

## A God 651

### [Chapter 651: Shintai 30,000 times!](#)

boom!

The divine body instantly decomposed, followed by the drastic changes of every divine power, and then suddenly and condensed. At the same time, a vast river of unowned divine power appeared around, surging and condensed, and a majestic divine body continued to grow...

"30,000 times the divine body! It succeeded!" Wang Yi smiled slightly as he felt the change of the divine body.

In the first stage of the divine body, the height of the divine body can skyrocket ten times (of course, enough divine power), with the absorption of a large amount of divine power... Wang Yi quickly soared to a height of one million kilometers!

In Qingfeng Realm and Liu Zhongshan, the clones of the Void Zerg Race and the Giant Flame Star Beast clones were also transformed.

It's just that they are not like Wang Yi's human deity, who has the original type of supreme treasure in the body, so although the divine power has been increased to 30,000 times, the size of the divine body has shrunk greatly.

Under normal circumstances, after the divine body improves again, the Void Zerg clone is a million kilometers high, while the Yanxing Giant Beast is tens of millions of kilometers high.

"Boom... boom..."

In the kingdom of the Primitive Universe God, the endless secluded sea is undergoing earth-shattering changes, constantly compressing the divine power, reaching a higher level.

Although the size of the divine body has shrunk, the level of the divine body has increased, and as it continues to absorb divine power, the divine body will continue to grow larger, but this is already a long process for the endless sea.

A new avatar of Youhai, one hundred thousand kilometers high, appeared in the kingdom of God, disbanded in an uproar, and merged into the sea. In the next moment, a new avatar of Youhai with a height of one million kilometers and a \*\*\*\* body strength of 30,000 times the original condensed again.

"Hahaha... After so many years of painstaking research, I finally reached 30,000 times the level of the \*\*\*\* body gene!" Wang Yi let out a cheerful laugh.

As Wang Yi's divine body reached 30,000 times the genetic level, the 30,000 steles in front of him felt like "Boom Boom" shattered at the same time and ceased to exist.

Wang Yi was a little regretful. Originally, he wanted to keep these 30,000 steles. Whether it was for Luo Feng or for other powerful people in the future human race to follow the path of divine power, it was a good guide.

Pity.

A black palace flew out from the boundary of the eternal sky, and Wang Yi, who was sitting in the palace drinking tea, was also thinking.

"I have been in Cosmic Sea for so many years, and I have gained a lot. I should go back."

"The two divine body clones will also come back to replenish their divine power, and update their equipment by the way."

"Moreover, I feel that the bottleneck of the fifth secret pattern of Tongtian Tower has begun to loosen." A smile appeared on Wang Yi's face.

"If I enter the sixth level, it means that my law perception has also reached the standard of the strongest in the universe, and I should be able to create the sixth-order secret method. It is possible to understand the higher-level secret patterns of other Xeon treasures and exert more power, so I can have the top 7th rank combat power."

The higher the number of Secret Weaves to master the Xeon Arc, the stronger the power that can be exerted.

The normal Xeon Supreme Treasure is usually the third level-Tier 6 top combat power! The fourth layer of secret pattern-the top combat power of Tier 7! Fifth Secret Rune-Tier 8 top combat power! The sixth Secret Rune-Tier 9 top combat power! The seventh secret pattern-the top tenth rank combat power!

Like today's giant axe, it was the top of the ninth order, and the original ancestor was the top of the tenth order.

And some Xeons do not necessarily have the seventh appearance.

There are two foundations for stimulating higher-level secret patterns, law perception and divine body strength.

If you use a metaphor, Xeon Zhibao is a machine, law perception is the operating system, and the strength of the divine body is energy.

If you want the machine's performance to run completely, neither of them can be weak.

Like the Lord of the Universe, he can only spur the third level of secret patterns because the foundation of law perception is too weak.

Before they become true gods, they may only be the masters of the fifth-order top universe. But after becoming a true god, the level of the secret technique will soon reach the top of the sixth, seventh, and even eighth!

With the help of Xeon Supreme, they can break out higher combat power.

Even if it is the Great Axe and God Eye God, relying on Xeon Supreme Treasure, the ninth-tier top combat power exploded, indicating that the secret method they could create at the time was only the eighth-tier top level, which is now the top of the universe sea god. The level is reached, the true \*\*\*\* almost can only create the seventh-order secret method.

And Wang Yi, if he can perceive the sixth level of the Tongtian Tower, it means that he can perceive the level of the strongest in the universe by law, and it is not impossible to rely on the secret pattern flow to create the secret method of the strongest in the universe.

The basic insight is enough, to study the Xeon Supreme Secret Weave, naturally, the result will be twice the result with half the effort.

It can be said that if you really understand the sixth level of the sky tower, you can naturally create the sixth-order top secret method!

Relying on the deep law foundation to study the Xeon Supreme Treasure, and to understand the fourth secret pattern, you can have the top combat power of Tier 7! Can fight against many of the strongest in the universe.

At that point, coupled with the many treasures on his body, in the universe, apart from the three Jedi and the world beasts, Wang Yi has nothing to fear.

Time flies, because he already has path-finding experience and has more detailed maps, this time it only took Wang Yi more than a thousand years to return to the outer spacecraft.

A dark red armor figure appeared outside the magnificent and broken space ship.

The three pairs of gray wings spread out behind him, and the aura is more powerful than any other master of the universe.

Today, Wang Yi, who is 30,000 times the body of God, can indeed stand out from the crowd among the Lords of the Universe.

The true combat power in the Lord of the Universe is even more unmatched, and it is absolutely sweeping.

"It's a pity that I have practiced intermittently for hundreds of epochs in the practice space over the years. It's a little bit close to breaking through to the sixth level." Wang Yi was a little regretful, but he was still in a good mood.

This time, I have been in the universe for 8,000 years, and the harvest has been amazing.

Not to mention other gains, the more important thing is to increase the number of divine wings to three pairs, get silver tokens, practice secret methods of will, kill one of the strongest in the universe, get a large number of treasure points, divine body breaks 30,000 times, and look at the sixth level. The secret method will also be created... At that time, his own combat power will also increase by leaps and bounds, and there will be a leap.

Wang Yi looked up, and at the same time, in another direction, the clones of the Void Zerg clan and the Yanxing Giant Beast clone appeared at the same time.

Their location in Qingfeng Realm and Liuzhong Mountain is not as deep as the human deity, and naturally they come out faster, waiting for the deity's return from outside the cosmic ark early.

Wang Yi looked at the two avatars whose divine bodies were less than half of the original, and shook their heads, asking them to replenish the divine bodies to their peak state from the original Xeon Treasure.

At the time of redemption, the original Xeon Zhibao has the masterless power provided by a large number of panels. Wang Yi estimates that ~www.mtlnovel.com~ feels that it is not a problem to completely restore a million current selves, but so much power, but Before filling the Xeon Supreme Treasures, Wang Yi began to think about whether it is possible to put the whole endless sea in and carry it around.

Wang Yi has already tested that the way to release the supernatural power of the original Xeon Xeon is similar to that of the domain Xeon. They are all released in an instant (it is estimated that only the original Xeon can do it), rather than through a certain channel. , If the endless sea of secluded can be put in, it would be against the sky.

When the endless secluded sea expands to a giant light-year, if it is easy to carry and move, it will be released in an instant. If the vast ocean of divine power directly covers the range of tens of light-years, it will be terrible, and it is simply the strongest auxiliary method.

Even the strongest person in the universe has to be desperate to face such a huge divine body, right?

Of course, this is just an idea. Whether it can be done or not has to wait for the endless sea to be far from reaching its limit.

"brush!"

Wang Yi teleported for a long distance and hurried towards the original universe.

gone back.

#### [Chapter 652: Level 6 Secret Method](#)

soon.

Wang Yi returned to the original universe, and when he returned to the original universe, the highest level of the human race naturally knew about it.

The human territory of the primitive universe, where the Primordial Secret Realm Chaos City Lord is located, the Qianbao River is vast, scattered light-years away.

The Chaos City Lord, wearing a golden robe, has cyan scales on his head, his face resembles a human being, and his eyes are as peaceful as an endless starry sky. Even if he stands there, he has a mighty power, as if the time and space around him could burst and shatter at any time. , This is a strong offensive breath.

In front of him stood a young man with a red robe and black hair hanging down. His appearance was as dazzling as the sun, and the natural smile on his face made the world dim.

Just standing there was like the center of the universe, like the eternal and immortal sun, even the Lord of Chaos couldn't hide his existence.

The Lord of Chaos City looked at Wang Yi and said with a smile: "This time you are in the cosmic sea, you have gained a lot, right?"

Chaos City Lord has a good relationship with Wang Yi, second only to Teacher Star Prison among the higher human beings.

Wang Yi also respects the Lord of Chaos City.

"This time the harvest is indeed good." Wang Yi nodded slightly.

