

## A God 681

### [Chapter 681: More lively than new year](#)

The boat of the tomb.

The corridor of death.

"Boom! Bang! Bang! Bang! Bang..."

Wang Yi brandished his saber, struggling to support him under the violent fist and feet of the monster Quelo.

In other words, try to block the monster Queiro's attack with the sword, and prevent his fists from falling directly on the body.

But Wang Yi was still suffering from the devastation, just like a kicked, kicked, and smashed sandbag, and he was extremely embarrassed.

Had it not been for the Xeon Supreme armor, the battle sword, and the domain-type Xeon Supreme block to weaken part of the impact, even Wang Yi would be very difficult to resist, too strong.

In the two palaces in the distance, the deer insect masters, the shadow worm masters, and the witchcraft masters who had been eliminated all watched this scene dumbfounded.

"This Chaotic Origin Lord is so strong." The Deer Insect Lord couldn't believe it, and shook his head as if in disbelief. "Impossible, even if there are Xeon Supreme Treasures, at most the third secret pattern will be used. How could the Lord of the Universe achieve this step."

The Lord of the Universe, such as the City Lord of Chaos, completely urged the third Secret Rune, which is the top combat power of Tier 6.

But Wang Yi can now play to the top of the seventh rank, which is a big level stronger, naturally much more tyrannical.

Of course, in front of the heaven-defying monster Quilo, he was still beaten up by violence.

"brush!"

Just when Wang Yi felt that every second was like a year, the monster Quiro suddenly fell silent.

Wang Yi, who was kicked on the wall of the corridor and was about to escape, was taken aback, "He stopped?"

"Stopped."

"Quiro the monster stopped."

The Lord of Deer Insects, Lord of Shadow Ai, and Lord of Witches were also stunned.

"Boom!" The monster Quilo sat down, then lay down and closed his eyes.

"You have passed, move on." The cold voice sounded in my ears.

Wang Yi breathed a sigh of relief, and finally got through it.

He glanced at the two palaces in the distance again, showing a mocking smile.

The Lord of Deer Insects, Lord of Shadow Ai, Lord of Witch Eyes looked ugly.

"hateful!"

"This human being really survived alone!"

The Lord of Shadow Ai punched the ground again, with an expression of unwillingness on his face.

At this time, they were prompted to leave.

Before, they could only stay in the palace, could not go out, and could not interfere with other people. Obviously, Broken Donghe wouldn't let them interfere.

But now they can leave, but leave as a loser.

The three of them were so unwilling to be angry. They all had a chance to pass this screening, but because of the interference of the Lord of Chaotic Source, they all failed. Lost the opportunity to compete for a powerful heritage of ancient civilization.

The Lord of Deer Insect flew out of the Pyramid Palace and looked at Wang Yi coldly, while the Lord of Shadow Ai and the Lord of Witches flew out of the spire palace, looking at Wang Yi with fiery eyes.

But they are still sensible, knowing that they are not the opponent of the Lord of Chaotic Source, and they did not fight at this time.

"Master of Chaotic Source, you are really a good method." The Master of Deer Insect said coldly.

"Thank you, Lord of Deer Insects." Wang Yi said lightly.

"I hope you will have this kind of luck in the future, and don't fall into the next test." The lord of the deer worm gave a cold snort and turned and flew towards the passage ahead.

The two couples, the Lord of Shadow Ai and the Lord of Witch Eyes, the God Eye Clan also gave Wang Yi a cold look, then turned and left.

Wang Yi hovered over the corridor and whispered, "These three people hate me very much now."

But what about that, how would Wang Yi care?

Fighting for inheritance is inherently a life-and-death, unscrupulous.

Wang Yi believes that if there is a chance to entrap him, the people of the Lord of Deer Insects will not hesitate to start.

That being the case, why should he be soft-hearted.

Wang Yi flew to the front quickly, and the passage was sometimes wide and sometimes narrow... After a while, he saw a gate, and when the four people flew close, the gate opened with a thud.

"Huh?" Wang Yi saw two figures at the other end after the gate was raised.

"Two? Wasn't Duan Donghe alone before? Who else is here?" Wang Yi was puzzled.

He took a closer look and found that it was Luo Feng.

"Humanity."

"It's a human being in the primitive universe, Lord Silverwing." The three of them including the Lord of Deer Insects also found out, the expression on their faces worsened.

It's this \*\*\*\* human again.

Duan Donghe indifferently watched the four of them fly out, and said indifferently: "This is just a small test of your own strength, and two of them were lost. Only one really succeeded... this is just a corridor. For the front part of the project, you must go to the end of the corridor and reach the next hall before you can start contacting the inheritance."

The Lord of Deer Insects, Lord of Shadow Ai, and Lord of Sorcerers didn't say a word.

Little detection?

If it weren't for their luck, they might have died at the hands of the monster Quilo.

However, no matter what the next test is, it has nothing to do with those eliminated.

"Luo Feng." Wang Yi walked over.

"Wang Yi." The cold, sharp youth with silver armor and black hair showed a hint of joy. "I received the news from you, so I rushed over without stopping. What happened inside just now?" He also heard Duan Donghe's words, and Wang Yi actually killed two people behind this gate. Make him vigilant.

Wang Yi glanced at Duan Donghe, then spoke to Luo Feng, "Well, there is a monster inside..."

"That said, of the six of you, two died, all others failed, and you are the only one who passed the test?" Luo Feng asked in surprise. Then he smiled and said: "You are really black-hearted. You are so pitted against the lord of deer worms, I'm afraid they all have the heart to cry at this moment."

Wang Yi smiled faintly: "Non-toxic, not a husband? It's not my race. In the face of this kind of competition about the destiny of the race, it's hard to be cruel."

Luo Feng nodded, agreeing with Wang Yi's words.

At this time, Duandonghe had begun to expel them, the Lord of Deer Insects.

The lord of deer and insects did not dare to disobey, they glanced at Wang Yi bitterly, and left with gritted teeth.

This time, the three of them were completely planted in Wang Yi's hands. Not only did they lose the opportunity to compete and inherit, they also affected the future continuation of the ethnic group. Their hatred for Wang Yi was deeper than the sea and higher than the sky. Wang Yi can be regarded as completely offending the God Eye Race and the Purple Moon Holy Land Universe.

"Okay, it's your turn, let's go in." Duan Donghe looked at Luo Feng who was standing with Wang Yi, a trace of strangeness flashed in the depths of his eyes, and then said lightly.

These two human beings are very young and special. He couldn't help but look forward to it.

"I'm leaving." Luo Feng received the message of the Death Corridor from Wang Yi, feeling a little emboldened in his heart, and flew into the gate, booming! The huge gate behind him fell suddenly and was already closed to death.

Only Duan Donghe and Wang Yi stood outside.

Duan Donghe took a deep look at Wang Yi~[www.mtlnovel.com](http://www.mtlnovel.com)~ and suddenly said, "You are very good."

"Able to create that secret method as the Lord of the Universe...It is estimated that you should be the first in this universe. I am very optimistic about you. Work hard. Maybe you can really become the inheritor of my line."

"Thank you Mr. Donghe for the compliment." Wang Yi was calm and composed, not at all flattered.

He still has a cheap teacher. What is the inheritance of Donghe River?

It's a pity that the teacher took care of the teaching, and left a tower to the sky. Wang Yi even suspected that the tower might have been built by him, and even Wang Yi might have been forgotten a long time ago.

The cheap disciple said he was like this.

No way, Wang Yi can only work \*\*\*\* his own.

In the Universe Sea

### [Chapter 682: The shaking universe](#)

The Skeleton Clan is the pinnacle group of the first reincarnation era. There are four large and small universes in the vast universe.

In the first small universe.

Four lofty figures scattered in four directions, facing each other in mid-air, are the four demon masters of the Skeleton Clan.

At the moment, they are all angry.

"Outrageous! Outrageous!"

"This Duan Donghe actually said that! This is to cut off the possibility of the future of my race!"

"Damn it! The God Eye Race can enter in such an opportunity, but none of us can enter. Duan Donghe is too hateful."

The four demon masters let out an angry roar, obviously also very angry.

"In that case... spread it, spread the news, spread it all to the three great reincarnation eras and the two holy land universes."

They knew very well that the God Eye Clan must not be passed on, and only by spreading the news and disturbing the water would they have the opportunity to fish in troubled waters.

Without hesitation, the Skeleton Clan began to spread the news to all forces in the entire universe.

But the mood of the God Eye Clan was not much better than them.

What was the surprise of the God Eye Clan, who was facing the pressure of ending in the first reincarnation era, when they first learned the news of the inheritance of the Donghe River? How exciting?

They see that the race is detached from reincarnation, free from the destiny of extinction, and become the hope of the eternal holy land of the universe!

However, the news that Ying'ai and Wu Yan sent back from them made the seven Allahs shocked and angry.

"What? The Lord of the Golden Fang has fallen?"

"You were also forced to give up by the Lord of Human Chaotic Origin, and you were disqualified?"

"Damn it!"

"The Lord of Chaotic Origin actually dared to persecute our God Eye Clan like this, he should be killed!"

