top treasures, high treasures, and common treasures, and they add up to more than one hundred pieces. Maybe Jie Fanzi didn't care and didn't like it. As for the large number of

precious treasures, the materials for refining the most precious, the treasures for restoring the divine body, the treasures for improving the life genes...the same amount.

This time, Wang Yi didn't intend to dedicate those treasures to the ethnic group, but stayed for his own use.

Of the other treasures, half are left to cultivate the earthlings and their own families, and the other half can be given to the human race.

Wang Yi is still generous in not involving his own fundamental interests.

Those treasures were all redeemed, and there were more than 100,000 treasure points, which was very valuable.

Wang Yi smiled with satisfaction, "Well...the origin of water and fire, I can also learn from it, maybe it will also help me create the secret method."

Just borrowing and thinking is not about taking the path of Jie Fanzi. The path of Jie Fanzi is inherently wrong.

It's like practicing the law of origin. In order to become immortal, you need to fully understand the law of position origin. As a result, Jie Fanzi did not practice the law of origin, but instead studied the laws of upper time and space... It is not impossible to achieve, but it is actually a way, but It's too difficult!

This is a forked road!

Just like "Luo", the master of the time world, he was so ambitious and ambitious to comprehend the law of time. A breakthrough would be a king. As a result, his life span was exhausted and he did not see hope. Of course, after Hong joined the giant axe fighting field and became a core member He also tried every means to continue his life for his teacher. More than one hundred thousand years have passed. The Lord of the Time Realm "Luo" has practiced steadily, and now he has broken through and is the immortal peak of Fenghou.

Jie Fanzi is different from Luo. The wrong path is because he has no experience, no guidance, and he doesn't know that becoming a true **** of the void mainly depends on comprehending the ten basic principles of origin, and comprehending the evolution and birth of the small universe. It is wrong to comprehend the origin!

As a result, three eras of reincarnation were exhausted, and in the end there was no breakthrough
~www.mtlNovel.com~ had to make a final fight to break into reincarnation.

But the mistake does not mean that he has nothing to learn from. After all, he is the top tenth combat power, and he is also a peerless figure who has swept an era. For Wang Yi, whether it is "Jie Fanzi" or "Moji", there is a place to learn.

Moreover, his ambition is not small, and he is studying the **** at the limit of the strongest in the two universes at the same time, wanting to see where he can break through.

"Since Jie Fanzi's treasure has been obtained, I can roam freely in the future." Wang Yi smiled.

Of course he would not dare to go to the core area unless he was brought by the founder of the giant axe, but it is enough for the creator of the giant axe to **** him once or twice. Let others be his babysitter all day long, Wang Yi is not in his heart. willing.

He would rather go on his own.

"Well, let me see where I go next. There seems to be an interesting place nearby in the secret records left by Senior Mo Ji, with a special treasure." Wang Yi began to look for it.

"Yes, it's the eternal sky. Let's go there and have a look."

[Chapter 648: Eternal sky](#)

Wang Yi left the secret room of Jie Fanzi's cyan token, and then took the Tongtian Pagoda, and flew towards the surrounding area according to the secret information left by Moji...

The secrets are secrets because few or almost no one knows them.

The Eternal Sky Vault is also a dangerous place near the core area. It is very dangerous near the cyan secret room space. Mo Ji once entered and explored. Once encountered danger, he almost got stuck inside, but he also explored a relatively safe route. , If there is a palace of the strongest treasure, you can still go for a break.

And Mo Ji also accidentally discovered a magical treasure called "Tears of the Sky".

Tears of the sky is a kind of treasure born in the eternal sky, which can raise the level of life genes, and it is the kind of high-level promotion...

It is necessary to know that the higher the level of the life gene, the more difficult it is to improve. One or two thousand times or easier, three or four thousand times to pile up with time, but more than five thousand times is not that simple...otherwise those special lives that are thousands of times. It's not against the sky.