"Haha, you killed the Eight-Eyed Demon God, which is really shocking." City Lord Chaos sighed. "The treasures left by the small universe that he disintegrated after the fall of the eight-eyed demon \*\*\*\* were also scraped away by us. It is also of great help to us, this time thanks to you."

"It was only by using some means to kill the Eight-eyed Demon God with the help of the God of Erosion Glacier." Wang Yi shook his head. "In terms of real combat power, I don't have the ability to kill the Eight Eyed Demon God."

"If you can kill the strongest person in the universe, who dares to say that you have no abilities."

Wang Yi didn't elaborate on the details, nor did City Lord Chaos ask.

Every strong man has his own secret, and it is normal not to tell others.

The two sides walked side by side in the long corridor of the palace.

"Let's say, this time you come here to see me in person as soon as you come back, what's the matter?" Chaos City Lord asked.

"I got a treasure when I was in the cosmic sea. I thought it might be useful to you, the city lord, and I sent it." Wang Yi stretched out his hand, and there were several dreamlike crystals floating in his hand, and there was a teardrop in the crystal. The liquid is flowing, beautiful.

"What is this?" Chaos City Lord asked curiously, his eyesight was very high, but he couldn't recognize what it was.

"This is the tears of the sky. I learned from the secret records left by the predecessors of Mo Ji that this kind of treasure exists, so I went to Eternal Sky Vault to search for it and got a few by luck." Wang Yi explained: "These items can improve the genes of life and can be raised to the level of perfect genes."

"This thing is useless to me, please accept it from the city lord."

The Lord of Chaos had taken a lot of attention to him at the beginning, and Wang Yi also wanted to return it.

As for my teacher, he is far from reaching the tens of thousands of times genetic level, and there will still be opportunities in the future, not worse than what he is now.

"What?" City Lord Chaos was a little moved.

There are actually many treasures in the universe that can raise the level of life genes, such as the Blood Luo Jing, which the Venerable can use. But it's actually relatively low-end.

At the level of City Lord Chaos, the life gene level is extremely close to 10081 times, perhaps 10,000 times, or maybe several times worse, but because of the lack of conditions, life and death cannot reach the perfect gene level.

In fact, it has little effect on combat power, but it does a lot to help the size of the divine body.

The difference in volume between the 10,000-kilometer-high God body and the 100,000-kilometer-high God body is more than a thousand times.

Some masters of the universe may be one level lower than you, but with their huge divine bodies, grinding can kill you.

City Lord Chaos was also not hypocritical, he knew that since Wang Yi sent it here specially, it was also a kind of heart.

"Then I will accept it." City Lord Chaos said with satisfaction. This thing really helped him. Of course, Wang Yi didn't need it either, otherwise he wouldn't accept it easily.

"What are your plans to come back this time?" Chaos City Lord asked again.

It is impossible for the Lord of the Universe to truly be idle. Like the Lord of Chaos City, the three major gods, the strongest gods roam the universe, one in Chaos City and the other in the primitive secret realm.

Like Wang Yi, there are several clones, but there is no special arrangement, just because he is the new master of the universe.

"This time I plan to rest in the primitive universe for a while, and then enter the universe again." Wang Yi said.

"Be careful." City Lord Chaos didn't plan to interfere with Wang Yi's thoughts, but he reminded him. "It seems that some forces in the primitive universe have begun to notice the existence of your palace. Perhaps some people have begun to suspect that the disappearance of the Tongtian Tower is related to you. Remember not to expose it lightly."

How much is the Xeon Supreme Palace?

The Tongtian Tower suddenly disappeared ten thousand years ago.

It happened that the Xeon Supreme Treasure Palace appeared in the hands of the Lord of Chaotic Source, and the process of the Lord of Chaotic Source's rise was full of mystery, and it was too fast.

As long as you have a little heart, you will doubt it.

It's just suspicion now, they have no evidence.

The Tongtian Pagoda is very important and the temptation is too strong. The City Lord of Chaos is also worried that Wang Yi will be exposed and will cause big trouble.

"I understand." Wang Yi nodded.

Suspect?

so what.

His strength will soon be able to break through again, and by then he will be able to match the strongest in the universe, even if the strongest in the entire primitive universe besieged him, he will not be afraid.

Even if they really want to do something, it's too late.

But it's better to keep a low profile for now.

Returning to the primitive universe and reuniting with relatives and friends, Wang Yi began to practice meditation again.

Luo Feng has also contacted him, but he still can't contact him. It is estimated that he is still in the "Beast God Realm", which is the small universe of the ancestor of the giant star beast, even the virtual universe can't cover it. Belongs to another territory of the strongest in the universe.

But according to time, Luo Feng should also come out.

At that time, Luo Feng, the master of the immortal self-created universe, had the ultimate secret method, and his strength would be even greater.

When he breaks through to the venerable, he will truly have the power of the master of the universe, plus the Star Tower and Jie Jia, some of the masters of the universe are not his opponents.

"Well, at that time Luo Feng will become a member of the highest level of mankind. I will compensate him." Wang Yi found that Luo Feng was still busy cultivating, so he didn't care about it. With the old fox sitting on the mountain watching, Luo Feng developed Very stable.

He also has to get stronger as soon as possible~[www.mtlnovel.com](http://www.mtlnovel.com)~ can't let Luo Feng catch up.

Tongtian Tower, the sea of laws, the space for practice.

The secret patterns formed by the divine power are dense and dense like silk threads, criss-crossing, forming a series of complex and mysterious patterns.

Any one, on the mysterious level, is even more than the so-called master of the universe's strongest secret method.

Wang Yi observes the secret patterns of the Tongtian Tower, comprehending and practicing.

Perhaps it was a matter of course. In the one-hundred and thirteenth year of returning to the original universe, Wang Yi successfully broke through to the sixth level of the Tongtian Pagoda.

After tens of epochs in the cultivation space, after exhausting his energy, he finally created a secret method of the strongest in the universe.

He named the first move of "Knife Universe" "Newborn", and created the first sixth-order secret method for him.

Since then, Wang Yi has finally taken an important step, officially entering the stratum of the strongest combat power in the universe.

#### [Chapter 653: Luo Feng](#)

Tongtian Pagoda is different from other ordinary Xeon treasures.

The sixth stage of the Tongtian Pagoda is equivalent to the sixth-order apex.

And then.

The seventh level is equivalent to the seventh level.

The eighth layer is equivalent to the seventh-order top.

The ninth level is equivalent to the eighth level.

The tenth level is equivalent to the eighth top.

...

And so on.

According to Wang Yi's estimation, if he could realize the fifteenth level, he would have full confidence in becoming the true \*\*\*\* of the void. Even the fourteenth level (equivalent to the tenth top secret method), there is a chance.

Becoming the Void God is difficult and difficult, and neither is difficult nor difficult. As long as one can create a tenth-level top secret method in the realm, it is enough to step into the Void True God.

The Tongtian Pagoda has a total of forty-nine layers, all of which are thoroughly understood, and can stand on the pinnacle of the origin continent, the most supreme being among the \*\*\*\* kings.

Wang Yi's cheap teacher "Ming" once said that he left him a gift on the top of the Tongtian Pagoda, but he didn't know what it was.

Wang Yi has just cultivated to the sixth level, and the sixth level has not yet been fully understood. He has just created the sixth-order secret method, but the sixth-order top secret method has not been created... He looked at the towering and endlessly tall tower of the sky, and felt that he had a heavy responsibility. And the way is far.

...

Two figures suddenly appeared in the vast starry sky, one was Luo Feng and the other was a mountain guest.

"That's it, then you can move freely." Zuoshanke said.

Luo Feng saluted respectfully. "Thank you teacher."

"Yeah." Zuoshanke looked at this disciple with satisfaction. He was able to spend 180 million years to create the ultimate mystery of the Lord of the Universe with an immortal body. It should be the first one

in the universe. Of course, Zuoshanke combined I don't know that Wang Yi did it during the time of the world lord.

"Work hard and don't slacken." Zuoshanke is full of expectations.

His three disciples, Puti, the eldest disciple, didn't say anything. He was born as a servant. Although he was the Lord of the universe, his qualifications were actually not that good. Zuoshanke doesn't really value him.

Yandi, the second disciple, was the first disciple of the Master of the Universe that he had painstakingly cultivated. Unfortunately, he took the wrong path and finally disappointed him, and he has now given up.

Luo Feng, the third disciple, is now the little disciple he has the deepest hopes for. He has cultivated the Nine Tribulations and recognized the Master Star Tower. Whether it is character, will or understanding, he is satisfied. nourish.

"Yes." Luo Feng also felt the strong expectations of the mountain visitors, and his heart was heavy.

"By the way, you were concentrating on the study of secret methods before, and I didn't tell you." Zuoshanke thought of something, and smiled: "The friend Wang Yi who is in the same line as you on the earth is now one of the sixth-order universes. Lord." He was worried that his apprentice would be proud of his current achievements, and he planned to suppress it. So Wang Yi was moved out.