"I shouldn't have let him go!"

"If our God Eye race loses the chance of inheritance because of this, we will definitely not give up with humans!"

The seven avatars of God gather together. All were angry.

They all understand that this is the only opportunity for their ethnic group.

The deadline is approaching, this inheritance of Donghe must be obtained, at all costs.

The bad news is more than that. When the seven Allahs were discussing what to do next, the founder of the Great Axe soon rushed to the Tomb Ship and blocked the door and passed back through the Lord of Shadow Ai.

"This time, our seven Allahs act together!" The first God made a decision with firm eyes. "I suspect that not only the Lord of the Universe can accept the inheritance, perhaps the Master of the Universe and the strongest in the Universe can also accept it."

After some discussions, it was finally decided that the second and seventh Allahs would bring 20 Lords of the Universe and 100 Lords of the Universe into the tomb boat to seize the inheritance, while the other Allahs stayed outside and waited for the opportunity to act.

For the continuity of the race, the God Eye Race, this time really moving really has to be jealous and desperate.

The seven Allahs come out in full force.

Virtual universe.

In front of the Great Axe Temple, the masters of the human universe are rejoicing at this moment.

"Hahaha...Wang Yi did a good job!"

"The nine masters of the universe have entered the boat of the tomb, and now only two of us humans are left, including the newly arrived Luofeng. Now we have the greatest advantage as a human being."

"I know that Wang Yi, a kid who is usually silent, is actually full of bad water. Isn't that a good thing?"

"Lord of the Desolate Mirror, you've just passed this...even though I feel the same way as you do."

"Hahaha..." The masters of the universe smiled happily.

The Lord of Chaos City suddenly brightened his eyes. "The Great Axe has arrived at the Tomb Ship now."

Some cosmic masters of the primitive cosmic human race brought carefully selected venerables, and immortality had already set off...Although Wang Yi felt it was useless, they didn't stop it, let them go.

Anyway, these people are just running for nothing, and it's not that they can't be resurrected when they die, just let them feel at ease.

And the giant axe has already rushed to the outside of the tomb boat in the flame ice domain.

The coercion of the strongest man in the universe is overwhelming, making the masters of the universe guarding at the door of the tomb boat all fearful.

"It's the creator of the giant axe." The lord of the deer worms were all shocked. The creator of the giant axe appeared so quickly, which was far beyond their expectations and made them feel anxious.

It didn't take long for them to send out the news.

There are already two enchanting human peerless geniuses, plus the giant axe that the individual combat power of the Universe Sea is almost invincible, the advantages of the primitive cosmic human beings are too great.

The great axe looked down at the several masters of the universe guarding at the hatch of the tomb boat.

"I have seen the creator of the giant axe." Several universe masters, including the Lord of Deer Insect and Lord of Shadow Ai, salute respectfully.

The founder of the giant axe nodded slightly and said indifferently: "You all leave the hatch."

The Lord of Deer Insect and Lord of Shadow Ai, the two masters of the God Eye Race universe, the Lord of Hai Hai, the two strong skeletal races, and the Lord of Giant Rock who had been silent from beginning to end, were all startled slightly.

However, under the deterrence of the strongest in the universe, they dared to leave the hatch one after another, and then they saw the giant axe falling into the hatch, sitting there in a posture of a man, obviously not wanting others to enter.

The Lord of Shadow Ai glanced at each other.

This is a lot of trouble.

"Hurry up and send the news back. The founder of the giant axe arrived so soon and blocked the door. It would be difficult for our people to come over and want to get in." They felt anxious.

At this moment, the news also caused an uproar among the nearly 100 forces in the Purple Moon Holy Land Universe, the East Emperor Holy Land Universe, and the Three Reincarnation Era. This storm is destined to intensify...

Dongdi Holy Land Universe, "Endless God Realm", with an extremely majestic sacred tree in the center.

After countless years of silence, the ancestor of the Eastern Emperor, who has almost never been seen in the legend, appeared in person. He looked down... His whole body looked blurred under the endless blue light... The endless creatures under the giant tree, even the strongest in the universe People, hundreds of masters of the universe, felt the absolute oppression invisibly.

"The ancestor!" All the creatures looked at the ancestor Dongdi fiercely.

The ancestor of the Eastern Emperor said slowly: "I heard that in the cosmic boat of the three Jedi in the universe, there is an inheritance called 'Duandonghe Wu'. I need that inheritance, but someone is willing to help me. Capture?"

"I'm willing to wait!"

There was a chorus, and the voice was full of excitement.

Dongdi needs? Suddenly, countless powerful people below became more enthusiastic ~  
www.mtnovel.com~ Purple Moon Holy Land.

The same mysterious ancestor Ziyue finally appeared, and issued an order to capture the inheritance of the Broken East River.

The Purple Moon Holy Land also dispatched one of the strongest in the universe to lead the selected 15 Lords of the Universe, 150 Masters of the Universe, and 1,500 Immortals to rush to the space ship at the fastest speed.

...As the news spread, a group of forces was indeed enthusiastic about it, especially in the first cycle of the era, which was already facing a limit, so naturally it became even more crazy.

The second reincarnation era and the primitive universe are also greedy... The so-called people who have no vision must have close worries. This so-called inheritance of the Broken East River, if you miss this time, I am afraid that several reincarnation eras will not appear again.

At this time, Wang Yi and Luo Feng were already flying towards the corridor to the next test.

#### [Chapter 683: Rhinoceros Bureau](#)

The depths of the inner space of the space ship, the area of the flame ice region, and the ship of the tomb.

Wang Yi glanced at the stone pillars that appeared on both sides of the corridor.

There is a ghost on every stone pillar.

The stone pillar on the left has a solid phantom and contains thousands of different fluctuations.

The stone pillar on the right has a loose phantom, barely forming a skeleton.

There are 123 stone pillars on the left.

There are 10080 stone pillars on the right.

"This is the Rhinoceros Bureau." Wang Yi said inwardly.

Luo Feng was also looking at these mysterious stone pillars. Although he didn't know in advance that this was a popular game for training savvy in ancient civilizations like Wang Yi did, he also realized that it should be related to the next test, and he also carefully observed it.

The three-dimensional phantoms on these stone pillars, and many three-dimensional phantoms, are huge and contain huge fluctuations.

He quickly discovered that the three-dimensional shadows on the 123 stone pillars on the left corresponded exactly to the three-dimensional shadows on the front 123 stone pillars on the right.

"There are only 123 seats on the left, but so many on the right..." Luo Feng wondered to himself as he flew.

In front of the 10080th stone pillar on the right side of the end, the light condensed into a human figure, which is the Duandong River.

"You have all seen these stone pillars." Duan Donghe whispered softly: "This is my hometown, which is the most popular form of entertainment in my civilization. It is also a means of cultivating understanding. Any big power, For special inheritance, etc., it is usually taken out to test the comprehension of the candidates. It is called the Rhinoceros Game!"

The Rhinoceros Bureau was created by an ancient and powerful existence, the Rhinoceros, before his death.

"There are 10081 basic endgames."

"There are 10080 endgames on the right side. As for the so-called 10081th endgame... there is no game! And the left side is a perfect solution! Complete the first 123 endgames to complete the game."

"Study the method of solving the first 123 seats, you should be able to work out its basic mysterious rules."

Duan Donghe said indifferently: "...When you understand the basic rules, let's start to solve the game, solve the 124th endgame on the right, the 125th endgame...success in turn!"

"The more you solve, the more likely it is to inherit my inheritance!"

"But after the time limit, if I don't even reach the bottom line of my requirements... I will be eliminated."

"Of course, this elimination will not fall. Only when the solution meets my bottom line requirements and arrives in the next hall, can I begin to contact the inheritance. Before contacting the inheritance, naturally there is no need to destroy the soul."

Duan Donghe's expression became cold, "After waiting, you will start to contact the inheritance. Except for the only one who can obtain the inheritance, all the others are annihilated."

The expressions of Wang Yi and Luo Feng did not change.

"Let's start then." Duan Donghe pointed forward, "Get up!" Boom! boom! The ground in the center of the corridor trembled, and then began to separate, and suddenly two beams of light exuding colorful light emerged.

"The two pillars belong to you two, you choose one each."

"Once you understand the mysterious rules, you can start to solve the game and solve the 124th game. The complete game... is directly outlined with magical power and passed to this crystal column. Once the solution is successful, the crystal column will remind you. If it fails, the crystal column has no response."

"Go ahead."

"It's a long time, but it's limited."

"If it is within a limited time, any of you can solve the game to 6000 seats! It will directly get the inheritance of my broken Donghe line!"

"Go hard, and meet the bottom line requirements within a limited time. The more you get out of the game in the end... it's good for you to pass it on."

The Broken East River dissipated, and in this wide corridor, there were 123 three-dimensional phantoms on the left and 10080 three-dimensional phantoms on the right.

Only Wang Yi and Luo Feng were left standing.

"Wang Yi." Luo Feng looked at Wang Yi.

"This time, we are going to do our best." Luo Feng's eyes lit up.