In particular, the level of life genes reaches ten thousand times, and every time it is doubled, it is difficult and difficult. Therefore, there are actually many masters of the universe who are close to ten thousand times the master of the universe, but very few have reached 10081 times the perfect genetic level, even if the Chaos City Master Can't do it, Chaos City Lord's divine body is not huge, everyone in the universe knows.

Many treasures that enhance the genetic level of life have lost their effect for them.

Treasures that can have an effect on the Lord of the universe after the tens of thousands of times the genetic level are already extremely rare, and they can only be found in the universe.

Tears of the Sky is such a treasure.

Mo Ji once accidentally got some tears of the sky while exploring the eternal sky, and after researching, he raised the gene level of the next master of the universe to 10081 times, that is, the point of perfect gene level.

However, those tears of the sky were also consumed, and they did not remain in the treasure.

This kind of treasure is precious, but it has no effect on the strongest in the universe, and it has no effect on beings at the perfect genetic level.

But it is still a kind of treasure, magical effect, even if it is exchanged with some universe masters, they are willing to pay a high price in exchange for it.

Thinking that the Lord of the universe would also be helpful to the human race, since passing by, Wang Yi stopped by.

The eternal sky is like a dome, with endless starlight above it, and there are brilliant galaxies flowing, and there are constantly falling stars, such as meteors. The speed of falling is far more than a hundred times the speed of light, and the power is comparable to the strongest in the universe. When encountering a "meteor shower", it is inevitable that you can only take the palace treasure to carry it hard. The peak palace treasure can be carried down, but these stars are just one of the most common and common dangers in the eternal sky.

Under the dome is the endless desolate land, full of potholes, and endless peaks...that is the product of the long years of meteors.

And in the center of the earth is a black square monument, but it is too big, thousands of light-years high, it looks very majestic, it is the same thing as the "black stone pillar", even if the strongest in the universe attacks with all its strength, it cannot leave one on it. The traces also have deep and mysterious patterns on the surface, which are gathered into countless kinds of pictures of life, which even the strongest in the universe can't understand.

And the closer you are to the black square stele, the more the dome meteors like to visit here, and the greater their power, so the mountains here are also the highest. The black square stele has been completely enclosed inside, forming a crater-like terrain, with the black square in the middle. The stele, even the strongest in the universe, it would be difficult to get close to it without the strongest palace.

Moji in ancient times found "Tears of the Sky" nearby.

The meteors around the black square stele were falling like rain, the flames generated during the fall burned the space and collapsed, and the shock wave generated by the fall on the ground would shatter even if the peak palace treasure...This has completely exceeded the attack of the strongest in the universe. .

Wang Yi didn't dare to go outside at all, even if he was wearing the Xeon Supreme Treasure armor, any shock wave could kill him, completely relying on the Tongtian Pagoda to carry those devastating attacks, and slowly flew to the black square stele. ...It took him more than two hundred years.

Wang Yi was also very interested in the black square stele in the process of searching for the "tears of the sky". In Moji's records, he called it "the stele of the sky", but he could not understand the secret patterns at all. , Those pictures of secret patterns are very mysterious, they can't be remembered at all, they can only be comprehended while observing...but they can't be understood at all. They are more mysterious than black stone pillars. The secret patterns of black stone pillars can still be memorized, and they can be preserved by some means. It came down, but these strange secret patterns like various life patterns can't do it...It's as if there is a power to stop it.

Mo Ji had been here to comprehend for a period of time, but found that he could not comprehend, and finally gave up.

Wang Yi looked at the towering and infinitely high black square stele from a distance, and you could see that the infinite secret patterns on it constitute endless pictures of life. More importantly, these secret patterns are constantly changing, as if they were there. Like life, you see a picture of plant life in one second, and it may become a picture of rock life in the next second, and then it will become a picture of flesh and blood life, or planets, stars, or other incredible and unheard-of life. ...