"The sixth order?" Luo Feng was at a loss, he still didn't know the division of the master of the universe.

When the guest sitting on the mountain told him, Luo Feng understood it, and his heart was shaken.

"The strongest Lord of the Universe? More than Chaos City Lord?" Luo Feng took a deep breath. In his eyes, the Chaos City Lord is already powerful enough, only a little weaker than the strongest in the universe like Zuo Shanke. He did not expect that there are people outside of the human world. The Chaos City Lord is only the fifth-order universe master, as well as the sixth-order. This existence.

Wang Yi is the master of the sixth-order universe?

Has his old hair been grown to this point?

Luo Feng felt the tremendous pressure again.

"Yes, so you still need to keep working hard and you can't lose to that Wang Yi." Zuo Shanke said, "Although you have no problem becoming the Lord of the universe. But that Wang Yi is now recognized as the strongest Lord of the universe in the original universe. Peerless genius, and the next person who is most likely to become the strongest in the universe... Although I said that I want to train you to be the strongest in the universe, this path is difficult and difficult, and it may not be among a thousand masters of the universe. There is one. My training is only part of the help, the most important thing is to rely on yourself."

Zuoshan Keyu said earnestly: "You have to remember that every strongest person in the universe will eventually walk out of his own path."

"Own way?" Luo Feng muttered.

...

Virtual universe.

Wang Yi is watching a live broadcast of a master-level decisive battle in the Giant Axe Fighting Field with his family.

After being in the universe for a long time, relatives are also used to such \*\*\*\* and cruel things.

"The main water world is dead."

"Oh, I came to see her well, but I also squeezed some money."

"Her strength is still good, but it's a pity that she didn't perform well."

Wang Yi's parents and wives are both immortal, but they are immortal piled up with resources. The resources of any person are enough to create a pile of immortality.

Although they didn't have much fighting power, they could still tell the life and death battle of these world masters from the immortal eyes.

There are also a few children, at least they are all immortal warfare, they see these as adults watching children fight. The reason why I came here was to get together with my family. Wang Yi still attaches great importance to his family's feelings. Otherwise, after hundreds of millions of years, the deep feelings will fade with time.

In the exclusive private room of the highest fighting field, two Universe Venerables stand outside, while Wang Yi and his family are chatting together in the private room. Smart Life Bermuda is sitting on his shoulders in the image of a dumpling and holding a peach on his shoulders. NS.

"drop!"

Suddenly, he received an email notification from the virtual universe.

"Well, it's Luo Feng."

A smile appeared on Wang Yi's face.

"He finally came out?"

To be honest, without Luo Feng, I always feel that there is something missing in this world.

"Father, what's the matter?" His two twin daughters, Wang Bao and Wang Bei, asked curiously when they saw their father's face.

Wang Yi glanced at the email and said casually: "It's your Uncle Luo Feng, he's back."

"Luo Feng?" The Wang family's attention was attracted.

"Where did Uncle Luo Feng go before? I haven't heard from him for nearly 20,000 years." Wang Ping, Wang's family son, asked curiously.

He is regarded as the second-generation heir of the royal family ~[www.mtlnovel.com](http://www.mtlnovel.com)~ and has more contact with the high-level human forces. Even if he is only immortal, the venerable is very polite to him.

In addition, his father is the lord of the universe, and he also knows the extremes of the universe. He also knew the hidden secrets about the opening of Primordial Star.

He also knew that because Luo Feng disappeared from the two epochs and did not appear on the Primordial Star, some cosmic lords began to talk coldly.

What if Luo Feng didn't go to Primordial Star, and didn't lend the treasure to others, how about no one's affection.

The yin and yang were strange, and Wang Ping was a little angry when he heard it.

However, Wang Ping knew that the Uncle Luo Feng in his memory was not such a person.

Since he said he would go to Primordial Star, he would definitely go.

Wang Yi said meaningfully: "Are you Uncle Luo Feng, he went to a good place this time, and he will probably make a lot of noise when he comes back this time."

Wang Yi's children looked at each other and were full of curiosity. Their father was the master of the universe. He said that there was a big movement. How big should it be?

#### [Chapter 654: Luo Feng's actions](#)

Luo Feng immediately shut up the Cosmos Venerables who spoke badly about him in private.

On the Primordial Star, Luo Feng descended as a human being and was discovered by a foreign race. In the eyes of the foreign race, Luo Feng belonged to "moving to the treasure house." How could he easily let it go.

As a result, several waves of alien powerhouses who had attacked Luo Feng were all destroyed!

Even the overlords of the universe have fallen two!

It frightened the other Cosmos Venerables who hadn't joined the battlefield.

However, they don't think Luo Feng, who is still immortal, has this kind of combat power.

They are also angry at the shameless cunning of human beings, and helpless.

If it is a cosmic master, a top cosmic master deliberately slaughter a group of powerful people, this will cause public outrage.

But this time they took the initiative to provoke, besieged greedily, and then were slaughtered... Then no one has anything to say.

The news spread extremely fast, but no one of the major forces regarded it as an important matter. In their opinion, it was a group of alien venerables who threw themselves into the trap because of greed, and they could not blame for being killed.

Virtual universe, the highest power center of Hongmeng City... Hongmeng Hall.

"Hahaha...interesting."

"It's quite interesting. I wanted to hunt Na Luofeng, but was killed in the end. The other parties knew nothing about it."

The lord of the human race smiled happily.

Some looked at a handsome, black-haired man in a red robe and asked curiously.

"Hun Yuan, did you arrange this? Without your arrangement, how could the top cosmic overlord be willing to be in Luo Feng's world ring? Tell me, Luo Feng enters Primordial Star, where is his world ring hidden? A universe overlord?"

Wang Yi's black hair draped behind him, drank the wine leisurely, raised his head and smiled, "I didn't arrange for the overlord of the universe to be by Luo Feng's side. Luo Feng killed those alien races entirely by his own ability."

"How is it possible? Luo Feng is immortal. It is very difficult to kill the venerable, let alone the overlord of the universe."

"Yes, if you want to kill those cosmic overlords cleanly, at least you need the strength of the top cosmic overlords. How can Luo Feng do it."

The masters of the universe don't believe it very much.

If immortality can kill the overlord of the universe, it would be too bad.

"I didn't lie to you, do you want to bet?" Wang Yi smiled.

The hall of Hongmeng fell silent.

The masters of the universe looked at each other.

"No? Is it really that Luo Feng did it?"

"This... he is still an immortal god, why should he kill the overlord of the universe?"

"Hunyuan, you are familiar with Luo Feng, do you know something?"

The human masters are all aroused strong curiosity.

The immortal gods have the power of a top cosmic hegemon?

It's incredible when you think about it.

After all, there is a huge gap between immortality and the overlord of the universe. The divine body, the genetic level, the secret method, the treasure, the law perception, the law field...and so on, add together, it is simply an insurmountable gap.

But they also know that there will always be some unreasonable miracles in the universe.

And now Luo Feng seems to have created a miracle?

But when they saw the legendary black-haired man in front of them, their hearts calmed down again.

I feel...it seems impossible to have this precedent.

Wang Yi just laughed without saying a word. Since Luo Feng didn't say it, it is not convenient for him to take the initiative to disclose.

After all, no one likes their secrets being talked about everywhere.

Not to mention that Wang Yi and Luo Feng are close friends.

Let's wait for Luo Feng to speak for himself in the future, and he won't intervene.

The Lord of Wild Jian exclaimed: "If Luo Feng really killed him independently, then he broke through the Lord, wouldn't he have the master of the universe?"

Other hall masters also applauded.

Immortality can have the power of the top cosmic hegemon. Once a breakthrough is made, it is normal to have the power of the cosmic hegemon.

"With Luo Feng's progress rate, it should be fast too. Does the Virtual Universe Company need one more Cosmos Master?" The Master of Qingdong envied.

The virtual universe company has been expanding rapidly recently.

The Lord of the universe appeared one after another.

Star Prison, Eclipse, Chaotic Origin... Now add this Luofeng.

Originally, the Virtual Universe Company already had five universe masters, but now there are nine. I'm about to rush to double digits soon, don't you let other forces be jealous and jealous?

Other forces are not without cosmic hegemonies and cosmic lords, but this breakthrough is not to break through. The virtual universe company's luck is indeed very good. With so many cosmic masters, it is almost half of the top powers of the human race. Now, it is normal for other forces to be jealous.

He muttered silently in his heart, thinking about the possibility of breakthroughs in those universes under his command.

The original star.

Luo Feng had already killed Venerable Tianyang and got his pair of wings. Let "Slaying Wu Yuyi" reach four wings. He was pleasantly surprised to find that the power of the first two pairs of wings alone should be regarded as the top treasure.