Wang Yi smiled slightly, "Let's make a comparison and see who has the most answers in the end."

The two smiled at each other.

"There are only two of us right now in this broken Donghe heritage. We humans have the greatest advantage, and we absolutely cannot lose." Luo Feng said firmly. Then he looked at the black-haired man with a calm expression, "You are the Lord of the universe. If you fall, you cannot be resurrected. This Donghe is cruel and we must not guard against it. If the final momentum is wrong, you will immediately explode. As long as the soul is still there, It's okay, so don't force it."

Luo Feng is the Venerable Universe, even if he falls, he can be resurrected.

But Wang Yi is already the lord of the universe. Once he has completely fallen, he cannot be resurrected. This is what he is worried about.

What's more, Wang Yi still has the Tower of Heaven. The human race actually doesn't want him to take risks. The risks are too great.

This time they are actually mainly pinning their hopes on Luo Feng.

If it hadn't been for Wang Yi's insistence, they would all want him to leave.

"Don't worry, I won't be brave, and I'm not stupid." Wang Yi smiled faintly. His goal is to enter the inheritance space of Donghe to get the highest reward. If he completes this goal, he can explode this divine body at any time. Even if Donghe wants to kill him with the soul, it is actually very safe.

Then Wang Yi and Luo Feng each chose a beam of light before they began to study the mysterious rules of the Rhinoceros Game.

Not only are Wang Yi and Luo Feng studying, they are also projecting the Rhinoceros Bureau to the virtual universe, so that the powerful of the human race can watch and study.

"Rhinoceros Bureau? The most popular game of ancient powerful civilization? The special means of ancient civilization to test comprehension?" A white figure appeared quietly, looking at the light and shadow of the Rhinoceros Bureau, muttering.

"The ancient civilization, down to the juniors, up to the strongest existence, almost everyone likes this Rhinoceros Game... It seems that this Rhinoceros Game is indeed very unusual. And that Dangdonghe. Wu said, it can be solved to the first With 6000 rounds, the future achievement is destined to be higher than that of Duan Donghe Wu!"

"Unfortunately, I was suppressed and couldn't get out."

"It seems that whether we can get the inheritance of the Broken East River this time depends on the two little guys, Wang Yi and Luo Feng." The original ancestor secretly said in his heart.

...

With tens of thousands of times faster, Wang Yi and Luo Feng began to comprehend the most basic game rules of the Rhinoceros Game.

"123 endgames, 123 endgames...correspond to each other..."

How fast Wang Yi's consciousness moves, not to mention that he often observes the sea of laws and comprehends the secret patterns of the Tongtian Pagoda. He also follows the secret pattern genre. His will consciousness is extremely powerful, and his foundation is far beyond Luo Feng at this time.

In just three days, he understood the basic rules of the Rhinoceros Bureau.

"That's it. UU reading [www.uukanshu.com](http://www.uukanshu.com)" Wang Yi's eyes lit up. "Rhinoceros Game, these are the nine rules of the Rhinoceros Game."

The complexity of the Rhinoceros Game is unimaginable. Even the Lord of the Universe can't force the memory. He can only study the mystery by comprehending it by himself.

If you don't understand the rules of the Rhinoceros Game, it is completely impossible to comprehend it. Once you understand the rules of the game, it is obviously much easier to study the Rhinoceros Game.

"Luo Feng."

"Wang Yi? What's the matter?" Luo Feng, who was studying the Rhinoceros Bureau, raised his head.

"I have analyzed the rules of the Rhinoceros Game, so I will pass it on to you." Wang Yi said.

"What?" Luo Feng was slightly surprised. He was still at a loss for a few days after he enlightened him. How could Wang Yi find out the rules of the Rhinoceros Game? Luo Feng had to admire him, but at the same time he was a little excited. "OK."

#### [Chapter 684: The Great Axe That Blocks The Door](#)

In the three great reincarnation eras and the two holy land universes, almost every powerful force is advancing towards the space ark.

Under Wang Yi's intentional change, both the founder of the Great Axe and Luo Feng were closer to the birth point of the Tomb Ship, and they were the fastest to come over.

As soon as the giant axe arrived, it did not hesitate to block the only entrance.

The founder of the Great Axe did not enter because he was the strongest in the universe, the Dinghai Shenzhen of the race, and could not tolerate risk.

He was waiting for the arrival of the rest of the race.

After the giant axe, the first to arrive was the weaker Tianzhong clan in the first reincarnation era.

"Great Axe, you and I have no grievances, don't go too far."

In the boat of tens of billions of kilometers long tomb, there is a black bell suspended in the doorway, making a deafening and angry sound. Wherever the sound passes, the void produces wave-like twisted ripples, and the momentum is huge.

In the distance, there are some masters of the universe hovering.

"It's the Tianzhong Clan."

"It seems to be the Shadow Clock Demon Lord."

"The Shadow Clock Demon Lord came very quickly, but the founder of the Great Axe blocked the door. He wanted to go in, probably impossible."

A group of masters of the universe who were driven away by the creator of the great axe before gloating.

The founder of the giant axe sat in the hatch with his eyes closed, and turned a deaf ear to the roar of the shadow clock demon lord.

Obviously, no one was allowed in.

Want to go in?

Can.

Make your own way.

After the shadow clock demon master roared, he found that the founder of the giant axe would not give way and could not bear it.

This is the only hope of his race to get out of reincarnation. One minute earlier, there is more hope.

If he usually doesn't want to collide head-on with the amazing axe, but now, he can't help but back down.

"Great axe! Don't force me to do it!" The Shadow Clock Demon said angrily.

Seeing the savage brawny still indifferent and turning a blind eye, the Demon Lord of Shadow Clock was completely annoyed.

"good!"

clang! ! !

The shadow clock demon shot, the black clock shadow suddenly expanded, covering hundreds of millions of kilometers, and even shrouded the entire tomb boat underneath, and then a huge, shocking bell came through the air, containing magical powers. , As if to shatter the soul.

"boom!"

Suddenly, a powerful and huge divine axe was born, breaking through the void, and slashing fiercely at the majestic black bell shadow.

"Peng!"

The strongest of the two universes collided, the void oscillated, and the entire Black Swamp set off a huge wave.

The next moment, I saw that black bell shadow was slashed by the giant axe, and the shadow bell demon lord backed in embarrassment.

"Shadow Clock, I advise you, don't waste your effort, you are not my opponent." The founder of the giant axe stood up, carrying the bronze \*\*\*\* axe, and under his messy hair were a pair of eye-catching eyes full of domineering.

He did not continue to shoot because it was unnecessary.

"Okay, okay, okay. Giant Axe, you are overbearing, but I don't believe you can block this place forever, just wait and see." The Shadow Clock Demon master gritted his teeth.

Although the Shadow Clock Demon Lord was angry, he had realized the gap with the giant axe and did not take his own humiliation anymore, and went up to give the giant axe reputation in vain.

He stood in the void in the distance, staring at the giant axe indifferently, obviously waiting for the opportunity to enter.

The Lords of the Universe, such as the Lord of Deer Insects and the Lord of Shadow Ai, were far away from him, and did not dare to approach the Demon Lord of Shadow Bell, who was in a obviously bad mood.

After the giant axe pushed back the Shadow Clock Demon Lord, he ignored it, and continued to sit down and close his eyes to rest.

Just secretly said: "I hope Luo Feng and the others will understand it sooner. I can't stay here for too long."

...

time flies.

In the tomb boat, the three-dimensional phantoms in the quiet corridors exude various colors of light.

Wang Yi and Luo Feng stood in front of the stone pillars, their eyes shining, divine power penetrated the three-dimensional phantom, watching the research.

In the giant axe small universe, both Luo Feng and Wang Yi are accelerating through tens of thousands of times to understand the three-dimensional phantom faster.

"This Rhinoceros is really difficult. Although it hasn't been a year yet, I have been in the universe of the giant axe for thousands of years." Luo Feng said with emotion.

After thousands of years of comprehension, Luo Feng is still in the stage of pondering, and now he can only arrange the 119th round in this crystal column in an instant.

From the 1st round to the 10081th round, the Rhinoceros Game exaggerated the requirements for comprehension and so on.

Luo Feng glanced at the red-armored black-haired man next to him again, wondering where he deduced it?

"Wang Yi is much better than me. He was the first to figure out the rules of the game before. It should be faster than I deduced." Luo Feng secretly said.

But he discovered that Wang Yi hadn't sketched it with magical power on the crystal pillar.

He couldn't help asking: "Wang Yi, which round have you studied now?"

Wang Yi raised his head and glanced at him, then calmly said: "Don't ask, it's still early."

Seeing Wang Yi's calm appearance, Luo Feng's mouth twitched, and he always felt that this friend had never been nervous from beginning to end, unlike the excited and desperate attitude of other people who had undergone the test of inheritance.

Are you confident?

Is it still expected?

"I always feel Wang Yi has any plans." Luo Feng frowned slightly.

This friend has always been very mysterious, and Luo Feng couldn't figure it out.

However, he quickly put this idea behind him, and now he wholeheartedly understands the importance of the Rhinoceros Game.