According to observations, the secret pattern keeps changing in the eyes of the strong, so it is normal that it cannot be remembered, or that no one has found a way to understand it correctly.

Just like the secret methods of those ancient relics, it is extremely profound, without detailed training guidelines from low to high, even if you see it, you can't practice at all, you can only stare at it.

This black square stele "Stele of the Vault of Heaven" is obviously like a "black stone pillar". Everyone knows that this is a treasure against the sky, but no one can use it.

And Wang Yi has been approaching the black square monument while exploring this space over the years~www.mtlnovel.com~Huh? "

Suddenly, Wang Yi's eyes brightened and he saw a cave. The earth has gone through many years. Gully caves are also common, but this time is different. Wang Yi saw the entrance of the cave filled with radiance.

"Wow!" Wang Yi immediately controlled the black iron tower that had been deliberately turned into tiny dust particles to fly towards that place.

"Boom!" Along the way, meteors continued to crash down at a terrifying speed, shaking the sky and the earth. Occasionally someone hit the Tongtian Tower and directly pressed the Tongtian Tower underground. At this time, it would take a lot of effort to get out.

It took more than two months for Wang Yi to reach the entrance of the cave and flew in.

At a depth of several million kilometers, I saw a beautiful spar lying there, shining brightly, and the light illuminates the whole cave in colorful and colorful.

"It's the tears of the sky." Wang Yi smiled. This time it was not a trip in vain.

[Chapter 649: Life gene analysis map \(level 2\)](#)

The spar was just the size of a fist and was colorful, with a teardrop-shaped liquid flowing inside, exuding beautiful brilliance.

Wang Yi was also lucky to find a piece of "Tears of the Sky" so quickly.

You must know that this thing is extremely rare, bred inside the star rock, and it falls with endless falling meteors. There may be only one of the countless meteors.

The astral rocks are also extremely hard and cannot be detected at all.

Even if it falls, the astral rock is not broken, and wanting to find it is a foolish dream.

Occasionally, a star rock breaks, and the tears of the sky inside can be found.

Of course, it is more likely to be buried deep underground by thick astral rocks.

So if you want to find one, you have to be lucky.

Wang Yi had read the records left by Mo Ji and knew that this kind of treasure was not easy to obtain.

Not as good as the 3 that I got when I signed in when I first came here.

In other words, Wang Yi has 4 tears of the sky on his body.

Wang Yi is not greedy. There are already four of them. Mo Ji searched for hundreds of epochs, and he worked tirelessly to smash countless stars and rocks. It took a lot of effort to find only seven or eight tears in the sky.

Each tear of the sky is at least as valuable as a top treasure.*novelusb.com*

After that, Wang Yi continued to fly towards the towering black square monument.

The entire eternal sky is shrouded by the sea of stars, but the black square stele is not above the head, but a huge hollow, pitch black, like an abyss.

There is the most dangerous place in the eternal sky, even the strongest in the universe dare not trespass.

There were falling meteors and rumblings in other places, but there were none around the black square stele, and it was empty.

The spatial fluctuations here have also been static and solidified and cannot be teleported.

"Huh!" A black palace flew towards the towering black square monument at low altitude and at high speed.

"According to Senior Mo Ji's description, there should be no danger in this area, but you shouldn't be careless." Wang Yi raised his head and looked at the dark, bottomless sky with a hint of palpitations.

Mo Ji's warning... You must never get close to the black sky, even if you fly at high altitude.

Otherwise, a catastrophe may occur.

Wang Yi naturally followed goodness and didn't have any thoughts of death.

It took two years to fly safely to the black square stele, and it was close. I feel the huge black square stele even more. At a glance, it is like looking at the black starry sky, without seeing the head.

Countless secret patterns form a picture of various life forms, just at a glance, at least there are hundreds of millions of them, and they are still changing. Wang Yi just watched it for a while, and felt a little dizzy in his soul, and he couldn't help but feel frightened.