It wasn't long before he was happy that he met Lord Van Noble, the top cosmic overlord of the Thorns Alliance who came for the ambiguity stone. And because he has a clone, it is comparable to the three top universe overlords! Extremely powerful!

Fighting broke out soon between the two sides.

But in front of the Luofeng Golden Horn behemoth that created the ultimate secret method of the Lord of the Universe and has the top treasure suit "Beast God Armor", it is still not enough to see!

Was killed and fled in embarrassment.

...

"Um?"

Although Wang Yi is cultivating, he has been paying attention to the dynamics of Luo Feng on the primordial star. He is the lord of the universe, the highest level of mankind, and he can know for the first time what is going on in the universe.

"Luo Feng took the Mirror Stone to the Supreme Palace of Chaos City to identify it?" Wang Yi showed a smile on his face.

However, with his previous remarks, the human race would not easily attack Luo Feng's ambiguity stone for the sake of his face.

The Mirror Stone only represents one of the 36 opportunities to enter the Temple of Qishen, and you may not get the most treasure if you enter. The value is low, but high is just like that. Now the human race is not what it used to be, it is the small universe of the Eight Eyed Demon God. The scraped treasures and Wang Yi's large number of gifts have made all the masters of the human race and the universe very rich ~ [www.mtlnovel.com](http://www.mtlnovel.com)~ The Peak Treasures are all equipped with a complete set, and they don't care much about this Mirror Stone.

Therefore, the lord of the human universe did not even meet, just talked a few words in private, and no high-level resolution was convened, and he assumed that Luo Feng got the result of the ambiguity stone.

To deal with it, it was also the Lord of Chaotic Source to deal with it. Luo Feng and the Lord of Chaotic Source were of the same clan, and they were not easy to intervene.

In addition, they have already received some wind from Wang Yi, knowing that Luo Feng's talent is no less than that of Emperor Yan, and that he will definitely be the master of the human race universe in the future. This makes it even more unnecessary to offend.

At the same time, the overlord of the universe who was killed by Luo Feng has been resurrected, and Luo Feng's true strength has finally been leaked out and spread in the universe, attracting strong attention from all parties in the universe.

Especially the Zerg, Demon, and Machine races that have the greatest grudges against humans, there is a feeling of deja vu oncoming.

They are horrified.

It's not enough for a human chaotic source master, and there is another Luofeng, are you still endless?

#### [Chapter 655: False Demon](#)

With the resurrection of those strong men who were killed, Luo Feng's strength was exposed, his fame was greatly enhanced, and hundreds of millions of races in the universe knew everything, and everyone regarded him as a super existence.

In a vast starry sky, three great thoughts descended, and three towering figures faintly appeared, talking.

"A guy who has entered immortality for only 20,000 years has reached the strength of the top cosmic hegemon!" A beautiful, faintly slim figure surrounded by endless light, just watching its figure is enough to make a cosmic master. The person was drunk. Her voice is endlessly charming, but full of cold killing intent.

"Let you grow up, you will definitely be another Chaotic Origin Master in the future. I am afraid that even the strongest in the universe will be difficult to kill him by then. You must kill him in advance!" A huge elliptical black sphere is suspended in another place. , Also made a low voice.

"Before he becomes the lord of the universe, eradicate it! The matter of the lord of the chaotic source can never be reproduced!" The last figure is surrounded by tens of millions of snake shadows, a huge silver-white snake head lifted up, eyes A cold light emerged, neighing.

The three strongest in the universe gathered here for Luo Feng's affairs.

Because this time the machine race, the monster race, and the zerg race are really anxious.

"But Luo Feng is in the Ancestral God Sect. It is not easy to get rid of him. Wucai Aurora Lake is a big problem. It will also offend the Ancestral God Sect."

The Zerg queen said: "What are your plans?"

"Of course we must get rid of it as soon as possible, but we can't do it ourselves. Machine, you summoned my Yaozu and Zerzu, and I and the Zerzu queen are here, what do you say?" The ancestor of the Yaozu "Dream Tea" looked at the black sphere.

"Our three major ethnic groups don't want to be enemies of the ancestral gods, but...just ask the lone "the strongest in the universe"?" With the lessons learned from the Lord of Chaotic Source, the mechanical father did not dare to delay any longer, immediately Put forward a plan to get rid of Luo Feng.

"You will each give me three top treasures. I am sure to invite one of the strongest people in the lonely universe to do it."

...

Bauhinia Island.

Luo Feng's mansion is a Jiangnan garden style, with small bridges and flowing water, pavilions and pavilions. Luo Feng is sitting at the table of the pavilion, drinking fine wine, and thinking about "The Way of the Beast God".

Luo Feng has already broken through to the Venerable, and returned from the ancient chin secret realm, and obtained the fifth black metal plate, and also inherited the identity of the "Blood Cloud Palace Master".

He is in a good mood.

Not long ago, the Star Tower was taken back from the battlefield outside the territory. Although it caused shocks from all parts of the universe and searched everywhere, no one knew that the Star Tower was on him.

Ancestral mystery, the void outside the colorful Aurora Lake.

I don't know when, a black alien being stood in the void, surrounded by black air currents. The black air current enveloped his body, only a pair of black faint eyes could vaguely see.

"Um?"

Sitting at Luo Feng holding a wine glass thinking about the way of beast gods, he suddenly raised his head to look at the sky, and he vaguely felt something was wrong.

Look up!

Under the colorful Aurora Lake shrouded high in the sky, a figure surrounded by an endless black air current just appeared. Under the air current, I couldn't see clearly at all, just vaguely saw a pair of eyes.

What kind of eyes are that!

Luo Feng shuddered just by seeing it.

not good!

That tremor from the soul... made Luo Feng instantly understand that this kind of powerlessness can only be felt when he encounters the ancestor of the starry sky or the mountain guest.

"He is the strongest in the universe!" Luo Feng understood immediately.

At the same time, the new clone of Wang Yi Youhai, who was sitting cross-legged in the secret room of the castle beside Luofeng Manor, seemed to feel something, and opened his eyes and looked up.

"Netherworld Demon God?" Wang Yi showed a weird smile in his eyes.

"Luo Feng, that's him." The figure surrounded by endless black air currents, that is, the imaginary demon god, this illusion stream has become the greatest existence of the strongest in the universe and glanced indifferently at Luo Feng, who was shocked below, as if looking at it. Only ants.

Top universe overlord? It's not just a bigger ant.

"Kill him and leave. This is the core of the Patriarchal Cult. I can't stay for long."

The imaginary demon must have an idea.

next moment.

Wow!

An invisible attack is coming!

"Dead." Xuzhen Demon God looked down indifferently. Under the attack of his own soul illusion, even the Lord of the universe may not be able to stop it, let alone a top universe overlord.

Killing him will also be able to explain to the mechanical father god.

However!

"What?" Xuzhen Demon God's expression suddenly changed.

Bang! ! ! Bang! ! ! Bang! ! ! Bang! ! ! Bang! ! ! Bang! ! !

A hundred meters above Luofeng, a huge crack suddenly appeared out of thin air!

Wrong, not a crack.

It's the collision of time and space between the two parties!

I saw that the time and space around where the black air current figure stood was completely controlled, and the laws of the universe in that space and time had already receded, and everything was completely controlled by the black air current figure.

The space-time below was also controlled. One above and one below, the two space-times collided 100 meters above Luofeng.

"What?" Luo Feng was also stunned, the two strongest men in the universe?

The imaginary demon is the strongest in the universe, and he subconsciously believes that the one who can stop the imaginary demon is also the strongest in the universe.

"Who is it?" The imaginary demon roared angrily. "Who dares to stop me?"

He is different from Luo Feng. He personally controls the space-time domain and soul attacks, and he can naturally find that it is the Lord of the universe that is blocking him!

Originally, the strongest person in the universe had more control over time and space than the Lord of the universe!

But because of the partiality of the original will of the primitive universe! The strongest person in the universe collides with the Lord of the universe, but loses the ability to speak and follow the law, which causes the strongest person in the universe to control time and space, and sometimes it is not as good as the Lord of the universe!

The strongest in the universe fights against the Lord of the universe and is suppressed in the original universe! And it's a very tough suppression!

It's no wonder that the imaginary devil is so angry that a master of the universe dare to stop him.

And in an alien palace not far away, an alien immortal also raised its head in astonishment~[www.mtnovel.com](http://www.mtnovel.com)~this, this is..."

He is the double-sided ancestral \*\*\*\* of the ancestral sect. After the news of Luo Feng was reported, he immediately received the attention of the ancestral sect. At the same time, he also judged that the mechanical tribe and other peak tribes might send people to the ancestral sect to assassinate Luo Feng!

In order to prevent it from happening! Also in order to show favor to Luo Feng, the future super combat power, to win him... The double-faced ancestor \*\*\*\* did not hesitate to honor him, disguised as an immortal alien, hiding in the palace near Luofeng, guarding Luofeng.