No matter what Wang Yi has in mind, he is on the human side.

"Taking advantage of the giant axe to block the entrance, there is no other force coming to this rare gap right now, I have to hurry up." Luo Feng concentrated.

And Wang Yi, calmly gazing at the three-dimensional phantom in front of him, constantly deduced the simulation in his consciousness.

Sometimes frowned.

"wrong."

"It's not like this."

"This three-dimensional view is also wrong."

"Wrong, wrong, all wrong."

"Come over again."

Wang Yi also felt the joy of this game.

"Rhinoceros, I don't know what kind of existence it is that can actually create this kind of game to improve understanding. Said it is a game, it is more like a way to exercise your understanding." Wang Yi secretly said in his heart.

Of course, this is far worse than the sea of laws and the guidance of secret patterns of the Tongtian Tower.

But for Wang Yi, it is very unusual and novel, giving him more directions and more inspiration for the creation of secret methods.

In the virtual universe, his rhino game has been deduced to nearly 500 games.

All the way to dust.

Far ahead.

The reason why I didn't outline the crystal column was because I didn't want Duan Donghe to find it prematurely.

"According to the original historical trajectory. As long as I reach the bottom line of 3000 rounds within the time limit, I will definitely be shortlisted. No hurry." Wang Yi smiled slightly.

He didn't see it. A ghostly white figure stood behind him without knowing when ~www.mtlNovel.com~ looked at him silently.

But when they were quietly studying without being disturbed, the tomb boat was not calm outside.

"Great Axe!"

"Northern Star Lord." The burly savage man opened his eyes again and looked towards the sky. "Your Dongdi Holy Land came really fast."

The Northern True Star Lord frowned and said, "Great Axe, get out of the way, the entire universe knows the news here has rushed over, how long can you stop here?"

"If I won't let it." The giant axe had a faint smile on his rough face.

The Northern True Star Lord showed an angry expression. "Then don't blame me for being impolite."

The Shadow Clock Demon Lord also surrounded him, his expression cold.

The Great Axe glanced around and laughed.

"If you two are not satisfied, let's go together!"

#### [Chapter 685: competitor](#)

The depths of the Flame Ice Region, at this moment, have become the focal center of the entire universe.

The Northern Star Master and the Shadow Clock Demon Lord joined forces to force the giant axe back, but the giant axe refused to give up.

The "black side" of the Supreme Treasure Palace blocked the hatch, and the two strongest men in the universe were not opponents of the giant axe. Although they gritted their teeth, they were still helpless.

The strongest man in the universe at the Purple Moon Holy Land rushed there afterwards, and the three of them joined forces, but still couldn't open the channel, which made people extremely helpless.

This situation was not changed until the seven Allahs of the God Eyes of the first reincarnation era came together.

"Great axe, get out!"

A large group of the strongest in the universe joined forces, especially among the seven God Eyes who are good at combining secret methods. No matter how strong the giant axe is, it can't stop it.

boom! The black palace with the giant axe was blasted away, and there was no obstacle ahead.

Except for the God Eye tribe who desperately sent the second and seventh Allahs to enter with a large number of the Lord of the universe and the Lord of the universe, the strongest of the other universes stayed outside.

"Great Axe, you did a good job." The North True Star Master was a little angry.

If it weren't for the giant axe to block the way, how could they enter the East Emperor Holy Land with others now?

Juaxe's face was indifferent, but his heart was helpless.

Although their primitive cosmic human race set off as soon as they received the news, and even the City Lord of Chaos, who had already broken through to the realm of the strongest in the universe, took the initiative in person, but hurriedly hurried, still one step behind other forces.

Fortunately, what they really count on is Wang Yi and Luo Feng.

Wang Yi and the others also sensed the fluctuations of many super-powerful fighting in the outside world. The terrible fluctuations were transmitted layer by layer and weakened layer by layer in the tomb boat. At this time, they still made the understanding of the rhino king in the corridor. Both people in the game can feel it.

After a long time, thousands of figures flew across the air.

Wang Yi and Luo Feng couldn't help but look sideways.

"Purple Moon Holy Land."

"East Emperor Holy Land."

"There are also the God Eye Race and several other ethnic groups."

Both Wang Yi and Luo Feng immediately recognized the three main forces because they had too many people.

And those strong men also saw the two people in the corridor.

"It's a human being in the primitive universe!"

"It's the Lord of Silver Wing and the Lord of Chaotic Origin!"

"Damn it, their great axe prevents us from entering."

Rows of hostile gazes came over, with murderous aura.

But at this time they were new to the city, and no one dared to act rashly if they didn't understand the situation here.

The Second God and the Seventh God of the God Eye Clan are also here. They both entered the corridor of life and death and joined forces. They relied on the Xeon to pass that level with difficulty. At this time, they saw two humans standing in front of the three-dimensional light and shadow. , His eyes were cold and sharp, and there was a strong murderous intent in his heart.

"Second, do you want us..." The Seventh God communicated to the Second God.

At this time, a cold voice rang in their ears.

"You two, it is forbidden to do anything to other people here, otherwise it will be obliterated."

It's the sound of Dongdong River.

The complexion of the Second and Seventh God suddenly changed.

Glancing at each other, can't help frowning.

After experiencing the thrilling passage of life and death just now, and feeling the danger of death, they dare not ignore the warning of Donghe Broken River.

However, they brought a lot of masters of the universe, even if a part of them fell in the corridor of life and death, there were still several who stayed and managed to get here.

What's more, there are not many universe masters in the East Emperor Holy Land and Purple Moon Holy Land.

"The Lord of Human Chaotic Origin and Lord Silver Wing came here first, and after a few years of comprehension, they must know a lot about this Rhinoceros Bureau."

"Yes, force them to speak out, not let them monopolize."

"Now the two of them are the most threatened. If you want to pass on, you can't let them continue to enlighten them smoothly."

These universe masters are also discussing secretly.

Being the first batch... has an advantage. Even if the latecomers have excellent ones, as long as one of them meets the requirements first, they will naturally be the first to contact the inheritance.

This made Wang Yi and the others immediately become the thorns of many powerful men.

brush! The light in front condenses and gathers into a figure-Broken East River.

His eyes were calm as the sea, his eyes swept across the thousands of candidates on the field, and he smiled slightly.

"A lot of people came this time."

"Later, this is the last test to the next hall, it is a test of your understanding..."

Duan Donghe began to explain to the newcomer, and Wang Yi and Luo Feng were also discussing it.

Luo Feng was worried that these people would affect his own comprehension, but Wang Yi didn't take it seriously. He directly told Luo Feng to use the Star Tower and the crystal pillars to make other people attack useless methods. This was also used by Luo Feng in the original history. When Luo Feng heard of the method, he immediately felt that this method was good.

The crystal pillar is left over from the Broken East River, and is completely connected to the boat of the tomb. It should be impossible to destroy it. It is impossible for the Broken East River to let those people attack the crystal pillar. The Star Tower is the strongest treasure, indestructible, and He completely forbids the infiltration of souls, is embedded with the crystal pillar, hiding in it, even if other people want to interfere with him, there is no way, because they can't shake the Star Tower.

Wang Yi made this proposal to Luo Feng also to save trouble.

As long as Luo Feng resolves the Rhinoceros Emperor's bureau to a certain level, he will be protected by the Broken East River, and there is no need to hide in the Star Tower.

And Wang Yi was not in a hurry to expose himself so quickly, so his performance outside was slower than Luo Feng.

At this time, Duan Donghe had finished the explanation and looked at Luo Feng specially, "Don't underestimate the Rhino Emperor Game... the first two came, and only one human has successfully solved the 124th endgame. It is estimated that your talents are not as fast as him..."

Luo Feng was stunned. One was because Duan Donghe actually said it, and the other was Wang Yi was actually slower than him.

He couldn't help thinking of Wang Yi's understatement of his expression of no urgency, and the corners of his mouth twitched.

Wang Yi feels that this severance of Donghe is deliberately messing up and provoking hatred. The expressions of the others changed without seeing them, and their eyes were full of murderous intent when they looked at Wang Yi.

Especially Duan Donghe hasn't specified which human being it is, and even Wang Yi, who deliberately hides his clumsiness, is included.

When Duan Donghe shook his head and sneered and then dissipated out of thin air, the Divine Eye Clan, the Purple Moon Holy Land, the East Emperor Holy Land and even several other forces, the candidates who passed the name, looked at the two at the same time!

"Humanity!" said the second God of the God Eye Clan coldly.

"Tell me the rules of the Rhinoceros Game, otherwise don't blame us for being impolite."

Other powerhouses looked at Wang Yi and Luo Feng indifferently. These two people have become the targets of public criticism. After all, only one person got the inheritance. It also means that the others will inevitably fail. It is about the struggle for inheritance. It doesn't matter.

"Humans, quickly confess all the information you know."

"Humans, I advise you not to be ignorant ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Don't waste time, if they don't say anything, let's just do it."

Other powerful forces began to persecute, and the tone was full of threats.

Luo Feng and Wang Yi looked at each other.