He is already the Lord of the universe, and his will is the strongest in the universe, but he can't even look at this secret pattern for a while, which is really incredible.

"What the **** is this? It doesn't feel like a common law secret pattern, it seems to be related to the evolution of life, and for some reason, there is a sense of familiarity..." Wang Yi frowned.

"Check in first, then speak."

[Ding, congratulations to the host for signing in successfully, and reward the 'Life Gene Analysis Diagram' (second order).]

"An analysis map of life genes?" Wang Yi was startled. Hurry up to receive related messages.

Life gene analysis map (second order):

You need to analyze the life gene to 10081 times before you can learn.

Including 30,000 analytical pictures of 1 to 30,000 times the level of life genes.

All of them are thoroughly comprehended and can reach a level of 30,000 times their divine power.

Wang Yi's eyes burst into light.

"30,000 times the genetic level?" Wang Yi murmured.

Then the corners of his mouth grinned slowly.

"There is nowhere to find if you step through the iron shoes. It takes no effort to get it."

Wang Yi was excited. "I just worried about how to break through the bottleneck of 10081 times the genetic level. As a result, this analytical map came. God helped me."

Wang Yi said that he was confident of reaching one hundred thousand times of divine power, but he was still a little worried, after all, that was nothing.

Who knows the future.

And now that there is this life gene analysis map, the speed of taking the divine power route will undoubtedly be greatly accelerated, adding some confidence.

It's like a math problem with no rules of operation. It is undoubtedly very difficult for you to study the rules and find out the answer.

With this life gene analysis map, it is equivalent to obtaining the analysis rules before 30,000 times the genetic level. Then, as long as you understand this rule, you can naturally increase the divine body to 30,000 times, which is undoubtedly much less difficult.

"It's only Tier 2? Is there Tier 3? Tier 4? Or a life gene analysis diagram that directly resolves to one hundred thousand times the power?" Wang Yi's heart was surging.

"Unfortunately, it's only Tier 2..." Wang Yi shook his head. "But it's also very precious."

The path of divine power to become a true **** is inherently difficult. The ancient civilization's analysis of life... is top secret!

Like Wang Yi Youhai's avatar has the secret method of "creation" endowed by the primitive universe, the exploration of some powerful beings is also vague, such as the blind touching the elephant.

The preciousness of this series of endless and detailed life analysis pictures can be imagined.

Even in ancient civilizations, they are the core secrets of a single power.

Of course... only if you understand it, you can master it.

I don't understand, no matter how much I read, I can't grasp it, and it's useless. So this set of life maps is only an aid... But this aid is definitely not spread by the major forces of ancient civilization.

Wang Yi stood under the towering and endless black square stele with his head up.

"This life gene analysis diagram is related to this black square stele."

"No wonder I feel a little familiar. The above secret pattern pictures are not understood by the strongest in the universe. It should be a change in the genetic map of life. There are no strong people in the universe that follow the path of divine power, and few have creative talents and secret methods. It's strange to study the genes of life if you can understand ~www.mtlnovel.com~ But to me, it is more precious than any peerless secret method." Wang Yi was extremely excited.

This cosmic ark belongs to the ancient civilization of "Wu", which is even more ancient and powerful than the kingdom of Jin. Even if the Donghe River is broken, it is only a member of this cosmic ark.

Generally speaking, the inheritance of the "State of Wu" should surpass that of the "State of Jin" and the Duandong River.

Even the "God King of Jin" can leave many pictures of life in the "World of Jin", allowing Luo Feng, who entered Wuqilou to accept the test of inheritance, to break through the perfect bottleneck of ten thousand times, and break through to the second stage '60 thousand times the life gene in one fell swoop 'level!

The camel of "Wu State" is bigger than a horse. The black square stele left here has a mysterious life map. It is also normal for Wang Yi to sign in to the second-order life gene analysis map that reaches 30,000 times the divine body. .