Originally, when the imaginary demon \*\*\*\* appeared, the double-faced ancestor \*\*\*\* thought that he had a chance to make a move, but he didn't expect to kill Cheng Yaojin halfway!

"brush!"

A red figure suddenly appeared under the colorful Aurora Lake of the Ancestral God Sect, facing the imaginary demon god, making an indifferent voice.

"Netherworld Demon God, you want to attack the strong of my human race, have you ever asked me?"

#### [Chapter 656: Wang Yi fights virtual reality](#)

"Wang Yi?" Luo Feng saw the sky and the shadow of the imaginary devil facing each other, his eyes showed strong shock. *n0velUsb.c0m*

He never expected that when the strongest in the universe attacked him, Wang Yi's friend would suddenly appear.

And the double-faced ancestor \*\*\*\* who was hiding in the dark saw that the imaginary devil had been stopped by Wang Yi, and had no plans to show up for the time being, so he watched silently.

"You are a mere master of the universe, even if you have the strongest treasure, you still want to stop me?" Xuzhen Demon shouted: "I want to kill him, you can't keep it!"

The imaginary devil made another move! He knew that as soon as he broke into the Ancestral God Sect, he must have been known by the Ancestral Gods. The Ancestral God, at the core of the Ancestral God Sect, was protected by the colorful Aurora Lake and backed by the origin of the primitive universe. To complete the task.

An invisible soul attack rushed towards Luo Feng again silently.

There is no need to entangle with the Lord of Chaotic Source, killing Luo Feng is the goal of his trip.

"Huh!" Wang Yi snorted indifferently, huh, the endless black waves surging surgingly emerged out of thin air, and merged with the entire universe of time and space around them, turning them into solid barriers.

Soul attack is also the formation of imaginary divine power, and it can't be avoided at all.

boom! boom! boom!

Although time and space are isolated, Luo Feng below can still feel the thrilling battle. He can feel that any trace of power can threaten him. The pride that Luo Feng had originally produced after killing some foreign powerhouses disappeared after seeing this kind of highest level fighting.

"Wang Yi actually reached this level." Luo Feng shook his mind. "Can you actually fight the strongest man in the universe?" Luo Feng slapped his tongue.

The strongest man in the universe, in Luo Feng's view, a great existence on the same level as his teacher, the superpower that truly stands at the pinnacle of the universe, is much more powerful and noble than the Lord of the universe... but so terrifying. Existence was blocked by his good friend Wang Yi.

From the looks of it, Wang Yi seems to be very relaxed, not afraid of the imaginary demon at all.

"Is Wang Yi already here?" Luo Feng looked at the familiar figure, but he felt a little strange.

"Damn it!" Seeing the Lord of the Human Chaotic Source easily blocking his attack, the Void True Demon God's expression became more and more angry. "Human, you are forcing me!" The virtual demon \*\*\*\* uttered a roar, and with his roar, the armor that caused the space tremor suddenly appeared. This is a mysterious armor stained with golden blood, and the armor fits in the virtual demon god. Every inch of his body, as soon as the armor appeared, a dark void of about ten meters appeared around him.

"The most powerful armor of the imaginary devil." Wang Yi's eyes narrowed slightly.

In the Primitive Universe, not every strongest person in the universe has the most powerful treasures, such as the ancestor of the crystal race, the ancestor of the prison family, the ancestor of the monster beast, the founder of the giant axe... all of them do not.

As the strongest alone, Xuzhen Demon God has a strongest armor.

And the ancestors of the gods, but there are two supreme treasures. Colorful Aurora Lake is just one of them.

Wang Yi is now in the "primitive universe", and the four clones can easily display Tier 6 top combat power! There is no fear of the imaginary devil at all!

After all, no matter who it is, the highest attack power that can erupt in the primitive universe is only the top six!

When his mind turned around, Wang Yi also shot.

What stayed here was his new clone of Youhai, which reached 30,000 times the divine body, and was a million kilometers high.

The original universe has restrictions on the strongest in the universe. One is that the power of the universe can only be maintained at ten thousand times the level of the master of the universe. The second is that the attack power limit is the top of the sixth order. The third is that the main penalty for killing the universe. Deprived of the ability to speak and follow the law, the original law of the primitive universe will never retreat!

The most important thing is that once the strongest in the universe kills the Lord of the Universe or the Lord of the Universe, he will be punished by the Origin of the Universe! The stronger the killer, the heavier the punishment.

Coupled with Wang Yi's strength, it is impossible for the Void Demon God to kill him.

The imaginary demon also understood this, so he wanted to bypass Wang Yi and kill Luo Feng, but since Wang Yi appeared here, how could he make him do what he wanted?

"I haven't fought head-on with the strongest guys in the universe." Wang Yi pulled out the saber behind his back, with an excited smile on his face.

Wang Yi and the Great Axe fought each other in the virtual universe, but his current strength alone was torn down.

The giant axe can create the eighth-order secret method, he is only the sixth-order, and the gap is too big.

But under the giant axe, among the human race powerhouses, Wang Yi is already the well-deserved number one.

Even the giant axe shocked Wang Yi's secret method. After discussing it with the original ancestor in private, they agreed that the next most powerful man in the universe was either Wang Yi or Chaos City Lord.

"The universe of swords, born!" Wang Yi showed his sword technique without reservation.

One cut out.

A shadow of the universe appeared behind the light of the knife, as if seeing the unparalleled power of shaping everything at the moment the universe was born at the moment of the Big Bang.

The light of the knife is extremely concentrated, spreading all the way in the direction of the imaginary demon.

"Boom boom..."

The space exploded from inch to inch, like countless firecrackers, and all the surrounding space under the control of the imaginary devil completely collapsed into a stream of particles.

The imaginary demon \*\*\*\* is a little confused.

It is said that the lord of the human chaotic source is the strongest cosmic lord of the primitive universe (previously he was the lord of hell, but Wang Yi rumored that there are two strongest treasures), but the power of this sword is too strong.

The imaginary devil can feel that this knife has fully reached the top power of Tier VI.

Incredible!

"This human!" The imaginary demon \*\*\*\* looked at the war knife in Wang Yi's hand. "Is it the war knife in his hand or the secret technique? No, it's impossible. The Lord of the universe can't create such a terrible secret technique, so it must be the war knife."

There was a hint of shock in the eyes of the imaginary demon god.

"He actually has the Xeon Arc weapon? Doesn't he have three Xeon Arc weapon?"

The imaginary demon feels too outrageous~[www.mtlnovel.com](http://www.mtlnovel.com)~ There are three supreme treasures in the master of the universe. Who will believe it?

The imaginary devil no longer dared to be careless. In the Primitive Universe, he could explode up to Tier 6 top combat power, in terms of strength, it was about the same as the Lord of Chaotic Origin, and he really fought. I don't know who will lose and who will win.

Even if he was suppressed by Wang Yi, he would be ashamed.

The strongest in his universe doesn't want face.

"Boom!" Xuzhen Demon slammed a fist. He was wearing a simple arm armor on his fist. It was obviously one of the parts of the strongest treasure body. The calculation alone made time and space completely distorted, and the flow of time was chaotic. , The space is shattered.

"Peng!!!" The war knife collided with the fist, and the entire space turned into a stream of particles, and the surrounding universe was also shattered.

However, because of the time and space isolation, the outside world was still not aware of it, and the two did not intend to break this isolation. Before no one noticed, the imaginary demon \*\*\*\* and Wang Yi erupted and collided over the core land of the ancestral \*\*\*\* sect.

### [Chapter 657: Retreat](#)

The double-faced ancestor \*\*\*\* who was observing secretly saw the scene of Wang Yi and the Void Demon God fighting head-on in the sky without falling to the wind, and his face also showed shock.

"This Human Chaotic Source is really incredible. In just over 100,000 years, it has such a combat power, which is really terrible. It is indeed a peerless genius, it is really enviable."

Wang Yi's "Knife Universe" is actually based on some of the principles of the ancient superpower Mo Ji's strongest "Soul Knife". But the secret method of the soul becomes the sword method.

After creating the first sword in "Knife Universe", Wang Yi quickly and naturally understood the sixth-order secret method of the successful "Soul Blade".

This is the first time that Wang Yi has happily used the strongest secret technique in reality. The opponent is still the strongest in the universe, and it is suitable for him to sharpen his sword and increase his experience.

"Come again!" Wang Yi's eyes were crazy, and he swung the war knife again. Under the control of massive divine power, he seemed to feel the master's will. The Xeon Supreme War knife was also shaking with excitement, and countless secret patterns appeared on the surface. For a while, the streamer revolved, and the red streamer formed on the secret pattern continued to converge on the tip of the knife, and finally turned into a tiny dazzling star about the size of a small rice grain like a blood.

Star burst! Such as billions of supernovae exploding on the imaginary devil!