Luo Feng said admiringly, "Fortunately, there is your way, otherwise we will be in big trouble now."

Wang Yi chuckled.

Tell me about the rules of the game? Even if they said it, they were afraid that they would do it. These forces think so beautifully. Of course, Wang Yi and Luo Feng could not do that.

"boom!"

In the eyes of everyone, a blood-colored tower suddenly appeared where the two humans were standing, and the two immediately entered the blood-colored tower.

Then I saw this blood-colored tower, sitting motionless on the ground of the corridor.

#### [Chapter 686: Xie Huang Ju](#)

Just as Wang Yi had expected, those strong men couldn't do anything with the two who hid in the Star Tower. The crystal pillar they were attached to was the one used by Luo Feng himself! Even if he hides inside forever, he can demonstrate the Rhinoceros Game in the crystal pillar at any time.

Wang Yi is even more indifferent. Anyway, there is a lot of time. He is not eager to solve the game in his own crystal pillar. He is also strong, but he didn't bring the palace to the strongest treasure, so he was greedy for convenience and hid in the Star Tower. , You can come out and solve the game when it is almost time, and there is no need to hide because of the protection of the Donghe River at that time.

Now, he is happy and free.

The reason for this is that it is meaningless to be entangled with these cosmic masters, and the second is that Donghe is scrupulous about breaking Donghe. He can explode and easily kill part of the cosmic masters, but if it spreads to some immortal lords nearby... The East River rules, then it may be wiped out.

He even worried that those forces already knew his strength and deliberately sent people to lure him into doing it, and then let some weak people fall into his hands, and let Duan Donghe punish him... This kind of thing is not impossible.

Wang Yi doesn't need to touch this mold.

Seeing the two humans hiding in the palace treasure, those strong men who wanted to destroy the two people's understanding of the rhino royal game were dumbfounded.

They immediately discovered the mystery, and their faces were ugly.

They all saw that it was the treasure that Luo Feng had brought out, but they didn't know that the Star Tower was the strongest treasure, and thought it was the supreme treasure of the special pinnacle palace.

Otherwise it will definitely be dumbfounded.

"hateful."

"Lucky guy."

"It seems that there is really no way."

Many strong men gritted their teeth and were extremely frightened, but what can they do?

Even the strongest in the universe can't break the peak palace treasure, let alone them.

The two Allahs of the God Eye Clan commanded secretly from behind had been watching with cold eyes and looked at each other, both of them were disappointed in their eyes.

It seems that there is no way to deal with these two humans.

Soul attacks can't penetrate at all. Those unwilling universe masters can only use the treasure to attack the Star Tower from the outside, trying to affect them under the shock of the impact, so that they can't calm down and understand the Rhino Emperor's game.

But they didn't know that Wang Yi and Luo Feng inside looked at them like clowns.

Luo Feng couldn't help asking: "Wang Yi, why don't you demonstrate the Rhino Emperor Game on the crystal pillar? Where are you in the deduction now?"

Wang Yi smiled slightly, with a mysterious expression.

"you guess."

Luo Feng was speechless.

"You and I are also sold off."

"Haha." Wang Yi smiled, "Don't worry, you will know later."

Seeing that Wang Yi didn't want to say anything, even though Luo Feng was curious, he couldn't help it.

His friend is good at everything, but always mysterious.

Wang Yi reminded: "Luo Feng, this inheritance of the Broken East River depends mainly on you and me, and you are more adventurous than me."

"I understand." Luo Feng nodded.

He is the Venerable Universe, and he can be resurrected even if he comes into contact with the inheritance and is killed by the soul in failure.

But Wang Yi is the Lord of the Universe, so that doesn't necessarily matter. He also has the Tower of Heaven, which is extremely important to the future of mankind. The Great Axe, the Lord of Chaos City and others will not let him take this risk.

So if you are not sure... Wang Yi is likely to give up in the end, and then he might look at Luo Feng.

Luo Feng still had this consciousness.

But he didn't know what Wang Yi really thought.

...

Virtual universe.

In a single plane, there was mist around it, and there were stone pillars, and there were also three-dimensional phantoms on the stone pillars. There are 123 stone pillars in the left row and 10080 stone pillars in the right row.

A young man in a flamboyant robe with black hair scattered behind him stands in the middle of the stone pillar with his hands on his back.

This Rhinoceros Game is imitated in the virtual universe. Not only Wang Yi and Luo Feng are studying, but the Chaos City Lord, Great Axe, and other powerful people of the human race are very curious about this Rhinoceros Game and are studying.

It's just that Wang Yi is currently making the most progress.

"I don't know how long it will take to solve 3000 rounds?" Wang Yi smiled slightly.

...

Time passed quickly.

The hatch of the space ship, the ship of the tomb, has been mad at this moment.

After the first two groups of strong men entered, the two holy places, the God Eye Race and the Great Axe tacitly united and blocked the door.

You know, these are nearly ten of the strongest in the universe. It easily keeps other powerful people from the reincarnation era out.

But as time passed, more and more powerful men arrived, and the pressure on the giant axe became more and more intense, and finally they couldn't stop it.

When the number outside reached more than twenty, the strongest in the universe joined forces to attack, and the giant axe blocking the door had to be forced to give way.

The irony is that the strongest people in the universe who worked so hard to open their way quickly helped Greataxe continue to stop other latecomers, causing other cosmic and sea forces that followed to jump into a thunder.

Then fierce conflict broke out at the hatch of the Tomb Ship again, and the terrible shock and shock continued to be transmitted to the inside of the Tomb Ship, and even the immortal gods could easily feel the fierce fighting.

I'm afraid that the entire universe does not know how many years it took for so many powerful people to gather together.

...

Although there are many strong people who have entered, the Dudonghe screening is obviously a lot harder.

Later, there were too many candidates... The elimination rate of the Lord of the Universe and the Venerable Universe reached 80%!

The elimination rate of immortal gods is as high as ninety-nine percent!

It is equivalent to the ten Lords of the Universe and Masters of the Universe, and only two can enter.

But this does not mean that they must have fallen. As long as they can hide in the palace treasure in time at the monster Quillona Pass, they will only be disqualified in the end, but will not die, unless they are really as unlucky as the Lord of Ryuujiu and are directly killed, otherwise You can still live.

After some screening, the life and death corridor of the Tomb Ship is gathering strong elites from the three great reincarnation eras and two holy places.

Among them, there are 7 strongest in the universe, and the lord of the universe close to 200~[www.mtlnovel.com](http://www.mtlnovel.com)~ Although there are many immortal gods, no one takes them to heart, just to try their luck.

However, other forces have some concerns. In addition, seeing that neither of the two holy places has sent the strongest in the universe in, it is obvious that the holy place knows what secrets...the strongest in the universe may not have much use in coming in, so they did not do so. Other forces in the universe Of course, the strongest will not enter, and there are six people in the first reincarnation era, which was forced by the limit to be a little crazy, and only one in the second reincarnation era, and they are still alone.

The original universe simply didn't even enter the strongest person in the universe.

The human race is also among them, among them, Hongmeng is a master of the universe "Master of Penggong", 12 cosmos venerables, and 135 immortals.

The Chaos City Lord is outside with the giant axe. The identity of the strongest man in the universe has also been exposed, but it doesn't matter anymore, it won't be concealed for long anyway.

Seeing these two sacred places, other times of reincarnation often attacked Luo Feng's palace. Lord Peng Gong looked ugly, but he was helpless. There was no way. The human race was too weak here. And other forces will not sit back and watch the human race gain inheritance, and will definitely target them.

Time passed so slowly.

#### [Chapter 687: bottleneck](#)

Time flows like water, and nearly 500 years have passed in a blink of an eye.

In the tomb of the tomb, the tens of thousands of stone pillars in the corridor of life and death bear three-dimensional phantoms, and there are also crystal pillars standing in a forest, and each crystal pillar corresponds to a candidate. Many powerful people are silently comprehending.

"Ding! Boom!" A voice sounded, as if it sounded in the heart of every strong man, and the strong men who were immersed in the enlightenment suddenly awakened one by one, and looked up.

"Um?"

"What's wrong?"

"Look, it's Broken Donghe."

"He appeared again."

"No newcomers are here, something happened?"

All the tens of thousands of candidates present looked at it.

I saw the light in mid-air condensed into a figure, it was the blue-haired man who broke the Donghe River.

From the bottom of the Broken East River, the eyes fell on the blood-colored tower, and the voice sounded: "Candidate...The human galaxy has reached the requirements for the solution."

"what?"

"Lord of the Galaxy meets the requirements for solving the game?"

The strong people on the scene changed their colors.

It's just that other forces are frightened and unbelieving, while the human race is full of surprises.

"Quiet." Duan Donghe's gaze swept away and he was quiet. It's just that everyone's eyes have been focused on the Scarlet Tower, their eyes are complicated.

"The Milky Way, come out." Broken Donghe Road.

Luo Feng appeared, and then Bro Donghe stretched his fingers, and a palace of light and shadow appeared next to the crystal pillar directly covering Luo Feng.