"It's a pity, it's only a second-order. If it's a third-order or fourth-order, I don't know what the concept is." Wang Yi was very sorry, and then laughed.

People are always greedy, and it seems that he can't avoid being vulgar.

[Chapter 650: Divine body breakthrough!](#)

The time for the cultivation space inside the Tongtian Pagoda has been accelerated tens of thousands of times.

In front of Wang Yi, there are more than 30,000 stone tablets, which are arranged in a circle around him. Each stone tablet has an extremely complicated picture.

Wang Yi watched the first picture intently, and found that if the whole picture was combined, it turned out to be an extremely complicated pattern, and those patterns were raised and recessed, forming a three-dimensional secret pattern!

"The first picture is actually very simple, equivalent to an ordinary life that is twice the level of life genes." Wang Yi relied on the endless sea to display his talent and secret method "creation" and studied the structure of life many times, making his divine body perfect. The limit bottleneck can be seen at a glance, this is the most detailed structure of a life.

The second picture, the third picture... more and more complicated. Wang Yi looked more and more devoted.

It wasn't until 10081 pictures that Wang Yi stopped, let out a sigh of relief, his eyes brightened.

Although he has resolved the 10081 times genetic level himself, seeing the detailed structure of the system from the shallower to the deeper, it is still an eye-opener and a lot of insights.

There is a feeling that a frog at the bottom of a well suddenly jumped out to see the vast world.

Mosai suddenly started!

It turned out to be such a general feeling.

This is also the long years of Wang Yi's research, and his accumulation is profound. If he doesn't understand it, he won't remember it no matter how much he reads it. However, Wang Yi has already achieved something in this respect, and Wang Yi's research has even reached the level of 10081 'three-dimensional images of life'.

Wang Yi didn't waste much time from the 1st to 10081 pictures, but from the 10082th picture, Wang Yi slowed down.

Wang Yi frowned, sometimes closed his eyes, sometimes opened, immersed himself in, and even temporarily gave up studying other secret methods and the secret method of volition.

Primitive universe.

Wang Yi's kingdom of God, the endless secluded sea is still slowly expanding.

There is a vacuum area in the deep center of the endless secluded sea with a diameter of about tens of billions of kilometers. There is no drop of secluded sea water entering here, just like a huge bubble in the center of the entire endless secluded sea, but in this vacuum area, it is A large number of items are suspended. Various metals, minerals, soil, liquids...

Hundreds of millions of metals! Hundreds of millions of special energy bodies! Hundreds of millions of liquids! Hundreds of millions of plants! Everything! Even all living lives!

"The secret of talent-creation!"

Wang Yi once again used the secret of talent.

Suddenly in this vacuum area inside the endless secluded sea, everyone fell into a peculiar realm. This peculiar realm cannot be obtained by cultivation. It is purely a realm carried by nature through the use of talent and secret methods to "create". In this peculiar realm Inside, he will quickly analyze all matter in the domain, and want to analyze the origin of its life.

"With the help of the life gene analysis map this time, I will definitely be able to break through the bottleneck." Wang Yi looks forward to it very much.

I was stuck at the bottleneck on the divine power route before.

But now Wang Yi has faintly found a direction for a breakthrough, naturally excited.

time flies.

When the endless secluded sea was analyzed, Wang Yi, who was hiding in the 'cultivation space' and kept tens of thousands of times faster, was also constantly trying to recombine the structure of the divine body in the Universe Ship's Eternal Sky Tower.

"Divine power, decompose." Wang Yi's heart moved.

Wow~~~ Suddenly, one of Wang Yi's hands was broken down into a large amount of divine power and suspended around him.

"Life, reorganization!"

The life composition within the divine power was immediately artificially controlled and transformed by Wang Yi, just like genetic modification! It's just that Wang Yi's is obviously higher, he has already made himself break through the boundaries by transforming the most basic structure! Once successful, you can directly become a powerful true god.