The imaginary devil roared, shaking his fist while performing the soul secret technique. In a vain attempt to repel Wang Yi.

"Bang! Bang! Bang!" The entire space turned into a stream of chaotic particles, and the two were fighting in the middle.

A dazzling brilliance and thunderbolt slashed on the imaginary devil, and the fist of the imaginary devil was also heavily blasted on the opposite human.

The two sides flew back again, and no one was injured.

"Damn it! Really \*\*\*\* it!" Xuzhen Demon God was extremely angry.

The combat power of the two sides is almost the same, both are the top attack power of Tier 6, and the material defense and soul defense can be called the limit of surpassing the original universe, no one can do anything!

The imaginary demon felt humiliated, and he was the strongest man in the universe, and he actually let a little guy who had only been practicing for more than a hundred thousand years to a tie, and even fell slightly to a disadvantage.

Wang Yi also sighed in his heart, as he deserves to be the strongest in the universe, this defense is simply abnormal, and the sixth-order top-level attack will not cause any harm to them at all.

If all the knives he had just now fell on any Tier 5 universe master, if the opponent didn't stop it! It is possible to hit them badly! But the imaginary demon \*\*\*\* resisted unscathed, with no trace at all.

"With the strongest armor, even if I can explode with all my strength in the universe, I might not be able to hurt him." Wang Yi once again felt the horror of these strongest men in the universe.

"I'm going to kill you, little guy!" The imaginary demon roared angrily. The black light shrouded in the Xeon Supreme Armor suddenly erupted. The surrounding space instantly cracked. Powerful!

The face of the double-sided ancestor \*\*\*\* below changed, "No, that guy Xuzhen, think..."

Wang Yi was also pushed back by the eruption of the imaginary demon spirit, and frowned, "This guy, is it because he thinks this is the primitive universe, his brain is convulsed?"

"Netherworld Demon God, this is the primitive universe, how dare you mess around!"

The double-sided ancestor \*\*\*\* no longer hides, revealing his figure, and shouting angrily.

And when Luo Feng looked at the imaginary demon \*\*\*\* who had a terrifying aura, he instinctively felt a wave of fear, like an ant facing a tyrannosaurus. "Is this the real strength of the strongest in the universe?"

"Yeah!" The imaginary demon \*\*\*\* is powerful, his eyes are so red, he can't take care of the warning from the double-faced ancestors, staring fiercely at the opposite human being who makes him angry, a human being is also in front of him, how can he bear it? .

The imaginary devil let out a roar, and slammed it directly at Wang Yi with a punch. Today he must have such a bad breath.

However, he hadn't done anything in the original universe for a long time, but he had overlooked something.

Suddenly a golden chain appeared in the void, and the golden chain that emerged from the void was directly tied to the arm of the imaginary demon god, making it impossible to hit the fist of the imaginary demon god.

"No!!!" Xuzhen Demon God was shocked suddenly.

Wang Yi looked on coldly.

The double-sided ancestor also shook his head.

Another aquamarine chain stretched out of the void, directly tied to the other arm of the imaginary demon god, and a water-blue chain also stretched out from the void... I saw a chain born in the void, each one. The chains were silent, but they were heavily bound to the imaginary demon \*\*\*\* with irresistible power.

"Is this one aspect of the limitations of the original universe's operating laws?" Wang Yi looked curiously. At the same time, I was also vigilant, if a single person broke out in the Primordial Universe and exceeded the Tier 6 top attack power, would the Primordial Universe suppress him in this way?

"Damn it!" The Void Demon God roared angrily, but his body began to weaken, weaken, and even weakened to a little weaker than when he first started fighting. At this time, he was bound by chains extending from the void. It gradually faded.

"Humanity, this is the primitive universe, if it's in the universe...you are not my opponent at all!" The imaginary demon looked at Wang Yi who was so busy, and shouted unwillingly.

"But this is the primitive universe!" The double-faced ancestor \*\*\*\* intervened without waiting for Wang Yi to speak, and looked above indifferently. It was obvious that the imaginary demon \*\*\*\* trespassed into the ancestral \*\*\*\* religion, wanted to assassinate its peripheral genius members, and wanted to use the ultimate power beyond the primitive universe. Both made the double-faced ancestor \*\*\*\* very angry, "Virtual Real Demon God, this is the ancestral \*\*\*\* religion, not a place where you can go wild!"

"Huh! Double-sided ancestor god!" Seeing the double-sided ancestor \*\*\*\* appeared, the imaginary demon also knew that today's action had completely failed. He gave Wang Yi a fierce look, remembering this human being.

"Netherworld Demon God." Wang Yi said, "I will tell the giant axe about today's matter...When you arrive at the Universe Sea~[www.mtnovel.com](http://www.mtnovel.com)~ you'd better be careful."n0V\_eLUS&.c0M

The imaginary devil's figure stagnated slightly, but he still sneered without a weak voice: "Although the giant axe is strong, I am not afraid. You should worry about yourself, and it is best not to let me meet you in the universe."

"Little guy." Xuzhen Demon God turned his head and glanced at Luo Feng who was in shock, "Fortunately, you have the Lord of Chaotic Source and the Ancestor God to protect you."

boom! The imaginary demon rose suddenly into the sky, far faster than the speed of light, directly breaking through the obstacles of Wucai Aurora Lake, and disappearing instantly.

At this time, the originally chaotic and shattered universe was completely calm again.

The entire Bauhinia Island has no loss of flowers, plants, and grass. Wucai Aurora Lake is also peacefully suspended high in the sky. Even with the exception of Luo Feng, the other inheritors on Bauhinia Island just feel the space vibration, but don't know what is going on.

Wang Yi watched the virtual \*\*\*\* disappear, then looked at Luo Feng who was still in a daze, and nodded and smiled at the two-sided ancestor \*\*\*\* who was not far away: "I have seen the ancestor god."

"Master of Chaotic Source." The double-sided ancestor \*\*\*\* also smiled.

#### [Chapter 658: My friend is actually a local tyrant?](#)

"Unexpectedly, the three pinnacle races actually invited the strongest in the universe in order to kill me." Luo Feng sighed in the attic.

"Wang Yi, thanks to you this time, otherwise..."

When Luo Feng thought of the previous thrills, he was also a little afraid.

He just also had a conversation with the double-sided ancestor god.

Knowing that the illusion of the imaginary devil is extremely terrible, with the will of the Lord of the universe... at least you must have the top soul treasure to not be afraid of his illusion. This is still the situation where his strength is constrained under the pressure of the universe's origin.

Under the sudden attack, he didn't know whether he could resist the soul illusion of the strongest man in the universe.

If the soul is controlled by the opponent's illusion, it will really be over.

Wang Yi smiled and shook his head. "Even without me, there are ancestor gods secretly protecting you."

He just joins in the fun, and will meet the imaginary devil.

With the double-faced ancestor gods, Luo Feng was still safe in the end.

Of course, his clone is also idle in Primordial Universe, except for cultivation, it's nothing to spare some time to help Luo Feng.

Luo Feng nodded, and then frowned, "Unexpectedly, the Mechanics are so crazy, and the Patriarchs cannot stop their determination to assassinate me."

Wang Yi looked at Luo Feng and said with a smile: "Luo Feng, your current will consciousness should reach the master level of the universe, and your divine body is about nowhere comparable to a unique and special life, right?"

Luo Feng nodded. Although he is a cosmic sage and has a short cultivation time, his will has reached the level of the master of the universe because of his special divine body and constant tempering of his will.

This is also an aspect of his confidence.

But in the face of the universe's strongest illusionist and the most terrifying imaginary devil, this is far from enough!

Wang Yi praised: "You have such a will. The souls of the strongest souls in the universe will kill you. It is as difficult as killing the Lord of the universe. But the imaginary devil can do it. What you lack now is still a treasure in the soul. ."

Luo Feng was startled, and smiled bitterly: "How can it be that easy? The top soul treasures are worth the same as a peak treasure. I am afraid that most of the masters of the universe don't have it."

In fact, Luo Feng has a Star Tower, but he didn't bring it with him when he was attacked before.

The star tower has many functions such as attack, soul, flying palace, and seal. Although it only has the soul function, the entire star tower is in the body...According to Luo Feng's judgment, it should be comparable to the peak soul type treasure. , At least Luo Feng felt that it was totally different.

Luo Feng secretly said that he was careless. After making up his mind, he must put the Star Tower in his body to guard his soul.

With the star tower, no one is afraid!

Of course Wang Yi knew, but he pretended not to understand, and smiled lightly: "I still have some useless treasures. You can see those that are useful to you and use them."

Wang Yi waved his hand, and a light curtain appeared in front of him. It was divided into categories according to the list, and they were all densely packed text and pictures.

Luo Feng looked subconsciously, but the next moment he was completely stunned.

"This, this is..." Luo Feng looked at the large amount of information on the light curtain, and couldn't help but look at Wang Yi, as if looking at some strange animal. "These are all yours?"