Duan Donghe even let out a word, whoever attacks Luo Feng will directly eliminate and kill, making those who are careful and powerful, afraid to act rashly.

While staying in the Scarlet Tower, Wang Yi glanced outside and said, "Luo Feng can solve the game by 1,000 rounds, but because Luo Feng is the Venerable Universe. The requirements for different strengths are different."

Wang Yi has learned about the original plot and knows that the Rhinoceros Bureau corresponds to different levels and the requirements are different.

The bottleneck of the immortal gods-the 500th round!

The bottleneck of the Universe-the 1000th round!

The bottleneck of the Lord of the Universe-the 1500th round!

The bottleneck of the strongest in the universe-Game 2000!

And Xihuang Ju... has extremely high requirements for comprehension! Extremely demanding for deduction! In short, if you can deepen the research on the Rhinoceros Bureau, then it will not be difficult for you to study the law of perception, the secret of creation, and so on.

"Now... it's just the first bottleneck." Wang Yi smiled lightly.

For these carefully selected geniuses, the first bottleneck may be easily reached.

But the farther you go, the more difficult it is to break through the bottleneck.

This is even related to talent cultivation methods, such as the giant axe, which is not good at deduction, and even Luo Feng's speed in comprehending the Rhinoceros Game surpasses him. And Wang Yi, who is

proficient in the secret pattern genre and the secret pattern of the Tongtian Pagoda law, is far more than Luo Feng.

In the virtual universe, Wang Yi once again cast his eyes on the light and shadow in front of him.

"The 2000th round is still a bit difficult for me..."

Yes! Wang Yi has nearly reached the 2000 rounds!

However, because he didn't demonstrate it in the crystal pillar, but only reached 1,000 rounds and failed to meet the basic requirements of the Lord of the Universe, of course Donghe Donghe would not say it.

Wang Yi glanced around, muttering in his heart.

"Won't the original ancestor spy on me here, right?"

This is very possible.

But Wang Yi wouldn't care anymore.

"The original ancestor Tianzong Wizard, it turns out that in history, he can comprehend 6000 rounds within the prescribed time limit. It is placed in the ancient civilization. This qualification is also top-notch and can be directly inherited by the Donghe." Wang Yi was envied, "I just don't know. Can I do it."

At the beginning, the newcomers were very enthusiastic about the Rhinoceros Game, but when you really understand it, you will find... how difficult and incredible it is to see 6000 games, it's just a dream.

Compared with Luo Feng... to be honest, it's boring. Compared with the original ancestor now, Wang Yi is somewhat interested.

"It's not a problem to always hide in Luofeng's palace, I'll go out too." Wang Yi thought to himself.

then.....

"Ding! Boom!"

The previous voice echoed again in the ears of tens of thousands of candidates in the silent corridor, making them raise their heads in astonishment.

"what?"

"what happened?"

"again....."

All the immortal gods, the masters of the universe, the masters of the universe, and the strongest ones in the universe, including Luo Feng, who was shrouded in the misty light palace, all looked up.

I saw a figure condensed in mid-air.

"Broken Donghe!"

"Duandonghe has appeared again."

"The last time the Donghe Broken River appeared, it said that the human galaxy had met the requirements. Now it is the same scene with the same voice..."

"Is it me? I am the fastest in my clan to understand the Rhinoceros game, and I have already solved 899 games."

All parties are excitedly looking forward to it.

And Luo Feng frowned, wondering. "Who is it this time?"

"The candidate, Human Chaotic Source, has met the requirements for the solution." Duandong River overlooked the Scarlet Tower below. "Come out."

Wang Yi appeared and bowed slightly to Duan Donghe. "Master Dudonghe."

All the strong guys on the scene looked over and were shocked.

"Again, human again?"

"hateful!"

"I guessed it!"

"This is terrible."

"That \*\*\*\* human being, bastard, the ancestor had already told us to desperately want to win the inheritance, but now we are led by two humans."

Those strong men were angry and anxious in their hearts.

The two Allahs of the God Eye Clan were also furious. They have also seen 1000 rounds, but they didn't receive this treatment. They also guessed that it might have something to do with their own level. The Lord of the Universe and the strongest in the Universe have different requirements.

With a little finger off Donghe, I saw the misty golden palace of light and shadow enveloping Wang Yi, like a huge canopy. Looking at Wang Yi, he said: "Human Chaotic Source, you are only meeting my bottom line when you solve the game, keep working hard! The more games there are, the better..."

"Yes, Lord Duan Donghe." Wang Yi said respectfully.

Duan Donghe nodded in satisfaction, glanced around, and said: "You guys should work hard too~[www.mtlnovel.com](http://www.mtlnovel.com)~ If anyone can meet the requirements of the solution, no one can get the same treatment as the two of them." Duan Donghe disappeared. There was no sound around, but everyone looked at Wang Yi and Luo Feng with envy, jealousy and hatred.

If their eyes can turn into knives, I believe they are already riddled with holes.

"Wang Yi, congratulations." Luo Feng put away the Scarlet Tower, smiled at Wang Yi, and asked curiously, "How many games did you solve?"

"1500 rounds." Wang Yi did not hide it either.

"Awesome." Luo Feng exclaimed. He was only 1,000 rounds, and he already felt the difficulty of 1001 to 2000 rounds, and at the same time he understood that the previous guess was correct. "It seems that the Lord of the Universe and the Lord of the Universe have different requirements for corresponding difficulty."

It is clear!

Luo Feng met the resolution requirement for 1,000 rounds.

Wang Yi reached the resolution requirement for 1500 rounds.

"According to this calculation, the strongest in the universe should be 2000 rounds?" Luo Feng secretly asked. "However, Wang Yi and I are currently leading." Luo Feng was energetic.

Wang Yi and Luo Feng were talking and laughing together, but the other strong people felt uncomfortable.

Under the stimulation of Luo Feng and Wang Yi, the candidates in the Corridor of Life and Death became even more desperate to comprehend them with red eyes.

#### [Chapter 688: The third bottleneck](#)

Perhaps stimulated by Wang Yi and Luo Feng, those strong men worked harder to comprehend, and soon there will be a third candidate who has fulfilled the requirements for solving the game.

Dudonghe appeared.

"The candidate Dongdi Holy Land Jade Blood has met the requirements for the solution."

There was an uproar.

"Blue blood?"

"A Universe Venerable, actually solves the game faster than us."

Many strong people can't believe it.

The Lord of the Chaotic Source and the Lord of the Milky Way are nothing more than the masters of the universe known as the peerless genius of the universe.

This Venerable Jade Blood is unknown, how could he be so powerful?

They didn't know that Luo Feng was only the Venerable.

"It should be that the requirements for the solution are different. From this point of view, the requirements of different strengths in the inheritance of Donghe Donghe are different..." Some strong people reacted.

The morale of Dongdi Holy Land is high at this moment.

"Bi Xue, work hard, it's up to you, the ancestor is also looking at you." The Lord of the Universe of the East Emperor Holy Land treats Venerable Blue Blood differently and encourages one after another.

"Yes." Venerable Jade Blood was also very excited. Although Venerable Jade Blood is only a Venerable, he belongs to the quasi-universe master! His will is even at the strongest level in the universe... Solving the game is extremely fast, and just like Luo Feng, he has some inherent advantages.

Subsequently, in the 800th year of studying the Rhinoceros Game, the Zerg "Xueyou" in the second reincarnation era met the requirements for solving the game.

as time flows.

One candidate after another meets the requirements.

Soon three thousand years passed.

In the entire corridor of life and death, golden palaces of light and shadow enveloped a candidate, and at this moment, there were 62 candidates meeting the requirements.

Finally, the first to meet the requirements of the strongest man in the universe...the 'Devil Lord of the Treasure' of the First Reincarnation Era.

All forces understand the requirements of the different strengths of the Rhinoceros Bureau.

But it's useless for them to understand. The solution to the rhino royal game relies purely on personal comprehension and deduction ability.

Therefore, everyone has a talent bottleneck. If this bottleneck is reached, for example, a master of the universe studies the 1998 game...the game cannot be solved! Then for thousands of years, if there is no accident, he will not be able to solve the game! Because that is his limit. Unless there are some fundamental changes in his basic understanding.

However, Luo Feng made rapid progress, reaching 2000 innings in the 3000th year.

"Ding! Boom!"

As the familiar voice sounded, it resounded in the heart of every strong man. The sound of Dudonghe sounded. "I... very happy."

"Huh?" All the strong were shocked.

Duan Donghe smiled and said: "The human galaxy has broken through the second bottleneck...reaching a new level."

Wow! There was an uproar. They all turned their heads and looked over, looking at the galaxy lord Luo Feng who was about to be forgotten all these years.

Duan Donghe once again added a light curtain to Luo Feng, and at the same time explained the difference between the different levels of the game to the candidates present.

Candidates are divided into four levels by the Broken East River, which are peripheral candidates, elite candidates, core candidates, and inheritors!

The previous requirements (the first bottleneck) can only be regarded as the periphery.

If Luo Feng (the second bottleneck 2000 rounds), he is considered an elite.