Bang!

With a bang, the divine power was once again condensed and restored to the original life structure.

The previous perfect gene is a very perfect and stable life structure. It is difficult to break through and transcend.

fail!

Reorganization!

fail!

Reorganization!

With direction and guidance, you can keep trying in the right direction. The efficiency is actually very high, depending on whether you can do it.

All roads lead to the same destination. The origin of life is also one of the origins of the evolution of the universe, and it also contains the ultimate mystery.

The advancement of this divine power route... is also of great benefit to Wang Yi's secret method creation and so on.

He vaguely sensed that his perception of staying at the fifth level of the Tongtian Tower had also begun to improve.

However, all his attention now is still on analyzing the genes of life.

As time passed, there was a tens of thousands of times acceleration in the cultivation space, and 22 years passed in a blink of an eye.

"Almost!"

"Quick! I feel like it's just a layer short of film! You can succeed!"

Wang Yi, who devoted himself wholeheartedly, began to get excited.

"Life, reorganization!"

"Chichi..." Wang Yi's right hand turned into a majestic divine power. The divine power was rapidly changing internally, and the most fundamental internal structure was changing.

"It's stable!" Wang Yi was overjoyed. "Divine power level..."

10082 times! Wang Yi could sense it a little bit.

"Successful!" Wang Yi smiled slightly, "Break through the perfect genetic bottleneck!"

He sighed in his heart that he had spent hundreds of millions of years in the cultivation space without breaking through the perfect genetic level, but with this genetic analysis chart, he succeeded in 22 years.

Of course, Wang Yi's work for hundreds of millions of years is also due to Wang Yi's research, but it can also be seen that the assistive role of the analysis map of life genes can be seen.

Without it, Wang Yi might not be able to make a breakthrough after spending hundreds of millions of years.

And Wang Yi didn't know that when he was cultivating this life map, certain characteristics of the nine calamities on his body were also being erased.

Even if the guest on the mountain saw him, he didn't know that he had practiced the Nine Tribulations.

In terms of life genes, he began to embark on the path of another ancient civilization.

However, this is just the beginning. Maybe he will get more opportunities in the future, and he will become a four-dimension?

"Go on!" Wang Yi was ambitious.

10081 times the genetic level to 10082 times is the bottleneck, it took 22 years, but other pictures are very fast.

It only took more than a thousand years for the cultivation space, and Wang Yi could understand all 29,999 drawings.

His divine body level has also increased to 29,999 times!

However, the 30,000th time is stuck again!

However, Wang Yi was not in a hurry, and patiently studied and enlightened.

There are creative talents and secret methods to assist, there is room for cultivation to accelerate time, and there is an analysis map of life genes in front of them.

Wang Yi is confident!

But with this card, more than a thousand years have passed by the outside world.

It has been nearly seven thousand years since Wang Yi entered the universe.

The sea of law, the space for practice, Wang Yi sits in front of a stone monument~www.mtlInovel.com~ to observe and think.

His divine body aura has been faintly stronger than a thousand years ago. The level of life genes has soared to 29,999 times, and the quality has increased, but the body of the gods has actually decreased. Wang Yi also used the newly exchanged Xeon Xeon to supplement the gods, perhaps the panel comes with a gift, there are a large number of masterless gods to make the king Yi absorbed, so his body shape was the same as before.

and! Because of the power of the divine body, it can carry a more powerful divine kingdom! The Kingdom of God only needs to expand again...then it will immediately evolve into a small universe.

In other words... as long as Wang Yi is willing, he can immediately transform the kingdom of God into a small universe. Then the **** body will get a hundredfold leap!

Enter the true **** stage!

It's just... after all, there are several levels of the divine body in the divine power route, and it is only 30,000 times as the first level, and the height of the divine body can skyrocket tenfold. It's too early.

"Divine power, reorganization!"

Wang Yi's eyes shone brightly.

Wow!