"You can think so." Wang Yi maintained an inscrutable expression.

What appears on the list is naturally the pinnacle treasure that can be exchanged.

However, it was only Wang Yi who listed part of the exchange information of the top treasures on the panel, including weapons, armors, souls, palaces, domains, flying, restraints, seals, specials... etc. It can almost be said The all-encompassing. It was enough for Luo Feng to look at him.

"You can choose one of each kind of treasure, and I will give it to you." Wang Yi took a sip of the tea on the table, and said not caring.

Before Wang Yi received more than six million Arcana Points, among them, he exchanged for a Primal Xeon Arcana (1 million was used), and a Bound Xeon Arcana (600,000 was used). This is 1.6 million.

Then they exchanged three Xeon Arcana armors for the clone, using 1.5 million Arcana points.

There are more than 3.3 million treasure points left, and he exchanged two domain-type Xeon treasure points, which adds up to 2.4 million.

Spend money like water.

He didn't use the remaining nearly a million treasure points for the time being.

Even if Luo Feng chooses one of the Peak Treasures, Wang Yi will not feel distressed if he draws some from it.

Looking at Wang Yi's calm attitude, Luo Feng had a toothache.

A strong breath of local tyrant hits his face.

He once again felt what the gap was.

So my friend turned out to be a local tyrant?

He didn't know if Wang Yi really had so many treasures, if so, it would be incredible.

Of course, Luo Feng didn't know. The friend in front of him is a big hanger, what is called "on-site customization".

"Then I really chose it." Luo Feng joked.

When he reached his state of mind, he was very bright, and he knew Wang Yi's temperament. Since Wang Yi was so straightforward and let him choose it, it must be because he didn't need it.

However, his brothers clearly settled the accounts and accepted Wang Yi's gift, and he will definitely pay back in the future.

At present, I still try my best to improve my own strength.

"Don't be polite with me." Wang Yi smiled. No matter how you choose, it's just a few peak treasures. No wonder you can still light up the hair on my body?

Luo Feng set his gaze on the light curtain again, a deep exclamation and some doubts appeared in his heart again.

There are...thousands of treasures listed here alone. Thousands of pinnacle treasures, each of which can make the master of the universe smash the blood, it is normal for one or two to fall.

There are thousands of items here! Among them, there are many treasures of peak palaces, domains, and souls, and their value is even more precious! If it is true, what a fortune is this?

The human race doesn't have so many peak treasures, right?

Luo Feng was full of questions, but looking at Wang Yi's smile, he knew that this friend would not take the initiative to speak out.

According to Wang Yi, Luo Feng really chose one for each type of Peak Treasure. The weapon even chose melee and long-range, which was equivalent to two pieces...Even if he was temporarily useless, he could still use it in exchange for what he needed.

He was really not at all polite.

Watching this scene, Wang Yi nodded slightly to help Luo Feng become stronger, which is also good for the earth and mankind.

He can't carry everything alone. UU reading [www.uukanshu.com](http://www.uukanshu.com)

The earth's sky needs more powerful people to support it.

It will take too long for the earth elites such as Thunder and Hong to really grow up, and currently they can only rely on him and Luo Feng.

In fact, Wang Yi didn't have much benevolence towards ordinary people. After all, he had lived too long. After countless killings, his heart had become cold without knowing it, and his views were different from

ordinary people. The reason for doing so many times is that I am a "earthman", "human", and "repaying the ethnic group".

Very few people are truly selfless and dedicated.

He also didn't intend to turn himself into a saint. At his level, only his own heart can be restrained. Even if the entire universe is hostile to him, it can't cause a trace of ripples in his heart.

Compared with Luo Feng, he is actually more selfish and indifferent.

Of course, compared with many evil and crazy powerhouses who slaughtered blood sacrifices, Wang Yi was already pretty good. At least he will take care of the weak and small in the ethnic group, as well as some compassion.

#### [Chapter 659: Good news from the Lord of Chaos](#)

Wang Yi and Luo Feng were chatting in the attic. When Wang Yi saw Luo Feng's uneasy look, he smiled and said, "Luo Feng, you have now broken through to the venerable. You should have the strength of the Lord of the Universe, right?"

Luo Feng did not deny it. In front of this old friend, there is no need to hide his strength, anyway, he will know it soon.

"This time the imaginary devil is dealing with you, you should also know how serious the zerg, the machine, and the monsters are to kill you." Wang Yi continued, "Of course, how noble is the strongest man in the universe. It is certainly not low. Those three races may not continue to invite the strongest in other universes, and those with the strongest in the universe must also consider the consequences of offending us, especially the giant axe. It is worth considering whether it is worthwhile... so the most about the universe The strong, you don't have to worry too much. Of course, don't be negligent and relax your vigilance."

Wang Yi said meaningfully: "You will not become the lord of the universe in one day. They will definitely not give up in order to kill you, the future threat. They will find ways to deal with you by any means, twice if it fails once, and three times if it fails twice... It will even attack the people around you."

Luo Feng was shocked, yeah, the three clans were forced to be anxious, and he would definitely be even more crazy. He was not afraid, but what about the teacher, friend, Luo family beside him?

The struggle between ethnic forces is crazy, and there is no bottom line at all.

Only a thousand days are a thief, there is no thousand days to guard against a thief.

Passive defense, one hundred secrets are lost after all, it is better to take the initiative to attack and take the initiative in your own hands.

Luo Feng realized it.

Wang Yi also smiled when he saw Luo Feng sinking into thinking with a fierce look in his eyes. He believed that Luo Feng had made the right choice.

"Wang Yi, I understand, I know what to do." Luo Feng's eyes were cold and murderous.

"Yeah." Wang Yi nodded with satisfaction, and then said: "You now have the master of the universe, and I will propose to the Lord of Chaos, so that you can have the authority of the master in advance in the virtual universe Hongmeng City. Of course, The status of the master of the universe of the race can only be obtained when you truly show your strength and be recognized by the masters of all human universes. I believe that day will not be too far."

Before Luo Feng was the authority of the middle sage of the universe. Now it is the overlord authority of the Seven-Star Universe.

Wang Yi wanted to raise his authority to the level of the Lord of the Hongmeng Hall. In fact, it wouldn't be too difficult. As long as he goes to guarantee, Chaos City Lord agrees.

Luo Feng was a little surprised, but this was good for him, and it was not costly. He naturally would not object, and nodded gratefully to Wang Yi. All the way, this friend did help him a lot.

"Huh?" Wang Yi frowned slightly, because an important email was sent to him through the virtual universe.

In the virtual universe, he immediately clicked on the email.

At first glance, Wang Yi, who was sitting in the pavilion with Luo Feng in reality, suddenly stood up, showing a shocked expression: "Chaos City Lord, has he broken through to become the strongest?"

"What's the matter?" Luo Feng was also surprised when he saw Wang Yi's reaction.

"Good thing, great thing." Wang Yi glanced at Luo Feng, his heart filled with excitement and joy.

Now that the Chaos City Lord has broken through, it is estimated that only the Lord of the highest level of the universe knows, not even the Lord of the universe knows, obviously the human race wants to keep it secret.

"Well, that's all for today."

"I left you an email in the virtual universe mailbox. You'd better take a look, it may be useful to you." Wang Yi is about to leave, and Chaos City Lord actually broke through to the strongest in the universe at this time. It is really beyond him. Unexpected.

Luo Feng also stood up and said, "Don't sit more?"

"No, I won't delay your business." Wang Yi smiled and turned to leave.

He left a message about Cosmic Ocean in the email, which mentioned the matter of Wing Space. As long as Luo Feng checked it intentionally, he would definitely find something.

This is regarded as a gift he left to Luo Feng.

When Luo Feng watched Wang Yi walk out of the manor and disappeared in a blink of an eye, he turned and walked back to the depths of his manor, preparing to return to the kingdom of God to get the Star Tower back, and thinking about what to do next.

...

Virtual universe, the top of Thunder Island.

A feast of celebration is underway, and everyone is happy.

This is a great event for the human race, and it represents that the human race has one more ultimate force. It represents that the position of the human race in the primitive universe is more consolidated, how can it not be ecstatic.

As soon as Wang Yi appeared, he saw that all the peak combat power of mankind had gathered here, including the retreat Palace Master, who had come over, and everyone looked happy.

What a big deal to become the strongest in the universe!

In today's primitive universe, as long as a tribe can produce the strongest in the universe, it means that this tribe can become a "peak tribe"!

"Haha, happy, I am so happy today. Before the Primitive Universe, only the Monster Race had the two strongest men in the universe, but now I also have two strongest men in the universe." The person in charge of the Universe Mercenary Alliance looks like Very savage, with an overbearing aura, as if the lord of the horror of humanoid beasts was excited.

When one ethnic group is born the strongest in the universe, the entire ethnic group will benefit.