The next level is the core.

To a higher level... that is directly the inheritor, without competition and selection, directly obtain the Donghe inheritance.

The surroundings were silent, and they were obviously shocked by Dudonghe's words.

Wang Yi's expression was calm.

Bro Donghe is like this, with stronger strength, naturally higher bottlenecks and higher requirements.

For immortality, the first bottleneck is to unlock 500 rounds, the second bottleneck is 1000 rounds, and then 2000 rounds...3000 rounds. If the immortality can be solved to the 3000th round, it will be directly inherited. But how incredible it is! You must know that even the strongest player in the universe present can not solve the game until the 3000th game. It can be seen that the difficulty is high.

Not to mention, there is still a time requirement. Wang Yi understands that the time of the Rhinoceros Game is three epochs.

Wanting to directly get the inheritance of Broken East River, Luo Feng had to solve the game to the 4000th game, and he got 5000 games, and the strongest in the universe got 6000 games.

"I am sure of 4000 rounds, but 5000 rounds..." Wang Yi also felt a little pressure.

And Luo Feng also tried his best.

The expectations of the human race are pinned on them.

Time is passing, and the many candidates who comprehend in the corridor of life and death are also madly burning their passion! Burn life! All wisdom, all potential, burst out at this moment! in order! Just fight for that first-line opportunity!

Because they have no choice.

The Holy Land Universe has no inheritance, at best it loses one inheritance.

And they can't get the inheritance, those three reincarnation times are over, and they are doomed to destruction.

In order to surpass the hope of reincarnation, each candidate has a great potential at this moment!

The number of candidates reaching the bottleneck is also increasing.

Watching this scene, Wang Yi also sighed in his heart.

It's a pity... they are destined to have no chance.

After Luo Feng studied the Rhinoceros Bureau for 11 thousand years.

"Wow..." Numerous cyan light spots condensed out of thin air.

Make all the strong have a spirit, and they all look up.

"what happened?"

"this....."

"Something big!"

This unprecedented vision made some candidates nervous.

But what they can't imagine is.

The countless cyan light dots fluttering like snowflakes suddenly rushed towards Luo Feng frantically.

"Boom!"

The ground behind Luo Feng suddenly cracked and a crystal pillar came out. For a while... there were three large crystal pillars around Luo Feng, and countless cyan light spots quickly condensed and turned into a palace covering Luo Feng's head.

The three-color palaces of gold, red and blue are extremely dazzling.

Luo Feng at this moment is like the emperor among the nearly 100,000 strong in the universe.

"how!!!"

"Do not!"

One by one, the strong screamed in anger, and their eyes were full of horror.

"This, this... the opportunity to transcend reincarnation... Damn~[www.mtlnovel.com](http://www.mtlnovel.com)~ Damn!!!"

A white light and shadow condensed in mid-air, turning into a dazzling Dongdong River wearing a gorgeous white armor.

Looking down at Luofeng below, he didn't have the kind of indifference and loneliness, and his expression was very vivid.

"One Era!"

"It's just one epoch, the Galaxy, you will be able to comprehend the 3000th round..."

"Even if there is a small cosmic time acceleration, the limit is no more than ten thousand times. You have broken through the third bottleneck! Unexpectedly, I can actually find a junior like you here."

Duan Donghe looked at Luo Feng, "Your aptitude and comprehension are no less than mine, anyway, at least the inheritors I can find this time... will not be worse than mine."

"Congratulations, Yinhe!"

"If you can directly reach the fourth bottleneck, they..." Duan Donghe glanced at him, "Every one is eliminated to celebrate your inheritance."

Nearly one hundred thousand strong people present were shocked.

Wang Yi couldn't help grinning.

Duandonghe is really not a good thing.

In the virtual universe, Wang Yi looked at the three-dimensional phantom in front of him, the 3999th game that had trapped him for thousands of years.

Scratching his head, the third bottleneck, he was actually a little slower than Luo Feng.

#### [Chapter 689: Wang Yi's Fifth Thousandth Game](#)

If Luo Feng broke through the third bottleneck, if it made those strong men frightened and desperate, then the human race in the primitive universe would be rejoiced when they got the news.

"Okay, God bless me humanity!"

"Luo Feng did a good job."

The master of the universe was excited about it.

Wang Yi has the Tower of Tongtian, but it is too mysterious and empty, and little information is revealed. Even the human race cannot guarantee that it will be able to transcend reincarnation with the Tower of Tongtian.

But Duandonghe inheritance is different! This is the inheritance of ancient civilization. There are detailed training guidelines, and it is very likely to break through to the strongest in the universe!

"At present, nearly one hundred thousand candidates have gathered in the Tomb Ship." The ruthless and domineering Lord of the Waste Refuge roared, "but ten thousand years have passed, and only Luo Feng can break through the third bottleneck. According to Duan Donghe, the candidate Divided into four levels, the third bottleneck, that is the core candidate, is very likely to win the inheritance."

Luo Feng, now is the greatest hope for the human race to win the inheritance.

The Lord of the Star Prison in a gold silk robe was mixed among the many cosmic masters, but there was a hint of doubt in his eyes.

Since his apprentice Wang Yi broke through the first bottleneck, there has been no movement.

Star Prison knows this apprentice's ability well, if he is not as good as Luo Feng, Star Prison would not believe him.

Luo Feng can break through the third bottleneck...Wang Yi at least has the second bottleneck.

But now this apprentice, who is more famous than Luo Feng, didn't move.

It also disappointed some of the masters of the universe who were expecting Wang Yi to explode.

And worrying about interfering with their enlightenment, no one dares to bother these universe masters no matter how impatient they are, naturally they don't know how Wang Yi's enlightenment is progressing.

Scratching his chin fluff, Star Prison murmured in his heart, wondering what this uneasy apprentice was thinking.

Virtual universe.

In the independent plane, the mist is raging, and the stone pillars bear three-dimensional phantoms.

Thousands of stone pillars surround Wang Yi.

His long black hair swayed slightly with the fiery red robe, and Wang Yi squinted his eyes and looked at the three-dimensional phantom in front of him.

A white-robed man "the original ancestor" stood silently behind Wang Yi, looking at him with a slightly strange expression in his eyes.

"It's almost 4000 rounds...Even if there are tens of thousands of times the time to accelerate, it is only an era in the outside world, too enchanting." The original ancestor was also a little shocked.

He is conceited as a wizard, and no one in the original universe, including the universe, can be seen by him.

But now there are more monster-like geniuses, Wang Yi and Luo Feng.

"Luo Feng resolved to 3000 rounds, and Wang Yi was also about to break 4000 rounds... But one is the venerable and the other is the lord of the universe." The original ancestor pondered.

He didn't know who was better.

Because every thousand rounds is a new threshold, the difficulty is extremely soaring.

1001 rounds-2000 rounds is a threshold.

2001 rounds-3000 rounds is another threshold.

3001 rounds-the threshold of 4000 rounds is naturally higher!

The original ancestor himself had studied it, and of course he understood it very well. It seems that Luo Feng is the first to break through the third bottleneck, but Wang Yi's understanding is actually more difficult.

"but....."

The original ancestor's eyes appeared gratified.

"No matter what, our human race has these two peerless geniuses, and there is great hope in the future."

The original ancestor was permanently suppressed by the Primordial Universe, and now we can only count on Wang Yi and Luo Feng.

Year after year passed.

Every thousands of years in the corridor, it is difficult for a strong person to break through the second bottleneck.

As for breaking through the first bottleneck...there is no more.

Just as Wang Yi had expected, obviously the large number of immortal gods and cosmos venerables who could not break through had reached their limit, and they would not be able to break through any more time.

Venerable Jade Blood! It is second only to Luo Feng to break through the second bottleneck.

Lord of Water Song!

Lord of Deer Bugs!

Xueyou!

Lord Yozan!

The Lord of Witchcraft!

...

One by one, candidates who broke through the second bottleneck appeared.

But Wang Yi always sat calmly in front of his crystal pillar.

Even he was almost forgotten.

Only the original ancestors who control the virtual universe and know Wang Yi have some expectations.

Whether it is Wang Yi or Luo Feng, as long as anyone can get out of the siege, the human race can win the inheritance!

And other forces are desperately trying their best to race against time.

They just hate that there is not enough time now!

Time does not stay for anyone, it is still passing by mercilessly.

Twenty thousand years have passed.

28000 years, 28500 years, 29000 years...

As the final boundary of the three epochs approaches, all parties are anxious and worried, worrying that the Nalu Summit will not really break the fourth bottleneck.

However, Wang Yi "slowly" broke through the second bottleneck after the 20,000th year passed, but in the eyes of others, it is far less threatening than Luo Feng!

It took 20,000 years to break through the second bottleneck! And ten thousand years to break through the third bottleneck! Is this comparable?

Human Luo Feng, now is the big threat in the eyes of all parties!

Even midway, the Lord of the Universe went mad and attacked Luo Feng. The result... was only slightly shocked by the three-color palace, and it was directly annihilated and turned into fly ash.

Wang Yi is much cleaner, no one will bother him.