There is a small universe, and even if the primitive universe is destroyed in the future, the race will have the opportunity to continue to multiply and thrive.

Every master of the universe smiled from the heart.

Chaos City Lord's breakthrough to become the strongest in the universe is indeed very exciting.

Wang Yi had a hurried chat with several cosmos masters, and was dragged to the next seat by the teacher, the master of the star prison.

At the highest place, the Chaos City Lord of Throne and Great Axe sat together with a smile on their faces.

City Lord Chaos smiled and said: "The reason why I was able to break through this time is actually related to Chaotic Source."

All the people present were silent, looking at the black-haired and red-robed man who sat down.

Related to Hunyuan?

Wang Yi was also surprised.

What's going on, he doesn't remember any help for the Chaos City Lord in a breakthrough.

Chaos City Lord continued: "The last time Chaotic Source came back from the Universe Sea, he brought a precious treasure that made my life gene level break through to perfection. You should all know that everyone who can reach the perfect gene level can get the origin of the original universe. The bestowment! The divine body can evolve to perfection! Consciousness can also be bestowed by the strongest talent and secret method!"

Many super beings at the scene nodded one after another, and they also knew this secret.

Chaos City Lord nodded slightly to Wang Yi, and continued to smile: "The secret method of the strongest talent ~[www.mtlnovel.com](http://www.mtlnovel.com)~ is an encounter for every strong person who has reached the perfect life gene level. Their consciousness will be attracted to the core of the origin of the universe. Inheritance. This is the inheritance of consciousness..." He then shook his head and smiled: "The strongest talent secret method is actually useless for my realm strength, but my consciousness is sucked into the origin of the universe, but it is the law of the universe. I was inspired by this epiphany. I had been stuck in the last bottleneck for many years. After seeing the road clearly this time, I was finally able to take the last step and become the strongest in the universe."

The Lord of Chaos raised his glass with a loud voice.

"So, this time thanks to Chaotic Source."

"Hunyuan, I respect you for this cup." City Lord Chaos looked grateful. The tone is solemn.

"I see."

The other masters of the universe suddenly started. He also raised his glass to Wang Yi.

"Hunyuan, I toast you a cup."

"Hunyuan, I respect you too."

"Thanks a lot."

#### [Chapter 660: Revitalized human race](#)

Wang Yi blinked his eyes, and he did not expect that it was just a whim to give to the Lord of Chaos the treasure of life-enhancing genes, which actually had such a result.

It's so happy!

However, that is, the Chaos City Lord has accumulated enough, and he is so close to the strongest in the universe, that he can break through, and it will not have this effect if it is replaced by other universe masters.

"This is a coincidence," Wang Yi said inwardly.

Mankind's current luck is indeed prosperous, and joyful events continue to grow stronger and stronger, but this is all after the appearance of Wang Yi.

The Tongtian Pagoda has allowed the human race to reach the number of cosmic sages now at eight thousand, and there are also a few more cosmic masters. Of course, other forces in the primitive universe have also benefited, so they are not outstanding.

However, Wang Yi's exchange of the most valuable contributions has almost raised the strength of the lord of the human universe to a different level.

Even the giant axe that the Xeon Supreme didn't have before, now has enough of it. (Weapon, armor, soul, palace, domain).

The human race is getting stronger day by day, which is indeed exciting.

But now the human race, although there is one less master of the universe, there is one more of the strongest in the universe. If all parties in the primitive universe learn about it, they will definitely be more frightened.

The human race becomes stronger!

This is definitely not in the interests of all parties. If they know that the Chaos City Lord has broken through, the human race has two of the strongest in the universe, maybe something will happen, so humans are now keeping the Chaos City Lord breakthrough secret, except for the highest level and a few. Some cosmic masters, others don't know yet.

Just look at the fact that even the master of the alien universe of Hongmeng did not participate in this celebration.

Of course, the small universe that Chaos City Lord God Kingdom has evolved will definitely quickly rush out of the original universe. Maybe a certain powerful person will be inadvertently discovered when passing by and exposed to the sight of other forces, but it can be hidden for a day. Just hide it for a day, there is no need to immediately make the whole world know.

After the gathering in the virtual universe, Wang Yi appeared in the magnificent palace in the center of Qianbao River in reality, in the primitive secret realm.

The Lord of Chaos City was talking with Giant Axe, and he smiled when he saw Wang Yi coming over.

Having been trapped in the Lord of the Universe for many years, now that he has succeeded, the Lord of Chaos City is happy, and he naturally looks different from Wang Yi who helped him.

When Wang Yi walked over, he was amazed when he saw the two strongest men.

At this time, the Chaos City Lord was wearing a golden robe, and the birth and destruction of the universe faintly appeared in his eyes. The endless calm aura naturally carried on his body can faintly affect the Lord of the universe.

Chaos City Lord and Great Axe are completely different auras. The giant axe is more arrogant and adventurous. Chaos is as calm as a mountain, not adventurous.

After the Chaos City Lord became the strongest in the universe, he returned to his origin, all clones were integrated, leaving only the human deity.

So the real body of City Lord Chaos is in front of him.

"City Lord, Great Axe." Wang Yi nodded towards the two strongest human races.

"Hunyuan, come here, what's the matter?" City Lord Chaos said gently.

"This time the city lord's breakthrough is a great event. I'm here to give a gift." Wang Yi smiled.

"Congratulations?" City Lord Chaos and Great Axe looked at each other, unexpectedly Wang Yi would come for this.

"The gift is unnecessary." Chaos City Lord said. How would he care about this.

But the giant axe said next to him: "Chaos, I think it is also very good for Chaotic Source to have this intention. You first see what he gives."

Ju Axe vaguely guessed what Wang Yi was doing.

The Lord of Chaos City looked at the giant axe, he and the giant axe have been with him for countless years, and he has deep feelings, just like a brother.

"That's good." City Lord Chaos nodded.

Wang Yi smiled slightly and gave a gift to the Lord of Chaos. In fact, he thought about it, but later felt that since he had already given the giant axe, it would be no harm to send it to the Lord of Chaos. City Lord Chaos felt that Wang Yi had great favor and enlightenment to him. Wang Yi also felt that City Lord Chaos had helped and pointed him, and he admired him as a person and was willing to repay him.

What's more, although he is not wealthy now, he still took out one or two Xeons, and this time it was a reward for the kindness that Chaos City Lord had given him.

"What I want to give is these two gifts." Wang Yi waved his hand and saw a simple and delicate purple armor glowing with stars, and an eternal and powerful breath radiated from the armor. , So that the surrounding time and space faintly fluctuate.

And beside the armor, there is a mountain that has shrunk countless times, like the palm of a human hand, with five fingers erected, lingering with the profound aura of origin.

"This is?" City Lord Chaos was taken aback. "Xeon Treasure?"

The founder of the giant axe was also stunned when he saw the two Xeon treasures.

How many treasures does Wang Yi have on his body? How can Xeon Treasures be delivered one by one?

"Xeon supreme wholesaler"-Wang Yi smiled at the two most shocked men in the universe: "These two Xeon supreme treasures, one is the Xeon supreme armor, and the other is the remote attack class Xeon supreme. They are all very suitable for Chaos City Lord."

City Lord Chaos coughed, is this a question of suitability? Boy, what you took out is the most powerful treasure, not an ordinary treasure. Put it lightly. If you dare to send it, I dare not just accept it.

In fact, the 500,000 treasure points of the Xeon Supreme Armor, and the 200,000 treasure points of Wuzhishan, spent most of Wang Yi's treasure points, but Wang Yi did not feel distressed.

The treasure points are used to spend, and as his strength gets stronger, will he lack the treasure points in the future?

Can't find the opportunity to find some of the strongest in the universe to hack and slash, don't you have the treasure point?

Ju Axe saw the Chaos City Lord frown, knowing that this junior has his own principles and ideas, he said, "Chaos, this is the heart of Chaotic Source, and he is no different from these two supreme

treasures~www.mtlnovel.com~ If you become the strongest in the universe and lack the right treasure, you can accept it."

Thinking of the pile of treasures on Wang Yi's body, City Lord Chaos finally reluctantly accepted it.

It was the first time that he received such an expensive gift from a junior, and he felt weird.

He couldn't think that one day he would get the first Xeon in his life, which was actually given by a younger generation.

Then Wang Yi talked about helping Luo Feng improve the authority status of Hongmeng City to Chaos City Lord, Chaos City Lord thought for a while and agreed.

However, he still asked with great interest: "Does Luo Feng really have the master of the universe?" Luo Feng is also very concerned, after all, this is the fastest rising genius of the human race other than Wang Yi.

And they also had speculations about Luo Feng, and the speculation had something to do with the creation of the earth shack.

Of course, they didn't know that the Star Tower was made by a mountain guest, and it is now in Luofeng's place.

And Luo Feng is preparing to make a big deal.