And Wang Yi also turned a blind eye to things outside the window and put all his energy on the Rhino King Game.

He wanted to know where his limit was and whether he could break through the fourth bottleneck!

In the 4000th game, Wang Yi had already made a breakthrough when he was studying the Rhinoceros game for 15,000 years!

But in the past 30,000 years, he has only realized 4895 rounds!

But Wang Yi already felt strenuous.

Although this progress has shocked the original ancestor who was observing secretly, because this was done by a master of the universe, it was enough to prove Wang Yi's potential. But Wang Yi was still not satisfied.

His goal is the 5000th game!

"Duandonghe said that the fourth bottleneck can directly become the inheritor, which is the standard of true peerless genius in ancient civilization!" Wang Yi had craziness in his eyes. "The original ancestor can realize the fourth bottleneck in three epochs! Am I not as good as the original ancestor!?"

Wang Yi was unwilling to admit defeat.

Although he is the lord of the universe~[www.mtlnovel.com](http://www.mtlnovel.com)~, the original ancestor is the strongest in the universe, has a small universe to assist in comprehension, and has cultivated endless years...but Wang Yi is not without advantages.

He has a tower of Tongtian, he has a sea of laws, and a flow of secret patterns... Generally speaking, he and the original ancestor are actually on the same level.

The original ancestors can do it! Could it be that he can't.

It's just that Wang Yi, who was caught in the devil, forgot that the original ancestor had one of the biggest plug-ins, and that was the virtual universe...

Virtual universe! Can assist the original ancestor to enlighten! The deduction efficiency is extremely terrifying!

And Wang Yi can only rely on himself!

What he thought was fair, but it was not fair at the beginning.

Perhaps it was also forgotten by Wang Yi intentionally or unintentionally.

As 30,000 years approached, Wang Yi became more and more crazy, as if a string in his mind kept tightening...

Wang Yi's will, practising the secret method of will-enhancing the "Heiwen Stone Pillar Inheritance", is currently at the limit of the strongest in the universe, and it is only one step away from the Void True God.

And now, with his madness, the will continue to condense and soar... Gradually, an invisible membrane was broken.

boom! ! !

Wang Yi's will has stepped into the realm of the Void True God!

[Chapter 690: 30,000 years, the Rhinoceros Bureau ended](#)

A master of the universe, in just over 100,000 years, possesses the will of the Void True God!

Let alone Wang Yi truly cultivated to the Lord of the Universe, only tens of thousands of years have passed.

In other words, after becoming the Lord of the universe, it took him tens of thousands of years to reach the will of the Void True God!

If it were in ancient civilization, it would be an incredible achievement.

This is amazing! ?

However, Wang Yi is too late to be happy, instead betting all his mind on the game of comprehending the rhinoceros emperor.

The original ancestor didn't find it at this time, because he was also comprehending the Rhinoceros Bureau.

Because Wang Yi's progress slowed down before, the original ancestor judged... Wang Yi has reached the limit, and it is estimated that he will not be able to break through the fourth bottleneck within the time limit!

So, no longer take time to pay attention!

The same goes for Luo Feng!

After Luo Feng broke through the third bottleneck, which was the third thousandth round, his progress was slow.

Although the 3890th round has been realized so far!

But it was almost three epochs, and it was too late.

Wang Yi's eyes were blazing brightly.

He even no longer cared about the inheritance of Duandong, but focused all his attention on the Rhinoceros Game.

His efficiency, who had been slow in comprehension over the years, suddenly became more efficient.

4900th round...4950th round...4999th round...

Almost in one go!

If the original ancestor sees it, he will definitely doubt his eyes!

This is too ridiculous!

In the past, after 4,500 rounds, Wang Yi's speed in comprehending and solving rounds became slower and slower, and even for decades, he might not be able to solve one round.

But now, it took less than a month to crack from 4895 rounds to 4999 rounds!

Only one step away from the 5000th round! ! !

"I can succeed!"

"I will succeed!"

There was a terrifying light in Wang Yi's eyes, it was an absolute madness.

If a person pursues a goal with all his heart, the potential that bursts out is terrible.

Wang Yi is now completely immersed in the world of the Rhinoceros Game. If he is just a layman at the beginning of the research on the Rhinoceros Game, he can study with the passage of time, sharpened his will, and improve his comprehension. After many reasons, Wang Yi Very obsessed, obsessed with the study of the Rhinoceros Bureau.

In reality, the life and death corridor of the Tomb Ship has changed again.

"The blood of the East Emperor's Holy Land has broken through the third bottleneck." The same countless cyan light spots landed, extremely dazzling.

The Dongdong River came in person.

"My inheritor, I'm afraid that only you can compete with Yinhe. The other candidates...unless there are successive transformations." Duan Donghe looked at Venerable Jade Blood, "Go hard, don't give up easily."

The other candidates in the corridor can only watch and feel helpless.

The core candidates who can break through the third bottleneck are currently the only human Luo Feng in the primitive universe and the Jade-blood Venerable in the Eastern Emperor Holy Land!

No one knew that there was a master of the universe, who had already comprehended the 4999th game, was far ahead, and stepped on everyone else, including the strongest in the universe.

Just one step away, he can directly become the inheritor and win the Donghe inheritance.

In the three reincarnation eras of the universe, the two holy land universes, the giant axe of the human race, and the anxious waiting of the chaotic city lord, the three epochs have finally come to an end.

Luo Feng opened his eyes and let out a sigh of relief. He had just finished the 3911th game in the end. This was already an extraordinary performance. After all, it took him more than an epoch to break through the third bottleneck. It is indeed too difficult to break through the fourth bottleneck in the past two epochs.

The strong men of the human race in the primitive universe stayed together. When he thought of something, he turned his head and glanced at Wang Yi next to him, and found that he also opened his

eyes at the same time, with a strange smile on his face, full of strange magic, so He couldn't help but be in a trance for an instant.

"At the end of the Three Era, the Rhinoceros Bureau screening is over."

"294 have broken through the first bottleneck."

"6 people broke through the second bottleneck."

"Two people broke through the third bottleneck."

The Duandong River overlooks the slow road below.

"Wang Yi just broke through the second bottleneck." Luo Feng frowned slightly.

He didn't believe it. After all, Wang Yi's enlightenment speed was much faster than him before. And Wang Yi's performance has always made Luo Feng look up.

But at this time, he actually surpassed Wang Yi?

"Wang Yi, what is he doing?"

"Even if he wants to hide, he shouldn't be at this time." Luo Feng felt incomprehensible. At the same time, I was a little impatient. "I said before breaking the East River. The more players there are... different levels, the subsequent contact and inheritance are naturally different. That is to say, the third bottleneck will definitely have an advantage later than the second bottleneck, and it will be easier to win. inherited."

Duan Donghe has always said that there is really a fundamental difference between the number of games solved, and even if there are too many games to a certain extent, the inheritance can be directly obtained. All other strong players are considered to be eliminated and failed!

Luo Feng didn't believe that Wang Yi would be so short-sighted.

So, is Wang Yi really unable to crack more rhino game?

Luo Feng can only think so.

While Luo Feng was meditating, the strong underneath had already begun to cry anxiously.

"Master Donghe, give us more time."

"I'll wait for them to come later than the Galaxy, we should still have time!"

"Yes, give us some more time."

They were all flustered.

If you don't even break through the first bottleneck, you can only be eliminated, and elimination is annihilation!

And the ones who can break through the bottleneck on the scene are only in their early 300s in total!

Nearly one hundred thousand candidates, only three percent!

Others all want the divine body to be killed!

Although souls and clones are not involved, many strong people can survive... But if you lose the qualification to compete for inheritance, it is better to let these strong people die.

Duan Donghe remained indifferent and ignored the requests of these losers as always.

Even the first bottleneck cannot be reached, and it is of no value to him.

Duan Donghe didn't even bother to talk nonsense and waved his hand directly.

Wow!

The crystal pillars in the entire corridor of life and death burst directly with golden light~[www.mtnovel.com](http://www.mtnovel.com)~ The golden light could have formed a palace, but it could also attack...Wow...Countless light spots attacked those strong, one In the blink of an eye, the nearly 100,000 strong people present instantly annihilated and turned into flying ashes, leaving only the last 302 survivors.

Among them, Wang Yi, who broke through the second bottleneck, secretly shook his head watching this scene.

"This Broken Donghe is really cruel. It's just that the Rhinoceros Bureau hasn't started contacting the real inheritance, and those who fail have to be killed. This is actually meaningless for Broken Donghe."

Perhaps... this is also a warning, making other candidates more determined.

But Wang Yi had some expectations in his eyes. The Rhinoceros Game... was finally over, and the next step was to start contacting inheritance. The legendary Duandong River is inherited from one line!

It was also his real goal this time...the space for inheritance of the Donghe lineage!

Virtual universe.

In an independent space, with fog and fog, Wang Yi has already left.

The white-robed man "Original Ancestor" just finished his sixth thousandth round, and he came to Wang Yi's stone pillar and fell into a long silence when he looked at the 5000th Rhino Emperor round within that crystal pillar.
